This chapter may be cited as the “Rural Electrification Act of 1936”. [May 20, 1936, ch. 432, Title I, §1, 49 Stat. 1363; 1939 Reorg. Plan No. II, §5, eff. Secretary of the Treasury may determine, upon the security of the obligations of borrowers from the Administrator appointed pursuant to the provisions of this Act or from the Administrator of the Rural Electrification Administration established by Executive Order Numbered 7037. Interest rates on the unpaid balance of any loans made by the Reconstruction Finance Corporation to the Administrator prior to July 1, 1947, shall be adjusted to the interest rate, if any, established for loans made after June 30, 1947, in accordance with the foregoing provision: Provided, That such obligations incurred for the purpose of financing the construction and operation of generating plants, electric transmission and distribution lines, or systems and for the purpose of financing the improvement, expansion, construction, acquisition, and operation of facilities to render telephone service shall be fully amortized over a period not to exceed thirty-five years, and that the maturity of such obligations incurred for the purpose of financing the wiring of premises and the acquisition and installation of electrical and plumbing appliances and equipment shall not exceed two-thirds of the assured life thereof and not more than five years. The Administrator is hereby authorized to make all such endorsements, to execute all such instruments, and to do all such acts and things as shall be necessary to effect the valid transfer and assignment to the Secretary of the Treasury of all such obligations, and to execute such trust instruments as shall be agreed upon by the Administrator and the Secretary of the Treasury providing for the holding in trust by the Administrator of all such obligations for the Secretary of the Treasury as security for loans to the Administrator heretofore made by the Reconstruction Finance Corporation or made or to be made by the Secretary of the Treasury. All rights, interests, obligations, and duties of the Reconstruction Finance Corporation arising out of loans made or authorized to be made to the Administrator are, as of the close of June 30, 1947, vested in the Secretary of the Treasury; the Reconstruction Finance Corporation is authorized and directed to receive all loans outstanding on that date, plus accrued unpaid interest, theretofore made to the Administrator under the provisions of this Act, and all notes and other evidences thereof and all obligations constituting the security therefor. The Secretary of the Treasury shall cancel notes of the Reconstruction Finance Corporation, and sums due and unpaid upon or in connection with such notes at the time of such cancellation, in an amount equal to the unpaid principal of the loans so transferred, plus accrued unpaid interest through June 30, 1947. Subsequent to June 30, 1947, the Reconstruction Finance Corporation shall make no further loans or advances to the Administrator; and the Secretary of the Treasury is hereby authorized and directed, in lieu of the Reconstruction Finance Corporation, to lend or advance to the Administrator, in accordance with the provisions of this subsection 3 (a), any unobligated or unadvanced balances of the sums which the Reconstruction Finance Corporation has theretofore been authorized and directed to lend to the Administrator. Repayments to the Secretary of the Treasury on such loans or advances shall be treated as a public-debt transaction of the United States.

(b) There are hereby authorized to be appropriated such sums as the Congress may from time to time determine to be necessary for the purposes of this Act as hereinafter provided.

(c) Twenty-five per centum of the annual sums herein made available or appropriated for loans for rural electrification pursuant to sections 4 and 5 of this title shall be allotted yearly by the Administrator for loans in the several States in the proportion which the number of their farms not then receiving central station electric service bears to the total number of farms of the United States not then receiving such service: Provided, That if any part of such sums are not loaned or obligated during the first six months of the fiscal year for which they are made available, such part shall thereafter be available for loans by the Administrator without allotment: Provided, however, That not more than 25 per centum of said sums may be employed in any one State or in all of the Territories. The Administrator shall within ninety days after the beginning of each fiscal year determine for each State and for the United States the number of farms not then receiving such service.

(d) The remaining 75 per centum of such annual sums shall be available for rural electrification loans in the several States and in the Territories, without allotment as herein above provided in such amounts for each State and Territory as, in the opinion of the Administrator, may be effectively employed for the purposes of this Act, and to carry out the provisions of section 7: Provided, however, That not more than 25 per centum of said unallotted annual sums may be employed in any one State, or in all of the Territories.

(e) If any part of the annual sums made available for the purposes of this Act are not loaned or obligated during the fiscal year for which they are made available, such unexpended or unobligated sums shall be available for loans by the Administrator in the following year or years without allotment: Provided, however, That not more than 25 per centum of said sums for rural electrification loans may be employed in any one State or in all of the Territories.

Except as otherwise provided by this title, such loans shall be made under the same terms and conditions as are provided in section 4 of this Act, for the purpose of financing the improvement, expansion, construction, acquisition, and operation of telephone lines, facilities or systems to furnish and improve telephone service in rural areas: Provided, however, That the Administrator, in making such loans, shall give preference to persons providing telephone service in rural areas, to public bodies now providing telephone service in rural areas and to cooperative, nonprofit, limited dividend, or mutual associations: And, That for a period of one year from and after the effective date of this title applications for loans received by the Administrator from persons who on the effective date of this title are engaged in the operation of existing telephone service in rural areas shall be considered and acted upon before action is taken upon any application received from any other person for any loan to finance the furnishing or improvement of telephone service to substantially the same subscribers. certificates to the applicant, no loan shall be made under this section unless the Administrator shall determine (and set forth his reasons therefore in writing) that no duplication of lines, facilities, or systems, providing reasonably adequate services will result therefrom.

Such notes shall be in such form and denominations and have such maturities and be subject to such terms and conditions as may be agreed upon by the Administrator and the Secretary of the Treasury. Such notes shall bear interest at a rate fixed by the Secretary of the Treasury, taking into consideration the current average market yield of outstanding marketable obligations of the United States having maturities comparable to the notes issued by the Administrator under this section. The Secretary of the Treasury is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which such securities may be issued under such Act, as amended, are extended to include the purchase of notes issued by the Administrator. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes shall be treated as public debt transactions of the United States: Provided, however, That such interim notes to the Secretary of the Treasury shall not be included in the totals of the budget of the United States Government and shall be exempt from any general limitation imposed by statute on expenditures and net lending (budget outlays) of the United States.

(b) The Secretary of the Treasury is authorized and directed to purchase for resale obligations insured through the fund when offered by the Administrator. Such resales shall be upon such terms and conditions as the Secretary of the Treasury shall determine. Purchases and resales by the Secretary of the Treasury hereunder shall not be included in the totals of the budget of the United States Government and shall be exempt from any general limitation imposed by statute on expenditures and net lending (budget outlays) of the United States.

(c) The Administrator may, on an insured basis or otherwise, sell and assign any notes in the fund or sell certificates of beneficial ownership therein to the Secretary of the Treasury or in the private market. Any sale by the Administrator of notes individually or in blocks shall be treated as a sale of assets for the purposes of the Budget and Accounting Act, 1921, notwithstanding the fact that the Administrator, under an agreement with the purchaser or purchasers, holds the debt instruments evidencing the loans and holds or reinvests payments thereon as trustee and custodian for the purchaser or purchasers of the individual note or of the certificate of beneficial ownership in a number of such notes. Security instruments taken by the Administrator in connection with any notes in the funds may constitute liens running to the United States notwithstanding the fact that such notes may be thereafter held by purchasers thereof.

SEC. 305. INSURED LOANS—(a) The Administrator is authorized to make insured loans under this title and at the interest rates hereinafter provided to the full extent of the assets available in the fund, subject only to limitations as to amounts authorized for loans and advances as may be from time to time imposed by the Congress of the United States for loans to be made in any one year, which amounts shall remain available until expended: Provided, That the Congress in the annual appropriation Act may also authorize the transfer of any excess cash in the fund for deposit into the Treasury as miscellaneous receipts: And provided further, That any such loans and advances shall not be included in the totals of the budget of the United States Government and shall be exempt from any general limitation imposed by statute on expenditures and net lending (budget outlays) of the United States.

(b) Insured loans made under this title shall bear interest at 5 per centum per annum, except that the Administrator may make insured loans to electric or telephone borrowers at a lesser interest rate, but not less than 2 per centum per annum, if, in the Administrator's sole discretion, the Administrator finds that the borrower—

(1) has experienced extreme financial hardship; or

(2) cannot, in accordance with generally accepted management and accounting principles and without charging rates to its customers or subscribers so high as to create a substantial disparity between such rates and the rates charged for similar service in the same or nearby areas by other suppliers, provide service consistent with the objectives of this Act.

(c) Loans made under this section shall be insured by the Administrator when purchased by a lender. As used in this Act, an insured loan is one which is made, held, and serviced by the Administrator, and sold and insured by the Administrator hereunder; such loans shall be sold and insured by the Administrator without undue delay.

(d) The Administrator shall make a telephone loan under this title to an applicant therefor who is otherwise qualified to receive such a loan at the highest interest rate (but not less than the lowest interest rate, nor higher than the highest interest rate, specified in subsection (b) at which the borrower would be capable of producing net income or margins before interest payments of at least 100 percent (but not more than 150 percent) of the interest requirements on all of the applicant's outstanding and proposed loans.

GUARANTEED LOANS; ACCOMMODATION AND SUBORDINATION OF LIENS; ASSIGNABILITY OF GUARANTEED LOANS AND RELATED GUARANTEES.—The Administrator may provide financial assistance to borrowers for purposes provided in the Rural Electrification Act of 1936, as amended, by guaranteeing loans, in the full amount thereof, made by the Rural Telephone Bank, National Rural Utilities Cooperative Finance Corporation, and any other legally organized lending agency, or by accommodating or subordinating liens or mortgages in the fund held by the Administrator as owner or as trustee or custodian for purchases of notes from the fund, or by any combination of such guarantee, accommodation, or subordination. The Administrator shall not provide such assistance to any borrower of a telephone loan under this Act unless the borrower specifically applies for such assistance. No fees or charges shall be assessed for any such guarantee, accommodation, or subordination. With respect to guarantees issued by the Administrator under this section, on the request of the borrower of any such loan so guaranteed, the loan shall be made by the Federal Financing Bank and at a rate of interest that is not more than the rate of interest applicable to other similar loans then being made or purchased by the Bank. Guaranteed loans shall bear interest at the rate agreed upon by the borrower and the lender. Guaranteed loans, and accommodation and subordination of liens or mortgages, may be made concurrently with an insured loan. The amount of guaranteed loans shall be subject only to such limitations as to amounts as may be authorized from time to time by the Congress of the United States: Provided, That any amounts guaranteed hereunder shall not be included in the totals of the budget of the United States Government and shall be exempt from any general limitation imposed by statute on expenditures and net lending (budget outlays) of the United States. As used in this title, a guaranteed loan is one which is initially made, held, and serviced by a legally organized lending agency and which guaranteed by the Administrator hereunder. A guaranteed loan, including the related guarantee, may be assigned to the extent provided in the contract

of guarantee executed by the Administrator under this title; the assignability of such loan and guarantee shall be governed exclusively by said contract of guarantee.

SEC. 306A. PREPAYMENT OF LOANS.—(a) Except as provided in subsection (c), a borrower of a loan made by the Federal Financing Bank and guaranteed under section 306 of this Act may prepay such loan (or any loan advance thereunder) by paying the outstanding principal balance due on the loan (or advance), if—

(1) the loan is outstanding on July 2, 1986;

(2) private capital, with the existing loan guarantee, is used to replace the loan; and

(3) the borrower certifies that any savings from such prepayment will be passed on to its customers or used to improve the financial strength of the borrower in cases of financial hardship.

(b) No sums in addition to the payment of the outstanding principal balance due on the loan may be charged against the borrower, the fund, or the Rural Electrification Administration.

(c) (1) A borrower will not qualify for prepayment under this section if, in the opinion of the Secretary of the Treasury, to prepay in such borrower's case would adversely affect the operation of the Federal Financing Bank.

(2) Paragraph (1) shall be effective in fiscal year 1987 only for any loan the prepayment of the principal amount of which will cause the cumulative amount of net proceeds from all such prepayments made during such year to exceed \$2,017,500,000.

(d) (1) The Administrator shall permit, subject to subsection (a), prepayments of principal on loans in fiscal year 1987 under this section or Public Law 99-349 in such amounts as to realize net proceeds from all such prepayments in fiscal year 1987 in an amount not less than \$2,017,500,000.

(2) The Administrator shall establish—

(A) eligibility criteria to ensure that any loan prepayment activity required to be carried out under this subsection will be directed to those cooperative borrowers in greatest need of the benefits associated with prepayment, as determined by the Administrator; and

(B) such other eligibility criteria as the Administrator determines are necessary to carry out this subsection.

(e) Any guarantee of a loan prepaid under this section shall be fully assignable under the provisions of section 306 of this Act and transferrable. However, the Administrator may require that any such guarantee, if transferred or assigned, be transferred or assigned to a loan or security that, if sold, will be grouped with non-guaranteed loans or securities and sold in a manner to ensure that such sale will not unreasonably compete with the marketing of obligations of the United States.

The exception contained in the preceding sentence shall be effective for the period ending September 30, 1987.

(b) Notwithstanding subsection (a), a direct or insured loan may be prepaid by an electric borrower at the lesser of the outstanding principal balance due thereon or the present value thereof discounted from the face value at maturity at the rate set by the Administrator if the borrower is an electrical organization which resulted from a merger or consolidation between a borrower and an organization which, prior to October 1, 1987, prepaid its direct or insured loans pursuant to this section. Prepayments by a borrower hereunder shall be made not later than one year after the effective date of the merger, consolidation, or other transaction. The discount rate to be set by the Administrator for direct or insured loans prepayments hereunder shall be based on the current cost of funds to the Department of the Treasury for obligations of comparable maturity to those being prepaid. If a borrower prepays using tax exempt financing, the discount shall be adjusted to make the discount equivalent to fully taxable financing. The borrower shall certify in writing whether the financing will be tax exempt and shall comply with such other terms and conditions as the Administrator may establish which are reasonable and necessary to implement this provision. As used in this section, the term "direct loan" means a loan made under section 4.

source at reasonable rates and terms consistent with the loan applicant's ability to pay and the achievement of the Act's objectives, he may request the loan applicant to apply for and accept such a loan concurrently with an insured loan, subject, however, to full use being made by the Administrator of the funds made available hereunder for such insured loans under this title. **SEC. 311. PRIVATIZATION PROGRAM.**-The Administrator shall establish a privatization demonstration program which shall permit borrowers to repay loans made by the Federal Financing Bank and guaranteed under section 306 of this Act by paying the outstanding principal balance due on the loans. Federal Financing Bank loans shall be refinanced using the existing section 306 loan guarantee, with private capital, in an amount not to exceed the outstanding principal amount

No guarantee or other financial assistance shall be available to the borrowers to refinance outstanding loans prepaid hereunder. In the case of an electric borrower prepaying under this section or otherwise prepaying a loan at less than the outstanding principal balance due on the loan, after the date of prepayment, no loans, loan guarantees or other financial assistance shall be provided pursuant to this Act to the borrower or its successors or for the purpose of financing the construction or operation of generating plants or bulk transmission lines for the purpose of furnishing electric energy in the area served on a retail or wholesale basis by such borrower. In determining the service area of electric borrowers, the Administrator shall make allowances and adjustments to avoid adversely affecting the eligibility of other borrowers for financial assistance under this Act where such borrowers are currently providing electric supply services for retail loads in the same area and which are reasonably expected to continue providing electric supply services for retail loads in such areas. In the event that the borrower prepaying under this section shall be using a majority of its generating capacity to directly serve its retail consumers, other borrowers which are purchasing power from such borrower as of September 30, 1986, shall continue to remain eligible for financing under this Act for needs in their service area. Nothing in this section shall prohibit a borrower which has prepaid pursuant to this section from participating in generation and transmission projects with borrowers which have not prepaid, so long as the borrower which has prepaid utilizes private capital financing without financial assistance under this Act: Provided further, That nothing in this section shall prohibit short-term power purchases by borrowers which have prepaid under this section from borrowers which have not prepaid. The Administrator shall issue regulations to implement this section within 60 days.

(2) **RURAL ECONOMIC DEVELOPMENT SUBACCOUNT**.—

(A) **MAINTENANCE OF ACCOUNT**.—The Administrator shall maintain a subaccount within the Rural Electrification and Telephone Revolving Fund to which shall be credited, on a monthly basis, a sum determined by multiplying the outstanding cushion of credit payments made after October 1, 1987, by the difference (converted to a monthly basis) between the average weighted interest rate paid on outstanding certificates of beneficial ownership issued by the Fund and the 5 percent rate of interest provided to borrowers on cushion of credit payments.

(B) GRANTS.—The Administrator is authorized, from the interest differential sums credited this subaccount and from any other funds made available thereto, to provide grants or zero interest loans to borrowers under this Act for the purpose of promoting rural economic development and job creation projects, including funding for project feasibility studies, start-up costs, incubator projects, and other reasonable expenses for the purpose of fostering rural development.

(C) REPAYMENTS.—In the case of zero interest loans, the Administrator shall establish such reasonable repayment terms as will ensure borrower participation.

(D) PROCEEDS.—All proceeds from the repayment of such loans shall be returned to the subaccount.

(E) NUMBER OF GRANTS.—Such loans and grants shall be made during each fiscal year to the full extent of the amounts held by the rural economic development subaccount, subject only to limitations as may be from time-to-time imposed by law.

SEC. 406. CAPITALIZATION.—(a) The telephone bank's capital shall consist of capital subscribed by the United States, by borrowers from the telephone bank, by corporations and public bodies eligible to become borrowers from the telephone bank, and by organizations controlled by such borrowers, corporations, and public bodies. Beginning with the fiscal year 1971 and for each fiscal year thereafter but not later than fiscal year 1991, the United States shall furnish capital for the purchase of class A stock and there are hereby authorized to be appropriated such amounts, not to exceed \$30,000,000 annually, for such purchases until such class A stock shall equal \$600,000,000, Provided, That on or before July 1, 1975, the Secretary shall make a report to the President for transmittal to the Congress on the status of capitalization of the telephone bank by the United States with appropriate recommendations. As used in this section and section 301, the term "net collection proceeds" shall be deemed to mean payments from and after July 1, 1969, of principal and interest on loans heretofore or hereafter made under section 201 of this Act, less an amount representing interest payable to the Secretary of the Treasury on loans to the Administrator for telephone purposes pursuant to section 3(a) of this Act.

(b) The capital stock of the telephone bank shall consist of three classes, class A, class B, and class C, the rights, powers, privileges, and preferences of the separate classes to be as specified, not inconsistent with law, in the bylaws of the telephone bank. Class B and class C stock shall be voting stock, but no holder of said stock shall be entitled to more than one vote, nor shall class B and class C stockholders, regardless of their number, which are owned or controlled by the same person, group of persons, firm, association, or corporation, be entitled in any event to more than one vote.

(c) Class A stock shall be issued only to the Administrator of the Rural Electrification Administration on behalf of the United States in exchange for capital furnished to the telephone bank pursuant to subsection (a), and such class A stock shall be redeemed and retired by the telephone bank as soon as practicable after September 30, 1995, but not to the extent that, the Telephone Bank Board determines that such retirement will impair the operations of the telephone bank: Provided, That the minimum amount of class A stock that shall be retired each year after said date shall equal the amount of class B stock sold by the telephone bank during such year. Class A stock shall be entitled to a return, payable from income, at the rate of 2 per centum per annum on the amounts of said class A stock actually paid into the telephone bank. Such return shall be cumulative and shall be payable annually into miscellaneous receipts of the Treasury.

(d) Class B stock shall be held only by recipients of loans under section 408 of this Act. Borrowers receiving loan funds pursuant to section 408(a)(1) or (2) shall be required to invest in class B stock 5 per centum of the amount of loan funds so provided by paying an amount equal to 5 per centum of the amount of each loan advance, at the time of such advance. No dividends shall be payable on class B stock. All holders of class B stock shall be entitled to patronage refunds in class B stock under terms and conditions to be specified in the bylaws of the telephone bank.

(e) Class C stock shall be available for purchase and shall be held only by borrowers, or by corporations and public bodies eligible to borrow under section 408 of this Act, or by organizations controlled by such borrowers, corporations and public bodies, and shall be entitled to dividends in the manner specified in the bylaws of the telephone bank. Such dividends shall be payable only from income and, until all class A stock is retired, shall not exceed the current average rate payable on its telephone debentures.

(f) If a firm, association, corporation, or public body is not authorized under the laws of the jurisdiction in which it is organized to acquire stock of the telephone bank, the telephone bank shall, in lieu thereof, permit such organization to pay into a special fund of the telephone bank a sum equivalent to the amount of stock to be purchased. Each reference in this title to capital stock, or to class B, or class C stock, shall include also the special fund equivalents of such stock, and to the extent permitted under the laws of the jurisdiction in which such organization is organized, a holder of special fund equivalents of class B or class C stock, shall have the same

rights and status as a holder of class B or class C stock, respectively. The rights and obligations of the telephone bank in respect of such special fund equivalent shall be identical to its rights and obligations in respect of class B or class C stock, respectively.

(g) After payment of all operating expenses of the telephone bank, including interest on its telephone debentures, setting aside appropriate funds for the reserve for loan losses, and making payment in lieu of taxes, and returns on class A stock as provided in section 406(c), and on class C stock, the Telephone Bank Board shall annually set aside the remaining earnings of the telephone bank for patronage refunds in accordance with the bylaws of the telephone bank. The telephone bank may not establish any reserve other than the reserves referred to in this subsection and in subsection (h).

(h) There is hereby established in the telephone bank a reserve for losses due to interest rate fluctuations. Within 30 days after the date of the enactment of this subsection, the Governor of the telephone bank shall transfer to the reserve for losses due to interest rate fluctuations all amounts in the reserve for contingencies as of the date of the enactment of this subsection. All amounts so transferred shall not be transferred, directly or indirectly, to the reserve for contingencies. Amounts in the reserve for interest rate fluctuations may be expended only to cover operating losses of the telephone bank (other than losses attributable to loan defaults) and only after taking into consideration any recommendations made by the General Accounting Office under section 1413(b) of the Omnibus Budget Reconciliation Act of 1987.

SEC. 407. BORROWING POWER; TELEPHONE DEBENTURES; ISSUANCE; INTEREST RATES; TERMS AND CONDITIONS; RATIO TO PAID-IN CAPITAL AND RETAINED EARNINGS; INVESTMENTS IN DEBENTURES; DEBENTURES AS SECURITY: PURCHASE AND SALE OF DEBENTURES BY SECRETARY OF TREASURY; TREATMENT AS PUBLIC DEBT TRANSACTIONS OF UNITED STATES; EXCLUSION OF TRANSACTIONS FROM DEBT TOTALS.—(a) The telephone bank is authorized to obtain funds through the public or private sale of its bonds, debentures, notes, and other evidences of indebtedness (herein collectively called telephone debentures). Telephone debentures shall be issued at such times, bear interest at such rates, and contain such other terms and conditions as the Telephone Bank Board shall determine: Provided, however, That the amount of the telephone debentures which may

be outstanding at any one time pursuant to this section shall not exceed twenty times the paid-in capital and retained earnings of the telephone bank. Telephone debentures shall not be exempt, either as to principal or interest, from any taxation now or hereafter imposed by the United States, by any territory, dependency, or possession thereof, or by any State or local taxing authority. Telephone debentures shall be lawful investments and may be accepted as security for all fiduciary, trust, and public funds, the investment or deposit of which shall be under the authority and control of the United States or any officer or officers thereof.

(b) The Telephone Bank is also authorized to issue telephone debentures to the Secretary of the Treasury, and the Secretary of the Treasury may in his discretion purchase any such debentures, and for such purpose the Secretary of the Treasury is authorized to use as a public debt transaction the proceeds of the sale of any securities hereafter issued under the Second Liberty Bond Act, as now or hereafter in force, and the purposes for which securities may be issued under the Second Liberty Bond Act as now or hereafter in force are extended to include such purchases. Each purchase of telephone debentures by the Secretary of the Treasury under this subsection shall be upon such terms and conditions as to yield a return at a rate not less than a rate determined by the Secretary of the Treasury, taking into consideration the current average yield on outstanding marketable obligations of the United States of comparable maturity. The Secretary of Treasury may sell, upon such terms and conditions and at such price or prices as he shall determine, any of the telephone debentures acquired by him under this subsection. All purchases and sales by the Secretary of the Treasury of such debentures under this subsection shall be treated as public debt transactions of the United States.

(c) Purchases and resales by the Secretary of the Treasury as authorized in subsection (b) of this section shall not be included in the totals of the budget of the United States Government and shall be exempt from any general limitation imposed by statute on expenditures and net lending (budget outlays) of the United States.

SEC. 408. LENDING POWER.—(a) The Governor of the telephone bank shall make loans on behalf of the telephone bank, to the extent that there are qualifying applications therefor, subject only to limitations as to amounts authorized for loans and advances as may be imposed by law enacted by the Congress of the United States for loans to be made in any one year, and in conformance with policies approved by the Telephone Bank Board, to corporations and public bodies which have received a loan or loan commitment pursuant to section 201 of this Act, or which have been certified by the Administrator to be eligible for such a loan or loan commitment, (1) for

the same purposes and under the same limitations for which loans may be made under section 201 of this Act, (2) for the purposes of financing, or refinancing, the construction, improvement, expansion, acquisition, and operation of telephone lines, facilities, or systems, in order to improve the efficiency, effectiveness, or financial stability of borrowers financed under sections 201 and 408 of this Act, and (3) for the purchase of class B stock required to be purchased under Section 406(d) of this Act but not for the purchase of class C stock, subject, as to the purposes set forth in (2) hereof, to the following provisos: That in the case of any such loan for the acquisition of telephone lines, facilities, or systems, the acquisition shall be approved by the Secretary, the location and character thereof shall be such as to improve the efficiency, effectiveness, or financial stability of the telephone system of the borrower, and in respect of exchange facilities for local services, the size of each acquisition shall not be greater than the borrower's existing system at the time it receives its first loan from the telephone bank, taking into account the number of subscribers served, miles of line, and plant investment. Loans and advances made under this section shall not be included in the totals of the budget of the United States Government and shall be exempt from any general limitation imposed by statute on expenditures and net lending (budget outlays) of the United States.

(b) Loans under this section shall be on such terms and conditions as the Governor of the telephone bank shall determine, subject, however, to the following restrictions:

(1) All loans made under this section shall be fully amortized over a period not to exceed fifty years.

(2) Funds to be loaned under this Act to any borrower shall be loaned under this section in preference to section 201 if the borrower is eligible for such a loan and funds are available therefor. Notwithstanding the foregoing or any other provision of law, all loans made pursuant to this Act for facilities for telephone systems with an average subscriber density of three or fewer per mile shall be made under section 201 of this Act; but this provision shall not preclude the making of such loans from the telephone bank at the election of the borrower.

(3) (A) Loans under this section shall bear interest at the "cost of money rate." The cost of money rate is defined as the average cost of moneys to the telephone bank as determined by the Governor, but not less than 5 per centum per annum.

(B) On and after the date of the enactment of this subparagraph, advances made on or after such date of enactment under loan commitments made on or after October 1, 1987, shall bear interest at the rate determined under subparagraph (C), but in no event at a rate that is less than 5 percent per annum.

(C) The rate determined under this subparagraph shall be—

(i) for the period beginning on the date the advance is made and ending at the close of the fiscal year in which the advance is made, the average yield (on the date of the advance) on outstanding marketable obligations of the United States having a final maturity comparable to the final maturity of the advance; and

(ii) after the fiscal year in which the advance is made, the cost of money rate for such fiscal year, as determined under subparagraph (D).

(D) Within 30 days after the end of each fiscal year, the Governor shall determine to the nearest 0.01 percent the cost of money rate for the fiscal year, by calculating the sum of the results of the following calculations:

(i) The aggregate of all amounts received by the telephone bank during the fiscal year from the issuance of class A stock, multiplied by the rate of return payable by the telephone bank during the fiscal year, as specified in section 406(c), to holders of class A stock, which product is divided by the aggregate of the amounts advanced by the telephone bank during the fiscal year.

(ii) The aggregate of all amounts received by the telephone bank during the fiscal year from the issuance of class B stock, multiplied by the rate at which dividends are payable by the telephone bank during the fiscal year, as specified in section 406(d), to holders of class B stock, which product is divided by the aggregate of the amounts advanced by the telephone bank during the fiscal year. For purposes of the calculation under this subparagraph, such rate shall be zero.

(iii) The aggregate of all amounts received by the telephone bank during the fiscal year from the issuance of class C stock, multiplied by the rate at which dividends are payable by the telephone bank during the fiscal year, under section 406(e), to holders of class C stock, which product is divided by the aggregate of the amounts advanced by the telephone bank during the fiscal year.

(iv) (I) The sum of the results of the calculation described in the subclause (II).

(II) The amounts received by the telephone bank during the fiscal year from each issue of telephone debentures and other obligations of the telephone bank, multiplied, respectively, by the rates at which interest is payable during the fiscal year by the telephone bank to holders of each issue, each of which products is divided, respectively, by the aggregate of the amounts advanced by the telephone bank during the fiscal year.

(v) (I) The amount by which the aggregate of the amounts advanced by the telephone bank during the fiscal year exceeds the aggregate of the amounts received by the telephone bank from the issuance of class A stock, class B stock, class C stock, and telephone debentures and other obligations of the telephone bank during the fiscal year, multiplied by the historic cost of money rate as of the close of the fiscal year immediately preceding the fiscal year, which product is divided by the aggregate of the amounts advanced by the telephone bank during the fiscal year.

(II) For purposes of this clause, the term "historic cost of money rate", with respect to the close of a preceding fiscal year, means the sum of the results of the following calculations: The amounts advanced by the telephone bank in each fiscal year during the period beginning with fiscal year 1974 and ending with the preceding fiscal year, multiplied, respectively, by the cost of money rate for the fiscal year (as set forth in the table in subparagraph (E)) for fiscal years 1974 through 1987, and as determined by the Governor under this subparagraph for fiscal years after fiscal year 1987), each of which products is divided, respectively, by the aggregate of the amounts advanced by the telephone bank during the period.

(E) For purposes of paragraph (D)(II), the cost of money rate for the fiscal years in which each advance was made shall be as set forth in the following table:

For advances made in—	The cost of money rate shall be—
Fiscal year 1974. ....	5.01 percent
Fiscal year 1975 .....	5.85 percent
Fiscal year 1976 .....	5.33 percent
Fiscal year 1977 .....	5.00 percent
Fiscal year 1978. ....	5.87 percent
Fiscal year 1979. ....	5.93 percent
Fiscal year 1980 .....	8.10 percent
Fiscal year 1981 .....	9.46 percent
Fiscal year 1982 .....	8.39 percent
Fiscal year 1983 .....	6.99 percent
Fiscal year 1984. ....	6.55 percent
Fiscal year 1985 .....	5.00 percent
Fiscal year 1986 .....	5.00 percent
Fiscal year 1987. ....	5.00 percent

For purposes of this subparagraph, the term "fiscal year" means the 12-month period ending on September 30 of the designated year.

(F) (i) Notwithstanding subparagraph (B), if a borrower holds a commitment for a loan under this section made on or after October 1, 1987, and before the date of the enactment of this paragraph, part or all of the proceeds of which have not been advanced as of such date of enactment, the borrower may, until the later of the date the next advance under the loan commitment is made or 90 days after such date of enactment, elect to have the interest rate specified in the loan commitment apply to the unadvanced portion of the loan in lieu of the rate which (but for this clause) would apply to the unadvanced portion under this paragraph. If any borrower makes an election under this clause with respect to a loan, the Governor shall adjust the interest rate which applies to the unadvanced portion of the loan accordingly.

(ii) (I) If the telephone bank, pursuant to section 407(b), issues telephone debentures on any date to refinance telephone debentures or other obligations of the telephone bank, the telephone bank shall, in addition to any interest rate reduction required by any other provision of this paragraph, for the period applicable to the advance, reduce the interest rate charged on each advance made under this section during the fiscal year in which the refinanced debentures or other obligations were originally issued by the amount applicable to the advance.

(II) For the purposes of subclause (I), the term "the period applicable to the advance" means the period beginning on the issue date described in subclause (I) and ending on the earlier of the date the advance matures or is completely prepaid.

(III) For purposes of subclause (I), the term "the amount applicable to the advance" means an amount which fully reflects that percentage of the funds saved by the telephone bank as a result of the refinancing which is equal to the percentage representation of the advance in all advances described in subclause (I).

(IV) Within 60 days after any issue date described in subclause (I), the Governor shall amend the loan documentation for each advance described in subclause (I), as necessary, to reflect any interest rate reduction applicable to the advance by reason of this clause, and shall notify each affected borrower of the reduction.

(G) Within 30 days after the publication of any determination made under subparagraph (D), any affected borrower may obtain review of the determination, or any other equitable relief as may be determined appropriate by the United States court of appeals for the judicial circuit in which the borrower does business by filing a written petition requesting the court to set aside or modify such determination. On receipt of such a petition, the clerk of the court shall transmit a copy

of the petition to the Governor. On receipt of a copy of such a petition from the clerk of the court, the Governor shall file with the court the record on which the determination is based. The court shall have jurisdiction to affirm, set aside, or modify the determination.

(H) Within 5 days after determining the cost of money rate for a fiscal year, the Governor shall—

(i) cause the determination to be published in the Federal Register in accordance with section 552 of title 5, United States Code; and

(ii) furnish a copy of the determination to the Comptroller General of the United States.

(I) The Comptroller General shall review, on an expedited basis, each determination a copy of which is received from the Governor and, within 15 days after the date of such receipt, furnish Congress a report on the accuracy of the determination.

(J) The telephone bank shall not sell or otherwise dispose of any loan made under this section, except as provided in this paragraph.

(4) Loans shall not be made under this section unless the Governor of the telephone bank finds and certifies that in his judgment (i) the security therefor is reasonably adequate and such loan will be repaid within the time agreed, and (ii) the borrower has the capability of producing net income or margins before interest at least equal to 150 per centum of the interest requirements on all of its outstanding and proposed loans, or such higher per centum as may be fixed from time to time by the Telephone Bank Board in order to allocate available funds equitably among borrowers or to improve the marketability of the telephone debentures: Provided, however, That the Governor of the telephone bank may waive the requirements of (ii) above in any case if he shall determine (and set forth his reasons therefor in writing) that this requirement would prevent emergency restoration of the borrower's system or otherwise result in severe hardship to the borrower. For purposes of determining the creditworthiness of a borrower for a loan under this paragraph, the Governor shall assume that the loan, if made, would bear interest at a rate equal to the average yield (on the date of the determination) on outstanding marketable obligations of the United States having a final maturity comparable to the final maturity of the loan.

(5) No loan shall be made in any State which now has or may hereafter have a State regulatory body having authority to regulate telephone service and to require certificates of convenience and necessity to the applicant unless such certificate from such agency is first obtained. In a State in which there is no such agency or regulatory body legally authorized to issue such certificates to the applicant, no loan shall be made under this section unless the Governor of the telephone bank shall determine (and set forth his reasons therefor in writing) that no duplication of lines, facilities, or systems, providing reasonably adequate services will result therefrom.

(6) As used in this section, the term telephone service shall have the meaning prescribed for this term in section 203(a) of this Act, and the term telephone lines, facilities, or systems shall mean lines, facilities or systems used in the rendition of such telephone service.

(7) No borrower of funds under section 408 of this Act shall, without approval of the Governor of the telephone bank under rules established by the Telephone Bank Board, sell or dispose of its property, rights, or franchises, acquired under the provisions of this Act, until any loan obtained from the telephone bank, including all interest and charges, shall have been repaid.

(8) A borrower with a loan from the Rural Telephone Bank may prepay such loan (or any part thereof) by paying the face amount thereof without being required to pay the prepayment penalty set forth in the note covering such loan, if such prepayment is not made later than September 30, 1988.

(c) The Governor of the telephone bank is authorized under rules established by the Telephone Bank Board to adjust, on an amortized basis, the schedule of payments of interest or principal of loans made under this section upon his determination that with such readjustment there is reasonable assurance of repayment: Provided, however, That no adjustment shall extend the period of such loans beyond fifty years.

(d) (1) Except as provided in paragraph (2), the term of any loan made under this title shall be determined by the borrower at the time the application for the loan is submitted.

(2) The term of any loan made under this title shall not exceed the maximum term for which a loan may be made under section 4.

### STATEMENT OF CONGRESSIONAL POLICY

#### RURAL TELECOMMUNICATIONS IMPROVEMENTS ACT OF 1990

The Rural Telecommunications Improvements Act of 1990 which amended the Rural Electrification Act of 1936 contains the following statements of Congressional findings and policy:

(a) FINDINGS.—The Congress finds that—

(1) making modern telecommunications technology and services available in rural areas in the United States promotes economic development and improves the quality of life in rural areas; and

(2) the efficient operation of the Rural Telephone Bank and the Rural Electrification Administration telephone loan programs is essential to the continued development of the telecommunications infrastructure in rural areas in the United States.

(b) STATEMENT OF POLICY.—It is the policy of the Congress that the Rural Telephone Bank and the Rural Electrification Administration make loans that facilitate the development and enhancement of the rural telecommunications infrastructure in order to make modern telecommunications technology and services available at reasonable rates to the greatest practicable number of people in rural areas in the United States. [Nov. 28, 1990, Public Law 101-624, Subtitle F, §2351, 104 Stat. 4038; 7 U.S.C. 901 note.]

#### RURAL TELEPHONE LOANS

The rural telephone legislation enacting clause contains the following statement of Congressional policy:

... it is hereby declared to be the policy of the Congress that adequate telephone service be made generally available in rural areas through the improvement and expansion of existing telephone facilities and the construction and operation of such additional facilities

as are required to assure the availability of adequate telephone service to the widest practicable number of rural users of such service. In order to effectuate this policy, the Rural Electrification Act of 1936 is amended as hereinafter provided. [Oct. 28, 1949, ch. 776, §1, 63 Stat. 948; 7 U.S.C. 921.]

### RURAL TELEPHONE BANK

The telephone bank legislation enacting clauses contain the following statement of Congressional policy:

... it is hereby declared to be the policy of the Congress that the growing capital needs of the rural telephone systems require the establishment of a rural telephone bank which will furnish assured and viable sources of supplementary financing with the objective that said bank will become an entirely privately owned, operated, and financed corporation. The Congress further finds that many rural telephone systems require financing under the terms and conditions provided in title II of the Rural Electrification Act of 1936, as amended. In order to effectuate this policy, the Rural Electrification Act of 1936, as amended [7 U.S.C. 921-924], is amended as hereinafter provided. [May 7, 1971, Public Law 92-12, 85 Stat. 29; 7 U.S.C. 921a].

... it is hereby declared to be the policy of the Congress that the Rural Telephone Bank should have the capability of obtaining adequate funds for its supplementary financing program at the lowest possible costs. In order to effectuate this policy, it will be necessary to expand the market for debentures to be issued by the Telephone Bank. The Rural Electrification Act of 1936, as amended [7 U.S.C. 901-950(b)], is therefore further amended as hereinafter provided. [June 30, 1972, Public Law 92-324, §1, 86 Stat. 390; 7 U.S.C. 921b.]

### RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND

The rural electrification and telephone revolving fund legislation contains the following statements of Congressional policy:

... it is hereby declared to be the policy of the Congress that adequate funds should be made available to rural electric and telephone systems through direct, insured and guaranteed loans at interest rates which will allow them to achieve the objectives of the Rural Electrification Act of 1936, as amended; and that such rural electric and telephone systems should be encouraged and assisted to develop their resources and ability to achieve the financial strength needed to enable them to satisfy their credit needs from their own financial organizations and other sources at reasonable rates and terms consistent with the loan applicant's ability to pay and achievement of the Act's objectives. [May 11, 1973, Public Law 93-32, §1, 87 Stat. 65; 7 U.S.C. 930.]

## **USE OF FUNDS OUTSIDE THE UNITED STATES OR ITS TERRITORIES**
