Attached herewith is the above concentration plan submitted by Kanto Industrial Co. Ltd., of which we hereby explain you as follows:

1. The subject plan was ordered to be submitted by Mr. Sprow of your headquarters on 5 Feb. this year under presence of Commanding Officer of Police Reserve Force in Suzumenomiya.

2. Both the plan and the expenses estimated for the concentration work are considered reasonable.

3. Your issuing us a written order for carrying out the concentration work will be appreciated, for it would be both quite appropriate and convenient for management of the office procedures.

4. Upon a view that the concentration work is required to be carried out quickly, that it seems difficult to get disbursement from Police Reserve Unit and that Ministry of International Trade & Industry authorities considers it quite an exceptional procedure to draw disbursement FROM the general reparation maintenance expenses, we ask your special favor to instruct us from where the expenses should be disbursed.

SUBJECT: Transmittal of Concentration Plan of Reparation Machinery Submitted by Kanto Industrial Co. Ltd.

TO : Chief,
Headquarters Kanto Civil Affairs Region)
APO 500
(Attention: Industry & Distribution Div.
Economic Section)

Attached herewith is the above concentration plan submitted by Kanto Industrial Co. Ltd., of which we hereby explain you as follows:

1. The subject plan was ordered to be submitted by Mr. Sprow of your headquarters on 5 Feb. this year under presence of Commanding officer of Police Reserve Force in Suzumenomiya.

2. Both the plan and the expenses estimated for the concentration work are considered reasonable.

3. Your issuing us a written order for carrying out the concentration work will be appreciated, for it would be both quite appropriate and convenient for management of the offics procedures.

4. Upon a view that the concentration work is required to be carried out quickly, that it seems difficult to get disbursement from Police Reserve Unit and that Ministry of International Trade & Industry authorities considers it quite an exceptional procedure to draw disbursement FROM the general reparation maintenance expenses, we ask FOR your special favor to instruct us from where the expenses should be disbursed.
