GUARD FORCE REQUIREMENTS

Section 81.44 is hereby added as follows:

§ 81.44 *Guard force regulations.* All facilities operating as contractors or subcontractors in the production of munitions will be advised that members of guard forces must comply with the fol-

(1) He will be physically fit to perform his duties properly in an efficient manner.

(2) He will be properly uniformed.

(3) He will be provided with a badge approved by the War Department.

(4) He will carry at all times an identification card bearing his photograph, fingerprints, signature, and description properly authenticated by the War Department.

(5) He will be armed with appropriate weapons if such arming is recommended by the plant protection officer of the Procurement District in which the guard is employed. Guards will be thoroughly trained in the use of firearms prior to the issuance to them of such arms.

(6) Each member of a guard force will execute the following agreement:

In order that the military forces of the United States may be most effectively employed in combatting the enemies of the United States, there are employed, for the purpose of guarding and protecting war material, war premises, and war utilities, certain civilian guards. The United States requires that only persons of unquestionable loyalty to the United States be so employed.

The Secretary of War or his authorized representative may at any time direct a contractor or subcontractor to terminate the services of an employee if, in the opinion of the Secretary of War or his authorized representative, the continued employment of such employee is or may be inimical to the interests of the United States.

Now, therefore, I, John Doe, who have been or am about to be employed by----- as a guard at-----

for the purpose of guarding certain war material, war premises, and war utilities, in consideration of approval by the United States of America of my employment, or the continuation of my employment by the said firm for that purpose, do agree with the United States of America that:

I will support and defend the Constitution of the United States against all enemies, foreign and domestic;

I will bear true faith and allegiance to the Constitution of the United States;

I will well and faithfully discharge my duty to protect war material, war premises, and war utilities against all enemies, foreign and domestic;

I will not permit any activity or occurrence to interfere in any way, directly or indirectly, with the performance of my duty to protect such war material, war premises, and war utilities.

(Signature of Employee)

(b) Any member of a guard force who does not comply with such regulations will be relieved from duty immediately.

(c) Compliance with the provisions of this circular by all members of guard forces will be obtained prior to June 1, 1942. (R.S. 161; 5 U.S.C. 22) [Proc.

When emergency shipments require the use of this bridge, the local authorities will be notified in order that adequate safeguards may be taken.

(b) High explosives being moved by motor transport will normally be routed over the Tacony-Palmyra Bridge near Bridesburg, Philadelphia, or the Bristol Burlington and Trenton Bridges or ferry service at Philadelphia will be used. Chapter I—Civil Aeronautics Board

[Amendment 15-2, Civil Air Regs.]

PART 15—AIRCRAFT EQUIPMENT
AIRWORTHINESS

AMENDING THE BRAKE REQUIREMENTS FOR TRANSPORT AND NONTRANSPORT CATEGORY AIRPLANES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 11th day of May, 1942.

Acting pursuant to sections 205 (a), 601, 603 and 605 of the Civil Aeronautics Act of 1938, as amended, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective July 1, 1942, Part 15 of the Civil Air Regulations is amended as follows:

By striking § 15.104 and inserting in lieu thereof the following:

§ 15.104 *Brakes.*

§ 15.1040 *Testing of brakes for certification.* (a) A wheel-brake combina-

tion shall demonstrate satisfactory performance during 100 tests simulating the stopping of an airplane at an average deceleration of at least 10 feet per second per second, from a speed chosen by the applicant. The kinetic energy absorbed per stop shall be computed and the wheel-brake combination shall be certificated for a kinetic energy absorption not in excess of the amount so determined.

(b) To be eligible for use on airplanes certificated in accordance with the transport category requirements of Part 04, a wheel-brake combination shall further demonstrate satisfactory performance during three tests identical with those specified in paragraph (a) except that the speed shall be increased to obtain a kinetic energy absorption 125% of that determined under that paragraph.

§ 15.1041-T *Adaptation of brakes to airplanes—Transport category.* (a) An airplane certificated in accordance with the transport category requirements of Part 04 shall make use of wheel-brake combinations for which the summation of the kinetic energy ratings of the brakes used in the main landing gear is at least equal to:

$$K. E. = .0334 W V_s^3$$

where:

K. E.—kinetic energy in foot-pounds.

W —the maximum landing weight of the airplane

V_s —the power off stalling speed of the airplane in miles per hour at sea level in standard air at maximum landing weight.

(b) The wheel-brake combinations used in such airplane shall have been tested, in determining the kinetic energy absorption under § 15.1040, from a speed lying between 80% and 100% of V_s.

§ 15.1042. *Design.* Brakes shall be free from any undue tendency to lock or jam, and shall be suitably shielded from water, mud, and oil.

§ 15.1043 *Static torque.* The maximum available static torque in reverse shall be at least 40% of the forward static torque when both are measured at the same applied pedal force.

§ 15.1044 *Adjustment.* When necessary to insure satisfactory performance, the brake mechanism shall be equipped with suitable adjustment devices to compensate for disc or lining wear, heat, and other normal service effects.

§ 15.1045 *Strength.* The brake and all of its attachments to the wheel shall be designed with an ultimate strength sufficient to withstand a torque which is 1.6 R/B, where R is the rolling radius of the tire and B is the number of brakes. A static test of the brake and wheel shall demonstrate that the assembly is capable of withstanding a torque which is 80% of the above without yielding to the point of impairing service operation.

§ 15.1046 *Test log.* A log of the test runs shall be submitted together with

other calculations which are necessary to indicate compliance with the above brake regulations.

§ 15.1047 *Identification data.* Each certificated brake shall bear the following identification as prescribed in § 15.042 (e): The foot-pounds of kinetic energy for which it is approved.

By the addition of a new § 60.960 reading as follows:

§ 60.960 *Transmission of weather information by pilots during the present war emergency.* (a) A pilot of aircraft in flight shall transmit weather information only in code: *Provided*, That such information may be transmitted in plain language in extreme emergency involving safety of life or property. In the event of such deviation from code, a report shall be made to the Administrator within 24 hours setting forth fully the reasons therefor.

(b) A pilot of aircraft in flight shall not repeat weather information received from ground stations, or use the terms "On top", "CFR", "CTC/Altitude", and "Altitude/CFR" when transmitting flight plans by radio.

(c) Immediately upon completion of flight, aircraft landing code forms supplied pilots shall be surrendered to the appropriate flight clearance officer, or military, or company operations office, or destroyed where such surrender is impracticable for reasons beyond the control of the pilot. A report shall be made in writing to the Administrator within 24 hours of the destruction of such code setting forth in detail the reasons for such destruction.

IN THE MATTER OF THE PETITION OF DIS-
TRICT BOARD NO. 8 FOR THE ESTABLISH-
MENT OF PRICE CLASSIFICATIONS AND MIN-
IMUM PRICES FOR THE COALS OF CERTAIN
MINES IN DISTRICT NO. 8

In an Order dated November 27, 1941, 6 F.R. 6597, granting temporary relief and conditionally providing for final relief in the above-entitled proceeding, the following typographical error occurred:

In Supplement R, § 328.11 (*Alphabetical list of code members*), annexed to and made a part of the aforementioned Order, Freight Origin Group No. 111 was

erroneously listed as the freight origin group number for Mine Index No. 2755 of Q. E. Sexton & T. H. Lingerfelt. This mine should be listed in Freight Origin Group No. 140 instead of No. 111.

It appears that this typographical error should be corrected as set forth above. Accordingly, it is so ordered.

PART 1010—SUSPENSION ORDERS

SUSPENSION ORDER NO. S-43—TWIN CITY BRASS AND ALUMINUM FOUNDRY CO.

Twin City Brass and Aluminum Foundry Company, located at 1924 Washington Avenue, South, Minneapolis, Minnesota, operates a foundry for melting and otherwise processing aluminum. During the 30-day period ending October 10, 1941, the Company made deliveries of 5,345 pounds of aluminum despite the fact that such deliveries had not been authorized by the Director of Priorities on Form PD-26a. These deliveries constituted violations of General Preference Order M-1 and Supplementary Order M-1-a. The Company further violated Supplementary Order M-1-a during this period in delivering, pursuant to an unauthorized toll agreement, 5,000 pounds of aluminum. Violations of Supplementary Order M-1-c were also committed by the Company in accepting deliveries of 8,572 pounds of aluminum scrap for the purpose of melting or otherwise processing the same despite the fact that no preference ratings had been assigned thereto nor other authorization obtained therefor. During January and February, 1942, the Company, in violation of Supplementary Order M-1-d, purchased and used 3,000 pounds of aluminum scrap despite the fact that it had neither requested nor received specific authorization therefor from the Director of Industry Operations. Further, during the month of February, 1942, the Company violated General Preference Order M-1 and Supplementary Order M-1-a in making deliveries of 2,144 pounds of aluminum which had not been authorized for delivery by the Director of Industry Operations.

These violations of the orders dealing with the distribution of aluminum have impeded and hampered the war effort of the United States by diverting aluminum to uses unauthorized by the War Production Board. In view of the foregoing facts,

It is hereby ordered:

§ 1010.43 *Suspension Order S-43.* (a) Twin City Brass and Aluminum Foundry Company, its successors and assigns, shall accept no deliveries from any source of primary aluminum, secondary aluminum,

aluminum scrap or alloys of which aluminum constituted the major part, except as specifically authorized by the Director of Industry Operations.

(b) Beginning 10 days after the effective date of this Order, Twin City Brass and Aluminum Foundry Company, its successors and assigns, shall not process any primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as specifically authorized by the Director of Industry Operations.

(c) Twin City Brass and Aluminum Foundry Company, its successors and assigns, shall make no deliveries of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, except as specifically authorized by the Director of Industry Operations.

(d) No person shall deliver to nor receive from Twin City Brass and Aluminum Foundry Company, its successors and assigns, any primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, the delivery or receipt of which is prohibited by this Order, except as specifically authorized by the Director of Industry Operations.

(e) Deliveries of material to Twin City Brass and Aluminum Foundry Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to Twin City Brass and Aluminum Foundry Company by means of Preference Rating Certificates, Preference Rating Orders, General Preference Orders or any other orders or regulations of the Director of Industry Operations, except as specifically authorized by the Director of Industry Operations.

(f) No allocation shall be made to Twin City Brass and Aluminum Foundry Company, its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations, except as specifically authorized by the Director of Industry Operations.

(g) Nothing contained in this order shall be deemed to relieve Twin City Brass and Aluminum Foundry Company, its successors and assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations.

(h) This order shall take effect on May 17, 1942, and shall expire at midnight on the 17th day of August 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1315—RUBBER AND PRODUCTS AND
MATERIALS OF WHICH RUBBER IS A COM-
PONENTMAXIMUM PRICE REGULATION NO. 143 —
WHOLESALE PRICES FOR NEW RUBBER TIRES
AND TUBES

In the judgment of the Price Administrator, the wholesale prices of new rubber tires and tubes have risen and are threatening further to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the wholesale prices of new rubber tires and tubes prevailing between October 1 and October 15, 1941, and has made adjustment for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1¹ issued by the Office of Price Administration, Maximum Price Regulation No. 143 is hereby issued.

AUTHORITY: §§ 1315.1501 to 1315.1511 inclusive, issued under Pub. Law 421, 77th Cong.

(1) The highest net price charged by the seller for new rubber tires or tubes of the same brand, type, quality and size delivered during March, 1942, to a purchaser of the same class.

(2) A price determined by taking the highest net price charged by the seller for new rubber tires or tubes of the same brand, type, quality and size delivered during March, 1942 to the most comparable purchaser and adjusting such price in accordance with the price differentials prevailing in the industry between such purchasers on March 1, 1942.

(3) A price determined by ascertaining in accordance with the provisions of subparagraphs (1) or (2), the maximum price for the new rubber tires or tubes which are most comparable as to type, quality, and size, and adjusting such price in accordance with the price differentials prevailing in the industry on March 1, 1942, for differences in brand, type, quality, and size.

(4) A price determined by taking the net price charged by the seller for the last delivery prior to March 1942, of new rubber tires or tubes which are comparable as to type, quality, and size and adjusting such price in accordance with the price differentials prevailing in the industry on March 1, 1942, for differences in brand, type, quality, and size and for differences between purchasers.

(b) *Passenger-car tires and tubes other than Exhibit C.* The maximum wholesale price for any new rubber passenger-car tires or tubes, except Exhibit C passenger-car tires and tubes, shall be the first applicable price among the prices set forth in the following subparagraphs (1) to (4), inclusive:

(2) A price determined by taking the highest net price charged by the seller

for new rubber passenger-car tires or tubes of the same brand, type, quality and size delivered during March, 1942, to the most comparable purchaser, adjusting such price in accordance with the price differentials prevailing in the industry between such purchasers on March 1, 1942, and adding to such adjusted price a dollar amount equal to 16% of the maximum retail price in effect on April 24, 1942, under Revised Price Schedule No. 63, for such new rubber passenger-car tires or tubes.

(3) A price determined by ascertaining in accordance with the provisions of subparagraphs (1) or (2), for the new rubber passenger-car tires or tubes which are most comparable as to type, quality and size, the base price to which the percentage of the maximum retail price is to be added under these subparagraphs, adjusting such base price in accordance with the price differentials prevailing in the industry on March 1, 1942, for differences in brand, type, quality and size, and adding to such adjusted base price a dollar amount equal to 16% of the maximum retail price in effect on April 24, 1942, under Revised Price Schedule No. 63, for the particular new rubber passenger-car tires or tubes for which a maximum wholesale price is being determined under this subparagraph (3).

(4) A price determined by taking the net price charged by the seller for the last delivery prior to March, 1942, of new rubber passenger-car tires or tubes which are comparable as to type, quality and size, adjusting such price in accordance with the price differentials prevailing in the industry on March 1, 1942, for differences in brand, type, quality and size and for differences between purchasers, and adding to such adjusted price a dollar amount equal to 16% of the maximum retail price in effect on April 24, 1942, under Revised Price Schedule No. 63, for the particular new rubber passenger-car tires or tubes for which a maximum wholesale price is being determined under this subparagraph (4).

(c) *Exhibit C passenger-car tires and tubes.* (1) The maximum wholesale price for any Exhibit C passenger-car tires or tubes shall be a price determined according to whichever of the following subdivisions (i) to (iii) is applicable:

(i) If the Exhibit C filed with the Office of Price Administration on which the particular tires or tubes are listed sets forth consumer list prices, the maximum price for such tires or tubes shall be a price determined by taking the price set forth on the Exhibit C list for tires or tubes of the same brand, type, quality and size; deducting the prescribed 20, 40, or 60 percent discount set forth for such tires or tubes on the Exhibit C; applying to the price which results after such prescribed discount is deducted all discounts from consumer list prices which the seller had in effect on March 1, 1942, for a purchaser of the same class

on current brands of tires or tubes which are comparable as to type, quality and size; and increasing that resultant price by a dollar amount equal to 16% of the price set forth on the Exhibit C list, after deducting the prescribed 20, 40, or 60% discount, for the tires or tubes for which a maximum wholesale price is being computed.

(ii) If the Exhibit C filed with the Office of Price Administration on which the particular tires or tubes are listed sets forth net wholesale prices, the maximum price for such tires or tubes applicable to the manufacturer or distributor who filed such Exhibit C, shall be a price determined by taking the price set forth on the Exhibit C list for tires or tubes of the same brand, type, quality and size which is applicable to the class of purchasers in which the particular buyer falls; deducting the prescribed 20, 40, or 60% discount set forth for such tires or tubes on the Exhibit C; applying to the price which results after such prescribed discount is deducted all discounts, if any, from such net wholesale prices which the seller had in effect on March 1, 1942, for a purchaser of the same class on current brands of tires or tubes which are comparable as to type, quality and size; and increasing that resultant price by a dollar amount equal to 16% of a consumer list price for the tires or tubes for which a maximum wholesale price is being computed, which consumer list price shall be computed as follows:

Take the maximum retail price in effect on April 24, 1942, under Revised Price Schedule No. 63—Retail Prices for New Rubber Tires and Tubes, for the passenger-car tires or tubes of the same manufacturer or distributor which are most comparable as to type, quality, and size; adjust such price in accordance with the price differentials prevailing in the industry on March 1, 1942, for differences in brand, type, quality and size; and deduct the prescribed 20, 40, or 60 per cent discount set forth on Exhibit C for the tires or tubes for which a maximum wholesale price is being computed.

(iii) If the Exhibit C filed with the Office of Price Administration on which the particular tires or tubes are listed sets forth net wholesale prices, the maximum price for such tires or tubes applicable to any seller other than the manufacturer or distributor who filed such Exhibit C, shall be a price determined by taking the price set forth on the Exhibit C list for tires or tubes of the same brand, type, quality and size which is applicable to the seller on his purchases of such tires; deducting the prescribed 20, 40, or 60 per cent discount set forth for such tires or tubes on the Exhibit C; applying to the price which results after such prescribed discount is deducted the normal mark-up which the seller had in effect on March 1, 1942 for a purchaser of the same class on current brands of tires or tubes which are comparable as to type, quality and size; and increasing that resultant price by a dollar amount equal to 16% of a consumer list price for the tires or tubes for which a maximum wholesale price is being computed, which con-

sumer list price shall be computed as follows:

Take the maximum retail price in effect on April 24, 1942, under Revised Price Schedule No. 63—Retail Prices for New Rubber Tires and Tubes, for the passenger-car tires or tubes of the same manufacturer or distributor which are most comparable as to type, quality, and size; adjust such price in accordance with the price differentials prevailing in the industry on March 1, 1942, for differences in brand, type, quality and size; and deduct the prescribed 20, 40 or 60 per cent discount set forth in Exhibit C for the tires or tubes for which a maximum wholesale price is being computed.

(2) It shall be the duty of the seller to determine which of the tires or tubes he is selling appear on the Exhibit C filed with the Office of Price Administration by the manufacturer or distributor thereof, the prices set forth for such tires or tubes on the Exhibit C list, whether such prices are consumer list prices or net wholesale prices, whether a discount of 20, 40, or 60 per cent is prescribed by the Exhibit C for such tires or tubes, and any other information which is necessary to enable the seller to determine the maximum prices for Exhibit C passenger-car tires or tubes under subparagraph (1) of this paragraph. Such information can ordinarily be obtained from the manufacturer or distributor of the tires or tubes involved. All such information can be obtained by any seller by writing to the Office of Price Administration, Washington, D. C., where an accurate Exhibit C for each manufacturer and distributor is on file and available for inspection at all times.

(d) *Sales for export.* The maximum wholesale price at which a person may export any new rubber tires or tubes shall be determined in accordance with the provisions of the Maximum Export Price Regulation⁷ issued by the Office of Price Administration on April 25, 1942.

(e) *Taxes.* (1) If the seller customarily stated and collected separately from the purchase price during March, 1942, the Federal Excise Tax levied in respect to tires and tubes, the seller shall not include the tax in determining the maximum price under paragraphs (a) or (b) of this section and in such case may collect the dollar amount of such tax in addition to the maximum price.

(2) If the seller did not customarily state and collect separately from the purchase price during March 1942, the Federal Excise Tax levied in respect to tires and tubes, the seller shall include the tax in determining the maximum price under paragraphs (a) or (b) of this section and in such case may not collect the tax in addition to the maximum price.

In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1315.1504 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 143 shall not be evaded whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or relating to new rubber tires or tubes, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

PART 1505—TRANSPORTATION

UTILIZATION OF TANK CARS

To the Transportation Committees for Districts One, Two, Three, Four and Five; to all persons owning, operating, leasing, or otherwise interested in any tank car; and to all persons owning, operating, or otherwise interested in any petroleum refinery or water or pipeline terminal within the continental United States:

In order to alleviate the serious adverse effect upon the war program of the scarcity of petroleum and petroleum products in the Atlantic Seaboard area

¹The designation of this office was changed from "Office of Petroleum Coordinator for National Defense" to "Office of Petroleum Coordinator for War" by Presidential letter dated April 20, 1942.

and the Pacific Northwest caused by the shortage of tanker capacity resulting from the exigencies of warfare, great numbers of tank cars normally employed in moving petroleum in and into other areas of the United States have been withdrawn from such areas to serve the Pacific Northwest and the Atlantic Seaboard. It is essential to the successful prosecution of the war that these tank cars and all other tank cars within the United States be utilized with maximum efficiency in order that the largest possible quantity of petroleum and petroleum products may be moved overland to points of greatest need.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for War, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1505.73 and 1505.74 issued under the President's letter of May 28 to the Secretary of the Interior, 6 F.R. 2760.

§ 1505.73 *Supply of tank cars at Refineries.* No more than one day's supply of empty tank cars shall be held at any refinery for the movement of any petroleum or petroleum product: *Provided,* That a two days' supply of empty tank cars may be held at any refinery for the movement of any of the following named petroleum products:

- (a) Aviation gasoline.
- (b) Aviation gasoline components.
- (c) Special naphthas.
- (d) Liquefied petroleum gases.
- (e) Toluol and toluene.
- (f) Butadiene.
- (g) Lubricating oils.

§ 1505.74 *Supply of tank cars at water and pipeline terminals.* No more than one day's supply of empty tank cars for handling clean products shall be held at any water or pipeline petroleum terminal.

[Recommendation No. 49]

PART 1505—TRANSPORTATION

EXPANSION OF FACILITIES OTHER THAN TANK
CARS

To the General Committees for Districts One, Two, and Three, the Temporary Joint Pipeline Managing Subcommittee, the Temporary Joint Pipeline Engineering Subcommittee, such other subcommittees as may be appointed pursuant to this Recommendation, and to all persons, natural or artificial, engaged in the petroleum industry in Districts One, Two, and Three:

The diversion for war and other essential purposes of a part of the American tanker fleet normally employed in transporting petroleum and petroleum products to the Atlantic Seaboard area, and the loss through war action of other vessels of that fleet, has resulted in a shortage of transportation facilities to

move the quantities of petroleum and petroleum products required in such area to meet military, industrial, and essential civilian requirements. It is essential to the successful prosecution of the war that expansion of alternative transportation facilities, including pipelines, for the movement of petroleum and petroleum products to this area be undertaken immediately in order to alleviate this shortage to the greatest possible extent.

The Petroleum Coordinator for War, pursuant to the provisions of Recommendation No. 24, as amended, requested the Petroleum Industry War Council to formulate and present to him concrete and specific plans to provide additional pipeline capacity to serve the shortage area and by such means as might be necessary, including construction, reconstruction, relocation, expansion, extension, conversion, and reversal, to increase the capacity and efficiency of existing pipelines in the shortage area and in areas tributary thereto. The Petroleum Industry War Council has now proposed such a plan which will enable the temporary joint pipeline managing subcommittee and the temporary joint pipeline engineering subcommittee, established pursuant to this recommendation, subject to the approval and under the direction of the Petroleum Coordinator for War, to undertake a program which will contribute substantially to the accomplishment of these objectives. This recommendation is issued in furtherance of the plan proposed.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for War, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1505.76 to 1505.84, inclusive issued under the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1505.76 *Designation of temporary joint pipeline subcommittees.* A temporary joint pipeline managing subcommittee and a temporary joint pipeline engineering subcommittee shall be designated by the Chairman of the General District Committees for Districts One, Two, and Three, the membership of which shall be subject to the approval of the Petroleum Coordinator for War or the Deputy Petroleum Coordinator, to perform the functions and exercise the authority provided herein.

§ 1505.77 *Studies and investigations.* The temporary joint pipeline managing subcommittee and the temporary joint pipeline engineering subcommittee shall make such studies and shall obtain, analyze, and keep current all pertinent facts, figures, and other data with respect to their respective functions as may be necessary or desirable in connection with the effectuation of the objectives of this recommendation.

§ 1505.78 *Duties and functions of the temporary joint pipeline managing subcommittee.* The temporary joint pipeline managing subcommittee shall prepare plans for submission to the Chief Counsel of the Office of Petroleum Coordinator for War for the construction, financing, and operation of the pipeline

projects listed in § 1505.81, and of such other projects for the construction, reconstruction, relocation, expansion, extension, conversion, or reversal of any pipeline as may be submitted to the said subcommittee by the Director of Transportation of the Office of Petroleum Coordinator for War, or as may be raised and considered by the said subcommittee on its own motion.

§ 1505.79 *Provisions of plans.* Without limitation as to other necessary or desirable provisions, the plans provided for in § 1505.78 may provide for:

(a) The joint construction, ownership, and operation of such pipelines;

(b) The sale, exchange, loan, or pooling of petroleum or petroleum products wherever and whatever extent may be necessary to operate such pipelines at maximum capacity;

(c) The use of pipeline, transport, barge, terminal, and storage facilities without regard to individual ownership thereof wherever necessary for the most efficient operation of any pipeline project approved in accordance with the terms of this recommendation.

§ 1505.80 *Duties and functions of the temporary joint pipeline engineering subcommittee.* The temporary joint pipeline engineering subcommittee shall make and report to the Director of Transportation of the Office of Petroleum Coordinator for War the findings and recommendations of such engineering studies and investigations as may be necessary or desirable in connection with the pipeline projects listed in § 1505.81, and in connection with any plan or proposal for the construction, reconstruction, relocation, expansion, extension, conversion, or reversal of any pipeline project submitted to the said subcommittee by the said Director of Transportation or raised and considered by the said subcommittee on its own motion.

§ 1505.81 *Pipeline projects.* Without limitation as to other projects or activities directed herein, the temporary joint pipeline managing subcommittee and the temporary joint pipeline engineering subcommittee shall immediately, in accordance with the provisions of this recommendation, do all things as herein in this recommendation set forth relative to the following pipeline projects:

(a) To increase by 25,000 barrels per day the movement of crude oil from Texas north and east through existing pipeline systems by means of the installation of additional pumping units, loop lines, and the reversal of the Tuscarora Pipeline.

(b) The Plantation Pipeline project:

(1) The construction of a 60,000 barrels per day pipeline from the vicinity of Beaumont, Texas, to Baton Rouge, Louisiana, to supply the Plantation Pipeline.

(g) (1) The conversion and reversal of a 12" crude oil pipeline extending from East Texas to Houston in order to deliver 60,000 barrels per day of refined petroleum products from the Houston refineries to a point in or near the East Texas field.

(2) The construction of a 12" and a 14" pipeline from the East Texas field or its vicinity to deliver 75,000 barrels per day of refined petroleum products to a point near Paducah, Kentucky.

(h) The construction of a 24" crude oil pipeline from East Texas to Salem, Illinois, with a capacity of 300,000 barrels per day and the extension of this line eastward to the refineries of the New York and Philadelphia areas to deliver 250,000 barrels per day crude oil.

(i) The conversion of the 20" pipeline specified in paragraph (f) of this section to a products line and the extension of this line to a point in Western Pennsylvania for connection with existing gasoline lines or the extension of the line further east.

[Recommendation No. 45]

PART 1508—MARKETING

ASPHALT AND ASPHALTIC PRODUCTS

To all State Highway Commissions, and to all Federal, state, county, and municipal bodies or agencies having jurisdiction over the construction, reconstruction, maintenance, or repair of roads and highways in the Atlantic Seaboard area, and to all suppliers of asphalt and asphaltic products and tar and tar products in the aforesaid area:

The diversion for war and other essential purposes of a part of the American tanker fleet normally employed in transporting petroleum and petroleum products to the Atlantic Seaboard Area, and

the loss through war action of other tankers of that fleet, has resulted in a shortage of transportation facilities to move the quantities of petroleum and petroleum products required in such area.

Asphalt and asphaltic products are vital construction materials, essential in many phases of the war program. Because of the inadequacy of tanker transportation and the scarcity of coil equipped tank cars to move asphalt, asphaltic products, and asphaltic crude oils, and because of the urgent need in the Atlantic Seaboard area for crude oils of every kind for the production of fuel oils to meet war demands, a shortage of asphalt and asphaltic products in the said area for war uses will result unless immediate steps are taken to eliminate the use of asphalt and asphaltic products in all cases where its use is not essential to the successful prosecution of the war.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that immediately and until further notice:

AUTHORITY: §§ 1508.44 to 1508.48, inclusive, issued under the President's letter of May 28, 1941, to the Secretary of the Interior, 6 F.R. 2760.

§ 1508.44 *Use of asphalt or tar products on roads and highways.* Subject to the provisions of § 1508.47, the use of asphalt or of any asphaltic product, including road oils, or of tar or any tar product, in the construction, reconstruction, paving, surfacing or resurfacing, and in the maintenance or repair, of any road, street, or highway in the area defined in § 1508.48, and the purchase, sale, delivery or withdrawal from storage of any asphalt or asphaltic product including road oil, or tar or any tar products, for any such use, shall be deferred for the duration of the emergency, except in the case of roads, streets, or highways certified by the Public Roads Administration of the Federal Works Agency to be necessary to the successful prosecution of the war, and for the construction, reconstruction, paving, surfacing or resurfacing, or the maintenance or repair, of which the Public Roads Administration certifies that the use of asphalt or an asphaltic product, including road oil, or tar or a tar product, is essential. Certification by the Public Roads Administration shall be made after review and recommendation by the appropriate state highway department, except in cases of use by or on behalf of an agency of the Federal Government, pursuant to such procedure as the Commissioner of Public Roads may prescribe.

§ 1508.45 *Other surfacing.* Subject to the provisions of § 1508.47, no asphalt or asphaltic product, including road oils, or tar or any tar product, shall be used during the emergency in the construction, reconstruction, paving, surfacing or resurfacing, or in the maintenance or repair, of any driveway, yard, parking area, or any other similar project, excluding airport runways and aprons, in the area defined in § 1508.48.

§ 1508.46 *Transportation of asphalt and asphaltic products.* Asphalt and asphaltic products, including road oils, and tar and tar products, shall be transported by means of tank truck in all movements of 200 miles or less except where suitable tank truck transportation cannot be obtained.

§ 1508.47 *Date of applicability.* In any case where asphalt or any asphaltic product, including road oils, or tar or any tar product, is being used in the construction, reconstruction, paving, surfacing or resurfacing, or in the maintenance or repair of any road, street, or highway in the area defined in § 1508.48, pursuant to a written contract, or pursuant to direction or option under any such written contract, but only where equipment and material has been placed upon the location on or before the date of promulgation of this section, the use thereof shall be permitted for 15 days following such date, but shall be permitted thereafter only upon certification by the Public Roads Administration in the manner contemplated in § 1508.44. The use of asphalt or any asphaltic product, including road oils, or tar or any tar products, in the construction, reconstruction, paving, or surfacing or resurfacing, or in the maintenance or repair of any driveway, yard, parking area, or other similar project, excluding airport runways and aprons, in the area defined in § 1508.48, shall be permitted for 15 days following the date of promulgation of this section, but only where equipment and material has been placed upon the location on or before such date.

§ 1508.48 *Area of applicability.* Sections 1508.44 to 1508.47, inclusive, shall apply in the following area: The States of Connecticut, Delaware, Florida east of the Apalachicola River, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia.

HAROLD L. ICKES,
Petroleum Coordinator
for National Defense.

[Petroleum Directive No. 50]

PART 1510—SUPPLY

ELIMINATION OF OVERLAND CROSSHAULING,
ETC.

The diversion for war of a large part of the American tanker fleet normally employed in transporting petroleum and petroleum products to the Atlantic Seaboard area together with the loss through enemy action of other vessels of that fleet has resulted both in a shortage of petroleum products in that area and in disruption of the balance of refinery operations in that area and other strategic areas in the United States. To minimize this shortage of petroleum products, particularly fuel oil, and to

maintain the required production of war products manufactured both by the petroleum industry and other basic industries dependent upon an adequate and continuous supply of petroleum products, it is necessary to provide additional and supplemental means of transportation through the elimination and reduction of crosshauling overland and the more efficient use of other transportation facilities and to effect an adequate wartime balance of refinery operations.

Now therefore, in order to bring about that action required by the President's letter of May 28, 1941, defining the objectives and duties of the Petroleum Coordinator for War, I do hereby direct that:

AUTHORITY: §§ 1510.1 to 1510.14, inclusive, issued under the President's letter of May 28, 1941, to the Secretary of the Interior, 6 F.R. 2760.

§ 1510.1 *Designation of Joint Tank Car Subcommittee.* The Chairman of the Transportation Committees for Districts One, Two, and Three shall designate, with the approval of the Petroleum Coordinator for War or the Deputy Petroleum Coordinator, a Joint Tank Car Subcommittee for Districts One, Two, and Three, comprised of two members from each of said districts, which subcommittee shall be charged with the responsibility of obtaining maximum efficiency in the use of all tank cars employed by the petroleum industry and of assuring that such tank cars are utilized to meet the critical problems of petroleum supply in each district. The District Director of Transportation for District Two shall sit with the Subcommittee as advisor and consultant in all deliberations of the Subcommittee and shall act as liaison officer between the Director of Transportation of the Office of Petroleum Coordinator and the Subcommittee.

§ 1510.2 *Surveys and investigations.* The Joint Tank Car Subcommittee for Districts One, Two, and Three shall make such surveys and investigations and shall obtain such information with respect to the use and location of tank cars as may be necessary or desirable to accomplish the objectives specified in § 1510.1. All users of tank cars in the petroleum industry in Districts One, Two, and Three shall furnish such information to the subcommittee promptly upon request.

§ 1510.3 *Release of tank cars by users thereof.* In order to provide tank cars for the movement of petroleum and petroleum products as hereinafter in this directive described, the Joint Tank Car Subcommittee shall prepare schedules providing for the release of up to 30 percent of the tank car capacity, whether loaded or empty, in use by or available to each user of petroleum products tank cars in the petroleum industry in Districts One, Two, and Three, at noon on May 4, 1942: *Provided,* That tank cars designed to transport liquefied petroleum gases, acid, or otherwise not suitable for general petroleum transportation service, and tank cars in service from Districts Two and Three into District One shall be excluded from all calculations hereunder. After approval of any such sched-

ule by the Chief Counsel of the Office of Petroleum Coordinator for War, in accordance with the provisions of § 1510.12 each user shall, upon notice from the Joint Tank Car Subcommittee, release such tank cars in accordance with the said schedule for use in the movements directed herein.

§ 1510.4 *Supervision of tank car operations.* The subcommittee shall thereafter investigate the loading, unloading, routing, and handling of all tank cars used in petroleum service in Districts One, Two, and Three and make appropriate recommendations to the owners, users, and handlers of such tank cars to the end that maximum efficiency of tank cars in appropriate supply services may be attained.

§ 1510.5 *Heavy fuel oil from District Three.* In order to increase the supplies of heavy fuel oil in the East Coast Area (U. S. Bureau of Mines District, hereinafter referred to as "East Coast Area") and to provide an outlet for Gulf Coast refineries sufficient to enable such refineries to continue operations, a movement by tank car of 145,000 barrels per day of heavy fuel oil (approximately 75,000 barrels per day in excess of present movement) from Gulf Coast refineries to the East Coast Area shall be arranged as follows:

(a) The Transportation Committee for District Three shall prepare a monthly schedule, including specific points of origin, of tank car loadings of heavy fuel oil of a quality which will permit handling in uncoiled tank cars to be shipped to the East Coast Area. Such schedules shall be prepared in strict accordance with the provisions of the "Plan for the Formulation of Refinery Operating Program and the Distribution of Transportation Outlets in District Three" devised, approved, and directed to be put into operation pursuant to recommendation No. 33, as amended. The schedules shall be filed by the Transportation Committee for District Three with the Supplies and Distribution Subcommittee for District One.

(b) Each person, natural or artificial, engaged in the business of manufacturing heavy fuel oil within the East Coast Area and each person bringing heavy fuel oil or causing heavy fuel oil to be brought into the East Coast Area shall purchase during each calendar month a proportionate share of the fuel oil to be shipped during such month hereunder by tank car from District Three, which shall be at least the same percentage as that percentage which the individual's volume of sales of heavy fuel oil was of the total of all sales of heavy fuel oil made in the East Coast Area during the last six months of 1941 by all East Coast suppliers of heavy fuel. The calculation and assignment of each such person's share of fuel oil shall be made by the Supplies and Distribution Subcommittee for District One and embodied in a monthly schedule showing specific destinations. Each such person shall furnish such Supplies and Distribution Subcommittee with all information necessary for this

purpose. The Supplies and Distribution Subcommittee of District One shall furnish complete information as to such monthly schedules to the Joint Tank Car Subcommittee for Districts One, Two, and Three.

(c) The Joint Tank Car Subcommittee for Districts One, Two, and Three shall secure the necessary tank cars in accordance with the provisions of § 1510.3 and arrange for the use of such cars in the service of moving such fuel oil from locations determined pursuant to paragraph (a) of this section to destinations in the East Coast Area named by the purchasers determined pursuant to paragraph (b) of this section.

§ 1510.6 *Heavy fuel oil from District Two.* In order to increase supplies of heavy fuel oil in the East Coast Area from sources nearest to such area so that the efficient use of transportation facilities may be increased, a movement by tank car of 125,000 barrels per day of heavy fuel oil (approximately 75,000 barrels per day in excess of present movement) from District Two refineries to the East Coast Area shall be arranged as follows:

(a) Subject to the direction of the Director of Refining, Office of Petroleum Coordinator for War, the Refining Committee for District Two shall establish a schedule of fuel oil production for each refinery in District Two, requiring necessary increases in the yield of heavy fuel oil and corresponding decreases in the yield of motor gasoline so that heavy fuel oil of a quality which will permit handling in uncoiled tank cars shall be made available in the quantity required for such movement.

(b) The Supplies and Distribution Subcommittee for District Two shall, subject to the direction of the Director of Supply of the Office of Petroleum Coordinator for War or such District Director as he may designate, arrange for purchases, sales, exchanges, and loans of heavy fuel oil among those engaged in the petroleum industry in District Two in all cases where such transactions will result in concentrating supplies of such heavy fuel oil for such movement at points in District Two where full train-load lots may be loaded.

(c) The Supplies and Distribution Subcommittee for District Two shall, in accordance with the provisions of paragraphs (a) and (b) of this section, prepare and submit to the Supplies and Distribution Subcommittee for District One a monthly schedule, including specific points or origin, of tank-car loadings of heavy fuel oil of a quality which will permit handling in uncoiled tank cars to be shipped to the East Coast Area from such locations in District Two. The Supplies and Distribution Subcommittee for District One shall furnish complete information as to such monthly schedules to the Joint Tank Car Subcommittee for Districts One, Two, and Three.

(d) Each East Coast supplier of heavy fuel oil shall purchase a proportionate share of the heavy fuel oil to be shipped by tank car from District Two. The share of each such supplier shall be calculated and assigned as provided in

§ 1510.5 (b) and embodied in a monthly schedule showing specific destinations.

(e) The Joint Tank Car Subcommittee for Districts One, Two, and Three shall secure the necessary tank cars in accordance with the provisions of § 1510.3 and arrange for the use of such cars in the service of moving such fuel oil from locations determined pursuant to paragraph (c) of this section to destinations in the East Coast Area named by the purchasers determined pursuant to paragraph (d) of this section.

§ 1510.7 *Refinery operations, District One.* In order to maintain production of petroleum war products in refineries in the East Coast Area at required levels, and at the same time both to increase the supply of heavy fuel oil and distribute equitably the available crude oil supplies to all refineries operating in such area, the Refining Committee for District One shall prepare, pursuant to the provisions of Recommendation No. 33, as amended, a plan for refinery operation in District One which shall assign levels of crude oil runs in each refinery in such a manner that:

(a) Required production of petroleum war products shall be maintained with a minimum of crude oil runs in plants producing such war products in accordance with a monthly determination by the Director of Refining, Office of Petroleum Coordinator for War, specifying the petroleum war products the production of which are necessary at stated or maximum rates in District One.

(b) Crude oil supplies currently available to refineries in the East Coast Area shall be assigned to all refineries in this area in such a manner that each refinery will have available, insofar as consistent with paragraph (a) of this section, the same percentage of the total available current crude oil supplies as the percentage which such refinery's crude oil runs in the East Coast Area is to the total crude oil runs of all refineries in the East Coast Area during the last six months of 1941.

The plan shall provide that all refineries in the East Coast Area shall produce the maximum quantity of heavy fuel oil and a minimum quantity of motor gasoline insofar as consistent with paragraph (a) of this section.

§ 1510.8 *Crude oil from East Texas.* In order to increase supplies of crude oil in the East Coast Area so that a total refinery run of 400,000 barrels per day may be maintained in East Coast refineries and to provide an outlet for East Texas crude oil so that supplies of isobutane required for petroleum war products may be maintained, arrangements shall be made as follows:

(a) The Refining Committee for District One shall arrange for a movement by tank car of 100,000 barrels per day of East Texas crude oil, in addition to that now being so moved, and prepare a monthly schedule of such movements showing specific points of loading.

(b) The Refining Committee for District One, in strict accordance with the provisions of § 1510.7, shall calculate and

assign to each refiner in the East Coast Area a proportionate share of the additional crude oil to be brought into the East Coast Area from East Texas, and compile therefrom a monthly schedule showing specific destinations. Each refiner in the East Coast Area shall purchase and bring into District One such proportionate share of such additional crude oil. The Refining Committee for District One shall furnish complete information as to such monthly schedules to the Joint Tank Car Subcommittee for Districts One, Two, and Three.

(c) The Joint Tank Car Subcommittee for Districts One, Two, and Three shall secure the necessary tank cars in accordance with the provisions of § 1510.3 and arrange for the use of such tank cars in the service of moving crude oil pursuant to paragraph (a) of this section to destinations in the East Coast Area named by the purchasers determined pursuant to paragraph (b) of this section.

§ 1510.9 *Gasoline; lake tanker movement.* In order to increase supplies of motor gasoline moving into District One by lake tanker by at least 10,000 barrels per day in excess of present movements, arrangements shall be made as follows:

(a) The Supplies and Distribution Subcommittee for District Two shall, subject to the direction of the Director of Supply of the Office of Petroleum Coordinator for War or of such District Director as he may designate, arrange for purchases, sales, exchanges, and loans of motor gasoline among those engaged in the petroleum industry in District Two so as to make sufficient supplies of motor gasoline of an appropriate quality available for shipment by lake tanker into the Buffalo, New York area of District One and shall notify the Supplies and Distribution Subcommittee for District One of supplies available for such shipment.

(b) The Supplies and Distribution Subcommittee for District One shall notify all primary marketers of motor gasoline in the Buffalo area of the availability of such supplies.

§ 1510.10 *Gasoline; supply sources of Southeast.* In order to maintain supplies of motor gasoline for the States of Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, and Mississippi (hereinafter referred to as the Southeastern Area) and release tank cars for moving petroleum and petroleum products into the North Atlantic area, the following arrangements shall be made:

(a) The Supplies and Distribution Subcommittee for Districts One and Three shall, subject to the direction of the Director of Supply of the Office of Petroleum Coordinator for War or such District Director as he may designate, arrange for purchases, sales, exchanges, and loans of motor gasoline among those engaged in the petroleum industry in Districts One and Three so that the entire supply of motor gasoline for con-

sumption in the Southeastern Area shall be obtained through points of entry on the Mississippi River and the Gulf of Mexico.

(b) The Supplies and Distribution Subcommittee for Districts One and Three shall devise a plan or plans pursuant to Recommendation No. 33, as amended, to accomplish the above objective. Such plan or plans shall include provisions for:

(1) The common use of river and Gulf bulk terminals by all primary suppliers of petroleum products in this area, regardless of ownership of such terminals.

(2) Limitation on use of pipelines for local distribution purposes to the end that the maximum use of such pipelines shall be made to supply the most northerly and easterly portions of this area.

(3) Limitation or elimination of the use of tank cars for local distribution of petroleum products within this area.*

§ 1510.11 *Plan for Florida movement.* The Supplies and Distribution Subcommittee for District One shall, pursuant to Recommendation No. 33, as amended, devise a plan for the movement of at least 100,000 barrels per day of petroleum and petroleum products, by tanker or barge from the Gulf Coast area of Texas and Louisiana to ports on the West Coast of Florida, thence by tank car to points of distribution in District One or to storage at Norfolk, Virginia, for transshipment by tanker, barge, or other transportation methods to points of distribution in District One. Such plan shall be submitted by such committee to the Chief Counsel of the Office of Petroleum Coordinator for War on or before May 15, 1942.

§ 1510.12 *Effectuating plans and schedules.* The committees and subcommittees referred to in §§ 1510.3 to 1510.11, inclusive, and all persons affected by any plan or schedule formulated in accordance with said sections shall, upon the approval of any such plan or schedule by the Chief Counsel of the Office of Petroleum Coordinator for War, carry into effect such plan or schedule according to its terms, conditions, and intent.

§ 1510.13 *Reports.* Each committee or subcommittee affected by this Directive shall file a weekly progress report with the Chairman of the General Committee for the appropriate district. A copy of all reports, schedules, or other documents prepared pursuant to the terms of this Directive shall be forwarded to the appropriate Director in the Office of Petroleum Coordinator for War.

§ 1510.14 *Expenses.* Any expenses incurred by any committee or subcommittee pursuant to the operation of this Directive shall be defrayed by the appropriate General Committee pursuant to the provisions of Recommendation No. 7.

[General Order No. 3]

PART 302—CONDITIONS GOVERNING ISSUANCE OF WARRANTS

MAXIMUM CHARTER HIRE RATES

Whereas by Executive Order of February 7, 1942, the President created the

War Shipping Administration and authorized the War Shipping Administrator to “establish the conditions to be complied with as a condition to receiving priorities and other advantages, as provided in Public Law 173, Seventy-seventh Congress, approved July 14, 1941”;

Whereas it is desirable, in the national interest, publicly to declare the fair and reasonable maximum rates of charter hire or equivalent in which the War Shipping Administration will concur as a condition to the granting, or to the continued recognition, of the warrants authorized by that Act:

Now, therefore, I, Emory S. Land, War Shipping Administrator, hereby prescribe the following as such fair and reasonable maximum rates, effective on and after February 10, 1942, until the Administration or other public rate regulatory authority having jurisdiction and power in the premises, shall otherwise prescribe:

AUTHORITY: §§ 302.1 to 302.3, inclusive, issued under E.O. 9054, 7 F.R. 837.

§ 302.1 *Maximum freight rates.* The maximum rates relating to berth service, lump sum charters or other freighting arrangements shall be those in effect on September 1, 1940 (or comparable charges in case no charge was then in effect) plus such reasonable additional surcharges as were approved by the United States Maritime Commission to become effective on or before February 7, 1942, to cover additional expense of operation due to increases, after September 1, 1940, in the cost of war risk insurance on hull and machinery, war risk P. & I. insurance, life insurance on the crew, internment insurance, crew bonus, increased length of voyage due to routing, convoy, etc., and increases in other operating expenses not assumed by an owner under time charter: *Provided*, That in cases in which the United States Maritime Commission, after September 1, 1940, specified freight rates, such rates shall constitute the maximum rates hereby prescribed, it being understood, however, that such rates may, for the purposes of the Act of July 14, 1941, be hereafter adjusted separately. (U. S. Maritime Commission General Order No. 49 and Supplement No. 1)

§ 302.2 *Revision of rates and surcharges.* The surcharges herein prescribed, and the basic rates on which they are to be calculated, are subject to revision from time to time in the light of changing conditions, pursuant to the provisions of the Act of July 14, 1941, and shall be subject to the provisions of the Shipping Act, 1916, as amended, and related acts; to any proceedings upon complaint by shippers or other interested parties; to any investigation with respect to the surcharge or rates in question, including any findings of fact or conclusions of law, and to any valid orders or directions which may be issued with respect thereto, either by the United States Maritime Commission or the War Shipping Administration. In the determination of such surcharges, valuations for purposes of war risk insurance shall be subject to approval by the War Shipping Administration.

§ 302.3 *Rate orders.* All modifications, amplifications or changes made by the

Administration in the rates and conditions hereby prescribed, pursuant to the Act of July 14, 1941, shall be in the form of "Rate Orders" hereafter to be issued.

By Order of the War Shipping Administration.

PART 301—REGULATIONS AFFECTING MARITIME CARRIERS
DRY CARGO VESSELS—UNIFORM REQUISITION TIME CHARTER

Whereas, an unlimited National Emergency was proclaimed by the President of the United States on May 27, 1941;

Whereas, by Executive Order No. 9054 dated February 7, 1942, the President of the United States conferred upon the War Shipping Administration the functions, duties, and powers with respect to the provisions of Section 902 of the Merchant Marine Act, 1936, as amended, to requisition or charter the use of any vessel or other watercraft owned by citizens of the United States or under construction within the United States, for any period during such emergency;

Whereas, vessels in addition to those otherwise available are and will be necessary for transportation of foreign commerce of the United States or of commodities essential to the national defense and to the prosecution of the war; and

Whereas, pursuant to the aforesaid Proclamation and Executive Order of the President and the provisions of Section 902 of the Merchant Marine Act, 1936, as amended, the Administrator, War Shipping Administration, has requisitioned and will from time to time requisition the use on a time charter basis of vessels owned by citizens of the United States or under construction within the United States;

Now, therefore, it is hereby ordered, That:

Form No. 101.

Warship time.

WAR SHIPPING ADMINISTRATION

UNIFORM TIME CHARTER TERMS AND CONDITIONS FOR DRY CARGO VESSELS (PART II)

CLAUSE 1. The Vessel shall be placed at the disposal of the Charterer at the port of delivery at such safe ready dock, wharf, or place as the Charterer may direct. Any time lost by the Vessel awaiting the availability of such dock, wharf, or place shall count as time on hire. The Vessel on her delivery shall be ready to receive cargo with clean-swept holds and, as far as due diligence can make her so, tight, staunch, strong, and in every way fitted for service, having water ballast, winches, and power sufficient to run all the winches at one and the same time and a Master and a full complement of officers and crew for a vessel of her tonnage, and due diligence shall be exercised by the Owner to maintain her in such state during the currency of this Charter. The Vessel shall be employed in carrying passengers (to the extent permitted by law and available accommodations) and lawful merchandise, including petroleum or its products in proper containers, in lawful trades between safe ports or places within the trading limits of this Charter, as the Charterer or its agents shall direct.

CLAUSE 2. The whole reach and burthen of the Vessel's holds, decks, and usual places of loading (but not more than she can reasonably stow and carry), shall be at the Charterer's disposal, reserving only space proper and sufficient in the opinion of the Master for Vessel's officers and crew, Master's cabin, tackle, apparel, furniture, provisions, fresh water, stores, and fuel.

CLAUSE 3. The Charterer shall (except as otherwise expressly provided herein) pay hire for the use of the Vessel at the rate provided in Part I per calendar month or pro rata for any portion thereof, beginning with the time of her delivery, and continuing until the time of her redelivery in like good order and condition, ordinary wear and tear excepted, to the Owner at the port of redelivery, unless the parties hereto otherwise agree, or if the Vessel shall be lost, until the time of her loss, if known, otherwise to the time last heard from; or in the case of a constructive total loss to the time of the casualty resulting in such constructive total loss, except that where two or more successive casualties contribute to such loss, the time of the casualty last occurring shall be the time when hire ceases. Redelivery shall not be made until completion of repairs of any damage arising from causes specified in Clause 4 (1), and full hire shall continue until completion of such repairs, except to the extent that loss of time is caused by failure of the Owner to exercise due diligence to have such repairs effected promptly and to prevent loss of time.

The hire provided for in this Charter and all other monies accruing in any month in favor of the Owner shall be due and payable on the first day of each calendar month for the preceding month or portion thereof. Unless otherwise provided, the Charterer shall give the Owner written or telegraphic notice of the Vessel's expected date and port of redelivery as provided in Part I.

Cash for any expenses which are for the Owner's account under this Charter may be advanced by the Charterer or its agents, and the Owner shall reimburse or secure the Charterer for such advances, or, at the Charterer's election, the equivalent thereof shall be deducted from the hire. The Charterer shall not, however, be responsible for the application of such advances.

If, pursuant to any applicable laws of the United States or any agreements entered into pursuant thereto, the Owner is required because of the operation of the Vessel as required under this Charter to make any payment to the United States by way of reimbursement of construction differential subsidy or payment of additional interest, then the Charterer shall pay to the Owner any amount so paid, in addition to the hire payable under this Charter.

CLAUSE 4. Payment of hire hereunder shall be reduced one-half to the extent that time is lost to the Charterer:

(a) If the Vessel is prevented, in whole or in part, from working because of a deficiency of men or stores while the Vessel is in the continental United States excluding Alaska, or because of breakdown of machinery, collision, stranding, or fire or other accident or damage to the Vessel or

(b) Because of breach of orders or neglect of duty by the Master, officers or crew;

Provided, however, That, except to the extent that loss of time is caused by the failure of the Owner to exercise due diligence to keep the Vessel working and to prevent loss of time, payment of hire shall not be reduced because of:

(i) The happening of any event listed in (a) above caused by the fault of the Charterer or caused or contributed to by war or warlike acts, sailing in convoy, operating (contrary to peacetime custom) without lights or pilots, navigating or mooring in (contrary to peacetime custom) unlighted, unbuoyed, or overcrowded waters, excessive usage (because of war or warlike conditions) of machinery or equipment, navigating (contrary to peacetime custom) under the direction of naval, military, coast guard or other governmental authorities, discharging alongside ships or into ships, or ice if loss of time due to ice damage does not result from wilful negligence or default of the Owner, Master, officers or crew; or

(ii) Time lost (when the Vessel needs repairs necessary to her working) (1) due to lack of available repair facilities in a port outside the continental United States excluding Alaska, or (2) due to the Vessel's having to leave a port outside the continental United States excluding Alaska to go to another port for such repairs when the facilities for such repairs at the port so left would not have been available in the time required to proceed to and return from such other port: *Provided,* That this clause (ii) shall not affect any other provisions in this Charter as to the reduction of hire while repairs are in progress.

The cost of fuel and water consumed while hire is reduced hereunder, as well as all port charges, pilotages, and other expenses for the Charterer's account (except those for wages and bonuses provided for in Clause 7 and the war risk and extra marine insurance provided for in Clause 20) incurred during such period and consequent upon the putting into any port or place other than that to which the Vessel is bound, shall be borne

by the Owner; but should the Vessel be delayed or driven into port or to anchorage by stress of weather or on account of accident to or other consideration for her cargo, such delay, departure, or loss of time, shall be for Charterer's account. Cleaning of boilers and overhauling of machinery whenever possible shall be done during service, but if impossible and without limiting other provisions of this Clause, the Charterer shall give the Owner forty-eight hours in any two months for such work, which, at Charterer's option, may be given in one period of forty-eight consecutive hours; should the Vessel be further detained by reason of such cleaning of boilers or overhauling of machinery, hire shall be reduced one-half for the time lost by such further detention. Credit shall be given to the Charterer for any expenses set forth in Clause 6 which are saved by the Owner during any loss of time for which no reduction of hire is provided.

CLAUSE 5. The deadweight capacity and the speed of the Vessel, as stipulated in this Charter, are representations by the Owner and shall not be binding upon the Charterer, and in the event that the Vessel's deadweight capacity or her speed (the speed to be determined according to the Charterer's General Order No. 10) shall not be in accord with either or both of such representations, the hire shall be equitably adjusted to be appropriate for the Vessel with her speed as thus determined and for the Vessel's actual deadweight capacity to the extent that the hire is computed on speed or deadweight capacity; this Charter otherwise to remain unaffected. This Clause shall not require a reduction of hire where the rate applicable to the Vessel is based on minimum speed standards adopted by the Charterer.

Also, if the War Risk valuation as stipulated in this Charter is based on the deadweight tonnage of the Vessel stipulated and if the Vessel's deadweight shall not be as stipulated, the War Risk valuation shall be adjusted to conform with the Vessel's actual deadweight to the extent that such valuation is computed upon the Vessel's deadweight capacity; this Charter to remain otherwise unaffected.

CLAUSE 6. The Owner shall provide and pay for: All provisions; all galley, cabin, deck and engine room stores; fuel for cooking; wages of, and consular, shipping and discharging fees and other expenses pertaining to, the Master, officers and crew (except as herein otherwise provided), 25 per cent of all fresh water used by the Vessel if a steamer, or 75 per cent if a motorship, all water ballast; and insurance (except as herein otherwise provided) on the Vessel, and maintain her class. Fumigations ordered because of illness of the crew shall be for the Owner's account.

CLAUSE 7. The Charterer shall reimburse the Owner for its actual out-of-pocket expenses, including all taxes with respect thereto for which the Owner is responsible, for (a) any war bonuses, extra wages based on the areas to be traversed during, or the ports of call of, any voyage hereunder and extra wages arising out of the nature of any cargo carried hereunder, where such bonuses and extra wages are payable by the Owner to the Master, officers or crew in accordance with ship's Articles or the Owner's collective bargaining agreements or decisions of the Maritime War Emergency Board, (b) all wages and bonuses of any extra officers and men beyond the Vessel's normal complement, who are required to be employed because of the Vessel's service under this Charter, or to provide for any persons carried at the request of the United States of America or additional watchmen or other personnel employed upon the order or request of any governmental authority, and (c) required payments for or in lieu of returning the officers and crew to nearest port of signing

off under the Articles (and wages during such period) necessarily incurred to make the Vessel sooner available to the Charterer under this Charter pursuant to specific orders of the Charterer.

The Charterer shall pay the Owner at the rate of \$1.50 per day per person for victualing any persons carried at the request of the United States of America and \$1.00 per day per person for victualing any extra complement required, as above provided. If, however, the number of the persons so carried and the extra complement exceeds 20, the Charterer shall reimburse the Owner for the reasonable cost of such victualing.

CLAUSE 8. The Charterer shall (except as herein otherwise provided) provide and pay for: All fuel (except for cooking); 75 per cent of all fresh water (except water ballast) if the Vessel is a steamer, or 25 per cent if a motorship; all port charges, pilotages, light, dock, canal and other dues, stevedoring, agencies, commissions, reasonable ballast (except water ballast) and the cost of loading and discharging it; tug assistance and boating where incurred for the Charterer's business; taxes of foreign countries or public authorities thereof payable by the Owner to the extent levied on or measured by the freights of the Vessel; and all other charges and expenses whatsoever except those which, by the terms of this Charter, are expressly payable by the Owner. Fumigations ordered because of cargoes carried or ports visited while the Vessel is employed under this Charter shall be for the Charterer's account.

CLAUSE 9. The Charterer shall provide necessary dunnage and shifting boards, also any extra fittings requisite for a special trade or for the carriage of livestock or other unusual cargo, but the Owner shall allow the Charterer the use of any dunnage and shifting boards already aboard the Vessel. The Charterer shall have the privilege of using shifting boards for dunnage. The Charterer shall make good any damage to or shortage of shifting boards which are on board at delivery.

CLAUSE 10. The Charterer shall pay for 75 per cent, if a steamer, or 25 per cent if a motorship, of all fresh water in the Vessel's service tanks, and for all fuel in the Vessel's bunkers, upon delivery, and the Owner shall pay for 75 per cent if a steamer, or 25 per cent if a motorship, of all fresh water in the Vessel's service tanks, and for all fuel in the Vessel's bunkers on redelivery, at current market prices of the ports of delivery and redelivery respectively.

CLAUSE 11. The Charterer shall be at liberty to install any equipment or defensive armament (including demagnetization by installed equipment or other process, e. g. degaussing, wiping or deperming) and make alterations and additions to quarters and equipment incident to the service in which the Vessel is to be used, and to install any additional gear or equipment for loading or discharging cargo beyond that on board at the beginning of this Charter. Such work shall be done at Charterer's expense and on its time, and shall not be such as to affect the seaworthiness of the Vessel or the safety of the crew, or as to be in contravention of any applicable law of the United States or regulation made pursuant thereto. Such equipment, materials, and gear so fitted are to be considered Charterer's property; and the Charterer shall remove the same at its expense before redelivery, and shall restore the Vessel to her condition prior to such changes (ordinary wear and tear excepted).

CLAUSE 12. The Owner agrees at its expense to drydock the vessel, to clean and paint her bottom, at intervals of about every eight months and not less often than once every twelve months, unless the Charterer otherwise agrees, and, when due, the Charterer agrees to send the Vessel to a port where she

can so drydock and paint. In case of dry-docking pursuant to this clause at a port where the Vessel is sent by the Charterer on its business, hire shall be suspended from the time the Vessel receives free pratique on arrival, if without cargo, or on completion of discharge of cargo, if she arrives loaded, until the Vessel is again ready for service. If the Owner sends the Vessel to a port (other than one designated by the Charterer) for such drydocking, hire shall be suspended from the time of the Vessel's arrival there at the sea buoy inbound until her departure from the sea buoy outbound. Hire shall not be suspended in either case for any time lost by the Vessel because of unavailability of dry-dock resulting from causes beyond the control of the Owner. All towage, pilotage, and other expenses incidental to the drydocking, and all port charges incurred and fuel and water consumed (to the extent such fresh water is to be provided or paid for by the Charterer) while hire is suspended as provided in this Clause, shall be for the Owner's account.

CLAUSE 13. The Charterer shall furnish the Master from time to time with all requisite instructions and sailing directions, in writing, and the Master shall keep a full and correct log of the voyage or voyages, which shall be patent to the Charterer or its Agents, and furnish the Charterer or its Agents, when required, with a true copy of daily logs, showing the course of the Vessel, the distance run and the consumption of fuel.

CLAUSE 14. Subject always to the directions of the Charterer, the Master shall prosecute his voyages with the utmost dispatch and shall render all customary assistance with Ship's crew and boats; and shall use due diligence in caring for and ventilating the cargo. The Master (although appointed by the Owner) shall be under the orders and directions of the Charterer as regards employment, agency, and prosecution of the voyages; and the Charterer shall load, stow, trim and discharge the cargo at its expense under the supervision of the Master, who is to sign bills of lading for cargo as presented, in conformity with Mate's or Tally Clerk's receipts. Bills of lading are to be signed at any rate of freight that Charterer or its agents may direct, without prejudice to this Charter. The Charterer hereby agrees to indemnify the Owner against all consequences or liabilities that may arise from the Charterer or its agents (including the Master) signing bills of lading or other documents inconsistent with this Charter, or from any irregularities in papers supplied by the Charterer or its agents.

CLAUSE 15. Cargo may be laden or discharged in any dock or at any wharf or place that the Charterer or its Agents may direct, provided that the Vessel can safely lie afloat at any time of tide.

CLAUSE 16. The Owner shall provide and maintain gear for all derricks, which gear shall be capable of handling lifts up to the weight set forth in Part I of this Charter, but heavier lifts shall be at the Charterer's expense and responsibility. The Owner shall maintain the gear of the ship as fitted, and shall also provide ropes, falls and blocks. The Owner shall also provide on the Vessel lanterns and oil for night work, and give the use of electric lights when the Vessel is so fitted. The Charterer shall have the use of any gear on board the Vessel, including slings.

CLAUSE 17. The Vessel shall work night and day, if required by the Charterer, and all winches to be at the Charterer's disposal during loading and discharging. Shore winchmen, where necessary, shall be provided and paid by the Charterer. In the event of a disabled winch or winches or insufficient power to operate winches unless resulting from causes specified under Clause 4 (1) hereof, the Owner shall pay for a shore engine, or engines, in lieu thereof, if required, and hire

shall be reduced one-half for any resulting loss of time. Any and all overtime or additional compensation based upon the nature of the work done, whether in port or at sea, payable to the Vessel's personnel, by reason of the Charterer's orders or operations, shall be paid by the Charterer at rates stated in the Vessel's Articles or collective bargaining agreements or decisions of the Maritime War Emergency Board.

CLAUSE 18. All Bills of lading issued hereunder shall contain, directly or by reference, substantially the following clauses:

(1) *Clause Paramount*: "This bill of lading shall have effect subject to the provisions of the Carriage of Goods by Sea Act of the United States, approved April 16, 1936, which shall be deemed to be incorporated herein, and nothing herein contained shall be deemed a surrender by the Carrier of any of its rights or immunities or an increase of any of its responsibilities or liabilities under said Act. If any term of this bill of lading be repugnant to said Act to any extent, such term shall be void to that extent but no further."

(ii) *Both-To-Blame Collision Clause*: "If the ship comes into collision with another ship as a result of the negligence of the other ship and any act, neglect or default of the master, mariner, pilot or the servants of the carrier in the navigation or in the management of the ship, the owners of the goods carried hereunder will indemnify the carrier against all loss or liability to the other or noncarrying ship or her owners in so far as such loss or liability represents loss of, or damage to, or any claim whatsoever of the owners of said goods, paid or payable by the other or noncarrying ship or her owners to the owners of said goods and set-off, recouped or recovered by the other or noncarrying ship or her owners as part of their claim against the carrying ship or carrier. The foregoing provisions shall also apply where the owners, operators or those in charge of any ship or ships or objects other than, or in addition to, the colliding ships or objects are at fault in respect of a collision or contact."

(iii) *General Average Clause*: "General average shall be adjusted, stated, and settled, according to Rules 1 to 15, inclusive, 17 to 22, inclusive, and Rule F of York-Antwerp Rules 1924, at such port or place in the United States as may be selected by the carrier, and as to matters not provided for by these Rules, according to the laws and usages at the port of New York. In such adjustment, disbursements in foreign currencies shall be exchanged into United States money at the rate prevailing on the dates made and allowances for damage to cargo claimed in foreign currency shall be converted at the rate prevailing on the last day of discharge at the port or place of final discharge of such damaged cargo from the ship. Average agreement or bond and such additional security, as may be required by the carrier, must be furnished before delivery of the goods. Such cash deposit as the carrier or his agents may deem sufficient as additional security for the contribution of the goods and for any salvage and special charges thereon, shall, if required, be made by the goods, shippers, consignees, or owners of the goods to the carrier before delivery. Such deposit shall, at the option of the carrier, be payable in United States money, and be remitted to the adjuster. When so remitted the deposit shall be held in a special account at the place of adjustment in the name of the adjuster pending settlement of the general average and refunds or credit balances, if any, shall be paid in United States money."

(iv) *Amended "Jason" Clause*: "In the event of accident, danger, damage, or disaster before or after commencement of the voyage resulting from any cause whatsoever, whether

due to negligence or not, for which or for the consequence of which the carrier is not responsible by statute, contract, or otherwise, the goods, shippers, consignees, or owners of the goods shall contribute with the carrier in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred, and shall pay salvage and special charges incurred in respect of the goods. If a salving ship is owned or operated by the carrier, salvage shall be paid for as fully as if the salving ship or ships belong to strangers."

(v) *War Clauses:* "In any situation whatsoever and wheresoever occurring and whether existing or anticipated before commencement of or during the voyage, which in the judgment of the carrier or master is likely to give rise to risk of capture, seizure, detention, damages, delay or disadvantage to or loss of the ship or any part of her cargo, or to make it unsafe, imprudent, or unlawful for any reason to commence or proceed on or continue the voyage or to enter or discharge the goods at the port of discharge, or to give rise to delay or difficulty in arriving, discharging at or leaving the port of discharge or the usual place of discharge in such port, the carrier may before loading or before the commencement of the voyage, require the shipper or other person entitled thereto to take delivery of the goods at port of shipment and upon their failure to do so, may warehouse the goods at the risk and expense of the goods; or the carrier or master, whether or not proceeding toward or entering or attempting to enter the port of discharge or reaching or attempting to reach the usual place of discharge therein or attempting to discharge the goods there, may discharge the goods into depot, lazaretto, craft or other place; or the ship may proceed or return, directly or indirectly, to or stop at any such port or place whatsoever as the master or the carrier may consider safe or advisable under the circumstances, and discharge the goods, or any part thereof, at any such port or place; or the carrier or the master may retain the cargo on board until the return trip or until such time as the carrier or the master thinks advisable and discharge the goods at any place whatsoever as herein provided; or the carrier or the master may discharge and forward the goods by any means at the risk and expense of the goods. The carrier or the master is not required to give notice of discharge of the goods or the forwarding thereof as herein provided. When the goods are discharged from the ship, as herein provided, they shall be at their own risk and expense; such discharge shall constitute complete delivery and performance under this contract and the carrier shall be freed from any further responsibility. For any service rendered to the goods as herein provided the carrier shall be entitled to a reasonable extra compensation.

"The carrier, master and ship shall have liberty to comply with any orders or directions as to loading, departure, arrival, routes, ports of call, stoppages, discharge, destination, delivery or otherwise howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or of any department thereof, or by any committee or person having, under the terms of the war risk insurance on the ship, the right to give such orders or directions. Delivery or other disposition of the goods in accordance with such orders or directions shall be a fulfillment of the contract voyage. The ship may carry contraband, explosives, munitions, warlike stores, hazardous cargo, and may sail armed or unarmed and with or without convoy.

"In addition to all other liberties herein the carrier shall have the right to withhold

delivery of, reship to, deposit or discharge the goods at any place whatsoever, surrender or dispose of the goods in accordance with any direction, condition or agreement imposed upon or exacted from the carrier by any government or department thereof or any person purporting to act with the authority of either of them. In any of the above circumstances the goods shall be solely at their risk and expense and all expenses and charges so incurred shall be payable by the owner or consignee thereof and shall be a lien on the goods."

This Charter shall also be subject to the provisions of (ii), (iii) and (iv) of this Clause 18.

CLAUSE 19. The Vessel, her Master and Owner, shall not, unless otherwise in this Charter expressly provided, be responsible for any loss or damage or delay or failure in performing hereunder, arising or resulting from: Any act, neglect, default or barratry of the Master, pilots, mariners or other servants of the Owner in the navigation or management of the Vessel; fire, unless caused by the personal design or neglect of the Owner; collision, stranding, or peril, danger or accident of the sea or other navigable waters; saving or attempting to save life or property; wastage in weight or bulk, or any other loss or damage arising from inherent defect, quality or vice of the cargo; any act or omission of the Charterer, the owner, shipper or consignee of the cargo, their agent or representatives; insufficiency of packing, insufficiency or inadequacy of marks; explosion, bursting of boilers, breakage of shafts, or any latent defect in hull, equipment or machinery; unseaworthiness of the Vessel unless caused by want of due diligence on the part of the Owner to make the Vessel seaworthy or to have her properly manned, equipped and supplied; or from any other cause of whatsoever kind arising without the actual fault or privity of the Owner. And neither the Vessel, her Master or Owner, nor the Charterer, shall, unless otherwise in this Charter expressly provided, be responsible for any loss or damage or delay or failure in performing hereunder arising or resulting from: Act of God, act of war; act of public enemies, pirates, or assailing thieves; arrest or restraint of princes, rulers of people, or seizure under legal process; strike or lockout or stoppage or restraint of labor from whatever cause, either partial or general; or riot or civil commotion. The Vessel shall have liberty to sail with or without pilots, to tow or to be towed, to go to the assistance of vessels in distress and to deviate for the purpose of saving life or property or of landing any ill or injured person on board. No exemption afforded to the Charterer under this clause shall diminish its obligations for hire under the other provisions of this Charter.

CLAUSE 20. Unless otherwise mutually arranged, at all times during the currency of this Charter the Charterer shall provide and pay for or assume: (i) insurance on the Vessel, under the terms and conditions of the full form of standard hull war risk policy of the War Shipping Administration, which shall include malicious damage, sabotage, strikes, riots and civil commotion, insured for and valued at the amount set forth in Part I which insurance shall be made payable to the persons entitled thereto; (ii) all war risk insurance, as required, on the lives of or for injuries to officers and crew and loss of or damage to their personal effects, including sextants of deck officers, on leased equipment aboard for which the Owner is responsible to the extent not otherwise covered hereunder, on slop chests, on the actual value of the Vessel's unused consumable stores and on cash carried on board but not in excess of \$5,000 unless otherwise agreed; and (iii) war risk protection and indemnity insurance, for the benefit of the Owner and the Charterer

as their interests may appear, including Owner's liabilities to officers and crew until repatriated.

The Charterer shall reimburse the Owner for (or, if the Owner is a self-insurer, pay the equivalent of) the actual extra cost of marine insurance occasioned by the Vessel's trading beyond the full limits of Institute Warranties in effect on the effective date of the marine insurance carried on the Vessel at the time of her delivery, or after the date of any renewal of such insurance occurring during the term or extended term of this Charter, beyond such limits, as revised, in effect on the date of any such renewal: *Provided*, That, if the Owner is a self-insurer, such limits shall be deemed to be those in effect on the date of the Vessel's delivery, and if the term or extended term of this Charter shall be for more than one year, such limits, as revised, shall be deemed to be those in effect on each anniversary date of the Vessel's delivery hereunder. Unless otherwise mutually agreed, the foregoing reference to Institute Warranties shall be deemed to mean "American Institute Trade Warranties".

In the event of loss, damage or expense to the Vessel caused by ice which would be recoverable under the terms of a full American Hull form of insurance policy but which is excluded from such policy by the provisions of American Institute Trade Warranties, such loss, damage or expense shall be made good by the Charterer, but in no event shall the Charterer's liability in this respect exceed the amount of the deductible average stated therein with respect to any one voyage.

Except as to risks or liabilities assumed, insured or indemnified against by the Charterer pursuant to this Charter, unless otherwise agreed, the Owner shall assume or insure against all other risks or liabilities of whatever nature including without limitation those of a Marine Hull and P. and I. nature and such Hull and P. and I. coverage shall also protect the interests of the Charterer to the extent of the liability it would have if it were the owner of the Vessel.

CLAUSE 21. All salvage moneys earned by the Vessel shall be divided equally between the Owner and the Charterer after deducting Master's, officers' and crew's share, legal expenses, hire of the Vessel during time lost, value of fuel consumed, repairs of damage, if any, and any other extraordinary loss or expense sustained as a result of the service, which shall always be a first charge on such moneys.

CLAUSE 22. General average adjusters shall be appointed by the Owner, from a list of adjusters satisfactory to the Charterer, and shall attend to the settlement and collection of the general average, subject to customary charges. If the Vessel should put into a port of distress or be under average, she is to be consigned to the Owner's agents who shall be satisfactory to the Charterer and shall be entitled to receive the usual charges and commissions.

CLAUSE 23. If the Charterer shall notify the Owner that the employment or the continued employment of the Master, any officer, or any member of the crew is prejudicial to the interests of the United States of America in the prosecution of the war, the Owner shall make any changes necessary in the appointments.

If the Charterer shall have reason to be dissatisfied with the conduct of the Master, officers, or any member of the crew, the Owner shall on receiving particulars of the complaint, investigate and make any changes necessary in the appointments.

CLAUSE 24. Any provisions of this Charter to the contrary notwithstanding, the Owner shall have the benefit of all limitations of, and exemptions from, liability accorded to the Owner of vessels by any statute or rule of law for the time being in force.

CLAUSE 25. Nothing herein stated is to be construed as a demise of the Vessel to the Charterer.

CLAUSE 26. Penalty for nonperformance of this contract shall be proved damages.

CLAUSE 27. The Charterer shall have the option of subletting or assigning this Charter, but the Charterer shall always remain responsible for the due fulfillment of this Charter in all its terms and conditions.

CLAUSE 28. The Charterer shall have a lien on the Vessel for all moneys paid in advance and not earned.

CLAUSE 29. The Master and the Vessel shall have liberty to comply with any orders or directions as to loading, departure, arrival, routes, ports of call stoppages, discharge, destination, delivery or otherwise howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or of any department thereof, or by any committee or person having, under the terms of the war risk insurance on the ship, the right to give such orders or directions, and if by reason of or in compliance with any such orders or directions anything is done or is not done, such shall not be deemed a deviation or breach of orders or neglect of duty by the Master or the Vessel: *Provided, however,* That whenever any such orders or directions given otherwise than by the Government of the United States or its representative are contrary to sailing directions or other orders of the Charterer as to the employment of the Vessel hereunder, the Master shall, if practicable, apply to the Charterer or its agents or to a representative of the Government of the United States for consent or advice and shall not comply with such orders or directions unless such consent or advice to comply is first obtained: *Provided further, however,* That if it is impracticable in any case to act in accordance with the foregoing proviso, the Master's decision as to compliance with any such orders or directions shall be made with due regard to the interests of all concerned, including the Charterer, the Owner, the Vessel, her crew and cargo.

CLAUSE 30. The Charterer shall indemnify and hold harmless the Owner, the Master and the Vessel from all consequences and liabilities whatsoever, to the extent not recoverable under the terms of customary hull and P. & I. insurance, arising from compliance with any orders or directions of the Charterer, its agents, representatives or employees, unless properly chargeable to the Owner under this charter. The Owner shall, as far as may be practicable, keep the Charterer currently informed in writing as to any oral orders (involving substantial delay, expense or risk to the Vessel or her cargo) not promptly confirmed in writing by the person giving such orders.

CLAUSE 31. The Charterer (except as to matters affecting only the stability of the Vessel) shall be exclusively responsible for proper loading, stowage and discharge of goods of an inflammable, explosive or dangerous nature, and shall comply with all applicable regulations and furnish any necessary fittings.

CLAUSE 32. Unless otherwise provided herein or mutually agreed upon, all payments, notices and communications from the Charterer to the Owner, pursuant to the terms of or in connection with this Charter, shall be made or addressed to the Owner at the address provided in Part I and all payments, notices and communications from the Owner to the Charterer, pursuant to the terms of or in connection with this Charter, shall be

made or addressed to the Charterer at its offices in Washington, District of Columbia.

CLAUSE 33. No member of or delegate to the Congress, nor Resident Commissioner, shall be admitted to any share or part of this Charter or to any benefit that may arise therefrom, except as provided in Section 116 of the Act approved March 4, 1909.

CLAUSE 34. This Charter consists of this Part II and of Part I which incorporates this Part II therein by reference. In the event of conflict between the provisions of this Part II and those of Part I, the provisions of Part I shall govern to the extent of such conflict.

(c) Where vessels have refrigerated space available for cargo in excess of 6,000 cu. ft., 2¢ per cubic foot per month will be added with respect to such excess refrigerated space.

(d) Time lost in partially or entirely arming, degaussing or demagnetizing any vessel at any time prior to delivery to the Government and not previously compensated for by the Government shall be compensated for under the charter tendered pursuant to § 301.7 of this chapter. Such compensation shall be computed on the basis of the applicable time charter rate established by §§ 301.3 to 301.5, inclusive and § 301.7 of this chapter and shall constitute additional charter hire earned upon delivery and acceptance of the vessel under any charter tendered hereunder. Time lost shall be determined in accordance with regulations hereinafter determined by the Administrator.

(e) War risk insurance on vessels and crew war risk bonuses as well as marine insurance occasioned by trading beyond the Institute Warranties shall be for the account of the charterer in accordance with the provisions of standard form of time charter agreement designated War-shiptime Form 101 and approved by § 301.1c of this chapter.

§ 301.5 *Deadweight determination.* Deadweight capacity is to be established in accordance with normal Summer Freeboard as assigned pursuant to the International Load Line Convention, 1930. Deadweight shall be calculated exclusive of weight added by installation of refrigerated capacity, arming, de-

gaussing, demagnetizing, or the installation of splinter-protection equipment or because of ice-strengthening, or other installation or equipment required by the Administrator, the United States Maritime Commission, the Army, or the Navy. Certificate of deadweight, in satisfactory form, by American Bureau of Shipping shall constitute sufficient proof of deadweight capacity.

§ 301.6 *Excluded vessels.* Time charter rates for vessels excluded under the terms of § 301.3 of this chapter shall be established from time to time by supplements thereto and such rates shall become effective as of the dates stipulated in such supplements. With respect to any existing charter covering vessels excluded by § 301.3 of this chapter from the operation of §§ 301.3 to 301.5, inclusive, of this chapter where the charter provides that rates may be re-adjusted in accordance with rate determinations made prior to May 15, the time for such rate determinations is extended to June 30, 1942.

§ 301.7 *Basic terms and conditions.* The charter rates and adjustments prescribed in §§ 301.3 to 301.5, inclusive, of this chapter, are based upon standard form of time charter agreement approved by the War Shipping Administrator and designated Warshipping Form 101 in § 301.1c of this chapter.

By Order of the Administrator, War Shipping Administration.

- (a) Vessels with refrigerated capacity in excess of 50% of total capacity;
- (b) Combination passenger and freight vessels;
- (c) Car ferries;
- (d) Seatrains;
- (e) Vessels which are not classed A-1 American Bureau of Shipping, or equivalent;

No. 96—13

(g) Vessels of less than 1,000 tons deadweight;

(h) Vessels constructed pursuant to construction contracts made and entered into subsequent to January 1, 1935; and

§ 301.9 *Basic valuation for insurance valuation purposes.* The basic valuation shall be \$65 per deadweight ton.

§ 301.10 *Speed bonus for insurance valuation purposes.* Vessels with a speed in excess of 8½ knots determined in accordance with §§ 301.16 to 301.18, inclusive, of this chapter shall be allowed an additional valuation of \$5 per deadweight ton for each knot or major fraction thereof over 8½ knots.

§ 301.11 *Adjustments for refrigerated capacity for insurance valuation purposes.* Vessels with refrigerated space available for cargo in excess of 6,000 cubic feet, shall be allowed an additional valuation of \$1.25 per cubic foot for such excess space.

§ 301.12 *Adjustments for General Average and Salvage Charges for Insurance Valuation Purposes.* If, by reason of the limitations on valuation contained in §§ 301.8 to 301.13, inclusive, of this chapter, the Owner of a vessel becomes a co-insurer for a portion of general average or salvage charges, insurance policies issued by the War Shipping Administration will provide for payment in full of such charges, up to the face amount of the policy, or if such policies do not constitute the total amount of insurance placed upon the vessel, they will provide for payment, up to the face amount of the policy, of that portion of such charges which the amount of the insurance underwritten by the War Shipping Administration bears to the total amount of insurance placed upon the vessel.

§ 301.13 *Deadweight determination for insurance valuation purposes.* Deadweight capacity is to be established in accordance with normal Summer Freeboard as assigned pursuant to the International Load Line Convention, 1930. Deadweight shall be calculated exclusive of weight added by installation of refrigerated capacity, arming, degaussing, demagnetizing, or the installation of splinter-protection equipment or because of ice-strengthening, or other installation or equipment required by the Administrator, the United States Maritime Commission, the Army, or the Navy. Certificate of deadweight, in satisfactory form, by American Bureau of Shipping shall constitute sufficient proof of deadweight capacity.

§ 301.14 *Excluded vessels.* Insurance valuations for vessels excluded under the terms of §§ 301.8 to 301.15, inclusive, of this chapter shall be established from time to time by supplements hereto and such valuations shall become effective as of the dates stipulated in such supplements with respect to any existing charter covering vessels excluded. With respect to any existing charter covering vessels excluded from the operation of §§ 301.8 to 301.13, inclusive, of this chapter, where

the charter provides that valuations may be re-adjusted in accordance with rate determinations made prior to May 15, the time for such determinations is extended to June 30, 1942.

§ 301.15 *Additional insurances.* Owners may place additional insurance at their own expense in commercial or other markets beyond the amount of the valuations provided for in §§ 301.8 to 301.15, inclusive, of this chapter. However, the cost of such insurance shall not be the basis of any claim against the Administrator nor shall the existence of such additional coverage be construed as evidence as to the value of the additional insurance therein. All such additional coverage shall be reported promptly to the Administrator. The Administrator reserves the right to revoke this permission in whole or in part from time to time.

[General Order No. 10]

PART 301—REGULATIONS AFFECTING MARITIME CARRIERS

FORMULAE FOR CALCULATING THE SEA SPEED OF A VESSEL

AUTHORITY: §§ 301.16 to 301.18, inclusive, issued under Executive Order No. 9054, 7 F.R. 837.

§ 301.16 *Statement of formulae prescribed for calculating sea speed of vessels.* The following formulae are hereby prescribed for the calculation of the sea speed of vessels by the War Shipping Administration:

(a) The speed of the ship, or of a sister ship, with clean bottom, at a draft corresponding to the International Summer Load Line, even keel, no current, corrected for wind, at 80% of normal power is taken as the *sea speed* of the ship. The mentioned speed is based on standardization over a measured mile in deep water.

(b) Where no standardization has been run, a self-propelled model test in the David W. Taylor Model Basin or the Washington Model Basin corrected for sea conditions as above, will be accepted. Tests that have been run in other model basins in substantial conformity with those of the David W. Taylor Model Basin will be considered.

(c) Where neither self-propelled model tests nor standardization on a measured mile are available on the ship, the sea speed for a single screw ship shall be that speed at which the effective horsepower is equal to fifty percent of the normal shaft horsepower, and for a twin screw ship forty-five percent of the normal shaft horsepower. The effective horsepower shall be based upon the bare hull, even keel at a draft corresponding to the Summer Load Line assigned pursuant to

the International Load Line Convention, 1930. The calculation of effective horsepower shall be made by the methods given in "Speed and Power of Ships" by the late Rear Admiral David W. Taylor, published in 1933. Where this speed falls below that corresponding to a speed length ratio of .60, the power shall be that determined by extending the speed-effective horsepower curve on the basis that the ship power varies as the cube of the speed. The speed length ratio shall be defined as the quotient of the speed of the ship in knots divided by the square root of the water line length of the ship in feet.

(d) Voyage results will, in general, not be accepted.

§ 301.17 *Other provisions concerning calculation of sea speed; trial in deep water; normal shaft horsepower; normal power.* (a) At any time the charterer has the privilege to request a trial in deep water, either on a standard deep water measured mile or other course approved by the War Shipping Administration. On this trial the operator shall determine to the satisfaction of representatives of the War Shipping Administration the speed at which the vessel runs when the engines are developing 80% of their normal power. All expenses, etc., in connection with such a trial shall be borne by the operator.

(b) The normal shaft horsepower for a Diesel ship shall be based on the engine builder's guarantees. Should this information be unavailable the normal power for a Diesel ship shall be based on maximum brake mean effective pressures and piston speeds of 61 lbs. per square inch and 1,100 feet per minute respectively for two-cycle engines and 75 lbs. per square inch and 1,200 feet per minute, respectively, for four-cycle engines. Special consideration will be given to engines of unusual design.

(c) The normal power for an American turbine ship shall be based on manufacturer's guarantees for the unit in question. For a foreign ship the normal power shall be based upon manufacturer's guarantees when these are available. When these are not available the turbine horsepower used by the classification societies in computing line shaft diameters shall be used.

(d) The normal shaft horsepower of a steamship driven by reciprocating engines shall be the product of the indicated horsepower assigned by the engine builders for continuous service and the guaranteed mechanical efficiency.

§ 301.18 *Modification or supplementation of formulae.* The formulae set forth in §§ 301.16 and 301.17 of this chapter may be modified or supplemented by such other modifications or formula or formulae as may be adopted from time to time hereafter.

By Order of the Administrator, War Shipping Administration.

DEPARTMENT OF THE INTERIOR

Bituminous Coal Division

[Docket No. B-86]

IN THE MATTER OF REYNOLDS, LATTIER & SCHIED, DEFENDANTS

ORDER GRANTING APPLICATION FILED PURSUANT TO § 301.132 OF THE RULES OF PRACTICE AND PROCEDURE, TERMINATING CODE MEMBERSHIP, PROVIDING FOR PAYMENT OF TAX FOR RESTORATION OF CODE MEMBERSHIP, AND CANCELING HEARING

A complaint dated October 7, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on October 15, 1941, by the Bituminous Coal Producers Board for District No. 11, complainant, with the Bituminous Coal Division (the "Division"), alleging that Reynolds, Lattier & Schied, also known as Charles Reynolds, David Lattier and John Schied (correct spelling of which is Scheid), individually and as copartners doing business under the name and style of Reynolds, Lattier & Schied, Code Member, who operate the Happy Hollow Mine, Mine Index No. 270, located in Posey Township, Clay County, Indiana, in District No. 11, wilfully violated the Bituminous Coal Act of 1937, the Bituminous Coal Code promulgated thereunder and Orders and Rules and Regulations of the Division, during the period from October 7, 1940 to April 26, 1941, both dates inclusive,

(a) by selling to various purchasers a substantial amount of 1¼" lump coal, Size Group No. 6, produced at the said mine, at a price of \$1.70 per net ton f. o. b. said mine, whereas the effective minimum price established for said coal was \$2.10 per net ton f. o. b. said mine as shown in the Schedule of Effective Minimum Prices for District No. 11 for Truck Shipments, resulting in violation of the effective minimum price established therefor; and

(b) by intentionally representing, invoicing and recording in the sales records of said code member, the above said coal as run of mine, whereas said coal was in fact 1¼" lump coal, Size Group

No. 6, resulting in violation of section 4 II (i), paragraph 8 of the Act, and Rule 8 of section XIII of the Marketing Rules and Regulations; and

The Notice of and Order for Hearing, dated February 17, 1942, and the complaint herein having been duly served upon Charles Reynolds, David Lattier and John Schied on the 24th day of February 1942, and said hearing having been scheduled for March 26, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Post Office Building, Terre Haute, Indiana, and the said hearing having been postponed thereafter by Order dated April 15, 1942, to a date and at a hearing room to be thereafter designated by an appropriate order; and

The code member having duly filed with the Division on April 9, 1942, an application dated March 23, 1942, pursuant to § 301.132 of the Rules of Practice and Procedure Before the Bituminous Coal Division; and

Notice dated April 17, 1942, of the filing of said application having been published in the FEDERAL REGISTER on April 21, 1942, pursuant to § 301.132 of the Rules of Practice and Procedure, and copies thereof having been duly mailed to interested parties including the Bituminous Coal Producers Board for District No. 11, complainant herein; and

Said Notice of Filing having provided that interested parties desiring to do so might within fifteen days from the date of said Notice file recommendations or requests for informal conferences in respect to said application, and it appearing that no such recommendations or requests were filed with the Division within said fifteen-day period; and

It further appearing that in said application, the code member admitted that said code member during the period from October 7, 1940 to April 26, 1941, committed the violations alleged in the complaint herein "by running coal over 1¼ inch round holed gravity type screen to remove dirt due to ten inch clay streak in coal; the same sold as mine run," and that during said period of time 338 tons of coal were sold by code member in violation of the effective minimum price as aforesaid; and

It further appearing in said application that the code member represents that it has not to the best of its knowledge and belief committed any violations of the Act, the Code or regulations thereunder other than those described in said Notice of and Order for Hearing; and

It further appearing in said application that the code member consents to the entry of an Order revoking its membership in the Code and imposing a tax in the amount of \$276.82 as a condition precedent to the restoration of its membership in the Code and agrees to pay said tax to the United States Government within thirty days after the applicant has been served with a copy of the Order of the Division herein revoking its code membership;

Now, therefore, Pursuant to the authority vested in the Division by section 4 II (j) of the Act, authorizing it to adjudge complaints of violation and to com-

pose the differences of the parties thereto, upon the application of the code member dated March 23, 1942, for disposition without formal hearing of the charges contained in the complaint herein and filed with the Division on April 9, 1942, pursuant to said § 301.132 of the Rules of Practice and Procedure, and upon other evidence in the possession of the Division;

It is hereby found as follows:

(a) Reynolds, Lattier & Schied was, at the time of the commission of the violations herein above described, a partnership consisting of Charles Reynolds, David Lattier and John Scheid, whose address is Staunton, Indiana, and was at said time engaged primarily in the production and sale of bituminous coal;

(b) On June 14, 1937, the code member filed with the National Bituminous Coal Commission its acceptance dated June 11, 1937, of the Code; said Code Acceptance was made effective as of June 14, 1937, and such action was ratified by the Order of the Secretary of the Interior dated July 1, 1939, and adopted by the Bituminous Coal Division, and the code member has been ever since said June 14, 1937, and is now a code member in District No. 11, operating the Happy Hollow Mine, Mine Index No. 270, located in Posey Township, Clay County, Indiana in District No. 11;

(c) That the code member during the period from October 7, 1940 to April 26, 1941, both dates inclusive, wilfully violated the effective minimum prices, the Act, the Code promulgated thereunder and Orders and rules and regulations of the Division

(1) by selling to various purchasers 338 tons of 1¼" lump coal produced at its said mine at a price of \$1.70 per net ton f. o. b. the mine, whereas the effective minimum price established for said coal was \$2.10 per net ton f. o. b. the mine, as shown in the Schedule of Effective Minimum Prices for District No. 11 for Truck Shipment; and

(2) by intentionally representing, invoicing and recording in the sales records of said code member, the aforesaid coal as run of mine whereas said coal was in fact 1¼" lump, Size Group No. 6.

It is hereby further found, under section 5 (b) of the act that the amount of tax required to be paid under section 5 (c) of the Act as a condition to reinstatement to membership in the Code is \$276.82, which amount is 39 per cent of the aggregate effective minimum price of \$709.80 for the 338 tons of coal found to have been sold in violation.

Now, therefore, Based upon the above findings and upon said admissions and the consent filed by the code member, pursuant to § 301.132 of the Rules of Practice and Procedure;

It is ordered, That the foregoing application of the code member heretofore filed with the Division be and the same hereby is granted;

It is further ordered, That pursuant to section 5 (b) of the Act, the membership in the Code of Charles Reynolds, David Lattier and John Scheid, individually and as copartners doing business under the name and style of Reynolds,

Lattier & Scheid, be and the same hereby is revoked and cancelled;

It is further ordered, That prior to restoration to membership in the Code of said Charles Reynolds, David Lattier and John Scheid, either individually or as copartners doing business under the name and style of Reynolds, Lattier & Schied, there shall be paid to the United States Government said tax in the amount of \$276.82, as provided in section 5 (c) of the Act; and

It is further ordered, That such cancellation and revocation of Code Membership shall become effective thirty (30) days after the date of service of this Order upon said code member; and

It is further ordered, That the hearing herein heretofore postponed to a date and place to be thereafter designated by an appropriate Order be and the same hereby is cancelled.

IN THE MATTER OF SAMSON HART AND CLYDE HARRIS, ALSO KNOWN AS SAMSON HART AND CLYDE HARRIS, INDIVIDUALS, TRADING AS HART AND HARRIS, A PARTNERSHIP, CODE MEMBER

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW AND RECOMMENDATION OF THE EXAMINER AND CEASE AND DESIST ORDER

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division pursuant to section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 by District Board No. 8. The complaint alleges that the code member, operating the Hart and Harris Mine, Mine Index No. 1719, wilfully violated the provisions of the Code by selling, delivering and offering to sell for shipment by rail, coal produced at code member's mine, contrary to the Code and the Order of the Director in General Docket No. 19, dated

October 9, 1940, wherein complainant prayed that the Division either cancel and revoke the code membership of Samson Hart and Clyde Harris or, in its discretion, direct them to cease and desist from further violations of the Bituminous Coal Code and the Orders of the Director, and the rules and regulations promulgated thereunder.

Pursuant to an Order of the Director dated November 22, 1941, and after due notice to all interested persons, a hearing in this matter was held on January 15, 1942, before Charles S. Mitchell, a duly designated Examiner of the Division, at a hearing room thereof at Mid-dlesboro, Kentucky. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise participate fully in the hearing.

The Examiner on April 13, 1942, submitted his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation. He found that Samson Hart and Clyde Harris, also known as Samson Hart and Clyde Harris, individuals, trading as Hart and Harris, a code member in District No. 8, operating the Hart and Harris Mine, Mine Index No. 1719, located in Laurel County, Kentucky, wilfully violated the provisions of the Order of the Director dated October 9, 1940, in General Docket No. 19, by selling and delivering and offering to sell for shipment by rail approximately 267.45 tons of coal between April 16 and May 1, 1941, both dates inclusive, at which time no effective minimum prices for rail shipment had been established therefor.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner herein. No exceptions thereto have been filed.

The undersigned has determined that the proposed findings of fact and proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and proposed conclusions of law of the Examiner be and they are hereby approved and adopted as the findings of fact and conclusions of law of the undersigned;

It is further ordered, That effective fifteen (15) days from the date hereof, Samson Hart and Clyde Harris, also known as Samson Hart and Clyde Harris, individuals, trading as Hart and Harris, a partnership, their agents, attorneys, employees, or successor and assigns, be and they are hereby directed to cease and desist from selling coal for which no prices have been established or from otherwise violating the Bituminous Coal Act, the Code, and the Marketing Rules and Regulations, and the Schedule of Effective Minimum Prices for District No. 8.

It is further ordered, That if the code member, individually, or as partners, fails or refuses to comply with this Order, the Division may apply to the Circuit

Court of Appeals for the enforcement thereof or take such further action as may be appropriate in the premises.

[Docket No. B-233]

IN THE MATTER OF SEQUATCHIE COAL COMPANY, A CORPORATION, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

1. Under the provisions of the Bituminous Coal Act of 1937 (the "Act"), District Boards are authorized in appropriate cases to file complaints of violations of the Act, the Bituminous Coal Code (the "Code") and the rules and regulations of the Bituminous Coal Division (the "Division").

2. The Division on January 21, 1942, referred to the Bituminous Coal Pro-

ducers Board for District No. 13 (the "District Board") information in its possession bearing on whether or not violations of the Act, the Code and rules and regulations thereunder had been committed by the Sequatchie Coal Company, the above-named code member (hereinafter referred to as the "code member"), who operates the Sequatchie Mine, Mine Index No. 731, located in Sequatchie County, Tennessee, Subdistrict No. 4, of District 13, as follows:

(a) by selling to the Wright Coal Company, registered distributor, Registration No. 9897, and the Dixie Diamond Coal Company, registered distributor, Registration No. 2373, of Chattanooga, Tennessee, loaded on railroad cars at Chattanooga, Tennessee, for resale by rail shipments during the period from April 15, 1941 to July 30, 1941, both dates inclusive, approximately 3621.17 tons of coal produced at said mine for which coal no prices, temporary or final, had been established by the Division, as follows:

Size	Number of tons sold	F. o. b. mine price	Added for haulage	Discount allowed	Net to producer
3/4" x 0.....	2,547.76	\$1.65	0.45	0.10	\$2.00
2" nut and stove.....	473.21	2.05	.45	.12	2.38
Mine run.....	600.00	2.35	.37	.12	2.60

resulting in violation of the Order of the Director in General Docket No. 19 dated October 9, 1940; and

(b) by paying W. H. Elliott and L. Duane Dixon, individually, and as co-partners doing business under the name and style of the Elliott Coal Company, Chattanooga, Tennessee, commissions ranging from 30 to 60 cents per net ton for sale on the code member's behalf of approximately 3291.48 tons of coal during the period from January 1, 1941, to April 1, 1941, both dates inclusive, which commissions ranged from 18 to 40 cents per net ton in excess of the maximum discounts allowable to a registered distributor on sales of such coal as established by Order of the Director in General Docket No. 12 dated June 19, 1940. Said commissions were paid pursuant to a sales agency agreement entered into between the code member and said Elliott Coal Company on or about December 1, 1940 and filed with the Bituminous Coal Division on or about December 28, 1940. At the time of the above transactions, the code member had not filed an application for permission to pay commissions in excess of the maximum discounts allowable to a registered distributor, resulting in violation of Rule 13 (A) of section II of the Marketing Rules and Regulations; and

(c) by selling through its sales agent, the Elliott Coal Company, Chattanooga, Tennessee, to various purchasers during the month of March 1941, approximately 33.50 tons of 2" x 3/8" nut coal produced at said mine at \$2.60 per net ton f. o. b. said mine for truck shipments whereas the code member had no price classification for this size at that time. The code member thereby failed to comply with Price Instruction No. 4 as set forth in

the Schedule of Effective Minimum Prices for District No. 13 For Truck Shipments, which requires coal falling within a size group for which no price is listed to be priced at the price and classification applicable to the next size group for the next larger size for which a price is listed for the same mine, which is Size Group No. 3, priced at \$3.05 per net ton as set forth in said schedule, resulting in a violation of section 4 II (e) of the Act and Part II (e) of the Code; and

(d) by selling through its sales agent, the Elliott Coal Company, Chattanooga, Tennessee, and delivering to a consumer known as Yates Bleachery, Flintstone, Georgia, during the months of February and March 1941 approximately 310.80 tons of 2" x 3/8" nut coal produced at said mine at a delivered price of \$3.35 per net ton whereas the code member had not received price classification for this size coal at that time. The code member thereby failed to comply with Price Instruction No. 4 as set forth in the Schedule of Effective Minimum Prices for District No. 13 for Truck Shipments, which requires coal falling within a size group for which no price is listed to be priced at the price and classification applicable to the size group for the next larger size for which a price is listed for the same mine, which is Size Group 3 priced at \$3.05 per net ton f. o. b. said mine as set forth in said schedule. In said transactions the code member failed to add to the applicable minimum f. o. b. mine price provided in said schedule an amount at least equal as nearly as practicable to the actual transportation charges, handling charges or incidental charges of whatsoever kind or character (exclusive of the customary costs of mine operation) from the transportation fa-

cilities of the mine to the point from which all such charges are assumed and directly paid by the purchaser resulting in violations of section 4 II (e) and (g) of the Act and Part II (e) and (g) of the Code; and

(e) by selling to the Central Presbyterian Church, Chattanooga, Tennessee, and Robert Orr, Chattanooga, Tennessee, during the month of May 1941, approximately 10.80 tons of lump and egg coal mixed and falsely billing it as run of mine coal, resulting in violations of section 4 II (i) 8 of the Act and Part II (i) 8 of the Code, Rule 2 of section XII and Rule 8 of section XIII of the Marketing Rules and Regulations,

3. By letter dated April 11, 1942, the Division notified the Board that unless it took action on this matter within fifteen (15) days from the date of said notification, the Division would take such action in lieu of the Board, if it deemed it to be appropriate.

4. District Board No. 13 has not taken any action on this matter.

5. Section 6 (a) of the Act provides in part that in the event the District Board shall fail for any reason to take action authorized or required by the Act, then the Division may take such action in lieu of the District Board.

6. The District Board having failed to take action as authorized or required by the Act on the matters hereinbefore described, the Division finds it necessary in the proper administration of the Act to take action thereon in lieu of the Board, as in this Notice of and Order for Hearing provided, in accordance with section 6 (a) and other pertinent provisions of the Act for the purpose of determining:

(a) whether or not the Code member has wilfully violated the Order of the Director in General Docket No. 19 dated October 9, 1940; sections 4 II (e), (g) and (i) 8 of the Act and Parts II (e), (g) and (i) 8 of the Code, Rule 2 of section XII and Rule 8 of section XIII and Rule 13 (A) of section II of the Marketing Rules and Regulations; and

(b) whether or not in the event that the Code member is found to have so violated the Act, the Code, and rules and regulations thereunder, an order should be entered revoking the Code membership of the Sequatchie Coal Company, or directing the Sequatchie Coal Company to cease and desist from violating the Act, the Code, and the rules and regulations thereunder.

Now, therefore, it is hereby ordered, That a hearing pursuant to sections 4 II (e), 5 (b) and 6 (a) and other pertinent provisions of the Act to determine whether or not the aforementioned Code member has committed the violations in the respects heretofore described and whether or not the Code membership of said Code member should be revoked or an Order should be entered directing the Code member to cease and desist from violating the Act and the Code and rules and regulations of the Division thereunder be held on June 18, 1942, at 10 a. m. at a hearing room of the Division at the Chancery Court Room, 7th and Georgia Avenue, Chattanooga, Tennessee.

It is further ordered, That Travis Williams or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time and to such places as he may direct by announcement at said hearing or any adjourned hearing, or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions, and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to section 4 II (j) and 5 (b) of the Act may file a petition for intervention not later than five (5) days before the date set for hearing herein.

Notice is hereby given that answer setting forth the position of the Code member with reference to the matters hereinbefore described must be filed with the Division at its Washington Office or with one of the Statistical Bureaus of the Division within twenty (20) days after date of service of a copy hereof on the Code member; and that any failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission by the Code member of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

[Docket Nos. G-149, G-132]

IN THE MATTERS OF INTERSTATE NATURAL GAS COMPANY, INCORPORATED, LOUISIANA PUBLIC SERVICE COMMISSION, COMPLAINANT, v. INTERSTATE NATURAL GAS COMPANY, INCORPORATED, DEFENDANT

ORDER CONSOLIDATING PROCEEDINGS FOR PURPOSE OF HEARING AND FIXING DATE OF HEARING

MAY 12, 1942.

It appearing to the Commission that:

(a) On May 23, 1939, Louisiana Public Service Commission, a State Commission within the meaning of the Natural Gas Act, filed with the Commission a complaint (Docket No. G-132) alleging, among other matters, that Interstate Natural Gas Company, Incorporated, is engaged in the transportation of natural gas in interstate commerce and in the sale of natural gas in interstate commerce for resale in Louisiana and Mississippi, and that its rates and charges for such transportation and sale are unjust and unreasonable, and requesting the Commission, after a hearing, to fix just and reasonable rates to be thereafter observed and in force in respect of such transportation and sale;

(b) On December 5, 1939, the Commission, on its own motion, instituted an investigation of Interstate Natural Gas Company, Incorporated (Docket No. G-149), for the purpose of enabling the Commission to determine (1) whether the said company is a natural-gas company within the meaning of the Natural Gas Act, and (2) whether, in connection with any transportation or sale of natural gas subject to the jurisdiction of the Commission, any rates, charges, or classifications demanded, observed charged, or collected, or any rules, regulations, practices, or contracts affecting such rates, charges, or classifications are unjust, unreasonable, unduly discriminatory or preferential; and if the Commission after hearing has been had shall find that the said company is a natural-gas company within the meaning of the Natural Gas Act, and that any of its rates, charges, classifications, rules, regu-

lations, practices or contracts subject to the jurisdiction of the Commission are unjust, unreasonable, unduly discriminatory or preferential, to determine and fix by appropriate order or orders just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be thereafter observed and in force;

(c) The said order instituting an investigation was duly served upon Interstate Natural Gas Company, Incorporated;

The Commission finds that:

The above-entitled proceedings are related and the public interest would be served by consolidating them for hearing; and

The Commission orders that:

(i) Docket Nos. G-132 and G-149 be and they are hereby consolidated for purposes of hearing thereon;

(ii) A public hearing in these proceedings be held commencing on June 15, 1942, at 9:45 o'clock a. m., in the Courtroom, Federal Building, Baton Rouge, Louisiana;

[Docket No. IT-5779]

IN THE MATTER OF PORTLAND GENERAL ELECTRIC COMPANY

ORDER TO SHOW CAUSE AND FIXING DATE OF HEARING

MAY 12, 1942.

It appearing to the Commission that:

(a) On May 1, 1939, Portland General Electric Company, hereinafter sometimes referred to as "Company," filed the purported reclassification and original cost studies required by Electric Plant Accounts Instruction 2-D of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees, effective January 1, 1937, and the Commission's order of May 11, 1937, pertaining thereto;

(b) The staff of the Federal Power Commission and of the Public Utilities Commissioner of Oregon jointly made a field study of the Company's purported reclassification and original cost studies and a joint report was submitted to the Federal Power Commission entitled, "Portland General Electric Company, Portland, Oregon, Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937";

(c) On January 1, 1942, the joint report was served on the Company, together with a request that it make the accounting adjustments indicated in such report; submit a copy of the adjusting journal entries within thirty (30) days;

submit a plan for the disposition of \$1,100,779.59 classified in the joint report in Account 100.5, Electric Plant Acquisition Adjustments; dispose of the amount of \$1,305,896.62 classified in the joint report in Account 107, Electric Plant Adjustments, as recommended in such report; and submit a plan for the disposition of the balance of \$11,765,702.54, also classified in Account 107, Electric Plant Adjustments;

(d) Upon request of the Company, extensions of time within which to respond to the request of December 31, 1941, were granted and on May 2, 1942, the Company filed its response thereto in which it proposed to comply with and dispose of certain accounting adjustments aggregating \$1,305,896.62 classified by the joint report in Account 107, which proposed dispositions correspond with the recommendations contained in the joint report; but the Company failed to submit satisfactory plans for the disposition of \$1,100,779.59 and \$11,765,702.54 classified in Accounts 100.5 and 107, respectively, by the joint report;

(e) Agreement has not been reached between the Company and the Commission's staff with respect to the disposition of the amount of \$1,100,779.59 classified in the joint report in Account 100.5, Electric Plant Acquisition Adjustments, and the disposition of the balance of \$11,765,702.54 classified in the joint report in Account 107, Electric Plant Adjustments.

The Commission finds that:

(1) Portland General Electric Company's purported reclassification and original cost studies and the information submitted in its response to the Commission's request of January 1, 1942, do not justify or explain the Company's failure to submit plans for the disposition of the amount of \$1,100,779.59, classified in the joint report in Account 100.5, and the amount of \$11,765,702.54, classified by said joint report in Account 107;

(2) It is advisable, necessary and proper in the public interest that a public hearing be held for the purpose of requiring Portland General Electric Company to show cause why this Commission should not order the disposition of the amounts of \$1,100,779.59 and \$11,765,702.54, classified in Accounts 100.5 and 107, respectively, to be disposed of in accordance with the evidence adduced at said public hearing.

The Commission orders that:

(A) A public hearing be held commencing on June 15, 1942, at 9:45 A. M., (P. W. T.) in the Circuit Court Room 704, New Courthouse Building, at Portland, Oregon, and at said hearing Portland General Electric Company shall submit plans for the disposition of \$1,100,779.59 and \$11,765,702.54 classified by the joint report in Accounts 100.5 and 107, respectively, and may submit plans for the disposition of such amounts as Portland General Electric Company deems appropriately classifiable in Accounts 100.5 and 107, and shall show cause why the Commission should not by order determine that:

(i) The amounts of \$1,100,779.59 and \$11,765,702.54, classified in Accounts 100.5 and 107, respectively, by the aforementioned joint report, are properly established in said Accounts;

(ii) Disposition be made of \$1,100,779.59, or such other amount as is properly established in Account 100.5, Electric Plant Acquisition Adjustments, in accordance with the evidence adduced at the hearing;

(iii) Disposition be made of the amount of \$11,765,702.54, or such other amount as is properly established in Account, 107, Electric Plant Adjustments, in accordance with the evidence adduced at the hearing.

(B) The Public Utilities Commissioner of the State of Oregon and the Washington Department of Public Service may participate in the hearing, as provided in Part 39, § 39.4, of this Commission's Rules of Practice and Regulations prescribed pursuant to the provisions of the Federal Power Act.

By the Commission.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of May 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission by International Utilities Corporation and General Water Gas & Electric Company pursuant to the Public Utility Holding Company Act of 1935 and particularly sections 6 (a), 7, 9, 10 and 12 (f) thereof. General Water Gas & Electric Company (General), a registered holding company and a subsidiary of International Utilities Corporation (International), also a registered holding company, proposes to obtain a five year bank loan in the aggregate amount of \$2,100,000 from American Trust Company and from Bank of America National Trust and Savings Association, San Francisco, California. General will issue promissory notes to evidence the proposed loan. Interest on the loan is to vary from 2½% the first year to 3½% the fifth, increasing ¼% each year. The proceeds of the loan, together with additional funds to be received from General's subsidiary, Boise Water Corporation, in a settlement of its indebtedness to its parent, are to be applied to the redemption and retirement of \$2,832,000 principal amount of General's 15-year 5% First Lien and Collateral Trust Bonds, due June 1, 1943.

In aid of the foregoing transaction, International proposes to surrender 20,000 shares of common stock of California Water Service Company (California) which International holds as security for an advance to General in the amount of \$385,700 and to extend the maturity date of such advance until after the banks from which General will borrow have been repaid. The securities thus surrendered, with others held in General's portfolio, will be pledged with the banks to secure the loan. Also, the claim of International for its advance to General is to be subordinated to General's indebtedness to the banks.

Additional information concerning the proposed transactions is to be filed by amendment.

- (2) Whether financing by the issuance of the promissory notes by General is necessary or appropriate to the economical and efficient operation of its business.

[File No. 70-337]

IN THE MATTER OF NATIONAL POWER &
LIGHT COMPANY

NOTICE OF FILING OF AN AMENDMENT, ORDER
FOR HEARING, AND ORDER EXTENDING
PERIOD WITHIN WHICH TO MAKE AN
EXCHANGE OFFER

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 13th day of May, A. D. 1942.

Notice is hereby given that an amendment to a declaration or application has been filed with this Commission under the Public Utility Holding Company Act of 1935 by National Power & Light Company ("National"), a registered holding company, and a subsidiary of Electric Bond and Share Company, likewise a registered holding company. All interested parties are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

On December 24, 1941, this Commission, after a public hearing, issued its order with respect to a declaration or application filed by National regarding a proposed offer to be made by National to its preferred stockholders to exchange for each share of National preferred stock two shares of common stock of Houston Lighting and Power Company ("Houston"). This Commission also found that such declaration or application should be treated as a plan filed under sections 11 (e) and 11 (g) of the Act and approved the plan for submission to the preferred stockholders of National, subject to conditions.

The exchange offer became effective January 30, 1942 for the period ending March 31, 1942, which date has been subsequently extended by National to and including June 1, 1942. On the effective date of the exchange offer National owned 500,000 shares of Houston's common stock and there were then outstanding 279,716 shares of National's preferred stock. At the close of business on April 30, 1942, 60,191 shares of preferred stock of National had been tendered for exchange, or 21.51% of the number of shares outstanding, and as a result thereof, 108,048 shares or 21.6% of the common stock of Houston had been issued in exchange.

Under the Commission's said order of December 24, 1941, it was provided that National may not authorize or employ any person or organization other than its own regular officers or employees to solicit exchanges under the plan.

The aforementioned amendment filed by National requests permission to employ the firms of Smith, Barney & Co., Lazard Freres & Co., and Blyth & Co., Inc., and to adopt a program suggested

by such firms, the purpose of which, it is stated, is "To stimulate and facilitate exchanges of National's \$6 Preferred Stock under the Exchange Offer and to eliminate certain factors which appear to have been retarding its progress." The program suggested by such firms is set forth in Appendix A attached hereto.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said amendment shall not become effective except pursuant to further order of this Commission; see p. 453.

It is ordered, That a hearing on such matters under the applicable provisions of said Act and Rules of the Commission thereunder be held on May 27, 1942, at 10:00 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such amendment shall become effective. Notice is hereby given of said hearing to National Power & Light Company and to all interested persons, said notice to be given to said declarant or applicant by registered mail and to all other interested persons by publication in the FEDERAL REGISTER.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said amendment, otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether it is appropriate to permit extension of the period within which exchanges may be effected under the plan as proposed to be amended; and if so, for what period.
2. Whether the proposed program is necessary and appropriate to stimulate and facilitate exchanges under the exchange offer.
3. Whether the proposed program is in all respects consonant with the standards of the Act and in the interests of investors.
4. Whether the fees and commissions proposed to be paid in connection with the proposed program are fair and reasonable.
5. Whether it is necessary to impose any terms or conditions for the protec-

tion of the public interest or the interests of investors or consumers.

It is further ordered, That all persons desiring to be heard or otherwise wishing to participate herein shall notify the Commission to that effect, in the manner provided by Rule XVII of the Commission's Rules of Practice, on or before May 21, 1942.

It appearing to the Commission that the issues raised herein may not finally be disposed of prior to June 1, 1942, after which date further extensions of the exchange offer may not be made by National except upon order of this Commission; and National having filed a request for permission to extend such exchange offer pending such final disposition, and it appearing appropriate that such request be granted for a period of not more than fifteen days from June 1, 1942;

It is further ordered, That the time within which exchanges may be effected under this Commission's order of December 24, 1941 may be extended by National, without further order of this Commission, for not more than fifteen days from June 1, 1942.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

APPENDIX A—SUGGESTED PROGRAM FOR NATIONAL POWER & LIGHT COMPANY

Purpose:

To stimulate and facilitate exchanges of National's \$6 Preferred Stock under the Exchange Offer and to eliminate certain factors which appear to have been retarding its progress.

Program:

I. In order to accomplish this purpose it is suggested that National retain Smith, Barney & Co., Lazard Freres & Co. and Blyth & Co., Inc. (hereinafter called the "Dealer Managers") to develop and handle the details of a program to facilitate exchanges, under which National would offer to pay to any dealer who is a member of a Dealer Group to be formed by the Dealer Managers (and which will include the Dealer Managers), a commission of \$2.00 per share for each share of National \$6 Preferred Stock exchanged in cases where such dealer has been designated by the holder as having solicited the exchange. Except as noted in paragraph (3) hereof this commission would not be paid in instances where the designated dealer was also the beneficial owner of the National \$6 Preferred Stock presented for exchange.

In announcing its offer to pay such dealer commissions, National would send a letter to all holders of its Preferred Stock advising them of the extension of the Exchange Offer (either for a specific period of time or for such a period plus certain possible extensions), and informing them of National's intention to pay the proposed dealer commissions, together with the basis upon which such commissions would be paid and the terms

and conditions of its agreement with the Dealer Managers. This letter would make it clear that any holder who wished to send in his shares for exchange without designating any dealer as having solicited the exchange would be free to do so, and that in such event no commission would be paid.

II. The function of the Dealer Managers would be to form and manage the Dealer Group, to assist the members of the Dealer Group in soliciting and effecting exchanges, to provide an orderly market for Houston Common Stock, and to act as a central agency with nationwide facilities to assist National and the holders of its \$6 Preferred Stock in all matters relating to the Exchange Offer, by rendering the following services among others.

(1) The Dealer Managers would form the proposed Dealer Group and advise the members with respect to the details of National's offer to pay commissions for soliciting exchanges, including the services which the Dealer Managers were making available to them in connection with said offer.

(2) The Dealer Managers would analyze and classify the list of holders of National Preferred and arrange for dealers in various parts of the country to call upon as many holders of National Preferred as might be reached to solicit exchanges. Where the holder did not wish to exchange, they would determine and record (with the Dealer Managers) whether it was the holder's intention to retain his holding, or whether he would like to dispose of it for cash, or would like to exchange provided he could sell all or part of the Houston Common received in the exchange, while retaining his 10% of Stamped Preferred.

(3) Where holders of National Preferred wished to sell rather than exchange, the Dealer Managers would use their best efforts, through their own organizations and through the members of the Dealer Group, to find buyers for such stock who would be willing to exchange. To the extent that they deemed feasible, the Dealer Managers, acting for their own account and risk, also would attempt to acquire National Preferred in order to exchange and make Houston Common Stock available for distribution. In this type of transaction the Dealer Managers (but not the members of the Dealer Group) would be entitled to act as principals, receiving the \$2.00 commission on the total number of shares presented by them for exchange, including the portion thereof which became Stamped National \$6 Preferred Stock, and would distribute the securities received in the exchange (both Stamped National \$6 Preferred and Houston Common Stock) to dealers and others using all or part of the exchange commission received by them to pay a selling commission in connection with the distribution. The purpose of this provision is not to provide a profit to the Dealer Managers by reason of acting in the position of principal, but to

enable them to distribute in an orderly manner Houston Common Stock and Stamped National \$6 Preferred Stock.

(4) Likewise the Dealer Managers (and members of the Dealer Group acting through the Dealer Managers) would be permitted, for their own account and risk, to purchase Houston Common Stock from exchanging stockholders who did not wish to retain the entire amount of that security received in the exchange, and to reoffer it, using all or part of the exchange commission as a selling commission in connection with the distribution. In this instance also, the purpose is not to provide a profit to the Dealer Managers (or members of the Dealer Group) by reason of acting in the position of principal, but to enable them to distribute in an orderly manner Houston Common Stock.

(5) In anticipation of situations such as are outlined in (3) and (4) above, the Dealer Managers, through their own organizations and through the members of the Dealer Group, would build up a record of potential buyers of Houston Common and Stamped National \$6 Preferred Stock in order to have a ready market for stock that might become available.

(6) In order to assist the members of the Dealer Group in soliciting exchanges and in finding buyers for Houston Common, the Dealer Managers would supply them and all other interested parties with copies of the Prospectus, the 1941 Annual Report of the Houston Company, material comparing the statistical position of Houston Common with other similar securities, information on market quotations, and such other information and assistance as would be compatible with the Securities Act of 1933 and the Securities Exchange Act of 1934 and the rules and regulations thereunder.

(7) In order to provide an orderly market for Houston Common and Stamped National Preferred, the Dealer Managers, through Smith, Barney & Co., would be permitted, insofar as it was feasible to do so and acting for their own account and risk, to stabilize by buying and selling such securities, in the open market or otherwise, either for long or short account, subject to the applicable rules and regulations of the Securities and Exchange Commission.

(8) The Dealer Managers and the members of the Dealer Group would at all times be available to answer questions of other dealers or of holders of National Preferred, and the Dealer Managers would place their offices in various parts of the country, and their wire and other facilities, at the disposal of all dealers and others desiring assistance in shipping National Preferred in to the Exchange Agents, getting delivery of the securities received in exchange, and any other matters related to the solicitation of exchanges and the Exchange Offer.

(9) The Dealer Managers would assist National in handling all transactions under the program, including the mechanics of paying the commissions, and would be available for consultation with

National with respect to any matters affecting the Exchange Offer or the operation of this program.

Compensation of Dealer Managers and Reimbursement of Expenses:

National would pay to the Dealer Managers as compensation for their services, an amount equivalent to \$.50 per share on each share of National Preferred on

which a commission had been paid to members of the Dealer Group under this program, and would reimburse them for their out-of-pocket expenses (including commissions), such expenses (other than commissions), however, not to exceed \$35,000 without the consent of National: *Provided, however,* That to the extent that any net profit shall have been real-

ized by the Dealer Managers, at the termination of their employment, from acting as principals in transactions of the types set forth in paragraphs (3) and (4) hereof, such net profit shall be credited by them against the aforesaid expenses and commissions.
