How did
GLAM
survive
COVID-19
and what
did we learn?

TIME TO LEARN

COVID-19 has changed all of our lives. In no time we had to learn as much as we could to keep us and our loved ones safe.

”

“Imagine a world in which every single person on the planet is given free access to the sum of all human knowledge. That's what we're doing.”

—Jimmy Wales

MEASUREMENTS IN SERBIA

- Lockdown every workday from 5pm to 5am every weekend and every holiday (march-may)
- Public institutions, educational and cultural institutions were completely closed
- No public transport
- Restaurants, cafes, cinemas,... were closed
- Airports and borders were closed
- State of emergency was pronounced in whole country

**LET'S
MOVE
EVERYTHING
ONLINE**

...because the world is closed.

ONLINE EDIT-A-THONS AND THEMATIC WEEKS

ADVANTAGES

- Lasts one week so more people can participate
- It is held online and there is no physical difficulties to participate
- Most people had more time to edit because of a lockdown
- No time pressure and better quality of articles
- Involving new platforms that we have not used so much yet (Wikidata)

DISADVANTAGES

- Challenging to find a time without online activities to organize it
- Only online literature available
- No opportunity to cooperate with a cultural institution
- Lack of motivation
- No social aspect
- No brainstorming between editors
- Greater possibility of misunderstanding

UPDATE OF GLAM BROCHURE

We redirected the excess time, which was supposed to be spent on organizing offline activities to update the GLAM brochure.

The GLAM brochure is currently undergoing finishing work and beautification, but we will soon present it to the entire wiki community. Here is exclusive sneak peak of it.

WIKIPEDIAN IN RESIDENCE

- Only offline activity
- Many planned projects are postponed until further notice
- Working conditions are more difficult and shift work is introduced
- Protective equipment is provided
- 2 Wikipedians in residence are realised this year and 2 are in progression
