#### BUSINESS CONDITIONS.

TERMS on Florists' stock: To customers of approved credit 60 Days, except on certain Cash items, Special 3 per cent. discount for cash in Ten days (from these list prices only), not from the "Special" quotations and excepting Net Cash items.

New Accounts: New customers, if not already well known, will please send cash with first order and if desiring to open an account send good references, property statement or other information concerning their commercial standing as they may be able to furnish. This will avoid delay which is often very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For reference please name bankers, wholesale merchants or other well-known business men with whom you have had dealings-such information will be held in confidence. We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order. Perishable Stock, plants, etc., are Positively not sent C. O. D.

Our Responsibility: While we always aim to have the best Bulbs and Dormant Plants which each season affords from reliable houses, we cannot and do not guarantee any of them to flower or produce a crop of flowers at the prices given nor will we be responsible for the crop. We assume our customers to be acquainted with these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when such plants are ordered by freight by the purchaser. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can,

# Japan Grown Lilium Longiflorum. We are Headquarters for the TRUE STRAIN of these, Beware of Bulbs Officered at Low Prices.

Japan Lilium Longiflorum have proved a most desirable substitute for Lilium Harrisii for late or Easter flowering because of their comparative freedom from disease, as well as being unmixed with the latter variety. While they are later blooming than Harrisii, Florists should experience no trouble to bring them into flower in good time since Easter does not occur in 1900 until fifteen days later than in 1899.

## LILIUM HARRISII. Indispensable for Early Forcing.

AS HEALTHY AS GROWN ON THE ISLAND.

#### For Winter GLADIOLUS 3/1 Forcing.

The varieties mentioned below are invaluable for forcing. They are of dwarf habit and can be cultivated in the same manner as Hyacinths.

Colvilli Alba (The Bride), a light graceful variety having pure white flowers which are freely borne on long stems. It is coming more into favor as its good qualities become better known; equally good for blooming in the open air. Per 100, 65c.; per 1000, \$5.00.

Rubra, red, per 100, 60c.; per 1000, \$4.50.

Gloxinia.—Our strain is unsurpassed, being the very best to be obtained in Europe. It is composed of the Erecta and Horizontal sorts, combining the greatest variety of colors and markings. Strictly first size, per doz., 60c.; per 100. \$4.00.

# Selected Named Hyacinths.

\* STRICTLY FIRST SIZE.

Owing to the continued unfavorable weather of March and April, Bulbs in Holland, Hyacinths in particular, were retarded in growth to a considerable extent, but the warm weather which prevailed in May and June ripened them off well and although the Bulbs may be somewhat small, they will be very sound, and we anticipate they will produce as good flower spikes as usual. These are the very best selected Bulbs and are most generally used for pot and glass culture as they produce much finer spikes than either the second size or mixed varieties. Those in full faced or black face type are especially recommended.

Price for our selection, per 100, \$7.50; per 1000, \$65.00.

## PLANT NOVELTIES.

THE NEW ROSE "LIBERTY."

## Never has nature yielded to the painstaking hybridist and plant raiser a more beautiful or more satisfying color than that seen in the new hybrid Tea Rose "Liberty," which today marks the limit of glorious deep, yet bright coloration in a family by no means deficient in warm rich hues of crimson red. Most nearly ap-

proached by Meteor in color, this new comer surpasses that standard variety in purity, being without the ten-dency to blacken that Meteor exhibits, and also the blue cast sometimes seen on the fully expanded petal of Meteor has not been detected in any degree whatever upon a single oue of many critically examined blossoms of Liberty. To the practical grower, too, this novelty will surely appeal, because of the greater ease of cultivation, in that it does not exact a temperature in excess of that generally accorded to other roses when grown under glass. There can be little doubt but that "Liberty" is destined to rapidly become the one dark flowered rose for both commercial and private uses. As to the befor both commercial and private uses. As to the behavior of the plants in the hands of the grower, we had presented to our notice by Mr. Ernest G. Asmus, of West Hoboken, N. J., figures which showed that from September up to March 8th, each plant in his 100x16 ft. house has yielded an average of 26½ blooms. An inspection of the growing plants satisfies us as to the vigor and vitality of "Liberty." It has every evidence, too, of being a continuous bloomer. In habit the plant is erect growing making good wood of considerable

## Grand New Pink Carnation "Marquis."

ORIGINATED BY L. E. MARQUISEE, SYRACUSE, N. Y.

Has received five first-class certificates, silver cup at Philadelphia for best pink and silver medal of the Massachuetts Horticultural Society. It is without doubt the finest pink carnation ever introduced. It has been so pronounced by expert judges. Its color is distinctive, being unlike that of any other carnation. It is a true pink—a soft rich shade with no trace of purple or magenta and equally beautiful by artificial light or daylight. Its form is exceptionally perfect—very full and double, usually well rounded and built up in the center. Its petals are perfectly serrated and quilled. Its calyx is practically faultless and does not burst. Its size is phenominal 3½ to 4 inches and it often exceeds this, and that under ordinary culture. Its fragrance is delightful. Its keeping qualities are wonderful. Cut flowers will last from one to two weeks. Flowers shipped from Syracuse to Chicago kept finely eight days after receipt. Its stems are strong and average 2 to 3 ft, in length. It is very prolific—as free as the best of the standard varieties and much freer than any other large variety. It makes no "grass"—every shoot produces a flower. It is an absolutely continuous bloomer. It is a very vigorous grower free from rust or other disease, It propagates readily. The loss in propagating is practically nothing. It lifts easily and owing to the mass of fibrous roots it makes, it receives no perceptible check. It lacks no essential of the model carnation. In Color, Form, Size, Fragrance, Stem and Growth it is ideal. Rooted Cuttings March to April, 1900.

Price, \$10.00 per 100; \$75.00 per 1000.

## NEW PINK CARNATION "Ethel Crocker."

Mr. Albert M. Herr, considers this new California variety one of the best ever offered to the trade. The flowers under ordinary culture measure from 3 to 3½ inches in diameter, perfect in form and with a calyx that does not burst. The color is a clear rich pink, delightfully scented and with a stem almost as strong as that of the variety Mayor Pingree. The habit of the plant is good, health perfect, strong growth, and Mr. Herr says, "is freer in bloom than any other Carnation I ever grew. Flowering season is from October 1st to July 1st continuously, not a cropper, and all told the best commercial variety I ever saw

Price per 100, \$10.00; per 1000, \$75.00.

## EVERBLOOMING "AMERICA."

This new geranium is a seedling of the popular dwarf variety Mars. Its color is brilliant and striking, being snowwhite on the edge and changing through all the salmon shades into deepest rose in the center. The flowers are large and not self-colored; they are striped, mottled, blotched, and not two flowers on a plant in bloom seem to be alike. The trusses are carried on strong staks well above the plant and are extra large. It withstands the outdoor sun as well as any sun-proof variety, and being of such remarkably dwarf growth, combined with its free-flowering habit, is bound to become the ideal pot and bedding geranium. bedding geranium.

Price, to the Trade, 21/2-inch plants, per doz., \$5.00; 50 plants at \$30.00 per 100.

#### ASPARAGUS SPRENGERI.

This new Asparagus has proven to be useful in

This new Asparagus has proven to be useful in a variety of ways, especially so as a pot plant for decorative purposes, or for planting in fernerles or hanging baskets. It grows freely the whole year round. Sprays 4 to 5 feet long of fresh green feathery foliage, which are handsome for bouquets, wreaths or sprays, and remain perfect for weeks after cutting. It can be grown easily planted out on benches, in a night temperature of 60 degrees. Both plants and cut sprays meet ready-sale and, all in all, it is one of the most profitable plants we have ever grown. No up to date Florist can afford to be without this new and free-growing Asparagus. We have a grand stock.

## Crimson Spiræa.

Anthony Waterer. The Ideal Florists' Plant, A big winner for Easter flowering. It outshines all other Spiræas in brilliancy of color, a bright crimson. A beautiful habit, dwarf and dense growth, a persistent bloomer during the summer and antunn out of doors. For forcing in pots, it cannot be excelled, coming into flower when quite small and continuing through the years For immediate forcing we recommend the dormant, pot grown plants, which will be found far superior to field grown for forcing purposes.

DWARF FLORENCE VAUGHAN.-(Comtesse de Sartoux Thorene.)
The best of last year's introductions. It is of uniform, dwarf habit, never exceeding 2½ feet in height. Color rich, golden yellow, thickly dotted with bright red. It supplements that grand standard kind by repeating it in a dwarf growth. Per doz., \$1.25; per 100, \$10.00.

**SEMAPHORE.**—Height 5 to 6 feet. Dark bronze foliage. Flowers are a pure, orange shade which, combined with the rich foliage is very striking. Per doz., \$1.00; per 100, \$3.00.

VICE PRES. DAVID.—Height 4 feet. Green foliage. Extra strong, robust grower. Extra large, well rounding flowers. Color deep, golden yellow, heavily splashed with carmine. Per doz., \$1.25; per 100, \$10.00

FRANCOIS GOS.—Height, 3½ feet. Green foliage. Early and prolific bloomer, well-rounded flowers. Color, pure orange without markings. We consider this the best in this color. Per doz., \$1.00; per 100, \$8.00.

MENELEK.—Height 4 feet. Green foliage. Strong grower. Its flowers are of large size with broad petals of good substance and produced in immense trusses. Color rich, nasturtium-red. Per doz., \$1.25; per 100, \$10.00.

YELLOW CROZY.—Height 4 feet. Green foliage. Color a clear, pure, canary-yellow with no red markings except a few faint red spots on the smallest lower petal. Per doz., \$1.00; per 100, \$8.00.

MARTHA WASHINGTON.—The flowers are very large and frequently have five broad petals. The trusses are immense and the color pure bright rose; beautiful and attractive. A vigorons grower, height, 3 teet. Per doz., \$1.50; per 100, \$10.00.

BLACK BEAUTY.—Height 4 to 5 feet. This is the best of all the dark leaved Cannas. The flowers are small, but its foliage is superb, being a deep, bronzy red, almost black. Per doz., \$2.50; per 100, \$20.00.

SAM TRELEASE.—Height 3 feet, Green foliage. In color it is almost a pure scarlet. Very rich and glowing; the edges and center are marked with yellow about the same as in Madam Crozy. Per doz., \$1.00; per 100 \$8.00.

CHICAGO — (Medal.) Height 5 feet. This is the best vermilion scarlet to date. Green foliage. The large flowers open out nearly flat, petals 1½ inches wide and five in number. The color is a clear, deep vermilion, smooth and without markings, except a purplish gloss. Per 100, \$3.00.

**Philadelphia.**—Flowers gigantic in size, 5 to 6 inches across; deep, rich ruby red; by far the finest of all red Cannas. Per 100, \$3.00.

PRESIDENT MCKINLEY.—Height 3 ft. Green foliage. Medium size flowers of good substance. Color a fiery, deep crimson. A profuse bloomer. Per 100, \$3.00

Leonard Vaughan.—Height 5 feet. The best large-flowered dark bronze-leaved variety to date. Color bright scarlet; petals measuring 1% inches. Per 100 86 00

Mine d'Or.—(Gold Mine.) Height 4 feet. Green foliage. Flower bright canary-yellow, the lower petal lightly marked with red. Per 100, \$6.00.

**President Cleveland.**—Height 3½ feet. One of the finest Cannas. Green foliage; free flowering. The very large flowers form well-shaped, compact trusses of bright orange scarlet. Per 100, \$8.00.

INGLEWOOD.—Height 5 feet. Foliage rich plum purple, extra strong grower. Flowers of the largest size, clear deep vermilion. Per 100. \$6.00.

#### Orchid=Flowered Cannas.

ALEMANNIA.—The gigantic flowering Canna. This kind produces the largest flowers which have been obtained as yet in the way of Cannas. The plant grows about 5 to 6 feet high. Numerous musa-like, glauccus leaves. The outer petals are scarlet orange with a very broad gold-yellow border. This we consider one of the best of this type. Per doz., \$1.00; per 100, \$3.00.

AMERICA.—Dark bronze leaves. Height 4½ feet. Flowers enormons of a very beautiful glowing red, flamed and striped. Per doz., \$1.50; 100, \$10.00.

ATALANTA.—Height 4 feet. Green foliage. Flowers deep orange carmine. Per 100, \$6.00.

AUSTRIA.—Much resembles the Burbank, but far inferior to it in substance of flowers. Per 100, \$3.00; per 1000, \$25.00.

BURBANK.—The flowers are truly gigantic in size, the three upper petals spreading fully 7 inches, and the form is really semi-double; toward the inner part the petals show fine crimson spots, all the rost of the flower is of a most beautiful, rich cannary-ycllow. The plant is a very strong grower 5 to 6 feet high, with leaves with a texture like rubber. Per 100, \$4.00; per 1000, \$30.00.

BURGUNDIA.—4 ft. Flowers resemble an expanded Cattleya of a bright golden yellow with scarlet spots, center fiery red. Per 100, \$4.00.

ITALIA.—Bright orange scarlet, with a very broad golden border. Per 100, \$3.00.

PARTENOPE.—Height 5 to 6 feet. Green foliage. Flowers of extra large size and fair substance. Color bright reddish salmon. Very showy and distinct. Early and more free flowering than most of its class. Per doz., \$1.00; per 100, \$8.00,

## BOSTON FERNS.

#### NEPHROLEPIS EXALTATA BOSTONIENSIS.

This popular fern has proven one of the best decorative plauts of recent introduction. It is a rapid grower, works up fast and is a good seller. The distinctive feature of this beautiful fern is, the fronds are much larger than the common sword fern, and do not stand so stiff, but droop over in a graceful manner. Excellent for making large specimen plants. Every Florist should grow the Boston Fern. We have the finest stock in the West. The plants we offer are strong, bushy, and not over-potted.

## \*\* ROSES.

## THE CRIMSON RAMBLER. THIS ROSE SOLD IN 6 AND 7 INCH POTS IN EASTERN CITIES THE PAST EASTER

AT \$5.00 AND \$7.00 EACH.

As a pot plant for retail sales this rose is incomparable. Its hundreds of blossoms all open together and seem to improve for at least two and even three weeks. The bright crimson color holds without fading and contrasts finely with the glossy foliage. IT FORCES EASILY. We have fine dormant stock.

2-year-old, 2 to 3 feet, well branched, own roots, per doz., \$2.00; per 100, \$15.00. 3-year-old, 4 to 5 feet, well branched, heavy budded, doz., \$3.00; per 100, \$20.00. 2½-inch pots, per doz., \$75c.; per 100, \$4.00.

YELLOW RAMBLER. (AGLAIA.) This rose is the hardiest yellow climbing rose yet introduced, and quality of hardiness has been an extremely difficult one to combine with yellow color. It blooms like Crimson Rampler in large trusses.

PINK RAMBLER, OR EUPHROSYNE. Color, a clear light red, with numerous golden anthers. Similar to Aglaia in nearly all respects, save color.

WHITE RAMBLER, OR THALIA. Pure white. In other characteristics very similar to Aglaia.

#### NEW ROSE, PINK BEDDER.

Most profuse bloomer of its class. Perfectly hardy and a free grower. In color it may be described as a charming peach-blow piuk, or rather pale rose madder, deepening towards the center, reminding one of a perfect Hermosa, although more double than the latter. The flower is medium size, very full, and beautifully cupped. In the open ground it is always a mass of flowers from Spring until early winter. Per doz., \$1.75; per 100, \$12.00.

#### NEW ROSE, SWEET LITTLE QUEEN.

Plants extra strong and vigorous; with handsome sea-green foliage; the buds are loug and when open, full and double. The outer petals are large, while those of the center are pointed like those of the Chrysanthenuum or Cactus Dahlia, which lends a peculiar aspect to the flower. Vcry sweet and floriferous. An entirely new form and color among Roses, Excellent for forcing and out-door use. Doz., \$1.75; 100, \$12.00.

#### NEW ROSE, RED MARECHAL NEIL.

A cross between General Jacqueminot and Marechal Ncil. Flower very large, well shaped, full; form of buds and flowers like the Yellow Neil; color carmine-red, shading to pink; very sweet; most floriferons on the last year's branches; growth very strong, clinibing; leaves very large. Received a Gold Medal at the Rose Exhibition in 1897 Frankfort-on-Main. Per doz., 75c.; per 100, \$5.00; 3½-inch pots, doz., \$1.25; per 100, \$10.00.

Tree, small, 1-year-old, grafted, each, 75c.

New Rose "CORONET." Mad. Geo. Bruant.\*

Sweetest, Largest, and Freest Blooming Pot Rose in Cultivation.

It is a cross between that superb variety Paul Neyron, and Bon Silene, grand old favorites. Coronet is a true ever-blooming Hybrid Tea, indentical in form and size with Paul Neyron.

No description or illustration cau do justice to the remarkable beauty and splendor of its flowers. They are graud in every way. From the time the plant is four inches high it blooms steadily, bearing in unbroken continuity, on good, stiff stems, magnificent large flowers that frequently measure from four to six inches in diameter. The form is full, deep and wonderfully double. It is full to the center and when entirely open the flowers do not look unlike Pæonies. This resemblance is made all the more striking by the peculiar color which is absolutely unlike any Rose we know. In the bud the color is a deep rich carmine, which, as the flowers open, lightens to a soft, clear pink, with each petal distinctly edged with silvery gray. The effect is beautiful. The fragrance is simply delicious. In flower and foliage it resembles Paul Neyron, while in vigor of growth the Bon Sileue blood is shown. It is a strong, healthy grower, forming a compact bush. In the open ground, where it is hardy, it does splendidly, commencing early in the season and continuing until severe freezing weather; slight protection during Winter will be beneficial. Probably the most valuable and satisfactory Rose for general cultivation sent out for

Price, strong, healthy plants, from 21/2-inch pots, per doz., \$1.50; per 100, \$8.00; 3½-inch pots, per doz., \$2.00; per 100, \$15.00.

## New Hardy Rose Princess of Naples.

A cross between Captain Christy and La France. The plants grow very solid and compact, and stronger than those of Captain Christy; have more spines and very dense, healthy, large, dark green foliage. It flowers very freely and easily, and keeps on flowering for a long time. The flowers are of good form; solid, but nevertheless of very loose, graceful appearance; color, delicate, satiny pink. The fragrance is excellent; better, stronger and more agreeable than that of La France. The whole plant is covered with flowers in the main flowering season. The fact that the plant grows so easily makes it especially suitable for early and late forcing and cut-flower purposes; also for pot plants and outdoor work.

Price, 21/2-inch, per doz., \$1.50; per 100, \$10.00. 4-inch, per doz., \$3.00, per 100, \$20.00.

CELOSIA (COXCOMB) PRES. THIERS.

#### CELOSIA. (Coxcomb.)

**President Thiers.**—This is the spleudid variety which is so much and effectively used in our parks. Our strain has been carefully selected, seed being saved only from plants less than 8 inches high, with perfect combs and of the very deepest velvety crimson and can be entirely depended upon. Sow seeds early. Pkt., 25c.; ¼ oz., 40c.

NEW MAMMOTH FLOWERING

#### ALLEGHENY HOLLYHOCKS.

Bloom the First Year from Seed.

A New Type of Hollyhocks.

The flowers of this new variety are so different from the Chater's that but for the similar habit of the plant it would not be taken for a Hollyhock. They are from tour to six inches in diameter, running from semi-double to double, and are finely fringed and curled. The colors are shell pink, rose and ruby red, a shade or two deeper at the center, and exquisitely tinted towards the edge. The flowers do not, as on the double Hollyhocks, rot on the stems, but drop as soon as they fade. Every bud to the top of the plant is developed into flowers, making the flowering season considerable longer. Trade pkt., 25c.; ½ oz., 50c.; oz., \$1.75.

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsme little bushes which are entirely covered with large flowers of deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the Fall. The best Lobelia for carpet beds, borders and pots. Trade pkt., 25c.

#### "Vaughan's Best" Mixture of Large Flowering Petunias.

This mixture is made up by ourselves and includes all the above sorts and colors of the Large flowering and Fringed sorts and the unsurpassed Superbissima varieties with their delicately veined throats in various colors, and their truly mammoth flowers. We are positive that no other Petunia Mixture can produce flowers with as wide a range of colors as our Vaughan's Best. Trade packet, (1000 seeds,) 50c.;

3 packets for \$1.25.

#### VAUGHAN'S DOUBLE PETUNIAS.

This is a mixture of the best large flowering and fringed double Petunias. Our seed is saved from plants grown in pots, carefully hand-fertilized, and will produce grand flowers. Of course everyone knows that only a certain percentage of double flowers may be expected from seed, but our mixture will produce from 20 to 30 per cent. of doubles, remainder will be choice, large, single flowers. Pkt., (600 seeds,) \$1.00. Double pure white, (250 seeds,) 50c.

Dwarf Double Lilliput, produces bushy plants, with small double flowers, which are partly spotted, blotched and self-colored; a very pretty plant. Pkt., (500 seeds). 50c.

Extra Large Flowering, Double Fringed. This extra choice strain produces about 30 per cent. of splendid double fringed flowers. Packet, (500 seeds,) 75c.

Collection of double Fringed Petunias, 6 varieties, 60c.

## VAUGHAN'S PANSIES.

An eighth ounce of Pansy seed contains about 2000 seeds.

There is nothing in our extensive list of Flower Seeds which is more important than Pansy seed, and we spare no trouble nor expense to have the very best strains that are to be had, and we know there is no better Pansy Seed to be had either in this country or in Europe than what we carry in stock and supply to our customers.

#### VAUGHAN'S "INTERNATIONAL"

Received the only reward for Mixed Pansies at the World's Fair. It is to-day better and more complete than ever. It contains the cream of the stock of 10 Pansy specialists. There is no better mixture in existence, as all the florists who saw or used it can tell you. Price, per oz., \$10.00; ½ oz., \$5.00; 1-8 oz., \$1.50; trade pkt., 50c.

#### VAUGHAN'S "GIANT MIXTURE."

This mixture is specially made up by us from all the separate colors of Giant Trimardeau, the Giant Bugnot and Cassier and several special strains which cannot be had any other way. If your trade demands large flowers there is no better mixture.

#### PRIMULA FORBESI. THE "BABY PRIMROSE."

Blooms in three months from seed.

This is unquestionably one of the most profitable plants to grow for cutflowers. An eastern Florist planted 10,000 for that purpose. It begins to bloom in three months after sowing and continues

to produce flowers for ten months in succession. The flowers are very graceful, not quite half an inch across and are of a most pleasing rose color with a yellow eye. They are borne on crect stems, 10 to 12 inches high, in tiers, and remain fresh for over

week after heing cut, new buds opening every day. The plant is a vigorous grower, thrives in the shade or sunshine, even in a cool house.

THE CLARA CEMETERY VASE.-It is one of the most useful,

as well as handsome articles ever placed on the market. Of beautiful solid mounted glass, 12 inches high. It takes the place of all the old tin cans, bottles, and like musightly receptacles often used in the cemetery where only the attractive and ornamental should be seen. The lower end is sharp-pointed so it can be embedded about six inches in the ground and stand firm. It will hold sufficient water to keep the flowers fresh and sweet, and will accommodate flowers with long as well as short stems. The vase is bell shaped and the top has a diameter of about five inches.

The CLARA VASE, boxed, per doz., \$3.50.
The CLARA VASE, in barrel lots,

per bbl., (3 doz.) packing included, \$10,00.

DIBBER,-For transplanting vegeta-ble plants; steel point very desirable. Each, 30c.; postpaid, 40c.

#### FERTILIZERS.

Trees, vines, plants and grass require food; cannot live on air and water alone. New soil may contain sufficient food for the growth of several crops, but a shortage of one or more food elements soon appears unless what is taken off in crops is replaced by manure and Fertilizer, there is not only a decreased yield, but the plant becomes unhealthy and stunted in growth. Fruit trees and vines to thrive require plenty of well balanced food. If the food is not in the soil of the orchard or field it will have to be put in. The necessary elements of plant food which are likely to be exhausted are Nitrogen, Phosphoric Acid and Potash. Barnyard manure and Commercial Fertilizers both contain these elements. Commercial Fertilizers contain them in more concentrated, available, better balanced form. Barnyard manure is out of balance—does not contain enough of the mineral elements. There are great differences in Fertilizers as there are in every kind of merchandise.

Vaughan's "ROSE GROWER" Bone Meal.—This is a special

brand we have put up for the trade. It is ground fine hence acts quickly. Free from acid, very white in appearance, and a superb article. It is made from bone accumulated in large slaughter houses, and should not be compared with the Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. The finer bone is ground the quicker the mild acid thrown out can be dissolved by the tiny roots of the plants and made use of as food. A finely ground bone can also be more evenly distributed through the soil. ANALYSIS .- Aminonia, 41/2 to 51/2 per cent. Total phosphoric acid, 22 to 25 per cent. Total bone phosphate, 48 to 54 per cent.

Price, 5 lbs., 25c.; 10 lbs., 40c.; 25 lbs., 60c.; 50 lbs.,

#### GLAZING TOOLS AND MATERIALS.

The use of "Mastica" avoids the necessity of repeatedly reglazing the houses, saving much time and expense. With "Mastica" can bed in or use outside, with a machine. Broken glass can be easily removed and replaced by new without the breakage of other glass, which usually occurs with hard putty. One gallon will cover about 290 running feet (one side.) Price per gallon, \$1.25; 6 gallons, \$6.50; 10 gallons, \$10.00.

SIEBERT'S IMPROVED GLAZING POINTS, which will surely keep greenhouse glass from slipping and being made out of zinc they will not rust, but will last for many years. Guaranteed to keep large or small glass just where it is to stay, and hold it tight as long as the sash bars last. They are very easy to drive and made so that they will not wedge or crack the glass in driving them. The head

answers two purposes. First, it gives a good surface and makes it very easy to drive with a chisel. Second, the point is very easily pulled out when repairing a greenhouse roof. They are made in two sizes, 5% and 3% inch long, and are put up in one pound packages. **Price**, 40 cents a pound.

There are over 1200 points in a pound package of 5%.

#### LAWN FERTILIZER.

This fertilizer is non-odorons, dry, fine and easy to to apply. Two or three applications during a season, just before a rain or watering, at the rate of one pound to each 100 square feet of grass keeps it in a flourishing condition and enables it to withstand the scorching sum. This fertilizer can also be used on all garden truck, flower and house plants.

#### QUANTITIES TO USE AND PRICES.

10 lb, bag for 1,000 sq. feet of lawn, or 500 sq. feet

#### UNLEACHED HARD WOOD ASHES.

This is also a splendid fertilizer for the lawn and garden, containing all of the fertilizing elements except nitrogen. If used on the lawn at the rate of a ton or more per acre as a first application, a subsequent annual dressing of three hundred pounds will insure a thrifty growth of dark color, exempt from ill effects of dry weather and free from weeds. It is also very beneficial to vegetable and field crops, and especially recommended to Cabbage and Onion Growers.

Our own agent employed by us for fourteen years' secures our Holly and gives every case his personal inspection. This accounts for the record and reputation of "Vaughan's Holly." We avoid 'open market' stock, packed and 'salted' to sell without regard to solid packing or uniform high quality. Such cases must often be sacrificed and can be sold cheap. Remember "Deep Green Glossy Leaves with Bright Red Berries" is what we give you. It "gets there." A case of Holly in front of the store is worth more than ten cases which are "coming." Our qualities in Holly and Green, have become the standard in this market, the leading center for this article in the West. These high grades we made and maintain, have never been excelled so far as we have seen. Our long experience secures right dates for picking to hold quality bright and fresh until sold. Our railroad arrangements for quick time and saving costs are all right.
