DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 178018

GHQ/SCAP Records (RG 331, National Archives and Records Service)

Description of contents

(1) Box no. 3010

(2) Folder title/number: (22)
Shipbuilding

(3) Date: Feb. 1948 - May 1949

(4) Subject:

Classification	Type of record
9621	a, c, e

(5) Item description and comment:
i) Yamaguchi & Chugoku
ii) Includes Contents List

(6) Reproduction: (Yes) No

(7) Film no. Sheet no.

(Compiled by *National Diet Library*)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 71801

DATE	SUBJECT	ISSUING HEADQUARTERS & INDORSEMENTS
4 Feb. 48	Report on Salvage of Ex-military Vessels.	Yamaguchi Pref. Government
22 Apr. 48	Survey of Shipbuilding in Chugoku Region	CMGR - Basic
12 May 48	Surveillance of Japanese Shipbuilding dated 3 April 48	YMGT - 2nd Ind.
8 July 48	Use of Submarine Hull as a Floating Pier	YMGT - Basic
12 July 48	Surveillance of Japanese Shipbuilding dated 6 July 48	CMGR - 1st Ind.
2 Aug. 48	Application for Permission to Convert Ex-Naval Vessels into Breakwater in Ube Port.	CMGR - 1st Ind.
24 Sept. 48	Mine Sweeping Inland Sea Ferry Route.	CMGR - 3rd Ind.
No date.	List of Ship Building Factory in Yamaguchi Prefecture.	Yamaguchi
1 May 49	Shipyards in Yamaguchi Ken.	Kyushu Marine Transportation Bureau.

JUL 2 1 RECD

Subject: Report in connection with our petition with reference to opening a new sea route between Tokuyama and Beppu-Oita.

From: Mayor of Tokuyama City.

I am grateful to you for your assistance in connection with our petition under date of June 30 for the opening of a new sea route from Tokuyama to Beppu-Oita.

On 23 this month twenty-three representatives of the citizen accompanied by myself tried a round trip over the other side along the mine-swept course on board the No. 2 Tokuyama Maru (150 tonner steel boat), and we all have reconfirmed the facts stated in our application.

We found both Beppu and Oita so very keen about the plan that an agreement was reached that with the combined efforts the plan should be vigorously pushed on by the three cities.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

The opening of the new route will alleviate the congestion of passengers and freight passing thru the Kwanmon tunnel and will help coordinating general transportation.

I thank you agin for your continued assitance,

Yours obediently,

T. Hasegawa

(Hasegawa ~~Tohichi~~)
Mayor of Tokuyama City.

To bad S.C.A.P.
won't appr. of this.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

Tokuyama, July 28, 1948.

To Lieutenant-Colonel Macnamara,
Commander,
Yamaguchi M. G. T.

Subject: Requesting mine-sweeping.
From: Mayor of Tokuyama City.

Under date of May 29 I requested to have the mine-swept area along the Tokuyama course widend from the present 1,000 to 2,000 meters, and I think that the mattter is under your study. At this juncture, however, we learn that the Kwanmon channel will be swept under Lieutenant-Commander J. L. Malton with eight boats to be completed in three months. I should like to avail myself of this chance, and have our Tokuyama course widened as requested. I should be very grateful if you would give your usual kind assistance along this line. As you will see this will render navigation ever more secure. I wish to attach an information regarding the local Tokuyama Soda Company's shipping program.

Yours obediently,

T. Hasegawa

(Hasegawa Yoichi)
Mayor of Tokuyama City.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78013

Tokuyama Soda Company
Shipping Program

Directed by the Chemical Bureau of the Commerce and Industry Department of the Government the company is producing 4.500 tons of soda, 1,500 tons amonth, during three months from July to September, and they have to export 1,500 tons monthly by November. They expect this will continue for future.

To produce 1,500 tons of soda they consume 4,200 tons of salt, which is to be imported. In this way they move a total of 5,700 tons of cargoes monthly.

Now these shipments are carried on by transhipment at Kobe harbor. If foreign trade boats are allowdd to enter this port of Tokuyama, this wasteful transhipment can be eliminated, which we are very much desirous to be materialized thru your good offices.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78013

3 April 1948

AG 560 (MG-Em)

SUBJECT: Surveillance of Japanese Shipbuilding

TO: Commanding Officer
Chugoku Military Government Region
APO 317

1. Attention is invited to paragraphs below extracted from letter from General Headquarters, Supreme Commander for the Allied Powers, file AG 561 (19 Mar 48) ESS/IN, dated 19 March 1948, subject: "Surveillance of Japanese Shipbuilding" :

"4. At the close of the war, work was suspended on the construction of 625 wooden wartime standard cargo ships of over 100 gross tons ordered by the Japanese Government, which had paid an initial deposit to the shipyards engaged in this construction. In 1946 application was made by the Japanese Government for permission to complete construction of these vessels, as and if buyers for them were found by the shipyard concerned. Authorization for this construction was given by SCAPIN 1167 on 30 August 1946.

"5. At the present time 417 of these vessels, of which 154 had previously been assigned to the Sangyo Setsubi Eidan, are still incomplete. The Closed Institutions Liquidation Commission, Bank of Taiwan Building, Tokyo, now has control of the ships previously assigned to this Eidan as the latter has been designated a closed institution.

"6. Information received from the Ministry of Transportation, Japanese Government and the Liquidation Branch, Fianance Division, Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers, indicated that a shipyard may scrap any of these vessels except those formerly belonging to the Sangyo Setsubi Eidan, if specific authorization for the scrapping of each ship is first secured from the Closed Institutions Liquidations Commission and if the initial deposit is returned to the Japanese Government. However, no further work is permitted toward completion or scrapping of the vessels formerly belonging to the Eidan, pending decision by the Closed Institutions Liquidations Commission as to their final disposition."

2. The inclosed list of 154 ships are those mentioned in extracted

C O P Y

REPORT OF INSPECTION ON SHIPYARDS

8 Nov 1947

By the SPECIAL ORDER (NUMBER 175), dtd 31 Oct 1947, I have inspected three shipyards to determine the status of uncompleted steel fishing boats in Yamaguchi Prefecture.

The Kasado Dockyard Co., Ltd. Kasado Yard
708 Kasadojima Kudamatsu-shi Yamaguchi-ken
Tel. No. Kudamatsu 28 & 47.

Two (2) 75 gr. tons and Four (4) 135 gr. tons tuna-boats were authorized by SCAPIN 1120 (10 Aug 1946) and SCAPIN 1356 (22 Nov 1946). These were completed and delivered to the owners during the term from Nov 1946 to Aug 1947.

At the present time, neither fishing boats nor other kind of fishing boats are under construction, and the main activities of this shipyard are repairing of merchant ships, scrapping of ex-Japanese destroyer "Kashi" and the rolling of steel bands or bars utilizing the scraps.

The Mitsubishi H. I. Co. Shimonoseki Shipyard
Hikoshima Shimonoseki-shi Yamaguchi-ken
Tel. no. Shimonoseki 88.

After the end of the war, the construction of one (1) 95 gr. tons and four (4) 110 gr. tons tuna-boats, fourteen (14) 75 gr. tons small trawlers and two (2) 175 gr. tons fish carriers were authorized by SCAPIN 949 (13 May 1946) and SCAPIN 1356 (22 Nov 1946)

Except for the following two (2) boats, these vessels were completed and delivered to the owners.

One (1) 95 gr. tons tuna-boat,
One (1) 175 gr. tons fish carrier.

These are under fitting-out at the quay after launching, and will be completed within this year.

Six (6) 98 gr. tons trawlers are under construction, they say that the construction of these vessels was authorized by SCAP this year, instead of constructing six (6) 75 gr. tons trawlers, authorized by SCAPIN 949 (13 May 1946), in the Nagasaki Shipyard, (I have no means to confirm this).
The status of these boats is as follows.

Encl 1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. [illegible]

Construction No.	No.456,No.457	No.458,No.459	No.460&461
Date of contract	15 Feb '47	Do	Do
Contracted date of delivery	10 Aug '47	31 Aug '47	30 Sept '47
Date of laying keel	11 Mar '47	11 Mar '47	22 Mar '47
Progreesive %	30%	10%	3%
Status of main engine	reserved	not reserved	not reserved
Labour consumed	9,300 for two	3,300 for two	700 for two
Necessary labor hereafter	11,000 "	16,000 "	18,000 "
Contract price	Y.3,100,000 each	Do	Do
Received till now	Y.3,720,000 for two	Do	Y.2,393,000 for two
Increase of price, estimation	Y.3,800,000 each	Do	Do
Date of completion, present schedule	End of Dec '47	End of Jan '48	Middle of Mar '48
Steel materials, worked-up	150 tons	150 tons	40 tons
Necessary steel material hereafter	0	0	110 tons reserved

After completion of these vessels, this shipyard has no schedules of construction of steel ships in the near future.

Hayashikane Shipbuildingyard.
Hikoshima Shimonoseki-shi Yamaguchi-ken
Tel. No. Shimonoseki 1,530

After the end of the war, the construction of two (2) 1,000 gr. tons fish carries, twelve (12) 75 gr. tons small trawlers and two (2) 300 gr. tons whalers was authorized by SCAPIN 891 (21 Apr '46), SCAPIN 949 (13 May '46), SCAPIN 1120 (10 Aug '46) and SCAPIN 1356 (22 Nov '46).

Except for the two (2) 300 gr. tons whalers, these vessels were completed and delivered to the owners. The construction of the whalers is much delayed by the shortage of materials, electric power and calcium carbide and by the repairing of other fishing boats in summer.

The one is under fitting-out at the quay and will be comp-

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78013

leted within this year.
The other is under construction on the building berth (the keel was laid 1 May '47), the main engine of which is also under construction in the engine department, and the date of completion is the end of March next year, but I suppose it will much more be delayed.

Four (4) unauthorized 75 gr tons small trawlers were completed in March and April this year, and delivered to the owners. They are engaged in fishing now, they say. Two (2) of these, the owner of which is Tadashi Okada, are said to have been authorized recently, but the other two (2), the owner of which is Boofu Fishing Co., are said to be in still unauthorized status, probably without the certificate of ship's nationality and other authorizations they might have been poaching.

After completion of the whalers, this shipyard has no schedules of construction of steel ships in the near future.

(End)

Inspector /s/ M. Takahashi
