ment. If was understood that arrangements had been perfected for running the Canadian line of the same particularly the subsect of numerous speriments, in canaequence of she well-stablished feet that the plant was of a hardy careful recorded for the successful cultistic of the ordinary susacreane. Many distinction of the ordinary susacreane Many distinction of the ordinary susacreane. Many distinction of the ordinary susacreane Many distinction of the ordinary susacreane. Many distinction of the ordinary susacreane many distinction of the ordinary susacreane many distinctions were made in the Suth and West appeal the ordinary susacreane many was far as it is produce of crystallistic sectors. As the produce of crystallistic sectors of corgon, with a view of determine of the corgon, with a view of determine or of the organ, with a view of determine or of the organ, with a view of determine or of the organ, with a view of determine or of the organ, with a view of determine or of the organ, with a view of determine or of the organ, with a view of determine or of the organ, with a view of determine or of the organ, with a view of determine or the pre-use character of the successful inquiry etc. The careful inquiry etc. The press of the organic many distances are considered to the organic many distances and the product of the organic many distances and the product of the organic many distances and the organic many distances are considered to the organic many distances and the organic many distances are considered to the organic many distances and the organic many distances are considered to the organic many distances ar inhivation of other varieties of the cane. The Hitches or Chinese sugar-cane be experiments, in consequence of the well stablished fact that the plant was of a hardy

Despite, howeves, this atrong testimony in favor of the Borgho, its claims have not apparently been generally recognized. As the object of the planter and farmer was to discover a substitute for sugar, and not for an least a few pountes.

BELGHUM.—The closing of the Sessions had been formally decreed, as well as the adjournment of the bill on charitable establishment, and unanimously rainfed the Neutrobated I treaty and cummunity. Of late, therefore, but falled has been heard of the Sergho, and the word disappointed in their expectations of making cheap sugar from the pince, have abandened the idea of cultivating it for other useful purposes.

As sugars are still extremely dear, manging the anticipated bountful crop of the coming season, and as the constant increase.

The Orionants Republican fusion was in full force, doing all it could to insure the return of at least a few pountes.

BELGHUM.—The closing of the Sessions had been formally decread, as well as the adjournment of the bill on charitable establishments.

SWITZERLAND.—The National Connect treaty on Carrier and Language and the Neutrobated treaty.

AUSTRIA.—Austria was making further a concessions to the Hungarians.

RUSTRIA.—Austria was making further a concessions to the Hungarians.

Rumers were rife of a Collegance of the pointage of the bill on charitable establishments of the bill on charitable establishments.

SWITZERLAND.—The National Connect treaty.

AUSTRIA.—Austria was making further a concessions to the Hungarians.

Rumers were rife of a Collegance of the pointage of the bill on charitable establishments.

The Ending of the Sessions of the bill on charitable establishments and unanimously rainfed the Neutrobated to N crabe, and to embeavor to ascertain whether it years careful treatment, juices of the failt might not be made to yield augar in a rystallizable form. We are encouraged in the hope of different ways of the most tatements of M. Vilmonis, one of the most sorned agriculturists, theoretically and grached y, in Europe. Mr. Alexandra Varrance, the indicat gathe advanted in the requested y our Minister in France, Hon. J. Y. Manor, on one or ento the peakable victorial estate to the peakable victorial candidate.

containing elaborate instructions on the most available methods of culture, and ex traction of the juice. Mr. Vattemanz addiin its other products also, is des o render immense services to man Hard to render immense arrylees to man k hal.

PARIS, 20th April, 1837.

TO M. ALEXANDER VETTENAUR!

Nor. The crystalization of the sugar of the Sorgho, it seems, should be easily obtained in all cases where the case can be set, and it special, and, as the gregorition of the sugar of an artifating trium, of the sugar of the suga

dar study of the Sorgho plant, and re

shell steves, is not as detrimental, it seems to me, in practice, as theory would perhaps minerate.

Technon a slight fermentation, which is the strength of the state of the

ducts of the Sorgho are destined to render to mank \$\tilde{n}\$.

We, have, ways the \$Hoodd, to notice a new and apportant movement in the sugar trade.

This market, having a large stock of angles, while they are inactive and frieshis to Early they are inactive and frieshis to Early to Lyndon. The freight engagements of sugars the week in site to Great Britain, have enthroped about 50 not block, which you have enthroped about 50 not block, which they are free to the free they are the free they are the free they are they are the free they are they

The Nashua (New Hampshire) Gazrite says that Bantel Clark, who has been elected to fill the place of Fenator Bell, via one of the most rabid of the abolition fanation, and ay mathizes in many of the wild notions of the Gari sons, the dore Parkers, and Fosses of that the time. He has furnished mery topic in the distribution of distincting the ments, shough where he heart is on the soluents of the contribution of the soluents of the soluents. It is not the soluents of the soluents.

ARRIVAL OF THE STRAMSHIP INDIAN. Brytsus of Letr, June 27, 1857.—The Onna-dian scree staumship fedien, with advised from Liverpool of the 17th instant, passed this point on her passage to Quebec and Mostrani at an early hour this morning. Her advices, though four days later, are wholly uniformotived.

The Northean Mail came through vesterday with the latest date.

SORGHO SUGAR.

The excessive advance in the prices of
sugar during the past year induced many
intelligant persons to direct their attention to
the officeation of other variaties of the control of the British Government.

process of correct, with a view of determinant the precise character of the jules of the Surho, its sucharme arrently and the surface and victoria. Consols closed at 93 for account, of the Surho, its sucharme arrently and the surface of the Surho, its sucharme arrently and the surface of the Surho, its sucharme are first careful inquiry that its equipment were engaged in considering the latter than the pulse of the Surho and Possibilities bill. The Roman Cathole amendment had been defeated by the first that the pulse of the Surho and the bill was sustained by such and the bill was sustained by such as the only effectual market, and shelded, by proper treatment, a large amount of pure sirup, which, in density, sweetness and pleasantness of flavor, was at least opply, from the sperior, to the finest varieties of Battery sirup, and had commanded a fight price in the markets. It was likewise demonstrated that the bases left after the extraction of the judge, and the stills, leaves and other portions of a latter than the straction of the judge, and the stills, leaves and other portions of a latter than the straction of the judge, and the stills, leaves and other portions of a latter than the straction of the judge, and the stills, leaves and other portions of a latter than the straction of the judge, and the straction of the judge and the price of straction of the straction of the judge and the price of the straction of the judge and the price of the straction of the judge and the price of the straction of the judge and the judge

pectations of making cheap sugar from the junce, have abundened the idea of cuitivating it for other useful purposes.

As sugars are still extremely dear, man gree the anticepated bounting crop of the comman season, and as the constant increase in our population necessarily leads to an enhanced consumption of the article, and to prospective insufficiency of the supply, even under the most favorable circum as an enhanced consumption of the article, and to prospective insufficiency of the supply, even under the most favorable circum as an enhanced consumption of the properties of the SAXONY.—The whole Kingdom of Baxony, and most of the Prinsipalities were visited by an earthquake on the 7th instant. The production of the prinsipalities were instant of the provided by the property of the provided by the
