Commonwealth of Massachusetts.

This State is bounded north by Vermont and New Hampshire; east by the Atlantic Ocean; south by Rhode Island and Connecticut; and west by New York. The average extent, from north to south, is 70 miles, and from east to west 140; area, 8500 square miles. The Green Mountains range through the central parts of the State, from north to south. These mountains, in their whole extent, abound in noble elevations, dark green forests, pleasant and sheltered valleys, and an infinite variety of impressive scenery. The highest peaks are Saddle Mt., Taghkonie, Mt. Tom, Mt. Holyoke, &c.

Massachusetts has no large rivers wholly within her bounds. The Merrimack passes out of New Hampshire into the northern division of the State, emptying into the sea at Newburyport. The Connecticut, in traversing it from north to south, nearly bisects the State. The Housatonic, Charles and Ipswich, Neponset and Taunton, though they have short courses, are pleasant streams. The deep bay, between Cape Ann and Cape Cod, which has given name to the State, has caused it to be known in the other States by the name of the Bay State. Cape Ann bounds it on the north, and Cape Cod on the south.

The population of the State of Massachusetts, in 1790, was 388,727; in 1800, 422,845; in 1810, 472,040; in 1820, 523,287; in 1830, 610,408 in 1840, 737,699; in 1900, 2,805,346.
