He was operated on for appendicitis, but had to undergo a second operation in Victoria some three months after. Local medical men were called on both sides as to the nature and result of the first operation. After hearing all the evidence his honor gave judgment for plaintiff.

### SILK AND TEA ON CEYLON MARU

### Freighter Will Take Place of Passenger Vessel for Rest of Year.

After an absence of two years the steamer Ceylon Maru, Captain Pyne, arrived just after noon, bringing 357 tons of general freight for this port. For Seattle the steamer had 2,387 tons of freight, largely tea and silk. Of the silk she had 600 bales worth \$200,000, while there were 2,000 cases of new crop tea, one of the largest consignments that has crossed the ocean for some time.

The Ceylon Maru will probably make two more trips across from Japan on this run. She is replacing the Iyo, which has been transferred to the European route.

When the last Japanese steamer arrived she brought word that two of the liners were to be changed. This it seems was based on the knowledge that two of the European liners had gone into the coasting business and the assumption that two of their places would be filled from this line. Whether another of the big passenger liners will be taken off at once no one on the Ceylon seemed to know. All they knew was that the business being done did not warrant the running of such large steamers.

The Ceylon Maru will leave this evening or early to-morrow morning.

Music, instrumental and vocal will be provided by J. G. Brown and Jesse Longfield.

## CHARGER AGAIN IN TOW

Tug 8011 Holding Hawser of Sunken Sea Lion Near Race Rocks.

Captain Newby the pilot who brought in the Ceylon Maru this afternoon saw a tug taking the hull Charger, which had been in tow of the Sea Lion across to Port Angeles about 11 o'clock this morning while another tug took charge of the hawser which is still holding to the sunken tug.

Captain Newby says that the tug went down in at least sixty fathoms of water and he is doubtful if she can be raised.

Judgment was delivered by the full court today in the Vancouver case of Vincenza Brand vs. E. G. Warren and Alex. Robinson, dismissing the appeal of defendants with costs.

## GENERAL ASSEMBLY.

Reports on Moral and Social Reform and Statistics Are Presented.

(Special to the Times.)

Hamilton, Ont., June 10.—At this morning's session of the Presbyterian General Assembly, T. C. James submitted recommendations of the committee on moral and social reform and Dr. Shearer spoke on the work of the committee. Rev. Dr. Eringa regretted that no statement appeared in the recommendations deploring the prevalence of political corruption, and then proceeded to furnish the assembly with some facts gleaned from Sydney and stirred up considerable comment for and against his remarks.

On motion of Rev. Dr. Ramsay a committee was appointed to frame a resolution optimizing the feeling of the assembly regarding the desirability of peace among nations of the world.

Dr. Ratcliffe reported for the committee on statistics, calling attention to the fact that offerings for schemes were largely in excess of previous years. There was a notable falling off in the number of families and communicants, but he thought clerical errors in the report represented the decreases. The assembly is thinking out, but a lot of business remains.

**PROPOSED UNIVERSAL MILITARY TRAINING**  
Resolution Withdrawn at Session of Imperial Press Conference.

London, June 10.—At yesterday's session of the Imperial press conference, Mr. Fluk moved, and Mr. Cohen seconded, a resolution that it is essential that in each of the self-governing dominions systematic and universal training of the male population should be strenuously advocated.

John St. Strachey, of the London Spectator, and L. C. M. Amey, of the London Times, proposed an amendment to include Great Britain.

The scope of the resolution produced a warm protest from Mr. Macdonald, editor of the Toronto Globe, who said it was a subject with which the conference had nothing to do. Let each dominion decide which was best for it. For Canadians to advocate what was urged upon them would hurt Imperial interests in Canada, (Hear, hear.) Canada need not say it was loyal. It offended him to hear men ask that. There was enough loyalty in Toronto alone to stock the whole Dominion. (Hear, hear.) Let them urge upon their people the importance of the militia and the importance of the fleet, navy to be one, fleet to be as many as empire would provide. There need be no doubt once it made plain that a crisis had arrived.

Mr. Macdonald also hinted that some British journalists might refrain from screeching in concluding, and speaking for himself and other Canadians, he begged that they would not be asked to vote for the resolution.

Mr. Balfour asked that the resolution be withdrawn, which was done with the unanimous assent of the conference.

Lord Charles Beresford informed some of the Canadian delegates that the Imperial press conference yesterday that he intended to visit Canada this autumn. He hopes for an opportunity to discuss questions with leading men.

Shot by Chief of Police When He Refused to Obey Command to Stop.

Indianapolis, Ind., June 10.—Chief of Police Metzger shot and seriously wounded Samuel Dowden, a local attorney, who was speeding his automobile Tuesday evening and refused to stop at the chief's demand. Metzger was accompanied by Police Chief Wilson, of Oakland, Cal., when Dowden's automobile whizzed by.

"Stop," cried Metzger. His command was repeated by Wilson to no effect. After commanding him again to halt, Metzger drew his revolver and fired three shots. Dowden was shot through the knee and was carried to a hospital by policemen who were attracted by the shooting.

Metzger said he fired at the tires of the machine, which he claimed was going at a speed in excess of 35 miles an hour.

It was announced yesterday that a grand jury would be asked to investigate the case.

**LUMBAGO VICTIM GIVES GOOD ADVICE**  
Tells of a Wonderful Remedy That Brought Him Health and Comfort.

The man whose back is lame and sore can't afford to trifle with the hundred and one so-called cures for lumbago. He needs a powerful, penetrating, pain destroying liniment—one that will quickly sink into all the tendons and muscles—such a liniment is "Nerviline," which acts like lightning. Right to the spot, it goes, carrying healing, soothing properties to the nerves and muscles that cause all the pain.

"When my back was so painful that I couldn't turn in bed, when rubbing hot iron over my back failed to ease, when I cried aloud with agonizing twinges—then it was that I used Nerviline and got quick relief and was ultimately cured. There is something in Nerviline that isn't to be found in other liniments. Its power over pain and its facility for sinking into the core of the sore parts is simply a marvel. After getting rid of the pain and when I started back to work, of course I wore a Nerviline Porous Plaster over the weak spot. I have friends that use Nerviline for Rheumatism, Neuralgia, and Sciatica. They all think as I do that Nerviline is the strongest, best and safest liniment made.

The above statement of F. R. McMormore, the well known merchant of Greenville, is ample proof that Nerviline can't be beaten, try it yourself—be sure the dealers give you "Nerviline" only. Large bottles, 25c each.

**STRETCHED MIDDY.**  
Submitted to Torture on the Rack Until Lengthened Out.

A dispatch to the New York Tribune from Annapolis says: Luther Welsh, of Kansas City, who had to stretch himself four years ago to get into the naval academy, will graduate as No. 4 among the 174 picked men of his class, and with equally as good a record in athletics and as a drill commander.

Welsh had passed the mental examination and had an appointment as a midshipman within his grasp when he was found short by an inch of reaching the required height. Undaunted, however, he submitted himself to a specially constructed instrument similar to the rack of Inquisition (says), and succeeded in pulling out the extra inches in his spinal column until he measured up to the full standard of an American midshipman.

**ANOTHER SENSATION IN CALHOUN TRIAL**  
Honey Determined to Trace \$200,000 Drawn by United Railroads.

San Francisco, Cal., June 10.—The disposal of \$200,000 drawn from the United States mint by representatives of the United Railroads was the subject of the inquiries of the prosecution in the Calhoun trial yesterday. During the first weeks of the trial Special Prosecutor Honey intimated that he would try to prove that this money was used in the payment of bribes to the members of the former board of supervisors, and he caused a sensation in the court yesterday when he threatened to compel the defendant to produce vouchers showing the disposal of the big sum.

George E. Starr, treasurer of the United Railroads, whom it is alleged left San Francisco on June 17th, 1907, to avoid giving testimony in the graft trials, appeared in court, and was called to the witness stand. Starr testified that Calhoun instructed him to place \$200,000 to the credit of the United Railroad Investment Company of New Jersey, the parent company of the United Railroads of San Francisco. He received, he stated, a receipt for the amount from Ford for the company. This receipt he carried in his accounts as cash. Starr claimed that he left this city a year ago not to avoid giving testimony in the graft cases, but upon business connected with the United Railroads. He affirmed that he returned to San Francisco of his own volition.

Honey's attempts to learn what disposition was made of the money in question were followed by the cross-examination of the witness by Stanley Moore, for the defence. In reply to Moore's questions, Starr stated that at the time he accepted the receipt for the \$200,000 from Ford, Stikoback James Farley was inquiring great expense in behalf of the company in an effort to settle the company's differences with its platform employees. He intimated that the money had been utilized for this purpose.

Honey was upon his feet in an instant.

"If the defence intimates that any part of that \$200,000 went to Farley, or anyone else but Abe Ruef," he shouted, "we will demand that the vouchers Farley drew upon the United Railroads be produced in court. Then the jury can decide where the money went."

NECESSITY FOR AN IMPERIAL NEWS SERVICE.

It is hoped that one result of the Imperial Press Conference now being held in London will be the establishment of an Imperial news service. There does not appear to be any reason why co-operation between the newspapers of Great Britain, Canada, Australia, South Africa and other sections of the Empire should not remove the difficulties which in the past have stood in the way of such a necessary undertaking. There has not been unjust action in the past in this highly important matter from an Imperial point of view for several reasons. The great journals of Britain have hitherto been more concerned about matters affecting the relations of the nation with foreign powers than about the political and domestic affairs of "the colonies." They have devoted the greater part of their resources to the maintenance of able correspondents in the capitals of the different countries recognized as important news centres. They have had "Reuter" as an auxiliary, it is true, but this agency never appears to have considered Canada worthy of its very serious attention. The press of this country has not yet attained such a position of affluence as would warrant the maintenance of a news agency of its own. It has been supplied, and is supplied to this day, with the news of the Motherland and with

foreign and domestic news by the associations of the United States, formed and maintained chiefly by the more important journals of that country. There was a time in the history of the newspaper press of Canada when we had good reason to complain of the character of that service. It was colored to suit the taste of readers of the United States at a period when there was an unreasonable and unreasoning prejudice against Great Britain and against everything pertaining to the British Empire. But that charge can no longer be laid against the news supplied by the chief of the United States news agencies, the United Press and the Associated Press. Some of the leading journals of Canada have recently paid deserved compliments to the efficiency of the services performed and admitted that the charges for the same were so reasonable as to preclude the possibility of the Canadian press, owing to the limitations of its resources, performing the work upon a similar scale at anything like a corresponding cost.

Nevertheless, as the "colonies" have now attained a position of admitted importance within the Empire, the necessity of an Imperial news service is admitted. It is essential that every part of the Empire should have precise knowledge of what is transpiring throughout its length and breadth. When men like Northcliffe and Pearson, with all but unlimited resources at their command, have set their hearts upon an undertaking, we may be sure that that undertaking will be carried to a successful conclusion. If private enterprise be not sufficient, we doubt not that all the governments concerned will become partners in the scheme, and there is good reason to believe that one important result of the conference of Imperial press representatives will be the establishment of an Imperial news service and that presently the people in every part of the Empire will learn every day all about the doings of their brethren.

THE KAISER'S VOICE.

The fact is particularly noticeable that at this time when the public journals and prominent men of Great Britain and Germany are literally seeing alarming things and practically hurling defiance at each other across the water, the Kaiser, is strictly adhering to the pledge he was forced by his Chancellor to take, and is maintaining a wise and statesmanlike reticence. In the midst of voices to which all the world is eagerly listening, one fails to detect the high, clear note of his Majesty. Possibly it is just as well that at a less critical time the Kaiser was taught a lesson in self-control and the responsibilities of his Imperial position. Our readers will remember that as a result of the sensation created by his statement that he planned the plan of campaign in South Africa executed by Lord Roberts and the no-less-sensational interview published by the London Telegraph, Wilhelm gave von Bulow an undertaking that in future he would speak only through his constitutional advisers. That was unquestionably a bitter pill for the reigning Hohenzollern to swallow. But he gulped it—and the royal voice has been mute ever since. It is therefore a good thing for all the world, and an especially good thing for Britons and Germans now that an ill-considered word might precipitate a mighty European conflagration, that his Majesty's tongue has been bridled. If he had not been taught a lesson in discretion the temptation to participate in the wordy fray might have been too much for his strength.

And in this connection it is reassuring to note that while people prominent in the public affairs of both nations are working themselves into a state of great nervous tension, in other and equally important departments of life Germans and Britons are exchanging cordial greetings and formal courtesies, manifestations which encourage the hope that presently gusts of passion may "blow themselves out" and be succeeded by a very much more desirable state of mind. The London Daily Chronicle of May 26 contains the following complimentary editorial reference to the visit of an important educational body from the city of Berlin:

"The reports of the daily doings of the municipal visitors from Berlin are a welcome and wholesome relief from the alarms, myths and scares which preceded them. Simultaneously there are many British visitors in Germany receiving the same courteous welcome that our City Fathers are giving to the German Burgomasters. Such international visits should do much good. They bring responsible and level-headed men of the one country into personal contact with those of the other, and should help to convince each set of visitors that there is a sober, steady public opinion in the other country which is misrepresented by the shrieking brotherhood. Meanwhile we may venture to compliment the visitors from Berlin on their capacity for hard work. Yesterday morning, for instance, the Burgomasters 'did' the City of London School, the Guildhall School of Music, St. Paul's Cathedral and the Central Criminal Court. The thoroughness which we have all come to regard as characteristic of the Germans in business and in learning is carried no less, it seems, into their sight-seeing."

There are disciples of Dingley and of Aldrich in Canada also. The Toronto Globe points out that in the debate on the woolen duties in the Commons Dr. McIntyre, of Strathcona, criticized the speech of Mr. Thoburn, the member for Lanark. A few days after the debate, in which Mr. Thoburn described the dire straits in which the woolen industry was plunged, Dr. McIntyre received the following letter from a workman in Alberta: "Forty years ago Mr. William Thoburn was working in the factory at one dollar a day. Thirty years ago he started making fannels. He is now worth a quarter of a million dollars. He needs more protection, don't he—poor Bill?"

Honors came early to Hon. William Lyon Mackenzie King, M. P., C.M.G., etc. The Minister of Labor is the youngest member of a government Canada has ever had. He is thirty-four years of age. Sir Hibbert Tupper was sworn of the Privy Council at the age of thirty-five, we believe. But Sir Hibbert had the active assistance of his father in placing his foot upon the ladder. Mr. King received no extraneous aid in his career. Native talent and painstaking industry are responsible for his preferment. Mr. King's future is full of promise.

The case of the coast terminus of the Grand Trunk Pacific Railway is cited as an example of the benefits British Columbia receives as a result of its reversionary interests in Indian reserves. Precisely. The government sold its share of the townsite for one dollar an acre; the Indians received seven dollars and a half an acre for theirs. The Dominion government conducted the negotiations on behalf of the Indians.

CHARGES AGAINST OFFICIALS BASELESS

Committee Completes Inquiry in Washington College Affairs.

Pullman, Wash., June 10.—The charges which have been made in certain quarters in western Washington against the State college have proved upon investigation by the legislative investigating committee to be without any foundation. The charge that Regent Bernard collected interest on the federal funds has been explained to the satisfaction of the committee, it being shown that interest has been in fact placed to the credit of the college. The charge that Bernard, who is an agent for the American Book Company, has used his influence as a regent to induce the college to use his books is also shown to be without foundation, the actual portion of books published by that company in use at the college being but four per cent. President Bryan, of the college, has shown to the committee that the federal funds of the college have been handled, disbursed and accounted for in every respect as required by the federal laws governing them.

SPENDS FREELY FOR BENEFIT OF MANKIND

Mrs. Russell Sage Has Disbursed \$25,000,000 in Less Than Three Years.

New York, June 10.—Spending her fortune at the rate of \$2 in the same length of time that it took her husband to accumulate 30 cents, Mrs. Russell Sage has disbursed \$25,000,000 in less than three years, and if she continues at the present rate the entire \$65,000,000 which it took a lifetime to accumulate will be gone within five years more. It took Russell Sage more than fifty years to scrape together his immense fortune which amounted to \$3,500 a day for his entire life. Mrs. Sage has been spending this money at the rate of \$25,000 a day for the benefit of mankind. She has given \$5,000,000 to educational institutions, \$2,500,000 to religious work, \$10,000,000 to the Sage foundation and the remainder has gone to works of a semi-religious and educational character.

SPOKANE RATE CASE. Final Hearing Postponed Until Sitings Are Held on Pacific Coast.

Washington, D. C., June 10.—The final hearing of the Spokane rate case was postponed until after hearings to be held on the Pacific coast this fall, when the matter came up before the interstate commerce commission yesterday. Pending the final action the class rates to Spokane recently ordered by the commission, will go into effect and commodity rates will remain the same, the whole question of commodity tariffs, and rates from the coast to Spokane being left for adjustment after the fall hearing. It is believed that this postponement is the result of consideration of the Salt Lake City, Reno, Nev., and other cases of the same connection, and that there will be a readjustment of all rates in the inter-mountain territory. P. M. Stevens represented the people of Spokane to-day and J. N. Teal, of Portland, and former Assistant Secretary of Commerce and Labor Wheeler appeared for the people of San Francisco, Portland, Seattle, Tacoma and the rest of the terminal points. In Austria laborers who have passed the age of sixty may claim from the government a pension equal to one-third of the daily wages they received during their working years.

POLICE ON TRAIL OF BLACKMAILERS

Seven Supposed Members of Gang Are Now in Custody.

(Times Leased Wire.)

Columbus, Ohio, June 10.—Augustine Marini, arrested on Wednesday at Dennison for alleged complicity in the recent operations in this state of the blackmailing "Society of the Banana," has been served with a federal warrant and was taken to-day to Canton for arraignment before United States Commissioner Whiting. The police are inclined to believe that Marini was the go-between the Lima blackmailers and that he acted as intermediary in the correspondence of the society with John Amicon, who was threatened with death if he did not deliver the sum named in a series of letters. Marini recently returned to Italy. He left Dennison six months ago, shortly after Barney Bonif, an Italian fruit dealer of Dennison, sold his store at half its actual value and fled to Italy to escape the penalty he feared will be inflicted upon him by the members of the mysterious society for refusing to heed their demands for money. Bonif was murdered shortly after his arrival in Italy.

Of the thirteen alleged members of the "Society of the Banana" who were arrested in various Ohio cities, four have been released. Five, including Marini, had been served with federal warrants and are charged with attempting to extort money from Amicon, the Columbus fruit dealer. It is thought the other supposed members of the gang will be taken into custody to-day. Following a consultation among Post Office Inspector J. F. Oldfield, Postmaster Crum and other officials last night, at which it is said that the letters found in the trunk of Sam Lima, the Italian arrested at Marion, were examined closely, two inspectors were sent to Springfield to-day to apprehend two Italians of that city believed to have been connected with the affairs of the past few months by Lima's voluminous correspondence.

WILL DROP CHARGES AGAINST MISSIONARIES

Accused of Libel as Result of Exposures Regarding the Congo.

Brussels, June 10.—Government officials declare that the prosecution of Rev. Wm. Morrison and Rev. W. H. Sheppard, American missionaries in the Congo, accused of libel by the company that has the rubber gathering monopoly in the Kasai district, would be dropped when the ministers are brought before the courts on July 30th. It is intimated that King Leopold has directed that the charges, which involved him with the company, be passed over because of fear of the disclosures which would certainly be made if the case came to trial. The case has twice been postponed already.

Charges of libel were based upon statements made by the missionaries to the effect that the rubber company treated its native employees inhumanly.

MAKE TRIAL LIVELY

Attorney Aims Blow at Prosecutor and Latter Attempts to Retaliate. Colfax, Wash., June 10.—The first round in the legal battle resulting from the quarrel between Rev. Herbert G. Buss, pastor of the First Baptist church, and the trustees of the church society was won by the latter, when Mrs. Buss was found guilty by a jury in the justice court on a charge of flourishing a gun in a crowd and was fined \$1 and costs. The case will be appealed.

The case against the pastor on a similar charge was dismissed on motion of the prosecuting attorney, but the fight is not yet ended, for Rev. Mr. Buss stated that he would secure warrants charging the trustees with assault with intent to murder, and would prosecute them to the limit. The proceedings in the trial of Mrs. Buss were somewhat enlivened by an altercation between the attorney for the defense, J. F. Brown, and the deputy prosecuting attorney, J. W. Matthews, in which the latter, after Brown had aimed a blow at him, attempted to retaliate by striking his opponent with a chair, and would undoubtedly have landed an even lustier blow had not the timely intervention of Deputy Sheriff Cole, who sprang between them and caught the chair as it was descending on Brown's head. The affair created a sensation.

Probably the simplest court livery in the world is the Korean. The Emperor's servants are all dressed in garments and headgear of red calico.

"You have advanced thirty years in America since I left," said the Baroness, "yet in our country we have advanced many, many more years." Before departing for West Point the Baroness presented the college with a silver bowl, a gift from the Emperor of Japan.

### BOWLING PARK IS TO OPEN SATURDAY

Large Attendance is Expected at the Grounds on Occasion.  
Members of the Beacon Hill Park Bowling Club are reminded that the opening of the green takes place on Saturday next at 2:30 o'clock, and all members and their friends are cordially invited to attend the ceremony. Those who take part in the bowling are reminded that rubber soled shoes, similar to those used on tennis courts, are required, as ordinary shoes ruin the green in a short time.

As this is the opening of the first green in Victoria, a large attendance is looked for, and the green has been made very attractive for the occasion, the committee in charge doing their utmost to make the opening a success.

### SEWER EXTENSION.

Work That Will Be Taken Up at Earliest Date Possible.  
Extensions of watermains and sewers which citizens have been asking for will be taken up by the water commissioner and city engineer shortly, now that the borrowing of money for the purpose has been authorized by the ratepayers. There are a great many short extensions requested in order to serve new parts of the city which have been developed within the six months since the last loan was voted upon. The charges for interest and sinking fund on the waterworks loan of \$125,000 will be met out of the water rates and frontage tax on mains, and on the sewer loan of \$45,000 out of the frontage tax imposed to that end.

One of the first works to be taken up will be that of the severing of the district which now drains into the harbor at the foot of Queen's avenue through the surface drain. A system of pumps will be necessary to force the sewerage into the Government street sewer at Chatham street, and the total cost of the work will be about \$11,700.

Stephen George, charged with obtaining money by false pretences, is to be deported. The man has been in jail over a week and unable to obtain bail which was fixed at \$100. Arrangements have been made by the immigration authorities to have him sent away. When arrested George was about to depart for Vancouver.

An illustrated lecture on India will be given in the lecture room of the First Congregational church this evening by the Rev. Dr. Hazen, who has spent the past eight years in India, and is now on furlough. Mrs. Hazen will contribute a number of vocal solos and it is hoped that there will be a large attendance. An offering will be taken up at the close of the lecture which will begin at 8:15 sharp.

The last meeting of the Emmanuel Baptist Young people held in the Sunday school room, was very successful. The topic for the evening was "A Night with Burns." Mr. Stevenson gave a talk on the life of Burns and read several poems in true Scotch style. The following numbers were excellently rendered, Mrs. and Mrs. J. R. Westcott; Miss Stevenson; reading; Miss G. Johnson; trio, Misses Brynjolfson, Sherwood and Johnson.

### TRANSFERS GRANTED FOR LIQUOR LICENSES

Mayor, on Behalf of Commissioners, Says Laws Will Be Enforced.

At the regular meeting of the license commissioners held yesterday afternoon the chairman, Mayor Hall, announced that while the powers of the commissioners was limited, he was authorized to state that the court intended to be very exact in seeing that licenses carried out the law to the letter. There had been up to two years ago a certain amount of laxity but this would not be continued. It was not their intention to persecute anyone, but they believed it was in the interest of the community to have the laws enforced.

A letter was read from the board of school trustees asking the commissioners to take steps to have the Lion brewery removed from its present situation as it was too near the new school. It was found, however, that the commissioners had no power in the matter so long as the place was conducted in an orderly manner.

An application from the proprietor of the Maryland restaurant for a license to serve intoxicating liquors with meals, was refused, the commissioners not having power to grant it under the statute.

The clerk read a copy of a letter which had been sent to each saloon warning the proprietors that liquor must not be sold to any person who was under the influence of liquor.

Charles Lelievre did not appear to ask for a transfer of the license of the Mecca saloon, so the license was not granted. The law requires that the application shall be made in person.

Mayor Hall suggested that it would be a good plan to cancel the license, but it was finally decided that the application should not be granted, and that a temporary permit might be granted until the next quarterly meeting. This will necessitate advertising the application over again.

The following were the applications, all of which were granted with the exception of the Mecca:  
Temporary transfer made permanent: Western hotel from J. H. Gosnell to C. A. Stewart; King's Head saloon from Charles Hanbury to George Washington Brugg; Albion saloon, W. J. Richardson to John Clovis.

New Transfers: Fountain saloon from Job Foster to John Medritch; Hall saloon from Charles Tulk to David James Hill; Mecca bar, interest of John McMillan to Charles Lelievre; Avenue Retreat (Auto), W. J. E. Clode and Jas. McCloskey; Retreat saloon, Geo. H. Brett to Jas. H. Gosnell.

All the commissioners were present.

### RACES INCREASE IN INTEREST

### EXCITING COLLISION OF HORSES ON COURSE

### Barney Oldfield Made a Splendid Finish—Good Records.

Mechlin had the lead with Bronson and Flaherty following together a length behind. Rene W. Mecklin, Davis and Mechant brought up the tail. The upset of the favorites sent Ed Davis away out to the rails, letting Mechant slip through to second, where he remained to the finishing sprint. Metlakatla, Nellie Racine and Dandy Fine was the order of the third, Paladino, the favorite, pulling up lame. Metlakatla took the race away from Nellie Racine in the last ten yards. Nellie had led all the way and was surprised at the finish.

There was nothing to the fourth race but big Barney Oldfield, although the books let him go at 2 to 1, and a lot of money was won on the horse. Barney ambled along and changed positions twice in the six furlongs and coming round into the straight, showed a long tail to the field, winning well in hand.

Mattie Mack cut two-fifths off her own record of Saturday for the mile and sixteenth, and put up 1:51 1/5 for the new time. Emma G. went out to win the money she dropped Saturday by bad acting at the start. Alarie got her away in good form and lay along, side Titus till he outran himself in the final furlong, when the mare passed him and had the race alone, getting three-quarters in front of Redwood with Maud McG., a length, third. Emma beat Titus easily into the straight and finish.

J. Virtue was in the judges' box yesterday afternoon with Presiding Judge Skinner and R. F. Leighton. The officials are well-satisfied that the meeting is a success and anticipate its popularity will grow each week. The horsemen and visitors are getting to like the surroundings here.

owing to being held down by work, who will appreciate the opportunity to get to the ball ground for a spell on Friday night. The hour set for the opening of the game is one that will suit all, and Secretary Wattleit ought to have a large crowd at the Royal Park to-morrow night.

The local team has been getting in some of the best work this week, and is playing ball up to the top average. The infield in as near perfection as can be and there never was anything the matter with the right, left and centre after Multnomah went away. The team want a third pitcher, and Terault ought to have had his chance long ago. The team is fitter than in the game at Royal Park against the Knights of Columbus. Both line ups for to-morrow night are:

Victoria—Surplice and Terault, pitchers; Robertson, catcher; Northcott, 1st base; Plummer, 2nd base; Matthews, 3rd base; Klopff, 3rd base; Burns, centre; Wattleit, left; Moore, right.

Seattle Cubs—Oass, pitcher; Ladd, catcher; Jockle, 1st base; Smith, 2nd base; Wendolyn, 3rd base; Ward, short stop; Murrach, centre; Doyle, left; Fuller, right.

O'BRIEN DEFEATED BY STANLEY KETCHEL. Philadelphia in Third Round. Referee Stopped Fight at Philadelphia in Third Round.

Philadelphia, June 10.—Stanley Ketchel, the middleweight champion last night defeated Jack O'Brien in the third round, thus accomplishing what Jack Johnson the heavyweight champion failed to do in six rounds some three weeks ago.

The fight was stopped in the second minute of the third round after O'Brien had been knocked down twice in the second and once in the third and was almost unable to raise his hands to defend himself.

The fight was a whirlwind affair from the start to the finish. Ketchel went after O'Brien from the top of the gong and showed that he was determined to catch him and register a knockout. He devoted his attention to O'Brien's body, until he had drawn the latter's guard down and then he sent in a crashing right in the second round that scored the first knock down. O'Brien got up gamely but went down flat on his back a few minutes later from right and left to the jaw. This time he struggled to his feet at the count of six. Two seconds later the gong rang.

The third and last round was brief. Ketchel went in for a knockout. In his anxiety to finish it quickly he was

WILL, and many of his swings went wide of the mark. Finally he cornered O'Brien and sent in a short arm blow on the jaw that about finished it. O'Brien could not fall because he was pinned in a corner. He crumpled up on the ropes and clung to Ketchel's neck desperately. Shaking him loose, Ketchel sent in a right and left again that put O'Brien very groggy. Referee McGuigan seeing O'Brien's condition and wishing to avoid a possible serious termination stopped the fight. O'Brien was disposed to protest this action, but thought better of it and left the ring.

The announcement was made that Jim Jeffries would appear at the National club next Wednesday night in a friendly bout with Sam Berger, in order that Philadelphia might be able to judge the progress the Californian has made in his preliminary training for a possible fight with champion Johnson.

ATHLETICS. WALKING MATCH. E. S. Woodward, of Victoria West Athletic Club, who was anxious to arrange a walking match with some local pedestrians some time ago, has come to an agreement to meet Albert Stone, a sailor of the H. M. S. Egeria, who claims to be a walker of distinction.

The two have agreed to walk over a seven-mile course. It will be at Oak Bay, and the contestants will go twenty-one laps round the Oak Bay track. The time for the commencement is 8 p. m. Alex. Montieth, president of the W. W. A. A., will be the judge and starter. Stone was second in a recent race at Nanaimo and sent the challenge to Woodward.

**Ball Game Here TO-MORROW NIGHT**

Seattle Cubs and Victoria Meet on Diamond at 6:15.

Terault will make his debut in senior ball to-morrow night at Royal Park when the Victoria nine plays the first of two games against the Seattle Cubs, a team being brought over by the local ball aggregation to play here Friday night and Saturday afternoon. The game will be called at 4:15 sharp, so that everyone can get there, having a time to eat between the races and the ball game.

Terault will pitch part of the game and Surplice the balance. Terault will probably pitch the Saturday afternoon game through the nine innings. The Cubs are composed of members of several of Seattle's semi-pro players of last year. In the team given below will be seen several of the strong ones that played against the 1908 Victoria team at Oak Bay.

The introduction of the double header here for the week end will find favor with the fans. There are hundreds who cannot see a Saturday afternoon game

SEA LION SUNK BY SCHOONER

TUG COLLIDED WITH OCEANIA VANCE

Puget Sound Tugboat Co.'s Craft Went Down After Being Rammed.

(Times Leased Wire.) Seattle, Wash., June 10.—After having narrowly escaped a watery grave in the straits of Juan de Fuca, ten men of the crew of the tug Sea Lion, which was run down and sunk by the American schooner Oceania Vance yesterday morning, have arrived in Seattle on the steamer Whatcom, having been transferred to that vessel at Port Townsend.

The collision occurred during a dense fog shortly after six o'clock in the morning and was most violent. The sharp stem of the schooner cut through the rail and guard of the tug like a knife, making a rent several feet long. For the space of about two minutes the vessels were locked together, the Vance's bow extending into the tug's forecastle. The hole in the hull of the Sea Lion reached far below the water line and almost instantly a torrent of water began rushing into the stricken tug. Fireman J. Williams and a companion were asleep in the tug's forecastle and escaped death amid the wreckage by the narrowest of margins, the schooner's bow separating the men, who occupied adjoining bunks. They managed to scramble over the wreckage and reach the deck. While the vessels were locked together the Sea Lion's crew were all able to climb up the head gear and over the jibboom to the Oceania Vance's deck. The schooner then drew off and the tug sank like a stone.

When the collision occurred the Sea Lion had in tow the barge Charger. The hawser was not parted and the grave of the wrecked tug, which lies in 70 fathoms of water, is marked by the barge. An effort will be made to raise the sunken vessel, but it is not believed that this will be successful. The Sea Lion, which was one of the largest of the fleet owned by the Puget Sound Tug Boat company, is valued at \$50,000. She was recently purchased at San Francisco from the Shipowners' and Merchants' Tug Boat company.

The local office of the Puget Sound Tug Boat company on receiving news of the collision sent out J. Farrell with the J. G. Cox to see if any help was needed from this port, but the fog was so thick and the weather so bad that she had to return without finding the Charger or the Oceania Vance.

LUCKY MR. BROWN.

If it had not been for "Fruit-a-tives," Mr. Lemuel Brown, of Avondale, N. B., would still be living on stale bread and porridge, and suffering tortures with indigestion. His stomach was so weak that he had to give up all kinds of meats, potatoes and other vegetables, and even deny himself the comforts of a cup of tea. Fortunately, Mr. Brown read about "Fruit-a-tives," and they have made me feel like a new man. I can eat all kinds of hearty foods and enjoy tea and coffee. UNIFORM SYSTEM OF WIRELESS TELEGRAPHY

Conference in London Will Consider Subjects of Interest to Meteorologists.

Flashing around the world by wireless telegraph warnings of approaching storms and other disturbances of the elements, is one of the latest international projects. Still another, perhaps little less important, is the proposition to equip the vessels of all nations with uniform storm signals.

These are the leading problems to be thrashed out at a conference of distinguished meteorologists of the principal nations to be held in London on June 21st. The proposed conference is the outgrowth of a meeting of the leading meteorologists of the world held in Europe several years ago. A concerted movement will be inaugurated to induce the principal governments to adopt a uniform system of wireless telegraphy, marine weather reports and to reach an agreement so that all nations shall display a uniform marine storm signal. If such an international agreement can be effected, it is believed that it will be a great factor in saving life and property on sea and land, and at the same time be highly important in the making of weather predictions.

W. W. King, passenger master for the Jensen line of steamers, came over to meet the Ella this morning and left on her for Vancouver.

Special railway carriages for dogs, fitted with hot water pipes and mattresses, are to be provided in Prussia.

ELLA ARRIVES AFTER VERY STORMY TRIP

Steamer Brings Large Cargo—Business Men's Excursion Being Organized.

After experiencing bad weather with northwesterly winds all the way north from San Francisco the German steamer Ella of the Jensen line arrived this morning early from Panama and way ports. While the steamer brought only 22 passengers to this port she carried a large number between intermediate points, several hundred in all being handed. Among those who arrived was Mr. Crocker the photographer who makes the "Trio" pictures and who went down on the steamer for the purpose of securing views of Mexico, Mother Superior, Sambaqui and Sister Marguerita, from Los Angeles landed here and went on to Seattle by the Iroquois. The Mother Superior it is understood is moving in the matter of the establishment of a new convent on Puget Sound. She is said to have the handling of a quarter of a million dollars for that purpose. Two Sisters from Seattle met her here.

The Ella brought about 200 tons of freight in all. Part of this consists of coffee, plaster, asphalt, vinegar, pickles and general merchandise for Vancouver and Seattle. A small consignment of vinegar, catsup and oil, 80 casks in all, were landed at this port, and there are 1200 tons of copper ore which is being taken to the smelter at Ladysmith. One thousand bunches of bananas were landed at San Francisco.

The Jensen line is inaugurating a special excursion from Mexico City to the Seattle Fair giving round trip rate of \$19 which covers rail and ship. A large number of people down there have asked for this and expressed their intention of coming north.

A commercial excursion from Seattle and neighboring ports is being organized by the Jensen people to go to the Central American and Mexican ports in August next. Forty merchants will be taken south and they will visit all the principal commercial men at the ports of call. The idea of the shipping company is to foster the trade with these countries, most of which at the present time goes to Germany. For the year ending February last the imports to Central America and Mexico of such goods as might be supplied by Canada and the United States amounted in all to \$18,000,000. On account of the fact that there is a rate between Hamburg and those ports of 24 1/2 cents as against 75 cents from this coast, Germany has in the past captured most of that trade, about seventy per cent going to them.

The Ella left for Vancouver after discharging her cargo, leaving about 10 o'clock.

FORTNIGHTLY MAIL TO QUEEN CHARLOTTE ISLANDS

All Points Will Receive Improved Service in Future.

To meet the needs of the rapidly developing northern country an improved mail service is to be provided. Mention was made of this in a special dispatch from Ottawa a few days ago.

Through the efforts of Hon. W. Templeman the arrangements have been made for a fortnightly mail service to all points on Queen Charlotte Islands. The service south of Skidegate will be performed by the C. P. R. company's steamers, leaving Victoria every second Tuesday and calling at all points between Collihan Bay and Skidegate. The service to Massett will be from Prince Rupert direct, and will very likely be performed by the Union Steamship Company's steamer Coquitlam.

LIGHTING OF CITY OF NEW WESTMINSTER

New Agreement to Be Made With B. C. Electric Company.

New Westminister, June 8.—The city council on Monday night received a communication from the B. C. E. Railway Company, stating that the installation of the rotary converter at the Tenth-street power station was now complete and that the company desired to start up the machinery in a few days. As it was found necessary to have expert electricians on the job the company made an offer to the city to run the station. Three first class operators would be employed to attend to the work, under the control of the city electrician, P. Bowler. Positions with increased salaries would be found for the employees of the city now engaged in the work. The city was asked to pay \$100 a month to the company.

Ald. Gray pointed out that the men at present employed by the city in the station were not capable of handling the heavy railroad work for which the new plant had been installed, more especially since the power would be raised from 20,000 to 40,000 volts, while the experts would be able to look after the city lights. He figured that the city by the transaction would be well protected and would save a considerable sum of money.

Mr. Bowler was asked several questions in regard to the matter from a technical standpoint. It was said that the city would lose nothing and have everything to gain by the change. The project was to safeguard the city lighting system, and since he would be in full control of the station, that would be accomplished. The light would come first, power next, and the railroad afterwards.

It was deemed advisable that a new agreement should be made between the city and the company, making it definite that the city would be supreme. The city solicitor will be instructed to draft the agreement.

New York, June 10.—Literary and publishing circles are discussing the summary reproof administered to Mark Twain by the John Lane Company, of London, publishers of a volume called "The Shakespeare Problem Solved," by George G. Greenwood, M. P.

In the latest book by the American humorist, "Is Shakespeare Dead," published by Harper & Brothers, there are many pages of extracts from Greenwood's book in his text, but failed to mention the name of the author.

The John Lane Company has announced that it will not permit the circulation of Twain's book in London unless the plates are altered and Greenwood given proper credit for his work.

"Capt. R. R. Belknap, of the United States navy, has just sent me word of the completion of the work," said Mr. Bicknell yesterday. "Material for 1,100 of these houses was sent to Messina, material for 1,000 to Reggio, material for 200 on the outskirts of Reggio and material for 300 was turned over to Italian authorities for distribution in small towns in the afflicted districts."

### SICK SKINS IN SUMMER.

Summer is the hardest time for the human skin. Its delicate tiny pores, if worked under the best conditions, would have a rough time because of the heat. How when they have to work when impaired or damaged by sunburn and heat spots? No wonder one has rough patches, freckles, etc. Zam-Buk heals sick skins. When a patch of skin on face, neck, or arms is bothered by the sun, apply Zam-Buk at once. It will cool and soothe beautifully, and new skin will be quickly formed. When you are footsore, or have some chafed places, Zam-Buk will give you ease. When the mosquitoes raise lumps on you, Zam-Buk will stop that terrible itching and smarting. Keep Zam-Buk handy, use it freely, and this will be the happiest summer you have ever spent, viewed from the skin health standpoint. All druglets and stores.

As a result of the improvement in the iron and steel trade, the Maryland Steel Company has announced that the wage scale, which was cut 10 per cent on April 1, will be restored in all departments of the big plant on July 1. Two thousand men will be benefited.

### ANOTHER DECLINE IN WHEAT PRICES

Long Grain Comes Out for Sale in the July Option.

Chicago, June 10.—At the opening the wheat market horizon failed to show the slightest indication of the remarkable dumping of long wheat, which appeared later in the session; forcing sharply lower levels for the July and moderate declines in other deliveries. The closing was 1/4 to 3/4 cents a bushel under yesterday's final. More long wheat came out for sale in the July option than at any time since the option started. A sale was made at the opening to-day at \$1.19, the asked-price for July at the closing yesterday, but the initial showing was very deceptive for almost instantly the pit became flooded with offers to sell that delivery. Foreign markets were mixed. Liverpool opened unchanged but closed 1/4 to 1/2 above yesterday. At Berlin the wheat market was 1/4 lower. Buda Pest reported a holiday there.

## The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of ingredients composing it is printed there in plain English. More than forty years of experience has proven its superior worth as a blood-purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone root and Mandrake root, Bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post. You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit. Though he offers the substitute for a less price you can't afford to experiment with your health. Go where they give you what you ask for without argument. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

### QUIET HOME WEDDING LAST EVENING

Mr. E. F. Lang and Miss Munsie joined in Marriage.

At the residence of Mrs. William McGillivray Munsie last evening was solemnized the marriage of Maude, daughter of Mrs. Munsie and of the late William McGillivray Munsie, to Mr. E. F. Lang, of the real estate firm of Ryan & Lang, of Victoria and Regina, Sask., Rev. Dr. Campbell officiating.

The decorations throughout, were most artistic. The large drawing rooms were decorated with a profusion of chrysanthemums and smilax, the supper room being confined to white and green, white carnations and English fern being used with splendid effect, while the hall was resplendent with flaming French poppies and sword fern.

The bride's gown was a Worth creation of cream duchesse satin in Empire style, with French panels of net embroidered with pearls. She carried a shower bouquet of white bridal roses, her only ornaments being a diamond eunburst and diamond and emerald ring, gifts of the bridegroom. She was attended by her sister, Miss Catherine Munsie, dressed in a becoming gown of pale blue crepe-de-chêne, carrying a shower bouquet of American Beauty roses, while the bridegroom was supported by Mr. W. Bruce Ryan. The bridegroom's gift to the bride was a handsome gold bracelet set with sapphires and diamonds. The bride was the recipient of a handsome and costly array of wedding gifts, though the wedding service was strictly private, being confined to members of the family and a few close friends. The gifts of the bride's mother included a cheque, seal skin sash, and a dinner service of Haviland china.

After a recherche supper Mr. and Mrs. Lang left for Vancouver en route to Portland, Ore., where the honeymoon will be spent.

### HIGH SCHOOL PUPILS ACQUIT THEMSELVES WELL

Former Students Have Succeeded Well in Medical Examinations.

Students from the Victoria High school have the faculty for making good records for themselves in the various colleges and universities which they attend. The records of the graduates of the High school speaks well for the care exercised by the staff of the local institution. The results of the examination in medicine at McGill University furnishes the latest roll of honor for "old" High school pupils.

In the third year of the medical course at McGill, H. B. Marchant, son of Wm. Marchant of this city, passed in all subjects, winning honors in four of them. He was third in hygiene and medical jurisprudence, tenth in bacteriology and twelfth in pathology.

Hugh MacMillan was ninth in the aggregate of all subjects and won honours in pharmacology and therapeutics, medicine and surgery.

In the second year, A. B. Walter, of Salt Spring Island, secured fourth place with honors. He was first in histology, second in physiology, fourth in anatomy, eighth in pharmacy and tenth in biological chemistry.

Percy Baerman passed in the histology, anatomy, general chemistry and botany of the first year.

### "THE MERRY WIDOW"

Will Be Presented Here on Monday Evening at Victoria Theatre.

In story, drama and power an especial and peculiar interest is attached to the mythical country. Perhaps this interest is a survival of the days when we loved fairy-tales, laid in the lands of romance and doubtful location.

Anthony Hope realized this when he invented his wonderful Zenda, and his numerous imitators have seized upon the idea to their own advantage, and the more or less pleasure of their readers.

The most fascinating of all these countries it was left for Franz Lehár and his librettists to discover and embody in "The Merry Widow," that exquisite operetta which has been the marvel and delight of all those who have been fortunate enough to witness it. It will be presented at the Victoria theatre Monday night with a strong company under Henry W. Savage.

Mariova is the name of this land where "The Merry Widow" and her equally merry associates live and disport themselves. And what a land to be enjoyed while there, and dreamed of afterwards, it is. Its picturesque beauty is unapproachable, and the beauty of its inhabitants, in their odd and splendid costumes is enough to inspire the brush of any painter. And how they sing, and with what skill, grace and lightness they dance in this same Mariova.

### NEW GRAND THEATRE.

Interest Continues in the Bill Being Offered This Week by Manager Jamieson.

For pleasing the crowd and for general variety the New Grand show this week is filled with all the things that any audience wants. There is something for everybody. The funny man gets his fill with Seymour and Hill in their fine acrobatic turn. There is plenty for the moralist in the one-act drama played by Leo Cooper and Paqualina De Voe, and the sentimentalist gets his from the singing by Thomas J. Price of "The Sweetest Thing on Earth," and "The Artist's Dream," in which Miss Rialta and Louis J. Mints appear.

For the other sides of human nature there is Slater Brockman, and the demonstration of psychic phenomena by Margaret Neville will prove intensely interesting.

Nothing better in a mixed bill has been seen at the Grand. All turns are good. Leo Cooper is an actor out and out. His representation of the character of the man running for president is well done. Madame De Voe has proved to be an actress of wide accomplishments and her pleading entreaty and finally threats form one of the strong situations of the drama.

Seymour and Hill are a winning team of acrobats. The act is entirely on the floor, trapeze work being eliminated. Emma Hill's hand springs and Seymour's extraordinary air work are quite new. They have well been said to be the smartest team on the road at present.

The posing oddity of Miss Rialta is another new turn. She presents many pretty and dainty pictures interposed in the story of the "Artist's Dream," as told by Louis Mints in song. The remaining turns on the bill are all the best. The show will play matinee every afternoon and two shows at night.

**MAN LOSES LIFE IN FRASER RIVER**  
Fell From Ladder on Pile-driver Into Water and Was Drowned.  
New Westminster, June 9.—Wilfrid McDonald, a middle-aged man employed on the pile-driver at the government rock wharf, below Westman Island, was drowned Monday at 8.30 a.m. He was going down the steps from the top of the engine house on the driver when he slipped and fell over the side of the barge into the current. Whether he was stunned by the fall or whether he was struck by the pile-driver, which was in operation at the time, is not known, but he was immediately drawn under the surface and did not rise again. The current is very swift at this place and his body may have been carried a considerable distance.  
As far as is known McDonald, who came from Ontario, has no relatives in this part of the country. He has been living lately at Westman Island and a Japanese was the only eyewitness to the accident.

**A SURPRISED MINISTER.**  
"For many years I have been a sufferer from bronchial catarrh, and had despaired of anything like a cure. Judge of my pleasant surprise when I first used Hyomel, which brought complete relief. Hyomel has been a veritable godsend."—Rev. Charles Hartley, Sardinia, Ohio.  
Thousands of catarrh sufferers have given up in despair. They have tried stomachic dosing, snuff, sprays and douches without success, and now believe catarrh to be incurable.  
But Dr. E. Campbell, the druggist, holds out hope to all distressed. He has a remedy called Hyomel which is guaranteed for catarrh, colds, coughs, bronchitis, asthma and croup.  
Hyomel (pronounced High-o-mee) is medicated air, full of the healthy virtues of the mountain pines. You breathe in the delightful antiseptic air, and as it passes over the inflamed and germ ridden membrane, it stays the inflammation, kills the germs, and drives out the disease.  
A complete Hyomel outfit, including a hard rubber inhaler, costs but \$1.00, and an extra bottle of Hyomel, if afterwards needed, costs but 50 cents. See Dr. E. Campbell about it to-day. C-2.

**ROBS CASH REGISTER.**  
(Special Correspondence.)  
Cheminus, June 9.—A burglar entered Horseshoe Bay hotel last night, gaining entrance through a transom into the basement, thence into the bar by a trap door. He entered the room of the proprietor, going through his clothes and taking his watch, keys, etc. The watch was left on the corner of the bar and the keys were carried away. The sum of \$50 was left of the cash register, which was taken behind the bar. Although considerable money was in the safe, apparently no attempt was made to open it.

**MUSICAL SOCIETY ANNOUNCES PLANS**  
Officers Elected at Annual Meeting Held Last Evening.

The Victoria Musical Society held its annual general meeting last night at the Empress hotel. J. C. M. Keith was elected to the chair.

The report of George Phillips, managing director, covering the season's work which was adopted, contained the following:

"It should be fully appreciated that although the season was generally most unsuccessful to the musical and theatrical professions, yet we were able to give our concerts and maintain a substantial balance to our credit to meet future outlay.

"In undertakings of this magnitude and uncertainty as regards individual support, a considerable amount of personal canvassing to enrol subscribers is perhaps unavoidable; but this is a matter in which the members could very materially assist the committee in their somewhat arduous duties by explaining to their friends the benefits to be derived from subscribing for the concerts in advance and inducing them to become members.

"I have been in communication with the leading musical centres of Canada and the United States respecting the attainment of more subscribers. The universal practice is to open the box office to subscribers a day in advance of the general public and let them select their seats for each concert. No system of allotting seats for the year or by ballot has been found to give general satisfaction.

"You committee have taken steps to inaugurate a project for the building of a new theatre. The lease of the present building will shortly expire, and it is imperative that a new and well appointed building be built at an early date. One of our members has undertaken to provide a suitable site, and a prospectus for investors in a company, having as its aim the building of a theatre, will shortly be issued, and it is requested that all members will assist the committee in the work of securing subscribers.

"In conclusion I wish to acknowledge the great kindness, courtesy and assistance I have received from the officers and members of the society and the press."

The following officers were elected for the ensuing year: President, Arthur W. McCurdy; auditor, J. S. Floyd; managing director, Geo. Phillips; committee, J. C. M. Keith, W. H. Langley, W. Blakemore, C. W. Rhodetta, J. Lawson, Jr., B. Bantley, E. Ricketts, T. E. Pemberton, Mr. Tilley, Stewart Williams, A. C. Flumerfelt, F. B. Gregory, E. Billingham, Dr. O. M. Jones and Dr. Nash.

Subsequently Messrs. Keith, Langley and Blakemore were elected vice-presidents and Stewart Williams hon. secretary.

**ISLAND DEVELOPMENT.**  
Executive of League Will Meet To-Morrow Morning and Discuss Matters.

The executive of the Vancouver Island Development League meets in the Board of Trade rooms to-morrow morning, when one of the matters to be discussed is a resolution from the Cumberland branch protesting against the naturalization of Japanese, who are said to be taking up dairying, poultry raising and other lines of industry, which, the resolution expresses the opinion, should be stopped.

Sidney branch desires to have a station agent appointed at the Y. & S. depot. North Saanich has a resolution in favor of the extension of the telephone system in the district. Courtenay branch has a resolution on the Settlers' Rights Act and in regard to coal mining rights.

Secretary McGaffey will report on the progress of development work through the island, he having visited most of the branches lately. The appointment of some competent person to take charge of the distribution of literature at the fair will also come up.

The city council is meeting to-night for the purpose of dealing with the proposition of the B. C. Electric Railway Co. in connection with Jordan river, the request of the E. & N. Railway for yard and coal bunker privileges on the Songhees reserve, the vacancies on the park board, the inclusion of a "fair wage" clause in civic contracts and anything else that issues.
