LILLY'S

Packet Seeds on Commission

SOLD BY ALL THE LEADING MERCHANTS

Merchants who handle seeds on commission find our cabinet the most profitable and most satisfactory method of handling their Spring trade in packet seed. No loss is experienced in carrying over old seed from one year to another as we take back all packet seeds unsold at the end of the season. The commission is very generous, viz., 10c packets charged at 6c, 15c packets charged at 10c each.

The packets are beautifully lithographed in colors and contain a generous quantity of seeds. Full cultural instructions on every packet. The assortments in the cabinets are the choicest and best varieties, particularly adapted to Western soil and climatic conditions.

Extra Packets On application we send extra packets by mail as required throughout the sowing season. Keep the cabinet filled to meet all demand. Be ready to serve your customers when they order. Farmers and gardeners usually defer ordering seeds until the very minute they want to plant them. Be ready!

Keep Our Retail Catalog Handy

The distribution of the **LILLY'S** Seed Catalog offers the surest route to the largest number of actual garden enthusiasts. Everyone is interested in a garden, therefore every farmer and householder is a possible customer to the merchant who has worth-while Seeds for sale in or around his store.

Prices are per 100 lbs. In less than sack lots the price will be 1/3c per pound additional for lots of 50 lbs. or more or 1c per pound additional for lots of less than 50 lbs.

Bags free, excepting seamless which are charged lowest current prices and are not returnable.

NEW GIANT ANNUAL

"HUBAM"

WHITE SWEET CLOVER

This new clover is a very vigorous, rapid growing annual sweet clover discovered at the Iowa Station in 1916. Hubam Clover makes a much greater growth in 100 days than Red Clover or Biennial Sweet Clover does in a year. Occupying an important place as an emergency hay crop, unsurpassed as a green manure crop, the fact that it is one of the most nutritious pasture plants makes it especially valuable for cattle, sheep and horses.

The demand will far exceed the supply. Order early. We offer the genuine seed while stock lasts at \$1.00 per pound.
