Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion along interior margin/  
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure
- Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments:  
Commentaires supplémentaires:

- Coloured pages/  
Pages de couleur
- Pages damaged/  
Pages endommagées
- Pages restored and/or laminated/  
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/  
Pages décolorées, tachetées ou piquées
- Pages detached/  
Pages détachées
- Showthrough/  
Transparence
- Quality of print varies/  
Qualité inégale de l'impression
- Includes supplementary material/  
Comprend du matériel supplémentaire
- Only edition available/  
Seule édition disponible
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image/  
Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public  
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives  
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE  
NEW-BRUNSWICK  
ALMANACK,

FOR THE YEAR OF OUR LORD

1848:

Being Bissextile, or Leap Year,  
AND THE ELEVENTH AND TWELFTH OF THE REIGN OF  
HER MOST GRACIOUS MAJESTY, QUEEN VICTORIA;

COMPILED FOR THE MERIDIAN OF

**SAINT JOHN,**

*But will serve for any other part of the Province;*

—CONTAINING—

The usual Astronomical Calculations, and a Table of the  
Equation of Time—Lists of Provincial Officers—Sittings  
of the different Courts—Office-Bearers of various  
Commercial and other Public Institutions :

TOGETHER WITH A CORRECTED LIST OF THE  
**OFFICERS OF THE PROVINCIAL MILITIA,**  
AND OTHER USEFUL INFORMATION.

SAINT JOHN:

PRINTED BY HENRY CHUBB & COMPANY, "COURIER" OFFICE,  
AND SOLD AT THEIR BOOK STORE, PRINCE WM. STREET.

## ECLIPSES IN THE YEAR 1848.

I. A small Eclipse on the Sun's northern limb at the time of New Moon, March 5, in the morning, visible only in the north-eastern parts of North America, including Greenland and Iceland.

II. An Eclipse of the Moon on the 19th of March, at the time of Full Moon, in the evening, visible about twenty minutes in New-Brunswick.

III. The Sun will be Eclipsed, April 3, at the time of New Moon, in the evening, invisible in New-Brunswick.

IV. A very small Eclipse on the Sun's southern limb, at the time of New Moon, August 28, in the afternoon, visible only in a small tract in the Southern Ocean.

V. There will be an Eclipse of the Moon in September, visible and total. Beginning at 11h. 40m. eve. on the 12th, and ending on the 13th, at 3h. 20m. in the morning. Duration of total darkness, 1h. 38m.; whole duration, 3h. 36m. Depth of immersion in the earth's shadow, 20.42 digits on the northern side.

VI. Sun Eclipsed September 27, at the time of New Moon, in the morning. This Eclipse will be invisible in America, excepting the north-eastern Coast of Greenland.

### CHRONOLOGICAL CYCLES FOR 1848.

## SIGNALS

Made at Partridge Island on the approach of Vessels to the Harbour of St. John.

- One Ball, close, for one square-rigged vessel.
- One Ball, half-boisted, for two square-rigged vessels.
- Two Balls, close, for three square-rigged vessels.
- Two Balls, separated, for four square-rigged vessels.
- A Pendant, of any colour, for five square-rigged vessels.
- A Pendant over a Ball half-boisted, for seven square-rigged vessels.
- A Pendant under two Balls close, for eight square-rigged vessels.
- A Pendant between two Balls separate, for nine square-rigged vessels.
- A Flag of any colour, for ten or more vessels.

[The above are hoisted at the East or West yard-arm, according to the Quarter the vessels first appear in, and when their rig can be made out, the following descriptive colours will be hoisted at the mast-head:]

- A Union Jack for a Flag Ship, with or without a squadron.
- "    with a Red Pendant over, for a two-decker.
- "    with a Blue Pendant over, for a Frigate.
- "    with a White ditto, for a small armed vessel.
- A Blue Pendant, for a merchant ship or barque.
- A Red ditto, for a merchant brig or brigantine.
- A White and Blue ditto, for a foreign square-rigged vessel.
- A White ditto, without a Ball, for a topsail schooner or sloop.
- A Flag, Blue and White horizontally, a neutral fleet.
- A Pendant, White and Blue, a neutral man of war.
- A Blue Flag, a neutral merchant ship.
- A Red, White and Blue Flag, an enemy's fleet.
- A Red, White and Blue Pendant, an enemy's man-of war.
- A Union Jack over neutral or enemy's signals, the vessel is detained or a prize.
- A White Flag over any signal, the vessel bears a flag of truce.
- A Red Flag pierced White, for a Steam-boat from Digby.
- A Blue Flag pierced White, for a Steam-boat from Saint Andrews or Eastport.
- A Red Flag with a White square, for a Steam-boat from Boston.
- A Ball at the mast-head, vessel is on shore or in distress;—should immediate aid be necessary, guns to be fired.

In thick weather a gun will be fired on Partridge Island in answer to each gun heard at sea. There is a Fog Bell on the Island, which is rung in foggy weather, to warn vessels of their approach to the shore.

When a vessel requires a Pilot, her descriptive Pendant will be shewn at the yard-arm instead of a ball.

## TIME FOR GOING THROUGH THE FALLS,

NEAR THE CITY OF SAINT JOHN.

The Falls are level or still water about three and a half hours on the *flood*, and about two and a half on the *ebb*, so that they are passable four times in twenty-four hours, about ten or fifteen minutes each time. No other rule can be given, as much depends on the floods in the River Saint John, and the time of high water or full sea, which is often hastened by high winds, and in proportion to the height of them. For a few days in the spring of the year, the height of water in the River St. John renders the passage of the Falls extremely difficult.

# JANUARY.

1848.

Air pumps invented, 1654. Air guns invented, 1656.  
 Apple-trees, two kinds of, brought from Syria and Africa into Italy, nine years before Christ.  
 Arithmetic introduced into Europe from Arabia, 991.  
 Arithmetic, decimal, invented, 1402.

## MOON'S PHASES.

## THE UNITED KINGDOM.

(ALEXANDRIA) VICTORIA I., Queen of the United Kingdom of Great Britain and Ireland. (daughter of the late *Duke of Kent*,—born November 2, 1767; died January 23, 1820,—by *Victoria Maria Louisa*, sister of the Duke of Saxe-Coburg-Gotha, and of Leopold, King of the Belgians; born August 17, 1786;) born May 23, 1819; succeeded her uncle, William IV., June 20, 1837, married February 10, 1840, to PRINCE ALBERT, of Saxe-Coburg-Gotha, born August 26, 1819. *Issue*:—1. Victoria Adelaide Maria Louisa, born November 21, 1840; 2. Albert Edward, Prince of Wales, (Heir presumptive to the Crown,) born November 9, 1841; 3. Alice Maude Mary, born April 25, 1843, 4. Alfred Ernest Albert, born August 6, 1844; 5. Helena Augusta Victoria, born May 25, 1846.

QUEEN DOWAGER—*Adelaide*, Consort of the late William IV., and sister of the Duke of Saxe-Meiningen, born August 13, 1792.

### UNCLES AND AUNTS OF THE QUEEN.

1. *Ernest Augustus*, (King of Hanover,) Duke of Cumberland, born June 5, 1771; married, May 29, 1815, *Frederica Sophia Carolina*, sister of the Duke of Mecklenburgh-Strelitz, born March 20, 1778. *Issue*:—George Frederick, born May 27, 1819.

2. *Adolphus Frederick*, Duke of Cambridge, born February 24, 1774; married, May 8, 1818, *Augusta Wilhelmina Louisa*, niece of the Landgrava of Hesse, born July 5, 1797. *Issue*:—1. George William, born March 26, 1819; 2. Augusta Caroline, born July 19, 1822; 3. Mary Adelaide, born November 27, 1833.

3. *Mary*, Duchess of Gloucester, born April 25, 1776, married, July 22, 1815, to her cousin, *William Frederick*, Duke of Gloucester, who died November 30, 1834.

## PRINCIPAL OFFICERS OF THE IMPERIAL GOVERNMENT.

Lord John Russell, First Lord of the Treasury; Lord Cottenham, Lord Chancellor; Sir George Grey, Secretary of State for the Home Department; Viscount Palmerston, Secretary of State for the Foreign Department; Earl Grey, Secretary of State for the Colonies; Sir Charles Wood, Chancellor of the Exchequer; the Marquis of Clanricarde, Postmaster General; Mr. T. B. Macaulay, Paymaster-General; the Duke of Wellington, Commander-in-Chief of the Army; Hon. Fox Maule, Secretary at War; the Earl of Auckland, First Lord of the Admiralty; Lord Clarendon, Lord Lieutenant of Ireland.

## COLONIAL GOVERNORS.

*Canada.*—The Earl of Elgin, Governor-General.

*Nova-Scotia.*—Lieut.-General Sir John Harvey, K. C. B. and K. C. H., Lieutenant-Governor.

*Neo-Brunswick.*—Colonel Sir Wm. M. G. Colebrooke, K. H., Lieutenant-Governor.

*Newfoundland.*—Lieut.-Colonel Sir Gaspard Le Marchant, Governor and Commander-in-Chief. [Lieut.-Governor.

*Prince Edward Island.*—Commander Sir Henry Vere Huntley,

## LIGHT HOUSES.

*Board of Commissioners for the several Light Houses in the Bay of Fundy.*—Robert W. Crookshank, John Ward, I. Woodward, Esquires; Hon. Thomas Wyer, John Wilson, Esquire, Hon. W. F. W. Owen, Lieut. Charles Hare, R. N. and John James Robinson, Esquire, R. N.

Isaac Woodward, Esq. Surveyor of those Light Houses in the Bay of Fundy belonging to New-Brunswick, and also of those belonging to Nova-Scotia, which are partly supported by this Province:

*Cape Sable Seal Island Light.*—The first Light on approaching the Bay of Fundy is on the South Point of Seal Island. This is a plain White Light—elevated about eighty feet above high water mark, and may be seen in approaching the Island from any point of the Compass. A very dangerous Rock, under water, but upon which the sea always breaks, called Blonde Rock, lies  $3\frac{1}{2}$  miles S. by W. by Compass from the Light House. Between this Rock and the Island there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

*Brier Island Light.*—In advancing up the Bay, the next Light is situated on Brier Island, about half a mile N. E. from the N. W. point thereof.—A plain White Light.

*Digby Gut Light.*—The next Light on the coast of Nova-Scotia is placed on the West side of Digby Gut—from Brier Island North Eastward. The coast is very bold, and not indented; the Light is, therefore, chiefly intended as a guide into Digby Basin. A White Light.

**Gannet Rock Light.**—This Light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands off Machias, a distance of about twenty miles. It is a flash light—white—twenty seconds dark and forty light in each minute. The Light House is painted in stripes, vertical, black and white.

*Bearings and Distance by Compass from the Gannet Rock Light House :—*

This Light bears from the Light House on Brier Island N.N.W.  $\frac{1}{4}$  W. 22 miles.

From the Gannet Rock to the Old Proprietor, E.  $\frac{1}{2}$  S. distance 7 miles.

From the Gannet Rock to the Black Rock off White Head Island, N. E.  $\frac{1}{4}$  E. 7 miles.

From the Gannet Rock to the South West Head of Grand Manan, N. N. W.  $6\frac{1}{2}$  miles.

From the Gannet Rock to the Northernmost of the Murr Ledges, N. W.  $\frac{1}{4}$  N.  $2\frac{1}{2}$  miles.

To the Southernmost of ditto, called St. Mary's Ledge, W. S. W. 2 miles.

From the Gannet Rock to Machias Seal Island, W. and by N.  $\frac{1}{2}$  N.  $12\frac{1}{2}$  miles.

Between the Northernmost and Southernmost of the Murr Ledges, there is a range of dangerous Rocks and Shoals—many of them always above water, and which extend Westward from the Light House about four miles; from this range, farther Westerly about six miles from the Gannet Light, lies a dangerous Breaker called the Bull. This may be avoided by keeping three remarkable headlands, near the S. W. end of Grand Manan, open.

From Brier Island Light to the Old Proprietor. N. and by W.  $\frac{1}{4}$  W.  $18\frac{1}{2}$  miles.

The Blonde Rock from the Southernmost point of the Cape Sable Seal Islands S. and by W.  $3\frac{1}{2}$  miles distant.

**Machias Seal Island Lights.**—There are two fixed white Lights upon the Machias Seal Islands, elevated about forty-five feet above high water, and bearing from each other E.S.E. and W.N.W. distant about 200 feet, by which circumstance of two Light Houses at the same station, they will be immediately distinguished from all other Lights upon the Coast, (British or American.) Both the Buildings are painted White. The following are the bearings by Compass from them, viz:—

To the Southernmost Murr Ledge (St. Mary's) E.S.E. easterly.

“ Gannet Rock Light, E. by S.  $\frac{1}{4}$  S. 13 miles.

“ Southern Head of Grand Manan, E. by N.  $\frac{1}{4}$  N.

“ Northern Head of Grand Manan, N. E.  $\frac{1}{4}$  E.

“ N. E. Rock distant 2 miles, N. E. by N.

“ Little River Head, N. by W.

“ Libby Island Light House, (American) N. W. by W.

Vessels standing to the Northward, between these Lights and the Gannet Rock, should tack or haul off the moment they bring these Lights into one, as they will be then not more than three-

fourths of a mile from the Murr Ledges, if more than five miles to the East of the Lights.

[ It is recommended that the Ship's Compasses should be well compared and adjusted, (particularly in new ships,) before they leave Partridge Island, as serious errors have frequently occurred from want of attention on this point: and, as the variation in the Bay of Fundy is seventeen degrees Westerly, or ( $1\frac{1}{2}$  points) it will be found by the latest published Admiralty Charts, that the course from Partridge Island down the Bay, South Channel, between the Old Proprietor and N. W. Ledge, is S. W.  $\frac{1}{2}$  S., but the course to be steered must depend on the direction of the wind on leaving Partridge Island.]

*Head Harbour Light.*—Next in order, after passing Grand Manan, and the plain White Light (American) on West Quoddy Point, is Head Harbour Light. This is placed on the North East extremity of Campo-Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the Inner Bay of Passamaquoddy;—it enables vessels also at all times to enter Head Harbour. It is a fixed white Light. The building is painted White, with a red cross on it.

*Point Lepreaux Lights.*—Upon this projecting head-land two Lights are placed, one above the other, in the same house, and distant twenty-eight feet.—Both Lights can be seen from every point of the compass where they may be useful—both are fixed and white. The Light House is painted red and white, in stripes of five feet broad each, horizontally.

*Partridge Island Light.*—This Light, at the entrance of the River and Harbour of Saint John, having been established about fifty years, requires no particular notice, further than it is a fixed white Light, and the Light House is painted Red and White in vertical stripes. The Light was enlarged in Nov. 1846.

*Beacon Light.*—Within Partridge Island, and upon a Spit or Bar, which extends about half a mile S. S. E. off Sand Point, and which dries at two-thirds ebb, stands the Beacon Tower. Upon this Tower a Light is established, which is eminently useful to the Coasting Trade of St. John, and to all other vessels having Pilots on board, as it enables them to enter the Harbour at all hours of the night.—A fixed white Light. The House is painted White and black, in stripes vertically.

*Quaco Light.*—A revolving white Light is placed on a small rock off Quaco Head, showing twice full and twice dark in a minute. This Light can be seen from any quarter where a vessel can approach. The Light House is painted White and Red, in horizontal stripes.

*Cape Enrage Light.*—On the Point of that name, in Westmorland, nearly opposite Apple River Harbour, Nova-Scotia. The House is about 120 feet above the tide-mark, and is painted white. A plain white Light.

\* The Charts can be procured at the Courier Office Book-Store, St. John, N. B.

## CHARADES, ENIGMAS, REBUSES, &c.

Having observed in the 74th page of your Almanack for 1847, a Charade by "J. Moore, *Petersville*," which should have been termed an Enigma, I therefore take the liberty of making a few brief remarks as to the names and arrangement of Charades, Enigmas, Rebuses, and Enigmatical Rebuses.

A **CHARADE** is made up of one, two, or more words, to make a compound word, as tea-pot, in-do-lent, &c., and if a single letter is ever used it must either be a number, liquid, or vowel.—No transposition or inversion used.

An **ENIGMA** is known by its nature and paradoxical qualities, and may be either simple or compound.—It is merely a riddle.

A **REBUS** is made up sometimes of a whole word, syllables, vowels, or letters, as one-half, one-third, one-fourth, one-fifth of a word, and always the first part of a word, and, if they please, transposition or inversion used.

An **ENIGMATICAL REBUS** is a word chosen, either simple or compound, and treated on at the first as an Enigma, then transposed, inverted, dissected and trisected, as seemeth them good.

In the Enigmatical answer to Charade, by "W., *Frederickton*," last year, he says, "An island's name *transpose*," whereas it ought to have been *inverted*. For instance: ELBA—*able*. Transposition and inversion are not synonymous terms.

N. B.—The last Rebus in the 74th page of last year's Almanack, would have been better under the term Enigmatical Rebus. M.

*Answer to Charade 1st, in last year's Almanack.*

In after with will make within,  
Which never was without;  
Do is what all men must perform,  
Their ends to bring about.  
LENT only comes but once a year,  
And that at diff'rent times;  
A certain church commands that  
then  
Men should confess their crimes.  
But persons who are **INDOLENT**  
Will still procrastinate;  
No business will they ever act  
Until it's 'Just too late.'

*New Jerusalem.* D. L. S.

*Answer to Charade Second.*

Hogs are often termed unclean  
By those who are not Jews;  
In saying so I do not mean  
They are not fit to use.  
**HEAD** is what you and I possess,  
Whate'er in it be found.  
**HOGSHEAD** a liquid measure is,  
As sure as *the world's round*.

*New Jerusalem.* D. L. S.

The answer to Charade third is  
a **TAIL**. D. L. S.

*Answer to last year's 1st Charade.*

In is a word that a's'er was out;  
I think it very true. [doubt  
When business urges there 's no  
You will begin to do.  
LENT never comes but once a year,  
Which for your last I take;  
Now these I join, and then 't is  
clear,  
That **INDOLENT** they 'll make.  
J. MOORE, *Grand Bay*.

*Answer to last year's second Charade.—BY THE SAME.*

Hogs is your first, as I do find;  
**HEAD** must the second be,  
For when these two are rightly  
joined,  
A **HOGSHEAD** they will be.

**REBUS.**

I am corporeal, in a sense;  
I'm e'er in health, and consequence,  
A true cosmopolite;  
I hate the war; I'm e'er in dread;  
Though from a foe I never fled,  
But meet him with delight.  
I shun the Law, yet without me  
The lawyer could not find a plea,  
Nor plead his client's case;

No parson could a sermon preach,  
 No pedagogue could ever teach,  
 Nor pupil keep his place;  
 The farmer could not sow his seed,  
 Nor surgeon could his patient bleed—

No adept there would be;  
 Without my aid belles could not meet

With amorous beaux upon the street,  
 Nor sailors go to sea.

I'm neither seen by night or day;  
 From company I keep away,

But yet I have to owe,  
 Just in the evening I am seen

With ladies walking on the green,  
 And waiting on them home.

In every scene I take a part;  
 I come with peace to every heart;

But oft I cause some tears.  
 Then, learned youths, my name

disclose,  
 My uses and my faults expose,

E'er next new year appears.

J. MOORE, *Grand Bay.*

CHARADE.—BY THE SAME.

Six words there are, all of which  
 I can name, [contain.

Though four and five letters I only  
 My five first express what each

matron hath been,  
 My last and three next near a

rivulet 's seen, [oft done,  
 Four next to my first for pleasure's

Three next to my third are de-  
 stroyed by the sun,

Three next to my fourth are an  
 animal's name,

Read backwards and forwards  
 exactly the same,

Three next to my sixth, if you  
 properly take, [they'll make,

Of different kinds, a measure  
 My whole is a place where crimes

meet their desert,  
 In producing my name, prithee be

expert.  
*Grand Bay.*

CHARADE I.

By ARTHUR MULLIN, *Gagetown.*

With modest behaviour  
 I once asked a favour [sure,

Of her whom I counted a trea-  
 She looked with a smile,

Yet firm all the while— [leisure.

You may think of her answer at  
 To this you may join

A States' little coin, [scan  
 Connect these and soon you will

The man that's my whole,  
 Both his body and soul, [the land,

Are condemned by the laws of  
 But if you prefix

Two more to the six,  
 The case it will then altered be,

You then will be right  
 In honest men's sight, [thee.

And the law has no claim upon

CHARADE II.—BY THE SAME.

A tax or a toll  
 You here may enroll,

To make out my whole  
 You may place a conjunction;

If these you do add  
 There straight will be had

A character bad  
 That does need great compunction.

ENIGMA.

By ARTHUR MULLIN, *Gagetown.*

Form'd at the first by the Creator,  
 Then made (almost) by every

creature,  
 In every house I'm to be seen,

Round New-Brunswick shores I  
 ween;

Look to the sky, above the air,  
 I'm to be seen conspicuous there;

Doubt not my word, 'tis true the  
 whole,

I do extend from pole to pole,  
 Yes, I can span the world over,

And reach from Calais unto Dover;  
 More than all this, devoid of me

No ship did ever sail the sea;  
 I'm used (almost) in every trade.

No book without me e'er was made  
 That e'er was printed by a man.

Or finished by the binder's hand;  
 No map nor landscape could you

trace  
 Till I am right before your face.

What need I talk?—I've got so  
 common,

I'm made by every man & woman  
 That liveth here upon the globe,

Or that has wit to wear a robe;  
 All colors I can boast, 'tis said,

I'm white, I'm black, I'm blue,  
 and red;

I'm orange, purple, green, & grey,  
And yellow, just as people may;  
And if you take the pains to trace,  
You'll find me in your hand or  
face.

Mechanics, too, do prize me high,  
Because I aid and guide the eye;  
The joiner, mason, cooper, tailor,  
Fisher, angler, cobbler, sailor—  
They all my use and aid do know,  
For they have tried and proved it  
so.

I'm brittle, rotten, fresh & tough,  
Straight and crooked, smooth and  
rough;

Altho' my colors and my strength,  
And in the firmament my length,  
My usefulness to every trade,  
To every sect and every grade.  
(I pray thee do not start nor flinch)  
I never measured half an inch.

#### ENIGMATICAL REBUS.

BY THE SAME.

Diarians you'll see,  
Both the youth and the aged,  
'Tis looking for me,  
That they all are engaged;  
So, early and late,  
Seek on and don't fret ye;

For hard is your fate  
If you cannot get me.

Transpose and you'll find  
A land named in Scripture—

The prophet Isaiah  
In one of his chapters.

Transpose, and, in life,  
When you change your position,

I'm a name for your wife  
In the married condition.

Transpose me anew,  
And the Scriptures peruse,

A Rock you will view  
That was known to the Jews.

Transpose, and resort  
To your land and be clearing,

You'll need my support,  
Sir, I would not be fearing.

Transpose, and (all's past)  
I would say without doubting,

They can't be my last  
Who go screaming and shouting.

#### REBUS.—BY THE SAME.

Ye correspondents to Mr. Chubb,  
You soon may find a purgative  
shrub,— [same,  
Cut off its head, and invert the  
And you will have a young lady's  
name.

### INSTRUCTIVE AND AMUSING EXTRACTS.

*Small Potatoes*—This term is so generally reproachful that the person or thing to which it is applied is placed in the lowest attitude. But even small potatoes should not be despised, as the following facts, which were related to us by the one of our townsmen who derived much profit from the proceeding, fully illustrates.

Some years ago a gentleman visiting a farmer in Tolland, Connecticut, took from his pocket a small intruder, which somehow got in there at home. It was thrown out with a smile, and the farmer taking it in his hand to look at it, a curious little boy of 12 at his elbow asked what it was. Oh nothing but a potato, my boy—take it and plant it—and you shall have all you can raise from it till you are free. The lad took it, and the farmer thought no more about it at that time. The boy, however, not despising small potatoes, carefully divided it into as many pieces as he could find eyes, and put them in the ground; the product was carefully put aside in the fall, and seed for several hills obtained for the next spring. The product was all kept for seed, until the fourth year, the yield being good, the actual product was 400 bushels! The farmer, seeing the prospect that the potato field would by another year cover his whole farm, asked to be released from his promise.

With the same calculation, prudence and industry, how many who are disposed to regard the trifling things on which fortunes are built, as too *small potatoes* to receive their attention, would have been in independent circumstances, if they had husbanded small advantages. *Small potatoes* should not be despised, even though there be at first but *a few in a hill*.—*Portsmouth Journal*.

*A speedy and efficacious remedy for Dysentery*.—A writer in the Tipperary Free Press recommended the following as an almost infallible remedy for Dysentery. Take a pint of the finest flour, tie it up in a clean piece of fine linen or thin muslin, put it in a large saucepan or skillet, cover it over with pure new milk, put it by the fire-side, where it will simmer actively by the heat for two hours, until it will be reduced to half the quantity, take out the flour from the cloth, and spread it on a table, reduce the flour to its original fineness with a rolling pin, throw away the milk in which it has been prepared, then put about half a pint of pure new milk in a small porringer, boil it on the fire, and when boiling thicken it with some of the prepared flour, let the patient take a large tea cup full of it when cool, and in four or five hours more take the same quantity, and the complaint though ever so violent or malignant in its nature will be finally arrested in its progress. A third quantity may be taken if necessary.

*To Cure Diarrhœa*.—Mix 32 drops oil of cinnamon; 2 fluid ounces of laudanum; 4 fluid ounces of compound spirits of lavender; 4 fluid ounces tincture of rhubarb. Dose—A teaspoonful once in three hours for an adult. The ingredients can be procured and mixed at any drug store.

*To REMOVE DUST FROM THE EYE*.—Immerse the affected eye in a vessel of clear cold water, and then rapidly open and shut it a few times, when the dust will be washed away.

*Resuscitation of the Drowned*.—The vulgar method of rolling drowned persons on barrels, and various other equally absurd methods of restoring suspended animation, no doubt, more frequently kills than cures. Dr. Mott of the American Shipwreck Society, gives the following directions which cannot be too extensively promulgated:—

“As soon as the body is removed from the water press the chest suddenly and forcibly downward and backward, and instantly discontinue the pressure. Repeat this without intermission until a pair of common bellows can be procured; when obtained, introduce the nozzle well upon the base of the tongue. Surround the mouth with a towel or handkerchief, close to it. Direct a bystander to press firmly on the projecting part of the neck, called Adam's Apple, and use the bellows actively. Then press upon the chest to expel the air from the lungs—to imitate natural breathing. Continue this an hour at least, until signs of natural breathing come on. Wrap the body in warm blankets, and place it near the fire, and do everything to preserve the natural warmth, as well as to impart artificial heat, if possible. Avoid all friction until respiration shall be in some degree established.”

*Preparation of Coffee.*—Coffee roasted only till it becomes slightly red, preserves the maximum of weight and aroma, but gives out less colouring matter. In this state 100 pounds are found to have lost 15, but have increased to the bulk of 130.—Roasted to a chestnut color, as is commonly done, the loss is 20 per cent., while the increase in volume is from 100 to 153. This swelling of the grain depends upon the property which the nitrogenous matter deposited within the tissue has of puffing up remarkably when heated. If the heat is continued until a dark brown color is produced, and the grain is covered with a sort of glaze, the loss is 25 per cent., while the original quantity of nitrogen, 245 per cent., is reduced to 177, being a loss of one-fourth.—*Silliman's Journal.*

**RECIPT FOR CURING HAMS.**—7 lbs. coarse salt, 5 lbs. brown sugar, 2 oz. salt petre,  $\frac{1}{2}$  oz. pearl ash, 4 gallons of water. Boil all together and scum the pickle when cold. Put it on the meat. Hams to remain in 8 weeks—beef 3 weeks. The above is for 100 lbs. weight. It is said that hams cured by this mode are of superior quality. It is called the "Newbold receipt," a person of that name in New Jersey having, as it is said, attained great celebrity for the excellence of his hams, the mode of curing which was kept secret till after his death.

**CURING HAMS.**—The following is the mode practiced by W. Stickney, of Boston, which has been much admired. To every two quarts of a saturated solution of common salt, is added one ounce of summer savory, one of sweet marjoram, one of allspice, half an ounce of saltpetre, and one pound of brown sugar. The whole was boiled together, and applied boiling hot to the hams, which remained in the pickle three weeks.

*To Boil Bacon.*—Soak the bacon for several hours; take off the skin before you boil it; for it has been proved by experience that a pound of bacon boiled *without the skin* will weigh an ounce heavier than a pound boiled *with the skin*. Fat bacon should be put into hot water, and lean into cold water.—*Practical Receipts.*

**PRESERVING CABBAGES.**—There are several good ways of keeping cabbages during winter by burying them out of doors. The difficulty is, it is hard to get at them during winter, without damage to those left. The following plan appears to avoid this difficulty:—Cut the head from the stump, and pack closely in a cask, taking care to fill up all the vacancies with chaff or bran, and keep in a dry cellar.

**EARLY LETTUCE.**—Take up the plants, which have been sown in the open ground in autumn, and set them in a hot bed as soon as it is made, and they will be fit for the table two weeks earlier than those from seed sown in the bed.

**CANADA THISTLES.**—J. B., of Oneonta, N. Y., gives us his mode of destroying Canada thistles. He says—"Salt them—use salt freely, and your cattle and horses will gnaw and stamp them to death. If some thistles appear the second year, repeat the process, knowing that the salt is not wasted if a little is trodden under foot of men' or of beasts."

Another method of destroying Canada thistles is by cutting them as close to the ground as possible with a scythe, in the month of June, or while they are in fresh bloom. If cut before rain, so much the better, as the water will be likely to get into the hollow stalk and rot it.

**TO COOK PARSNIPS.**—Persons who have never eaten parsnips cooked according to the following mode, have no idea what an excellent dish they are:—Scrape the parsnips, wash and slice them lengthwise; boil in just water enough to cover them till thoroughly done. Then put in a piece of butter, with a little salt and pepper. Beat up an egg with a spoonful of flour, and pour over them; they are then ready to dish up. Parsnips are likewise very good, split once and roasted with pork in the dripping-pan.

**PARSNIPS FOR HOGS.**—The Prairie Farmer says they are the best of all roots for this purpose, and states that a hog, 22 months old, and weighing alive 750 lbs., never ate anything but raw parsnips and sour milk.

*Remedy for the Heaves.*—Take one hundred and eighty grains of tartar emetic, and divide it into three equal doses of sixty grains each. Mix one of them in wet bran, and give it to the horse.—Repeat the dose once in two days, and this disease will be greatly alleviated, if not perfectly cured.—*Par. Far.*

*Cure for the Foot-Rot in Sheep.*—Take honey 4 oz.; nitrate of copper 1 oz.; strong ascetic acid 2 drachms; rub down the nitrate of copper thoroughly in a wedgewood or porcelain mortar, and gradually mix it with honey; then add the ascetic acid so as to form a mixture of uniform consistency, and apply it to the feet of the sheep.

*To prevent Dogs from killing Sheep,* a New York farmer recommends bells being put on one or two sheep in each flock; for a sheep-killing dog being a sneaking creature is apt to start off on hearing the noise; and another advantage of the bell is the warning it gives when the sheep are chased, especially at night, when they are generally still, unless disturbed by intruders.

**A REMEDY FOR RATS.**—Pulverized cantharides, spread on bread and butter, are said to be a positive remedy for rats—after partaking of the *dish*, they generally leave the premises altogether.

**COAL ASHES FOR MANURE.**—M. Allegany Co., Pa. So far as our observation goes, coal ashes are not a very valuable manure; we think they do, however, generally produce some benefit. On heavy soils, their mechanical effect is favorable in making the soil more open. Sometimes they contain iron and sulphur in so large quantities as to render their application injurious to vegetation. Mixing them with fresh lime or strong wood ashes, might in such cases be useful.

*Plaster for the Interior of Houses.*—Take air-slacked lime eight parts; sifted plaster (gypsum) four parts; powdered quick-lime one part; mix well together in small quantities with water, and use immediately. This composition under ordinary circumstances will not crack.

**WASTE OF MANURE IN CITIES.**—The London sewers pour daily into the Thames, 115,000 tons of mixed drainage. One part in 30 is regarded as rich, fertilizing, solid manure, or 3,800 tons daily. This amount would richly manure every year more than 50,000 acres of land.

**ASPARAGUS**—Horticulturists say that the best way to kill weeds on asparagus beds is to water them liberally with pork or beef brine. The salt kills the weeds, while it nourishes the asparagus, which is a marine plant, and grows the better for having salt.

Somebody has said that water in which potatoes have been boiled, sprinkled upon plants of any kind, is sure death to all insects in every stage of their existence.

**RATS** may be got rid of, it is said, by placing a mixture of flour and lime near their holes.

Men are like bugles; the more brass they contain the further you can hear them. Ladies are like tulips the more modest and retiring they appear, the better you love them.

**INDUSTRY.**—There is more fun in sweating an hour than in yawning a century.

#### A D D E N D A, & c.

Since the pages containing the Roll of Barristers and Attornies were printed, Bernard C. Eriel, Samuel B. Davidson, Douglas B. Stevens, John Henry Phair, Charles Watters, Jas. G. Stevens, Chas. Simonds, Ward Chipman Drury, Henry B. Robinson, A. B. and John F. Jones, Esquires, have been enrolled Barristers; and Allison Lewis, George Skeffington Grimmer, Henry W. Frith, Peter Mitchell, Jun., Charles W. Stockton, William Wilkinson, William Hutchinson, and George G. Gilbert, A. B., have been admitted Attornies.

To the list of Members of the Barristers' Society, James J. Kwy, Andrew Mackenna, and Charles Watters, Esquires, have been added.

*Retired Members of the Executive Council, retaining their rank by special permission of Her Majesty*—(omitted at page 17)—The Hon. Charles Simonds, Hon. John Montgomery, Hon. William McLeod and Hon. John Allen.

*Rural Deans in the Diocese of New Brunswick*—(Omitted at page 53.)—Fredericton—Venerable Archdeacon Coater; Saint John—Rev. I. W. D. Gray, D. D.; Saint Andrews—Rev. Jerome Alley, D. D.; Miramichi—Rev. Samuel Bacon; Shediac—Rev. George S. Jarvis, D. D.; Woodstock—Rev. S. D. L. Street; Kingston—Rev. William E. Scovil.

*New Brunswick "Benefit" Building Society and Savings' Fund.*—Trustees, with a seat at the Board—William Wright, Robert F. Hazen, and Henry Chubb, Esquires; Directors—Charles Drury, Chas. B. Raymond, Edward L. Jarvis, John H. Gray, James Agnew, Geo. Wheeler, James Poyntz, John C. Littlehale, and Samuel Hayghue, Esquire; Bankers—Bank of New Brunswick; Solicitors—Messrs. Jarvis & Tynham; Secretary—Charles L. Street. Office of the Society—Prince William-street, St. John.

At page 17, 2d line, at page 57, 7th line, and page 58, 3d line, for "Lieutenant-Colonel," read "Colonel."

S. K. FOSTER.

TESTIMONY OF THE DOCTORS  
IN FAVOR OF

**WISTAR'S BALSAM OF WILD CHERRY.**

Exeter, Me., Sept. 29, 1845.

This certifies that I have recommended the use of Dr. WISTAR'S BALSAM OF WILD CHERRY for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases, where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. BOYDEN, Physician at Exeter Corner.

Dr. Bradford Knapp, of Crown Point, N. Y., in a letter dated August 3d, 1845, says;—"In the course of my practice in this vicinity, I have tested in some good degree, the good qualities of *Wistar's Balsam of Wild Cherry* in Pulmonary Complaints, and I now wish to procure a supply of the medicine."

Dr. A. Macnair, of Tarboro, North Carolina, writes us under date of Feb. 14, 1847, that he has used Dr. Wistar's Balsam of Wild Cherry in his practice the last eighteen months, and considers it the best preparation of the kind he ever saw, and knows of none so deserving the public patronage.

Dr. Wm. A. Shaw, of Washington, N. C., writes, under date of May 1, 1846, as follows:

"I have heard of many cases of decided beneficial effects from its use, especially in Asthma and chronic cough of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked good results in those cases of great nervous mobility, to which phthisical patients are subject. The combination of these principles in *Wistar's Balsam of Wild Cherry* is *ingenious and judicious*.

Medical men are justly distrustful of Patent Medicines in general, but candor must discriminate between outrageous humbugs and nostrums and those medicines which have proved *salutary*, and in many well attested cases *curative*."

Dr. Hoffman, Huntington, Pa., cured a child of Asthma with it, after he declared he could do no more with his medicine, and the child must die.

Dr. Freleigh, of Saugerties, N. Y., says he cured Liver Complaint of four years standing, that would not yield to the usual remedies.

Abraham Skilman, M. D., of Boundbrook, N. J., says it is the best medicine for Consumption in every stage that he has ever known. We might refer you to hundreds of cases, had we room, that would convince all of its great virtue.

Editors, lawyers, clergymen, and almost every class have at last found out that *Wistar's Balsam of Wild Cherry* is what "it is recommended to be," the very best medicine to be found. It cures or relieves all affections of the Lungs when nothing else will.

*None genuine unless signed I. BUTTS on the wrapper.*

# EXTRAORDINARY CURES BY HOLLOWAY'S OINTMENT.

## **A Wonderful Cure of dreadful Ulcerous Sores in the Face and Leg, in P. E. Island.**

*The truth of this Statement was duly attested before a Magistrate.*

I, HUGH MACDONALD, of Lot 55, in King's County, do hereby declare that a most wonderful preservation of my life has been effected by the use of Holloway's Pills and Ointment; and I furthermore declare, that I was very much afflicted with Ulcerous Sores in my Face and Leg; so severe was my complaint that the greater part of my nose and the roof of my mouth was eaten away, and my leg had three large ulcers on it, and that I applied to several Medical gentlemen, who prescribed for me, but I found no relief. My strength was rapidly failing every day and the malady on the increase: when I was induced to try Holloway's Medicines. After taking two or three boxes, I experienced so much relief, and found the progress of the disease was so much arrested, that I was enabled to resume my ordinary labours in the field. The sores which were so disagreeable and repulsive to behold are now nearly all healed. Having received such truly beneficial aid, I feel myself bound to express my gratitude to the person by whose means I have thus been restored from the pitiable and miserable state I was in; and for the sake of humanity make known my case, that others similarly situated might be relieved.

(Signed)

HUGH MACDONALD.

This declaration made before me, at Bay Fortune, the 3d day of September, 1845. JOSEPH COFFIN, Justice of the Peace.

The above case of Hugh Macdonald of Lot 55, came personally under my observation; and when he first applied to me to get some of the Medicines, I thought his case utterly hopeless, and told him that his malady had got such hold that it was only throwing his money away to use them. He, however, persisted in trying them, and to my astonishment, I find what he has aforesaid stated to be perfectly correct, and consider the case to be a most wonderful cure.

(Signed) WILLIAM UNDERHAY, Bay Fortune.

## **A cure of Ringworm of four years standing.**

*Copy of a Letter from Mrs. Grace Moro, 6, Hemlock Court, Carcy-street, London, 6th November, 1845.*

To Professor HOLLOWAY.—Sir,—About four years ago my little girl caught the Ringworm, and although I have ever since had advice from many Doctors, and tried every means to get rid of it, yet I was unable to do so. About three weeks ago I was induced to try some of your Pills and Ointment, and I am most happy to say, the result has been a perfect cure.

(Signed)

GRACE MORO.

\* \* Skin diseases peculiar to any part of the Globe, may be effectually cured by the use of these celebrated Medicines.

### **Cure of a Desperate Case of Erysipelas.**

*Copy of a Letter from Mr. Joseph Gildon, Jun. a Farmer, East Keat, near Spilsby, Lincolnshire, 8th April, 1846.*

To Professor Holloway.—Sir,—I have the gratification to announce to you a most wonderful cure wrought upon myself by the use of your Ointment and Pills. I had a severe attack of Erysipelas in my right foot, which extended along my ankle, and was attended with swelling and inflammation to an alarming degree, insomuch that I was unable to move without the use of crutches. I consulted a very eminent Physician, besides other medical men, but to no purpose. At last I tried your Ointment and Pills, when, strange to say, in less than two weeks the swelling and inflammation gradually subsided to such a degree that I was enabled to pursue my daily avocation, to the utter surprise and amazement of those who were acquainted with my case, seeing that I was cured so quickly. I and my family are well known here, as my father holds his farm under the Rev. J. Spence, Rector of our parish.

(Signed) JOSEPH GILDON.

### **The Testimony of Dr. Bright, of Ely-place,**

Holborn, as to the Extraordinary Power of Holloway's Ointment, in the Cure of Ulcerated Sores.

*Extract of a Letter from the above celebrated Physician.*

To Professor Holloway.—Sir,—I think it but an act of justice to inform you that I have tried your Ointments in several old cases of Ulcerated Sore Legs, which for a considerable time had resisted every kind of treatment, but which were afterwards effectually cured by its use. In the treatment of Bad Breasts I have also found your Ointment of the greatest service. Indeed from my practical knowledge, I conceive it to be a most invaluable remedy.

(Signed) RICHARD BRIGHT, M. D.

**HOLLOWAY'S OINTMENT** will cure any cases of Bad Legs, Ulcerous Sores, Bad Breasts, Sore Nipples, Cancers, Tumours, Swellings, Contracted or Stiff Joints, Gout, Rheumatism, Lumbago, Burns, Scalds, Chilblains, Chapped Hands and Lips, Bunions, Soft Corns, Piles, the Bite of Mosquitoes, Sand-flesh, Chicago-foot, Yaws, Coco-bay, and all Skin Diseases common to Europe, or to the East and West Indies, or other tropical climes.

**HOLLOWAY'S PILLS** should be taken in most instances when using the Ointment, in order to purify the blood and invigorate the system.

These truly invaluable Pills and Ointment can be obtained at the Establishment of Professor Holloway, near Temple Bar, London, and of PARSONS & TITCHEL, Agents, No. 2, King-st. St. John, New-Brunswick; Jas. F. Gale, Frodricton; W. T. Baird, Woodstock; Alexander Lockhart, Quebec; Jas. Beck, Bend of Pentecostine; O. R. Seyre, Dorchester; John Bell, Shediac; John Lewis, Hillsborough; Isaac Turner, Hopewell; George W. Hoben, and John Curry, Canning; Samuel Foster, Kingston; R. S. McDonald, Grand Lake; Hugh McMonagle, Sasser Vale; James E. White, Bellisle—in boxes at the following prices:—1s. 9d., 4s. 9d., and 7s. each. There is a considerable saving by taking the larger sizes.

*Directions for the guidance of Patients are affixed to each Pat.*

# ASTONISHING EFFICACY OF HOLLOWAY'S PILLS.

## The Testimony of a Clergyman vouching to Eleven cases of Cures by these Wonderful Pills.

*Extract of a Letter from the Rev. George Prior, Curate of Mevagh,  
Letter Kenny, Carrigart, Ireland, 10th January, 1846.*

To Professor Holloway.

SIR,—I send you a crude list of some eleven cases, all cured by the use of your Pills, I cannot exactly give you a professional name to the various complaints, but this I know, some of them baffled the skill of Derry and this County. In a previous letter this gentleman states as follows:—Within a short distance of my house resides a small farmer, who for more than twenty years has been in a bad state of health; Mrs. Prior gave him a box of the Pills, which did him so much good that I heard him say, for twenty years past he never ate his food or enjoyed it so much as since taking your Pills.

(Signed) GEORGE PRIOR.

\* The above reverend and pious gentleman purchased some pounds worth of the Pills for the benefit of his poor parishioners.

## Bad Digestion, with extreme Weakness & Debility—an Extraordinary Cure.

Mr. T. GARDNER, of No. 9, Brown-street, Grosvenor-square, had been in a very bad state of health for a long time, suffering much from a distended Stomach, very impaired Digestion, with constant pains in his Chest, was extremely nervous, and so greatly debilitated as scarcely able to walk one hundred yards; during the long period of his declining health he had the advice of four of the most eminent physicians besides five surgeons of the greatest celebrity in London, from whose aid he derived no benefit whatever, at last he had recourse to Holloway's Pills, which he declares effected a perfect cure in a very short time; and that he is now as strong and vigorous as ever he was in his life. This being so extraordinary a case, may lead many persons almost to doubt this statement, it might therefore be necessary to say that Mr. Gardner is a broker and well known.

## Cure of a Confirmed Asthma, accompanied with great Debility.

*Extract of a Letter from John Thompson, Esq., Proprietor of the  
Armagh Guardian, Armagh, 17th April, 1846.*

To Professor Holloway.

SIR,—There is at present living in this city a Serjeant, who had been for many years in the Army at Cabul, in the East Indies, from whence he returned in September last. On his way here, from the change of weather of a tropical to a moist climate, he caught

a very violent cold, which produced a confirmed case of Asthma. In December last he commenced taking your Pills, and by the use of two 11s. boxes, with two 4s. 6d. pots of your Ointment well rubbed into his breast, he is, I am happy to say, not only quite cured of the Asthma, but is also become so strong and vigorous, that he informed me yesterday he could now run round the Mall, with any person in the city, and that he never got any medicine equal to your Pills and Ointment. (Signed) J. THOMPSON.

**The Earl of Aldborough Cured of a Liver and Stomach Complaint.**

*Extract of a Letter from His Lordship, dated Villa Messina, Leghorn, 21st February, 1845.*

To Professor HOLLOWAY.

SIR,—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for the amount, and, at the same time, to add, that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent, had not been able to effect; nay, not even the waters of Carlsbad and Marianbad. I wish to have another Box and a Pot of the Ointment, in case any of my family should ever require either. Your most obliged and obedient Servant. (Signed) ALDBOROUGH.

*The mighty powers of these extraordinary Pills will do wonders in any of the following Complaints:—*

Ague	Asthma	Erysipelas	Retention of Urine
Bilious Complaints	Female Irregularities	Sore Throats	Scrofula or King's Evil
Bloaches on the Skin	Fevras of all kinds	Stone and Gravel	Secondary Symptoms
Bowel Complaints	Fits	Tic-Donloureux	Tumours
Consumption	Head-ache	Ulcers	Veneral Affections
Colics	Indigestion	Weakness of all kinds	ever cause, &c. &c.
Constipation of the Bowels	Inflammation	Jaundice	
Debility	Liver Complaints	Lambago	
Dropsy	Lumbago	Piles	
Dysentery	Rheumatism		

Sold by the Proprietor, 244, Strand, (near Temple Bar,) London; and by PETERS & TILLEY, Provincial Agents, No. 2, King street, Saint John, N. B., James F. Gale, Fredericton; W. T. Baird, Woodstock; Alexander Lockhart, Quebec; James Beck, Bend of Passicodiac; O. R. Sayre, Dorchester; John Bell, Shediac; John Lewis, Hillsborough; John Curry, Canning; M. Wood, Shediac; and James G. White, Bellisle;—in pots and boxes, at 1s. 9d., 4s. 6d., and 7s. each. There is a very considerable saving in taking the larger sizes.
