INFORMATION FOR CUSTOMERS

This Catalog is Our Only Salesman We Employ No Agents

In presenting this 46th edition of our catalog we extend thanks for your past patronage and assure you, and all customers, of prompt and careful attention to all inquiries and orders with which you may favor us.

RELIABILITY. For forty-six years we have devoted our time to the growing of high grade nursery stock and have striven toward building up a business that would enable us to list ourselves among the foremost nurserymen in the country. As to our reliability we are pleased to refer you to Dun's or Bradstreet's or any bank or business house in Rochester.

HOW TO ORDER. In making out your order be particular to specify just what is wanted. Your name, post office and shipping point should be written plainly to avoid mistakes. If you are in doubt as to whether your stock should go forward by express or freight, you may leave it to us and we will use our best judgment. Small packages can be forwarded by Parcel Post. Postage is required on orders to be sent by Parcel Post. Strawberries should be sent either by express or mail—not by freight. **SEND PAYMENT WITH ORDER.** All orders are acknowledged immediately upon receipt.

PACKING. OUR PACKING CELLAR, covering over one acre of ground, and in which the sun or the wind cannot dry up the roots of stock, is where all our orders are packed. Care is given to the packing of each order, which enables us to get your stock to you in fresh condition.

Small orders are carefully tied up, the tops in flag to keep the trees from bruises and the roots in damp moss wrapped over with burlap to retain the moisture. Large orders are packed in paper lined boxes. We use wet moss for the roots and straw for the tops. The paper lining keeps the air and frost out and the moisture in.

SHIPPING. We do not charge for packing, boxing or delivering to freight offices or express companies. We do not prepay charges, unless goods are to be delivered to a prepaid station, as all our prices and quotations are **FREE ON BOARD CARS AT OUR NURSERIES.** If there is no agent at your station, and shipment has to be prepaid, notify us and we will prepay charges and bill you for same after shipment is made.

SHIPPING SEASONS. The spring shipping season usually commences here about March 1st, and continues until about May 1st. Of course, the time of shipping your stock depends on your location. We commence making southern shipments about January 1st. Our fall season commences about October 1st, and we continue to make shipments until the ground freezes. We advise spring planting for berry plants and peach trees.

TERMS. Cash with order. Your order may be accompanied with your check, a postoffice or express money order, draft or cash. If you send cash we would advise you to send same by registered mail. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash.

LIABILITY

We are not liable for injury to stock from frost, hail, fire or other causes beyond our control, and book all orders with this understanding. While we use every means at our command to secure prompt delivery, we are not liable for delays in transit. Our responsibility ends upon delivery in good order to railway company. Remedy for loss must lie between the buyer and the railway company, but we will gladly render all the aid we can and we do this gladly. It is to our interest, and we have always found the railroad companies ready to settle claims if just. Any other claims must be made immediately after receipt of stock.

No. 18

State of New York
Department of Farm and Market
Division of Agriculture

Certificate of Inspection of Nursery Stock

This is to Certify that the stock in the nursery of Allen L. Wood of Rochester, County of Monroe, State of New York, was duly examined in compliance with the provisions of Section 305 of the Agricultural Law and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose Scale or other dangerously injurious insect, pest or pests.

GEORGE E HOGUE,
Commissioner of Agriculture.

Certificate expires Sept. 1, 1922
Dated at Albany, N. Y., Sept. 1, 1921

WHAT TO DO WITH TREES WHEN THEY ARRIVE

If possible remove the trees from the box at once on arrival and heel them in securely in the garden. I mean by this give them a temporary planting in a trench, which prevents the roots or branches from drying. If they cannot be removed from the box at once and the packing material gives evidence of being at all dry, apply water to both ends of the box, where the roots are located, keeping the box meanwhile in as cool a place as possible. A cool cellar is a good place to keep the box of trees waiting for the day of planting.

Distance for Planting

Apples, Standard 30 to 40 ft.	Grapes 8 by 10 ft.
Apples, Dwarf 8 to 10 ft.	Currants 3 by 5 ft.
Pears, Standard 18 to 20 ft.	Gooseberries 3 by 5 ft.
Pears, Dwarf 10 ft.	Raspberries, Red 3 by 6 ft.
Peaches 16 to 18 ft.	Raspberries, Black 3 by 6 ft.
Nectarines and Apricots 16 to 18 ft.	Blackberries 5 by 7 ft.
Cherries, Sweet 18 to 20 ft.	Strawberries, rows 1 by 4 ft.
Cherries, Sour 15 to 18 ft.	Strawberries in beds 1½ by 1½ ft.
Plums 16 to 20 ft.	Asparagus, in beds 1 by 1½ ft.
Quinces 10 to 12 ft.	
Asparagus, in field 1 by 3 ft.	

Trees and Plants to the Acre

2 feet each way 10,890	15 feet each way 194
3 feet each way 4,840	18 feet each way 135
4 feet each way 2,723	20 feet each way 110
5 feet each way 1,742	25 feet each way 70
6 feet each way 1,210	30 feet each way 48
8 feet each way 680	33 feet each way 40
10 feet each way 430	40 feet each way 28
12 feet each way 202	

To estimate the number of plants required for an acre, at any given distance, multiply the distance between the rows by the distance between the plants, which will give the number of square feet allotted to each plant, and divide the number of square feet in an acre (43,560) by this number, the quotient will be the number of plants required.

WHY TREES DIE—The majority of trees that fail to live, die from careless or improper planting. We feel sure that if you will carefully follow the instructions as given in our little pamphlet, "How to Plant to Get Best Results", which we send the same day as orders are shipped, your trees will grow and prove a source of pleasure and profit. Nothing flourishes with neglect. This is true with trees as well as everything else. Handle your trees carefully, plant them correctly and give them a little attention after planting, and you will be surprised with the ease with which very favorable results can be obtained.

Mulching—This is properly done by placing a layer of coarse manure, straw, marsh hay, leaves or loose chip dirt, from three to six inches deep on the surface about the tree, extending one or two feet further, in each direction, than the roots. This keeps the ground moist, of even temperature, and renders watering unnecessary. The sod which was removed in digging the hole can be used, but it should be moved occasionally to prevent it from beginning to grow again. Trees treated in this manner make a better growth and are more certain to live.

"Wood Quality"

FOR THOSE WHO WANT THE BEST—We have made it our business for over forty-five years to please the public and give them the very best we could produce in the way of plants, vines and trees. Fruit growers who have seen our big blocks of Apples, Peaches, Pears, Cherries, etc., say that they are the best in the country. Not only are they large, vigorous trees, full of vitality, but they are true to name, which is one of the most important things in connection with tree growing.

TRIMMING

It is surprising how many orchards you see planted out with the young trees left with the full amount of limbs on, just as they came from the nursery. Trimming should be done either immediately before or after planting. This is the most essential work next to planting, and the lack of severe trimming is why many do not succeed. Do not be afraid that you are going to trim your trees too severely. Peach trees require more severe trimming than anything else. By the accompanying drawing we endeavor to show how a young tree should be trimmed and planted. Trim the young tree the way you want it to grow. If a low headed tree is preferred, cut back the top leaving such limbs as you may want. In the drawing we have shown the most popular way of trimming young trees. This

generally gives a medium height tree very well formed. The cross lines marked "A" on the limbs show where the cut should be made. The two lower limbs are too low to be left on and should be cut off close to the trunk as marked by the lines "A". If more attention is given to the planting, trimming and care of nursery stock, the grower will have better results.

OHIO BEAUTY (Actual Size)
 ONE OF THE FINEST APPLES IN THE WORLD
(See Back Cover)

Historical—In the fall of 1914 Mr. John M. Rutledge of Ohio was given two Apples as samples, at a glance he knew he had never seen any like them before. After eating the fruit and finding the flavor so delicious, he inquired from the party who gave them to him where they were grown. He learned that the apples were from a tree on his friend's farm, found in a corner of his garden some years ago. The tree which is hardy and a vigorous grower is believed to have grown from a seedling. It has yielded a good crop for the past eight years.

The apple is exceptionally large, uniform in size and shape. Skin is very smooth. Color yellow or greenish blush striped with red. The flesh which is slightly tinged with yellow is crisp, tender, aromatic, juicy and subacid which make it an extra fine eating or cooking apple. Season, December until April.

The "Ohio Beauty" is one of the most handsome winter fruits grown. Its vigor, productiveness and the exceptionally high quality of the fruit, its great beauty and shipping qualities put it in a class by itself.

This wonderful apple was brought to our attention by Mr. Rutledge. We immediately began to propagate this variety by budding a number of trees from scions received from him.

"Ohio Beauty" Apples are sold under a special guarantee seal that is affixed to each tree or bundle of trees. We have the exclusive sale of the "Ohio Beauty" Apple.

\$1.00 each; \$9.00 per 10

SUMMER VARIETIES

- Early Harvest**—Medium size; pale yellow.
- Red Astrachan**—A very handsome summer variety, rather acid in flavor.
- Sweet Bough**—Fruit is large; pale yellow.

WINTER VARIETIES

Delicious

Delicious—A remarkable variety rapidly taking first rank both for commercial and home orchards. No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh finely grained, crisp and melting, juicy with a delightful aroma; of very highest quality. A splendid keeper and shipper.

Baldwin—The Baldwin is the leading commercial variety in the orchards of New York, Pennsylvania and Ohio. It is the standard fruit in the American markets and is one of the leading Apples used in cold storage for the export trade. It is a large, red, winter Apple and is very desirable on account of its size, color and quality. Fruit keeps in common storage until April.

King—A superb red Apple of the largest size and finest quality.

Grimes Golden—Beautiful, rich, golden yellow Apple with flesh that is tender, juicy and fine. Early, an annual and good cropper; a vigorous and hardy grower.

Jonathan—Medium size; red and yellow; tender, juicy and rich; very productive. One of the best varieties either for table or market.

Northern Spy—The fruit is large and attractive, being of a bright red color. Flesh is very juicy, crisp and tender. This variety ranks about third in commercial importance with the fruit growers of New York, Pennsylvania and Ohio, being surpassed by Baldwin and Rhode Island Greening.

Yellow Transparent

Yellow Transparent—Earliest of all Apples. Color when ripe pale yellow; mild, yet of sprightly flavor; good quality and of decided merit. Tree bears abundantly at a very early age. Three year trees frequently produce fine fruit. It should be in every home garden. Season, July.

AUTUMN VARIETIES

Duchess of Oldenburg—Red striped; tender and juicy. The fruit brings a high price on the market.

Fameuse (Snow Apple)—One of the finest dessert fruits. Tender and delicious.

Wealthy—Medium, roundish; skin mostly covered with dark red; flesh white. A variety of great value on account of its hardness.

	Each	Ten	Hundred
5 to 7 ft. XXX Grade	\$.85	\$8.00	\$65.00
4 to 5 ft. XX Grade	.75	7.00	55.00

Winter Banana

Winter Banana—Fruit large, clear pale yellow with beautiful contrasting pinkish-red blush. Flesh is yellowish-white, tender, mild and subacid; flavored like a banana. Excels as a dessert Apple. Tree comes into bearing at an early age and bears annually. The fruit sells for the highest price on the market when packed for fancy trade. Dec. to April.

Rhode Island Greening—Is of the highest quality and ranks next in popularity to the Baldwin.

Hubbardston Nonesuch

Hubbardston Nonesuch—Large, roundish, smooth Apple with a yellow skin mottled and splashed with bright red. The flesh is firm, finely grained, tender, crisp and juicy.

If you want an EXTRA fine Apple for your garden, plant the "Ohio Beauty."

Must We Do Without Apples

From 1910 to 1920 the Government census shows a decrease of 24% in the number of bearing Apple trees. And that is not all: From 1910 to 1920 there has been a decrease of 45% in Apple trees not of bearing age.

Now, if fruit growers do not plant any Apple trees for the next 10 years, how many years will it be before there are no more Apples?

Of course, the day when there will be no Apples will never come, as long as the demand for fruit remains the same as today. But for the next 10 years you are going to pay high prices for not only Apples, but for all other kinds of fruit, as well.

People who plant out fruit trees this spring will never regret it.

Woodlawn Golden Pippin

Woodlawn Golden Pippin—Is one of the very best varieties. The Apple is golden yellow with a delicious flavor. The flesh is firm, crisp and juicy. It is the best Apple for baking that can be grown. The tree bears at an early age—one of the best keepers, and one of the last Apples on the market in the spring. It should be in every garden.

Stayman Winesap—Medium to large; uniform in size and shape; red tinged with yellow. The flesh is crisp, juicy and tender. It is one of the best of all commercial varieties for south of New York State.

FRUIT GROWERS:

If you are going to plant out Apples this season, do not fail to get some Ohio Beauty trees. They will make more money for you than any other varieties, as they commence to bear early and are very productive.

McIntosh Red

McIntosh Red—A very attractive Apple of a deep red color and of good uniform size. The flesh is white, firm, crisp and tender. Its season is from October until May. The tree is a vigorous, strong grower and will bear from about four to five years from planting. McIntosh brings a good price on the market and makes a profitable investment for the fruit grower.

	Each	Ten	Hundred
5 to 7 ft. XXX Grade	\$.85	\$8.00	\$65.00
4 to 5 ft. XX Grade	.75	7.00	55.00

Stark—Large, striped yellow and red, juicy, mild, subacid. An early and abundant bearer.

Rome Beauty—A large, smooth, uniform sized Apple beautifully shaded and striped with red. It is an annual bearer and coming into great prominence in all parts of the country. Its fine quality and handsome appearance make Rome Beauty bring the highest prices on all markets.

Tolman Sweet—Splendid sweet winter Apple. Yellow in color with a faint blush cheek.

Wolf River—One of the largest of all Apples—it resembles the Alexander but is better and more popular among fruit men as it is very hardy and can be grown north or south. Striped and blushed with bright red, it is a very handsome fruit.

Wagener

Wagener—A superior Apple. The color is a beautiful bright red with some contrasting pale yellow. It has a fine texture, high flavor, and excellent quality. It is desirable for culinary use, but is especially esteemed for dessert. Wagener is a good grower, comes into bearing at an early age, and is a reliable cropper. It is planted a great deal as a filler for orchards. Season, Oct. to Feb. or later.

Crab Apple Trees

Price of Crab Apple Trees
Same as Apple Trees.

Hyslop

Hyslop—Large, dark red, flesh yellow, subacid. Very productive and hardy. Excels for making fine jellies and preserves.

Transcendent—This fruit has for many years been one of the most popular of the Crab Apples. Large, yellow with rich crimson cheek. September.

STANDARD PEAR TREES

Seckel—
Very prolific bearer

Seckel—Our most highly flavored Pear, the

standard of excellence. Fruit small, yellowish brown, with a russet-red cheek; flesh very juicy, melting, aromatic, with a rich, spicy flavor; quality very best. September and October.

Beurre d'Anjou—This is one of the most popular and valuable Pears one can buy. A large, handsome fruit, with a fine vinous flavor; buttery and melting. It is a fine keeper and will stay good until midwinter.

Clapp's Favorite—This is without doubt the most productive pear in cultivation. It is of very large size; pale lemon yellow color with a bright crimson cheek. The flesh is finely grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. The fruit should be picked at least ten days before it would ripen on the trees. Pears ready to pick in August and September.

Kieffer—A popular Pear with fruit growers. Large, rich yellow, tinged with red, somewhat russet; very handsome. Flesh is white, buttery and juicy. Very valuable for canning purposes. Kieffer bears fruit when other kinds fail. Tree is a vigorous grower, early and regular bearer. September to November.

Sheldon—This is of very large size. It is roundish in shape and has a greenish-yellow color covered with light russet. It is very juicy, melting, and has a tasty flavor. The tree is a fine grower and a good bearer. Season is October and November.

PRICES OF STANDARD PEAR TREES TWO AND THREE-YEAR OLD

	Each	Ten	Hundred
5 to 7 ft. XXX Grade	\$1.25	\$10.00	\$90.00
4 to 5 ft. XX Grade	.85	8.00	75.00
3 to 4 ft. X Grade	.75	6.00	50.00

Mail size 75c each; 3 for \$2.00.

5 trees at 10 rate; 50 at 100 rate

EXTRA LARGE SIZE TREES

THREE AND FOUR YEARS OLD
\$1.50 each; \$12.50 per ten.

Bartlett

Bartlett—The best and most popular of all Pears for market and home use. It is a rich golden yellow color when ripe, often with a soft blush on sunny side. It is very large, thin skinned; flesh buttery and melting, and has a rich musky flavor. The tree is a strong grower and bears young and abundantly. It requires careful cultivation to get the best results. Fruit should be thinned when small and should be picked just before it is ripe. Then it should be wrapped in paper, packed in tight boxes and placed in a cool cellar until ready for use. Season, August and September.

Dwarf Pear Trees

	Each	Ten	Hundred
3 to 4 ft. XXX Grade	\$.85	\$7.50	\$60.00
2 to 3 ft. XX Grade	.75	6.00	50.00

Mail size 75c each; 3 for \$2.00.

5 trees at 10 rate; 50 at 100 rate

Bartlett—Dwarf Pears are similar to the standard fruit of the same variety, and are very profitable.

Beurre d'Anjou—A great money-making dwarf that should be extensively planted.

Clapp's Favorite—This is a very good dwarf variety which is used extensively for fillers in orchards, mainly Apple orchards.

Duchess

Duchess—The most popular of all dwarfs and the one most widely grown. Duchess is a great yielder and a great money getter. The tree is hardy and thrifty and bears uniformly big crops.

Flemish Beauty—Large, beautiful, melting, sweet. Very hardy and fruitful.

Kieffer—Similar to the standard fruit.

Seckel—Similar to the standard fruit.

Nescopeck, Pa. Aug. 9, 1921.

ALLEN L. WOOD,

Rochester, N. Y.

Dear Sir:

I thought I would write you in regard to the 240 Orange Quinces I bought of you this spring. They have done fine. I only lost one tree and am well pleased with all the trees I have bought from you.

(Signed) M. H. PETERS

Quince Trees

	Each	Ten	Hundred
4 to 5 ft. XXX Grade	\$1.25	\$11.00	\$100.00
3 to 4 ft. XX Grade	1.00	9.00	85.00
2 to 3 ft. X Grade	.80	7.00	65.00

Mail size 75c each; 3 for \$2.00.

5 trees at 10 rate; 50 at 100 rate

EXTRA LARGE SIZE TREES

\$1.50 each; \$13.50 per ten.

Orange

Orange—More largely planted than any other variety. Orange is large, bright golden yellow. Cooks very tender and has a fine flavor.

Rea's Mammoth—We consider this the best of all the Quinces. The largest and in every respect the finest variety of the Quince.

Apricot Trees

Two years XXX Grade \$1.25 each

Two years XX Grade 1.00 each

Moorpark

Moorpark—One of the largest. Yellow with red cheek, firm, juicy and very productive. An old and dependable variety. August.

Cherry Trees

The sour varieties are dwarf and bushy growers; bear earlier than the sweet varieties, and are more largely planted.

Prices of Sour Cherries.

Two Years Old.

	Each	Ten	Hundred
5 to 6 ft. XXX Grade	\$1.25	\$11.00	\$ 85.00
4 to 5 ft. XX Grade	1.00	8.50	75.00
3 to 4 ft. X Grade	.75	6.50	50.00

Mail size 75c each; 3 for \$2.00.
5 trees at 10 rate

EXTRA LARGE SIZE TREES

THREE AND FOUR YEARS OLD

\$1.50 each; \$12.50 per ten.

Early Richmond—Is a wonderfull bearer and cannot be surpassed for hardiness. The fruit is of medium size, roundish, dark red. Flesh is tender, juicy and subacid. The tree is vigorous and longlived. Excellent for canning and drying.

Montmorency

Montmorency—A beautiful, large, red, sour Cherry. The fruit is clear, bright red and of good size. Flesh is of fine quality, subacid. The trees are clean growers and prolific bearers. No matter how unfavorable the season may be, Montmorency can be depended upon for a full crop. It is a good shipper, very attractive looking and always brings good prices. The canning factories use large quantities of them and the demand is greater than the supply. Fruit ripens ten days later than Early Richmond.

English Morello—Best late sour Cherry, very dark red color, sometimes nearly black. Tree is a small grower. Fruit ripens about two weeks later than Montmorency.

Sweet varieties of Cherries succeed best in sandy or gravelly loam, well drained. Avoid low or wet ground. They make large pyramidal trees. Sweet Cherry trees are harder to transplant than sour varieties.

Prices of Sweet Cherries

Two years old

	Each	Ten	Hundred
5 to 7 ft. XXX Grade	\$1.40	\$ 12.00	\$110.00
4 to 5 ft. XX Grade	1.20	10.00	90.00

5 trees at 10 rate; 50 at 100 rate

Black Tartarian

Black Tartarian—This is a large, black, heart-shaped, tender, juicy Sweet Cherry of surpassing quality. The tree is an upright, dense grower, remarkably vigorous and a regular bearer of immense crops.

Napoleon or Royal Ann—This is one of the largest and best of all sweet Cherries. It is a magnificent variety, large, sweet, pale yellow with a bright red cheek. It is a splendid shipper and fine for canning. To eat out of the hand it is unsurpassed. Flesh is very firm and juicy. The tree is a fine grower and immense bearer.

Schmidt's Bigarreau—The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy, with a fine rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market.

Liberty Bonds at Par

On orders of Nursery Stock or Seeds amounting to \$100.00 or more, we will accept a \$50 Liberty Bond at par value, as part payment on account, if payment in full is made in advance.

“DR. WORCESTER”
“The 20th Century Peach”

(See Back Cover)

The DR. WORCESTER Peach is of a very large size, and the color is a beautiful golden yellow, overlaid with red. The flesh is yellow, firm and juicy, and the flavor, which is its chief merit, is rich and sweet. The skin is firm, making it a good shipper, and keeper. The tree is hardy and a late bloomer, so late frosts seldom injure it, and it is a healthy, vigorous grower and good bearer. These qualities make the DR. WORCESTER Peach a most valuable commercial variety.

Prices of Dr. Worcester Peaches

	Each	Ten	Hundred
4 to 5 ft. XXX Grade	\$1.00	\$8.50	\$75.00
3 to 4 ft. XX Grade	.85	7.50	65.00
2½ to 3 ft. X Grade	.75	6.50	50.00

5 trees at 10 rate.

Mail size 75c each; 3 for \$2.00.

EXTRA LARGE SIZE TREES
 \$1.25 each; \$10.00 per ten.

We have the exclusive sale of “Dr. Worcester” Peach trees, and each tree or bundle of trees we sell has a special Guarantee Seal attached to it.

HISTORY OF THE "DR. WORCESTER" PEACH

In the fall of 1890, Dr. Worcester of Middletown, N. Y., planted a bed of choice Peach pits, which he had gathered from various sources. In 1892 he transplanted all the strongest seedlings, and when they started to bear in 1895, all but one were clingstones. One of the trees bore beautiful yellow and crimson Peaches of enormous size, which were perfect freestones.

In 1896 this tree was heavily loaded with large and beautiful fruit, which averaged from 8½ to 10 oz. each. Six of the largest Peaches weighed 3 lbs. 2½ ozs. Dr. Worcester sent several of these Peaches to quite a few well known horticulturists and nurserymen, and they all pronounced it a most wonderful Peach.

In 1898 Dr. Worcester sent a basket of his seedling Peaches to the American Institute of New York, and they were so well pleased with them that they sent him a Certificate of Merit.

Up to this time Dr. Worcester had only the original tree. In August 1899 he budded several trees to make a thorough test, and continued to bud some each year thereafter until 1917, when he made a contract with Mr. Allen L. Wood, of the Woodlawn Nurseries, to bud and sell the Dr. Worcester Peach. It proved to be such a wonderful Peach that Mr. Wood purchased the exclusive right to same.

I would advise all my friends and customers to plant out one or more Dr. Worcester Peach trees, as I know they will not be disappointed in the fruit. Everyone who has tasted this Peach pronounces it to be far ahead of any other variety they have eaten.

ALLEN L. WOOD

A Few of the Many Testimonials We Have Received About the "DR. WORCESTER" PEACH

San Francisco, Cal., Oct. 18, 1915.

Dr. J. W. Worcester,
Middletown, N. Y.

My dear Doctor: I received the sample of "Dr. Worcester" Peaches just before leaving the east for here. I divided with some of my neighbors and we all pronounced them the most delicious Peaches we ever had the pleasure of tasting. Surely some one ought to bud and sell the trees. Thanking you, I am yours very truly, CHAS. G. PORTER.

Mr. Porter is Superintendent of the Fruit Dept. at the New York State Fairs.

Rochester, N. Y., Nov. 12, 1917.

My dear Mr. Wood: The "Dr. Worcester" Peaches which you sent me were sampled by the heads of the different departments of our Seed and Nursery establishment and all pronounced them the best and most luscious they have ever tasted. Apparently you have something in the Peach line extra good and worthy of introduction. Yours very truly, CHAS. H. VICK.

Mr. Vick is President of the James Vick's Seed Co.

Brighton Station, Rochester, N. Y.
Oct. 11, 1917.

Dear Sir: Your letter of the 9th and the "Dr. Worcester" Peaches reached me yesterday. I think they are the finest Peaches I ever tasted. They are very solid and firm and should be a good shipping Peach. Their flavor is far superior to the Elberta. I hope some day to be able to see this Peach in bearing as it looks mightily good to me. Thanking you for the sample, I remain Yours very truly.

EMERSON A. BABCOCK, Fruit Grower.

Penn Yan, N. Y., Oct. 10, 1917.

Dear Mr. Wood: I have sampled the Peach, and pronounce it very good. It is of much better quality than the Elberta. Thanking you for letting me sample it, I remain Very truly yours, E. C. GILLET, Sec'y of New York State Fruit Grower's Assn.

Rochester, N. Y., Oct. 16, 1917.

Dear Sir: The sample of your new Peach, "Dr. Worcester," which you showed us and which we sampled in our office recently, seems to be a fine acquisition to the list of Peaches. It was of good size and the flesh was yellow and firm indicating that it would stand shipping. It was also a perfect freestone. From all we hear we think that it will be a Peach worth while cultivating. Yours truly,

C. M. HOOKER & SONS, Fruit Growers.

Newport, Del., Feb. 8, 1921.

Dear Sirs:

Enclosed find my check for \$10.00. Kindly send me

5 Ohio Beauty Apples, X grade,
5 Dr. Worcester Peaches.

The first trees of the Dr. Worcester Peach that I bought from you, bore for the first time this fall. I never saw such Peaches.

Yours truly,
(Signed) Mrs. Anna Justis.

(Mrs. Justis bought her Peach trees in the spring of 1919.)

WOOD'S CHOICE PEACH TREES

3 to 4 ft.	XX Grade	50c	4.00	30.00
2½ to 3 ft.	X Grade	35c	3.00	20.00

5 trees at 10 rate; 50 trees at 100 rate

Mail size 35c each; 3 for \$1.00

EXTRA LARGE SIZE TREES

75c each; \$6.50 per 10

Hale—In size it is one-third larger than the Elberta and is more highly colored. The skin is deep crimson, smooth, tight, and without fuzz. Flesh is golden yellow, firm, and has a most delicious flavor. The pit separates easily from the flesh. It is exceptionally valuable as a commercial Peach owing to its unusual keeping and shipping qualities. Will ship nearly as well as an Apple. Fruit ripens about five days before the Elberta, but it will hang on the tree longer. Your collection is incomplete without this variety.

Rochester—Is in a class by itself because it is the only good sized, yellow freestone Peach of fine quality ready for market in the middle of August in the northern states. The fruit is large, yellow with a most attractive red blush; juicy and delicious and keeps well; an excellent shipper. Its greater sweetness over other Peaches requires only half the usual quantity of sugar in canning. The tree is a strong grower; early and regular bearer of big crops, and absolutely hardy; two weeks ahead of Early Crawford.

Peach growing is a great industry. The ease with which these trees may be cultivated, their freedom from disease, the short period before they become productive, together with the immense demand for the fruit and the facility with which it may be shipped to markets, make Peach growing extremely profitable.

To secure healthy, vigorous and fruitful trees, the ground must be kept clean and mellow, and should receive an occasional dressing of wood ashes.

To keep the trees in good shape it is necessary that they should be pruned yearly, all the dead and useless wood cut out and light and air let in.

Woodlawn Golden—A new variety which we recommend for general culture. The fruit is large and highly colored; flesh is yellow, firm and flowing over with rich, finely flavored juice. Fine for canning as well as being the most desirable for eating from the hand. The tree is a strong grower and very productive. Perfect freestone. Ripens first of September.

Elberta—The Greatest Money-Maker of Them All

Elberta—The greatest commercial Peach on the market today. This variety is the most popular all over the country and there are more of these grown than of any other kind. It is undoubtedly the best orchard kind and also is valuable for garden planting. The tree is very hardy and a productive and uniform cropper. The fruit is large, yellow with red cheek; it is juicy and high flavored. Flesh is yellow and fine. It is a freestone Peach and ripens about ten days later than Early Crawford.

WOOD'S CHOICE PEACH TREES

BUDED FROM BEARING TREES

Carman—Hardy and Early

Carman—A new, hardy, rot-proof Peach ripening from the middle to end of July. Fruit is large, oval-shaped, yellowish-white. Flesh is creamy white, slightly tinted with red, juicy and fine. Carman is fine shipper and is freestone.

Hill's Chili—This is a good sized Peach of deep yellow color shaded with dark red. The flesh is sweet, juicy and of good quality. The tree is very hardy, vigorous and extremely productive. It is one of the best market varieties and is highly recommended wherever grown. The fruit ripens the first of September and is freestone.

Belle of Georgia—Very large white Peach with red cheek. The flesh is white, firm and of fine flavor. The tree is a very rapid grower and very productive. A freestone Peach and ripens in September.

Late Crawford

Late Crawford—Fruit is of the largest size; skin yellow or greenish-yellow with dull red cheek; flesh yellow; one of the finest late sorts. Last of September. Freestone.

Niagara—Fruit is a beautiful golden yellow blushed with brilliant red. Resembles the Early Crawford, but is larger in size. The flavor is rich and piquant, reminding one of the very best Peaches he ever ate. We recommend this variety as one of the best for the garden.

Early Crawford

Early Crawford—A magnificent large yellow Peach of good quality. Its size, beauty and productiveness make it one of the most popular sorts no other variety has been so extensively planted. First of September.

Champion—Large, handsome, creamy white with red cheek; sweet, rich, juicy; freestone. August. One of the best.

WOODLAWN NURSERIES: I received my trees in good condition. Please accept my thanks for your promptness, and for the quality of trees. I bought some stock from an agent, but if I had known what I do now, he would not have gotten my order. He charged me \$2.00 per tree for what I call sticks, 2½ ft. long. If he calls again I will show him your trees. Yours truly, J. H. P. MOSSEY.

Plum Trees

PRICES OF PLUM TREES
TWO YEARS OLD

	Each	Ten
5 to 7 ft. XXX Grade	\$1.25	\$11.00
4 to 5 ft. XX Grade	1.10	10.00

5 trees at 10 rate

EXTRA LARGE SIZE TREES
THREE AND FOUR YEARS OLD

\$1.50 each; \$12.50 per ten.

Burbank

Burbank—This variety is very much like the Abundance, except that it is much deeper in color, and ripens from ten to fourteen days later. It is one of the handsomest Plums on the market and always finds a ready sale. The fruit is large, reddish-purple; flesh yellow, juicy and good. Tree is very hardy and vigorous. It will withstand the frost better than most varieties. August.

Bradshaw

Bradshaw—Very large; dark violet red; flesh yellow, juicy, good. Valuable market sort. August.

Lombard—A reddish Plum. It is a great favorite because it is a wonderful and early bearer and a hardy grower. Fruit hangs so thickly on the trees it must be thinned. August.

Liberty Prune

Liberty Prune (formerly Wood's Improved German Prune)—Best of all Prunes for drying. This is a strain of the old German Prune which we have improved until we now can offer one that is larger, more uniform in size, than the old variety. Flesh is juicy, rich, delicious and very productive. September.

Abundance—The fruit is large, showy and beautiful. It has a bright cherry-red color. The flesh is yellow, firm, juicy, sweet and very delicious. Stone is small and parts freely from the flesh. August.

SCARCITY OF NURSERY STOCK

The propagation of Nursery Plants and Trees is an art. It takes three or four years to develop Nursery Stock to planting size. The recent war greatly decreased propagation as 90% of the Fruit Seedlings which Nurserymen plant are imported from France. For the past three years France has been able to furnish only very few Seedlings, as they cannot get help to grow them. It will be several years before they will again be able to produce the amount of stock they did before the war.

Pears, Cherries, Plums and Quinces will be higher in price for the next three or four years. 85% of the Growers of Nursery Stock cannot obtain Seedlings for new planting.

Planters should appreciate the present situation and place their order early as the supply of many standard varieties will certainly be exhausted before long.

Liberty Bonds at Par

On orders of Nursery Stock or Seeds amounting to \$100.00 or more, we will accept a \$50. Liberty Bond at par value, as part payment on account, if payment in full is made in advance.

Worden

Agawam

Niagara

Concord

FOUR, BEST, STANDARD GRAPE VINES

Price of Two-Year-Old Vines; (Except otherwise noted)

35c each; \$3.00 per 10; \$20.00 per 100.

If sent by Parcel Post add 5c each; 25c per 10.

Concord—This is the leading black variety and the most widely grown grape on this continent. Fruit ripens in midseason with the Niagara. Grape juice is made almost entirely from Concord, and owing to the productiveness of this variety it can be produced so cheaply that no other grape can compete with it either for this purpose or as a market variety.

Worden—Bunch large, compact, handsome; berries large—larger than those of the Concord. It ripens a few days earlier and is superior to it in flavor. Destined to become very popular for the vineyard and garden.

Niagara—This is the leading American white grape, holding the rank among the grapes of this color that Concord does among the black varieties. Bunch very large and handsome, often shouldered, compact; berries large, round; skin thin, tough, does not crack and carries well; has not much pulp when fully ripe; melting, sweet. The Niagara makes a handsome and showy fruit and for this reason sells very readily on the market, commanding a good price.

Agawam—A dark red Grape with fine flavor. Large bunch and berry, rich, sweet and aromatic strong grower and very productive.

The MONROE STRAWBERRY was awarded the BARRY GOLD MEDAL by the Western New York Horticultural Society.

**SPECIAL PRICE ON 200,000
CONCORD GRAPE VINES**
2 Years Old Extra Fine Plants
25c each; \$2.00 per 10; \$12.50 per 100; \$100.00 per 1000. Orders booked in rotation while they last.

STRAWBERRIES

Price 50c per 12; \$1.00 per 15; \$2.00 per 100; \$15.00 per 1000.

If sent by Mail—55c per 12; \$1.10 per 25; \$2.25 per 100.

Monroe—We are proud to say that we introduced the "MONROE" which has made a record for itself. The berry is deep red, not red in spots as on some varieties, but red all around, making it a very handsome fruit. It is finely grained, very firm and red to the core. The flavor of the "MONROE" surpasses that of any other strawberry.

ST. REGIS EVERBEARING RASPBERRY

Awarded a Certificate of Merit by American Institute of New York. Ripe fruit from June to November.

St. Regis—This promises to be the most valuable addition to the list of Red Raspberries. It succeeds upon all soils, whether light and sandy or heavy clay. The only variety known that gives a crop of fruit the same year they are planted, and two crops a year thereafter. Plants that are set early in the spring will give a small crop of fruit the fall following, and the next spring a big crop equaling that of any Red Raspberry known. In size, quantity and quality, to say nothing of its fall-bearing qualities, it is ahead of anything we know of. About the middle of August it commences to set fruit on the young canes, and bears continuously from then until frost. The berries are large, beautiful and attractive.

Price—2 for 25c; \$1.00 per 10; 25 for \$1.50; \$4.00 per 100; \$25.00 per 1000.
If sent by Parcel Post add 10c per 10; 20c per 25.

**Columbian
Purple-Red Berry**

Columbian—Very large, often an inch in diameter; dark red, bordering on purple, adheres firmly to stem and will dry on the bush if not picked; of rich, sprightly flavor, the best for canning or evaporating, and probably the most productive of all raspberries. A most vigorous grower, canes ten to fifteen feet in length and often over an inch in diameter, strong and woody, its roots spreading and penetrating the soil to a great depth, thus enabling it to resist drought. It propagates from the tips and never suckers from the roots. It is very hardy, enduring 28 degrees below zero without injury.

Price—2 for 25c; \$1.00 per 10; 25 for \$1.50; \$4.00 per 100; \$25.00 per 1000.
If sent by Parcel Post add 10c per 10; 20c per 25.

Wood's Improved Cuthbert—A strain of the original Cuthbert which we have been testing and improving for years. It is a strong grower, has healthy foliage, and is very productive if planted on good soil. Cuthbert in one of the old standard, reliable sorts that will give a good crop of large red berries that are firm,

Wood's Improved Cuthbert

have rich flavor, and are very fine quality; it is more largely grown than any other variety. We recommend it for either home use, or field culture.

Price—2 for 25c; \$1.00 per 10; 25 for \$1.50; \$4.00 per 100; \$25.00 per 1000.
If sent by Parcel Post add 10c per 10; 20c per 25.

BLACK RASPBERRIES

BLACKBERRIES

Plum Farmer

Plum Farmer—Has been thoroughly tested in western New York where it is a great favorite for market and home use. The fruit is very large, often measuring an inch in diameter. Brings the highest prices on the market.

Price—2 for 25c; \$1.00 per 10; 25 for \$1.50; \$4.00 per 100; \$25.00 per 1000.

Black Diamond—One of the best for home and market use. For drying and evaporating it excels all others. The fruit is large, sweet and excellent.

Price—2 for 25c; \$1.00 per 10; 25 for \$1.50; \$4.00 per 100; \$25.00 per 1000.

If sent by Parcel Post add 10c per 10; 20c per 25

Blowers—Giant, upright, mammoth grower, is very hardy and enormously productive. The season of ripening is from the middle of July until frost, with the bulk of the crop maturing in August. A single plant produced over 2600 berries and from $\frac{3}{4}$ of an acre of land 112 bushels of fruit were picked.

Price—2 for 35c; \$1.25 per 10; 25 for \$2.00; \$6.00 per 100; \$50.00 per 1000.

If sent by Parcel Post add 10c per 10; 20c per 25

Snyder

Snyder—The "Old Faithful" of the Blackberries. Medium size, sweet and melting to the core; very hardy and wonderfully productive; valuable for home use and market.

Price—2 for 35c; \$1.25 per 10; 25 for \$2.00; \$6.00 per 100; \$50.00 per 1000.

If sent by Parcel Post add 10c per 10; 20c per 25

ASPARAGUS (2 years old)

To make a good Asparagus bed, prepare a plot of fine, loamy soil, to which has been added a liberal dressing of good manure. Set the plants 12 inches apart in the row and the rows 20 inches apart.

Price, 50c per 10; \$1.00 per 25; \$2.50 per 100; \$15.00 per 1000.

If sent by Parcel Post add 5c per 10; 15c per 50; 25c per 100.

Barr's Mammoth—Robust and vigorous and throws large shoots which remain white above ground as long as they are fit for cutting.

Conover's Colossal—This variety is remarkably tender and finely flavored.

Barr's Mammoth

Palmetto—An early and great yielder and very even and regular in growth. It has been tested both North and South and has proved entirely successful in every way.

In accordance with Federal Quarantines, Currants and Gooseberries cannot be shipped west of the Mississippi River, or into any of the following States: Delaware, Georgia, Illinois, Maine, Maryland, New Hampshire, North Carolina, Tennessee, Vermont, Virginia, West Virginia and District of Columbia. Black Currants cannot be shipped into the following States: Michigan, Minnesota and Pennsylvania.

GOOSEBERRIES

PRICE OF 2-YEAR-OLD BUSHES

35c each; \$3.00 per 10; \$25.00 per 100.

If sent by Parcel Post add 5c each; 25c per 10.

Downing—Large, pale green and of splendid quality for both cooking and table use.

Pearl—This variety bears a great resemblance to the Downing, but is superior in size and quality. It is very hardy; free from mildew and the most productive of all varieties.

Josselyn—Fruit red, large size, smooth, of best quality. Has been tested over a wide extent of territory by the side of all the leading varieties, and so far is free from mildew, both in leaf and fruit. A wonderful cropper, with bright, clean, healthy foliage.

RHUBARB—PIEPLANT

Two-year-old plants

Strawberry Rhubarb all the year.

Wood's Strawberry Rhubarb

You can have Early Strawberry Rhubarb throughout the entire year. Cut stalks of young Rhubarb into small pieces. Put these into fruit jars. Fill jar with cold water and seal up tightly. This will keep you in fresh Early Strawberry Rhubarb the entire year.

There is a number of different ways of serving Early Strawberry Rhubarb—pies, cakes, sauces, jellies, puddings, etc.

Price of

Two-year-old plants
25c each; \$2.00 per 10;
\$15.00 per 100.

If sent by Parcel Post add 5c each; 25c per 10.

CURRANTS

PRICE OF 2-YEAR-OLD BUSHES

Except otherwise noted.

35c each; \$2.50 per 10; \$20.00 per 100.

If sent by Parcel Post add 5c each; 25c per 10.

Wood's Improved Cherry—A strain of the original Cherry which we have greatly improved upon. It is larger, has better bunches, and is a stronger grower. Fruit is large, deep red, and subacid.

Wood's Giant Black—This is the largest and finest black variety known. Much valued for jellies.

Price 40c each; \$3.00 per 10; \$25.00 per 100.

Perfection—Won the Barry \$50.00 Gold Medal of the Western New York Horticultural Society, the Pan-American Exposition Medal, and the Gold Medal at the St. Louis Exposition of 1904. The color is a beautiful bright red; clusters long; large size berries.

Price 40c each; \$3.00 per 10; \$25.00 per 100.

Red Cross—Very popular owing to its sweetness and fine flavor. New York Experimental Station says: "Red Cross is large and productive. The masses of fruit are so dense as to completely hide the bearing canes from view."

Fay's Prolific—Less acid than Cherry; bunch large, berries medium. A remarkable cropper.

White Grape—Very large, yellowish-white; excellent quality.

Victoria—A late bearing red variety.

Northern Grown Nut Trees

English Walnut

English Walnut—An exceedingly handsome tree for the lawn. It produces large crops of thin shelled, delicious Nuts which are always in demand at good prices. The English Walnut can be grown in the Eastern and Northern States, as well as in California and the South. There are several large orchards of English Walnuts in the vicinity of Rochester, N. Y., which produce good crops every year. We have three English Walnut trees on one of our Farms, which are over 40 years old.

2 to 3 ft. \$1.25 each; \$11.00 per 10.
3 to 4 ft. 1.50 each; 13.50 per 10.

Butternut

Butternut—Produces large, handsome, elongated Nuts with rich, sweet, oily kernel; very nutritious. Cultivation increases the size of the Nuts. The tree grows rapidly and yields large crops in a few years.

4 to 5 ft., \$1.00 each; \$9.00 per 10.

Japan Walnuts picked from a six-year-old tree

Japan Walnut—A choice improved variety, grows with great vigor, forming a handsome head without pruning; has withstood a temperature of 20° below zero without injury. The shell is a little thicker than that of the English Walnut, which it resembles in a general way; kernels are meaty, delicate, and can be removed entirely. Tree begins to bear when 2 or 3 years old. 3 to 4 ft., \$1.00 each; \$9.00 per 10.

A. Y. Cathcart, Bristol, Ind., says: "I have been raising Japan Walnuts for 18 years and am more than pleased with them. They are very hardy and do well in Maine, Minnesota and Canada, as they have stood 30 degrees below zero without injury. The trees come into bearing young. I have trees three years old that bore Nuts this season; 18 years old, each have three to four bushels. In quality the Nuts resemble the Butternut, being much richer than English Walnut. Trees grow very fast and are fine for shade."

Black Walnut

Black Walnut—Bears a heavy crop of large, round Nuts of excellent quality. They are much relished and bring a good price on the market. The tree is a rapid grower attaining a large size and majestic form; has beautiful foliage. Very valuable for its timber, which enters largely into the manufacture of fine furniture and cabinet ware.

5 to 6 ft., \$1.00 each; \$9.00 per 10.

ORNAMENTAL TREES

Avenue of Norway Maples

- A Denotes trees which attain 50-70 ft. in height.
 B Denotes trees which attain 20-40 ft. in height.
 C Denotes trees which attain 8-15 ft. in height.

MAPLE TREES

Maple, Norway (A)—The compact, vigorous nature of this tree renders it desirable for the street or lawn. The growth is fairly fast, the head massive and rounded, with broad rich green foliage. This variety is highly recommended by the Shade Tree Commissioners for street and park planting.

	Each	Ten
6 to 8 ft.....	\$1.00	\$ 9.00
8 to 10 ft.....	1.50	14.00
10 to 12 ft.....	2.00	18.00
Extra 2 in. Caliper...	3.00	27.50
Extra 2½ to 3½ in...	5.00	40.00

Extra Specimens, Trees 3½ in. Caliper and up 16 to 20 feet, \$8.00 each; 2 for \$15.00.

Maple, Ash-Leaved or Box Elder (B)—A fine rapid growing variety, with handsome, light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive.

- 8 to 10 ft., \$1.00 each; \$ 9.00 per 10.
 10 to 12 ft., \$1.50 each; \$14.00 per 10.
 Extra 2 in. Caliper \$2.00 each; \$18.00 per 10.

Maple, Sugar or Rock (A)—A native tree valuable for its production of sugar and wood. Very stately in form, rapid grower and has fine foliage. Valuable ornamental variety.

- 8 to 10 ft., \$1.50 each; \$14.00 per 10.
 10 to 12 ft., \$2.00 each; \$18.00 per 10.

Silver Maple—A favorite for the street, park or lawn

Maple, Silver-Leaved or Soft Maple (A)—Of rapid growth, large size, and rounded form; foliage bright green above and silvery beneath; very hardy and easily transplanted.

	Each	Ten	Hundred
6 to 8 ft.....	\$0.75	\$7.00	\$60.00
8 to 10 ft.....	1.00	9.00	80.00
10 to 12 ft.....	1.50	12.00	100.00
Extra Large Size....	2.50	20.00	

Extra Specimens, Trees 2½ to 3½ in. Caliper 14 to 16 feet, \$4.00 each; \$35.00 per 10.

Wier's Cut-Leaved Maple

Maple Wier's Cut-Leaved (A)—One of the most remarkable and beautiful trees, with cut or dissected foliage. Its growth is rapid, shoots slender and drooping, giving it a habit almost as graceful as the cut-leaved Birch. The foliage is abundant, silvery underneath, and on the young wood especially deeply and delicately cut. The leaf stalks are long and tinted with red on the upper surface. It ranks among the most interesting and attractive lawn trees.

6 to 7 ft. \$1.50 each.

Maple, Schwedlerii (Red Leaved)

Maple, Schwedlerii (Red Leaved) (B)—An excellent and striking variety. The beautiful leaves attract attention all season, but are especially fine in spring, when their gleaming red and purple contrast brightly with the delicate green of other trees. Purplish-green in midsummer; golden yellow in autumn.

8 to 10 ft., \$2.50 each; 10 to 12 ft., \$3.50 each. Extra Specimens 2½ in. caliper and up \$5.00.

Siberian Maple

Maple, Siberian (C)—Dwarf habit and compact form. Foliage very handsome; leaves small; brilliant crimson in autumn. Makes a very pretty, small tree for lawns. Perfectly hardy.

2 to 3 ft. \$1.50 each.

Bechtel's Double-Flowering Crab
Bechtel's Double-Flowering Crab (C)

—One of the most beautiful of the many fine varieties of the flowering crabs. Tree medium size, covered in early spring with large, double, fragrant flowers of a delicate pink color. From a distance they have the appearance of roses.

2 to 3 ft. \$1.00 each; 3 to 4 ft. \$1.25 each.

WOODLAWN NURSERIES

Carolina Poplars for Wind-break or Hedge—For immediate effect the Carolina Poplar is indispensable. You can plant them out for a screen to hide unsightly views, or for a windbreak. Muck Gardeners plant them out by the thousand to keep their seed from blowing away, or being covered up after planting. The tops should be cut back to about 8 feet, and you will have a hedge or windbreak the first year. Plant them about 2½ feet apart.

8 to 10 ft. \$5.00 per 10; \$40.00 per 100.

West Hoboken, N. J.

Woodlawn Nurseries
Gentlemen:

I received the trees in first class condition and will say they are the best lot of trees I ever received.

Your packing cannot be excelled and the trees are just what you claim them to be in your catalog. I also wish to state that the fruit trees I bought from you several years ago are bearing fruit.

Chas. F. Boman.

Showing first years planting of Carolina Poplar as windbreak or hedge

Carolina Poplar

Poplar, Carolina (A)—Remarkably rapid, luxuriant grower. Very large leaves, very glossy, deep green. Valuable as a street or shade tree where shade is desired quickly. Useful for planting as a screen to hide unsightly buildings or as a windbreak for an orchard or garden plot.

	Each	Ten	Hundred
8 to 10 ft.....	\$.75	\$5.00	\$40.00
10 to 12 ft.....	1.00	6.00	50.00

Lombardy Poplar

Poplar, Lombardy (A)—Well known for its erect rapid growth and commanding form. Very desirable on large grounds or along roads, to break the average heights and forms of other trees.

	Each	Ten	Hundred
8 to 10 ft.....	\$.75	\$6.50	\$50.00
10 to 12 ft.....	1.00	7.50	60.00

Catalpa, Bungeii each side of walk

Catalpa, Bungeii (Umbrella Catalpa) (C)—Grafted on stems 6 to 8 ft. high, it makes an umbrella shaped top without pruning; perfectly hardy. Leaves large, glossy, heart-shaped, deep green. One of the most unique trees; desirable for lawn, park and cemetery planting or for each side of a driveway.

Two-year heads, extra large, \$2.50 each.

Camperdown Elm

Elm, Camperdown (Weeping Elm) (C)—One of the most graceful of all Weeping Trees, having large luxuriant and deep green foliage; well adapted for planting on lawns, Parks or Cemetery; very desirable. A rapid grower.
6 to 8 feet \$2.50 each.

Weeping Mountain Ash

Weeping Mountain Ash (C)—A beautiful variety of rapid growth and decidedly pendulous and trailing habit; covered from July till winter with great clusters of bright scarlet berries. One of the most desirable lawn trees.
6 to 8 feet, \$2.50 each.

Tea's Weeping Mulberry

Mulberry, Tea's Weeping (C)—One of the finest, most graceful and satisfactory of weeping trees. Umbrella shaped head, with slender willowy branches drooping to the ground. It has beautiful glossy foliage, handsomely cut or divided into lobes. It is perfectly hardy. \$2.50 each.

Weeping Moss Rose Locust (C)—One of the most beautiful of the Weeping Trees with long elegant clusters of rose-colored flowers that bloom from June until frost. Perfectly hardy.
\$2.50 each.

Louisville, Ky., March 26, 1921.

Woodlawn Nurseries,
Dear Sirs:

Received trees O. K. and planted them. They are the finest I ever saw. They are the pride of the neighborhood, and ought to be a good ad for you. Will do all I can for you.

Many Thanks,
A. J. Heckman.

WOODLAWN NURSERIES

Rivers' Beech is noted for its rich, glossy foliage

Beech, Rivers' Purpled-Leaved (B)—An elegant, compact, low-branching tree. Foliage crimson, changing to dark purple in summer. Finest of all purple-leaved trees, a most striking lawn tree. 6 to 8 ft., \$2.50 each.

Oriental Plane

Oriental Plane (A)—A well known tree. Extensively used for street and park planting, especially in cities where there is much smoke.

	Each	Ten	Hundred
8 to 10 ft.....	\$1.50	\$12.00	\$100.00
10 to 12 ft.....	2.00	15.00	125.00

Catalpa, Speciosa (A)—This medium to large tree with its tropical-like foliage and its pyramids of white flowers is worthy of a place in every collection. It is very ornamental and is a valuable tree for the street or park.

7 to 8 ft., \$1.00 each; 8 to 10 ft., \$1.50 each.

Linden (B)—Of unusual stately beauty. Foliage is luxuriant and the curious cream-colored flowers have a delightful fragrance. Blooms in July. Growth is rapid and upright.

8 to 10 ft., \$2.00 each.

Purple-Leaved Plum (Prunus Pissardi)

Plum, Purple-Leaved (Prunus Pissardi) (B)—The finest purple-leaved small tree of recent introduction. The young branches are a very dark purple; the leaves when young are lustrous crimson, changing to dark purple, and retain this beautiful tint till they drop late in autumn; no other purple-leaved tree or shrub retains its color like this. It transplants easily and is worthy of wide dissemination. Flowers small, white, single, covering the tree.

4 to 5 feet, \$1.25 each.

Mulberry, Downing (B)—Berries very large, black, and of excellent quality. Should be in every garden. Very valuable when planted near a Cherry Orchard as the birds will eat this fruit instead of the Cherries.

5 to 6 ft., \$1.00 each; \$8.50 per 10.

Mulberry, Russian (B)—A hardy variety. Tree is a rapid grower; foliage is abundant.

7 to 8 ft., \$1.00 each; \$8.50 per 10.

Mountain Ash (B)—A favorite; erect growing tree of medium size, producing white flowers early in the Spring, followed by clusters of bright scarlet berries which remain on the tree through the Winter. 8 to 10 ft., \$1.50 each.

Magnolia Tripetala

Magnolia Tripetala (B)—Called Umbrella Tree on account of its great, glossy, green leaves; bears white flowers of great size in June which are followed by rose-colored fruit cones.

5 to 6 ft., \$2.00 each.

Paul's Thorn

Thorn, Paul's New Double-Flowering (C)—This tree deserves to be classed among the most beautiful of all ornamentals. It is a dense low grower, and occupies but little space; well adapted to beautify small grounds. Blooms in May and June. Flowers are a bright carmine color. 4 to 5 feet, \$1.50 each.

Birch, Cut-Leaved Weeping (A)—Its tall, slender, yet vigorous growth, graceful, drooping habit, silvery-white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree.

† 5 to 6 ft., \$2.00 each.

Horse Chestnut (B)—The well-known variety. Has magnificent spikes of white flowers. Fine for street planting.

6 to 8 ft., \$1.50 each.

Willow, Babylonica (A)—Well-known, weeping variety; forms a large, round-headed, graceful tree. It does not require much attention and succeeds well in rather dry soil. Very desirable.

8 to 10 ft., \$1.25 each; 10 to 12 ft., \$1.50 each.

Willow, Golden (B)—A distinct variety with bright golden bark. Habit same as Babylonica. 8 to 10 ft., \$1.25 each; 10 to 12 ft., \$1.50 each.

American Elm, Finest Street and Shade Tree

Elm, American (A)—The Elms are so well known that it is unnecessary to refer to their beauty and value for ornamental planting. We grow the American on an extensive scale, for street and park planting.

8 to 10 ft., \$1.00 each; \$8.50 per 10; 10 to 12 ft., \$1.50 each; \$12.00 per 10.

Mr. Allen L. Wood San Antonio, Texas.
Rochester, N. Y.

Dear Sir:—

My stock arrived O. K. by Express and in fine condition.

You did not tell me that you were sending me all specimen plants or that you were sending me the best plants you had.

Please accept my thanks for the extra fine stock and also your promptness.

I am enclosing you another order which fill and send to me by express.

Yours very truly, S. S. Z. Thompson

The planting of shrubbery, trees, vines, etc., make a wonderful difference in the appearance of a place, as shown in the above picture.

ORNAMENTAL SHRUBS

The Shrubs we grow are of the very choicest varieties; extra strong, two and three years old, from two to five feet in height, according to the variety; and will blossom the first season.

Althea, or Rose of Sharon

Althea, or Rose of Sharon (D)—The Altheas are fine, free-growing, flowering shrubs and are easy to cultivate. Very desirable on account of blooming in August and September, when scarcely any other tree or shrub is in blossom. We have the following varieties, at **50c each**.

Lady Stanley (Dbl. Pink) **Ardens** (Dbl. Purple)
Boule de Feu (Dbl. Red) **Jeanne d'Arc** (Dbl. White)

Tree Althea—Same as bush, but grown in tree-form, with single stem. Colors: Pink, Purple, Red, White. **3 to 4 ft., 75 each.**

D denotes shrubs, which attain 9 to 12 feet in height.
 E " " " " 5 to 8 " "
 F " " " " 2 to 4 " "

Cornus are very attractive when planted singly, in groups or for massing, being distinguished for their elegant foliage

Cornus, Elegantissima (Variegated Leaf) (E)—One of the finest shrubs, with beautifully variegated foliage. **65c each.**

Cornus, Sanguinea (E)—A fine, rapid-growing shrub with red bark; leaves have a broad margin of white. **50c each.**

"Everblooming Butterfly Bush" or "Summer Lilac"
Butterfly Bush or Summer Lilac—(E) This beautiful shrub matures rapidly and produces beautiful lilac-colored flowers in profusion. Blossoms the entire summer; splendid for cutting. Should be cut back to the ground every spring. 50c each.

Thunbergii Barberry
Barberry, Thunbergii (F)—A shrub of bright green foliage, which changes to brilliant red in the fall; bright red berries, which are conspicuous throughout the winter. Very hardy; has never been known to winter-kill. 60c each.

Floribunda Crab (E)—One of the most beautiful flowering shrubs. Blossoms in May, producing crimson flowers in great profusion. A lawn specimen of wonderful and rare loveliness. \$1.00 each.

Deutzia, Gracilis

Deutzia, Gracilis (F)—A charming species of dwarf habit; flowers pure white. Fine for growing in front of taller shrubs. 50c each.

Deutzia, Candida (E)—Pure white flowers, very double. 50c each.

Deutzia, Lemoinei (F)—Pure white flowers, borne on stout branches of upright growth. Dwarf habit, free flowering. 50c each.

Deutzia, Pride of Rochester

Deutzia, Pride of Rochester (E)—Very large double white flowers. It excels in size of flower, profuse bloom and vigorous growth; nearly a week earlier than Deutzia Crenata. 50c each.

Calycanthus, or Sweet-Scented Shrub (E)—Its foliage is rich; flowers of a rare chocolate color, with an agreeable odor. Blossoms in June. Very desirable. 50c each.

Golden Elder

Elder, Golden Leaved (E)—A handsome variety with golden yellow foliage, which renders the plants very conspicuous and effective. White flowers. The berries are used for pies, jam and wine. **50c each.**

Elder, "White Elder Bush" (E)—For the last two years we have had a great many calls for Wild Elder Bushes. The berries are used for canning and also for wine. They are very productive and will grow in any corner. **50c each.**

Purple Fringe

Fringe, Purple (Smoke Tree) (D)—A small tree or shrub very much admired on account of its peculiar fringe, or hair-like flowers, covering the whole surface of the bush in midsummer. **50c each.**

Forsythia, or Golden Bell (E)—A very early and showy spring bloomer; flowers bright yellow, appearing before the leaves. Very effective for covering steep slopes, walls, fences and arbors. **50c each.**

Quince, Japan (E)—Dark green foliage, and showy, deep scarlet flowers of good size, produced singly or in masses along the branches. Much admired and often used for hedges. **50c each.**

Honeysuckle, Upright White

Honeysuckle, Upright White (E)—A well known shrub of erect habit. Valuable for its handsome flowers and showy fruit. Delightfully fragrant, one spray will fill a room with its delicate perfume. **50c each.**

Honeysuckle, Red (E)—A beautiful shrub. Very vigorous; producing large, bright red flowers, striped with white. **50c each.**

Honeysuckle, Pink (E)—Has flowers which contrast beautifully with the foliage. Looks very pretty planted with the white and red varieties. **50c each.**

Syringa

Syringa (E)—Of vigorous habit. Very hardy, with large handsome foliage and beautiful white flowers produced in greatest profusion. One of the best and most popular shrubs. **50c each.**

Syringa, Golden (F)—A very pretty medium sized shrub with golden-yellow foliage. It keeps its color the entire season. Very valuable to plant with other shrubby or in front of a porch. **60c each.**

Hydrangea, P. G.

Hydrangea, P. G. (E)—One of the most popular hardy shrubs, and also one of the finest flowering varieties. The immense heads of bloom are cream-color in bud, pure white when fully expanded, changing to pink and bronze with age; and finally to brown when frosted. Blooms in August and September, when very few shrubs are in flower. **60c each.**

Hydrangea, Arborescens

Hydrangea, Arborescens Grandiflora Alba (Hills of Snow) (E)—This hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished. **60c each.**

Hydrangea, P. G., Tree

Hydrangea, P. G., Tree Form (E)—Same as bush, but grown in tree form with single stem. **3 to 4 ft., \$1.00.**

Snowberry

Snowberry, Racemosus (E)—Bushy form, small pink flowers in summer; quantities of large, white, waxy, roundish berries in autumn that remain on the plant through part of the winter. **50c each.**

Snowberry, Vulgaris (E)—Low growing, spreading, graceful habit; foliage attractive; noteworthy for the beauty of its clusters of red berries which hang on the bush all winter. **50c each.**

High Bush Cranberry (E)—Very ornamental. Its red berries resemble cranberries which hang on until destroyed by frost. **50c each.**

Kerria, Japonica (F)—A green branched, slender, graceful shrub, with drooping branches, rich, dark yellow flowers which bloom all summer. **50c each.**

Villosa—A species from Japan. Large branching panicles; flowers light purple in bud, white when open; fragrant. Especially valuable as its flowers appear two weeks after those of other Lilacs. **\$1.00 each.**

Common Snowball

Snowball, Common (E)—A well-known favorite shrub producing its snowy-white sterile flowers in large balls in June. **50c each.**

Snowball, Japan (Viburnum Plicatum) (E)—An erect, compact shrub, blooming in June; completely covered with large balls of flowers that are as white as snow, foliage is dark green. We recommend this most highly. **75c each.**

Lilac, Ludwig Spaeth

Ludwig Spaeth—Panicles long, flowers large, dark purplish red. Very desirable.

LILACS

The improvement in the Lilac, especially in the double sorts, during the last ten years is marvelous, and all lovers of this flower will be delighted with these novelties. In size, form and color they far surpass the old favorites and we confidently recommend them to our patrons. Nothing that has been introduced recently is likely to prove so popular as these Lilacs.

All of our Lilacs are 3 to 4 feet.

Common Purple—The well-known, old-fashioned Lilac; bluish purple flowers. **75c each; \$6.50 per ten.**

Common White—Fragrant and free-flowering. **75c each; \$6.50 per ten.**

Japonica—A species from Japan, becoming a good sized tree. Foliage dark green, glossy, leathery; flowers creamy-white. A month later than other Lilacs. **\$1.00 each.**

FRENCH NAMED LILACS

**All Varieties, 3 to 4 feet, \$1.00 each;
\$9.00 per ten.**

Charles X—A strong, rapid growing variety. Trusses large, reddish purple.

Jules Cabot—Very large panicles of delicate rosy-pink flowers.

Mad. Abel. Chatenay—Large panicles; white; very fine.

President Grevy—A beautiful blue; individual flowers, double and very large; one of the finest Lilacs.

BEAUTIFY YOUR GROUNDS

An attractive and harmonious planting of shrubbery greatly improves the appearance of a home, and incidentally a community. A few shrubs around the porch, at the corners and along the sides of a home give a wonderful effect. People desire to live in a neighborhood where the grounds are well kept. Everyone who beautifies his own grounds, not only adds to his own pleasure, but helps create a love of beauty in others, in the community. Cultivate the community spirit; get your neighbors interested.

Spirea Van Houttei is especially attractive when planted in groups

SPIREAS

All the *Spireas* bloom with a riotous extravagance which makes them quite striking. Their individual style, color and habits of growth differ so markedly that a collection of varieties will ensure bloom the entire season and still evade the monotony of repetition.

Spirea, Van Houttei (E)—Without doubt the finest variety in the collection. At the flowering season in May and June the plant is covered with a mass of large, white flowers, presenting a beautiful appearance. Very hardy. One of the finest shrubs in the Catalogue.

3 to 4 feet, 50c each; \$4.50 per ten.

2 to 3 feet, 40c each; \$3.50 per ten.

Spirea, Prunifolia

Spirea, Prunifolia (Bridal Wreath) (E)—A superb old-fashioned variety, with graceful, upright, slender branches covered with a wreath of white flowers in May. 60c each.

Spirea, Aurea (Golden) (E)—Foliage green, bordered with rich golden yellow. In June the branches are covered with double white flowers. Very conspicuous. 50c each.

Spirea, Billardi (E)—Rose-colored flowers in spikes; blooms nearly all summer. 50c each.

Spirea, Bumalda (F)—A low growing bush with dark leaves. Blooms early in May. Flowers a delicate pink. Very desirable. 50c each.

Spirea, Anthony Waterer

Spirea, Anthony Waterer (F)—A dwarf variety of great beauty. Its broad flat heads of red flowers continue in perfection all Summer. 60c each.

Spirea Thunbergi (F)—A dense, feathery bush. The foliage, which is a peculiar shade of yellowish green, changing in autumn to bright red and orange. Flowers pure white, borne in feathery masses in early spring. 50c each.

Weigela, Rosea

Weigela, Rosea (E)—An elegant shrub, with fine rose-colored flowers; of erect, compact growth; blossoms in June. **65c each.**

Weigela, Eva Rathke

Weigela, Eva Rathke (F)—Flowers brilliant crimson. A very attractive variety. Almost a continuous bloomer. **75c each.**

Weigela, Variegated (F)—Of dwarf habit; finely variegated foliage which lasts the entire season; contrasts nicely with its rose-colored flowers. One of the best. **65c each.**

Prunus Triloba—A beautiful shrub of vigorous growth. Blossoms very early in the spring, before the leaves appear. The whole bush is covered with double flowers, of a delicate pink. **75c Each.**

PAEONIES

Two-year-old-roots

Paeony—A noble flower almost rivaling the Rose in brilliancy of color and perfection of bloom. Hardy as an oak. In the most severe climate the plants require no protection. Each year adds to their size and beauty.

Price 50c each; \$4.50 per ten.

By Parcel Post add 5c each; 35c per ten.

Edulis Superba—Large, early and fragrant. Bright color mixed with lilac. Strong upright grower; very free bloomer. A good Decoration Day variety.

Festiva Maxima—Very large snow white, some petals crimson. Tall, showy and vigorous grower. Early.

Paeony, Duchess de Nemours

Duchess de Nemours—A choice variety. Pure white crown, sulphur white collar. Vigorous grower and free bloomer. Early.

Humei—Large, very full; clear cherry pink. Strong grower. Late variety.

Louis Van Houette—Deep carmine rose with purple tints; very showy. Late.

ORNAMENTAL VINES

If sent by mail
add 5c per vine

Ampelopsis Veitchii—A handsome covering vine that will cling to any surface

Ampelopsis Veitchii (Boston Ivy)—Leaves overlap one another, form a dense sheet of green. It grows rapidly and clings to wall or fence with the tenacity of Ivy; the foliage is very handsome in summer, and changes to crimson scarlet in autumn. For covering walls, stumps of trees, rockeries, etc., no plant is so useful. For the ornamentation of brick and stone structures, it can be specially recommended. **50c each.**

Chinese Matrimony Vine—One of the hardiest of climbing vines. Purple flowers and alter covered with scarlet berries. **50c each.**

Hall's Japan Honeysuckle

Honeysuckle, Hall's Japan—A strong, vigorous, almost evergreen sort, with pure

white flowers, changing to yellow. Very fragrant. Covered with flowers from July to December; holds its leaves until January. The best bloomer of all vines. **50c each.**

Clematis, Paniculata—Single, white. Of extremely rapid growth, with shining green foliage, and a profusion of flowers which are small but borne in large panicles; very popular. **75c each.**

Clematis, Jackmanni—Large, intense violet purple and remarkable for its velvety richness; free in growth and abundant and successive bloomer. **85c each.**

Clematis, Henryii—Single; the finest white Clematis; very large, fine flowers; grows rapidly, blooms freely during summer and autumn. **85c each.**

Clematis, Mme. Ed. Andre—Flowers medium size; dark red; flowering. **85c each.**

Ivy, American or Virginia Creeper—A fine rich green in summer, changing to crimson in autumn. Affords shade quickly and is very desirable for covering walls, verandas, or trunks of trees. **50c each.**

Birthwort or Dutchman's Pipe—Brownish flowers, resembling a miniature pipe. This is an ideal vine for situations requiring dense shade. Splendid for archways or verandas. The leaves are very large, broad and closely laid; deeply green, and vine grows rapidly. **\$1.00 each.**

Wistaria, Purple

Wistaria, Chinese Purple—A rapid grower, unsurpassed for beauty and picturesqueness. It is hardy and lives to a great age, doing as well in cities amid unfavorable conditions, as in the country. Has long, pendulous clusters of pale flowers in May and June, and in autumn. **50c each.**

WOOD'S CHOICE ROSES

If sent by mail, add 5c per plant

OUR ROSES ARE STRONG, TWO-YEAR-OLD PLANTS; WILL BLOOM THE FIRST YEAR
 No class of flowers is as well or as universally loved as are Roses. They do best in a warm sunny spot, and must be shielded from strong winds; they thrive in most any soil that is well drained. Our Roses are strong, hardy, field grown plants.

Special prices on Roses, 75c each (unless otherwise noted).

General Jacqueminot

General Jacqueminot—Brilliant crimson; one of the handsomest and most showy roses of this color; beautiful in the bud.

Gruss an Teplitz

Gruss an Teplitz—Scarlet, shading to velvety crimson, very fragrant; a free grower and most profuse bloomer. Blossoms the entire summer. We can recommend it as one of the choicest roses.

Los Angeles—New California product, one of the grandest all-around Roses of America ever put on the market. The stems are long as on American Beauty; the flowers are large as Paul Neyron, from long and pointed buds. Its freedom and continuance of bloom are remarkable; its color "has the tints of the dawn, the gold of noonday and the blush of the sunset," according to one poetic admirer. **\$1.50 each.**

Snow Queen—Most Perfect White Rose

Snow Queen (Formerly Frau Karl Druschki)—White American Beauty—The color is a marvelous white; vigorous and hardy. A great beauty. **85c each.**

Geo. Arends (Pink American Beauty)—Magnificent new Rose of much the same shaped flower as the famous American Beauty. Color a satiny pink.

Eugene Boulet—Deep crimson-red, full and globular; blooms with extraordinary freedom. An ideal Rose.

Juliet—Should be planted with every collection of Roses. Color on outside old gold, inside a rich rosy red, changing to deep rose as the flowers expand. Very fragrant.

Lady Helen Stewart—Bright crimson-scarlet; large, full and of perfect form. A beautiful and valuable variety.

Conrad F. Meyer—Pure, silvery-pink; surpassing all others of the Rugosa family in beauty. Valuable as an ornamental shrub.

Kaiserin Augusta Victoria

Kaiserin Augusta Victoria—A rose that blooms continually from spring until fall. A very strong grower; buds are pointed; flowers large and double; snowy white. \$1.00 each.

J. B. Clark—The flowers are large, well formed, deep scarlet shaded with blackish-crimson and very fragrant. Its chief merit is its extraordinary blooming qualities.

Captain Hayward—Flowers very large; color bright carmine crimson; vigorous and free-flowering.

Prince Camille de Rohan—Deep velvety crimson, the nearest approach to a black rose; large, moderately full. A splendid rose.

Mrs. John Laing

Mrs. John Laing—Color a soft, delicate pink, with a satiny sheen; very fragrant. A remarkable free bloomer.

Paul Neyron—This magnificent Rose is by far the largest in cultivation; very double; of a beautiful deep rose-color and delightfully fragrant; borne upon vigorous upright shoots in great abundance throughout the entire season.

Caroline Testout—Large, double, bright rose; very sweet; sturdy habit, free-flowering.

Clio—Flowers large, in clusters, of fine globular form, flesh-color shaded in the center with rosy pink; growth vigorous; handsome foliage. One of the best roses.

Persian Yellow—Bright yellow, nearly full-Hardy and vigorous.

Mad. Gabriel Luizet—A magnificent large, full and fragrant flower. Soft pink with deep flesh-colored center. One of the choicest.

Pink Killarney—Queen of the Irish Roses

Pink Killarney—In color it is especially beautiful, being an exquisite shade of deep sea-shell pink. The buds and flowers are of enormous size, the petals being frequently two and one-half inches deep. Blooms profusely throughout the season. \$1.00 each.

White Killarney—A duplicate of the charming pink Killarney, with flowers white as snow. \$1.00 each.

Ulrich Brunner—A Rose of beautiful form and finish, very striking from its color of brilliant cherry-crimson. Free bloomer.

Marshall P. Wilder—Color cherry-carmine, richly shaded with maroon; very fragrant. Vigorous grower and hardy. It continues to bloom profusely long after others are out of flower.

CLIMBING ROSES

Climbing
American
Beauty

SPECIAL PRICE ON CLIMBING ROSES, TWO YEARS, FIELD GROWN, 75c EACH. (EXCEPT OTHERWISE NOTED)

If sent by mail, add 5c per plant.

Baltimore Belle—Very double blush-white, in large clusters, completely enveloping the whole plant with bloom.

White Rambler—Similar to Crimson Rambler, only the color is pure white.

Yellow Rambler—Light canary shade; clusters smaller, individual flowers larger than Crimson Rambler.

Climbing American Beauty—A beautiful Rose—One plant will produce twenty times as many blooms as the old American Beauty. Over nine hundred blossoms and buds have been counted on one four-year-old bush. The Roses grow on single stems and measure three to four inches in diameter. It has proved perfectly hardy, and the foliage is green and beautiful until the snow falls. It is a worthy ornament to any garden, and its beauty and fragrance will prove a lasting pleasure. If you are a lover of Roses do not fail to plant it. **\$1.00 each.**

Crimson Rambler—A vigorous and rapid grower, often growing 8 to 15 feet the first season. Charming variety for covering trellises or buildings. If grown on a wire fence as a hedge it will attract immediate attention. It produces clusters of handsome Crimson Roses.

Dorothy Perkins—Clear shell-pink with flowers borne in clusters; full and double, with crinkled petals. The foliage stays on until winter. This is without question one of the very finest of all climbing Roses.

Excelsa or Red Dorothy Perkins—The handsomest of all climbers. Double scarlet flowers in large trusses. Extremely vigorous and hardy.

Pink Rambler—Resembles Crimson Rambler in every respect, but color.

Thousand Beauties—A superb Rose. Blooms profusely from early June until August, the flowers appearing in immense clusters of large size, and double. The colors vary from a soft rose through the shades of carmine, white, yellow and other delicate tints. It is a strong grower and its magnificent foliage is of itself a valuable feature.

PLANTS AND BULBS

Yellow Duke Decorative Dahlia

- Delice**—One of the best; soft rose pink.
- Jack Rose**—Great favorite, rich, old rose color.
- Jeanne Charmet**—Very beautiful Lilac pink.
- Red Hussar**—Bright red; continuous bloomer.
- White Swan**—Pure white; very popular.
- Yellow Duke**—Beautiful primrose yellow.
30c each; 6 (one of each) for \$1.50.

J. H. Jackson—One of the finest Cactus Dahlias

- Ambassador**—Ivory white.
- Countess of Lonsdale**—Rich, salmon pink.
- Marjorie Castleton**—Very fine. Pink.
- Golden Gate**—One of the best yellow.
- J. H. Jackson**—Deep velvety black maroon.
- Rene Cayeux**—Rich geranium red.
30c each; 6 (one of each) for \$1.50.

Golden Glow or Summer Chrysanthemum
See inside of back cover

Golden Glow (E)—Large showy plant, blooms from early summer until frost. Flowers 3½ inches in diameter, double, deep golden yellow color, resembling yellow Chrysanthemums.
20c each; 2 for 35c; 6 for \$1.00.

Delphinium or Larkspur
See inside of back cover

Delphinium (Larkspur)—The flowers are of a beautiful deep blue. Their long showy spikes of flowers persist from June until frost and furnish the most satisfactory blue to any color scheme. 30c each; 6 for \$1.50.

Phlox, Fraulein G. Von Lassburg (Pure White)

La Vague—A beautiful shade of violet.
Champs Elysee—Bright red. A great favorite.
Pantheon—Peerless pink. Extra large.
Caran d'Ache—Variegated with old rose shadings.
R. P. Struthers—Rosy carmine, with dark red eyes.
Fraulein G. Von Lassburg—Pure white. Very large.
 Our Phlox are 2 years old, strong and hardy; will bloom the first year. 30c each; 6 (one of each) for \$1.50. \$20.00 per 100.

Japan Iris

Iris, Japan—The flowers of the Japan Iris are of the richest colors, ranging from white to purple, with delicate markings and veinings. Most delicate and beautiful combinations of colors imaginable. 25c each; 6 for \$1.25.

Lily of the Valley

Lily of the Valley—Will thrive and throw up its beautiful fragrant white bell, in any kind of soil. 10c each; 85c per 10; \$5.00 per 100.

Shasta Daisy—A very hardy perennial, blooming better and more abundantly each season, and continuing to bloom for several months. The pure white flowers are from two and one-half to four inches in diameter, and are borne singly on long, stiff, wiry stems. Strong field-grown plants, 30c each; 6 for \$1.00

GIANT HOLLYHOCKS

Hollyhocks, King of the Garden—Most ornamental and handsome garden flowers, with their tall spikes dotted with large, double flowers of the most lovely color. Can be used with great effect as borders or against buildings or fences.

- | | |
|--|--|
| <p>Double Pink
 Double Red
 Double Yellow</p> | <p>Double White
 Double Maroon</p> |
|--|--|

30c each; 6 for \$1.50.

Campanula or Bell Flower
 See inside of back cover

Campanula or Bell Flower—Are among the most beautiful perennials in cultivation and are used extensively for border plants. They possess that light transparent grace that is so attractive in a flower. Very free of bloom throughout a long season, and adapted to any garden soil. Especially good for cutting. Blue and White. **30c each; 6 for \$1.50.**

NEW GIANT MALLOW MARVELS

Red Flowering Mallow—Of all recent improvements among perennials, this new mammoth flower is the most striking and notable. The colors are wonderfully intensified. The flowers (10 to 12 inches across) are so vividly showy in their bloom as to demand a place in every garden. They are a delight to the eye; are hardy, and come up each year from the roots, developing into a bush 6 to 8 feet high, and have beautiful foliage. **40c each; 6 for \$2.00.**

Digitalis or Foxglove
 See inside of back cover

Digitalis or Foxglove—One of the most widely known and popular plants. The racemes are often two feet in length, containing scores of prettily-spotted thimble-shaped flowers. Very desirable for use in borders or as a background for lower growing plants. **30c each; 6 for \$1.50.**

Chicago White and Cracker-Jack

Choice Varieties of Gladioli, 2 for 25c; 3 for 35c; 10 for \$1.00; \$8.00 per 100.

America—Beautiful soft, flesh pink faintly tinged with lavender; much like the famous Cateya Orchids. A magnificent cut-flower; it took the flower loving world by storm when first introduced and still holds first place among all Gladioli.

Chicago White—Large flower, pure white with faint lavender streak in the lower petals; very early bloomer.

Cracker-Jack—A rich maroon. A fine strong growing variety and a good bloomer.

Hadley—A most attractive early-blooming sort, with large well-opened flowers of delicate salmon pink. Very popular.

Panama—The companion to America, which has become very popular. A perfect Hermosa pink in color, with large wide-open, wax-like flowers.

Princes—(Known as the Thousand Dollar Gladiolus.) Amaryllis-like flowers of a rich dark scarlet marked with white on the lower petals. See inside of back cover.

Yellow Hammer—Flowers medium size of delicate sulphur yellow, with darker shade in lower petals. Best Yellow. See inside of back cover.

GLADIOLI COLLECTIONS

- 5 (1 of a kind) for 50c. By mail 58c.
- 10 (2 of a kind) for \$1.00. By mail \$1.12.
- 25 (5 of a kind) for \$2.00. By mail \$2.20.

Hardy Chrysanthemums

Hardy Chrysanthemums live through the winter without protection. Bloom after all the other flowers are destroyed by frost.

Autumn Glow—Brilliant crimson flowers.

Early Snow—Pure white flowers.

Quinola—Golden Yellow.

Silver Moon—Beautiful shell-pink flowers.

Large 2 year Plants, 25c each; 4 (one of each color) 85c; 10 for \$2.00.

Gaillardia

Gaillardia—One of the most gorgeous of all flowering plants. A hard center of deep maroon is thickly bordered with petals of orange and yellow, ringed by circles of crimson red and maroon. 30c each; 6 for \$1.50.

Barberry Thunbergii Hedge

California Privet Hedge

HEDGE PLANTS

Barberry Thunbergii—Dwarf growing; foliage, rich bright green which takes on a brilliant red color in autumn. Red berries also appear at that time. It is perfectly hardy, easily transplanted, and free from insects. Very ornamental and as attractive in winter as in summer.

EVERGREENS

All Evergreens marked B. & B. will be dug with ball of earth and roots wrapped in burlap.

American Arbor Vitae—Much used for hedges, screens, singly on lawns or in tubs for porches. A handsome little tree, and if allowed to grow naturally will be tall and pyramid-shaped. Can be trimmed and kept in any form and height. In summer the foliage is bright green above, yellowish beneath.

	Each	Ten	Hundred

2 to 3 ft.....	1.00	9.00	80.00
3 to 4 ft.....	1.50

Compacta Arbor Vitae—Of dwarf, compact form; light green foliage. Neat and attractive. Useful for beds, borders or around porches. 18 to 24 inches. (B. & B.) \$4.00 each.

Siberian Arbor Vitae—A superb variety; somewhat similar to American, with heavier and fuller foliage and more compact habit. It holds its color during winter and bears trimming well. One of the hardiest. 18 to 24 inches. (B. & B.) \$4.00 each.

Pyramidal Arbor Vitae—A perfectly hardy variety; of upright, compact habit, like the Irish Juniper. Very desirable. 4 to 5 feet. (B. & B.) \$6.00 each.

Norway Spruce—Pyramidal in form, of rapid growth, and extremely hardy. Makes a beautiful ornament for the lawn when planted singly and when set out as a hedge or wind break cannot be beaten. Norway spruce will grow as high as 25 feet.

2 to 3 ft.....	1.00	9.00	80.00

Irish Juniper

Irish Juniper—A distinct and beautiful variety, of erect, dense conical outline, resembling a pillar of green; very desirable. 2 ft. \$1.00; 3 ft. \$1.50.

EVERGREENS—Continued

Retinospora Aurea

Tom Thumb Arbor Vitae—A very small, compact Evergreen, with very fine foliage. Makes a beautiful ornament for a yard. Fine for grouping. 18 to 24 inches. (B. & B.) **\$3.50 Each**

Swedish Juniper (Suecica)—Dwarf, compact habit of growth, with yellowish green foliage, not changing in winter. Perfectly hardy. 18 to 24 inches. (B. & B.) **\$3.50 Each**

Pfitzeriana Juniper—A handsome, bushy tree, with delicate foliage borne on long whip-like branches. Fine for borders. 18 to 24 inches. (B. & B.) **\$4.00 Each**

Savin Juniper—A low spreading tree, with handsome, dark green foliage. Very hardy and suitable for lawns and around porches. Can be pruned to any desired shape. 18 to 24 inches. (B. & B.) **\$4.00 Each**

Retinospora Aurea—A plant of great beauty. Foliage soft plume like, of a golden yellow color. Close and compact habit. 18 to 24 inches. (B. & B.) **\$4.00 Each**

Retinospora, Green—Like the preceding, a plant of great beauty. Light green foliage; and compact habit. 18 to 24 inches. (B. & B.) **\$4.00 Each**

Balsam Fir—A very erect, regular pyramidal tree, with dark green, sombre foliage. Grows rapidly and is very hardy. 3 to 4 feet, **\$3.00 each.**

A Real Tree Protector

On orders of Nursery Stock or Seeds amounting to \$100.00 or more, we will accept a \$50 Liberty Bond at par value, as part payment on account, if payment in full is made in advance.

TREE PROTECTORS

will keep the mice and rabbits from eating the bark off your young trees. These are made from a sheet of basswood 18 inches long and 9 inches wide. Soak them well in water; then roll them around the trunks of the trees, tying them with twine.

\$1.25 per 50; \$2.00 per 100; \$8.00 per 500; \$15.00 per 1000.

Woodlawn Grass Seed Mixture

We take special pride in our Lawn Seed Mixtures. They are composed of the very best grades of Blue Grass, Red Top, White Clover and other desirable varieties; no cheap or light seed of any description is used.

There is a big opportunity for adulteration in lawn grass seed. Mixtures are very often composed of light seed of cheap grades, chaff that won't grow, and practically no white clover. We advise our customers, who wish a perfect lawn, to purchase seed only from reliable houses. One pound will seed about 300 square feet.

1 lb. 50c prepaid; 5 lbs. \$2.00; 1 bushel (20 lbs) \$7.00, not prepaid. Bags extra—5 lb. bags 15c each; 20 lb. bags 25c each.

PULVERIZED SHEEP MANURE

A light, dry, odorless, concentrated fertilizer, free from seeds and all foreign matter. Our Pulverized Sheep Manure is aged for several years; it will not burn the grass or plants, quickly dissolves and disappears from the surface when your lawn and garden is watered.

Pulverized Sheep Manure will help keep your lawn green and make your garden produce the finest vegetables and flowers.

Our special brand Pulverized Sheep Manure is put up in bags of the following sizes:

5 lbs.....	\$0.40	100 lbs.....	\$ 3.50
12½ lbs.....	.75	500 lbs.....	15.00
25 lbs.....	1.25	1,000 lbs.....	27.50
50 lbs.....	2.00	2,000 lbs.....	50.00

For liquid manure, 1 pound to 5 gallons of water, used once a week. For greenhouse or house plants, mix one part to 10 parts soil.

TESTED SEEDS

All our seeds are tested before they are sent out. We do not use any seeds in filling orders that do not prove at least 96% fertile.

Our Flower and Vegetable seeds are of the highest standard and quality you can buy. Two years ago we offered seeds in our catalog for the first time, and since then have received a great many testimonials from satisfied customers.

We are going to keep our seeds up to the highest standard so our customers will know where to get reliable seeds.

WOODLAWN NURSERIES.
Allen L. Wood.

POSTAGE ON SEEDS PREPAID ON PACKET, OZ. AND LBS., EXCEPT WHERE OTHERWISE NOTED. If larger quantities are wanted by parcel post add 7c per lb.

BEANS

CULTURE—A light loam is best adapted to a perfect bean crop. Plant as soon as the ground has become thoroughly warm in rows from two feet for hand cultivation to three feet apart for horse cultivation. Cultivate often, keeping a mulch of loose soil at all times. When beans are in bloom cultivate shallow, as deep cultivation causes many blossoms to drop, decreasing the yield. *One pound for fifty feet of rows.*

BUSH LIMA BEANS

Packet 5c; ½ lb. 35c prepaid.

Fordhook Bush Lima

podded pole bean. Pods 8 to 10 inches long, entirely stringless.

Packet 5c; ½ lb. 20c; 1 lb. 35c, prepaid.

Fordhook Bush Lima—Without doubt the best Bush Lima. Earlier than the Pole Lima by ten days. Excellent quality.

Burpee's Bush Lima—A popular variety of Bush Limas, growing only 18 to 20 inches high. Very productive, with pods and beans of the same shape and as large as those of the pole Limas, of excellent quality.

POLE BEANS

Old Homestead (Kentucky Wonder)—Ten days earlier than any other green-

YELLOW-PODDED BUSH BEANS

Packet 5c; ½ lb. 20c; 1 lb. 30c prepaid. 10 lbs. or more 20c per lb.

Refugee Wax—One of the best Beans for the home garden or market. The pods are long, round and wax-like; perfectly stringless, tender and of the finest quality. Comes into bearing about 40 days after planting. **See colored picture on inside of front cover.**

Rustless Golden Wax—Its fine quality, hardness, productiveness, make it a general favorite.

GREEN-PODDED BUSH BEANS

Packet 5c; ½ lb. 20c; 1 lb. 30c, prepaid. 10 lbs. or more 20c per lb.

Improved Stringless Green-Pod—Too much cannot be said in favor of this most excellent variety. Absolutely stringless and very tender.

Bountiful—Of superior quality, early and productive. Its pods remain in an edible condition for a long time.

Detroit Dark Red—See page 47

BEETS

Sow seed about one inch deep in drills 15 inches apart; when the plants are 3 to 4 inches high, thin them to stand about 6 inches apart in a row. One ounce of seed will sow 50 feet of drill; 5 pounds per acre.

Extra-early Crosby's Egyptian—An extra-early strain of the old favorite, Crosby's Egyptian; globe shaped, and of better quality than the parent.

Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.25, prepaid.

Detroit Dark Red—One of the best turnip-shaped Beets for the market and home garden and winter storage. Flesh rich red, fine grained, without a hard core; uniformly smooth and of medium size.

Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.25, prepaid.

Mangel-Wurzel—Also called Mangel; Cattle and Field Beet. May be grown in almost any soil, but deep loams are necessary for heavy yields of the long varieties.

Long Red—1 oz. 10c; ¼ lb. 25c; 1 lb. 75c, prepaid.

CAULIFLOWER

Seed may be sown as directed for cabbage. The soil in which the plants are grown should be heavily fertilized; supply water freely in dry weather when the heads begin to form. One ounce of seed will produce about 3,000 plants. Set plants 24 to 30 inches apart.

Early Snowball

Early Snowball—A dwarf variety producing magnificent big heads of the finest quality. Desirable for both the garden and market.

Packet 15c; ¼ oz. \$1.00; ½ oz. \$1.75, prepaid.

CABBAGE

More money can be lost by a gardener who plants poor Cabbage seed than with almost any other vegetable that he may grow. The seed we offer is absolutely new stock from the best professional growers.

Early Cabbage should be started under glass in March; late varieties in the open ground in May.

Allow a space of about 18 inches between plants, with not less than 24 inches between rows. One ounce of seed will produce about 3,000 plants; about 4 ounces to the acre.

Copenhagen Market

Copenhagen Market—For home gardens and market; early, solid head, short stems.

Packet 5c; ¼ oz. 15c; 1 oz. 35c; ¼ lb. \$1.00; 1 lb. \$3.00, prepaid.

All Seasons—Unsurpassed for medium early or main crop variety; heads large, nearly round, extremely solid and of fine quality.

Packet 5c; ¼ oz. 15c; 1 oz. 35c; ¼ lb. \$1.00; 1 lb. \$3.00, prepaid.

Improved Danish Ballhead (short stem)—A winter variety of the very greatest popularity. Heads solid, with few outer leaves, and will weigh 25 per cent more than any other Cabbage of equal size. Our strain of this variety is unsurpassed. See colored picture on inside front cover. Packet 5c; ¼ oz. 15c; 1 oz. 35c; ¼ lb. \$1.00; 1 lb. \$3.00, prepaid.

Mammoth Rock Red—The old fashioned red Cabbage; heads large, round and solid.

Packet 5c; ¼ oz. 15c; 1 oz. 35c; ¼ lb. \$1.00; 1 lb. \$3.00, prepaid.

Improved American Savoy—Leaves curled and crinkled; dark green in color. The best of all the Savoy Cabbages.

Packet 5c; ¼ oz. 15c; 1 oz. 35c; ¼ lb. \$1.00; 1 lb. \$3.00, prepaid.

CHINESE, or PE-TSAI

A new Celery-Cabbage recently introduced from the Orient. Resembles Cos Lettuce in habit of growth. May be served as cold slaw, as a salad, or cooked like cabbage.

Packet 10c; 1 oz. 35c; ¼ lb. \$1.00; 1 lb. \$3.00, prepaid.

CELERY

Celery seed is very slow in germinating; should be sown under glass in March for the first crop, and about the middle of April in the open ground for later crop. Cover not more than a quarter of an inch, keep the bed moist and partially shaded. When plants are large enough to handle, transplant to 4 inches apart; about the middle of June set in permanent rows 3 to 4 feet apart and 6 inches in the rows. One ounce of seed will produce about 4,000 plants.

Paris Golden Dwarf Self-blanching

Paris Golden Dwarf Self-blanching—A dwarf variety of rapid growth; is ready for use earlier than other sorts and also desirable for late planting. Rich golden color, crisp, with solid brittle hearts. One of the very best varieties for market or home garden. **French Seed.**

Packet 10c; ½ oz. 60c; 1 oz. \$1.00; ¼ lb. \$3.00, prepaid.

Winter Queen—Robust and stocky, requires little labor to blanch clear white. Stalks solid and crisp, with little foliage and therefore slight waste. A splendid keeping variety.

Packet 10c; ¼ oz. 60c; 1 oz. \$1.00; ¼ lb. \$3.00, prepaid.

CARROTS

Sow Carrot seed in early April for the first crop, and continue the sowing till June for later crops. Sow in drills 14 inches apart, cover seed about ½ inch, and when the plants are up thin to 4 inches apart in a row. An ounce of seed will sow about 100 feet of drill, three or four pounds to an acre.

Danvers Half-Long—Semi-stump-rooted, dark orange; smooth; has yielded 25 to 30 tons per acre.

Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.25, prepaid.

CARROTS—Continued

Chantenay Stump-rooted—Six to seven inches long, thicker than other sorts; flesh orange red, free from core. One of the best for market or home garden. See colored picture on inside front cover. **Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.25, prepaid.**

EGGPLANT

One ounce of seed produces about 2,000 plants. **Improved New York Purple**—One of the best for garden culture. Fruits, large, round or slightly oval, dark purple.

Packet 10c; ½ oz. 40c; 1 oz. 75c; ¼ lb. \$2.50, prepaid.

LETTUCE

Big Boston

Big Boston—The most valuable Lettuce for the market gardener and home garden. Splendid large, solid heads blanching to a creamy yellow; leaves crisp, tender, few waste outside leaves.

Packet 10c; 1 oz. 25c; ¼ lb. 75c; 1 lb. \$2.50, prepaid.

Crisp as Ice—Large, round, solid heads; outer leaves green, heart rich creamy yellow. A perfect home-garden variety.

Packet 10c; 1 oz. 25c; ¼ lb. 75c; 1 lb. \$2.50, prepaid.

Prize Head—A loose-heading variety; curly leaves, edged brown. One of the best varieties for the home garden.

Packet 10c; 1 oz. 25c; ¼ lb. 75c; 1 lb. \$2.50, prepaid.

Black-seeded Simpson—A good variety for growing under glass or in the open ground. Heads of good size; outer leaves green, golden yellow heart.

Packet 10c; 1 oz. 25c; ¼ lb. 75c; 1 lb. \$2.50, prepaid.

Cos, or Romaine—Leaves long and conical, requiring to be tied up; the center soon forms a solid head, turning to snowy whiteness.

Packet 10c; 1 oz. 25c; ¼ lb. 75c; 1 lb. \$2.50, prepaid.

SWEET CORN

Early Golden Bantam

Early Golden Bantam—The most famous of the early sweet corns. Stalks from 3 to 4 feet high, usually bearing two ears, which are filled to the tip with creamy yellow, sweet kernels.

Packet 5c; $\frac{1}{2}$ lb. 20c; 1 lb. 30c; prepaid. 5 lbs. \$1.00; 10 lbs. \$1.85.

Stowell's Evergreen—The standard main crop Sweet Corn for the home garden or for the market. Ears large size with deep kernels, remaining fresh and edible longer than any other variety. See colored picture on inside of front cover.

Packet 5c; $\frac{1}{2}$ lb. 20c; 1 lb. 30c; prepaid. 5 lbs. \$1.00; 10 lbs. \$1.85.

SWEET CORN (Continued)

Golden Nugget—(Second early). Similar to golden Bantam, planted at the same time produces its crop about a week later. Ears larger and more prolific but of the same quality and rich creamy yellow color. Certainly it is its equal in every respect, and is unsurpassed as a home-garden corn.

Packet 5c; $\frac{1}{2}$ lb. 20c; 1 lb. 30c; prepaid. 5 lbs. \$1.00; 10 lbs. \$1.85.

Black Mexican—Splendid variety for the home garden. Unusually sweet and prolific. Kernels mixed, black, blue, and white, but turn white when cooked.

Packet 5c; $\frac{1}{2}$ lb. 20c; 1 lb. 30c; prepaid. 5 lbs. \$1.00; 10 lbs. \$1.85.

Early Evergreen—Earlier than Stowell's Evergreen and equally good in other respects.

Packet 5c; $\frac{1}{2}$ lb. 20c; 1 lb. 30c; prepaid. 5 lbs. \$1.00; 10 lbs. \$1.85.

POP CORN

White Rice—Ears 6 to 8 inches long, shapely, pointed kernels, resembling grains of rice. The Corn when popped is pure white.

Packet 5c; $\frac{1}{2}$ lb. 20c; 1 lb. 30c; prepaid. 5 lbs. \$1.00; 10 lbs. \$1.85.

CUCUMBER

Sow seed in warm, moist, light soil, in hills 4 feet apart each way; use 15 to 20 seeds to a hill, thinning to a half dozen plants when strong enough to resist the attacks of Cucumber beetle. One ounce will plant about 100 hills; two pounds to the acre.

Improved Early White Spine—Valuable for forcing or outdoor planting. Early, good sized, smooth and straight. Deep green color, seldom turning yellow.

Packet 10c; 1 oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.25, prepaid.

Improved Long Green—Extensively used for pickling. Fruits dark green, uniform in shape and size, frequently 12 inches long. Extremely free bearing.

Packet 10c; 1 oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.25, prepaid.

Japanese Climbing—May be grown on a trellis as a screen. Fruits large, 10 to 12 inches long; excellent when sliced in salads or as pickles.

Packet 10c; 1 oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.25, prepaid.

ENDIVE

Sow in drills a foot apart; when the plants are 2 to 3 inches high, thin to about 10 inches. When full grown the leaves should be tied together thus allowing the heart to blanch.

Moss Curled—Foliage dark green, finely curled.

Packet 5c; 1 oz. 20c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50, prepaid.

Broad-leaved Batavian (Escarolle)—Leaves thick, either plain or slightly wrinkled.

Packet 5c; 1 oz. 20c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50, prepaid.

FRENCH ENDIVE OR CHICORY

French Endive—A delicious vegetable; very popular as a salad or can be used as greens, the same as beets or dandelions.

Packet 10c; ½ oz. 25c; 1 oz. 40c; ¼ lb. \$1.00, prepaid.

MUSKMELONS

Plant in hills 6 feet apart each way, placing six to eight seeds in a hill; thin to about 3 plants in a hill. When the vines are 12 to 18 inches long, pinch the tips to make them branch. One ounce will plant 80 hills; one pound for an acre.

Irondequoit—The finest yellow-fleshed melon on the market. Fruits unusually large, fairly smooth skin, turning yellow when ripe. Flesh rich salmon yellow, sweet and of a most delicious flavor. Commands a higher price than any other variety.

See colored picture on inside of front cover.

Packet 20c; ½ oz. 35c; ¼ lb. 85c; 1 lb. \$2.50, prepaid.

Emerald Gem—Smooth, emerald green skin; flesh salmon, ripening clear through to the rind.

Packet 5c; 1 oz. 20c; ¼ lb. 50c; 1 lb. \$1.50, prepaid.

Rocky Ford—Extra early; slightly oval in shape, ribbed and covered with a coarse netting. Valuable shipping variety.

Packet 5c; 1 oz. 20c; ¼ lb. 50c; 1 lb. \$1.50, prepaid.

WATERMELON

Prices—Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.25, prepaid.

Cultivation similar to muskmelon; hills should be 6 to 8 feet apart. One ounce will plant 25 to 30 hills, one pound to the acre.

Cole's Early—Best for home garden and near-by market, as it is too tender for shipping. Flesh deep red; ripens clear to the rind.

Kleckley Sweets—One of the finest Watermelons, 18 to 20 inches through; skin dark green, flesh bright scarlet.

Citron (For Preserves)—Small round fruits, white flesh.

SPINACH

Prices—Packet 5c; 1 oz. 15c; ¼ lb. 35c; 1 lb. 75c, prepaid.

For early spring sow seed in August or September, protecting the plant during the winter. For summer use sow in early spring; thin to 3 inches apart. For succession sow every two weeks. One ounce will sow 100 feet of drill, about 10 pounds to the acre.

Long Season—A warm weather variety; compact, with short stems; leaves thick, well crinkled, dark green.

Bloomdale Savoy-leaved—Especially adapted for fall sowing; leaves wrinkled and curled.

ONIONS

Prices—Packet 10c; 1 oz. 25c; ¼ lb. 75c; 1 lb. \$2.50, prepaid.

For best development Onions require rich, mellow soil. Sow thinly in shallow drills as soon as possible in the spring; when of fair size, thin to about 4 inches apart. Successive plantings can be made till July. One ounce of seed will sow about 100 feet of drill, 3 pounds to the acre.

Southport White Globe—Clear white skin and flesh; quite mild. A good shipper and a better keeper than many white sorts.

Southport Red Globe—A favorite sort where there is a demand for red varieties; globe shaped, medium large size, with smooth skin and small neck; flesh white.

Danvers Yellow Globe—Extra-large, thick bulb, slightly flattened at the bottom, full oval top and small neck; skin yellowish brown, flesh clear white. The seed we offer is from selected stock and is a distinctly fine strain.

Mammoth Prizetaker

Mammoth Prizetaker—The largest of all Onions, often 15 to 18 inches in circumference. Desirable for fall and early winter; flesh pure white, similar to the Bermudas.

American Silver Skin—Very popular as a pickling Onion, for use in salads, and for bunching. Medium size, mild flavor, and beautiful, clear white skin.

PARSLEY

Sow in drills a foot apart, thinning the plants to 3 or 4 inches. Seed germinates slowly. One ounce of seed to 100 feet of drill.

Extra Triple-curved—Pale green, extra-curved and crimped; dwarf and compact.

Packet 5c; 1 oz. 15c; ¼ lb. 50c; 1 lb. \$1.50, prepaid.

GARDEN PEAS

Sow early in spring, and follow every two or three weeks until late July. One pound will sow 40 feet of drill.

PRICE OF PEAS (unless otherwise noted)

Packet 5c; $\frac{1}{2}$ lb. 20c; 1 lb. 35c, prepaid. 10 lbs. or more 20c per lb.

Nott's Excelsior

Nott's Excelsior—This well-known and valuable sort begins to bear early and continues to bear for a long time. Pods good sized and well filled. Plants about 16 inches tall.

Thomas Laxton—Extra early, strong. Large blunt pods, well filled with quality peas.

Extra-early Premium Gem—An old favorite, very productive, pods large and well filled.

Telephone—The Standard main crop variety; heavy bearer of large pods, containing 6 to 7 peas.

Champion of England—A late variety; pods good size, filled with green wrinkled peas. Vines 5 feet high.

Packet 5c; $\frac{1}{2}$ lb. 25c; 1 lb 40c, prepaid 10 lbs. or more 21c per lb.

PARSNIP

Seed germinates slowly; may be sown very early in the spring, in drills about 18 inches apart and a half an inch deep; thin to 8 inches in the row. One ounce of the seed will sow 200 feet of drills, 5 pounds to the acre.

Long Hollow Crown—A standard variety for home garden and market purposes. Long, smooth, hardy, keeping through the winter with little protection.

Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 40c; 1 lb. \$1.00, prepaid.

PEPPER

Better plants are obtained when the seed is sown in a hotbed or under glass. Plants may be set in the open ground after the weather is warm, spacing about 2 x 3 feet. One ounce of seed will produce about 1,500 plants.

PRICE OF PEPPERS

Packet 10c; $\frac{1}{2}$ oz. 45c; 1 oz. 80c; $\frac{1}{4}$ lb. \$2.25, prepaid.

Chinese_Giant

Chinese Giant—Largest of all Peppers; mild, bright scarlet, flesh thick and sweet. A very popular table variety for making "stuffed peppers" or "mangoes." Plant is strong-growing and productive.

Large Bell, or Bull Nose—Quite early, nearly as large as Chinese Giant. Fruit thick, mildly flavored. See colored picture on inside front cover.

Long Red Cayenne—Late; fruit small, cone shaped, bright scarlet; hot.

RADISH

Rapid growth is demanded if good bulbs are to be secured. A light sandy soil is best for early Radishes. Successive sowings may be made every ten days or two weeks. One ounce will sow 100 feet of drill.

White Icicle

White Icicle—The best of the long white varieties, crisp and brittle. Suitable for growing under glass and in the open garden.

Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.25, prepaid.

RADISHES—Continued

Prices—Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.25, prepaid.

Early Scarlet Globe—Probably more of this variety is grown than of any other Radish. Skin is rich, bright scarlet; flesh white, fine-grained. One of the leaders for market gardeners. See colored picture on inside of front cover.

Scarlet Turnip White Tip—Medium size, bright scarlet with a distinct white tip, flesh white, matures in about 25 days.

Long Brightest Scarlet—Brilliant scarlet, white flesh; 3 to 4 inches long.

SWISS CHARD

Used extensively as "greens," prepared for the table the same as spinach. Seeds should be sown in April or May. One ounce of seed will sow about 50 feet of drill.

Large-ribbed Yellow Brazilian—Foliage quite tall, and is marked with golden yellow veins.

Packet 5c; 1 oz. 20c; ¼ lb. 45c; 1 lb. \$1.40, prepaid.

SQUASH

Prices—Packet 10c; 1 oz. 20c; ¼ lb. 60c; 1 lb. \$1.75, prepaid.

Mammoth Bush Summer Crookneck—Extra large, 15 to 20 inches long, rich golden yellow.

Improved Hubbard—Larger than the old Hubbard; outer skin deep green, flesh golden yellow, finely grained. Extra heavy. See colored picture on inside of front cover.

PUMPKIN

The usual way to grow Pumpkins is by planting the seed in the corn field, dropping two or three seeds in every third or fourth hill. One ounce will plant a dozen hills, two or three pounds for an acre.

Sugar, or Pie—10 to 12 inches in diameter, slightly flattened at either end; skin orange, flesh yellow.

Packet 5c; 1 oz. 20c; ¼ lb. 50c; 1 lb. \$1.50, prepaid.

Connecticut Field—Extra large, orange color.

Packet 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.00, prepaid.

TOMATO

Sow seed in hotbeds, or in boxes in a warm room; transplant when about 2 inches high into flats or single pots and place in cold frames. Transplant to the open ground about the middle of May to June 15th, setting the plants about 4 feet apart every way. One ounce of seed will produce about 1,000 plants.

Bonney Best—Color intense glowing scarlet; ripens to the stem without crack or black spot. Desirable for market or home use.

Packet 10c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.25, prepaid.

Dwarf Champion—Fruits medium size, smooth, purplish carmine; plants dwarf.

Packet 10c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.25, prepaid.

John Baer

John Baer—Among the first earlys; round, smooth, bright scarlet. Desirable for both market use and home garden.

Packet 10c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.25, prepaid.

VEGETABLE OYSTER

Vegetable Oyster

Vegetable Oyster—Grows the same as parsnip and is one of the best and most nutritious of our vegetables. It has a most distinct oyster flavor and is delicious fried or served in soups. It is a good remedy for indigestions; to preserve its medicinal value, boil whole, then peel, slice and prepare in your favorite way.

Packet 10c; 1 oz. 30c; $\frac{1}{4}$ lb. \$1.00; 1 lb. \$3.00, prepaid.

TOMATO—Continued

Improved Stone

Improved Stone—Better than the old Stone because of size, weight and color; fruits perfectly smooth, ripens to the stem and especially desirable for canning purposes.

Packet 10c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.00, prepaid.

Ponderosa—Possibly the largest of all varieties, often weighing three pounds each; solid, meaty, few seeds; reddish purple.

Packet 10c; 1 oz. 40c; $\frac{1}{4}$ lb. \$1.50; 1 lb. \$4.50, prepaid.

TURNIP

For early crops sow seed as soon as the land can be worked. For main crop and winter use sow seed in July and August. Drills are usually made 12 to 14 inches for garden culture; for field culture 24 to 30 inches. For early crops plants should stand 2 to 3 inches apart and for field crops 4 to 5 inches. Do not use fresh manure as a fertilizer. One ounce of seed for 150 feet of drill; two pounds to the acre.

Purple-Top White Globe—Flesh firm, fine grain, sweet and mild. Desirable for table, unsurpassed for stock.

Purple-Top Strap-Leaf—Quick grower valuable for spring planting; flesh and skin white, changing to purple above ground.

Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.00, prepaid.

RUTABAGA (Swede Turnip)

Used principally for stock feeding. Cultivation is the same as for turnips.

Imperial Purple-Top Yellow—Large; yellow, with purple top; one of the best.

Packet 5c; 1 oz. 15c; $\frac{1}{4}$ lb. 40c; 1 lb. \$1.25, prepaid.

Flower Seed Department ASTERS

We offer only the very best varieties. Our seed is absolutely fresh 1921 stock, strictly true to name.

Postage on seeds prepaid on packet, oz. and lbs. except where otherwise noted.

American Beauty Lavender

AMERICAN BEAUTY ASTERS

This beautiful Aster should be in every garden. It is one of the finest in cultivation. The flowers are very large and full, erect and sturdy. We offer American Beauty Asters in four colors. Lavender, purple, shell-pink and rose. **Packet 15c; 2 for 25c.**

IMPERIAL ASTERS

Imperial—A class of Asters blooming about midseason. Their delicacy of color, profusion of bloom, and the extreme doubleness of the flowers make them especially valuable for cutting.

Daybreak—Most delicate pink,

Purity—Double, and white as snow.

Rose—Light rose, with a silvery sheen.

Blue—A distinct novelty; the flowers are a pronounced bright blue.

Lavender—An extremely dainty tint of lavender which becomes quite pronounced as the blooms mature. **Packet 15c; 2 for 25c.**

Mixed Colors—All of the above colors mixed in one packet, **15c; 2 for 25c.**

NEW ASTER, HEART OF FRANCE

The best pure red Aster ever introduced. Heart of France opens red as the purest ruby, deepens with age and retains its remarkable beauty to the very end. The flowers are large and full, with never a trace of hollow center. The plants are of branching type and robust habit and the stems are long and strong, and have very few laterals. The plants begin to bloom quite early in the season and open fully with the midseason varieties. **Pkt. 25 cts., 2 pkts. 40 cts.**

ROYAL ASTER

Royal Aster—For the home garden or for commercial purposes this Aster is unsurpassed. The colors include
Royal White Royal Shell-Pink
Royal Lavender Royal Purple
Royal Rose Packet 10c.

Mixed Colors—All of the above colors mixed in one packet, **15c; 2 for 25c.**

Imperial Aster Purity

ROCHESTER ASTER

Rochester—The blooms are similar to the old Comet Asters, excepting that they are of immense size, possibly the largest Aster introduced. This class seems to be the only strong rival of the favorite Branching Asters.

Packet 20c; 2 for 35c.

Lavender Pink—The first of the "Rochester" class. The Chamber of Commerce of this city adopted it as the official flower. The color is a rich shade of lavender-pink; the petals are narrow and graceful, reflexed like a chrysanthemum.

White—Flowers fully as large as those of the preceding variety; pure white.

Violet—An unusual shade of rich violet; effective in masses or in cut-flower work.

Lavender Pink—Light lavender.

Rose—Color a pronounced shade of light rose.

Mixed—The preceding five colors in mixture.

Packet 20c; 2 for 35c.

Late Branching Aster

Late Branching—This superb class of Asters still holds its popularity despite the introduction of many later novelties. The blooms are borne on long stems, making it extremely valuable for cutting. The plants frequently cover a space of 3 feet, and should be allowed ample room to develop to full size. The colors include:

Snow-White **Shell-Pink**
Lavender **Purple**

Rose **Packet 10c each**

Mixed Colors—All of the above colors mixed in one packet, 15c; 2 for 25c.

KING ASTERS

A class entirely distinct from other Asters. The petals are long and narrow and so closely rolled that they look like a quill. Violet King was the first introduced and created a distinct sensation. This was soon followed by the Rose King, and later the other colors were added.

Violet King **Pink King**
Lavender King **White King**
Rose King **Crimson King**
Packet 15c; 2 for 25c.

CANDYTUFT

Empress—A pure white variety of large size; strong, free grower. **Packet 10c.**

Alyssum

Used for borders, rock-work and baskets. Seed may be sown in early spring for summer blooming, or in August for winter blooming indoors.

Sweet—Pure white flowers, extremely fragrant. **Packet 10c; ¼ oz. 25c.**

Little Gem—Seldom over 6 inches high; fragrant white flowers. **Packet 10; ¼ oz. 25c.**

Gold Dust—Bright yellow flowers. **Packet 10c.**

Early Giant White Cosmos

EARLY GIANT-FLOWERING COSMOS

Beautiful, fall-blooming plants, bearing great numbers of large, lovely flowers in many colors. Hardy, rapid-growing plants, 4 to 6 feet high. Sow seed in spring when danger from frost is past. Blooms from July to late fall.

- Early Giant White. Pkt. 10c.
- Early Giant Pink. Pkt. 10c.
- Early Giant Crimson. Pkt. 10c.
- Mixed Colors. Packet 10c.

BALSAM (Lady Slipper)

Plants grow from 18 inches to 2 feet in height; large, double flowers of brilliant colors; among the showiest annuals.

Camellia-flowered—Extra large blooms; many colors. **Packet 10c.**

White Perfection—Large, white flowers, perfectly double. **Packet 10c.**

Scarlet—Outside petals deep scarlet, inside marked with white. **Packet 10c.**

Pink—Shades of pink, varying from light to dark. **Packet 10c.**

Goliath—Stems frequently 4 feet high, with several branches on the lower portion; flowers on both main stem and branches. Mixed colors. **Packet 10c.**

CALLIOPSIS

Plants about 10 inches high, and a mass of bloom all summer. Desirable for cutting.

Mixed Colors. **Packet 10c.**

CARDINAL CLIMBER

**THE MOST BEAUTIFUL AND
BRILLIANT ANNUAL CLIMBER
EVER SENT OUT**

A strong rapid grower, attaining a height of thirty feet or more, with beautiful fernlike lacinated foliage, covered with fiery cardinal-red flowers from midsummer till frost. The flowers are about 1½ inches in diameter, and are borne in clusters of five to seven blossoms each. It delights in a warm, sunny situation and good soil. **Packet 15c.**

HELIOTROPE

Both the flowers and the foliage are deliciously fragrant; long sprays are useful for cutting. Seed sown early will produce blooming plants for bedding. Choice mixed colors. **Packet 10c.**

SNAPDRAGON

Blooms nearly all summer, and succeeds best in a light soil in full sun. Will bloom the first year, if the seed is sown in the early spring. Plants should be protected during the winter.

Brilliant Red—Flowers spike like a flaming torch, almost covered with the full, double blooms. **Packet 10c.**

Silver Pink—The best variety for cutting; delicate pink with a silvery sheen. **Packet 10c.**

Queen Victoria Snapdragon

Queen Victoria—A superb, pure white variety, extra-large blooms. **Packet 10c.**

Yellow—A pronounced rich yellow of extreme beauty. **Packet 10c.**

Mixed Colors. **Packet 10c.**

African Marigold

MARIGOLD

The African varieties are quite tall, and produce many large, brilliantly colored blooms. Seed should be sown in rows in the open ground early in the spring or in the house in March and transplanted to the garden later. The flowers of the African varieties are large and self-colored. Mixed varieties. Packet 10c; $\frac{1}{4}$ oz. 25c.

FRENCH MARIGOLD

The French Marigolds are smaller than the African varieties; the blooms are striped and shaded with varying colors.

Double Varieties Mixed. Packet 10c; $\frac{1}{4}$ oz. 25c.

CARNATIONS

Marguerite—Like the winter blooming Carnations, but bloom the first year from seed. A great variety of beautiful shades and fragrant double flowers. Plants can be taken up in pots for winter blooming. Mixed Colors. Packet 10c.

VERBENA

Hybrida—One of the best garden plants, but may also be grown in porch or window-boxes. Flowers are delicately colored and sweet scented. Packet 10c; $\frac{1}{8}$ oz. 30.

Mammoth Varieties, Mixed—Packet 10c; $\frac{1}{8}$ oz. 30c.

MARVEL OF PERU

The flowers of the Four O'Clocks are easily grown from seed, which should be sown where the plants are desired, as they are not readily transplanted. The blooms open in the late afternoon, remaining during the whole night. Mixed Colors. Packet 10c; $\frac{1}{2}$ oz. 25c.

MIGNONETTE

A delightfully fragrant, hardy annual, blooming the entire season in the flower border; also fine for pot culture during the winter and spring.

Sweet—The familiar and popular Sweet Mignonette. Packet 5c; $\frac{1}{2}$ oz. 20c.

FORGET-ME-NOT

Alpestris—May be grown as a perennial if slightly protected in winter. Flowers azure blue. Packet 10c.

Alpestris, Indigo Blue—Packet 10c.

Palustris—The true Forget-me-not. Flowers deep blue. Packet 10c.

Perfection—Bright blue flowers; desirable for edgings. Packet 15c.

Mixed Varieties. Packet 10c.

JAPANESE HOP

An annual climber which grows with great rapidity; foliage similar to the common hop, but much larger. Desirable for covering verandas or summer-houses. Packet 10c.

NIGELLA

Love-in-a-mist, Fennel Flower, and Devil-in-a-bush, are some of the names of this plant. Foliage finely cut; flowers various shades of blue. Mixed Colors. Packet 5c; $\frac{1}{4}$ oz. 15c.

Mastodon Pansies

PANSIES

Mastodon Mixture—The very finest strain of Mastodon Pansies are included in this mixture. The flowers are of unusually large size and brilliantly colored, with the wonderfully frilled edges that so distinctly mark this class. **Packet 25c; 1/16 oz. 85c; 1/8 oz. \$1.50.**

Large-flowered Mixed—A splendid strain of Pansies only a little less desirable than our Mastodon mixture. **Packet 15c; 1/16 oz. 50c; 1/8 oz. 75c.**

PETUNIA

One of our most brilliant summer bedding plants. Seed may be sown in a carefully prepared bed or in boxes and the plants transplanted.

Single-flowered Bedding Mixed—Many named varieties. **Packet 10c.**

Rosy Morn—Carmine-pink, with white throat. **Packet 10c.**

Snowball—Almost snowy white; free blooming. **Packet 10c.**

Giant Ruffled—Mixed colors. **Packet 10c.**

POPPIES

Peony-flowered, Double, Mixed—Some of the blooms are so full and double that they resemble a peony. Colors include white, scarlet, crimson, maroon and others. Mixed colors. **Packet 10c; 1/4 oz. 20c.**

Shirley—Flowers single, in varying colors, including crimson, scarlet, light pink and rose. **Packet 10c; 1/4 oz. 20c.**

Single Mixed—Finest Varieties. **Packet 5c; 1/4 oz. 20c.**

Salpiglossis or Velvet Trumpet should be in every flower garden. In our opinion it is one of the very best for massing and house decoration; blooms early and all summer long. The delicate markings and colors attract the attention of all who see them. Separate colors, crimson and gold, dark scarlet, rose and gold, violet and gold, white and yellow, and yellow.

Mixed Colors Packet 10c.

MORNING GLORY

Convolvulus Major—The old-fashioned Climbing Morning Glory. A multitude of colors and shades are combined in the individual flowers. **Packet 5c; 1 oz. 25c.**

Imperial Japanese—Unusually beautiful in color and tints; flowers frequently 6 inches across. **Packet 10c; 1/2 oz. 25c.**

KOCHIA (Summer Cypress)

Tricophylla—An annual about three feet in height. Splendid for temporary Summer Hedges. Throughout the summer it is a lively green, but towards autumn turns to a bright red. It is of rounded form, with very fine foliage and stems. **Packet 5c; 1/4 oz. 20c.**

Dwarf Chrysanthemum Sunflower

SUNFLOWER

These varieties must not be confused with the common sunflowers. The plants will grow from 4 to 6 feet in height and produce many really beautiful flowers.

Dwarf Chrysanthemum Sunflower—About four feet high. Branches from the ground to the top of main stem; bears golden Chrysanthemum flowers, finely fringed. Should be planted in every garden or in between shrubbery. **Packet 10c.**

Mammoth Russian—Single-flowered, gigantic size. **Ounce 10c.**

MOURNING BRIDE (Scabiosa)

Mourning Bride (Scabiosa) An old-fashioned yet favorite flower. Blooms are borne on long stems and are of many colors, including scarlet, maroon, crimson, pink, white and yellow. Fine for cutting. Seeds grow rapidly in the open ground. Double varieties, mixed. **Packet 10c.**

TEN WEEKS' STOCK

Popular for cut-flowers on account of their fragrance and rich colors. Seed sown in May will bloom in late summer and fall. Height 15 inches.

Large-flowering Dwarf, Mixed—Large spikes, double flowers; seeds saved from selected plants. All colors mixed. **Packet 5c.**

Postage on Seeds prepaid on packet, oz. and lbs. except where otherwise noted.

COLUMBINE

Plants grow well in shady places. Flowers are borne on long, slender stems; plants from 2 to 3 feet in height.

Caerulea—Rocky Mountain Columbine. Flowers white and pale blue. **Packet 10c.**

Long-spurred Hybrids—Includes all the best and brightest colors and many new beautiful shades. **Packet 10c.**

Double Varieties, Mixed—**Packet 10c.**

BACHELOR'S BUTTON

Variouly known as Bachelor's Button, Ragged Sailor, Blue Bottle and similar titles. Seeds grow very readily; plants take care of themselves and reproduce from season to season.

Mixed Single and Double. Packet 10c.

Dwarf Nasturtium

NASTURTIUM

The Dwarf Nasturtiums really are the garden's most brilliant flowers, including the shades of deepest red, fiery scarlet, rich gold, and brilliant yellow. Sow seed in the open ground where the plants are to bloom.

Dwarf Varieties in splendid mixture. Packet 5c; oz. 20c; ¼ lb. 60c.

CLIMBING NASTURTIUMS

Many named varieties in splendid mixture **Packet 5c; oz. 20c; ¼ lb. 60c.**

Sweet Pea Spencer
or Orchid Flowered

SPENCER ORCHID-FLOWERED SWEET PEAS

From the long list of Sweet Peas of this new and wonderful class, we have selected eight which in our judgment and experience are the best for garden. New kinds, will be added as they are produced. We recommend these eight varieties to you as the best of their color.

America—White ground, heavily flaked and striped with bright crimson-scarlet.

Asta Ohn—Charming soft lavender.

Captain of the Blues—Deep rich blue, with tinge of purple.

Countess Spencer—Clear, soft, rich pink.

Dobbie's Cream—Deep cream; leaves fluted and waved.

King Edward VII.—Pure red. Very fine.

Constance Hinton—Pure white of enormous size.

Elfrida Pearson—Large, pale pink flower; young blooms have a distinct tint of buff.

Each of above, pkt. 10c. oz. 40c.

SPENCER ORCHID-FLOWERED MIXTURE

A very good way to see and learn about the many kinds and colors of this superb new Sweet Pea is to plant seed of our mixture. In it are practically all the hundred or more best named kinds in their colors and combinations. A packet or two will make a gorgeous display in your garden. All Colors Mixed, pkt. 10c. oz. 25c., ¼ lb. 75c., lb. \$2.50.

Grandiflora Mixed—Includes only the best of the older varieties of Sweet Peas. Packet 5c; oz. 15c; ¼ lb. 35c; lb. \$1.25.

SALVIA—Scarlet Sage

The brilliant red flowers borne on long, stately spikes, standing well above the foliage and blooming until frost, give this plant a prominent place in every garden. Extensively planted in flower-beds and as a border plant. Seed should be started in boxes or under glass in February and March and transplanting done when all danger of frost is past.

Bonfire (Clara Bedman)—A compact-growing, early-flowering Salvia 2 feet high and 2 feet in diameter, covered with long spikes of brilliant scarlet flowers that stand clear above the dense, dark green foliage and completely cover the plant. Pkt. 10c., ½ oz. 50c.

Salvia Clara Bedman Bonfire

Splendens—The old favorite bedding variety. Scarlet flowers in great profusion on plants 3 ft. high. Pkt. 10c; ½ oz. 40c.

Giant Double Zinnia

Giant Double Zinnia "Picotee" (New)

A new Zinnia producing flowers 4 to 6 inches in diameter in the following colors: Yellow, Orange, Pink, and flesh. Each petal is tipped with dark chocolate or maroon. A very handsome Zinnia for bedding or for cut-flowers. All Colors Mixed, Packet 25c.

Giant Double Mixed—A distant race of Giant Zinnia. Colors include all the shades of the Zinnias. Mixed color packet 10c; $\frac{1}{4}$ oz. 35c.

Curled and Crested, Mixed—An extra-fine strain of Zinnias, with petals curled and twisted in peculiar forms. Colors include all the shades of the Zinnias. Mixed colors. Packet 10c; $\frac{1}{4}$ oz. 35c.

Seeds of Everlasting Flowers

STRAW-FLOWER or Helichrysum

Straw-Flower or Helichrysum—One of our best Everlasting. The flowers should be picked as soon as they expand or a little before and hung up in small bunches so that the stems will dry straight. In this way they will retain both form and color for years, and make very desirable winter ornaments and bouquets for table decoration. Thin plants to one foot apart. See colored picture on inside back cover.

Fire Ball—Deep crimson. Packet 10c.

Golden Ball—Yellow. Packet 10c.

Silver B a 11—Silvery white. Packet 10c.

Rose Queen—A beautiful shade of old rose. Packet 10c.

Strawflower

Salmon Queen—A pronounced shade of salmon-pink. Packet 10c.

Violet Queen—Deep violet. Packet 10c.

One packet each of above 6 colors, 50c; $\frac{1}{4}$ ounce 35c.

Mixed Colors. Packet 10c; $\frac{1}{4}$ oz. 25c.

FLOWERING PERENNIALS

Perennials usually bloom the second season from seed and are permanent thereafter. Year by year the plants grow larger and stronger; most of them are so hardy that they do not require protection during the winter. Seed may be sown outdoors in early spring or summer, or in a coldframe and later transplanted to the open ground.

COREOPSIS

Grandiflora—Bright golden flowers; first produced in June and continuing till frost. Plants 2 feet high. **Packet 10c; ¼ oz. 50c.**

DOUBLE DAISY

Seed of the English Daisy may be sown from June to August and will produce flowering plants for the following spring.

Longfellow—Extra-large, rose pink flowers, full double. **Packet 10c.**

Snowball—Flowers pure white, and full double. **Packet 10c.**

Mixed Colors. Packet 10c; ⅙ oz. 40c.

DIGITALIS

Old-time favorites, and desirable for a back-ground in the hardy garden. Flowers are bell-shaped and from 2 to 3 inches long. Mixed varieties and colors. **Packet 10c.**

CORNFLOWER ASTER

Cornflower—Will bloom the first year from seed; plants grow from 18 inches to 2 feet in height beginning to bloom in July and continuing until frost. Colors, blue and white, in mixture. **Packet 10c.**

HOLLYHOCK

These new Hollyhocks are a great improvement over the older sorts. Flowers full double; colors include pink, rose, scarlet, yellow, maroon, crimson and white. **Packet, each, 5c; ¼ oz. 40c.**

Mixed Varieties and Colors—Packet 5c; ¼ oz. 40c.

WALL FLOWERS

Seed sown early in the spring will produce blooming plants in early June. Flowers are of varying colors and exceedingly fragrant.

Single Varieties, Mixed. Packet 10c.

GYPSOPHILA PANICULATA

Baby's Breath—White flowers in July and August. **Packet 5c.**

LYCHNIS

Chalcedonica—An old garden plant, bearing brilliant scarlet flowers. 3 to 4 feet in height. **Packet 10c; ¼ oz. 25c.**

Haageana Hybrida—Bushy plants, bearing flowers an inch or more across. Colors range from white, through shades of pink, to deep scarlet. **Packet 10c.**

PERENNIAL PEAS

The hardy flowering Peas will climb from 6 to 8 feet in a season. The flowers are borne in large clusters on long stems. **Mixed colors. Packet 10c; ¼ oz. 25c.**

SHASTA DAISY

Alaska—Everybody knows this plant, with its pure white flowers like the old field Daisy, but much larger. **Packet 10c.**

SWEET WILLIAM

Plants grow about 1 foot high and are especially desirable for massing or for a border in a bed of perennials.

Holborn Glory—Many shades of colors are included in these extra-large flowers. **Packet 10c.**

Single Varieties—Mixed colors. Packet 10c.

Double Varieties—Mixed colors. Packet 10c.

POPPY

Iceland—Will blossom the first year, if the seed is sown in early spring. The flowers are about the size of the annual Poppy, and are produced from June to October.

White, Yellow, Orange. In separate packets, each 10c.

Mixed Colors. Including all of the above. Packet 10c.

Orientele—The brilliant "Oriental Poppy," with immense, flaming flowers or orange-scarlet. These impressive color-blotches are supreme among the prevailing greens of early spring. **Packet 5c.**

PRIMROSE

Seeds of the hardy Primrose can be sown in the open ground, but are slow in germinating and must be protected and shaded.

Auricula—Mixed colors. Packet 10c.

Elatior—Mixed Colors. Packet 10c.

Vulgaris—The old familiar English Primrose. **Packet 10c.**

PYRETHRUM

Large, double, daisy-like flowers, 3 to 4 inches across; colors include rose, flesh, pink, white, crimson and others.

Double Varieties. Mixed colors. Packet 5c.
