SUBJECT: Applications Regarding Reparations Matters

TO: Chief
Civil Affairs Section
GHQ, SCAP
APO 500

1. Information was received by telephone from your headquarters that applicants for the authorized use of reparations equipment should receive a reply within sixty days from the date the application is submitted.

2. Appropriate local Japanese Government agencies were surveyed to determine if the applications are being processed and transmitted promptly. It was learned that the Kinki Finance Bureau, which handles applications pertaining to arsenals, and the prefectural governments, which transmit to the Osaka ITI Bureau applications regarding privately-owned plants, process the applications with a minimum of delay. However, Osaka ITI Bureau action was found to be dilatory and very inefficient. Failure of Osaka ITI Bureau to process the applications promptly is attributed to low priority assigned to reparations matters by the agency. The chief of the bureau promised corrective action after the deficiency was brought to his attention.

3. Inclosed herewith are lists of applications which are dated more than sixty days ago and to which SCAP reply has not yet been received. Inclosure #1 lists applications pertaining to arsenals, transmitted through the Kinki Finance Bureau, and Inclosure #2 lists applications pertaining to privately-owned plants, transmitted through the Osaka ITI Bureau. It is requested that the applications be traced.
