RAILWAY SYSTEM OF **RUHR VALLEY IS NOW** PARALYZED BY STRIKE

With German Transportation Workers Absent From Posts, Disorganization Increases; French Leaders Preparing New Severe Measures.

Paris, Jan. 25 .- (Associated Press)-The Germans seem to Dusseldorf advices report traffic throughout the valley and the adjacent occupied territory paralyzed by the railwaymen's strike.

The French are making preparation to operate the roads with outside railway workers. Reports from various sources indicate the process of collecting these men from different parts of France is well under way. It also is reported that railroad men miners.

The French nilitary has taken over the super ision of the German police there.

DISORGANIZATION SPREADS IN RUHR

Dusseldort, Jah. 25.—Virtually the entire railway system of the Ruhr Valley and the occupied territory immediately adjoining was paralyzed to-day by a strike of the railwaymen. The disorganization of public utilities, which has been slowly spreading throughout the Ruhr district since the beginning of the Franco-Belgian occupation, thus received a great impetus. mediately adjoining was paralyzed to-day by a strike of the railwaymen. The disorganization of public utilities, which has been slowly spreading throughout the Ruhr district since the beginning of the Franco-Belgian occupation, thus received a great impetus.

The main rail lines on both the right and left banks of the Rhine are tied up along a stretch of nearly fifty miles between Wesel, to the north of Dusseldorf, and Cologne, south of this city.

Trains Stalled.

The Paris-Berlin and Warsaw-Parish Expresses are stalled in the Dusseldorf station. Two trains of foods tuffs from Holland represented the only movement by rail into the interior of the Ruhr.

The telegraph and telephone-employees of the postal service informed General Denvignes to-day that the operators would strike at midnight.

The French Determined.

France's determination to "carry firmed in an address by President Millerand to a deputation yesterday. Victorious France demands from the conquered respect and the application of the treaty, nothing more," the President said. "She has decided to obtain that."

President Millerand assured the delegation of his confidence "in the fairness and coolness of the Government."

Railwaymen Quit.

Millerand on his official tours has arrived here, ready to take over the service in the event of a strike.

RAILWAY STRIKE

SPREAD RAPIDLY

Dusseldorf, Jan. 25.—The railroad strike has spread with great rapidity since the mine directors were fined at Mayence, and to-day it was effective over the greater part of the Ruhr.

No north, south or eastbound.

No over the greater part of the Ruhr.

No north, south or eastbound pas-senger trains left Dusseldorf after s o'clock this morning, and the Paris-Berlin train was stalled in the sta-tion here. Service to Essen was com-pletely interrupted.

SECOND PHASE OF OCCUPATION OF RUHR OPENS

Paris, Jan. 25.—The visit of General Weygand and M. Letrocquer, Minister of Public Works, to the Ruhr district marks the opening of the second phase of the occupation, it is believed here to-day. When the French entered the Ruhr district the Paris Government assumed the Germans would accept the move as inevitable, but events have proved the contrary. Therefore France, it is described, in the first place, the occupation will be put on a systematic basis. According to some reports, the occupied territory will be practically cut off from the rest of Germany. Secondly, it is understood that M. Coste, head of the occupying mission, has complained to the Government that General Degoutte over not collaborate satisfactorily with him. Lastly, it was pointed out that the Rhineland Commission acts independently of M. Coste and General Degoutte.

It is to obtain a report on these points that M. Letrocquer and General proports.

Sterner Measures Against Germans Being Prepared

Dusseldorf, Jan. 25 .- "France is here to stay until she gets complete satisfaction from Germany," said M. Letrocquer, Min-ister of Public Works, to correspondents upon arriving here

from Paris this morning.
General Weygand, Marshal
Foch's Chief of Staff, who accompanied the Minister, immediately went into conference with General Degoutte to consider the

General Degoutte to consider the application of sterner military measures.

The measures were to be considered in view of a lengthy occupation of the Ruhr, it was said.

"If Germany thinks her policy of resistance and sabotage will make France deviate one jot from her resolution to bring the German Government to terms and collect reparations, she is sadly mistaken," said M. Letroucquer to the correspondents. "France is here to stay until she gats complete satisfaction from Germany. There can be no desire on our part to retreat. If Germany can stand this situation, created by herself, we likewise can."

mection with the building trades dispute on questions of wages and hours. The unions recently referred the matter to the general council of the Trades Union Congress, which body seems to regard the employers demand for an increase in the hours of work as the thin edge of the wedge for still greater demands upon labor. The Trades Union Congress council has issued a manifeste stating that the reduced hours of labor obtained in the last sixty years are the most important triumph to the credit of the trade unions.

Ender the existing agreement, the building trades working week is forty-four hours. The employers some time ago suggested that this should be lengthened, but the resistance was so determined that the proposal had to be dropped. It has been revived since then, however.

SHEFFIELD UNITED DEFEATED NOTTS

Military Force Ranged Against Passive Civillan

Special to The Times.
Paris, Jan. 25.—The situation in
the Ruhr district is unchanged. Fresh

sake of armament or disaramment. The local issue is only the immediate question of, debtor and creditor and national rivalry. But the bi-products of history are often most important in the long run. The first question settled by gunpowder versus the sword is forgotten, but not the fact that gunpowder won. Thus it seems reasonable to consider that whether Europe in the future shall remain an armed camp may depend on the Ruhr cutome. Clearly the issues have been drawn. The French, unable to enforce a treaty that was made by military force, sent a few thousand troops into the Ruhr district to back up their engineers in getting out coal. Germany without an army, replied by economic measures and refused to deliver coal. The French sent in more troops, occupied a larger zone and imprisoned mine directors. The Germans responded by throwing more monkey-wreches into the economic organization. And so it goes. If France wins, the prestige of armies as deciding factors will be enormously enhanced. If Germany wins, such a triumph for economic and passive resistance perhaps will be fatal to the military. If an unarmed country can defeat an armed opponent, it will be hard to make the public pay for any more armies. If the French eventually evacuate the Ruhr district without effecting an enforcement of the Treaty of Versailles the general reflection upon the part of the great European powers might them be to the effect that had they had knowledge of such measures in 1914 many lives and much trouble could have been spared.

German Government Re-ported Fighting Proposal for New Rhineland State

Special to The Times.
Essen, Jan. 25.—It is learned from authoritative sources in Essen that the German Government has begun

which demands supplementary precations.

Such is the present official attitude of France, and thus for a brief moment perhaps the situation may be viewed more broadly than during the excitement naturally attendant upon rapidly marching events. Careful inquiry among the leaders—an inquiry which reveals but little honest optimism—permits a more general consideration of the case of the two mations, both now so deeply engaged that withdrawal by either side would be exceedingly difficult.

The real struggle now being fought out in the Ruhr district may determine whether militarism is to survivice. It is a battle between armament and disarrament, or between a scion by an armed force and passive civilian resistance. Never before in history have these two wears pons been in such a gigantic clash.

The grestest scientific use of liquid helium is for the production of low temperature, says a statement issued by the Résearch Council of Canadian Press).—The volume of employment in Canada as reported by employers to the Dominion Bureau of Statistics to the Dominion Bureau of Statistics at the beginning of January showed considerable contraction. This was largely on account of the temporary cessation of work in many establishments for the holiday season, it is said. The percentage decline was slightly smaller than that recorded last year, but since payrolls generally have been higher, the shrinkage involves the release of a larger number of workers. The trend of employment in all the provinces was decidedly downward.

British Party Will Reach Southampton on Olympic

Special to The Times.

London, Jan. 25. — The liner Olympic, on which Rt. Hon. Stanley Baldwin and other members of the British mission are returning from the United States, will reach Southampton Friday night. Arrangements are being made for the party to trayel to London on Saturday morning. During the week-end the Chancellor of the Exchequer will confer with the Prime Minister regarding the suspended negotiations for funding the British debt to the United States.

B. C. APPEAL CASE AWAITED

London, Jan. 25.—(Canadian Press Cable)—Lord Leverhulme, who was recently elevated to a viscounty, has caused indignation among some Highlanders by assuming the words. "Of the Western Isles" in connection with his new title.

The Gaelic Society of Inverness protests that by doing this he trenches upon the dignity of the an cient title, "Lord of the Isles," which is borne by the King, and it also constitutes an offence against Scottish sentiment.

In recent years Lord Leverhulme has spent considerable money in promoting industries for the benefit of the humble dwellers in the sentiment.

BRITISH AND GERMAN BANKRUPTS.

More often than not the obscure paragraph tucked away in some corner of a newspaper brimful of "live" news will reveal one more point f view to an already important and complex nestion of the hour. Here is a fair sample of comparison which takes on new significance each time Germany pleads poverty and declares that she has paid all the reparations her economic position will permit:

German bankruptcies in November, 1922, fell to 34 as against 195 in November, 1921. The new figure is the lowest on record. Compare this announcement, which comes from

London:

The number of adjudications of bankruptcles announced in November for England and Wales alone was 422.

REMOVING THE TARNISH FROM HONORS.

While Canada no longer is particularly con-rned in the bestowal of titles it is interesting to observe that Mr. Bonar Law has now appointed committee that will henceforward consider names recommended for political recognition in one at getting up Burns concerts. accordance with findings of the Royal Commis ion which recently investigated the old system In those Dominions where no embargo has been placed upon the honor system there will be a somewhat different formula in future if the Prime Minister follows the recommendation contained in the report. That section of the document reads

We are strongly of opinion that before submitting to the King the name of any person who is or has lately been domiciled in any of the Over-seas Dominions, the Prime Minister should communicate his intention to the Secretary of State for the Colonies, who, in his turns, should pass on the name to the Governor-General or Governor concerned for his observations, it being understood that, in the case of a self-governing Dominion, he should consult his Prime Minister. We think it eminently advisable that overseas opinion as to the antecedents of a person whom it is proposed to honor should not be entirely disregarded.

This is an obvious safeguard that will be appreciated in all parts of the Empire where the ties on tradition still hold government and peoples to this ancient practice.

RRITAIN'S TRADE SHIP AND THIS ISLAND.

Although the directors of the British World Trade Expedition declare that the trade ship which is to leave Britain at the end of March will visit "even the loneliest island of the Empire," it will be recalled from the reference to which we made to the published itinerary some time ago that Victoria is not mentioned as either one of the ports of call, or as a "lonely island" whose people might be permitted to examine this float.

ing exhibition of British industry and enterprise. This is no doubt either an oversight or evidence that even men who should know the markets of the world, in their geographical as well as in the economic sense, are unaware that Vancouver and Vancouver Island are two district important commercial and industrial entities—since the Terminal City is duly included in the points at which this interesting vessel will call. On a similar mission to the British Dominions and Colonies, the Hohenzollern—once the steam yacht of the ex-Kaiser—will set out one month earlier and at-

Fielding, has won Empire-wide distinction. Like Mr. Fielding also he declined several offers of knighthood. He now retires with a record unmarred by scandal or defeat, and with the undiminished affection of the people of the Province he served so faithfully and the admiration of the whole Dominion.

TIME TO ACT NOW

Torento Giobe:—The banking act will come up for revision, as it does every ten years. There is some talk of deferring the revision, but we do not see why this is needful or what would be gained by delay. OBJECT TO CLAUSES IN WATER PROPOSAL

Committee Appointed to Study Bill and Report to General Meeting

At a well attended meeting at the Marigold Hall last night Sannich ratepayers discussed the feasibility of the Greater Victoria Water Board Scheme. It was quite evident that the sentiment was for the scheme, but objections were raised against some of the crauses in the bill. One was that there was an unlimited borrowing power with no protection. This the meeting thought should be changed and borrowing over an assessed value should be put to a plebiscite of the people.

At the conclusion of the meeting a committee of twelve was formed to delve into the by-law and study it section by section and report to a general meeting at a later date when they had made their findings.

The committee will meet to-night at a private residence, and a careful study of the by-law will be gommenced. The general meeting, at which the findings will be reported is expected to be held on Wednesday night of next week.

at the Ward-Six Ratepayers' Association assessment meeting last evening, referred to the increased salary scheduled for teachers. He pointed out that salary agreements were operative, and Saanich had 1,900 pupils, the majority living within a mile of Victoria city limits, while the costs of their education were equally distributed over a vastly greater area. "It is unjust, there is no remedy until you get legislation. School costs are going up, it cannot be stopped," he said.

Victoria was invited by direct

Miss Ogilvie, of Brockville, Ontario, has arrived in Victoria, and for the next few weeks will be the guest of her brother, Colonel A. T. Ogilvia, Foul Bay Road. Mr. and Mrs. J. G. Gillan (nee Eva Hart), returned yesterday from Seattle, where they have been spend-ing their honeymoon, and will take up their residence at their home at

Court Northern Light A.O.F. held the second of a series of social dances in the A.O.F. Hall, Broad Street, last evening. Everyone had an enjoy-able time, and about fifty couples were present. Bigham's orchestra supplied a very good programme.

"It is unjust, there is no remedy until you get legislation. School costs are going up, it cannot be stopped," he said.

"There is no other remedy save to assess each ward for its own school costs the people around here will be a unit for the change. The suburban folk will fight, it tooth and nail. So you will have to struggle persistently for this relief, otherwise I think farm land will be taxed to worthesenses for crop purposes," he said.

Mr. Holloway moved that the Council be asked to submit to the voters a "question" as to whether they favor educational costs being charged to cach ward. He pointed out that a "referendum" could hot be submitted without a petition of one-fifth of the voters' list, but he believed a "question" would be allowable.

He suggested the "question" could be submitted when the vote on the Greater Victoria Water Roard was being taken on February 10.

H. E. Tanner preferred asking the Council to apply for a legislative amendment allowing referenda on matters of public interest without a petition, and Mr. Holloway withdrew his proposal in favor of this, which he seconded. This proposal passed without dissent, after Mr. Holloway had pointed out that it was an 'impossible feat to secure one-fifth of the victors' list, more than one-half being non residents.

Wind and dirt age a woman's skin-In the world's big cities women use this famous method to keep their skin fresh and supple

She keeps her skin smooth, fresh in spite of

THE wind, itself an enemy, conspires with the soot of City smoke stacks and the dirt of the streets to change your skin. Unless you fight this coarsening, it will take away the first smooth freshness and leave your skin dry and coarse, older. In every big city today where the menace is greatest, women are using this famous method to keep their skin fresh and supple.

First the special cleansing that does more than cleanse

Give your skin a nightly cleaning with the cold cream that contains just the right amount and kind of oil to work in and out without clogging—Pond's Gold Cream. So rich it cleans thoroughly and keeps the skin beautifully supple too. It is the special softening oil in this cream which counteracts the drying effect of wind and gives your skin the beautiful suppleness you want. Yet it is light enough to wipe off and never clog the pores.

And then the unfailing outdoor protection

Never fail to apply before going out, the delica cream known in almost every country for its famous —Pond's Vanishing Gream. It contains the m softening and soothing ingredient known to ski keeps your skin smooth, fully protected from coars

Secretary George Stewart pointed out that protesting assessments made out that protesting assessments made is a would be a wrong method. Ab preferred appeal on ground that agricultural land could not pay the charges.

"The values set are generally such as none of us would sell our land for, and the assessment made is apparently based on what it is salable in ordinary deals between buyer and seller. That is not what we shouldprotest about; we would be out of court; we should appeal because the taxes are more than the land can produce under ordinary farming methods," he said, the meeting deciding to adopt this line of action, with every farmer attending the seasons of the court to support his plea.

Councillor J. L. Brooks advised that the Ward Six Ratepayers' Association, which was sponsoring the gathering, should circulate a petition to the Council.

Major Grant urged district committees should secure signatures to general appeals.

W. D. Michell pointed out that the district was not aroused by individual increases, but by a general raise on all land owners.

W. O. Wallace insisted on the need of any individual increases, but by a general raise on all land owners.

Between sixty and seventy sat down at the tables, which were prettily decorated with flowers kindly sent by Mrs. James Dunsmuir, and the delicious cakes, pies and other good things were much appreciated. Mrs. Johnson and Mrs. Nightingale superintended the tea arrangements. At the conclusion of the repast a delightful programme of songs, dances and other items was contributed by the visitors, with the Rev. Mr. Pearson, of Colwood, as the efficient and genial chairman. The visitors left for home at 9.30 after one of the most enjoyable entertainments ever given at the Home. Those contributing to the programme were Miss Margaret Peatt, Mr. King, Mrs. Copp. Master and Miss Johnson, Mr. Jones, Mr. McNeill and ten girls from Colwood School who gave a holly dance under the direction of Miss Hawks-wood. CHURCH PROSPERS

The annual business meeting of St. Andrew's Preabyterian Church was held last night in the lecture room of the church preceded by a higacy en lipoyable dinner provided by the ladies. The reports of the various organizations presented showed a healthy state of activity in all branches. The total amount of money received during the year for all purposes was \$14,123.65, of which \$3,176 was for missions. A final report on the Forward Movement showed a total contribution to that fund of \$9,500, being \$1,000 over its quota.

The Sabbath School reports were particularly favorable, with the members on roll in all departments \$27, finances in a very healthy condition and an active and highly successful athletic department,

During the evening J. Cameron, J. G. Simpson, Crawford Coates, J. B. Clearihue, M. P. P. A. A. Meharey, W. Melville, D. McAdle, G. S. Bruwn and C. S. McKilligan were elected to the Board of Managers.

Plan Would Keep Budget Down to Old Level; Arrange Conference

That city teachers forego their annual salary increase this year and so save the ratepayers of Victoria about \$14,000 will be one of the proposals which will be laid before a conference between the teachers and members of the City School Board Finance Committee within the next few days. Arrangements for this salary conference will be made by members of the School Board to-day or to-morrow.

morrow.

No reductions in teachers' salaries are contemplated, members of the Board explained, but it is being suggested that the annual salary increase be ignored for this year. By eliminating this increase and exercising the timost economy in other directions the Board probably will be able to keep its total budget down to the level of last year, they stated.

Victoria Got Off to Good Start and Wound Up In Whirlwind Style Against Vancouver But Maroons Six Tallies In Middle Stanza, When Victoria Defence Was Tied In Knot, Was Too Much to Overcome

Seattle, Jan. 25.—Vancouver's hockey club was too fast and aggressive for the Victoria Cougars last night and the Islanders took the short end of an 8.4 score. A big crowd of Seattle fans, anxious to see the two rivals in action against each other, applauded both sides impartially.

It looked in the first period as if Victoria might win, but Fowler and his defence mates, the Loughlin lads and Halderson, were twisted into positions by the Vancouver forwards that left

Stuart, in Goal for Locals, Proved Star, Saving Many Goals

Hands across the ice to Harry Stuart, the Pacifics goalle, who broke the hearts of the Young Liberals from Vancouver at the Arena last night. The Mainlanders were expecting a rather easy time but after, setting a few shots at Stuart they found that they would have to work overtime to get goals. They worked like Trojans and eventually won, the deciding goal coming near the end of the third period leaving the score \$-\$\frac{2}{2}\$ in their favor.

The Pacifics worked extremely well but it must be admitted that had Stuart not taken kindly to overwork the visitors would have won by a more decisive score.

Opened Very Fast.

Opened Very Fast.

The first period opened with a thud, both teams starting at a terrific clip. The Liberals bored in on Stuart, sending in a bullet drive but the local goalie was right there and turned the disc aside. The locals responded with a combination rush but the Vancouver defence was unbeatable. The visitors took a hand in the game and rained shot after shot on Victoria's goalie but he was having a perfect night and showed class that was hard to beat. He was kicking, slugging and catching the drives thaf were threatening to go between his posts. The Vancouver team was later successful in finding the net when King and cresswell pulled a two-man rush. The latter player manoetvred the puck down the boards and then sent in a beautiful pass to King in front of the goalmouth. King made no mistake and slammed the rubber into the cage. MODERN IDEAS

Cape Town. South African, Jan.

24.—Premier Smuts. in the Union
House of Assembly, opposing the
want of confidence motion introduced
by Nationalist Leader Hertzog, declared yesterday afternoon that the
Government was entitled to credit for
the manner in which it had brought
the country through the period of
unprecedented depression, aggravated
by drought and revolution, with the
national credit unimpaired. He condemned the Opposition for "misleading the people and for doing its best
to spoil the settlement of the Rand
troubles."

The Premier pointed out that natives were now studying at the Bolshevist university in Moscow and
eventually would return to South
Africa to spread Bolshevism.

The European situation at present
was more perilous than at any previous time in a thousand years, Prelifer Smuta declared.

Referring to the recent rejection
hy Rhodesia of a prasogal to enter
the Union, the Premier expressed
regret that the Union had shared the
indignity of months of parliamentary wrangling over terms that wore
finally turned down.

Vancouver promoters are already excited about prospects of a big grain trade from this Coast, with the result that two companies were incorporated at the Parliament Buildings to-day to get in on the ground floor of the business before the big flow westward over the railways starts.

The Canadian Grain Export Co.
Ltd., has been organized with a capital of \$500,000 to operate in Vancouver. The Western Pacific Grain Elevator and Terminal, lstd., of Vancouver, was given incorporated with a capital backing of \$50,000.

Now that the Johnson Street Bridge is nearing completion, wharf properties adjacent to the city terminus of the bridge have been incorporated into a \$50,000 company by Ernest Miller and R. H. Green. Incorporation papers were granted them to-day.

NANAIMO MAN IS SENT TO ASSIZES

Succeeds C. Archibald in the A. E. Mainwaring Committed Lieut.-Col. Varela Killed by Bank of Nova Scotia by Magistrate to Stand Kurt G. Wilckens in Trial

Special to The Times. Nanaimo, B. C., Jan. 25.—In the City Police. Court vesterday Stipendiary Magistrate Beever-Potts heard evidence in connection with a charge laid by W. S. Tippett, of the Nanais me Meat and Produce Company against A. E. Mainwaring, former manager of the firm, of fraudulently converting funds of the company to his own use, the charge being laid on a cheque paid by Mr. Mainwaring out of the funds of the company on December 14 last, and applied as part payment, on achoote given by him for \$5.000 to W. J. Wilson, B. C. manager for Pat Burns, said cheque being one of nine-which Mr. Mainwaring had paid in a similar manner.

Wm. Tippett, the first witness, gave evidence to the effect that he had no knowledge of the fact that the note which was a personal one between Mr. Mainwaring and Mr. Wilson was paid out of the funds of the Nanaimo Meat and Produce Co. Witness identified cheque stubs as being in Mr. Mainwaring's handwriting, said stubs showing he following payments: February, 1920, \$605.25; May 31, \$56.75; September 7, \$585.00; Becember 10, \$573.70; March 14, 1921, \$561.90; June 17, \$553.00; September 14, \$542.00; December 14, \$530.70; and March 14, 1922, \$520.50. Mr. Tippett also stated that at the request of Mr. Mainwaring hand into the bank the sum of \$508, which was the final payment on the note of \$5,000 and interest.

Other witnesses were: Mr. Newberry, a stockholder and secretary of the company: Miss Heather, bookkeeper, and D. M. Grant, manager of the Bank of Montreal.

The Court committed the accused to stand trial at the next assizes.

Mr. Archibaid retires to a seat on the board of directors.

The annual statement of the assets and liabilities, which had been previously published, was submitted to the meeting along with reports or the year, all of which were reselved and passed by the directors.

to be an anarchist, who, came here from Amsterdam.

According to the police, Wilckens was deported from the United States to Amsterdam in 1920 as an undesirable allen.

It is alleged that when Colonel Varela was leaving his home. Wilckens threw a bomb at him, the explosion of which only wounded the victim, whereupon Wilckens drew a revolver and shot him.

The police say that while Wilckens was in the United States, he was active in anarchistic circles. He came here from Amsterdam soon after his deportation. He was born in Germany and taken prisoner by the French during the war.

Escaped From Camp.

W. B. LANIGAN, OF C.P.R., TO RETIRE: WILL LIVE HERE

The Court committed the accused to stand trial at the next assizes.

Coroner Hickling conducted an inquiry yesterday into the circumstances connected with the death of Joseph Blackburn, son of Mr. and Mrs. Blackburn, Milton Street, who was fatally injured Monday afternoon during the course of his duties at No. 1 Pit Head Shaker.

Evidence was given at the inquiry by five persons, none of whom, however, witnessed the accident, but the supposition was that the deceased, while either raising or lowering himself got his foot caught in the machinery which inflicted injuries that proved fatal.

After hearing the evidence the jury, which consisted of P. R. Inkster, foreman; A. Holstead, A. Dendoff, G. Rosswell, K. Sage and G. Beresford, returned the following verdict:

"We the Coroner's Jury empanelled to enquire into the death of Joseph Blackburn, find that the deceased came to his death about 4 n. m. on January 22, 1922, at No. 1 Pit Head of the Western Fuel Corporation, of Canada, Ltd., Nanaimo, by being caught in the machinery. We are of the opinion that it was purely accidental and that no blame is attached to anyone." Regina, Jan. 25.—In an interview here to-day, W. B. Lanigan, General Freight and Traffic Manager of the rail and steamship lines of the Canadian Pacific Railway, who has been an official of that company for more than forty years, declared he would shortly sever his connection with the railway and retire to private life, He will live in Victoria.

The impatient reader of history may be disposed to count the two centuries of order between 27 B.C. and 189 A.D. as among the wasted opportunities of mankind. It was an age of spending rather than of creation, an age of architecture and trade in which the rich grew richer and the poor poorer and the soul and spirit of man decayed. Looked at superficially, as a man might have looked at it from an aeroplane a couple of thousand feet in the air, there was a considerable flourish of prosperity. Everywhere from York to Cyrene and from Lisbon to Antioch, he would have noted large and well built cities, with temples, theatres, amphitheatres, markets and the like; thousands of such cities, supplied by great aqueducts, and served by splendid high roads, whose stately remains astonish us to this day. He would have noted an abundant cultivation, and have sogred too high to discover that this cultivation was the grudging work of slaves. Upon the Mediteranean and the Red Sea a considerable traffic would be visible; and the sight of two ships The fourth annual banquet of St.

Remarkable Figures on Situation at Winnipeg; Immigration Policy

A car of grain left the rallway yards in Winnipeg every 50 seconds, or in other words a train of 55 cars about every hour, between September 1 and November 20 of last year. During the period 163,510 cars were in spected at Winnipeg, and 155,012 were sent forward to the head of the lakes. Each car contains from 1,200 to 1,400 bushels of grain.

These enormous figures, quoted from official sources, were mentioned to The Times yesterday by J. Bruce Walker, director of publicity for Western Canada of the Department

night. There was a large attendance, Some 160 persons heard of the proposal.

Alderman Todd explained the history leading up to the passing of the act, stating that it was a scheme which would involve all the municipalities and unorganized districts south of the E. and N. Railway grant. He pointed out that the bill was for the amalgamation of all waterworks in these districts. This, he said, would mean that the southern fart of Vancouver Island would be controlled by one water board, instead of a lot of little ones. Through the amalgamation, he stated, business of the district could be conducted on a cheaper basis, while as to the water rate it was guaranteed by the bill that the rate would not be any higher than at present for the next five years. Taking the main-clauses Alderman Todd went carefully through them are plaining them for his audience.

One doubt he cleared was the fact that ratepayers would not be taxed on account of this new project unless something unforeseen occurred, then those on the water frontage would be assessed.

MOTHER OF LARGE FAMILY

Recommends Lydia E.Pink-ham's Vegetable Com-pound to Other Mothers

Hemford, N. S.—"I am the mother of four children and I was so weak after my last baby came that I could not do my work and suffered for months until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. Since taking the Vegetable Compound my weakness has left me and the pain in my back has gone. I tell all my friends who are troubled with female weakness to take Lydia E. Pinkham's Vegetable Compound, for I think it is the best medicine ever sold. You may advertise my letter."—Mrs. GEORGE I. My First Child

Glen Allen, Ala. "I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound for bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the Vegetable Compound to me after I had taken doctor's medicines without much benefit. It has relieved my pains and gives me strength. I recommend it and give you permission to use my testimonial. "Mrs. Ida Ryr., Glen Allen, Ala. Women who suffer abould write to Lydia E. choice of putting in the men they thought fit to conduct the water system.

Mr. Miller illustrated how the four representatives of the Victoria district could control the administrative board. In the case of a quorum meeting which required the attendance of a majority of the board, the four Victorians could govern the body by a bare majority. He expitated that if only seven turned upand four of them were Victorians then the four representatives from Victoria could have their own way against the other three which would possibly represent two municipalities and a morganized district. Saanich was likened unto the Trojans who when debating after the Greeks, had left the walls of their city they stated: "We fear the Greeks, even when they bring gifts we fear the Greeks."

Alderman Todd stated that one of the complaints in the city was that the population was not proportion.

Alderman Todd stated that one of the complaints in the city was that the population was not proportionately represented by the four members while Reeve Watson asserted that there should be no complaint as to representation when Victoria had only four representatives on the board to a population of 40,000 while the total number of representatives from the outside districts was eight and only a population of 25,000. Mr. Vantreight illustrated the results brought about by irrigation and concluded by asking for the support of the voters. R. E. Collis, President of the Central Saanich Ratepayers' Association, occupied the chair.
