ACKNOWLEDGMENTS—Many persons participated in the various activities of the 1972 Census of Retail Trade. Primary direction of the program was performed by **Shirley Kallek**, Associate Director for Economic Fields, and **Melvin A. Hendry**, Assistant Director for Economic Censuses.

This report was prepared in the Business Division[®] under the general direction of **John R. Wikoff**, Chief. **Michael G. Farrell**, Assistant Chief for Census Programs, was responsible for the overall planning and management of the Division's census programs; he also coordinated activities with other divisions. Planning and implementing for this census and compiling this report were under the direction of **Bobby E. Russell**, Chief, Retail Census Branch, with primary staff assistance provided by **John A. Dodds**. **Alvin H. Barten** coordinated activities, specifications, and procedures with the other economic censuses. The computer programs were developed under the direction of **George D. Minier**, Chief, Census Programming Branch, assisted by **William Wester**. **Paul Shapiro**, Assistant Chief for Staff and Special Projects, provided staff assistance.

The mailing, collecting of data, and processing of administrative record information were conducted by the Economic Surveys Division under the direction of **Roger Bugenhagen**, Chief. Assistance was provided by **Samuel Schweid**, **Andrew Grieco**, **Charles Venters**, **Shirley Roberts**, **Robert Viehman**, **Jerry McDonald**, **Joel Richardson**, and **Sandra Katis**.

Forms design was performed in the Administrative Services Division, **Henry J. Husmann**, Chief. **Gladys Potts**, **Joyce Teague**, **Helen Hindt**, and **Margaret Swinton** made significant contributions.

Within the Publications Services Division, many individuals made significant contributions in the areas of publication planning and design, editorial review, composition, and printing procurement.

Clerical and data keying operations were performed in the Data Preparation Division at Jeffersonville, Indiana, under the direction of **O.**

Bryant Benton, Chief, who was assisted by **Don L. Adams** and **Robert L. Allen**.

The geographic coding procedures were developed in the Geography Division under the direction of **Jacob Silver**, Chief, assisted by **Zigmund Decker**, **Terence McDowell**, **Silla Tomasi**, **Robert Hamill**, **David Christy**, **Kurt LeGait**, and **John Hawkins**. Computer processing was directed by **James R. Pepal**, Chief, Computer Services Division. **C. Thomas DiNenna**, **Jesse Verdeja**, and **Willie E. Clark** provided staff assistance.

Donald Young of the Economic Census Staff participated in the overall planning and review of the census operations.

Special acknowledgment is also due the many businesses whose cooperation has contributed to the publication of these data.

The statistics presented in this volume incorporate the area report series RC72-C.

5992	Florists	13.8	15.8	55.3

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	-10.2	26.1	72.2

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	(D)	97.0	122.3

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. 1967 data have been adjusted to include Lackawanna, Luzerne, and Monroe Counties for compatibility with the 1972 SMSA definition.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	20.3	66.8	88.1

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	(D)	(D)	98.9

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	1.2	(D)	3.3	20.9	40.5

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. The individual 1967 SMSA's of Dallas and Fort Worth were combined to represent near compatibility with the 1972 SMSA definition.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	(D)	18.6	34.9

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	4.4	(D)	(D)

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	-18.1	7.5	45.0

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	(D)	(D)	(D)

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

5992	Florists	(D)	(D)	(D)

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

Standard Notes: - Represents zero. D Withheld to avoid disclosure. NA Not available. NC Data not comparable between 1967 and 1972 due to major changes in classification.

¹The percent changes for central business districts and cities were calculated based on the 1972 SIC definitions for 1972 data and the 1967 SIC definitions for 1967 data. Percentage changes are not shown for kinds of business with major noncomparability; nevertheless, changes in classification between 1967 and 1972 may slightly affect the percentage change shown for some kinds of business and for retail stores, total. (See appendixes A and B for a more complete explanation of SIC changes.) The percent change for the SMSA, however, was calculated based on the 1967 SIC definitions for both the 1967 and 1972 data. Data have not been adjusted for boundary changes between census years.

²Excludes nonstore retailers (mail order, direct selling, merchandise vending machine operators) part of SIC 53.

³Includes data for those kinds of business in SIC 59 (except 591) not covered in any of the lines below.

APPENDIX A. General Explanation

CENSUS COVERAGE AND METHODOLOGY

Structure and Method of Enumeration of the 1972 Census of Retail Trade Universe—Firms in the 1972 Census of Retail Trade were divided into two categories—the “mail universe” and the “nonmail universe.” The coverage of each component and the method of obtaining census information from each group are described below.

1. *The “Nonmail Universe”*—This group consists of firms which were not required to file a regular census return and includes the following categories:

a. *All “nonemployers”*—This category consists of all firms with no paid employees during 1972. Sales information for these firms was obtained from 1972 Federal income tax records. Although consisting of a large number of firms, the nonemployer segment accounts for less than 5 percent of total retail sales.

The census included only those retail nonemployer firms which reported a sales volume of \$2,500 or more during 1972 plus firms in operation for less than the full year which reported sales that, if projected to an annual basis, would have reached a total of \$2,500 or more. This treatment is the same as in the 1967 census.

b. *Selected “small employers”*—“Employers” consist of all business firms with paid employees as shown in the active records of the Internal Revenue Service (IRS) which were subject to payment of Federal Insurance Contribution Act (FICA) taxes. “Small employers” consist basically of all those single establishment firms with payroll below a specified cutoff. Although the cutoff varied by kind of business, this segment generally included firms with one to three employees and represented about 10 percent of total retail sales.

Data on sales, payroll, and employment for “under cutoff” employer firms were obtained from the records of the Internal Revenue Service (IRS) and the Social Security Administration (SSA), except for a 10-percent sample of these which were included in the “mail universe.”

2. *The “Mail Universe”*—Information for firms in this group was obtained basically by means of a mail canvass. The “mail universe” includes the following categories:

a. *“Large employers”*—This category comprises all “employer” firms above the size cutoff referred to in section 1 b above. Within this category, a pre-census mail canvass operation was conducted in order to identify firms which operated establishments at more than one location and to obtain information on mid-March 1972 employment at each location for use as a coverage check in the census. Firms included in the

pre-census mailing were drawn primarily from 1967 census records of multiunit firms and other large employers.

b. *Sample of “small employers”*—This category included the 10-percent sample of “small employer” firms referred to in section 1 b above.

Method of Classifying Kinds of Business—The retail trade classifications for all establishments were based on the Standard Industrial Classification (SIC) Manual.¹ However, the method of assigning these classifications, and the level of detail at which establishments were classified, differed as follows:

1. *The “Nonmail Universe”*:

a. *All “nonemployers”*—Nonemployer firms were classified on the basis of information supplied on the Federal income tax returns.

b. *Selected “small employers”*—The 1972 census classification for the “small employer” firms which were not mailed a census report form (see section 1 b above) was based on the 1967 census kind-of-business classification. If the firm was not in business in 1967, the SSA classification was used. If the SSA classification was not available, or was inadequate for coding, the IRS classification based on the firm’s description of its principal business activity as entered on its IRS business tax return was used.

If the previous Census, SSA, and IRS classifications all proved inadequate (i.e., none corresponded to a 1972 census classification in the detail required for employers), the firm was sent a brief inquiry requesting information necessary in order to assign a 1972 census kind-of-business code.

2. *The “Mail Universe”*—The 1972 census classification for establishments in the “mail universe” (section 2 above) was assigned on the basis of answers to questions on sales by merchandise lines and other special inquiries.

Comparability of the 1967 and 1972 Censuses—The 1967 and 1972 censuses were conducted under similar conditions and procedures. However, strict comparability of the data for the two censuses is limited by the following factors:

1. *Classification*—In both 1967 and 1972, classifications were based on the Standard Industrial Classification (SIC) Manual; however, there were major revisions to the SIC structure in 1972 which limit the comparability of data between these two censuses. The kinds of business

¹Executive Office of the President, Office of Management and Budget, *Standard Industrial Classification Manual*, 1972.

APPENDIX A—Continued

involving the most significant changes are those in the building materials, hardware, garden supply, and mobile home dealers category (SIC Major Group 52). These changes are described in detail in the "Kind-of-Business Classifications" section below, and summarized in appendix B.

It was not possible to retabulate 1967 data based on the revised 1972 classifications for comparative purposes, since in many cases the necessary information was not available for assigning the new 1972 classifications to the 1967 records. Therefore, 1967 data for central business districts (CBD's) shown in this report have not been retabulated on the 1972 SIC basis. 1972 census data are presented based on the 1972 classifications for all areas specified under "Types of Areas Covered" in the Introduction. Comparable 1967 data for SMSA's and cities are not included in this report. 1972 data for SMSA's, retabulated on the 1967 SIC basis, are presented in the Retail Trade Area Reports, series RC72-A, in order to show the impact of reclassification at the broader geographic levels. Trends are shown in this report for the CBD, city, and SMSA where classification changes are of little or no consequence. Percentage change information is not shown where classification changes may have obscured the trend.

2. *Areas*—The boundaries of a number of areas for which data are shown in the 1972 census are not the same as in the 1967 census because of annexations, other boundary changes, and redefinitions of standard metropolitan statistical areas (SMSA's) which occurred since 1967.
3. *Number of Proprietorships and Partnerships*—These statistics are presented to provide the user with a basis for developing data on the "number of proprietors" in the areas specified. The method used in determining the legal form of organization and the limitations involved, as well as an estimate of the unclassified establishments in the State, are provided in the publication series "Retail Trade Area Reports," RC72-A.

EXPLANATION OF TERMS

Establishments—An establishment is a single physical location at which business is conducted. An establishment is not necessarily identical with the company or enterprise which may consist of one or more establishments. Census of retail trade figures represent a summary of reports for individual establishments rather than companies. Separate information was obtained for each location where business was conducted. Each report was tabulated in accordance with the physical location at which the business was conducted. The count of

establishments in this report represents the number in business at the end of the year.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment, and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. In those cases, however, where distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and where conditions prescribed by the SIC manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were obtained in the census.

In the case of leased departments (separately owned businesses operated as departments or concessions of a retail business under another ownership, such as a separately owned shoe department in a department store), only a single establishment combining leased departments with the main retail establishment in which they are located is recognized for census purposes. It should be noted, however, that in the case of the "nonmail universe," for which information is obtained from IRS and SSA sources, it is generally not possible to differentiate between leased departments and separate establishments. Also, leased retail departments located in other than retail establishments (e.g., a gift shop located in a hotel) are considered separate retail establishments.

Sales—Sales include merchandise sold, receipts from repairs and other services to customers, delivery, and carrying charges, whether or not payment was received in 1972. Sales are net after deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from total sales. Sales also include local and State sales taxes and Federal excise taxes collected by the store directly from customers and paid directly by the store to a local, State, or Federal tax agency. Gasoline, liquor, tobacco, and other excise taxes, which are paid by the manufacturer or wholesaler and passed along to the retailer, are also included. Total sales do not include non-operating income from such sources as investments, rental of real estate, etc.

Sales in this report do not include retail sales made by manufacturers, wholesalers, service establishments, nor other businesses whose primary activity is other than retail trade. They do, however, include receipts other than from the sale of merchandise at retail (e.g., service receipts, sales to industrial users, and sales to other retailers) by establishments primarily engaged in retail trade.

Although the count of establishments in this report represents the number in business at the end of the year, the

APPENDIX A—Continued

sales figures include sales of all establishments in business at any time during the year.

Payroll, Entire Year—Payroll includes all forms of compensation, such as salaries, wages, commissions, bonuses, vacation allowances, sick leave pay, and the value of payments in kind (such as free meals and lodgings) paid during the year to all employees. Tips and gratuities received by employees from patrons and reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Payroll is reported before deductions for social security, income tax, insurance, union dues, etc. This definition of payroll is the same as that used by the Internal Revenue Service for purposes of reporting on Form 941.

Payroll for the First Quarter of 1972—This item consists of payroll, as defined above, paid to persons employed at any time during the January to March 1972 quarter.

Paid Employees for the Pay Period Including March 12, 1972—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12, 1972. Included are employees on paid sick leave, paid holidays, and paid vacations. Proprietors and partners of unincorporated businesses are not included. The definition of paid employees is the same as used in reporting on IRS Form 941.

Central Administrative Offices and Auxiliaries—Each company included in this census was asked to identify and report separately as "central administrative offices" or "auxiliaries" those locations whose primary functions were to manage, administer, service, or support the activities of the other establishments of the company. Data for such central administrative offices and auxiliaries which primarily service retail establishments will be presented in a subsequent census of retail trade publication.

KIND-OF-BUSINESS CLASSIFICATIONS

Retail trade, as defined in major groups 52 through 59 of the 1972 edition of the SIC manual, includes establishments engaged in selling merchandise for personal or household consumption and rendering services incidental to the sale of the goods. Exceptions to this general rule are made necessary by trade practices. For example, lumber yards and paint, glass, and wallpaper stores are included in retail trade if they sell to the general public, even if a higher proportion of their sales is made to contractors. Also, establishments engaged in selling

products to the general public from displayed merchandise, such as typewriters, stationery, or gasoline are classified in retail trade even though such products may not be used for personal or household consumption. However, establishments that sell exclusively to business establishments, institutional and industrial users, or contractors are classified in wholesale trade.

Additional important characteristics of retail trade establishments are that they are usually fixed places of business; they are engaged in activities to attract the general public to buy; they buy or receive merchandise as well as sell; they may process their products, but such processing is incidental or subordinate to selling; and they are considered as retail in the trade. Not all of these characteristics need be present, and some are modified by trade practice.

Establishments covered by the census were assigned kind-of-business classifications in accordance with the industry classifications defined in the 1972 edition of the SIC manual. However, because in some instances a more detailed classification is required for census purposes than is defined in the SIC manual, additional kinds of business have been identified within SIC categories. In general, retail establishments are classified according to the principal lines of commodities sold (groceries, hardware, etc.), or the usual trade designation (drug store, cigar store, etc.).

Kind-of-business classifications are not interchangeable with commodity classifications. Most businesses sell several kinds of commodities. The kind-of-business code assigned generally reflects either the individual commodity or the commodity group which is the primary source of the establishment's receipts, or some mixture of commodities which characterizes the establishment's business. Thus, the classification of establishments by kind of business generally does not make it possible to determine either the number of establishments handling a particular commodity or the sales of that commodity. For example, the "food group" classification excludes stores selling food if the sale of food is not the primary source of receipts; moreover, even though stores are classified as "food stores" some of their receipts may be derived from the sale of nonfood products. (Some indication of the extent to which various broad groups of commodities, or "merchandise lines," are characteristic of different kinds of business will be available in the 1972 Census of Retail Trade report, "Merchandise Line Sales".)

The basis for kind-of-business classification is described in the section under "Method of Classifying Kinds of Business." Descriptions of the major kind-of-business classifications used in the Major Retail Centers series of reports follows. More detailed descriptions of the individual kind-of-business classifications within these major categories are provided in appendix A of the publication series "Retail Trade Area Reports,"

APPENDIX A—Continued

RC72-A. Major changes between the 1967 kind-of-business classifications and the 1972 kind-of-business classifications are provided in appendix B of this report.

BUILDING MATERIALS, HARDWARE, GARDEN SUPPLY, AND MOBILE HOME DEALERS (SIC Major Group 52)

This major group includes retail establishments primarily engaged in selling lumber and other building materials; paint, glass, and wallpaper; hardware; nursery stock; lawn and garden supplies; and mobile homes.

It includes lumber and other building materials dealers and paint, glass, and wallpaper stores selling to the general public, even if sales to contractors account for a larger proportion of total sales. These establishments are known as "retail" in the trade. Establishments primarily selling these products but not selling to the general public are classified in wholesale trade.

Establishments primarily selling plumbing, heating, and air-conditioning equipment; electrical supplies; and farm equipment, which were classified in major group 52 in the 1967 census, are classified in wholesale trade. Retail nurseries and lawn and garden supply stores, part of major group 59 in 1967, and mobile home dealers, part of major group 55 in 1967, are classified here.

Hardware Stores (SIC 525)—Establishments primarily selling a number of basic hardware lines such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials, no one of which accounts for 50 percent or more of the sales of the establishments.

GENERAL MERCHANDISE GROUP STORES (SIC Major Group 53)

This major group includes retail stores which sell a number of lines of merchandise, such as dry goods, apparel and accessories, furniture and home furnishings, small wares, hardware, and food. The stores included in this group are known as department stores, variety stores, general merchandise stores, general stores, etc. Establishments primarily engaged in selling used general merchandise are classified in SIC 593, and those selling general merchandise by mail, vending machine, or direct selling, in SIC 596.

Nonstore retailers (mail-order houses, merchandising machine operators, and direct-selling establishments), dry goods stores, and sewing and needlework stores, previously classified in SIC Major Group 53, are classified in SIC Major Group 59 in the 1972 census.

Department Stores (SIC 531)—Establishments normally employing 25 people or more, having sales of apparel and softgoods combined amounting to 20 percent or more of total sales, and engaged in selling each of the following lines of merchandise:

1. *Furniture, Home Furnishings, Appliances, Radio and TV Sets.*
2. *A General Line of Apparel for the Family.*
3. *Household Linens and Dry Goods.*

To qualify as a department store, sales of each of the lines listed above must be less than 80 percent of total sales. An establishment with total sales of \$5 million or more is classified as a department store even if sales of one of the merchandise lines listed above exceed the maximum percent of total sales, provided that the combined sales of the other two groups is \$500,000 or more. Relatively few stores are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC Major Group 56).

Variety Stores (SIC 533)—Establishments primarily engaged in the retail sale of a variety of merchandise in the low and popular price ranges. Sales usually are made on a cash-and-carry basis with the open selling method of display and customer selection of merchandise. These stores generally do not carry a complete line of merchandise, are not departmentalized, do not carry their own charge service, and do not deliver merchandise.

Miscellaneous General Merchandise Stores (SIC 539)—Establishments primarily engaged in the retail sale of a general line of apparel, dry goods, hardware, homewares or home furnishings, groceries, and other lines in limited amounts. Stores selling commodities covered in the definition for department stores, but normally having less than 25 employees, and stores usually known as country general stores are included here.

Also included in this classification are establishments whose sales of apparel or of furniture and home furnishings exceed half of their total sales providing that sales of the smaller of the two lines in combination with dry goods and household linens account for 20 percent or more of total sales.

FOOD STORES (SIC Major Group 54)

This major group includes retail stores primarily engaged in selling food for home preparation and consumption. Establishments primarily engaged in selling prepared foods and drinks for consumption on the premises are classified in SIC Major Group 58, and stores primarily engaged in selling packaged beers and liquors in SIC 5921.

**AUTOMOTIVE DEALERS AND GASOLINE
SERVICE STATIONS**
(SIC Major Group 55)

This major group includes retail dealers selling new and used automobiles, boats, recreational and utility trailers, and motorcycles; those selling new automobile parts and accessories; and gasoline service stations selling gasoline and lubricating oils. This group includes establishments dealing in used automobiles exclusively, but not establishments dealing exclusively in used parts (SIC 5931). Automobile repair shops maintained by the establishments engaged in the sale of new automobiles are also included.

Automotive distributors, the greater part of whose sales are to dealers or to institutional or industrial users, are classified in wholesale trade. Mobile home dealers previously classified in SIC Major Group 55 are classified in SIC Major Group 52 in the 1972 census.

Gasoline Service Stations (SIC 554)—Establishments primarily selling gasoline and automotive lubricants. Usually these establishments also sell tires, batteries, and accessories, and perform minor repair work and services. Establishments called garages but deriving more than half of their receipts from the sale of gasoline and automotive lubricants are included.

APPAREL AND ACCESSORY STORES
(SIC Major Group 56)

Establishments in this major group are primarily engaged in selling clothing of all kinds and related articles for personal wear and adornment. Not included in this group are establishments which meet the criteria for "Department stores" (SIC 5311) or "Miscellaneous general merchandise stores" (SIC 5399) even though most of their receipts are from the sale of apparel and apparel accessories.

Men's and Boys' Clothing and Furnishings Stores (SIC 561)—Establishments primarily selling men's and boys' ready-to-wear clothing and furnishings. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of total sales, and (2) receipts from sales of all men's and boys' apparel are three or more times the receipts from sales of all women's and girls' apparel.

Women's Ready-to-Wear Stores (SIC 562)—Establishments primarily selling women's and girls' ready-to-wear apparel. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of total sales, (2) sales of all women's and girls' apparel are three

or more times the sales of all men's and boys' apparel, and (3) sales of dresses, coats and suits, and furs are two or more times greater than sales of millinery, hosiery, underwear, blouses, handbags, and other apparel and accessories.

Women's Clothing, Specialty Stores; Furriers (SIC 562, 563, and 568)—Establishments primarily selling women's specialty apparel and accessories. Included are women's ready-to-wear stores; millinery stores; corset and lingerie stores; other women's accessory and specialty stores; and furriers and fur shops.

Family Clothing Stores (SIC 565)—Establishments primarily selling clothing, furnishings, and accessories for men, women, and children, without specializing in any one line. Establishments are included in this category if (1) sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 50 percent or more of their total sales, (2) sales of all women's and girls' apparel items are not more than three times the sales of all men's and boys' apparel items, and (3) sales of men's and boys' apparel items are not more than three times the sales of all women's and girls' apparel items.

Shoe Stores (SIC 566)—Establishments primarily selling shoes. Included are men's shoe stores; women's shoe stores; family shoe stores; and children's and juveniles' shoe stores.

Other Apparel and Accessory Stores (SIC 564 and 569)—Establishments primarily engaged in the retail sale of specialized lines of apparel and accessories not elsewhere classified, such as uniforms, bathing suits, raincoats, riding apparel, sports apparel, umbrellas, wigs, and toupees. This classification also includes children's and infants' wear stores.

**FURNITURE, HOME FURNISHINGS, AND
EQUIPMENT STORES**
(SIC Major Group 57)

This major group includes retail stores selling goods used for furnishing the home, such as furniture, floor coverings, draperies, glass and chinaware, domestic stoves, refrigerators, and other household electrical and gas appliances. Establishments selling electrical and gas appliances are included in this group only if the major part of their sales consists of articles for home use. Dealers primarily engaged in selling antique and secondhand furniture are classified in SIC 593. Stores furnishing interior decorator service are classified according to the merchandise handled.

In the 1972 census, data for china, glassware, and metalware stores and miscellaneous home furnishings stores have

APPENDIX A—Continued

been combined into a single kind of business classification, "Miscellaneous home furnishings stores." In the 1967 census, data for these two kinds of business were shown separately.

Furniture Stores (SIC 5712)—Establishments primarily selling household furniture, beds, mattresses, springs, and other sleep equipment. Also included in this classification are establishments selling household appliances, phonographs, radio and TV sets, and floor coverings provided the receipts from sales of furniture and sleep equipment exceed those from sales of other merchandise.

Home Furnishings Stores (Other 571)—Establishments primarily selling home furnishings. Included are floor coverings stores; drapery, curtain, and upholstery stores; and miscellaneous home furnishings stores.

Household Appliance, Radio, Television, and Music Stores (SIC 572 and 573)—Comprise the following industries:

1. *Household Appliance Stores (SIC 572)*—Establishments primarily engaged in the retail sale of electric and gas refrigerators, stoves, and other household appliances, such as electric irons, percolators, hot plates, and vacuum cleaners. Many such stores also sell radio and television sets. Retail stores operated by public utility companies and primarily engaged in the sale of electric and gas appliances for household use are classified here.
2. *Radio and Television Stores (SIC 5732)*—Establishments primarily engaged in the retail sale and installation of radios, television sets, record players, high fidelity (hi-fi), and sound reproducing equipment. Such establishments also may sell additional lines, such as household appliances, musical instruments, or records. Radio and television repair and installation shops are classified in SIC 7622.
3. *Record Shops (SIC 5733 pt.)*—Establishments primarily selling phonograph records and albums. Related merchandise is also frequently sold in these stores.
4. *Musical Instrument Stores (SIC 5733 pt.)*—Establishments primarily selling musical instruments such as organs, pianos, horns, stringed instruments, and percussion instruments. Other musical supplies also may be sold in these stores.

EATING AND DRINKING PLACES (SIC Major Group 58)

This major group includes retail establishments selling prepared foods and drinks for consumption on the premises,

and also lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption. Restaurants, lunch counters, and drinking places operated as a subordinate service facility by other establishments are not included in this industry unless they are operated as leased departments by outside operators. Thus, restaurants and lunch counters operated by hotels are classified in SIC Major Group 70; those operated by department stores are classified in SIC Major Group 53.

Eating Places (SIC 5812)—Includes retail establishments selling prepared foods and beverages for consumption on or near the premises. Included are restaurants and lunchrooms; social caterers; cafeterias; refreshment places; contract feeding locations; and ice cream and frozen custard stands.

Drinking Places (SIC 5813)—Establishments primarily engaged in the retail sale of drinks, such as beer, ale, wine, liquor, and other alcoholic beverages for consumption on the premises. The sale of food frequently accounts for a substantial portion of the receipts of these establishments.

DRUG STORES AND PROPRIETARY STORES (SIC 591)

Drug Stores (SIC 591 pt.)—Establishments engaged in the retail sale of prescription drugs and patent medicines, and which may carry a number of related lines such as cosmetics, toiletries, tobacco, and novelty merchandise, and which may operate a soda fountain or lunch counter.

These stores are included on the basis of their usual trade designation rather than on the more strict interpretation of commodities handled.

MISCELLANEOUS RETAIL STORES (SIC Major Group 59 Except 591)

This major group includes retail establishments not elsewhere classified. Dry goods stores, and sewing, needlework, and piece goods stores, which were classified in SIC Major Group 53 in the 1967 census, are classified in SIC Major Group 59 in the 1972 census. Hay, grain, feed and other farm supply stores, and retail nurseries, lawn and garden supply stores, previously classified in SIC Major Group 59, are classified in wholesale trade and SIC Major Group 52, respectively, in the 1972 census.

Liquor Stores (SIC 592)—Establishments primarily selling packaged alcoholic beverages, such as ale, beer, wine, and whiskey, for consumption off the premises. Liquor stores operated by States, counties, and municipalities are included.

APPENDIX A—Continued

Miscellaneous Shopping Goods Stores (SIC 594)—Comprises the following industries:

1. *General Line Sporting Goods Stores (SIC 5941 pt.)*—Establishments primarily selling a general line of sporting goods and equipment for hunting, camping, fishing, skiing, riding, tennis, golf, and other sports; and gymnasium and playground equipment.
2. *Specialty Line Sporting Goods Stores (SIC 5941 pt.)*—Establishments primarily selling a specialty line of sporting goods and equipment for only one of the lines listed in "General line sporting goods stores."
3. *Book Stores (SIC 5942)*—Establishments primarily selling new books and periodicals. Stationery and related items may also be sold. Book clubs (not engaged in publishing) primarily selling new books through the mail are included in "Mail-order houses" (SIC 5961).
4. *Stationery Stores (SIC 5943)*—Establishments primarily engaged in the retail sale of stationery, such as paper and paper products (including printing and engraving), post cards, novelties, and school and office supplies. Stores specializing in the sale of artists' supplies are classified in SIC 5999.
5. *Jewelry Stores (SIC 5944)*—Establishments primarily engaged in the retail sale of any combination of the lines of jewelry, such as diamonds and other precious stones; rings, bracelets, and brooches; sterling and plated silverware; and watches and clocks. Stores primarily engaged in watch and jewelry repair are classified in SIC 7631.
6. *Hobby, Toy, and Game Shops (SIC 5945)*—Establishments primarily engaged in the retail sale of toys, games, and hobby kits and supplies. Establishments primarily engaged in selling artists' supplies, or collectors' items, such as coins, stamps, and autographs, are classified in SIC 5999.
7. *Camera and Photographic Supply Stores (SIC 5946)*—Establishments primarily engaged in the retail sale of cameras, film, and other photographic supplies and equipment. Establishments primarily engaged in finishing films are classified in SIC 7395.

8. *Gift, Novelty, and Souvenir Shops (SIC 5947)*—Establishments primarily engaged in the retail sale of combined lines of gifts and novelty merchandise, souvenirs, and miscellaneous small art goods such as greeting cards and holiday decorations.
9. *Luggage and Leather Goods Stores (SIC 5948)*—Establishments primarily engaged in the retail sale of luggage, trunks, and leather goods.
10. *Sewing, Needlework, and Piece Goods Stores (SIC 5949)*—Establishments primarily engaged in the retail sale of sewing supplies, fabrics, patterns, and other needlework accessories.

Florists (SIC 5992)—Establishments primarily engaged in the retail sale of cut flowers and growing plants. Stores primarily engaged in selling seeds, bulbs, and nursery stock are classified in SIC 5261, and greenhouses and nurseries primarily engaged in growing are classified in SIC 0181.

In addition to the kinds of business described above, for which data are shown separately in this report, this group includes other retail stores such as used merchandise stores; fuel and ice dealers; fuel oil dealers; liquefied petroleum gas dealers; cigar stores and stands; news dealers and newsstands; pet shops; typewriter stores; optical good stores; and other establishments selling specialized lines of merchandise, such as collectors' items and supplies, artists' supplies and other lines not elsewhere classified. Although data for the establishments are not shown separately, they are included in the group total.

Nonstore Retailers (SIC 596)—The establishments primarily engaged in these activities are not included in this series of reports but are included in all other 1972 Census of Retail Trade publications. Included in this classification are mail-order houses, merchandising machine operators, and direct selling (house-to-house) organizations.

In this census, the sales made at catalog sales desks in retail stores were tabulated as part of the stores' sales rather than as part of the sales of the mail-order house. This conforms with the treatment of catalog desks in the 1967 census.

APPENDIX B. Changes in Retail Trade Kind-of-Business Classifications in 1972

Based on revisions to the Standard Industrial Classification Manual, definitions of some kinds of business were changed in 1972. The significant changes in kind-of-business classification from 1967 to 1972 are listed below. For industries other than those listed, the kind-of-business definitions are the same as in 1967, or contain only minor revisions affecting the classification of few, if any, establishments.

1972 Census		1967 Census	
SIC code	Title	SIC code	Short or descriptive title ¹
5063	Electrical apparatus and equipment ²	5241	Electrical supply stores.
5074	Plumbing and hydronic heating supplies ²	5221	Plumbing and heating equipment dealers.
5075	Warm air heating and air conditioning ²		
5083	Farm machinery and equipment ²	5252	Farm equipment dealers.
5191 pt.	Farm supplies ²	5962	Hay, grain, and feed stores.

APPENDIX C. Standard Metropolitan Statistical Areas

(Titles and definitions of the two standard consolidated areas and the 263 standard metropolitan statistical areas in the United States established by the Office of Management and Budget as of August 15, 1973)

Chicago, IL—Northwestern Indiana Standard Consolidated Area	Consists of Chicago, IL, SMSA, and Gary-Hammond-East Chicago, IN, SMSA
New York, NY—Northeastern New Jersey Standard Consolidated Area	Consists of New York, NY-NJ, SMSA; Nassau-Suffolk, NY, SMSA; Newark, NJ, SMSA; Jersey City, NJ, SMSA; Paterson-Clifton-Passaic, NJ, SMSA; and New Brunswick-Perth Amboy-Sayreville, NJ, SMSA
Abilene, TX	Consists of Callahan, Jones, and Taylor Counties, TX
Akron, OH	Consists of Portage and Summit Counties, OH
Albany, GA	Consists of Dougherty and Lee Counties, GA
Albany-Schenectady-Troy, NY	Consists of Albany, Montgomery, Rensselaer, Saratoga, and Schenectady Counties, NY
Albuquerque, NM	Consists of Bernalillo and Sandoval Counties, NM
Alexandria, LA	Consists of Grant and Rapides Parishes, LA
Allentown-Bethlehem-Easton, PA-NJ	Consists of Carbon, Lehigh, and Northampton Counties, PA, and Warren County, NJ
Altoona, PA	Coextensive with Blair County, PA
