SUBJECT: Request for Reparations Equipment from Hirakata Arsenal (Plant Code Number 32-31)

TO: Supreme Commander for the Allied Powers
APO 500
ATTN: Civil Property Custodian
Reparations Property Division

1. A substation at Sagami-hara Housing Area near Zama is being proposed to augment the critical electric power shortage. This substation when completed will be used solely for the Occupation Forces needs.

2. A list of electrical equipment and material available from reparations source has been compiled at the Hirakata Arsenal (32-31) in Hirakata City. The removal of these items for installation in the Sagami-hara substation will not have an adverse affect in the Japanese economy.

3. The time required to manufacture these items would cover approximately nine months.

4. To expedite the completion of the substation within an allotted time, it is essential that ready-made items be made available to the contractors. Therefore, it is requested that the reparations items listed on inclosure be approved for authorized use to Regional Post Engineer, Camp Zama, Account 8A-433-PE.

 " " 232
 " " 235

These machines were inventoried at the Maizuru Branch of former Naval Academy by the Maizuru Naval Station Custodial Office of Machineries (22-29) in July 1946. Afterwards, in January 1947 when the Maizuru Naval Station Custodial Office of Machineries were discontinued and merged into the Maizuru Naval Arsenal Custodial Office (22-24), those machineries were excluded from custody because of the area where they were stored having been occupied by the Maizuru Detachment of the 35th Infantry Regiment. But later in February 1948 when the above office was instructed by the Kyoto M. G. to inventory the rests of machineries in the area occupied by the Occupation Force, they could not find out the machineries in question.

 U - 22
 U - 24
 U - 4

These machineries coincide with the items listed as non-inventoried items at the time of original inventoring conducted in compliance with OD 5/4, in the Maizuru Naval Station Custodial Office of Machineries.

3. The machineries mentioned in par. 1 and 2 above are supposed to have been transported from Maizuru to Otsu by the 35th Infantry Regiment.
