Custodians, Plant 18-02, Kagoshima Ken

1. Reference is made to SCAPIN 1938, subject as above, dated 28 October 1948.

2. The following is the content of the above referenced SCAPIN, to which your attention is directed, so that you will be thoroughly familiar therewith, and handle machines subject to exemptions as outlined therein.

"1. Effective 1 November 1948, all equipment from non-reparations sources, brought into a reparations installation subsequent to its evaluation during 1948 or later, will be considered exempt from reparations claim; such equipment may be marked "EX" by the owner without prior submission of documentary evidence to the Military Government for its approval, provided the procedure outline in paragraph 2, below, is followed.

2. After the date mentioned in paragraph one, above, the custodian of the "EX" items will maintain, at all times, a complete file of purchasing, shipping and other documentary data necessary to establish the source from which such items were obtained and the date of their acquisition.

3. Upon request, the plant custodian will make the above mentioned documents available for inspection by any authorized occupation personnel. Failure to establish such proof of ownership upon request, will result in the changing of the status of the items concerned from that of "EX" to available for reparations claims."

SUBJECT: Reparations Machinery Located in your Base

TO : Commanding Officer, Kanoya Army Air Base

1. Investigations have revealed that there are six machines located in your Air Installations building as specified below. They are apparently subject to reparations, and their inventory sheets are being submitted to GHQ, SCAP.

a. Shearing Machine - square sheare (1mm X 1000mm)
b. Plate Bending Machine - (1mm X 1000 mm)
c. AC Generator - direct coupled to engine
d. Bench Grinder - 2 H.P. (Est.)
e. Bench Grinder - 1 H.P.
f. Planer - woodworking

2. In addition to these machines, there is a railroad siding track of 3,700 meters long, connecting your base with Nozato Station, Kanoya City. The track, with its six points involved, has been inventoried for reparations.

3. Use of all or some of the above mentioned items, an application for temporary use should be submitted thru this headquarters to Eighth Army; otherwise items are subject to immediate removal when called for by Eighth Army. This headquarters will recommend approval, and forward requests.

4. Our recent trip to check reparations at your base, approximately six small horsepower Japanese motors were found in the Air Installation buildings. One 15 H.P. motor and two worthington pumps, steam driven, found stored in a barrack next to the Air Installation. These machines are not subject to reparations. If of no use to your installation, it is considered proper that they be released to the Japanese Home Ministry for civilian use.

SUBJECT: Reparations

TO : Commanding Officer, Miyazaki Militar y Government Team
APO 970, Unit I

1. Information in this headquarters indicated there are eight machines located in your prefecture that may be subject to reparations. Machines were brought from Kanoya City, Kagoshima Prefecture where the 22nd Naval Air Depot (Plant Code No. 18-02) is located. Machines are now held by the Shinko Sangyo K.K. (Formerly, Nanshu Kosan K.K.) which is located next door to Miyakonojo City Police Station. List of machines follow:

a. Hydraulic Press - Vertical
b. Gas Furnace - Box type
c. Electric Furnace - Box Type
d. Nitric Furnace - Box type
e. Tempering Furnace - Box type
f. Air Hammer - 1/4 ton
g. Air Compressor - Horizontal 50 H.P.
h. "Marking Off" Plate

2. This headquarters is without the required specification concerning the inventory of the above listed mabhines. Request your team "spot-check" them and notify this headquarters your findings.

SUBJECT: Reparations Items Located in Kumamoto

TO : Commanding Officer, Kumamoto Military Government Team, APO 24 Unit 1

1. With reference to your telephone inquiry, it is hereby reported that the two oxygen unit trucks, now held by Kumamoto Railroad Construction Department, belong to the 22nd Naval Air Depot in this prefecture, and are apparently subject to reparations inventory.

2. This headquarters has no knowledge as to the detailed specifications of the two trucks. As your headquarters has a reparations plant of the same depot under your jurisdiction, it is suggested that these trucks be inventoried as belonging to your reparations plant of the depot.

3. Concerning the two air compressors (not subject to reparations) at Kumamoto Railroad Construction Department, it is possible that they were released to the Japanese Home Ministry by Maime Disposition officer.

THROUGH: Kagoshima Liaison Office

TO : Kagoshima Local Office of Finance Bureau Shinsei Kogyo K.K.

The following instructions of higher headquarters is quoted for your compliance:

a. Cannibalization of Class 3 Machinery and Equipment.

(1) It is both permissable and desirable that Class 3 reparations machinery and equipment be cannibalized, and every available part and accessory used therefrom for the repair and servicing of Class 1 and Class 2 equipment.

(2) Class 3 machinery and equipment will, when stripped of parts and accessories presently needed for such repair and servicing of Class 1 and Class 2 equipment, be held for further disposition or cannibalization, and not reclassified or reduced to scrap.

(3) This provision for cannibalization of Class 3 machinery and equipment does not apply to special purpose (SP) machinery and equipment.

b. Maintenance and Disposition of Class 3 Machinery and Equipment.

(1) Class 3 machinery and equipment will not be repaired, reconditioned or rehabilitated in the manner designated for Class 1 and Class 2 machinery and equipment.

It will be sufficient henceforth to preserve the status quo - as to maintenance - of this type of equipment, preventing any further deterioration from rust, or exposure to the elements, dirt, etc. This will entail continuing exterior lubrication and other preservation measures.

e. Maintenance and Disposition of Special Purpose (SP) Machinery and Equipment.

(1) Special purpose (SP) machinery and equipment will not be repaired, reconditioned or rehabilitated in the manner designated for Class 1 and Class 2 machinery and equipment. It will be sufficient henceforth to preserve the status quo of this type of equipment, preventing any further deterioration from rust, or exposure to the elements, dirt, etc. This will entail continuing exterior lubrication and other preservation measures.

(2) Special purpose (SP) machinery and equipment will not be cannibalized, or parts and accessories thereof used for the repair or service of any other machinery or equipment in reparations custody, nor will any special purpose (SP) machinery and equipment be reclassified to scrap. Such machinery and equipment will be maintained as is, pending further disposition.

SUBJECT: Repair of Reparations Warehouse

THROUGH: Kagoshima Liaison Office

TO : Kagoshima State Property Department

1. A recent inspection revealed that Izumi A warehouse had several leaks in the roof and the windows were not good enough to prevent the rain from coming in.

2. It is, therefore, directed that you repair them.
