DON'T SIGN ANNEXATION PETITION—KEEP GLENDALE ON THE MAP

STAND ON ANNEXATION IS DEMANDED OF CHAMBER OF COMMERCE EXECUTIVES

National Exchange Club and Realty Board Declare Directors Must Go on Record Against the Movement

MOTOR CAR DEALERS JOIN THE OPPOSITION

Three Civic Business Organizations in Separate Meetings Unite Forces Against Consolidation of Glendale and Los Angeles

A demand for the resignation of any member of the new board of directors of the Chamber of Commerce, who is not unalterably opposed to annexation to Los Angeles, was the high note of a series of resolutions passed by Glendale business organizations Wednesday.

The demand came from the National Exchange club, which declared that the attitude "places Glendale in a ludicrous position," and demanded public announcement of opposition to the annexation movement and the approval of the Home Protective League.

The Realty Board instructed its secretary to write the Chamber of Commerce, demanding that it get behind the anti-annexation forces at the next meeting of the directors.

The Glendale Motor Car Dealers' Association passed formal resolutions for itself, as unalterably opposed to the annexation of Glendale to Los Angeles.

EXCHANGE CLUB DEMANDS ACTION

The luncheon of the board of directors of the Glendale Exchange club at Broadway Inn at noon proved to be a rousing anti-annexation session. Several anti-annexation addresses were given and at the conclusion of these it was unanimously decided to forward the following letter, which is self-explanatory, to the board of directors of the Glendale chamber of commerce:

"As perhaps you know, practically every civic organization in Glendale has gone on record as being unalterably opposed to the present movement of annexation of Glendale to Los Angeles. We, the Glendale Exchange club, a representative body of Glendale citizens, are at a loss to understand why our chamber of commerce has not also taken such action when Glendale's very existence is at stake. We believe that our chamber of commerce should have been first of all to take such action on that. It places Glendale in a ludicrous position for our chamber of commerce to take a neutral stand on this momentous question.

"We therefore, respectfully request you to immediately take the following action: "First, to publicly announce your opposition to the annexation movement, stating that you heartily approve of the Home Protective League and its campaign to defeat annexation.

"Second, that any member of the board of directors who is not unalterably opposed to the annexation movement be asked to resign immediately. "We are not attacking persons, but we want results. We feel sure that no person can serve the best interests of Glendale who is not unalterably opposed to the annexation movement, regardless of who he is. Glendale's life is at stake. Which side are you on?"

MOTOR CAR DEALERS' ASSOCIATION IS AGAINST ALL ANNEXATION

At its meeting the Glendale Motor Car Dealers' association went unanimously on record as opposing annexation to Los Angeles, this action being taken at the regular weekly luncheon at the Broadway Inn, corner Glendale avenue and Broadway. Several stirring addresses were made opposing annexation at the conclusion of which the following resolution was adopted:

"Be it resolved, that we, the Glendale Motor Car Dealers' association, go on record as unalterably opposed to the annexation of the city of Glendale to the city of Los Angeles.

Further, that annexation would be against the best interests of the business men and residents of Glendale.

The organization also went on record as favoring the municipal

STUDENTS EDIT PAGE OF PRESS

Compositions to Be Written by Pupils of Glendale Schools

December 3-9 has been set apart as American Education Week by the American Legion, the Bureau of Education, and the National Education association for the purpose of bringing more emphatically before the American people the problems of education. In order that the people of Glendale might know what their local schools are doing, the Glendale Daily Press has generously given over a page of its paper each day to be written and edited entirely by the students of the Glendale high and grammar schools. The committees for the week's publicity decided that the schools could most effectively show how they are training their students for good citizenship by letting the students speak for themselves. The grammar schools will be represented by compositions from the fourth, fifth, sixth, seventh, and eighth grades, to be published respectively on Monday, Tuesday, Wednesday, Thursday and Friday. The high school has contributed themes on the subjects being emphasized on the various days of the week. The proofreading, make-up and editing of the page has been in charge of the journalism class of the high school.

\$2430 GAINED BY RED CROSS IN DRIVE

In Spite of Rain, Work of Drive Is Progressing Rapidly

In spite of the rain the Board of Directors of the Glendale Chamber of Commerce Wednesday afternoon at which Mrs. John Robert White, general chairman of membership drive submitted a report which showed receipts of \$59.20 for chapter work, \$15 for near east relief, \$2381 for memberships, making a total of \$2430.20.

Mrs. H. E. Bartlett, chairman of the chapter, reported that the clothing drive for refugees from Smyrna had yielded 49 sacks and two large boxes of good, warm clothing which had been sent to Brooklyn to be sent direct to Athens.

The chapter voted an appropriation of \$35 to be sent to the Pacific Division headquarters to be expended for Christmas relief for the disabled ex-service men in the hospital, the division having asked for money that it might be more wisely spent and distributed than would be the gifts sent.

A new member of the board was elected in the person of Mrs. Ernest Morgan. The chapter also voted to give a prize for a boy scout contest.

SHRINE CLUB HAS ENJOYABLE SMOKER

Despite the rainy weather the smoker and entertainment given at the regular meeting of the Shrine club of Glendale, of which E. F. Heisler is president, in the chamber of commerce auditorium Wednesday night proved a very enjoyable affair with sixty members of the club and visiting Shriners present. C. D. Hellyer was chairman of the committee of arrangements, which also included Dr. Ritchey, Paul Kagler, R. C. Shively and P. F. Moffett.

The program for the evening included vocal numbers by Mrs. Garetson, accompanied at the piano by Miss L. Litch. The numbers given by Marco and Louise, musicians, made a decided "hit" with the audience, as did also the clever monologues given by Harry James of the Nordkoe, Record Shoppe. There were vocal numbers given by D. Ripley Jackson and song and dance numbers by Evelyn and Leona Hunt. At the close of the program a general "sing" and smoker was enjoyed, after which a buffet supper was served.

COMMUNITY TREE COMMITTEES ARE CALLED TO MEET

A joint meeting of all committees from various organizations interested in the Community Christmas tree and Christmas carol program for Glendale has been called for the Kiwanis club for 7:30 o'clock tonight, Thursday, December 7, at the chamber of commerce rooms. The meeting is for the purpose of adopting a coordinated plan for the Community Christmas celebration.

XMAS SEALS APPROVED BY LOCAL CLUBS

Kiwanis and Credit Men's Association Endorse Purchase

TO END SATURDAY

Committee of One Hundred Rapidly Disposing of Stamps

The sale of Christmas seals in Glendale is in full swing. The committee of 100, announced in a recent issue of the Glendale Press, is actively engaged in the efforts to "go over the top" before Saturday evening, at which time the sale will close.

Among the organizations endorsing this worthy movement are the Kiwanis and Credit Men's association.

Dr. J. L. Pomeroy, county health officer, who is chairman of the sale for Los Angeles county, addressed a meeting of the committee Tuesday afternoon at the Glendale chamber of commerce. Among those present were bankers and business men, as well as women workers.

The pro rata of the amount allotted for Glendale will be used in cooperation with local authorities in the promotion of dental clinics, better health conditions among children, and relief of any tubercular cases locally.

Those desiring information or seals may call Miss Daniels, Glendale 911-M, or can be had at the information desk at the chamber of commerce. Returns may be made to A. R. Eastman, treasurer, Glendale State bank, 109 East Broadway.

ADVERTISING OF VARIETY SHOW IS UNDER WAY

High Students Publicity Committee Is Working Hard

That students of Glendale high appreciate the value of advertising and have excellent ideas on the subject is proved by the series of assemblies the publicity committee has arranged for the Variety show to be given at the school December 13, 14 and 15.

The new intermediate at Glendale and Park avenues was visited on Tuesday and an assembly held on the steps out of doors at which the variety show was announced together with the fact that tickets would be on sale at that school for the matinee to be given December 13 at 3:20 p. m. A quartette of high school boys composed of Harold Jones, Eugene Carver, Paul Edmonds and Ivan Dow sang "The Blue Bird on the Bank" and "The Little Green Apple" and the children were tremendously interested and flattered by such attentions from seniors and juniors of the high school.

A similar assembly was given Wednesday at Wilson Avenue intermediate which was attended by Eloene Trutt, secretary of assemblies, and Stanley Johns, publicity chairman, who explained the purpose of the visit. Paul Holland and Lorin Patrick gave a little skit and William Justina an impersonation.

At the assemblies given at the high school the same quartet mentioned above sang, scenes from the plays, "The Pot Boilers," and "Boasting Bridge" were given, and the jazz orchestra played a fake number.

The first day of the ticket sale, \$146 worth of tickets was disposed of, and there is every prospect that the auditorium will be packed for all three performances.

MONTROSE C. OF C. PLACES TRAFFIC BUTTONS

LA CRESCENTA, Dec. 6.—The activity of the Montrose Chamber of Commerce is noticeable in the four traffic buttons placed on the intersection of Honolulu and Montrose avenues. This is one of the most traveled districts near Glendale and the traffic buttons will no doubt prevent the repetition of many accidents.

THE WEATHER
Southern California and Los Angeles and vicinity: Partly cloudy tonight and Friday.

PEOPLE'S MOVEMENT IN MUSIC

Alexander Stewart, Community Organizer, Tells Purpose

WANT TO SWAP YOUR ROOSTER FOR ONE OF THE SAME KIND?

Mrs. G. H. Rowe, 218 South Orange street, wants to swap a Rhode Island Red rooster for another of the same kind. The women folks in the Rowe chicken yard can't get along at all with the "boss of the roost," so the only thing remaining to be done is to make a change. There ought to be at least one other chicken yard in Glendale so situated.

"To help Glendale intensify the spirit of neighborliness through music, is the chief purpose of my coming to Glendale," said Alexander Stewart, community music organizer for Community Service, Inc., who is here upon invitation of the executive committee of Glendale Community Service for a temporary period.

"The people of America are thinking more and more of music as a social as well as a cultural force in our community life. When people learn to sing together they become better neighbors, better citizens. 'The people's movement in music,' as it has been called, is sweeping over the country. Community choruses, community bands, and orchestras, music memory contests, community music weeks and other activities are being organized in hundreds of cities.

"Fifty millions of dollars were spent upon music in America in 1921, and the figures for 1922, it is estimated, will show an amount approximately \$100,000,000. Aside from those engaged in music on a professional basis, it has been estimated that there are 1,000,000 people actively engaged in promoting the interests of good music as volunteer workers. Three hundred thousand of these volunteer workers are comprised in the membership of the National Federation of Musical Clubs of America.

"During my visit to Glendale I shall be glad to be of assistance to the musicians and to assist in charge of this activity, which includes Mrs. W. Q. Widdows, Miss E. Breneman, Mrs. Dora Gibson, and Mrs. Harry McMullin, that every organization group and family in Glendale may learn to sing some of these traditional songs which are real 'songs of the people,' and which breathe the spirit of good will so splendidly.

"Following the Christmas carols, doubtless other plans for music development in Glendale will be determined upon by the Glendale Community Service after advising with those who have already done so much to advance the cause of good music in the community."

For two years Mr. Stewart was state president of the California Music Teachers' Association and for a number of years was a member of the faculty of Mills College. Before the world war, when he was in the work of War Camp Community Service, Mr. Stewart was active in professional musical work as choral conductor and violinist in Oakland and San Francisco.

Mr. Stewart may be reached at his temporary office at the Chamber of Commerce rooms any day this week and also Monday and Tuesday of next week. Copies of the community Christmas carols may be had in song leaflet form free of charge upon application at the Chamber of Commerce or the Glendale Music Company.

PARENTS INVITED TO HI RECEPTION

A reception to parents will be given as part of the Education Week program at Glendale high, Friday afternoon in the main auditorium from 3:15 to 4 o'clock. All the teachers will be present and will wear cards bearing their names as a means of introducing themselves and getting acquainted with the visitors. The reception committee will include Miss Mand Soper, Mrs. Ruth B. Shearin, Miss Beatrice Helmer, Miss Jennie McGregor, Mr. Earl T. Brown, Morgan Smith and Bert Ross. Punch will be served and an informal social hour enjoyed.

POSTOFFICE HOURS ARE STILL 6 TO 6

The new clerks at the Glendale postoffice as well as the regular standbys are all busy, but as yet the Christmas business has not been heavy enough to demand longer hours of service. It is expected, however, that beginning about the 14th of December, the office will be open from 7 a. m. to 7 p. m. At present the windows are open from 6 to 6.

Stormy Night on Glendale Coast for Annexationists

EXPECT MORE BAD WEATHER AND POSTPONE MEETINGS TO DEC. 21

On account of the storm the meeting called by promoters of annexation to Los Angeles, to have been held at the high school Wednesday night, was postponed for two weeks. It was not held.

Want to Swap Your Rooster for One of the Same Kind?

Mrs. G. H. Rowe, 218 South Orange street, wants to swap a Rhode Island Red rooster for another of the same kind. The women folks in the Rowe chicken yard can't get along at all with the "boss of the roost," so the only thing remaining to be done is to make a change. There ought to be at least one other chicken yard in Glendale so situated.

Five acres of walnuts and peaches in Pomona for Glendale property. Even romances have their eyes on trina man's town. This place is complete—50 shares water stock, 5-room California house, garage, chick equipment—everything. Those hankering to go to Pomona should see Central Realty company, 149 South Central.

Knight & Lewis, 226 South Brand, have a lot 100x160 feet, improved with 4-room duplex and a separate 3-room home in Phoenix, Arizona. Wants to swap for Glendale. Valuation, \$16,000.

SALVATION ARMY DRIVE MAKES PROGRESS

Julius Kranz Reports Teams Are Working Well in Getting Money

Julius Kranz, one of the financial secretaries for the Salvation Army drive reported Wednesday afternoon that \$1000 to its credit had been banked with prospects that it would be increased by another \$1000 or \$1500 before night. Thirty teams, he said, were at work combing the town for the subscriptions needed to make up Glendale's quota of \$5000, and he seemed confident the cash would be forthcoming. The drive was not far enough advanced for any comparison of the work of teams.

COMMITTEES END FUNCTIONING AT CHAMBER

No committees are functioning at the chamber of commerce, their term of service having expired with the close of the year and end of the old administration.

Secretary Rhoades had expected to go to Santa Cruz to attend a dinner and program arranged by three organizations of that city to celebrate the first anniversary of the organization of a Rotary club. Mr. Rhoades having a place on the program. The affair is to be given Friday by the Rotary club, the Santa Cruz Exchange club and the chamber of commerce of that city, but Mr. Rhoades has wired it will be impossible for him to go.

GLENDALE CARAVAN TAKES THE ROAD FOR SANTA ANA

A caravan of realtors from Glendale left for Santa Ana at 1 o'clock this afternoon. They will attend the annual convention of realtors, which is being held at that place. Today is the opening day of the convention and the local men are determined to place this city on the map at the opening session so far as the realty men are concerned.

The realtors will go to the south-ern city via a whole string of automobiles, and they will doubtless let their horns be heard both going to Santa Ana and returning to Glendale.

POSTOFFICE HOURS ARE STILL 6 TO 6

The new clerks at the Glendale postoffice as well as the regular standbys are all busy, but as yet the Christmas business has not been heavy enough to demand longer hours of service. It is expected, however, that beginning about the 14th of December, the office will be open from 7 a. m. to 7 p. m. At present the windows are open from 6 to 6.

GLENDALE BUILDING PASSES \$6,000,000 MARK FOR YEAR ESTABLISHING NEW RECORD

Exceeds 1921 by One Million Dollars, with Three Weeks of Year Left for Further Increases

ACCENTUATES FAST GROWTH

Possibility of Adding Many Thousands More Investments Here Are Indicated by Subdivisions

By ALBERT MARPLE
Glendale building permits throw through the line of the opposition shortly before noon today for a \$6,000,000 touchdown.

Do you get it? Six million dollars' worth of building permits taken out in Glendale in 11 months and 6 1/2 days. Truly the Glendaliah has a perfect right to puff out his chest and reiterate the old saying:

"The fastest growing city in America."

The rapidity with which Glendale has been growing during the past two or three years has been the surprise of the world of progress. From the moment she took the bit between her teeth until the present moment, her progress has been steady and sure. Now and then she sprouted but taken altogether the past few years has been a period of steady advancement, the like of which has never been seen—not even in California.

This growth has turned the eyes of the world, and especially the eastern and northern parts of the United States to this city.

Go where you will around Uncle Sam's domain and you will find people who are planning to come to Glendale.

Others, you will find, are determined some day to vend their way to this little paradise of the home-land, while hundreds and even thousands are longing for the present, hopefully, to journey Glendaleward.

The country is talking of Glendale, and this little port is the star to which many a pilot of a family ship tossed on the sea of unhappiness and dissatisfaction, is carefully steering.

There are reasons, dozens of them, for the wonderful growth Glendale has in the past known and is now making. In the first place Glendale is an ideal spot in which to live. It is located near the mountains and just a short jaunt from the seashore. It has everything that the home-loving heart could wish.

Glendale is a clean city. Nothing exists here that would tend to drag down the youth of the community—not even a pool hall. On the other hand, churches of practically every denomination are to be seen here. They are lively, wide-awake churches, too, each with a fine body of folks, young and old, with whom it is a pleasure to associate.

These churches have excellent homes, capable leaders, and the various houses of worship are generously patronized.

Then there are schools, plenty of them, and all of them modern in every particular. No better school system is to be found anywhere in the country. Thus, the city is having quite a time to keep up with the many children that the growth of the city brings, but with expert leadership and capable business management the two school boards are carrying the Glendale school system through to victory.

Glendale has good stores, up-to-date merchants, who offer goods at prices that, in most instances, cannot be surpassed in Los Angeles, or any of the other large cities. There are amusements in the way of clean picture theatres, musical and dramatic societies, clubs and various civic organizations. There is all the activity the normal person could desire—and it is normal people who are locating here.

This city has a climate that cannot be surpassed. It is ideal. Sunshine practically every day in the year, very little fog, just enough rain to make things grow nicely. Excellent drinking water, low public utility rates. Everything—in fact, that the homelover needs for perfect happiness.

The foregoing is the reason Glendale is growing so rapidly. It is the reason that the growth cannot help but continue.

During the year 1921 the building permits totaled \$5,099,201 against \$6,000,000 taken out already this year. Present indications are that during the remainder of December another million dollars in permits will be issued by the Glendale building department. Sounds interesting.

AUTO ACCIDENT
Automobiles driven by Charles W. Cramer, 315 South Adams street, and Mr. Roberts, 1411 Catalina street, Los Angeles, collided yesterday afternoon at 4 o'clock at the corner of Colorado and Fisher. Little damage was done and no one was injured.

WELFARE COUNCIL REPORTS WORK FOR XMAS

Discuss Christmas Contributions from the City Schools

At the regular meeting of the Glendale Welfare council, held in the council chamber of the city hall Wednesday with Mrs. E. D. Yard, president, in charge, plans were discussed regarding the Christmas contributions from the schools. Those present included Mrs. Yard, president; Clarence Kimlin, vice president; Mrs. L. W. Sinclair, treasurer; Mrs. Eustace L. Young, secretary; and Mrs. E. W. Gilliland. The following report for October-November was presented:

Money given out \$ 97.00
33 Thanksgiving baskets . . . 129.38
Cans fruit, vegetables 37
As the funds of the Welfare council are largely from memberships of the various organizations, all such as have not paid their annual dues are requested to mail same to Mrs. L. W. Sinclair of the Welfare bureau. Anyone desirous of becoming a member may do so by contributing five dollars a year as membership fee.

Mrs. Yard states that although there have never been so many to help in this work in Glendale, there is a great deal that the council is in need of funds.

GARDENA CROSSING HEARING IS HELD

A hearing was held this morning before the Railroad Commission in Los Angeles on the matter of officials declaring the crossing over the Pacific Electric tracks at Gardena avenue, an official crossing. City Manager Reeves and City Attorney Shaw appeared before the commission for the city and presented Glendale's side of the question.

Spanish War Veterans to Name Candidates

An interesting meeting of the Spanish American War Veterans was held at the hall at the corner of Park avenue and Brand boulevard Wednesday night. At that time the annual nomination of officers was held, the election to be held next Wednesday night. After the nomination proceedings a social hour was enjoyed and refreshments were served.

MY TRIP FROM SOUTH DAKOTA TO CALIFORNIA

By Mae Goetz, Age 11 Years; Grade 8-6; Central Ave. School
I was born in Aberdeen and lived there until I was nine years old. We left Aberdeen, August 2nd, 1920, on the Milwaukee Flier, for Ferdinand Idaho. When I woke up the first morning on the train the sun was shining on the mountains in the distance. This was the first time I had ever seen mountains. From there on until we reached Ferdinand we traveled through mountains all the way. When we arrived, my aunt and cousins, whom I had never seen, were there to meet us. We spent Christmas with them. We left Ferdinand New Year's morning at 8:00 o'clock, for sunny California. When we left it was snowing and the flakes were as large as feathers. We got to Portland, Oregon, the next morning. We visited my uncle and aunt and stayed there three days. We left there Tuesday night. It was raining very hard. We arrived in Glendale Friday morning, January 7th, and the weather was just like summer. I started to Central Avenue school the next Monday morning. I did not like it very well at first until I got acquainted with the children. But now I like it very much, and I shall always yell for Central.

LIVE IN THE GREAT OUT-OF-DOORS IF YOU WANT GOOD HEALTH

By BOYD TAYLOR

In reading the history of ancient Greeks and Romans one is greatly impressed by the fact that outdoor life was an important feature of their every-day life. In direct contrast with this are the conditions we find in America today where thousands of people spend nearly all of their lives indoors. Some children from the slums of New York when shown a cow said, "Why, that's too big for a cow. In our school books it's the same size as a dog." Outdoor life was good for the people of ancient days it is equally good for the people of today. The sooner we find out that the great outdoors should be a playground for all humanity the quicker will our health conditions improve. The natural instinct of boys is to live outdoors, to go barefoot, to swim, run, and play. Like flowers if kept in the dark and damp they will soon wither and die, but if given sunshine and light they will flower and bloom. In Japan, where the children are born and reared in wide open houses, infant mortality is scarcely known. This is in marked contrast to America where thousands of children die yearly, in many instances solely from lack of fresh air. Air and sunshine are the most effective cures for disease. When people fully learn to appreciate the value of fresh air and make constant use of it, they will find an added pleasure in life. Those persons who have camped out in the mountains or at the seashore must have been impressed with the advantages of an outdoor life over that of the city. In the great war one third of the men tested by the government were found physically unfit. Ninety per cent of these would have been fit if they had had more outdoor life, the fresh air and healthy exercise that comes with it. Outdoor life is essentially necessary and important in the building up of health and perfect manhood. That the United States thinks outdoor life is essential in building up and the maintaining of a strong republic is shown by its setting aside and supporting great tracts of land, Yellowstone, Yosemite, Glacier National Park, solely for the purpose of giving outdoor playgrounds to the American people.

AMERICA'S PHYSICAL EDUCATION

By MAURICE WIDDOWS, '23

As to the very large percentage of physically defective, the states themselves and the Nation as well, should take positive action, if we would build up a physically strong race of men and women, capable of becoming strong intellectually. These are the words growing out of the experience of General John J. Pershing with our army during the World War. Our draft of young men in time of war disclosed the fact that between 25 and 30 per cent of the so-called flower of American manhood were physically incapacitated for service. Very recent examinations in some of our public schools have shown that nearly 50 per cent of the children have major or minor deficiencies. Why are these figures so appalling, so cold, so merciless? Do they not bring before us the picture of the glorious Rome of the Caesars, dragging herself to destruction through the mire of disgrace, and left in that mire because of the weaknesses of her men, weak because they did not know the necessity of a strong body? America knows the necessity of a physically strong race of men and women. She knows because she has seen the sands of time whereon were left the strong, vigorous footprints of youthful nations, and she has seen how these strong, vigorous footprints have dwindled and dragged themselves into disintegration and ignominy, unaware and innocent of the importance of the maintenance of physical strength. Are we to become a nation of weak, inane imbeciles, pinioned to the stake of disgrace forever, not with chains of ignorance, but by the small, thin threads of frail manhood and womanhood? No! The educators of our nation, considerably bumped by the recent statistics showing an astounding percent of physical deficiency among school children, have outlined, and are now enforcing an extensive program of physical education which includes school children of all ages and grades. The enforcement of this program is being rendered difficult due to the large number of children attending the crowded city schools. In 1790, only 3 per cent of the population of America lived in cities; by 1920 the number of people living in cities had increased 50 per cent. For an hundred years "America was constantly renewing her vitality through contact of her people with nature in the forests and open country; but the physical activities and opportunities of the open country are no longer possible for the majority of our people." That is why we are compelled to develop a system—a very broad program—of physical education that will compensate for the losses of opportunities for recreative outdoor life, created by the great industrial activities and the innate migration to large cities and industrial centers. The program of physical education, as outlined for use in the public schools, does not, as some may think, consist merely of a bag of complicated gymnastic tricks. It consists of a complex, fourfold system that will develop the fundamental organic, nervous, emotional and intellectual powers essential to the correct growth of the child. The definitely outlined program consists: (1) of big muscle activities; (2) of character training; (3) of teaching efficient living (health); (4) of control of growth conditions and handicaps. Some may ask: "Can this program be successfully husbanded, with taxes so high and conditions in many schools so crowded?" In answer, I say that this program will be carried through to success by the broad-minded citizens and educators of our country who cohere to the idea that education is the foundation of a perfect democracy, and who realize that physical education is the foundation upon which all the rest of education must be built as a super-structure.

THE WILSON AVENUE ATHLETIC ASSOCIATION

By Lee Rombeau, President
A sound body makes a sound mind and, since athletics play an important part in making the body strong, it holds a high place in a school curriculum. We believe not only the students who play in the games, but the student body as a whole should be interested in athletics and so the Wilson Avenue Intermediate has organized an athletic association. Every member of the school, both teachers and pupils, are invited to join the association and this year the invitation received a splendid response—the 100 percent membership that proves that the school is really interested in this important school activity. This good response has done a great deal to make the organization a success this year. The Athletic Association buys a part of the athletic equipment for our school and helped to purchase the bleachers which the boys and girls are now enjoying. The ten-

cent membership fee that is required of all who join the association and the receipts from "pop" sales and benefits of various kinds make up the funds in the treasury. All members of the Athletic Association participating in four or more inter-school championship games, or winning a certain number of points in inter-school track meets are awarded school letters with the insignia of the sport in which they were earned. In this and many other ways the association has done much to further the interest of clean sports in the school. The Executive Council, by means of which all small matters are decided, consists of two members chosen from each class. The association officers are elected by the student body as a whole. This year the following officers were chosen for the first semester: Lee Rombeau, president; Raymond Ratcliff, secretary; Dorsey Mottern, school yell leader; Mary Baxter, girls' yell leader; Mr. Merrill, treasurer. Visit the Schools Today.

GLENDALE UNION HIGH SCHOOL HEAVYWEIGHT FOOTBALL TEAM

Top row, left to right: Coach Hayhurst, Masaru Horii, Horatio Donald Blanche, Ray Geib, Jack Thayer, Angelo Bruckner, Perry Ross, Phillips, Gordon Bartow, Alton Marshall, Captain Fred Stoff, Clifton Clouse, Lee Shannon, Leslie Lavette, Hugh Weaver.

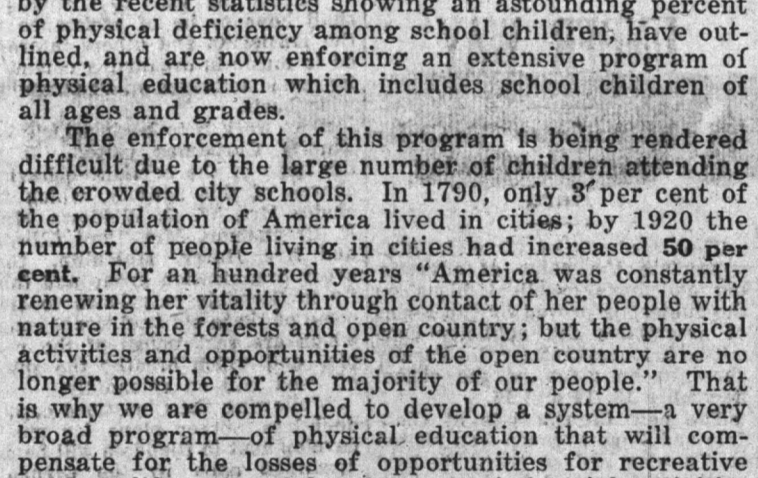

PHYSICAL EDUCATION AND HYGIENE

When the United States entered the World War and began drafting men into the army, it was discovered that a large percentage of them were unfit for military service. From one-third to one-half of the applicants were found to be underdeveloped or suffering from disease and were not fitted for duty as fighters. Thirty per cent of the men were rejected by the draft boards and many others were thrown out at the training camps. The causes for rejection were many and various. Some had flat feet or chests, spinal deformities, defective teeth; some were hindered by improper muscular development or slow co-ordination of mind and muscle; while others were affected with nervous and organic trouble. Many recruits from the south were afflicted with hookworm, which rendered them lazy and sluggish. Of course, large numbers of men were not within the age limits. They did not appear before the draft boards, and so were not taken into consideration. But it is safe to say, however, that one-half of our men were unfit for field service at the time of the war. This is a most serious state of affairs, not only from a military standpoint, but

also from the standpoint of industrial efficiency. These facts indicate most clearly the necessity of paying more and closer attention to physical education and personal hygiene. The modern age is essentially a health-seeking age. This statement does not mean that there is a tendency to neglect the intellectual or spiritual, but that physical development is being emphasized. It is being urged now, as never before, that general care of the body for the upbuilding and preservation of its health is necessary if the world work is to be done efficiently. Certain forms of physical education build up on organ or muscle, while another form of exercise will affect an entirely different set of muscles. This accounts for the increasing popularity of athletic games. These games are being played so much because, beside being interesting both to players and spectators, they develop the entire body, muscles and organs alike. The games also improve the character of the participants, teaching courage, self-control and determination. Popular American games such as baseball, football, basketball and tennis are excellent for universal muscular development. After having taken part in a fast, strenuous game of this sort one feels a warm, healthful glow all over the body, which is due to the increased circulation of the blood. The action of the stomach and other organs is stimulated, the appetite is toned up and the digestion is improved. The practice of all the hygiene facts for regaining lost health could never accomplish such results as are derived from

such strenuous activity in so short a space of time. All such reactions make for good health, and good health is the goal at which all physical education and training is aimed. **STORY OF THE RED CROSS DOG**
By Gaylord Stegle—Age 12
Sixth—Columbus Avenue
One day a young man was out walking, when he saw an old man dressed in shabby clothes, get run over by an automobile. He ran over to the man, picked him up and started for the nearest hospital. On his way he noticed a German police dog and the dying man told him to keep the dog, as he was a valuable one. Not long after, the World War broke out. The man enlisted and went on a boat over to France. He lent his dog to the Red Cross and marched away with the army. Some while later he was on duty as a sentinel when someone shot him. He was just fainting, when his dog, now a member of the Red Cross, trotted up and pulled him back to an ambulance. When he awoke the doctor said he would have died but for his dog. **THE REPUBLICAN PLATFORM, 1920:** "A thorough system of physical education for all children up to the age of 19, including adequate health supervision and instruction, would remedy conditions revealed by the draft and would add to the economic and industrial strength of the Nation. National leadership and stimulation will be necessary to induce the States to adopt a wise system of physical training."

BRAND AND BROADWAY

AN EXCITING EXPERIENCE

By Elizabeth Houston, 10 years.
8-6—Columbus Avenue
One summer my grandmother, grandfather and my mother traveled to Canada on a vacation. They boarded a steamer at Kingston, intending to go down the St. Lawrence river to Montreal. Their trip started out very well for the day was beautiful and the steamer was crowded with happy people. When they were near Pere La Chine Rapids they took on board an Indian pilot, for Indians are supposed to know where the dangerous rocks in the rapids are. All went well until they were half way through the rapids, when suddenly the steamer gave a jerk and trembled from bow to stern. Mother rushed to the side of the boat and saw suitcases and many other things dropping into the water. Instantly there was a panic on board for everyone guessed that they had run into a rock. The captain called loudly for attention and demanded that every one stand still. The passengers obeyed promptly. Then he calmed them by his kind words. Fortunately they were only three miles from the shore. Not until the steamer was safely brought up to the wharf had the passengers any idea of the great danger they were in. A big hole ten feet square had been torn in the side of the steamer. By keeping the passengers quiet, the captain kept the hole above the water line. Otherwise the steamer would have sunk before help could have reached them. A great tobacco merchant was on board. He wrote out a check for five thousand dollars and gave it to the captain. For he said his orders had prevented a wild panic and probably the loss of many lives.

GONE, BUT NOT FORGOTTEN

By Mae McElman, 11 years.
8-6—Columbus Avenue
When my father was a little boy, one winter he had a mother dog and two little puppies which he was very fond of. One day his father gave one of the puppies to a man who lived in the country. A few days later, my daddy found out where the puppy was and he made up his mind he would get his little pet back again. So he and a boy friend set out together on ice skates, for they could go on the river all the way. It was six or seven miles to the house where the dog was. Finally they came to the place and saw him in the back yard. My daddy slipped up and got him, and started for home a happy little boy. While these dear little boys were away getting the puppy, their fathers and mothers missed them and started out to look for them. They thought they might find them skating around on the river near home. But, to their surprise, the boys were nowhere to be seen. Their daddy started down the river, and coming upon a large hole in the ice and finding a lot of skate tracks around it, they made up their minds that the boys had skated into the hole and had been drowned. They went back to their homes feeling very badly over the loss of their little boys. It was getting near dark, when along came my daddy and his little friend also the dear little puppy. The fathers were so happy to get their boys back again, but they spanked them real hard and made them promise not to go away again without asking. But daddy kept his puppy.

GIRLS' ATHLETICS

By FREDRICA MARSHALL, 12
One of the most important activities in school life is athletics. Let me ask the question: What would a school be like if it had no athletics? There are boys' athletics and the girls' athletics. I will endeavor to explain in my way what girls gain from girl athletics. I find that every day of the school year girls are becoming more interested in their out-door sports. They are enthusiastic to learn the games and enjoy them the same as the boys do. Every night they remain after school hours to practice and try to make a team and a better name for Glendale High School in athletics. This is the attitude the girls of Glendale take as to girl athletics. Many fond mothers and also fathers do not wish their daughters to play the rough games as the boys play them. But if it is in the girl to want to get out and play the different games with a good spirit, I say, do not deny them the privilege. A girl can learn many things from these sports—a good school spirit, sportsmanship and good citizenship. I think the biggest thing a girl can learn is proper school spirit. A city or a state may build a beautiful new school for its minors, with every equipment one could imagine, but what good is the school if there are no boys and girls with enough school spirit to make this school what it really should be? I think that I have explained to you that a school is not a school without athletics, and you cannot have athletics unless you have the proper school spirit.

WHY PLAY FOOTBALL

By GORDON BARTOW, '23

Football, the American game and the most popular game in the high schools and colleges today, is without doubt one of the most characteristic and constructive games now played.

The football season is always longed for and looked forward to by the majority of students in most every institution of learning in the United States. Why? Because it is a game for real live red-blooded boys and men. It is an acid test of character and is no game for weaklings or for those who have no idea of true sportsmanship.

Every live man or woman enjoys a good football game, and the harder the contest the better they like it, not with the thought of seeing some player disabled, but because a hotly-fought game shows the spirit and the loyalty these players are showing in that they are fighting for their school, college, and not mere personal grudge or glory.

A weakening can never hope for a place in the football world, because he either lacks the physical force and energy or else has no spirit or backbone, no idea of loyalty to his school and no pep or agut when it comes to a snow-down.

A man or boy who has no idea of conception of true sportsmanship can never succeed in any branch of athletics, whether it be football, basketball, baseball or any phase of athletics whatsoever. He cannot hope to make the grade.

A good athlete is also a good sportsman in almost every case, because these two capabilities are inseparable. A football player has to be able to play fair, to play the game, because he will never receive the respect and friendship of his team-mates if he isn't able to take a good stiff jolt or tumble to return some accidental blow or kick with a harder one.

He must be able to see things clearly and reason fairly before he decides his future actions, and must be able and willing to help the other fellow and help him just as readily as he would help himself or friend.

A good football player will make a success in life, because he has learned the principles of success when he played on his school team, and the character he developed during his football days will determine his character in later life.

HI LEAGUES ARE WORKING HARD

The Christmas work laid out for the girls' and boys' leagues of Glendale High has begun. Materials have been purchased, some of the receipts of the special assembly held last week which netted \$65 and night gowns have been cut out and are being made by the sewing department. Students are also bringing canned fruit and clothing to the roll rooms.

Plans are being made for the special Christmas celebration which the girls' league has undertaken to give for delegations of poor children from the Boyd Street school who carry a Christmas tree with them to a gift for each little guest.

By Elizabeth Anne, Age 12 Years; Grade 6; Columbus Ave. School

My grandmother lived about a half mile from our house. I was about eight years of age. Mother used to let me go to grandmother's house quite often during the summer, but only on Saturdays during the school year. I had a dog. He was a Boston Terrier named as Ferro, a Spanish word meaning dog.

One day I was on my way over to grandmother's with my dog. Mother had told me that when crossing the street I should look both to the right and to the left and was crossing the street when I felt a jerk on my skirt. I looked down and saw my dog pulling me back to the curb. I then looked up and saw a machine coming very fast. It was but three feet away. When I reached grandmother's I told her what had happened. She gave the dog a nice, big bone which he enjoyed very much.

By Miles Hubbard, Age 11 Years; Grade A-6; Columbus Ave. School

Pike's Peak is the most lofty peak in the state of Colorado. Reaching to a height of over 14,000 feet, the streets in the city below look like streaks on an airplane map. You can see the smoke of Denver 70 miles away.

Pike's Peak may be reached by train or auto. The train is called a Cog road, because it runs by a cog in the middle of the track. There are many water tanks along the way, as the engine is a very thirsty monster. Many times going up to the peak, the train travels up a 25 per cent grade.

Pike's Peak is not the only interesting thing in the Peak district. Garden of the Gods is a very interesting place. Many stones and rocks in shapes of lions, people, and animals are found in this district. Cave of the Winds is a very interesting spectacle also. You can see many stalactites and stalagmites.

U. S. GRANT By Bernard Hyant—Age 10 Grade B-6—Doran street

Grant was born in the year of 1822, at a place named Point Pleasant. He was a good scholar, and was sent to West Point. After a while he became a cadet. When he had finished, he fought in the Mexican war.

Now the Civil war was breaking out, and Grant liked to fight very well; so he enlisted and was made a colonel. He then made a bold attack and won. Afterwards Lincoln saw that he was a good soldier and made him a general.

Then he went to a fort named Fort Henry, and captured it easily. There was another fort near Fort Henry, and Grant went to capture it, but he was defeated. He tried again and won.

Then he went to capture General Lee and his army. There was a dangerous road named the "Wilderness," but Grant took it nevertheless. Lee and his army were waiting and there was fought a great battle. Grant went south to Richmond, fighting back and forth.

Grant said to Lee that he had better sign peace to prevent loss of men, and Lee did. And the war ended. Grant died in 1885 at Mt. McGregor.

Dr. Charles W. Eliot, President Emeritus of Harvard University: "The first step in the improvement of the American schools is the introduction of universal physical training for both boys and girls from 6 to 18 years of age."

Society LODGES - CLUBS - CHURCHES

XMAS PROGRAM AT MRS. MEADOWS' RECEPTION A Christmas program is the treat provided for members of the Music Section of the Tuesday Afternoon Club which will be entertained Friday afternoon by Mrs. Charles H. Meadows at 721 North Brand.

The club members on the program will be an original Christmas story by Mrs. John Cotton which will be interspersed with Christmas carols of different periods sung by Mrs. Harry MacMullin, Mrs. Frank Arnold, Mrs. A. M. Draper, Mrs. William M. Mullin, Mrs. John Cotton, Mrs. A. H. Chapell, Mrs. C. L. Vierick and Mrs. C. A. Parker.

By Elizabeth Anne, Age 12 Years; Grade 6; Columbus Ave. School

Tonight will be "Junior Night" at the C. C. Club which will meet as usual for supper at the Christian Church, the supper being served by the ladies of the First Methodist Church. It will be followed by the usual Bible study conducted by Miss Maude Soper.

By Elizabeth Anne, Age 12 Years; Grade 6; Columbus Ave. School

The members of the Pioneer club of Glendale were guests at luncheon and a social afternoon Tuesday at the home of Mrs. J. Vinton in Hollywood. Those present included Mrs. R. E. Frey, Mrs. Connor, Mrs. H. Bullinger, Mrs. Challinor, Mrs. R. Chappell, Mrs. J. Shepherd, Mrs. J. W. Andree and Mrs. C. M. VanDyke.

MRS. E. E. EAST TO ENTER TALENT AUCION Mrs. E. E. East, 121 West Lexington drive, is hostess at luncheon and cards today to the members of the Auction Science club.

PENDROY'S SECOND STORY CLUB SOCIAL Employees of the women's department in Pendroy's store, who have organized as the second floor social club, had another birthday celebration Tuesday night, the honoree on this occasion being Miss Hattie Drake, head of the women's department. It proved a jolly evening for the eighteen ladies present.

MRS. E. E. EAST TO ENTER TALENT AUCION Mrs. E. E. East, 121 West Lexington drive, is hostess at luncheon and cards today to the members of the Auction Science club.

WAR MOTHERS TO HAVE LUNCHEON AT THE HUT A luncheon for the War Mothers chapter of American War Mothers, of which Mrs. J. B. Sherwood is president, will serve as hostesses at a tea to be given Saturday at the "Hut," which is conducted at 1026 South Figueroa street, Los Angeles, by the disabled ex-service men and where they make toys and other articles. The proceeds from the tea will be used for the benefit of the ex-service men. The hostesses from Glendale will include Mrs. H. L. Carroll, chairman, Mrs. M. Dryer and Mrs. P. A. Wells.

TRIM BE A DOORMAT READ AT CIRCLE The reading and discussion of an article by Frank Crane, "Don't Be a Doormat," given by Mrs. E. W. Evans, was one of the topics taken up at the meeting of the Mutual Benefit Reading Circle, of which Mrs. A. A. Barton is president, at the Glendale public library Wednesday. The reading of the book, "A School Master in a Great City," by Angelo Patri, was resumed. At the business session it was decided that at the next meeting, which will be the last before the Christmas vacation, beans and brown bread would be sold at luncheon to raise money to pay for additional chairs which were recently purchased by the Circle.

BOOK SHOP MOVES The Old Book Shop, established by F. A. Estock had moved from South Maryland to 206 West Broadway, where it has more room and, in the opinion of Mr. Estock, a better location.

NEW DENTIST HERE Dr. A. C. Tucker, a dentist, who is thoroughly acquainted with every branch of his profession, has just opened an office in the Wishart building, 233 South Brand boulevard.

AT THE THEATRES SPECIAL PREVIEW AT THE GLENDALE THIS EVENING

There will be but one performance at the Glendale Theatre tonight, but something even more interesting than usual will be on the program. In addition to Will Rogers in Washington Irving's "The Headless Horseman," a preview will be shown of Mr. and Mrs. Rupert Hughes' latest production for Goldwyn, the seven-part feature picture, "Gimmie," which includes the cast of which are such well known players as Helene Chadwick, Henry B. Walthall, Gaston Glass, Florence Roberts, the popular stage star, Frederick Vogelting, the noted Dutch actor from the Theatre Royal, Amsterdam, Holland, and David Hildobrand, art director of the Santa Barbara Arts Theatre, formerly a noted athlete. Those expected to be present, besides the players in the picture include Mr. Frank Goddard, president; Mr. Abraham Lehr, vice president; Mr. Edwin Boyes, vice president, all of Goldwyn Pictures Corporation; Mr. Eric Von Stroheim, newly appointed director, and Mr. Rupert Hughes.

BIG SCENES IN THE "MAN WHO SAW TOMORROW"

Thomas Meighan as viceroys of India. The Durbar. South Sea island scenes of tropical beauty and languorous loveliness. Shipboard scenes and the largest yacht afloat. The homes of nobility in England. A society drama aboard the giant yacht. An entertainment in a Piffa avenue mansion. Native festivities in a South Sea island. These are a few of the things included in Thomas Meighan's new Paramount picture, "The Man Who Saw Tomorrow," at the T. D. & L. theatre for the last times today.

SLEEPY HOLLOW IN "HEADLESS HORSEMAN"

Washington Irving's famous classic, "The Legend of Sleepy Hollow," is being brought to the

PURELY PERSONAL

Mrs. George U. Moyle, who has been confined to her home since Thanksgiving with a bad attack of tonsillitis, is better but will not be able to return to her school work this week.

Mr. and Mrs. J. M. Swamer of 452 West Milford street have sold their attractive home to Dr. Herchel Baldwin of Danville, Illinois. Dr. Baldwin is at present staying in Los Angeles and will take possession of his Glendale residence about December 15.

Mrs. Barbara Peterman of Fort Collins, Colorado, is expected to arrive in Glendale today to spend the winter as the house-guest of Mrs. A. R. Faulkner of 322 Ivy street.

W. H. Russell of Norwalk and Mrs. Bessie Webb of Grand Rapids, Michigan, were guests Wednesday at the home of Mr. and Mrs. C. E. Russell of 322 North Kenwood street. W. H. Russell is a brother of C. E. Russell.

CITY PRINTING

NOTICE OF STREET WORK

PUBLIC NOTICE IS HEREBY GIVEN THAT THE COUNCIL OF THE CITY OF GLENDALE, ON THE 13th DAY OF NOVEMBER, 1922, DID, AT ITS MEETING ON SAID DAY, ADOPT RESOLUTION OF THE FOLLOWING TENOR, DECLARING AS FOLLOWS:

SECTION 1. That the public interest and convenience require and it is the intention of the Council of the City of Glendale to order the following street work to be done, to-wit:

CARR DRIVE, SCHOOL STREET, HARVARD STREET

First: That Carr Drive from the easterly extension of the southerly line of Broadway to the easterly extension of the southerly line of Harvard Street, including all street and alley intersections and terminations, also portions of Broadway upon which curb, sidewalk and pavement are to be constructed as shown on Plan No. 588, and specifications for said work adopted by the Council of the City of Glendale, and known as Specifications No. 42.

Second: That a four (4) inch Class "B" cast iron water pipe be laid in Carr Drive and across all intersecting and terminating streets and alleys north and south of Carr Drive, and easterly of and parallel to the westerly line of Carr Drive and the northerly line of Harvard Street, and known as Specifications No. 31.

Third: That a cement curb be constructed along each side of the roadway of Carr Drive, and across all intersecting and terminating streets and alleys north and south of Carr Drive, and easterly of and parallel to the westerly line of Carr Drive and the northerly line of Harvard Street, and known as Specifications No. 31.

Fourth: That a cement sidewalk of the width of five (5) feet be constructed along each side of Carr Drive from the westerly extension of the southerly line of Broadway to the easterly extension of the southerly line of Harvard Street, and known as Specifications No. 31.

Fifth: That all of the roadway of Carr Drive between Carr Drive and the easterly extension of the southerly line of Broadway to the easterly extension of the southerly line of Harvard Street, including all street and alley intersections and terminations, also portions of Broadway upon which curb, sidewalk and pavement are to be constructed as shown on Plan No. 588, and specifications for said work adopted by the Council of the City of Glendale, and known as Specifications No. 42.

Sixth: That School Street from the westerly extension of the southerly line of Harvard Street to the westerly extension of the southerly line of Colorado Street, including all street and alley intersections and terminations, also portions of Colorado Street and Orange Grove Avenue upon which curb, sidewalk and pavement are to be constructed as shown on Plan No. 589, and specifications for said work adopted by the Council of the City of Glendale, and known as Specifications No. 36.

Seventh: That a six (6) inch Class "B" cast iron water pipe be laid in School Street and across all intersecting and terminating streets and alleys along a line fifteen (15) feet easterly of and parallel to the westerly line of School Street and its northerly and southerly extensions of said westerly line, said pipe to extend from a line fifteen (15) feet easterly of and parallel to the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and parallel to the southerly line of Harvard Street, and that a four (4) inch Class "B" cast iron water pipe be laid across School Street along a line fifteen (15) feet northerly of and parallel to the westerly extension of the southerly line of Harvard Street, and its westerly extension to a line seven (7) feet northerly of and Truths in Epigram

Our character is but the stamp on our souls of the free choice of good or evil we have made through life.—
Geikie.
Some people are like extremely handsome bound books. To handle or read them spoils their value.—A Modern Diogenes.
The best education in the world is that got by struggling to get a living.—Phillips.

BONAR LAW'S DECLARATION

Premier Law said that Russia would be recognized by England only on three conditions. These were that the debts of Russia be admitted, private property restored to the owners, and that bolshevist propaganda outside of Russia cease. Each one of these points will almost uniformly be deemed fair and proper. The reply of Tchitcherin has been made public, and serves to throw a great light on the workings of the communistic mind. In this way the reply has a psychological value, even if it lacks any other.

Tchitcherin says Russia will pay the czar's debts when it has been given credit. He should have been shrewd enough to know that the world regards a promise from the present regime as utterly worthless. Its unsupported word could not be acceptable anywhere. This point receives emphasis in the Tchitcherin reply, which, touching the question of propaganda, embodies that which, in the light of all the knowledge it is possible to acquire, stands as a direct falsehood.

On the second point, willingness is indicated to restore private property of foreign owners on long term leases. This would not be restoration at all. It would be adherence to the present policy of confiscation.

"Regarding propaganda, we do not engage in any, but we are willing to give the guarantee." Thus says the representative of Lenin.

In the same issues of the daily papers that record this idle patter, is an account of a meeting in Moscow attended by colored delegates from the United States. It is planned to make emissaries of those to work among the negroes of the south, in the hope that out of the commotion thus started may come the bloody American revolution which is the bolshevist's fondest dream.

There are bolshevist publications in the United States, speakers for the cause, swarms of parlor parties babbling feebly but noisily in support of soviet rule. Industrial trouble in this country finds soviet agents on the spot, anxious to make it worse. So far as may be judged by appearances, the foremost activity of the soviet regime is propaganda, carried to the ends of the earth. A promise to desist, accompanied by denial that there is anything from which to desist, has a valuation considerably less than nothing.

A WICKED COAL FAMINE

A famine in anthracite is to the people of this community a matter of news interest. It does not touch them directly. They use very little coal of any kind, and no anthracite. Nevertheless they feel concern over the announcement that New York is destined to suffer severely with the first coming of cold, because there is, and must continue, a shortage of fuel there. The statement rouses indignation. It indicates a condition that is without valid excuse, and without explanation save as ascribed to human greed. Seemingly the operators do not care whether the miners strike or do not strike. If there is no strike, the business pays well. If there is a strike, the price of the product is raised so as to cover all possible loss and more; so the business keeps right on doing well. Miners, however, are not guiltless of blame. They never have shown any regard for the public. The lack of regard for their employers is natural in the circumstances. But when the miners strike, the blow falls upon the public, and in no part upon the operators. The public pays, and gets no thanks. The public knows that it pays, and therefore has no sympathy to bestow upon either side, believing both to be selfish and wrong.

It is an anomalous thing that in a country so abundantly blessed with coal as this, there should be possibility of a famine in such fuel; or that a strike sure to bring about a famine, should for an instant be tolerated. It outrages every sense of justice. It may be provoked by poor pay and indecent working conditions. These are matters properly subject to correction. No strike ought to be necessary in order to bring about the correction. Nevertheless season after season the country in some part suffers from coal famine, and any evil against which the strike is directed, remains evil as ever, the portent of future trouble.

ONE CHEERING REPORT

From London comes the report that German and French interests have united in a steel combination that is to excel in magnitude any now in existence. If this were true, which probably it is not, it would be a most cheering piece of news. If French and German capital operates on a huge scale in an industrial project, the danger of armed conflict recedes faster than such motion could be caused by any number of diplomats seated about a table exchanging honeyed words to conceal their dislike for each other.

So far as fearing an industrial rivalry, touching the steel industry, that is the least of the troubles of the people of the United States. They do not feel that the welfare of the steel magnates is in their keeping. They have every confidence that these distinguished gentlemen will be able to take care of themselves in any condition that may arise.

The trouble of Europe, at first directly attributable to the war, is being prolonged because the nations seem to hesitate about getting back to business in the ordinary fashion that involves labor. Let them work the mines, till the lands, and set the fires gleaming in the factories, and perhaps they will forget the desire to possess their neighbor's goods, and be able to lay aside the fear that the neighbor is about to raid their premises.

AMERICA IN RUSSIA

It is refreshing to be given such information concerning Russia as Hoover imparted to a correspondent a few days ago. The authority is not to be questioned. Most of the news concerning Russia is conjecture, or it is deliberate propaganda. It is so highly colored that, while it may be interesting, and even cause a thrill, it is totally without value as portraying conditions there.

Mr. Hoover bears out the rumor that communism not only is a failure in Russia, but is so recognized by the leaders. In this fact he discerns hope for that country. He believes the world will see a Russia revived in spirit, and based on a new economic system. Outside of Russia the knowledge long had been general that communism had resulted in absolute disaster. People were unaware, however, that the soviet regime had the intelligence to recognize facts, and to frame its activities accordingly. With capital admitted into Russia, business enterprise encouraged, and the policy of confiscation rejected, the possibilities of that vast domain are beyond estimate.

It is cheering also to learn that the millions expended to avert starvation from the peasant victims of bolshevism have been appreciated, and that the individuals thus helped have conceived a devotion to America, that will go far towards the establishment of friendly relations, when Russia shall have doffed its cap and bells and taken its place again among the nations of the earth.

MISGUIDED SUPERIORS

By DR. FRANK CRANE

In one of Lothrop Stoddard's books he uses the term "misguided superiors." These are they who are drawn into the championship of some dangerous or destructive cause and furnish an intellectual leadership for the mobs of ignorance, envy, or selfishness.

Lloyd George, in a recent speech at Haverfordwest the other day, made use of a similar expression: "That band of theorists calling themselves intellectuals and arrogating a superiority to themselves." This constitutes probably the most dangerous class of any community.

It is particularly noticeable in the United States among those who, in the heat of their resentment against puritanism, have undertaken to use their position as intellectual leaders to encourage hostility to the prohibition amendment to the constitution.

The right of any one to disapprove of this amendment and to agitate for its repeal cannot be questioned. An amendment to the constitution can be removed from that document as legally and in as orderly a manner as it was attached to it in the first place.

The mistake which these misguided superiors make, however, is the assumption that, as a matter of course, prohibition was brought about by a desire for meddlesome regulation, and by the intolerance of puritanism.

This is not true. Prohibition was brought about because of the fact that the mind and conscience of the American people had reached the conclusion that the public sale of alcohol is on the same level as the public sale of opium, heroin, or other habit-forming drugs.

These three factors are science, business, and conscience. Science has demonstrated that while alcohol has its place in medicine, it is unnecessary as a food, is often dangerous to the individual organism, and still more often threatens the peace, the property, and the lives of other people, because of its peculiar effects.

Business has demonstrated that it interferes with the welfare of workers and is one of the greatest enemies of efficiency. Its revenues are fictitious, as they are overbalanced many times by the losses caused.

Conscience is against it, because its constant and dependable effect is to destroy the moral inhibitions and to render the user often a nuisance to himself and a danger to others.

No more lamentable thing could happen in this country than for the shops again to be opened on the public streets for the sale of beverages drugged with alcohol to every passer-by.

Those who consider themselves intellectuals and are lending aid and comfort to the bibulous hosts who, for profit or self-indulgence, wish to bring back the saloon, are, indeed, "misguided superiors."

THE RIGHT WORD

By W. CURTIS NICHOLSON

THE WRONG RIGHTED

1. Yet in the opinion of Clarence Stein that writes in the Journal of the American Institute of Architects . . . national and international policies, which entail no heavy expenditures in remote corners of the earth.

2. Duffy wants authority, which will show criminal lawyer not subject to this charge.

3. Arsenic was the poison, which killed Mr. Sterrett.

4. "The fight which he is carrying on is compared by the Cleveland Commercial to that of . . . The Literary Digest, November 4, 1922.

5. . . . ruling with respect to foreign ships, which bring liquor into our ports.

The Right Word
1. "Yet in the opinion of Clarence Stein, who writes in the Literary Journal of the American Institute of Architects, she has something to teach the largest city in the world." Editorial, The Globe, New York, November 3, 1922.

2. . . . reduction of taxation and national and international policies that entail no heavy expenditures in remote corners of the earth." Editorial, The Daily News, Chicago, November 3, 1922.

3. "Duffy Wants Authority That Will Show Criminal Lawyer Not Subject to This Charge." Heading, The Baltimore News, November 3, 1922.

4. "Arsenic was the poison that killed Mr. Sterrett." The North American, Philadelphia, November 4, 1922.

5. The fight that he is carrying on is compared by the Cleveland Commercial to that of . . . (There is room here for argument on the ground, particularly, of euphony.)

6. . . . ruling with respect to foreign ships that bring liquor into our ports." The Literary Digest for November 4, 1922, quoting the Richmond Times-Dispatch.

The Right Word School. It will be free. Watch for the announcement next week.

THE LISTENING POST

By James W. Foley

We talk of moody people. Who are not always the same. We talk of them with a kind of reproach. As though people should always be the same. Never changing. Like a heap of stones.

All animate things are moody. They change. The constant thing about life is change. The things that do not change are the inanimate things. Huge bits of granite. That are the same century after century. Except for a bit of attrition or erosion.

Moody people are in every way normal people. They reflect what goes on within them and about them. Unlike the dummies in haberdashery windows. They are moody because they are alive. Because they have life and feeling and sensation.

And life and feeling and sensation make for change.

Days are moody. Today is gray. Tomorrow is blue and clear. Today the winds blow. Tomorrow they are still.

The skies are moody. Today they are cloudless. Tomorrow they are flecked with white. Another day they are gray. Today they are rainless. Tomorrow they drip with rain. All moods.

Life is a moody thing.

Today all is bright and fair, as a well known author once put it. Yesterday was sorrowful. Tomorrow may be glad. No two days exactly alike. And again we find life to be full of moods.

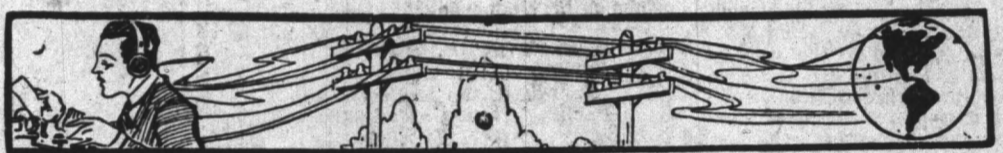

History is moody. There have been times of peace and quiet. Again times of war and strife. Times of darkness and of light. Times of knowledge and of ignorance. All conditions of moodiness.

And the sea is a moody thing. Tides and quiet. Waves and seas of glass. Storm and calm. Varying colors. All matters of mood.

So we may expect the human being to be moody. Because life is animate. Full of change. Now sunny and now cloudy. Now full of resolution and now despondent. High and low. Dark and light.

But through all the mood and change runs a pretty constant purpose.

To resolve to go ahead. To persevere. To achieve. And courage and determination have risen and will rise above moods. For the human spirit is after all pretty constant. For as the needle may jump and vary and change, its pretty constant direction is toward the pole.

Songs of the Poets

Literary Love Song—By Martha Hart, in Des Moines Register

If we were two characters, dear, in a book—
A modern young Realist's novel—
I'd know we were meant, dear, for dull discontent, dear.

Though home were a palace or hovel!
I'd know we would yearn to the very last page,
Through paragraphs sordid and hot;
Yes, suffer and pine to the very last line
For something—we'd never know what!

If we were two characters, dear, in a book
Built all on the up to date plan,
I might not be true for a lifetime to you;
I've noticed few heroines can!

But though we would quarrel and suffer and sin
And grieve and dissemble and fall,
And lose every friend—when we'd get to the end,
Why, nothing would happen at all!

But since I am real, dear, and you are the same,
I somehow expect to be gay,
And live out my life as a flesh-and-blood wife
In rather a natural way—
And though it's an Early Victorian thought
Devoid of the up to date gleam,
I really do feel, dear, quite glad that I'm real,
dear,
Instead of some Realist's dream!

LOT'S WIFE TO DATE

By ESTELLE LAWTON LINDSEY

The East is full of pillars of salt. They are common features of the landscape in certain parts of Palestine. Legend has it that one of them was once a woman, Lot's wife.

She stands there forever, stark against the cupping sky, her feet frozen to the highway because her eyes turned back.

Most of us thought of her, a bit awed, when we went to Sunday school; and congregations have slumbered through the centuries while the clergy pointed morals with her folly for an indicator.

But how many of us see Lot's wife all about us? Have you never met a woman who called her to mind?

Lot's wife could not go on because her mind was full of the thing she had lost, her

energies were wrapped in the filaments of that which she had missed; and so she has stood still for centuries. But the world is full of her daughters, women who spend their lives searching for the thing they didn't have in youth. I know many of them. One in particular I have in mind. She died at seventy and through all her mature years she ran here and there searching for the joys that had passed her without stopping. Because she had married young and assumed the cares of motherhood she believed herself cheated of something rare and lovely, something that she might yet find if she turned back and raked over the ashes of youth. Her path of life lay straight before her, full and inviting, but she never went one step forward, along her

woman's way. Instead she turned back and stood still watching the glow of the years that were.

Events left her there, as truly a pillar of salt as ever was Lot's wife. She could never learn that the joys of yesteryear danced off with the sun of spent days, and while she stood looking back or, worse still, running back, the big things of today also passed her. So the years went; and her children who had been lonely and neglected while she cried for the joys of girlhood, filled her grave and piled crimson flowers across the sod. "I hope," said her son, "that somewhere between here and the golden gate she finds the things she missed in this world. Unless she does she will stand a pillar of salt at the gates of paradise."

EASTERN POINT OF VIEW

GO TO JAIL HERE

[New Haven Journal-Courier]

The object of a limited speed law is to protect people from being injured or killed by racing motor drivers. Every owner of an automobile understands this. He knows that when he is exceeding the speed limit set by law he is taking a risk of hitting somebody or being held up. He takes this risk because he knows that the chances are altogether in favor of his paying a money fine and obtaining his release. He is dead certain that he is not going to jail and that is the one thing he would dread if that was the probable penalty for taking the law into his own hands. The result is that the reckless driver parts with his money to the enrichment of the offended town, the state policeman sees his watchfulness made a joke, and the habit of reckless driving goes on.

This sort of thing is nothing more or less than an avowed disrespect for the law on the part of reckless drivers. On the part of the town offended the enrichment of its treasury in this manner tugs violently at its moral standards, for in fact the transaction is nothing but an indulgence in shifty license on the part of both parties. As for the state policeman, he sees his watchfulness rewarded in a spirit which is not calculated to increase his respect for the office he holds. Society shrugs its shoulders and passes on. The automobile evil will not be checked until someone is sent to jail or prison. One or two sentences like that will clear the atmosphere.

OBSERVED AT A GLANCE

By HENRY JAMES

It is well to remember that there is a \$5 fine for picking mountain holly, and that it isn't holly, at that.

An attempt to standardize women's clothes was getting along all right until it encountered the hat problem. Then it collapsed, of course.

Apparently the corporation commission has small faith in stock of Russian industrial schemes. Anyhow, there is no occasion for getting swindled for the profit of the soviets.

Bernstorff still is a diplomat. He wants to say that the ex-kaiser is a liar, and merely implies it courteously.

A brother of former King Constantine has been sent from Greece for life, and probably will find some place in which life really is worth while.

The most intent listening fails to catch the sound of any expression of sympathy on behalf of the one-time Mrs. Leeds.

A man back east asserted that his bride-elect had been sent to him in answer to his prayers. Nobody need be surprised that she got sick and sidestepped the ceremony.

The fact that the Australian premier was stabbed with a hatpin suggests feminine activity in politics over there.

COMMENT ON DAY'S NEWS

By HENRY JAMES

It is told that a Harvard student has been scared out of the institution by ku klux. He had once belonged to the order, but seems to have found its principles objectionable in their application. Now that they have been applied to his case, doubtless they still seem devoid of admirable qualities.

HENRY JAMES

A singular thing in relation to this unconstitutional and meddlesome organization is the tendency displayed by certain preachers to defend it. How such a preacher can reconcile his conscience with a course so immoral, not to say illegal, is one of the mysteries upon which it may not be the mission of the laity to intrude.

New York has one minister who is "yellow" in the sense that an unwholesome element in journalism is so characterized. He likes to be sensational. His bizarre attitude is as manifestly a trick as is the posture and leer of the sawdust clown. Naturally this individual deprecates the opposition to the ku klux. In this manner he may win greater attention.

Los Angeles is not free from the type of minister who gives tacit approval to the ku klux. Whatever may be the value of the services of such a one to that organization, he must pardon the suspicion that the value of his services as expounder of gospel truths has been seriously impaired. The majority of free-born Americans do not like the ku klux, think that the band should be suppressed, and exterminated. When they see the outlaws defended by a preacher, they wonder that he does not lay aside his clerical garb, don a sheet and pillowcase, and "go the whole hog" as the saying is.

Southern California did not do itself very proud in relation to the candidacy of Justice William A. Sloane of the supreme bench. Apparently it has permitted him to be defeated. With the report verified, of the seven justices on the supreme bench, only one will be from this end of the state. But there was more involved than local pride.

By many lawyers Justice Sloane is regarded as the ablest man on the supreme bench. He won his way to that station by merit. His associates there recognized his high ability, and were free to proclaim it. He proved himself capable of an immense amount of work, to have a deep knowledge of the law, and to be animated always by a fine spirit of impartiality.

The public makes a great bluff at being grateful and appreciative.

The world has not recovered from the shock caused by the execution of former cabinet ministers of Greece. It may begin to see, however, that the slayers had more than the excuse of sudden passion.

Greeks have been fighting for years. They did not understand the reason, and their consent had not been asked. They merely were sent arled to kill or be killed. The individuals who sent them were safe far from the front. Probably the tendency of the episode will be to dampen the war-like ardor of any official who still has his head on his shoulders, and anything worth while in the head.

There seems to be fear that something in the proceedings of the Lausanne council may hurt the feelings of the Turks present. This really would be too bad.

Perhaps the followers of Islam, if too puffed in their feelings, might go home and herd some more Armenians into the desert to die.

An automobile race is a spectacular event. It shows the courage of drivers and the perfected mechanism of the smoking chariots they drive. It gives many a chance for a thrill, frequently one for a shudder, and occasionally for fainting at some gruesome episode. Easily enough one of these racing devices is geared to better than 100 miles an hour. Off the track are parked thousands of automobiles of more modest possibilities. Yet if one of these be urged to 30 miles an hour, it's jail for the guilty wretch at the wheel.

Several persons have been fined \$5 for picking a plant bearing a red berry and known, for some reason not botanical, as mountain holly. The growth decorates the hillside with radiant touches, but once picked it soon withers. The proper place for it is the place in which it grows. The tendency for years has been to exterminate it. The fines attest the disapproval of this course.

WATCHING THE PARADE

By JOHN PILGRIM

The question before the house, so nearly as I can formulate it, seems to be this:

Is J. Pilgrim a confounded old grinch? Or are William and Mary a pair of sloppy, brainless, sentimental young fools.

Of course, I know they are engaged to be married. Likewise I know that engaged young folks always kiss. Also I am aware that kissing is no longer the rite it used to be, if we can believe the novels imported from England, which we cannot, but rather seems to be an ordinary exercise. Kissing has, in fact, become so commonplace that if I were to manifest my thankfulness for the morning cakes by kissing the cook no one would think anything of it. Always provided that I did not lead her behind the door.

Nevertheless I object to engaged young people who wreath in each other's arms every few minutes, and cling to each other's lips like barnacles. It is doubtless decent, but it is annoying. It gives the spectators of these repeated endearments mild cases of the pip.

"Were you as much in love as we were?" Mary asked me the other day.

"Quite as much," I replied. "But I don't think I did so much loving in public. If you do not mind my saying so, you are disgusting."

She minded my saying so and said it. Whereupon, on the principle that being hung for a sheep is no more painful than being suspended for a milk fed lamb, I went further. "Bless 'em, I know they are as moral as the College of Bishops."

"But this advertised exhibition of long, strong, and heavy kissing is in bad taste," said I.

In which I stated a principle which has guided my acts often in the past, but had never before been formulated. I prefer persons whose morals are bad to persons who unfortunately are lacking in that social commodity known as taste. The bad ones do not obtrude their badness upon the rest of us. If we do not know too much about them we may accept them for what they appear to be. That willingness to blink is what holds society together.

But you cannot—you simply cannot—put up with good persons who drool mentally.

DO YOU KNOW THAT—?

An American, William Wheelwright, introduced the telegraphic system into Chile, and organized the first cable between the west coast of South America and Europe.

Petroleum output established a new record in 1921 which was more than double the output in 1912.

Many rice crops of the south today are directly descended from a pocketful of rice smuggled out of Italy by Thomas Jefferson.

An ancient Egyptian ointment said to cure baldness was made of equal parts writing ink and cerebro-spinal fluid.

Benjamin Franklin never went to the trouble of writing down an account of his famous electrical experiment with the key and kite.

International crop reports are now being sent and received by radio.

The Brontosaurus, the largest of all the prehistoric lizards, grew to be 50 feet long and 14 feet high.

Motor vehicles registered in the United States on July 1 numbered 19,530,471.

Jupiter, which is 1300 times larger than the earth, has nine moons, four of which were the first objects discovered by Galileo when he turned his first crude telescope to the heavens in the year 1610.

There is no element in the sun, except cobaltium, which has not also been found on earth.

The United States last year exported ten million dollars worth of eggs to China, often considered the home of the hen.

SCOUTS LAUNCH ACHIEVEMENT CONTEST

Starting December 1, It Will Run Until November 30, 1923

Seemingly, this is an age of contests. There have been guessing contests galore, puzzle contests and contests for nearly everything under the sun, but the latest and most up to date contest to be launched is the first annual troop achievement (remember that word "achievement") contest in which all the boy scouts of the Verdugo Hills District will participate.

For many moons the local scout leaders have been assimilating and gathering information from scout centers all over the U. S. A. for just such a contest and now they believe they have a finished product. The contest, it seems, is dedicated to the purpose of intensifying scouting in this district by creating a closer relationship between those three great institutions—the home, school and the church. Arrangements for the contest were made by the troop leaders roundtable and will continue to be directed by them under the auspices of the Verdugo Hills District Council, Boy Scouts of America. The contest will run in periods of four months' duration beginning December 1, 1922, and ending November 30, 1923. A special 28-page booklet has been prepared giving the full details of the contest a copy of which will be presented to every scout and scout leader in the district.

In a message to the scouts and scout leaders, Charles L. Chandler, president of the council, said in part: "This contest is a 'big game' of co-operation. The troop which comes out at the top on the eventful day of November 30, 1923, must have a personnel of scouts and scout leaders who are 'all for each and each for all.' Prizes will be awarded for first, second and third places at the end of each period but the grand prizes which will be awarded at the end of the entire contest are what the scouts are most enthusiastic over. Following is a list of the grand prizes together with the names of the organizations who are offering them to the scouts. They aggregate a cost of more than \$200.00. A special prize consisting of a beautiful banner will be presented by the Glendale Rotary Club to the troop winning it twice. The prize for first place consists of a beautiful parade size pure silk American flag with hickory staff, gold trimmings and water-proof case which is being put up by the Glendale Lodge No. 1239, B. P. O. Elks. The famous Pine Tree Patrol Trek Cart, designed by James A. Wilder, originator of the Pine Tree Patrol system is being offered by the Glendale Kiwanis Club as the second prize. The third prize which is being put up by the Glendale Lodge No. 1923 Knights of Columbus consists of eight U. S. army shelter tents made of waterproof material. A new model parade size street drum is being offered by the American Post No. 127 American Legion, as the fourth prize. The fifth prize which is being put up by the Glendale Chapter of the American Red Cross Association is a regular first aid kit.

Points will be awarded in this contest for all phases of scout achievement taking in attendance, wearing of uniform, tests and examinations, prompt registration, equipment, promotion, inspection, camps and hikes, nature and woodcraft, etc. To stimulate interest of the scouts in taking part in their church duties, regardless of what church it may be, they are awarded points for attendance at religious services, proper conduct and for taking an active part in the discussions thereof. Points will also be given for high grades and good conduct in the public schools. It is hoped to have prizes on display in various store windows during the next few months.

The contest is being received most enthusiastically by the Glendale Boy Scouts who are all "hot up" over the "swell" prizes and the keen way the contest has been arranged. In fact the points are arranged in such a way that even the smallest and most insignificant troop in the district has the same opportunities for reaching the highest goal as the troop with the large and prosperous membership.

A Daily Tour of Glendale Stores

A. L. COLE SHOWS BEAUTIFUL SILVERWARE
Glendale is in the situation of the man who cannot lift himself up by his boot straps. Its citizens, merchants and patrons alike, find it hard to realize how large and important the city really is, and how great a response is to be had.

Some of the new merchants who are coming to us are able to get Glendale in perspective and plan accordingly. Such an one is R. L. Cole, of 106 East Broadway, who came here about six months ago and is only just ready to receive friends and patrons in his thoroughly renovated establishment which Dr. C. L. Marlenee, the optician, shares. It has been beautifully decorated and rearranged, fitted with new and handsome cases and electric light fixtures, and the last feature now being supplied is a ladies' rest room and lavatory containing a couch, a desk and a victrola.

Mr. Cole has provided himself with a wonderfully large and beautiful stock of hollow silverware in anticipation of the Christmas trade, as well as tableware in knives, forks, spoons, etc. He also specializes on watches, particularly ladies' wrist timepieces in white gold and the new shapes. Diamond rings are always in demand but those that command more purchasers than usual at this season and he has them in the new gold and new mountings from \$25 up.

In clocks he limits himself to the Seth Thomas products, which sell from \$12.25 to \$35, and he has a very handsome collection of cut-glass and china. For gifts of value his store can be recommended.

Dr. Marlenee has also shared the rejuvenation spirit and has installed some new and interesting appliances including a machine for testing blood pressure, a muscle developer, and a new sterilizing cabinet, besides some decorative bric-a-brac.

OCCUPATIONAL THERAPY WITH XMAS STAMP SALES

Occupational Therapy was started in California hospitals three years ago, with the proceeds from the Christmas Seal Sale. Today, many of the counties have vocational buildings and their own teachers, who work with the patients all of the time, and there is a steady market for the splendid articles that are turned out by the patients. All this is done to teach the patient that because he has Tuberculosis he need not feel that he is useless. Under the doctor's supervision, the patient can test his strength; he can learn to concentrate and frequently he can be taught some new way of earning his living while he is in the hospital, so that he need not break down when he starts out to earn his living again.

The proceeds of the Christmas Seal sale has made this work possible all over the State.

CHAMPIONS BY PROCLAMATION
By HENRY L. FARRELL
United Press Sports Editor

NEW YORK, Dec. 7.—New methods of awarding championships and amputating titles are now the vogue. The old established methods of deciding superiority by combat are giving way to a more modern way of legislation.

The most prominent example of ignoring the old fashions came in the case of Battling Siki, the Senegalese fighter, who had several European titles taken away from him by the French Boxing Federation.

Long before this, however, the New York Boxing Commission started the fad by taking the titles away from Johnny Wilson and Johnny Dundee.

The only difference in the two cases was that the French slogs got away with it seriously, while the New York commissioners got only a laugh.

This new fad spread to football when Columbia beat New York University on the referee's decision—real ring like.

The game ended with the score: N. Y. U. 7, Columbia 6, but two days later the referee decided he had made an error of judgment and he took a touchdown away from N. Y. U. and gave only a safety, giving Columbia the game.

Ban Johnson, the exalted president of the American League, has never tried to be left behind times and he provided another good example when he went over the head of one of his scorers and made Ty Cobb a .400 hitter for 1922 by a presidential message. Cobb finished the season needing one hit to put him in the enviable 400 class for the third time. Johnson looked over the books and decided that the scorer who charged Everett Scott with an error on one of Cobb's hits last May in New York was wrong and that it should have been a hit.

The Yankee club owners, along this line of reasoning, might argue that 40 of Babe Ruth's flies should not have been caught last season and that he ought to have been the champion Buster instead of the Bust.

The most unique case came to light when Pinky Mitchell, Milwaukee boxer, was elected the American junior welterweight champion.

Pinky got more votes than all his rivals in an election conducted by a boxing magazine and he was awarded a belt.

The new champion is safe for another term, as he can't be knocked out, according to law, before another election.

Charley Paddock had a little experience along the same line. He had a flock of sprinting records taken away from him because the A. A. U. executives said it couldn't be done.

Paddock wasted a lot of time for nothing. The next time, perhaps, he will go to the A. A. U. lords and ask:

"Is it possible for me to make some new records?"

The answer will be a loud "No" and Charley will save a lot of wind and energy.

DIBBERN IS PROUD OF WRIST WATCHES
Arthur Dibbern is patting himself on the back for his foreign last spring in building up his stock of wrist watches which are in such demand that the manufacturers are months behind on their orders. He specializes on American make, particularly the Elgin, and has all the new, fascinating shapes. Naturally he is figuring on a big Christmas trade in them. He has also added to his stock of table silver the new "Anniversary" pattern put out by the Rogers Brothers which is now very popular, also a new Holmes and Edwards design that is exceedingly pretty.

dale Boy Scouts who are all "hot up" over the "swell" prizes and the keen way the contest has been arranged. In fact the points are arranged in such a way that even the smallest and most insignificant troop in the district has the same opportunities for reaching the highest goal as the troop with the large and prosperous membership.

BROOKLYN MAN WINS RADIO CHAMPIONSHIP
Joseph G. Smythe won the radio championship held during the Boston Radio Show. There were three contests, the operator appearing to best advantage in all three—being declared victor, jamming, cipher code and straight press transmission were the three tests, and Smythe won all three, averaging thirty-five words a minute in the jamming contest, without an error.

Joseph G. Smythe won the radio championship held during the Boston Radio Show. There were three contests, the operator appearing to best advantage in all three—being declared victor, jamming, cipher code and straight press transmission were the three tests, and Smythe won all three, averaging thirty-five words a minute in the jamming contest, without an error.

LA CRESCENTA BUILDING NOW UNPRECEDENTED

Thirty New Homes Are Now Under Way of the Owners

LA CRESCENTA, Dec. 6.—Building activities in the La Crescenta Valley during the month of November exceeded all previous months of the year.

Thirty houses are now under construction.

Most of the homes being built are by home owners. Permanent residents are filling up new accommodations. The building of the Community Church on Montrose Avenue is one of the most important improvements in the valley. The C. Buckley home, being built on the Kramer tract is among the most pretentious homes under construction, containing 11 rooms, 2 bathrooms, C. Anderson on West Mayfield is completing an 8-room home on Montrose Avenue. Dr. Louis Webber built a seven-room house and Claude Hendrix is building an attractive 6-room house. Other 5 and 6-room homes are being built by Royal Johnson and E. King, who are building on Piedmont Avenue; Dr. Charles Carr, Honolulu Avenue; E. C. Jennings, Hermosa Avenue; N. Nevins, Montrose Avenue; W. H. Seckler, Liberty Street; H. A. Kalso, Los Angeles Avenue; A. Kreiff, Liberty Street; T. O. Potts, Honolulu Acres; C. E. Lunn has a bungalow court under construction on West Sycamore Avenue.

In Montrose homes are being built by M. L. Granger, Montrose Avenue; C. R. Howland is building two houses on Ocean View and Mira Vista Avenue; Mrs. G. B. Brook two houses on Waltonia Drive; L. C. Crosby, Montrose Avenue; C. K. Fisher and C. Farinlin are both completing homes on Glendale Avenue.

FOOTHILL FOLKS HEAR FROM CITY COUNCIL

At the meeting of the Foothill Improvement association at the Grand View school Tuesday evening, over which the president, Alexander Mitchell, presided, a report on general improvements was submitted by the city council.

The city health department, which had failed to take care of the removal of livestock from the vicinity of the school on Roberts Avenue tendered a report in which it promised to attend to the matter in the near future.

A complete statement was made relative to the water distributing system for which the Grand View district voted bonds in the sum of \$50,000 two years ago.

A letter was read from the boys and girls of the Grand View school thanking the association for the book money contributed at its last meeting.

Another letter read by the secretary concerning the community Christmas program promoted by the Kiwanis club, invited the association to participate in the program.

Reports were then received from the chairmen of committees on park sites, sewer problems and branch library.

As Mr. Conner is unable to serve as a police officer in that district Mr. Hennessey, who is connected with the office of the county sheriff and who is a resident of the Grand View district, offered protection to that part of the city.

NONOGENARIANS HONOR COMRADE AT LUNCHEON

Comrades of Charles Bock, the nonogenarian, to the number of seven, were entertained with a luncheon at his home in Eagle Rock on Wednesday in celebration of his 90th birthday, covers being laid for J. M. Thayer, 80 years old; J. M. Barret, 81 years; Wilson Capp, 75; J. L. Denny, 79; T. C. Fuller, 77; W. G. Collins, 76; R. R. Norton, 77; Mrs. Norton, Mrs. Thayer, Mrs. Conner, his wife, three daughters and a grand-daughter, Mrs. Clara Severance, Mrs. Minnie Stearner, Mrs. Alice Kiner and Mrs. Clara Kent.

A special afternoon followed the luncheon during which Victrola records were played to which Mr. Bock waltzed. He is a wonderful man, whose faculties and memory are quite unimpaired in spite of his advanced age. He served in the Second Nebraska cavalry during the Civil war and was a personal friend of Lincoln during his residence in Springfield, furnishing him with fresh butter and eggs.

GLENDALE CHAFFEE FOLKS WIN PRIZE FOR ATTENDANCE

The employees of the H. G. Chaffee company's Glendale store at 115 North Brand boulevard, were awarded the attendance banner at the annual meeting of the company's employees held Wednesday night at the Women's clubhouse in Monrovia, the local store having 100 percent. Those from Glendale in attendance included T. L. Totman, manager; Mrs. T. L. Totman, Mrs. C. Lindemann, Mrs. C. Plunk, Mrs. C. Lindemann, Mrs. C. Plunk, etc. Mrs. E. Knittle, Otto Hagenjos, N. W. McBryde and Harry Chapman. An interesting musical program was given and lunch served.

KEATON NON-SKIDS PREVENT ACCIDENTS

DEPARTMENT OF PUBLIC SAFETY
Tacoma, Wash.

Being connected with the Public Safety Department, the word safety has a significant meaning to me.

The reports I receive each day of the many auto accidents make me wonder, who of my many friends will be next, and you may rest assured I tell them that, altho I have tried many tires, the Keaton is the best non-skid tire.

Your slogan, "Better put Keatons on your own car than help pay for them on some ambulance," has a real message.

H. D. DYMENT,
Chief of Police

Jellison Motor Company

ANCIENT BABYLONIAN TABLETS DECIPHERED

Professor Edward Chiera, assistant professor of Assyriology in the University of Pennsylvania, has completed deciphering of many Babylonian tablets, some of them dating from 2100 B. C. Most of the tablets are in the Sumerian language and were taken from the excavations of the library of Nippur. The smaller tablets are Babylonian leases, with some geographical data. The larger tablets contain an account of the fall of man, in many ways paralleling the account contained in the book of Genesis, in the Bible, especially of the banishment of Adam and Eve from Eden.

COLONIAL MUSIC IS TO BE GIVEN BY PHILATHEA

A Colonial Musical will be presented Friday night at 7:45 in the social hall of the First Methodist Church by the members of the Philathea Class. These young ladies, under the direction of Mrs. W. Q. Widdows, have been working for several weeks getting ready for this entertainment and it is sure to be something worthwhile. The Glee Club and the Double Quartet will render several numbers.

Besides the musical program there will be several booths containing fancy work, home made

SMART BELTS

Embroidered and beaded bandings from Rodier are admirably adapted to the style of belts which appear on some of the smartest frocks.

A dear old lady once visited the Zoological gardens.

After wandering about for some time, she went up to a keeper and tapped him on the shoulder with her umbrella. "I want to ask you," she said, "which of the animals in the zoo you consider the most remarkable?" The keeper scratched his head for a while. "Well, mum," he said at length, "after careful consideration, as you might say, I've come to the conclusion as the biscuit goes to the laughing hyena."

"Indeed!" said the old lady. "And why do you consider the laughing hyena so remarkable?"

"Well, mum," the keeper replied, "he only has a sleep once a month, he only has a drink once a year, so what he's got to laugh about is a bloomin' mystery to me!"

OLDEST TRIPLETS IN COUNTRY, SISTERS, BORN IN OHIO, ALL IN GOOD HEALTH AT AGE OF 76

The photograph shows (left to right) Mrs. Sarah Wilson of Newcastle, Ind.; Miss Mary Williamson of Lebanon, Ohio, and Mrs. Jennie Richardson of Danville, Ill. They were born in Warren county, Ohio, 76 years ago. They posed for this picture at their latest reunion at which time all of them were still active and vigorous. They say that when they were young their mother distinguished one from the other by means of red, white and blue beads.

DODGE BROTHERS USED CARS

Dodge Brothers have been building motor cars for eight years and a lot of people are still driving the cars they bought back in 1915. Proving that you can buy a Used Dodge Brothers Motor Car at almost any stage of its life and still get dollar for dollar in value—provided you buy from the right dealer.

Remember: A used car is only as good as the firm with which you deal

CITY PRINTING

PUBLIC NOTICE

WHEREAS, a verified petition has been filed with the City Clerk of the City of Glendale by C. D. Thom and others, asking that the territory therein and hereinafter described, be established and set apart, by ordinance, as a First Class Residential District, which petition proposes that such territory or district be restricted from any and all industries, trades and businesses, and from the creation, connection, establishment, alteration or change of any and all buildings, structures, or improvements, which are designated, intended to be arranged to be occupied or used for any purpose other than a single Family Residence or Dwelling; and

WHEREAS, said petition is signed by the owners of more than fifty per cent of the frontage of the property of said proposed district; and

WHEREAS, said City Clerk has presented said petition to the City Council, and said Council has directed that notice of a public hearing upon said petition be given by the City Clerk at noon on the 29th day of December, 1922, at 7 o'clock P. M. of the 14th day of December, 1922, at the Council Chamber of the City of Glendale in the City Hall, No. 619 East Broadway, Glendale, California.

THEREFORE, pursuant to the direction of said City Council, and the requirements of Section 2, Article XV of said Charter,

PUBLIC NOTICE IS HEREBY GIVEN

that at the hour of 7 o'clock P. M. of the 21st day of December, 1922, at the Council Chamber in the City of Glendale, a public hearing will be given and had upon said petition, and the matters and things therein contained, and more particularly to determine whether said territory or district therein and hereinafter described shall be established and set apart as a First Class Residential District, as requested in said petition, and which time and place all persons having any objection or objection to the establishment of said First Class Residential District may appear before said City Council and present any objection or objections, which they may have against the establishment of said proposed First Class Residential District.

A written protest or objection may be filed with the City Clerk by any person having an interest in any of the frontage of the property of such proposed district, or frontage of property which will be directly affected by the proposed district. Such protest or objection must be filed not later than the hour set for hearing. All protests may appear before the Council at said hearing, either in person or by counsel, and be heard in support of their protests or objections.

The territory or district described in said petition, and which is proposed to be set apart as a First Class Residential District as aforesaid, is described as follows:

Beginning at the southeasterly corner of Doran Street and that alley lying between Howard Street and Isabel Street; thence easterly along the southerly line of Doran Street to the southeasterly corner of Doran Street and Geneva Street; thence northeasterly in a direct line to the southeasterly corner of Lot 1, Block 4, Tract No. 1822, as per map recorded in Book 26, Page 30 of Maps, Records of Los Angeles County, California; thence northerly along the westerly line of said Lot 1, to the northeasterly corner thereof; thence southeasterly along the northeasterly lines of Lots 1 to 15, both inclusive of Block 4, of said Tract No. 1822, to the northeasterly corner of said Lot 15; thence southeasterly along the southeasterly line of Lot 15, to the northerly line of Doran Street; thence westerly in a direct line to the southeasterly corner of Doran Street; thence southerly along the easterly line of Geneva Street to the northeasterly corner of Lot 12, Block 2, of aforesaid Tract No. 1822; thence easterly along the northerly lines of Lots 12 and 13 of said Block 2, and their prolongation across the alley between Geneva Street and Everett Street to the westerly line of Everett Street; thence southerly along the westerly line of Everett Street to the northerly line of Lexington Drive; thence westerly along the northerly line of Lexington Drive to the easterly line

CITY PRINTING

PUBLIC NOTICE

of that alley lying between Isabel Street, and Howard Street, thence northerly along the easterly line of said alley to the point of beginning. The petition above referred to is on file in the office of the City Clerk of the City of Glendale, and is hereby referred to for further particulars. This notice shall be published once in the official newspaper of said City, at least ten days before the date of the hearing hereinafter mentioned. Dated, December 6, 1922.

A. J. VAN WIE, City Clerk of the City of Glendale, 12-7-22-11

NOTICE OF HEARING APPEAL FROM THE ASSESSMENT FOR THE IMPROVEMENT OF PACIFIC AVENUE

NOTICE IS HEREBY GIVEN that the appeal of A. J. Badger from the acts and determinations of the Superintendent of Streets in making and issuing his assessment, diagram and warrant for the improvement of Pacific Avenue in the City of Glendale from Broadway to San Fernando Road, which improvement is more particularly described in Resolution of Intention No. 1570, passed by the Council of said City June 29, 1922, which reference is hereby made for further particulars as to said improvement, has been set for hearing at 7 o'clock P. M. of the 14th day of December, 1922, at the Council Chamber of the Council of the City of Glendale in the City Hall, No. 619 East Broadway, Glendale, California. Given by order of said City Council this 4th day of December, 1922.

A. J. VAN WIE, City Clerk, 12-7-22-5t

BUILDING PERMITS

The following building permits were issued up to noon today: West John R. Vrenay, 543 1/2 West 7th Street, 4 rooms and garage, Lester Ingram, contractor, \$1,500. William Becker, 722 East Garfield, garage, Thomas P. Welch, contractor, \$200. O. M. Thomas, 1633 North San Fernando road, 4 rooms, L. C. Jenkins, contractor, \$1,200. Owen C. Betry, 800 East Colorado, garage and store, W. H. Conley, contractor, \$6,500. S. A. Davis, 333 North Louise, 2 rooms and garage, \$1,400. Beatrice Stanlet, 222 Colorado, garage, \$1,500.

PURELY PERSONAL

An exhibit of Colonial antiques is featuring the meeting this afternoon of the members of the Daughters of the American Revolution, being held at the home of the regent, Mrs. John Hyde Braly, 505 North Brand boulevard.

Mrs. C. W. Brown, who is visiting in Los Angeles from Pittsburg, Pa., was the guest of Mrs. M. E. Warfield of 407 West Park avenue at the Sons of Veterans Auxiliary dance Tuesday evening and also her house guest over night.

Mark Keppel, County Superintendent of Schools, was a visitor and speaker at the Rotary Club today.

Miss Agnes Hall left Tuesday for Elgin, Illinois, where she will spend Christmas with her father before continuing her trip to her place of business in New York. Miss Hall has been the house-guest for several weeks of her aunt, Mrs. Frank Hall, at 1201 Viola avenue.

CITY PRINTING
NOTICE OF CHANGE OF GRADE
Public notice is hereby given that on the 1st day of December, 1922, the Council of the City of Glendale, did, at its meeting on said day, adopt Resolution No. 1759, declaring its intention to change and re-establish the grade on a portion of
GILBERT STREET
in the City of Glendale.
Reference is hereby made to said Resolution No. 1759 for further particulars of said change of grade.
BEN F. DUPUY,
Street Superintendent of the City of Glendale.
12-7-22-6t
RESOLUTION NO. 1759
A RESOLUTION OF THE COUNCIL OF THE CITY OF GLENDALE CHANGING AND RE-ESTABLISHING THE GRADE ON A PORTION OF GILBERT STREET WITHIN THE CITY OF GLENDALE.
BE IT RESOLVED BY THE COUNCIL OF THE CITY OF GLENDALE:
SECTION 1. That the public interest and convenience require and it is the intention of said Council to order that the grade of Gilbert Street from the easterly line of Pacific Avenue easterly to the easterly boundary line of the City of Glendale in the City of Glendale be changed and re-established as to conform to the following elevations:
Along the northerly curb line of Gilbert Street the grade shall be as follows:
At its intersection with the easterly line of Pacific Avenue, 524.92
At a point 575.47 feet easterly from said intersection, 532.00
At a point 500 feet easterly from

ANTI-KU KLUX ORGANIZATION IS FORMED

The American Constitutionals has been organized in Knoxville, Tenn., with the avowed purpose of making the constitution of the United States the supreme law of the land. The Los Angeles office is located at 903 Loew's state building. This movement is opposed to every form of violence, whether it be behind masks or in the open. It seeks to bring together those American citizens who are opposed to usurpation of authority, parades with electric wires out, tarring and feathering, assassinating and lynching. By bringing these people together they intend to perpetuate in this county a rule of law, instead of a rule of mob and violence. Although only four months old this organization has spread rapidly over the United States with a national strength of 300,000 members, and has reached the Pacific coast where it is being enthusiastically accepted by people who feel the need of a truly American organization.
The policy of the American Constitutionals is non-sectarian, non-partisan and truly American. Its purposes are to exterminate invisible empires, discourage hate, slander, religious bigotry, and masked conspiracy against American Liberty and Justice, uphold the constitution of the United States of America; to promote all things in harmony with it; to oppose all things not in harmony with it.
The American Constitutionals admits to membership all loyal Americans—Protestants, Jews and Catholics. To coordinate the effort and influence of American citizens, who believe in the constitution of the United States as the supreme law of the land there must be a central national organization through which local organizations function.
A peculiar situation has been disclosed by the investigations made. Strange to say that while the American constitution is the foremost document in the world it is not a familiar document in the United States. The average American sees it vaguely and supports it only in a general way. This organization will become a school for the study of the constitution of the United States, and the laws of the land, in order to show its members and the public that the only proper way to provide law enforcement according to the constitution of the United States is the intelligent vote of the majority of the people.
This movement should have an especial interest for the laboring man because it will require that its members register and vote. The essential weakness of every movement that is political in character arises from the fact that the better element of our people have ceased to take part in government affairs, not half of the better citizens of the United States are voting in the various elections.

Foley's friendly Fancies

JAMES W. FOLEY

INDESTRUCTIBLE
A wreath of rose hung upon a stone
Above me—this alone.
A sob that floats and falling tear on tear
Descending here.
Some soul in sorrow kneeling at the tomb
And in the gloom
Pouring above me to the silent air
Its deep despair.
Though cold the pulseless clay and deaf the ear,
Yet I shall hear.
Though the thick shadows endlessly shall flow,
Still shall I know.
Though from the dumb, dead tenement in flight
Wing life and light.
Yet not deserted lies the silent clay
For Love shall stay.
Crumble the stone and in the dust shall lie
Yet Love not die.
Through the long night when the dark shadows creep
Not even sleep.
But whisper from the silence of the bier:
"Lo, I am here!"

HARRY JAMES WINS
SAV-ELLE AP-PRIGATION
Harry James of the Nordskog Record, store in the Court Shops at 213 East Broadway is in receipt of a letter of thanks from Charles W. Cratcher, expressing appreciation of the disabled veterans at Sawtelle for a box of records sent by him. Mr. James furnished entertainment to the boys over seas and in the hospitals during and after the war and his gift was doubly appreciated. The records were made at the Nordskog laboratory in Santa Monica.
C. A. Chambers, who recently purchased from F. A. Mullens a half interest in the automobile truck line operated between Los Angeles and Burbank, today applied to the railroad commission for permission to sell his interest back to the original owner for the sum of \$735, which is the amount of his equity in the equipment.
When things go dead wrong roll up your sleeves, go to work and try to revivify them.

GLENDALE HEALTH DEPARTMENT HAS RECEPTION

State Health Days are supposed to be observed by municipal health departments the 8th and 9th of this month. The Glendale health department will conform by having open house all day Friday and on Saturday morning at its offices in city building at Los Feliz and Brand boulevard. Health exhibits will be on display and members of the staff will be there to explain and tell of the work of the departments. The new laboratory in charge of Miss Jongeneel, Berkeley graduate and former bacteriologist of the city of Oakland, will be open to inspection. Miss Jongeneel does the testing for butter fats, and the bacteria count on cultures for diphtheria, typhoid, etc., and similar tests of water and milk of which Paul Vismann is sanitary inspector. The medical work of the department is under the direction of Dr. G. Kaemmerling and the health nurse, Mrs. E. Sadler.

J. O. C. CLASS HAS CHICKEN DINNER
The bazaar and chicken dinner given by the members of the J. O. C. class of the First Methodist church, of which Mrs. Lydia Rehberg is president, at the church recently was reported at meeting Tuesday night as being a very successful affair, both socially and financially, over \$372 being cleared. Mrs. Alva Starkey was chairman in charge of the dinner, and those in charge of the various booths included: Mrs. Mae Knox, baby booth; Mrs. Martha Clint, candy; Mrs. Katherine Stahl, fancy work; Mrs. Winifred Taggart, demonstrating booth. The members of the class presented Mrs. Starkey with a string of pearls in appreciation of her work. Mrs. Maude Cunningham was appointed teacher of the class and Mrs. Vera Butterfield as first vice president.

In Blows the "Herwick 7" at Signal Hill

350 Feet from "BEMCO" No. 1

Sunday Was a Big Day for "Bemco" No. 1

Had many interested investors view my lease just after the Herwick No. 7 drenched its crown block on Saturday night, and the results of the day were very pleasing to both visitors and myself.
Only 1250 Units at \$100 each, for 50% of the Production

I sincerely hope you will not miss this opportunity, and I feel sure you won't if you visit my lease.
"BEMCO NO. 1" is only 350 feet northwest of the Herwick 7, two blocks east of American avenue on Center street, Bixby Heights, Signal Hill oil field.
If you have ever wished for "luck in oil" to come your way, and had "happy thoughts" of what it would mean, just remember this, it is up to YOU to make it REAL.
Don't put it off, act; make an appointment with one of the following men who will acquaint you with the facts. See D. D. Kroder on the lease.

COOGAN'S CIRCUS OPENS SATURDAY AT HOLLYWOOD

Jackie Coogan's circus for the benefit of Near East Relief, postponed last Saturday on account of rain, will be staged next Saturday, December 9, from 9 a. m. to 6 p. m., on a large lot adjoining the United Studios on Melrose avenue, just west of Western avenue, Hollywood. In going from downtown Los Angeles to the circus, one takes a Western avenue car marked S, to Melrose avenue.
Jackie has issued a special invitation to all boys and girls and members of their families to attend. There will be seats for 2000 people at one time.
Admittance will be only to those who come with a bundle of wearable clothing or shoes or not, less than two pint cans of condensed milk. These supplies will be sent at once to the Near East refugee children.

OUT OF THE MOUTHS OF BABES
"Mamma," queried little Hazel, "what is a widower?"
Before the mother could reply her brother, aged six, who was present, answered: "I know; he's the husband of a widow."
