

The Campbell Visitor

VOL. 9, No. 34

CAMPBELL, SANTA CLARA CO., CALIFORNIA, JANUARY 30, 1904

\$1.00 A YEAR

LOCAL NOTES.

Fresh line of Jelly and Jam at Putnam's.

C. H. Whitman is building an addition to his house.

Rev. B. F. Kephart spent the week in Pacific Grove.

Col. Cooper is able to be at the bank again, after a severe illness.

Every property owner should be represented in the VISITOR'S special edition.

W. H. Swope has been confined to his room by illness the greater part of this week.

G. M. Robson and John Morton go to Southern California by steamer Sunday morning.

Miss Bracher went to San Francisco Thursday after a stay of several months in Campbell.

For rent, nice furnished room, with running water. Enquire of Mrs. M. J. Wilson, Campbell avenue, Campbell.

Some of the family of the Rev. W. L. Beacock have had the measles but at last accounts were improving.

Mrs. G. M. Robson and little daughter will go to San Francisco to-day to spend a week or so visiting friends.

Mrs. M. J. Wilson has resumed dressmaking. Saturdays excepted. Patronage both old and new respectfully solicited.

The Supervisors and officials of the Interurban electric road went over the new line yesterday and found everything in fine shape.

Mr. Archibald of Soquel has been visiting this week with his son H. V. Archibald, and his brother, C. B. Archibald of Cypress avenue.

The Supervisors have appointed Jack Toomy of Santa Clara as constable to fill the vacancy caused by the death of his brother, Dan Toomy.

The Woman's Guild of the Congregational church were very successful with their bean supper Thursday evening. The bill of fare was much enjoyed by the large number of patrons.

Mr. and Mrs. J. F. Jenness entertained the younger members of the M. E. church and League

and the choir at the parsonage Thursday night. Each guest came representing some book, and the problems thus offered was most agreeable entertainment. Miss Lizzie Sargent and Miss Martha Jenness each guessed twenty-four of the thirty-two books presented. Refreshments of orange sherbet and wafers were much enjoyed. Mr. John Morton sang twice giving much pleasure to the assembly.

CONGREGATIONAL CHURCH.

REV. GEO. E. ATKINSON, Pastor.

We are always glad to see strangers at our services. We should be pleased to welcome you and to have you worship with us. Feel free to make this your church home. You will find our meetings bright, brief and brotherly. Services every Sunday morning and evening. Sunday School after morning service and Endeavor just preceding the evening service. Our midweek service is Wednesday evening. "Come thou with us and we will do thee good."

There will be a missionary concert at the Congregational church next Sunday evening, the C. E. and church services being combined. The general theme will be "Every Christian a Missionary." A Company of Christian Endeavor "Sharpshooters" will be present. An able program has been prepared which is in part as follows:—

1. The value and meaning of the Quiet Hour in Christian Life.
 2. There are not two classes, Missionaries and not Missionaries, all are sent. "Ye are my witnesses."
 3. Paul says "Ye are not your own." If so then our lives are given as a trust; how should that effect our lives?
 4. "Ye are Christs and Christ is yours." If so, then we cannot live with him and not be changed. "Christ is the Moulder of Character." Is it true and how?
 5. "For me to live is Christ." What then should be the "Rule of our Daily Life?"
 6. The crowning commission of Christ from the Mount of Ascension is of supreme significance. How can we translate into action our love for him?
- You are all most cordially invited to join with us at this service, Sunday evening at 6 P. M. And to worship with us at any or all of our services. You will find them bright, brief and brotherly.

METHODIST CHURCH.

REV. J. F. JENNESS, Pastor.

The following services will be held next Sunday:
10:15 a. m. Class meeting.
11:30 a. m. Morning worship.
12:15 p. m. Sunday-school.
6:30 p. m. Senior and Intermediate Leagues.
7:30 p. m. Evening worship.
A cordial welcome will be extended to all these services.

Next Sunday will be Decision Day and the aim of all the services will be to bring those who are not Christians to the point of deciding to live for Christ. Decision cards will be distributed to all, members of the church included, and those who are not already professing Christians will be invited to sign them. The invitation, however, will be general, and no individual will be singled out in such a way as to embarrass him and make him wish he had remained away from church.

The Epworth League meeting will be led by Miss Della Archibald. The theme will be appropriate to the purpose of the day. The Intermediate League will be led by Merle Lloyd.

A Little of Everything.

Alaska is becoming more valuable every year. She now supplies half the salmon of the world.

The most costly government publication in the world was the last annual report of the Secretary of Agriculture. It cost \$220,000 to print it.

The new republic of Panama has an area of 32,380 square miles, and is therefore nearly as large as the state of Maine. Its population is about 285,000.

Among the floral gifts to the members of the new Congress was one to Representative Baker of Brooklyn, which bore this inscription, on a card attached, "To the anti-pass Congressman from his admirers throughout the United States." Mr. Baker enjoys the distinction of being one of the few members of Congress who pay their fare.

She—You used to enjoy walking.
He—Yes, I did until I got my automobile; now I get too much of it.—Yonkers Statesman.

Subscribe for the VISITOR.

CAMPBELL

(THE ORCH 'RD CITY)

Lies 50 miles south of San Francisco on the Santa Cruz division of the Southern Pacific Railway, 5 miles from San Jose, in the famous Santa Clara Valley, the garden spot of the State.

SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheatre is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a (third class) post-office which distributes mail to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational—a first class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University with its marvelous architecture is only 20 miles away.

NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

MINERAL SPRINGS

The hot springs of Alum Rock Canyon and Congress Mineral Springs are within two hours' drive, giving a panoramic view of the entire valley.

The Almaden Quicksilver Mines, the largest in the world are within easy access by rail or team.

The largest seed farms in the world only 10 miles distant.

FRUIT CENTER

Campbell's mammoth fruit dryer and packing house is the largest in the world. It has a capacity of over 10,000,000 lbs.

The Campbell Orchard District is noted for the quality of its fruits. For delicacy of flavor and beauty and perfection of color, its cherries, apricots, peaches, apples, plums, grapes and pears, have no equal in their fresh state, and command the highest market price. As cured or dried fruit the Campbell prune, apricot and peach is shipped to every civilized country on the globe. Nearly one-half of all the prunes grown on the continent are from Campbell orchards. One and a half million cans of fresh fruits are packed in Campbell every season.

The demand for intelligent labor is increasing every year. Families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

LAND VALUES MODERATE

Land values are very moderate—bare land brings from \$100 to \$300 per acre and when set to trees sells from \$200 to \$1,000 per acre, according to location and age of orchard. Ten to fifteen per cent is an average net income, while many places yield a much higher rate.

In short a Campbell home is one surrounded with HEALTH, WEALTH AND PLEASURE.

For literature and particulars, address HURLBERT & KENNEDY, Campbell, Cal.

Obituary.

Died—In Berkeley, January 23, 1904, Mrs. Lucy Amanda Tibbetts, wife of Horace A. Tibbetts and mother of Sidney and Fred Tibbetts, aged 48 years, 11 months and 17 days.

Lucy Amanda Arnold was born Feb. 6, 1855 at Dartford, Wisconsin. She was educated at the State Normal school in Oshkosh, and taught in the High School at Fort Atkinson. She was married to Mr. Tibbetts May 7, 1879. They came to California in 1892, living at Campbell until July of the past year, when they removed to Berkeley.

Mrs. Tibbetts was taken with pneumonia while nursing her son Sydney through an illness, and in a very short time became delirious, not regaining consciousness before her death. The disease was rapidly fatal, her system being weakened by a recent attack of malaria.

After her death it was found that she had several years ago written out explicit directions as to the disposal of her remains, and in accordance with her wishes, the body was cremated.

The funeral was held at the Methodist church in Berkeley of which she was an active and useful member. Her pastor, the Rev. C. K. Jenness, spoke of her life in Berkeley, of her great helpfulness in church work. Since she had been in his church she had been of great service to him by helping with the church books, and playing for prayer-meetings. Two of her former pastors were present, the Rev. Wm. Angwin and the Rev. J. H. Wythe. Both of these spoke in warmest terms of her self-sacrificing labors for the church.

A quartette of singers sang her favorite hymns, "Some Sweet Day," "When the Mists Have Rolled Away" and "God be With You."

The remains were taken to the Oakland Crematory, where appropriate services were had in the chapel. After cremation the remains were to be placed in the Odd Fellows' Cemetery vault at San Francisco.

The pall bearers were C. B. Archibald, W. H. Blodgett and E. C. Hurlbert and Mr. Britton of the Willows.

A very beautiful floral piece was sent up by friends in the Methodist church here.

It would be difficult to overstate the sorrow of her friends

at her unexpected taking off. She had a way of keeping friends once made, which made her circle a very wide one. And all these friends are keeping in remembrance some act of exceeding thoughtfulness and kindness which she had sometime done for them.

Her services to her church here are inestimable. She was for many years the church organist, the secretary of The Ladies' Aid and a Sunday School teacher. In all these her Methodical faithfulness made her work of a peculiar value, and her place impossible to fill.

She was also a woman of highly cultured mind, and her companionship was something to be coveted. Her wide knowledge gained by careful reading made her conversation delightful and inspiring. Her loss will be felt for many years. Sympathy for her loved ones is deep and sincere.

For California Magazine.

The second number of FOR CALIFORNIA, the monthly publication of the California Promotion Committee has just reached this office. An interesting feature of this number is an original serial entitled "The Brown Family in California," in which is related how a New England family, the husband, wife and four children came to California. The first chapter of the story besides containing valuable information as to cost of the journey to California, is full of human interest and a bit of romance runs through the tale.

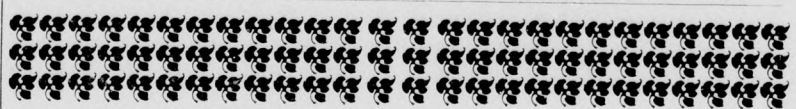

Each succeeding number of FOR CALIFORNIA will tell what the Brown family accomplished during the month preceding the issuance of that number. The serial will be possessed of fact and full of interest and lively suggestions. Other valuable features in the January number of FOR CALIFORNIA are "What California has done for Civilization," by David Starr Jordan, President of the Leland Stanford Jr., University, "The Most Desirable City in Which to Live," by former Mayor James D. Phelan of San Francisco, "California Delicious Fruit Shipping" by Hon. Alden Anderson, Lt. Gov. of California, and manager of the California Fruit Distributors.

NOTICE TO CREDITORS.

ESTATE OF WESLEY INGELS, Deceased. Notice is hereby given by the undersigned executrix and executor of the last Will of Wesley Ingels, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit the same, with the necessary vouchers, within ten months after the first publication of this Notice, to the said executrix and executor at the law office of R. R. Syer, Rooms 3 and 4, Bank of San Jose Building, No. 6 North First Street, in the city of San Jose, county of Santa Clara, State of California, the same being the place for the transaction of all business pertaining to said estate.

San Jose, this 18th day of January A. D. 1904.
 JANE INGELS,
 OSCAR L. INGELS,
 Executrix and Executor of said Last Will of Wesley Ingels, deceased.
 R. R. Syer, Attorney for Executrix and Executor.

CORN IS HIGH!

Canned corn is very high—ranges from 12½c. to 20c. can. If you must have corn—we have it to sell. But we also have two good substitutes:

Pyle's Fancy String Beans and
 Pyle's Sugar Peas
 Only

10 Cents Per Can

These goods are first-class in every respect—raised and packed in our own county. There is nothing better put up in the State.

Pyle's Tomatoes are fine—ask for the BERRYESSA BRAND—you are sure to like them—10c., 3 for 25c.

Ainsley's Extra Solid Packed Tomatoes—2 cans 15c., 7 for 50c.

FARMERS UNION

SUMMONS.

IN THE SUPERIOR COURT OF THE State of California, in and for the County of Santa Clara. Alida M. Wise, Plaintiff, vs. G. W. Wise, Defendant. Action brought in the Superior Court of the State of California and for the County of Santa Clara, and the Complaint filed in the office of the Clerk of said County of Santa Clara.

The people of the State of California send greeting to G. W. Wise, Defendant.

You are hereby directed to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this summons, if served within this County, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the Complaint as arising upon contract, or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 6th day of January, A. D. 1904.

{Seal.} HENRY A. PFISTER, Clerk.

LOCAL NOTES.

Several of our citizens went to Berkeley Tuesday to attend the funeral of Mrs. Tibbetts; among them were C. B. Archibald, W.H. Blodgett and E. C. Hurlbert who were to be pall bearers. A beautiful floral piece was sent up from members of the Methodist church here, where her rare gifts of mind and heart made her a leader in good works. During the ten years or more of her residence here she was untiringly faithful in her labors for her chosen church. She was a delightfully companionable woman and won for herself friends in every quarter. Her sudden death is a great grief to all who knew her here.

The lecture by Prof. Tillman, "Other Worlds than Ours" given for the High school at I. O. O. F. hall last Monday night was greeted by a large audience. The lecture was profusely illustrated with stereopticon pictures of the planets, which with the clear descriptions of the lecturer, gave the audience a very good idea of the other worlds. The eagerness with which the people avail themselves of the opportunities of culture afforded by good lectures is a great encouragement to their promoters.

The next event in the High school course is the concert in charge of Mrs. Spencer-Hartman which was to have been given last night but is postponed until Friday, February 5th, on account of the sickness of Mr. Georges. The program prepared is most excellent. Mrs. Hartman will be assisted by Egbert Georges of San Jose, by Mrs. Daisy Gates, Miss Letitia Archibald and a male quartette consisting of Messrs. Powers, Morton, Hartman and Clendennin.

- 2nd Meeting in August. Annual meeting—Election of officers.

Just the Place for the Home.

The Santa Clara county Independent Order of Odd Fellows deserves the hearty encouragement of every resident of this valley. Under discouraging conditions that would influence less determined spirits to abandon the job, they are pursuing their search for water on the White tract, without this much desired necessity the long hard fight that Santa Clara county I. O. O. F. have made for the Odd Fellows' Home will have been in vain and the home will be taken elsewhere and another and more desirable place in the county can be found. With the completion of the Los Gatos Interurban road transportation will be offered to another part of the valley where water in abundance can be had at a nominal cost. It would seem policy and economy to transfer the home sight to that locality rather than lose it.—Santa Clara Journal.

We got the constable like the chicken got the axe.

The affairs of the Cured Fruit Association which have dragged along for such a time were brought to a close Monday of last week when Judge Hyland gave judgment to the liquidators in the case of the Association vs. Childs, et al. This judgment gives the liquidators power to wind up the association, realize upon its assets, pay its debts and expenses of liquidation and divide the residue of its money among its members. The judgment also declares all the acts of the directors valid, and relieves them of further responsibility.

California was the first State to make use of crude petroleum in improving roads, says an article issued by the California Promotion Committee. The experiment was tried in 1898, when six miles of very dusty road were oiled under the direction of the Board of Supervisors of Los Angeles county. That the use of oil for this purpose was highly practicable was soon demonstrated by the condition of the road, which had been sprinkled. The original motive was to lay the dust, which had become a serious hindrance to travel and had made life a burden to all those dwelling along the highway. In addition, considerable areas of vegetation on both sides of the road had been totally or practically destroyed by the settling dust.

There are now at least twenty-five counties in California which have used crude petroleum upon their roads, while experiments have been made in Colorado, Texas, Indiana, Pennsylvania, and the District of Columbia. From the Mexican border of San Diego county to Butte county, about 500 miles to the north in a straight line, in soils of various consistencies and through regions of widely different climatic conditions, mineral oil has been used upon country roads and city streets until there are, it is estimated, more than 950 miles of oiled roads in California. Oil has been used upon the driveways in Golden Gate Park, San Francisco. The mountain stage road into the Yosemite National Park has been oiled for a distance of thirty miles, while in San Bernardino county, running south from the railroad track in the town of Chino, is a piece of oiled road which every season nearly 40,000 tons of sugar beets are hauled on their way to the factory, often averaging 750 tons a day. The foundation of this road is a loose sand and before oil was applied loaded wagons were often stalled and had to be dug out. The road was surfaced with a material containing some clay. Now, after being subjected to oil for three seasons, it is as easy to drive over as a city street, and although the majority of wagons used upon it have narrow tires, it effectually sustains the heavy travel. The utility of the oil was noticeable after its first application, but the surface stratum grew constantly thicker and firmer, until the road is practically perfect.

State Board of Trade.

The State Board of Trade is strongly endeavoring to inform the world concerning the resources and advantages of California. This is evidenced by the fact that in a recent issue of the San Francisco Call, on a page especially devoted to making California known, there appear two articles from the pens of men identified with the Board—who are largely interested in State development, viz: Gen. N. P. Chipman, president, and C. M. Wooster a director. President Chipman's theme is the climate of California as an asset. He makes the statement, which no thinking man will controvert, that "the matchless climate bestowed upon California, is an asset of greater money value to the State than the combined wealth of all its present inhabitants."

Gen. Chipman clearly shows, by a table, that the northern and central counties are not less desirable climatically than those counties that lie south of Tehachapi. He says:

"It is unchanging. As far back as we have any recorded history, and behind this, embracing traditions coming through the early Mission Fathers, we learn of the same quality of temperature, the same balmy atmosphere, the same luxuriance of vegetation. Our soil may require renewing by fertilization, but our climate is as constant as the sun. The conditions which have produced the result are, themselves, unchanging and so must be the result."

C. M. Wooster, comprehensively tells of the State's water courses and irrigation systems and of their possibilities. One particular statement will attract the attention of all readers:

"Three million acres in wheat and barley, nonirrigated, last year produced commercially \$22,000,000 while the product of 300,000 acres of irrigated land sold for \$30,000,000—a very great contrast."

The State Board of Trade is sending out thousands of copies of such articles, relating to California's real opportunities to home-seekers. These will later be combined in bulletins and pamphlets for wide distribution. The result must be largely beneficial.

Laugh With Us.

"The young man who stays late when calling on a girl," remarked the observer of events and things, "should remember that catching a fish and catching a girl are two different operations. Don't try to tire the girl out before catching her."

"Yes," said the old inhabitant; "we thought we'd ought to do something nice for Bill after his funeral. He only had one fault. He couldn't tell the truth."

"What did you do for him?"

"Carved a little motto that his friends would understand—'Let him lie in peace.'"

She—When is your brother coming down to see you?

He—Well, I can't tell the exact date. You see, he's working on an airship, and as soon as he gets it finished he'll come down all right.

"Don't you remember me? I was in your class in school," said the enthusiastic girl, meeting an old friend while shopping.

"Oh, yes," said the haughty one, adjusting her lorgnette, "but you're in a different class now."

WANTED—FAITHFUL PERSON TO TRAVEL for well established house in a few counties, calling on retail merchants and agents. Local territory. Dr. P. C. Hartman, DENTIST.

Graduate Dental Department of the University of California.

Up to date work at reasonable rates warranted

HEALTH

"I don't think we could keep house without Thedford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in my house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakened kidneys

No DOCTOR

is necessary in the home where Thedford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Thedford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhoea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.

Prunes Advancing in Price.

The Executive Committee of the Prune Growers' Association held a meeting Saturday afternoon with a full attendance. Reports of what had been accomplished in this valley and information gathered as to the state of the markets greatly encouraged the members. The people are generally, and in fact almost unanimously falling in line with the plan of the committee and agreeing to stand in with them to maintain the price of prunes.

As a result of the efforts so far made, there is already manifested a much stronger feeling in both the domestic and the foreign markets, and offers are not only more numerous but higher than they have been for some weeks past. As much as 2½ cents has been offered growers in this valley, but so far as known to the committee, none of these offers have been accepted. The same parties who were offered 2½ cents and refused it, were ten days ago about to sell it for 2¼ cents. The difference between these prices on the crop remaining in the valley would be over \$100,000.

Pressure is being brought to bear on growers by packers who have not the goods to deliver to draw out from the growers enough to fill orders from the East, thus having a tendency to break the market. It was the unanimous opinion of the committee that it would be detrimental to the best interests of all for growers to sell at prices such as these packers are willing to offer.

A noteworthy feature of the situation is the fact that not only individual growers but concerns like the California Fruit Exchange, Santa Clara Fruit Exchange, Sorosis Fruit Co., and all the packers who have any considerable quantity of prunes, are also standing in.

The committee is advancing money to any growers who are obliged to realize on their prunes at once, and will continue to do so as long as there are those who need to dispose of their fruit now. By taking this fruit the committee is able to save it from being used by packers who would buy it to break the market, and thus the general good of the fruit growers' interests is conserved. —Mercury.

Allen's Boston Brown Bread Flour.

A Little of Everything.

The stock of the Pie Trust is said to come under the head of indigested securities.

About 45,000 Americans have immigrated into Western Canada this year. They are nearly all Western Farmers.

Senator Teller says that the haste with which our government recognized the Republic of Panama was "positively indecent."

Speaker Cannon, perhaps for the first time in his life, read a written speech in the Republican caucus. After finishing it he said "There I have finished my newspaper speech."

Chicago and Boston are the hot beds of Socialism in this country. In each city about one tenth of the voters belong to the socialist party.

In New Zealand, which is the nearest approach to a socialist state in the world, one man in every six is in government employ or receives a pension from the government.

It is said that English girls will petition Mr. Chamberlain for a protective duty on American heiresses, and for preferential marriages between home and the colonies.

Representative William Randolph Hearst has already distinguished himself in Congress. He received the largest bunch of flowers of any member of the House at the opening of the session.

Delegate Prince Jonah Kuhio Kalaniana'ole of Hawaii is a conspicuous member of the House of Representatives. The reading clerks are a little nervous, however, when they have to pronounce his name.

The New York physician who advertised to pay \$5,000 for an ear which he intends to graft on one of his patients, received 600 offers. He will make a selection in a few days. This appears to be a case for the Society for the prevention of cruelty to Animals.

According to the statement of President Gompers at the annual convention of the American Federation of Labor, the Federation has gained 442,000 members in the last year. This brings the total up to 1,465,000. The socialists are working very hard to win the Federation over to their party.
