TOOLE'S

Supplementary List

SPRING OF 1936

New, Unusual or Little Known Perennials and Rock Garden Plants

Each Year we try out scores of new varieties of plants in our endeavor to find out the best of the newer things for our flower loving friends. Many of these have to be discarded for various reasons, some because of plain inferiority, others because of unsuitability to our severe climate, both summer and winter. We think the varieties here offered all have merit if given proper care, but we make no blanket recommendations for all conditions or any guarantee as to hardiness or suitability to your garden conditions.

Unless otherwise noted, all of the following plants are out of 2¼ or 2½ inch pots and guaranteed to reach you in vigorous growing condition. 12 plants at the price of ten, 3 or more of one variety at dozen rates.

We are growing many other varieties. If you do not find what you want in our catalog or in this list, write us and we may have it.

W. A. TOOLE Of Garry-nee-Dule, Baraboo, Wis.

Androsace Chumbyi —Compact tufts of downy rosettes, Rosy flowers, 2 inch35
Androsace Primuloides —Silky rosettes and rosy lilac flowers35
Anemone Sylvestris —Fragrant white flowers in June. 12 inch. Cool shade35
Anthemis Sancta Johannis —Bright orange flowers on 12 inch stems in summer. One of the better new introductions in border perennials35
Arenaria Rupestris —Low trailer with large white flowers	.25
Arenaria Steveniana —Grass like foliage and white flowers on 4 inch stems35
Aster Countess of Dudley —New dwarf rose pink aster	.35
Aster Hybridus Luteus —A newer variety with long racemes of lemon yellow flowers in late August and September. Very effective as a cut flower or in the front of the perennial border or in a rock wall35
Aster Madame Carroy —This very new aster of medium height makes a mound of lavender blue flowers in September35
Aster Marjorie —Another of the so popular new dwarf asters. Pink flowers. September and October35
Aster Nancy —Dwarf, flesh pink flowers35
Asperula Cynanchica —Mat of fine foliage and small pink flowers all summer and fall. Gritty soil25
Barbarea Rupicola —(Winter Cress) Bright yellow flowers and bright green foliage. Biennial15
Campanula Bavarica —A form, of muralis. Low purple trailer25

Campanula Muralis (Portenschlagiana)—Purple bells through summer and fall. Trailer25
Campanula Persicaefolia Telham Beauty —China blue flowers in June. 2-3 ft.25
Chrysogonium Virginianum —From the Smoky Mountains. 3- 5 inches. Golden flowers on short stems through summer25
Hardy Garden Chrysanthemums Joanna —A Toole introduction for 1936. Single flowers, spoon shaped petals of an attractive bronzy yellow color25
Maeta —Toole, 1936. Single, spoon shaped petals, handles silvery pink, spoons rose pink very compact growth25
Dianthus Brevicaulis —Attractive low mat of foliage. Pink flowers in May25
Dianthus Neglectus —A very tiny pink. Low mats of foliage, bright carmine flowers with tan reverse50
Dianthus Neglectus Roysi —An English improved Neglectus with sturdier growth and larger flowers50
Dianthus Hybridus Pink Beauty —Toole, 1936. This is supposedly a seedling of D. Neglectus Roysi but if so it was accidently crossed with a much sturdier variety and shows no resemblance to Neglectus. Very glaucous stubby leaves and comparatively large pink flowers on short stiff stems. Heaviest flowering is in May but it is hardly ever without a flower or two till ground freezes. I think this will be classed one of the best Dwarf Dianthus50
Epimedium Macranthum —White flowers and Adiantum like foliage. Shaded rock garden or wall25
Eriophyllum Caepitosum —(Oregon Sunshine.) Western native. Grey foliage. Yellow daisy flowers on 8 inch stems. Poor well drained soil and sun25
Erigeron Compositus —Small divided grey leaves. Lavender flowers. 2 inch35
Globularia Bellidifolia —Tufts of small rounded leaves and grey blue flowers on 3 inch stems25
Geranium Albanium —Light pink flowers. 18 inch20
Geranium Wilfordi —New. Rose pink. 12-15 inch25
Helianthemum Ben Nevis —Yellow15
Helianthemum Buttercup —Single yellow15
Helianthemum Peach —Lovely peach pink20
Helianthemum Rose Queen —Large pink25

DWARF IRIS

Balceng Curiosity —Yellow, purple and olive. Fragrant 8 inch25
Black Midget —Buds soot black. Deep purple blooms. 6 inch25
Blue Standard —Light blue purple bicolor. 9 inch15
Boquet —White and heliotrope. 6 inch25
Butterfly —Cream and olive. Fragrant25
Excelsa —A little purple flower. 4 inch20
Harbor Lights —Soft sulphur yellow. 6 inch25
Prairie Gem —Dark yellow. 6 inch35
Pumila Cyanea —Deep blue purple15
Silver Elf —S. pure white. F. grey, lined light blue 10 inch50

Socrates —Claret red self. Dwarf25
Wigan —Brownish red tone. Very pretty. 6 inch35
Heuchera Pluie de Feu —Fiery red25
Hypericum Japonicum —15-18 inch. Yellow flowers on upright stems15
Lobelia Syphilitica —Great blue Lobelia15
Lychnis Caramanica —New. Popular in England. Low tufts with stems of bright pink flowers25
Pentstemon Crandalli —Mats of narrow foliage and blue flowers in late spring. 1-2 inch. Western Native25
Phyteuma Scheuchzeri —A rock loving species requiring sun and a well drained soil of sand and humus. Violet blue. 6-8 inch. June25
Phlox Columbia —Plant patent 118. The popular new salmon pink. Strong field grown plants50
3 for \$1.25, 12 for \$4.50.	
Phlox B Compte —Satiny amaranth red15
Phlox Coquelicot —Small flowered but brilliant salmon red15
Phlox Gustave Lind —New. Large flowered bright rose red20
Phlox Guy Moore —Crushed strawberry15
Phlox Lillian —Attractive salmon pink20
Phlox Wm. Kesselring —Large violet flowers. White eye20
Potentilla Argentea —Yellow flowers. Leaves green above, silver below20
Potentilla Nivalis —White flowered. Rock garden Potentilla35
Primula Juliae Hybrid Primrose Lodge —Deep crimson flowers. Originated by Mrs. Percy Armstrong of Glencoe, Ill.25
Ranunculus Acris fl. pl. —Old fashioned double yellow "Bachelors Button"15

SAXIFRAGES, Encrusted

Aizoon Lutea —Yellow35
Lingulata —Narrow leaves. White flowers.....	.35
Pectinata —Dark encrusted foliage creamy flowers35

SAXIFRAGES, Mossy

Bathoniensis —Dark green cushion20
Caespitosa —Native American. Creamy20
Hypnoides —Rapid grower. White20
Silene Maritima —Grey foliage, white flowers, sun, 5-6 inch, rock garden or wall15
Silene Maritima Rosea —As above but with pink flowers15
Scutellaria Baicalensis —Bushy. Light blue. 12-18 inch25
Scutellaria Indica Japonica —Alpine Skullcap with mauve flowers. 6 inch25
Sisyrinchium Grandiflorum —(Grass Widow) Western native. Blue flowers. 15 inch25
Stachys Iberica —A dwarf Woundwort25
Thlaspi Jankae —A crucifer with purple flowers in early spring. 4-6 inch20
Thymus Lanicaulus —A free growing somewhat hairy variety from Sweden20

Thymus Nummularius —Glossy foliage. Late blooming. mat forming20
Thymus Serpyllum Carmineus —Low creeper. Flesh colored flowers15
Valeriana Coccinea —Border perennial with bright rose flowers. 16-20 inch15
Veronica Repens —A tiny creeper with many small round leaves. Covered in May with milk white flowers For stone steps, stepping stones or rock crevices. Shallow rooted so must not get very dry20
Viola Affinis —A strong growing blue violet for shade15
Viola Rosea —A delicate flowered, rose colored violet for shade. Not vivid in color but attractive20
Viola Giant White —Flower looks like a giant white form of our native V. Cucullata. Flowers freely early in spring. Increases readily from seeds and is well suited to naturalizing in a wild garden20
Viola, Cream Colored —Species unknown. Small creamy white flowers on branched stems25
Johnny-Jump-Up —We are frequently asked for plants of the old fashioned “Johnny-Jump-Up” or “None So-Pretty”. Here it is15
Vinca Alpina —Apparently a type of V. minor of a very compact growth and double lilac colored flowers25
Vinca Minor Variegata —A form of the Periwinkle with a creamy white border to the leaves25

NATIVE FERNS

Botrychium Virginianum —Three parted fern with curious fertile frond rising from center. Shade but well drained soil25
Onoclea Sensibilis —Sensitive fern. Tropical looking fronds. Curious brown fruiting fronds that persist over winter. 12-36 inch. Sun or shade. prefers damp soil25
Osmunda Cinnamonea —Cinnamon Fern. Luxuriant grower. Not difficult. Sun or shade. Likes damp soil25
Osmunda Regalis —Royal Fern. Prefers a bog but will grow on drier soil but not so luxuriantly. 12-50 inch25
Pteridium Aquilinum —Brake. A coarse fern good for naturalizing on poor soil20

WISCONSIN WILD FLOWERS

Aralia Racemosa —Spikenard. Greenish white flowers in spring, red berries in fall. Large tropical looking foliage. 2-5 feet. Shade and rich soil35
Chiogenes Hispidula —Creeping Snowberry. Grows on acid sphagnum hummocks or rotted acid conifer logs. Must have acid soil, and shade with constant moisture till established. Snow white berries in late summer ..	.35
Epigaea Repens —Trailing Arbutus. This beautiful native may be established in your wild garden if given a very acid soil and not allowed to dry out until established. Strong clumps50
