A DIAMOND

The possession of a Diamond brings a joy such as few, if any other articles can. Possibly this is due to the realization of the great value within a small compass, as well as its beauty and brilliance.

Buying from us you obtain the highest value possible. American visitors purchasing here make a considerable saving, owing to the fact that there is no duty on Diamonds entering Canada.

FORT STREET TANGLE AGAIN

STREETS COMMITTEE TRY TO UNRAVEL THE KNOT

Owners Between Yates and St. Charles Urge Work Be No Longer Delayed

The Fort street widening scheme was in the limelight at last evening's meeting of the streets, bridges and sewers committee of the city council. A large delegation of property owners on the section running from Yates street to St. Charles was present to urge that the widening of that section be not undertaken, and the city solicitor, F. H. McLaughlin, on the general scheme of widening the lower section of the thoroughfare, reported to the board the fact that it would be necessary to determine a legal point which has arisen.

In the first case, that presented by the owners on Upper Fort street, it was decided after a lengthy debate that the petition praying for the paving to proceed without regard to the petition asking for the widening should be favorably considered, and the advice of the city solicitor was adopted on the latter point.

Wm. Humphrey, one of the owners, blamed the council for not having proceeded with the work of paving. In April last a numerous signed petition had been sent in for the paving of the street, as it exists between Yates and St. Charles streets and in May the council decided that the work should be done. It was regularly advertised and the by-law prepared, but no tenders called until just recently. He believed that the matter had been delayed intentionally by some one.

Mayor Morley took exception to Mr. Humphrey's statement of belief that the work had been delayed designedly, and appealed to the city engineer to know if he had ever been given any instruction not to go on with the work. The city engineer replied in the negative.

Alfred Banerman explained that the council had held up the awarding of the contract because it had been led to believe that the owners would change their minds and decide to come in under the widening scheme, which, it had been stated, would be welcomed by the owners from Douglas street to the city limits.

Every member of the deputation agreed that the owners were a unit against the proposal to widen that section of Fort street.

Ex-Judge Eli Harrison made a lengthy speech in which he protested against the evident intention of the board to make Fort street a trunk thoroughfare to the eastern boundaries of the city. In his opinion it would be far more feasible to utilize Pandora avenue for handling the heavy traffic bound east and west.

H. W. R. Moore, of Barnard & Robertson, solicitors, said he had been instructed to present a petition from ten owners on the section running from Yates to St. Charles street. All the other owners would sign. In his opinion, as the board had no concrete proposition before it for the widening of that section of Fort street, it had no alternative but to grant the prayer of the petition that the paving work be gone on with.

Mayor Morley took the position that it would be impossible for the council to go ahead with the paving until it was known how many were for and how many were against the widening scheme. As it was at present, the board had only one side of the question before it.

Mr. Humphrey contended that as a majority of the owners wanted the paving alone, the board should not hesitate to act.

The mayor retorted that the board was free to decide what was simply a matter of policy.

Wm. Bryce said that if this was the opinion of his worship, they should go ahead and pay for the widening out of general rates.

The city solicitor said that in the event of the paving being laid the widening scheme could not be taken up for the next ten years—the life of the pavement.

Wm. Bryce reminded the board that the residents along the section of Fort street mentioned were opposed to the widening scheme, mainly because they did not want the heavy traffic that would flow along a trunk road.

Mr. Humphrey expressing surprise at the mayor's attitude, his worship said that as far as he was concerned if he had his way he would not hesitate to order the widening to be proceeded with.

Mr. Humphrey—Thank the Lord you haven't got your own way. (Laughter.)

After some further debate it was decided to give every consideration to the request of the deputation, the members of which left believing that the paving work will be commenced within a very short time.

The letter from the city solicitor, in respect to the legal difficulty which has been encountered in regard to proceeding with the widening of the lower section of Fort street, read as follows:

In this matter I regret exceedingly having to report in my opinion the whole scheme of the widening of Fort street is beyond the jurisdiction and powers of the city council.

In 1904 a local improvement sidewalk

by-law was passed for the construction of a sidewalk on the north side of Fort street from Douglas street to Blanchard street, and on both sides of Fort street from Blanchard to Oak Bay Junction. This by-law has four years yet to run.

I am of the opinion that this fact gives the property owners all the way up the street a vested interest in the maintenance of the sidewalks by the city, in the shape that it was put down, during the estimated lifetime of the debentures. It also gives the debenture holders an absolute charge upon the properties in the shape that they were in then, and the city has no authority to interfere with the size and shape of the lots.

If this is the case, it naturally follows that unless with the unanimous consent of the holders of the debentures and of the property owners interested, no change can be made in the sidewalk during the lifetime of the debentures. So far as the debenture holders are concerned this might be gotten over by the consent of the lieutenant-governor-in-council. So far as the property owners are concerned, I am of the opinion that the lieutenant-governor-in-council has no authority to give consent which will bind them. Any property holder, therefore, could bring an action against the city to maintain the present status and, I believe, would win his action.

I have to advise, therefore, that the whole scheme of widening Fort street between Douglas and Cook streets must be abandoned, that the petition for widening Fort street between Cook street and Linden avenue cannot be legally entertained.

I have already intimated to the various solicitors for the various people interested in Fort street my opinion in the matter and suggested to them that a friendly action might be commenced to test my opinion, which action the city would facilitate in order to have the matter tested quickly. If my opinion should be confirmed, there is no recourse but an application to the legislature to amend the Municipal Act. If my opinion should not be sustained, then it would be safe to proceed with the work.

I might add that I have taken the advice of Mr. W. J. Taylor, K. C., in connection with the matter and at his suggestion called in for consultation the following gentlemen: G. H. Bernard, K. C., Mr. H. Lawson, Mr. Yates, Mr. Harrison and Mr. Austin, none of whom at a meeting held yesterday, were able to point out any reason why it could be said that there was any way of going on with the work, during the lifetime of the debentures, without a change in the act of parliament.

The committee decided to recommend to the council that the work be dropped for the time being and the court proceedings instituted, as had been suggested by the solicitor, who, in Mr. Fullerton's opinion, was deserving of the thanks of the board for having shown such commendable caution in an important undertaking.

U. S. TO REORGANIZE COAST DEFENCES

Strengthening of National Guard Included in Scheme Now Under Consideration

Washington, D. C., Sept. 17.—A gigantic scheme for the entire reorganization of the defence of the Pacific coast, from fortifications to the National Guard, is being considered by the general staff of the United States army. Startling disclosures of the lack of preparedness for defence are expected in response to a resolution which Congressman McLachlan of California introduced.

General Leonard Woods, of the staff, lays the blame for what is termed "a deplorable condition" on the lack of competent army officers. The situation in the regular army is bad, he says, but in the National Guard it is worse. General Wood says there are not enough officers to instruct civilians in the art of warfare.

It is planned by the general staff to begin by making the National Guard more effective. The staff members hope to accomplish this by creating a reserve whose members on retirement will be given an honorable army discharge.

It is intended to encourage re-enlistment, not only of non-commissioned officers but of specialists, who are greatly needed. The rest of the National Guard will be enlisted as reserves and will be given a small monthly stipend. They will be required to attend the army manoeuvres annually.

The McLachlan resolution declares that the entire Pacific coast is virtually defenceless and that such permanent defences as it has are of an almost obsolete type.

GOVERNMENT NARROWLY ESCAPES DEFEAT

All-Night Debate in the Australian Senate on Question of Capital Site

Melbourne, Australia, Sept. 17.—The struggle over the site for the federal capital has developed some remarkable features. The vote in the senate ended in a tie, and one of the labor members thereupon moved a reduction of the vote proposed by the government for

plating of Yass-Canberra, the "neutral" site.

The caucus of the Labor or Government party was split into two parties, but the minority secured sufficient support to poll eighteen votes in the senate, which numbers thirty-six members of all parties.

A fierce fight followed for the odd vote and angry scenes prevailed in caucus. Even members of the cabinet attacked their own supporters and the premier, Mr. Fisher, was obliged to appeal to the minority to withdraw their opposition and break the deadlock. This, however, they steadfastly declined to do.

Earnest lobbying followed by both sides. Finally the Labor maiecontentes obtained the desired majority by persuading Mr. Fraser, ex-Canadian and member of the Liberal party, to assist them.

The Government forces then concentrated their efforts upon Mr. Fraser, with such success that they won him over.

Nothing daunted, the insurgents kept the debate in the senate going all night in the hope of winning back the

can be agreed to the people on both sides of the boundary line will be benefited.

It is not safe, therefore, to make the sweeping assertion that "any arrangement" would be injurious to Canada.

The making of an acceptable trade treaty with the United States will be surrounded by very many difficulties, but it is possible to revise the tariffs of the two countries, as they affect each other, to the mutual advantage of both.

Such a treaty must be reciprocal. The United States will be expected to lower her fences if Canada is asked to do the same, and the relative height of the two fences will have to be carefully estimated, before as well as after tariff revision.

A reciprocal arrangement to include every line of manufacture will not, perhaps, be possible, for there will be enormous vested interests on both sides to be taken into account.

But that is not a good reason for not doing anything to improve trade conditions with our neighbor.

If Sir Mackenzie were Premier today as he was in 1896 he would not deliver himself so carelessly, but in opposition, and in the Senate at that, he is neither restrained by the responsibility of office nor the fear of public opinion.

But he is, nevertheless, honest in his convictions, and one of his strongest is that the Liberal party is usurping the place which by inalienable right belongs to the party which was driven from office when Sir Charles Tupper, at the instigation of Foster and others, elbowed him out of the leadership.

If Sir Mackenzie speaks for the Conservative party, the attitude of the opponents of the government will be, do nothing even though in doing something trade conditions may be improved. That is not the Liberal view.

THE SUPPRESSED REPORT. If the statement of Hon. Dr. Young to the morning paper were correct then the University Site Commission would be open to censure in taking six months to do what it could easily do in less than one month.

mense profit. Even this, although bad enough, would not be such a great injury to the province, were it not for the fact that by taking the best lands out of the reach of the pre-emptor, the district is killed so far as present settlement is concerned.

No man wants to go into a district and pre-empt land, even if it is good land, unless he knows he is going to have neighbors, and unless a settlement is likely to grow up around him, so that he can obtain the privileges of schools, churches, post offices and the other accompaniments of civilization.

Then there is the general lack of information in regard to lands to be obtained. No one knows anything about the lands, no one knows how to get to them, and no one seems very keen on inducing their settlement.

Compare this method with that of the Dominion government, and the difference at once shows why it is that British Columbia has not settled as fast as it should have.

Complaint has sometimes been made that the Dominion government does not advertise British Columbia sufficiently, but how could it, when it was well known by everyone that if the people came here they could not get the land unless they were ready to pay the prices demanded by the government favorites who field the bids.

The Treasury Department in Washington recently issued an order to the effect that foreign firms selling textiles in the United States must first submit samples of each line to consuls of that country in the various centres.

This raised a strong protest from British and French manufacturers and the Foreign Office at London made representations to the government at Washington on the subject with the result that the regulations were modified.

The original order seems to indicate that the Treasury officials had been hoodwinked by a clique of textile manufacturers who wanted to bar foreign competition from the country.

"What'll us kids do if them kids chases us? Let's soak rocks at them," was a scrap of conversation heard on the street last night emanating from a group of Central School lads.

It is a sample of "English as she is spoke" among a large class of the youth of Victoria. What is to be expected, however, when a public school teacher stands before his class, and in praise of some excellent work of one of his pupils exclaims "He done it good!"

Canadian Navy. The executive report, presented to the Dominion Trades and Labor Congress now in session at Fort William, condemns the establishment of a Canadian navy alleging that it is a concession to the Jingo element in the Dominion and a wanton waste of the country's money.

It also asserts that the naval policy was foisted on Canada by the Jingo element and that this same element will rush us into wars with other countries.

The larger issues which led to the inauguration of Canada's scheme of naval defence, are not touched upon in the report. Nothing is said of the necessity for the protection of the Empire's trade and commerce on the high seas and elsewhere nor of the Justice of Canada assisting in the protection of this trade and commerce, which represents the bread of the laboring class.

It is taken for granted that Canada and the Empire can devote money to promote universal peace, instead of spending it on self-defence. And that the supremacy of Britain will remain unchallenged. A few minutes' reflection will convince any laboring man that Britain must keep in the forefront of the armed nations until such time as the other nations agree to disarmament and universal peace.

Armament, under present conditions, is the best assurance of peace and while it is expensive it is necessary. Canadian sentiment is opposed to Britain bearing the entire cost of protecting the Dominion's interests.

Condemned By Friends. Newspapers of Ontario are justly upbraiding Sir James Whitney for his tariff utterances in Great Britain.

The Toronto Star undoubtedly speaks the mind of Ontario when it says: "In declaring that Canada will drift away from the Empire unless Great Britain adopts a policy of preference and protection, Sir James Whitney misrepresents Canada, and misrepresents Ontario. The public opinion of this province, like the public opinion of other provinces, is overwhelmingly against the view that the maintenance of British connection depends upon the granting of tariff favors to Canada."

Sir James Whitney has a great majority in Ontario upon provincial questions, but an equally great majority would declare itself against the proposition that Canada is drifting away from Great Britain because the protectionists of the United Kingdom cannot have their own way.

Will Adorn Position. That Mr. Sanford Evans should have been appointed the first president of the United Canadian Clubs was but right. Apart from the fact that the mayor of Winnipeg is a thoroughly able man, he has a claim upon the position owing to the circumstance that he was the founder of the Canadian Club idea, Mr. Evans will adorn the position to which he has been so appropriately appointed.

To Reduce Profanity. If there be any truth in the rumor that the provincial government has signed up with the Automatic Telephone Company of Chicago, for an exchange of about 3,000 automatic telephones for Calgary, the cheery "sum-um" will soon cease to come singing back in sibilant far-away murmur in response to impatient jerkings at telephone hooks.

Our Exhibit of Fall Costumes a Worthy One

See Government Street Windows for Special Values in Children's Dresses.

Ladies' Costume at \$25.00. Ladies' Costume at \$30.00. Ladies' Costume at \$60.00. Ladies' COSTUME, made of a fine Venetian cloth in brown. This is strictly plain tailored. GOODMAN DEFEATED HYLAND LAST NIGHT

(Times Leased Wire.)
New York, Sept. 17.—A new light has burst on the pugilistic firmament. The "light" is Jack Goodman, whose victory last night over Fighting Dick Hyland, of California, has set local fight-fans on fire. Fans are singing loud praises of the new star. They believe Goodman is the most scientific youngster now in the business, and that his apparent lack of punching ability is more than offset by his cleverness. Goodman's next match probably will be a ten-round go with Paaky McFarland.

KENDALL'S SPAVIN CURE

is the remedy you can depend on. No other preparation has done so much for the horse and the horseman.
Kendall's Spavin Cure has saved millions of dollars for thousands of owners during the past 40 years. It is the quick, sure, safe cure that never fails to give the best results even when all other treatment may prove a failure.

PLAYERS IN THE NATIONAL TEAM

HISTORY OF MEN WHO COME FOR MINTO CUP

First Game Takes Place on Saturday Afternoon at Queen's Park, Westminster

The Minto cup games between Westminster and the Nationals commenced this afternoon at Queen's park, Westminster. The National team consists of players whose position and record are as follows:

Goal.
L'Heureux, the goal keeper of the Nationals, has made a name for himself this year, his wonderful stopping causing a lot of comment among the lacrosse fans during the season. L'Heureux learned the game in Sherbrooke, where he figured on a number of amateur teams. He went to Montreal some years ago and has steadily climbed to the top, until at present he is regarded as one of the best goal keepers in the game.

Point.
Cattaritch has played a fine defence game for the Nationals during this summer, being a fast and steady player. He first figured in the game at Quebec, where he played for the Stars. He then went to Montreal and played for National II, from which team he graduated into senior company, where he has been playing for a number of years.

Cover Point.
Gagnon, who played cover point for the new champions this year, has played good lacrosse. He has lived in Montreal for some time and played on a number of junior teams in St. Henri. From these teams he steadily climbed up into senior company, and the Nationals have profited by his usefulness for several years past.

First Defence.
Decarie's good defence work has surprised many lacrosse enthusiasts. Henri is a good sport and is a Cornwall man. He too has made good during the season and helped the Nationals a lot to capture the N. L. U. title. Decarie is also a football player.

Second Defence.
Clement, like the other defence players of the Nationals, deserves a lot of praise for his good work. He is a daring player and plays the game from the start. It was in Cornwall that Clement received his athletic education, but he went afterwards to Woodstock and Oshawa, where he figured in a number of lacrosse matches. Business took this valuable man to Montreal and it was not long before the National directors had their eyes on him.

Third Defence.
Lachapelle played a clean and tricky defence game for the Nationals this year and is looked upon as one of the best men in the game. Lachapelle first played for junior teams. He graduated into senior company a number of years past, and the National followers are proud of his good work.

Centre.
Secours has played a wonderful game at centre for the new champions, his hard work doing much to place his team at the head of the N. L. U. He, like a number of his team mates, is a "Factory Town Boy." After his arrival in Montreal a number of years ago, he showed what he was able to do with the Nationals II, and was promptly admitted to the senior team.

Third Home.
Dulude is a Montreal bred boy, having learned the game on the old Shamrock grounds, where he figured on a number of junior teams. He was taken along with the Nationals some time ago to Toronto, and given a chance. He proved a useful man and has since helped the Nationals to win many of their hard fought battles.

Second Home.
Gauthier has made a name for himself during this summer, his fast work and good fielding helping the Nationals greatly in their many matches of the N. L. U. title. He is a Montrealer, having learned to play the game in St. Henri. He figured on the Junior National twelve some time ago, and from there was promoted to senior ranks. He has always been regarded as a daring little man and makes the best of them hustle to keep up with him.

First Home.
Edward Lalonde, better known as Newsy, the leader of the new champions, is a fine home man, he being probably the highest paid lacrosse player for the year 1910. Lalonde played for Cornwall for a number of years, playing between the flags. From Cornwall he went to Vancouver, where he played a year. After a lot of promises, Lalonde was finally captured by the Nationals, and he has certainly done good work for them.

Besides being one of the best home players in lacrosse, Newsy is also a noted hockey player, having figured on both the Canadians and the Renfrew teams last year.

Outside Home.
Dussault, although not as showy a player as some of the home men, has played a wonderful game during this summer. He has played for the Nationals three years now, having been imported from Ottawa, where he figured in the National twelve of that city.

Inside Home.
Lamoureux has made a good impression among the lacrosse fans this year, and his swift shot has given many a goal keeper a lot of trouble. Next to Lalonde, Lamoureux is the best scorer of the new champions. He first played the game in Montreal, and for a few years wore the National colors. From the Nationals he jumped to the Mounties, but returned again to the old camp after playing two years, and has since figured on their line-up.

The Coach.
Shiner, White, the National lacrosse coach, began his career in Quebec. After moving to Montreal he joined the famous Green Leafs. From then on he played with the Shamrocks and the old Nationals as well as a number

of other teams. The year 1902 found Shiner with the Shamrocks, and being seriously hurt in a game with Montreal, retired for the season. The following season found him again with the Nationals, the last team he played with. This season Shiner is the National coach, working hard in conjunction with the players.

The Trainer.
Trainer Noseworthy is one of the best in the business. He has made his name with the Victoria Hockey Club as well as with the Nationals, and has been uniformly successful. He is a brother of Billy Noseworthy, for years the champion cross country snowshoe runner.

COAST DELEGATES TO MEET NORTHWESTERN

Three From Each League Will Debate Eight-Team Circuit—Meeting in October

(Times Leased Wire.)
San Francisco, Sept. 17.—Whether the coast league will be an eight club circuit or will remain as it is with six, will be settled early in October. Judges McCredie, of Portland; Henry Berry, of Los Angeles; and Ed. Walter, of Oakland, will represent the coast league at a conference to be held with a like number of men from the Northwestern league, and their report will be submitted to the directors at their October meeting.
The action was decided upon at the meeting of the league last night. The single umpire system as it now stands probably will be endorsed if last night's discussion by the directors may be taken as an indication. The double system was favored strongly by Hogan, of Vernon, and Berry, of Los Angeles, but Ewing, of San Francisco; Walter, of Oakland; and Graham, of Sacramento, opposed it, while McCredie, of Portland, remained neutral.
It was decided that Manager Wolverton and First Baseman Adamson, of Oakland, must show good cause for their conduct during the game on Thursday at Los Angeles before they would be allowed to play again.

SPORT NOTES

The second Rugby test game between South Africa and England, played at Port Elizabeth, was won by England one goal, one try, to one try obtained by South Africa. England won the first game 9 to 0.

The Nationals and the Vancouver professional lacrosse teams are expected to play one lacrosse match in Victoria after the Minto cup matches between the Royals and the Frenchmen are through.

They will play three exhibition games at the Westminster fair and two games in Vancouver, whether they win or fail to win the championship and the trophy. These are in addition to the one here.

Says the London Standard: "The cricket season of 1910 has triumphed gloriously in spite of most dismal weather, and the oldest inhabitants of cricket pavilions are unanimous in their satisfaction at the manner in which the county matches have been played this season."

Hands across the continent and the ocean—the cricket season of 1910 in Victoria has triumphed gloriously in the most beautiful weather and the oldest inhabitants of cricket pavilions (meaning club houses) are well satisfied to see the cup and the championship back in the Capital again.

John D. Marsh, the Winnipeg long distance runner, easily defeated Deerfoot, the Lethbridge Indian, last evening, in a fifteen mile race at Sherman's rink. The time was given, officially as 1:21.4 1-2. The Indian collapsed in the fourth mile, being at the time fifteen laps to the bad.

Upwards of 1,400 people attended the game last Saturday afternoon at Scarborough Beach, Toronto, between Calgary and Hamilton for the People's Shield. When the whistle was blown for full time the score was even. Twenty minutes extra time was played without any further score and the game will be played over again on Monday afternoon.

Lionel Munn gained his second consecutive victory in the Irish open amateur golf championship at Portrush. In the 36 holes final he met Gordon Lockhart, a young West of Scotland golfer of about his own age, and, after gaining the commanding lead of 8 up on the first round, he proved successful by 9 up and 7 to play.

San Francisco, Sept. 17.—President Graham of the Pacific Coast baseball league yesterday afternoon suspended Manager Harry Wolverton and First baseman Cameron of the Oakland club for their part in the riot on the field at Los Angeles yesterday. The suspension will be indefinite, final action in their cases pending the investigation of their actions on the field.

Purses aggregating a total of \$10,000 will be distributed by the Vancouver Jockey Club at its second fall race meet to be held at Minoru Park from Saturday, October 1st, to Saturday, October 8th. There will be three stakes with a guaranteed cash value of from \$500 to \$1,000 each, and purses aggregating not less than \$1,200 daily will be hung up by the club.

The Northwestern pennant goes to Spokane, this year. Killalay on Wednesday held the Beavers in hand, and the game decided the location of the piece of bunting that means so much in the Northwest.

The following appeared in a Vancouver paper: "The Beavers will go to Victoria on Monday after the close of the season to play the Capital City semi-professional team on exhibition." Manager Watteit, of the Victoria team, says no negotiations have taken place, and overtures for the game have not been made by either side. The Victoria nine is disbanded anyway.

WHITE LINER REACHES PORT VALUABLE CARGO ON EMPRESS OF CHINA

Silk Shipments Worth Over \$1,600,000—Voyage Was an Uneventful One.

With over 2,000 tons of cargo, valued at somewhere in the neighborhood of two and a quarter million dollars, R. M. S. Empress of China, Capt. W. Davidson, arrived from Hongkong and Japanese ports at noon to-day. Fine weather was experienced by the white liner all the way across from Yokohama, which was left on Tuesday, the 15th inst., and schedule time was kept.

Following behind the N. Y. K. steamship Tamba Maru the China just missed the heavy rain and consequent dense fog which delayed the Japanese vessel. The cargo is an immensely valuable one and includes 2,522 bales of raw silk, silk goods and pongees worth approximately \$1,600,000; 12,540 packages of tea, 3,359 packages of costly bulbs and plants from Yokohama, and miscellaneous shipments of curios, cigars and provisions.

Only thirty-three saloon passengers came over on the China, the traffic at this time of the year being light. D. F. Wilbur, U. S. consul-general at Singapore; Capt. R. M. S. A. Manilla, and Prof. E. A. Ross were among those returning to points in the United States. Mr. and Mrs. Meigs and Miss Caroline Palmer landed here.

Altogether 449 Asiatics were brought from Hongkong and Japan, 49 of these being second cabin passengers. After landing passengers the liner left at 2 p. m. for Vancouver.

The white liner reported passing two steamers, west bound, on the voyage, but the names are unknown.

MOVEMENT OF VESSELS

(Times Licensed Wire) On the Coast.

Seattle—Arrived: Steamer City of Puebla, from San Francisco; steamer Maverick, from San Francisco; steamer schooner Hassad, Dollar, from San Francisco; steamer Burnside, from Columbia, river; Japanese steamer Tamba Maru, from Orient. Sailed: Steamer Governor, from San Francisco; steamer Seward, for Cordova; steamer Northwestern, for Valdez. San Francisco—Arrived: Steamer Admiral Sampson, from Seattle; Tug Defiance, from Port Angeles; ship Astral, from New York; ship Star of Italy, from Vancouver; steamer Queen, from Victoria; steamer Clara Nelson, from Seattle. Sailed: Steamer Bonoko, for Portland.

General. Amsterdam—Sailed: Steamer H. O. Henry, for Seattle. Havre—Arrived: Steamer Pomeranian, from Montreal. Melbourne—Arrived: Steamer Clavet, from Vancouver, B. C. Liverpool—Sailed: Steamer Virginian for Montreal. Peru—Sailed: Steamer Oana, from Victoria and Puget Sound, for Liverpool.

AMUR DUE TOMORROW

Beatrice Left Last Night and is Carrying Large Northern Cargo. Bringing a shipment of whale oil and other products from the Rose Harbor whaling station, the steamer Amur, Capt. Locke, is due in Vancouver this afternoon, and will reach here tomorrow. The Amur will load, in addition to general freight, a big shipment of latus and lumber for Prince Rupert on her next trip.

The Princess Beatrice left here for Skagway last night and is to-day loading a large shipment of Dawson freight at Vancouver, which is being routed through to make connections at Skagway. Next week the Princess Royal, which is due in Vancouver on Monday, will relieve the Charmer for two nights on the Vancouver run, the ferry steamer leaving up for cleaning and painting. The Queen City is due from River's Inlet, east coast and cannery points tomorrow afternoon. The Fraser steamer Tanager arrived from New Westminster with freight last night and will load 76 tons of freight at the outer wharf for Vancouver on Monday.

Nyala's MENTHOLATED will give you entire satisfaction.

MARAMA IS AHEAD OF HER SCHEDULE TIME

Canadian-Australian Liner Reported by Wireless 1616 Miles From Port.

Keeping a few hours ahead of schedule time the Canadian-Australian liner Marama was spoken by wireless from Tatoshi at 8 p. m. yesterday, when she was 1616 miles from Vancouver. The Marama is bringing a heavy cargo and a fairly large number of passengers from Sydney, Suva and Honolulu. She is due to arrive here on Wednesday, but can reach port on Tuesday if the present rate of steaming is maintained.

A message from the Marama states that she passed the outward bound Canadian-Australian liner Zealandia on Thursday at 3:30 p. m. and received the cheerful tidings "all well."

Advices from Sydney state that the first-class rate between Honolulu and Victoria has been raised from \$65 to \$75. Formerly the rates were at the latter figure but some months ago a reduction was made between this port and the Hawaiian Islands. Considerable complaint was made on account of the \$10 difference between the eastbound and westbound booking, and a flat rate of \$75 one way was inaugurated with the sailing of the Marama from Honolulu on the 15th inst.

CLEAR CASE OF SCUFFLING

That the British steamer British Standard was "sunk by human agency" is the finding of the Board of Trade enquiry which recently sat at Cardiff. It will be remembered, from particulars already published in the Times, that this vessel was built at Sunderland at a cost of £23,267 and was insured for £5,200, most of the shares in her being owned by her captain and Messrs. Frederick Brown and Son. She was deliberately sunk off the Brazilian coast on her first voyage and the evidence of the crew showed that the captain, Paul Braun, was guilty. The captain was fined £100, and was suspended for 18 months, the first officer being fined £50 and suspended for one year.

SHIPPING REPORT

(By Dominion Wireless) September 17, 8 a. m. Point Grey—Cloudy; wind S. E.; 25.99; 51; thick sea; no shipping. Cape Lazo—Cloudy; light S. E.; wind 30.65; 55; sea smooth; spoke Prince George, north bound, in Seymour Narrows at 8 a. m. Tatoshi—Cloudy; wind N. E.; 30.10; 50; out, steam-schooner Colonel Drake towing barge 91 at midnight; Governor at 7:35 a. m.; in, steam-schooner Wasp at 7:35 a. m.; spoke B. M. S. Marama 1.26 miles from Vancouver at 8 p. m. Friday; Marama reports passing Zealandia at 3:30 p. m. Thursday, "all well."

Estevan—Cloudy; calm; 30.95; 45; sea smooth; no shipping. Ikeda—Rain; wind S. E.; light; 28.51; 60; sea smooth; no shipping. Triangle—Dense fog; wind N. W.; 4 miles; 30.12 (barometer now reduced to sea level); 43; light obscured; no shipping. Pachena—Cloudy; calm; 30.10; 52; sea smooth; no shipping. Noon. Point Grey—Clear; calm; thick seaward; 30.13; 63; passed out, unknown two-masted steamer at 10 a. m. Cape Lazo—Cloudy; wind S. E.; fog seaward; 30.15; 56; sea smooth; no shipping.

Tatoshi—Cloudy; wind N. E.; 2 miles; 30.16; sea smooth; no shipping. Eastevan—Cloudy; calm; 30.65; 69; light swell; no shipping. Prince Rupert—Rain; S. E. moderate; 29.65; 55; sea moderate; D. G. S. Kamloops—Barometer, 29.94; temperature, 24; wind, 4 miles S. W.; weather, part cloudy. Triangle—Fog and squally; 30.15; 51 (reduced to sea level); Lehro sailed at 10.45 a. m., south bound. Pachena—Cloudy; wind S. E.; 30.17; 56; sea smooth; no shipping.

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department. Victoria, Sept. 17—5 a. m.—Rain has fallen on Vancouver Island and the Lower Mainland, but has cleared away over the Pacific states and in Alberta and Saskatchewan, but continues to be low over the greater part of British Columbia and in Manitoba, where a thunder storm, with rainfall, occurred at Winnipeg.

Forecasts. For 24 hours ending 5 p. m. Sunday. Victoria and vicinity—Light to moderate winds, unsettled and cool, with showers. Lower Mainland—Light to moderate winds, unsettled and cool, with showers. Observations at 5 a. m. Victoria—Barometer, 29.97; temperature, 52; minimum, 51; wind, 4 miles S. W.; weather, raining. New Westminster—Barometer, 29.10; temperature, 52; minimum, 52; wind, 4 miles E. rain, 67; weather, cloudy. San Francisco—Barometer, 29.94; temperature, 26; minimum, 24; wind, 4 miles S. W.; weather, part cloudy. Barkerville—Barometer, 29.96; temperature, 36; minimum, 36; wind, 4 miles S. W.; weather, clear. Kamloops—Barometer, 29.69; temperature, 54; minimum, 52; wind, 4 miles W. weather, clear. Prince Rupert—Barometer, 29.84; temperature, 52; minimum, 48; wind, 8 miles E. weather, cloudy. Edmonton—Barometer, 30.16; temperature, 52; minimum, 30; wind, calm; weather, cloudy. Winnipeg—Barometer, 29.86; temperature, 58; minimum, 56; wind, 15 miles N. W. rain, 49; weather, clear.

Victoria Daily Weather. Observations taken 5 a. m., noon and 5 p. m., Friday. Temperature. Highest 59. Lowest 49. Average 52. Rain, trace. Bright sunshine, 42 minutes. General state of weather, fair and cloudy.

FLOATING HOME OF FANATICS DAMAGED

'Holy Ghost's' Barquentine Kingdom Stranded Off Nova Scotia Coast.

Halifax, Sept. 16.—The barquentine Kingdom, one of the sea-going yachts owned by Rev. W. Frank Sanford of Maine, the father of the "Holy Ghost and Us" Society, has been damaged grounding on Mud Island off this coast and is now being repaired at Yarmouth.

The Kingdom is registered in Portland, Maine, as a yacht and was built there in the year 1874. The vessel has not, however, been in any American port since the latter part of July. She has been cruising about Portland, near the Holy Land, and among many of the islands of the West Indies. She has also made trips along the west coast of Africa. She has a crew of twenty men. There are, besides the crew, 16 women and 13 children on board, all of them belonging to the same place.

It is said that after the vessel struck on the island there was wild confusion for a few days. The rising tides flooded her tween decks and caused a congested state of affairs on board. The altar and other parts of the ship were somewhat damaged by the flooding.

There appears to be plenty of accommodation for the number on board. The sleeping quarters of the married people lie in a line with the dining saloon. The accommodation for the single women is situated on the starboard and after sides of 'tween decks. There is a wooden altar, which is used for worshipping purposes. It is painted white with gold trimmings. At each end of it hang horns. In a place in the skylight figures a head of a ram with large circular horns, while in another part of the 'tween decks there is a design showing a large black swan with outstretched wings.

Captain Lugar, who investigated the standing, said that none of the officers carry certificates, so those who do not have their lives at stake. Had Captain Perry been an experienced officer he would not have grounded on Mud Island. The American shipping regulation does not require that those who sail yachts must be certificated. In all probability the Kingdom will soon be abandoned as she is said to be not very seaworthy and Captain Perry is making inquiries as to where he could secure a suitable ship for their followers.

ANIMALS TREATMENT

The Elliman E. F. A. Book.

An instructive and interesting volume is that entitled "Animals Treatment (First Aid)," The Elliman E. F. A. Book, relating to horses, dogs, birds, and cattle. The work has been so much appreciated that it has reached a sixth edition, comprising 270 pages, and it extends to over 200 pages, the publishers being Messrs. Elliman, Sons, and Co., Slough. The preface explains that the information contained is offered as likely to be of assistance in the treatment of such animals as are indicated. In some instances probably ensuring a complete cure, or at all events, a reduction of disease, and alleviation of suffering. Such treatment, it is pointed out, will be more effectual through the proper mode of application of Elliman's Embrocation being known, and this by the instructions and remarks made is rendered clearer in the book than is possible in a paper of directions wrapped round a bottle. The one aim of the book is to treat of the ailments where Elliman's Embrocation can be usefully employed, and to offer other information which may be of service. The book is profusely illustrated, the drawings showing faults of conformation, and defects and diseases of the limbs, as well as those dealing with the teeth of the horse being specially useful. The general remarks on management of horses and cattle are very practical, and cannot fail to be helpful to all stock-owners, who will derive many useful suggestions from a perusal of the book. The London Daily Telegraph, March 19th, 1909.

A summary of the Elliman E. F. A. Book, sixty-four pages (illustrated) containing some of the important information to be found in the complete work, is placed inside the blue wrappers of all bottles of Elliman's Royal Embrocation.

TOKIO RECOVERING

Advices by Empress Put Damage at Six Million Yen.

According to advices received by the R. M. S. Empress of China, which arrived from Hongkong via Japanese ports at noon to-day, the city of Tokio is recovering from the disastrous floods the occurrence of which were reported by cable recently.

When the white liner was at Yokohama on the 16th the water in the capital had receded, the debris was almost entirely cleaned up and conditions were resuming a normal trend. As a consequence of the flood 143,463 houses were damaged, many being entirely destroyed, the number of citizens affected being between 500,000 and 600,000. The loss is authoritatively placed at over 6,000,000 yen.

The China Mail reports that two well-known Chinese firms in Singapore have had to suspend payment. Their difficulties are explained as being due to very heavy rubber share dealings which turned out badly. It is stated that the liabilities will exceed one million dollars, and there is some anxiety as to the effect of the failures on certain other firms.

Dysentery of a most violent character is now raging in Ehime prefecture, over two thousand persons having been attacked since the outbreak. There are about three hundred new cases each day. It is said that some doctors were bribed to keep the disease secret from the sanitary office.

The time used is Pacific Standard, for the 130th Meridian west. It is counted from 9 to 24 hours, from midnight to midnight.

Shiloh's Cure quickly stops coughs, cures colds, devils for itching bread in restaurants.

MOTOR ENGINES FOR ATLANTIC STEAMERS

Hamburg-American's 8,000 Ton Liner Will Have Engine Staff of 27 Men

The Hamburg-American line furnishes the following information regarding the 8,000-ton motor-driven liner which is being built by the firm of Blohm and Voss, of Hamburg. The vessel's tonnage is slightly larger than that of a P. and O. vessel of the Egypt class.

The German line considers that the marine motor has now reached a point of development at which it can be increasingly used for large vessels. With oil-engines the boilers become superfluous. The physical process of the transposition of the energy contained in the fuel into power is accomplished in the cylinders. A new device will render the exhaust almost silent, and the fumes of the gases will be invisible and odorless.

The two three-cylinder engines, which will give the ship a speed of 11-12 knots, are the joint product of the Maschinenfabrik Augsburg-Nürnberg and of the firm of Blohm and Voss. They are the result of years of experiments by these two great firms, and their reliability and capability can scarcely be questioned. Tests of 1,000 h. p. engines of the same type have already been completely successful, and have proved the marine motor to be very economical.

It is pointed out that from 1900 to 1908 the world's production of oil grew from nineteen million to thirty million tons. Future production, it is believed, will be fully equal to any demand that may arise.

It is learned from another source that the Hamburg-American Line has made a long-term contract with the Standard Oil Company for the delivery of oil. The residue in the process of refinement of the oil will solely be used as oil-fuel. The rate of heating with this oil is about 1-2 times greater than that of coal. The loading of the liquid fuel, which will be done by pumps, is quicker and cheaper than coaling. Only twenty-seven persons will be needed for the oil engines, while in steam vessels of the same size about 250 stokers and coal-drawers would be employed. Moreover, the motor-liner can carry 2,000 tons more cargo than the steam liner. The chief drawback is the increased danger caused by the presence of great quantities of liquid fuel on board.

TENDERS

TENDERS addressed to the undersigned at Ottawa, and endorsed on the envelope "Tender for lighthouse and buoy tender" for the Pacific Coast, will be received up to noon of the THURSDAY-FIRST DAY OF OCTOBER, 1910, for the construction of a Twin Screw Steel Lighthouse and Buoy Tender for the Pacific Coast, to be delivered at Victoria, B. C., of the following dimensions: length—length between perpendiculars 200 feet, breadth 28 feet, depth 12 feet 6 inches, draft 12 feet 6 inches, and speed 12 knots per hour.

Plans and specifications of this steamer can be had by application to the Collector of Customs, Ottawa, and from the Collector of Customs, Toronto, and from the Department of Marine and Fisheries at Montreal, Quebec, Victoria, B. C., Halifax and St. John's, N. S.

Plans and specifications can be procured by application from the Purchasing and Contract Agent, Department of Marine and Fisheries, Ottawa, and from the agent of this Department at Victoria, B. C. Each tender must be accompanied by an accepted bank cheque in favor of the Deputy Minister of Marine and Fisheries equal to 10 p. c. of the whole amount of the tender, which cheque will be forfeited if the successful tender declines to enter into a contract with the Department of Marine and Fisheries. Cheques accompanying unsuccessful tenders will be returned.

The Department does not bind itself to accept the lowest or any tender. The successful tenderer will be notified without authority from the Department will not be paid. H. G. ANDERSON, JOHNSTON, Deputy Minister of Marine and Fisheries, Department of Marine and Fisheries, Ottawa, Canada, 2nd May, 1910.

MARINE NOTES

The cruiser Rainbow, on its way from Portsmouth to Esquimalt, is due at Moutisvideo to-morrow.

The G. T. P. steamer Prince Rupert is due this evening from Prince Rupert and way ports. She will sail at midnight for Seattle.

Specifications for the repairs to the damaged C. P. R. steamer Princess May will be completed this afternoon, and tenders will be called immediately.

The British steamer Bannockburn, Capt. Willett, reached William Head last night with a cargo of rails from Sydney, C. B., for Prince Rupert, and passed up.

The tug Lorne returned to port yesterday evening after towing the British ship British Yeoman to Powell River, and left for Cape Flattery seeking a whal-jammer.

The new steamship Latouche, recently built at the Moran Company yards for the Alaska Steamship Company, has been delivered to her owners at Seattle. The Latouche will be ready to-morrow for Skagway. She will return with a cargo of ore for the Tacoma smelter.

Close connections between New York and interior Alaska were made on Thursday night at Seattle by two women who held a steamship-jefferson for nearly an hour. It was their last chance to make Fairbanks before the close of navigation on the Yukon river; the jefferson waited. The last boat sails from Dawson on September 24th.

With the loading of the schooner P. J. Abler at Seattle and her sailing next Monday the last of this year's freight for government schools in Northern Alaska will have finished its difficult task of having distributed nearly 2,000 tons of miscellaneous supplies along the unfrequented portions of the west coast of Alaska and the Aleutian Islands.

Statistics from the Japanese department of communications just to hand show that a wonderful increase in the shipping of that country has taken place during the last ten years or so. In 1900 8 steamships were imported from Europe, the total tonnage being 8,032. This is the smallest importation for six years. The number of vessels constructed in Japan for the year was 88, although the year was a quiet one. Altogether there are now 29 shipyards and 55 dry docks in Japan.

Progress apparently is being made in formation of a new steamship company, to operate from Seattle to Southeast Alaska under patronage of the Theadwell mines, near Juneau. Some months ago a report was sent out from Juneau that such a project was under consideration and that the Humboldt, of the Humboldt Steamship Company, would form the nucleus of the fleet. Later, officials of the Treadwell Company tentatively confirmed the Juneau dispatches.

DR. CHASE'S OINTMENT

DR. CHASE'S OINTMENT is a certain cure for all kinds of skin diseases, such as eczema, psoriasis, and other eruptions. It is made of the finest ingredients and is guaranteed to give relief in every case.

THE GRAND TRUNK PACIFIC

Offers to the Public Lots in the First Subdivision to

Watrous

Favored Bountifully by Nature and by the Grand Trunk Pacific, Watrous is Destined to Become One of the Most Important Inland Cities of Western Canada

Watrous is located near the banks of Little Manitou Lake, the most wonderful body of mineral water on the American continent. A century ago the Indians took the sick and ailing tribesmen to Little Manitou to be cured. Today the white man is journeying from far and near to receive the benefits afforded by the medicinal waters from Little Manitou Lake. The Grand Trunk Pacific has selected Watrous as its Central and Principal Divisional point of the great Western Provinces, and it is from this Central Divisional point that the different branch lines to other important cities will radiate.

The requisites of a flourishing prairie city are first of all railway facilities. It must be an easy point to reach and ship from. Beyond this it must be either a centre of manufacture or of a highly productive farming country. Again it should be a pleasant place to live in, have good drainage, good water and some attractions. See how perfectly Watrous fulfills these requirements. This is the central divisional point of the largest, strongest and most important Canadian Railway. The Railway alone will employ

hundreds of people whose homes will naturally be at Watrous. Manufacturing industries will be needed, and Watrous is the natural place for them to locate. And lastly Watrous has Little Manitou Lake, a veritable Mecca for health and pleasure-seekers. Thus is Watrous doubly sure of its promotion and flourishing growth. Watrous has all the advantages of Moose Jaw and Saskatoon, and it has Little Manitou Lake into the bargain, which is as valuable as all its other assets combined. Not only that, but this wonderful mineral lake cannot be duplicated and no other feature of competing cities can take its place.

Where Any One Can Swim.

"The specific gravity of the water of Little Manitou Lake is 1.02. This is 21 heavier than the waters of Carlsbad. The human body cannot sink in water of this specific gravity. People who elsewhere have given up all hope of swimming, find it easy to swim in Lake Manitou."—From the Winnipeg Telegram, July 28, 1910.

Little Manitou Lake— "The Carlsbad of Canada"

THE WINNIPEG TELEGRAM speaking editorially of Watrous and its wonderful mineral lake, has the following:

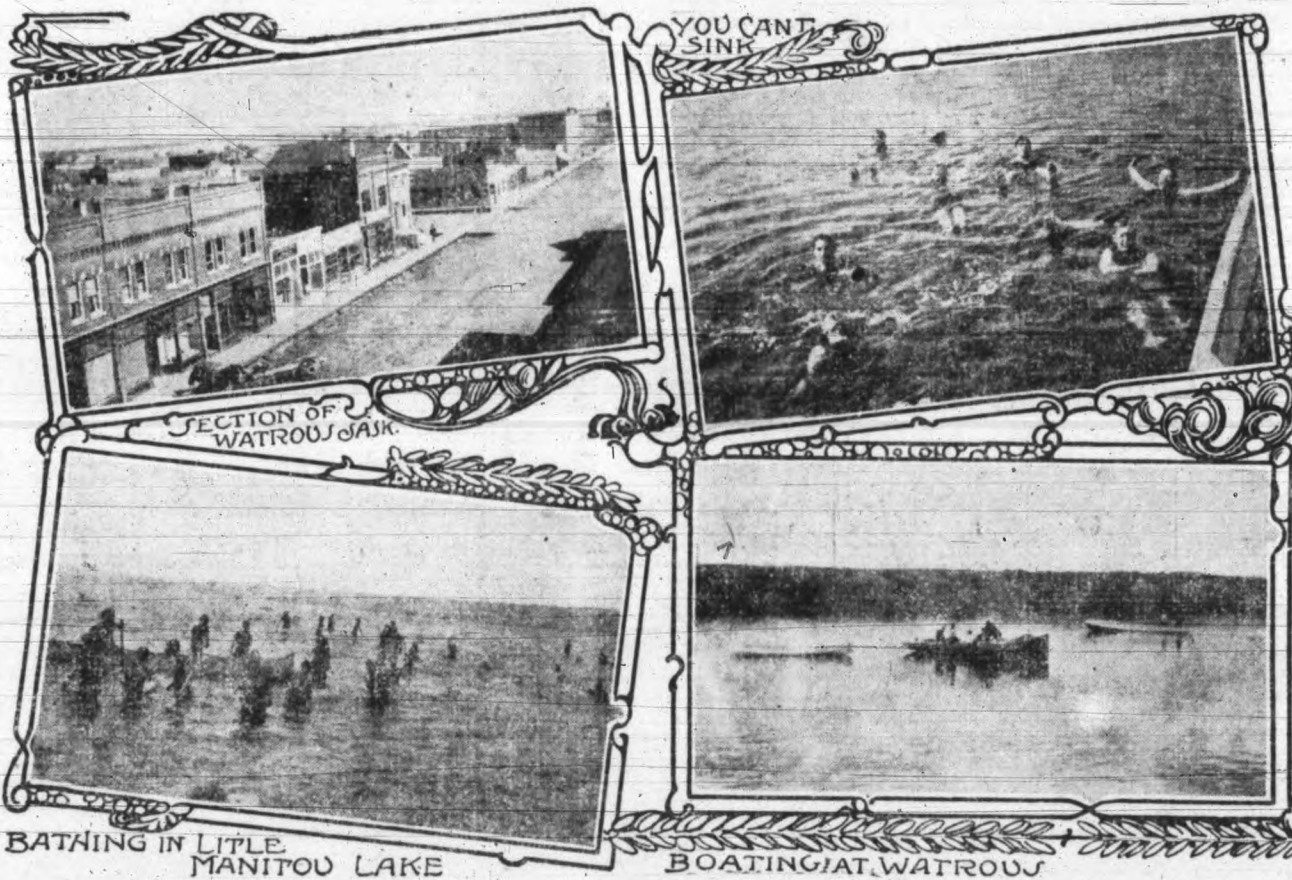

"Little Lake Manitou, on the G. T. P., is beginning to receive the attention to which the wonderful medicinal properties of the water of the lake so well entitle it. The Indians called the lake Manitou, which means 'good spirit,' owing to the healing qualities they found the waters possessed. It is said that Indians came to this lake from hundreds of miles round and on the shores are still to be seen circles of stones, which mark Indian encampments. Though it is probable that the Indians for years have availed themselves of the curative powers of the waters of this lake, it was not until the building of the G. T. P. had caused the town of Watrous to spring into being two years ago that the remarkable medicinal value of the waters of the lake began to be generally realized.

"The power of these waters to cure rheumatism, eczema and skin diseases has been so positively and strikingly demonstrated as to attract considerable interest. Those who visit the lake are unanimous in declaring Little Manitou Lake as the coming Carlsbad of Canada. A chemical analysis of the waters of Little Lake Manitou shows considerable resemblance to the medicinal waters of the world-famous Carlsbad, which has for so long maintained the highest reputation. The beneficial results obtained from bathing in Little Lake Manitou are so positive that the good effect is beyond doubt.

What the Hon. William Pugsley Says.

Hon. William Pugsley, Minister of Public Works for the Dominion of Canada, hearing of the fame of the lake, paid it a visit and bathed in its waters. The honorable gentleman, when interviewed at Watrous by one of our reporters, stated: 'I am not an authority on the medicinal qualities of water, but this I can say. Bathing in Little Lake Manitou is particularly pleasant; there is a property about the water that imparts a pleasant glow. I am somewhat troubled with rheumatism, and I am quite certain bathing in Little Lake Manitou has been very beneficial to me.

"I consider Watrous has a good future, the lake is a valuable asset to Saskatchewan, and it will become a resort patronized not only by people from all parts of this country, but also from points in the United States. I have visited health resorts in California and England. Little Lake Manitou is unique.

Buy Lots in Watrous, You Can't Make a Mistake

"The more lots you buy in Watrous, the more money you will make. It is impossible to purchase lots in a live and growing young city of Western Canada and not make splendid and certain profits.

Lots in Moose Jaw that sold a few years ago at \$100 each are to-day worth from \$1,000 to \$3,000.

Lethbridge a few years ago was a small frontier town. Lots in Lethbridge now command fancy prices—\$10,000 to \$25,000 is sometimes paid for a single lot.

Lots which sold in Saskatoon ten years ago for \$100 are to-day worth ten to fifty times that amount.

You could have purchased lots in Edmonton ten years ago for \$100 each, which are to-day worth \$1,000 to \$10,000.

Those who purchased lots in Edmonton ten years ago are now the possessors of property worth 1,000 per cent. more than the price at which it was originally purchased—an average increase in value of 100 per cent. each year.

In Port William the same rapid advance in values has taken place. Lots which sold for \$100 to \$200 each, even five years ago, have since sold for \$1,000 to \$2,000.

It is almost impossible to chronicle the rapid advance in property in Calgary, Regina, Winnipeg, Vancouver and other cities of Western Canada.

Buy lots in Watrous now while they are selling at the ground floor price, and hold them, and you are certain to make money. Buy a half dozen or more lots, and ride with the wave of advancing values. \$10 for every dollar you invest is common in live towns of Western Canada.

Think what it means for the population of Canada to increase from six millions to thirty millions, and 50 per cent. of this growth will be in the West. There is no use living in a day of land and opportunity unless you are part of it. You doubtless have among your friends and acquaintances those who have shown their faith in Canada and the Canadian cities, and have become rich because they invested when these cities were young.

Buy lots and prosper with Canada. Buy in Watrous, and as Watrous grows the money you put into it will grow just as surely and certainly. Invest your money where the greatest activity is taking place, in the centre of rapid growth, where the greatest advances are realized. This centre is in Western Canada, and Watrous is the pivotal point. You are taking no chance when you buy lots in Watrous at present prices. The future of Watrous is assured, and if you buy now you should make 100 per cent. to 1,000 per cent. on your investment during the next five years.

Watrous is the Most Favored City of the Most Favored Railway in Western Canada

THE GRAND TRUNK PACIFIC

The last and greatest of the Transcontinental Railways—extending from Halifax N. S. to Prince Rupert, B. C.—is opening up and developing a new and wonderfully rich territory. The Grand Trunk Pacific is assisting in an energetic and vigorous manner in the building of this Great Empire to the North and West. This is truly the Land of Opportunity. No portion of any country on the Globe to-day shows such rapid development as the Grand Trunk Pacific territory.

The rapid development of Western Canada during the past few years has been chiefly due to the splendid railway systems which are being built. The last and the greatest of these—the shortest line from ocean to ocean—is the Transcontinental line of the Grand Trunk Pacific.

These great railway systems make rapid increases of population a certainty. Every facility and inducement is afforded to the desirable citizen, and the history of those who have grown rich and are growing rich in the West is the best guide to the future.

Pioneering is not a feature of the growth of Western Canada. Cities grow up in the time it takes for a settlement to become established in the ordinary community. That these cities will be permanent—that Real Estate values will continue to rise—is assured by the rich agricultural country which these railways have opened up. The Grand Trunk Pacific alone, in its course through the three Prairie Provinces, draws on a larger area of fine wheat producing land than the entire Wheat Belt of the United States.

Thus it is that while the assessed valuation of Canada's new cities is increasing by millions, they will continue to increase at the same rate or a greater rate for years to come.

These millions of increased valuation represent the profits paid to the early holders of land. You cannot secure these profits in the older towns—the cities which have sprung up along the older railways. It takes capital to handle real estate in these older cities. But along the line of the new Grand Trunk, Passenger Service has only recently started; values have not had time to boom. A comparatively few dollars will do the work here, and every dollar invested in Watrous to-day should multiply itself many times over before 1915—even before 1912. Some of the lots in Watrous are already selling at ten to twenty times their cost only two years ago.

If you failed to get in on the big money that was made in other Grand Trunk Pacific cities—such as Fort Arthur, Fort William, Saskatoon, Prince Albert, Edmonton, Prince Rupert, or in others, which might be named—here is your chance now to get in right on Watrous. The same spirit of co-operation which has been extended by the Grand Trunk Pacific to these other cities which have made good will be extended to Watrous. Watrous is destined to become the inland Prince Rupert of the Grand Trunk Pacific.

The Growth of Western Canada Means the Growth of

Watrous

Telegraph Your Order at Our Expense

In case you desire further particulars, maps, etc., before selecting lots, use coupon below:

INFORMATION COUPON.
International Securities Co.
619 Somerset Bldg., Winnipeg, Man.

Please forward to me by return mail full particulars regarding the sale of town lots in the sub-division to the original townsite of Watrous, which is just being placed on the market.

NAME

ADDRESS

On account of the rapidity with which lots are selling, we advise that you let us make the selection for you, and we promise that we will give you the best available remaining lots at the time your order is received. That we may make the best selection for you, we advise that you telegraph at our expense the number of lots you wish, and the prices you desire to pay, and let your remittance follow by return mail.

Prices of lots, size 25x140 feet, are \$100, and corner lots \$125; lots on Main street, size 25x70 feet, are \$150. You can buy a \$100 lot by paying \$10 down and \$10 a month; \$125 cash and \$12.50 a month for nine months buys a corner lot at \$125. Main street lots can be purchased for \$15 a month. If you want to pay all cash you may deduct five per cent. discount.

Make remittance payable to the order of and send direct to the Land Commissioner of the Grand Trunk Pacific Railway, Somerset Building, Winnipeg. Receipts for payments made will be issued direct by the Land Commissioner of the Railway Company, but when you have completed your payments Toronto Title will be issued to you direct from the Grand Trunk Pacific Railway.

If the selection of lots made for you by our representative is not satisfactory, all you need do is to notify us to that effect, and the money which you have paid to the Grand Trunk Pacific will be refunded to you.

Remember, there is no interest charged on deferred payments in case you desire to purchase on the installment plan, and you do not have any taxes to pay until 1912.

The more lots you buy in Watrous the more money you will make. How many lots do you wish? Fill out the blank in the lower right-hand corner of this advertisement to-day for the number of lots you wish to purchase. Let your remittance follow by first mail, but wire us at once your reservation for the number of lots desired.

APPLICATION BLANK FOR PURCHASE OF LOTS
Land Commissioner, Grand Trunk Pacific Railway Co.
Somerset Bldg., Winnipeg, Man.

I hereby make application to purchase lots at the price of \$..... each, and enclose herewith remittance for \$..... being one-tenth the total purchase price. I agree to remit the same amount each month for nine consecutive months.

I desire your representative to select for me, out of the sub-division which you have just placed on the market to the original town-site of Watrous, what he regards as the best lots remaining unsold at this price. Title to lots to be clear and indefeasible. No interest to be charged on deferred payments, and no taxes until the year 1912. I leave make out and forward to me your formal "Application to Purchase Town Lots," which I will sign and return.

ORDERED TO HOSPITAL For Operation for Acute Indigestion—Did Not Go and Was Cured by DR. CHASE'S KIDNEY-LIVER PILLS
 A medicine that will save one from a surgical operation must be worth while.
 The doctors seem to have made the common mistake of dosing the stomach when the real source of trouble was with the liver and kidneys. Anyway Dr. Chase's Kidney and Liver Pills made a complete cure and here is the record:
 Mrs. F. O. Bacon, Baldwin's Mills, Que., writes: "I was very sick and the doctors said I must go to the hospital for a surgical operation. I had acute indigestion and the liver and kidneys did not act. I did not want to undergo an operation, so I began the use of Dr. Chase's Kidney and Liver Pills and have used them ever since. I am feeling well now and doing my own work for a family of seven. I think there is no equal for acute indigestion and liver and kidney troubles such as I had and they and nothing else made me well again. There is no medicine I like half so well, for this did wonders for me."
 The real serious cases of indigestion almost always have their location in the bowels and can only be reached by making the liver and kidneys active. No medicine regulates the liver, kidneys and bowels so nicely and promptly as do Dr. Chase's Kidney and Liver Pills. One pill a dose, 25 cents a box, all dealers; or Edman, Bates & Co., Toronto. Do not be satisfied with a substitute or you will be disappointed.

FATAL COLLISION
 Holt, Mo., Sept. 17.—One man was killed and 15 persons injured when two passenger trains met in a head-on collision on the Chicago, Burlington and Quincy Railroad one mile north of here last night.

SPEAKER CANNON IS RE-NOMINATED
 Successful at Primaries in Illinois—Three Insurgents Are Successful
 Chicago, Sept. 17.—Twenty-one of the 31 Democrats who voted for William Lorimer, Republican, for United States senator, have been renominated for seats in the Illinois legislature, according to latest returns from the primary. Among them are Lee O'Neil Brown, who has just been acquitted of bribery in connection with Lorimer's election.
 The insurgents carried three of the congressional districts, nominating men in the 9th, 11th and 13th districts, F. S. Gansberger, Progressive, defeated Congressman Boutell in the 9th, the regular machine did not support Boutell, saying that to do so would mean defeat for the party. In the 11th district Ira Copley was nominated over Congressman Snapp. In the 13th John G. McKenzie, Progressive, was nominated. The 13th is the district represented by Lowden.
 In the 18th district, Speaker Cannon was renominated.

FIGHT FOR CONTROL
 Eastern Democrats Are Trying to Oust the Radicals.
 New York, Sept. 17.—Credited reports that behind the nomination of President Woodrow Wilson of Princeton University, for governor of New Jersey, lies the beginning of a fight for the control of the Democratic party are current.
 Eastern Democrats who have espoused Wilson's cause are known to be among the members of their party who desire to oust the radicals from control. If Wilson is elected governor, it is believed the Gold Democrats will use him to sidetrack the presidential hopes of Mayor Gaynor of New York, Governor Marshall of Indiana and Governor Harmon of Ohio and Hoke Smith of Georgia.
 Democratic leaders here say that Bryan realizes the purpose of Wilson's gubernatorial candidacy.
 This statement is given weight by an article in the Commoner in which Bryan classifies Smith as "presidential timber."

FIND BOMB ON RAILWAY
 London, Sept. 17.—A special dispatch to the Morning Post from Pufkirshem, Hungary, says that a formidable bomb was discovered lying on the railroad track in front of the Emperor William's train in which he was going to the hunting lodge at Mohacs, 25 miles southeast of Pufkirshem.

MARICOPA OIL COMPANY
OF LOS ANGELES, CALIFORNIA
 Under Canadian Control Capital \$1,000,000

What Our Neighbors Are Doing
 (Extract From the California Oil World)
 Maricopa, Aug. 31.—The Midway Northern Oil Company operating an eighty-acre lease in the northern quarter of section 32, 12-23, has made a contract to deliver its oil to the New Centre and Anaconda Oil Companies, which supply two railroads and a small refinery in the north part of the state. The Midway Northern has laid 12,000 feet of pipe connecting its wells with the receiving tanks at the New Centre loading racks, has installed a large pump and expects to commence to deliver not later than Saturday, S. M. Warmbath, secretary and manager of the Midway Northern, states that the oil will net the company 4 1/2 cents per barrel.
 The Midway Northern finished its well about six weeks ago at a depth of 1905 feet and has since put in an eight and a quarter inch agitating string. The well flowed recently for four days, producing from 1700 to 2300 barrels per day, the oil testing 19, 5-10 B. It is expected that when the well thoroughly cleans itself out that it will have a production of about 2500 barrels per day. The company has a contract to J. M. Latta at Maricopa for a standard 34-foot rig for well No. 2 and has placed orders for a new boiler and engine. Drilling the second well will commence within thirty days.

This Company owns a lease of 60 acres in Section 32, 12-23, in the very midst of the Gusher Territory of the Maricopa-Sunset Field on a royalty to the owners of 1.7 of the oil produced.
 Our property actually adjoins that of the Midway Northern to which the annexed press extract refers.
 We have now about eight hundred feet to drill. A similar well should be obtained at about the same depth on our property.
 Such a production with a similar contract would enable this Company to EARN A DIVIDEND OF 2 CENTS MONTHLY, OR 24 CENTS PER SHARE PER ANNUM ON ITS FULL CAPITAL.
 With such prospects, are you not buying dollar bills for 50 cents.
LATEST TELEGRAM.
 BAKERSFIELD, California, September 12, 1910.
 In field to-day splendid progress on Maricopa. Expect to bring in big flowing well by fifteenth October or near that date.
 (Signed) W. F. P. FOGG.

FOR A SAFE INVESTMENT BUY PETROLEUM SHARES IN A GOING CONCERN
The Atlanta Oil Company
 How to devise a going concern without an income for dividends—was a question. It was decided that the only way the moral as well as the legal status of shareholders would be respected and observed was for the organizers to become shareholders for value—actually pay real money for every share they got, on the principle that "Money talks" loudest. So it was the proof of the pudding being a case of "Put up or shut up" all the way around.
 HENCE, comparatively few of these shares will be sold and the price of them will be advanced as rapidly as possible on the ground (not theory), that this will make the stock more valuable and increase the dividend rate. Distribute \$50,000 among 50 men and each will get \$1,000, but how much less will each of 100 men get? Having put up their own money for this company—it explains everything. GET IT NOW, BEFORE THE EDITION IS EXHAUSTED.

Among City Churches

ANGLICAN.
Christ Church Cathedral.
Interesting visitor.—A very interesting visitor to the city this week will be the Rev. Jocelyn Perkins, canon of Westminster Abbey. Mr. Perkins will occupy the pulpit of the cathedral tomorrow and will deliver an illustrated lecture on "Westminster Abbey" in the Christ church school-room on Monday next. Canon Perkins has been connected with the famous Abbey for many years and has an intimate knowledge of the wonders of that wonderful building. The lecture is illustrated by a large number of excellent illustrations and will be intensely interesting as well as instructive.
St. John's.

METHODIST.
Metropolitan.
Woman's Missionary Auxiliary.—The regular monthly meeting of the Metropolitan Auxiliary of the Woman's Missionary Society will be held on Monday afternoon next in the vestry of the church. It is hoped that every member will endeavor to be present and any who are not yet members will be made most welcome. The programme for the winter months will be outlined and other business transacted.
Young Women's Club.—There was a good attendance at the re-opening of the Young Women's Club on Wednesday evening last and the prospect for a successful winter term is excellent. The club will be glad to hear of any young ladies who desire to become members, as now is the best time to join, right at the beginning of the season.

Epworth League.—The members of the Epworth League are preparing for the opening of the fall and winter terms and will hold their initial meeting for the season in the next week or two. A large number of the young people are interested in the work of the league, and the organization promises to become an active force in the church this winter.

Centennial.
Official Meeting.—At the last meeting of the official board of Centennial church it was decided to increase the pastor's stipend to \$1500. This was only one sign of the prosperity which is attending the church at the present moment. The increased missionary enthusiasm and the progress made in every department of the church's work gives evidence to the same fact. The prospect for every successful work this winter is exceedingly good.

Reception and Sacrament.—On Sunday evening next there will be a reception service for new members and the Sacrament of the Lord's Supper will be administered.
Boy Scouts.—A movement is on foot to establish a patrol of Boy Scouts in connection with Centennial church and it is expected that the organization will be complete in the near future.

Harvest Home Services.—The annual Harvest Home services will be held on Sunday and Monday, September 25 and 26. The church will be appropriately decorated for the occasion and the choir is preparing an excellent programme of music. On Monday evening the usual concert will be given, preceded by a Harvest Home dinner.

BAPTIST.
First Church.
Ladies' Philanthropy Class.—The annual meeting of the Ladies' Philanthropy class was held last Wednesday evening at the home of Mrs. T. W. Allan. Officers are: President, Mrs. T. W. Allan; vice-president, Mrs. J. Johnston; secretary, Miss A. Taylor; treasurer, Miss H. Smith; press reporter, Miss E. Vale; convenors of social and missionary committees, Miss Olive Price and Mrs. J. H. Miller. At the close of the business a social season was enjoyed, the members of the Men's Bar-ladies class having been invited. The ladies class are looking forward to the winter work with enthusiasm.

Young People's Service.—On the last Sunday of this month the second of the series of young people's services in the church will be conducted by the pastor. Special music and sermon appropriate to the occasion are in preparation.
Ladies' Aid.—The first meeting of the newly organized Ladies' Aid Society was held last Monday afternoon with the president, Mrs. C. W. Bradshaw, in the chair. There was a large attendance and plans were discussed relating to the furnishing of the new building now in course of erection.

REFORMED EPISCOPAL.
Church of Our Lord.
Sunday Services.—The rector, Rev. T. W. Gladstone, will preach both morning and evening to-morrow. The morning subject will be, "Rock and Sand"

Presbyterian.
First Church.
Sacrament Service.—The Sacrament of the Lord's Supper was administered last Sunday evening and there was a gratifying attendance of members. The service was greatly enjoyed by all.
Children's Day.—The annual children's day services will be held on Sunday, September 25, and a special sermon will be preached in connection with the morning service. On the first Sunday in October the school will resume its meetings in the afternoon, instead of holding the sessions in the morning. During the summer months it has been found very agreeable to hold the sessions at the morning hour and the attendance has been good.

First Presbyterian Club.—The First Presbyterian Club held the opening meeting for the winter months last Monday with a very good attendance of members and friends. The following officers were elected: Hon. president, Dr. Campbell; president, Mr. Elliott; secretary, A. Kennedy; vice-president, Mrs. E. Hall; treasurer, B. Jamieson; chairman of committees, Mrs. L. Hall; literary, Miss McQueen; social, Miss Harkness; editor, R. McIntyre; reporter, J. G. Brown. Meetings will be held as usual every Monday evening and an attractive programme has been mapped out for the winter months.

Choir Practices.—The choir, under the leadership of J. G. Brown, has resumed its practices for the winter months and promises to be a stronger organization than ever.

CHURCH AND SOCIOLOGY

IMPORTANT REPORT ON SOCIAL ISSUES

Duty of the Churches to Proclaim the High Standards of Human Brotherhood

The report of the committee on Sociological Questions presented to the General Conference of the Methodist Church at its recent sessions in this city, was a most important document, and takes a high ground in the matter of the application to everyday life of the social teachings of Jesus. We feel sure our readers will be glad to study the report, which is here appended:

The committee on Sociological Questions beg leave to submit the following statement as the result of their deliberations upon the various matters which have been brought before them, in the hope that they have been able to interpret in some degree the mind of the application to everyday life of the social teachings of Jesus. We feel sure our readers will be glad to study the report, which is here appended:

We believe the Master has intended that the industrial, commercial and political affairs, in laws and social regulations and in the spirit of all our dealings with each other, the principles of the Golden Rule and the Sermon on the Mount should govern. Only through these can we be led out of our semi-barbaric commercialism and only by means of these can we lay firm and strong the foundations of the Kingdom of God upon earth.

We wish again to emphasize the fact that those high and lofty principles, which many regard as impossible of application are founded on the necessary and fundamental relations of men. "Lie not one to another for ye are members one of another," all will admit to be a sound principle, but this co-partnership of men in a community is the basis of many other duties also. If an individual amasses wealth it is the community which gives him the opportunity. His own enterprise, foresight and energy constitute one factor in the production of this wealth, and the enterprise and protherliness and the predominant honesty of the community as expressed in their laws, which guard the individual in the acquisition and possession of this wealth, constitute the other factor. The community is therefore part owner of his wealth, a fact which we recognize in the collection of taxes from unwilling citizens and in the enactment of our graded succession duties. It is one of the problems of Christian citizenship to determine how much relative importance is to be given to these factors in making our social and commercial regulations. We must not reduce the rewards of individual effort to a point which would mean the destruction of incentive to effort, nor must we allow the rewards of individual effort to become so great that the community suffers in general well-being thereby. The altruism of the Gospel is developing a class of men who find a personal reward in the good of the community which has nourished them. We have accomplished some forms of Socialistic organization which have enriched the life of the community and have increased the rewards of the individual and have greatly enhanced the rewards of personal effort. Therefore in the controversies between Individualism and the various forms of Socialism, we may as a church declare in favor any form of communal organization which, while it enriches the life of the community, will also increase the functions and development of the individual. The organization of trusts for the benefit of those who enter them, are leading the way to the final trust in which the forces of the community will be used for the reinforcement of the power and the enrichment of the life of all the individuals composing it.

Further, in common fairness, we must admit that all that we claim as our right in the community, is regard on the average, the right of all. We have accepted the benefit of a good home, a public school education, etc., and should see to it as far as we can by Christian effort, by economic reform and by legal enactments that these benefits are not denied to any. Thus we love our neighbor as ourselves.

We acknowledge with regret that the present social order is far from being an ideal expression of Christian brotherhood. We deplore the great evils which have their source in the commercial greed of our times which leads men to oppress the unfortunate and to forget their obligations to the higher interests of society. We deplore the lack of sympathy which too frequently exists between our more worthy and our less privileged individuals in society, leading to that most dangerous condition of indifference and sometimes contempt on one hand and envy and distrust on the other. While we admit the right of both labor and capital to guard their interests by combination, we condemn the disregard of the rights of the public and the individual, which has been shown now by combinations of capital and now by combinations of labor.

We rejoice in the work which has already been done in our own country and elsewhere to guard the interests of the public when the struggles concern the necessities of life. Your committee is inclined to favor a law which would require that when a dispute had been referred to a set of commissioners for adjudication under the Lemoine Act, both parties abide by the decisions.

While we admit that with the abounding and increasing wealth of our country it is possible for the rich to grow richer without the poor becoming poorer, we deplore those existing economic conditions which tend to accentuate the inequality of opportunity open to the various classes of the community, and to permit through artificial unfair conditions, the massing of the larger proportions of the wealth of the country in the hands of the few, with all the attendant economic social and political dangers.

In the presence of these and other evils the Church of Christ cannot stand inactive and silent. We truly express our sympathy with all those who suffer from unjust economic conditions by making most sincere efforts to find practical solutions of the insistent problem of our industrial life. We regard our brothers-in-arms all who in organized form or otherwise, are struggling for justice for themselves and for others. We regard man's cause as God's cause always and everywhere, and therefore we have set ourselves as a church by the organization of a special department to aid in finding some solutions of these problems so as to do something to prevent the growth in our new land of those unjust social conditions which form so regrettable a feature in many older communities. There are many signs indicating that we are passing through a transition time in our economic history. Our very standards as to what is right and wrong in economic conditions are changing. Never was there a time when the duty of the church to proclaim the high demands of human brotherhood was so imperative as now.

We rejoice in the hopeful and reassuring features of the situation such as the kinder spirit of our times, the growth of humanitarian sentiment, the development of a more sensitive conscience on social questions both inside and outside the organic church, and the growing sense among the wealthy classes that they owe something to the great partner in all business enterprise—the public—whose multiplied activity, predominant honesty, and law upholding habit makes the winning and holding of wealth possible. A millionaire is one who has reaped a harvest from a million lives. The man of culture and education is one for whom had been pressed out the richest virtues of the world. It is well, therefore, that in proportion as men reap by inheritance or otherwise, these rich rewards of civilization, they should feel their natural obligation to the less fortunate to whom indeed, in the nature of things, they are debtors. Only when the sentiment of Christian brotherhood permeate our whole civilization and reduces itself to law and practice, can we expect that substantial justice will be done to all classes of the community. "Love is the fulfillment of the law."

We rejoice in the way the sense of this obligation is beginning to show itself in many gifts, great and small, to institutions whose work enriches the whole community. A public hospital is every man's refuge. Our public school system is an attempt to equalize opportunity for all. A university is a ladder with its foot at the door of the public school up which even the poorest man's son may climb to the highest position for which his powers fit him. "We have a strong ought to bear the infirmities of the weak, and not to please ourselves." We, therefore, commend those who for the good of all, invest their wealth in the higher things of civilization as performing acts of social justice, but such gifts, however munificent, do not make atonement or reparation for wrongs perpetuated. In the iniquitous making of the oppressed toiler, continue to cry to heaven for justice, notwithstanding the high plaunts with which these gifts are greeted, when the living wage is not made the first factor in determining the price of manufactured articles and in the sweat shop the scale of the wage is so low that our maidens have set before them the awful choice between hunger and honor, and in the factory young children are stunted in mind and body by excessive labor, it is time for the church to aid in driving these things from our civilization and to urge its members who in corporate bodies and otherwise, are served by labor, to keep themselves clear from guilt in these economic relations.

COMMUNITY, AND TO PERMIT THROUGH ARTIFICIAL UNFAIR CONDITIONS, THE MASSING OF THE LARGER PROPORTIONS OF THE WEALTH OF THE COUNTRY IN THE HANDS OF THE FEW, WITH ALL THE ATTENDANT ECONOMIC SOCIAL AND POLITICAL DANGERS.

In the presence of these and other evils the Church of Christ cannot stand inactive and silent. We truly express our sympathy with all those who suffer from unjust economic conditions by making most sincere efforts to find practical solutions of the insistent problem of our industrial life. We regard our brothers-in-arms all who in organized form or otherwise, are struggling for justice for themselves and for others. We regard man's cause as God's cause always and everywhere, and therefore we have set ourselves as a church by the organization of a special department to aid in finding some solutions of these problems so as to do something to prevent the growth in our new land of those unjust social conditions which form so regrettable a feature in many older communities. There are many signs indicating that we are passing through a transition time in our economic history. Our very standards as to what is right and wrong in economic conditions are changing. Never was there a time when the duty of the church to proclaim the high demands of human brotherhood was so imperative as now.

We rejoice in the hopeful and reassuring features of the situation such as the kinder spirit of our times, the growth of humanitarian sentiment, the development of a more sensitive conscience on social questions both inside and outside the organic church, and the growing sense among the wealthy classes that they owe something to the great partner in all business enterprise—the public—whose multiplied activity, predominant honesty, and law upholding habit makes the winning and holding of wealth possible. A millionaire is one who has reaped a harvest from a million lives. The man of culture and education is one for whom had been pressed out the richest virtues of the world. It is well, therefore, that in proportion as men reap by inheritance or otherwise, these rich rewards of civilization, they should feel their natural obligation to the less fortunate to whom indeed, in the nature of things, they are debtors. Only when the sentiment of Christian brotherhood permeate our whole civilization and reduces itself to law and practice, can we expect that substantial justice will be done to all classes of the community. "Love is the fulfillment of the law."

We rejoice in the way the sense of this obligation is beginning to show itself in many gifts, great and small, to institutions whose work enriches the whole community. A public hospital is every man's refuge. Our public school system is an attempt to equalize opportunity for all. A university is a ladder with its foot at the door of the public school up which even the poorest man's son may climb to the highest position for which his powers fit him. "We have a strong ought to bear the infirmities of the weak, and not to please ourselves." We, therefore, commend those who for the good of all, invest their wealth in the higher things of civilization as performing acts of social justice, but such gifts, however munificent, do not make atonement or reparation for wrongs perpetuated.

In the iniquitous making of the oppressed toiler, continue to cry to heaven for justice, notwithstanding the high plaunts with which these gifts are greeted, when the living wage is not made the first factor in determining the price of manufactured articles and in the sweat shop the scale of the wage is so low that our maidens have set before them the awful choice between hunger and honor, and in the factory young children are stunted in mind and body by excessive labor, it is time for the church to aid in driving these things from our civilization and to urge its members who in corporate bodies and otherwise, are served by labor, to keep themselves clear from guilt in these economic relations.

As no scheme of social reorganization, however well calculated to remedy the evil of our times, can prove effective unless the motives of Christ are not the motives of men, as selfishness is the great source of economic wrong, as all commercial values depend upon the natural trust begotten of honesty and fair dealing, and as immorality tends to undermine the whole commercial fabric, we rejoice in the growth of those influences which work to bring men under the sway of Christ's ideals of rectitude and brotherhood.

For patriotic and economic reasons we regard with great satisfaction the growing prospects of union among the evangelistic forces of our land, since the resulting efficiency through more widely distributed effort must add force to the influences which conserve the wealth and enrich the life of our population. The commercial and industrial universal enemy, as well as the idle capitalist is a tax upon all. Honest God-fearing men add to the value of all kinds of property. They are the

conservators of wealth, salt of the earth and the hope of the world. We occupy common ground with other social reformers in our position to all forms of economic waste. The most costly and invaluable products of any country is its young manhood and womanhood. Anything which tends to injure the developing citizen's physical, intellectual and moral development is a source of greatest loss to all.

Nowhere should manhood be sacrificed to demands of industry. We regard it, therefore, to be the duty of the church and the wisdom of the working man who opposes those colossal forms of national impoverishment and interference. On an immense scale they destroy the finest assets of civilization, and make for the impoverishment of the world. War through making a constant drain on the resources of the people, does its faithful work only now and then, but interference plays havoc unconsciously with the finest things in a nation's life.

Your committee have considered the memorials on the land question submitted to it. Believing that "the earth is the Lord's and the fulness thereof," and that under His providence of God and under the trustee whose duty it is to enact the conditions under which these divine gifts should be used for the benefit of all, we therefore condemn the handling over of large tracts of land to individuals and corporations without attaching conditions which would prevent their being held for special speculative purposes.

Whenever vested rights are not interfered with, we believe that the best way to prevent any individual or corporation from profiting hereafter from the unearned increment in the value of land, is to note with pleasure the experiments which are now being made in Great Britain and by the city of Vancouver and other western towns in organizing their finances on the basis of a single tax on the land values. We shall have a chance to determine experimentally how far this method may prove to be a panacea of economic ills.

We deplore the violation of the sanctity of the ballot as a grievous wrong to all classes. The poor man who sells his vote gives undue influence to the power of money in the state and thus endangers the political rights of the class. The agents of political parties who tempt the poor man to barter the great right of citizenship not only degrade him, but practically disenfranchise the incorrupt voter by robbing him of his due influence in a government of the country. The political party, which wins victories by means of the corrupt use of money or by any form of patronage, are usurpers that they grasp at and belong to the state which weight of money and patronage in politics hampers every great reform, and the low moral standard it presupposes, makes some of the finest things our nation might otherwise achieve in government for the people impossible.

We rejoice in all efforts to reduce the waste of life in unhealthy and dangerous occupations and to prevent the building of insanitary homes for the poor. We commend to our local churches the work of spreading a knowl-

COOPER ADVE.

Athletes training for strenuous sports find they get into "condition" quickest when they confine their choice of beverages to...

Ghirardelli's GROUND CHOCOLATE

because this is the most nutritious beverage they can drink. It is made from the finest selected cocoa beans, it is absolutely pure, and as delicious as it is nourishing. It calms the nerves.

Ghirardelli's Ground Chocolate is so easily digestible that it is as wholesome for the growing child as for the bravny athlete.

J. G. Allan, Rendell street, in company with a few friends is enjoying some excellent sport on his estate on Pender Island.
Mrs. H. Bodwell and Mr. and Mrs. C. G. Johnson are among the Victorians who are spending the week-end in the Terminal city.
Mrs. R. Stiles and daughter are about to leave for a three months' visit to England. They will sail from Quebec on the Empress of Britain.
Mrs. C. L. Armstrong (nee McKilligan), is getting settled in her pretty new home on Richmond avenue and her reception day will be announced shortly.
Captain Alan Fletcher, 17th Lancers, and Lady Theresa Fletcher, who have been spending a few days here, returned to Vancouver yesterday en route for England.
The members of the Young Woman's Club of the Metropolitan church are considering the advisability of giving an entertainment known as "The Temple of Fame" in the near future.
Mrs. Nicholas, Byron street, entertained a number of old friends on Thursday afternoon. She was assisted by Mrs. A. N. Miller and her rooms were very prettily decorated for the occasion.
Mrs. Richards, Royal Oak, was in town yesterday supervising the beautifying of the grounds surrounding the woman's building on the fair grounds, which are now in a high state of perfection.
A bazaar, to which ladies' aid societies of all denominations and the Ladies of the Maccabees will contribute, will be held in aid of the W. C. T. U. mission at a date to be announced later. The proceeds will be applied towards the purchasing of the building on Store street now occupied by the mission.
Harold Beckwith and F. Bagshaw will be among the local McGill students who leave on Wednesday next to resume their studies at that institution. A number of the British Columbia, Alberta and Saskatchewan collegians have chartered a car which leaves Regina, besides visiting all points on the C. P. R. line west, they will cross the great lakes.
Mrs. Wm. Grant, Point Ellice, received yesterday afternoon for the first time this season, and many friends dropped in for a social chat and cup of tea. Mrs. Grant welcomed her guests in a pretty shot silk gown, and was assisted by her sister, Miss Smith, trimmed with jet. Late roses, gladioli and cactus dahlias, relieved by the beautiful ferns for which Mrs. Grant's garden is famous, made her rooms bright and cheerful in contrast to the dull weather prevailing outside. Mrs. Grant will be at home to her friends every third Friday in the future.

Last evening the marriage of Mr. James Brown, Edinburgh, Scotland, to Miss Kate Black, Pittenweem, Fifeshire, Scotland, was celebrated at the parsonage of Victoria West Presbyterian church, Rev. D. McRae officiating. After the ceremony the happy couple drove to the home of Mr. and Mrs. Dowden, 716 Market street, where a number of friends were assembled, and congratulations were showered upon them. Dainty refreshments were served, and the health of the bride and groom was proposed by their host, Mr. Dowden. Mr. and Mrs. Brown will reside on Hillside avenue.

HUDSON MAXIM'S NEW WORK.
A new book by Hudson Maxim, entitled "The Science of Poetry and the Philosophy of Language," has been published by Funk and Wagnalls Company.
The author says in his introduction: "The main object of this book is to provide a practical method of literary criticism and analysis, and a standard of uniform judgment for determining the relative merits of literary productions, and further, to supply a more practical and efficient means than we have had heretofore for the standardization of poetry, whereby any poem may be assayed, and the amount of its poetic gold determined and separated from the slag and dross."
The more I have studied the stronger has grown my conviction that no other subject of equal interest and importance to mankind has been so neglected by science, so abandoned to the chaos of misunderstanding. There is, indeed, no general agreement as to what constitutes poetry. There are as many opinions as there are critics. Often the worst poetry is pronounced the best, and often the best the worst, by some who are considered leading authorities.
The illustrations are by William Oberhardt.

Abbey's Effer-Vescent Salt
It's often a little thing that puts a deranged digestive system right—if taken in time.
25c and 60c.
Sold everywhere.

Does it ever occur to you when something very unpleasant happens, that it isn't as bad as if it were twice as bad?
Among my friends I have one incurable optimist. From every unkind blow that fate deals him—and it has dealt him several very harsh ones—he recovers himself with a smile.
And it isn't by any means the silly grin of the cheerful idiot—who doesn't know enough to be down in the mouth, either. It is the rainbow smile of the man worth while, the man who can smile. When everything goes dead wrong.
In sheer amazement at his refusal to appear in the least disconcerted, just after a knock-down blow that would have made most men go about looking like walking tomatoes, I insisted one day that he explain himself, and he gave me that first sentence as the key to his optimism:
"When I was a little boy and anything I didn't like happened, I always tried to comfort myself with that 'Tisn't as bad as if it were twice as bad.'
"No matter what the trouble was—whether I broke my leg or one of my pet rabbits died, or it rained the day of the Sunday school picnic, or I didn't get the skates I wanted for Christmas, I'd always cheer myself up with that 'Tisn't as bad as if it were twice as bad.'
"And I still do."
A funny little notion, isn't it?
But isn't there a whole philosophy of life in it?
There are two points of view from which to look on life, and I am more and more coming to think that the question of happiness and unhappiness depends far more on which point of view you take than on the circumstances of your life.
Seems to me as if all the world might be divided into two classes—the people who dwell on the mountain top of "Tisn't as bad as if it were twice as bad," and the people who dwell in the valley of "It's never as good as if it were better."
The people on the mountain are always looking compassionately down and seeing folks less fortunate than they.
The people in the valley are always looking enviously up and seeing folks who have much more than they.
The people on the mountain top have a way of always looking at the good things they possess.
The people in the valley never seem to see anything but the desirable things they lack.
There was an epigram in Life the other day to this effect:
"The famine pessimist worries because she is not as young as she once was."
The people on the mountain are always rejoicing that she is not as old as she will be.
The first, you see, lived in the valley of "It's never as good as if it were better," and the second on the mountain of "Tisn't as bad as if it were twice as bad."
Of course they're both right. They both see things as they are.
The only difference is that the mountain dwellers are happy and the valley dwellers are not.
Which class do you belong to?
Or are you apt, like me, to migrate from one to the other?
If you are, why don't you do as I think I shall—have the motto of the mountain dwellers printed and hung

The Evening Chit-Chat
BY RUTH CAMERON

Does it ever occur to you when something very unpleasant happens, that it isn't as bad as if it were twice as bad?
Among my friends I have one incurable optimist. From every unkind blow that fate deals him—and it has dealt him several very harsh ones—he recovers himself with a smile.
And it isn't by any means the silly grin of the cheerful idiot—who doesn't know enough to be down in the mouth, either. It is the rainbow smile of the man worth while, the man who can smile. When everything goes dead wrong.
In sheer amazement at his refusal to appear in the least disconcerted, just after a knock-down blow that would have made most men go about looking like walking tomatoes, I insisted one day that he explain himself, and he gave me that first sentence as the key to his optimism:
"When I was a little boy and anything I didn't like happened, I always tried to comfort myself with that 'Tisn't as bad as if it were twice as bad.'
"No matter what the trouble was—whether I broke my leg or one of my pet rabbits died, or it rained the day of the Sunday school picnic, or I didn't get the skates I wanted for Christmas, I'd always cheer myself up with that 'Tisn't as bad as if it were twice as bad.'
"And I still do."
A funny little notion, isn't it?
But isn't there a whole philosophy of life in it?
There are two points of view from which to look on life, and I am more and more coming to think that the question of happiness and unhappiness depends far more on which point of view you take than on the circumstances of your life.
Seems to me as if all the world might be divided into two classes—the people who dwell on the mountain top of "Tisn't as bad as if it were twice as bad," and the people who dwell in the valley of "It's never as good as if it were better."
The people on the mountain are always looking compassionately down and seeing folks less fortunate than they.
The people in the valley are always looking enviously up and seeing folks who have much more than they.
The people on the mountain top have a way of always looking at the good things they possess.
The people in the valley never seem to see anything but the desirable things they lack.
There was an epigram in Life the other day to this effect:
"The famine pessimist worries because she is not as young as she once was."
The people on the mountain are always rejoicing that she is not as old as she will be.
The first, you see, lived in the valley of "It's never as good as if it were better," and the second on the mountain of "Tisn't as bad as if it were twice as bad."
Of course they're both right. They both see things as they are.
The only difference is that the mountain dwellers are happy and the valley dwellers are not.
Which class do you belong to?
Or are you apt, like me, to migrate from one to the other?
If you are, why don't you do as I think I shall—have the motto of the mountain dwellers printed and hung

Like "The Kettle on the Hob"
of grandmother's time—the large Circle Water Pan of the "Good Cheer" Furnace supplies the moisture so necessary to the air we breathe.
The ordinary Furnace with its apology for a waterpan holding only a few quarts, is utterly unable to keep the air it heats half as humid as outdoor air. This dry air shrinks the wood work, loosens the joints of the furniture, dries and shrivels up the house plants, and worse still, affects your skin, throat and lungs in much the same way. That's why you catch cold so easily in winter.
"Good Cheer" FURNACE
with its new patented "Circle Waterpan"
supplies air like the breath of summer—air that is not only warm, but humid, like the air outdoors. You can live more comfortably in this humid, healthy "Good Cheer" atmosphere at 68° than you can at 72° or 75° in the dried-out air supplied by the average furnace. There's both health and economy in a "Good Cheer" Furnace. If you're building, arranging to build, or even thinking of building—make up your mind to install a "Good Cheer" Furnace. Write for full description.

VALUE OF FISH AS FOOD SUPPLY

INTERESTING ADDRESS DELIVERED IN LONDON

Sir J. Creighton-Browne suggests the Formation of Marine Stock Farms

"Food and Fish Supply" was the subject of an address delivered by Sir J. Creighton-Browne at a conference of the Sanitary Inspectors' Association in London recently. He said that during last year at Billingsgate, out of 248,675 tons of fish delivered, 946 tons were seized by the officials of the Fishmongers' Company as unsound and unfit for human food, and much illness and perhaps some mortality was thereby prevented. The inspectors of the company stood between the metropolis and a large incursion of sickness, and there was, no doubt, room for improvement in our mode of dealing with fish, even in some of our best shops. Those splendid irrigated marble slabs, laden with silver-plated and gaily tinted trophies of the river and the sea, were interesting from a natural history point of view, and even aesthetically attractive, but they exposed their burden to sunlight, flies and dust, which tended to hasten changes in it which did not make for right conditions. In recognition of this, a unit for food visual impressions were chiefly trusted to, but slight changes in odor were, he was told, a subtle indication of the approach of putrefaction. This almost suggested that sanitary inspectors, in addition to other tests they had to undergo, would have to pass a nasal examination. Noses varied greatly not only in contour, but in sensational and perceptive power. (Laughter.)

There were men born without the sense of smell—even great poets had been known to be thus affected. The sense might be abolished by disease and might be quickened by education. To them it was an invaluable adjunct in many departments of their work as the sleuth-hounds of health, and the sanitary inspector with no nose would be almost as much out of place as the color-blind driver of a locomotive engine. (Laughter.)

The races on the coasts of Northern Europe and Asia nourished themselves on fish almost exclusively, but the Latin and Saxon races consumed a relatively small amount of it, and the people of this fish-begirt island had not yet availed themselves as fully as they might of the contents of the larder of the deep. There was great nutritive value in fish. Amongst the affluent classes of the country fish still held its own and figured regularly as a breakfast and a dinner dish, and, indeed, by all classes it was still habitually or occasionally consumed; but in recent years, notwithstanding increased facilities of distribution, the consumption of fresh fish, although progressive, had not kept pace with increase of population. There were amongst us multitudes of people who were short of food, and their shortage of food resulted in a heavy death-rate. In much preventable disease and incalculable misery. Whoever could bring within their reach an increased supply of cheap food of a nourishing kind was doing a great hygienic work, and that was what the Fishmongers' Company were attempting. Fish was from a physiological point of view the next best thing to meat. John Burns said, some time ago, that some trifling reduction in rates would enable the workman to have a kipper with the tea. He (Sir James) sincerely wished that every workman could have that hors-d'oeuvre with his evening meal. The market price of fish was no criterion of its nutritive value. A pound of sole might cost 1s 6d, while a pound of haddock, containing quite as much nutriment, might be bought for 3d. Certain kinds of fish which had, for some reason, fallen into disrepute, such as hake, sprats and conger eel, gave a very high return in nutriment for the prices at which they could be bought. He hoped that the propaganda undertaken by the Fishmongers' Company, in conjunction with the National Sea Fisheries Protection Association, would open the eyes of the people to the value of cheap fish, would increase the demand for them and so the supply, and would ultimately lower the price of fish all round.

We had hitherto, as it were, lived on the wild life of the forest, and its rich and varied natural productiveness still yielded us abundant supplies, but the time would surely come when on sea, as we had done on land long ago, we should exchange the chase in large measure for the ranch and the fold, when we should have marine stock farms bordering all our coasts, and should pride ourselves on our prize turbot and pedigree cod. (Laughter.) By the survey of the sea, by investigations and by a minute study of the habits and life history of our marine fauna, we should be able to cultivate and control and make the best of our fisheries. (Applause.)

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash—and was entirely cured after three months' use of them."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ailments, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

MOVING PICTURES

The Development of an Idea.

G. A. Keiser writes as follows in a recent issue of the London Chronicle: Dealers in the large towns especially are familiar enough with the modern picture "palace," which now finds one or more representatives in practically every high street. In the early stages of the moving picture art, not only were the pictures crude, but the place where they were shown was often merely a glorified shop, with inadequate means of exit in case of fire. The latest development in this phase of the entertainment profession is to have the hall specially built for the purpose, and with an eye to satisfying the most exacting county council.

A recent specimen programme was composed as follows: (1) Comic incident connected with a visit to the Derby; (2) A miniature drama; (3) Vivaphone performance, with an action song, "I Do Love to Be Beside the Seaside"; (4) Incidents connected with an allotment; (5) An everyday-drama showing glimpses of the interior of a coal mine; (6) Comic-Hypnotism at a country fair; (7) Geographical—"Through the Andes," giving glimpses of the wild and weird, yet magnificent scenery of the country lying between the frontier, 7,000 feet above sea level, a splendid statue of the Saviour is seen marking the spot where the historical peace was commemorated between the Chileans and Argentinians; (8) Comic; (9) Historical; (10) Action song—"Sneezing"; (11) Topical—entitled "A Suffragette Candidate." All, of course, with incidental music, either with piano or gramophone.

There is scarcely any limitation to the choice of subjects, which may comprise incidents that have happened in the air, the sea or the earth beneath. Things can be and are represented on the screen that, for technical reasons alone, could never be shown, at least in the same space of time on any ordinary stage. Besides topical representations there are, of course, pictures of local events, local industries, and more elaborate and sometimes highly sensational items to be found. Of such are the condensations of leading novels into a series of biograph films. "Ramona," a novel by Mr. Helen Jackson, has been treated in this way, the pictures for it having been taken at Camanche, Ventura County, California, the actual scene of the story.

Apart from special representations such as this, a large proportion of the scenes depicted show that the four corners of the earth are systematically ransacked to provide interesting material. Many a child probably learns more geography in ten minutes at a biograph display than in ten hours of ordinary dry-as-dust school work. Historical incidents are also effectively reproduced, the operator visiting notable places in order to obtain authentic backgrounds or settings. Many incidents in the life of the great Napoleon have been well worked up for the screen. And just as surgical operations have been illustrated biographically at the hospitals, so it may well come to pass that history, etc., may, in the not too distant future, be taught in the common schools "per bioscope."

As will have been noted, incidents connected with the great boxing encounter at Reno, there is an element of financial speculation as well as other risks in procuring and preparing the films. Independent of natural dangers always contingent upon visits to mountains like the Andes, mentioned in the specimen programme, accidents of other and quite unexpected kinds sometimes occur, especially when working up "incidents" involving the use of machinery as locomotives or trains. Not so long ago an unfortunate "actor" in one of these biograph dramas—a veritable drama—lost his life through being struck by a log that was hurled at him by an engine striking the obstacle on the rails, whilst many people will recall the injury recently sustained by an

FLAMES DESTROY NORTHERN MISSION
Rev. Mr. McCullough and Family Have Been Left Destitute

Port Simpson, Sept. 16.—Prospectors who arrived here from the upper waters of the Naas river brought news that the Alyanah Mission, sixty miles up the Naas, was totally destroyed by fire. According to the report a pioneer missionary, Rev. McCullough, and his family, have been left destitute. While their reports of the occurrence are meager, it was stated that the fire started from a spark from the chimney. The roof caught fire and the wooden building was soon blazing fiercely. It had gained great headway before it was discovered, and although an alarm was sent out to the neighboring Indian village, and the villagers made every effort, the building was consumed with all its contents, including the supplies and the clothing of the missionary and his family. According to the report brought the news here, Mr. McCullough was left in sorry plight, dependent temporarily on his Indian flock. The Alyanah mission, was built by Rev. Mr. McCullough twenty-five years ago, and since that time the missionary has made his home at this lonely outpost among the Indian tribes of the north. Communication with the place is difficult, but steps will be taken here to relieve the distress of the destitute family.

PRESENTATION TO REV. FATHER NICOLAYE
Receives Address and Purse of Gold—Leaves Ladysmith on Way to Europe

Ladysmith, Sept. 16.—Rev. Father Nicolaye left the other day for San Francisco on his way to his old home in Europe. Father Nicolaye will be missed in Ladysmith by Catholic and Protestant alike. The night before his departure the members of the parish met in the Y. M. C. hall and presented the Father with an address and purse of gold. Father Nicolaye was taken completely by surprise and in a speech in which his emotion was plainly visible thanked his parishioners for their kindness and co-operation in the work of the church. He complimented them on having in the St. Anne's convent such a beautiful and practical memento of their devotion to the cause. Little Kathleen Campbell presented the purse and Mr. D. Fagan read the address which is appended. Reverend and Dear Father: To-night we are gathered to offer our hearty wishes for a successful journey and to express our regrets over your departure. We all realize that you have sacrificed every moment for the welfare of your congregation during the short time you have been with us. The deep interest you have ever shown in the spiritual and temporal progress of the Ladysmith parish will survive as a moment of your good deeds. Your kindness and sympathy manifested at all times will ever live in the hearts of the faithful you leave behind. Our beautiful school, which has been erected through painstaking labor, stands as a monument of your zeal for souls. Silently we have witnessed the devotedness of your self-sacrificing spirit, and we regret that it will be away from us even though it is for a short period. Needless to say, dear Father, your absence will be regretted by one and all, and we shall anxiously await the day of your return. As a laborer in God's vineyard, we trace a life of devotedness, self-sacrifice and self-forgetfulness. The short time spent among us depicts a Good Shepherd laboring among the fold. Our Lord having left the Apostles at the Ascension, they sorrowed over their loss. You, dear Father, like our Savior, have spent but three short years in our midst and now, at your departure, we also find cause to lament. You too have promised to come again to your orphaned flock. We hope that quick success will enable you to be with us soon. We all unite, dear Father, in asking God's blessing on the mission you are about to embark on. May it be brightened by a complete success. We subscribe ourselves, The Members of St. Mary's Parish.

Uncle Walt The Poet Philosopher

The heathen lady dressed herself one evening in her humble lair, she pushed some fishbones through her nose, and wove some seaweed in her hair. She put a teapot on her head, and wound brass wire around her arms; she walked in beauty like the night—what chieftain could resist her charms? Her dusky cheeks she painted red, her swanlike neck she painted blue; she wore a simple sheepskin gown, a palm leaf and a chain or two. Her toilet done, she left her hovel, and turned some handspins on the beach; a shipwrecked milliner beheld, and said: "That lady is a peach! The garb she wears is safe and sane, and leaves her movements smooth and free, and she could run a rabbit down, or dance a jig, or climb a tree! No wonder that the heathen beaux in love are with that giddy flirt! But would they love her if she came among them in a hobble skirt!"

Marc Klaw visited Seattle on Thursday and announced that within thirty days work will begin on the construction of a house, to be known as the Metropolitan theatre, on the corner of Fourth avenue and University street. Mr. Klaw is visiting other coast cities, including Victoria and Vancouver, and it is understood that his firm may build or lease theatres in some of them.

In the telegraphic dispatch telling of Mr. Klaw's plans for Seattle it was mentioned that "none of the hundred attractions of the firm will be seen on the Pacific coast this season, the John Cort organization having obtained control of all the theatres." This is all nonsense. Klaw and Erlanger can book dates for their attractions in any of the theatres controlled by the Northwest Theatrical Association, as they have done in the past. There are a host of their shows which we do not want here as a gift, while as for the meritorious ones the heads of the now defunct "trust" are not averse to collecting the receipts whether these are produced in a trust house or an independent one. There is money to be made on the Pacific coast circuit, and Klaw and Erlanger know that.

If Mr. Klaw has any theatrical plans in mind for Victoria we will, doubtless, soon know what they are.

Two excellent attractions have been

popularity of the house and are putting on a first class line of musical comedy.

Mr. Pantages does not intend to leave Victoria out of his circuit of theatres and, although his plans are not complete yet, he will likely build an up-to-date theatre at an early date.

There died in New York a short time ago a tragedian of the old school, John B. Studley, who half-a-century ago cut some figure upon the stage. He played with Edwin Booth, McCullough, Forrest, Charlotte Cushman and many others of familiar name, and in later years he was leading man with Mary Anderson. A recital of even a few of the parts he has portrayed would recall famous old plays which the present generation has never seen.

He lived to be eighty, and for the past twenty years had been living at the Playbill Restaurant, one of the few links with the days when the theatrical centre of New York was below Fourteenth street. Studley clung to the old right to dwell among the memories of long by-gone days, modern stage-people, and in dress, walk and talk was just such an old-time actor as we to-day depict in caricature.

A correspondent of a Belfast paper, thirsting for information on theatrical

of the suffragette proposition. The comedy ends with the announcement that the woman has lost the election, and then there is applause.

"A Poseville Flirtation" is one of those entertaining little stage things where budding youth and maidenhood have a chance to perform. The performers in this little sketch, which comes here Monday, are Powers and Wilson, appearing in boy and girl parts and filling the act in with much melody and dancing.

Alex. Brisson, an athlete extraordinary, is billed to appear here in a series of most thrilling feats. He is of the new equilibratic school, which has caused such a revolution in athletics and stage-performances. This class of turn gives a wide field, and Brisson has explored it and found much that is new. This he will show here next week.

A bag-punching exhibition will delight patrons of the theatre on the bill of next week when the Vargas appear. They are a man and a woman and are far above the average as punch-bag artists. The act will finish with six or seven bags in motion at the same time. Miss Kate Fowler will appear in a songologue and have a grand piano on the stage with which to accompany herself. She will be heard in a number of new pianoforte selections, which are classed in the very select grade. Such an act will no doubt be largely welcomed here.

Thomas J. Price, the foremost vaudeville singer of the Northwest, will be heard in the latest musical composition, and the moving pictures will be there as usual to delight the lovers of the flickering film.

Claman Players. The well-known Claman Players, with their own ten-piece feature band and orchestra, will open at the Victoria theatre on Monday, September 19, in that extremely funny comedy by Chas. E. Schilling, "Two Married Men."

NIGHT RIDERS BURNED.

BROOKVILLE, Ky., Sept. 15.—Night riders presumably burned two barns in Bracken county last night, and although the losses were small, both equity and anti-equity men suffered. The barns of W. O. Broadford, an equity society initiator, and George B. Kenney, a nonequity planter, being burned.

COLEMAN

IMPORTANT SALE

OF

Building Lots

In the Townsite of

Coleman, Alta.

Situated in the Famous Crow's Nest Coal Fields

Headquarters of the Gigantic Colonies of the International Coal and Coke Co., Ltd.

Monday and Tuesday Sept. 19, 20, 1910

the remainder of the company's Real Estate Holdings in the City of Coleman, Alberta, comprising some Three Hundred eligible business and residential sites, located in this thriving industrial centre. For further and full particulars, plans, maps, photographs, etc., apply to the Auctioneer,

Stewart Williams

637 Fort Street. Victoria, B. C.

Miss Mabel Charlebois and show girls, as Lady Leslie and fair co-eds in "A Stubborn Cinderella," which will be seen at the Victoria Theatre on Tuesday evening.

lost by Victoria in the past fortnight. Walker Whitehead was billed for the Victoria theatre for Thursday night of last week in Zangwill's "The Melting Pot," and very many were looking forward with pleasure to seeing actor and play. The company was routed from Vancouver to the capital and thence to Seattle, but when it was found that to play Victoria meant remaining here all the next day and not reaching Seattle until nearly 9 o'clock—too late to fill the engagement there—the appearance here was cancelled. The things the manager is reported to have said when he found there was now only one steamer a day to the Sound city, and that a late one, we must decline to repeat.

Then for Thursday last past Frederic Clarke was advertised to play "The Maxxman." In that case the Great Northern train on which the company was travelling was held up by forest fires near Bellingham and it was impossible to reach Seattle in time to get the steamer for Victoria.

It will probably take Victorians a little time to get accustomed to calling Pentage's theatre The Lyceum, which is the name under which this popular Johnson street playhouse reopened under on Monday last. Managers Lewis and Hunt are sustaining the

matters, recently addressed a letter to "The Manager in charge of 'The Naked Truth,' London." The postman, unaware of the play of that name,

EVANGELENE CLAMAN, Appearing at the Victoria Monday Evening in "Two Married Men."

though it had been running for some months, delivered the letter at the Westminster Public Baths! That postman certainly had a sense of humor.

The ADVANCE MAN

New Grand Theatre.

The hilarious sketch entitled "The Suffragette" is coming to Victoria with the original people in the cast. It will open here at the Grand theatre head-liner on Monday afternoon, with Franklyn Ardelle in the leading character and supported by another clever performer. "The Suffragette" shows the candidature of woman for mayor, policeman, premier, city engineer, water controller and every other eagerly-sought civic appointment. Franklyn Ardelle as candidate for mayor learns that his wife is out for the same office in the suffragette interest. He then gets in to defend the men and in rare lines of comedy shows the foolishness

"I Honestly Believe 'FRUIT-A-TIVES'"

The Greatest Cure For Rheumatism in the World

"Knowlton, Que., Oct. 12th, 1905.
 "For many years I suffered from severe Rheumatism, and the attacks were very distressing and prevented me from doing my ordinary work. I tried many remedies and physicians' treatments, but nothing seemed to do me much good, and I was becoming very anxious, for fear I would become a permanent cripple from the disease.

"I tried 'Fruit-a-tives' and this medicine has entirely cured me, and I honestly believe it is the greatest Rheumatism cure in the world."
 "E. R. MILLS."

Such a statement could not be bought from a man like Mr. Mills. He thinks too much of his good name to sell it or sign it to an untruth. Mr. Mills tried "Fruit-a-tives" after all other treatment failed—and "Fruit-a-tives" cured him of Rheumatism. In the goodness of his heart, he wrote the above letter in order that sufferers in all parts of Canada would know that there is one remedy that actually does cure Rheumatism. This testimonial was entirely unsolicited on our part. We did not know that Mr. Mills was taking "Fruit-a-tives" until we received the above letter.

It is a case like Mr. Mills that proves the marvellous powers of "Fruit-a-tives" in arresting and curing disease. It may be stated, without fear of contradiction, that "Fruit-a-tives" will positively cure Rheumatism when properly used.

"Fruit-a-tives" is the only medicine in the world made of fruit juices and is the greatest Rheumatism cure known to modern science.

Fifty cents a box, 6 for \$2.50, or trial box 25c. Sold by all dealers or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

SYLVESTER'S HENFOOD FOR POULTRY
 Is the food of the day, contains everything that the laying hens require for the production of eggs. Thousands are using it; why not you? \$2.25 per 100 lbs.
