ENDS LIFE IN NIAGARA RIVER

HUSBAND'S DESPERATE EFFORTS TO SAVE WIFE

Succeeds in Reaching Body, But it is Swept From Grasp by Current.

(Times Leased Wire.) Niagara Falls, N. Y., June 7.—A thrilling tragedy occurred here yesterday, when the young wife of Aaron Cohen of Buffalo, suddenly stepped from her husband's side and without warning cast herself into the swirling river between the second and third sisters islands within a short distance of the cataract. Cohen instantly plunged into the raging waters and succeeded in catching hold of his wife. Then followed a terrific struggle against the strong current. Finally the man bumped into a tree stump that had become lodged in the stream, and holding the body of his wife in one hand, he held on to the stump with the other and cried for help.

Word was sent to the police, and policeman James Martin hurried to the river bank bringing ropes. Two or three other men joined the officer. Several times the rope was thrown to Cohen, but always it eluded his grasp. After his strength had been utterly exhausted, Cohen succeeded in catching the rope, but was unable to fasten it about his waist. The couple were not more than twenty feet from the shore, but so swift is the current at this point, that the would-be rescuers did not dare to attempt to enter the water to render aid.

Finally, with Cohen holding to the rope, the men began to pull him and his wife ashore. When nearing the shore Cohen lost hold on his wife's body and it was carried down stream. It was later rescued from where it had lodged against a rock. Life was extinct.

When brought to shore, Cohen was unable to speak from exhaustion. After resting for some minutes he managed to grasp out: "My wife is dead. Please go and get her body; she died in my arms."

Cohen says that he believes worry over the fact that she was unable to nurse her infant, caused his wife's desire for death.

WILL NOT INCREASE WAGES OF LUMBERMEN

Reported Agreement Among the Owners of Mills in California.

(Times Leased Wire.) McCloud, Cal., June 7.—Evidence of an agreement among the lumbermen of California affecting 30,000 laborers and one hundred million dollars worth of property was given to the public today as the reason of the McCloud Lumber Company refusing to grant the increase to the strikers. President J. H. Geval has said openly that he could not consider an increase as all the lumber companies had agreed that they would not pay more for their labor.

An unverified statement has been made here to the effect that the lumber "trust" of California is sharing with the McCloud company the loss the latter has sustained during this strike, which amounts to several hundred thousand dollars.

The striking employees will leave tomorrow. Many have made this camp their home for ten years and hold a deep attachment for it.

A few Italians returned to work today under heavy guard. The five leaders under arrest were probably discharged if the settlement is concluded today. They are held under \$1,000 bail each.

The strikebreakers did not arrive as expected and the mills are still shut down.

FORMER SHERIFF SHOT FROM AMBUSH

Further Trouble is Expected Between Rival Factions in Kentucky Town.

(Times Leased Wire.) Jackson, Ky., June 7.—Ed. Callahan, former sheriff of Breathitt county, and a notorious feudist, was shot and probably fatally wounded early today while opening his store.

The assassin was concealed in a coal bunker nearby and made his escape without revealing his identity. Callahan, who is known as "Deacon Ed," has been actively connected with the Deaton feud, which recently broke out afresh and the shooting is supposed to have been a result of that fight. The ex-sheriff is wounded in the side and there is little chance of his recovery. He is a noted character in Breathitt county, having been a close associate of Judge Harless, who was shot and killed by his son, and his wound has created a profound sensation. Further trouble is expected at once and in the event of his death there will probably be an open battle between the contending factions.

RUSSIA WILL ENLARGE NAVY

COUNCIL OF EMPIRE RESTORES MARINE BUDGET

Keels for Two New Battleships Will Be Laid This Month.

(Times Leased Wire.) St. Petersburg, June 7.—Rejected by the Douma, the marine budget calling for an appropriation of \$1,500,000, has been restored by the council of the Empire, the amount to go toward the construction of four new battleships authorized last night. Keels for two of the ships will be laid this month.

In a speech on the subject of new ships, Vice Admiral Bilibidoff, ex-minister of marine, advocated the sale of all old vessels of the navy.

AUTO RACE TO SEATTLE.

(Times Leased Wire.) St. Louis, June 7.—Two Ford cars, entered in the New York-to-Alaska-Yukon-Pacific Exposition automobile race, arrived here today. The driver of one Acme is also here, but his car is several miles out of town being repaired after meeting with a slight accident. It is expected that the Acme will arrive here by noon when all three cars will start for Kansas City.

STATE-OWNED CABLE LINES

J. HENIKER-HEATON CONTINUES CAMPAIGN

Writer in Favor of Lower Rates Within British Empire.

(Times Leased Wire.) London, June 7.—In an article published in the Chronicle by J. Heniker Heaton, the purchase by the state of the cable lines is advocated. Heaton points out that throughout Australia for more than 3,000 miles the charge for a telegram is a penny a word. He argues that there is no reason why the same rate should not be possible between Europe, America and India.

With regard to American cables, he proposes that the British and American governments jointly acquire the property and rights of the existing cable companies at a fair valuation and thereby establish a common state monopoly.

VANCOUVER MAN DROWNED.

(Times Leased Wire.) North Yakima, Wash., June 7.—J. L. Powell, who wandered away from the sanatorium here Saturday, was drowned in the Yakima river, his body being found yesterday by a fisherman. Powell was connected with the advertising department of a Vancouver, B. C., newspaper, and had been here under treatment for nervous trouble. A search for the missing man had been kept up throughout Saturday night.

WOMAN KILLS TWO CHILDREN AND HERSELF

Turns on Gas in Bedroom While Husband is in Jail.

(Times Leased Wire.) St. Louis, June 7.—Her husband in jail on an embezzlement charge, Mrs. Martha Glaeser, yesterday turned on the illuminating gas in her bedroom and lay down with her two children to die. Several hours later, the woman and the children, one a girl 8 years old, and the other a boy of five, were found dead in her bed.

Glaeser later was released and the concern which caused his arrest said there would be no prosecution. Glaeser left the police station without being advised of the tragedy that had befallen his family.

SEEK SAFETY IN FLIGHT.

Residents Along Flooded Rivers in Washington Compelled to Leave Their Homes.

(Times Leased Wire.) Walla Walla, Wash., June 7.—Advises received here this morning from Pasco say that damage to the extent of \$15,000 has already been caused by the Snake and Columbia rivers, which are on a rampage. The greatest damage so far has been to the Pasco Power & Water Company. The flood threatens to destroy the company's \$100,000 pumping plant. The plant is surrounded by water.

Between Kennewick and Richland the lowlands are inundated and residents have been forced to flee their homes. Several thousand dollars damage has already been done to farm property.

Canoe Strikes Rock When Passing Through Five Finger Rapids.

(Times Leased Wire.) White Horse, Y. T., June 7.—Edward Hambridge and Wm. Harvey, both of Prince Rupert, were drowned in the Yukon river on Saturday while attempting to run the Five Finger Rapids in a canoe. The craft struck a jutting rock and was upset and neither had any chance to get ashore.

After a day and night of agony, the 16-year-old girl who was Garrett's step-daughter, succumbed to her injuries yesterday morning.

"CHICAGO DAY" AT A.-Y.-P. EXPOSITION

Fair Will Be Invaded by Railway Passenger Agents To-morrow.

(Times Leased Wire.) Seattle, Wash., June 7.—This is "Chicago Day" at the Alaska-Yukon-Pacific exposition and a large number of Chicagoans are celebrating the occasion in an energetic manner. A delegation of forty business men from the Windy City, who have been making a tour of Pacific northwest cities, paraded through the grounds at 1 o'clock this afternoon and afterward joined their brethren from Chicago in celebrating.

CONDEMNED MURDERER LYNCHED BY MOB

Negro Taken From Prison by Masked Men Who Overpowered Jailer.

(Times Leased Wire.) Tallahassee, Fla., June 7.—Already under sentence of death for the murder of the sheriff of Leon county, Mike Morris, colored, was taken from jail yesterday and lynched by a mob of masked men. The jailer was overpowered and his keys taken from him.

The lynching was caused by the fear that Morris might defeat the gallews by committing suicide.

BODY FOUND IN BOX

Pendleton, Ore., June 7.—The authorities of this county have a murder story to solve in the finding of the corpse of a man jammed into a box. The body was found yesterday near Cold Springs Landing, on the Columbia river. The skull had been crushed in and time had been thrown over the remains. The victim was unusually tall, measuring 6 feet 5 inches. His identity has not been established.

(Times Leased Wire.) Portland, Ore., June 7.—Admiral Sebree, commander of the Pacific coast fleet, who is here by invitation to attend a dinner with Admiral Iijichi of the Japanese navy to-morrow night at the Portland Hotel, is so strongly in favor of a larger navy that he declares the construction of at least one battleship of the Dreadnought type should be started every year.

"I do not advocate an increased navy because we are going to have war with any nation," he said, "but because there will never be a time when nations can stop making their navies stronger. It would be my plan to build for a while three or four Dreadnoughts every year, but if we can't do that, we should start one each year."

The admiral predicts that the only war we will have with Japan will be of a commercial nature, but added that he recently told Admiral Iijichi that they are now going through a great war of banquets and fetes.

FOREST FIRES RAGE IN NEW BRUNSWICK

Unless Rain Soon Falls Loss Will Be Heavy—Large Forces Fight Flames.

(Special to the Times.) Fredericton, N. B., June 7.—The whole central portion of New Brunswick is reported afire with forest fires which, unless rain soon falls, will result in hundreds of thousands of dollars loss.

Many buildings have been burned. Koswick district is blazing and the Koswick Lumber & Land Company, of Houlton, Maine, will be a heavy sufferer. Another big fire is burning at the forks of the Miramichi where the Grand Trunk Pacific crosses. Hundreds of men are fighting the fire.

STATE OFFICIAL WILL BE IMPEACHED

Charges of Extortion to Be Laid Against Insurance Commissioner

(Times Leased Wire.) Spokane, Wash., June 7.—It developed today that the "sliding scale" on fees charged newly organized insurance companies by Insurance Commissioner J. H. Schively will form the basis of the impeachment proceedings instituted against him at the coming special session of the legislature.

George Lee, assistant attorney-general, is authority for this announcement. He said to-day that on Schively's alleged system of charging insurance companies as much as they would give will be based the charges of extortion to be made against him.

From 75 out of about 300 insurance companies with whom Schively conducted business, said Lee, "we have heard that he collected about \$8,000 in extortionate fees. We are informed that when some of them refused to give the fee he requested he took what he could get. A fee of \$25 is required by the state."

YACHTSMAN HAS NARROW ESCAPE

Falls From Boat During Race in San Francisco Harbor.

(Times Leased Wire.) San Francisco, Cal., June 7.—Frank Ellis, salesman for the Bellingham Bay Lumber Company, was rescued from certain death in the waters of San Francisco harbor yesterday through the heroism of Bert Crowley and Wm. Byrne, his fellow members in the Alhambra Cottillion Club. Ellis went aloft on the yacht Occident, which was racing with the McCord. The bay was choppy and losing his balance he fell over board and was swept beyond reach of his boat mates.

Byrne, who was on the McCord and Crowley, who was following the racers in a launch, promptly dived over the sides of their craft and succeeded in keeping Ellis afloat until they were rescued.

TWO DROWNED AT VANCOUVER

LOST LIVES BY THE CAPSIZING OF CANOE

Bodies of Frank Sleath and Joseph Sanders Washed Ashore.

(Times Leased Wire.) Vancouver, B. C., June 7.—Two bodies washed ashore near the wireless station at Point Grey and a canoe left high and dry by the tide, but full of water, reveals a tragedy of a Sunday outing here of which there were no witnesses.

Frank Sleath, a local youth, aged 22, living on Sixth avenue, and Joseph Sanders, an Englishman, were the victims. They had been to Pitt Meadows to bring back the canoe which they had used in the shooting season. The swell from some passing steamer must have caught the frail craft and swamped it, the heavy wind probably driving it ashore.

The bodies were found about fifty feet apart and the canoe between them. Both young fellows have hosts of friends here and the tragedy has cast great gloom over a large circle.

IMPERIAL PRESS CONFERENCE OPENS

FIRST SESSION HELD AT FOREIGN OFFICE

Delegates Will Be Guests of the Prince of Wales To-morrow.

(Times Leased Wire.) London, June 7.—Sixty delegates representing the most important British colonial newspapers throughout the world were present to-day when the Imperial Press conference opened at the foreign office. The conference will continue during the week. Colonial Secretary the Earl of Crewe, Postmaster-General Buxton, former Chancellor of the Exchequer Austen Chamberlain, Minister of the Navy McKenna, Foreign Minister Sir Edward Grey, War Minister Haldane and former Premier Balfour presiding at successive sessions.

Mindful of the offence given to the colonials by the lack of official sympathy shown the colonial premiers, when they met here some time ago, the administration has taken special pains to make the conference an unqualified success, and to give the delegates the most enjoyable time possible. Apart from their labors Imperial press reciprocity, the editors will be lucky if they survive the whirl of entertainments arranged for their benefit.

Lord Bureham will dine them to-night at his mansion at Hall Barn. They will lunch Tuesday with members of parliament at Westminster, whence they will hurry to Marlborough House for a garden party given in their honor by the Prince of Wales. The government's official dinner is set for Wednesday. Lord Crewe will preside. The Lord Mayor of London, former Premier Balfour, the Duke and Duchess of Sutherland, Lord Northcliffe, the principal owner of the Times and the Harmsworth publications; C. Arthur Pearson, the owner of the Express and Standard, and Lord Londale, have also arranged banquets, luncheons or other entertainments for the visitors. The King, too, will receive them, War Minister Haldane will take them to Admiralty to witness a big military demonstration and Naval Secretary McKenna will escort them to Portsmouth for a naval review.

Having finished with London the delegates will make the round of the principal provincial cities.

SIXTEEN MILLIONS FOR ROAD IMPROVEMENTS

Northern Pacific to Spend Large Sum in N. Dakota and Montana.

(Times Leased Wire.) St. Paul, Minn., June 7.—According to announcements made to-day by local contractors, the Northern Pacific railway will expend in the next two years, \$16,000,000 in reducing grades and perfecting branch lines of road in the North Dakota and Montana. The betterment work is said to be necessitated because of the active competition of the Milwaukee's Pacific coast extension in the sections mentioned. Already \$10,000,000 has been expended at several points.

One of the projects planned is the re-grading and shortening of the main line between Mandan, N. D. and Glendive, Mont., a distance of 207 miles. Many steep grades will be eliminated.

TWENTY PERSONS LOSE THEIR LIVES

WHARF DEMOLISHED BY EXCURSION STEAMER

Majority of the Victims Women and Little Children.

(Times Leased Wire.) New Orleans, June 7.—Twenty persons lost their lives when a pier at Mandeville, a resort on the north shore of Lake Pontchartrain, collapsed last night, according to advices received here to-day. Most of the victims of the disaster were women and children. Ten bodies have been recovered, and the lake is being dragged in an effort to locate the rest of the victims.

Four hundred excursionists were on the pier when it collapsed. The wharf was a frail structure, and was weakened by its heavy burden.

When the steamer Margaret, which was to return the excursionists to New Orleans, bumped into the piling, the pier fell to pieces.

Of the 400 persons on the wharf, more than 100 were thrown into the eight feet of water. Work of rescue began immediately. Life boats were lowered from the Margaret and life-preservers thrown overboard to the persons foundering in the water. Row boats which were hastily sent from shore aided in the work of rescue. Seventy-five persons were picked up, many of them half drowned.

Most of the men had little difficulty in escaping, and the victims were mostly helpless women and little children. Fifteen persons were seriously injured and forty slightly hurt.

A special grand jury was called today to fix the responsibility for the accident. The wharf was the property of the New Orleans & St. Tammany Railroad Company.

It is considered possible that the owners of the steamer, which caused the collapse of the wharf, will be indicted as witnesses of the tragedy declare the vessel was coming at full speed and struck the piling with great force.

THE TALE OF A RACE

The horses are parading in the paddock. Let's go and have a look at them. Ah! There's Old Combine, ridden by Squeezer. He has been a great horse in his time, in fact he holds his head up yet and in his prime he used to make them all go, and he would win out, thanks to the tactics of his jockey. Then look over there! That's Special. He is a good looking horse, but he is mighty deceiving. He looks well, goes good to-day, but to-morrow you get stung; and, over there, yes, it's him—you would think that they would be ashamed to run him—that's Bait! He's a bad one, a regular Outlaw, and besides being vicious, he is used up. But what his name implies, I suppose they hope to catch. Ah, but look at the Bay just coming in the gate; it's the Colt Anti-Combine, ridden by Public Opinion. Now, there is a horse! Look at his head, its withers, heart, girth, bone and chest; lots of room for its lungs which proclaim its staying powers. (Combine, Old Boy, you are in danger.) It's about a year ago that the colt came to the front, but its supporters were few, for, although a likely colt, it had never been put thoroughly on its mettle. But the Colt since then has taken the Old Horse's measure more than once and to-day is to see who is who. Yes! there is Tony, Snaps, Independence, and a lot more good ones. But listen! the bell is ringing, they are off to the starting post, so come, let's watch the Race.

WHO WILL WIN? THAT'S THE POINT.

R. N. McNow is Set Free, Having Repaid Money He Received.

Mr. Justice Morrison held an adjourned sitting of the assize court this morning to dispose of the case of Robert N. McNow, who was convicted at the sitting of the court in May of obtaining money by false pretences, on cheques.

R. C. Lowe, who defended the young fellow, pointed out that he had been in jail since November last, that he had made restitution in full to the three men who had cashed cheques for him and that as he had learned a lesson by his experience there was no end to be gained by inflicting further imprisonment upon him.

His lordship, in consideration of these facts and the jury's recommendation to mercy, discharged McNow with a few kindly words of advice.

The loss to the Austin church is estimated at \$75,000 covered by insurance.

Mr. Justice Morrison held an adjourned sitting of the assize court this morning to dispose of the case of Robert N. McNow, who was convicted at the sitting of the court in May of obtaining money by false pretences, on cheques.

R. C. Lowe, who defended the young fellow, pointed out that he had been in jail since November last, that he had made restitution in full to the three men who had cashed cheques for him and that as he had learned a lesson by his experience there was no end to be gained by inflicting further imprisonment upon him.

His lordship, in consideration of these facts and the jury's recommendation to mercy, discharged McNow with a few kindly words of advice.

FIRE IN MINISTER'S HOUSE.

FIREBUG DESTROYS CHURCH.

Chicago, June 7.—The Austin Methodist Episcopal church, Ohio street and Central avenue, was destroyed early yesterday by a fire believed to have been of incendiary origin. This theory is strengthened by the fact that the Holiness church, only a short distance from the burned building, was damaged by a fire just before the destruction of the Methodist church. The loss to the Austin church is estimated at \$75,000 covered by insurance.

KAISER'S LETTERS TO ABDUL HAMID

Constantinople Desires Correspondence.

(Times Leased Wire.)
Constantinople, June 7.—Complying with the personal request of German Ambassador Von Boberstein, Grand Vizier Hilmi Pasha to-day asked the Young Turks investigating committee to turn over to him as soon as possible the letters written by Kaiser Wilhelm to Abdul Hamid, when he was on the throne of the Ottoman Empire.

The German ambassador demanded that Hilmi give him the letters. This the grand vizier declared was impossible to do as they had not yet been placed in possession of the government and their contents was not even known to him officially. He said, however, that they would be returned as soon as they were released by the committee.

The letters, which were found in Yildiz Kiosk, when the palace was captured by the Young Turks last April, are reported to prove the Kaiser's support of Abdul's despotism.

WARM WEATHER CAUSES FLOOD IN SKEENA

Further up the river two cabins occupied by a G. T. P. survey party were carried away, and the men had a fight for their lives, one being pulled from the river thoroughly exhausted. Further damage is feared.

Prevented From Jumping Overboard, He Sets Fire to Bed Clothing.

(Times Leased Wire.)
Skagway, Alaska, June 7.—While temporarily insane from the use of some drug, Wm. Ellis, of Vancouver, B. C., last night attempted to leap overboard from the steamer Cottage City. He was overcome after a desperate struggle and locked in a stateroom.

Later Ellis set fire to the bed clothing. The door was broken down and Ellis, armed with a large water bottle, made a vicious attack on the steamer's officers.

He was finally overcome and put in irons. Ellis was later turned over to the United States marshal at Juneau.

WELCOMED TO MOTHER COUNTRY
BANQUET TO PRESS DELEGATES IN LONDON

Lord Rosebery Speaks—Says Present Situation in Europe is Ominous.

London, June 7.—The most representative gathering of British newspapermen ever held occurred on Saturday evening at the Garden Club at Shepherd's Bush, when 1,000 journalists of the United Kingdom gave a banquet in honor of the 57 colonial delegates to the Imperial press congress. While the Londoners predominated, every section of the British Isles sent a delegate to welcome the colonial visitors, who have come to London from all corners of the Empire.

The colonial visitors, riveting their attention on cable news and press inter-communication, will make a strong plea for the reduction of cable rates and the laying of a government cable across the Atlantic, as suggested by Mr. Lemieux, the postmaster-general of Canada, thus linking up the United Kingdom by an "all red line." A movement will be started also for the establishment and the interchange of news between the colonies and England.

Rosebery Speaks.
Lord Burnham presided at Saturday evening's banquet. Lord Rosebery delivered the speech of welcome to the pressmen, and the reply was made by Sir Hugh Graham, of Montreal. In his address, Lord Rosebery, referring to the forthcoming visit to the fleet at Spithead by the delegates, characterized the present situation in Europe as ominous. There was an absence of questions which ordinarily might be expected to lead to war, he said, yet the threatening and overpowering preparations for war were unprecedented in history. He was confident of the power of Britain to meet any reasonable conjunction of powers, but when he saw this bursting out of navies he was uneasy regarding the outcome. Lord Rosebery asked the delegates to carry the message that responsibility rests on every man of the Empire, and to tell the colonies how Europe is arming and the greatness of the pressure on this little island.

Sir H. Graham, proprietor of the Montreal Star, responding to Lord Rosebery's toast, "Our Guests," said that the colonial press was responsible for the wave of sentiment which is sweeping the outlying portions of the Empire and marks an important era in the attitude of the people towards Imperial interests. Canada, he said, for long years had sponged on the Mother Country for protection, and was too mean to offer to pay its share, but a change was impending. Inspired by the pluck of New Zealand and Australia, which were always in the van, Canada was now sending delegates to discuss the question of the defence of Great Britain. If wise statesmanship governed the delegates in the discussion, it meant a new and important step in the safeguarding of Imperial interests.

HENEY MAY RUN FOR OFFICE IN BAY CITY

Likely to Enter Fight for Office of District Attorney.

San Francisco, Cal., June 7.—Despite his assertions that he will not be a candidate for the office of district attorney of San Francisco, Francis J. Heney will enter the fight if the men who are nominated for that office are not up to the standards of honesty and efficiency.

When informed that he had been endorsed by the San Francisco Democratic Club, and requested that he permit his name to be offered for the nomination, Heney said:

"Recent developments in the matter of bribing jurors and fixing witnesses in the Ruef and Calhoun cases, coming to my notice in the performance of my duties, have caused me to reflect upon my announced determination not to run for district attorney at the coming election."

"I feel that after what I have done during the graft prosecutions, I would not be doing my duty were I to sit back and permit the election of a dishonest man. I cannot say at this time that I will accept a nomination from any party. My decision will rest solely upon whether the right man for the office is put up."

"The question of my success at the polls does not enter into this a particle. If I run the issue will be before the people clearly. Then, if they don't want the graft prosecution to continue it will be up to them."

Henev's friends and supporters of the prosecution see in this statement of the prosecutor the first signs of weakening from the stand he took when he announced that under no consideration would he become a candidate for the office of district attorney.

except an abstraction. Yet we cannot ignore the fact that public opinion in both countries is inflamed—and when the public mind is in a state of inflammation a very trifling incident, comparatively, may precipitate a conflagration.

It is therefore the state of mind in Great Britain and Germany, not the fact that there is no tangible cause for a quarrel, that causes apprehension. Our dispatches of Saturday, in which the words of German naval men were quoted, are characterized as sensational. We are told they ought to be read with a few grains of salt.

We are told by the Colonel that Lord Rosebery in his address to an assembly of newspaper men representing practically the whole of the British Empire, characterized the present situation in Europe as ominous.

The situation in brief is that Germany is determined to become all-powerful upon the water as she is all-powerful upon the land. She is ambitious to dominate the world in all things. She regards Britain's assumed right to control the seas as presumptuous and arrogant.

We sincerely trust, however, and we believe the great majority of people in all parts of the world will join in the prayer, that the present gust of passion may pass away, that reason will resume her sway in both nations, and that the British people and the German people may remain "ever the best of friends."

THE VIRTUE OF PATIENCE

Judging from the reams of correspondence pouring into this office, a considerable section of the public must be getting impatient at what it believes to be the slow progress being made in the reparation of the Victoria water works system.

Such a war has been inconceivable to us in this part of the world because we have no real conception of the state of public feeling in the hearts of the two Empires. At this distance there appears to be no real cause of quarrel consistent with the consequences which would surely follow a resort to arms.

The United States Senate has "got over" with the newspapers. The press for the most part has been denouncing in vigorous terms the dishonesty of the Republican party in professing previous to the presidential election that it was in favor of tariff reform.

We hope the conflict between Great Britain and Germany may never become other than a test of financial resources. Because, you see, the Britains Beyond the Seas are going to take a hand in the game, and such a combination ought to convince even His Majesty the Kaiser that the elements against him are quite too powerful.

What Other People Think

To the Editor:—Under the above heading the Colonist contains an editorial in its issue of Saturday last which serves to show how profound is the ignorance of the writer of that article regarding the true lawlessness of the woman suffrage agitation in England.

who understand the true inwardness of it can see more evidence of "cleverness" in the editorial in question than in the actions of the leaders of that movement in the Old Country. If these women are mad there is certainly method in their madness.

Are present methods accomplishing anything? Well, yes, most assuredly. It is safe to say that since these tactics have prevailed the suffrage movement has certainly made more headway than it has done during the previous third of a century.

However much we may regret the necessity for these tactics, common decency at least should prevent us men from casting reflections upon the suffrage leaders. They are not one-tenth part as violent as the men were when fighting the same battle.

LOCAL CLERGY PROTEST AGAINST THE RACES

Ministerial Association Passes Resolution Condemning Sixty Day Meet.

At the regular monthly meeting of the Ministerial Association held this morning, R. W. Clark, representing the Society of Friends, was present and presented a resolution of his society against the race track evil.

We, the members of the Ministerial Association, in monthly meeting assembled, unanimously record our protest against the establishment of the sixty-day race meeting of the Victoria Country Club commencing June 5th as inimical to the best interests of the city of Victoria.

We deplore, as all Christians must do, the grave dangers arising from betting and other malpractices engendered by the racing fraternity. These have been so conclusively demonstrated in the Pacific states, and are so well known that it behoves all who have the true welfare and good name of British Columbia at heart to unite in determined opposition to this most insidious danger.

A sitting of the full court opened here this morning. Hon. Justices Irving, Morrison and Clement were on the bench. In the absence through illness of Chief Justice Hunter the court was unable to fix dates for hearing the cases on the list and adjourned to half-past two after Mr. Justice Clement had read judgment in a small Vancouver case.

PANTAGES THEATRE

Miss Blake Most Beautiful Woman in Vaudeville Here This Week.

Miss Mary Blake appearing at the Pantages theatre this week with the Gladish-Blake company in the delightful comedy, "A Jack and a Queen," is the recognized vaudeville beauty queen, having won the recent stage beauty contest for which \$1,000 was the reward. This fact, coupled with the big reputation the play has gained as a fourth prover, makes this feature doubly interesting.

The big sensational feature of the new show is the McDonald trio in which two young ladies and a man appear in one of the most daring cycling acts in the business.

The Australian Don, direct from Melbourne, are juvenile specialty entertainers who are to introduce the latest song hits of their native land.

Charlie Sanders, "the man of the hour," is a real comedian.

James Dixon in a new song and the latest moving pictures complete the list.

—The police are keeping a watchful eye on all who enter the city with a view to returning across the Sound all undesirable. Seattle at the present time is full of bad characters, drawn there by the fair. Many are given the order to get out, and make an attempt to land in Victoria. Saturday afternoon fifteen were returned at the boat landing here. Four were picked up at the race course and ordered back, a chance which they readily took.

—The death occurred on Saturday evening at the family residence, Carlisle, Craigflower road, of Mrs. Annie Wilson, aged 54 years. Deceased was born in Germany and has been a resident of this city for the past three years, coming here from San Francisco. She is survived by her husband, Louis Wilson, and a sister, Mrs. Koesche. The funeral will take place from the family residence to-morrow afternoon at 2 o'clock.

COUNCIL TO TACKLE PARK BOARD QUESTION

Will Likely Appoint a Committee From First of Next Year.

It is probable that some steps will be taken by the city council to-night in regard to the parks board, either towards filling the vacancies created by the resignations of the four members appointed from outside the council or abolishing the body altogether. Opinion among aldermen seems to be in favor of placing the work under the charge of a committee of council, the same as all other branches of civic work. At the same time some of the aldermen think it would be as well to fill the vacancies for the balance of the year and start in at the beginning of the next civic year with a parks committee.

FOUND VERDICT OF ACCIDENTAL DEATH

Coroner's Jury Hears Evidence as to Drowning of Young Briggs.

After hearing all the evidence available, a coroner's jury on Saturday afternoon arrived at the verdict that the death of Albert T. Briggs was the result of accidental drowning. The jurors were: Walter Walker (foreman), Captain Edmund Parsons, Murray Baker, Walter Harland, Thomas McGregor and Albert J. Maynard.

Dr. Baity described the findings of the post mortem examination. A bruise on the right ear, caused before death, while not sufficient to have caused death might have rendered the young man unconscious.

John Johnson, engineer of the tug Butte, told of finding the body. The wharf, he said, was in good repair, with nothing about it to give rise to an accident.

Hugh Caven, engineer of the tug Beaver, said he had heard a noise as if of something falling against the tug about half-past one on Thursday afternoon, but this was nothing unusual. Half an hour later he came on deck and found lying in the stern a cap which had not been there when he had been up before. He picked it up and remarked to the captain that it looked as if some one had fallen overboard, but the captain only laughed at him.

Ivan Sutherland and Fred Walker, friends of the dead lad, had seen him a few minutes before the time of his death. His wheel appeared to be in good order.

P. Manson, who found the wheel, as told in Saturday's Times, described its position and appearance.

A theory advanced was that Briggs, who was known to have on other occasions sat on his wheel at the wharf edge, with one foot on the guard rail, and shoved himself along that way, was doing the same thing when he met his death and toppled over. Against this is the fact that the bicycle would not have been in such shape if it had just fallen over the edge. One thing which seems quite certain is that the lad struck his head and was rendered unconscious when he fell, being thus unable to cry out or to save himself by swimming.

The First Presbyterian Sunday school will hold its annual picnic this year at Gilstream.

MORE STREET WORKS TO GO ON WAITING LIST

Question of Letting Work by Contract Likely to Become Live One.

In addition to the many street works which have been ordered, twenty-eight out of forty of which have not been touched yet, with the year well-nigh half gone, two more will be ordered by the city council to-night. One of these is the grading and macadamizing of Quadra street, from its southern end at Blanchard street to Hillside avenue. The permanent sidewalks will be completed from Pandora avenue northward on the east side and from Caledonia avenue on the west side. The other work is the laying of a permanent sidewalk on the west side of Moss street between Fort street and Rockland avenue.

The great hindrance to progress with these works is that the city engineer has not accommodation for the staff necessary to prepare the grades and plans for all the works that have been ordered. Steps will be taken shortly to overcome this difficulty to some extent by enlarging the engineer's office.

Several aldermen are in favor of letting some of the work by contract in order to get it done promptly. They say that even if the engineer was in position to turn out the plans there is no available labor to be obtained by the city. This matter is likely to be discussed by the council and streets committee in the near future.

Another matter to come before council to-night is the purchase, for \$25,000 of a piece of land at the corner of Russell and Langford streets, which runs into Russell street, like a gore, in order to widen the street.

MONVINA WINS IN OPENING HANDICAP

Track Records are Lowered on First Day of Races—Arrangements for the Meet Perfectly Carried Out.

Monvina started the books and left the wise odds thinking when she won the opening handicap at the Willows Saturday, carrying away the big purse and clipping 2-5 off the track record. The race was the big one of the opening day and drew the largest field with twelve starters. Everybody's favorite, Barney Oldfield, was scratched and the famous Edwin T. Fryer failed to get away, running in the last two positions all the way.

could not stay to the finish. Firmfoot ran third. Belle of Iroquois went over six furlongs in a hurry and showed heels to the others all the way, making record time. The races throughout were run in perfect order and under management that showed capacity. Starter Weber gave the horses the best they could have had for a start, the longest any race was at the post being two minutes for the sixth. The track was slow, making the record times all the better. Many of the horses showed they were unaccustomed to the half-mile track, and southern form was upset in many cases on that account. Seven books were doing business, six of them being independent, and the seventh a club book. The latter came out on the right side of the ledger, while the others all claim they were losers on the day's work. Three long shots were backed—cleaned out considerable money, while the backing of the favorites, except in the handicap, was light. The first day of the meeting was successful beyond the hopes of the management, 4,300 odd being the official figures for those in attendance. The result of the day's races was as follows:

JOHN VIRTUE, One of the Stewards of the Race Meet.

Monvina started the books and left the wise odds thinking when she won the opening handicap at the Willows Saturday, carrying away the big purse and clipping 2-5 off the track record. The race was the big one of the opening day and drew the largest field with twelve starters. Everybody's favorite, Barney Oldfield, was scratched and the famous Edwin T. Fryer failed to get away, running in the last two positions all the way.

Humbrecht's mare, ridden by King, got away well, third from the rails, with Albion H. leading and Silver Knight second. The horse was strung over fifteen lengths the first time past with Maid of Gotham tying in the bunch. At the back of the stand Albion H. was half a length behind Monvina and raced round the turn to beat the mare. Monvina, however, held ground and was well within herself when she reached home half a length to the good. The maid moved up going round and had no trouble running into third.

Victorians Win Many Events at Duncan on Saturday.

E. Valo of this city won the hundred yards at Duncan Saturday and Frank Baylis won the five mile event, winning the magnificent trophy. The time given for the two events is remarkably fast. It is said however that the track was incorrectly measured which is the only solution of the remarkable times. The other Victorian runners in the meeting were Coleman and Beasley. T. Coleman was second in the five mile run and H. Beasley a young school athlete won the 440 yards. The results were as follows: 100 Yards Hurdles—1st, L. Hillier, Vancouver Y.M.C.A.; 2nd, Brooke Valo, Victoria Y.M.C.A. High jump—1st, L. O. Hillier, Vancouver Y.M.C.A.; 2nd, Palmer, unattached, 5 feet 3 inches. 440 Yards Run—1st, H. REGGIE WALKER WILL CROSS ATLANTIC

South African Sprinter to Compete in the United States.

London, June 7.—Reggie Walker, the crack South African sprinter, who defeated the fastest 100 metre men of the United States and Europe during the London Olympic games, is indulging in a series of matches with local cracker preparatory to his invasion of the United States. Walker is in excellent trim, and has expressed his desire for another meeting with Jimmie Recker, of the University of Virginia, whom he defeated in London. Walker appears confident of repeating his victory over the speedy American, and would settle once and for all the difference of opinion that exists on either side of the Atlantic regarding the abilities of the two cracker. Walker said that before leaving South Africa he ran 100 yards in 9 2-5 seconds on three occasions. A. E. Postle, an Australian sprinter, is here. It is possible that he will accompany Walker to America to meet the best men of the States. EDMONTON'S PARK. Edmonton, June 7.—The provincial government has bought for \$50,000 twenty acres next the government building to be used as a track.

SURREY FIRST TEAM TO BEAT AUSTRALIA

Antipodean Cricketers Five Runs Short at Finish.

It is Surrey's distinction to be the first team to beat the Australians, and the distinction is great because colonial tourists have rarely failed against the country eleven in the past. The dramatic finish, and the fact that the victory was only gained by five runs, will help to make the contest always memorable, says an Old Country exchange in describing the match. In persevering with and accomplishing a task which for a long time seemed almost hopeless, the Surrey eleven deserved very high praise, but the players themselves would probably be the first to admit that the result of the struggle was as much a surprise to them as to the 5,000 people who witnessed the exciting finish. Despite Hayward's masterly performance in carrying his bat through the innings, the Australians had no more than 23 to make to win, and the wicket being in capital condition, this number should have been hit off without serious trouble. Bardsley, Noble and Hartigan were out for 70, but Armstrong and Ranford stayed together for more than an hour, and at 3.30 the success of the colonials appeared a foregone conclusion, only 39 runs being required, with six wickets to fall. The dismissal of Ranford and Trumper, at this point, invested the game with fresh interest, especially as McAlister and Macartney, who were next together batted with a pronounced lack of confidence. Still, by 4 o'clock the Australians were within 27 of victory, with four wickets in hand.

Then, however, Macartney, Carter, and Cotter were sent back into quick succession, and Whitty joined McAlister, with 19 more runs wanted. Speedily the score advanced from 194 to 207, when Crawford took off Rushby, who had had the chief share in disposing of the Australians in favor of Lees. The change settled matters. McAlister, with a strange lack of judgment for a batsman of his long experience, reaching out at and missing the first two balls—both pitched rather short and well outside the off stump—and putting the third up in the slips. The scores were as follows:

THE RING. NELSON'S NEW VENTURE.

Livermore, Cal., June 7.—Battling Nelson arrived in Livermore to-day and made preparations to plunge heavily on a new venture. He has completed arrangements to convert his property here into a "healthy hog home" and Mr. Pope, of San Francisco, has been engaged to manage the enterprise. The hog ranch scheme has been under the Battler's consideration for some time. "I will convert my alfalfa patch into a hog ranch," he said to-day, "and I believe it will be a go. I have engaged Mr. Pope, who is an experienced rancher, to take charge of the place and figure that there will be a lot of money in it." Nelson expects to return to San Francisco, and will leave for Oklahoma City to-morrow morning, going by way of Los Angeles and New Mexico. He will arrive in Oklahoma ten days before his battle with Jack Clifford.

NATIONAL LEAGUE PRESIDENCY. Cincinnati, O., June 7.—In all probability Harry C. Pullman will remain the active performance of the duties of his office as president of the National baseball league in ten days or a fortnight. August Herrmann, of the Cincinnati club, and chairman of the national commission, said Saturday: "I understand the plan is for Mr. Pullman to visit all the baseball owners in the next ten days, while the clubs are in the west, and show them that he is fully recuperated in health. I think he will be back in the president's chair within a week or two." The sentiment in the meeting of the magnates Friday night was that if Mr. Pullman was able in body and mind to resume his official duties he should be asked to do so. John T. Brush, of New York, was, as usual, openly opposed to recalling Pullman, and was backed in this, it is said, by Charles W. Murphy, of Chicago, but against these two there were six votes in favor of Pullman. HALTREN RELEASED. Oakland, June 7.—George Van Haltren, who has been playing professional baseball since 1883 without interruption, has recently been cast into the discard. He received his release from the Oakland Coast League team which he captained and managed for several years. (Associated Press on June 7.)

ROYAL RETURNS FROM NORTHERN WATERS

Spring Salmon Catch Reported Larger Than Usual on Skeena River.

The steamer Princess Royal which arrived from Skagway and way ports yesterday morning reports that there is a large run this year of spring salmon in the Skeena river.

A number of passengers came down on the steamer that connected with her at Port Eastington, having arrived down the Skeena from Hazelton after changing at the canyon. They report that the run was made in very fast time.

The steamer brought down 51 passengers in all, a large number of whom were from British Columbia ports. She will on Wednesday and Thursday take the triangular run in place of the two steamers of those routes, giving them each a lie over day. She will leave for the North again on Friday next.

The Trades and Labor Council will hold a mass meeting at Labor Hall on the evening of Tuesday, June 8th, at 8 o'clock.

BRAVE WOMAN KEPT UP COURAGE OF MEN TO VISIT FAIR

Mrs. Cameron, Heroine of Shipwreck, Has Reached San Francisco.

(Times Leased Wire.)

San Francisco, June 7.—Wrecked and snow-bound on one of the desolate, Aleutian Islands, Mrs. J. S. Cameron, bride of the first mate of the ship Columbia, cheered and kept from despair the crew and passengers of the ill-fated vessel by singing the songs she learned when a girl in Melbourne.

Seventy-nine members of the Columbia's crew, accompanied by mate and his father, Capt. J. H. Cameron, arrived here late yesterday on the Pacific Coast steamer Governor.

Mrs. Cameron, who battles the part she played in keeping up the courage of the suffering men during a fearful night of exposure in the snow and ice on the beach, is the heroine of every man of the crew.

Bound for the salmon canneries on Bristol Bay, the Columbia was driven ashore near Unimak Pass on the night of April 23th. Mrs. Cameron and her husband were on their honeymoon, and she was the only woman aboard the vessel.

The men of the crew and the passengers were taken ashore in the breeches buoys. Their garments were soaked by spray and frozen to their bodies. They spent a terrible night wandering aimlessly on the beach.

Cheerful and hopeful, despite the fearful hardships she had undergone, the bride went among the men, cheering them by song, and urging them on in their search for shelter.

After hours of tramping through a blinding snowstorm, they stumbled upon a deserted shack, where they huddled until morning came. They then tramped over the snow to the Scotch Cap light-house, 8 miles away.

Captain J. W. Troup, superintendent of the C. P. R. Coast service, is home from a short visit to Seattle, where he went on business connected with the vessel.

Speaking of the conditions of travel on the Coast, the captain said that it was improving very materially. The opening of the Alaska-Yukon exhibition at Seattle and the general development of the Coast, as well as the regular tourist movement at this time of year, are all having the effect of stimulating travel.

"The people of Seattle," continued the captain, are immensely interested in the exhibition. They talk of nothing else and visit it as often as possible. The natural beauties of the exhibition have been unspolled by the improvements, for a wonder. It is an extremely pretty place, and of course everyone will see there. So far the visitors have been chiefly Washington state people, but the strangers will begin to arrive soon."

SEALING CATCHES IN COAST HUNTING Skins Shipped Here From the Schooner Thomas F. Bayard.

Steamer Princess Royal brought 12 barrels of sealskins from the north yesterday. These were taken from the schooner Thomas F. Bayard, being the amount of her catch before she left for the other grounds. The barrels contained 407 skins.

The steamer Vado, when she arrived from the north brought a consignment of 269 skins which had been landed by the schooner Jesse before she left for the other grounds. This with the ninety taken from the early part of the season of 259 skins, which is not a bad beginning.

It is probable that William Reuter, who is at present on the steamer Orion catching whales, may secure an Indian crew while on the West Coast, and take out one of the other company's sealers, arrangements for the charter of which have been partly made.

WHARF BEING BUILT AT ALERT BAY Steelheads Running in Northern Waters—Much Travel to and From North.

Eight passengers going north and eighty-five coming south is the record of the steamer Queen City, which arrived from Rivers Inlet and way ports this morning. Many of these were loggers or fishery employees.

The steamer brought word of improvements being made at Alert Bay. A third wharf is now being built between the two old ones for the special accommodation of Cook's new store. The new business house is a large one and will be a great improvement to the place.

The steamer brought D. Groves, manager of the Kildala Packing Co. He says that so far there has been no sign of any salmon but the springs and a few steelheads. These are being dry salted. They do not expect any particularly large run in the north, probably not as large as usual. This is the big fish year for the Fraser river, but not for Northern British Columbia.

The steamer Melville Dollar will leave in a few days for the scene of the wreck of the Pacific Mail steamer Indiana, which has been abandoned to the underwriters who have paid a total loss on her. She will be stripped by the Robert Dollar Company.

Five carloads of barrels have been brought over from Vancouver since Saturday last for the Pacific Whaling Co. These are overhauled at the shop on the end of the C.P.R. wharf before being sent to the West Coast.

COMMERCIAL MEN TO VISIT FAIR AT WILLOWS COURSE

Steamer Makura Chartered for Occasion—Will Remain Three Days.

The steamer Makura, of the Australian line, is making a special trip to the Seattle fair, under the auspices of the Commercial Travellers of British Columbia. The steamer will stay in Seattle for three days and the visitors will use her as a hotel during the time she is there.

It is understood, too, that she will call at Victoria on the way from Vancouver and take such passengers as may offer from here.

The Makura is the finest of the fleet of the Union Steamship Co. of Australia, and is said by many to be finer fitted than any vessel which comes into this port. She leaves on Thursday and will remain until Saturday night.

MINNESOTA TO DOCK. Tallshaft of Steamer Was Secured by Heavy Chains. The big Hill liner Minnesota, which lost a tall shaft on her way across the ocean from the Orient, arrived at Seattle Saturday. The cause of the mishap is unknown, but is thought to be a flaw in the shaft. Prompt action on the part of the engineer prevented any trouble resulting from the break, although the part of the shaft attached to the propeller slipped out sixteen feet and would have dropped had it not been at once secured with heavy chains.

The vessel will be repaired at once in the Bjornstern dockyard. QUICK BUILDING. Steamers For Pacific Will Be Ready Early in Autumn.

Records for quick work will be made in the building of the new steamships at Newport News for the San Francisco and Portland Steamship Company, as one of the big liners will be ready to launch in October and her running mate in November. Then they will have their machinery installed, which may take another month. It is declared that they will be around to the Pacific and ready to go in service between Portland and San Francisco in January.

SHIP SPRINGBANK TO LOAD. Ship Will Take Place of Ellsland and Will Load at Once.

Ship Springbank which arrived in port a few days ago will go over to Vancouver to load in place of the Ellsland, and the latter ship will come to the Royal Roads to await orders. The Springbank is in better shape for the voyage than the other craft, and will be able to commence loading at once. Both vessels are the property of Andrew Weir & Co.

NOTICE TO MARINERS. Capt. Geo. Aukers, of the U. S. Army Transport Dix, reports June 3, passed a large stump of a tree about 40 ft. long and 6 ft. in diameter, latitude 45 51 degrees N. and longitude 130.04 degree W. which is dangerous to navigation.

Townsend made no defence of the charge against him. Several young women testified that they had paid him various sums for promised positions. Mary Crampton stating that she had given Townsend \$50 for a place as stenographer which she did not get.

Townsend represented himself here as the agent of a California mining company, but the affairs of that concern were in no way connected with his employment scheme.

TWO KILLED IN SALOON. San Francisco, June 7.—Victor Groth, a blacksmith 27 years of age, and Dennis Shay, a boiler-maker, aged 35, were killed and Charles Haynes, a street-lane, wounded, by Charles F. Fox in a saloon at First and Harrison streets. Shay lived long enough to identify Fox as the man who did the shooting and almost immediately expired.

The three victims were in the saloon when Fox entered and asked for a drink. After receiving it he declared that he had no money with which to pay for it. Angered because of some alleged remark made by the bartender, Fox immediately began shooting. He is under arrest, charged with murder.

GOLF CHAMPIONSHIPS OF PROVINCE DECIDED H. Combe Won Bostock Cup and Miss Pooley the Flumerfelt Cup.

In the annual competition for the golf championships of British Columbia Harvey Combe, the retiring and popular secretary of the Victoria Golf Club, won the men's championship and the Bostock cup for the sixth year. His antagonist in the final round of thirty-six holes was C. S. Birch, from whom he won by 11 up and 3 to play.

The ladies' championship and the Flumerfelt cup was won by Miss Violet Pooley, but only after a very closely-contested round with Miss Nora Combe, her win being by but 3 up.

The competitions went on all last week and some very keen rounds were played over the Oak Bay links. Great interest was taken in the competitions, which were watched by many players. The A. Y. P. golf tournament will open on the links of the Seattle Golf and Country Club on Monday next at 9 a. m. Entries can be made up to 5 p. m. on Sunday, June 13th, and should be forwarded to E. Magill, secretary of the club, R. F. D., No. 2, Seattle. The men's championship will begin on Monday with a qualifying round of thirty-six holes, and will continue on June 15th, 17th and 19th.

A programme of the event has been posted up on the notice board at the Oak Bay links.

To Miss Carrie Jackson was awarded the second, a pretty Japanese stamp holder, while Miss Eleanor Carroll received a box of choice bon-bons as the consolation prize. In this Miss Edith Foker received the first prize, a handsome set of dishes, and to Miss Alice Duthie was allotted the consolation prize—a box of bon-bons. Refreshments were served on the lawn and veranda, and a very enjoyable and social time spent by all.

 NEW GRAND THEATRE.
 Manager Jamieson Has Another High Class Bill This Week.

A most interesting offering at the New Grand theatre this week will be "The Price of Power," to be presented by Leo Cooper and company. An immense amount of tragedy and pathos is condensed in one act. A man has risen to power and position through sheer force of his own ability. A girl who has known him in his "wild oats" days, comes to him and begs him for the pardon of her lover, sentenced to death. She threatens to reveal the governor's past history to his wife if he refuses, and he is forced to give in. The act is not only on a high plane from the literary standpoint, but is intensely dramatic, gripping the audience from the start and holding them to the finish. noted players of the old school. He is ably assisted by Pasqualina De Voe, an Italian tragedienne of much beauty and grace, who brings to her work great emotional power and expression.
 Frank V. Seymour and Emma Hill, noted eccentric comedians, will support the principal act with "The Mix and the Mixer." Both are good acrobats and throw an immense amount of comedy into the turn.
 Mile Rialta, who will have the assistance of Louis Mintz, lyric tenor, appears in a singing oddity and posing of original character. Under the title "The Artist's Dream," is told a story by posing in a picture frame by the woman, while the man's share is confined to a number of descriptive songs.
 Marion Neville and company in a psychic phenomena performance has drawn well elsewhere and is likely to make a hit here also. A clever quick-change artist still in his youth is Slater Brockman, singer and impersonator. He is to appear in four characters. Thomas J. Price will sing "The Sweetest Thing on Earth," with illustrated slides, and the new motion pictures are the last number on the bill.
 The annual meeting of the Children's Aid Society, adjourned from last week, will be held at the city hall on Wednesday, the 9th inst., at 5 p.m. As the meeting is an open one it is hoped that all interested in the children's aid work will try and be present.

LADIES APPRECIATE
OPENING OF RACES
 Smartly Gowned Society Attend in Large Numbers on Saturday.

The first race meet held on Saturday afternoon was a most delightful social function. The brilliant sunshine, the beautiful pastoral scenery outside the race track, the fascinating glimpses one caught of the blue waters of the bay, the smartly dressed ladies, the decorations of flags, and blue and gold bunting with the broom which was used so lavishly, the gay music of the band as it played the popular airs, and last but not least, from a picturesque standpoint, the beautiful, spirited horses with their brilliantly dressed jockeys, all combined to form a picture which will not soon be forgotten.
 Amongst the ladies the greatest interest and excitement prevailed for each had her favorite, and shouts of "There! There! Look! They're off! No, they're not! They've had to come back!" and "See! mine's ahead! I knew it would be!" followed by a merry clapping of hands, was heard on all sides. The only unfavorable comment of any sort was with reference to the big hats, which, alas, were very much in evidence. The lady with the big hat in front was a nuisance to the lady with the big hat behind her; it was also a bit of an eyesore to the gentleman who was trying to blaze a pathway for his field glasses. However, one and all here the infliction good-naturedly, which was the wisest way.
 Mrs. Dunsmuir looked well in a rich black silk with Oriental trimming, in green and gold, and black hat trimmed with green velvet and plumes. Miss Muriel Dunsmuir wore a smartly tailored suit of blue rajah silk, with white founced hat; Miss Marton Dunsmuir a mauve rajah tailored suit with black hat trimmed with band of ivory satin and black sprays; Mrs. Herman Robertson wore a very becoming hat of burnt straw with crimson roses, and a fawn coat; Mrs. H. Pooley a green silk with net yoke and sleeves and black hat with uncurled ostrich plumes; Mrs. Charlie Wilson wore a very becoming pink flowered hat and handsome fawn coat richly trimmed with Oriental embroidery and gold tassels; Miss Sehl appeared to good advantage in a smartly tailored suit of blue herring-bone serge, trimmed with black, and black hat; Mrs. B. Schwegers, pale blue with hat to match; Mrs. Watkis, a handsome brown tailored suit with fawn straw hat; Mrs. T. Patton, grey tailored suit with burnt straw hat; Mrs. T. Gore, brown tailored suit and burnt straw hat; Miss Lubbe, a fawn linen with blue hat; Mrs. J. Bowker, a pale grey tailored suit and handsome black hat with plumes; Mrs. H. FINDING WORK FOR UNEMPLOYED

HOW BERLIN HAS SOLVED PROBLEM

Central Exchange is Labor Bureau and Home for Workers.

Berlin has solved the problem of making unemployment respectable and self-respecting. The agency through which it is accomplished is a Central Labor Exchange, maintained through co-operation of municipal workers and trade unions. In splendid and extensive quarters of its own in the heart of the East Central wholesale district, the Arbelts-Nachweis zu Berlin places the man or woman in search of work on the same dignified trading level as the brokers who have produced to sell in Mark Lane. It does more. On the Berlin Labor Exchange, while awaiting a market, labor is provided with a home which is club-house and mart combined.

A model of German paternal organization and thoroughness, the Labor Exchange is operated at a cost of less than \$5,000 a year. On this budget, \$3,000 of which is municipal subsidy and \$2,000 contributions of workers and trade unions, the Labor Exchange provided in 1907 shelter for 185,000 men and women in search of employment, and found it for \$5,678 of them—an average, roundly, of 450 applicants and 255 put to work daily. To see the simple machinery of this institution in motion—its entire operating staff is only twenty-seven—is to come away wondering at so practical a system for bringing the unemployed and working opportunities together on a basis devoid of the pauperizing influence of charity.

Two large five-storied brick and stone buildings, designed to accommodate 4,000 men and women at one time, house the exchange's various departments. There are three main divisions—for women and girls, for unskilled working men and boys, and for skilled working men. The latter department is subdivided into trades, with separate quarters for the wood-working industry, smiths, bakers, painters, bookbinders, plumbers, paper-hangers, leather workers, plasterers, roofers, machinists, butchers, street employees, glaziers, lift men and printers.

Any unemployed person may invoke the exchange's work-finding facilities upon payment of a registration fee of 25¢. If the job seeker be a member of any of the trade unions which contribute as organizations to the upkeep of the exchange he is exempt from payment of the registration fee. For a country famous for red tape, amazingly few formalities, and these

of the simplest sort, require to be gone through. A man or woman steps up to a window like a bank-teller's and fills an application form for registration, on which he is required to state name, age, whether married or single, last place of employment, how long out of work, and in what occupation last engaged. Upon payment of the registration fee a receipt or membership card is issued, which entitles the holder to the privileges of the exchange for three months. The exchange is open in spring, summer and autumn from 7 a. m. to 6 p. m., and in winter from 8 a. m. to 6 p. m. In the skilled trades special hours are set apart for various industries, so that different trades may use the same quarters at different times.

From the standpoint of the visitor main interest attaches to two great halls set aside for unskilled men and boys, and for women and girls. As one enters the imposing premises in the Gormannstrasse the Saal for male unemployed is first reached. Spacious, high-ceilinged, and well lit, with bench seats for 1,400 and standing room for 500 more on a gallery running around all four sides, it looks like a real exchange, or the trading floor of a stock or grain market, with the same animated buzz of guttural conversation emanating on the day there was there, from nearly a thousand throats.

Scattered here and there at regular intervals were sign posts labelled "House servants," "Teamsters," "Younger workmen," "Elder workmen," etc., and seated in the immediate vicinity were men and youths answering those descriptions. Each group was subdivided by signs reading "January," "February," or "March," indicating the date at which the out-of-work at those particular points had taken up their job vigil. To an observer familiar with London unemployed this throng was conspicuous for cleanliness, sobriety, and good humor. Here and there sat couples playing at draughts. Yonder a grey-beard pulled contentedly at a pipe. Across the hall at the exchange canteen stood a dozen fellows enjoying their midday meal—coffee with milk and sugar for 1/4d., a glass of beer for 1/4d., or a sandwich, slice of sausage, or portion of salad at 1/4d. apiece. Others were smoking can-can cigars retailed at three a penny. Those who had "dined" were willing to pass the time away with newspapers and magazines furnished gratis by the exchange librarian.

A broad shouldered teamster came from the boot repairing room, where members of the exchange, before starting out for jobs, can have their footgear repaired for a halfpenny. Next door was the tailor shop, where clothes are mended and cleaned for the same price. Legal advice is even cheaper, for the exchange maintains a bureau where members can get consultation upon the law, either in working or private affairs, free of charge. The law bureau adjoins another splendid feature of the amazing unemployed club—a model first-aid medical and hospital room. One passes from it into a white tiled bathroom, where hot and cold shower baths in separate booths, including

use of soap and fresh towels, may be taken for 1/4d. While the visitor is losing himself in admiration of all this, messengers dash in and out, telephones buzz, men and women rush out to work, others straggle in looking for it. Inspector Steffen, head of the male division, enters the great hall where the unskilled men and boys are congregated. He raps for silence. In his hand rustle a dozen pink slips. "Men wanted," applications sent in by employers by letter, messenger, or telephone. He reads out: "Bumpstein, Stralauerstrasse, 19, wants eleven piano-movers for two weeks; wages 2s. 6d. a day." Inspector Steffen advances toward the "younger workmen" pit. Piano-moving is too strenuous for older men. Ten, twenty, perhaps thirty, fellows rise from their benches eagerly holding aloft their numbered membership cards, for, other things being equal, precedence is given to those who have been waiting longest.

Herz Steffen makes his selections carefully, bearing employers' and would-be employees' interests mutually in mind. He gives preference to the married man and those with children to support, but they must be like-ly men for the job, as the exchange is jealous of its reputation for supplying the right men for the right places. A working man or woman who gives evidence of too strong inclination to drink or slothfulness is frequently recognized and refused the privileges of membership. The exchange has done its work when it sends Bumpstein his eleven piano-movers. It is for them to say, when they reach his premises, on exactly what terms they wish to enter his employ. The exchange exercises pressure upon neither work-giver nor work-taker. If the man who has been sent to a job does not want it, they must rejoin the exchange as newcomers and pay fresh registration fees. This is the whole modus operandi of this simple, effective, democratic, prompt, work-finding organization. From two to four hundred jobs a day are doled out in these abnormal times of unemployment.

Similar scenes are enacted in the women's department, where all sorts of female help is supplied except shop and office assistants. In charge is Fraulein Klausner, who can only be described as an encyclopaedia of information and angel of human kindness combined. The buildings of the exchange, which were specially erected for it in 1902, are the property of the Prussian State Insurance Administration (workmen's and old-age insurance.) For their rental the exchange pays a sum amounting to 2 1/2 per cent. return on an investment of \$5,000. The management of the exchange is vested in a board consisting of an equal number of employers and workmen, the chairman being the president of the State Insurance administration.

London, June 7.—The Southern Alberta Land Company will shortly invite a subscription for 200,000 five per cent. debentures. The Canadian and General Securities Corporation has been formed with a capital of \$20,000.

Animal Cunning. Cunning, both in man and in the lower animals, may be defined as a low type of reasoning generally exercised for the attainment of a selfish or unworthy object, such as revenge and theft; but the universal instinct of self-preservation, which may hardly be described as an unworthy object, also frequently calls it forth.

At a recent meeting of the Victoria Natural History society a number of interesting specimens of flowers were examined. One of these was a white camass or wild hyacinth. It was probably a freak, although it is just possible that from one of those flowers a white species could be cultivated.

Pugnacious Birds. One of the members told an incident in connection with a visit he made to an owl's nest. He climbed the tree and was just taking a look at the young birds when he heard a wish of feathers and put up his arm just in time to receive a blow from the big owl. Again he heard the same noise and the arm once more ward off the attack and again the gentleman decided rather suddenly that he would postpone his investigations until some more suitable time.

Rattlesnakes and Scorpions. The following short article written some time ago by J. R. Anderson and published at that time in the Ottawa Naturalist should prove of interest: During a recent trip in the interior of British Columbia, I fell in with an old acquaintance, Mr. E. Bullock-Webster, from Keremeos, on the Similkameen River, near the southern boundary of the province on the mainland. This part of the country seems to be a continuation of the desert region which extends through the adjoining States and California down to Mexico; the theory being borne out by the existence of some of the plants and reptiles peculiar to those regions, for instance, Pursbia tridentata as well as various members of the Artemisia family, burrowing owls, horned lizards, rattlesnakes, scorpions, &c.

Being aware of the existence of scorpions in the hot rocky hills in the vicinity of his ranch, having seen one from there in captivity some years ago at New Westminster which had been kept in a glass jar with only some gravel, and without food or water for several months, I asked my friend if he could obtain a specimen for me. He promised he would do so when opportunity offered; but the season, he said, was past

for obtaining them to the best advantage. He then explained that during the dormant season the scorpions shared the dens of rattlesnakes, Crotalus lucifer (Baird and Girard) and in the spring time when the sun began to attain some power, the snakes come out to the mouths of their dens, in horrid coiling masses, the scorpions running over them on apparently quite friendly terms. Mr. Webster described several of these dens in the rocky defiles of the mountains of Similkameen very graphically.

One, which from accounts received from Indians, seems to be the headquarters of all the rattlesnakes, is situated in an ideal inferno, a wild defile that would have appealed to the imagination of Dore. It appears that the Indians from superstitious motives do not kill snakes, and from the same motives do not go near their dens. Mr. Webster, however, induced an old Indian to conduct him to the spot, which he did, but would not go nearer than about two hundred yards. Mr. Webster entered the horrid place alone. He says it is indescribably weird, the entrance of the den proper being partly stopped up with bunch-grass, apparently carried there by the snakes, presumably for protection against cold. It was too late in the season, however, the snakes having all left for summer quarters, and all that was to be seen were some skins that had been shed and a dead snake, probably an interloper, which had apparently been killed by the others. Mr. Webster expressed the belief that the snakes belonged to different communities, and that an individual who attempted to force its company on a community to which it did not belong, suffered the penalty of death at the fangs of the members of the invaded colony.

The bull snake (so-called), Pituophis catenifer, a harmless variety, is described as being a deadly enemy of the rattlesnake, which the former devours whole. The bull snake is therefore carefully preserved. Mr. Webster says that since the advent of miners and settlers the number of rattlesnakes has sensibly decreased.

A curious account of a snake fight was described by Mr. Webster, the witness being Mr. Richter, a well known to him, and of whose veracity he can vouch. It appears that during a cattle hunt Mr. Richter, feeling tired, dozed, and fell asleep, but was awakened by a rustling noise in the grass near him. He raised himself carefully and saw a bull snake holding on to a garter snake, a species of Eutaenia, by the head. The latter was making frantic efforts to get away by winding itself about the body of the larger snake, nearly succeeding several times, when the bull snake loosened his hold in the attempt to get the smaller snake "end on," so as to begin the swallowing operation. At length the bull snake, apparently tired of this way of trying to capture its prey, reared itself on its head and began twisting itself violently with a spiral motion. This continued for about a minute, after which the garter snake seemed quite paralyzed, and the bull snake proceeded to swallow him at his leisure.

Australia has more unexplored area in proportion to its population than any other country in the world.

ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash—and was entirely cured after three months' use of them."—Mrs. S. A. Williams, R. F. D. No. 14, Box 35, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ill, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

NURSE GIRL HIDES ON BOARD TRANSPORT

Philipino Found by Crew in Hold of the Logan at San Francisco.

San Francisco, Cal., June 7.—Unable longer to withstand the longing for her far-away home, Lugana Bului, a pretty 19-year-old Filipino nurse girl who came to this country three months ago in the employ of the family of Lieut. Arthur O'Hern, U.S.A., stowed away on the transport Logan, on Saturday, determined to return to her native island.

The girl was found by members of the transport's crew, covering behind a pile of waste in the hold of the big vessel. Weeping and imploring piteously that she be permitted to remain in her dark hiding place, she was carried to the deck. Despite her tearful entreaties, the order was passed that she be sent ashore.

When sailors advanced to carry out the command of the officers, she refused to move, and the men were forced to almost carry her, sobbing and resisting, to the transport office on the dock.

According to the girl's story, she was employed as a nurse by the O'Hern family, and brought to the United States on the understanding that she was to be furnished transportation to her home. Several days ago, she said, she was discharged, and when O'Hern boarded the Logan to return to duty in the Philippines, she followed him and secreted herself in the ship's hold.

After telling her pitiful story to the transport service officials, she was assured that arrangements would be made whereby she might return to her home on the first available boat.

FIVE MURDERED BY INSANE WORKMAN

Boston, Mass., June 7.—Five men were killed and four seriously wounded on Saturday by John Murphy, aged 50 years, who ran amuck this afternoon at a Somerville packing plant, where he was employed.

Murphy went suddenly insane and brandishing a big knife cornered Thos. C. Crove, whom he murdered. Two Italians and two negroes were the other victims fatally stabbed.

The victims were removed to a hospital but four of them died soon after their arrival.

Murphy is under arrest pending an examination into his sanity.

ROD AND GUN FOR JUNE.

The winter campaign against the wolves in Northern Ontario, suggestions for thinning out these pests in the Algonquin National Park and the need for some further action in that portion of the province bordering on Manitoba, are prominent features of the June number of Rod and Gun in Canada, published by W. J. Taylor, Woodstock, Ont. Sportsmen everywhere are deeply interested in this wolf campaign because it is felt that the future of our big game depends to a considerable extent upon keeping down the numbers of their relentless and ever victorious foes. Fishing, including a fine illustrated paper showing how anglers may, with much pleasure and profit to themselves, mount the best of their specimens, occupies the next place, seven stories being given up to topics of which the fisherman is never weary. As a change, one paper descriptive of fishing in the West Indies, will show Canadians that they have no need to envy their fellows elsewhere. A fine dog article by R. Clayham, "Dogs as Companions at Home and Afield," a paper on "Grouse in Alberta," a description of a new British Columbia canoe trip, a couple of big game hunting stories, fish and game protective topics, a summary of the report on the Canadian National Park, and a paper on Physical Culture, are representative of the wealth of other good things appearing in the number. Indeed, sportsmen, whatever may be the special line they favor, will find something in this issue appealing to them with particular force, while the whole of the contents will be found of general interest to all concerned in the sporting advantages of the Dominion.

CHARGE DISMISSED.

Everett, Wash., June 7.—The case against Chris Olson, former cashier of the defunct chief Scandia bank, was dismissed by Judge Black yesterday on the ground that it was not shown he accepted deposits with intent to defraud.

This was the third trial, the former two on a different charge, resulting in jury disagreements. Olson was charged with accepting "deposits" money, when he knew the bank was insolvent.

Other officials were also arrested on the same charges, but will not be tried.

CUPID PLAYS HAVOC IN THIS FAMILY

Widow and Three of Her Children Will Wed in One Day.

San Diego, Cal., June 5.—Within the next 24 hours, Mrs. Carmen Lamerdit Mendelsohn, a charming widow of the city, and three of her children, will make a concerted push on the gates of matrimony. Licenses for the quadruple marriage were issued by License Clerk Bert McLees yesterday, and before to-morrow night all family records for June weddings in this county will be shattered.

Mrs. Mendelsohn will marry James Wallace at her home to-morrow evening. Mrs. her 16-year-old daughter, will become the bride of John F. Dougherty, the mother having given a written consent for the issuance of the license.

When Mrs. Mendelsohn applied for her own license she created consternation in the court house by calmly stating that her two sons, Thomas and Marcus Mendelsohn, would apply for licenses some time to-day, and probably would follow mother to the hymenal altar to-morrow evening.

"We're a marrying family, without a doubt," gaily remarked Mrs. Mendelsohn in reply to the astounded expression that spread itself over McLees' countenance upon her announcement.

Governor-General Smith is Anxious to Return to the Bench.

Seattle, Wash., June 7.—Governor-General James F. Smith, of the Philippine Islands who arrived from the Orient on the steamer Minnesota, was the guest of the exposition on Saturday at an informal luncheon in the New York State building. Governor Smith expressed hope that he will not be obliged to return. He was made governor-general while serving on the supreme court bench of the Philippines.

"My desire has always been to remain in a judicial position," said Governor Smith. "I have hopes of returning to my chosen labor. The conditions which caused my appointment to the governor-generalship have to a great extent been changed. Philippine affairs were never in more promising shape. I think I have done my duty there and shall ask President Taft to permit my return to the judiciary."

From Seattle Governor Smith will go to California. Later he will go to Washington.

FRUITGROWER WINS CASE AGAINST RAILWAY

Company Must Pay \$6,750 for Failing to Provide Cars for Apples.

Walla Walla, Wash., June 7.—A verdict of vast importance to fruit growers of Washington, was rendered when a jury in the case of J. T. Dumas, of Columbia county, against the Oregon Railroad & Navigation Company, awarded him damages to the extent of \$6,750 because the transportation company had failed to provide cars in which to move his apple crop of 1908.

Dumas, who is the biggest individual apple grower in the state of Washington, sued to recover \$11,128. Growers who have suffered in a similar manner have been watching the progress of the trial with accumulative interest. It is now almost certain that a great number of suits for damages will be started. Heretofore they were of the opinion that it would be a waste of time and money to institute proceedings.

RHEUMATIC LIVER, OVER-STRAINED KIDNEYS

Caused Sickness that Puzzled Able Physicians—Was Cured by Ferrozone.

A REAL MIRACLE.

"My doctor told me I had gout or rheumatic liver and kidneys," writes G. O. Forde, from Halifax. "I guess he was right for I was a mighty sick man and felt the same was pretty nearly up. So many remedies failed that the doctor was completely puzzled. As for symptoms—I had bushels of them in the morning, a sort of nausea. Sometimes the bowels were constipated, at other times quite relaxed. I felt dull, and a sense of weight in the back and over the liver was very distressing."

Lost 15 Pounds in Weight.
"My color resembled a yellowish pallor, and gradually I lost weight to the alarming extent of fifteen pounds. I looked jaundiced and felt sure I would die."

"Then I read of the wonders worked by Ferrozone and in desperation I bought six boxes. At once I began to mend. Ferrozone must have put a peg or two into the nervous system for things at the end of the month began to look up. In three months I felt like new, but kept on taking Ferrozone. In six months I was cured."

Ferrozone Saved His Life.
"Were it not for Ferrozone I wouldn't be alive to-day. I am sure it will cure any weakness, rheumatism, gout, debility, poor blood or nervousness. My condition embraced all these, and Ferrozone cured me." Reader get Ferrozone to-day, 50c. per box, or six boxes for \$2.50, at all dealers.

Cost of Manufacture

Do you know why we can manufacture news and wrapping paper cheaper in British Columbia than in Eastern Canada or the United States? The answer is plain: We have cheaper wood. Every ton of newspaper requires approximately a cord and a half of four-foot wood in its manufacture. The International Paper Company are now paying \$10.14 per cord for wood. Remington group of mills, \$14.00; Riverside Paper Company, \$11.00; Kimberley-Clark Paper Mills, \$11.00; Northern Pulp and Paper Company, \$11.50; Gilbert Paper Company, \$12.80; Tomahawk Pulp & Paper Company, \$12.50; Combined Locks Pulp & Paper Company, \$11.25; St. Regis Pulp & Paper Company, \$14.00, and others accordingly. Owing to the increased cost and scarcity of pulp wood, the price of newspaper has increased from \$36.00 to \$52.00 per ton during the last three years, and in order to operate the American mills they were obliged to import in 1908 almost a million cords of wood from Canada, and in addition over \$7,000,000 of wood pulp. Pulp wood is now worth from \$5.00 to \$3.00 per cord in Ontario and Quebec. Owing to the fact that this company have acquired almost 100 square miles of pulp limits at Quatsino Sound, Vancouver Island, we are therefore assured of a permanent supply of wood at not to exceed \$2.00 to \$3.00 per cord. Who can tell what the price of wood will be in Eastern Canada and the United States within 10 years? At present we are able to manufacture news and wrapping paper from \$2.00 to \$6.00 per ton cheaper than the Eastern mills, and inside of 10 years we will have an advantage of \$10.00 to \$12.00 per ton. In commending the stock of this corporation to the general public we do so with the feeling that it is one of the rarest opportunities ever presented in Canada to secure a high class dividend paying stock. There is no question but that it is certain to become tremendously valuable within one year from the opening of the big plant, and we therefore advise

every citizen of Vancouver Island to subscribe for a small block, even if it is only to the extent of 100 shares. Who would not now be glad to buy stock at the original price in the big mills of Ontario and Quebec? Inside of two years it will be much more difficult to secure stock in the present mill now under course of erection than it now is to secure the stock of eastern mills. The time to buy the stock of any corporation is six months before a wheel has been turned—not six months afterwards. Suppose you had bought a few thousand shares of Canadian Pacific when it was selling at 62, or Hudson's Bay stock when it was being sold at a low figure, or General Electric when it was peddled at 20, or Alaska Packers when it went begging a while ago at 40. In 1908 the United Box Board & Paper Company made a gross profit of \$1,175,000. In the same year the International Paper Company showed a profit of \$1,835,000, while the 43 exclusive news mills of the State of Massachusetts showed a profit, according to the United States government report, of \$2,934,428. During the same year 23 mills of the State of Michigan made \$1,928,454, while the St. Regis Pulp & Paper Company and the Laurentide Pulp & Paper Company each showed a profit of approximately a quarter of a million dollars.

No mill is more fortunately situated or prepared to meet the great demands of the future than this company. We have 55,000 acres of the finest pulp timber of British Columbia. We have a tremendous water supply capable of developing from 15,000 to 20,000 h. p. We are right at the threshold of the great Oriental markets which annually import millions of dollars of paper, to which points we are able to secure a rate of from \$2.00 to \$5.00 per ton compared with a \$12.00 to \$13.00 rate from Eastern Canada or the United States. The company has been conservatively organized. The books of the company are open daily to the full inspection of the public.

WE NOW OFFER FOR SUBSCRIPTION THE REMAINDER OF THE FIRST ISSUE OF

300,000 PREFERENCE SHARES

IN BLOCKS OF 100 SHARES AT \$1.00 PER SHARE.

Payments: Fifteen Per cent. on Application, Fifteen Per cent. in Thirty Days.

Balance, 10 per cent. per month until fully paid. The Preferred Stock is entitled to a cumulative dividend of 7 per cent., payable out of the net profits of

the Company before any dividend is paid on the Ordinary Stock, after a like amount has been paid on the Ordinary Stock, both Stocks thereafter participate equally.

EIGHT PRISONERS SHOT IN FIGHT

Two Wardens Also Killed and Several Others Fatally Wounded.

Title, June 7.—A desperate battle was fought in the prison here Saturday, which ended in the killing of eight prisoners and two wardens and the mortal wounding of four wardens and two soldiers.

Five convicts, who were condemned to death, while being transferred to the death cells overpowered the wardens, wounding and slaying them. They ran through the corridor, shooting down everyone they encountered. They were finally brought to bay by a detachment of wardens, but refused to surrender, fighting until they were crushed by repeated volleys.

During the fighting three other prisoners escaped, but were run down by soldiers. As they put up a stubborn resistance they were shot to death.

GETS FIVE YEARS.
Former Secretary of California Order Pleads Guilty to Felony Embezzlement.

San Francisco, June 7.—Charles Turner, former secretary of the Grand Parlor of the Native Sons of the Golden West, pleaded guilty to felony embezzlement when he was arraigned Saturday, and was sentenced to three years at San Quentin prison.

A shortage of more than \$5,000 was found in Turner's accounts. Recently friends of the former secretary made good the amount, but after a conference the grand officers of the organization decided that they could not fail to prosecute him.

FINAL SOCCER MATCH HAS BEEN FIXED

Ladysmith and Nanaimo to Play Esquimalt for Championship.

The final soccer game between Ladysmith and Nanaimo for the Island league championship will be played at the Canteen ground, Esquimalt, on Saturday, June 19th.

This was the decision reached Saturday night at a league meeting held in the Driad hotel, when there were present C. G. Duncan (president), Messrs. Hailstone and Thornley, Ladysmith, Hart and Hindmarch, Nanaimo, and Lockley and Wright, Esquimalt.

J. G. Brown appeared on behalf of Victoria United, to state a case against that club's disqualification from the league. He addressed the delegates contending the constitution gave no power to expel a team. The chairman, however, ruled the matter as out of order.

Ladysmith was given permission to appeal to the B. C. Football Association on the legality of Nanaimo playing Hooper and Hurren, and both teams' delegates announced that their clubs would go after the People's shield this year.

**MYSTERIOUS DEATH OF
MAN ON PRAIRIE**

Body Found Fifty Miles From
Habitation of Any
Kind.

Charles A. Holden, of Grand Forks,
North Dakota, has just returned from
a homestead inspection trip, and re-
ports to the police one of the most
mysterious tragedies which that body
of men have had to deal with for some
considerable time, says the Calgary
Albertan.

With a party of four—Mr. Holden
was out looking at homesteads. They
came across a body of a dead man,
terribly mutilated, about ninety miles
north of Brooks station, between here
and Medicine Hat. The body was found
on the prairie, fifty miles from a habi-
tation of any kind.

At first the party thought it was a
dead horse, but on nearing the spot
found it to be the body of a man.

The man's face had been eaten be-
yond recognition by coyotes. The body
must have been there nearly a month.
Two weeks ago there was a prairie
fire, which extended for miles around
where the body was found. The clothing
was burned off him except the grass
which he was lying, and part of his
clothes which were between himself
and the ground.

All the letters and belongings which
would lead to identification had been
burned, and only a jack-knife was
found on the man.

How the unfortunate man met his
death in the first place before the fire
is a mystery.

Mr. Holden has only two theories.
The first is that the man must have
been murdered and left dead on the
prairie, or he must have been out
looking up homesteads about six weeks
ago, and was caught in the blizzard.
The latter is very probable, as he may
have lost his way and died a terrible
death from starvation and exposure.

WOMAN'S RIGHTS IN SHOE SHOP.
Judge Rules She May Wear a Clerk's
Bun, Then Get Her Money Back.

Chicago, June 7.—A woman may
take up all the time she can get of a
clerk in a shoe store. Then after she
has tried all the shoes in the store
and bought a single pair, she may re-
turn them and get her money back if
they pinch her feet when she gets
home. This is a decision by Municipal
Judge Gemmill in the case of Miss R.
Loppe Jacobson against a shoe shop.
Miss Jacobson said when she returned
the shoes the firm offered her a credit
memorandum for the amount she had
paid. She demanded her money back,
and when the firm refused to give it
she sued. A letter in which the
president of the firm said Miss
Jacobson had taken up so much of the
salesman's time he could not return
her money was the cause of the court's
ruling.

"This is not a question of how much
time a woman takes up in buying her
shoes. Her privilege is to take as
much time as she thinks she needs to
insure a good fit."

Twelve of the hat manufacturers of
Lambury, Conn., will reopen their fac-
tories for a few days tomorrow morning
upon the "hat shop" plan.

**WORKING INDOORS
CAUSES ANAEMIA**

Chlorosis or anaemia is simply thin-
ness of blood.

If confined too much indoors, anaemia develops, because the lungs are insufficiently supplied with oxygen, and the blood is consequently ill-nourished and half-starved.

But there is a cure!
Dr. Hamilton has solved the problem in his famous pills of Mandrake and Butternut; as a blood enricher their equal is not known.

All the functions upon which life depends are helped by Dr. Hamilton's Pills.
Richness and purity are instilled with wonderful promptness into the vital fluid.

Healthy appetite, strong digestion and dreamless sleep are sure to follow, because of the increased blood supply furnished by Dr. Hamilton's Pills.
Think it over.
Will it pay you to look and feel half-dead, to lack color and spirit, when all can be changed by Dr. Hamilton's Pills?
Better act at once!

Your case is more curable now than later on.
Dr. Hamilton personally guarantees the pills of Mandrake and Butternut. Their merit is unquestioned.
Thousands of anaemias they have cured and kept well.

They will do just the same for you. Try Dr. Hamilton's Pills, 25c. per box or five boxes for \$1.00, and refuse any substitute.

DYKING CLAIM DISMISSED.
Action by Municipality of Delta for Taxes Has Failed.

The municipality of Delta has lost in the protracted litigation which has been going on for five years past in regard to liability for the cost of dyking operations. The case on which the litigation has been proceeding is that of Delta vs. Wilson, one of the owners, and on Saturday afternoon Chief Justice Hunter handed down his judgment, dismissing the case, holding that no personal liability attaches to the owners of the land.

The municipality sued to collect taxes in respect of certain dyking operations. Several owners resisted payment, chief among these grounds now held by me to sell wires and levers on the premises situated at 811 Fort street in the city of Victoria, known as the "Hall" situated from myself to James David Hill, of the city of Victoria.

This counterclaim is dismissed as well as the main action. W. J. Taylor, K. C., Joseph Martin, K. C., and H. C. Joseph Tupper, K. C., were among the counsel who have been engaged on the case.

King Alfonso of Spain is the only monarch who does not sign his name to documents and edicts. His signature is simply "Alf." or "Alf."—"I, the King."

FIGHTING WHITE PLAGUE.

New York, June 7.—The Countess of Aberdeen arrived here Saturday by the White Star liner Cedric to enlist American aid in the fight against tuberculosis in Ireland.

"Against a wet climate, a low dietary and a scanty food supply," said Lady Aberdeen, the poorer people of Ireland have sought warmth by shutting off ventilation. The results have been lamentable. There are 12,000 victims a year, and the disease has a grip on 120,000 of our population."

WESTERN BOWLING CONGRESS.

Official Results of Games Will Be Announced Next Tuesday.

Seattle, Wash., June 7.—The Western Bowling Congress closed its third annual tourney last night with the awarding of the prizes. The special match, in which the championship Denver team was to roll, was called off as many of the bowlers wanted to leave town. The complete official results will not be announced until next Tuesday, as the committee will audit all the scores carefully. Next year's tournament will be held in San Francisco.

E. P. Dobkins proved himself to be the best individual bowler by distancing all competitors and winning the Hanes gold medal. He rolled a total of 84 pins.

R. A. Woolley made the best score in nine games. The Denver team won the Burnet Bros. gold medal.

—In the county court this afternoon judgment was given in J. Nakano vs. George Simpson for the sum of \$55.55.

GIFTS FROM FRANCE.

Mayor of San Francisco and Governor of California Receive Medals.

San Francisco, Cal., June 7.—After presenting Mayor Taylor and Governor Gillett with silver replicas of the gold medal given to the city of San Francisco by the French government, Ambassador Jules Jusserand is on his way to Yosemite to-day. A third silver replica will be presented to President Taft.

The silver medals were presented to the governor and mayor last night at the conclusion of a banquet tendered by the French ambassador and his wife to the men and women who had been their hosts and hostesses since the arrival in this city. The presentation of the replicas was a complete surprise to both the governor and the mayor.
