Lieut. W. E. HUGHES in a PB4Y-1P aircraft of Fleet Air Photographic Squadron One took off from Agana Airfield, Guam, M. I. on 21 July 1945 at 0745 King to photograph enemy installations on Truk Island. He arrived over the target at 1123 King and obtained excellent photographic coverage of the area from an altitude of 17,000 feet. On this flight a new Tri-K18-24" camera set-up consisting of one K18-24" camera in a vertical position and two K-18-24" cameras set at an angle of 30 degrees from the vertical on each side of the vertical mount was used. The Interpretation Squadron reported that the photographic coverage obtained on this flight was the best it had yet received of this target. No enemy interception or antiaircraft fire was encountered. Lieut. HUGHES landed at Agana at 1445 King.
