GALA WEEK PLANNED BY ADMINISTRATION

FOUNDER' WEEK TO BE
BIGGEST EVENT OF
ENTIRE COLLEGE YEAR

World Famous Men to Make Addresses on Washington's Birthday. Pleasant Social Events Scheduled. Annual Alumni Day Program.

The program of Founders' Week—February 20th to 24th, inclusive—which has just been announced by the Administration promises to make of that celebration by far the most important event of the entire College year, containing as it does patriotic addresses, religious exercises, trustee meeting, Alumni Day, and many other attractive social events, the most prominent of which will be the Inter-Fraternity Dinner and Dance, the President's Reception for the Senior Class, and finally the Junior "Prom," always an event of much secrecy and pleasure.

This year's celebration of the founding of the College and in commemoration of the splendid characters who have given generously for its development will begin on Wednesday, February 20. On this date occurs the annual meeting of the Board of Trustees. On the afternoon of the same day the Delphic Society will have, instead of the usual banquet, a much less expensive affair, consisting of a program open to the College and the

(Continued on Page Six)

"COMMERCIAL JUBILEE" TO BE
GIVEN IN LYMAN GYM.

As Enrollment Reaches One Hundred,
Business School Has Celebration

On Wednesday evening, February 16th, in Lyman Gymnasium, the members of the School of Business will enjoy a brilliant social. This affair comes as the fulfilment of the promise of Professor Harrington, Director of the School, that he would have a "celebration" when the enrollment reached the hundred mark. Many more than a hundred are now enrolled, and it would seem that the Professor would be "put to it" to provide entertainment for them all.

An altogether delightful evening is looked forward to. Professor Harrington has made arrangements for an orchestra to furnish music for dancing. During the intermissions, refreshments of ice-cream and cake will be served and light entertainment staged.

BIG PUSH BRINGS GOOD RETURN

CIRCULATION INCREASED FORTY-
THREE PER CENT—"SANDSPUR
CROSS" UNIQUE FEATURE.

The "Big Push" to secure subscriptions to The Sandspur took place Friday, February 1st, as previously announced by the Circulation Department, with the result that practically every student is now a subscriber, and consequently a more enthusiastic supporter of the school paper.

Under the able direction of Business Manager Hilyard and Circulation Manager Sawyer, the campaign started at "daybreak" and was well over the top at Chapel time. Here the drive was given new impetus by the stirring words of Prof. Harrington, as he pledged a new subscriber from the Commercial Department for every one that the other departments would put up. After Chapel, during the day, and even into the Night School the tireless messengers of The Sandspur were busy decorating loyal Rollinsites with the "Sandspur Cross."

All departments of the College showed very commendable interest and co-operation. The Commercial Department was especially prominent in the operations, and they are justly proud of the fact that they were able to turn in not only one, but two new subscriptions for every one from the other departments. This was partly due to the great number of students who have enrolled in the Business School of late and who had not been approached before, and partly to Prof. Harrington's enthusiastic presentation of the merits of the movement to "his children."

Two novel features of the campaign were the thermometer in Carnegie Hall in which the red "mercury" rose higher and higher as the "push" continued, and the "Sandspur Cross." This latter took the form of a pale lavender card on which was printed in black outline across and the words: "The Rollins Sandspur Cross denoting that the wearer has taken part in the 'Big Push', February 1, 1918, and has subscribed to the Sandspur."

Reports up to the present time indicate that a gain of 43 per cent in circulation was made. If the Circu-

FRANKLIN'S AMBITION INSPIRES COLLEGIANS

ILLUSTRATED LECTURE ON FRANCE IS GIVEN

DR. C. S. McEWAN SPEAKS TO A
JOINT MEETING OF Y. M. C. A.
AND Y. W. C. A.

Dr. McEwan, a prominent Orlando physician and well known to Rollins people, who has recently returned from France, where he served as a surgeon in a French hospital, gave a brief talk about the parts of France which he had seen, illustrating with lantern slides; many of the pictures having been taken by Dr. McEwan himself.

The Doctor's introduction to Paris was a dark city in which it was a puzzle to find a desired hotel. After reaching the hospital, which had been an old school and was quite a distance from the city, he settled down to months of hard work. So busy was he that he had little opportunity for sight-seeing.

However, he was able to take some pictures, among them scenes of ruined churches and homes—all the work of the Germans.

"As nearly as I could discover" he said, "the stories of German cruelty are true."

He described the French soldiers as brave and cheerful, always anxious to "get back to the front."

The pictures of the trenches were far from inviting. They seemed more real than most; one might almost have expected to see the men walking about in the mud and water.

A very interesting picture and quite unusual, was that of a French fire department extinguishing a fire. They did so by drawing water from a nearby well and then throwing it from a tub by a hand-pump. As always, the women were right on hand.

lation Department maintains this standard of success in its further plans, the mercury in the Sandspur Subscription Thermometer should be time.

It is planned to extend the drive running over at the top in a short into the town, where the College numbers its friends and supporters in every home. The exact date of the Winter Park campaign has not been determined, but it will take place some time during February.

ROLLINS PRESS SOON TO BE
REALITY — TOMOKAN FUND
BUYS PRINTING OUTFIT

Plant Will do Town and College
Printing; to be Located on
Boulevard

What promises to be one of the best things for the town of Winter Park and Rollins College was the purchase last week of a small printing outfit by the Press Committee which has in charge the Press Funds which were donated last year by the Editorial Board of The Tomokan the college year book.

The story is as yet a short one, and hangs upon the old saying that it is an ill wind that blows no one any good. Few people will connect this saying to the cyclone which swept over the village of Apopka a few weeks ago. Some time before the cyclone occurred, representatives from the town and college drove over to Apopka to look at a printing outfit formerly used in printing a local paper. Eight hundred dollars was thought, however, more than could be paid for the plant. The storm destroyed the building in which the plant was stored. Type was spilled out on the floor and some slight damage done to the two presses. The

(Continued on Page Five)

TENNIS CLUB FORMED.

On the afternoon of Wednesday, the 6th, the girl tennis enthusiasts of the College formed an organization which is to be known by some name which will be announced later. Florence Stone acted as chairman pro tem. She was elected president and Hildegarde Slaughter chairman.

Members of the club are: Annie Stone, Isabel Foley, Elizabeth Russell, Tiny Hanchett, Martha Chess, Francis Davis, Gertrude Hall, Hildegarde Slaughter, Florence Stone and Lillian Sawyer. A committee composed of Isabel Foley, Martha Chess and Francis Davis was appointed to draw up a constitution.

Nothing being too hard for them to tackle.

"The villages are destitute of people except for the aged" These aged men are doing the work of younger men, everywhere.

"We should put our shoulder to the wheel and help, for this is our war too."

The Rollins Sandspur

"STICK TO IT."

SATURDAY, FEBRUARY 9, 1918

A widely read contemporary states that it is impossible to run a first class newspaper on "hot air and cold potatoes." Here, at least, we have a point in common.

If you do not receive your Sandspur promptly, address a complaint to the Circulation Manager, drop it in the Sandspur Box in Carnegie Hall and you will have no further cause for complaint.

IN THE SANDSPUR OFFICE.

Visitor (seeing a check on the business manager's desk): "That should promote a good 'esprit de corps'."

Voice (after exit of V.): "Do you s'pose she meant we'd go on a spree?"

Mid the multitudinous cares and duties of the Editorial Staff, the Sandspur box in Carnegie is becoming one of the cheerful spots. In it are found a variety of things. We always open it with a sorta "hold your breath" feeling.

"Ephriam is joined to idols. Let him alone." How often, even these thousands of years after the time of Hosea, are we still reminded of the terrible command. The moral of these dismal words is a sad lesson for us to learn, but learn it we must. For the practical campus application, see the last paragraph of this week's Senior Picnic write-up.

To new arrival: "Brother Smith, will you lead us in prayer?"

Guest (greatly startled): "I-is-is- it my lead."

The month of February promises to be a busy month for College folk. It should be equally pleasant. Founders week comes as a new departure in the College year. It is anticipated with pleasure by all—some because it provides a surcease from classes for three long days and others because of the social program it affords. Then there is the Mid-Winter Sub-Tropical Fair, at Orlando, from the twelfth to the fifteenth. This latter is an event of importance to the College people for its educational features. There may be seen exhibits of five of the richest counties in the heart of Florida. Most pleasing, and especially to those who come here from the North and West, should be the wonderful exhibits of citrus fruits and vegetables. Here, as no where else, the students from other states can see a condensed, yet liberal, luxurious and artistically arranged display; a true index to the wealth and charm of Florida.

Owing to the holidays being granted on February 21st, 22d and 23d. for Founder's Week, it will not be possible this year, for the College to give the usual leave to students to attend these exhibits on School and College day. It would be highly profitable to those who have not before had the privilege of viewing these or similar exhibits, to attend after classes, if possible, and go through the exhibition buildings.

"WE MUST BEAT GERMANY AND MAKE HER QUIT," SAYS ELLISON ADAMS.

A letter recently received from F. Ellison Adams, a former Rollins student and one time editor of "The Winter Park Post," by Dr. George Morgan Ward, states that he is now stationed at the American Aviation Headquarters in Paris. It will be remembered that Mr. Adams served for some time in the ambulance department, but later became associated with the aviation corps.

An interesting excerpt from this letter reads as follows: "I miss Winter Park very much, but I am here for the war—and who knows how long that will be? Some times I think it will soon be over; and other times all indications point the other way. There is one thing certain, we must beat Germany and make her quit, for she will never quit otherwise."

Another conference has come and gone. The Missionary Education Conference of the Winter Park Conference Association is a thing of the past. We wonder whether the students took the fullest advantage of its advent.

Conference Week closed last Sunday night with a well-attended meeting in Knowles, and thus was completed the forging of another link in the chain of Christian moulding influences which are to shape the future of the world, of the United States—of Rollins.

William Commons of Whittingsville, Mass., has registered as a special student in the Academy.

ONE MORE ROLLINS MAN COMMISSIONED

"RAY" GREENE PROMOTED TO AN ENSIGNSHIP—WELL REMEMBERED HERE.

Another member of the Rollins family has won distinction and deserved promotion. Word has come from the Naval Headquarters of the Southeast in Charleston, S. C., that Raymond W. Greene, a former member of the faculty of Rollins College and well known throughout the State as Executive Secretary of the Winter Park Conference Association, has passed his examinations with a high average and has been appointed Ensign in the U. S. Naval Reserves. Ensign Greene is now in active service at the Naval Training Station in Charleston.

"Gym" Greene, as he was familiarly and affectionately called on the campus, was offered a commission in the Army, when war was first declared but preferred at the time to complete the numerous duties which were then devolving upon him in Y. M. C. A. work before entering the larger field. After the college term closed in June he was detailed by the National Committee of the Y. M. C. A. to take charge of the War Work of the Association at the Naval Base of the Southeast—a most important and responsible post which entails activities for over 5,000 sailors and marines.

During the "Y" Drive in Florida for \$80,000 last fall Ray Greene was a conspicuous figure. He was allotted the central district of Florida, and the fact that his home town, Winter Park, nearly doubled its quota, served as a

RAYMOND W. GREENE

splendid illustration of the good work accomplished by him.

After the "Y" Drive Mr. Greene made preparations to sail for France on the 19th of December to engage in the Association work there. While completing these preparations in At-

lanta before the Foreign Work Board, his plans were changed and the decision to enter the regular service made. A message came from France that no more secretaries of the draft age would be accepted "over there," it invariably being the case that such men enlisted, owing to the great pressure and need in the trenches. Mr. Greene immediately returned to Charleston and enlisted in the Naval Reserve Force and prepared for the examinations which were taken January 7; in these examinations he came out second in a total of over fifty applicants.

Ensign Greene has been for a number of years Athletic Director of Rollins College; his professional training was received at Harvard University. His effort to clean up intercollegiate athletics in this State and the splendid records made by Rollins teams for clean sportsmanship in the face of great hardships have placed a very high stamp of approval on his work along these lines.

Mr. Greene has been not only prominent in athletics. As General Secretary of the Y. M. C. A. of Rollins College he originated the Winter Park Conference idea and has held up to the time of his enlistment, the office of Executive Secretary of the Conference Association, an organization under whose auspices are held annually the Older Boys' Conference, the Missionary Education Conference and the State Training School for Sunday School Workers.

Mr. Greene's transfer to the Navy is another instance of the great sacrifice prominent men the country over are making for the great need of the Government. Rollins is more than proud of the star which, with the many others that her service flag displays, is a small indication of the service she is now lending in the Great World Struggle.

FRANKLINS AMBITION INSPIRES COLLEGIANS

(Continued from Page One)
owner was willing to take \$250 for the entire outfit.

It will be remembered that the Editorial Board of the Tomokan donated the sum of \$245 to the college last year for a similar purpose leaving the matter in the hands of a self-perpetuating committee composed of the president of the college, the president of the alumni Ass'n and the editors of the Sandspur and Tomokan, the college publications. This committee which is composed of Dr. French, Mr. Hanna, and Mr. Hill, this year, immediately appropriated this fund for the purchase of the plant which is now stored in the small house in the rear of Dr. Freer's drug store facing the Boulevard. The use of this building has been donated by the owner, Mr. Charles H. Morse, who, in addition, is having built an adequate addition for housing the entire plant and equipment which is to be added.

It is proposed that this press, which is to be a Winter Park institution, indirectly owned by Rollins College, be named the "Rollins Press." An or-

ganization is being perfected for its promotion and an advisory committee consisting of interested and prominent men of the town met last night at the office of the Winter Park Land Company to discuss plans for the raising of \$1,000 with which to put the plant in working order and add to its equipment. It is thought that a campaign will be made to raise these funds so that the outfit will be installed shortly and ready to print not only the job work of the

"street" but the Winter Park Post, the Rollins Sandspur, and college publications.

It is hoped that a well established college and town press may be developed.

DELPHIC SOCIETY HOLDS ELECTION

WINIFRED HANCHETT IS NEW
PRESIDENT

On the evening of the fourth, the Delphic Society convened at 6:45, with the retiring president, Annie C. Stone, in the chair. In a few appropriate words Miss Stone expressed, personally and on behalf of the members of the society, appreciation of the services rendered by the retiring officers during the past semester. The members present rose "en masse" to express their gratitude to Professor Harris for his help and inspiration as critic.

In the election of officers which followed, Miss Winifred Hanchett, of the Junior Class, was unanimously elected to the presidency for the coming semester. It seems certain that no more capable president could have been chosen. As Chairman of the Program Committee during the past semester, Miss Hanchett's work has been unusually faithful and efficient. The other officers elected were, Secretary, Howell Sawyer; Treasurer, Margaret Smith, Critic, Miss E. Wilkins; Program Committee, Norma McFadden, Chairman, Hildegard Slaughter, and Ben Shaw.

Upon the presentation of her name, Florence Walker was voted into the society. The next meeting of the organization will occur on the fourth Monday evening of this month, February 25th, at 6:45 in the Phi Alpha Fraternity rooms.

GALA WEEK PLANNED BY ADMINISTRATION

Continued from Page One)

town, to be held in the Carnegie Library. The fraternities will that evening at the Virginia Inn.

Thursday, February 21, is to be observed the country over as the Day of Prayer for colleges. It is expected that the Rev. J. C. Tims, D. D., Pastor of the First Presbyterian Church of Tampa, an honorary alumnus of Rollins and a member of its Board of Trustees, will make the address in the College Chapel at 10:00. Miss Waterman of the Conservatory Faculty will give a lecture recital that afternoon at 4:15 in Knowles Hall. Her subject will be "The Art Song," and it is expected will greatly interest music lovers of this section. That evening at eight o'clock, in Knowles Hall, the annual address before the Christian Associations will be made. The officers of these organizations are making an effort to get Dr. Ward to make the address, but it is not known at this time whether or not he will be able to come to Winter Park for that time.

Friday, February 22, which is, of course, Washington's Birthday, will be appropriately observed. In the morning at 10:30 the Service Flag containing 71 stars will be presented by representatives of the Commercial Department to the College, and will

PROFESSOR HARRINGTON SPEAKS FOR THE SANDSPUR

Tells Students in Chapel That the Business School Will Put Up One New Subscription for Every One Secured From the Other Departments.

Friday morning, February 1, Prof. Walter Harrington, Director of the Business School, addressed the assembled students in Chapel in a few stirring words in behalf of the "Big Push" then under way for the securing of subscriptions to the Sandspur for the second semester. Professor Harrington forced home the duty of the students to co-operate actively with the staff and not be content to read the other fellow's Sandspur—and then wonder why it isn't better than it is.

"Are you going to let the little Business School, in the 'attic' of this building, show you up?" asked Prof. Harrington after stating that his department would guarantee one new subscription to the Sandspur for every one that the other departments of the school combined could put up. That they did not intend to be "shown up" was clearly demonstrated by the uproarious applause that followed Professor Harrington's talk.

After the exercises the stairs, hall, and entrance of Knowles Hall were blocked for a few minutes with enthusiastic students clamoring to be decorated with the "Sandspur Cross." The Circulation Department was kept busy taking care of the applicants for the "badge of honor."

Elsewhere in this issue it will be shown that the Business School not only kept its pledge, but went beyond, leading the campus in numbers of subscriptions.

be accepted by President French. In the afternoon Rollins and Winter Park will be greatly honored as having as their guest and speaker Dr. George R. Parkin, of the Rhodes Scholarship Foundation. Dr. Parkin will speak at three o'clock on "Anglo-Saxon Democracy and the War." Another address of much interest will be delivered by Rev. James E. Clarke, D. D., of the Presbyterian College Board. The Woman's Glee Club and the College Orchestra, under the direction of Miss Dyer and Miss Waterman, will contribute to the program. Friday evening will witness a slight innovation in the exercises of the Seniors. The annual reception given by the President and his wife will be given at this time instead of during Commencement Week. There will be a program of music.

Alumni Day, which occurs February 23, has been taken from Commencement Week, this being the action of the last meeting of the Alumni Association. It was thought that by having the annual meeting and attendant functions during Founders' Week it would be possible for more alumni to visit their alma mater than during the warmer weeks of May and June, and the action was accordingly taken.

The festivities of Alumni Day will

begin with a breakfast on Lake Virginia and will be followed by a tennis tournament at nine o'clock. The annual meeting of the Association will be opened at ten o'clock in Carnegie Hall, and it is hoped that all members near enough to do so will attend.

The regatta, which has usually been held under the auspices of the Canoe Club, will begin at two o'clock Saturday afternoon, and will be interesting alike to students, townspeople and winter visitors. Swimming contests, canoe races, and floats are being planned for the occasion.

The dinner which is usually given by the Alumni in compliment to the Senior Class, will be held that evening at six o'clock, and will be followed at nine by the Junior "Prom."

Special Vespers will be held the following day in Knowles Hall, with an address by Dr. Vincent and music by the Conservatory.

All students, former students, and townspeople are urged to help make Founders' Week a great success.

THE "QUARTETTE" "SPREADS" ITSELF.

Sis Lamentations entertained Jeremiah, Susie and The Dutchess with an "enjoyable" spread in her apartments on the second floor of Cloverleaf on the evening of February 3d.

Garbed in evening attire they reclined on couches and gossiped until "lights out." The following delicious refreshments were served:

Grapefruit Cocktail
Shrimp Sauer-kraut
Cocoa.

Sadie was heard to remark, upon entering the corridor, "Gee, I smell a German spy!"

The quartette disbanded at nine-thirty, after having one of those "delightful" times so often described in the Sandspur.

"Translate, los botes donde se anojaban los pasajeros con desesperacion."

H. S.: "The passengers with desperation cast off the boats!"

Conservatory Overtones

The first meeting of the Conservatory Club occurred at Pinehurst Saturday afternoon, and though devoted largely to business details was most interesting. The "postlude" was highly delightful, as Miss Rous invited all present to enjoy the delectable joys of Dr. Freer's soda fountain.

Another meeting was called for Tuesday, and at that time the Executive Committee was elected, as follows:

Secretary and Treasurer—Margaret Smith.

Chairmen of Sub-Committees — Gertrude Hall, Florence Smith, Geraldine Barbour, Elizabeth Yowell.

An ice-breaking picnic is being planned for Saturday, the 9th, after which regular monthly meetings will be in order.

◆ ◆ ◆

Tomorrow's Vesper Service music will include numbers by Dr. Allen and Miss Rous.

◆ ◆ ◆

The Conservatory (faculty and students) will be more than busy during the next fortnight with the many musical events scheduled at Rollins.

◆ ◆ ◆

A full account of Miss Rous' lecture recital will appear next week, the Sandspur copy being sent in too early for a critique in this issue.

◆ ◆ ◆

The student concert on Thursday afternoon of last week showed fine progress and improvement in all departments. Please let us remember that these affairs are not intended to "show off" the students, but to demonstrate the general aim of the Conservatory as well as the individual work of the pupils.

The orchestra will make its first appearance this season at the President's reception on Friday night, February 22nd. A joint program with the Glee Club will be given at that time.

The Conservatory has furnished music for twenty-seven occasions since the opening of College, on September 18th last. Think a moment. Twenty-seven occasions to be planned, prepared for and managed within four months! Subtract these twenty-seven events from the life of the town and College during the past four months—and it would make a difference, wouldn't it?

Doctor: "How's your breathing?"
Patient: "Boyish."
Doctor: "How's that?"
Patient: "It comes in short pants."

FINALE TO LOGIC

Strange to relate,
Logic is o'er;
Yet, my poor pate
Is whole as before!

Mr. G. W. Plantz of Pomeroy, Ohio, entertained Elizabeth and Lelia Russell and Miss Short with a pleasure trip to Eustis on Monday, the 4th.

Allan Cooper of Moline, Ill., has enrolled in the Academy.

THE MAKING OF AN AIRMAN

His Status, Salary, Medical Examination, Etc.

All the details of the status of an airman in the making have never been fully told in sequence. Let us, therefore, follow a young man who has decided he will endeavor to qualify for the Air Service. First, of course, comes the routine of application.

The lowest age at which applicants may be accepted is 18 years and 8 months, on the theory that at the end of their training they will have reached the age of 19, which is the lowest age at which commissions may be granted in the American army. Applicants under 19, however, must present letters of approval of their enlistment from their parents or guardian, as is required throughout the military and naval establishments of the country. All applicants may enlist at any aviation examining board.

If an applicant passed his 21st birthday before June 5, 1917, and is consequently subject to the draft, a special arrangement has been made whereby the rule prohibiting voluntary enlistment by draft men is waived and he is permitted to enlist directly at an aviation examining board without reference to the draft or his draft board. All that is attended to for him by the aviation authorities. Even if he is in the present quota, he may be so enlisted, but if he has been actually ordered into service by the draft board, he must report to his mobilization camp as ordered, and there apply to his company commander for transfer to the Air Service.

The candidate's first step is to write to, or visit personally, one of the 24 aviation examining boards located in the larger cities, or the Recruiting Bureau, Aviation Section, Washington, D. C., to secure an application blank for entering the service. The candidate fills this out as indicated, with details of his life and his athletic and educational qualifications, in order to provide both a first estimate of his desirability and as complete a record as possible in case of his acceptance.

Then comes his physical examination. Naturally this must be strict for the good of both the service and the applicant. Also it appears formidable to those who do not understand it, so formidable indeed that the following explanation is given to rob it of its mysteries.

Of course the usual tests of lung and heart are given, for no man can be accepted who is not strong enough to withstand the pressure of high altitude. The stethoscope, the tapping of the chest, and the broad rub-

(Continued on Page 8.)

TYPICAL FRESHMAN PICNIC "HAPPENS."

Eleven Freshmen, for the first time in their lives, went on a real Fresh-

man picnic, Saturday, the 2d. Just a regular Freshman picnic.

Having planned ahead for nearly a week on the necessities and luxuries needed, they arrived at the picnic grounds near the New Seminole hotel only to find that the pepper for the meat was there, but no salt; the cocoa, but no cups!

Here Freshman patriotism was called for. The noble volunteers, who are too modest to allow their names to be printed, returned for the delinquent salt and cups, which, it was thought by some bright mind, could be obtained much nearer by going to Mrs. Towsey's. Mrs. Towsey's took pity on them and administered to

their needs.

In due time Chef Ingram and Chef-tess Russell evolved the following menu:

Sweet Pickles

Olives

Cocoa

Cakes

Those participating in the disposition of the viands were:

Prof. Harris, Freshman faculty adviser.

Miss Bellows, chaperone.

Guests, Sophomore Class, (Ruth Green), Tommie Tompkins.

Freshmen, Gerry Muriel, Dutchess Russell, Marion Phillips, Hildegard Slaughter, Evelyn Haynes, Shorty Backus, Freddie Ward, Monkey Sawyer, Tillie Tilden, Grub Ingram.

ATHLETICS

Girls' Track Team

This winter the girls have shown a seemingly impossible aptitude for track. Certain ones, in the course of their training, rush out of Cloverleaf, tear across campus, and reach their places at table (the goal), simultaneously with those leaving eight minutes earlier. Sadie Pellerin is captain of the team.

ROLLINS—SOUTHERN

Rollins Basket-ball enthusiasts were disappointed in the fact that Southern College, who was to play here on Monday evening the 4th, decided, at the last moment, that she would be unable to play the game scheduled. Two exchanges of telegrams and two Southern men who were here as delegates to the Conference could give no satisfactory explanation of this somewhat sudden change of mind.

**BLUE AND GOLD LOSES
TO EAST COAST FIVE**

GAME FAST, SNAPPY AND CLEAN—LOCAL BOYS OUT OF FORM—VISITORS SHOW GOOD TEAM WORK. OPPOSED BY BRILLIANT FLASHES FROM OUR BOYS

On Monday evening last, February 4th, a good crowd of students, town-people and visiting rooters watched a very satisfying game of Basketball on the local floor between Rollins and Daytona High School Team. Not a minute of the forty lacked interest, and, although the home team was defeated to the tune of 31-19 everyone felt on leaving, that he had seen a good exhibition of clean athletics.

The contest started with several minutes of goalless play, following which the visitors took a small lead, and, despite hard work by the Rollins boys, the first half ended 14-7 Daytona.

In the second half, this lead was diminished several times to a few points, but lack of practice began to show on the home boys, together with the absence of Ward, and the playing was somewhat ragged.

Pope was the "greater light" of the coast aggregation, caging eight baskets. Fletcher landed the majority of points for Rollins. Hanawalt, in the last few minutes of play, threw a pretty one from near center.

The spirit as shown was good, and we hope to meet this team whose work is the best-organized Rollins has opposed this year again. The cheering section lent their enthusiastic support as usual, but the absence of Cheer-leader Scofield was felt. Lineups were as follows:

Rollins—Tilden, f; Harawalt, g; Fletcher, f; Vincent, g; Arrants, c. Daytona—Whipple, f; W. Snider, f; Waldon, g; H. Pope, C.

Referees—Eastman and Rencher.

**PUT YOURSELF IN
THE RIGHT PLACE**

Rev. Purser Emphasizes Fact That There is a Place for Every Individual in the Universal Plan—That Place is Where He Can Do the Most Good.

In one of the most impressive Chapel talks by leaders of the Missionary Education Movement during the recent conference here, Rev. F. M. Purser, of Richmond, Va., Assistant Educational Secretary Southern Foreign Mission Board, showed that just as parents have plans for the welfare of their child, so has the Infinite Designer a plan for the fulfillment of the life of each one of us, if we will allow Him to carry out His plan. And just as the parent would do nothing that would ultimately work harm to the child, so would not the Father of all place difficulties in our paths that will ultimately do us harm.

Rev. Purser emphasized the necessity for the boy and girl to put their whole energies, after leaving school, into that activity to which they can be of the greatest service, for which they are best fitted, and that which seems to best fulfil the need of society, whether it be commerce, education, national service, missions, farming, or other work.

"This dust," said Rev. Purser, brushing a speck from the reading desk, "is in the way here, is of no account. Were it in the field, it would be worked and fertilized and would make fertile soil; here it is out of place and valueless. Just so with you. If you do not get into the work that needs you, if you do not find your place in the universal scheme, if you do not do something worth while, then, some day, a better man will come along and you, if you are noticed at all, will be brushed aside as the dust."

FOOD WILL WIN THE WAR.

If you have given a son or brother or husband to fight; if your wife or daughter or sister is nursing at the front; if you have subscribed for Liberty Bonds or Red Cross; if you aid war orphans or cripples; if doing all these things you think you have done your share.

Know the Grim Truth.

All the blood, all the heroism, all the money and munitions in the world will not win this war unless our allies and the armies behind them are fed.

They will not be fed unless we take care; indeed, if we are not prudent we, too, shall go hungry. Protect our supplies, then, that they may be fed, that your sacrifice of life and money be not in vain.

Lest we lose the Great Cause, do you stand guard, each day, in your home, over your supply of

Wheat, Meat, Fats, Sugar, Milk.

Use here the foods that we have to spare so we will be able to supply the needs "over there."—Government's "War Service in the Home."

Write it up for the Sandspur!

Death Song of the Dinky

(As it lay derailed beyond Clover-leaf.)

(With apologies to Longfellow.)
Should you ask me where my cinders,
Whence my silence and my muteness,
With the odors of the forest
Curling no more from my smoke-
stack;

Near a former field of sweet yams,
Near the murmur of faint ripples,
Where with squeamish lamentations
And screeching reverberations
I was wont to pass old Rollins
I should answer, I should tell you,
"From the haunts of men in fact'ries,
From the minds of great inventors,
From the land of those who hurry,
From the place of toil and bustle,
From the sullied soot of cities,
Where the flowers grow unnatural
Blooming in the glass hot-houses,
I have seen a powerful rival
Going by the name of "Jitney,"
Gaining favor with the students.
Should you ask me why so humble
On the soft sod I did tumble
And, no more you hear my rumble,
I should answer, I should tell you:
"When of yore I used to trundle,
Hauling student bag and bundle,
In the evening I did linger
By the platform back of Lakeside,
Oh, the the thrills felt in my throttle
As I listened to the students
My own deeds their voices singing,
To my speed fair praises chanting,
In rhythm commemorating
Heroic trips of the Dinkey
From Orlando to Oveido!
If still further you should ask me:
"Say now, why are thou expiring
Over such a maudlin trifle,
When, perchance, a lonely traveler
Would oft for you make inquiry;"
In a voice so weak I'd whisper,
"Nevermore I'll move my piston.
For with tears and sighs o'erladen
My center of recollections—
My boiler, has burst assunder.
A. C. S., '18.

"The Academy Graduate," from
Newburgh, N. Y., has a fine literary
department. Its athletic columns are
also complete in detail.

"The Searchlight," Palmyra, Mo., is
a welcome exchange.

"The Co-operator," Eatonville, Fla.,
published in the interest of the "Rob-
ert Hungerford Normal and Industrial
(Colored) School," is filled with items
of interest.

TALES FROM HOSTESS HOUSES.

To travel all the way from Pittsburg
to visit a husband at Camp Lee, Vir-
ginia, and find that he had been trans-
ferred to Washington only the day be-
fore would distress an older and more
experienced traveller than the little
woman who came to the war worker
in Petersburg, Va., the other day
with the agonized question: "What
shall I do now?" Thanks to Virginia
hospitality, the woman was enter-
tained in the home of one of the board
of the Y. W. C. A. without expense,
and the next day she was started
again, but more happily, on her
search.

Women in Petersburg "doubled
up" not only at Thanksgiving time to
make room in their homes for the
friends of the soldiers at Camp Lee,
but many of them asked particularly
for guests who could not afford to
pay.

The case of a mother whose experi-
ence would have proved a serious
plight but for the rooms, echoes hap-
penings at many and many another
center throughout the land. She
came to the rooms one day in deep
distress. She had come from Ar-
kansas to see her son who was in the
training station, but found that after
a deplorable career there, he had de-
serted that very morning. The boy
was found during the day and because
he was only eighteen he was discharg-
ed dishonorably instead of being given
a prison sentence. Then work was
found for him by the Y. M. C. A. and
work was obtained for the mother by
the Y. W. C. A. Meanwhile she slept
on the couch in the club rooms and
cooked her meals in the club kitchen.

THE MAKING OF AN AIRMAN.

(Continued From Page 3.)

ber band about the arm are familiar enough in testing lungs and blood pressure.

When the candidate is set to picking different colored papers out of a box he may be a little mystified. Let him remember, however, that color blindness would be a source of weakness to one upon whose preciseness of vision depend the lives and fortunes of thousands of men below. It is often a slight change of color, a suggestion of a deeper brown, that first reveals the new cut trench to the ever watchful eye in the sky.

But it is the balance test which causes the most perplexity, largely because it is not understood. Testing balance is a new science, and a complicated one requiring ingenious methods. But it is of vital importance to him who later may be unwinding from a spiral miles above the ground or rushing along at twice express train speed in a solid bank of clouds.

One's balance is regulated entirely by a tiny fluid in the canals of the inner ear. It is as delicate and as accurate as the fluid in the finest spirit level. It is necessary to set it in motion in order to see how quickly it recovers equilibrium, and consequently how strong the candidate is in this respect. One should not be the least surprised, therefore, when he is placed in a revolving chair and swung rapidly around, now sitting forward, now back, and asked upon stopping to point in a certain direction or execute some other motions. Nor should he be surprised if everything he does appears to him to be done wrong.

But the medical test is soon over, and if the candidate passes, he may be pretty sure that he is physically perfect. He then goes on to a mental examination which also sounds formidable, but which is in reality and of necessity brief. A few questions are asked as to the candidate's career perhaps, but if he has had college training he need not fear the outcome.

If the candidate is one of the three who pass both tests, as he should be with his advantages, he is notified that he is accepted for training for the Air Service as a member of the Signal Enlisted Reserve Corps. Then just as soon as the preceding classes move up, he is ordered into active service.

From that moment until he receives his commission as an aviator or is discharged, he is known as an Aviation Cadet, with the rank of Private First Class, a salary of \$100 a month, 60 cents food allowance daily, living quarters, uniform and all traveling expenses, including the trip to the place where he is ordered to report provided by the government.

In that status he goes through the ground school and the flying school until he has qualified as a Reserve Military Aviator. Thereupon he is given his first commission, a 2nd lieutenantcy, with a salary of \$1,700, quarters provided by the Government,

Seniors Again Commune With Nature

What was intended to be a trip to Snake Run, last Monday, the 4th, culminated in a picnic on the shores of Lake Berry. About nine o'clock in the morning, Katherine Waldron, Sara Muriel, Sadie Bellerin, James Noxon, Robert Hutchinson, and Ben Shaw, chaperoned by Miss Wilkins landed at Stonehurst for Annie Stone.

As Father Neptune had evidently stirred up his kindred deities of the lake to an unwonted boisterousness, the party divided, part braving the tempestuous waves in those fragile barks of Indian lore, and part journeying by land. Finally, after "passing through" various vicissitudes (wire fences, canals, etc.), the party reassembled on a fragrant, sunny, pine-strewn thoroughfare, at which spot—a recess protected alike from wind and chill—the adventurers decided to encamp.

Absolutely no passage was granted during the luncheon hour (or two), when delicious steak, bread, butter, roasted potatoes, citrus fruit, preserved figs, and coffee, were dispensed in generous bounty.

Be it said to the consternation of the "temperate" reading public, that the "percolating" art of the class president had in no wise vanished since the preceding Monday as the undiminished decoction of a certain mild stimulant (immortalized in the editorial column last week) substantiates.

The following people have enrolled in the Business Department for the second semester:

- Mr. George Whitehouse, Sebring, Fla.
- Mr. Samuel Salmon, Syracuse, N. Y.
- Mr. Donald Smith, DeLand, Fla.
- Mr. Salberg, Orlando, Fla.
- Mr. Fred Thomas, Sebring, Fla.
- Mr. R. J. Temple, Ezel, Kan.
- Mrs. Wheatley, Milwaukee, Wis.
- Miss Mulholland, Winter Park, Fla.
- Miss Dickson, Winter Park, Fla.
- Miss Taylor, Winter Park, Fla.
- Miss Louise Smith, Winter Park, Fla.
- Miss Emma Green, Washington, Ga.
- Miss Dorothea Chess, Pittsburgh, Pa.
- Miss Maud Harris, Eustis, Fla.

but food at about \$1.00 per day and uniform provided by himself. While on flying duty he receives 25 per cent increase, and while on foreign duty an additional 10 per cent increase.

Then after passing his final tests and becoming a Junior Military Aviator, he automatically advances one grade in rank, in salary, and in allowance. A 2nd lieutenant, therefore, by the time he is fully trained, becomes a 1st lieutenant, with a base salary of \$2,000. Further, however, as a Junior Military Aviator he now receives 50 per cent increase on his base pay while on flying duty, and another 10 per cent while on duty abroad.
