CONSTITUTION

OF THE

AMERICAN FEDERATION OF LABOR

PREAMBLE.

WHEREAS, A struggle is going on in all the nations of the civilized world, between the oppressors and the oppressed of all countries, a struggle between the Capitalist and Laborer, which grows in intensity from year to year, and will work disastrous results to the toiling millions if they are not combined for mutual protection and benefit;

It therefore behooves the Representatives of the Trades and Labor Unions of America, in Convention assembled, to adopt such measures and disseminate such principles among the mechanics and laborers of our country as will permanently unite them to secure the recognition of the rights to which they are justly entitled.

We therefore declare ourselves in favor of a thorough Federation, embracing every Trade and Labor Organization in America, organized under the trade union system.

CONSTITUTION.

ARTICLE I.—NAME.

This association shall be known as "The American Federation of Labor," and shall consist of such Trade and Labor Unions as shall conform to its rules and regulations.

ARTICLE II.—OBJECTS.

Section 1. The objects of this Federation shall be the encouragement and formation of Local Trade and Labor Unions, and the closer federation of such societies through the organization of Central Trade and Labor Unions in every city, and the further combination of such bodies into State, Territorial or Provincial organizations, to secure legislation in the interest of the working masses.

Sec. 2. The establishment of National and International Trade Unions, based upon a strict recognition of the autonomy of each trade, and the promotion and advancement of such bodies.

Sec. 3. An American Federation of all National and International Trade Unions, to aid and assist each other; and, furthermore, to secure National Legislation in the interest of the working people, and influence public opinion, by peaceful and legal methods, in favor of Organized Labor.

Sec. 4. To aid and encourage the labor press of America.

ARTICLE III.—CONVENTION.

Section 1. The Convention of the Federation shall meet annually at 10 A. M., on the second Monday in December, at such place

as the delegates have selected at the preceding convention.

The expenses of said committee shall be paid out of the funds of the Federation.

Sec. 5. All resolutions of a general character, or proposition for changes in this Constitution, shall be sent by delegates elect or the officers of affiliated organizations to the Secretary of the A. F. of L. at least two weeks previous to the assembling of conventions; the Secretary shall have the same compiled and printed as a programme of business and mailed to each delegate elect; but this shall not preclude the introduction of new matter by the consent of two-thirds of the delegates.

ARTICLE IV.—REPRESENTATION.

Section 1. The basis of representation in the Convention shall be: From National or International Unions, for less than four thousand members, one delegate; four thousand or more, two delegates; eight thousand or more, three delegates; sixteen thousand or more, four delegates; thirty-two thousand or more, five delegates; and so on; and from each Local or District Trade organization or federated body, not connected with, or having a National or International head, affiliated with this Federation, one delegate. The Delegates shall be elected at least two weeks previous to the Annual Convention of the A. F. of L., and the names of such delegates shall be forwarded to the Secretary of this body immediately after their election.

Sec. 2. Questions may be decided by division or a show of hands, but if a call of the roll is demanded by one-tenth of the delegates present each delegate shall cast one vote for

every one hundred members, or major fraction thereof, he represents; but no City or State Federation shall be allowed more than one vote. The Secretary shall prepare for use of the Convention printed poll lists, containing the number of votes the delegates from National and International Unions are entitled to, based upon the last reports made to the office of the Federation.

Sec. 3. No organization which has seceded or has been suspended or expelled from, or refuses to affiliate with, any National or International organization connected with the Federation, shall be allowed a representation or recognition in this Federation.

Sec. 4. No organization shall be entitled to representation unless such organization has applied for and obtained a certificate of affiliation at least one month prior to the Convention, from the President of the Federation.

Sec. 5. No Central Labor Union or City or State Federation of Labor or any other central body of delegates, shall admit to their councils delegates from any local organization that owes its allegiance to any other body, National or International, not connected with this Federation, or hostile to any affiliated organization, or that has been suspended or expelled by a National or International organization of their trade, under penalty of being denied representation in general conventions of this Federation. It is the duty of local unions of the American Federation of Labor to organize Central Labor Organizations in the localities where none exist, or to join those already existing, to secure the affiliation of the same with the American Federation of Labor, that there may be unity of action for the purpose of advancing the interests of each other and establishing the principles of this Federation.

Sec. 6. When a Local, National or International Trade Union shall send to a convention a delegate who is not a bona-fide craftsman of the trade he represents on the face of his credential, said Union shall also send a statement to that effect to the convention stating the fact and giving reasons therefor.

ARTICLE V.—OFFICERS.

Section 1. The Officers of the Federation shall consist of a President, two Vice-Presidents, a Secretary, and a Treasurer, to be elected by the Convention, who shall constitute an Executive Council.

Sec. 3. The President and Secretary shall be members of the succeeding Convention in case they are not delegates, but without vote.

Sec. 4. All elective officers shall be members of a local organization connected with the American Federation of Labor.

Sec. 5. The terms of the officers of the American Federation of Labor shall expire on the first day of January succeeding the convention.

sign all official documents; to travel, with the consent of the Executive Council, whenever required, in the interests of the Federation; to submit to the Secretary, at the end of each month, an itemized account of all moneys, traveling and incidental, expended by him in the interest of the Federation; and at the end of his term of office he shall report his acts and doings to the annual Convention of the Federation. The President, if not a delegate, shall have a casting vote in case of a tie, but shall not vote at other times. He shall be required to devote all his time to the interests of the Federation. He shall call meetings of the Executive Council, when necessary, and shall preside over all their deliberations, and he shall receive for his services such sum as the annual conventions may determine, payable weekly.

Sec. 2. In case of a vacancy in the office of President by death, resignation or other cause, the Secretary shall perform the duties of the President until his successor is elected. In the event of such a vacancy in said office, it shall be the duty of the Secretary to issue within six days from the date of such vacancy a call for a meeting of the Executive Council at the headquarters of the American Federation of Labor for the purpose of electing a President to fill said vacancy.

Sec. 3. The duties of the Secretary shall be to take charge of all books, papers and effects of the general office; to conduct the correspondence pertaining to his office; to furnish the elective officers with the necessary stationery; to convene and act as secretary of the annual Convention, and furnish to the committee on credentials at each convention a statement of the financial standing of each affiliated body with the Federation; to keep all letters, documents, accounts, etc., in such a manner as the annual convention may direct; to receive and collect all moneys due the Federation, and to pay them to the Treasurer, taking his receipt therefor; Provided, that he may retain in his hands a sum not exceeding \$250, for current expenses, which money shall only be paid out on the approval of the President; to submit to the Finance Committee, for their inspection, vouchers for all moneys expended; to close all accounts of the Federation on October 31st of each year, and all moneys received or disbursed after said date shall not be reported in the general balance account of the ensuing convention; to publish a financial report in the quarterly circular, and send ten copies to each affiliated body, and such additional number of copies as may be ordered and paid for by any organization connected with the Federation. His office shall be located in the same office with that of the President. He shall give a bond of \$1,000 for the faithful performance of his duties, and for his services he shall receive such sum as the annual conventions may determine, payable weekly.

Sec. 4. The Treasurer shall receive and take charge of all moneys, property and security of the Federation delivered to him by the Secretary. He shall deposit all moneys belonging to the Federation in bank in his name as Treasurer of the American Federation of Labor, and before any moneys thus deposited can be drawn, each check shall be signed by him as Treasurer. He shall pay through the Secretary, all warrants regularly drawn on him, signed by the President and countersigned by the Secretary, as required by this Constitution, and none others. He shall submit to the annual Convention a complete statement of all receipts and disburse-

ments during his term of office, and at the expiration of his term of office he shall deliver up to his successor all moneys, securities, books and papers of the Federation under his control, and for the faithful performance of his duties he shall give a bond in such sum as the Executive Council may determine. The annual salary of the Treasurer shall be \$100.

Sec. 5. All books and financial accounts shall, at all times, be open to the inspection of the President and Executive Council.

ARTICLE VII.—EXECUTIVE COUNCIL.

Section 1. It shall be the duty of the Executive Council to watch legislative measures directly affecting the interests of working people, and to initiate, whenever necessary, such legislative action as the Convention may direct.

Sec. 2. The Executive Council shall use every possible means to organize new National or International Trade and Labor Unions, and to organize local Trade and Labor Unions and connect them with the Federation until such time as there are a sufficient number to form a National or International Union, when it shall be the duty of the President of the Federation to see that such organization is formed.

Sec. 3. While we recognize the right of each trade to manage its own affairs, it shall be the duty of the Executive Council to secure the unification of all labor organizations, so far as to assist each other in any trade dispute.

ARTICLE VIII.—STRIKES AND LOCKOUTS.

Section 1. In case any National or International or Local body affiliated with this Federation shall order a strike, or are locked out, and by reason of financial distress it shall be necessary for it to call upon the Federation for aid, the Executive Council, if they deem that such organization is entitled to receive such assistance, shall make an assessment, not exceeding 2 cents per member per week, upon every other National, International and Local body so affiliated with the Federation. Such assessment shall remain in force for a period not exceeding five continuous weeks, unless otherwise ordered by a general vote of all National and International Unions affiliated.

Sec. 2. Any National or International organization, or other body connected with this Federation, failing to comply with the requirements of Sec. 1 of this Article, within a period of 30 days, shall be suspended, and shall not be reinstated until all arrearages are paid in full. Provided, however, that organizations represented in this Convention whose delegates have been instructed to oppose the levying of an assessment shall not be liable to suspension until the matter is acted on at their next National or International convention.

Sec. 3. Accompanying a call for an assessment shall be a circular from the President of the Federation, giving a detailed account of the strike or lockout.

Sec. 4. No affiliated body of the American Federation of Labor shall be entitled to benefit from the strike fund of the Federation until they have been six months affiliated, have paid six months per capita tax to the Federation, and are in good standing.

ARTICLE IX.—REVENUE.

Section 1. The revenue of the Federation shall be derived as follows: From International and National Trade Unions a per capita tax of one-fourth of one cent per member per month; from Local Trade Unions and Federal Unions, one cent per member per month; and from Central Labor Unions of City and State Federated bodies, \$25 per annum. All moneys shall be payable to the Secretary of the Federation.

Sec. 2. Delegates shall not be entitled to a seat in this Federation unless the tax of their organization, as provided for in Section 1 of this Article, has been paid in full.

Sec. 3. Any organization, affiliated with this Federation, not paying its per capita tax on or before the 15th of each month, shall be notified of the fact by the Secretary of the Federation, and if at the end of three months it is still in arrears, it shall become suspended from membership in the Federation, and can only be reinstated by vote of the Convention, when such arrearages are paid in full.

Sec. 4. Whenever the revenue of the Federation shall warrant such action, the Executive Council shall authorize the sending out of Trade Union speakers, from place to place, in the interests of the Federation.

Sec. 5. The remuneration for loss of time by members of the Executive Council or speakers engaged by them shall be \$3.50 per day and traveling and hotel expenses.

ARTICLE X.—MISCELLANEOUS.

Section 1. The Executive Council shall have power to make rules to govern matters not in conflict with this Constitution or the Constitution of affiliated Unions, and shall report accordingly to the Federation.

Sec. 2. Certificates of affiliation shall be granted by the President of the Federation, by and with the consent of the Executive Council, to all National and International Unions and local bodies affiliated with this Federation.

Sec. 3. Any seven wage-workers of one trade of good character, and favorable to Trade Unions, and not members of any body affiliated with this Federation, who will subscribe to this Constitution, shall have the power to form a local body, to be known as a "Federal Labor Union," and they shall hold regular meetings for the purpose of strengthening and advancing the Trades Union movement, and shall have the power to make their own rules in conformity with this Constitution, and shall be granted a local certificate by the President of this Federation, provided the request for a certificate be endorsed by the nearest Local or National Trades Union officials connected with this Federation.

Sec. 4. The certificate fee for affiliated bodies shall be \$5, payable to the Secretary of the Federation, and which shall accompany the application.

Sec. 5. Where there are one or more Local Unions in any city, belonging to the National or International Union, affiliated with this Federation, they may organize a Trades Assembly or Central Labor Union, or join such body, if already in existence.

ARTICLE XI.—AMENDMENTS.

This Constitution can be amended or altered only at a regular session of the Convention, and to do so it shall require a two-thirds vote.

TWELFTH ANNUAL CONVENTION
OF THE
AMERICAN FEDERATION OF LABOR

1892

Report of Proceedings.

FIRST DAY—Morning Session.

Independence Hall,
Philadelphia, Pa., Dec. 12, 1892.

At 10 A. M. sharp President Samuel Compers called the 12th Annual Convention of the American Federation of Labor to order.

Mr. Minds, Secretary of the United Labor League, in a few remarks introduced Mr. George Chance, who on behalf of the United Labor League welcomed the delegates of the A. F. of L. to the city of Philadelphia. He depicted the poor conditions prevailing in many places throughout Pennsylvania, and attributed this condition of affairs to evil legislation, and stated that trusts had been fostered and legalized, and speaking of the bench said:

"A judge becomes virtually the attorney of a giant corporation and a common prosecutor of striking workmen. According to a judge of the Supreme Court, trades unions are tyrannies, while the treasonable act of the Carnegie corporation in making war upon our State was perfectly justifiable.

"Another judge, who could see nothing good in a trade union, and who desired to hold them up to contempt, declared that they were rapidly getting under control of men who were unacquainted with our tongue and antagonistic to our institutions. I am charitable enough to believe that he was ignorant of what he was talking about, rather than that he made a deliberate misstatement. The laws in relation to the employment of child labor have been treated with contempt by what is termed the minor judiciary.

"It is said that 'the blood of the martyrs was the seed of the church.' It is possible that through the blood of the men who died on the banks of the Monongahela last July may come a realization of the true condition of affairs, and that the legislation of the future will be in favor of the masses rather than for the aggrandizement of the few."

He called upon those present as representatives of organized labor to point out the way to better this condition of affairs in Pennsylvania, and closed by quoting the preamble to the United States Constitution.

PRESIDENT COMPERS' REPLY.

In response to the address of welcome President Compers, after a few words of thanks, said:

"I desire to express my appreciation of the warning note sounded from Pennsylvania. The admonition is well timed. The events that have transpired call for the best thoughts of the worker. It is time that the workers, who are the producers, should formulate their demands and in no uncertain tones present them to those who would seek the destruction of that spirit of independence which the workers, the wealth-producers of our country, inherited from those brave men who sacrificed their lives and their all upon the altar of liberty more than a century ago.

"It is lamentable that judges will stoop as low as to aim at an end so despicable as has been recently witnessed in Pennsylvania."

He attributed the status of labor in this State to two causes: "First, the comparative lack of organization; and, second, that wage-workers have been owing allegiance to political parties first and to themselves, as a class, last."

"If," said he, "organized workmen were to hold in check the political powers of this State and make their rule, 'workers first, party last,' then the Legislature would soon make laws and judges would construe them in the interest of the workingman." He concluded his response with this statement: "It is our duty by means of evolutionary methods to raise the standard of all labor, and to extend a fraternal hand to the downtrodden of all nations. To unify and solidify in the bonds of organization the workers of all lands is the mission of trades organizations."

The President then declared the Convention open for the regular order of business.

A congratulatory cablegram was received from Mr. Dehli, from Christiania, Norway. Ordered to be noted and filed.

The following delegates were appointed by

the President as the Committee on Credentials:

J. J. Linehan, A. Todtenhausen, Chas. Reichers, P. J. McIntyre, A. L. Nathan.

Upon motion the Convention adjourned until 2 P. M.

FIRST DAY—Afternoon Session.

Convention called to order at 2 P. M., with President Gompers in the chair.

Minutes of morning session read and approved.

Committee on Credentials being called upon were not ready to report, and President Gompers suggested that since Mr. John Swinton was here for the purpose of addressing the meeting, that advantage be taken of the time for that purpose. The suggestion was agreed to.

President Gompers introduced with warm words of commendation John Swinton, of New York, as a devoted advocate of organized labor. Mr. Swinton highly complimented organized labor, and said that the effect of the great strikes of the year was beneficial.

Mr. Swinton's remarks were enthusiastically received. It was subsequently resolved that a vote of thanks be, and they were, tendered to Mr. Swinton for his able and instructive address, and the paper referred to the Executive Council with power to publish it.

The Committee on Credentials then submitted its report.

Philadelphia, Pa., Dec. 12, 1892.

To the Convention of the American Federation of Labor:

Your Committee on Credentials beg leave to report favorably on the following named delegates, and recommend that they be admitted to seats in the Twelfth Annual Convention of the A. F. of L.

(See list of delegates on pages 6, 7, 8.)

JAMES J. LINEHAN,
A. L. NATHAN,
CHAS. F. REICHERS,
P. J. MCINTYRE,
A. TODTENHAUSEN,

Committee.

Delegate Morgan moved a vote of thanks to the United Trades of Philadelphia for its cordial welcome and our expression of appreciation at their selection of a Union man as the proper person to welcome this Convention.

Delegate Thos. J. Elderkin, of Chicago, was granted the privilege of the floor. He introduced a set of resolutions protesting against awarding the contract for the printing of the catalogue for the World's Fair by a notoriously unfair firm.

Motion made that the resolution read by the delegate be adopted.

Moved that the resolution be referred to the delegates from Chicago and delegates from the International Typographical Union, to report on Tuesday, Dec. 13, A. M.

First Vice-President P. J. McGuire being called to the chair, ruled the motion lost on the ground that it required a unanimous vote at this time. An appeal was taken from the Chair's decision, and Second Vice-President Carney took the chair. The Chairman put the question and the decision of the Chairman sustained. The First Vice-President then resumed the chair.

Moved that the rules governing the last

Convention shall govern this Convention until other rules are adopted by this body.

Carried.

Moved that Mr. Elderkin, of Chicago, introducer of the resolution, and the delegates of the I. T. U. consult with a view to agree on a

resolution and report back to this body at the conclusion of the reading of the President's report.

Carried.

The President then read his report as follows:

PRESIDENT GOMPERS' REPORT.

To the Officers and Delegates to the Twelfth Annual Convention of the American Federation of Labor:

Representatives of the Wealth Producers of America: I greet you to this the Twelfth Annual Convention of the American Federation of Labor.

Meeting as we do under the dome which sheltered the men who, a little more than a hundred years ago, proclaimed to the world the new doctrine that all men were born free and equal, and that there were certain inalienable rights to which mankind was entitled, "Life, Liberty and the pursuit of Happiness." Meeting in this hall where the old bell which first rang out the welcome peal of the people's liberty should awaken in our hearts and minds the loftiest feelings of human sympathy and the noblest thoughts to unconquerably carry on the struggle for the natural and legal rights of which the toilers of our country should be in full possession.

That we are as far from the goal for which the human family have been for ages struggling is due to our own shortcomings. There is no reason why we should not realize the highest hopes of an ideal life, where man's worth shall be measured by his real utility to his fellows, where his generosity and sympathy, rather than his cupidity and rapacity, will receive the encomiums and rewards of a nobler manhood, a more beautiful womanhood and a happier childhood. Where justice and fair dealing will redound to the advantage and ennobling of all. To the attainment of that end we should bend our every energy, subordinate our every other aspiration.

A REVIEW OF RECENT EVENTS.

Events have transpired on the field of labor within the past six months which have aroused public attention, because the incidents connected with them have been more or less of an unusual character. In each of these labor struggles the employers, the corporations, have simply made a request and the armed forces of the States and the United States were at their bidding.

In the coal mines of Tennessee, where the miners were being gradually but surely supplanted by the labor of convicts, let out by contract or lease, where the opportunities for an honest livelihood were being stolen from them under the garb of a public benefaction and economy, the miners pleaded and begged in vain to the legislature of the State to stop this nefarious traffic.

Instead of having their grievances and wrongs they so bitterly and justly complained of redressed, they were scorned at, defied. When the public opinion was so stunted that they could not induce the law-making power to save the lives of men, women and children, is it any wonder that when all legal means failed them to obtain relief, as a last resort, they determined that the only way by which the public conscience could be touched was to shock it.

At Homestead, where the iron and steel workers were offered a wholesale reduction in their wages, an armed band of marauders, sailing under no flag, owing allegiance to no state or country, (and consequently by the law of all nations considered pirates) was brought by the corporations to invade that peaceful town, to overawe and intimidate its citizens and workers, to aid in the effort to supplant their labor by a poorer and demoralized set of human beings. The men of Homestead seeing their liberties endangered, their lives, their homes, and families menaced, took up arms against the invaders and repelled them.

There are now nearly 200 men who have been engaged in the strike at Homestead, who are either in prison or out on bail, charged with every conceivable offense and crime, from conspiracy and riot to murder and treason. The calling out the entire militia of Pennsylvania to Homestead is fresh in the minds of all. The action of a judge acting in the capacity of a committing magistrate as well as the higher office of a Supreme Court Justice, the contortion of the law to make the men amenable to the charges of murder and treason. The fact that there are indictments against the company's officials as well as the men, yet the men are incarcerated in jail, while the corporate plutocrats are enjoying their liberties and the luxury that their wealth gives. The contrast of the situation and the treatment afforded is food for fruitful thought and cannot but impress itself deeply upon the people who have been taught that "all men are equal before the law."

At Buffalo about 450 switchmen used all the peaceful persuasive powers men were capable of for the purpose of inducing the Railroad Corporations to cease working their employes, at their responsible and often dangerous occupations, a longer period than the laws of the State of New York provides—ten hours. They were treated contemptuously by the company, and as a last resort struck work for the enforcement of the law.

Because some irresponsible persons (certainly not the men on strike whose interests were jeopardized thereby) destroyed a number of railroad cars, which had been designated by the company as out of use and worthless, the militia of the State of New York was called out and concentrated at Buffalo, doing Switchmen's work and even forcing men to work against their will. The men on strike were not even permitted to speak to those who proposed to take or took their, the strikers, places, thus depriving them of their legal rights as specially provided and expressed in the laws governing disputes between employed and employer.

At Coeur D'Alene, where the miners had been suffering intense deprivations during six long winter months, the men who extracted the great wealth from the bowels of the earth were subjected to reductions in their wages, or the alternative of seeing their work passing from their hands to the gangs and hordes of people brought over to this country under contract.

The citizen miners were organized and believed that rather than antagonize, the better course would be to organize and fraternize with the non-union men. They were ordered off by the deputies, and while retreating shot at and many maimed and killed. It was then in self-defense that they returned the fire. At the bidding of the mine owners the United States troops were brought to Coeur D'Alene and the men overawed and subdued, the commanding General of the United States forces issuing an order that any employer who would operate his mines with Union men would not be allowed to continue work. A United States judge issued an order prohibiting the Union miners from holding a meeting. In other words, the constitutional right of free assemblage had been violated by a United States Judge, and a General of our army declaring and enforcing an edict that the employer shall not carry on his business because he dare employ Union men. The Judge further held that every member of the Union was responsible for any overt act of any member of the Union. Whether such members were cognizant of the overt act being committed or not was immaterial. Thus practically outlawing the Union.

The action of both judges and officers of the United States has been so flagrantly in violation of law, that I believe it our duty to demand of the Congress of the United States to institute an investigation into all matters connected with the judicial and military conduct of the affairs in the mining regions of Coeur D'Alene.

These cases certainly call for the serious consideration of the delegates to this convention. They are fraught with pregnant and burning questions of the hour. We have a duty to perform, and we should not shrink from doing it.

The efforts of the toiling masses of our country to carry on the struggles for improved conditions have been met in the spirit of the bitterest antagonism. Our methods to gradually improve the condition of the masses have been regarded and treated as if we were the enemies rather than the friends of the human family. War has practically been declared against the labor organizations, and war measures resorted to in the effort to crush them.

But will they be crushed? We answer No. A thousand times No.. The labor movement is the manifestation of that unrest born of the conviction that injustice prevails which needs remedying and supplanting by justice and right. The labor movement voices the aspirations of the toiling masses as well as lays bare their wrongs. It is the means through which tyranny is held in check; it lives in their minds and hearts, and will not and cannot be treated in a manner so similar without some tacit understanding on the part of the monopolistic class of our country. There is every reason to believe that an arrangement of some character to this end existed and still exists. Circulars issued and evidence given by the Pinkertons give further proof to this belief.

There are matters connected with these struggles to which your attention should be called.

MILITIA.

It is plainly evident that the militia of our several States are now never utilized except for purposes of ostentatious show or as an element in labor struggles. There is not even a pretense that they should be what they were originally designed for "an arming of the people, a citizen soldiery, a National Guard." Instead of being the popular organization in defense of homes and firesides, it has drifted into a machine of monopolistic oppression against labor. But one of two courses are open to the trade unionists of our country upon the militia question.

We must endeavor to bring back the militia of our several States to again become the popular military organization of the masses, with the election of the officers by the men, or, failing in that, our organizations will be compelled to declare that membership in a labor organization and the militia at one and the same time is inconsistent and incompatible.

Our members are law-abiding and liberty-loving citizens. They appreciate how essential peace and tranquility are to the development of our industries. They value the rights that they are entitled to even under present laws, and hope to aid in attaining the great future awaiting the American people. America's toilers' love of country and its institutions is as genuine and fervent to-day as in the days when they left the forge and anvil to take up arms and shed their life's blood to save the Union and strike the shackles off the limbs of human chattel slavery. But, despite their patriotism, they do not fail to see and protest against the tendency of avacious corporations, fastening yokes upon their necks, manacles upon their bodies.

SHALL WE CHANGE OUR METHODS?

Many of our earnest friends in the labor movement, having witnessed the brutal outrages of the monopolistic class and their hirings upon the toiling masses within the past few months have had their innermost feelings stirred, and impatiently declare that a new path must be struck by the working people in order to overcome defeats and achieve victories. They look upon some of the recent defeats and predict the annihilation of the economic effort of organized labor—or the impotency of the economic organizations, the trade unions—to cope with the great power of concentrated wealth. There are few, if any, who have given our movement any thought, but who have shared the intensity of feeling caused by the brutal exhibitions referred to, but feelings often prompt action which good judgment forbids.

It is not true that the economic effort has been a failure, nor that the usefulness of the economic organizations is at an end. It is true that in several instances they have been defeated; but, though defeated, they are not conquered; the very fact that the monopolistic and capitalist class having assumed the aggressive, and after defeating the toilers in several contests, the wage workers of our country have maintained their organizations is the best proof of the

power, influence and permanency of the trade unions. They have not been routed, they have merely retreated, and await a better opportunity to obtain the improved conditions which for the time they were deprived of.

Upon the field of labor, like every other contest in human life, it is a matter principally of intelligence, judgment and foresight.

ORGANIZATION NECESSARY.

What the toilers need at this time is to answer the bitterness and vindictiveness of the oppressors with—Organization.

The tendency and results of corporate power is force; brutal and debasing. The tendency of the organization of the workers is also force, but it is the force of reason, generous and humanizing. Before the force of reason the force of brutality must make way.

We are frequently urged to strike out for another path, to take some radical action and to make greater progress. In answer to this stands the unalterable fact that the representatives of the trade unions coming from direct daily contact with the toilers of our country are best qualified to voice their sentiments, formulate their demands and declare their hopes. That it would be an injury to their interests if we who are at the head of the affairs of their organization, were we to drift it too far ahead and thus create a yawning gap between us and the rank and file, none will deny. It is one thing to declare for a principle, it is another to achieve it; and after all we must admit that our efforts will assuredly prove futile without the co-operation and good will of the masses of labor.

We can make of the trade unions exactly what the intelligence and progress of our members will permit. These organizations are of the most elastic character, and whatever action is agreed upon by the organized wage-earning masses can be formulated and achieved by and through the trade unions. It is expected that the leaders of the movement must exercise their best judgment. To artificially and prematurely expand the scope of the organizations is to encounter the danger that the whole fabric may be rent asunder and thus leave all in a plight of misery and despair, helpless victims to the avarice of the employing classes.

If my last thought upon this great labor problem could find articulation, it would contain but two words, namely, *toilers organize*. I have no fear that our fellow workers will fail to find the means to ameliorate their condition, overcome and subject monopolistic brutality and injustice and secure the emancipation of the wealth-producing classes, thus placing the human family upon the highest pedestal of an ideal life, providing the one essential to the achievements of its aims is adopted—organization.

Much of the success attending all movements, and the labor movement in particular, depends upon the spirit with which its participants are permeated, the energy and courage and persistency with which their demands are pressed. I am fully persuaded that if the delegates to this convention were to recommend to the toiling masses of the country a concentration of effort for the attainment of a given purpose a large amount of good will be the result.

HOMESTEAD DAY.

Believing that the people of our country recognize the grave situation, as well as the gross injustice practiced by the money power upon the men at Homestead in charging them with heinous crimes, the Executive Council issued an appeal to the American public asking for its financial aid, so that the men would not lack the means to have the best counsel obtainable, and that the opportunities for proper defense may be at their demand.

With that object in view, December 13th of this year has been designated as "Homestead Day," and all requested to contribute a portion of their earnings of that day for the purpose stated. Since Homestead Day will occur while we are in session, I suggest that we, too, comply with the request.

POLITICAL ACTION.

It will not be denied by anyone who has given the labor movement much thought but what the toiling masses can exercise great influence to secure legislation in their interest by the intelligent use of their franchise. What the first essential is in regard to this as well as every other effort in the labor movement is organization. We should endeavor to wean the workers from being political followers of any party by whatever name known.

The conventions of the organized toilers should declare for certain political as well as economic demands, and require of, and they will certainly receive, the support and co-operation of organized labor at the ballot box as well as in the factory, field and mine. We should rather be a *unit in our demands* than a political party.

EIGHT-HOUR MOVEMENT.

The resolutions of the Federation in '84 to enforce the eight-hour work day, May 1st, 1886, had the effect of not only achieving that object for thousands of our fellow workers and a reduction in the hours of labor of hundreds of thousands, but it also brought about a wave of organization among the toilers unparalleled in the history of our country.

The resolutions of the St. Louis convention in the same nature secured the eight-hour work day, and a diminution of the hours of toil of numberless thousands, and at the same time it completely changed the positions of the contending forces of the employed and employing classes. From the defensive attitude, we assumed the aggressive and obtained an advantage which secured concessions and improved conditions. I am strongly convinced that an action of a similar character by this convention would be productive of as good, if not better, results.

It is idle to say that because we were not entirely successful in the enforcement of the eight-hour movement for all workers in the past, for that reason it is useless for us to again make the effort to establish that limitation of the daily hours of labor. To admit it is to declare the past struggles what they certainly were not—failures.

It becomes our duty to struggle on and on until we have achieved such a substantial reduction in the hours of the daily labor of the masses as shall provide remunerative employment for all who desire and can earn an honest livelihood. Economy as well as humanity demand it, and I know of no movement or demand in the interest of the toilers upon which the effort of all can be so thoroughly united and concentrated and upon which there is such a unanimity of thought. To reduce the hours of labor makes the workers more independent politically as well as economically and gives encouragement and hope for the attainment of other reforms upon both fields of action.

EIGHT-HOUR LAW.

The last session of Congress passed a much better Eight-Hour Law than any heretofore upon the Statute books upon that subject. It provides that eight hours shall constitute a day's work in all mechanical labor by, for or on behalf of the general Government; whether workers are employed by the Government direct or by contractors. The law also has a penal provision for its violators. The law had scarcely been passed a few days before an attempt was made by interested parties to secure its nullification.

Too often have laws been passed designed and framed in the interest of the workers and the plain provision perverted by department officers and peculiarly construed, yes, even declared unconstitutional. There is not an instance on record, however, where constructions or declarations of such laws were made against the interests of the wealth possessing class, when these interests clashed with the interests of the masses of the country. The laws themselves were innovations on old standing laws and customs; and were construed by those whose study and profession are antiquated customs and mildewed precedent.

The Nebraska Eight-Hour Law has been violated by several employers, and in the prosecution of them before the courts the financial assistance of the A. F. of L. was applied for and tendered, an appropriation having been granted for that purpose. The cases have not yet been fully decided. I take this opportunity of commending the address of the Attorney in this case to the consideration of organized labor. It would be found a text for the basis for arguments in favor of legislation in the interest of the wage-workers of our several states and country.

The Eight-Hour Law of Indiana had been violated by a large employer of labor and the Council were appealed to to financially aid the organized workmen of that State in the prosecution of the case. The application was approved and a tender of financial assistance for legal counsel offered, but before the case had gone to trial the employer pleaded guilty of violation of the law, paying the penalty therefor.

SEMI-MONTHLY PAYMENTS.

A number of Unions in Pennsylvania sought our aid for the enforcement of the semi-monthly payment law of that State, but before any tangible result had been arrived at upon the subject correspondence ceased on their part, notwithstanding that the Executive Council had approved the movement to enforce the law. The E. C. should be directed to select a test case and bring it before courts. Wages should be paid weekly, but this poor boon of semi-monthly payments the workers should not be deprived of.

ALIEN CONTRACT LABOR.

There has been an evident fairer disposition manifested on the part of the Commissioners of Immigration to prevent a violation of the Alien Contract Labor Law, but it is evident that the law is defective in many respects, since the employers who contemplate violating the law usually have the laborers who come here fully primed to answer the questions propounded to them, and it is only casually that the contract laborers are conscientious or forgetful enough to tell the truth, and often in these instances it is exceedingly difficult to secure a conviction of the law-breaking employer, for the very reason that the only evidence upon which he could be convicted is absent, the contract laborer having been returned from whence he came. It is, as one of the Commissioners states to me in a correspondence, therefore exceedingly "difficult of obtaining even presumptive evidence."

If immigration is continued at least the law should be amended. Two of the features that I would recommend are that all the immigrants should be subject to return until two years after their arrival in this country, and that the employing contractor should be held liable for five years after the arrival of the contract laborer. The law could also be improved in many other respects.

IMMIGRATION.

There can be no question but unrestricted immigration is working a great injury to the people of our country. Organizations supposed to be beneficial and charitable in their nature and supposed philanthropists simply gather hordes of people, pack them in vessels worse than cattle, with no room or ventilation, where even the decencies of life cannot be observed, and in that frightful condition thrust upon our shores, there to be forced into the mines, railroads and sweat shops of our country.

In my report to the Birmingham convention I expressed my opinion fully upon this subject and I reiterate and emphasize here what I then expressed. We do not wish to join in the general cry of completely shutting out all, but that some regulation and restriction is necessary is too plain a duty to be shirked. The total disregard of the shipping companies either for the material welfare or the general health of the people of our country was manifested a few months ago when ship loads of immigrants with typhus and cholera were brought to our very portals, endangering the health and lives of our people. This convention with a due regard of the rights of man as well as the interests we represent should formulate and demand such legislation as will best protect our people and yet not be at variance with human instincts.

WORLD'S FAIR.

In our efforts to carry out the instruction of the last convention petitions signed by more than 300,000 organized workmen were forwarded to Congress requesting that body to refrain from acting upon the question of opening or closing the World's Fair on Sundays. Notwithstanding the petition and our protest Congress practically closed the Fair upon the day most readily at the disposition of the workers.

As a matter of fact the days the wage-earners will have the best opportunity to visit the World's Fair will be on Sundays. A visit to it, an examination of the product of the genius of man, cannot tend to demoralize or deprave. A visit to the Exposition and a view of the arts and handicrafts of the peoples of all nations can only tend to ennoble the visitor, enlarge the sphere of his intelligence and broaden his sympathetic nature. There is no idea nor thought for the desecration of the Sabbath, but we insist that Congress should have refrained from legislating upon a subject entirely foreign to its sphere.

The Board of Directors of the Fair have pledged themselves that no employee shall be allowed to work more than six days of the week if Congress will repeal the Sunday closing clause.

In my judgment we should urge Congress to repeal the clause and delegate the matter where it rightfully belongs—to the Board of Directors.

LOAN ASSISTANCE.

By a reference to the financial reports you will observe that from time to time sums of money have been loaned to the various affiliated unions which have been engaged in contests with their employers. These loans have been of great benefit to the Unions. I would suggest to your consideration the advisability of raising a large fund by a series of small assessments upon the affiliated organizations to be placed at the disposition of the Executive Council to be loaned from time to time to organizations engaged in labor disputes and requiring such financial aid.

This system of loaning money to organizations would be far more beneficial to all than donations or appropriations, and at the same time the same money could be utilized over and over again.

An organization not engaged in a great strike or lockout is in a position to financially care for itself, and in ordinary circumstances repay any loan of money contracted during periods of dispute, hence the adoption of such a system of lending money to organizations could only be fraught with substantial advantage to all.

HIGH DUES.

In previous reports I called attention to the important question of the Trade Unions increasing the dues of members. There is possibly no matter which was so likely to call forth opposition some years ago, but I am pleased to state that nearly all the Unions of our country have seen the necessity in order to be of greater benefit and protection to their members and at the same time infusing the essential feature of permanency into the Unions. While the advances made in this direction are satisfactory there is certainly room and opportunities for greater improvement.

OFFICIAL JOURNAL.

I am more than ever impressed with the necessity of the A. F. of L. having an official journal where its objects and aims can be set forth and its claims to the respect and confidence of the wage-earning masses defended.

In the correspondence coming to this office from all over the country continuous questions are asked as to our official journal and where it can be obtained. It is immaterial who shall edit or control the journal suggested so long as one is established authorized to speak in the name and on behalf of the Trade Union Movement as understood and advocated by the A. F. of L. I am also of the opinion that the paper could be made self-sustaining, all the expense necessary being the start with a small appropriation.

PRINTER'S INJUNCTION PROCEEDINGS.

In compliance with the instructions of the last convention, the Executive Council entered into a correspondence and held conferences with the attorneys selected by Typographical Union No. 7, of Pittsburg, in the injunction cases of Murdock & Kerr vs. Eugene Wilson *et al*:

At first the request came to the Council that the \$3,000.00 be turned over in bulk to Union No. 7. This was in violation of the expressed provision of the resolutions upon the subject, and denied. The final arrangements made were that the attorneys for the Union should receive from the A. F. of L. a retainer of \$650.00 and the balance of the fifteen hundred dollars fee (\$850.00) when the Supreme Court of the State of Pennsylvania shall render a decision in these cases. Up to this writing no decision has been rendered by that Court upon these cases.

LABOR CONGRESSES.

Pursuant to your instructions invitations were forwarded to the Labor Congresses held in Europe to attend the International Labor Congress authorized and called by the A. F. of L. For reasons that will be explained we were unable to send representatives to the European Congresses referred to.

Arrangements have been made with the World's Columbian Exposition Congress Auxiliary Committee by which the large hall, a grand structure erected for the purpose of congresses, is secured for the latter part of August for our Congress and ending on Labor Day, 1893.

The Trade Union Congress of Great Britain accepted our invitation and adopted a recommendation to all the Trade Unions of England to send representatives. A recent letter received from Mr. Chas. Fenwick, Secretary of the Parliamentary Committee, was received asking information as to the extent of our arrangements.

Up to this writing no favorable responses were received from the Labor Congresses of any other country.

There is no time for further delay in this matter. If you believe that the idea of holding an International Labor Congress should be abandoned, you should so declare. If, on the other hand, you still adhere to the holding of such a Congress, it will be essential to state it in emphatic terms and adopt such measures at this convention which will insure its success.

I would recommend that this convention elect one or two representatives to visit the Trade Unions of Europe for the purpose of urging their representation at our Congress; and further, that this convention also elect some person to transact the business of making the necessary further arrangements for the holding of the Congress, each of the persons elected to perform the work herein referred to, to act under the advice of the Executive Council of the A. F. of L.

I would also recommend that the constitution be so changed as to temporarily change the date of holding the convention of the A. F. of L. of 1893 to about the time that the International Labor Congress is to be held.

In my judgment this entire matter ought to be placed in the hands of a special committee appointed early in the convention, to give this subject its entire and exclusive attention.

INTERNATIONAL LABOR MOVEMENT.

It has ever been the purpose, as well as the mission, of the A. F. of L. to not only cultivate the most fraternal relations with the organized wage-workers of all countries, but also to take advantage of every opportunity to make these purposes and relations an actuality. During the year an opportunity was presented for a tangible application of our declarations upon this subject. The organized printers of Germany were engaged in a movement to inaugurate the nine hour workday. The employing printers of Germany and Austria combined and locked out all their men. The government, after the second month of the strike, placed an injunction upon the Union's funds, and the Union was practically helpless under the circumstances. Cablegrams were exchanged between the officials of the Union and the A. F. of L., and as a result a representative of the Union came to the United States. Clothed with credentials from the Executive Council he visited many cities, occupying about five weeks. By direction of the Executive Council a circular was issued, appealing for financial assistance for them. Several thousand dollars were cabled to them, the A. F. of L. granting a loan of \$500.00 to make up the amount cabled. The strike was not successful, though the information is at hand that the nine hour rule has been gained in many printing establishments, that the Union is stronger numerically than ever before, and that the prospects for the achievement in the near future of the object of the strike, the nine hour work day, are good.

The trade union movement of Germany is extending and growing continually. There is increasing earnestness, intensity, energy and ability displayed in the defense of the trade unions, as well as a keener appreciation of their value and importance in the struggle for the economic, social and political uplifting of the masses.

At the last British Trade Union Congress there were nearly 1,500,000 organized wage workers represented. It is gratifying to learn that among the wage earning masses the beneficent effect of the trade unions is being appreciated and taken advantage of.

On the continent of Europe a slow but sure advance is being made on trade union lines, while in Australia they are, comparatively speaking, the most extensive, general and perfected.

It should be the constant aim of our National and International Trade Unions to endeavor to bring about a mutual recognition, or, better still, an interchange of cards between them and the Unions of the same trade or calling in other countries. This principle is already in vogue in several of our affiliated Unions, but I would recommend that it be adopted by all. Such a system once fully in operation, and its beneficial results will soon be manifest.

It will pave the way for the attainment of that end for which reformers struggle and of which poets sing; a federation of the people of the world.

NATIONAL UNIONS.

By a perusal of the Secretary's report a detailed account of the growth and extension of our movement will be observed, eight new National and International Unions having become affiliated within the past year, while one other National Union has been organized by the A. F. of L., but not yet affiliated with it.

Where but a few years ago there were scarcely a score we have today seventy-seven National or International Unions. Thousands of local unions out of which the opportunities to organize National Unions are developing continually.

It is our purpose and a large part of our work has been devoted to gathering and concentrating the forces of labor into the compact National Unions, and that work has been crowned with a success never before equalled. The Trade Unions are realizing more clearly that the interests of all are best subserved by the underlying principles of the A. F. of L., and that their autonomy and independence is safe at the hands of and best promoted by affiliation with the A. F. of L. We want to make the trade union movement under the A. F. of L. as distinct as the billows, yet one as the sea.

THE JEFFERSON BORDEN MUTINY.

I regret to be compelled to report that the two seamen E. W. Clark and Geo. Miller confined in prison at Thomaston, Me., on the charge of mutiny, are still incarcerated. It is nearly two years since the first effort to secure a pardon for these unfortunate men was inaugurated. Delegations have waited upon the President of the United States and petitions presented for the extension of executive clemency to them, but thus far no answer has been given to the appeal.

The provocation given these men for their act amounted almost to self-defense. Certain it is that no good purpose can be served by longer depriving them of their liberty, and I would urge a continuance of the effort to secure their release.

PACIFIC COAST.

It affords me pleasure to be able to report to you that the agreement arrived at at the Birmingham convention between the Trade Unions on the Pacific Coast and those of the other portions of our country has averted the disaster to which your attention was called and has resulted in a unification where division, antagonism and disaster threatened. Not only have the Unions which were at variance with each other united, but others which were previously isolated on the Coast have now entered into fraternal bonds with those in the East.

WOMAN ORGANIZER.

Acting upon the instructions of the last convention, the Executive Council appointed a woman organizer, who devoted her entire time for five months in the work of organizing our sisters of labor. The work accomplished was rather missionary in its character, the full fruits of which are but now being realized. It remains with you to say whether this work shall be further prosecuted. I take this opportunity of commending the fidelity and worth of the woman selected by the Council—Mary E. Kenny.

LABOR DAY.

I would again recommend the advisability of urging our General Government to pass a law declaring the first Monday in September a legal holiday in the territories and districts under its jurisdiction, in order to be in harmony with the people of our several States.

BOYCOTTS RAISED.

I am pleased to be able to inform you that we have succeeded in unionizing all the breweries of Milwaukee, Wis., and Cincinnati, O., and many other places. The Executive Council in compliance with the request of the Journeymen Brewery Workmen's National Union have declared the boycott off their product. The efforts of our fellow unionists to secure these victories for the brewers' union is worthy of commendation. Union men should patronize union employers under all circumstances.

CHINESE SAILORS.

Congress some time ago granted subsidies to the Pacific Mail Steamship Co., and incorporated a provision that the seamen employed by the company should be American citizens. The Company in question has since violated this provision of the law by employing Chinese sailors.

I would recommend this convention would enter its most emphatic protest against the supplanting of our American sailors by the Chinese, and call upon the President of the United States, either to compel the Company in question to abide by the provisions of the law, or to withdraw the subsidy granted.

FARM LABORERS.

It is with some degree of pride that I report to you the organization of a Farm Laborers' Union and its representation by a delegate at this convention. It has been the hope entertained by us that a movement to organize the wage-working farmers might be inaugurated to protect them from the evil conditions inseparable from their lack of organization.

It would not be amiss for this convention to take some definite action with a view to extending the advantages of organization to this branch of labor.

THE K. OF L. PROPOSITIONS.

In obedience to the unanimously adopted instruction, the counter proposition to those submitted by the K. of L. were transmitted to the General Officers of that Order, accompanied by a courteous note suggesting that a conference might be held to discuss their original and our counter propositions.

The officers' answer was discourteous and insolent. Since then we have heard nothing in reference to the subject matter.

It is not amiss to call your attention to the expressed desire contained in the K. of L. propositions to avoid and terminate the "unfortunate and regrettable differences" existing between them and our unions and compare these expressions with their acts. They made propositions, and when we refused to adopt a code in which we had no voice or vote in framing, and adopted and submitted others for their consideration, they refused to consider the subject further, in the light and upon the basis of both propositions. Apart from the petty and great antagonism shown by the officers of that order (occurring so frequently that they cause comment no longer), the chief officer recommended to its last convention that the coal miners sever their connection with their brother coal miners organized under the banner of the United Mine Workers of America. This officer assumes that because some miners are Knights of Labor and the other miners are organized in trade unions they must therefore have different and diverse interests. Upon no other ground is his position tenable.

We declare that the trade unions are the natural organizations of the wage workers; that, despite all antagonism, whether from capitalist foe or pseudo friend, they will continue to grow in strength and influence, and secure those improvements in the toilers' condition, and work out those reforms and changes in our present to a more humane industrial system it is their mission to fulfill.

GENERAL ORGANIZERS.

I have frequently called attention to the excellent services rendered to our movement by the General Organizers of the A. F. of L., and commend to your consideration that portion of the report of the Secretary upon that subject, since it embodies by views thereon.

CONCLUSION.

In conclusion I take this opportunity of expressing my keen sense of obligation to my colleagues of the Executive Council for their valuable co-operation and advice. Through trying times and critical periods they have always performed their duties unflinchingly, their honesty and devotion never in question.

For the uniform courtesy accorded me by officers and members of the trade unions of the country I have the highest appreciation and for which I return my sincere gratitude.

In the performance of my duties I have always endeavored to conscientiously carry out not only your expressed but also your implied wishes. That which has prompted my course has always been the hope of being of some use to my fellow man, to help them attain that end by which they could help themselves. The horizon of labor may seem overcast but it is only the shadow of a cloud which will pass away and in the broad mid day of life the sun's full rays of hope shine radiantly forth on the brows of a people made nobler and greater and more humane by their energy, perseverance and self-sacrifice.

The reading of the report was attentively listened to and heartily applauded.

Upon motion it was referred to the appropriate committee.

The time for the special order having expired the following was read:

WHEREAS, It having come to our knowledge that the Directors of the World's Columbian Exposition are about to let the contract for the large and important work of printing the Catalogue for said Exposition; and

WHEREAS, We are led to believe from published accounts in the daily press that it is contemplated to let the said contract to a non-union Chicago firm; and

WHEREAS, The Chicago Typographical Union has displayed the most friendly spirit toward the World's Columbian Exposition, and

was the first body of organized labor to purchase stock in the World's Fair Company; therefore be it

RESOLVED, That the American Federation of Labor, also friendly to the Fair, earnestly protest against the awarding of the above contract to any but a recognized union office.

Delegate Morgan moved to strike out "union" and insert "fair."

Lost.

The original resolution was then adopted.

The Secretary was instructed to immediately send a dispatch to Chicago on the action taken.

Secretary Evans then read his report, which was warmly received, and on motion referred to the proper committee.

SECRETARY'S REPORT.

To the Officers and Delegates of the Twelfth Annual Convention of the American Federation of Labor:

Fellow-Workmen.—As representatives of the Trade Union movement you are called together again for the purpose of exchanging views, and by concentration of thought try to improve the condition of the wage-workers, in whose interest the American Federation of Labor was organized.

The duties devolving upon you are of great importance to the constituents you represent, and let us hope that their confidence has not been misplaced.

In presenting my annual report to you I do so with some degree of pride, as the work done during the past year has been very gratifying and will mark the pages of future history as a step forward and in the line of reform. In accordance with constitutional provisions, financial detailed reports have been published every quarter, and sent to all unions affiliated.

During the year commencing November 1, 1891, and ending October 31, 1892, 277 charters have been issued, including Local Unions, Central Bodies and State Federations, in 32 States of the Union. The following table will show the number of charters granted in each State:

Alabama	2	Michigan	17
Arkansas	4	Missouri	25
Colorado	11	Montana	2
California	6	Minnesota	2
Connecticut	2	New Jersey	3
South Dakota	1	New York	11
Florida	1	Ohio	38
Georgia	1	Oregon	1
Indiana	33	Pennsylvania	7
Illinois	33	Rhode Island	1
Kansas	3	Texas	1
Kentucky	4	Tennessee	7
Iowa	4	Virginia	1
Louisiana	30	West Virginia	1
Massachusetts	13	Washington	3
Maine	2	Wisconsin	7

In addition to the above 8 charters have been issued to National Unions, making a total of 285 for the year, the largest number of charters that have been issued during any one year since the American Federation of Labor has been organized. The National Unions affiliated

have also received through the office of the American Federation of Labor 37 charter applications, an item well worthy of consideration, since it demonstrates the interest that has been manifested by our organizers in the various cities of the country, and the value of their aid to National Unions, in organizing locals that the officers themselves are unable to reach.

Another important feature is that this work has not been confined to National Unions affiliated, as many letters have been received from our organizers informing us that they have organized local unions and sent the applications for charters direct to the officers of the National Union of their respective trades, showing conclusively that the advancement of trade unionism has been the only object our organizers have had in view.

Great credit is due them for their self sacrificing efforts in trying to build up the Trade Union movement regardless of time and money, which must necessarily have been required without any prospect of return, other than the satisfaction of their loyalty to the cause they are so deeply interested in.

I call your attention to this feature of the work in order that all National Unions may take advantage of it, as it has rendered very valuable aid in the past, and the general movement will be greatly benefited if it is enlarged upon in the future.

On Nov. 1, 1891, \$4,328.30 was in the treasury from assessments, and \$3,828.06 in the general fund.

During the year \$72.00 have been received from donations and \$70.00 for assessments, making a total for donations and assessments received of \$4,470.30. Out of this amount \$22.00 has been donated to the Cotton Mule Spinners' Association, \$1,500.00 has been loaned to the International Furniture Workers' Union, \$500.00 to the Tanners and Curriers' International Union, \$500.00 to the Furriers' International Union, \$500.00 to the Quarrymen's National Union, \$500.00 to the German American Typographia, leaving a balance in the treasury of \$948.30 from donations and assessments and \$6,717.88 in the general fund, an increase over that of last year of \$2,889.82.

On March 30, 1892, General Secretary P. J. McGuire, of the United Brotherhood of Carpenters and Joiners of America, made application to the Executive Council for a loan of \$2,500.00 for the purpose of assisting the members on strike in several cities of the country where the Brotherhood was trying to prevent a reduction being made in the hours of labor, with the understanding that the loan would be returned in sixty days. The Executive Council granted the loan and at the expiration of the time the money was refunded as per agreement.

In the Pittsburgh Printers' injunction cases there is an outstanding liability of \$850.00 to the attorneys, the same being the balance of their fee of \$1,500.00 from the A. F. of L.

In accordance with this agreement \$650.00 has been paid to attorneys Patterson & Stillwagon, and the balance \$850.00, still due them, will be paid when the case has been decided by the courts.

I beg to call the attention of the delegates to the first four lines of Section III, Article X, of the Constitution, which reads as follows:

"Sec. 3. Any seven wage-workers of one trade of good character, and favorable to Trade Unions, and not members of any body affiliated with this Federation, who will subscribe to this Constitution, shall have the power to form a local body, to be known as a 'Federal Labor Union.'"

I would recommend the striking out of the words "of one" in the first line after the word "workers" and insert the words "following any," so that Federal Labor Unions may be organized in accordance with the original idea which called them into existence.

In looking over the work of the past year we find that several of the National and Local Unions affiliated have had a very difficult task to surmount through the obstacles that have been placed in their way. In several instances unscrupulous employers aided by unjust laws have taken advantage of the situation, and no time has been lost by them to use the unemployed workmen who are so numerous in almost every trade to carry out their will. I hope some move will be made at this convention to reduce the number of unemployed men by still agitating a reduction in the hours of labor in all trades where it is possible to do so, and remove this standing menace to workmen and the trade union movement.

The work of the future is by no means easy for men who are bent upon reform. It is not sufficient for us to say that we have done our part towards bringing about a better order of things for the wage-earner. Every friend of labor who, has increased his knowledge by experience should make further research, and when a wrong is imposed fight it down with all the legal forces at command.

Reforms will come when the battle for Justice is fought on equitable grounds between the employer and the employed, and every effort should be put forth to prove to the world that the day laborer is entitled to a reasonable share of the good things this world affords, and a better share than he who is not willing to either toil or spin. He is a very large producer, but his profits are small and his company in society is sought for less.

Make him what he is entitled to be; place him on a loftier plane among men; let him think and act for himself and then he will be respected by others.

Respectfully submitted,
CHRIS. EVANS, Secretary.

Treasurer Lennon submitted his report, which was referred to the same committee.

SECOND DAY—Afternoon Session.

December 13, 1892.

Convention called to order with President Gompers in the Chair. Roll call and the following absentees noted: Pommer, Kurzenkabe, Jennings, Thom, Hauston and Norton.

Minutes of the morning session read and approved.

President Gompers announced it was in order to hear from the Committee on President's Report, on Homestead Day. The Committee reported as follows:

HOMESTEAD DAY.

To Officers and Delegates:

Inasmuch as our Executive Council has designated this day as "Homestead Day" and, as the people of our country are invited to contribute a portion of their earnings of this day to the proper defence of those of our fellow unionists of Homestead, who are indicted and imprisoned for the assertion of their manhood rights and noble resistance to the onslaught of organized capital, and as the American Federation of Labor has taken the initiative in this matter, therefore your Committee on the President's Report beg leave to suggest that the day

should be appropriately observed by this Convention, and recommend that the sum of \$1,000.00 be donated from the funds of the A. F. of L. for the purpose herein stated.

MARTIN FOX, Chairman,
CORNELIUS C. MCGLOGAN,
SAMUEL GOLDWATER,
JAMES F. MELAVEN,
H. J. SKEFFINGTON, Secretary.

An amendment was offered to add that the delegates of this Convention open a collection for the fund of the Homestead Strikers.

The delegates expressing their preference to make their contribution through their respective unions, the amendment was lost.

After considerable discussion the original motion to donate \$1,000.00 was unanimously adopted.

On motion the sum of \$500.00 be appropriated from A. F. of L. to aid men who struck work to aid the iron and steel workers, the money to be expended through the Homestead Relief Fund of the Amalgamated Association.

Delegates Carney and Weihe, by request, spoke on the Homestead strike, and on motion were allowed unlimited time to thoroughly make their statements.

Motion that the question before the convention be postponed. The ayes had it and a division was called for, which resulted 38 ayes, 36 nays.

A sufficient number demanding a roll call, it was ordered with the following results: ayes 1,186, nays, 946, and by general consent was made unanimous.

It was then moved that \$500.00 be donated to the Coeur D'Alene Coal Miners from the A. F. of L.

Carried.

Delegate Todtenhausen moved the sum of \$500.00 be donated to Tennessee Miners towards their defence fund.

On motion, Mr. Penna discussing the Tennessee Coal Strike, was allowed extension of time.

On motion, the rule providing for the time of adjournment was suspended and the session continued until the subject before the Convention was settled.

Carried.

Delegate Weissman was allowed an extension of time while debating the subject.

A motion to refer the subject matter to Resolution Committee was lost. On a call being made for the previous question a vote was taken and agreed to; and the motion to donate the \$500.00—carried.

The question having been disposed of at 7:10, the Convention adjourned to meet at 9 A. M., Wednesday, December 14, 1892.

THIRD DAY—Morning Session.

December 14, 1892.

Convention called to order, with President Gompers in the Chair.

Roll called and absentees noted.

Minutes of previous meeting read and approved.

The Committee on Credentials reported favorably on the following delegates:

On resolution No. 21, from Metal Polishers' National Union on factory laws, the Committee on Resolutions offered the following substitute:

RESOLVED, That the A. F. of L. reaffirm its belief in the need of efficient factory inspection laws and the enforcement of the same. That we favorably commend the efforts of the Metal Polishers' International Union to make their employment more healthful by the introduction of fans and blowers to be used on dust-creating machinery.

RESOLVED, That we urge all affiliated unions to renew their efforts for the enactment of factory inspection laws and the enforcement of the same.

Adopted.

On the protest of Brother Morgan against the admission of Holyoke, Mass., Branch of International Association of Machinists in State Branch of A. F. of L., also his protest against the Sewing Machine Workers of Cleveland, we recommend they be referred to incoming Executive Council for investigation and action.

Respectfully submitted,

FOURTH DAY—Morning Session.

December 15, 1892.

Convention called to order with President Gompers in the Chair.

Roll called and absentees noted.

The minutes of previous day's session read and approved.

Communications from International Association of Machinists, read and referred to Committee on President's Report.

Communication from Peace Society sending greetings. Received and ordered answered by the President.

Committee on Credentials reported the name of Ed. L. Daley as a substitute for Delegate Ed. McSweeney. The report was accepted and Brother Daley admitted to fill the vacancy.

A communication from Mrs. Sarah T. R. Eaverson, President of the Philadelphia Peace Society, tendering good wishes for the success of our movement and urging that labor disputes be adjusted by arbitration was read, noted and filed.

The Committee on Secretary's Report submitted the following:

To the Officers and Delegates of the American Federation of Labor:

Gentlemen—Your committee to whom was referred the Secretary's Report, have carefully read and discussed the same and unite with the Secretary in congratulating the Federation on the work accomplished during the past year in the line of organization, education and reform. We unanimously recommend the adoption of the report.

In former years complaint has been made that the Secretary's Report did not make recommendation to this body, but the work of the Secretary during the past year has been more in the way of practical endeavor to carry out the expressed wishes of the Executive Council and his endeavors have been so successful as to meet the approbation of this committee, and we believe of the American Federation of Labor.

The Secretary's recommendation that the first line of Sec. 3, Art. 10, of the Constitution should be changed, has been reformulated by the committee and is presented to your consideration as follows:

"Any seven wage-workers of good character, following any trade," etc., and we recommend its adoption as amended.

To this committee have been referred the resolutions of three affiliated bodies, those of the International Furniture Workers' Union of

America, Quarrymen's National Union and the Tanners and Curriers' Union of America.

These resolutions are similar in character and ask for the cancellation of loans made to these organizations in their recent times of trouble. The amounts involved are \$1,500.00, \$500.00 and \$500.00 respectively, and your committee, after a careful hearing of the circumstances surrounding their struggles, recommended favorably the applications of these affiliated bodies.

Your committee, however, believe that some definite law and limitation should be placed upon the subject of loans to affiliated bodies, and recommend that the Committee on Laws be instructed to formulate a law governing the action of the Executive Council in reference to the matter of loans and donations to unions in times of strikes.

Respectfully submitted,
R. M. CAMPBELL, Chairman;
P. H. PENNA,
J. E. COUGHLIN.

Moved to take up the committee's report and consider it *seriatim*.

Agreed to.

That portion of the committee's report dealing with the finances was concurred in.

The recommendation to amend the Constitution was referred to the Committee on Law.

The committee recommended the cancelling of the following loans: \$1,500 to the International Furniture Workers' Union, \$500 to the Quarrymen's National Union, and \$500 to the Tanners' and Curriers' National Union.

After considerable discussion the previous question was called and the roll-call demanded on cancelling the loan of \$1,500 to the International Furniture Workers, which resulted as follows:

Ayes—Skeffington, Towne, Anderson, McGuire, Linehan, Longsdon, Reichers, White, Valentine, Carney, McSweeney, Penna, Morgan, McLaren, Foster, Melavan, McCarthy, Duffey, Crouse, Van Buren, Dummat, Thom, Brandt, Hanston, Norton, Kenney, representing 955 votes.

Nays—Meyers, Weissman, Skeffington, Kurzenkabe, Carl, Lordon, Valesh, Goldwater, Dold, Strong, Miller, Guntner, Payne, Meisel, Fox, Weihe, Hatton, Marden, McBride, Pierce, Crawford, Mengle, Eikhoff, Byron, McLaren, Lennon, Todtenhausen, Lappard, James J. Dalv, Prescott, Campbell, McIntyre, Spaulding, Will, Hoop, Bandlow, Young, O'Brien, Eppley, Duncan, Elderkin, Rhodes, McGlogan, Coughlin, Nathan, Manning, Iden, Murray, Pritchett, J. A. Campbell, Callahan, Schmid, Johnson, Vaughn, Jessup, Tanner, Robinson,

Clancey, Jennings, Jeffreys, Cessna, representing 1,112 votes.

The Committee on Secretary's Report stated that they did not intend to recommend the cancellation of the loans, but "that their cancellation be favorably recommended to the Executive Council."

The Chair decided that the report as made by the committee was before the house, and not anything they intended but omitted.

Delegate Prescott moved as an amendment that the matter of the loans to the International Furniture Workers' Union be referred to the incoming Executive Council.

Lost by a vote of yeas 21, nays 26.

Moved that the vote on cancelling loan of International Furniture Workers' Union be reconsidered.

Motion agreed to.

Moved that the entire matter of the cancellation of loans be favorably recommended to the consideration of the incoming Executive Council.

On a call of the roll being made the recommendation was agreed to by a vote of yeas 1,105, nays 1,089.

Report of committee continued.

On the question of future loans as recommended by the committee, it was on motion referred to the Committee on Laws.

The report of the committee as amended was then adopted as a whole.

It was moved that after the reading of the minutes of the morning session fifteen minutes be allowed for the introduction of resolutions, and that no further resolutions be introduced without unanimous consent.

Agreed to.

Communication 66, which was a complaint from Carpenters' Union No. 50, of Portland, Oregon, and handed in by Delegate John O'Brien, by request, charged President Gompers with improperly deciding a matter between the union carpenters employed upon the buildings of the World's Fair and the World's Fair Directory. The document urged that President Gompers be not re-elected, in the interest of harmony with the K. of L.; and also complained that in consequence of President Gompers' actions the relations between the United Brotherhood of Carpenters of America and the A. F. of L. were strained. It further demanded that a man be re-elected President who did not reside further East than Cincinnati, Ohio.

The above document had been referred by a vote of the Convention to the delegates to the Convention of the United Brotherhood of Carpenters and Joiners, who submitted the following report:

Philadelphia, Dec. 1st 1892.

To the Convention of the A. F. of L.:

Fellow Workers: The Carpenters' delegation in this Convention, to which you have referred a document from Carpenters' Union No. 50, of Portland, Oregon, beg leave to report as follows:

The above document contains two points worthy of our notice and bearing on the Carpenters' organization.

First, the statement that the Brotherhood of Carpenters and Joiners were discontented with the past progress or the present standing of the American Federation of Labor.

We most emphatically deny that any such sentiment exists, and do not consider it necessary to prove such to this Convention.

In regard to President Gompers' visit to the World's Fair grounds at Chicago and his subsequent action in the matter pertaining to the carpenters working thereon;

We beg leave to state that from an intimate knowledge of the facts in the case the decision of President Gompers was entirely satisfactory to the carpenters of the city of Chicago, so much so that when within the last few months some of the carpenters working in the World's Fair grounds desired to go on strike the Carpenters' Council, acting as executive head of the carpenters of that city, most emphatically refused to support any such strike, they considering that there was not sufficient grievance.

In the face of these facts we can only report that, in our opinion, Union No. 50 has been misinformed in regard to the action of the President and working of the A. F. of L.

JAMES J. LINEHAN,
P. J. MCGUIRE,
R. C. LONGSDON,
L. R. CARL,

U. B. Carpenters and Joiners' Delegates.

REPORT OF GRIEVANCE COMMITTEE.

On admitting W. E. Wilkes to a seat in this Convention, representing I. B. of Machinery Molders. After a thorough investigation we find that the organization which W. E. Wilkes represents was a seceding one from the parent body, and that the Executive Council had refused to recognize them according to their by-laws, etc., of the A. F. of L., and that they still stand in the same light and are not affiliated with the A. F. of L.

And we learn from the officers of the Iron Molders of N. A. that they have made every concession to the other body, even allowing that all shall come under one banner and elect new officers and bury all past differences.

Therefore, we recommend that W. E. Wilkes' credentials be rejected, believing it detrimental to the labor movement as represented by the A. F. of L. to divide the forces of labor as in this case.

THOMAS J. ELDERKIN,
L. R. CARL.

Report of committee concurred in.

The following resolutions were introduced and referred:

Resolution 115, on Fleischmann's yeast boycott, to Committee on Labels and Boycotts; 116, on compulsory education, 117, on appeal for Cigarmakers' label, 118, on special session of Congress, 120, on coöperage boycott, 121, on women's franchise, 122, on foot power machinery, to Committee on Resolutions; 118, on immigration, to Committee on President's Report.

The hour of 12:45 having arrived, the morning session of the Convention adjourned.

FOURTH DAY—Afternoon Session.

December 15, 1892.

Convention called to order by President Gompers.

Moved that the roll call be suspended.

Carried.

Moved that the reading of the minutes of each morning session be dispensed with, and the minutes of each day shall be read the following morning. (Agreed to).

No. 132, on Granite Cutters, referred to Executive Council.

No. 133, Increased representation of State Branches, referred to Committee on Laws.

Committee on President's Report then submitted the following report:

To the Officers and Delegates:

Your Committee on President's Report beg leave to report the organization of the committee by the selection of Martin Fox as Chairman, and H. J. Skeffington, as Secretary.

We heartily endorse and approve the sentiments expressed in the President's Report as contained under the heading: "A Review of Recent Events." Also the resolution of Representative John O'Brien, and recommend that the incoming Executive Council use every effort to have the Congress of the United States make a special investigation into the causes which led up to these strikes and the action and attitude of the judiciary in the same. That portion of the report which deals

with the use of the militia in these troubles has been referred to the Special Committee of Nine.

"Shall we change our methods?" We fully agree with the President that no great change of method on the part of this Federation of Labor is necessary to meet the new weapons of capital; but, that greater effort in the direction of the improvement of the trades unions on financial lines and a more vigorous concentration of our moral force in the use of the Trades Labels of the various trades should be made. Special efforts should also be made to centralize the many divisions of the several trades into compact unions. The use of the franchise as suggested receives our approbation; but, as many documents bearing on this point have been submitted and referred to the Committee on Resolutions, we leave the more elaborate details to them to report.

EIGHT-HOUR LAW.

Your committee are indebted to Brother George E. McNeill for this portion of their report.

We believe with the President in an aggressive movement for the eight-hour day.

The concentration of power in the hands of the employing classes, consequent upon the co-operation of the capitalists for the reduction of the cost of manufacture and management and for an increase of profit, must be met by the wage-workers with a concentration of energies and the direction of efforts against the most vulnerable place in their citadel of power.

Capital is entrenched in the habits, customs and prejudices of society as well as in statute law.

Under the persistent attacks of organized labor, it has retreated backward and backward until it has reached its last line of fortifications.

Through its massive walls we see the terrible engines of its destructive power.

Before it stands the army of labor. As the Haytian black chief standing on the mountain side was looking down on the flower of the army of France he was asked by his followers, "Where are our arms?" "There, in the hands of your enemies?" he answered. Then down the mountain side rushed the bare-breasted hosts of black men, on and on, reckless of the leaden storm that cut them down in death; over prostrate forms, securing the arms of their routed enemies. The black chief was justified, for it was his only course of action; but the man who would seek to lead Labor's hosts to such unnecessary and unprofitable sacrifice is worthy only of contempt.

Labor, armed with patient persistence, can overcome all hostile forces in the future as in the past. The feudal baron is no more. Step by step we have moved onward to victory, rescuing the child from the mill and the mine, securing to ourselves more of the hours of sunshine, more and more of the wealth we produce.

The eight-hour movement means cutting off the supplies of the enemy and the increase of our own. The clouds of superstition that

blinded our eyes are passing away in the dawning light of improved opportunity.

Habits of thought that cast a halo about capital are changed into a realization of the fact that the seeming effulgence was the malarial mists of our vision.

We stand face to face with the present, looking forward, not backward. We recommend an aggressive agitation of the eight-hour movement by the sending forth of men competent to proclaim the philosophy of the movement and feel the inspiration of its holy purpose, and by the circulation of tracts and papers upon the question. That we recommend an aggressive organization of the forces of union men, the special equipping and drilling of some one or more trade unions to lead in the next eight-hour battle, and that the affiliated bodies be requested to begin to set aside for this purpose such a sum of money per capita as the incoming Executive Council may deem practicable, to the end that when an opportune time shall come the Executive Council shall be ready for action.

SEMI-MONTHLY PAYMENTS.

We concur in the recommendation of the President that the incoming Executive Council should be directed to make a test case of this matter, and recommend that the Council be so instructed.

ALIEN CONTRACT LABOR.

Your committee are painfully aware that the present "Alien Contract Law" is deficient and constantly evaded, and we therefore heartily concur in the amendments offered by the President, and recommend that the incoming Executive Council pay special and particular attention to this matter and, if their duties prevent, we also recommend that some proper person be selected by them to give the needed attention to it.

IMMIGRATION.

Your committee have carefully considered this question, and find that the Birmingham Convention appointed a special committee to consider it, and we can only reiterate the conclusions of said committee as follows:

We know this question requires considerable thought and study, as it is of great importance to the working people of this country; we heartily indorse the recommendation of President Gompers in the matter of having one officer of the General Government whose duty it will be to control all immigration, and see that the laws are more earnestly carried out.

RESOLVED, That the Executive Council be instructed and directed to use every effort in their power to secure such legislation as will restrain and restrict all artificially stimulated immigration, and that absolute prohibition of the landing of all contract and assisted emigrants, whether from Europe, Asia or the Canadian Provinces, to the end that the level of our civilization shall not be lowered.

WORLD'S FAIR CLOSING.

We regret that Congress closed the World's Fair on Sunday in the face of the protest of the working people of the country and heartily indorse the position of our President on this subject. We recommend that the bill now before Congress known as the "Dushorrow Bill," being House Resolution No. 168, be indorsed by this Convention, and that the incoming Executive Council be instructed to use every

effort to have said bill passed. We also recommend that the President be directed to immediately communicate the action of this Convention on this matter to Congress.

LOAN ASSISTANCE.

Your Committee deem it inexpedient to create a loan system in connection with the A. F. of L.

OFFICIAL JOURNAL.

Recent events in the industrial world proves the great necessity of an Official Journal, and we heartily indorse the recommendation of the President, and we recommend that the incoming Executive Council be and are hereby empowered to make all necessary arrangements and to advance such funds to this object as their judgment may dictate.

PRINTERS' INJUNCTION PROCEEDINGS.

We indorse the action of the Executive Council on this matter.

LABOR CONGRESSES.

No special committee having been appointed as suggested, your committee have given the matter careful consideration and are of the opinion that this Federation has gone too far now to recede, and any retrograde step at this time would prove disastrous. We therefore recommend that the Constitution be so changed as to admit of the holding of the next Convention of the A. F. of L. during the last week in August, 1893, the exact date to be selected by the Executive Council. We also recommend that two representatives be selected by the Executive Council to visit the trades unions of Europe, and that a suitable person be employed by them to make the further necessary arrangements for the holding of the Congress, all of whom shall be under the direction of the Executive Council.

THE JEFFERSON BORDEN MUTINY.

We regret that the voice of labor has not been heeded in this matter, and we recommend that the Executive Council exert renewed efforts in their behalf.

WOMAN ORGANIZER.

Your committee agree that the work of the woman organizer has proven beneficial, and we recommend that the incoming Executive Council be empowered to continue the same whenever they deem it necessary.

LABOR DAY.

We recommend that the incoming President issue an address to all affiliated unions and urge upon them to petition their Congressmen, on a day to be designated, to make Labor Day a legal holiday in the Territories and District.

CHINESE SAILORS.

Your committee concur in the recommendation of our President, and we recommend that the Secretary immediately notify the President of the United States of the action of this Convention on this matter.

FARM LABORERS.

We feel pleased that our Executive Council have given such careful consideration to

the farm laborers with such good results, and we recommend that their efforts in this line be continued.

THE KNIGHTS OF LABOR PROPOSITIONS.

Your committee indorse the action of the Executive Council in regard to a conference with the general officers of the Knights of Labor on the proposition and counter proposition as considered and adopted by the last Convention of this Federation.

We declare it to be the highest duty of all our affiliated unions to concentrate their efforts in defense of those unions in affiliation with us which may be selected as victims of attacks at the hands of the Knights of Labor, and we recommend that the incoming Executive Council be instructed to make such arrangements on this line as may be necessary.

CONCLUSION.

Your committee recognize that each succeeding year the work imposed on the Executive Council becomes greater and the burdens harder to bear. It is, therefore, with much gratification that we recommend that a unanimous rising vote of thanks be extended to them for their unswerving fidelity to the trust reposed in them.

Fraternally submitted,
MARTIN FOX, Chairman,
CORNELIUS C. MCGLOGAN,
JAMES F. MALAVEN,
SAMUEL GOLDWATER,
H. J. SKEFFINGTON, Secretary.

Minutes of previous days session read and approved.

The President stated that the question before the convention on adjournment of previous day was "Shall an International Trade Union Congress be held in 1893?"

The ayes and nays were called and the resolution was lost.

Moved that the subject matter be recommended to the Committee on President's Report.

Agreed to.

The committee, in anticipation of the action of the Convention, had the following resolution already prepared:

WHEREAS, It appears that arrangements have been made for at least two Labor Congresses in other sections of the world, thereby making the success of an International Labor Congress in America in 1893 highly improbable:

RESOLVED, That we deem it inexpedient to hold a Congress in America at this time. Adopted.

The Convention proceeded to consider the remaining portions of the report of the Committee on President's Report, on Jefferson Borden Mutiny, Woman Organizer, Labor Day, Chinese Sailors and Farm Laborers.

Agreed to.

ON K. OF L. PROPOSITIONS.

Delegate Foster moved as a substitute to the committee's report that the action of the President and Executive Council as to the K. of L. be endorsed.

After considerable discussion the previous question was called and agreed to and the report as amended concurred in.

On General Organizers. Adopted.

Conclusion:—On thanks to and appreciation of President's work, concurred in by a rising vote.

The report was then adopted as a whole as amended.

REPORT OF SPECIAL COMMITTEE OF NINE ON MILITIA.

The special committee of nine on militia then reported as follows:

Mr. President and Delegates:

The special committee of nine, to whom was referred the several resolutions bearing upon the employment of the militia and irregular armed bodies, and also the standing army of the United States, in the recent labor troubles, beg leave to report that the said committee have had the subject matter in connection with the several resolutions referred to it under careful consideration, and find that the power designed to rest with the masses of the people, as expressed in the Constitutions of the National and State Governments and the statute laws for the protection of life and property and to carefully guard the rights and liberties of the people, has been diverted from the purposes of their authors, and that the masses have lost the powers guaranteed to them, and that those powers have been usurped by

large corporations. The calling out of State and National troops as well as irregular armed bodies has been done on the solicitation and instigation of corporations. The power that has departed from the masses has been absorbed by the corporation, and unless a halt is called it will not be long before Liberty gives place to despotism. Since the recent uses to which troops have been subject have been brought about by allowing the people unchallenged to surrender their power, we therefore believe that herein lies the vital point of our grievances; and in order to keep, maintain and perpetuate our rights we recommend in accordance with the demands of the numerous resolutions upon the subject, the following propositions for your consideration:

That the A. F. of L. and its affiliated bodies demand of their respective Legislatures the enactment of laws embracing one of the following propositions which in their judgment may seem the most advantageous. First, they shall create a Board of Commissioners (to be elected by the people,) consisting of as many members as there are Congressional districts in the State. Each member shall be elected by the Congressional district in which he resides. The said Board of Commissioners, after investigation of the difficulties, shall in conjunction with the Governor have sole power to call out the militia in cases of labor troubles or strikes. Or second, that in cases of labor difficulties it shall be unlawful for the Governor to call out the militia for the suppression of the same, except upon a petition signed by at least one-fourth of the qualified voters of the country wherein the trouble may exist.

We further recommend as a remedy for the employment of Pinkerton or other armed forces, that we demand the enactment of laws by the several States of the Union prohibiting non-residents from serving as peace officers.

Mr. President, your committee recommends the following upon membership in the different militia companies in the country, that the A. F. of L. and its affiliated bodies should refuse under any circumstances to permit any member to enlist in the National Guard of any State, and that the members now enlisted be requested to withdraw as soon as they can lawfully do so, unless one or the other of the propositions herein proposed are embodied in the State laws.

Moved to adopt the report of the committee. Moved to amend that the matter lay over till afternoon session. Lost.

Moved rules be suspended and remain in session until the matter is disposed of.

Pending the discussion the hour of 12:45 having arrived, the President declared the convention adjourned until 2:15 P. M.

FIFTH DAY—Afternoon Session.

December 16, 1892.

Convention called to order with President Gompers in the Chair.

Roll call and absentees noted.

Unanimous consent having been obtained, the order of business was suspended to allow the resolutions ordered at the Birmingham, Ala., Convention to be presented to George E. McNeill.

The President appointed Delegates Morgan and Todtenhausen to escort Brother McNeill to the platform. President Gompers read the resolutions which were artistically engrossed and beautifully framed. They read as follows:

TESTIMONIAL TO GEORGE E. McNEILL.

Tendered by the American Federation of Labor to one whose heart and brain are woven in the warp and woof of the cause of labor for all time to come. In need of faithful service freely given as a pioneer in the rugged pathway of labor reform; in gratitude to him who stood in the very vanguard for the eight-hour day; in recollection of wise counsel given in the hour of storm and stress; in honor of courage shown in the days when to be a labor reformer was to dare all social ban and public sneer; in memory of buffets borne and privations endured for humanity's sake—this tribute is affectionately dedicated, joined with the earnest wish that he who stood for the truth under starless skies may be spared to see the full dawn of the day which shall usher in the emancipation of labor.

Presented at Independence Hall, Philadelphia, Pa., on the occasion of the Twelfth Annual Convention of the American Federation of Labor at Philadelphia, Pa., December 12, 1892.

Per order of the Eleventh Annual Convention of A. F. of L.

In connection with the presentation, the President expressed the good will of the delegates to Brother McNeill in a few well-chosen remarks.

In acknowledging the token of regard, Brother McNeill's feelings were so full of emotion that he was unable to express himself as he desired. After recovering somewhat he spoke of the great work the Federation had done and was performing for the amelioration and emancipation of labor. He called attention to existing constitutional and statutory laws which should be taken advantage of in the near future in the interest of the people. He then eloquently and feelingly expressed his gratitude to the A. F. of L. for their fraternal and cordial act. He accepted the testimonial in the name of the unnamed, unknown and un-

honored dead who stood and fell for the cause of labor.

The incident throughout was intensely interesting and impressive.

The regular order was resumed on report of special committee of nine of Militia.

Delegate Morgan amended committee's report as follows:

That the force necessary to the proper constitutional use of the Militia lies in labor representation in the legislative and administrative departments of the respective States, hence, we urge the working classes, to see to it that members and friends of the working classes and not the agents of monopoly shall command the military and other departments of our State and National Governments.

Amendment agreed to.

The entire subject matter was discussed on its merit at great length.

Report as amended was then agreed to unanimously.

Delegate Ed. L. Daily moved to suspend rules and elect officers at 4:50 this P. M. and remain in session until the election is over.

The motion was tabled.

Moved to suspend rule and delegates shall speak no longer than three minutes.

Upon roll call the motion was lost.

The Special Committee to recommend a Sinking Fund reported as follows:

To the Delegates of the A. F. of L.:

Fellow Delegates—We, your committee, have carefully considered the question submitted to us, and have agreed unanimously that some steps tending to the establishment of a financial system enabling the A. F. of L. to assist in a substantial manner such affiliated body or bodies as are contending for the principle of trades unions and against the ravages of capital.

We, the committee, therefore recommend the following proposition, hoping that the same will be carefully considered, and that this body will adopt if not this some other plan tending to bring about this result.

1. That a sinking Fund to the amount of \$500,000 be established, the same to be used in strikes and lockouts of organizations affiliated with the A. F. of L., subject to such laws and regulations as may be enacted by the A. F. of L.

2. The creation of such sinking Fund shall be accomplished by assessments levied upon all affiliated organizations of the A. F. of L. in equal proportion to their membership.

3. The Executive Council shall, upon the 1st day of August, 1893, issue to all affiliated bodies a circular letter (embodying their laws) and notifying the various organizations of the amounts that they are entitled to pay under these laws.

4. The Executive Council shall base the estimate of the various amounts upon the membership as reported in the July report.

5. All affiliated bodies shall deposit on or before January 1, 1894, and subject to the order of the Federation or such persons as may be hereafter named, the amounts determined upon by the Executive Council, and any affiliated body or bodies failing to comply with this section shall stand suspended.

6. All affiliated organizations who have complied with the requirements of the A. F. of L. and these laws, may, in case of strikes or lockouts enter into, in conformity with their laws, and after their treasury has been exhausted, make application for benefits, and the same shall receive for each member so on strike the sum of five dollars per week.

7. Each affiliated body shall deposit the various amounts as determined upon by the executive Council in some State or National bank subject to the order of three officers of the Federation and three officers of such affiliated body.

8. In case of strikes or lockouts, and after due application has been made and all laws as herein prescribed have been complied with, the Executive Council shall then at once draw upon the nearest affiliated body or bodies for such amount as may be necessary for the herein stipulated benefits and forward the same to the officers in charge of such strikes and lockouts.

9. This Sinking Fund shall at no time fall below the sum of \$300,000, and to maintain this standard, the Executive Council shall levy an assessment sufficient to maintain the stipulated standard of the Sinking Fund, and any affiliated body failing to deposit the amount of such assessment within eight weeks from the time such assessment circular is issued, shall stand suspended.

10. After a strike or lockout shall have continued for four weeks, the Executive Council of A. F. of L. shall submit a complete statement to all affiliated unions of the status of strike and requesting them to vote upon the continuance or abrogation of the same, and such vote shall be taken every four weeks thereafter until such strike shall be declared off.

11. In the event of a negative vote upon the continuance of the strike, the Executive Council shall at once notify the organization on strike, also notifying them that the benefits heretofore allowed will cease within four weeks after the date of the announcement of such vote.

Respectfully submitted,

CHARLES DOLD,
H. LORDEN,
E. W. MURRAY,
CHARLES TOWNE,
JOHN LAPPARD.

Moved to take up the report *seriatim*.
Agreed to.

Upon the proposition to raise a sinking fund of \$500,000, it was moved that the report of Committee be referred to Executive Council with instructions to formulate details and submit the plan by circular to all affiliated unions for consideration.

Delegate McCarthy amended to strike out Executive Council and refer back to Com-

mittee to perfect details and report back to this Convention.

Previous question ordered.

Amendment lost and motion to refer to the Executive Council adopted.

The rule providing for hour or adjournment was suspended, and it was agreed to continue in session during the will of the Convention.

Brother Iden was excused from attending future meetings.

The Grievance Committee reported as follows:

REPORT OF GRIEVANCE COMMITTEE.

Philadelphia, Dec. 16, 1892.

To the Officers and Members of the A. F. of L. in Convention Assembled:

Your Grievance Committee in continuing their report are pleased to state that the grievance or protest of the Amalgamated Society of Carpenters against the Brotherhood of Carpenter and Joiners has been withdrawn owing to an investigation which at present is being made by the officers of the Brotherhood.

Inasmuch as the report of Committee on President's report has covered the ground referred to in protests of both the United Garment Workers and Amalgamated Society of Carpenters and Joiners against the Knights of Labor, and that report having been adopted by this Convention, your Committee deems it inexpedient to further legislate.

In the matter of the grievances and charges made by the Furniture Workers against the Brotherhood of Carpenters and Joiners, your Committee recommend that the two bodies come together and try to form a plan by which they can work in harmony.

Your Committee do not believe it lies within their province to take any other action, as the constitution gives to each body the right to control its own affairs.

In conclusion, we would respectfully recommend that in the future any charges or protests to be made by one body against another should be made to the President of the A. F. of L. at least two weeks before the Convention meet, and notify the body charged, and thus enable all sides to present their evidence to Committee at Convention.

Respectfully submitted,
GRIEVANCE COMMITTEE.

The Grievance Committee reported that the Amalgamated Society of Carpenters had withdrawn its complaint against the Brotherhood of Carpenters and Joiners. Withdrawal allowed.

The Committee recommended that the complaint of the United Garment Workers against the Coat Contractors of Baltimore, acting in league with D. A. 41 K. of L., be referred to the Committee on Labels and Boycotts. Concurred in.

Upon the following request of Delegate Lordon—

That this Convention request the Executive Officers of the United Brotherhood of Carpenters and Joiners to use their power and compel members of their local unions to work

in harmony and recognize the working and contribution cards of the Amalgamated Society of Carpenters and Joiners throughout the United States and Canada—the Committee reported action had already been taken.

On Furniture Workers' complaint, the Committee recommended that it be referred to the Brotherhood of Carpenters and Joiners of America. Agreed.

Moved that the report be adopted as a whole. Agreed to.

The Committee on Laws submitted the following report:

REPORT OF THE COMMITTEE ON LAWS.

Philadelphia, Dec. 15, 1892.

To the Officers and Representatives of the A. F. of L.:

Your Committee on Laws begs leave to report as follows upon the resolutions submitted to it:

No. 39, by Delegate Goldwater, relating to qualifications of representatives. Unfavorably.
No. 46, by Delegate Bandlow, of Central Labor Union, Cleveland, Ohio, relating to the compulsory formation of national or international bodies, and referred to the Committee on Laws from the Organization Committee, together with amendments. Unfavorably, but the committee recommends in lieu thereof the insertion of the words "or refuses to affiliate with" after the word "from" in the second line of Section 3, Article 4.

No. 80, by Delegate C. W. Rhoades, limiting each delegate to the Convention to one vote and forbidding proxies. Unfavorably.

No. 86, by Delegate Geo. M. Gunter, limiting the class of speakers who may address future Conventions. The committee recommends the following substitute:

"At all future Conventions of the A. F. of L. no one shall be invited to make an address unless he is actively identified with, or has evidenced his friendship for, the labor movement."

No. 89, by Delegate Carney, calling for the submission of general resolutions and proposed changes in the laws of the A. F. of L. to the General Secretary at least a month previous to the assembling of the Convention. Favorably.

No. 85, by Delegate Geo. M. Guntner, relating to duties of unions in case of strikes. Your committee finds the subject already covered by Sections 1 and 2, Article 8, but calls attention to a typographical error in the second line of Section 2, which should read "1" instead of "2."

No. 75, by Delegate Joseph A. Hopp, and No. 16, by Delegate A. Todtenhausen, relating to organizers, are considered sufficiently covered by Section 4, Article 9.

No. 41, by Delegate John D. Clancy, amend Section 2, Article 7, by inserting after the word "trade," appearing twice in line 2, the words "and labor;" also amends Section 1, Article 8, by inserting after the word "international," in lines 1 and 6, the words "or local." Favorably.

No. 42, by Delegate John D. Clancy, and Nos. 14 and 15, by Delegate A. Todtenhausen, relating to increase in revenue. Unfavor-

ably, believing the present revenue sufficient unless new expenditures are decided upon.

JOHN McBRIDE,
WM. WEIHE,
P. J. McGUIRE,
JOHN B. LENNON,
C. M. RHODES, Secy.

RESOLVED; That whenever there is a Central Labor Union or Federation in any city or town represented in this Federation, it shall be the duty of all locals of any national or international unions to become affiliated therewith. Be it further

RESOLVED, That the American Federation shall recognize only one federation or central body in any city or town.

The committee recommended the adoption of the above as a resolution.

Agreed to.

The following were the amendments referred to the committee and reported on by them:

By Delegate Goldwater—

RESOLVED, That with the exception of officers of organizations affiliated with the A. F. of L., no person can be a delegate to the succeeding Conventions of the A. F. of L. unless such delegate be actively employed at the trade or occupation represented.

By Delegate Charles Dold:

WHEREAS, At the present time various trades in different sections of the United States and Canada are chartered by the American Federation of Labor as local unions; and

WHEREAS, The efforts of such unions to organize National or International bodies has been greatly retarded because of their inability to communicate and correspond with one another by reason of their being unacquainted with the existence of similar unions of the same craft; therefore be it

RESOLVED, by the delegates of the Twelfth Annual Convention of the A. F. of L. that the Executive Council be instructed to issue a circular letter to all unions of any one particular craft, as soon as seven local unions of any one kindred craft have been given a charter, with view of fixing a date or making such arrangements as may be necessary to facilitate the formation of such National or International bodies.

By Delegate Gunter:

WHEREAS, It has become customary for representatives of a class other than labor to address the Convention of the A. F. of L., and WHEREAS, It has been demonstrated that no other class can have any interest in labor, which must emancipate itself:

RESOLVED, That this Convention will not permit any representative of the capitalist class to deliver orations at all future Conventions of the American Federation of Labor.

By Delegate Gunter:

WHEREAS, The past has shown that the affiliated unions, herein represented have not fulfilled the solidaric demand in cases of strike when such demand became a necessity, be it

RESOLVED, That this Convention specify the obligations and duties devolving on each union in case of a strike, and making responsible every affiliated union for a violation of solidaric action.

By Delegate Hopp:

Knowing that there are throughout the length and breadth of the land at least as many unorganized toilers as there are organ-

ized toilers, and believing that many trades that are unorganized can be organized, and that a practical effort should be made to more thoroughly organize the unskilled laborers of the country, and further believing that a general organizer should be elected by this Convention who shall appoint for each State an organizer, who in turn shall select their local deputy organizers, and also that they shall receive compensation for their labors;

I move you that the Committee on Laws be instructed to submit to this Convention a plan in harmony with above.

The A. F. of L. should gather within its folds as far as possible the toilers of the land, and with a competent and active army of organizers, who are to be compensated according to labor performed in securing charters from the A. F. of L. for various locals. I believe that within the coming year we could rally thousands of toilers under our banner who may never reach that desirable plan.

By Delegate Todtenhausen:

Section 1. The Executive Council shall employ not less than three organizers, whose duties it shall be to devote their whole organizing unions all over the country, and connect them with their National or International Unions, or to the A. F. of L. They shall, if possible, visit all the cities and towns, make speeches and keep up a thorough system of agitation in the interest of organized labor. They shall advise with unions on strikes or lockouts, and shall do all in their power to extend the influence and enlarge the sphere of the American Federation of Labor.

They shall receive for their services the sum of five dollars (\$5.00) per day and traveling expenses.

Section 2. The Executive Council shall have the power to recall and remove from office any organizer that in their opinion has not done his duty and appoint another in his place.

By Delegate John Clancey:

Section 2, Art. 7.—The Executive Council shall use every possible means to organize new national or international trade and labor unions, and to organize local trade and labor unions and connect them with the Federation, until such time as there are sufficient numbers to form a national or international union, when it shall be the duty of the President of the Federation to see that such organization is formed.

Section 3.—While we recognize the right of each trade and labor union to manage its own affairs, it shall be the duty of the Executive Council to secure the unification of all labor organizations, so far as to assist each other in any trade or labor dispute.

Immediate adoption of the foregoing amendment is requested as an emergency exists.

By Delegate John Clancey:

Article 9, Sec. 1.—The revenue of the Federation shall be derived as follows: From international and national trade unions, a per capita tax of one-half cent per member per month; from local trades, federal and labor unions, two cents per member per month, and from central labor unions of city and state federated bodies, twenty-five dollars per annum. All moneys shall be payable to the Secretary of the Federation.

Section 2.—Delegate shall not be entitled to a seat in this Federation unless the tax of

their organization, as provided for in Section 1 of this article, has been paid in full.

The passage of the foregoing amendments is required as an emergency exists.

By Delegate J. Clancey:

Section 1, Art. 8.—In case any national or international body affiliated with this Federation shall order a strike or are locked out, and by reason of financial distress it shall be necessary to call upon the Federation for aid, the Executive Council, if they deem that such organization is entitled to receive such assistance, shall make an assessment, not exceeding five cents per member per week, upon every other national or international body so affiliated with the Federation. Such assessments shall remain in force for a period not exceeding ten continuous weeks, unless otherwise ordered by a general vote of all national and international unions affiliated.

By Delegate Todtenhausen:

Section 1, Art. 9.—The revenue of the Federation shall be derived as follows: From international and national trade unions, a per capita tax of one cent per member per month; from local trade unions and federal unions, five cents per member per month, and from central labor unions of city and state federated bodies, twenty-five dollars per annum. All moneys shall be payable to the Secretary of the Federation.

By Delegate C. W. Rhoades (by instruction):

That Section 2, Article 4 of the constitution be amended by striking out all the words after the word "vote" in the third line and inserting the words "and no proxies shall be allowed."

By Delegate Carney:

That all resolutions of a general character or propositions for changes in our constitution shall be sent by delegates-elect to our General Secretary at least one month previous to the assembling of Conventions, who shall have the same compiled and printed as a programme of business and mailed to each delegate-elect, but this shall not preclude the introduction of new matter by the consent of two-thirds of the delegates.

The report of the Committee on Laws was taken up *seriatim*.

On Delegate Goldwater's amendment, Committee's report concurred in.

On Delegate Dold's amendment, moved to concur in report of Committee. Delegate Dold moved to substitute by adding to report of Committee as follows:

No delegate to the Convention of the A. F. of L. shall be entitled to a seat unless he is a member of the organization he represents. Amendment lost and motion adopted.

Delegate Morgan proposed as an amendment to the Committee's report:

That hereafter all charters issued to local unions shall contain the provision that within one year of the issuance of seven charters to locals of any one trade or occupation it shall be obligatory on the part of such seven locals to form a national organization, under penalty of the forfeiture of the charter of the local or locals refusing to act in accordance with this particular provision of their charter.

COMMITTEE ON RESOLUTIONS.

The United Garment Workers of America having adopted the following at their late annual Convention at Philadelphia, respectfully submit the same to the Twelfth Annual Convention of the American Federation of Labor for its adoption:

WHEREAS, An organization known as the United Hebrew Charities of New York, supported partly by certain wealthy people, and assisted by the Baron Hirsch Fund, are importing large numbers of poor, persecuted and deceived working people from Europe; and

WHEREAS, Upon their arrival here these poor people, instead of being assisted to be directly self-supporting through proper colonizing plans or other means, are placed by the agents of the aforesaid United Hebrew Charities in the dens of Sweaters and so-called trade schools, and taught the rudiments of various sub-branches of the tailoring trade, and then cast upon the already demoralized and overstocked labor market; and

WHEREAS, The garment workers of this country are already engaged in a severe struggle for a living amid almost unbearable conditions, and fierce competition against each other, to the advancement of unscrupulous sweat masters; therefore

RESOLVED, That the American Federation of Labor in convention assembled hereby condemn the misdirected philanthropy which, instead of improving the condition of the working people, only tends to plunge them into greater misery; and further

RESOLVED, That when in the face of such results, the above named charities continuing their demoralizing work, they raise grave doubts of their sincerity and honesty of purpose; and we recommend this matter to the consideration of the Congress of the United States.

Concurred in.

RESOLVED, That we ask of Congress the amendment of the patent laws so that a direct reward shall be paid to inventors of beneficial inventions, and that the right to manufacture be guaranteed to all who desire to engage therein."

WHEREAS, The Crimps have so far, succeeded in evading the purpose of all laws enacted for their suppression, owing to the law legalizing the payment of Allotment to Original Creditor, which is simply advance under another name, and the mainstay of the Crimps nefarious traffic and the parent of nearly all the evils that befall the seamen, therefore, be it

RESOLVED, That the A. F. of L. in convention assembled, hereby protest against the enactment of any laws to further legalize the payment of advance wages, and

RESOLVED, That A. F. of L. will do all in its power to abolish the payment of advance wages in American vessels in any shape or form."

Concurred in.

On resolution No. 1 the committee offers the following substitute:

WHEREAS, In some sections of the country saloon keepers organize employment offices for waiters; and

WHEREAS, Such establishments encourage intemperance, gambling and kindred vices, and it follows naturally that those who spend the most in saloons are given the preference in finding employment; therefore be it

WHEREAS, The interest of the whole is greater than any part of our social, industrial and commercial interests, and our aim should be to so change our social, industrial and commercial customs as to enable us to do justice to all such interests without granting special rights or privileges other than that which all interested parties may enjoy; and

WHEREAS, It has been repeatedly demonstrated and almost universally admitted that arbitration is the only panacea for overcoming warped minds and biased judgment, the only method by which justice may be applied to every interest involved in disputes between employer and employed, without a recourse to the co-operative and numerical strength of the one and the money power of the other; and

REPORT OF COMMITTEE ON LABELS AND BOYCOTTS.

To the Delegates of the A. F. of L. Convention:

In making our final report your committee desire to call the attention of the American Federation of Labor to the fact that the power of the boycott is greatly lessened by the indiscriminate use of it; and also to the fact that sufficient interest is not taken to make effective those levied. We recommend that the attention of affiliated bodies be directed, through the financial reports sent out by the Secretary of the A. F. of L. (quarterly) and

on all official documents whenever feasible, to the boycotts levied by the A. F. of L., with the hope that they be made more effective; and we further recommend that the future sessions of the A. F. of L. refuse to consider a request for a boycott unless requested by an affiliated body under its seal.

In the matter of union labels, your committee cannot urge too strongly the need of prompt and decisive action in order to secure to unions the rights now accorded to private individuals and corporations, and we further urge the members of affiliated bodies to promote by all possible means the goods which bear the labels that have received the approval of the American Federation of Labor, and the committee further recommend that, in view of the bitter attacks made upon the United Garment Workers and the blue label of the Boot and Shoe Makers of America, goods bearing these labels be especially recommended to the patronage of all fair-minded men.

JAMES J. DALY, Chairman.
H. P. SPAULDING,
HENRY WHITE,

WHEREAS, No change in the working rules of the above unfair printing houses have been made, and union printers are still

WHEREAS, They still persistently refuse to make their peace with the organized bakers of Chicago by employing non-union men;

WHEREAS, This is the only one of the larger baking firms of Chicago bidding defiance to the organization, an example that invites imitation on the part of the other employers, if the obstinate firm is not forced to appreciate the justice of the union's demand, and

WHEREAS, The International Journeymen Bakers' and Confectioners' Union of America has, in consideration of the facts above set forth, levied a boycott upon said American Biscuit Company; be it therefore,

RESOLVED, That the American Federation of Labor, in convention assembled, endorses the action of the Bakers, and recommends to its affiliated members throughout the country to abstain from in any way aiding the sale of the goods of the Biscuit Company in question until such time as the Chicago branch, Aldrich & Bremmer, see fit to recognize the rights of organized labor.

The committee reported favorably on resolution 58:

WHEREAS, The value of trade labels as a factor in the industrial struggle has been fully demonstrated, many of the foremost unions in this country owing much to their presenting standing and influence to the introduction by them of labels; and

WHEREAS, These unions have been hampered in their work by the interpretation of the laws relating to trade labels and copyrights by the courts of the various States; and

WHEREAS, It has been clearly proved that inasmuch as the present laws have been constructed so as to give no protection to trade organizations, and it has been found necessary to agitate for laws protecting and recognizing trade labels in various State Legislatures; and

WHEREAS, The passage by Congress of a law giving to trade organizations the same protection now accorded to corporations, manufacturers and individuals would obviate this difficulty and greatly strengthen our unions; therefore,

RESOLVED, That the President of this body be instructed to take proper action towards having a law presented to the present session of Congress that will give Organized Labor the same protection to their trade marks and labels that it now does to corporations, manufacturers and individuals.

SPECIAL COMMITTEE ON INITIATIVE
AND REFERENDUM.

The Special Committee upon direct legislation having considered the matter submitted to it, beg leave to report as follows:

That it finds the principle of direct legislation, through the initiative and referendum, approved by the experience of Switzerland as a most valuable auxiliary in securing an extension of the opportunities of the wage-earning classes.

As a non-partisan reform of political methods, it is our judgment that its adoption by the common-wealth of America would greatly facilitate the securing of desired legislation in the direction of better social conditions.

We therefore recommend:

1st. That this convention of the A. F. of L. do give its emphatic endorsement to the principle of direct legislation.

2d. That we recommend to affiliated bodies the careful consideration of this principle, and the inauguration of an agitation for its incorporation into the laws of the respective states.

RESOLVED, That to this end we hereby inaugurate a campaign of education having for its purpose the dissemination of correct ideas among the working people, so that the natural exercises of their duties of citizenship may result in filling our City Councils, our State and National Legislatures with representatives of labor, instead of as now with the pliant tools of monopoly.

REPORT OF COMMITTEE ON LABELS AND BOYCOTTS.

The Committee reported favorably upon the following resolution:

WHEREAS, That wholesale clothing manufacturers of Baltimore have repeatedly taken issue with Coat Contractors' Local Assembly No. 244, Knights of Labor of District Assembly 41, against the local unions of the United Garment Workers of America, which has caused great widespread misery among the thousands of working people of the trade through the late prolonged strikes and lock-outs; therefore

RESOLVED, That this Convention recommends to the trade unions of the country to grant the Garment Workers' Unions of Baltimore their moral support against any clothing manufacturer of that city who should repeat their former conduct.

Considerable discussion ensued upon the resolution. During the debate Delegate White read a letter issued by J. G. Schonfarber, District Master Workman of D. A. 41, K. of L. and addressed to the clothing manufacturers of Baltimore.

It was resolved to adopt the report of the Committee.

Carried.

Upon motion, it was resolved that the circular letter of Mr. Schonfarber, the original of which shall remain in the custody of the officers of the A. F. of L., be published in the printed proceedings:

MR. SCHONFARBER'S LETTER.

DISTRICT ASSEMBLY 41, K. OF L.
INDUSTRIAL HALL,
316 West Lombard Street,

Baltimore, Oct. 31, 1892.

To the Manufacturers of Clothing of Baltimore:

Gentlemen:—Your business is about to be subjected to the same inconvenience it was dur-

ing the summer months occasioned by the strike of Garment Makers, and their attempt to force the Knights of Labor tailors into their Union. You are aware of the conditions that exist in the trade. You are also aware that the National Union, in its book issued some time ago, said clothing manufactured here, New York and elsewhere, was manufactured under the sweating system, with the sole exception of Rochester. The K. of L. contractors and tailors have adopted a 10-hour day law, which, if carried out and made known, would be a big advertisement for Baltimore-made clothing.

Unfortunately the Union has resorted to the same tactics they used during the summer, viz.: Refusing to work with Knights of Labor, and compelling contractors to sign an agreement to only employ Union hands. They also refuse in some cases to work only 10 hours a day.

These things will shortly result in more trouble, possibly a stoppage of work, and bring odium on the manufacturers of our city, unless prompt measures be taken to check them. With this end in view I earnestly request you to hold a private meeting, at which you allow a committee of our organization to be present, to take such steps as will prevent either a recurrence of the summer troubles or worse.

Yours respectfully,

J. G. SCHONFARBER,
D. M. W. 41.

Please send answer as to whether, when and where you will hold meeting.

On the reverse side appears the following indorsement:

1892. J. G. Schonfarber, Knights of Labor, Balto., Octob. 31st.

Communications and greetings from American Sabbath Union of Chicago, Philadelphia, Branch International Wood Carvers' Association, together with that from the Sabbath Association of Philadelphia and Chicago were read, noted and filed.

The work of the Convention having been concluded, President Gompers suggested that a few remarks from first Vice-President P. J. McGuire would be appropriate at this time. He referred to Brother McGuire as one of the few men who took the initiatory steps in the formation of the Federation in 1881, and its reorganization in 1886, and who has aided and watched its course during all these years. He then called upon Delegate McGuire to address the convention.

Mr. McGuire responded in a well timed speech, briefly reviewing the different phases of the labor movement in the past twenty years. He referred to the struggles made and sacrifices borne to place the movement upon a higher plane. The advances secured were not brought about by phrases and resolves, but by perseverance, and the determination of the active men to help the workers organize and through their organization the toilers had helped and would continue to help themselves.

Mr. McGuire was interrupted frequently with applause, and at the conclusion of his remarks was enthusiastically cheered.

President Gompers then made a few appropriate remarks, wishing the delegates a safe and pleasant journey homeward, expressing the hope that upon their return, with renewed energy, courage and persistency, the work of organization will be taken up, and the minds of the workers be made clearer as to their rights, and particularly of their duties to themselves and to each other.

The President's remarks were received with hearty applause.

Upon motion of Delegate Daley the Convention adjourned *sine die*, to meet at Chicago, Ill., Monday, Dec. 11, 1893, after which the delegates in full chorus joined in singing "Auld Lang Syne."

SAML. GOMPERS,
President.

CHRIS. EVANS,
Secretary.

Organize National Unions.

It is now generally admitted by all really educated and honest men that a thorough organization of the entire working class, to render employment and the means of subsistence less precarious by securing an equitable share of the fruits of their toil, is the most vital necessity of the present day.

To meet this urgent necessity, and to achieve this most desirable result, efforts have been made, too numerous to specify, and too divergent to admit of more than the most general classification. Suffice it to say, that those attempts at organization which admitted to membership the largest proportion of others than wage-workers were those which went the most speedily to the limbo of movements that won't move; while, of the surviving experiments, those which started with the most elaborate and exhaustive platforms of abstract principles were those which got the soonest into fatal complications, and soonest became exhausted.

In the face of so many disastrous failures to supply the undoubtedly existing popular demand for a practical means of solving the great problem, the query naturally suggests itself to many: "Which is the best form of organization for the people, the workers?"

We unhesitatingly answer: "The organization of the working people, by the working people, for the working people, that is, the Trades Union."

The Trade Unions are the natural growth of natural laws, and from the very nature of their being have stood the test of time and experience. The development of the Trade Unions, regarded both from the standpoint of numerical expansion and that of practical working, has been marvelously rapid. The Trade Unions have demonstrated their ability

to cope with every emergency—economic or political—as it arises.

It is true that single Trade Unions have been often beaten in pitched battles against superior forces of united capital, but such defeats are by no means disastrous; on the contrary, they are useful in calling the attention of the workers to the necessity of thorough organization, of the inevitable obligation of bringing the yet unorganized workers into the Union, of uniting the hitherto disconnected Local Unions into National Unions, and of effecting a yet higher unity by the affiliation of all National and International Unions is one grand federation, in which each and all trade organizations would be as distinct as the billows, yet one as the sea.

We assert that it is the duty, as it is also the plain interest, of all working people to organize as such, meet in council, and take practical steps to effect the unity of the working class, as an indispensable preliminary to any successful attempt to eliminate the evils of which we, as a class, so bitterly and justly complain. That this much desired unity has never been achieved is owing in a great measure to the non-recognition of the autonomy or the right of self-government of the several trades. The American Federation of Labor, however, avoids the fatal rock on which previous organizations, having similar aims, have split, by simply keeping in view this fundamental principle as a landmark, which none but the most infatuated would have ever lost sight of.

The rapid and steady growth of the American Federation of Labor, arising from the affiliation of previously isolated, together with newly formed, National Unions; the estab-

ishment of local unions of various trades and callings where none before existed; the spontaneous formation of Federal Labor Unions, composed of wage-workers following various trades in places where there are too few persons employed at any particular one to allow the formation of Local Unions of those trades, thus furnishing valuable bodies of auxiliaries and recruits to existing unions upon change of abode, this steady growth is gratifying evidence of the appreciation of the toilers of this broad land of a form of general organization in harmony with their most cherished traditions, and in which each trade enjoys the most perfect liberty while securing the fullest advantages of united action.

And now, in conclusion, you will permit us to express our acknowledgment of the very moderate amount of governing which has fallen to the lot of those who have the honor to address you. While much of this good fortune must be attributed to the nature of the federal form of our organization, our task has

been immeasurably lightened by the assistance of a body of organizers, who, without hope of reward, except the consciousness of performing a sacred duty to their fellow workmen, have carried the propaganda of trade unionism into the remotest parts of the Continent. Much of our burden has been also eased by the generous co-operation of the Executives of National and International Unions, both affiliated and unaffiliated, the latter of whom have doubtless so acted from a conviction that within the lines of the Federation will be fought to the bitter end the fast coming grand struggle between Capital and Labor, involving the perpetuation of the civilization we have so laboriously evolved. Deeply grateful as we are for your fraternal support, we should be negligent of the duty we owe to each and all did we not urge the Local, National and International Unions who have not yet joined the American Federation of Labor, to do so without further delay.

How to Form a Trade Union or a Federal Labor Union.

First—Unions may be formed of persons working at any trade or calling, or they may be composed of persons working at different or varied callings. The latter are called "Federal Labor Unions," and are of infinite value in such places where there are too few persons employed to form separate unions of each trade.

Second—Any persons who desires to organize a Union of any trade will, by application to this office, be informed of the address of the chief officer of that trade; but should there be no General Union of that trade or calling, or should it be the intention to form a Federal Labor Union, he will be furnished with all necessary documents and information free of charge.

Third—Any number of wage workers, not less than seven, of either sex, can obtain a Certificate of affiliation (charter.)

Fourth—To organize: Call a meeting and read the printed appeal (furnished on application), also these instructions. Proceed at once to elect officers. Apply to the President of the

American Federation of Labor, at his office, for a Certificate of Affiliation, and enclose \$5.00 for the necessary fee, which will be returned in full if the application be refused. Send the fee by Post Office Money Order. Send also a list of names and residences of the seven Charter Members of your Union.

Fifth—With the Certificate of Affiliation a full working outfit for the new Union will be furnished, entitling its members to all the rights and privileges, and the Union to a voice in the Annual Conventions of the American Federation of Labor.

Sixth—Every Union has full charge of its own funds, and is only required to pay to the Secretary of the American Federation of Labor a *per capita* tax of one cent per month per member in good standing.

Seventh—If you require documents to aid in organizing a Union, or an application blank to become affiliated with the American Federation of Labor, write a postal card to No. 14 Clinton Place, New York City, and they will be promptly forwarded.
