Vol. 11, No. 31—September 27, 1979

President's Honor Society Established

The first impression that visitors get of RIT will be considerably enhanced as a result of a new President's Honor Society.

Outstanding freshman scholars were invited to join the Honor Society by President M. Richard Rose to expand and improve the Institute's image.

"Very often the reputation of a college rests with how visitors feel about the time spent on campus," Dr. Rose said. "The first impression is lasting."

In addition to providing tours of the RIT campus, Honor Society members will participate in information dissemination, host at major Institute functions and participate in Admissions, Communications and Alumni Affairs activities on a day-to-day basis.

Blazers with the inscription, "President's Honor Society" will help distinguish the Honor Society members, who must maintain a B average or higher.

Additional Honor Society members will be added from next year's outstanding freshman scholars' group.

As a direct result of the President's Honor Society, tours are now being given hourly from 9 a.m. through 3 p.m., Monday through Friday, leaving from the Eastman Building (Administration). Faculty and staff are urged to participate by taking tours of the campus and enhancing the individual knowledge of Honor Society members who have gone through a training program.

The Honor Society members and their programs are: Timothy Allard and Donald Angel, Computer Science; Jeanne Arnold, Fine Arts; Rebecca Banko, Computer Science; Nadine Bathrick, Business; Lois Bernstein, Photography; Amy Blumenthal, Business; and David Bottcher and Christine Brehm, Electrical Engineering.

New Dean for NTID

DR. MILO E. BISHOP

Dr. Milo E. Bishop has been named as new dean of NTID, according to an announcement by NTID Director William E. Castle.

Dr. Bishop, who has been associated with NTID since 1972, was named assistant dean in 1974 and associate dean in 1977.

In his new role, Dr. Bishop will oversee the overall academic curricula offered at NTID, and assist Dr. Castle in establishing and evaluating general policies and directions for NTID. In addition, he will have a reporting relationship to the RIT provost as one of RIT's academic deans.

"This advancement in title will enable NTID to benefit more greatly from Dr. Bishop's leadership skills and broad background in the many aspects of deafness," said Dr. Castle, in making the announcement.

A native of Buhl, Utah, Dr. Bishop earned his undergraduate degree in deaf education from the University of Utah in 1966. He later received his master's degree in speech science from the University of New Mexico, and his doctoral degree in speech and hearing science from Purdue University.

He has been a teacher of the deaf at all levels, from preschool through postsecondary grades. His 19 published articles and 19 oral presentations made during the past 15 years have covered most aspects of deafness.

Dr. Bishop is the author of a forthcoming book on the mainstreaming of impaired students. He also has served for the past three years on the Greece Central School Board.

Active in many professional and community organizations, Dr. Bishop is listed in the 1979 edition of *Who's Who in America*.

TICKETS AVAILABLE

Tickets are still available—but going fast—for the big events of RIT's 150th Anniversary celebration weekend.

Regular and student rate "Bob Hope in Person" tickets, as well as tickets for "Kenny Loggins in Concert," and the international buffet can be purchased at the College-Alumni Union candy counter (x 2307) from 8:30 a.m. to 4:30 p.m. Monday thru Friday. Sunshine and Company tickets are available from RIT Communications (4th floor Administration Building) during regular working hours.

GRANTS DEADLINES

Please note: **GUIDELINES FOR ALL PROGRAMS ARE ON HAND OR HAVE BEEN REQUESTED.** Please call the Grants Office for additional information, 50 West Main Street, 262-2719.

PROPOSALS SHOULD BE SUBMITTED TO THE GRANTS OFFICE ONE WEEK PRIOR TO DEADLINES FOR ADMINISTRATIVE APPROVALS.

NATIONAL SCIENCE FOUNDATION

ASAP—Applications accepted on a space-available basis. Chautaugua-Type Short Courses. Program consists of two-day sessions in the spring to permit invited scholars to communicate new knowledge, new advances, and new concepts and techniques directly to college teachers of science. Participants are expected to conduct interim projects during the winter at the home institutions. Each course is limited to the first 25 qualified applicants. Seven of the courses offered at the University of Hartford are available to science and engineering professionals from industry. Grants include the cost of lodging but participants or their institutions must pay the cost of travel, meals and incidental expenses. A total of 30 courses both disciplinary and interdisciplinary are offered at Hampshire College, Pennsylvania State Univ., Univ. of Maryland, Univ. of Georgia as well as the Univ. of Hartford.

No deadline—Research Equipment and Instrumentation for Non-Ph.D.-Granting Institutions. 60 grants to be awarded for science equipment, with unit acquisition cost not exceeding \$25,000 to colleges that can demonstrate that the scientific equipment will make it possible for qualified science faculty to perform good research. Although the competition has no deadline, evaluation of proposal may take up to nine (9) months.

October 30—Student-Originated Studies. To support teams of college students with experience in independent, self-directed study and to demonstrate the effectiveness of such study as an adjunct to or replacement for portions of their traditional formal course work. Each study is conducted by a group of students comprised primarily of undergraduates. Each project deals with a local problem that has immediate relevance to the community. The projects are wholly student-originated and managed, with faculty in an advisory role. In general, studies should be multidisciplinary covering problems of the physical, biological and social environment.

U.S. DEPARTMENT OF TRANSPORTATION

To be announced—Research in areas of (1) control in transportation systems (2) maintenance and upgrading of transportation facilities (3) technology for advanced transportation safety (4) transportation and community development (5) transportation planning methodologies (6) freight transportation.

NATIONAL ENDOWMENT FOR THE ARTS

October 15—Artist's Fellowships. For painters, sculptors, printmakers, conceptual artists, artists specializing in drawing and performance

and video artists working within a visual arts context. Grants up to \$10,000 plus a limited number of \$3,000 fellowships for emerging artists.

U.S. OFFICE OF EDUCATION

October 12—Upward Bound Program
October 12—Student Research. Program supports a broad range of research and research-related projects, focusing on the education of handicapped children. Thirty new grants, averaging \$8,000 are expected to be awarded.

October 15—Handicapped Personnel Preparation. Program seeks to help institutions of higher education improve the quality and increase the supply of special educators and support personnel at both the pre-service and in-service levels. 1000 grants averaging \$55,000 are anticipated.

October 18—Handicapped Children's Early Education Program. Development of educational model demonstration projects for handicapped children (birth—8 yrs.) and their families. Three year grants averaging \$65,000/1st yr. to 100,000/2nd and 3rd yrs.
October 22—Special Services for Disadvantaged Students.

October 31—Talent Search Program.
October 31—Educational Opportunities Centers Programs.

October 31—Field Initiated Research. Program supports research related to education for the handicapped. Thirty-three new grants averaging approximately \$90,000 are expected to be awarded. Last year grants ranged from \$10,000 to \$200,000 per year. Project duration is approved from one to three years.

November 12—Category "C" Fellowships. Provides a maximum stipend of \$20,000 for a continuous period of 12 months to permit college teachers to work in a library suitable for advanced study and to discuss their work with the seminar director and other participants from across the country. Maximum stipend is \$20,000.

November 15—Youthgrants—supports humanities projects developed and conducted by young people in their teens and early twenties.

December 1—Youth Projects—supports humanities programs by institutions and organizations for large groups of young people under the age of 21, outside of a formal classroom setting.

December 1—Special Projects. This program requires an initial inquiry of 2 or 3 pages before a formal application may be submitted. Projects funded are those that do not fit precisely into any other program of NEH.

INTERNATIONAL RESEARCH & EXCHANGES BOARD (IREX)

November 1—Scholarly and Academic Exchanges with Eastern Europe. A number of programs for senior scholars in the social sciences in humanities, for senior scholars in all fields for graduate students and young faculty in all fields, for research in the Soviet Union and most of the countries under Russian domain in Eastern Europe.

NATIONAL INSTITUTE ON AGING, National Institute of Health

November 1—Support for bi-medical, psychological and social research directed towards greater understanding of the aging process and towards an improved health status for the elderly.

NATIONAL INSTITUTE ON ALCOHOL ABUSE AND ALCOHOLISM

November 1—Support for research into the problems of alcohol use and alcoholism.

NATIONAL INSTITUTE OF EDUCATION

December 31—Unsolicited Proposals to Conduct Educational Research and Development. Grants to eligible persons and groups to originate unique ideas for improving education and submit their ideas as unsolicited proposals.

AMERICAN COUNCIL OF LEARNED SOCIETIES

November 1—Travel Grants for Humanists to International Meetings Abroad. Travel grants to scholars in humanistic disciplines to enable them to present papers at a major international meeting.

November 15—Study Fellowships. Awards up to \$12,000 to assist young scholars in the humanities to enlarge their range of knowledge by study inside or outside the humanities in disciplines other than their present specialization which normally employ a different methodology. Fellows will normally be under 36 years of age and will have taught for 2-3 years since receiving the doctorate.

December 1—Research on Chinese Civilizations. Grants up to \$15,000 available for research in the social sciences or humanities relating to Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Rumania, Ugoslavia, E. Germany since 1945, and modern Greece.

NEWS & EVENTS

Published weekly on Thursday during the academic year by the Communications Office at Rochester Institute of Technology and distributed free of charge to the Institute community. For information call 475-2750.

Survival of a Craftsman

Charles Loloma is an Indian, born on the Hopi Reservation in Arizona, with an ancestry rich in the ceremony and traditions of his people. He is also a 1949 graduate of the School for American Craftsmen and renowned nationally and internationally for his strikingly crafted jewelry.

Loloma was in Rochester on September 18 to speak to the students in RIT's College of Fine and Applied Arts on the subject of survival as a craftsman in this fast-paced age of assembly lines and computers. He told the students they are fortunate to be learning their skills in the top craft school in the country, and extolled the virtues of creativity. "Creativity cannot stop, it goes on and on," he said.

His study at SAC took place when it was affiliated with Alfred University, and the first material he tackled creatively was clay. From pottery, he went on to work with metals, putting to use what he had learned from his other classes, such as chemistry and the effect of chemicals on various metals.

In his last year at Alfred, he applied for the Whitney Foundation Fellowship and was told, "You are already good." However, he persisted, was accepted, and studied from 1949 to 1951 under the fellowship.

Following his schooling, he returned to the Southwest to pursue his dream of creating jewelry that was an extension of the imagination and fantasy he felt within himself. The products that followed, while pleasing to Loloma and his customers, served to alienate him from some of his fellow Indian artisans who complained that his work was "not Indian." Although he uses some traditional materials, turquoise and silver, his creations are strikingly contemporary—as far from the ancestral arts as space age technology is.

Closely associated with the founding of the Institute of Indian Art, Loloma makes his home in Hotevilla, Arizona, where he works in stained glass and lithography, as well as in metalsmithing.

A craftsman who respects other people's areas of expertise, Loloma told RIT student artists to seek the help of professionals on business matters, leaving themselves free to expend their energies on the creative side of their work.

CRAFTSMAN CHARLES LOLOMA

Medicare Memorandum

On October 1, 1979, the Health Care Financing Administration (HCFA) will complete the consolidation of Upstate New York Medicare Part B carriers. On that date Medicare Medical Insurance Claims will be transferred to Blue Shield of Western New York. Currently these claims are processed locally by Genesee Valley Medical Care, Inc.

Formerly, Medicare Part B claims were processed by three different carriers located in Buffalo, Rochester and Utica. In awarding a single contract to one company to handle all claims HCFA, the HEW agency responsible for Medicare, hopes to save taxpayers approximately \$20 million during the next three years.

After the consolidation is completed on October 1, 1979, area residents should send their Medicare Part B Medical Insurance claims to this new address:

Blue Shield of Western New York,
Inc.
Upstate Medicare Division
Post Office Box 600
Binghamton, New York 13902

People who have questions, such as the status of a claim they filed or whether a certain medical service is covered by Medicare, may call this toll-free number:

1-800-252-6550

If they prefer to write a letter rather than call, the special inquiries address should be used:

Blue Shield of Western New York,
Inc.
Upstate Medicare Division
15 Chenango Street
Binghamton, New York 13901

AUTO REGISTRATION

All faculty/staff on campus must re-register their vehicles with the Office of Protective Services. This is done to update and keep current records. Failure to re-register a vehicle with the Office of Protective Services could result in a fine. Employees may register vehicles at the Office of Protective Services, located in Grace Watson Dining Hall, seven days a week, 24 hours a day. No mail-in registrations will be accepted.

'An Educational Experience'

(L-R) Kevin Kleffman, PR '74; Stuart Grisar, Stuart Offset Services; Mark Guldin, director, School of Printing; Robin Petaccio; RIT President M. Richard Rose; Robert Grisar and Donald Lettie.

More than 60 visitors participated in "An Educational Experience in Rochester" September 14 and 15 sponsored by the Printing Industries of Metropolitan New York in cooperation with Eastman Kodak Company, RIT and RIT Alumni Affairs.

On Friday, clad in comfortable walking shoes, the travelers were given an opportunity to tour Eastman Kodak Company's Marketing Education Center (MEC), the "campus" facility of the company which houses Kodak's training program offering 150 courses in subjects ranging from industrial radiography to television newsfilm to graphic arts. A visit to the famed Kodak Park was next on the itinerary where photographic films, papers and chemicals are made followed by a jaunt to the paper mill, printing plant and film finishing areas.

Saturday, the group was welcomed by Rochester Institute of Technology's School of Printing. Faculty and staff were on-hand to escort PIMNY members and their families, alumni, and prospective students through the facilities. Dr. Mark Guldin, director of the School of Printing, remarked, "the faculty enjoyed this visit tremendously because it provided them with an opportunity to keep in touch with alumni and friends who are in the industry."

The School of Printing, the only one of its kind in the world, gave the journeyers an opportunity to see the School's Design and Composition Division, Lithographic Technology, Packaging Printing and Reproduction Photography. Also included was a guided tour of the School of Printing Management Division which

includes Computer Applications, Estimating, Newspaper Production Management, Financial Management, Personnel Management, Production Management and Sales Marketing.

Dr. Guldin reiterated, "I'm delighted with the PIMNY excursion because we get large numbers of students from the New York City area and it is very appropriate that as many of these people as possible know what RIT's School of Printing is all about. I would like to see this continued on an annual basis."

Following the tour at the RIT campus, the somewhat weary visitors were welcomed by RIT's president, Dr. M. Richard Rose, at his home for a farewell reception. In greeting his guests, Dr. Rose stated, "I am very pleased to welcome the Printing Industries of Metropolitan New York and the opportunity to make new friends in the Graphic Arts industry."

Many of the tourists commented that it was an extremely rewarding experience. John Borock, member of the RIT Graphic Arts Advisory committee, an RIT alum and president of The Letter Guild, Inc., noted, "All of our objectives were met. We were able to bring up some prospective students and generate definite interest on their part about the Institute. It also gave our alumni an opportunity to get reacquainted with RIT, particularly those graduates from the old campus."

Upon conclusion of the excursion, John Trieste, trip coordinator, stated, "We are so delighted with this experience that we are asking and hopefully going to receive permission to do this on an annual basis...targeting for September 1980."

CAREER DAY — 1979

Choosing a career is one of the most important decisions in life. RIT will be hosting more than 1,000 high school and community junior college students to help with this decision during a special "Career Day at RIT", Saturday, October 6, from 9:30 a.m. to 2 p.m.

RIT's Career Day will bring together students from all over New York State to sample what it's like to be a college student at RIT. The Institute offers nearly 200 different programs of study in business, computer technology, photography, engineering, fine and applied arts, criminal justice, social work, science, graphic arts, audiovisual communications, packaging science and liberal arts.

"Our major goal," says Dave Finney, RIT assistant director of admissions and Career Day coordinator, "is to get young people thinking about a career and to encourage them to ask questions about college in general."

This year support personnel in the areas of financial aid, admissions and placement will be on hand to discuss scholarships and other financial support; how and when to apply to college; placement statistics and salary ranges for each career area.

"We know that RIT's Career Day is fulfilling a need for high school students and their families because of the large numbers who've attended this annual seminar," says Lou Guard, director of RIT admissions. "Typically, we attract between 1,000 to 2,000 students, parents and guidance counselors who want more information about career opportunities," he explains.

Once on campus, students are asked to go to the College Alumni Union where staff members will provide direction to Career Information Sessions presented by the academic areas. There will be a morning and afternoon information session followed by a campus tour. Prior reservations are not necessary to attend Career Day events which are free and open to the public.

Hearing-impaired students are also encouraged to attend the Career Day.

A representative from RIT's National Technical Institute for the Deaf (NTID) will be available to answer questions.

For more information about RIT's Career Day, please call the RIT Admissions Office at (716) 475-6631.

**YEARS OF COMMITMENT
TO QUALITY CAREERS**

Two Give Papers on Management

Two papers were recently delivered at the 39th annual meeting of the Academy of Management which was held in Atlanta on August 8-11.

Keith G. Provan, assistant professor of Behavioral Sciences, presented a paper entitled *An Empirical Examination of the Importance of a Powerful Board of Directors in Attracting Scarce Resources for Human Service Agencies*.

Thomas E. Comte, assistant professor of Management and Administrative Policy, presented a paper entitled *Factors Influencing Strategic Internal Appraisal: An Empirical Study*.

NTID Receives Media Awards

The NTID Media Production Department has received the Industrial Photographic Department of the Year Award for its accomplishments in research and development.

Thomas J. Castle, chairperson of the department, accepted the award at the 88th International Exposition of Professional Photography in Chicago, July 28-Aug. 1.

The annual competition for the award is sponsored jointly by the Professional Photographers of American, Inc., and the Eastman Kodak Co., in conjunction with *Industrial Photography Magazine*.

Presentation of the award was based on the department's ability to: successfully identify client needs, deal with specific technology, and influence the parent institution and the general fields of training, special education, instructional development, and graphic design.

The Media Production Department satisfied these requirements by describing its performance in terms of the complexity of the needs it resolves. The purpose of the department is to: a) provide NTID with complete photographic/graphic services, b) develop instructional media products specifically designed for deaf learners, c) train faculty and provide them with resources so they can independently resolve instructional problems through the use of media, and d) develop and evaluate new applications of technology in the education of deaf people.

FIRE DISASTER DRILL

A realistic fire disaster drill was conducted on campus September 17. Complete with simulated injuries to 25 students and firefighters, the drill provided training for RIT personnel, responding fire departments and ambulance services. Henrietta Fire District and Henrietta Volunteer Ambulance Service, Inc. were the chief responding services. Other area fire departments were called in to "assist."

New Fire Communications Link

Fire incidents are on the rise on the RIT campus. In an effort to improve emergency responses to fire incidents, Barry LaCombe, safety administrator, Office of Protective Services, has coordinated a direct communications link with the Henrietta Fire District. This communications link is in the form of a direct telephone connection between RIT Protective Services' Dispatcher and the Henrietta Fire District Dispatcher.

Prior to this direct telephone line, in order to report a fire, the RIT Protective Services' Dispatcher had to manually telephone the Monroe County Fire Dispatching Center. The Monroe County Fire Dispatcher would relay the call to the Henrietta Fire District Dispatcher via a direct telephone line. This all took time and often vital

information was lost along the way.

This new direct telephone line removes this intermediate step and allows for direct two-way communication between Protective Services and the Henrietta Fire District. This telephone line will be used for reporting of fires requiring fire department response; and it will be used for coordinating escorts and responses of all emergency personnel and equipment to the fire incident.

Since Protective Services must provide escorts and assistance to responding fire equipment, it has always been beneficial to report a fire incident directly to Protective Services. This new direct telephone line makes it even more beneficial to report the fire incident to Protective Services immediately.

PROFILE

'Resurgence in Retailing' — Yudelson

RIT may have the only four-year retailing school in a college of business according to Dr. Julian Yudelson, who was recently named director of RIT's School of Retailing.

"During the last five years there's been a resurgence of interest in retailing at the four-year level," Dr. Yudelson said. "In the late 1950's, retailing programs were not really preparing students for the wide range of skills they needed for management positions in this field. Then with the advent of marketing, retailing at a four-year level was swallowed up."

RIT's retailing program differs from the typical educational pattern according to Dr. Yudelson. In most cases, retailing is a specialization within a marketing program.

"RIT students are saturated in retailing right from the beginning of their college career," he said.

Dr. Yudelson maintains a commitment to both marketing and retailing. He has taught marketing for ten years at Marquette University, Cleveland State University and RIT. He is also currently president of the Rochester Chapter of the American Marketing Association.

As the renewed interest in retailing continues to grow, Dr. Yudelson would like to see RIT's curriculum continue to keep up with changes in the field.

"I'd like to produce a curriculum that will prepare students for managerial responsibilities in the retail world of the 21st Century. Retailing students will have to apply strategies from management, finance, marketing and other business areas. The retail industry is becoming increasingly corporate controlled and is looking for retail managers who are highly professional. Retailing doesn't simply mean having a fashion sense anymore."

A major strength of RIT's retailing program, Dr. Yudelson feels, is co-op, "because it gives students an edge in the job market. Retailing

DR. JULIAN YUDELSON

has some unusual pressures. At the end of the day you know if you've made your sales goals or not. There is a lot of direct people contact and there is constant feedback and stress. Co-op gives students experience in handling these demands."

Helping students gain a specific retailing perspective in business comes naturally to Dr. Yudelson, who grew up in his family retail chain of shoe stores

in the southeast U.S. He earned a B.S. from the Wharton School, University of Pennsylvania; an M.B.A. from Emory University, Atlanta, Ga., and a Ph.D. from Northwestern University, Evanston, Ill.

Dr. Yudelson joined RIT in 1976 as associate professor of retailing/marketing. RIT's School of Retailing has approximately 275 students currently in the program and graduated 49 students at the 1979 commencement.

Honor Society

 continued from page 1

President's Honor Society members receive tour guide training.

Also, Janice Caldwell, Packaging Science; Peter Cappadonia, Jr. and MaryAnn Caputo, Business; Deborah Cardamone, Criminal Justice; Jay Chapin, Electrical Engineering; Sharon Chesson, Computer Science; Maryellen Ciak, Engineering; Marc Cote, Computer Engineering; Mary Daloisio, Institute College; and Michael Darrow, Business.

And, Laurie Davis, Photography, Bettina Engelmann, Industrial Engineering and Printing; Melanie Erby and Laurie Geromel, Computer Science; Gregory Germain, Mechanical Engineering; Nancy Gordon, Photography, Shelly Grande, Science, Lisa Hahn, Photography; and Aaron Ionta, Printing.

Also, Suzanne Kotkiewicz, Science; Iris Langstein and Mary Lyko, Computer Science; Kyle McMinn, Electrical Engineering; Charles Mondello, Photography; Kathleen Moriarty, Business; John Nakoski and Bruce Newman, Computer Engineering; Georgette Peterson, Business; Debra Salm, Science; and Susan Shellenbarger, Business.

And, Frank Smith, Electrical Engineering; James Taskett, Bio-med Photography; Robert Thorpe, Engineering; Edwin Trefzger III, Mechanical

Engineering, Gregg Vandivert, Photography; and Susan West, Computer Science.

Tour guide captains are Kris A. Reichley, Packaging Design, Margaret D. Weaver, Nuclear Medicine Technology, and Ellen M. Etshman, Photo Illustration.

CREDIT UNION

Here's your opportunity to sign up for RIT Employees Federal Credit Union:

Oct. 1—College-Alumni Union Lobby, 9 a.m.-2 p.m.; Oct. 2—NTID Dining Commons—10 a.m.-2 p.m.; Oct. 3—Grace Watson Lobby—10 a.m.-2 p.m.; Oct. 4—Fine & Applied Arts Lobby (Bldg. 7)—10 a.m.-2 p.m.; Oct. 5—Library—10 a.m.-2 p.m.

An applicant pays a \$2 initial membership fee plus \$5 for each share purchased. Members of the Credit Union may apply for unsecured, secured and passbook loans. The credit committee meets weekly on Tuesdays; loan applications should be received by the previous Friday and may be obtained from Walter DeRouen (Protective Services), chairperson of the credit committee. For further information, contact Credit Union President Albert Erskins, Math Dept., x 6528.

DATEBOOK

Sept. 27—Chemistry Department Seminar. "CIDNP in Photo Initiated Radical ION Reactions" Speaker— Dr. Heinz D. Roth, Bell Telephone Laboratories, 12:00-1:00 in Room 12-1470.

Oct. 2—"The Impact of Governmental Regulation on Health Care Delivery," an open lecture with Dr. Max E. Chilote, director of the Erie County Laboratories in Buffalo, N.Y.", 1 p.m., College of Science, Room 1250, and "The Impact of Governmental Regulation on Clinical Laboratory Personnel," 8 p.m., College of Engineering, Room 1130.

Oct. 3—"Polarized Light Microscopy of Biological Tissues," lecture by Dr. Barret N. Rock, Department of Biology, Alfred University, Wednesday, 3 p.m., Chester F. Carlson Memorial Building (Building 8), Room 3178. Free and open to the public.

Oct. 4—Chemistry Department Seminar "Determination of Nitrosamines and other Carcinogens" Speaker—Dr. Janet Osteryoung, Department of Chemistry, SUNY at Buffalo, 12:00-1:00 in Room 12-1470.

Oct. 6—"Career Day at RIT", RIT Henrietta campus, for high school and community/junior college students who want more information about choosing careers, 9:30 a.m. to 2 p.m., free and open to the public.

thru Oct. 11—Bevier Gallery, "Sculpture Show", sculpture from the New York State Creative Artists Public Service Program, Daily 9 a.m. to 4 p.m.; Monday through Thursday, 7-9 p.m.; Saturday 1-5 p.m.; and Sunday 2-5 p.m.

thru Oct. 15—Political Cartoons from the Elmer Messner Collection, The Original Gallery and Gallery Two, Wallace Memorial Library, Monday through Thursday, 8-11 a.m.; Friday 8 a.m.-6 p.m.; Saturday 9 a.m.-6 p.m.; Sunday noon-4 p.m.

Talisman Film Festival (I)=Ingle Aud. (W)=Webb Auditorium

Suspicion—Sept. 27, 7:30 p.m., \$1.50 (W).
Getting Straight—Sept. 29, 12:00 a.m., \$1.50 (W).

I Love You, Alice B. Toklas—Sept. 29, 7:30 p.m., \$1.50 (I).

Zabriske Point—Sept. 30, 7:30 p.m., \$1.50 (I).
