Jung's Free Specialties for 1924.

BUTTERFLY PLANT

The New Butterfly Plant

A most beautiful annual, very easy to grow and produces a profusion of pretty butterfly-like flowers closely resembling some species of orchids. They also make handsome pot plants for winter flowering. Growing instructions on every packet.

First of All Carrots

You will find this to be the earliest Carrot of all, being ready to use before any other variety. Roots are three to four inches long, flesh deep orange in color, fine grained and very sweet. A fine table carrot and will do well in any soil.

King Winter Melon

By growing this melon you can have Water Melon for Christmas dinner as they are remarkable keepers and also of excellent quality, flesh red and very sweet. Good yielders and ripen fairly early.

Garden Making!

With every order when requested, we will send free a book of instructions on growing Vegetables and Flowers. You will get much valuable information from these instructions.

UNRIVALED WAX BEAN

Unrivaled Wax Bush Bean

On our farms this proved to be the earliest and also the greatest producer of long, handsome pods. Plants make a strong growth, are well supplied with an abundance of almost smooth lustrous green leaves. Pods are produced in great profusion, 6 to 7 inches long, tender and stringless and of a beautiful lemon color. You will be more than delighted with this excellent wax or butter bean.

These splendid new varieties are of recent origin and should have a place in every garden. Many seedsmen charge from 10c to 15c per pkt. for these seeds but as a special offer you may select one pkt. free for each 25c worth of seeds or plants ordered but not more than 6 pkts. to a customer. The free pkts. must be selected from this page. This offer does not apply to Farm Seeds or Collections as our profit on these is very small.

JAPANESE KUDZU VINE

Japanese Kudzu Vine

The fastest growing vine known, well established plants attain a length of 30 to 40 feet in one season. Well supplied with luxuriant deep green foliage and in the fall produce an abundance of purple blossoms. Easy to grow and increase in size and beauty year after year.

KING OF DENMARK SPINACH

King of Denmark Spinach

A new Spinach that will displace the older sorts as you can get big cuttings of delicious tender leaves fully two weeks after all other varieties have gone to seed. It forms a compact plant, leaves broad, heavy, crumpled and dark green. Nothing better to be had in the line of Spinach.

KING WINTER MELON

Early Red Head Tomato

A new tomato that we are convinced will soon be a leader as it combines earliness, size quality and productiveness. Fully as early as Chalk's Jewel, almost as large as Stone and in field tests has outyielded every variety. Fruits are very smooth, almost globe shaped and extremely solid. Plants are strong and healthy and remarkably free from disease.

EARLY REDHEAD TOMATO

Randolph, Wis., Jan. 1, 1924.

Kind Friends and Customers:—

A new year is before us and to all who plant seeds either in large or small quantities one of the great questions is

"WHAT WILL THE HARVEST BE?"

To begin with you should have the best seeds it is possible to buy, the best soil, ideal weather and intense cultivation will not produce a satisfactory crop if you use seed of doubtful quality.

Growing and improving seeds is our business and also our pleasure and it is a source of gratification to see the great number of our customers increasing from year to year.

With us "Quality" is always the first consideration and for this reason you may not find our prices to be the lowest, however, when you take the resulting crop into consideration you will find that our seeds are the cheapest in the end.

Our greatest assets are our thousands of satisfied customers and it is a pleasure to see the number increasing every year, we appreciate this confidence that you have placed in us and assure you that we at all times strive to supply you with the best seeds that it is possible to produce.

We thank you heartily for the kind orders with which you have favored us and wish you one and all A Happy and Prosperous New Year.

Yours very truly,

J. W. Jung Seed Co.

Although Reduced Our List is Complete

We have spent much time and gone to considerable expense in getting out a catalog that will contain but a limited number of varieties and still be complete. You will find that our list will meet every requirement as each item has been selected for its superior qualities.

It's Easy to Order Jung's Seeds

With each catalog we enclose an order sheet and self-addressed envelope. Be sure to write your name and address on order sheet. After writing down the list of articles wanted place same together with remittance in the envelope. Remittance may be made by Money Order, Bank Draft or Check, amounts of 50c or less may be sent in clean postage stamps. You will be surprised how easy it is to make out your order and how soon the seeds will reach you after the order is sent in.

We Prepay Delivery Charges as Follows:

Except where noted we pay the postage on all seeds offered by the packet, ounce quarter-pound, pound, half-pint pint and quart, also on all bulbs and plants offered in quantities up to 1,000. On plants in lots of 1,000 or more purchaser pays charges. On seeds offered on wholesale page, also farm seeds and potatoes in quantities of over 3 pounds we do not pay charges.

We Guarantee Safe Delivery

If any parcel of seeds, plants or bulbs reaches you in bad condition advise us at once and we will refill the order free of charge or refund your money. Also if any goods you receive from us are not satisfactory in every way they may be returned and your money will be refunded.

Orders are Filled Promptly

We usually fill orders the day after they are received. This applies to orders for seeds that can be sent at any time during the winter. If the order includes potatoes, onion sets, plants, etc., which cannot be safely sent in cold weather, we are obliged to hold the order until it is safe to ship.

Our Responsibility

You are absolutely safe in sending your order to us. Any seeds that are not satisfactory upon arrival may be returned and your money will be promptly refunded.

We refer you to any commercial agency, the Randolph State Bank and the postmaster at Randolph, Wis.

Warranty

While we use every effort possible in the selection of our seeds, we feel justified in saying that our seeds are as pure as the best; but at the same time there are causes beyond the control of man that spoil the best seed and cause poor crops, that it is impossible to guarantee the seeds. Therefore, while we exercise great pains to have our seeds pure and reliable, we sell no seeds with warranty, expressed or implied, further than the amount actually paid for such seeds as prove unsatisfactory, should there be just cause for complaint. It must however, be plain to everyone that it is to our best interest to send out only such stock as will grow and prove true in name and description.

The Jung Business Policy

We are firm believers of the principle that no firm is or can be a success unless humanity or the country is better by its having existed. Our business is our pleasure, profit alone is not our only aim. We know that we cannot succeed unless we supply you seeds through the use of which our customers can raise better crops and beautify their home surroundings. Our greatest delight is to see planters raising better crops from Jung's Seeds and the ever increasing number of complimentary letters we receive from our customers is the best proof that our work is not in vain. Our greatest asset is our satisfied customers and you may rest assured that we at all times use our greatest care to send out only the best quality seed it is possible to produce. Plant your garden with Jung Quality Seeds this year, we assure you of a bountiful crop.

Why You Should Make A Garden.

Few things bring such large returns for time and money invested as a well-kept garden. You not only get your vegetables at low cost but you will also find that there is no comparison between vegetables crisp and fresh from the garden and those bought at the stores. To have real quality in vegetables they should be taken fresh from your garden.

For Prices on Seeds in Large Quantities see Wholesale List on back pages.

JUNG'S QUALITY SEEDS

In the following pages you will find a complete but carefully selected list of both new and standard varieties of seeds, varieties which have been carefully tested and which we can fully recommend...All of these seeds are grown from carefully selected stocks and great care has been used to keep them pure; all have been carefully tested for germination. We make quality the first consideration for we know that without good seeds you cannot raise a good crop. Quality considered you will find our prices very reasonable.

ASPARAGUS

ASPARAGUS-Barr's Mammoth

This is an excellent variety. The stalks are of a green color, almost an inch in diameter from the bottom completely to the tip. They are of quick growth and free from woody fibre. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

Northern Grown Garden Beans

Our Seed Beans are extra fine. They were grown on the Fairfield Seed Farm; were thoroughly rogued, hand picked, and are worth much more than the less carefully selected strains that are usually sold.

JUNG'S EXTRA EARLY WAX WAX BUSH BEANS

Jung's Extra Early Wax

A splendid variety which combines extreme earliness, fine quality and hardness. Bushes grow to good size and will produce a fine crop of pods under conditions that would ruin most other varieties. Pods are flat, 5 to 6 inches long, very fleshy and stringless. You will be delighted with this splendid bean. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

STRINGLESS GREEN POD

GREEN POD BUSH BEANS

Burpee's Stringless Green Pod

This variety combines the following essential points: Extreme earliness, being the first to produce pods; unusual hardness and great productiveness. The pods are from 5 to 6 inches long, very round of a rich, green color and entirely stringless, even when matured. They are tender, brittle and of the finest flavor. It is without exception the finest green podded bean in cultivation. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

Extra Early Red Valentine

One of the most popular green-podded sorts for either home use or market, many prefer it to the wax or butter beans. Pods are four to five inches long, medium green in color, round and very fleshy, crisp and tender. Under adverse weather conditions we know of no other variety that is more sure to produce a crop. Our strain is extra select and far superior to the stock usually offered. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

EXTRA EARLY RED VALENTINE

Jung's Stringless Wax

An absolutely stringless Bush Bean. Large Pods. Good Yields. Free from rust and disease. A comparatively new variety but coming rapidly into popular favor. The merits of the old Rust-Proof wax bean are well known; this variety has all the good qualities of the old variety and is superior to it as the pods are longer and are stringless at all stages of growth. The plants are strong growers, with large lustrous green leaves and bear an enormous crop of pods of beautiful yellow color. This color is maintained clear to the tips of the pod making it an ideal variety for fancy trade. The pods are from 6 to 7 inches long, very fleshy, tender and stringless. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

JUNG'S STRINGLESS BLACK WAX

Jung Quality Seeds

JUNG'S FAIRFIELD WONDER WAX

WAX or BUTTER BUSH BEANS-Continued

Jung's Fairfield Wonder Wax

Without a doubt the finest Wax or Butter Bean ever introduced. It is with pleasure that we offer our customers this grand new Butter Bean as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from 15 to 20 inches high, have large foliage and bear an immense load of pods, which are from 6 to 9 inches long, one-half inch broad and have absolutely no strings whatever. The color is a rich lemon yellow. If you want the very best Butter Bean of them all try Jung's Fairfield Wonder Wax. Pkt. 10c.; ½ pt. 25c.; pt. 40c.; qt. 70c.

BRITTLE WAX

Brittle Wax

The Earliest of all BUSH BEANS. Of such excellent quality that it might well be termed "best of all." The plants are very hardy and vigorous of true bush growth, about fifteen inches high and heavily laden with the long, straight round and very solid pods, from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snap-sorts, having white seeds showing only a black dot at the eye. Any pods allowed to ripen will be readily saleable as winter beans. Include this great bean in your order. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 65c., postpaid.

Pencil Pod Black Wax

We consider this one of the best Wax Beans yet introduced. It is very productive and of most excellent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless. The plants are of true bush growth, 15 inches high with abundant foliage. The magnificent pods are from 5 to 7 inches long. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

PENCIL POD BLACK WAX

Refugee Butter Wax

One of the heaviest yielding of all wax Bush Beans, also one of the surest croppers. Many times when all other varieties were a failure, Refugee yielded a heavy crop. It is a very hardy variety, having withstood frosts which seriously checked other varieties. The bushes are literally covered with fine transparent yellow pods which are from 4 to 5 inches long, remarkably tender and brittle and it has no strings whatever. Plant it once and you will want it every year. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

REFUGEE WAX

Currie's Rust-Proof Golden Wax

One of the Earliest and Most Prolific Wax Bush Beans. The bushes are strong, vigorous growers and bear an immense load of long, flat meaty pods which are of the most handsome appearance. Not only does this variety possess the merit of being rust-proof but it is also extra early. The pods are exceedingly crisp and tender and of a most delicious flavor. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

CURRIE'S RUST-PROOF WAX

Jung Quality Seeds

WONDER BUSH LIMA

Henderson's Early Bush Lima

The earliest of all Lima Beans, by planting this variety gardeners in the northern States can enjoy Limas from their own gardens. It is at least 2 weeks earlier than any of the climbing Limas and can be had ready for use by July 20, from then until frost; they will yield enormous crops of pods. Bushes grow about 18 inches high and require no stalks, so productive that a small patch will keep a family supplied throughout the season. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

Wonder Bush Lima

A great improvement on Burpee's Bush Lima, as it is earlier and more productive, the pods are borne more to the center of the plant. This is a great advantage as the pods are held up from the ground. The bushes grow 18 to 24 inches tall and require no stakes or poles. Pods are truly mammoth in size and borne in clusters of from 5 to 8 pods and contain from 4 to 6 of the large luscious beans. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

HENDERSON'S BUSH LIMA

Mrs. John S. Ingram, Canterbury Sta., N. B. Canada.—This is the 6th year I have used your seed; they are always satisfactory in every way. I would not do without your seeds.

Pole Beans

Prolific Green Podded

The best green podded Pole Bean in cultivation. It is earlier than most varieties and covers a longer season of productiveness. The vines are vigorous growers, being loaded from summer until frost. It is a very sure cropper even in unfavorable seasons producing large crops. The pods, borne in clusters averaging six to eight inches in length, are uniformly straight, of a dark, rich green color and so meaty as to be nearly saddle-backed. The pods are entirely stringless, very tender and sweet and of a mild flavor. The dry beans are of a pearly whiteness. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 65c.

Kentucky Wonder Wax

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod. It is a rampant grower, one plant filling a pole with vines densely loaded with a solid mass of pods, being from 6 to 8 inches in length, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Henderson's Early Leviathan Pole Lima

This is the very earliest. It will not only give pods earlier than any other strain but is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles and is a sure cropper. The pods hang out from the foliage in large clusters and contain 3 to 5 large beans to a pod. It bears until frost. Pkt. 5c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 60c.

Special Offer on Beans

Beans are one of the most nutritious vegetables and the following varieties will keep you supplied throughout the season:

Extra Early Red Valentine	Jungs Fairfield Wonder Wax
Ken. Wonder Wax Pole Bean	Henderson's Early Bush Lima
1 Pkt. of each for 25c	$\frac{1}{2}$ Pt. of each for 80c
1 Pint of each for \$1.25	1 Pint of each for \$2.25

HENDERSON'S LEVIATHAN

KY. WONDER WAX

Jung Quality Seeds

SNOWFLAKE OR 1200 TO 1 BEAN

Snowflake or 1200 to 1 Field Bean

Ripens Early. Immense Yields. Handsome Appearance. Unqualified for Soups or Baking. We again sent out many thousands of this wonderful bean the past season and are delighted to hear of the excellent results our customers are having with it. This is decidedly one of the best Pea Beans to grow for either market or home use both on account of its great yield and handsome appearance. Its cooking and baking qualities are unsurpassed. Vines are very healthy, dwarf or bushy in growth and bear an immense number of pods which are well filled with the pearly white beans. Get at least a pint of these wonderful beans and grow enough for your winter use. Pkt. 7c.; 1/2 pt. 20c.; pt. 30c.; qt. 55c., postpaid. Not prepaid: Qt. 35c.; pk. \$1.50.

SWISS CHARD

Lucullus

Plants grow two feet high and consist when fully developed of about a dozen creamy white, attractive curled leaves. The leaves are carried on broad thick stalks about 12 inches long. The leaves may be cooked in the same manner as Spinach. Pkt. 5c.; oz. 10c.

SWISS CHARD

BRUSSELS SPROUTS

BRUSSELS SPROUTS

Long Island Improved

The Sprouts resemble miniature cabbages growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure sprouts but improve them and they are left in the garden until desired for cooking. Strip off the outer covering of the Sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt. 5c.; oz. 15c.

BORECOLE OR KALE

BORECOLE or KALE

Dwarf Curled

Useful for furnishing greens or boiling, during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt. 5c.; oz. 10c.

ENDIVE

ENDIVE

Green Curled

Mostly sown in June or July for fall use, in rows about one foot apart; thin out to 8 inches apart and when long, blanch by tying the top together. Green Curled is a hardy variety, the most desirable for home use or market garden. Deep green leaves beautifully cut and curled; easily blanched and becomes crisp, tender and very fine flavored. Pkt. 5c.; oz. 15c.; 2 oz. 20c.

Charles Cramer, Sherodsville Ohio.—We like your seeds just fine, we always have a good garden.

Maym^e Hannon, Delaware, Ohio.—The seeds we got last year from you were the best we ever planted.

TURNIP CELERY

This is an excellent vegetable. It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the same manner as other vegetables, for flavoring soups, or sliced and used as a salad. Pkt. 5c.; 1/2 oz. 15c.; oz. 20c.

Jung Quality Seeds

EARLY MODEL

Garden Beets

Fireball or Dark Leaved Globe

Excellent for the Home Garden or Canning. This early globe-shaped beet of excellent quality is especially esteemed on account of its dark red color, which extends entirely thru the beet and without the light colored ring seen in some varieties. The medium sized beets are smooth and handsome

and are now being largely used for canning as well as for the home garden or market. It retains its good quality even after it gets large, and is an excellent variety on this account for fall use as well as for spring. Maturing in about 50 days. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

FIREBALL

Early Model

This splendid variety has attained perfection for table use. It is extremely early, of perfect globe shape and of finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth fine rich color and desirable shape. The roots of Early Model are of good size and run uniformly perfect; almost round, with small, dark crimson-colored leaves and a slim tap-root. It makes a rapid growth and matures very early. In quality and color it is peerless; very fine grained, tender and sweet, never woody or stringy. The tops are small, making it a good forcing variety. It retains its choice quality and freedom from woodiness until the Beets have reached their full size. Pkt. 7c.; oz. 12c.; ¼ lb. 25c.

Select Detroit Dark Red

Detroit Dark Red beet has long been regarded as the standard of excellence. It is very early, nearly as early as Egyptian and greatly surpasses that variety in flavor. The color is rich, dark red and the shape is globular. It is fine-grained in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing; for a main spring and summer crop or for use in winter as it is a good keeper. It cooks sweet, tender and crisp and it is a good keeper and is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.

Improved Blood Turnip

Extremely Early, Deep Red, Tender and Sweet. This wonderful early beet is the result of reselecting and improving and is now so perfected that we believe it is one of the earliest and best turnip shaped beets grown. It is much earlier than Crosby's Egyptian, maturing in about 40 days, of perfect shape and beautiful, deep red color. The tops are not quite as large as Crosby's Egyptian, which permits close planting and is excellent for bunching; a desirable early sort for the home garden as well as for market. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

KLEIN
WANZLEBEN
SUGAR BEET

SUGAR BEET-Klein Wanzleben

This Beet is the result of years of methodical and persevering selection. It gives better results than any other variety. It is extremely rich in sugar, thousands of analyses showing that the average percentage of sugar obtained from this variety is about eighteen and its average yield may be stated as from 15 to 16 tons an acre but crops of 25 to 40 tons per acre have been obtained off it. Flesh finely grained and very sweet. Pkt. 5c.; oz. 8c.; ¼ lb. 25c.

DETROIT DARK RED

COLLARDS

True Georgia

A tall loose form of cabbage grown in the South as a substitute for cabbage and extensively used there for stock feeding. It continues in growth and is usable all winter. Hardier, easier to grow and can be grown in poorer soil than cabbage. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.

P. F. Dalke, Tracy, Minn.—Sure cannot say enough good about your seeds, as the Tree Tomato, Pepper, Cauliflower and Cabbage all are fine and show strong germination.

W. R. Witt, Coulwood, Va.—I was well pleased with the seeds I bought from you last year. Musk melon were the finest I ever grew.

Jung Quality Seeds

Mangels

Mammoth Long Red

The heaviest cropper. This mangel is enormously, wonderfully productive. The flesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the Half Long Sugar, making it the most nutritious and milk producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to others. Oz. 8c.; 2 oz. 15c.; ¼ lb. 20c.; ½ lb. 30c.; lb. 50c.

Golden Tankard

A smooth, yellow-fleshed Mangel; roots are of large diameter, tapering quickly to the bottom which is quite broad, with only a small taproot. It grows largely above the soil and is easily harvested. It yields an enormous bulk on good soil and can be closely grown in rows. No root crop is a better paying investment for farmers to grow than Mangels. Oz. 8c.; ¼ lb. 20c.; lb. 50c.

MAMMOTH LONG RED

GO DEN TANKARD

Cabbage

The cabbage seed we are offering was grown with exceptional care. The plants were grown from selected stock and the heads were all carefully inspected before being set out. Our packets of Cabbage each contain seed enough to produce 500 plants.

Select Early Jersey Wakefield

The standard pointed-headed Cabbage throughout the United States. The heads are uniformly hard and solid and are pyramidal in form, generally pointed at the end with but few outside leaves. The outside leaves are usually thick and heavy and it is thereby enabled to withstand more cold weather without injury when carried through the winter. Having but few outside leaves it may be planted close so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and as a cropper no early cabbage can approach it. Size is ideal for marketing. Pkt. 5c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 65c.

EXTRA EARLY EXPRESS

Extra Early Copenhagen Market

The earliest of all round headed cabbages maturing as soon as the pointed varieties. Earliness, compact growth, large head and fine quality are fast bringing it to the front as one of the most popular extra early sorts. It matures very evenly so practically the entire crop can be cut at one time. Heads weigh 8 to 10 pounds, are very solid and seldom crack, inside pure white, fine grained and of exceptional quality. Our seed is from the most reliable growers and equal to any no matter what price you pay. Pkt. 8c.; ½ oz. 20c.; oz. 35c.; ¼ lb. 75c.

EARLY JERSEY WAKEFIELD

Extra Early Express

POSITIVELY THE EARLIEST CABBAGE ON EARTH. It produces heads of good size a week to ten days earlier than Jersey Wakefield. There are few loose leaves and it forms a head of good size and fine quality. It can be planted close, always yields a large crop. A fine variety for shipping, as the heads remain solid for a long time. It is a beautiful appearing cabbage, being of fine color and general uniformity. Also called "Lightning" and other fancy names by some seedsmen. Pkt. 8c.; ½ oz. 20c.; oz. 30c.; ¼ lb. 75c.

EX. EARLY COPENHAGEN MARKET

Perfection Savoy

This is the hardest heading and best all-round SAVOY. Plants are of strong growth, having only a moderate amount of outer foliage growing closely around the large, solid heads. It is very sweet and crisp and always tender. The heads are beautifully blanched and of the finest flavor. Pkt. 5c.; oz. 30c.; ¼ lb. 60c.

Allhead Early

This variety has proved itself to be adaptable to a wide range of both soil and climate and is well worthy of recognition as a standard American sort. It is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep flat heads are remarkably solid and the most uniform in color, shape and size of any variety. Good quality and tenderness

are marked features. It is suitable for growth in spring and early summer or for use as a winter sort. The heads grow so compact that fully one thousand more heads than is usual with large cabbage can be grown to the acre. Seeds sown in July and plants set in August will produce good heads for wintering. It is a money maker for gardeners. Pkt. 5c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 65c.

ALL-HEAD EARLY

Jung Quality Seeds

CABBAGE-Continued

Danish Balloead

A Grand Hard Headed Cabbage

This type of winter cabbage has become very popular of late years on account of its **UNEQUALED KEEPING QUALITIES** as well as for the great **SOLIDITY** and **WEIGHT** of the heads. It is strong and vigorous in growth, and produces large, round compact heads, exceedingly hard and solid weighing when trimmed fully one-fourth more than any other cabbage of equal size. For boiling, slaw, sauerkraut, etc., it is unequalled being crisp, tender and sweet. It seems to grow well on all soils and under most conditions, withstanding hot, dry weather and does not rot from the effects of wet seasons, neither do the heads burst. Pkt. 8c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.; $\frac{1}{4}$ lb. 75c.

DANISH BALLHEAD

SUREHEAD

Surehead

Sureness in heading and regularity in growth have placed this at the top of the list, and we have no fear of using words of praise too high for its merits. It forms large, hard, solid, flattened heads, uniform in shape and color and of handsome appearance. It has a very short stem and is a compact grower. It is as natural for this cabbage to form a head as to form leaves and reports of 99 marketable heads from 100 plants are of frequent occurrence. Nobody will be disappointed in our strain. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.; $\frac{1}{4}$ lb. 60c.

Red Drumhead

This is the well known Standard Cabbage. Heads are of large size, slightly rounded and from seven to eight inches in diameter. A valuable variety for pickling; very sweet, tender and of excellent quality. Pkt. 5c.; oz. 20c.; $\frac{1}{4}$ lb. 70c.

SHORT STEM DRUMHEAD

Short Stem Drumhead

A Standard Fall Shipping Sort

It makes a large, round, firm head, uniform in shape and color which seldom bursts or rots. With good cultivation heads attain a weight of 20 to 30 pounds and are of the finest quality. **Sureness** in heading and regularity in growth has made this one of the most popular standard sort for winter keeping. The quality, either for slicing, for kraut or for general table use is superb. This variety is much used by market gardeners in northern Illinois and has proven a moneymaker to them. It is a very fine strain of late cabbage and can be profitably grown anywhere in this country; it is a splendid sort for general use giving unbounded satisfaction. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.; $\frac{1}{4}$ lb. 60c.

Cauliflower

Early Snowball

For earliness and reliability to produce a head of good size and rich, white curly appearance it is unexcelled. It forms snow white heads, six to ten inches in diameter, of good quality. While originally recommended and used as an early variety, it has not only supplanted all other sorts for spring planting but it has largely driven out the large late sorts for fall use, being much finer in quality and the one cauliflower that is absolutely certain to head when conditions are ordinarily favorable. The heads are so solid compact and deep they will outweigh those of any other strain. There is a great difference in the strain of this variety offered but our stock is the very best. Pkt. 12c.; $\frac{1}{4}$ oz. 60c.; $\frac{1}{2}$ oz. \$1.00; oz. \$1.85.

SNOWBALL

DRY WEATHER

Dry Weather

Especially adapted to resist drought. Reaches perfection when ordinary sorts fail. Preeminently the best early variety for the family garden and also for market gardeners in sections which are not especially adapted for cauliflower. Plants are of vigorous growth, producing heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first class cauliflower but is particularly adapted to dry situations and to resisting the effect of drought. It also does well in wet or moist situations, producing heads equal to the best. Pkt. 15c.; $\frac{1}{2}$ oz. \$1.50; oz. \$2.50.

Autumn Giant

This is a large variety with fine, well proportioned heads. The heads are so well protected by foliage as to remain fit for use for a long time. Suitable for late planting. Quality excellent. Pkt. 10c.; oz. 60c.

AUTUMN GIANT

M. E. Baker, Westport Point, Mass.—Found your seeds to be much superior in quality and vigor to those I used before, the Snowball Cauliflower I had was a great success. I had them when there were none on the market and they were handsome and delicious.

Jung Quality Seeds

DANVERS HALF LONG

Danvers Half-Long

A handsome half-long cylindrical, stump-rooted carrot of good size and of a rich orange color. It grows to a large size, is smooth and the flesh very close in texture with little core and a small tapering taproot. It is a good carrot for all soils and under good cultivation it has yielded 20 to 25 tons per acre. It is very easily harvested. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 80c.

Mrs. John Levau, Foreston, Minn.—Used your seeds and they surely are all you claim them to be.

Carrots

Jung's Early Market

A handsome half-long variety, the shape of which is well shown in the illustration. They average 6 inches in length by 1½ inches in diameter and are ready for use quite early. The skin is very smooth and clean and of rich orange color. The flesh is of fine texture, free from all stringiness while the core is very small, having no pithy or woody fibre. Our sales of this grand Carrot are increasing every year. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.; lb. \$1.00.

JUNG'S EARLY MARKET

CHANTENAY

Chantenay

This variety is desirable in all respects. It is stump-rooted and therefore very easily dug. Roots are very smooth, fine in texture and of a beautiful orange color. For table use it is considered to be the best of all, both on account of shape and quality. It is a heavy cropper and undoubtedly one of the best for both the market and private garden, while its great productiveness makes it very desirable as a field sort. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 80c.

Oxheart

A magnificent carrot for general culture; indeed by many considered the best of all. It is very thick through about 5 inches long, stump rooted, often attaining a weight of 5 pounds. Flesh is a rich orange in color, very tender and sweet. We recommend this variety for both home and market gardens; especially for hard or stiff soils where longer varieties will not thrive. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 75c.

Large White Belgian

This is the largest yielding stock carrot grown. Nearly half its length grows above the ground making them very easy to harvest. Carrots are often 18 inches long and 4 to 5 inches in diameter. Yields of 15 tons per acre are nothing unusual. Excellent for either cows or horses. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 70c.

Harry Schussler, Canonsburg, Pa.—Had such wonderful results from your seeds that I am an every-year-user of JUNG'S SEEDS.

Chinese or Celery Cabbage

Until recently this new vegetable was unknown but as its good quality become known it is rapidly gaining popular favor. For best results the seed should be sown the latter part of July in rows 2 feet apart and thinned to stand 15 inches apart in the rows, then a most excellent vegetable can be grown. Develops quickly and as the weather gets colder it heads up nicely producing crisp, celery-like stalks, beautifully blanched. It can be eaten raw, made into salads or cooked as cabbage or greens. Pkt. 8c.; ½ oz. 15c.; oz. 25c.

Mrs. Levine Peared, Bolivar, Pa.—Your seeds are just what you say, I had good vegetables and flowers from your seed, all the neighbors spoke of my good garden and flowers.

Celery

Easy Blanching

A new celery of special merit. Strong and stocky in growth with light green foliage, showing a yellowish hue. The stalks are large and heavy, solid, crisp, tender and of a most delicious nut-like flavor. The creamy-yellow hearts are exceptionally large and firm and of handsome appearance. It is easily and quickly blanched. Due to the solidity of the stalks it is an excellent keeper and may therefore be grown for fall and winter use. Pkt. 10c.; ½ oz. 25c.; oz. 45c.

EASY BLANCHING

LARGE WHITE BELGIAN

CELERY CABBAGE

Jung Quality Seeds

CELERY-Continued

The New Celery "Emperor"

An excellent celery for fall and winter use, of true dwarf growth, having a very large heart, solid and of finest nut flavor. Being of dwarf growth, 15 to 18 inches tall, it is much easier to blanch than the taller varieties. The stalks are smooth very thick, round and crisp, blanching to a light golden yellow. An especially good keeper. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.; $\frac{1}{4}$ lb. \$1.50.

Golden Self-Blanching

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle and of a delicious flavor which is not surpassed by any other variety while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown for market and private use, not only on account of its easy culture but for its superior quality. The hearts are large and hard and blanched to a beautiful golden yellow. When grown in moist soil the stalks are numerous and large in size. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.

GOLDEN SELF-BLANCHING

EMPEROR CELERY

Giant Pascal

One of the most popular sorts for winter use. It grows about two feet high, the stalks solid and stringless and almost as brittle as glass. The stalks are of strong growth, wide and thick, quite heavily ribbed, very brittle and crisp when nicely blanched making large bunches. It blanches easily and keeps well. Especially recommended for the south where it is prized more than any other kind. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.

Mrs. L. Fitzwater, Loveland, Ohio.—Your seeds have always given satisfaction.

WHITE PLUME

White Plume

This is the earliest and most easily blanched celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure snowy whiteness even without earthing up; but stalks should be gathered together and earthed up as in the other varieties so as to produce close attractive bunches. As for succulence crispness and quality the White Plume is unequalled. Pkt. 5c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.

J. D. Summers, Lebanon, Tenn.—We would not plant our garden without JUNG'S SEEDS, the tomato and cabbage especially are fine, all we have used have been QUALITY.

Cucumbers

Jung's Fairfield Giant

The darkest green and most nearly seedless cucumber in cultivation. The vines are unusually vigorous in growth and produce an enormous crop of handsome fruits. They are quite smooth, of a deep green color and grow from 12 to 18 inches long, being one of the handsomest cucumbers grown. When the fruits are from 6 to 8 inches in length or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white flesh is very firm, sweet and crisp, and of the finest flavor. As shown in the illustration the fruits are very long and slim, which together with their deep green color will make them bring the top prices on all markets. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 60c.

Chicago Pickling

The most popular and widely grown pickling variety. The fact that it is used by most of the large pickling factories is the best proof of its leadership in its class. The vines are very vigorous growers and will produce a large number of fruits if kept gathered before they become too large. Skin is extremely thin, tender and free from toughness when pickled. Quality excellent. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

JUNG'S FAIRFIELD GIANT

Jung Quality Seeds

CUCUMBERS-Continued

EXTRA EARLY WHITE SPINE

Extra Early White Spine

A dark green handsome Cucumber, often attaining a length of 12 inches and straight and attractive in shape. It makes a hard brittle pickle when small and a grand table variety when large. Excels in earliness, often ready for slicing when other sorts are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early markets. Pkt. 5c.; oz. 12c.; ¼ lb. 35c.

Fordhook Famous

The longest white spine, finest flavored of all Cucumbers. This is the handsomest of all long green cucumbers always straight and well formed; they never turn yellow. Critical buyers are willing to pay an extra price on market for these unequalled fruits. The vines are of strong, vigorous growth with heavy foliage and set the extra large fruits freely throughout the season. The cucumbers are smooth and regular in form averaging 12 to 14 inches in length and have a very thin and tender skin. The flesh is very thick, crisp and exceptionally mild in flavor. The cucumbers are about all flesh as the seed spaces are very small. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.

FORDHOOK FAMOUS

Special Offer on Cucumbers

If you wish to have a large supply of nice Cucumbers plant the following:

- | | |
|------------------------|---------------|
| Jung's Fairfield Giant | Davis Perfect |
| Early Fortune | White Wonder |
| Chicago Pickling | |

1 Pkt. of each for 25c 1 Oz. of each for 65c

EVERBEARING

Early Fortune

This variety is exceedingly productive and is distinguished by its vigorous growth and large healthy leaves, making it less susceptible to disease than other varieties. The fruits are very uniform in size and shape and rich dark green in color; this color does not fade when shipped a long distance. As a pickling variety **EARLY FORTUNE IS ONE OF THE BEST VARIETIES** as the fruits are so uniform. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

DAVIS PERFECT

Davis Perfect

A cucumber which for shape, quality, color and forcing indoors or growing outside is unexcelled. The type is perfectly fixed and has an ideal shape, slim and symmetrical. The eating qualities surpass all other varieties. The seeds that are contained in it when in slicing condition are so small and tender that they are unnoticed. The vines are very strong and rampant growers; the fruit resembles the hothouse product so closely that dealers cannot detect the difference. The most nearly perfect Cucumber yet introduced. Pkt. 7c.; oz. 15c.; ¼ lb. 40c.

WHITE WONDER

White Wonder

A wonderfully good slicing cucumber. In color it is a beautiful pure snow white. Grows to good size, usually 8 to 10 inches long and is very uniform. In season almost the same as White Spine but keeps in eatable condition longer. Its smooth, clear surface makes this an ideal pickle. The firm, crisp flesh with its pleasing flavor is just right for slicing or in salads. **WHITE Wonder** furnishes you Quantity and Quality. A packet of seed yields Cucumbers in abundance for canning, pickling and slicing. Pkt. 5c.; oz. 15c.; ¼ lb. 50c.

Everbearing

This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue in bearing throughout the season. The fruits of a rich, dark green color, average from 4 to 5 inches in length. Owing to its productiveness it is a fine variety to plant for producing small pickles. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

There's Pleasure and Profit

in growing vegetables for your own use or to sell. There is no comparison in quality between vegetables fresh from the garden and those that have been on the market for several days.

EARLY FORTUNE

Jung Quality Seeds

JUNG'S EARLY FORTUNE

Jung's Northern Grown Sweet Corn

Our stocks of Sweet Corn are mostly of our own growing, and is of extra fancy quality and high germination. You will find that for earliness our northern grown seed is way ahead of western grown seed. If you want to be the first on the market with Sweet Corn plant some of this seed.

Jung's Extra Early Fortune

This variety originally came from Canada and at our Fairfield Farm trials it was the earliest of all. There is no product of the garden so eagerly waited for as the first sweet corn of the season. Early Fortune is the real tender, juicy sweet corn, ready for use before the summer has really commenced. Not only is it early, but it is also sweet and delicate in flavor, being excelled in this respect by no other corn except Golden Bantam. On account of its extreme earliness Early Fortune is especially adapted for planting in northern latitudes and in high altitudes where other varieties fail entirely. The stalks do not grow very large but have two and often three unusually large ears. Ears are about seven inches long and well filled with sweet and tender grains. Pkt. 8c.; 1/2 pt. 20c.; pt. 30c.; qt. 50c..

Jung's Select Golden Bantam

The Best, the Largest of all Early Sweet Corns, Retaining Its Delicate Tenderness Even When a Little Old. This variety is pronounced the favorite because of its extreme early character, vigorous growth and surpassingly delicious flavor. It is the ideal garden Sweet Corn with the richest flavor of all. Besides being early it is very hardy and permits of the earliest planting. Especially recommended for Northern States, also desirable for warmer locations, because the ears are protected by good firm husks and is not liable to smut. The stalks are dwarf in growth, averaging four feet in height. The ears are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary and by every one admitted to be the finest flavored Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties. Pkt. 8c.; 1/2 pt. 20c.; pt. 35c.; qt. 50c., postpaid.

GOLDEN BANTAM

BANTAM EVERGREEN
W. R. Witt, Coulwood Va.
—I was well pleased with the seeds I bought from you last year. The Musk melon were the finest I ever grew.

Bantam Evergreen

Golden Bantam Crossed With Stowell's Evergreen. This variety of golden or yellow Sweet Corn combines the size of the Evergreen ear with the color and quality of the Golden Bantam. In crossing these two excellent varieties none of the good qualities have been lost, rather it surpasses them in sweetness and tenderness. The ears are 7 to 9 inches long, well filled with deep kernels of rich yellow corn. Not an extra early sort, yet it comes just right in season to follow the first early sorts. The larger ears and prolonged season make it the favorite both in the home garden and for fancy market trade. All lovers of Sweet Corn must at least give Bantam Evergreen a trial. Pkt. 7c.; 1/2 pt. 20c.; pt. 30c.; qt. 55c.

Howling Mob

The largest eared, sweetest flavored early variety in cultivation. This variety is of exceptional hardiness and productiveness. It produces ears of large size, combined with an unusual sweet flavor for so early a corn. The stalks are strong and vigorous, four to four and one-half feet high. The ears are seven to nine inches in length with 14 or more rows of medium sized pearly white grains. The grains are sweet and rich in flavor. The ears are protected by a heavy husk which extends beyond the tip of the ear and forms a safe-guard against the destructive green worms. Pkt. 5c.; 1/2 pt. 20c.; pt. 30c.; qt. 50c.

White Evergreen

The Leading Late Variety of Sweet Corn. The most valuable Sweet Corn ever produced. White Evergreen is much superior to Stowell's. It retains all the most desirable features with the added merits of pure whiteness in color, a more tender grain and distinctly sweeter flavor. The ears' average very large and are well filled to the tips with the long sweet grains of pure whiteness and most delicious flavor. The stalks are very strong growers, from 6 to 7 feet high and sometimes bear three fine ears to a stalk. The ears contain 16 or more rows of deep grains which are protected by a thick heavy husk. Pkt. 5c.; 1/2 pt. 20c.; pt. 30c.; qt. 50c.

Special Offer on Sweet Corn

The 5 splendid varieties of Sweet Corn listed above will supply your table with tender and delicious sweet corn throughout the season.

- 1 Pkt. of each variety for 30c
- 1 Pint of each for \$1.40
- 1/2 Pint of each for 90c
- 1 Quart of each for \$2.25

HOWLING MOB

WHITE EVERGREEN

Jung Quality Seeds

BANTAM RICE

POP CORN-Bantam Rice

The Bantam Rice is a dwarf growing corn, a heavy yielder of attractive ears which are very thick and yield an unusually large quantity of shelled corn. The kernels are similar to the best strains of White Rice, only they are longer and slimmer and pearly white in color. Its greatest merit, however, lies in its superior popping qualities, there being hardly any hull or shell when popped. It is most tender and delicious as it fairly melts in your mouth. It combines both quality and quantity being a heavy yielder and superior to any other in quality. Try it once and you will not be without it again. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

White Rice

A very handsome and prolific variety. The grains are pointed and somewhat resemble rice. The ears are from six to eight inches long and very fine in appearance. Pops full and white, very crisp and delicious. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 50c.

Jane M. Walker, Waupun, Wis.—Used your seeds last year and was very much pleased with the success I had with them.

MOSS CURLED PARSLEY

Moss Curled Parsley

The leaves are of an extra dark color. It is very productive and on account of its densely curled character of leaves a large quantity can be gathered in a short time. It is much used for flavoring and garnishing. Pkt. 5c.; oz. 10c.

Turnip-Rooted Parsley

This variety, the roots of which resemble a small parsnip, is used in flavoring soups, stews, etc. For winter use store the roots same as turnips; as easy to grow as carrots. Pkt. 5c.; oz. 10c.

Annie Marengo, Polson, Mont.—Got my seed from you 2 years ago and it was the best seed I ever had. Last year some way I did not get to send for any and I didn't have any garden, my seed was from here and nothing grew.

EGG PLANT

Black Beauty

The earliest and best of all large fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet color. The fruits set freely and develop quickly so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruits, which weigh from one to three pounds each close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost. Pkt. 8c.; ½ oz. 25c.; oz. 40c.

EGG PLANT

PEANUTS

Early Virginia

This splendid variety is very desirable because so early and prolific. It grows perfectly erect and seed planted early in May will ripen a crop in September and for this reason can be grown in the north. Let the boys and girls try them it will give them lots of fun and provide peanuts for the winter. Full culture instructions on every package. Pkt. 5c.; pt. 25c.; qt. 45c.

GROUND CHERRY

True Yellow

These plants are low and spreading and produce their luscious fruit in great abundance. Excellent for pies and makes delicious preserves as the fruit has a strawberry flavor. May also be dried in sugar like raisins and figs. Of easy culture and will succeed in most any garden. Pkt. 5c.; 3 pkts. 10c.

GROUND CHERRY

White Velvet Okra

The long tender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use it can be boiled and served like other vegetables. The pods should be gathered while young as they are then very tender. Pkt. 5c.; oz. 10c.

Vine Peach

Grows on a vine the same as a melon. The fruit has the size, shape and color of an orange. The flesh is snow white and makes excellent preserves or sweet pickles, may also be sliced and fried like egg plant. Vines are quite hardy and productive. Fruit will keep a long time after picking. Pkt. 5c.; 2 pkts. 10c.

OKRA

Jung Quality Seeds

TOBACCO

Connecticut Seed Leaf

Tobacco growing is gaining in popularity from year to year and we are offering this seed to supply your wants. Connecticut Seed Leaf is one of the best known and most widely grown varieties as it produces a leaf of good size and fine quality. Pkt. 5c.; oz. 40c.

HERBS

Herbs delight in a rich mellow soil. Sow in early spring in shallow drills 1 foot apart; cover lightly with fine soil and when up a few inches thin out or transplant into prepared beds. Care should be taken to harvest properly. Do this on a dry day just before they come into full blossom; dry quickly in the shade; pack closely in bottles or tight boxes to exclude the air.

ANISE. Used for cordials, garnishing and flavoring. The seeds have an aromatic taste. Pkt. 5c.

SAGE. Sow in rich ground and thin out the plants to stand 15 inches apart. Used for flavorings and dressings. Pkt. 5c.

DILL. This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c.; oz. 20c.

MARJORAM SWEET. The leaves and end of the shoots are esteemed for seasoning in summer and also dried for winter use. Pkt. 5c.

SUMMER SAVORY. The leaves and flowers are used extensively for flavoring, particularly in soups and dressings. Pkt. 5c.

THYME. The leaves are used for seasoning. Pkt. 5c.

Mrs. Ida Harritt, Kilbourn, Wis. Have planted your seed for the last 4 years and have always had a lovely garden, certainly am well pleased.

T. M. Wilson, Clinton, Minn.—I have used your seeds for 6 years and always have a good garden.

THE EARLIEST

KOHL RABI

Purple Vienna

This vegetable is grown for its turnip-shaped bulb, which is grown above the ground. Excellent for soups or cooked in the same manner as turnips. Grows to a large size and of juicy quality. Very early and of fine shape and delicate flavor. Pkt. 5c.; oz. 20c.

White Vienna

This variety is very early with distinctly small tops. The bulbs are of medium size and very light green or almost white in color and are of the finest quality if used when about two inches in diameter. Pkt. 5c.; oz. 20c.

WHITE VIENNA

MUSTARD Gigantic Thick Leaved

The leaves are large, light green with tinge of yellow, much crimped and frilled at edges. The plant is upright or slightly spreading in growth. This variety is highly esteemed in the South for the market as well as the home garden on account of its vigorous growth, hardiness and good quality. Pkt. 5c.; oz. 10c.

MUSTARD

EARLIEST WAYAHEAD

Lettuce

Earliest Wayahead

This is the quickest growing and most attractive extreme-early Lettuce producing handsome, solid heads fully one week earlier than Black Seeded Tennis Ball. Its earliness makes it the ideal variety for market gardeners as the early heads always bring the best price. Its quality is unsurpassed; the heads are very solid; have weighed 6 oz. when trimmed. The interior of the heads is blanched to a beautiful creamy color; while the leaves are tender, juicy and sweet-flavored. The quality of this variety is unequalled among the early sorts. Pkt. 8c.; oz. 20c.; ¼ lb. 45c.

Extra Select Grand Rapids

A well known forcing variety. It makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent. Pkt. 5c.; oz. 15c.; ¼ lb. 45c.

Market Gardeners' Big Boston

Extra Select Strain for Critical Planters. This market variety is very popular for outdoor culture and is also in demand as a compact, large heading forcing sort for cold-frames. The plants are large, very hardy and vigorous. The leaves are broad, comparatively smooth but wavy at the edge, thin very hard and crisp. In color they are bright light green, the head slightly tinged with reddish brown. The inner leaves blanch to an attractive greenish white, tinged with light yellow. It heads up under cold weather conditions better than any other variety and is grown very extensively in the south for shipping north in the winter. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

Jung Quality Seeds

LETTUCE-Continued

DEACON
LETTUCE,
from a
Photograph.

Deacon

This magnificent lettuce stands hot weather better than any other of the rich butter varieties. Plants make firm heads nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream yellow and of a delicious rich buttery flavor. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

Jung's All Cream

This remarkable Lettuce does not head but makes a large loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer turning outward very gracefully and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early and remains for weeks. It is the cream of all sorts and should be grown in every garden. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

New York or Wonderful

Recommended by critical market gardeners as the very best solid heading variety for Spring or Summer months. It will not scald or burn and will make solid heads where all other sorts fail. Very crisp and tender. Produces immense heads as solid as a Cabbage. It blanches beautifully. Crisp, Tender and Delicious. Absolutely free from Bitterness. The Largest Heading Lettuce of all. It frequently weighs two or three pounds. The head is very solid, of pleasing light green color. As an example of its "standing" properties perfect Lettuces were cut from the same bed for upwards of seven weeks. It is pronounced the finest in cultivation for exhibition purposes and for an outdoor all season variety it stands unrivaled. Pkt. 8c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 80c.

N. Y. or WONDERFUL

CALIFORNIA CREAM BUTTER

California Cream Butter

The Finest and Largest Cabbage Headed Sort. A smooth leaved lettuce forming very large, compact, cabbage-like heads of thick, yellowish green leaves, the inner ones beautifully blanched, very crisp, tender and buttery. Matures in 50 days. It is one of the most largely grown sorts suitable for the home garden as well as market. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.

New Iceberg

The usual solidity of the heads is assured by the large white main ribs of the leaves, each of which curving strongly into the center acts like a truss making it impossible for the leaves to open outward and expose the center which is thoroughly blanched. It is quick growing and always crisp and tender, whether grown in early spring or in the hot days of summer. The heads are of good size. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

May King

This variety is not in the least affected by cold or wet weather but produces large, solid heads 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter with the outer leaves folding closely forming the plant into a solid head. The outer leaves are light green slightly tinged with brown; the inner leaves are light yellow and of a fine rich buttery flavor. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

MAY KING

JUNG'S ALL CREAM

NEW
ICEBERG

Jung Quality Seeds

HEARTS OF GOLD

Extra Early Knight

(Jung's Earliest Ripe)

Positively the earliest green-fleshed muskmelon ever grown. Of medium size, weighing from 2½ to 4 pounds. The skin is green, ribbed and netted, the flesh deep and thick and light green in color inclining to yellow toward the center. In flavor it is exceedingly fine. A heavy cropper and absolutely the earliest of all muskmelons. We recommend it particularly to all whose profit depends upon being first in market, and their uniform size and shape combined with their delicious flavor, sell rapidly at high prices. If you want a firm, solid melon and the first on the market plant EARLY KNIGHT. Pkt. 7c.; oz. 15c.; ¼ lb. 35c.

EXTRA EARLY KNIGHT

Jung's Big Profit

Market gardeners who grow melons for profit will find this to be the best to be had in a melon of large size and superior quality. As shown in the illustration the melons are oval shape, skin light green with coarse netting. The flesh is deep orange colored, very thick, deliciously sweet and of superb flavor. The melons are large in size, averaging about 10 lbs. and ripen medium early for so large a melon. A valuable thing about this melon is that they will keep in good condition and improve in flavor for five or six days after picking. Pkt. 8c.; oz. 25c.; ¼ lb. 60c.; lb. \$1.75.

JUNG'S BIG PROFIT

Mrs. Aug. Anderson, Pittstown, N. J.—Just received your nice seed book I think your seeds are the best I ever had and am sending my order, everything comes up good.

NEW EARLY FORDHOOK

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to the Emerald Gem in flavor. So firm is the rough netted skin and so solid the thick salmon flesh that the melons carry to market even better than Emerald Gem. The flesh is very thick, of an attractive deep salmon color and surpassingly sweet to the very rind. The rind, although thin, is usually firm so that the fruits carry well to market. It is most vigorous in growth. Very early and extremely prolific. Each vine sets from five to nine melons around the stem and frequently touch one another. The melons are very even in size, weighing from 1¼ to 2 pounds each. For handsome appearance, extreme earliness, great productiveness and superb quality it is unexcelled. Be sure to give NEW FORDHOOK a trial. Pkt. 7c.; oz. 15c.; ¼ lb. 35c.

New Early Fordhook

RUST PROOF ROCKY FORD

Musk Melons

Hearts of Gold

This is a melon of the highest quality, the deep golden salmon flesh is so sweet it will make your mouth water. It is an ideal shipping melon as it has a tough rind, also very desirable for the home garden. The melons are of medium size, averaging 5 to 6 inches in diameter, yet they are very heavy because of the thick flesh and small seed cavity. The netting is heavy and dense extending practically over the entire melon. The vines are vigorous, blight resisting and very productive. Ripens early. Our seed is extra select, being saved only from the very best melons. Pkt. 10c.; oz. 25c.; ¼ lb. 60c.; lb. \$2.00.

Rust-Proof Rocky Ford

(SELECT STOCK)

One of the most popular green fleshed Musk Melons. In the hand of Rocky Ford growers it has made Colorado famous in eastern markets for melons of UNEQUALLED QUALITY. The vines are exceedingly healthy and vigorous, bearing an enormous quantity of fruits during the entire season. The color of the skin is a rich greenish gold; the netting is prominent and light in color, appearing very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting. It is very sweet and luscious in flavor. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

Jung Quality Seeds

SELECT EARLY OSAGE

that the vines resist the attacks of insects and blight. It is very prolific for so large a variety, frequently producing as many as ten large melons to a vine. The seed cavity is so small that there is no tendency towards cracking open at the blossom end. Extra Select Seed: Pkt 7c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.25.

Burrell's Gem

A popular salmon fleshed melon. The melons are 6 to 7 inches long by 4 to 5 inches in diameter, rather sharply sloping at the ends. They are quite well ribbed and covered with a fine grayish netting. The flesh is thick and firm, ripening close to the skin leaving only a thin rind. The skin is a rich dark green contrasting finely with the deep orange-salmon colored flesh which is very sweet and tender. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

EXTRA EARLY HACKENSACK

HENDERSON'S BUSH

TWO FINE MELONS FOR SMALL GARDENS

Henderson's Bush Musk Melon

The Melon for Small Gardens. Require Little Space

The vineless character of growth or "bush habit" of this fine melon is a distinct advantage as it can be grown even in small gardens where room is limited. The plants are very sturdy and vigorous, growing 18 to 24 inches long. The fruits average 4 to 5 inches in diameter and are produced in abundance. The flesh is very deep, edible to the rind, light green in color, lusciously sweet and juicy and of most gratifying flavor. Pkt. 10c.; 3 pkts. 25c.

"Baby Delight" A Real Climbing Water Melon

Persons having small gardens may have water melons of their own growing as this melon will climb up a trellis or fence but may also be grown like other varieties. The vines are very vigorous in growth, the heavy foliage nearly concealing the fruit. The first melons ripen very early and the healthy vines keep on bearing heavily until end of the season. The melons weigh from 4 to 6 pounds, there are no misshapen melons on the vine, all running uniform and marketable. The rich carmine red flesh is always solid and of exceptionally sweet flavor. Pkt. 10c.; 3 pkts. 20c.; oz. 30c.; $\frac{1}{4}$ lb. \$1.00.

One pkt. of each of these 2 splendid melons for 15c.

NEW MODEL

New Model

A PRODIGIOUS BEARER

Spicy Green Flesh, Small Seed Cavity

The Model is an early cantaloupe, about twice the size of Rocky Ford and more productive. It is almost round, the flesh is thick and firm, green-colored, while in delicacy and flavor it is unexcelled. The flesh extends from the rind almost to center of the melon. The Model bears transportation well and can be carried to distant cities without injury. The average weight per melon is over two pounds. No one who wants extra good melons for either home or market use, should fail to plant this variety. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c., postpaid.

Extra Early Hackensack

This is a selection of the popular Hackensack, but ripens fully ten days earlier. A bountiful yielder and one of the most extensively grown of all Musk Melons. It is a large round variety, flattened on the end, well ribbed and deeply netted. The flesh is green, inclining towards yellow at the center and of the most delicious flavor. Fruits attain a good size and vines make good growth and bear abundantly; a good shipper. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 35c.

BABY DELIGHT

Jung Quality Seeds

HARRIS EARLIEST

Jung's Improved Peerless

We offer a highly improved strain of this popular melon, you will find it to be earlier and of much better quality than the seed usually offered. The melons are oblong and often attain a weight of 25 lbs., rind is light green with darker green markings. Flesh is brilliant red, deliciously sweet and melting. Its handsome appearance makes it a rapid seller and for the home garden it is hard to beat. Our strain will ripen very early, you will make no mistake by planting it. Pkt. 7c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.

IMPROVED PEERLESS

Improved Kleckley Sweets

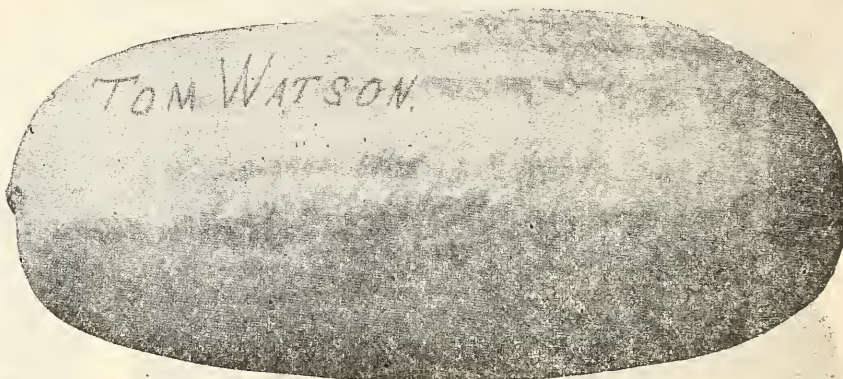

There probably is no watermelon superior in quality to a good strain of Kleckley Sweets. The bright red flesh is the ideal of watermelon quality—firm, crisp, entirely free from stringiness and 'sweet as sugar.' The melons are oblong in shape, about 20 inches long by 10 to 12 inches in diameter. The rind is dark green, thin brittle and for this reason is not a good shipper for distances over 100 miles but for home use or close markets is in a class by itself. Our seed is an extra select strain. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.; lb. 85c., postpaid.

IMPROVED KLECKLEY SWEETS

Tom Watson

Best Quality! Best Shape! Best Shipper! Best Size and Best Appearance! The Tom Watson is an extra large melon of attractive appearance, uniform in shape and quality. The luscious flesh is "sweet as honey" melting and of superb flavor. The average melon weighs from 35 to 40 pounds and measures about 20 inches in length and 12 inches in diameter. It is very prolific, producing in greatest abundance the delicious fruits. The dark green rind is tough, but thin and easily withstands shipping to far distant markets. The heart is large, with no sign of core. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

HALBERT HONEY

Halbert Honey

The very finest melon in cultivation for home use or nearby markets. A melon that has no equal in beauty, quality and productiveness. The melons are smooth and regular in outline, 14 to 18 inches long and 6 to 8 inches in diameter. Color of the rind is a clear glossy deep green. The flesh is a beautiful crimson extending to within less than half an inch of the rind which is so tender that it will not stand shipping a long distance unless carefully handled. The first melons ripen early and the vines continue to develop fine fruit throughout the season. The sweet flesh melts away in your mouth like honey. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

Citron or Preserving Melon

A large fruited variety, pure white flesh and thin rind. This is expensive when bought, yet can be grown and preserved by any energetic housewife who will then know it to be absolutely pure and good. It is planted like watermelon. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

Dixie

A Watermelon of highest quality and value. The size is large, specimens of 50 pounds being not infrequent. Flesh is scarlet, very fine and extra firm. The variety is the most prolific known, often producing six to eight melons on a single vine. The vines root at the joints and thus become more drought resisting and vigorous. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.

DIXIE

Jung Quality Seeds

WATER MELONS-Continued

Fordhook Early

This is the only extra early watermelon we have that is of good size and quality. The fruits are of large size, rather short and blocky in form with large diameters. Flesh is bright red, crisp, sweet and of splendid quality, and continues to improve after ripening. The heart is large, there is no seed cavity and very few seeds. The vines are of strong vigorous growth setting large melons in good numbers. Skin is dark green with occasional faint stripes of light green. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

Sweet Heart

A large Melon nearly globular in shape but a little longer than thick. Fruits are large and skin a very pale green, with distinct netted lines of a rich deep red, crisp and melting. Its excellent quality has made it a leading favorite on the market. The vines are vigorous and productive, ripening the fruits quite early. The handsome fruits bear shipping well. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.

FORDHOOK EARLY

SWEET HEART

AILSAL CRAIG

YELLOW GLOBE DANVERS

Jung's Select Onion Seed

Ailsa Craig

The Giant Among Onions. Always Gets First Prize.

We offer a very choice strain of this popular Onion which on account of its large size is in great demand. Specimens have been grown weighing two pounds or more. It is globe shaped and has a very small neck, a sure indication of fine quality. The skin is a beautiful straw color; flesh pure white, tender and of mild delicate flavor; for eating raw it has no equal. It is a good keeper for such a large onion. If you want to grow big onions plant Ailsa Craig. Pkt. 8c.; oz. 25c.; $\frac{1}{4}$ lb. 60c.; lb. \$2.00.

Jung's Select Yellow Globe Danvers

This is a standard yellow Onion and is more largely grown than almost any other variety. The bulbs grow to about 2 $\frac{1}{2}$ inches in diameter, are nearly globe shaped and of a light yellow color. The flesh is pure white; the bulb is extremely hard and solid and its handsome appearance has placed YELLOW GLOBE DANVERS among the leading varieties for the home and market garden. It forms a bulb very early in the season so that it may be used almost all summer and ripens crisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.40.

Large Red Wethersfield

The most popular red variety. It is very productive, having yielded over 1000 bushels per acre. It is not an early ripening sort but continues in growth throughout the season and consequently makes a very large onion; the bulbs are large, though somewhat flattened as shown in the illustration. The outer skin is a deep purplish red, with white flesh slightly tinged with rose. It is a fine keeper, suitable for later markets. The flavor is good and mild, admirable for boiling. The best variety for poor or dry soils. You will make no mistake by giving this variety a trial. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.50.

We make a specialty of HIGH GRADE ONION SEED. It is better to plant no Onion at all than to sow seed of poor quality. Our seed is grown from the finest select bulbs and is of strong vitality. Our packets of Onions contain sufficient seed to sow about 50 feet of drill.

LARGE RED WETHERSFIELD

Three True Globe Onions

The Southport Globe Onions have increased wonderfully in public favor during the past few years, and they well deserve their popularity. In almost all markets they invariably bring top prices... They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any variety.

Southport Red Globe

A handsome onion of immense size, averaging from 9 to 10 inches in circumference, solid, heavy and of perfect globe shape. The skin is a glossy, deep purplish red color; the flesh is close grained, sparkling white cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging under good culture from 800 to 1000 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color and typical globe shape with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt. 5c.; oz. 15c.; 1/4 lb. 55c.; lb. \$1.80.

SOUTHPORT RED GLOBE

Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions often up to 1,000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape veritable globes of gold and extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden yellow, the flesh snow white, firm, mild and juicy. The small necks enable the onion to ripen down evenly, insuring good keeping qualities. Pkt. 5c.; oz. 15c.; 1/4 lb. 40c.; lb. \$1.40.

SOUTHPORT YELLOW GLOBE.

Southport White Globe

The most beautiful onion grown, being of symmetrical globe shape with a smooth satin-like skin, forming a perfect silver ball. It grows to a large size, averaging 7 to 9 inches in circumference and is solid and heavy; the flesh is purest white, close grained, mild, and of delicate flavor. Owing to its large size it is later in ripening than the White Portugal or Silver-skin. As soon as ripe the bulbs should be stored in a cool, dark shed or dry cellar. It is a heavy cropper and for the family garden as well as for market it is a valuable onion. Pkt. 7c.; oz. 20c.; 1/4 lb. 65c.

Prizetaker

The King of All Yellow Globe Onions

This is one of the largest Onions in cultivation. It is a large beautiful Spanish variety, so often seen in the fruit stores and markets of the large cities. Bulbs are nearly globe shaped, with a bright straw-colored skin, growing to an immense size the first season from seed. They ripen up without stiff necks and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from 12 to 14 inches in circumference and with rich soil and under special cultivation specimens have been raised weighing five pounds each. In the markets they attract special attention and sell rapidly at good prices. Pkt. 5c.; oz. 15c.; 1/4 lb. 40c.; lb. \$1.40, postpaid.

Australian Brown

Long Keeping, Fine Quality. This sort is distinct from all other Onions. Is uniform in size and shape, wonderfully hard, solid and heavy, and will keep almost indefinitely. Ripens extremely early and never makes scallions. It is of medium size, round with skin of a deep amber-brown; flesh white, mild and agreeable. A sure cropper. Pkt. 5c.; oz. 12c.; 1/4 lb. 35c.; lb. \$1.25.

AUSTRALIAN BROWN

Silverskin

A leading white, flat onion. The bulbs attain a good size, ripen evenly and the color is a beautiful silvery white when cured. Its shape is flat but symmetrical. For a white variety it is not only early but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual and is also extensively sown for sets. For the family garden it is one of the best. Pkt. 5c.; oz. 20c.; 1/4 lb. 50c.; lb. \$2.00.

Jung Quality Seeds

JAPANESE ONION SETS Japanese Onion Sets

The finest thing ever offered in Onion Sets and will no doubt displace all other sets. The common sets when grown during the summer often run to seed, these sets instead of running to seed will mature a large handsome bulb of yellow or golden color, very solid and excellent keepers. Those who have used the sets before are now planting them entirely. We guarantee them to give satisfaction or will refund your money. Pt. 25c.; qt. 40c.; 4 qts. \$1.35, post-paid. Not prepaid, Qt. 30c.; pk. \$1.50; bu. \$5.50. Our supply is limited, order early.

IMPROVED HALF LONG

ONION SETS

The planting of Onion Sets is increasing rapidly year after year. By planting sets you can have onions ready for use several weeks earlier than can be had from seed. Write for special prices if wanted in large quantities.

RED BOTTOM SETS. These are planted to produce both early green and late eating onions. Pt. 15c.; qt. 30c.

YELLOW BOTTOM SETS. Produced from seed which makes finest yellow sets. Fine and dry, medium in size and unsprouted. Pt. 15c.; qt. 30c.

WHITE BOTTOM SETS. These are small, solid and of beautiful white color. Pt. 20c.; qt. 35c.

ONION SETS

Parsnips Jung's Private Stock

This is a highly improved type of the Half-Long, producing uniformly large and handsome roots of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base, so that they can be easily dug and if grown in properly pulverized soil the roots will be smooth and free from side roots and wrinkles. The flesh is white, of fine texture, free from core and stringless and especially fine flavored, cooking tender, sweet and rich. Pkt. 5c.; oz. 15c.; ¼ lb. 30c.; lb. \$1.00.

Improved Half-Long

This variety is an improvement on the old Hollow Crown forming roots thicker and shorter than that variety and is also more easily gathered. The flesh is white, of fine texture, free from core and stringiness and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Pkt. 5c.; oz. 12c.; ¼ lb. 25c.; lb. 90c.

PRIVATE STOCK

Jung's Northern Grown Garden Peas

Our PEAS are northern grown and free from bugs. They are the earliest, hardest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand picked. We advise our friends and customers to send their orders early so they may be filled before our stocks are exhausted.

LITTLE GEM

Little Gem

One of the most popular extra early dwarf peas. The demand for Little Gem increases every year which is a sure indication that it is giving satisfaction. The vines grow 14 to 16 inches tall and require no brush and are literally covered with pods. Pods contain from 6 to 8 peas of fine quality. A great favorite for home and market gardens. You will not be disappointed if you plant our "Gems." Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

Little Marvel

A New Extra Early Dwarf Pea

The vines are of dwarf even growth, averaging fifteen inches in height and are heavily set with fine pods, frequently borne in pairs. The pods average about four inches in length, are square at the bottom and well filled with six to seven quite large deep-green peas. The pods are ready for the table as early as the American Wonder while the peas are larger and the vines produce a heavier crop. The peas retain their attractive dark green color and superb flavor when served at the table. You will be delighted with the choice flavor of Little Marvel. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

LITTLE MARVEL

Special Offer on Peas

If you wish to have a continuous supply of sweet delicious peas plant these four splendid varieties:
LITTLE MARVEL EARLY EXCELSIOR
LORD LEICESTER JUNG'S HONEY SWEET
 1 Pkt. of each for 25c. ½ Pt. of each for 80c.
 1 Pt. of each for \$1.25 1 Qt. of each for \$2.25

Jung Quality Seeds

JUNGS 'HONEY SWEET'

Jung's "Honey Sweet"

One of the best main-crop Peas to be had as they are truly of the most delicious flavor actually "sweet as honey." They grow a very healthy stocky vine, about 18 inches high and require no support. The pods are produced in great profusion; they are 4 to 4½ in. long and contain from 8 to 10 peas of most luscious flavor. A very heavy bearer, never failing to produce a crop of the giant pods. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

J. W. Lindsey, Bloomington, Ind.—Your seeds gave great satisfaction last year. Rose Lohr, Beaver, Ohio.—JUNG'S seeds are fast becoming our favorites.

EVERBEARING

PEAS-Continued

Blue Bantam

A splendid new pea of sturdy, dwarf growth, one of the best of the large podded early dwarf peas. The vines grow 14 to 16 inches tall, are dark green in color and wonderfully productive, bearing a profusion of handsome dark green pods which measure 4 to 4½ in. long and contain from 8 to 10 very large dark green peas of superb quality. They mature a little earlier than Gradus with pods fully as large, they require no brush or support. You will plant this variety every year after once trying them out. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 65c.

BLUE BANTAM

Early Excelsior

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth, being similar to Nott's Excelsior in this respect but superior to it in the following particulars: First: The vines are more dense and sturdy. Second: The peas and pods are decidedly larger measuring from 3½ to 4 inches in length and contain from 6 to 8 large peas of delicious quality and is a much surer cropper. It is also very early; the past three seasons it was ready for use in 45 days after sowing. One of the most valuable EARLY PEAS surpassing in earliness, yield and quality. Pkt. 8c.; ½ pt. 22c.; pt. 35c.; qt. 65c.

EARLY EXCELSIOR

Lord Leicester

The Giant of the Pea Family

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years and it has never failed to produce a good crop. The plant is of branching habit, growing about five feet in height, with dark green foliage. It is of very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs, some measuring 6 inches in length and contain 9 to 12 peas. You will be delighted to show your friends such enormous pods of peas, which in addition to large size, combine rich and succulent flavor, not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

Everbearing

A fine second-early or main crop Pea which combines quality and yield and will continue bearing a long time if the pods are picked. It has a remarkable habit, sometimes forming as many as six stalks which accounts for its great yields. The pods are of good size and contain from eight to ten large peas which are of remarkable fine quality. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

LORD LEICESTER

Jung Quality Seeds

BRITISH WONDER

British Wonder

The Sweetest Pea in Cultivation. Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy, except the foliage is a darker green and the pods are not as sharply pointed. It is however, much more reliable and it is a **SURER CROP PER**. The vines are very stocky, 18 to 24 inches high and are well supplied with dark green foliage. Pods are produced in the greatest profusion, measuring about 4 inches in length and contain from 8 to 10 dark green peas each, which are of a most luscious flavor. It matures a little earlier than Dwarf Telephone and is most highly recommended. Pkt. 7c.; ½ pt. 20.; pt. 30c.; qt. 60c., postpaid.

Jung's Dwarf Telephone

Another new pea of superlative merit. These pods are large, noble and handsome, with vines dwarf, being filled from bottom up with great pods of Peas of the richest quality. The well-known Telephone Pea has a large pod but also a long vine. This Pea has all the excellent qualities of the old Telephone but is dwarf in habit, bears stronger pods, more of them and we believe are far richer in quality. The height under ordinary culture is from 18 to 20 inches, requiring no brush. The pods are giants, often containing 10 large peas, thick, meaty and rich, and of good lasting quality for market purposes. The pea is of the largest size imaginable and of delicious flavor; when fit for the table it is deep green and presents a rich appetizing appearance. We know that this magnificent Pea will be hailed with delight by all market gardeners and city planters, to whom we heartily recommend same. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

Edible Podded Pea "Mammoth Melting Sugar"

This variety is far superior to all others of the edible class of garden peas, not only in size of pods but also in delicious quality. The large pods are sweet, brittle and tender and have none of the tough lining found in so many of the ordinary kinds. The pods are used the same as snap or string beans and will also make excellent pickles. The vines grow about four feet tall and are very productive. Full grown pods measure five inches long and are so tender and brittle that they snap like glass; they have no strings. The sweetness and tenderness of this edible-podded pea is unsurpassed. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

WORLD BEATER

JUNG'S DWARF TELEPHONE

MAMMOTH MELTING SUGAR

Mrs. Walter S. Smith, Stanley, Wis.—
Judging from the tomato and pepper your seeds are sure fine. I would always send for your seeds, and if I needed only one package.

Pepper

World Beater

The very best extra large pepper being a cross of Chinese Giant and Ruby King, having the longer form and earliness of the latter with the size of the former. Fruits are of immense size, 4 to 5 in. long by 3½ to 4 inches in diameter; flesh is very thick and so mild and sweet that it may be eaten like an apple. When ripe they are bright red in color and present such a fine appearance that they sell readily on all markets. Exceedingly productive and a good shipper. Pkt. 10c.; ½ oz. 25c.; oz. 45c.

Jung Quality Seeds

PEPPERS-Continued

Harris Earliest

The earliest of all, being earlier than Neapolitan. Plants are very uniform in growth, dwarf and compact, rarely over 18 inches tall. It is a very heavy bearer and as the plants can be set close together a very large crop can be grown on a small space. The fruits are of good size, 3½ in. long by 2½ in. in diameter. Flesh is thick and very mild and sweet. If you want Peppers early and lots of them plant Harris Earliest. Pkt. 10c.; ½ oz. 25c.; oz. 40c.

Sweet Upright

The best Pepper for the family garden and unequaled for market. It produces fine, large fruits of nearly square or blocky form with exceptionally thick flesh of the mildest and sweetest flavor. The plants are of sturdy, erect growth; fruits are borne stiffly erect and form at each of the branches; they are very broad, divided into four lobes and when fully ripe are deeply indented at the blossom end. The color when ripe is a rich, glowing scarlet, both in the thin tender skin and in the unusually thick flesh. The flesh is as crisp and sweet as an apple. It ripens early, the fruits are large, weighing from six to seven ounces each. Pkt. 8c.; ½ oz. 25c.; oz. 45c.; ¼ lb. \$1.50.

SWEET UPRIGHT

HARRIS EARLIEST

"The best is cheapest"

Jung's seeds cost more but they are also worth much more. Our seeds are grown either by ourselves or by growers recognized as the best and will produce a crop that will be worth much more than that grown from common or cheap seeds. It is poor economy to use seeds which have only their cheapness to commend them. It always pays big to sow the best seeds.

GOLDEN QUEEN

Golden Queen

Golden Queen is the Best of all Yellow Peppers.

It is always large and sometimes remarkably so, specimens reaching six to ten inches in length and four to five inches are not uncommon. A single plant sometimes carries Twenty Large Peppers at the same time. The flavor is mild and pleasant and it may be eaten raw. It always commands the highest price on account of its large size and fine appearance. It is unexcelled for stuffing. Pkt. 8c.; ½ oz. 25c.; oz. 50c.

THE GREATEST JOY IN GARDENING

consists in being able to go right out into your garden and pick the choicest the season affords, fresh, crisp, with all the good qualities nature puts into vegetables. Garden making is not difficult if you follow the simple growing instructions which we send free with every order of 25c or more.

Pumpkins

"Luxury Pie" The Very Best Pie Pumpkin

This is the very best Pumpkin that has ever come to our attention. It is enormously productive, medium in size, being about ten inches in diameter, almost globe shaped and ripens early. The skin is finely netted and in color a beautiful golden russet, which is a sign of finest quality. The flesh is very thick, sweet and sugary; tender and of fine flavor and deep golden in color. An excellent keeper for winter use. If you want some delicious pies for Thanksgiving day plant LUXURY PIE. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

TRUE MAMMOTH

True Mammoth

The Largest Pumpkin in Cultivation

This is a true Mammoth Pumpkin. Fruits grow to enormous size; specimens have been grown weighing 100 pounds and over. The skin is a light yellow russet color; flesh very thick; bright yellow, fine grained, sweet and tender and of excellent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety. Pkt. 7c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.00.

A. M. Millard, Atlantic Iowa.—My garden planted with your seeds was a wonder to all my neighbors and exceeded my own expectations.

Mrs. Frank Thomas, Warroad, Minn.—Have bought your seed several years and find them extra good.

Mrs. Smith Palmer, Gillett, Pa.—Have ordered my garden seeds from you for 4 years and have splendid luck with them.

Jung Quality Seeds

PUMPKINS-Continued

Quaker Pie

A most prolific variety. The fruits are broad, pear-shaped or slightly oval in form. The flesh is very thick and fine grained, of a beautiful golden yellow color: in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich cream buff which gives it a handsome appearance. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

QUAKER PIE

BIG TOM

Big Tom

Also known as Connecticut Field. Vines are of strong vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter, round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed with thick, rich orange yellow flesh. It is the hardiest of all pumpkins and is good for pies. This variety is extensively grown for stock feeding and is generally planted in with the corn. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 85c.

JUNGS 'RAPID RED

Jung's Rapid Red

This we find to be the quickest maturing of all Radishes having been grown in the short period of 18 days from the sowing of the seed, fit for the table. However, its earliness is not its only good feature as it is also of elegant shape, finest quality and a rich red color. Taken in all it cannot be excelled for both the garden and forcing under glass. Its attractive color and small tops make it especially desirable for forcing. The flesh is pure white, very crisp and tender. If you want to be the first on the market with Radishes that will command fancy prices, then plant "JUNG'S RAPID RED. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.; lb \$1.00.

Jung's Select Radishes

We take much pride in our select stocks of Radish seed. It is grown from carefully selected roots and will produce Radishes of mild flavor and with less leaves than the seed usually offered.

Early Hailstone

The earliest and quickest growing WHITE RADISH in cultivation. It is ready for use from 15 to 18 days after sowing. The radishes are regular shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.25.

EARLY HAILSTONE

PERFECTION EXTRA EARLY

Perfection Extra Early

The most attractive white-tipped Radish. This variety is bound to become the most popular of the white-tipped varieties as it combines handsome appearance, quality and extreme earliness. The white tips extend nearly half way up the roots and the brilliant color of the top shows up in strong contrast. For quality it is unexcelled as it is very crisp, tender and sweet. One of the best varieties to grow for market as well as for the home garden. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

French Breakfast

An early medium sized radish, olive shaped, very crisp and tender, of a beautiful bright scarlet color tipped with white. It grows about 2 inches long and is decidedly stump rooted. A splendid variety for the table, for its excellent quality and the beautiful color are unexcelled. It is a quick growing and exceedingly popular variety. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 75c.

Earliest Scarlet

A fine bright red Radish of quick growth. It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 20 days. It is solid in character and very uniform in size and shape. The tops are very small, thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow center or pithy fibre so often found in Radish. The shape is well shown in the illustration. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 80c.

EARLIEST SCARLET

FRENCH BREAKFAST

Jung Quality Seeds

RADISHES-Continued

White Delicious

A splendid new olive-shaped radish, pure white in color. Very early as it has produced radishes fit for pulling in 18 days after sowing the seed. It has a small top, is solid and crisp, of fine flavor, in fact a first-class radish in every respect. Size and shape are well shown in illustration. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

Crimson Giant Globe

This new variety is suitable for both forcing and growing outdoors. It is a fine shaped, bright red Radish, growing quickly to large size (see illustration.) The Radish is a deep globe in shape; it measures 2 inches in depth and $1\frac{1}{2}$ inches in diameter. Skin is thin and tender and of a deep crimson color. The flesh is pure white, crisp and of mild flavor. The roots are entirely free from hollow centers and pithy fibre. It is sure to become a leading variety. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 85c.

White Icicle

Long, slender, crisp, tender, mild and of purest white. Unexcelled as a money maker. An entirely distinct variety from Europe and derives its name from the almost transparent whiteness of the roots. It produces slender, pure white Radishes very early in the season, much earlier and finer in quality than any other long white variety. The shape is well shown in the illustration. The leaves are short and few, making it an excellent variety for forcing. It is of the best flavor and very brittle and crisp. The roots grow about 25 days after sowing. The roots grow about four inches long and are ready for use in about 25 days after sowing. It is a desirable variety for the home garden and market gardeners will find it a moneymaker. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 25c.; lb. 85c.

Wood's Early Frame

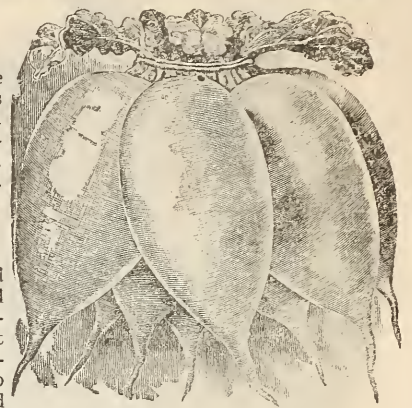

This is one of the earliest long varieties. It is of a beautiful scarlet color, shading to white towards the tip. It is always juicy, tender, delicious and free from pith and sharpness so often found in long Radishes. Very much used for growing under glass. You will be delighted with this variety. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c., postpaid.

Chinese Rose Winter Radish

This is a large and fine shaped Radish, growing partly above the ground. It is of a half long shape with a blunt point; rose colored skin flesh pure white, solid as an apple. It has not the strong flavor of the Black Spanish and keeps equally as well. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 90c.

CRIMSON GIANT GLOBE

WHITE DELICIOUS

H. C. Bowen, South Point, Ohio.

—Here's an order for more of your seed, found them very satisfactory last year. Had tomatoes ahead of everyone.

WHITE ICICLE

WOOD'S EARLY FRAME

SALSIFY

CHINA ROSE WINTER

SALSIFY

Mammoth Sandwich Island

One of the most delicious vegetables and also one of the most nutritious. The flavor is very sweet and highly esteemed whether boiled with butter or other suitable sauces, or sliced and fried or used in soup. The new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in the spring produces large fine roots that may remain in the ground or may be dug and stored in sand or earth in November, thus keeping plump and sweet to be used as desired during the winter. Mild and delicious in flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.50.

VICTORIA SPINACH

SPINACH

Victoria

This is a handsome variety, the leaves being of an exceedingly dark green color and has very long standing qualities. The foliage is heavy, the wide dark green leaves are wrinkled like a savoy cabbage and are of the finest quality. It produces nearly twice the bulk of crop as the ordinary sort and will remain in prime condition for a very long time. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 50c.

Jung Quality Seeds

Squash

Bush Fordhook

The most desirable Squash for either summer or winter use. It is of a true bush type and can be grown much closer than the running sorts. The vines are of strong vigorous growth and wonderfully productive. The fruits are pear-shaped, 7 to 9 inches long, slightly ridged, a smooth, thin, yellow skin. Flesh is very thick and of a light straw yellow color. For frying, baking or making pies they are unsurpassed. Stored in a dry place they will keep until the following spring. It is early and has proved to be one of the hardiest and most dependable squashes for all localities. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.35.

BUSH FORDHOOK

Improved Hubbard

The Famous American Standard Winter Squash. This is a superior selection of this famous variety and one of the best winter Squashes: flesh bright orange yellow; fine grained, very dry, sweet and rich flavored; keeps perfectly throughout the winter; boils or bakes exceedingly dry and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wartsiness of the shell but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.00.

IMPROVED HUBBARD

New Delicious

For table quality there is no other Squash that can be compared with Delicious in sweetness and richness of flavor. Excellent for Fall as well as for Winter use, keeping well until late in the Spring. Fruits are of medium size, usually weighing from 5 to 10 pounds. The rind is dark green mottled in lighter shades. The flesh, dark orange, very fine grained and thick. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.00.

GOLDEN HUBBARD

Golden Hubbard

An elegant Winter Squash. Flesh a deep golden yellow, much richer in color than Hubbard; fine grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness, combined with its sweet rich flavor, attractive color and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well known old Hubbard which it closely resembles in every respect except in color, which is a bright golden orange. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

BANANA SQUASH

Mammoth Summer Crookneck

This magnificent strain is equally as early as the common small-fruited varieties. It is of a bright yellow color and from 18 inches to 2 feet long. Fruits are solid, heavy and freely produced on healthy, vigorous plants of compact bush habit. The flesh has a creamy yellow color, is dry and of the most agreeable flavor. A most profitable variety to grow for market as it grows rapidly and is of superior quality. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

NEW DELICIOUS

The Great Banana Squash

RIPENS EARLY, ENORMOUSLY PRODUCTIVE, FINEST QUALITY. GOOD KEEPER.

This squash is better shown in the illustration than we can describe it. It keeps equal to Hubbard, is even better quality, more prolific and earlier in ripening. The color is grayish green, shell soft so that it can be cut with a knife. It grows from 18 to 30 inches long and 6 to 8 inches in diameter. It is very prolific and a shy seeder, which accounts for the high price of seed. Flesh is of deep orange color, entirely free from fibre or stringiness. Cooks up perfectly smooth and of the most delicious flavor. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 50c.

Mrs. E. Swayze, Gillett, Pa.—I have planted your seeds for 5 successive years and consider them the best seeds we have ever sown. Your Banana Squash is something great. Your seeds never fail to grow and am more than pleased with them.

Mrs. L. A. Sutton, Sperling, Canada.—Your seeds did fine here, from one hill I raised 3 Delicious Squash, one weighed 25 pounds and one 10 pounds good don't you think? The Banana Squash was extra good, 3 were lots over 2 feet long.

Jung Quality Seeds

Jung's Northern Grown Tomato Seed

We take special pride in our tomato seed and are sure that it is unexcelled for quality. It is northern grown and will produce a crop that will ripen earlier, produce solid fruit and healthier plants than seed grown further south. It is folly to use cheap tomato seed, for it only takes a few ounces to plant an acre.

The Earliest of All Tomatoes Jung's Wayahead

First to Produce Ripe Tomatoes. Good Sized Fruit. Smooth and Solid. Bright Red Color. Fine Quality.

As its name indicates it is way ahead when it comes to early ripening of fruit, even ahead of our famous John Baer and Earliana. We know this is a strong claim to make but it is an actual fact and we know that after you give it a trial you will be more than satisfied.

It is of heavy-leaf type, a sure indication of hardiness and vigor, as it is free from disease. The fruits are of good size, bright scarlet color, almost round, very smooth and remarkably handsome in appearance. The flesh is solid and of the finest flavor. Although it is the first to ripen vines continue bearing for a very long time. Every tomato grower knows that the first tomatoes always bring a big price and we are confident that this variety will more than please every one who plants it. Pkt. 15c.; 2 pkts. 25c.; ½ oz. 60c.; oz. \$1.00.

JUNG'S WAYAHEAD

Jung's Private Stock "John Baer"

We are offering seed of our own growing which for earliness, freedom from all disease, great productiveness and solidity of fruits, is unexcelled.

Here are a few reasons why you should plant this excellent variety:

1. It is one of the first to ripen.
2. It produces the smoothest fruits of any extra early variety.
3. It is enormously productive, bearing thruout the season.
4. The fruits ripen evenly up to the stem; no cripples, cracked, blighted or wrinkled fruit. A very good shipper, as it will not burst.
5. It is of the most brilliant red color and the flavor is deliciously sweet.
6. It produces an enormous crop, 50 to 100 fruits to each plant.
7. In shape and form exactly like the photograph.

Market gardeners, with whom earliness is a great factor, will find that our northern grown seed will produce a crop that will ripen earlier, produce a larger crop and more solid fruit, than seed grown further south. Plant JUNG'S JOHN BAER once and you will not be without it again. Price of seed of our own growing: Pkt. 10c.; ½ oz. 40c.; 1 oz. 75c.; lb. \$6.00, postpaid.

C. Diehl, Orpha, Wyo.—I planted your John Baer Tomato last year and can say they are the best tomatoes I ever raised and were the only ones out of a dozen different sorts that withstood the drought and produced a crop.

Magnificent

A TRULY MAGNIFICENT, RED MAIN CROP TOMATO

It has been tried in various climates and different soils and always came out successfully. It is different from all other Tomatoes in the following particulars:

1. The plants root well from the very beginning of their growth.
2. As the result of this strong growth of root, there is a large and vigorous growth stalk to support the weight of the fruit.
3. As the result of the strong stalk the spreading branches produce a great abundance of fruit from each plant.
4. The fruits are large, solid and smooth easily prepared for market on account of its perfection.
5. The plants are hardy, can be set out early and not be injured by the cold if protected from frost.
6. The fruits ripen early and the later fruit on the vines is just as large and perfect as the first.

The color is a bright red skin always smooth, free from all cracks and blemishes and the flesh is of exceptional flavor. Pkt. 8c.; ½ oz. 25c.; oz. 40c.; ¼ lb. \$1.20.

MAGNIFICENT

Jung Quality Seeds

TOMATOES-Continued

Jung's Prizetaker Tree

Enormous Yields. Bright Red. Extra Early and Large Fruits

The best variety for the home garden. It is the largest fruited dwarf tree Tomato. The plants grow to a height of about two feet and are stiffly erect until they become overloaded with fruit. The fruit is produced in clusters of three to five and as the growth is close-jointed, each plant produces a large number. The tomatoes are of large size and are smooth and solid. Fruits have a solid, meaty center and no hard core and produces but very little seed. We consider the PRIZETAKER invaluable for the home garden or shipping purposes. Pkt. 8c.; ½ oz. 20c.; oz. 35c.; ¼ lb. \$1.00.

JUNG'S PRIZETAKER TREE

Jung's Fairfield First

This variety has been carefully bred for extreme earliness, productiveness and smoothness of fruit. Fruits are of good size, smooth and borne in clusters. It is a very heavy cropper. Although one of the first to ripen the vines continue to bear until frost; the size and smoothness of the fruits is maintained until the end of the season. The color is an intense velvety scarlet; fruits are all globe shaped, making it a splendid variety for slicing. The fruits are remarkably solid and firm; flesh is thick and heavy, of fine flavor and contains but few seeds. Vines are strong and healthy growers. Pkt. 7c.; ½ oz. 20c.; oz. 35c.; ¼ lb. \$1.00.

JUNG'S FAIRFIELD FIRST

Golden Dwarf Champion

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, with fruit well above the soil, its large fruit and fine color and to the earliness with which it reaches maturity. Plants are bushy and compact, with heavy dark green foliage. The tomatoes are always smooth, round and solid and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. This variety has an unusual flavor, especially fine for preserves, as it does not require as much sugar as other varieties. Pkt. 5c.; ½ oz. 20c.; oz. 35c.

SPECIAL TOMATO OFFER

One pkt. of each of the following fine Tomatoes for 25c.

Jung's Fairfield First Jung's Prizetaker Tree
Jung's Private Stock "John Baer"
Magnificent Golden Dwarf Champion

GOLDEN DWARF CHAMPION

JUNG'S WHITE WONDER

Jung's White Wonder

A wonderful tomato having creamy-white skin and flesh. The fruit is free of the usual acids and can therefore be enjoyed by persons who cannot eat red tomatoes on account of the acids they contain. The fruits are very firm and when cut open show a firm flesh. As a tomato for slicing or salads it is unsurpassed. Be the first one to grow this new tomato and surprise your neighbors. We offer you choice seed of our own growing. Pkt. 10c.; 3 pkts. 20c.

Fairfield Strain of Earliana

A perfect early Tomato, large in size and beautiful in color, nearly seedless and very solid; a vigorous grower and prodigious bearer, yielding its splendid fruits until frost. Its solidity and fine quality are equal to the best medium and late sorts. The plants are compact in growth with short close-jointed branches, setting fruits very freely in the center. It has become very popular with market gardeners who aim to supply the early demands of their market. On account of its firm skin it is an excellent variety for long distance shipping. The fruits mature quickly and generally can all be gathered in about three weeks from the time the first fruits ripen. The Tomatoes are quite uniform in size and of smooth regular form, averaging three inches in diameter and 2½ inches in depth. Pkt. 5c.; ½ oz. 20c.; oz. 30c.; ¼ lb. \$1.00.

EARLIANA

Jung Quality Seeds

TOMATOES-Continued

New Coreless

A LARGE MAIN CROP, GLOBE SHAPED BRIGHT RED VARIETY. Its shape is almost round, being about the same diameter each way. The depression at the stem end has been almost eliminated, making it the profitable variety for canning. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the vines. All the fruits are of remarkable size, many of them are quite large—12 to 15 ounces. A good slicing variety, the seed cells being surrounded by bright red, heavy meaty and delicious flesh. Its color is bright red and the fruits ripen all over and at the same time. Always free from green cores. Every gardener should give this new Tomato a trial. Pkt. 8c.; ½ oz. 20c.; oz. 35c.; ¼ lb. \$1.00.

NEW CORELESS

Trucker's Favorite

THE FINEST LARGE FRUITED PINK TOMATO. Very uniform in shape and size; thick, heavy and solid; one of the largest tomatoes grown. The fruits are of a purplish red or pink color, always smooth and fleshy. They hold their size to the very last picking and ripen well to the stem. The vines are not subject to blight or rust and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking. As a dependable main crop pink Tomato, Trucker's Favorite can't be beat. Pkt. 5c.; ½ oz. 20c.; oz. 30c.; ¼ lb. 90c.

COPYRIGHTED BY L. SEED CO.

TRUCKER'S FAVORITE

FANCY PRESERVING

Fancy Mixed Preserving Tomatoes

An interesting packet comprising a mixture of the different small fruited varieties such as Red and Yellow Pear, Plum, Peach and Cherry. These varieties are all of unusually sweet, rich flavor and excellent for preserves. May also be dried in the sun and packed in sugar thus making an excellent substitute for figs. Pkt. 5c.; 3 pkts. 10c.

Lena Dearing, Sabattus, Me.—Your White Wonder Tomato were wonderful also the Climbing Cucumber. We think JUNG'S SEEDS are ahead of any other in every way.

Mrs. W. W. King, New Madrid, Mo.—I think your Wayahead Tomatoes and John Baer are the finest I ever saw and the earliest.

Jung Quality Seeds

Ruta Bagas Perfect Model

This grand variety is a highly improved Ruta Bagas and is giving satisfaction wherever grown. It is of fine quality and keeps perfectly all winter. A heavy yielder, flesh deep orange colored, sweet and fine grained, excellent for table use. It is globe shaped, yellow skin with purple top and very short neck. An excellent variety to grow for market as they present such a handsome appearance that they sell readily. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 75c.

PERFECT MODEL

IMPROVED
PURPLE-TOP
YELLOW.

Improved Purple Top Yellow

A hardy and productive variety, widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter and even into the following summer. Bulbs are large, smooth, round and solid with a small tap root. Flesh richly colored, fine grained and very sweet. It is justly held in high esteem for both table and stock feeding purposes. The shape is well pictured in the illustration. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c.

PURPLE TOP WHITE GLOBE

Turnips

Purple Top White Globe

This grows very quickly to large size; roots even and regular in form and of most handsome appearance. The bulbs will measure six inches and more in diameter being of perfect globe form; the upper portion is of rich, purplish red and the lower half creamy white. Flesh white, firm and crisp, of mild flavor. It is an excellent keeper and being so productive is one of the best to grow for stock feeding. The plants being of such large, strong growth should be thinned more severely than with small early sorts. This variety is very extensively used for market growing. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c., postpaid.

GOLDEN BALL

Golden Ball

Of the yellow or golden fleshed turnips this is the best variety. Roots grow quickly to good size, are smooth and very fine in appearance. Flesh is a rich yellow color, tender and mild in flavor; in fact we consider it the best turnip for table use. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c.

EX. EA. WHITE MILAN

Extra Early White Milan

A very valuable sort largely used by market gardeners for first or extra early use. The quickest growing variety and under favorable conditions is fit for use in a few weeks after sowing. The roots are of medium size, of pure white color and very handsome appearance. Flesh is fine grained, sweet and of mild flavor. A splendid variety for both the home and market garden. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.; lb. \$1.00.

Purple Top Strap Leaf

STRAP LEAF

The most popular sort. A general favorite and more largely grown than any other Turnip. Rather flat and of medium size. The color is purple above ground, white below; flesh white, fine grained and tender; leaves short, narrow and erect. A heavy cropper and an excellent keeper. Does well sown either broadcast or in drills and will form good-sized bulbs in seven or eight weeks. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.; lb. 60c.

OYAMA PLANT FOOD

A WONDERFUL JAPANESE DISCOVERY

MAKES PLANTS THRIVE

Jung Quality Seeds

Mammoth Russian Sunflower

Single heads measure twelve to twenty-two inches in diameter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it and attain a bright, lustrous plum-

age and strong healthy condition better than on almost any other food. It is the best egg producing food known. Every farmer should plant some of the seed in any waste piece of ground, any time from early spring to the middle of July. Oz. 5c.; $\frac{1}{2}$ lb. 20c.; lb. 30c.; 5 lb. \$1.

Jung's Fairfield Special Lawn Grass

Our mixture combines the very best varieties of grasses suitable for the purpose of making a lawn beautiful in appearance durable and lasting, which will stand the frosts of winter and the hot sun of summer, showing a deep, rich green at all seasons. The seed used is PURE AND HEAVY and is especially cleaned. This mixture weighs from 25 to 27 pounds per bushel, is of strong vitality and makes a strong healthy growth. Pound 40c.; 5 lbs. \$1.80.

BETTY JUNG ASTERS

Jung's Superb Asters.

Unexcelled for Size and Beauty of Flowers

Asters are our great specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering is unsurpassed. No other flower can approach the Aster in beauty, color, form or profusion of bloom. They are very hardy, easily grown and may be had in bloom from early summer until hard frosts. We are ASTER SPECIALISTS and our seed of these grand flowers is absolutely unexcelled.

Our New Aster "Betty Jung" (See front cover)

This new Aster outrivals anything we have yet seen in Asters and we have been growing and improving them for 17 years. The above cut is from a photograph of our daughter, Betty, after whom we have named them; she is 3 ft. tall and many of the flowers reached up to and above her head; it is by far the longest stemmed variety to be had.

The plants are very vigorous growers, and instead of producing a large number of lateral stems the entire strength seems to go towards producing from 6 to 10 long main stems, each of which is crowned with one of the mammoth flowers.

The flowers are giant in size, very full and double and of very lasting quality; the type of flower is well shown in the illustration.

Another feature of great value is the fact that they come into flower very early for so large a blossom, being ready to cut before the late branching type. Its color is a live bright rose-pink.

Anyone who wants to grow Asters of size and quality to command the highest prices will make no mistake with these. Pkt. 15c.; 2 pkts. 25c.

A Splendid New Aster "Yellow Chrysanthemum"

The rarest and newest Aster being a delicate canary yellow, a new color that will be welcomed by every Aster lover. The flowers are of good size, remarkably full and double, with centers well covered. The plants are of the branching type, vigorous growers and many will produce from 15 to 24 fancy flowers on long stems suitable for fancy cut flowers. Flowers are produced so numerous that a plant looks like a gold dome. A truly superb Aster. Pkt. 10c.; 3 pkts. 25c.

The Most Showy Aster "Jung's Scarlet Gem"

The most attractive of all Asters being a brilliant red. The flowers are large and full and are borne on a tall robust plant. Most effective for either beds or bouquets as their bright color makes them showy no matter where they may be placed. We know all of our customers will be delighted with it. Pkt. 8c.; $\frac{1}{4}$ oz. 35c.

YELLOW CHYSANTHEMUM

JUNG'S SCARLET GEM

Jung's International Mixed Asters

This splendid mixture contains every color known in Asters and includes early, medium and late varieties, thus giving you flowers throughout the season. It is not grown in mixture but carefully made up from the different kinds so as to get the right proportion of each color. If you want a fine lot of Asters at a low price sow this fine mixture. Pkt. 5c.; $\frac{1}{4}$ oz. 25c.; oz. \$1.00.

Jung Quality Seeds

A Page of Superb Asters

Jung's Extra Early Innocence

Many people want Asters that come in blossom very early and we recommend these in every respect as they come fully two weeks earlier than most other sorts. The blossoms are of good size, produced on long stems and are full and double to the very centers. You will be more than pleased with these extra early Asters. White, Pink, Lavender, Purple and Mixed. Pkt. 7c.; $\frac{1}{4}$ oz. 25c.; 1 pkt. of each color for 20c.

JUNG'S CHRYSANTHEMUM

Jung's Chrysanthemum

This grand Aster is in a class by itself, in fact we consider it the most beautiful of all Asters. Its beautiful form is well shown in the illustration. It is of the most beautiful color known in Asters, being a delicate sea-shell pink. Its flowers are truly gigantic in size and closely resemble chrysanthemums, hence name. Well grown flowers measure five inches across and being borne on long stiff stems makes it invaluable for bouquets and cut flowers. Pkt. 8c.; $\frac{1}{4}$ oz. 35c.

JUNG'S EARLY INNOCENCE

Jung's Giant Branching

After a number of years of careful selection we have brought this Aster to a state of perfection where it is unexcelled. Plants form strong, stocky bushes about 2 feet high bearing on long stems their pretty flowers which measure from 4 to 5 inches across. The petals are gracefully curved toward the center and do not have an exposed yellow center. This variety is unexcelled for bedding or for bouquets. White, Shell-Pink, Rose-Pink, Purple, Lavender and Mixed. Pkt. 7c.; $\frac{1}{4}$ oz. 25c.; 1 pkt. of each color for 25c.

JUNG'S FAIRFIELD

Jung's New Fairfield

We take pleasure in offering our customers this new Aster which is in a class by itself. The flowers are immense in size, and being borne on long stiff stems they rival Chrysanthemums for bouquets. The petals are very long and are curled and twisted to a remarkable degree. The plants are strong and healthy and it is not an unusual thing to find one with a dozen long, graceful stems each crowned with flowers from four to six inches in diameter. Colors, White, Shell-pink, Rose, Purple, Lavender and Mixed. Pkt. 7c.; $\frac{1}{4}$ oz. 35c.; 1 pkt. of each color for 25c.

JUNG'S GIANT FANCY

JUNG'S AMERICAN BEAUTY

Jung's American Beauty

The petals of this grand new Aster are almost a half-inch wide. It is almost identical in color to the popular American Beauty Rose, hence the name. The plants are strong growers, from 35 to 46 inches tall, well supplied with heavy foliage and is a prolific bloomer. The immense fluffy flowers are borne on stems from 18 to 24 inches long. Specimen plants carried from 8 to 12 blossoms, each measuring over 4 inches across. We offer same in Rose and Purple. Pkt. 10c.; $\frac{1}{4}$ oz. 40c.; 1 Pkt. of each color for 15c.

JUNG'S LATE BRANCHING

Jung's Giant Fancy Mixed

This is the highest grade mixture of Asters it is possible to produce, being composed only of the very largest sorts. Most seedsmen do not put out such a grade as the seeds costs too much but as we grow our own seed it is possible for us to do this. The colors include white, shell-pink, lavender, rose, purple and crimson. Many of the flowers are 5 inches across and are borne on stems 2 feet long. A finer lot of Asters are not to be had. Pkt. 10c.; $\frac{1}{4}$ oz. 45c.; oz. \$1.55.

Mrs. Jos. Petrzilka, Racine, Wis.—We had Wonderful Success with all the seeds we had from you last year. My asters were beautiful just like Chrysanthemums. I shall always recommend your seeds.

Eveline Riddle, Colfax, Ky.—The asters I planted last year were a wonder to all who saw them.

Special Offer.

On inside back cover you will find the biggest Aster Bargain ever offered, 8 pkts. of seed that would cost 75c to \$1.00 elsewhere, will be sent for only 45c.

BALSAM

CARNATION-Giant Marguerite Mixed

These lovely fragrant Carnations produce fine double flowers. The flowers of this wonderful strain often measure three inches across and have a variety of colors including white, blush, deep pink, salmon, scarlet, maroon and many variegated flowers. Most of them have lovely fringed petals. One great merit of these Carnations is that they begin to flower in about 13 weeks time from seed sown early in the spring. Pkt. 10c.; 3 pkts. 20c.

BALSAM-Defiance Mixed

A favorite quick growing annual. The plants form symmetrical, well-branched erect bushes about two feet high. The branches are well covered with beautiful double flowers. The colors include white, rose, scarlet, crimson, purple, lilac and violet. This variety is distinctly Camelia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flowers. Pkt. 5c.; 3 pkts. 10c.

Mrs. Geo. Dyer, Westford, N. Y.—Have grown asters from your seed for several years and from your aster collection have had the loveliest ones I ever saw and they have been greatly admired by everyone.

BABY GOLDEN GLOW

BABY GOLDEN GLOW

A most charming annual growing about 15 to 18 inches high, bearing scores of bright yellow flowers. Seeds should be started indoors; the plants will begin to bloom almost as soon as set in the open ground, affording an almost unlimited supply of cut flowers. One of the best bedders. Likened to Golden Glow on account of color, shape and profusion of bloom. Pkt. 5c.; 3 pkts. 10c.

CARNATION

CANNAS-Crozy's Hybrids

Very showy bedding plants with their tropical foliage and immense flowers borne on stalks three to seven feet high in all brilliant colors. Cannas are easily grown from seed. For best results pierce the seed and soak in warm water, then sow in a warm place or hotbed. Seeds started in March or April produce a brilliant bed by July. Pkt. 8c.; 3 pkts. 20c.

CHINESE WOOLFLOWER

CHINESE WOOLFLOWER

Most Magnificent Garden Annual Ever Introduced. The plants average 2 feet in height, branching freely, each shoot bearing a beautiful ball of scarlet wool. It flowers early and profusely and the heads of bloom, mixed with fresh green foliage makes the plant look like an immense bouquet set in the ground. They continue to glow with a richness of color, a deep crimson-scarlet, all summer and fall until severe frosts destroy them. A rare novelty. Fresh cut flowers when dried are much used for winter decoration. Pkt. 10c.; 3 pkts. 20c.

CARDINAL CLIMBER

CARDINAL CLIMBER

One of the most beautiful climbing annuals we know of and should be grown by every lover of vines or climbers. The foliage is like a palm leaf, rich glossy green with fringed edges against which the brilliant scarlet flowers, about one inch across show off beautifully. In a warm sunny location and rich soil it grows 20 feet in height. It is of rapid growth, free from insects and a beautiful vine for porches or trellis. Pkt. 10c.; 3 pkts. 20c.

Mrs. Herman Baker, Chetek Wis.—The asters I got from you last year were just great, you surely have good seeds.

CANDYTUFT

CANDYTUFT-Little Prince

This is a dainty and distinct Candytuft, the plant growing only about six inches high and bears immense spikes of snow-white flowers in great abundance, remaining in perfection longer than any other annual strain. Pkt. 5c.; 3 pkts. 10c.

COCKSCOMB-Giant Prize Mixed

Wonderfully showy annuals producing crimson and yellow flowers or combs of immense size. Very easy to grow. Cut when partially open and dry in shady place and they make excellent winter bouquets. Pkt. 10c.; 3 pkts. 20c.

COCKSCOMB

Jung Quality Seeds

BLUE LACE FLOWER

DIANTHUS

DIANTHUS

FAIRFIELD FINEST MIXED.—These hardy annuals may be ranked among the fairest gems of our flowers, as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over and in a few weeks they are masses of bloom continuing so until frost. Our mixture includes the best single and double sorts. Pkt. 5c.; 3 pkts. 10c

FIREBALL.—One of the finest varieties to be had. Flowers are a deep scarlet color, nearly 2 inches across and being produced on long stems are excellent for bouquets. Plants grow 12 to 15 inches high, fine bedder. Pkt. 7c.; 3 pkts. 15c.

BLUE LACE FLOWER

A beautiful and interesting annual which seems to have been lost sight of in the last few years. It blooms most profusely from July till November, plants grow about 18 inches high and have as many as 50 flowers open at one time; color an exquisite pale lavender. Pkt. 8c.; 2 pkts. 15c.

CALIFORNIA POPPY

Very handsome, quick growing annuals with fine cut foliage and bright poppy-like blossoms. Nothing can excel it for brightness and it blooms continually from June to October. Colors, orange, yellow, crimson and maroon. Very easy to grow. Pkt. 5c.; 3 pkts. 10c.

CANTERBURY BELLS

This beautiful old fashioned popular flower is easily grown in any garden. They are free bloomers, producing bell shaped flowers of many colors very freely. Pkt. 5c.; 3 pkts. 10c.

AFRICAN DAISY

This extremely showy annual has become a great favorite everywhere on account of its very easy culture and most beautiful flowers. The hardy plants of neat branching habit grow only 12 to 15 inches high and are exceedingly profuse in flowering. Its Marguerite-like blossoms, $2\frac{1}{4}$ to $2\frac{3}{4}$ inches in diameter are of a peculiarly rich, glossy orange-gold. It bears its showy flowers very soon after being planted out in the open ground in sunny situations. A bed in full bloom is truly a magnificent sight. Pkt. 5c.; 3 pkts. 10c.

COSMOS-Giant Early Flowering Mixed

Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers, with their deep broad petals rise from a cloud of fine feathery foliage. They are of compact, bushy growth, about four feet high with flowers fully as large as the old variety. Flowers are of various shades, ranging from pure white to purplish crimson. Pkt. 5c.; 3 pkts. 10c.

DAHLIAS-Jung's Fancy Mixed

The Dahlia still holds its place as "king" of all outdoor autumn flowers and they may be grown to the greatest perfection from seed, blooming the first summer. As easy to grow from the seed as the most common plant. Anyone can have a magnificent display of these regal beauties at very small cost. Continue to bloom profusely until severe frosts when the bulbs can be taken up and stored until spring. A superb mixture of the finest double varieties of largest size and finest colors. Pkt. 10c.; 3 pkts. 20c.

AFRICAN DAISY

SHASTA DAISY

GIANT SHASTA DAISY

This Giant Daisy is a production of Mr. Luther Burbank. It is a perfectly hardy perennial bearing sturdy, lasting flowers averaging 4 inches in diameter on long, stiff stems. The petals or rays are pure white. Blossoms all season. Pkt. 5c.; 3 pkts. 10c.

CALIFORNIA POPPY

CANTERBURY BELLS

COSMOS

Jung Quality Seeds

HOLLYHOCKS

EVERBLOOMING ANNUAL MIXED. This old but favorite flower may now be had in flower the first season. The diversity of form and colors of our selection will afford you many surprises. Some plants will produce dense, double flowers, others will be semi-double while some are single with double centers. The flowers are unusually large, some measuring 5 inches across. In colors there is also a great variety, some richly brilliant, others dainty and elegant, ranging from black, maroon, crimson, rose, pink, to white. You will find our strain to be unsurpassed. Pkt. 5c.; 3 pkts. 10c.

HOLLYHOCKS

FOUR O' CLOCK

No flower makes a prettier border than the old-fashioned Four O'Clock. Plant grows to a height of two feet and blooms in early morning and evening that rival the choicest garden flowers. It is one of the most brilliant and showy plants that can be grown with little or no trouble. **Finest Mixed.** Pkt. 5c.; 3pkts. 10c.

GAILLARDIA-Finest Mixed

One of the most showy annuals and greatly admired for their fine form and rich blending of colors in orange, brown, bronze, maroon and crimson. Many of the flowers are 4 inches across and being produced on long stems are excellent for bouquets. They blossom from July until frost. Easy to grow. Pkt. 5c.; 3 pkts. 10c.

FOUR O'CLOCK

CHRISTMAS KOCHIA

A great improvement on the old variety as this new strain retains its beautiful color until late in the winter while the old variety dried up in September. The bushes are a mass of dense live green in summer while after frost it turns to rosy claret-red and is highly ornamental after all other plants and shrubs are dead and the effect of this color against the snow is certainly a beautiful sight. The plants grow 3 to 4 feet high and very dense and symmetrical in shape from the very start. It is also very desirable for a pot plant, being especially fine for Christmas and New Year decorations. We are sure you will be more than pleased with this new ornamental plant. Pkt. 5c.; 3 pkts. 10c.

CHRISTMAS KOCHIA

LARKSPUR-Giant Annual Mixed

Well known annuals of great beauty and noted for the richness of their colors—particularly the blue. Our mixture includes white, pink, rose, light and dark blue and violet. Our strain is a vast improvement over the old varieties, more of the flowers being double and all of them of larger size. They bloom very freely and produce large spikes of long keeping flowers. Sow seed early in the spring and they will commence to bloom in July. Pkt. 5c.; 3 pkts. 10c.

LARKSPUR

MARIGOLD-Lemon Ball

This extremely showy annual has become a great favorite everywhere on account of its easy culture and most beautiful flowers. The hardy plants of neat branching habit grow from 15 to 20 inches high and are exceedingly profuse in flowering. The extra large, round, double flowers are of a clear canary yellow. The petals are heavily rolled and are crowded so closely together as to appear lacinated. Pkt. 5c.; 3 pkts. 10c.

MARIGOLD

MORNING GLORY.

Giant Japanese Mixed

The robust vines attain a height of from 15 to 20 feet. The foliage is luxuriant, distinct and varied, green silvery and yellow leaves. Their charm lies in the entrancing beauty and large size of the flowers; they measure from 3 to 4 inches across. The color of the flowers, shadings and markings are limitless. Some flowers are of deep, rich velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver gray. They are easy to grow and quick to come into bloom. Pkt. 5c.

BISMARK MIGNONETTE

MIGNONETTE

BISMARK—One of the grandest mignonettes ever introduced. It is remarkable for size, color, fragrance and profusion of blooms. Flower spikes are of giant size, measuring 6 to 8 in. long and fiery red in color. Very showy as the bright flowers contrast effectively against the deep green foliage. Pkt. 8c.; 2 pkts. 15c.

FINEST MIXED—A fine mixture, grows rapidly and produces fine spikes of blossoms during the cool weather of spring and fall. Make a second sowing in August to furnish fall flowers. Pkt. 5c.; 3 pkts. 10c.

Jung Quality Seeds

Jung's Giant Tall or Climbing Nasturtiums

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, window boxes or brush planting, nor surpass them in freedom and profusion of bloom. They throw out running shoots that can be trained upon strings or wire and can be easily made to climb ordinary wire netting. On good soil they grow 8 ft. tall. Our mixture includes a wonderful diversity of colors; some are solid while others are beautifully mottled and striped. Pkt. 5c.; oz. 20c.

BRILL. BEAUTIES

Brilliant Beauties Mixed Dwarf Nasturtiums

The plants are of strong, vigorous growth, erect habit and beautifully rounded form. The leaves on different plants range from light green to a rich purplish tint. They are of quick growth, begin to bloom early in the summer and continue to flower until killed by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant but also of large size. It makes an excellent variety for bedding. Pkt. 5c.; oz. 20c.

NICOTIANA
SANDERAE
HYBRIDS

GIANT TALL NASTURTIIUMS

NICOTIANA-Sanderae Hybrids

These flower from early summer until late in autumn. Their beauty is beyond description flowers being purple, dark and light red, snow-white, violet, salmon, pink crimson and various other shades. It is a very easily cultivated plant, thrives in any soil, either in pots or in the open ground. The cut blooms last well, opening freely in water. All colors mixed. Pkt. 5c.; 3 pkts. 10c.

GIANT MASTERPIECE

Giant Masterpiece

This giant Pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant-sized flowers are of the most striking character, the petals being of a rich velvety substance and heavily ruffled. The colors are mainly dark rich shades, bordered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings, combined with the ruffled character of the petals makes the Masterpiece one of the finest Pansies ever developed. Pkt. 15c.; 2 pkts. 25c.

PANSIES

Jung's Giant Fancy Mixed

This "Fancy Mixture" contains seeds of the largest, richest and handsomest pansies known to the horticultural world. The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems well above the heavy deep green foliage. The colors are rich and varied such as white, cream, yellow, deep orange, mahogany, claret, rose, reddish bronze. All are distinctly blotched. The compact rounded plants are of sturdy habit and so deep rooted that they bear gigantic flowers profusely and continuously. The petals are of thick, heavy substance, large size and various shapes. Pkt. 15c.; 1/2 oz. 75c.

Large Flowering Mixed

This is a popular large flowering type just what you want for a pretty bed. The plants make a strong growth and flower freely. This mixture comprises many beautiful varieties and we know you will be delighted with it. Pkt. 5c.; 1/2 oz. 25c.

GIANT FANCY PANSIES

POPPIES-Double Featherball Mixed

These double fringed annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe-shaped formation with gracefully fringed petals, like big balls of slashed tissue paper. Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of coloring ranges from the most gorgeous shades down to pure white. They are of the easiest culture. Mixed colors. Pkt. 5c.

PETUNIAS-Large Flowering Mixed

For an abundance of large showy flowers throughout the entire summer and fall the Petunia reigns supreme. No matter what the conditions are, they are always in bloom. This mixture contains a great variety of colors many of which are beautifully striped, some are rich and gorgeous while others are lovely delicate shades. Pkt. 5c.; 1/2 oz. 25c.

FEATHERBALL POPPIES

LARGE FLOWERING PETUNIAS

Jung Quality Seeds

PETUNIA-Defiance Mixed

This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across; the colors are indescribably rich and varied. Most of the flowers are beautifully fringed and have open throats. All are distinctly veined, especially in the throat portion and in many the throat is darker than the outer portion of the petals, imparting a rich, velvety effect. The foliage is large and heavy and very dark green in color. Some of the colors are rich and gorgeous, while others are of lovely delicate shades. Pkt. 15c.; 2 pkts. 25c.

EVERLASTING FLOWERS

EVERLASTING FLOWERS

These everlasting flowers should be grown in every flower garden and for this reason we have placed them in this list. The plants grow about 2 feet high and produce the beautiful flowers, like a half-open rose in great profusion. They make a very pretty bed and if picked will last all winter, excellent for Christmas and New Year decorations. Our seed includes all colors. Easy to grow. Pkt. 5c.; 3 pkts. 10c.

DEFIANCE PETUNIA

PHLOX DRUMMONDII

Grandiflora Mixed

This superb strain is notable not only for variety and brilliancy of colors but also for the perfection and size of the flowers. Many of the single flowers are so large that they will nearly cover a 50-cent piece. The colors range from pure white to the deepest red or crimson while the clear eye of some of the flowers is peculiarly marked. For a mass of splendid colors no flower will give a more satisfactory return for so little cost. No garden should be without these most beautiful of all dwarf growing annuals. Pkt. 5c.; 3 pkts. 10c.

PHLOX DRUMMONDII

DWARF PHLOX

DWARF PHLOX-Nana Compacta Mixed

This splendid race of dwarf annual Phloxes cannot be overpraised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant hues. Nothing better for bedding purposes is listed in this catalog. They succeed everywhere and are in universal favor for summer growing flowering purposes. Bushes are dwarf and compact, six to eight inches high, forming dense masses of bloom all summer. The colors include pure white, deep and showy red rose with white eye and many other shades. Pkt. 10c.; 3 pkts. 20c.

PORTULACA-Finest Mixed

One of the most showy and profuse blooming annuals. A great favorite for bedding, edging and rock work; also splendid for window boxes. Will grow and bloom in hot, dry locations where almost any other plant would die. Blooms profusely from early summer until autumn. For brilliant color a bed of these easy growing flowers is a sight to behold. Our mixture includes all the finest colors. Pkt. 5c.; 3 pkts. 10c.

SALVIA BONFIRE

SALVIA-Bonfire

One of the finest Salvias and the grandest bedding plant known. A bed of them will surpass the finest scarlet geraniums in brilliancy and continuous bloom. The plants grow very bushy, attaining a height of about 50 inches and single plants often carry 100 spikes measuring from 8 to 12 inches in length. The flowers are of a brilliant, dazzling scarlet and from the time they first begin to flower the plants are a continuous blaze of color until killed by frost. We know of no other flower that will equal the gorgeous effect of a row or bed of these Salvias when in full bloom. Why pay from 50 to 75 cents per dozen for these plants when you can raise at least 50 plants from a pkt. of our seed. Full instructions on growing are sent with every order. Pkt. 5c.; 3/8 oz. 35c.

PORTULACA

SNAPDRAGON or ANTIRRHINUM

Jung's Giant Flowering Mixed

These flowers were great favorites in old gardens but our giant flowered strain is such a great improvement that anyone would hardly recognize them as the same flower. The bushes grow about 18 inches tall and produce splendid spikes of blossoms in all shades of red, rose, salmon, yellow and white. Very easy to grow and should be in every garden. If carefully lifted and potted in the fall they will bloom in the house during the winter. Pkt. 5c.; 3 pkts. 10c.

GIANT FLOWERING ANTIRRHINUMS

Jung Quality Seeds

SWEET WILLIAM-Annual Mixed

The old favorite Sweet William as all know, does not flower until the second year but this new strain will begin to bloom in 50 to 60 days from seed sown in the spring and will continue to blossom all summer. The flowers or heads are of large size, very fragrant and of various colors, white, crimson, rose-pink, etc., many of which are edged with white. Splendid for beds or borders. Pkt. 5c.; 3 pkts. 10c.

STOCKS-Jung's Fancy Double Mixed

One of the best known and most popular annuals, of easy culture and suitable for pot plants as well as the garden. The plants grow to a height of 2 feet and produce long spikes of double flowers, many of them 2 inches across. Colors include white, rose, blue, crimson and yellow. Our seed is a superb select strain. Pkt. 10c.; 3 pkts. 20c.

ICELAND POPPIES

Hardy perennials that bloom the first season. The fragrant, elegant satin-like flowers are produced from June until October on stems 12 inches long and are excellent for cut flowers as they last fully a week. Our seed includes the most beautiful colors. Pkt. 5c.; 3 pkts. 10c.

H. Buzzo, Negaunee, Mich.—I had your seed last summer and had the finest garden in town.

STOCKS

VERBENAS

VERBENAS

Fairfield Famous Mixed

We offer you a truly giant flowered mixture of these beautiful annuals. The trusses measure 8 to 12 inches in circumference and the individual florets on well grown plants measure one inch across. They bloom freely, are vigorous in growth and contain beautiful new colors and shades. A mass of bloom from July until heavy frosts. Pkt. 5c.; 1/4 oz. 25c.

FANCY DOUBLE ZINNIAS

ICELAND POPPIES

SUNFLOWER

Chrysanthemum Flowered

Grows seven feet tall. Perfectly double. The color is the brightest golden yellow. The plants branch and afford fine stout stems for cutting. This gigantic Sunflower will be of great value for the hardy garden and her-

beaceous border. The flowers are so perfect in form that they resemble Chrysanthemum flowered Asters with long stems. This is the very best variety. Pkt. 5c.; 3 pkts. 10c.

SUNFLOWER

JUNG'S SUPER GIANT ZINNIAS

ZINNIAS

Jung's Super Giants Mixed

People who saw these Zinnias in our fields simply went wild over their giant size and brilliant colors. All you have to do is to plant them in rich soil, give frequent cultivation and lots of water and you will be surprised at the results. Plants 3 to 5 ft. high and blossoms 5 and 6 inches across. Pkt. 10c.; 3 pkts. 20c.

Jung's Fancy Double Mixed

Our strain of these beautiful giant flowered annuals is unsurpassed. The flowers are of giant size, when well grown will measure 4 to 5 inches in diameter. Flowers have a wide range of color from creamy white through all shades of yellow, salmon, pink, rose and crimson. Plants grow three feet in height and form large bushes which bloom until killed by hard frosts. Pkt. 5c.; 2 pkts. 15c.

Jung Quality Seeds

Giant Flowered Spencer Sweet Peas

GIANT SPENCER SWEET PEAS

These new Sweet Peas are of enormous size, which with their charming colors and waved and fluted appearance entitles them to be put in a class by themselves. Some of the flowers grown on our farm measured 2½ inches across. The plants are vigorous in growth and should stand at least 18 inches apart.

ASTA OHN—Both standards and wings of flowers are a soft charming lavender. Flowers are beautifully waved and fluted. Pkt. 7c.; oz. 25c.

ELFRIDA PEARSON—Flowers of extra large size and a deep rich pink color; often four flowers to a stem. Pkt. 7c.; oz. 25c.

FIERY CROSS—Giant sized blossoms of fiery-red color which glisten in bright sunlight. Flowers are beautifully waved and borne three and four on long stems. Pkt. 7c.; oz. 25c.

KING WHITE—The grandest of all white Sweet Peas, remarkable for its glistening whiteness and large size. Pkt. 7c.; oz. 30c.

MRS. ROUTZAHN—A beautiful Sweet Pea, soft, salmon-pink shading towards apricot and rose at the edges. Flowers of largest size and beautifully waved. Pkt. 7c.; oz. 25c.

ROYAL PURPLE—A beautiful rich deep purple and the best in its class. Flowers of large size borne on long stems and produced in great profusion. Pkt. 7c.; oz. 25c.

WARRIOR—Beautiful rich maroon flowers of large size and true waved or fluted type. Very vigorous growers. Pkt. 7c.; oz. 25c.

Mrs. A. J. West, Whittier, Calif.—Was greatly pleased with your seeds. I had wonderful zinnias and dahlias, the gladioli "American Hybrids" were equal to those a neighbor purchased at a much bigger price.

GIANT ORCHID SWEET PEAS

Jung Quality Seeds

Jung's Beautiful Gladioli

There is no bulb of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus. Our bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is continuous from the end of July until frost. Cultural instructions will be sent with each order.

AMERICA—One of the most popular Gladioli and a great favorite. Immense spikes 2 to 3 ft. long, single flowers measure 4 in. across. Delicate shell-pink. Each 7c.; doz. 75c.

BARON HULOT—The finest blue variety, bears a good sized flower on tall spikes. Color deep violet bordering on maroon, very showy. Each 10c.; doz. \$1.00.

GOLDEN WEST—The largest and strongest growing yellow Gladioli. Flowers large, pure canary yellow, lower petals marked with scarlet. Each spike produces 15 to 20 flowers. Each 7c.; doz. 75c.

MRS. FRANK PENDLETON—Given the highest award by the American Gladioli Society as the most beautiful variety. Delicate salmon-pink with blood red blotches on lower petals. Flowers and spikes are of giant size. Excellent for decorating. Each 10c.; doz. \$1.00.

MRS. FRANCES KING—Of exceptional value for cut flowers. Color is a very pleasant light scarlet. Individual blossoms are five inches in diameter and sometimes larger. Spikes produce 12 to 18 flowers and grow four-feet high. Flowering is continuous. Each 6c.; doz. 60c.

PRINCE OF WALES—An early flowering sort producing fine spikes and large flowers of a delicate salmon pink. Very showy on account of its beautiful color. Each 10c.; doz. \$1.00.

PANAMA—The best deep pink or rose colored variety and attracts attention wherever shown. Spikes are long with flowers large and well arranged. Each 7c.; doz. 75c.

VELVET KING—The color is a brilliant scarlet crimson usually carrying three white blotches on the lower petals. The flowers open out and are perfect and of enormous size. Each 8c.; doz. 90c.

AMERICAN HYBRIDS MIXED—Many of our customers want a choice assortment of Gladioli at nominal expense and so have them we recommend this mixture. It is made up of many different types and colors and each bulb is guaranteed to produce a spike of flowers. We do not hesitate to recommend this mixture in every way. 6 for 25c.; 40 cts. per doz.; 50 for \$1.25.

MRS. FRANCIS KING

AMERICAN HYBRIDS

SPIREA or BRIDAL WREATH

Japanese Barberry

By far the most desirable and useful of all shrubs. Of neat, dwarf, graceful appearance and handsome at all times of the year, excellent for hedges, borders for larger shrubs or grown in single specimens. Attractive deep green all summer followed by striking red berries in the fall which remain on the bushes all winter. This variety is recommended by the U. S. Govt. Strong well branched plants, each 25c.; 3 for 65c.; 12 for \$2.25.

Snowberry

A valuable and desirable shrub with pink flowers which are followed by large white wax-like berries, which hang on the plant through fall and most of the winter. Grows 3 to 4 feet high, very showy and succeeds almost anywhere. Of special value for planting in shady places where few other shrubs will grow. Strong bushy plants each 25c.; 3 for 70c.; 12 for \$2.40.

NOTE—The shrubs offered above are strong 2 and 3 year plants and should not be confused with small 1 year plants that are often offered at low prices. We send out plants as early in the spring as we can dig them usually Apr. 1 to 15th. We guarantee them to reach you in good condition.

MRS. PENDLETON

AMERICA

Jung's Special Gladioli Offer

We know that if you once plant our gladioli you will want them year after year and as a special offer will send you 1 strong bulb of each of the following for only 50c.

America	Baron Hulot	Panama
Golden West	Prince of Wales	Velvet King
Mrs. Francis King	Mrs. Frank Pendleton	

Be sure to include this collection in your order. We guarantee that you will be pleased.

ORNAMENTAL SHRUBS

Spirea Van Houttei or Bridal Wreath

One of the best known and most useful shrubs as it succeeds everywhere. Fine for setting out singly or among other shrubs, very largely used in all landscape work. It forms a round and graceful bush with drooping or arched branches which in June are completely covered with snow-white blossoms. Will fit in wherever graceful effect is desired and always gives satisfaction. Extra strong plants each 25c.; 3 for 65c.; 6 for \$1.25; 12 for \$2.25.

JAPANESE BARBERRY

Jung Quality Seeds

Hardy Northern Grown Berry Plants

This is the third year we are offering Berry Plants and the increasing demand we are having is sure evidence that our hardy Northern Grown Plants are giving satisfaction.

GUARANTEE—We guarantee all plants to reach you in good condition and will replace free of charge any damaged plants but complaints must be filed within 10 days after receipt of plants.

J. F. Spicer, Cabin Creek, W. Va.—The raspberry plants I got from you this spring were the best I ever got from anyone, have not lost a single one and they will more than pay for themselves in fruit this spring.

CHAMPION EVERBEARING

Champion Everbearing Strawberry

As its name implies it is a Champion in every way; this variety has proved to be so superior to all other everbearing varieties that we are offering it exclusively. In trials it out-yielded Progressive and the widely advertised Rockhill, fruit similar to Dunlap in size, shape and color. Berries deep, rich red of fine quality and delicious flavor. A big feature of Champion Everbearing is that every plant bears a large crop, something that cannot be said of any other everbearing variety. Sixty days after you set out your plants they will commence to bear and continue to bear heavily until hard frosts. We guarantee this variety to give satisfaction. Order your plants early, supply limited. Price 25 for 85c.; 50 for \$1.35; 100 for \$2.35.

"Cooper"

The Giant of Strawberries

The Wonder Among Strawberries.
Immense Yields. Finest Quality
The Largest Berries of All

The Cooper makes an extra large plant and a wonderful root growth thus enabling it to resist drought. It is one of the most remarkable yielders as the remarkable strength of the plant gives it power to carry every berry to maturity. There are a good number of fruit stems to each plant and these are literally loaded with berries. When you take into consideration that Cooper berries are 2 to 3 times the size of ordinary varieties you can have some idea of its enormous yield. The berries are bright red, of the best quality and the most delicious flavor. Cooper is unexcelled for size, quality and yield. Price 25 for 85c.; 50 for \$1.40; 100 for \$2.40.

JUNG'S WONDERBEARING

COOPER

Special Strawberry Offer

The above 4 varieties are the cream of all Strawberries; in order that you may try them at a reasonable price we will send:

25 of each (100 in all) for \$2.35
50 of each (200 in all) for \$4.25
100 of each (400 in all) for \$6.75

Mrs. Levi Pratt, Boyceville, Wis.—I received the plants in fine condition and am well pleased with them, thank you for promptness in filling the order.

GIBSON

Jung's Wonderbearing Strawberry

A strawberry that will delight all growers who want a variety that combines fine quality and great productiveness. These plants are very vigorous growers and seem to succeed almost anywhere they grow upright and carry the fruit well from the soil; it is medium early in ripening. The berries are of large size, some specimens 2 in. in diameter, of extra fine quality and handsome appearance. We offer strong plants of our own growing: 25 for 65c.; 50 for \$1.00! 1000 for \$9.75.

Gibson Strawberry

This is considered to be one of the best main crop varieties. In the big strawberry sections more Gibsons are planted than any other, it out-yields and out-sells all other berries on the market. The plants are extra strong growers and bear for a long time thus making a heavy yield. The berries are very large, of a beautiful red color and finest quality. We know you will not be disappointed with Gibson. We have some wonderful extra strong plants. Price 25 for 50c.; 50 for 80c.; 100 for \$1.25; 1000 for \$8.50.

Mrs. Frank Whiting, New Richland, Minn.—Strawberry plants came in just fine shape and am more than pleased with them. Thank you for the prompt service.

CUMBERLAND

Cumberland Black Raspberry or "Blackcap"

The largest black raspberry grown. This is offered with the full assurance that it is the most desirable variety, because of its immense size, fine quality and great productiveness. It is a wonder in size of berries and vigor of growth and is as hardy as any variety grown. Fruit is jet black and of extra fine quality. Every garden should have some of the fine berries. Black raspberries can be easily grown and make a very profitable crop to grow for market: 6 for 40c.; 12 for 75c.; 50 for \$2.50; 100 for \$4.50.

Jung Quality Seeds

ST. REGIS EVERBEARING

St. Regis Everbearing Raspberry

This new red raspberry will give you a fine crop of fruit from June until the berries freeze in the fall. A wonderful variety as fruit commences to ripen with the earliest and continues bearing on the young canes until October. Berries are bright crimson in color, large size, flesh very firm and meaty, and of fine raspberry flavor. The canes are very vigorous growers and well covered with heavy green foliage. St. Regis is a very heavy bearer in the regular berry season and besides will also give you a crop in the fall when fresh berries of any kind are always welcome. 6 for 50c.; 12 for 85c.; 50 for \$3.00; 100 for \$5.50.

WASHINGTON ASPARAGUS

The Great New Washington Asparagus

This new Asparagus has taken the country by storm as it is rust-proof and produces bigger stalks and larger crops than any other variety. This variety is the result of many years work by the U. S. Dept. of Agriculture and fortunate indeed is the gardener who will get started with it as it will surely displace all other varieties. The stalks grow to a very large size, yet they remain so crisp and tender that they may be eaten raw. We have some very choice strong roots of our own growing but advise early orders. 25 for 65c.; 50 for \$1.25; 100 for \$2.00; 1000 for \$18.75.

Barr's Mammoth Asparagus

This is an excellent variety, the stalks are green in color and of large size. Very popular. 25 for 40c.; 50 for 75c.; 100 for \$1.25. Large 2 year roots: 25 for 65c.; 50 for \$1.00; 100 for \$1.75.

RED RIVER EARLY OHIOS

The Great Concord Grape

The best known and most widely grown grape in cultivation. It is hardy and succeeds everywhere. Bunches are large and compact, fruit large and purplish black. It's easy to grow grapes and everybody should set out a few plants. Price of strong well rooted plants each 15c.; 6 for 80c.; 12 for \$1.50.

GROWING BERRIES

A great part of growing a profitable crop of berries depends on properly setting out and caring for the crop. Unless the right care is given the best plants will not produce a satisfactory crop. To assist you in every way we have prepared a set of complete, cultural, instructions for small fruits and will send same free with every order for plants.

EARLY KING RASPBERRY

Early King Red Raspberry

Acknowledged by most to be the most profitable Red Raspberry. In the big berry growing section of Michigan over 75 per cent are King which is the best endorsement of its superiority. The King ripens early and owing to its wonderful productiveness continues in bearing for a long time. The berries are very large, firm, bright red in color and very easily picked. They are delicious whether eaten fresh or preserved. It is the most profitable commercial variety and for home use cannot be surpassed. If you want a big supply of the finest red raspberries plant Early King. Price 6 for 40c.; 12 for 75c.; 50 for \$2.50; 100 for \$4.50.

CONCORD GRAPE

Rhubarb or Pie Plant

A few Rhubarb plants should be in every garden. They are excellent for pies or sauce and are ready for use at a time when no other fresh fruits can be had. Price 3 for 25c.; 12 for 75c.

RHUBARB OR PIE PLANT

Jung's Northern Grown Seed Potatoes

There is no longer any doubt about the superiority of Northern Grown Seed Potatoes. They are full of life and by planting our seed you are assured of early maturity, increased yield and vigorous growth. Tests conducted by experiment stations in different states have all proved that northern grown potatoes invariably produce the largest crops. The value of seed potatoes cannot be gauged by the market for eating stock as much more expense is had in growing a seed crop, such as select planting stock, treating the seed for disease, intense cultivation, spraying, roguing and careful handling in harvesting. We have made our prices very reasonable and it will pay you to plant JUNG'S SEED POTATOES. Prices Subject to Market Changes.

Red River Early Ohios

Money Makers—First Early—No Waste in Cooking or Peeling—Easy to Dig
Skin light pink or flesh color, flesh pure white. Matures about one week earlier than Early Rose. Potatoes all run good marketable size, very few small ones and the shape is so even they sell on sight on the market. Buyers know of the excellent quality and housewives find there is no waste in peeling; eyes are set close to the surface. Further, it requires less expense than most varieties to grow; vines upright, allowing easy and thorough cultivation and tubers are set in a compact clump near the surface so that digging is easy. Our Red River grown seed of this variety will increase your yield far beyond your expectations. The soil in this valley is peculiarly adapted to the best development of the Potato crop. Not only do you get an increased yield but the Potatoes are far better, cleaner, and entirely free from scab, besides being pure with none of the mixture usually found in eastern grown stock. It will pay you to change your seed. Our Red River strain will mature two weeks earlier than stocks grown farther south.

By freight or express: Pk. 50c.; bu. \$1.45; 10 bu. \$13.75.

Jung Quality Seeds

NORTHERN GROWN SEED POTATOES—Continued

Jung's White Bonanza

A new potato that promises to surpass anything we have yet seen in potatoes. It combines finest appearance, great yield and superb cooking qualities. In appearance it somewhat resembles a Rural but is ripe and ready to dig when that variety is still green. This alone will prove it is of great value as ripe well matured potatoes always bring top prices.

We discovered it in a field of Russets as it was a plant with unusually strong, healthy vines and upon digging were surprised to find the finest looking hill of potatoes we had ever seen. Since then we have been increasing our stock as fast as possible and can now offer it in a large way. The size and shape are well shown in the illustration. A remarkable thing is the uniform size of the tubers, no overgrown or small ones at all. We advise early orders. Not prepaid: Pk. 60c.; bu. \$1.75; 10 bu. \$16.50; Second size: Bu. \$1.25.

JUNG'S WHITE BONANZA

Jung's Harvest King

A Money Maker Main Crop Potato. We take great pleasure in offering our friends this grand Potato and we are sure that everyone who tries it will be more than pleased with its fine quality, vigorous growth and great productiveness. It has proved itself to be of great value on account of its tremendous yield, together with the fact that it produces but very few small potatoes. It is a magnificent sort, nice large, sound white tubers which are of excellent quality for cooking or baking. Harvest King will bring the highest price on all markets. We offer an unusually nice stock of our own growing which is clean and healthy having been treated for both scab and blight. By freight: Pk. 50c.; Bu. \$1.35; 10 bu. \$13.25. Second size, Bu. \$1.00.

JUNG'S HARVEST KING

JUNG'S SPECIAL POTATO OFFER

In order that you may try out a number of our good Potatoes at a reasonable price we have made up a collection of the following:

Red River Early Ohio
Jung's White Bonanza
Jung's Harvest King

1 Peck of each for \$1.45
1 Bushel of each for \$4.00

This price is for first size select stock.

Northern Grown Potato Eyes

Many of our customers who wish to get some of our pure bred seed potatoes but who do not feel like paying the freight or express charges on a small quantity, can now try them out at small expense by planting our select Potato eyes. These eyes are cut from select potatoes, they are prepared in such a way that they will keep for a long time and we guarantee them to reach you in good condition. In this way you can try out our potatoes at very small expense as we pay all postage charges. We can supply eyes of any potato we offer. Box of 100 eyes \$1.00; 200 eyes for \$1.80; 500 eyes for \$4.25.

Leo Pfgerstofer, Charleston, Iowa.—Herein sending an order to your good Seed Company, have tried them and find them all you say.

C. L. Frederick, Channahon, Ill.—Received seed potatoes from you in fine shape and they sure are satisfactory in every way.

Sir Walter Raleigh

Brings the highest main crop price. Finer grained and whiter fleshed than any other variety. Sir Walter Raleigh is a perfect main crop variety. It is spoken of as "Mr. Carman's Best" and is a seedling of Rural New Yorker. Good size, hardly ever any small ones, nearly round in shape; skin pure white; eyes few and very shallow, potatoes never pronged and never scabby; almost blight proof; a sure yielder where other sorts fail, in clay or other soils. It can be justly claimed that Sir Walter Raleigh is the whitest fleshed and finest grained Potato on the whole list of main crop varieties. On trial grounds of the Rural New Yorker it proved the best and heaviest cropper of 49 varieties. It is just the size of Potato that brings the highest price in every market and it always yields well. By freight or express: Pk. 50c.; bu. \$1.40; 10 bu. \$13.50. Second size: Bu. \$1.00.

SIR WALTER RALEIGH

No. Wis. Field Peas

Richest Food Known for Hogs, Excellent for hay or green feed. Field Peas should be more generally grown, as you can produce pork at a low cost by sowing a few acres of these peas. A good way to raise a bunch of excellent hogs is to sow some field peas and plant a few acres of our Smut Nose Flint Corn. When the peas are fairly ripe, turn your shoats into them which will give them a fine start and when the peas are gone let them into the corn as it will be ripe by that time. Field Peas also make excellent hay when sown with oats, also splendid when cut green and fed to milch cows. Our seed is extra fine and we offer it at a low price so any farmer can afford to sow a few acres. For prices see last page.

Field Peas

Jung Quality Seeds

Jung's Northern Grown Seed Oats

We make a Specialty of Pedigree Seed Oats. This is not oats that is bought on the open market, given a fancy name and then sold at a good price. Our Oats is grown from the best Pedigree stock on clean land and can be relied upon to give the best satisfaction.

"Iowar"

Extra Early. Wonderful Yielder.

The past 3 years the superior qualities of early oats were very noticeable as they produced much heavier grain and larger yields than the later varieties due wholly to the fact that they ripen before severe heat or rust strikes them. The Iowar ripens as early as barley, in fact can be cut and shocked while the common oats are still green. They grow a stiff straw and are noted for their ability to stand up on rich ground, every bundle seems to be a mass of heads. Has a yield record of 80 bu. per acre. The kernels are medium sized, pure white color and have a very thin hull, this accounts for their heavy weight as they seem to be all meat. We have a very nice lot of this seed. For prices see last page.

IOWAR OATS

JUNG'S BUMPER CROP OATS

Jung's Bumper Crop-Wis. No.5

A Pedigree Oats originated at the Wis. Experiment Station at the same time as Wis. Ped. No. 1 but entirely different in character. Wis. Ped. No. 5 is a very thick white kernel, medium in length, heavy and very attractive, in fact the finest looking oats we have; big fat kernels fairly bursting with life and energy. It grows a strong rank straw and is especially adapted for heavy clay soils. Has made splendid yield records. Why sow common or scrub oats when you can buy our pure pedigree oats at such reasonable prices. You will get more than enough extra yield to pay for the seed and then have it to sow every year. For prices see last page.

Ito San Soy Beans

Great for Silage and Equal to Clover for Hay
Soy Beans have a double value as they are great for feed and also nitrogen gatherers, making the soil richer wherever they are grown. They can be sown broadcast for hay or sown in rows and cultivated if wanted for the beans. Soy Beans are much richer in protein than oil meal or bran and can be used to good advantage in making a balanced ration when ground with oats or barley. For ensilage they may be sown in rows or also planted with the corn as the corn binder will cut them very nicely. They are a tender plant and should be planted about the same time as corn. Probably the best all round variety as it makes a good growth, about 30 inches tall and is excellent for ensilage. For prices see last page.

JAPANESE BUCKWHEAT

By far the best and most productive variety. Produces the most flour and is excellent to use for a crop when late seasons change your planting plans. Seed sown in July has made a crop of over 40 bushels per acre. Color of grain is a dark brown, almost black. For prices see last page.

WISCONSIN PEDIGREE BARLEY

THE BARLEY THAT ALWAYS WINS FIRST PREMIUM AT ALL THE GRAIN SHOWS

It has been thoroughly tested at the Wisconsin Experiment Station and throughout Wisconsin and proved to be superior to any other variety. It will outyield all others, has stiffest straw and the plumpest berry. The heads are of great length and a remarkable characteristic is that all the kernels are uniform in size. This barley will yield from five to fifteen bushels more per acre than any other and it will pay any farmer handsomely to sow all his barley land. Under normal conditions the kernels are bright and white, making it most attractive. Our seed of this barley was grown on our Fairfield Farm; it is very plump and heavy, in fact the nicest stock we ever had. For prices see last page.

Soy Beans

WIS. PEDIGREE BARLEY

Jung Quality Seeds

Jung's Wisconsin Grown Fire-Dried Seed Corn

Gives Wonderful Yields. Sure to Grow and Ripen.

There probably is no farm seed that will be as scarce next spring as Wis. Grown Seed Corn that is of good strong germination. The past season with its early killing frosts raised havoc with are corn crop so that a great many farmers had no corn fit for seed.. All the corn we offer was raised here in Wisconsin; it is all carefully selected, fire-dried and of unusually strong vitality.

WE GUARANTEE A GERMINATION TEST of 90 per cent or more on all our seed corn. Order your corn and test it in any way you wish within 10 days after you receive it, if it is not satisfactory return it at our expense and your money will be refunded.

Golden Glow-Wis. No. 12

THE MOST POPULAR YELLOW DENT CORN IN WISCONSIN

A new early Yellow Dent for Central Wisconsin and similar latitudes. This is the corn many have been looking for. It is a little earlier than Silver King and Clark's Yellow Dent and yet large enough to make it a popular variety for general culture. It matures as far north as Central Wisconsin and yields big crops of large-sized ears. Golden Glow is a pure golden yellow dent corn, most attractive in color and appearance. Ears are fairly large, averaging about 9 inches in length symmetrical in shape and are free from a tendency to flintiness. stalks are large and strong with abundant foliage, making it a desirable fodder or silo variety and was brought out by Prof. R. A. Moore. It is a heavy yielder. You will find our seed to be extra fine having been selected for both earliness and heavy yield. For prices see last page.

GOLDEN GLOW

Silver King-Wis. No. 7

Silver King leads the list today of all-around good varieties of corn adapted to the latitude of Southern Wisconsin. Equally valuable for Northern Iowa, Southern Minnesota, South Dakota, Northern Illinois, Ohio and Indiana as well as for Wisconsin. Ears are just the right length, averaging 8 to 10 inches, always filled clear to the tips and are very uniform in size and type. The corn is pure snow-white in color with good long kernels. It is a strong grower; early enough to mature as far north as south-central Wisconsin and is especially adapted to resist cold weather. The stalks are large and strong with abundant foliage making it a very desirable silo or fodder variety. The Leading Late Variety of Corn in Wisconsin today. For prices see last page.

Wis. No. 25

Extra Early Yellow Dent

This variety was developed by the Wis. Exp. Assn., the idea being to produce a very early maturing corn suitable for the northern counties of Wis., Minn., and Mich. It was bred from a cross of Wis. No. 8 with a very early variety which Prof. Delwiche secured from Northern Mich. That it is a success is well proved by the excellent showing it has already made in the northern counties of Wis. In appearance it is similar to Wis. No. 8 but matures about one week earlier. On the branch of the Wis. Exp. Station at Spooner, Wis., a remarkable yield of over 80 bu. per acre was made. If you wish a very early ripening corn do not fail to plant Wis. No. 25. For prices see last page.

WIS NO 25

JUNG'S WIS. SPECIAL

Jung's Wis. Special Yellow Dent

This new corn has done wonderfully well around here and we are offering it in a general way for the first time. It is a yellow dent and produces a very vigorous stalk, it has the most and widest foliage of any corn we have ever seen which together with its giant ears will it unusually valuable for silage purposes. Ears will average fully as large as Silver King but ripens about one week sooner. It is not a very handsome corn but it is a corn that will fill your cribs or silo and that is what every farmer wants. We know you will be pleased with its great yield. All of our seed was grown right here in Dodge Co. Order early if you wish to be sure of getting some of this seed.

Genuine Dwarf Essex Rape

A great forage plant and widely used for sheep and hog pasture. It furnishes an immense amount of green feed from a small area and under favorable conditions can be pastured in 6 weeks from time of sowing. Sow 4 to 6 lbs. per acre. For prices see last page.

Jung Quality Seeds

WIS- GROWN SEED CORN-Continued

Wis. 15 Improved Smut Nose Flint

Extra Early, Enormously Productive, Ears Often Over 15 Inches Long. This variety was developed, improved and first sent out by the Wisconsin Agricultural Experiment Association. It is more prolific than any other flint corn and also has a stronger stalk, being especially well adapted to Wisconsin conditions. A peculiar characteristic is that instead of each kernel producing one stalk and many short suckers like most flints this variety often produces 3 and 4 stalks from each kernel, each of which have a well developed ear, no short suckers at all. The ears are long, often 14 inches and have eight rows of large yellow kernels which shade to deep red towards the tip. The stalks grow from 6 to 7 feet tall and make excellent fodder. This also makes an excellent corn to plant for "hogging, down" as it matures so early. We have an excellent lot of seed of our own growing which tests 98 per cent germination. For prices see last page.

SMUT NOSE FLINT

German Millet

In the north Millet is grown altogether for hay and for that purpose southern grown seed is much the best. It grows taller and finer than from northern seed and that means more and better hay. Golden Millet is very sweet and palatable and when fed to dairy cows produces a large amount of milk. On good soil it grows four to five feet high. It is very tender when cut at the right stage which is when it is in full bloom. For prices see last page.

GERMAN MILLET

Sudan Grass The Wonderful New Forage Plant

Sudan Grass although comparatively a new plant is becoming very popular. It is far more valuable for hay than millet or any of the sorghums as it is just as easy to grow and will produce more and better hay. It makes a heavy yield, 3 to 5 tons of cured hay per acre, usually two cuttings per season can be made, as if cut before the seed ripens it will grow again like alfalfa. The hay is of excellent quality and all kinds of stock eat it readily. An excellent crop to sow after early peas, as it can be sown as late as July 10th and still make a crop. Sow broadcast like oats, 20 to 25 lbs. per acre, any time from May 20 to July 10th. Try some, we know you will like it. For prices see last page.

Dry Land Alfalfa The Coming Hay Crop for Wisconsin

A clover-like leguminous plant of great importance as a hay crop; nutritious and rich in protein elements. It grows from 2 to 5 feet high and roots 3 to 12 ft. deep. It needs one season to become established; after that it yields enormous crops annually for years. Two to six cuttings per season, aggregating three to eight tons of cured hay are harvested, according to conditions and locality. It does well on all good, rich soils, except heavy clay, if it is well drained. It is a perennial plant lasting many years under good treatment. It should be grown by every farmer and dairyman. We offer only DRY LAND SEED. Dry Land Alfalfa is much to be preferred to seed grown under irrigation as the Dry Land Seed produces a much heavier and more vigorous plant. Insist on having DRY LAND SEED. For prices see last page.

Canadian Grimm Alfalfa

This is probably one of the most hardy strains of Alfalfa, the seed we offer was grown in Ontario, Canada and should, therefore survive any Wisconsin winters. Its one great merit is the fact that it has a spreading root system instead of a long straight tap root like common varieties, this enables it to withstand heavy freezing without injury. You will find this strain to compare very favorably with the regular Grimm and it does not cost near as much. For prices see last page.

Why You Should Grow Alfalfa

It contains as much protein as wheat bran.

It does not exhaust but enriches the soil.

It produces from three to eight tons of hay to the acre.

One acre will pasture 20 hogs for 6 months.

Thirty-five pounds makes a full feed for fattening steers.

A lamb will winter and thrive on three pounds a day.

There is no state in the Union where ALFALFA cannot be successfully grown.

A SECOND CUTTING OF ALFALFA

Jung Quality Seeds

Jung's Fancy Recleaned Clover and Grass Seed

MEDIUM OR RED CLOVER

You will find the quality of our seed to be equal to the best in both purity and germination, it is home grown seed, free from fowl weeds and can be relied upon to be suited for our climate.

WARNING—There is much clover and timothy seed being offered at "so called bargain prices." We will not handle such seed under any circumstances as much of it is imported and will not survive our winters and almost all of it contains so much trash and fowl weeds that it is not fit to sow. Get a free sample of our Eagle Brand Clover or Timothy and compare it with some of the "cheap" grades that are being advertised. It always pays to sow the best seeds.

Alsike Clover

The advantage of Alsike over Red Clover is its true perennial character and great hardiness. It will adapt itself to extremes of either wet or drought and will flourish on soils where red clover would not grow; it is also more leafy and does not have heavy stalks and for this reason makes a much finer hay, especially when sown with Timothy. It is highly nutritious and very fragrant; excellent for bees. Also excellent for pasture as it is very hardy and seldom winter-kills. Alsike is the only clover that will thrive and not kill out on low places. For prices see last page.

ALSIKE CLOVER

White Blossom Sweet Clover

Sweet Clover belongs to the family of leguminous plants and adds greatly to the fertility of the soil on which it is grown. Sweet Clover will grow and make a crop on soil where other clovers and grasses would perish and makes a very good hay for cattle, also excellent pasture for hogs, being the first to start in the spring and the last to be killed by frost in the fall. It is coming into popular favor more every year as its good qualities are being recognized. As the price of the seed is very reasonable every farmer should sow some. Our seed is all hulled and scarified. For prices see last page.

SWEET CLOVER

Medium or Red Clover

We have an unusually fine stock of Medium Clover Seed. It is bright, pure of high germination and free from fowl weeds. This is the standard Red Clover and a dependable all-around variety for farmers and stockmen. It makes two crops a year. The first is usually cut when in bloom for hay; the second crop may be cut for hay, harvested for seed or plowed under to add fertility to the soil. It pays always to buy the best grade of CLOVER SEED that can be obtained. Even though the first crop cost is more than the cheaper grade it will be found in the long run that inferior seed is the most expensive, not only on account of less hay or seed being produced from it, but from the fact that one's land is liable to become infested with weeds. **SOW GOOD CLOVER SEED** and plenty of it. For prices see last page.

Mammoth Clover

This is well known for its enormous yields and is largely used as a fertilizer to plow under green; it has no equal also excellent to sow with small grain for fall pasture, using from 4 to 6 lbs. per acre. For prices see last page.

Jung's Northern Grown Timothy

As a crop for hay TIMOTHY is probably unsurpassed by any other grass. It is highly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is not suited for light, sandy soil as well as some other grasses. The most important point in the growing of TIMOTHY is the selection of GOOD SEED. POOR SEED, besides containing weed seeds, WILL NOT ALL GROW. For prices see last page.

RED TOP

Fancy Red Top

A suitable grass for moist rich soils where it thrives most luxuriantly. It is a good variety to sow with Timothy or Clover for meadow or pasture and is more permanent than either of the other two. It should be fed close as if it is allowed to grow up to seed cattle dislike it. On good soil it grows about four feet high. For prices see last page.

TIMOTHY

Jung's Wholesale Prices on Garden Seeds

As is the custom with most seedsmen we make special prices to market gardeners or those planters requiring seeds in large quantities. These seeds are of the highest quality being either grown by us or growers who have made a specialty of producing high grade pedigreed seeds. Quality considered we believe you will find our prices very reasonable. Remember it costs more to produce good seed but they are also worth more when the resulting crop is taken into consideration. Without good seed the best land and cultivation cannot yield you a profitable crop.

At the prices quoted on this page we do not pay shipping charges, please state on your order whether we should ship by freight or express.

Note—We cannot fill any order at these prices unless it amounts to \$3.00 or more.

NOTE—Half bushels may be ordered at bushel rates, half lbs. at lb. rates.

Jung's Bargain Flower Seed Collection

Those who want a very complete list of flowers at a small price will find this Collection to be a great bargain. It consists of 15 full sized packets and will give you a big supply of flowers, for beds and bouquets, all summer and fall. One pkt. of each of the following for only 50c.

ASTERS BALSAM DAISY DIANTHUS COSMOS HOLLYHOCKS MIGNONETTE VERBENAS
 NASTURTIUM FANSY PHLOX POPPY STOCKS SWEET PEAS ZINNIAS

With each collection we will send a book of instructions on growing flowers.

Wholesale Prices on Select Farm Seeds

The prices quoted below are the ruling values at the time this catalog goes to press, but are subject to market changes. We strongly advise you to order as early as possible as you will then have the seeds on hand at planting time and prices almost always advance later in the season. Clover, Timothy and especially Seed Corn are sure to take sharp advances.

We quote prices on only our "Eagle Brand" Farm

Seeds which are of the highest quality, pure and free from fowl weeds, you will find them to be by far the cheapest in the end.

All of our Farm Seeds are shipped with the understanding that you may return them if upon arrival of shipment you are not satisfied in every way.

Prices are f. o. b. here. No charge for bags or packing. Remember this when comparing prices.

Three Fine Specialties

Baby Delight or Climbing Water Melon

Persons having small gardens may have water melons of their own growing as this melon will climb up a trellis or fence but may also be grown like other varieties. The first melons ripen very early and the healthy vines keep on bearing heavily until end of the season. The rich carmine red flesh is always solid and of exceptionally sweet flavor. Pkt. 10c.; 3 pkts. 20c.; oz. 30c.; ¼ lb. \$1.00

Japanese Climbing Cucumber

A fine cucumber for small gardens as you can grow them on a fence or trellis; also an excellent variety to grow like other varieties. Comes into bearing quickly and is very prolific, as many as 40 fruits having been grown on a single vine. Full grown fruits will measure 12 to 16 inches long. Flesh is pure white, tender and of delicate flavor. When young the fruits make very attractive pickles. Pkt. 7c.; oz. 15c.; ¼ lb. 40c.

SPECIAL OFFER

1 Pkt. of each of these 3 fine Specialties for 20c.

BABY DELIGHT

HENDERSON'S BUSH

Henderson's Bush Musk Melon

The Melon for Small Gardens. Requires Little Space.

The vineless character of growth or "bush habit" of this fine melon is a distinct advantage as it can be grown even in small gardens where room is limited. The plants are very sturdy and vigorous, growing 18 to 24 inches long. The fruits average 4 to 5 inches in diameter and are produced in abundance. The flesh is very deep, edible to the rind, light green in color, lusciously sweet and juicy and of most gratifying flavor. Pkt. 10c.; 3 pkts. 25c.

Mrs. Louise Harris, Colera, Okla. I like your garden seed fine, have planted your seed 4 years; sending herewith for the 5th year. Wish you great success.

Ruth M. Sandon, Batzel, Mont.—Had very good luck with your seeds, very pretty asters; my neighbors say they are the prettiest asters they ever saw. Want to plant all JUNG'S seeds.

Mrs. I. L. Curtis, Portage, Wis.—Your seeds did so well for me the past year that I must have more this season.

FRUIT, GARDEN and HOME

For Home Lovers in Cities, Towns and Suburbs

INTRODUCTORY Subscription Rates: 3 years \$1; 1 year 35c; BULB BOOK FREE

In it you will find information, ideas and suggestions regarding:

- Which flowers like "wet feet"—which dry ground—
- What flowers like shade—which need sunshine—
- What varieties of flowers, shrubs and trees to plant—
- Building plans; landscaping; improving your lawn—
- Interior decoration; arrangement of furniture—
- How to prune and transplant—What shrubs winter kill—
- Suggestions for the kitchen; recipes; serving; canning—
- A thousand and one ideas about gardening and fruit—

Fruit, Garden and Home is practical—it gives new ideas, and new suggestions that can be used at once by persons living on an average-size city or town lot, as well as by those who have larger grounds.

This fine publication is the equal in appearance and quality of some much higher priced magazines. Covers are in four colors. A good grade of paper is used. It is beautifully illustrated, and is the only national magazine of its kind published at a popular price—3 years for \$1; 35 cents for one full year. Single copies 10 cents each. Satisfaction guaranteed or money refunded. Above rates good only in U. S. proper. Rates for 8th Zone, Canada and foreign countries, \$2 for 3 years.
