1. Herewith submitted report for ~~22~~ <sup>19</sup> June 1951 on daily activities of the Public Safety Division

ACTIVITY (Who, What, where, when, why, and how?)	ACTION (Full account of action, briefly stated.)
<p>Dr Lewis answered a long standing invitation of the CID of the PM's Office and was shown through the Laboratory by Major John Richmond in charge of the operations for soem years now.</p> <hr/> <p>Dr Lewis visited Mafumi Yanagawa, Secretary-General Attorney-General's Office and arranged for him to submit to the Chief of PSD by 1000 <del>of</del> 20 June, '51 a statement outlining briefly exactly how the collection of funds from sales of the requested carigraphical exhibits will be <del>exp</del> safeguarded and expended. This request grew out of an interview with Dr A.C. Oppler, Chief of Courts and Legislation Division of the Legal Section, in which the latter, expressed some skepticism about the middle of the road professions of the late leader of the Right wing forcrs in the Office of <del>XXXXXXXXXXXXXX</del> Minister of Justice, which was abolished <del>in</del> of 15 February, '48.</p>	<p>The effectiveness of the Bureau in solving many difficult <del>cases</del> and in getting convictions when the full force of modern legal medicine is brought into play the Japaneae get ample opportunities to learn the effectiveness of these methods over the old 3rd degree methods of torture in effect when the Occupation began.</p> <hr/> <p>The safeguards have been welltested in every sort of condition during the past 5 years so that it is believed that the funds wkl be as well safe-guarded as can be done in case of funds raised through private and unofficial forces <del>and</del> but under the supervision of the Office of Attorney General the highest Law Officer of Japan. If they cannot be entrusted with that kind of resposibility then the idea of Japan going it alone must be set down as a dangerous gamble, or worse, rather than a proper next step as Douglas MacArthur has conded.</p> <p style="text-align: center;">Bq h</p>

ACTIVITY (Who, What, where, when, why, and how?)	ACTION (Full account of action, briefly stated.)
<p>Mr. SABEL.</p> <p>Supplied MSA with prepared memorandum dealing with care and storage of expensive lantern panels at light-stations, and recommended that, in order to rectify many discovered neglects, the substance of the communication be translated and transmitted to stations for information and guidance.</p> <p>Mr. Joun and Wata, MSA observed demonstration of newly constructed fireboat at Suidagawa Shipyard Tokyo.</p>	<p>MSA agreed.</p> <p>Boat is equipped with one fire monitor and eight hose outlets, all of which worked satisfactory. Better firefighting capabilities could be maintained however, if hose outlets</p>

could also be used as monitors  
when power cannot be used.

Fog equipment aboard was found  
unsatisfactory due to improper  
machinery of connections and unit.

Further tests will be conducted  
during training period for crew.

ACTIVITY (Who, What, where, when, why, and how?)	ACTION (Full account of action, briefly stated.)
<p>Taiichi Hara, President NOPAR Commission until 30 June 1951 came to see Dr Lewis at Quarters in the afternoon to learn if he is likely to be reappointed. Evidently he has not followed the proceedings of the Diet, where his successor was confirmed as a Member of NOPAR Commission so the Attorney-General may decide who shall be Chairman from among the Members of the Commission.</p> <hr/> <p>Dr Lewis called upon Mafumi Yanagawa, Secretary-General to learn if Cartographical Items might be submitted in sizes larger than the standard form suggested 9 1/2 x 10 3/4 inches.</p>	<p>Dr Lewis suggested that Hara see the Attorney-General about whether he is to be appointed as a Member of the Board. Since Hara had been confirmed by the Diet probably his reappointment to the Commission would not need Confirmation.</p> <hr/> <p>The Chairman stated that appropriate mats, in white or in good colors with drawings or cartoons and the like would be acceptable. Dr Yanagawa's request left a drawing which the latter took to the States on TDY to illustrate graphically the revised Plan of Dr Lewis for "An Institute of Man" submitted by Dr Lewis to replace the Joint Plan of The Late Alexis Carrel, the Nobel Prize Winner in Medicine and by Himself in 1937-8 to the American Institution for the Advancement of Science, which had a section for a Japanese Branch of the Institute. Yanagawa said that he would find an artist to redraw the graphic design to a larger scale and then Dr Lewis could discuss the Plan with the J.G.</p> <p style="text-align: right;"><i>RHM</i></p>
