THE OSAKA KIKO KABUSHIKI KAISHA,
(The Osaka Kiko Co., Ltd.)
No. 37, Kitamura Noma. ITAMI,
Hyogo-ken.

Date: Sept' 22nd/1947

TO: Headquarters
Hyogo Military Government Team,
Kobe.

SUBJECT: Permission for Removal of Machine Tools installed
in Unclaimed Reparations Plant (OUR TOYOSAKI FACTORY)
to our Inagawa Factory.

FROM: Inagawa Factory of the Osaka Kiko Co., Ltd.,
Noma Kitamura, Itami, Hyogo Pref:

Dear Sirs,

We hereby respectfully request you for a permission of removal of the unclaimed Machine Tools, which are at present installed in our Toyosaki Plant which factory has been exempted from the Reparations List, to our Inagawa Plant.

We have taken into the above proposal in view of the present condition in order to increase our productions of manufacturing the textile machines and to make our efforts more fully.

The Machine Tools to be transferred are as follows :-

Name of Machine:	No. of Machine:	Purpose:	Installed at present:	To be Removed to:
A. Card Cylinder Lathes.	3	Turning card cylinders.	OUR TOYOSAKI FACTORY, Toyosaki Nishidori Itehome, Oyodo-ku, Osaka.	OUR INAGAWA FACTORY, Noma Kitamura, Itami, Hyogo Pref:
B. Card Cylinder Grinders.	2	Grinding card cylinders.	-DO.-	-DO.-
Total		5 Sets		

Most earnestly requesting your permission of removal under your kindest consideration,

Yours obediently,

For THE OSAKA KIKO CO., LTD.

L. Hoshizumi

412.3

13 October 1947

SUBJECT: Centralization of Reparations Machinery & Equipment.

TO : Commanding Officer
Osaka Military Government Team
APO 25

1. Forwarded herewith as inclosure 1 is an application submitted by the Nikkoku Kogyo K.K., Kanzaki Plant, (13-37), requesting permission to centralize machinery and equipment located at the Hanshin Kiko K.K., and the Chiyomi Seisakusho K.K., in your prefecture. It is requested that this headquarters be informed as to the advisability of centralizing subject machines located in the foregoing plants.

2. Inclosure 2 is an application submitted by the Osaka Kiko K.K., Inagawa Plant, (13-85), requesting permission to transfer and install machines from the Osaka Kiko, Toyosaki Factory, for the purpose of civilian production. This headquarters has no objection regarding this plan. In the event your headquarters concurs, it is requested by this headquarters that authority for transfer of machinery be issued by your office (cc to this headquarters) to the Toyosaki Factory.

2. Present Location:

Kanegafuchi Boseki K.K. Takasago Zoki Kojo,
No.625, Nishinomiya, Takasago-cho, Kako-gun,
Hyogo-ken

3. Intend to transfer to:

Kanegafuchi Kikai Kogyo K.K. Amagasaki Kojo,
No.114, Nijuichi, Tsugiya, Amagasaki-shi,
Hyogo-ken

4. Reasons for transfer:

- a. In the Takasago Zoki Plant of the Kanegafuchi Boseki K.K., no power is available and no line-shaft is installed, and therefore, the machines are stored for mere safe-keeping and maintenance.
- b. We intend to transfer those machines to the Amagasaki Plant of our company and take charge the machines at good constructive condition by repairing and operating.
- c. Moreover, by using the machines we want to contribute a restoration of our country's fiber industry until such time when the machines will be taken for reparation.
- d. For your reference we attach the copy of your Permit to operate the Amagasaki Plant of our company.

for S. Nagahama
KURATA ARAI
President of
Kanegafuchi Kikai Kogyo K.K.

5 October 1946

ANNEX NO. 1

Permission is hereby granted to The Kanegafuchi Machine Industrial Co., Ltd., Amagasaki Works, 144 Nijuchi Tsugiya, Amagasaki, Hyogo-ken, to produce the following items:

Monthly

1. Ring spinning frames 30 Sets
 High speed warp knitting machines 8 "

2. Knitting machines for millanese reduced 2" will be as follows:

Items	Capacity
Repair of ring spinning frames	30 "
Wire-netting power looms	30 "
Combing Machine	10 sets
Repair of intersecting gill box	10 "
Warp Beaming Machine	1 set

3. You will be required to submit monthly production reports in accordance with paragraph 3 of Permit 31 - ok - 31, dated 5 October 1946.

Kobe Kosaku K.K.
(Kobe Manufacturing Co; Ltd.)
3, 4-chome, Hosodacho, Nagata
Kobe City
1st November 1946.

TO: Hyogo Military Government Headquarters Team.

SUBJECT: Application for the permission for the re-transportation
of Machine tools.

Kobe Kosaku K.K. Miki plant (Code number 13-33) was appointed as a reparation plant on 24th May 1946. At present we closed the plant and only few workers are giving maintenance for the Machine tools.

Thus we applied to transport all the machine tools to Akashi plant to give better maintenance with skilled workers and get your permission ~~on~~,
(the application and permission sheets attached).

We already transported 80% of machine tools to Akashi plant. At first we planned that we have enough floor space for additional 87 machine tools brought from Miki plant. Actually we miscalculated for the floor space around each machine tools for the purpose of maintenance. Moreover the machine tools transported from Miki dispersal plant need minor repair, and for the repair of all gear driven machines, we need the skilled workmen in Kobe plant.

We hereby present the application to re-transport - machine tools to Kobe plant again.

We believe we can give better maintenance and repair by your kind permission.

KAMITSU KOKU KOGYO K.K.
(New name: KAMITSU SEISAKUSHO, Ltd.)

Morimoto Kamitsu-Mura,
Kawabe-Gun, Hyogo-Ken

26 Aug. 1946

To: Hyogo Military Government

Subject: Application for moving the Excentric Press Machine (Inventory Code No. 13-28-64) from its present location in Nishi-Kojo (Invent. Code No. 13-28) to Higashi-Kojo (Invent. Code No. 13-27).

From: Kamitsu Koku Kogyo K.K.
(New Name: Kamitsu Seisakusho, Ltd.)

We hereby request to be authorized to move the Excentric Press Machine (Inventory Code Number 13-28-64) which stands in our Nishi-Kojo (Inventory Code No. 13-28) to the Press Workshop in our Higashi-Kojo (Inventory Code No. 13-27) where we wish to set up this machine in order to manufacture by pressing with it the cradles of Thread Winding Machine, one of the items of Peacetime production in our plants.

The above Excentric Press Machine, having been unnecessary for War Production, was not used at all during the War, but was being laid aside temporarily in Nishi-Kojo for custody. So it is inconveniently located for operation and it causes us less efficiency. This is the reason why we wish to move this Excentric Press Machine from its present location in Nishi-Kojo to the above mentioned Press Workshop in Higashi-Kojo.

We think there will be no difficulties in moving the machine as these two plants are situated so close to each other with a road between them.

We hope our earnest request will be favourably considered.

Kamitsu Seisakusho, Ltd.

T. Yamada
President.

Kobe Kosakusho K. K.
(Kobe Manufacturing Co., Ltd.)
3,4-chome, Hosodacho, Nagata
K O B E

August 1, 1946.

To Hyogo Military Government Headquarter Team.

Subject : On the preservation of productive installation
in the Miki Plant.

By the memorandum from G.H.Q. dated 28th May, Kobe Kosakusho K.K. were appointed to preserve the productive equipment in Kobe, Akashi, and Miki Plant in good condition for the preservation of reparation.

The Miki plant (13-33 by Notation) was constructed on 1945 and commenced the production in May 1945. The plant was originally a dispersal plant, so we closed the plant at the termination of War, and only part of the Kobe and Akashi plant are working for civilian products under the permission to continue operation by the Allied Forces. We have no idea to re-convert Miki plant to produce civilian products.

Hence the maintenance and preservation of machine tools in Miki plant is extraordinarily difficult. We wish to transport the machine tools to Akashi Plant (13-31 by notation) and wish to preserve them with guards and with better maintenance. We attach the application sheet for the permission of transport of machine tools from Miki plant to Akashi plant.

13-31

775 013

Kobe Kossakusho K. K.
(Kobe Manufacturing Co., Ltd.)
3,4-chome , Hosodacho, Nagata,
K O B E .

To Hyogo Military Government Headquarter Team.

Subject : Application for the permission to transport
productive installations.

1) Name of establishment

KOBE KOSAKUSHO.K.K.
(Kobe Manufacturing Co.,Ltd.)
3 ,4-chome . Hosodacho, Nagata, Kobe.

2) Transportation

from: Miki plant (13-33 by notation)
Fukui, Mikicho, Hyogo prefecture .

to : Akashi plant (13-31 by notation)
2-120, Kokubo, Akashi City,

distance: 20 kilometers.

3) Reason.

Miki plant is closed since Aug,1945.
Akashi plant is now in operation to produce
civilian product under the permission of Allied
Force. We wish to preserve the machine tools in
Akashi plant under guards and with ample workers
to give better maintenance.

4) Machine tools to be transported

Shown in chart.

30 June 1947

Mr. T. Ipponmatsu
Manager of Kobe Branch Office,
Kansai Haiden K.K. ,

Transfer of Outdoor Steel Structures
of Kanigasaka Substation.

In answer to your request for transfer of the outdoor steel structures, the bus bars and the insulators of our Kanigasaka Substation in the compound of Akashi Plant of Kawasaki Sangyo K.K. to your company to use for additional construction of your Shinohara Substation to furnish necessary electricity exclusively to Rokko-Dependent-House-Groups, we have pleasure in saying that we have, so far as this Company, no objection to your request.

However, it is recommended that you will make an application for the removal of these equipments to the Occupation Forces, because they are in the compound of the Plant appointed for Japan's reparations.

You will also be responsible for the conveyance of these equipments in sections.

Yours truly,

Masashi Imano

President of Kawasaki
Sangyo K.K.

412.3 - # 16

14 July 1947

Lt. Col. Russell G. Rehkop
Commanding Officer, Hyogo Military Government Team,

Application for the Permit for the
Transfer of Electric Appliances.

We are going to construct in the compound of our Shinohara Substation a 12,000 K.V.A. power transforming equipment to use exclusively for the electricity supplies to the Rokko-Dependent-House-Group.

It has been our trouble to get the necessary properties under the bad situation. We could not get yet the outdoor steel structures necessary for the new Substation.

Whereas, there in the compound of Akashi Aircraft Plant of the Kawasaki Sangyo is an unfinished substation - Kanigasaka Substation of the Company. The construction work of the Substation was commenced in the war-time which met the war-finis before completion, and the Substation has not been used.

Its outdoor steel structures, bus bars and insulators can be divert to our new Substation, and so we made a request to the Kawasaki Sangyo for the transfer of these appliances to this Company.

The enclosed correspondence is the answer of the Kawasaki Sangyo to our request, in which they ask us to get a permit from the Occupation Forces about the removal of these appliances to use for the new Substation.

We would be very thankful if through your kind understanding a permit be granted to us for the transfer of these appliances from the Kawasaki Sangyo to this Company.

Sincerely yours

715 013

Whereas, there in the compound of Akashi Aircraft Plant of the Kawasaki Sangyo is an unfinished substation - Kanigasaka Substation of the Company. The construction work of the Substation was commenced in the war-time which met the war-finish before completion, and the Substation has not been used.

Its outdoor steel structures, bus bars and insulators can be diverted to our new Substation, and so we made a request to the Kawasaki Sangyo for the transfer of these appliances to this Company.

The enclosed correspondence is the answer of the Kawasaki Sangyo to our request, in which they ask us to get a permit from the Occupation Forces about the removal of these appliances to use for the new Substation.

We would be very thankful if through your kind understanding a permit be granted to us for the transfer of these appliances from the Kawasaki Sangyo to this Company.

Sincerely yours

T. Ipponmatsu

Subject: Petition for Removal of Reparations Machineries

It is respectfully requested that you will kindly permit the removal of the following listed reparations machineries in our Akashi Plant to Fujie Seisakusho, its branch plant, on following reasons;

The buildings in our main plant, used for custody and maintenance of reparations machineries, are those temporarily repaired for the storage of them. And in spite of utmost effort on our part there have been leaks in the roof and to make matter worse the inside of buildings is shadowy and not well-lighted, and the space of buildings available is small in proportion to the number of machineries therein, and so we are feeling much in-convenience in keeping them in good condition.

We, therefore, wish to remove them to Fujie Seisakusho where there are sufficient space and facilities for custody and maintenance of the machineries

Subject: Application for the permission of removing and using
of machineries owned by Kawasaki Industrial Co., Ltd.

Many thanks for your kind assistances, shown to us since we are granted as a converted plant by U. S. Army, for our manufacturing, specially, for your facilities, accorded to us, to delivery the wall-locker, Foot-locker, Cabinet, Waste paper receptacle and etc., for U. S. Occupation forces in the appointed time.

Recently, we are expecting to receive the large order of the Foot-locker and Cabinet from P. X. And also, by the reopening of foreign trade, beside the above goods, we are planning to make an enamelled iron ware, vat, bowl, and coffee supplies and etc. for the South.

For these goods, we shall make every efforts in our power to make delivery in stipulated time and to make any service of the economic recons truction.

Fujie plant, however, is too poorly equipped to make such a elaborate articles, so we continually used our subconstructor for our manufactured goods until now, But, in view of the latest circumstances, it is difficult to gain their goods from subconstructor in the fixed day, caused by the lack of supply of electric power or the fall of transport capacity and ect. As a result of this, we are after obliged to suspend operation.

We, therefore, apply for the permission to be authorized to remove machineries necessary for the solution of a serious question of the hour. The list of these machineries annexed hereto with their specifications.

These machineries are now keeping in the Kawasaki Industrial Co., Ltd. Akashi Plant, Akashi-city of Hyogo Prefecture. Akashi Plant are closed by our Fujie Plant and also a custodian of Akashi Plant hold an additional post in Fujie Plant. So there is no troubles on the custody and maintenance by this removing.

The great deal of these machineries are keeping in the place, leaking of rain, though it is a little. If we were permitted to remove these machineries, we believe that we can better custody and maintenance than existing condition.

By this reason, we will ask you again for the permission to remove the machineries from Kawasaki Industrial Co., Ltd. Akashi Plant to Fujie Plant, to use them until take away as the reparation.

Yours truly,

KAWASAKI INDUSTRIAL CO., LTD.

Messrs. Hyogo Military government Team

Application for Permit
to remove well-sinking machines

We take the liberty of requesting you to approve our application to remove the well-sinking machines, their accessories and pumping apparatus in the precinct of the Akashi Plant, Kawasaki Aircraft Industries, Ltd., which were laid there for the purpose of supplying water to the Plant.

During the hostilities, the machines were damaged, the well-sinking operation therefore had to be stopped, and the machines left there.

Recently we were ordered to prepare to supply water to the Hamadera Dependents Resident Quarter and, for this purpose, wish to put these machines in use.

We present you herewith enclosed, the list of the names and details of the machines together with Certificate given by Osaka Military government Team, Hamadera and other necessary documents.

Sincerely yours,

Kyoei Well-sinking Co., Ltd.
