Société Canadienne du Génie Chimique**

February 7, 1990

Dr. Christian Roy, MCIC
Associate Professor
Université Laval
Dept. of Chemical Engineering
Sainte-Foy, PQ
G1K 7P4

Dear Dr. Roy:

On behalf of the Canadian Society for Chemical Engineering, it is a very great pleasure for me to inform you that you have been selected as the winner of the Society's 1990 Albright & Wilson Americas Award.

This Award, established in 1970, is given annually to a resident of Canada who has made a distinguished contribution in chemical engineering before the age of 40. It consists a \$2,000.00 honorarium and will be presented to you at the Awards Banquet, Wednesday, July 18 in Halifax during the Joint CSChE/CSC Conference.

The award also carries with it the opportunity to present the Albright & Wilson Americas Lecture at the conference. As we are nearing the publication deadline for the conference program, I would appreciate hearing from you, within the next couple of days if possible, as soon as you have determined the title for your lecture. The abstract can then be forwarded directly to the CSChE Program Chairman, Dr. Adel Al Taweel, at the address indicated on the enclosed abstract form in order for it to be included in the Abstract Book.

I spoke to Dr. Al Taweel yesterday concerning your request for a VHS machine and screen for the award lecture. He foresees no difficulties arranging this. Please confirm with me, perhaps when you give me your lecture title, if you would like the conference to proceed with obtaining this equipment.

We also required a black and white photo of yourself for the program. We already have the photograph that was used in the February issue of ACCN. If you would like to send us a different photograph, please forward to my attention at the National Office before the end of February.

On behalf of the CSChE President, Dr. John Grace, CSChE Awards Director, Dr. Anh LeDuy and the selection committee, may I extend to you my warmest congratulations and best wishes on winning this prestigious award.

Sincerely,

Thérèse Fearon
