PREFATORY.

THE MALONEY DIRECTORY Co. present to the public their Macon City Directory for 1899, with the belief that in point of information and completeness it will give entire satisfaction and reflect credit upon the city. We follow the rule adopted in all other cities in which we publish, i. e., we do not stop at the city limits proper, or any imaginary line, but embrace all the suburbs tributary to the city. We find the nearest average number throughout the different streets of the city to be "three" to each name occupying space in the DIRECTORY. We have recorded in the general directory 14,905 names, of which 8,631 are white and 6,274 are colored. Consequently, at the average stated above Macon has to-day a population (including suburbs) of 44,715.

In conclusion, we beg to return our most cordial thanks to those who have so generously given us their support, and to them we hereby dedicate this work. To the public generally who have kindly aided us in getting up the data, etc., we return our acknowledgments. To our patrons and the public in general, we promise to make each succeeding volume of THE MALONEY DIRECTORY Co.'s Macon City Directory more worthy of commendation and patronage.

Respectfully,

D. L. ADAMS,
Manager.

November, 1898.

The AUGUSTA CHRONICLE was established in 1785, but is still young, vigorous and progressive, and fully up to all the requirements of a first-class newspaper. Democratic in politics, honest and fearless in the advocacy of all good measures—the organ of no ring or clique—it has no friends to reward nor enemies to punish. The purpose of The Chronicle is to advance the general good, and support such measures as will enure to the moral, social, educational and material advancement of the State and Country.

The columns of The Chronicle are free from taint of sensationalism and the depravity engendered by immoral publications.

The Telegraph News service is full and complete. The Chronicle contains an average of nine thousand words per day from the Southern Associated Press. This service is supplemented by specials from able and talented correspondents at Atlanta and Washington, who are indefatigable in their labors to give the latest news and the most interesting letters.

The Chronicle publishes the full telegraphic service of the Southern Associated Press.

The Semi-Weekly Chronicle contains eight pages, or ninety-six columns per week, and is filled with important information upon all subjects.

## THE CARLSBAD OF AMERICA

Owned by the  
United States Government  
and under its direct supervision.

On April 20th, 1832, the United States government, by Act of Congress, set apart and dedicated to the people of the United States, 2,560 acres of land at Hot Springs, Ark., as a National Reservation, not to be entered, located or appropriated for any other purpose than its development into a great American sanitarium of the first rank, where those afflicted with disease could find relief, and be cared for during their stay in a manner commensurate with their condition in life. There were at first many obstacles in the way of a successful accomplishment of this purpose, by no means the least of which was the absence of necessary transportation facilities. The establishment of direct railroad connection with all parts of the country, in 1874, disposed of this difficulty, however, and since that time the development of Hot Springs has been rapid, substantial and even wonderful. In fact this

charming resort of the Ozarks is, today, the peer of any health resort of the Old World and immeasurably the superior in every respect of any of its American contemporaries.

The pre-eminence of the Hot Springs of Arkansas is due to the following facts:

1. The unquestioned value of the waters, which is recognized the world over and proven by three-quarters of a century of practical results.

2. The official endorsement of the United States government, which owns these springs, and, through its properly appointed officials, superintends and directs the distribution of the waters, regulates the method of using them, and even fixes the maximum charges for their enjoyment, thereby protecting the people from extortion and placing the means of relief within the reach of everyone. It should be

to and down the Grand Boulevard to the Army and Navy Hospital, is one of the greatest attractions at the Springs, and should not be overlooked by any one.

Happy Hollow is the lair of the Hot Springs burro, a large drove of these interesting little brutes being kept here for the use of visitors and pleasure parties. On their backs the intricacies of the upper glens may be explored, and as one does not present a particularly imposing appearance mounted upon one of these diminutive animals, the effect is ridiculous enough to furnish endless amusement, to say nothing of the wholesome exercise such a ride involves.

#### MOUNTAIN VALLEY SPRINGS.

The Mountain Valley Springs are located among the Ozarks, about twelve miles from Hot Springs, and the trip affords an excellent opportunity to become acquainted with Nature's finest handiwork. The journey can be made any way to suit the inclination of the tourist. There is a regular hack line running daily from the hotels at Hot Springs to Mountain Valley. There is the more private and independent way of hiring your own horse and buggy, and driving and stopping at will wherever you are interested, or it can be made the objective point of a horseback tour. It is one of the most charming rides in the vicinity. The road is over the mountains, plunging into gorges and through enchanted glens. Notwithstanding it has been recently improved, it is still a mountain road, and at times leads by points of thrilling interest. This very enjoyable ride terminates in one of the most beautiful valleys in the Ozark range. On all sides are the mountain peaks, shutting in a portion of the earth of paradisiacal beauty, peace and quiet. Tall primeval forest trees are singing Nature's hymns over the valley. The patches of open are verdant with grass and shrubbery, and an air of seclusion and rest is all-prevalent. You will scarcely expect to find here a modern six-story hotel with "all the latest conveniences and comforts," as the hotel men say—and you don't. The hotel is entirely in keeping with the surroundings. You can expect quiet and rest at an inn, but not at a modern resort hotel. This is just the difference between the big bustling hosteleries of the city we have just left behind, and the low quaint structure nestling in Mountain Valley. Its picturesque architecture is Southern in character, being one-story in height, and covering a great deal of ground. Cool, spacious verandahs cover the whole front of the hotel. Trailing vines overrun it in great profusion, and, altogether, it is a charmingly rare picture, and fills the beholder with an overpowering desire to settle down here, bag and baggage, and stay until satisfied with Nature's charms.

Nature sometimes scores a bull's eye in her arrangement of things, and this feat was accomplished when these springs of health-renewing mineral waters were caused to burst forth in the midst of this beautiful valley.

It is a matter of regret that the whole valley and springs could not have been located at a greater distance from Hot Springs, so that they could have had a chance at fame on their own merits.

The waters are very valuable, as their combined minerals constitute a curative medium for internal use not equalled. The analysis shows a large percentage of bicarbonate of iron, lime and magnesia, sulphate of lime, chloride of iron, chloride of iodine, and phosphoric acid, but not even a trace of organic matter.

They cure or benefit Bright's disease, and all kidney troubles, all dropsies of a kidney or liver origin, including cirrhosis, and are of great value in the treatment of female complaints.

#### POTASH-SULPHUR SPRINGS.

A short mile from Lawrence Station, and seven miles from Hot Springs, are located the health-giving Potash-Sulphur Springs. Ten trains pass Lawrence daily, and are met by hacks which convey visitors to and from the Springs. A handsome two-story hotel, neatly furnished, and numerous cottages afford the best of accommodations to guests, and the table is satisfactory in all respects. The air at Potash-Sulphur is at all times pure and balmy, while surrounding mountains and valleys afford picturesque scenery and charming walks and drives. Deer, wild turkey, quail and other game afford good shooting, and the Ouachita river, one mile distant, furnishes abundant sport for the angler. The Springs, which are near the hotel, are five in number, but all possessing similar properties. The waters are sulphuretted alkaline, and are highly esteemed by the medical fraternity of Hot Springs, who send many of their patients there to spend a few days while resting after taking a course of hot baths. Dr. John C. Branner, State Geologist of Arkansas, says of them: "The importance of the Potash-Sulphur waters is too well known to admit of question \* \* \* The chief ingredients are sodium sulphate, sodium carbonate and potassium chloride, the sodium amounting to 13.66 grains per gallon, the potassium to 3.51 grains per gallon."

The following diseases are cured or benefited by the use of the waters of this valuable spring: Dyspepsia, gout, rheumatism, affections of the liver, kidneys and urinary organs, female diseases, dropsy and all complaints originating from an excess of acid in the system, skin diseases and chronic dysentery. In diseases of the kidneys and urinary passages, stricture, gleet, and especially in calculous affections, there is no known remedy so efficacious as this water. It acts as a solvent in the various forms of gravel, and is very efficacious in the treatment of all mercurial diseases.

Among the other resorts are Gillen's White Sulphur Spring; Spring Lake Hotel; Thousand Dripping Springs, and many others.

# The Hale Baths

**Hot Springs, Ark.**

The house is the largest on the reservation, and newly constructed of St. Louis pressed brick, marble finish. Imperial Royal and Mott's Porcelain Tubs.

Perfect ventilation. Steam heat. Private Dressing rooms. Accomplished attendants.

**G. H. EASTMAN, Manager.**

# Imperial Bath House.

**Hot Springs,  
Ark.**

Near United States Army  
Bath House.

Opposite Eastman Hotel.

Solid Royal Porcelain Tubs. Individual private dressing rooms, with couch. No other bath house has them. Bath rooms of Italian marble, tile floors. Perfect ventilation. Cooling and dressing rooms and small gymnasium. Only skilled attendants employed. Sweat rooms, with tub vapor douche, shower, needle, foot or leg and electric baths, hot or cold. Special appliances for lady bathers. Water direct from springs; not exposed to air until it reaches the tub.

Sweet as June Roses is the linen that is laundered with the perfection of skill for which the  
Cresent Steam Laundry is famous. Clean, white and spotless, and with a domestic finish  
that cannot be duplicated in this town, is the result of our exquisite methods and careful attention to  
details.

Sweet as June Roses is the linen that is laundered with the perfection of skill for which the  
Crescent Steam Laundry is famous. Clean, white and spotless, and with a domestic finish  
that cannot be duplicated in this town, is the result of our exquisite methods and careful attention to  
details.

**DON'T LEND YOUR UMBRELLA.**

Did you ever lend your umbrella? If so, did you ever get it back? If you got it back, didn't you have to go after it or *hunt* for it?

Now, if you never loaned your DIRECTORY, we recommend you never to try it, for you will suffer a worse fate than with your parachute!

Borrowers, generally, are chronically such. Their conscience is "scared as with a hot iron." Beyond the shadowy vision of its ultimate reappearance, you will never see it again. The man who borrows a Directory never buys or subscribes for it (or for anything else). Ask him to do so, "he doesn't need it," "never has any use for it," "everybody knows him, he knows more about the people in this city than you can tell him." Yet the virgin freshness of its leaves has hardly been sullied by human touch before this individual wants to borrow your Directory. "He will bring it back right away."

**THIS IS PROPHECIC!**

Keep your Directory; it has cost you money; you can't buy another. It is out of print, for we publish only the number subscribed for.

There is Only One { **Southern Dental Parlors** } 614 Cherry st. Macon, Ga.

Our Reference—a Ten Years Record in Macon.

|                              |                               |                                                                                           |

Merchant Tailors

General Offices and Salesrooms 109 Cotton Ave.

MACON, GA.

### Men of Culture,

who understand all the refinements of being well and correctly dressed, are our best patrons, because we know the needs of a gentleman and how to cater successfully to his taste in fabrics, as well as giving his clothing that elegance of finish and perfect fit and workmanship that the well dressed man demands. Our suitings and top coatings are unrivalled, and our prices reasonable.

### DON'T LEND YOUR UMBRELLA.

Did you ever lend your umbrella? If so, did you ever get it back? If you got it back, didn't you have to go after it or *hunt* for it?

Now, if you never loaned your DIRECTORY, we recommend you never to try it, for you will suffer a worse fate than with your parachute!

Borrowers, generally, are chronically such. Their conscience is "seared as with a hot iron." Beyond the shadowy vision of its ultimate reappearance, you will never see it again. The man who borrows a Directory never buys or subscribes for it (or for anything else). Ask him to do so, "he doesn't need it," "never has any use for it," "he knows more about the people in this city than you can tell him," "he knows everybody" and "**VICE VERSA, Everybody knows him**" (as a borrower). Yet the virgin freshness of its leaves has hardly been sullied by human touch before this individual wants to borrow your Directory. "He will bring it back right away."

### THIS IS PROPHE'TIC!

Keep your Directory; it has cost you money; you can't buy another. It is out of print, for we publish only the number subscribed for.

**A. T. HOLT,** Real Estate and Insurance Agent.

# Charleston Line.

❖ COMPRISES ❖

The  
Great  
Southern  
Freight  
And  
Passenger  
Line.

Clyde's New York, Charleston and Florida  
Steamship Lines, the South Carolina  
and Georgia R. R. and con-  
necting Railroads

TO AND FROM

New York, Boston, Philadelphia  
And All Interior New England  
and Northeastern Towns.

This Line is thoroughly equipped and possesses every facility for quick and safe transportation of freight. Rates always as low as by any other line. Order shipments via Clyde's Line, care Agent, South Carolina & Georgia Railroad, Charleston, S. C.

## Unsurpassed Passenger Accommodation

No Line North or South offers finer Passenger Accommodations—connection is made at Charleston with the elegant steamers of the Clyde Line, which are of modern construction, and provided with every appliance for safety and comfort.

For any desired information in regard to passage or freight, apply to

8%

Absolute Safety. Perfect Security. Guaranteed Dividends.

OFFERED BY THE

Equitable Building and Loan  
ASSOCIATION

OF

MAGON, GEORGIA

Organized May 23, 1893.

GEO. A. SMITH, General Manager. 461 Third St. opp. The Dannenberg Co.

SERIAL STOCK.

The Stock is divided into shares of \$100.00 each. The shares are paid for by monthly installments of \$1.00 for the first month, and sixty cents each month thereafter. The money thus accumulating with interest and profits, is loaned to members of the Association on real estate security and on its own stock as security. These profits are annually credited to stock. These credits, added to monthly payments, rapidly increase the value of stock until it reaches par value of \$100.00 per share. When the stock has thus matured, the owner may withdraw from the Association \$100.00 in cash for each share held.

PAID UP STOCK.

For the convenience of those who may prefer to pay for the stock in advance at one payment, paid up stock is issued. It is sold at \$50.00 per share, and bears interest on amount paid therefor at the rate of six per cent. per annum, payable in cash semi-annually. The amount of dividends thus paid is deducted from the profits earned, the balance of said profits being credited to the stock. When the amount standing to the credit of such stock equals \$100.00, the stock is deemed mature, and the owner shall receive therefor in cash \$100.00 per share.

This stock may be withdrawn at any time after six months, and the owner shall receive the full amount paid therefor, with interest at the rate of six per cent. for the first year, seven per cent. for the second year, and eight per cent. per annum thereafter until maturity, the cash dividends being a part of such payments.

FIXED DIVIDEND STOCK.

To meet the wants of investors who require an income from their money and at the same time desire to have their capital quickly available, this Association will issue a limited amount of **Full Paid 8 Per Cent. Stock at \$100** cash per share. Certificates are issued in amounts of even hundreds and draw 8 per cent. per annum, payable semi-annually, on the first of May and November in each year. This stock can be withdrawn after 6 months with 60 days' notice. The Association reserves the right to retire this stock at the expiration of seven years from date of certificate.

The Equitable Building and Loan Association has deposited with the Union Savings Bank and Trust Co. as Trustee, for the benefit of its Stockholders, according to the laws of the State of Georgia, 75 per cent. of its securities on improved and productive real estate, the value of which is more than double the amount of its loans, with insurance on the improvements on this real estate for one and a half times as much as the same.
