EXECUTION OF ORDERS.

All orders are executed as soon as possible after receipt, and as near as can be in the order in which they are received.

PACKING AND DELIVERING.

Boxes of plants or bundles of trees will be carefully packed and delivered in Boston (free of any expense of carting), and shipped or forwarded according to directions, or, if none are given, by the speediest and safest route. All goods are at the risk of the purchaser; but every care will be taken to insure the safe and prompt arrival of all plants. Our system of packing insures the safety of the plants to any part of the country.

ORDERS.

Orders should be written as plain as possible, and on a separate sheet of paper, which will greatly facilitate their execution. If mixed up in the body of the letter, many plants are often overlooked.

PAYMENTS.

Orders for plants or trees from unknown correspondents must be accompanied with cash or a satisfactory reference.

OUR CAMBRIDGE NURSERIES.

Are situated on the Cambridge road to Mount Auburn, half a mile east of Harvard College, about two from Boston, and contain upwards of forty acres. All amateurs and lovers of plants are invited to visit the Nurseries. During the summer there are magnificent displays of Roses, Gladioli, Japan Lilies, Phloxes, &c.; and in winter, the Camellias, Azaleas, and other plants, render our collection always attractive. Horse cars (from the Bevere House) every fifteen minutes.

*. * A liberal discount will be made to the trade.

The following catalogues are issued by HOVEY & CO., and will be forwarded to all applicants upon the receipt of the price of each:—

NEW PLANTS

FOR 1872.

AGAVE LONGIFOLIA PICTA.

A very fine variety, the leaves of which are much longer and narrower than the old variegated kind; the variegation is also much whiter and cleaner.

Price, \$3 to \$5 each.

AGAVE LÆTEVIRENS VARIEGATA.

A beautiful kind, the leaves having a distinct edging of pale yellowish-green.

Price, \$3 to \$5 each.

ALAMANDA WARDLEIANA.

A new and very fine acquisition; the lobes of the corolla are broader and rounder, and of greater substance than any other; the throat is also darker in color, and the outside of the flower is of a reddish maroon shade; it also blooms young, and nearly all the year round.

Price, \$2 each.

ASTEROSTIGMA ZEBRINA.

One of the aroideous plants, with lobed leaves, spotted stems, and flowers in the style of the calla.

Price, \$1 each.

AMARANTHUS SALICIFOLIUS.

This is said to be one of the great novelties of the year. The plant assumes a very graceful and symmetrical form; and the color of the entire plant is of the most brilliant bronze, crimson, and orange tints, remaining in perfection a long time. For the garden or conservatory decoration it will be a splendid object.

Price, 50 cents each (ready May 1).

NEW AUCUBAS.

These new half-hardy evergreen shrubs are great acquisitions, and will become popular and beautiful additions to our gardens. Nothing, it is said, in "the way of evergreen shrubs, will at all compare with Aucubas when laden with their coral-red berries." The old variety produced nothing but flowers; but, since the introduction of the new Japan male varieties by Mr. Fortune, the flowers are fertilized, and bear a profusion of its deep-scarlet berries.

It grows freely, and only requires the protection of an ordinary cellar to keep through the winter.

Price, \$1 each.

ABUTILON PATTERSONI.

A dwarf-growing and very handsome variety, forming a compact, bushy specimen, with very large dark, chocolate crimson flowers on very long, pendent stems.

Price, \$1 each.

BEGONIA GLAUCOPHYLLA SCANDENS.

An early-flowering and vigorous-growing variety, producing beautiful clusters of rich salmon-colored flowers from the axil of each leaf. The habit is drooping, which makes it a most desirable plant for hanging-baskets.

Price, 50 cents each.

BEGONIA WELTONIENSIS.

A fine summer, autumn, and winter blooming variety, of a dense, dwarf habit, with crimson stems, bright green leaves, and waxy pink flowers, growing freely in half-shady positions.

Price, 75 cents each.

BEGONIA SMARAGDINA.

A handsome dwarf-growing kind, with emerald green leaves, having a rich velvety surface; very beautiful.

Price, \$1 each.

BEGONIA DAEDALIA IMPERIALIS.

Another attractive and handsome variety, with reddish-brown leaves, and veins of emerald-green, covered with a velvety pubescence.

Price, \$1 each.

CENTAUREA PLUMOSA.

A new and beautiful variety, with the general appearance of *C. Gymnocarpa*; but the leaves are more delicately cut and plum-like, forming a drooping mass of silvery foliage.

Price, 50 cents each.

CENTAUREA CLEMENTI.

A new and very robust-growing variety, with large, long leaves, cut in lobes, and deeply serrated. To the elegance of the foliage must be added the beauty of coloring, the young leaves being covered with down as white as snow.

Price, \$1 each.

COBÆA PENDULIFLORA.

The flowers of this elegant climber are produced from drooping stems, and are three to four inches long, of a greenish shade, with deep lobes, and red filaments three inches in length; very graceful in habit, and highly ornamental.

Price, \$1 each.

COBÆA SCANDENS ALBA.

A new white-flower variety, which originated in Michigan, from seeds of the common purple kind. It will make a fine contrast with the old, well-known, and beautiful *C. scandens*.

Price, \$1 each.

CANNA TRICOLOR.

A new, novel, and picturesque variety, with leaves striped with green, yellow, and pink; distinct, and highly decorative.

Price, \$2 each.

ECHEVERIA METALLICA GLAUCA.

This variety has foliage nearly as large as *E. metallica*, with the dense habit and color of *E. glauca*, forming rosulate tufts of leaves eighteen inches in diameter, which have a grand effect. Flowers light orange-color, on long, slender spikes.

Price, \$1 each; \$9 per doz.

ECHEVERIA RETUSA GLAUCA.

Similar in general character to the above; but the foliage is narrower, in the way of *E. retusa*; and the flowers, which are large and showy, are deep orange, and produced in dense clusters for months in succession.

Price, \$1 each; \$10 per doz.

GREYIA SUTHERLANDI.

A splendid plant, with the general habit of a pelargonium, but much stronger-growing, and with thick, stout leaves, producing long clusters of very showy crimson-scarlet blossoms.

Price, \$2.50 each.

LILIUM HUMBOLDTII.

A splendid species, from Humboldt County, California. It grows about five feet high, and produces large, golden-yellow flowers, spotted with purple.

Price, \$3 each.

NEW WHITE CRAPE MYRTLE.

(*LAGERSTRÆMIA INDICA ALBA.*)

The common crape myrtle is one of the most beautiful of half-hardy shrubs, growing and blooming superbly in summer, and only requiring the shelter of a dry cellar in winter. The white is an entirely new variety, brought from Arkansas, where it was originally found by a hunter, who brought it to Kentucky. As a companion to the old red and new crimson sorts, it will be a very valuable acquisition. When it was exhibited in Louisville, "it was the wonder and admiration of thousands."

Plants, \$1.50 each; \$15 per doz.

NEW CRIMSON CRAPE MYRTLE.

(*L. INDICA VAR.*)

This is a new and deep-colored variety, having profuse clusters of bright deep-crimson blossoms all summer.

Price, 75 cents each; \$7 per doz.

MARANTA LINDENI.

A very splendid plant. The upper side of the leaves is rich green in color, traversed by large purple bands; on the other side they are rosy purple, blotched on each side with yellowish green.

Price, \$3 each.

MARANTA SPLENDIDA.

Extremely beautiful and distinct; the leaves are dark, heavy green in color, elegantly rayed with pale yellowish-green, giving it a striking appearance.

Price, \$3 each.

MARANTA MAJESTICA.

A vigorous-growing and elegant species, with the upper surface of the leaves traversed by silvery lines, and the under side of a rich, deep rosy purple.

Price, \$3 each.

MAURANDYA OTHELLO.

A new variety of the pretty *Maurandya*, with very dark purple flowers, distinct and fine.

Price, 50 cents each.

OTHONNA CRASSIFOLIA.

This beautiful plant, though long introduced, is quite rare, and but little known. It has a dwarf, creeping, or pendulous habit, with slender, round, fleshy, light-green leaves, and small axillary flowers. As a plant for hanging-baskets, flourishing in a cool temperature, it is the gem of all similar plants. Its numerous graceful stems depend over the sides of the pot or basket, and its sedum-like foliage glistens under the bright sun.

Price, \$1 each.

POMEGRANATE, MAD. LEGRELLE.

An exquisite variety of the pomegranate, producing large double flowers of a rich aurora, the petals being deeply edged with white. Superb.

Price, \$1 each.

DOUBLE PETUNIA YOUNGI.

A new variety of great beauty, producing pure white flowers of the largest size; very double and full; growth vigorous, and a free bloomer.

Price, 50 cents each; \$4.50 per doz.

PANDANUS LENNE.

A handsome species, in the style of growth of *P. Javanicus* var., but the leaves are longer and more recurved, and of a clear glaucous green, with strong spiny edges.

Price, \$5 each.

STATICE IMBRICATA.

Somewhat in the way of *S. Halfordi*; but the leaves are lobed, and the flower-spikes more dense, and of a richer shade of blue.

Price, \$2 each.

NEW DOUBLE TUBEROSE PEARL.

This is a new, large, extra double, and superb variety of the tuberose, with flowers nearly double the size of the old kind, with thicker and broader petals; it is also much dwarfier and stronger in growth. It flowered with us three years ago, and it is a remarkable and fine acquisition.

Price, \$1 each.

NEW SWEET-SCENTED VIOLET, PRINCESS LOUISE.

A very double white variety of large size, the flowers measuring one inch in diameter; foliage small. It will undoubtedly prove a valuable addition to our winter-blooming flowers.

Price, 75 cents each. \$7 per dozen.

NEW DOUBLE CHINESE WISTARIA.

The Chinese *Wistaria* is well known and universally acknowledged to be the most beautiful of all our hardy climbing shrubs, growing with great rapidity, and its long shoots covered in early spring with an immense number of long, pendulous racemes or bunches of beautiful pale-bluish flowers. This new double variety is similar in all respects, except that its flowers are perfectly double, which give the cluster a more compact appearance, and present a greater mass of bloom. It is one of the fine acquisitions from Japan.

Price, \$5 each. \$40 per dozen.

YUCCA VIRIDIS.

A new *Yucca*, of vigorous growth, with very long, clear green leaves, handsomely recurved.

Price, \$2 each.

NEW MONTHLY CARNATIONS.

Farragut, yellow, carmine-striped; fragrant; perfect form.

Le Noir, almost black; large, very distinct, and fine. Fragrant.

Louise Zeller, pure white; perfect form; profuse bloomer, and beautiful habit.

Louise Lenoir, dark maroon; fine form.

Monitor, scarlet; profuse bloomer.

Meteor, dazzling red; perfect form.

M'aimée, pure white; style of *La Parité*.

Triumph, white ground, broad, carmine stripe; very large.

William Tell, dark maroon; profuse bloomer; fine form.

Price, 75 cents each. Nine varieties, \$5.

NEW DOUBLE GERANIUMS.

- Madame Debray**, flowers of immense size, and of a bright, dazzling red color; trusses enormous; habit vigorous and compact, \$1.00.
- Madame Michael Buckner**, flowers very double and of good shape, produced in immense trusses; the color is a rich shade of bright rosy-salmon, \$1.00.
- Madame Rudolf Abel**, of dwarf and compact habit; and very free flowering; the flowers are well formed, and of a very bright rose-color, \$1.00.
- Marie Crousse**, a free-flowering variety, and of dwarf habit; the flowers, which are of a beautiful bright rose-color, spotted with white, are large and full, \$1.00.
- Miss Mary C. Saul**, flowers of a soft rosy-pink, with large trusses of noble flowers thrown well above the foliage; a profuse bloomer, and neat habit, \$1.00.
- Sapenr Pompier**, flowers of the largest size; very double, well shaped; color, orange-scarlet; trusses of an enormous size; foliage with well-defined zone, \$1.00.
- Sparkhill Beauty**, one of the most beautiful varieties; flowers large, very double, deep rose-color; petals very smooth and well arranged; globular trusses of immense size, \$1.
- Victoire de Lyon**, a very distinct variety; flowers finely formed, of a very rich and bright crimson-color, with a pretty shade of violet, \$1.00.

NEW GOLDEN TRICOLORED GERANIUMS.

- Achievement**, this very bright and rich variety is most refined in its marking, and is generally considered one of the most beautiful of the Golden Tricolors, \$5.00.
- Artemus Ward**, a new and very novel variety, with broad margin of gold, and a green centre; quite distinct, \$1.00.
- Ballymena**, a most desirable variety for bedding purposes, and very distinct in character; zone very dark chocolate, and rosy purple, \$3.00.
- Edith Stuart**, a free-growing variety, with flat salver-shaped leaves; zone, bright vermilion, with a light yellow margin, \$2.00.
- Lucy Grieve**, one of the finest tricolors, with rich, velvety, golden-margined leaves, exquisitely figured on the inner side with crimson and bronze, \$1.00.
- Marian Morris**, a variety after the style of Goliath, and equally free in growth, but with brighter colors; a good bedder, \$2.00.
- Mrs. Dnnnett**, a splendid tricolor, with very compact habit, and flat salver-shaped leaves, with intensely dark zone, \$3.00.
- Phœbus**, free habit; large foliage; of great substance; a most serviceable tricolor for winter decoration, retaining its brilliant color throughout the season better than any other variety, \$2.00.
- Prince of Wales**, undoubtedly the finest tricolor ever offered; of most vigorous habit, and intensely brilliant colors, \$5.00.
- Princess of Wales**, a variety similar to Prince of Wales, but more brilliant in color, and smaller leaves, \$5.00.
- Sir Robert Napier**, a most distinct and striking variety, with the darkest and broadest zone yet seen, indented with brilliant scarlet and Vandyke blotches, and deep golden margin, \$2.00.
- Sultana Valida**, a splendid tricolor, with a very bright straw-yellow margin; a most desirable, showy variety, \$3.00.
- Sultan Abdul Aziz**, a splendid dark tricolor, very distinct in character and free in habit; leaves of great substance, and particularly round; zone a dark scarlet, light golden margin, \$2.00.

NEW LANTANAS.

- Lizzie Cook**, neat, dwarf, compact habit; orange and scarlet.
- Mine d'or**, orange and red; variegated leaves; very distinct.
- Mons. Escapit**, yellow and violet-purple; fine truss; free bloomer; extra.
- Ne plus Ultra**, purple and yellow; fine truss; very showy.
- Raphael**, orange, rose, and purple; very bright; neat, clean habit; free bloomer.
- Sanguinea**, yellow and purple; showy, and a fine bedder.
- Victoire**, pure white, rich lemon eye; distinct and fine.

Price, 50 cents each; \$3.50 per dozen.

NEW NÆGELIAS.

The Nægelias are superb plants, flowering from August to November, and invaluable for the decoration of the greenhouse at that season. The foliage is rich velvety, and variously colored; and the plants produce a profusion of magnificent flowers on tall spikes, among which "not a single color of the rainbow fails to find its representative." The following are some of the newest varieties raised by M. Van Houtte, who has been devoted to the improvement of this flower.

Dauw, magnificent floral spike, formed of innumerable rows of flowers; white sprinkled with rose; a golden throat with dots of vermilion.

Donderstraal, spikes erect, very beautiful; flowers deep carmine; throat golden yellow spotted with cochineal.

Droom, splendid floral pyramid; flowers flesh-color, marked with chrome-yellow and cream.

Morgenlicht, superb foliage; one spike of pure golden-yellow flowers.

Nachtegaal, flowers carnation-color, with flesh-colored spots on a white ground.

Zonnendaal, flowers distinctly and beautifully blotched with chamois.

Price, \$1 each; the set of seven for \$6.

NEW ROSES.

New Roses are produced in quantity by the successful fruit-cultivators; and, although most of them are fine roses, a great number are so slightly different from older kinds, that the multitude of sorts only perplexes the amateur, without adding much variety to his collection. The following are new kinds selected from the very best.

TEA ROSES.

Adrienne Cristophle, large, full; apricot, tinted peach-blossom. Superb.

Madame Celina Noirey, very large, light-rose; fine.

Madame Ducher, clear yellow; very fine shape; vigorous, in the style of Gloire de Dijon. A beautiful rose.

Marie Sisley, large, full, and globular, yellow, margined with red.

Marie Ducher, very large, full; fine form; light rose.

Price, \$1 each; \$9 per dozen.

BOURBON ROSE.

Marie Larpén, medium size; fine form; clear silvery-rose. Beautiful.

Price, \$1.50 each.

HYBRID PERPETUAL ROSES.

Auguste Neuman, large; fine form; good habit; color brilliant fiery-scarlet, shaded with violet, often mottled.

Charles Souchet, very large; full and fine; scarlet, shaded crimson and violet; superb; very vigorous.

Jules Chretien, large, full fine form, well imbricated; bright, soft rose; superb.

Mademoiselle Eugénie Verdier, very large; full, fine form; light rose, reflected with silvery white; splendid.

Susannah Wood, large; full; of very fine form; fine fresh-rose; great bloomer.

Thos. Methven, vigorous; in the style of Chas. Lefebvre; flowers large, full; fine form; brilliant carmine.

Price, \$1.50 each.

NEW VARIEGATED IRIS.

(IRIS FÆTIDA VARIEGATA.)

A new and very beautiful variegated Iris, with the foliage distinctly striped with pure white. A superb plant for edging or ribbon-lines.

Price, \$1 each.

NEW AND SELECT PLANTS.

ALLAMANDA HENDERSONI.

This remarkably fine variety is now acknowledged to rank as one of the best yet introduced. The flowers are very large, finely formed, remarkably thick and wax-like, and tinged with brown on the outside. The plant flowers young; and, when once it commences, it possesses the excellent characteristic of continuous flowering. The foliage is handsome, glossy; and as an exhibition plant, or hothouse climber, it is unequalled.

Price, \$1, \$2, \$3, and \$5 each.

Allamanda Aubletia, \$1.

Allamanda Schottii, \$1.

Allamanda Nereifolia, \$1.

Allamanda Cathartica, \$1.

ALOCASIA ZEBRINA.

A splendid plant, and remarkably distinct. The leaves in shape are like *A. machorriza*; but the stems, which are yellowish green, are conspicuously mottled and striped with black, which render it a bold and striking object.

Price, \$3 to \$5 each.

ALOCASIA VEITCHII.

A superb plant, somewhat resembling *A. metallica*, but with more pointed leaves, which are large and of a bronzy metallic shade. A grand exhibition plant.

Price, \$2 each.

Alocasia metallica, \$2.

Alocasia alba violescens, \$1.

A. machorriza variegata, \$1.

ANTHURIUM REGALE.

A noble plant; its heart-shaped pointed leaves, attaining the size of twenty inches in breadth, when young, of a bronzy tint, passing to a maroon and yellow-olive, and finally to an emerald green; the veins prominent and white.

Price, \$5 each.

Anthurium magnificum, \$5.

Anthurium leuconeurum, \$3.

ANANASSA SATIVA VARIEGATA.

This is the very beautiful and showy variegated Pine-apple. Always admired for the graceful habit of its long and beautiful colored leaves, distinctly striped with bright yellow, and often tinged with pink.

Price, \$3 to \$5 each.

ABUTILON SANTANA.

A fine species, with flowers of large size, of dark brownish crimson, distinct and beautiful; the darkest yet introduced.

Price, 50 cents each.

Abutilon Lemoine, 30 cents.

Abutilon Souv. d'Arago, 30 cents.

Abutilon album, 30 cents.

Abutilon Duc de Malakoff, 50 cents.

Abutilon insignis, 50 cents.

Abutilon venosum, 30 cents.

ABUTILON THOMPSONI.

One of the most distinct and pretty of variegated-leaved plants, growing freely in pots or in the open ground. The leaves are deep green, and netted and speckled with gold throughout. Very constant, and always beautiful. For marginal lines or ribbon borders in contrast with *Achyranthes* or *Colcus*, it is unsurpassed.

Plants, 30 cents each; \$2.50 per dozen

ABUTILON MESOPOTAMICUM.

A very pretty half-climbing greenhouse-plant; with tubular flowers of orange and scarlet, produced in great profusion. It is also a showy summer-flowering plant.

Price, 30 cents; \$3 per dozen.

AGAVE AMERICANA FOLIUS MEDIO PICTIS.

The most superb of all the variegated agaves, the large fleshy leaves having a wide golden band down the centre of each.

Price, \$5 each.

AGAVE AMERICANA STRIATA.

The leaves of this variety, instead of having two bands of yellow and green, are regularly striped.

Price, \$3 to \$5 each.

AGAVE AMERICANA VARIEGATA.

Handsome plants of all sizes, from \$2 to \$50 each.

AGAVE AMERICANA.

Plants in pairs, of all sizes, \$2 to \$50 per pair.

AGAVE MILLERI.

A very handsome variety, in the style of Americana variegata; but the leaves are narrower, more erect, and more gracefully curved.

Price, \$3 to \$5 each.

AGAVE APPLANATA.

A fine plant, with stout, thick leaves of a glaucous green, shortly pointed with a very strong black spine.

Price, \$3 to \$5 each.

ACHYRANTHES AUREUS RETICULATUS.

A beautiful "sport" of the now well known *A. Verschaffeltii*: like it in habit and growth; but in place of the rich, deep coloring of that variety, it has leaves of a light green, regularly marked with a network of yellow. The stems are deep red, which form a marked contrast with the golden hue of the foliage.

25 cents each; \$2.50 per dozen.

ACHYRANTHES VERSCHAFFELTII.

One of the finest of the dark-foliaged plants adapted to summer bedding; it is much hardier than the Colens, and dwarfer in habit. Its leaves are of a deep rich shade of crimson, and it retains its colors till severe frosts.

25 cents each; \$2.50 per dozen.

ACHYRANTHES VERSCHAFFELTII VAR. GILSONI.

A sport from *A. Verschaffeltii*, and quite different in color, as well as dwarfer in growth. The leaves are of a bright carmine or rosy tint, and the stems pinkish violet, forming a brilliant object compared with the parent variety.

25 cents each; \$2.50 per dozen.

ACHYRANTHES LINDENII.

A new and beautiful variety of this popular plant; of dwarf habit, and densely clothed with long, slender leaves, of a deep blood-red, reflecting tints of red and purple. It is a free grower, and much hardier than the old *A. Verschaffeltii*; one of the best.

Plants, 30 cents each; \$3 per dozen.

ACHYRANTHES ACUMINATA.

Another very showy sort, with large, broad acuminate leaves, which are of a bright blood-red, shaded and mottled with crimson; vigorous-growing and handsome; one of the best foliage plants.

Price, 30 cents each; \$3 per dozen.

AGERATUM IMPERIAL DWARF.

A dwarf, compact variety, growing only a foot high, and very profuse in its light-blue flowers.
Price, 25 cents each; \$2 per dozen.

AGERATUM MEXICANUM VARIEGATUM.

A very useful and pretty plant, valuable for ribbon lines; its variegated foliage and free growth rendering it a favorite. 25 cents each; \$2 per dozen.

Ageratum Mexicanum, 25 cents. | *Ageratum Tom Thumb*, 25 cents.

ARALIA PAPYRIFERA.

One of the most effective and picturesque plants, with very large palmate leaves on long stems covered all over with a silvery pubescence. Fine for subtropical gardens.
Price, \$1 each.

Ardisia crenulata, \$1.
alba, \$1.

Agapanthus umbellatus, \$1.
alba, \$2.

variegata, \$2.
Arundo donax variegata, \$1.

Acacia longifolia,
cultræformis, \$1.
armata, 50 cents.

Drummondii, \$1.
Several var. 50 cents to \$2.

Aspidistra lurida variegata, \$1.

AMPELOPSIS VEITCHII.

A new species of the Woodbine, from Japan; has proved quite hardy in England, and will undoubtedly be hardy in our climate. It grows more rapidly than the old Virginia Creeper, and attaches itself to any wall or fence. The leaves are small, and at first of an olive-green brown color, changing to scarlet in the autumn. It will prove one of the finest of our hardy climbers.

Price, 50 cents each; \$4 per dozen.

AMARYLLIS, PRINCE OF ORANGE.

A very showy free-flowering variety, with clusters of the most brilliant orange-scarlet flowers.
Price, \$1 each.

Acorus fol. variegata, 25 cents.
Amaryllis reticulata, \$1.50.

Adhatoda cydonæfolia, 50 cents.
Amaryllis, seedlings, \$1.

AKEBIA QUINATA.

A perfectly hardy and beautiful climbing plant, with trifoliate leaves and dark brown flowers; highly fragrant.

Price, 50 cents to \$1 each; \$4 per doz.

HOVEY AND CO'S CATALOGUE OF

ALOYSIA CITRIODORA (Lemon Verbena).

Always admired and valued for the delicate odor of its graceful and neat foliage.
Price 25 cents; \$2 per doz.

BOCCONIA JAPONICA. Page 11.

ALTERNANTHERAS.

Beautiful dwarf plants, of a compact, hardy habit, growing six to eight inches high, and admirably adapted for front pieces or edgings to flower-beds; their beautiful tinted foliage of crimson, purple, yellow, pink, and green, forming rich masses of verdure, always attractive and highly ornamental.

A. Amœna, leaves tinted yellow, brown, and rose-color; very beautiful.

A. Spathulata, narrow leaves, tinted carmine and green.

A. Paronychioides, leaves tinted light-rose to deep-crimson.

A. Amabilis, leaves broad, yellow, scarlet, and green; a rapid grower.

Price, 25 cents each; \$2.50 per doz.

ACANTHUS MOLLIS.

A very distinct and elegant plant, with large, glossy, deep-green leaves; bold and noble in outline; deserving a prominent place among sub-tropical plants.

Plants, 50 cents each.

ASTILBE JAPONICA (*Spiræa Japonica*).

This is one of the prettiest of hardy herbaceous plants, growing about eighteen inches high, with neat foliage and dense spikes of pure white feather-like flowers. For winter flowering it is very valuable, the foliage as well as flowers being alike ornamental.

Price 30 cents each; \$2.50 per dozen.

Alyssum, double white, 20 cents;

Alyssum, variegated, 20 cents.

BAMBUSA VARIEGATA.

A most beautiful dwarf-growing plant from Japan, forming elegant tufts with erect stems and ribbon-grass-like leaves, clear white and deep green; growing freely, and elegant for the open ground in summer, and baskets or vases in winter.

Plants, 30 cents each.

Bambusa Metake, 50 cents.

Bambusa aurea, 50 cents.

BOCCONIA JAPONICA.

A new and noble plant, introduced from Japan, forming an object of unusual admiration. It is allied to the *B. Cordata*, but surpasses it in its more robust and free growth, its fine habit, and the size, shape, and coloring of the foliage, as well as the showiness of its flower-spikes. It forms a bush ten to twelve feet high, which is decorated from the month of August with beautiful pyramidal spikes of flowers two to three feet or more long. As a single specimen on the lawn, it has a grand effect. Perfectly hardy.

Plants, 50 cents each; \$4 per doz.

GOLDEN BRONZE AND GOLDEN GERANIUMS.

This class is destined to become the most popular of the Fancy Geraniums; the foliage is not quite so striking as the tricolors when in perfection; but when their general qualities, either as hedging-plants or pot-plants, are taken into consideration, they will be found fully as effective and far more satisfactory. There is no difficulty in growing them, as they are as vigorous as the green-leaved sorts, standing the sun well, and making a beautiful bed where the tricolors dwindle away. With the improvements in the new sorts, the rich contrast of their profusion of gold and bronze foliage renders them magnificent additions to any collection. The following are some of the recent additions:—

- Anne Williams**, deep golden margin, and bronze zone.
- Black Knight**, thick, leathery leaves, with broadest and deepest zone of any; fine, 50c.

POMPONE OR BOUQUET DAHLIAS.

This new class is highly valuable, and adds to the novelty as well as beauty of a collection. The varieties are distinguished for their profusion of extremely elegant miniature blossoms, some of the size of a ranunculus flower. They are highly decorative and effective, for their compact and neat growth, and general neatness of form and outline.

CALADIUMS.

A magnificent collection of these most beautiful of all the ornamental-foliaged plants for the decoration of the conservatory or greenhouse in summer, with large-sized leaves, spotted, blotched, marbled, speckled, or flecked with white or crimson on a green ground. They are of the easiest culture, simply potting them in sandy peaty soil, and starting them in a warm place; afterwards putting them in larger pots, and watering freely. When the foliage begins to fade, dry them off, and keep them in a warm place till March, when they may be repotted, and treated as before. The following embrace some of the newest and finest varieties:—

- Adolph Adam**, densely speckled with white and rose spots.
Alfred Blen, pure white spots and pink centre.
Auber, densely marked with white and pink spots.
Auguste Reviere, white centre, and bright crimson spots.
Argyrites dwarf, dotted all over with white.
Beethoven, white, veined with green; centre rose; beautiful.
Brougniarti, large; dark crimson centre.
Bicolor, nearly covered with deep red.
Baraquinii, dark green, with very large crimson centre.
Chautini, superb, spotted with crimson.
Charles Verdier, spotted with pale rose.
Belleymeii, nearly covered with white spots.
Boisduval, crimson centre, with snow-white blotches.
Devosianum, dotted and flecked with pure white.
Dr. Lindley, crimson centre; the green ground marked with rose.
Enckei, spotted with white.
Ed. Moreaux, crimson spots, and rich red centre.
E. G. Henderson, flecked with rosy spots.
Hastatum, pale, with white spots.
Houlletii, thickly spotted with white.
Halevy, white spot and crimson blotches.
Isidore Leroy, metallic green, and crimson spots.
Keteleeri, thickly spotted with crimson.
Marmoratum, spotted with white.
Mars, large crimson centre.
Mad. Andrien, flecked with rosy spots.
Mad. Houillet, pink and white spotted.
Meyerbeer, white leaf ground, with green veins and red midribs; fine.
Neumannii, with pink spots.
Pœcile, deep green; large red nerves.
Picturatum, red centre; long narrow leaves.
Pictum, very conspicuous large white spots.
Reine Victoria, white; green veins and crimson spots; very fine.
Regale, dark green, with silvery spots.
Raulinii, crimson nerves and white spots.
Van den Hecki, bronzy green.
Wightii, white and pink blotches.

Price, 50 cents to \$1 each; \$5 to \$10 per dozen.

COLEUS.

The Coleus are among the most showy and decorative plants, admirably adapted for all bedding-purposes, growing freely everywhere; and the introduction of the golden-foliaged kinds of last year has placed them first among ornamental-leaved plants. As it has been proved that they stand our sun well, they will be more extensively planted, their rich gold

and bronze coloring not being found in any other plants. Seedlings of great beauty are easily raised ; but the following kinds are the best yet introduced : —

GOLDEN COLEUS.

- Albert Victor**, centre bronzy purple, with broad yellow margin.
Beauty of Widmore, light green ; chocolate centre, with pink zone.
Duke of Edinburgh, bright glowing red, margined with golden yellow.
Her Majesty, bronzy red centre, with narrow yellow edge.
Princess Royal, centre reddish bronze, with bright yellow margin.
Setting Sun, rich bronze-crimson centre, with bright yellow margin.

Price, 25 cents each ; \$2 50 per dozen.

CANNAS. Page 40.

NEW SEEDLING COLEUS.

Twelve very beautiful seedlings of our own growth, selected from a large number, and comprising a combination of beautiful colors, curiously and richly veined, marbled, edged, and blotched.

Price, 30 cents each ; \$3 per dozen.

Coleus Verschaffelti, one of the very best for bedding, forming a rich mass of foliage, and standing our hot sun and variable weather uninjured.

Price, 25 cents each ; \$2 per dozen.

PALMS, PANDANADS, &C.

The Palms are among the noblest of decorative plants, and are invaluable for ornamenting the garden in summer, or the conservatory in winter. They are easily cultivated, and require but little attention; and many of them flourish well if wintered in the greenhouse. Their stately form, ample foliage, and tropical aspect render them especially attractive and desirable in every collection.

CANNAS.

A group of plants of a grand and tropical aspect, of tall and stately growth, with broad and massive foliage, and covered with bright scarlet, crimson, orange, or yellow flowers. The foliage also comprises the varied tints of light and pale green, and brown and chocolate, which contrast pleasingly, and add to the effectiveness and display of groups. Several of them are also admirable for pot-culture in large conservatories, where the rich foliage is scarcely less showy than the *Dracænas* and other rare plants much more difficult to cultivate. The following comprise several of the most distinct and beautiful varieties:—

Annei, large, long sea-green leaves; of very tall and vigorous growth.

Annei rosea, tall, free growing; orange flowers. 50 cents.

Aurea perfecta.

Aurea fulgida.

Bihorelli, stem and foliage dark; with very large scarlet flowers. \$1.

Bonneti major, broad leaves, suffused with brown; handsome bright red flowers. 50 cents.

Discolor, dark-veined stem and leaf-margin.

Gigantea, very long massive leaves, ribbed with purple.

Glanca, silvery foliage; scarlet and yellow flowers.

Gabonensis.

Keteleeri.

Limbata, pale green leaves; yellow flowers.

Musæfolia, broad leaves; ribbed. 50 cents.

Nepalensis, long, narrow, green foliage, and large yellow flowers; dwarf.

Nigricans, the finest dark variety; very tall. \$1.

Perviana.

Perfecta rubra, olive-green and purple leaves.

Superba.

Warszewiczi, green and brown leaves; scarlet flowers.

Zebrina, handsome green and brown leaves, zebra like.

Price, 25 cents to 50 cents each, except those noted.

Our selection \$2.50 to \$5 per dozen; \$15 to \$30 per hundred.

BEGONIAS.

Highly attractive and ornamental from the rich and varied coloring of the large leaves, and well adapted for conservatory decoration in summer and autumn. Some of the varieties are also fine for planting out in half-shady beds in summer, where they flourish finely. *Begonia rex* is admirable for bedding out.

The following are a few of the best kinds, of good habit and free growth, with well-defined and distinct foliage:—

Duchess de Brabant.	Picta.
Grandis.	Picturata.
Mad. Crouse.	Queen Victoria.
Marshallii.	Rollinsoni.
Mad. Wagner.	Rex.
Miranda.	Ricinifolia maculata.

Price, 50 cents to \$2 each.

NÆGELIAS.

The *Nægelias* are superb plants, similar to the *Gesneras*, and have the same magnificent large green velvety foliage, often marbled and spotted with crimson. Their habit is erect; and the numerous flower-stems are terminated with pyramidal spikes of large tubular flowers, yellow or cream colored, and splendidly spotted or marbled with scarlet, red, or crimson. As summer ornaments of the greenhouse, there are few plants that can equal them. The following are from the great collection of Van Houtte, and are seedlings raised by him:—

Chromatella , flowers open, yellow, lightly shaded toward the interior.	Cliftoni , very large; yellow and vermilion, mottled with crimson.
Cinnabarina rosea , clear vermilion, marbled with scarlet, and speckled with gold.	Mad. Paul Boutez , pink, speckled with amaranth; throat spotted scarlet.
Alba lutescens grandiflora , flowers very large, cream colored.	Geroldtiana , flowers red on the outside, yellow inside; mottled.
	Velutina , beautiful foliage.

Price, 50 cents each; \$4.50 per dozen.

ORCHIDS.

These lovely plants are as yet but little cultivated, undoubtedly, in a great degree, from the general impression that they are difficult to manage, requiring special care and a house expressly for them. Nothing is more erroneous. Many of the most beautiful kinds are no more difficult to grow than ordinary hothouse-plants; and some of them flourish in a warm greenhouse. With proper care in watering, and potting them at the right time, they can be successfully grown by all who are familiar with good cultivation. A few experiments with some of the cheaper kinds will show that all the supposed difficulties of treatment will soon disappear, and a rich show of blossoms amply repay all extra care and attention.

Aspasia epidendroides , . . . \$5	Lycaste Skinneri , . . . 3
Calanthe rubra maculata , . . 3	Maxillaria Harrisonæ , . . . 5
Cattleya mossiæ , . . . 5	Odontoglossum citroszum , . 10

Chysis aurea , . . . 3	papilio , . . . 5
Cypripedium barbatum , . . 2	sphacelatum , . . . 5
insigne , . . . 1	Phaius grandiflorus , . . . 2
venustum , . . . 1	maculatus , . . . 5
Dendrobium nobile , . . . 2	Wallichii , . . . 8
Epidendrum cochleatum , . . 3	Stanhopea tigrina , . . . 3
vitellenum , . . . 3	Vanilla aromatica , . . . 5
Gongora atropurpurea , . . 3	Zygopetalum crinitum , . . . 5

Ten varieties, our selection, \$25.

Extra-sized plants of some of the above can be supplied at fair prices.

ACHIMENES.

Our collection comprises upwards of forty handsome sorts, among which we name the following:—

Dentoniana, blush-lilac.
Dazzle, vivid scarlet; very brilliant.

Picta, scarlet and yellow.

Sir Teheren Thomas, rich dark crimson.
Violacea, dwarf blue.
Violacea plena, double dwarf blue.
 And thirty other sorts.

\$3 per dozen.

AGAVES AND YUCCAS.

The Agaves and Yuccas are specialties of culture; and our collection is unsurpassed in this country, embracing over fifty species. Many of them are yet so rare and scarce, that we cannot offer them for sale until another year; but we invite amateurs to examine them. No plants are more decorative or more effective than these; and for the conservatory in winter, or lawn and garden in summer, they are highly picturesque, as well as tropical in aspect. We possess many fine large specimens of the older kinds, the prices of which will be given on application.

AGAVES.

Americana, of all sizes. \$1 to \$10.

Glaucia, broad, erect, glaucous leaves. \$1 to \$3.

Gloriosa, a large and showy kind. \$1 to \$3.

Halkini, a strong-growing, handsome kind. \$3 to \$10.

Nivea, beautiful creamy-white flowers. \$2 to \$5.

Plicata, broad leaves and compact habit. \$3 to \$5.

Quadricolor, superb, with green and golden striped leaves. \$5.

Recurva pendula, with long, very gracefully-recurred leaves. \$2 to \$5.

Sieboldi, long somewhat pendent leaves. \$2 to \$5.

Viridis, long deep green graceful leaves. \$3.

A few extra large specimens of some of these varieties.

CACTUS, CEREUS, & C.

The Cacti tribe are both curious and beautiful plants; and those with showy flowers, when well grown, are magnificent ornaments of the greenhouse, and deserve a more prominent place than has heretofore been given them. Some few are only desirable for

their novel form of growth ; but the greater part of those we offer are superb flowering kinds, more especially our seedlings, which are unequalled in size and color.

Cereus coccinea, scarlet.
crenata, large ; white.
cœrulescens, white.
grandiflorus, night-blooming.
Mac Donaldi, night-blooming,
 with large flowers thirteen
 inches in diameter.
nyctacaulis, night-blooming ;

AZALEA INDICA.

Our collection of these beautiful greenhouse-plants comprises one hundred and fifty varieties, including many of the newest and rarest sorts. No conservatory can be complete without a good assortment of Azaleas ; and, as a parlor-plant, it can be recommended as one of the best, easily treated, and flowering freely.

Prices of plants with flower-buds, 50 cents to \$1 each ; \$4 to \$8 per dozen.

Specimen-plants of several kinds, \$5 and upwards each.

CAMELLIAS.

These magnificent plants, as well as the Azaleas, are specialties of culture ; and our collection is one of the largest in the country, including all the finest kinds.

Prices, for young plants, \$1 each ; \$9 per dozen.

Larger plants, \$12, \$18, and \$24 per dozen.

MRS. ANNE MARIE HOVEY.

This magnificent Camellia surpasses in every quality all other varieties yet produced. In the shape and symmetry of the flower, and in the form, substance, and perfection of petal, it has no equal ; but its most remarkable character is its peculiar and distinct quality of producing flowers of many different colors on the same plant. The prevailing color is a clear waxy white, delicately pencilled with crimson ; but often a great number are of the darkest and richest carmine. Some are of the deepest shade of blush ; others, blush, striped with carmine ; some are white, tinted with rose ; others, white, stained and marbled with carmine ; some are half white, and half deep rose ; and occasionally some are pure white. In fact, entirely new and beautiful combinations of these tints are constantly produced. Every flower remains in perfection a week or more. It begins to bloom in January, and continues to blossom till May. The habit of the plant is erect and symmetrical ; the leaves medium size, deep green ; and it flowers as abundantly and as freely as the old Double White. Young plants are now offered for sale at \$5 each. Large plants, \$10 to \$25 each.

LANTANAS.

The Lantana is now a universal favorite, and rivals the Verbena as a bedding-plant, blooming abundantly from July until frost. It grows freely, forming dwarf compact bushes, twelve to eighteen inches high, profusely studded with neat corymbs of flowers varying in color from snow-white, with lemon centre, to elegant pink and rose and violet discs, and again from the most brilliant orange and scarlet to beautiful rosy lilac with creamy centres. The foliage also diffuses a pleasant balsamic odor.

ROSES.

Our plants are upon their own roots, and are mostly grown in pots for the better convenience of transporting at any season, and the certainty of their growth. It is well known that Roses transplanted from the open ground often fail to grow; and, of those that succeed, scarcely any of them bloom the first season. Those from pots take root at once, and flower abundantly. Purchasers leaving the selection to us will get a fine assortment of varieties, and generally better plants.

To obtain a fine display of Roses, the soil should be well enriched with old manure, covering the ground in autumn four inches deep. If the season is dry, give them plenty of water, and occasionally liquid manure.

TEA-ROSES.

HARDY HERBACEOUS FLOWERING PLANTS.

The hardy herbaceous flowering plants are the most valuable of all garden flowers. They are not only perfectly hardy, but are of easy culture, grow in any good soil, increase freely, and give a succession of bloom from April to November. Especial pains have been taken to make our collection very complete; and it is with much pleasure that we are enabled to offer one hundred and fifty species and varieties, comprising the most showy and beautiful kinds. Many of them, especially the dwarf varieties, are well adapted to rock-work and small flower-borders, where the abundance of blossoms renders them very ornamental.

Prices, from 30 to 50 cents each; \$3 to \$4.50 per dozen.

ORNAMENTAL GRASSES.

Especially adapted for flower-beds, or for hanging-baskets and rustic vases.

Acoris variegata, dwarf erect growth; leaves glossy green, striped with white.

Aria cærula var., of erect and graceful habit, with tall flower-stems.

Isolepis gracilis, a beautiful miniature rush-like plant, the foliage hanging thickly all over the pot. The pot should stand in a basin of water.

Panicum plicatum, a stout plant, with long, thickly ribbed, deep green velvety leaves; fine for large beds.

30 cents each; \$3 per dozen.

HARDY AZALEAS.

A superb collection of fine named varieties and seedlings of great beauty, many of them quite equal to the named sorts.

Fine named varieties, with buds, \$1.50 each.

Fine mixed seedlings, \$1 each; \$9 per dozen.

HARDY RHODODENDRONS.

Our collection of these magnificent evergreen shrubs is unrivalled in this country; and hundreds of plants, many of them ten feet high, may be seen in bloom during the month of June.

Fine plants, all perfectly hardy, \$1.50 each; \$12, \$18, and \$24 per dozen.

DOUBLE TUBEROSES.

The Tuberose is now very extensively cultivated, and the flowers are indispensable in a choice bouquet. The ease with which it may be flowered, if good bulbs are selected, gives it additional value as a garden-plant. If the bulbs are started early, and planted out in the open ground, they will flower abundantly all the latter part of summer.

Fine bulbs, started in four-inch pots, \$3 per dozen.

HOVEY'S SUPERB DOUBLE PRIZE ZINNIAS.

These are the most double, symmetrical, and beautiful varieties ever produced. They have been selected from an immense collection, and are unequalled.
10 cents each; \$1 per dozen.

DOUBLE PÆONY-FLOWERED ASTERS.

These varieties have now been brought almost to perfection. The flowers are very large, double to the centre, almost globular; and they are produced in such profusion as to cover the plant. No garden can be complete without them, blooming as they do all through the autumn.
75 cents per dozen.
