## TAFT MAPPING OUT PROGRAMME

### PROPOSED AMENDMENT TO ANTI-TRUST LAW

Recommendations Will Include Measures for Which Insurgents Are Fighting

(Times Leased Wire.) Revely, Mass., Oct. 12.—President Taft is mapping out for congress a strenuous short session, when it convenes this autumn, and his recommendations will include several measures for which the insurgent Republicans are fighting, according to authentic information obtained today by the United Press.

The president, in his message, will demand the enactment of many new statutes embodying the recommendations contained in the Republican platform adopted in many states.

Foremost will come the president's expression of a desire to secure more economical administration and the recommendation that congress co-operate with the government departments in bringing this about.

Taft will recommend the passage of a law permitting the development of water power on public lands by private capital, with the government retaining the power of using a restraining order where necessary.

He will urge the amendment of the Sherman anti-trust law so as to permit railroads to enter into limited arrangements regarding rates, subject to the approval of the interstate commerce commission. A federal charter for corporations also will be urged.

The president will continue his announced policy of favoring the establishment of a strong merchant marine, and in this connection, will advert to the progress made in the construction of the Panama canal.

The patronage bungalow of the "pork barrel" will be partially plugged with a recommendation to senators and congressmen that they surrender a part of their appointments in order that more government employees may be placed under the civil service regulations.

Other probable suggestions are for a new form of government in Alaska, the strengthening of the anti-trust laws, currency reforms and changes in the law governing the issuance of injunctions without notice.

## DECLARES WAR AGAINST FLIES

### MENACE TO HEALTH SAYS DR. C. G. HEWITT

Instructive Lecture Delivered Last Evening to Large Audiences in Institute Hall

Perhaps the most interesting feature of the lecture on House Flies and their relation to health, given at the Broad Street hall last night by Dr. C. Gordon Hewitt, was the danger to the community in having fruit and candies exposed in shop windows and on the street. These were almost bound to become infected with millions of microbes through the visit of flies, and were liable to carry contagion to the people who used them. As this is a common thing in Victoria the pronouncement of Dr. Hewitt in this respect is extremely interesting.

The Broad Street hall was crowded when a few minutes after 8 o'clock President McCurdy, of the Natural History Society, introduced the lecturer of the evening, and when the lights were turned on at the close it was seen that numbers had been unable to obtain seats and were standing at the rear of the hall. A great many interesting pictures and diagrams were projected on a screen for the purpose of making more clear the arguments of the speaker.

Telling of the rate of increase of flies the speaker showed that a fly would deposit one time from 120 to 150 eggs. As each of these eggs produced another fly within fourteen days which in its turn was ready to take up the work of propagating the species, the rate of increase was immense. So great was it that the progeny of a single fly in a season if placed end to end would make a chain which would reach across the Atlantic ocean.

The breeding places of flies is in fifth of any kind, particularly in manure, garbage and offal of any kind. If places were kept properly cleaned there would be no breeding places and the increase would to a very large extent be checked.

The lecturer gave the results of investigations to show that every fly carried germs on its body. The number of varieties varied according to the places visited, but so far every fly examined had been found to have these death dealing microbes on its body, attached to the hairs, on its legs, and often in its system. The chief diseases carried were typhoid fever, cholera, infantile diarrhoea, anthrax, and tuberculosis. Typhoid was often carried in milk which had been infected by flies.

In order that hereafter the citizens of Victoria might not wholly abstain from food for fear of infection, Dr. Hewitt explained that the chief danger was from having large numbers of flies in a

## WILL WELCOME THE RAINBOW

### VICTORIA ARRANGING NOTABLE DEMONSTRATION

City Council Preparing to Co-Operate With All Other Local Public Bodies

Preparations are now well under way looking to a fitting demonstration of welcome to the first of the vessels to arrive on the Pacific to constitute the nucleus of Canada's navy—H. M. C. S. Rainbow, which is now ploughing her way northward along the coast en route to Esquimaut. The cruiser is due to arrive on November 7, according to schedule, though in view of the fact that she was a couple of days ahead of time, when reported at the last port of call, it is not improbable that she will reach Esquimaut shortly after the first of the month.

It goes without saying that an event of such supreme importance in the history of the development of the Dominion of Canada—the furnishing of the first concrete evidence that the country has embarked upon the policy of creating a navy for the defence of its shores—should not be allowed to pass without there being a great popular demonstration in recognition of the same; and the prompt manner in which preparations to this end have been taken in hand by local committees indicates that the welcome accorded the Rainbow, her officers and crew will be of the most enthusiastic and notable description.

At a meeting of the special committee of the city council, held yesterday afternoon, it was practically decided that the rank and file of the Rainbow should be invited to a banquet at the drill hall, if the necessary arrangements can be perfected to secure that building. Long tables will be set on the floor and an entertainment arranged to follow a dinner to be provided by the city of Victoria. The local forces will also, in all probability, be invited to attend. It is also suggested that a subscription dinner be tendered to the officers of H. M. C. S. Rainbow at the Empress hotel.

The civic committee is waiting, however, to see what is to be done by the provincial government and will join hands with the government officials in welcoming the Rainbow.

H. M. S. Algerine sailed yesterday at midday from Esquimaut for her annual winter cruise of the Southern Pacific. It is understood the Algerine will meet the Rainbow at Acapulco, at which port the first warship of Canada's fleet on the Pacific is due on October 25. While no formal welcome will be extended to the new cruiser by the well-known gulet, greetings from the people of Victoria and the naval men of Esquimaut will be conveyed to her.

In a few days—October 21, to be exact—the people of Halifax will be engaged in a demonstration on similar lines, extending a welcome to the first ship of the Canadian navy that is to be, H. M. C. S. Niobe. Prior to the departure of this ship from England Queen Mary presented Commander Macdonald, who, by the way, is a son of Senator Macdonald of Victoria, with a silk ensign and the medals for his Majesty the King and Queen, and it is assumed that a similar gift will be forthcoming for the Rainbow when the latter reaches Esquimaut.

## AERIAL FLIGHT PLEASES ROOSEVELT

Entertained Aviator at St. Louis After Making Trip in Aeroplane

(Times Leased Wire.) St. Louis, Mo., Oct. 12.—The Missouri insurgents to-day are making a figure just what part of their flight against the regular Republican organization was endorsed by Col. Roosevelt in his speech last night. Though the colonel touched on a wide variety of subjects in his address, he had very little to say about the insurgents, and what he did say has left the Missouri insurgents somewhat in the dark as to his meaning.

Governor Hadley said to-day: "I think the principles the colonel enunciated last night are the principles for which Missouri Republicans stand. As Colonel Roosevelt said, 'Let the past take care of itself.'"

Aviator Archie Hoxsey was the guest of Colonel Roosevelt at dinner last night, the colonel having insisted that the aviator, in whose biplane he made his first flight yesterday afternoon, should dine with him regardless of all previous engagements.

Before leaving for Springfield and Peoria to-day Colonel Roosevelt's flight was the "bulliest experience" he ever had.

"The conquest of space," he said, "I had the opportunity to fly in Europe, but I wanted to make my first flight in an American machine with an American aviator at the wheel."

Speaking last night to Hoxsey of his decision to make the flight, he said, laughingly: "When I saw you with your hatch face, a well-poised American, I decided it was time for my first flight."

## PESTILENCE FEARED IN FIRE SWEEPED REGION

### Steps Taken to Prevent Epidemic—General Wood is in Charge of Relief Measures—Lumbermen Search for Bodies of Victims

(Times Leased Wire.) International Falls, Minn., Oct. 12.—Famine and pestilence follow to-day in the ashen path of the great forest fires that have swept this region, inflicting great loss of life and tremendous damage to property.

Hundreds of men from the remains of villages and from fire-scorched towns are at work under the rifles of the national guard, burning carcasses of cattle and other live stock killed in the whirlwind of flames. The stench arising from the decaying and charred bodies is terrible and the volunteer and compulsory sanitary corps are working night and day to prevent the contamination of streams and the spread of a great epidemic. The water at Beaudette and Spooner already is contaminated, but conditions at Warrad have improved.

Governor Eberhardt ordered the surgeons of the national guard to-day to take command of and supervise the work of sanitation.

Militiamen and citizens under the direction of General Wood are distributing supplies while relief corps are attending to the injured. General Wood has asked for additional troops to preserve order and to assist in burying bodies.

Lumbermen have been detailed to bring in the bodies found in isolated sections. These men now say the total deaths will not exceed 150. Seventeen unidentified dead were buried in a trench at Beaudette, the bodies having been burned so that identification was impossible.

Martial law is still in force at many points. The fires have swept westward and to-day were reported as threatening destruction to Poposky, Neshib, Kellher, Black Duck, Funkley, Longworth, Clearwater, Cedar Bend and Richwood.

Lumbermen now estimate the loss as between \$15,000,000 and \$20,000,000. All able-bodied men at Kellher were ordered into the fire lines to-day. Another detail of men was rushed to Funkley and another to Black Duck.

A spirit unquenchable was shown in a message from Beaudette asking that hundreds of carpenters be sent to Beaudette and Spooner to aid in rebuilding. The towns will be rebuilt at once, and hereafter will be known as Beaudette.

At Rainy River. Rainy River, Ont., Oct. 12.—Last night Contractor Hurst, who has been appointed fire chief, reported danger as practically past. Under his direction all brush skirting the town has been removed so that the brisk breeze that developed during the night occasioned no great anxiety.

A telegram from a Virginia, Minn. hospital announced the death of Elder Simmons, raising the death list to 23 in this vicinity.

Ely declared that his continued trouble with his aeroplane was due to the failure of mechanics properly to arrange the gasoline tank on the machine.

T. P. O'CONNOR SPEAKS AT PRAIRIE CAPITAL. Says There is No Racial Struggle Between Ireland and England

(Special to the Times.) Winnipeg, Oct. 12.—T. P. O'Connor, M. P., received considerable financial aid from a well-attended meeting last night. Mr. O'Connor assured his audience that there was no racial struggle between Ireland and England, nor would he be in such a racial struggle. The democratic forces of England and Ireland were league against the House of Peers. What the Irish wanted was the application of Canadian principles to British laws, and such autonomy as Canada has so many millions an exponent of. If Home Rule were granted to Ireland the Irish would continue to govern the country as it is now governed.

## STRIKERS AND TROOPS CLASH

### MORE RAILWAY MEN QUIT WORK IN FRANCE

Trains Abandoned on Tracks When Orders to Strike Are Received

(Times Leased Wire.) Paris, Oct. 12.—Employees of the Eastern railroad, numbering 40,000, and of the Western, numbering 2,000 more, joined the strikers on the Northern railroad to-day. Eighty thousand workers of the Paris, Lyons & Mediterranean, the largest railroad in France, planned to walk out at 5 o'clock to-night; the Orleans line employees are expected momentarily to quit, and the Central railroad workers will strike tomorrow. By Friday not a wheel in Paris, it is expected, will be moving, and even the Paris underground and the omnibus tramway may be tied up.

Clashes between strikers and troops began early to-day. The strikers set about disarranging the telegraph and telephone lines, switches were tampered with and two serious wrecks were reported.

Practically the entire French army is under arms awaiting orders to disperse the workers whenever they grow turbulent.

The employees of the Western line quit this morning without warning. Trains were abandoned on the tracks when the strike orders were received. Boats were left in the slips and at any convenient landing place. The entire system was paralyzed. Passengers sat about in the trains a few minutes, then when the strikers formed around the trains sought refuge as best they could.

Efforts on the part of the Northern Railway Company to man their trains with government engineers are meeting with but poor success. The men are inexperienced, entering into the work in a half-hearted way, and their number is inadequate to carry out any systematic schedule.

Thousands of strikers and their sympathizers surrounded the Porte Maillot station at Neuilly avenue and hurled rocks through the windows of several trains left stranded there. Switch stands were pulled from position and frogs and fish plates torn up. A detachment of troops left to guard the station remained discreetly in the back ground until reinforcements arrived. A few bricks were thrown and the situation was tense for a few moments, but the soldiers cleared the depot grounds.

Automatic switches have been tampered with and made useless. At Javel station a serious wreck is reported to have occurred when an engine plunged into a string of cars on a siding through an open switch on which the light had been reversed. Reports of the wreck are meager.

Another serious disturbance is said to have occurred near Grenelle station since the employees of the Western walked out. Fully 5,000 men employed on the Seine ferries and in the yards congregated there. Half a dozen engines with steam up stood in the yards deserted by their crews. Troops in sufficient numbers to control the rapidly swelling mobs, had not yet arrived, and a movement to run the engines into the Seine was started. Loyal employees, station police and such reinforcements as could be obtained,

## MORE BODIES FOUND IN COLORADO MINE

### Coroner Will Hold Inquiry Into Explosion Which Killed Over Fifty Men

(Times Leased Wire.) Pueblo, Colo., Oct. 12.—An attempt was made to burn the home of Mayor A. L. Ekdard. An unknown man lighted a pile of weeds and chips under the back porch of the house. The man was frightened away by neighbors and the flames were extinguished. The mayor is at present in Los Angeles. His wife was in the house, with two daughters. The police are working on the case.

SEARCHING FOR INCENDIARY. Pueblo, Colo., Oct. 12.—An attempt was made to burn the home of Mayor A. L. Ekdard. An unknown man lighted a pile of weeds and chips under the back porch of the house. The man was frightened away by neighbors and the flames were extinguished. The mayor is at present in Los Angeles. His wife was in the house, with two daughters. The police are working on the case.

(Times Leased Wire.) Starkville, Colo., Oct. 12.—Eight additional bodies were recovered this afternoon from the depths of the Starkville mine, making 11 recovered since early to-day. Since the search for victims of Saturday night's explosion began, 22 bodies have now been brought to the surface of the pit.

The eight bodies were found in entry 6-2, off the main tunnel. One of the bodies is believed to be that of Luke Uppendine, pit boss, whose son's body was recovered this morning. The elder Uppendine leaves eight children and his son two babies.

A public burial will be held to-day of all victims recovered.

A coroner's inquest is set for this afternoon.

The rescuers are now approaching the K. Series of entries in the mine, where 20 men are believed to be dead. New fans have been installed and the debris is being removed rapidly from the tunnels.

Charges are being made that the ventilating fans were carelessly matched and that one old fan frequently threw sparks which were sufficient to cause an explosion. Deputy Commissioner of Labor Cross is today investigating these charges. His report of the recent disaster in the Primero mine denounced the operating company severely.

PRESS PROTEST. (Special to the Times.) London, Oct. 12.—Strong complaint is being made by the Liberal press about the gutless nature of Judge Grant's speech on Canada, a summary of which was called yesterday, as being a breach of the ancient traditions of the English bench.

## FAIR DEFICIT WILL BE SMALL

### LESS THAN FIVE THOUSAND DOLLARS

George Sangster, Secretary of Agricultural Association, Preparing Statement

(Times Leased Wire.) The deficit of the fall fair of the B. C. Agricultural Association will not exceed \$5,000, and it is possible that this amount may be reduced somewhat, was the statement made by Secretary Geo. Sangster to a Times representative this morning.

The financial statement of the exhibition will in all probability be ready for publication on Monday next and the adjourned meeting of the association will be called shortly after to consider the same.

Mr. Sangster is pleased with the showing made, as during fair week, owing to the small attendances, he felt that there would be a large deficit to report. Although he estimates the amount at \$5,000 he is very hopeful that when the books have been completely balanced this sum may be split in half.

This year over \$10,000 was paid out in prize money, which is over three thousand dollars in excess of last year. This sum, however, does not include the purses presented for the horse races.

If the weather conditions had been more favorable the secretary thinks that he might have produced a balance sheet showing a surplus. The gate receipts showed that the attendance this year was practically the same as at the show last year.

When the report is ready a copy will be sent to every member of the association. This was decided at the annual meeting of this organization, principally for the purpose of informing the mainland members of the association, who are unable to attend the adjourned session, as to the financial status of the fair.

The secretary requests that all those who have not yet secured their prize money will call at his offices in the Law Chambers and receive their cheques.

## LURED BY FALSE REPORTS

### GENERAL MAUS ON CONDITIONS IN ALASKA

Government Urged to Take Steps to Prevent Stampedes of Fortune Hunters

(Times Leased Wire.) Vancouver, Wash., Oct. 12.—In his annual report just issued General Marion P. Maus, commander of the department of Columbia, U. S. A., has made recommendations that the Alaskan coal deposits be opened and that the government exert every effort to prevent stampedes of fortune hunters to Alaska on false reports of gold strikes.

The report was made following General Maus's return from Alaska, where he made a close inspection of conditions. Shortly after his return recently General Maus asserted that many of the reports of gold strikes in Alaska had for their source persons in the United States who were benefited financially by gold rushes.

The report also recommends the use of motor transportation for the army and the elimination from active service of a certain class of officers, most of them of field rank, who, Maus declares, have no useful place in the military establishment but are looked upon as an obstacle in the way of advancement of deserving officers.

In dealing with conditions in Alaska, the report states that business there has fallen off but is now more stable.

The deposits found in the Iditarod country, says the report, were greatly overestimated, large numbers of people flocking to the locality with no means of support and no employment to be had.

Concerning the proposition of opening the Alaskan coal deposits, General Maus in his report says that such action would rebound to the benefit of the country by lessening its stations and vessels in the north. At present the coal is imported and its cost is excessive.

### CASE AGAINST DR. CRIPPEN

#### RECORDER'S CHARGE TO GRAND JURY

Deals in Detail With Evidence Given in the Police Court

London, Oct. 11.—The October sessions of the central criminal court opened yesterday morning. In charging the grand jury, Recorder Sir F. Fulton, said that there were 35 persons to be tried at the sessions and amongst the cases to be disposed of was the charge of murder against Crippen, who was described as a dentist, and Miss Leneve, his wife, who was indicted for being an accessory after the fact, which, remarked the recorder, was one who, knowing a felony to have been committed, received, relieved, comforted or assisted the felon. It was necessary, therefore, in Miss Leneve's case, that those who brought the charge against her should establish the fact that she knew that Crippen had committed murder.

"Your duty happily is not to try the case," he said, "but merely to see whether the evidence is such as to justify you in returning a true bill against either or both."

His Lordship proceeded to deal in detail with the evidence given at the police court. From this, he said, it was apparent that Mrs. Crippen was seen in excellent health and spirits in January last. Soon after then she disappeared. In consequence of rumors and suspicions as to the cause of her disappearance, Crippen wrote to Dr. Burroughs, a friend of his and Mrs. Crippen, that she had died in California and that the cable announcing her death had come as a great shock to him. Crippen told practically the same story to Mrs. Martineau, a friend of Mrs. Crippen, that his wife had taken pneumonia on the boat going to America and had died at Los Angeles. Before Mrs. Crippen disappeared she had a conversation one day with Mrs. Martineau and showed her a scar which was left as the result of an operation. That, the recorder remarked, would be a piece of evidence of great importance in this case, for according to evidence of doctors there was a similar scar on the body found at Hillside Crescent. In consequence of a communication made to the police, Inspector Dew saw Crippen at Albion house when he made a long statement, which contradicted the versions of his wife's death which he had already given. Crippen stated that he had made an untrue statement of his wife's death to avoid public scandal. When Miss Leneve was seen by the police she said Crippen had told her that his wife had gone to America and later that she had died out there.

Miss Leneve's statement, continued the recorder, appears to be a uniform one that she was acting as Crippen's mistress without having the slightest idea that murder had been committed or that Mrs. Crippen had not died as she stated.

Crippen had said. His Lordship pointed to the discovery of a body and commenting on the fact that a scar was discovered similar to that shown by Mrs. Crippen to Mrs. Martineau some time previously. It was evidence, too, that Dr. Wilcox, government analyst, had found in the body supposed to be that of Mrs. Crippen, traces of hyacinth, and the importance of that was that an assistant at Messrs. Lewis, Druggists, chemists, had stated that Crippen had purchased on January 31st five grains of hyacinth from their shop.

"So far as Crippen is concerned," he continued, "by evidence I have briefly indicated to you, there is abundance of evidence to justify you in finding a true bill against him for the murder of his wife; whatever may be the ultimate decision of the jury on the question of the identity of those remains, there is certainly evidence to justify you in saying that the case requires the fullest investigation."

The case of Miss Leneve is on an entirely different footing; what she is charged with is being an accessory after the fact. It is necessary for the prosecution to satisfy the jury that she relieved, comforted and assisted Crippen and that she knew he had committed this murder. Certainly there does not seem to be anything in the statement made by her on July 8 in which she seems to indicate that she had any knowledge at all that Crippen had committed murder. It will depend very much upon her demeanor but it appears to have been a rational statement.

Referring to the evidence of Emily Jackson, Leneve's landlady, the recorder said that apparently the prosecution placed importance on it as giving color to the suggestion that Leneve knew of the murder, but assuming the landlady's statements that Miss Leneve on one occasion was greatly agitated were true, it did not appear to him to bear out the view that the accused knew of the murder.

"The question before you," continued the recorder, "is as follows: Is there in this case presented before you evidence to justify you in saying that there is reasonable ground for believing that the jury would convict her for being an accessory after the fact, if it be found that murder has been committed? The prosecution has got to establish that fact. This case was investigated at great length by an experienced magistrate who had considered it his duty to commit the girl for trial, I don't consider it necessary to anticipate what decision the learned Chief Justice who will try the case will be upon the question to be submitted to him, nor what the opinion of the jury will be in the case left to him, but having regard to all the circumstances of the case I think you ought to find a true bill against her. It is more satisfactory that you should take that course. Take it with the very great consciousness that every consideration will be given her case. She will have every opportunity. If she desires to avail herself of it, of giving any further information she may wish in the course of the trial."

The recorder then alluded to the other cases on the calendar.

Crippen will be represented at his trial by three lawyers, the best known of whom are Alfred Aspinwall Tobin, Unionist member of parliament for Preston, and Huntley Eugene Jenkins. Of the two who will look after the interests of Miss Leneve, Frederick Edwin Smith is a leading Conservative member of parliament for Walton division of Liverpool.

### KILLED BY TRAIN.

Aged Indians Are Caught on Trestle and Hurled to Ground Below.

Bellingham, Wash., Oct. 11.—While attempting to cross a trestle one and one-half miles east of Deming, Mr. and Mrs. John Hoodstatum, Swinomish Indians, both over 80 years old, were run down by a rapidly moving, heavily loaded Northern Pacific freight, hurled to the earth twenty feet below, and sustained internal injuries from which both died while being rushed to the hospital at Sumas. A curve in the track approaching the trestle hid the victims from the sight of the engineer until too late to stop the train.

When the old people saw the train coming they started to run, but were overtaken when within a few feet of the end of the trestle.

### SHOT IN ARM.

Nanaimo, Oct. 11.—A hunting accident occurred on Wolf mountain Monday whereby a man named Michael Burns had his forearm badly shot and his arm broken. Burns and some friends were out on a hunting trip and had separated. Burns stopped for a rest and put down his gun, reaching round to his hip pocket for some tobacco. While thus engaged his gun slipped from his hand and the concussion as it struck the ground discharged it.

The shot took effect in Burns' forearm, inflicting a severe wound.

### ROOSEVELT ON REGULATION OF TARIFF

Former President Favors Establishment of Commission—Defends Position of Party

St. Louis, Oct. 12.—Theodore Roosevelt denounced the Democratic party in New York as an "unholy alliance between Wall street and Tammany Hall" in a speech here last night, and attacked the Democratic party in Missouri by calling it the party "that represents the special interests and special privileges." Col. Roosevelt also defended the present position of the Republican party on the tariff. He did not discuss the Payne-Aldrich tariff law, saying that he wished the people to look forward and not backward. He said the party was united on the doctrine that the tariff shall be such as to equalize the cost of production here and abroad, and that it should be regulated by a commission.

In reference to the tariff Col. Roosevelt said:

"As to the tariff, it seems to me that some people would have it I fully admit that there was a time when if our opponents had acted with reasonable wisdom, they could have made us trouble, but they let the opportunity slip by and they did not act with reasonable wisdom.

"The Republican party is united on the doctrine officially set forth in its platform two years ago. The tariff shall be such as to substantially equalize the cost of production here and abroad. As the cost of production is mainly labor cost, this means primarily to continue to give to our laboring men that higher standard of wage without which there cannot be that higher standard of living which primarily distinguishes the American wage-worker from the wage-workers of all other countries.

"Now not only is it the doctrine of the Republican party, but I believe it is the doctrine of the overwhelming majority of the American people. I do not believe that any section of the American people at present seriously advocate free trade or a tariff for revenue only. I most emphatically do believe that if any such issue is raised there will be an overwhelming decision for the policy of such measure of protection as that above outlined.

"Now the question is how to accomplish the purpose thus explicitly declared. It seems to me, and I think that it seems to the people of this country, that the methods hitherto obtaining in making all tariffs for a great many years past are ineffective, incorrect and not justly applying the protective principle as outlined above. We wish to give proper protection to each given business, and above all to the workmen in each given business, as a matter of right and justice, and not as a matter of favor or preference obtained by log-rolling. Therefore, we feel that there should be a tariff commission composed of impartial experts amply equipped for obtaining not merely from the statements of the interested parties, but by such investigation as will satisfy them that the facts are accurate; information that will enable congress in each given business to establish the measure of protection necessary to carry out the principles above set forth.

"Moreover, these investigations should form a programme, each successive report being treated on its merits, so that each schedule can be revised by itself in accordance with the facts developed by this commission of impartial experts and without any

### MERGER SUIT.

St. Paul, Oct. 12.—G. A. Severance, representing the government, yesterday concluded his argument in the Union Pacific merger case before the United States circuit court here.

"The railroad," he said, "has drained the west of its resources and has taken the money east to buy stock with. If competitive business were restored it would bring about an untold development of the west that has been neglected so long. It would bring immense harvests from Oregon, Washington, Idaho, California and other western states."

### PURIFY WORKERS AT SEATTLE.

Seattle, Wash., Oct. 12.—After a tour of the restricted district, Dr. E. A. B. Bell, superintendent of the famous Midnight Mission in Chicago, branded Seattle as the wickedest city that has been visited by the Purify League party that is touring the west probing the white slave traffic and other evils that tend to degrade civic standards. Dr. Bell declared that the district is worse than anything seen in Asia or the Suez.

MORE STEAMERS FOR PACIFIC TRADE.

Sir Thomas Shaughnessy in his presidential address to the shareholders of the C. P. R. at Montreal stated that there had been a steady growth of trade on the Pacific Ocean and that the present steamers operated by the company were too small and should be replaced.

This position is a very gratifying one for the C. P. R. and also for the people of Victoria. It is an indication that before very long there will be more steamers and bigger plying back and forth between the Orient and this port.

The lecture of Dr. Hewitt last night was a clear exposition of the danger to the community of allowing the house fly to take possession of our homes and business premises.

Another feature of the lecture of last night was the warning given of the danger from using fruit or candies which have been exposed in stores windows or in any part of the shops where flies are able to get near them.

In the course of his lecture Dr. Hewitt explained to his audience that he was not giving them the opinions of a few faddists, but the calm deliberations of some of the most prominent scientists in the world who had investigated the matter.

The committees of the various church who assisted in the W.C.T.U. bazaar held a few days ago are requested to meet in the mission rooms, Store street, to-morrow afternoon at 2.30 o'clock.

John P. McLeod, engaged in the attorney-general's department, has been appointed deputy attorney-general, to succeed H. A. Maclean, who recently resigned. Mrs. McLeod is well and favorably known in the city and province, and is generally regarded as possessing exceptional qualifications for the post she assumes.

The provincial government is in receipt of the audit of the Victoria and Sidney Railway Company, which it was recommended should be carried out with a view to arriving at an equitable consideration of the status of the road. The audit has been referred to the audit department of the government for consideration.

The regular monthly meeting of the Daughters of Scotland will take place to-morrow evening at 8 o'clock in the Sir William Wallace hall, Broad street. At the close of the meeting a social will be held to which all friends of the members will receive a cordial welcome. Ladies will please bring refreshments. Good music will be provided.

George H. Walton, who for the past twelve years has been living at Dawson, Y. T., has decided to settle in the neighborhood of this city. He called at the offices of the Vancouver Island Development League yesterday to secure information as to the most desirable place to reside. He has gone to Colwood, and it is expected that he will purchase a small ranch there. Mr. Walton visited Victoria about two years ago, and was so charmed by its surroundings that he decided to leave the north.

W. S. Phillips, in charge of the publicity department of the Great Northern Railway Company, has written the Vancouver Island Development League asking for photographs and memoranda to be used in the Great Northern advertising scheme which is to take the form of an encyclopaedia. The league has sent ten photographs illustrating various parts of this city, and a full set of literature, together with a letter setting forth in detail facts and figures showing the growth and progress of Victoria.

At the Victoria theatre last night Sam and Lee Shubert presented the last play written by the late Clyde Fitch entitled "The City," which was remarkable for containing a character of a drug fiend, but the character was

neither pleasant or enjoyable to look upon and was illogical in its conception. The play deals with political intrigue and holds that city life brings his weaknesses and sins are stronger than his good intentions then the good intentions go to the wall and vice versa. As a matter of fact, the same applies to life in a village or a desert. The company which presented "The City" was capable and the play was well staged and dressed.

There passed away early this morning at the family residence, 543 Michigan street, Philip Guy Robbins, youngest son of Major and Mrs. Robbins. Deceased was born in Willedest, Middlesex, Eng., and was in his twenty-seventh year. The funeral will be private.

Leaving the parlors of the B. C. Funeral Company at 2.15 o'clock this afternoon, the cortege bearing the remains of the late 19 months old son of Mr. and Mrs. William John Cox proceeded to the Roman Catholic cathedral, where Rev. Father Latene conducted services. The attendance of friends was very large, and the little casket was laden with beautiful floral tributes. The remains were interred in Ross Bay cemetery.

Mr. and Mrs. Stephen Court, 1370 Pandora avenue, mourn the loss of their five-year-old son, James William Court, whose death occurred last evening at the family residence. Much sympathy is extended to the bereaved parents. The funeral has been arranged to take place to-morrow afternoon at 2.30 o'clock from the Hanna parlors, Yates street. Rev. W. Stephenson will officiate.

OBITUARY RECORD

This morning the remains of the late Benjamin Lundy, who died in New Westminster yesterday, were forwarded to Salt Spring Island, the late residence of deceased, by the Victoria undertaking parlors. The late Mr. Lundy was enjoying a holiday on the mainland when he was taken ill. He had been farming on Salt Spring Island for 21 years, and was well known there. Deceased was 68 years of age and was a native of Belfast, Ireland. A widow and three children are left to mourn his loss.

Interment of the remains of the late Herbert Clark was made yesterday afternoon in Ross Bay cemetery. The funeral took place from 2 o'clock, and was held at Christ Church cathedral, where Dean Doull conducted services. Many sympathizing friends gathered, and the service was of a most impressive character. The deceased was 83 years of age and was a native of Belfast, Ireland. A widow and three children are left to mourn his loss.

## WINS DEGREE OF D. C. L.

G. Henderson, of Ottawa, Son of Wm. Henderson, of this City, Honored.

The University of Toronto has conferred upon Gordon Henderson, barrister of Ottawa, the degree of doctor of civil law. Mr. Henderson is a bachelor of civil law, of Trinity university, which is now affiliated with Toronto university, and this summer wrote successfully in the examinations for the higher degree. His thesis is commended by the examiners as a brilliant production.

Mr. Henderson is now entitled to be styled as doctor, and his successful achievement is winning him the congratulation of a host of friends in Ottawa. Dr. Henderson has been in active practice in the capital for many years, and is one of the best known legal men in the city.

Dr. Henderson was born in Scotland, is 42 years of age, and has resided in Ottawa since a child. He is a son of Wm. Henderson, architect of the department of public works, at Victoria.

## POINTS OF INTEREST

If you want an insurance policy on your life, it must surely be of interest to you to be insured in a company that has no interest to consider or care for except the interests of its policyholders—that is to say, your interest.

It must also be of interest to you to be insured in a company where not one dollar of your money, or the interest earned on your money, goes into the pockets of stockholders—all the profits being paid to policyholders alone.

It must further be of interest to you to be insured in a company which is shown by the Government Blue-Books to have the lowest expense rate, and to have increased its surplus over sevenfold in the last 10 years, every dollar of which surplus belongs to the policyholders.

Such a company is The Mutual Life of Canada. It is the company for you. R. L. Drury, manager; Fred. M. McGregor, special agent; 918 Government Street, Victoria, B. C.

A meeting of the Voters' League of Ward II, will be held in Weston's hall, Broad Street, this evening.

This evening the regular monthly meeting of the school board will be held, when general business will be discussed. It is urged that all members attend.

That British trade representation in the province is amply sufficient for all the demands of the present time was the opinion unanimously expressed by the council of the board of trade at its meeting yesterday. It was pointed out that there were at present two trade correspondents in the province, one stationed at Victoria and the other at Vancouver, and that their work was understood to be giving complete satisfaction.

There is a great influx of settlers to the Holberg-San Jose district. It is estimated that no fewer than forty families are now located in that part of the island, and among this number the influx of new settlers, irrespective of those who have found their way southwards from the Cape Scott district, is a notable factor in the development of the island. The settlers in practically every instance are Danes or Scandinavians—men who by their extraction, as well as through the pursuits in which they are engaged, form one of the most desirable class of immigrants it is possible to attract to the island. The future of the Holberg-San Jose district seems assured, as already eminent success is attending the efforts of the incoming settlers in exploiting the resources of the district which they have made their home.

With sunset to-day the Jewish brethren will celebrate at their temple, corner Pandora and Blanchard, the most holy of their days, the Sabbath of the Sabbaths, called Yam-Kippur, the Day of Atonement, which lasts until sunset to-morrow. This evening services begin at 7 o'clock sharp. Rabbi Joseph Zeisler will deliver an appropriate sermon to the occasion. To-morrow evening the services begin at 9:30 continuous to sundown. At about 11 o'clock the memorial services for the dead is to be held. The Rabbi will preach at this the most solemn occasion a feeling sermon on the text: "All the rivers run into the sea; yet the sea receives full; unto the place whither the rivers go, thither will they continue to go." Ecc. I, 7. Following a prayer for the redemption of the soul of the dead King Edward VII, prayers for individuals will be offered by the Rabbi. Everybody invited; seats free.

## SMART WEDDING AT CATHEDRAL

### NUPTIALS OF A. F. WESTON AND ELIZABETH IRVING

Groom is Officer on Shearwater and Bride a Popular Native Daughter

An extremely smart naval wedding and one of unusual interest took place at 3 o'clock this afternoon in Christ Church cathedral. The contracting parties were Arthur Fullan Weston, 3. N. H. M. S. Shearwater, second surviving son of Major West, late Fifth Royal Irish Lancers, and Miss Elizabeth Irving, elder daughter of Capt. John Irving.

The bride, who was given away by her father, was very beautifully and becomingly gowned in ivory satin, en traine, having the paneled front and bodice heavily embroidered in silk and silver, with rose motif. A draping of fine duchesse lace gave an exquisitely dainty finish to the bodice. With this she wore a veil of fine tulle and coronet of orange blossoms, and carried a bouquet of bride's roses and lilies of the valley. A jeweled bracelet, the gift of the bridegroom, and a diamond and emerald brooch, the gift of her mother, were her only ornaments.

She was attended by her sister, Miss Genevieve Irving, and Miss Violet Pooley, both of whom were very prettily attired in white satin with nines overdresses, with corsage bouquet of gold roses. They wore the groom's gift, a gold crown brooch, and white tulle veils, held back from their faces with gold bands, and fastened with pearls. A unique naval touch was added, by each maid carrying a full size white oar with gold bands, tied with streams of gold ribbon caught with yellow chrysanthemums.

The best man was Dr. Gribbell, surgeon H. M. S. Shearwater, and the groomsmen, Lieut. P. W. S. Henderson, H. M. S. Shearwater, The ushers were Messrs. Bromley, Marshall, Cane and Douglas Bullen.

The bridegroom and all the officers were in full naval uniform, and the church decorations were beautifully carried out in white and gold.

The bridal party was met by the choir boys who rendered a full choral service, and the impressive and beautiful ceremony was conducted by the Lord Bishop of Columbia, assisted by Rev. J. H. S. Sweet.

As the bride and groom were leaving the cathedral the blue jackets from H. M. S. Shearwater, who had previously marched from the Esquimaux car, playing the bag pipes, crossed their cutlasses, forming a guard of honor for their superior officer and his bride. Later, they dragged the carriage containing the bridal couple from the cathedral to the residence of the bride's parents, Menzies street, where a reception was held.

Mr. and Mrs. Weston received the congratulations of their friends in the drawing room under a latticed arch and large bridal bell of bride's roses and smilax. Throughout the different rooms, the guests were regaled with refreshments with touches of gold was artistically carried out. The buffet refreshment table was particularly beautiful with white tulle, ribbon streamers and bride's roses.

The bride's mother wore a lovely gown of plum colored silk crepe de chene with becoming toque in same shade trimmed with pannels and silver, and white feather boa.

Many very beautiful dresses were worn by the ladies present, and the sprinkling of naval uniforms made a striking contrast.

The bride's going away costume was a smartly tailored navy blue ladies' cloth trimmed with black soutache braid, with which she wore a blue Napoleon hat with gold rosettes and an ermine muff and stole. The honeymoon will be spent in the country, and later in the season Mr. and Mrs. Weston will visit their relatives in England.

The long list of beautiful and costly presents is appended:

- Bride to bridegroom, gold cuff links and colored photograph; bridegroom to bride, jewelled bracelet and silver tea service; bride's mother, emerald and diamond brooch; bride's father, cheque; bridegroom's mother, diamond and sapphire bee brooch; bridegroom's father, cheque; Mr. C. ## The McLaughlin Buick Car Still Leads

MR. ERNEST G. MAYNARD, 312 Park Boulevard, Victoria, writes the following:  
Western Motor Supply Co., Victoria, B. C.  
Gentlemen: I have driven my McLaughlin Buick car continually since May 18th, 1909, covering OVER 15,000 MILES, and during this period my repairs and replacement account has only been \$7.00 for one spark plug and one spring. My car is running as well now as when I purchased it. I have travelled over some of the roughest roads on this island, also been over the Summit several times, and still running on the same tires I got with the car. I feel safe in saying it is the BEST CAR ON THE MARKET FOR THE MONEY.  
This is only one of the many unqualified testimonials that have been received. Better come in and let us demonstrate one for you.

## TY COBB AS BOY IN "THE COLLEGE GIRL"

Outfielder of Detroit Tigers Dons Buskin Monday Night in Theatrical Engagement  
(Times Leased Wire.)  
Kansas City, Oct. 11.—Ty Cobb, actor: The famed outfielder of the Detroit Tigers, has doffed the baseball uniform and soon will don the buskin. Cobb has accepted an offer of \$150 a week to appear as the "college boy" in a new play called "The College Girl." The first appearance of the Georgian will be in Kansas City, Monday night. Cobb telegraphed the management to-day as follows:  
"Regarding your offer of \$150 a week to play a part in 'The College Girl' company, I accept same. Will report in Kansas City, Monday. Believe me, make good as actor as well as ball player."  
Considering the fact that the play opens Monday evening and Cobb reports Monday, it is probable that the ball player will find himself over-taxed in learning his part.

## PORTLAND IS LOSER BY PLAYING HETTLING

National League Declared to Have Been Spokane Player on Sept. 2 Under Contract  
(Times Leased Wire.)  
San Francisco, Oct. 12.—The Oakland-Portland baseball games played on September 28th, 29th and 30th, in which Gus Hettling participated, were declared forfeited to-day by Judge Graham, president of the Pacific Coast league. The ruling of President Graham means that the two clubs affected to-day have the following percentages:  
Oakland ..... Won Lost P.C.  
Portland ..... 19 3 263  
Portland loses a comfortable lead and falls into second place, but is still within striking distance of the Oaklanders. Judge Graham's decision is as follows: Manager Wolverton, of the Oakland baseball club, has protested the games played between the Portland and Oakland clubs at the city of Portland on Sept. 28th, 29th and 30th, 1910, upon the ground that one, Gus Hettling, who played with the Portland baseball club in those games, was ineligible to play therein, he having signed a contract with the Spokane club, of the Northwest league, and having played with said Spokane club during the playing season in that league closed; and that under the rules of organized baseball the said Hettling was ineligible to play championship ball in another league during this season.  
The law governing this controversy is found in the National Association rules, which the Pacific Coast league has solemnly subscribed to, in section 3 of article 26, which are as follows:  
"Players are prohibited from playing for any club or clubs for the purpose of participating in championship games after the close of the season of the league to which they are under reservation, under such penalties as the national board of arbitration may inflict."  
"Clubs are also prohibited from employing such players in any capacity under penalty of forfeiture of games in which players participate."  
That Hettling signed a contract with Spokane and during its playing season of 1910, which closed on or about Sept. 25th, 1910, cannot be questioned. The report of Secretary Parrelly of the National Association of Professional Leagues, shows that Hettling signed a contract with the Spokane club on September 2nd, 1910, and under the contract was to receive \$250 a month. He was therefore ineligible to play with Portland in the games protested by Manager Wolverton.

## MANY HEADED TOWARDS VANCOUVER ISLAND.

Enquiries as to Opportunities Pouring Into the Development League  
With the intention of establishing a business in Victoria, A. Harding, Armstrong, B. C., has written to the Vancouver Island Development League asking for information regarding the possibilities for a good business man in this city. He stated that he has considerable capital, but that he wishes to secure good returns for his investments.  
In his letter he says: "I have a ranch in Armstrong valued at \$10,000 and am expecting to negotiate a sale shortly. I have a good knowledge of the English, French and German languages and am also well up in mathematics. If proper inducements can be offered me I will invest my money in Victoria, as I wish to come to the coast to reside."  
Another communication received at the local offices of the Development League yesterday was from Frank H. Abbey, Yokohama, in which he says that he intends coming to the island and am also well up in mathematics. He wishes to know the present scale of wages prevalent here and states that he has sufficient capital to conduct a satisfactory farm if prices are not too high.  
This is an easy letter to answer, as Vancouver Island is reputed to be a coming poultry centre. This industry has secured a firm footing on the island and is every day gaining in importance. More poultry farms are being established as the climatic conditions are most favorable for the conducting of poultry farms on a successful basis. The birds raised here are equal to any of those on the coast.  
The literature of the league is in great demand. Each mail brings many inquiries for booklets dealing with the various sections of the island. Nearly every letter contains the following question: "I am greatly struck with the island and would like to settle on the coast."  
NO SLEEP IN SEVEN YEARS.  
Hungarian Woman's Strange Experience as Result of a Fright.  
It is possible that the medical profession in Budapest would not yet have known of the strange case of Frau Bertha Hejemes, who has not slept in seven years, had she not been subject in the past few months to irrepressible fits of yawning.  
The woman, who is 38 years of age, has a little girl of 10. She began her long vigil one night when a gypsy woman attempted to kidnap the child. Since then she has not been able to go to sleep; neither has she had any inclination to do so. She is in excellent health, and has never had a day's illness; but as soon as she endeavors to lie down she is seized with a violent nervous agitation, which compels her to sit up again.  
The woman declares that she is quite content in her sleepless state, as with the whole twenty-four hours to herself she is able to perform all her household duties, as well as to do a good deal of reading. A curious fact is that since the beginning of her insomnia she has developed a great taste and

ability for study, and has learned three languages.  
"The real progress of a university consists not only in the amount of knowledge which it adds to the already existing sum total, but in the degree of success with which it makes these stores of universal knowledge and scholarship a living force in the lives of the people."  
President Falconer thus interpreted the word progress in its relation to the university in his address to the students in convocation hall, Toronto.  
After greeting the new students and referring to the new library extension and the opening of the university schools, President Falconer said: "Everywhere we hear the word progress used at the present day—an individual, a nation, yes, even a university must have progress. Now wherein does progress consist? In the case of the university, does it consist in the increase of buildings and equipment? No, for these things are merely the external wrappings for the true life of the university. They are only important as reflecting the progress of the life they represent. The professor will say progress depends on the facilities he has for teaching and adding to knowledge or doing these things better than they were done a generation ago. I think we may say that this is true of the university of Toronto. Courses are now carefully prepared for you with a view to the exigencies of modern life."

WAGES WAR ON EVIL INFLUENCES

CARDINAL LOGUE MAKES STATEMENT

Primate Believes Roman Catholicism Will Be America's Salvation

New York, Oct. 12.—Cardinal Logue, Catholic primate of Ireland, in a public statement yesterday, urged the aims and purposes of Roman Catholicism by declaring that the Catholic church, because of its fundamental teachings is to be America's salvation.

"Because its cardinal principles are more vitally Christian than those of other creeds," said Cardinal Logue, "Catholicism will be America's salvation. The church strikes at the very root of things tending to bring about national decay."

The cardinal intimated what he believed to be America's besetting sins, and among these he included divorce and graft by public officials.

"Against such evil influences," said the cardinal, "the Catholic church always has waged implacable warfare. Catholicism represents an application of deepest Christian principles. I never could understand how an intelligent Christian honestly could oppose our church."

"The evil results of warring against Catholicism were never better illustrated than in France. This country has steadily retrograded since it began fighting the church, until now she is so decadent that Germany could overwhelm her should the two countries engage in war. France's population has decreased and her official record represents incompetency and dishonesty."

Least Portugal suffer in like manner, Cardinal Logue sounded a note of warning for that country.

"Portugal should take France's lesson to heart," said the cardinal. "The warfare on the Catholic church in Par-

tugal is merely an attempt to steal church property on which the state has absolutely no claim. The confiscation of such property results in the funds going into the pockets of public officials instead of the coffers of the state.

"I believe the time is coming when America will be classed as a Catholic nation. Everywhere these evidences of the tremendous growth and influence and growth in membership. Only narrow-minded people regard such growth as a menace."

Replies to Cardinal. Cardinal Logue's prediction of the growth of Roman Catholicism in America and his defence of its principles were unreservedly counted by the Rev. C. F. Aked, the well-known pastor of the Fifth Avenue Baptist church.

"The Catholic church," said Dr. Aked, "throughout the ages has been the unrelenting foe of educational liberalism. Zeal of education and an enthusiasm for liberty are the two things that differentiate America from other nations and these two things are what Catholicism fought hardest. 'Catholicism is not going to sweep this country. Of its 15,000,000 members, though the census gives only 12,000,000, 5,000,000 are foreigners who are preached to in foreign tongues."

MISSING FOR YEARS. New Westminster, Oct. 11.—Mr. Kennedy made application that J. W. Joiner, Abbotsford, be presumed dead and his father granted administration of his estate. Joiner had last been heard of seventeen years ago. Deceased owned a quarter section of land near Abbotsford, which was now worth \$4,500. His father lived in St. Thomas, Ont. J. W. Joiner had been advertised for and his father had never changed his address. Administration was granted.

PANAMA-PACIFIC FAIR. Omaha, Neb., Oct. 12.—That the Omaha Commercial Club has decided to support San Francisco's claim to the Panama-Pacific exposition in 1915, and not New Orleans, as was stated a week ago, was announced yesterday. The announcement favoring New Orleans was branded as an error. The club will exert its efforts through the Nebraska delegation to Washington to assist San Francisco.

Another Chapter Added to the Swift-David Litigation. Seattle, Wash., Oct. 12.—A decision by the United States circuit court of appeals, just received here, adds another chapter to the Swift-David litigation, which promises to continue to the end of the appellate route.

Recently in British Columbia Edward F. Swift, the Chicago pork packer, and his co-plaintiffs, several British Columbians, won at the trial of their case there against Lester W. David, the use of the Swift-David litigation, which promises to continue to the end of the appellate route.

WIFE KILLS HER HUSBAND IN DUEL

Fight Follows Quarrel Over Match and Building of Fire

Lake Charles, La., Oct. 12.—A duel between husband and wife, he armed with a shotgun and she with a revolver, was the death setting for Dr. B. Temple Smith, who is dead here from wounds inflicted by Mrs. Smith in the duel on the morning of September 25.

The startling story was brought out before the coroner's jury and Mrs. Smith was held responsible for her husband's death.

There has been a quarrel over a match and the building of a kitchen fire. The physician slapped his wife and when she protested against such treatment he commanded her to get a weapon. "Get your gun, I'll get mine, and we'll shoot this out right here!" he cried. They met, both armed, in a hallway of the residence. Whether the doctor tried to use the shotgun has not yet been brought out in the testimony. Mrs. Smith fired twice and her husband staggered to his room, where she followed. The woman knelt by his side on the floor and cried, "My God, I had to do it!"

Then, she says, he asked her to "go ahead and finish him." The district attorney formally charged Mrs. Smith with manslaughter.

LUMBER SUIT. Seattle, Wash., Oct. 12.—A decision by the United States circuit court of appeals, just received here, adds another chapter to the Swift-David litigation, which promises to continue to the end of the appellate route.

Recently in British Columbia Edward F. Swift, the Chicago pork packer, and his co-plaintiffs, several British Columbians, won at the trial of their case there against Lester W. David, the use of the Swift-David litigation, which promises to continue to the end of the appellate route.

TO CONSIDER MAKING OF BETTER HIGHWAYS

Board of Trade to Take Matter Up at Meeting on Friday Next

The following letter from the Pacific Highway Association will be considered at the quarterly meeting of the board of trade to be held on Friday next:

"Evidence that public sentiment is heartily in accord with the work that the Pacific Highway Association has undertaken in the promotion of the construction of an international highway from Mexico to Canada is plentiful from the fact that the Vancouver Island Development League has affiliated with the highway association to help carry out this work. The Vancouver Island Association joining in this project has already taken tangible shape in that it has sent to the treasurer of the highway association a cheque for \$200 to take care of their share of the expense of the organization for the first three months of its existence.

"It is conceded by all who have followed the growth of the Vancouver Island Development League that this organization, which is a sort of a federation of all the commercial organizations on the island with headquarters in Victoria, has done more for the development of the island empire of Canada than all other forces combined.

"Mr. A. E. Todd, a prominent member of the Victoria organization, when questioned as to how much Vancouver Island would benefit from this international highway, said: 'In the first place I expect to personally get a great deal of pleasure from the use of this road-way, and then I consider it a great movement tending to the advancement of civilization on the coast of North America and further it is going to make dollars and cents for us from the high class tourist trade that it will bring to Vancouver Island.'"

The question of good roads generally throughout the province will be considered. The desirability of provincial trunk roads is generally acknowledged, but it is felt that there is some difficulty in carrying out a provincial scheme under existing arrangements whereby municipalities through which the roads run are responsible for the upkeep within their boundaries.

The board of trade will consider the question of a central control of such roads as may be considered trunk routes, the discussion embracing not only the existing roads to be linked through the government policy, but also the construction of new roads.

PASSION PLAY RECEIPTS.

Revenue From Sale of Seats About \$437,500 for Season.

The Passion Play at Oberammergau, which has finished the greatest season in its history, has produced roundly \$437,500 revenue from the sale of seats alone. These receipts represent about 150,000 visitors.

All profits from the sale of seats remain in Oberammergau or the immediate vicinity. Only a pittance is divided among the players themselves. Anton Lang, for instance, received something like \$2,500 for six months' work. The rest is devoted to communal purposes of an educational, philanthropic and religious character. The management announces that the play will positively be reproduced in 1920.

The thoughts of Herr Lang and his wife are largely concentrated on their trip to the Holy Land next spring. Their chief concern is the fear that they will be indecorously honored. They wish to make their pilgrimage as unobtrusively as possible.

M. J. HENEY DIES IN SAN FRANCISCO

Builder of White Pass and Yukon Railway Passes After Long Illness

Seattle, Wash., Oct. 12.—From complications resulting from exposure and cold endured when he was wrecked in the steamship Ohio disaster in Northern waters in August, 1908, Michael J. Heney, builder of the White Pass & Yukon railway system, and contractor on the newly completed Copper River & Northwestern road, died at an early hour yesterday in San Francisco.

Mr. Heney had been ill more than a year, and had rallied at times, regaining his strength in so striking a manner that most of his friends and the thousands of Alaskans who knew him by name believed that his return to active business life was but a matter of a short time.

At Mr. Heney's deathbed were his brother, E. A. Heney, and his clerk, Karl Siegler. These were summoned to San Francisco a few days ago, when a sudden sinking spell foretold the coming end of the long fight which the contractor had made against the grim reaper.

A year ago Mr. Heney returned for several weeks in Seattle. It was then made known that he had never recovered from the shock to his constitution occasioned by the long exposure when the Ohio struck a rock and sank north of Millbank Sound, British Columbia. Mr. Heney was washed overboard when the ship took her final plunge, but he swam to safety and then worked with might and main to aid in the rescue of the women and children aboard.

Mr. Young was manager at the time. He was formerly associated with the London firm of accountants, Messrs. Turquand, Youngs & Co., and when conducting an audit at the Penrhyn Quarry office his ability so impressed

CIVIC NOTICE.

Re Municipal Election, 1911.

The attention of persons desiring to qualify as "Householders," or "Holders of Trade Licenses," to vote at the Municipal Election to be held on the 2nd Thursday of January, 1911, is drawn to Section 6 of the "Municipal Elections Act," which provides that "in the case of the holder of a trade license, or in the case of a householder, he, or she, shall, during the month of October in each year, make, and cause to be delivered to the Clerk of the Municipality a Statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking Affidavits in the Supreme Court, Justice of the Peace, or Notary Public, in form, and to the effect of Form 1 in the Schedule to the said Act in the case of the holder of a Trade License, and of Form 2 in said Schedule in the case of a householder."

"HOUSEHOLDER" shall extend to and include any person of the full age of twenty-one years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provisions of the proviso at the end of sub-section (117) of Section 59 of Chapter 22 of the Statutes of 1905, being the "Municipal Clauses Act," as amended (which exempts certified efficient militiamen and persons over the age of 40 years from paying road tax), have paid directly to the Municipality all rates, taxes or assessments, which are not chargeable on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the Municipality for the current year, other than water rates or rents, or license fees for dogs."

Section 7 of the said Act further provides that "No declaration shall be accepted by the Clerk of a City Municipality, unless it is delivered within 48 hours after it is made."

Section 15 further provides that "No person who is not a British subject shall have his name placed upon any Municipal List of Voters."

Forms of Declaration may be obtained, and the necessary Declarations made, at the Office of the City Assessor, 3rd floor, City Hall, Douglas street.

Mrs. Marpole, was also present, occupying a chair in the latter's box.

Mr. and Mrs. Granville Proby, Medicine Hat, Alberta, are among the recent prairie new comers to the city. They have taken up their residence at Hill Crest, Fort street.

Miss Nancy Nash has returned from Fort Macleod, where she has been spending the past year with relatives. She will shortly enter the training school for nurses at St. Joseph's hospital.

A dance under the auspices of the Women's Auxiliary of the Royal Jubilee hospital will be given in the Empress hotel sometime in November. The exact date has not yet been decided on.

The Daughters of Pity will give a dance in A. O. U. W. hall on Friday evening, October 28th, commencing at 8.30. Mrs. Hasell, Mrs. C. E. Wilson, Mrs. Jameson and Mrs. Simpson will act as chaperons. All who have on former occasions attended the dances given by this popular society of young ladies, know that they are very delightful and enjoyable affairs. Miss Thain's orchestra will furnish the programme, and a buffet supper will be served. Tickets have been placed at the low sum of one dollar each, and may be obtained from any member of the society.

A quiet but very smart little wedding was solemnized in St. Andrew's Presbyterian church here on Saturday last, October 8, with Rev. Leslie Clay officiating. The contracting parties were Miss Frances Payzant, third daughter of Mrs. L. S. Messinger, Wolfville, Nova Scotia, and Dr. J. B. Hart, Vancouver. The bride wore a tailored suit of brown broad cloth with brown velvet picture hat, and was given away by her brother, C. R. Messinger, Vancouver. After the ceremony Dr. and Mrs. Hart left for Shawnigan, where the honeymoon will be spent. They will reside in Vancouver.

The managers and senior employees of David Spencer, Limited, enjoyed a very pleasant evening on Wednesday, October 5, when Mr. and Mrs. T. A. Spencer, Vancouver, were entertained at a dinner, the occasion marking their return from an extended European business trip. The tables were laid in the form of a cross and were very prettily decorated with yellow chrysanthemums, amilax and palms, with a very pretty centerpiece of electric lights. The dinner, which covered everything that could be desired by the most severe critic, was served entirely by the staff of the popular tea room, and was worthy in every respect of the department by which it was prepared. The programme which followed was enjoyed by every one, and consisted of toasts to "Our Guests," proposed by the chairman, and responded to by T. A. Spencer; "Our Store," proposed by David Spencer, sr., and responded to by Victor Spencer; "Our Ambitions," proposed by George Barton, and responded to by G. Spencer. These toasts were interspersed with music and songs. The gathering broke up with the singing of "Auld Lang Syne." About ninety persons sat down, the Victoria store being represented by David Spencer, jr., and the Nanaimo store by E. E. Summers. The chair was occupied by H. H. Bishop. Appreciation of the orchestra of M. S. Hastings was evidenced by the frequent applause.

## The Evening Chit-Chat

BY RUTH CAMERON

What a superfluity this world, at least this part of it—it may be different on the other side of the globe—has of hasty people.

People whose judgment is always a few minutes and usually some hours behind their actions, I mean.

It seems to me that to one person who would be improved by thinking and moving and acting more quickly, there are nine who would be made more desirable citizens by thinking and moving and acting more deliberately.

A man told me recently of a stenographer whom he was about to dismiss for just that fault.

"I tell her of something I want done," he said, "and she seems to understand me perfectly. She assents to all my directions. I say, 'Are you sure you understand just what I want?' She is almost insulted by my doubts and rushes off to start the work."

"In five minutes she is back to interrupt me at whatever I have focussed my mind on, with half a dozen questions that she has thought of."

"She's a nice girl in lots of ways but I want someone who is more deliberate."

Emerson, in one of his essays, speaks of "afternoon men" who upset the scheme of things by being always tardy, always lagging behind the times, always a bit too late in their decisions and actions.

Seems to me the scheme of things is upset a good deal more by "sunrise men" who are always wasting their own and other people's energy by hasty and unconsidered action.

In one of the western states there is a prison where the men who have committed crimes that are a result of a quick temper, such as murder or manslaughter or assault, are set to work doing some of the very finest work of watchmaking.

They deal with such microscopic and fragile parts that a hasty or ill-considered movement will destroy the work of weeks.

The theory is that the complete control and slowness of motion that this work requires acts upon their mentality and teaches them self-control and deliberation.

Seems to me it wouldn't be a bit bad idea if a course in watchmaking could be introduced into the public schools.

### NEW HOSPITAL PROJECT IS UP

#### SCHEME IS ADVANCED BY WOMAN'S AUXILIARY

##### Proposed Institution to Take the Form of Memorial to King Edward VII

At an important meeting of the Woman's Auxiliary of the Provincial Royal Jubilee hospital held yesterday afternoon in the board of trade rooms, the question of a new hospital was discussed. It was pointed out that, throughout the Empire, all the principal memorials to the late King Edward VII were taking the form of hospitals or medical aid, and a very great hope was expressed that Victorians would follow this lead and erect one memorial to all others that he would have loved. The meeting pledged themselves to assist the directors in every possible way when those gentlemen had arranged a plan of action.

It was announced that H. R. Jackson, manager of the Empress hotel, had arranged that the annual hospital ball (foregone last year on account of lack of suitable accommodation) might be held early this winter at the Empress hotel. A committee consisting of Mrs. C. W. Rhodes, Mrs. A. F. Griffiths, Mrs. Andrew Wright, and the secretary was appointed to make preliminary arrangements, with power to act, many of the ladies present undertaking to sell tickets. The attention of all the members of the Auxiliary is called to this event, and their interest and patronage asked. The ball will be held at the end of November or very early in December, the exact date to be fixed at Mr. Jackson's convenience and published later. In view of this event and Christmas work, it was decided not to call the sewing committee together until the new year. Mrs. M. Rathorn was appointed to represent the society at the monthly meetings of the Local Council of Women.

A letter from Mrs. H. B. Robertson, thanking the society for electing her president at the annual meeting (at which she was unable to be present), and regretting her inability to act.

From the Bishop of Columbia agreeing to set aside Sunday, Oct. 30th, as Hospital Sunday in all the churches of the Anglican communion, while the Rev. Joseph McCoy, secretary of the Ministerial Association, conveyed a similar assent from that body.

From F. Elworthy, secretary of the board of trade, thanking the auxiliary for providing floral decoration for the annual meeting of the board of trade, and from Mrs. Herrick McGregor, acknowledging the deep sympathy felt by her co-workers on the executive in her recent bereavement.

The following letter was also received from the resident medical officer at the hospital:

To the President of the Women's Auxiliary:

Madam—I am writing to ask if you will be good enough to assist the Daughters of Pity in helping to bring the equipment of the X-ray department up to date. Since I purchased for the board of directors, two years ago, the X-ray apparatus, which has been in almost daily use since June the 1st of this year, and has been of inestimable value to a large number of sufferers, many improvements and methods have been discovered rendering the purchase of additional apparatus necessary to secure the best results. The Daughters of Pity have promised to give \$50 towards this end, if the ladies will give the like sum they will be conferring a lasting benefit on the hospital, and will much assist the work of the operator.

EDWARD HASELL, Res. Medical Officer.

Mrs. H. B. Robertson's letter was heard with regret, and Mrs. C. W. Rhodes was unanimously, and with a standing vote, asked to resume the chair for this year, the vice-presidents not having yet served their term of office.

Dr. Hassell's request was cheerfully granted.

A vote of thanks was passed to the bishop and clergy of the city, and the secretary was directed to suitably acknowledge their kindness, and to attend to the distribution of envelopes.

A generous donation was received from Mrs. Stewart Williams, per Mrs. C. W. Rhodes, to be at her disposal for whatever fund she preferred. Mrs. Rhodes asked that this sum be devoted to the Maternity Ward Fund. Unanimously agreed.

The secretary informed the meeting that, on the occasion of the funeral of the late Mrs. A. J. Smith, a lady who for many years had been associated with the society as its president, and who initiated the work of the Hospital Aid Society twenty years ago, a wreath had been sent with the "Hospital Cross" in red, surrounded by white owners, with the affectionate remembrance of her associates.

The secretary reported having provided, during vacation, such articles as the matron urgently needed, viz., nightdresses, sheets, pillow cases, quilts and blankets. Mrs. Hassell explained that the Tuberculosis Ward would greatly increase the demand on the society, and that the funds of the society would be severely taxed this winter. She begged that each member would do all possible to increase, even to double, membership, as this would greatly enhance the working income of the society.

As this meeting was called late in the month, having been adjourned from the last week in September, on account of the exhibition, it was agreed to call the next month's regular meeting on Tuesday, November 29, with an emergency meeting, re the ball, subject to the call of the chair.

### BIG BENEFIT CONCERT FOR FIRE SUFFERERS

#### Amateur Talent in Good Cause at the Victoria Theatre on Friday

The social and musical event of the week will be the benefit concert in aid of the Campbellton fire sufferers which will be held by the courtesy of Mr. Denham, in the Victoria theatre, on Friday evening, under the distinguished patronage of His Honor, the Lieutenant-Governor and Mrs. Paterson, the Premier and Mrs. McBride, His Worship the Mayor, and Mrs. Morley; Lieut.-Col. Wadmore and the officers of West Point barracks and Lieut.-Col. Currie and the band of the Fifth Regiment. The latter by courtesy of Bandmaster Rogers, will render a number of selections from 8 to 8.30 and will also play during the intervals. The military men will attend in uniform, which will add to the brilliancy of the scene.

The performers will be the very best in the city, and everything points to a crowded house. Miss Phillips, a brilliant pianist and a comparative stranger to Victorians, will contribute numbers from Schuman and Grieg. Mrs. Guy-Goddard will give a cycle of musical readings. The always popular Arion Club will give two of their best numbers. Mrs. S. MacLure and Mrs. A. J. Gibson, who so delighted the audience at the Ladies' Musical Club concert, will render a grand concerto on two pianos, and Mr. Alfred Codd, who comes to Victoria with such a famous record of musical triumphs in Winnipeg, will contribute two vocal numbers. Victoria's two well known and favorite vocalists, Mrs. Harry Briggs and Mrs. H. Pooley, will also do their part, which will be no small one, to make this concert what its promoters confidently hope that it will be, a pronounced success socially and financially.

## We Startled a Good Many People with our Heater Offer Did You Read It?

We put some statements about heating stoves down in black and white that stove users never heard before. We want to repeat them! Remember, we are backed up by one of the grandest stove manufacturing concerns in the world—yes, backed by a concern that makes and sells more soft coal heaters each year by three times than any other maker anywhere. So there are millions of dollars behind what we have to say about heaters this year!

This heating wonder—this magic reducer of the fuel bill—this handsome steel, iron and nickel comfort giver is the Original patented Cole's Hot Blast from Chicago.

This remarkable heater is made by only one concern—the Cole Manufacturing Co. of Chicago. And it is sold by only one store here—ours. We have the exclusive selling agency.

To us alone is given the right to make the most unusual guarantee ever made on a heating stove.

Read it. It will open your eyes.

It will show you that your stove money will do far more than you thought it would.

Here is our authority from the President of the Cole Manufacturing Co.—the strongest guarantee ever made on a heater.

- "You are authorized to sell the Original Cole's Hot Blast Heater this year on the most rigid guarantee ever made by any stove manufacturer. Our guarantee to every customer of yours is—
- "1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.
- "2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with same size fire pot.
- "3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.
- "4—That the stove will hold fire with soft coal from Saturday night until Monday morning.
- "5—A uniform heat day and night, with soft coal, hard coal or lignite.
- "6—That every stove will remain absolutely air-tight as long as used.
- "7—That the feed-door is and will remain smoke and dust-proof.
- "All we ask is that the stove shall be operated according to directions and set up with a good flue.

"(Signed) COLE MANUFACTURING CO.,"  
(Makers of the Original Patented Hot Blast Stove.)

### Cole's Hot Blast—\$12 Up

And the fine feature is that you get this guarantee on a truly low-priced stove—at the same time it is one that will last a lifetime, and as long as it lasts it is guaranteed to remain a perfect heater.

Shouldn't this be your stove choice? Handsome—durable—economical. No kindling and rebuilding of the fire in the morning. Simply open the draft.

You dress in a warmed room. You eat in a warmed room. You live in an even temperature—and even temperature is health. Uneven temperatures mean colds or worse. The earlier you get the stove the longer your season of comfort. Look at once. Why not come in tomorrow?

A. & W. WILSON, Sole Agents  
Broad Street, Victoria

Remember, we are the only dealer here selling Cole's Original Hot Blast—the name COLE'S on the feed door.

### STATION WILL BE READY SOON

NINTH WIRELESS DEPOT TO BE AT SKIDEGATE

Dominion Government's Weather and Shipping Report Service Second to None

Work will be started within a week's time upon the ninth Dominion government wireless station in British Columbia which is to be located at Spencer's ranch, Dead Tree Point, near Skidegate, Q. C. I. A telephone line which will connect the station with Skidegate is in course of construction. It is expected that the new station will be working about the middle of November.

During the present year the government has expended a large sum of money on the perfection of its wireless system along this coast and the service has been giving great satisfaction to the shipping fraternity. Only a few of the steamships entering these waters on regular schedules are not equipped with wireless and for months past nearly all trans-Pacific liners have been reported two days before arrival. Three times a day the head station at Gonzales hill, Victoria, receives from all other stations reports on weather and shipping; and it is safe to say that the shipping men of British Columbia are better served in this respect than those of any other maritime centre on the continent.

Duplicate "Shoemaker" apparatus has been installed in all stations so that there is seldom a break in the continuity of the service. Separate dwellings have been erected for the operators who are now on duty almost continuously. As soon as the department has completed the aggregation of living quarters and instrument depots at all stations it is expected that the operators will work in shifts which will allow one man to be on duty every hour of the day and night.

### BRITAIN LEADS IN TONNAGE AND LOSSES

Lloyd's Returns Tell of Shipping Casualties During First Quarter of Year

Lloyd's register of shipping has just issued its returns of vessels lost or abandoned at sea for the quarter ending March 31st as reported up to September 30th, and this shows that 39 steamers of 75,853 net tons were abandoned, broken up, burned, lost in collision, foundered, lost, missing and wrecked, while 72 sailing vessels of 49,573 tons have gone from the roster.

As the leading maritime nation and owning more than half the world's shipping Great Britain is, of course, the greatest loser in the matter of steamships, of which 38 British bottoms were wiped out in the quarter named. The other nations' losses are tabulated thus: United States 4, Austria-Hungary 4, Danish 1, Dutch 3, French 3, German 2, Italian 2, Japanese 2, Norwegian 2, Russian 2, Spanish 2, Swedish 1, other European countries 5, Central and South America 2.

The sailing ship casualty list shows that the United States was the principal loser for the quarter ending March 31st. She lost 22 windjammer craft, of which eight were abandoned at sea, two lost in collision, nine wrecked and three reported missing. Great Britain abandoned none at sea, but lost five through wreck and two by collision, while the British colonies lost four by wreck and abandoned one at sea. The other losses were: Danish 1, French 3, German 2, Italian 2, Norwegian 2, Russian 2, Spanish 1, Swedish 1, other European countries 1.

Not the least interesting feature in Lloyd's voluminous and detailed report is the brief reference to the missing vessels which "have never since been heard of." There is the case of the British steamer *Lodonia*, 2,123 tons, which left St. Louis, Missouri, on Jan. 10th with sugar for Colombia and Bombay. She was sighted the day she sailed and then disappeared. Or the case of the little steamer *Old*, which sailed from Newport, the Maine coast, on Feb. 20th, bound around Cape Cod, but was never seen again. The others to add to the mystery of the sea were the Belgian steamer *Bulgaria*, Dutch steamer *Belle*, Dutch steamer *Prins Willem II*, German steamer *Capua*, and Norwegian steamer *Mercur*.

### TEUCER IS LOADING AN IMMENSE CARGO

Will Take Over 15,000 Tons of Freight, Including Salmon, Worth \$1,500,000

When the Holt liner Teucer, which will sail from Vancouver to the outer wharf next week to load cargo for the Orient and Europe, sails for Liverpool on November 2 she will carry the largest salmon shipment sent out of British Columbia and Puget Sound.

About 20,000 cases will be loaded here, 10,000 at Vancouver and 10,000 at Seattle, making a total of nearly one hundred thousand cases of a value approximately \$1,500,000. The Teucer will also have a capacity load of general freight and will pack over 15,000 tons into her immense holds, taking the largest cargo of the year from these waters.

### AWA MARU TO DOCK TO-MORROW MORNING

N. Y. K. Liner Reports by Wireless—Marama Leaves Honolulu

Wireless reports from the N. Y. K. liner *Awa Maru*, received through the Dominion Government station at Triangle Island, state that the steamship will dock to-morrow morning. The *Awa* is bringing the largest shipment of freight ever carried by a steamship of the N. Y. K. fleet from the Orient for Victoria. She has 1,475 tons measurement and has also 62 passengers to disembark here, 32 of whom are Chinese. At 9.45 p. m. yesterday the *Awa* reported her position as 260 miles from Triangle.

The O. S. K. liner *Tacoma Maru*, first of the new trans-Pacific fleet to call here, will touch here outward bound for the first time on Saturday. Bound for this port from Sydney, N. S. W., and way ports, the R. M. S. *Maikura* left Honolulu yesterday. She is due here next Wednesday.

### KUMERIC COMING

The Waterhouse liner *Kumeric* left Manila yesterday morning for Hongkong en route for Victoria and Puget Sound with a heavy shipment of hemp, totalling 9,425 bales, of which 2,257 bales are for Seattle. The *Kumeric* is scheduled to leave Japan on November 4 and is due here November 19.

### BOATSWAIN IS RECOVERING

Nanaimo, Oct. 12.—James Chalmers, the boatswain on the S. S. *Alameda*, who was the victim of an assault by a member of the crew, who, during a drunken spree, stabbed Chalmers several times, is progressing towards recovery at the local hospital.

### LITTLE YACHT WILL CROSS THE PACIFIC

Seafarer, Bound From Boston to Frisco via Suez, Reaches Yokohama Safely

Nearing the end of a cruise almost around the world, the little two-masted yacht *Seafarer*, owned and skippered by her owner, L. A. Norris, of San Francisco, is reported arriving at Yokohama and will shortly set sail across the Pacific.  
The seafarer is only 62 tons gross, 41 tons net, and has a crew of nine men. She has been across the Atlantic from Boston to the Mediterranean, through the Suez canal, at Colombo and Singapore and is now ready to make America from the Pacific side. Mr. Norris is accompanied by his wife and family. He says it is no more difficult to go around the world than to sail about Puget Sound, and says a Singapore exchange, expects to reach San Francisco in November, crossing the Pacific without a stop at Honolulu. The yacht is provisioned for a year and has a 35 h. p. motor for use in calm weather.

### MARINE NOTES

The Waterhouse steamship *Century* passed up for Vancouver from San Francisco to-day.  
The tug *Lorne* returned to port this morning after towing the schooner *Allen A.*, lumber-laden for Dutch harbor, to sea.  
After an uneventful trip to Clayoquot and way ports the steamer *Tees* returned to port last evening with fifty passengers.

The new *Weir* liner *Miner*, now at Vancouver, has been fixed to take the sailing of the Australian mail-line from San Francisco on November 25.

The O. S. K. liner *Panama Maru*, which sailed from Yokohama on Oct. 4 and is due here on the 20th, is bringing a quantity of freight and several Chinese for this port.

The British steamship *Greystoke Castle*, which is bringing cargo from Antwerp to Vancouver, is being fumigated at San Francisco. She is expected to clear from the Bay City to-day.

On her last outward voyage R. M. S. *Empress of India* established a long-distance record for wireless communication with the Japanese coast, picking up the *Outish* station when 1,655 miles at sea. Homebound bound the white liner talked to the station until 1,929 miles eastward.

A new power boat, owned by Dr. A. R. Baker, of Vancouver, was burned to the water on Saturday night in Howe Sound, following an explosion of gasoline. Four people were aboard and succeeded in reaching the shore. Two members of the party, however, were severely burned. The loss is \$9,000.

The D. G. S. *Novington* leaves to-day for Triangle Island with materials for the construction of the new light-house there and a gang of workmen. She is also taking some new equipment for the wireless mast at that point, which was damaged in the hurricane which recently swept over the North Pacific.

The Northern S. S. Co.'s steamer *Cetina* arrived at the outer wharf this morning from northern points via Vancouver and is unloading 4,000 cases of salmon. She will take on a big shipment of laths as return cargo. This is the first visit to Victoria by one of the company's fleet for several weeks.

The steamship *Alexandra* is reported leaving New York with 2,000 tons of paper-making machinery on board for the Powell river mill. She will discharge cargo at San Francisco before coming to British Columbia. The *Kosmos* liner *Abyssinia* is also bringing cement for the Powell river mill.

The *Kosmos* liner *Abyssinia*, now at San Francisco, is due to sail for this port to-day. She is due on Sunday and will discharge over 500 tons of general freight, including a large shipment of steel pipes and plates here. Included in her cargo for Vancouver is a shipment of scrap iron from the *Salina Cruz* docks.

The P. C. S. S. Co.'s steamship *Queen*, which was scheduled to sail for San Francisco this morning, was delayed on the Sound and will not leave until about 7 p. m. The *Queen* is taking a large general cargo and a big list of passengers including 17 from the port. Among the latter are: C. Ward, Miss G. H. Batchelor, Mrs. Hawton, E. Keighley, G. L. Ville, F. Foster, S. Zamor, Mrs. M. Frates, W. Archibald, A. Bell, J. Maguire, S. C. Clement and T. B. Macdonald.

### DAMARA MAY FLOAT

San Francisco, Oct. 11.—Most of the cargo of barley in the forehatch in the British steamer *Damara*, which has been fast on the rocks near the entrance of this harbor, since Saturday, has been taken out and another attempt is being made to float her. After a large part of the cargo of the *Damara* had been jettisoned, the attempt to pull her from the rocks was resumed this afternoon. At 2 p. m. the vessel had been moved over 15 feet to ward deep water and it seemed probable that she finally would be floated.

### CREW WAS HOMESICK

San Francisco, Oct. 11.—Homesick in the Arctic, several of the crew of the whaler *Letitia*, threw the harpoon guns overboard, and, though placed in chains, succeeded in terminating the vessel's cruise. The *Letitia* arrived here to-day with 350 barrels of oil and 4,700 pounds of whalebone, all of which was taken within sixteen days.

### WEEKLY REVIEW OF THE CHARTER MARKET

Disengaged Tonnage Cleaned Up by Grain Fixtures—Rate is Stiffening

"The rate on wheat from the north has stiffened up during the week. Two steamers were taken at 20c and one sailing vessel rechartered at the same figure," says the San Francisco Commercial News in its weekly review of the Coast charter market. "There has been a good demand for steam tonnage in Australia and several steamers have been diverted from this Coast. The disengaged tonnage available at San Francisco for grain is cleaned up and there is practically none in the North either."

"Tonnage en route here and nearby is being snapped up pretty readily by grain shippers, consequently not much business has transpired in the lumber freight market. One tramp steamer has been taken to arrive, to load in the North for Sydney; a couple of coasters have been taken for Santa Rosalia, one for Callao and one for New Zealand, the last named at 25c."

"In coastwise business steam schooners have been fixing for wheat at 23c; and lumber rates are weak at 23c to San Francisco and 24c south."  
"Offshore lumber rates are quoted as follows: Lumber from Puget Sound or British Columbia to Sydney, 32c-32c; 6d. to Melbourne or Adelaide, 32c-32c; 6d. to 3c; by steamer, 32c-32c; to Port Pirie, 32c-32c; to Fremantle, 40c; to China ports, steam, 25c-25c; on gross; direct steamer port: Callao, 40c-40c; Valparaiso for orders, 45c-45c; 3d. with 2c-6d. less to direct port; to South African ports, 55c-55c; to United Kingdom or continent, 57c-57c; Guaymas, 55c; Mazatlan, 55c; Santa Rosalia, 55c; Honolulu, 65c."

house. There are in the bodies of all people certain beneficent bacteria which prey upon the disease germs when they enter the system and destroy them. If, however, the number of germs taken into the system is very large there is danger of some of them developing and causing disease.

In conclusion, the lecturer said that there was a tendency in this country to pay too much attention to the attainment of wealth and not enough to the health and well being of the communities. He urged the necessity of backing up the health officers in the performance of their duties especially in seeing that the water supply was kept clean and that garbage was properly incinerated.

His appeal was heartily applauded and at the conclusion a hearty vote of thanks was passed to the lecturer and to the National History Society for making the arrangement.

HONDURAN THREATENS TO KILL PRISONERS

Commandant at Amapala Refuses to Obey Orders of President of Republic

(Times Leased Wire.)

San Francisco, Oct. 12.—The United States gunboat Princeton to-day prepared to land marines at Amapala, Honduras, to liberate Americans held prisoners by the Amapala commandant, who ran amuck three days ago. The Princeton arrived at Amapala yesterday and demanded of Valladares, the commandant, that he surrender.

"I am not subservient to American pigs" was the defiant reply of the official, who prior to the arrival of the gunboat had been ordered by President Davilla of Honduras to meet the demands of the United States.

Valladares' reply to Davilla was an insubordinate dispatch stating that the "commandant of Amapala, Senor Don Carlos Valladares, was running the port and refused to obey."

sul, who fled to Guatemala city, declared that conditions at Amapala bordered on anarchy.

### GRATIFYING REPORTS BROUGHT BY C. H. DICKIE

#### Reputation of Camp Injured by Too Much Reckless Flotation

Very gratifying reports as to mining conditions in the Portland Canal district are brought by C. H. Dickie, the well-known resident of Duncan, who has just returned from Stewart, where he is very largely interested.

Speaking generally of the Portland Canal district, Mr. Dickie considers the camp has a great deal of merit. Its reputation, however, has not been improved by the flotation of so many companies in a reckless manner. In the eventual clean-up, there was little doubt that there would be a number of successes, as there were substantial mines in the district. The D. D. Mann interests had bonded a number of what are considered the best claims in the camp and arrangements were being made for considerable development work. If an energetic policy was decided upon in connection with these claims, Mr. Dickie says that work will be provided for a large number of men next summer.

Work on the Portland Canal Short Line is being carried on rapidly. The wharf has been completed. A bridge is now being built across the Bear river, which will take ten days to complete. Mr. Dickie states that before leaving Stewart he was informed by Mr. Grant, the general manager of the line, that rails would be laid to Glacier creek by the first of November. This creek is a distance of four miles from Stewart. It is anticipated that on account of an easy grade beyond this point, the laying of rails will be carried out at the rate of a mile a day.

Daily reports of new discoveries were being brought into the camp. From Georgia river, eight miles from Stewart, a party of four prospectors brought in a quantity of ore from which Mr. Dickie says he had assays, one of the samples showing three and a half ounces of gold and the other eight ounces (190). Besides this showing there were good silver and lead values, and the prospectors responsible for the discovery, stated that the ore was taken from a claim which possessed an eighteen-inch ledge.

Mr. Dickie states that according to reports which he heard, the strike in the Hazelton district is not one of free milling silver. The property is known as the Silver Cup mine, situated nine miles from Hazelton, and every one who has visited there speaks very highly of the good silver ore discovered.

Active work has been commenced at the concentrator of the Portland Canal Mining Company, its opening making a long step in advance in the mineral operations of the Portland Canal district. The concentrator, he states, has a capacity of from fifty to one hundred tons a day. With respect to the grade of ore which will be put through, Mr. Dickie stated all he could say at present was that it would be of a grade which would prove highly profitable. The mill will concentrate from three to four tons into one concentrate. The company anticipates that after the mill is properly limbered up, it will be able to mine, concentrate, transport and have smelted five dollar ore. In other words, the company will break even on five dollar ore and anything above that mark will be profit.

Shipments will commence as soon as satisfactory arrangements are made with smelters. The lead concentrates will be sent to either Trail or Tacoma. The iron concentrates, which will form the bulk of the product, will be shipped to Ladysmith or Toronto, provided reasonable smelter rates can be obtained.

## NERVOUS HEADACHE And Muscular Rheumatism Disappeared When the Nerves Were Restored by DR. CHASE'S NERVE FOOD

Feeble, wasted, starved nerves often make their condition known by nervous headaches. This is one of the first and most marked symptoms.

If you are at all subject to rheumatism you have noticed how much worse it gets when the system gets run down.

Both nervous headache and muscular rheumatism disappear when Dr. Chase's Nerve Food is used to rebuild and revitalize the wasted and weakened body.

Mr. James Riley, moulder for the Waterson Engine Co., 46 Jarvis St., Brantford, Ont., writes: "I suffered for years with muscular rheumatism and as I also had frequent and severe attacks of nervous headache I concluded that the trouble came from the nerves and began using Dr. Chase's Nerve Food. As I continued this treatment the rheumatism was gradually driven out of the system, my nerves got stronger and steadier and the headaches disappeared. I consider Dr. Chase's Nerve Food a splendid nerve regulator and health builder."

You cannot possibly make a mistake in using Dr. Chase's Nerve Food, when the nervous system gets run down, for by forming new, rich blood this great food cure builds up the nerve cells as nothing else can.

When you have made up your mind to test this treatment, go at it in earnest and keep at it regularly until you feel again the joy of health and vigor.

The Sunday school class had recited the part in the lesson where "Abraham entertained the angel unweariedly."

"And what now in the meaning of 'unwearied'?" asked the teacher.

There was a hushful silence; then the smallest girl in the class piped up: "Unwearied is what you takes off before you puts on your nightie."—Lippincott's.

## SHAREHOLDERS OF C. P. R. MEET

### FINANCES ARE IN GOOD CONDITION

#### Sir T. Shaughnessy Says Trade of Both Oceans Has Outgrown Shipping Facilities

Two very important announcements were made at the twenty-ninth annual general meeting of the shareholders of the Canadian Pacific Railway Company at Montreal by Sir Thomas Shaughnessy, the chairman-president, a short summary of which was recently received by telegraph a few days ago.

One was that the dividends will hereafter be paid quarterly instead of half-yearly, and the other was that the official announcement would be made within the next few weeks of the addition to be made to the Atlantic and Pacific fleets of the company.

One other point in Sir Thomas Shaughnessy's address in moving the adoption of the report deserves special emphasis. It was the exceedingly touching reference to the services rendered to the company by Sir William Van Horne, which later on was, in the most generous manner, acknowledged by Sir William, who, with a superb modesty, made it appear as if the greatest service he had rendered the company was the bringing of Sir Thomas here, first, to help, and then to succeed him in presiding over the destinies of the splendid enterprise the company represented.

### The President's Speech.

Sir Thomas Shaughnessy, in moving the adoption of the twenty-ninth annual report, said, in part:

"In round figures, the gross revenue of your railway, exclusive of the ocean steamships, shows an increase as compared with the previous year of \$18,600,000. The working expenses an increase of \$7,700,000, and the net earnings an increase of \$10,900,000. The actual result was somewhat better than this, because the directors thought it wise to create at the cost of working expenses an additional fund of about \$3,700,000 to provide for maintenance works of one kind or another that were contemplated but could not be completed in the current year.

"These figures furnish conclusive evidence of the growth and progress of Canada, and of the earning power of your property, and that the large sums of money provided by you during the past seven or eight years for the improvement of your railway and for facilities of every description over the whole system are yielding handsome returns in the efficiency and economy with which your traffic is being handled.

"Insufficient rainfall in some sections of western Canada during the growing season had a damaging effect upon the grain crops, with the result that the quantity of wheat to be moved during the next few months is considerably less than it would have been had normal weather conditions prevailed. Up to the present time this has had no material effect upon the revenue of the company, but it is not improbable that later on in the year there will be some shrinkage in gross earnings."

### The Dividend Rate.

"At the meeting of the directors in August last it was decided to increase the dividend on the common stock to seven per cent. per annum, exclusive of the one per cent. paid from land revenue, making a total distribution of eight per cent. Your directors are aware of the feeling amongst the shareholders that, taking into account the income and financial position of the company this is scarcely sufficient, and if last year's returns be taken as a basis, that feeling is not without reasonable foundation, but we must not lose sight of the fact that conditions may not always be so favorable, that we may have lean years, and that in such contingency a large cash reserve will be a source of convenience and strength.

"But then apart from your surplus earnings you have extraneous assets in deferred payments, or land mortgages, cash proceeds of land sales and other items of a like character in process of realization that may be roughly estimated at fifty million dollars, without taking into account your unsold lands and in ordinary course this amount should be substantially augmented within the next few years."

### Big Steamship Traffic.

"There has been a very striking expansion in the passenger traffic between this continent and European ports since your two steamships, the Empress of Britain and the Empress of Ireland, were put into service, and the time has now arrived when dispatches of greater size and speed should be provided for the route in the interest of Canadian ports, the country generally and the rail transportation lines.

"While there has not been the same increase of traffic on the Pacific ocean, there has been a steady growth, and your steamship line has been securing at least its proper share.

"While your Pacific ocean boats are still in excellent condition, they are now too small for the trade and should be replaced."

"Plans for meeting the situation on both oceans are now receiving attention, and your directors expect that within the next few weeks they will be able to complete an arrangement.

"Among the measures that will come before you for approval at this meeting is a by-law amending the existing by-laws so as to remove the necessity for closing the books in Montreal, London and New York before the payment of each dividend on the common shares. This will make it practicable to deal with the dividend quarterly instead of half-yearly, and your directors propose to do this commencing with the first quarter of the current year."

The unanimous passing of all resolutions that came up showed the confidence of shareholders in the organization of which affairs are conducted. The agreement with the New Brun-

Sir William Van Horne's speech was brief and paid to his successor in the chairmanship of the company "What-ever credit," said he, "I may be entitled to in connection with the Canadian Pacific, is most largely due to my having been instrumental in bringing Sir Thomas Shaughnessy."

Keep Assets Intact.

"In the opinion of your directors the best interests of the company and its shareholders will be subserved by keeping intact a considerable portion of these assets instead of resorting to the policy ordinarily characterized as melon-cutting, which has not always proved a boon to the beneficiaries. At the same time there is every reason why the shareholders of the present day should expect such advantage in the way of income from the assets as may be possible without unduly encroaching on the principal, and it is the intention of your directors to determine during the coming year how this can best be brought about."

### Like "The Kettle on the Hob"

of grandmother's time the large Circle Water Pan of the "Good Cheer" Furnace supplies the moisture so necessary to the air we breathe.

The ordinary Furnace with its apology for a waterpan holding only a few quarts, is utterly unable to keep the air it heats half as humid as outdoor air. This dry air shrinks the wood work, loosens the joints of the furniture, dries and shrivels up the house plants, and worse still, affects your skin, throat and lungs in much the same way. That's why you catch cold so easily in winter.

## "Good Cheer" FURNACE

with its new patented "Circle Waterpan" supplies air like the breath of summer—air that is not only warm, but humid, like the air outdoors. You can live more comfortably in this humid, healthy "Good Cheer" atmosphere at 68° than you can at 72° or 75° in the dried-out air supplied by the average furnace. There's both health and economy in a "Good Cheer" Furnace. If you're building, arranging to build, or even thinking of building—make up your mind to install a "Good Cheer" Furnace. "The Goddess of Liberty."  
Mort H. Singer's big musical success, "The Goddess of Liberty," in which Joseph E. Howard is being starred, comes to the Victoria theatre to-morrow evening. This production has received the unanimous verdict of the press and the public throughout the country as a positive hit. It is said to be the best musical comedy that Hough, Adams and Howard ever created. The play is in three acts and four scenes, and are laid in the Berkshire Hills, Mass. The last act is an apartment in New York City at Claremont overlooking the Hudson. The scenic effects are elaborate and one of

the features is the realistic rain storm scene in the second act. The costumes are most gorgeous, and are frequently changed by fifty of the prettiest show girls ever seen with any musical attraction, including the famous Princess dancers and show girls. There are twenty song numbers and all hits. "Don't Choose a Gibson Girl," "Where Are They Now?" "Taxi, Taxi," "Lonely," "If All Moons Were Honey-moons," "Keep Me In Your Heart," "Oskee Wow Wow," "The Goddess of Liberty," "Let's Pretend You Love Me," "The Haunted Pool," "Here's to the Last Girl," and others. The cast includes some of the best musical comedy artists ever seen in high class musical offerings.  
Joseph E. Howard, the star of this attraction, is unquestionably one of America's foremost actors and is conceded to be one of our country's greatest singers. Mr. Howard is possessed of a personal magnetism that appears irresistible, many have tried impersonations but none have succeeded in entertaining an audience as Mr. Howard has done, and can do. He has a personality that is hard to resist and has often been termed "a matinee idol."  
Mr. Howard possesses a voice that few can place in a proper sphere. It is most remarkable inasmuch as he handles bass notes with apparently as much ease as the topmost notes of a tenor's register. His articulation is perfect, making his songs both understandable and pleasing.  
William Faversham.

Slander and its far-reaching effect on the innocent is the theme of "The World and His Wife," which William Faversham will present at the Victoria theatre November 7. "Slander," one of the characters declares, "pronounces and judges, and there is no logic that can convince it, and the honestest has not a rag of honor left, and the terrible thing is that while it begins in error it generally ends in truth." Unusually to modern drama, the big stirring climax comes where it rightfully belongs—at the end of the play. Mr. Faversham will be supported by a particularly able company, including Julie Opp, H. Cooper Chiff and Harry Redding.

ADVERTISE IN THE TIMES

says that Parisians contrive to eat 155,200 tons of beef, mutton and veal, 35,400 tons of pork, nearly 60,000 tons of horseflesh and 1,400 tons of meat obtained from the donkey and the mule. As to poultry, the figure shows 20,000 tons, and game, only 1,400 tons. Fish is consumed at the rate of some 23,000 tons a year, oysters and mussels totaling 9,000 tons. Some 18,000 tons of vegetables, 19,000 tons of fruit, over 17,000 tons of cheese, 12,000 tons of butter and 21,000 tons of eggs also go in a year. And these commodities cost Parisians altogether about \$60,000,000. But this sum does not include bread, of which a vast amount is consumed, and wine, which is drunk regularly in most households.

LAND REGISTRY ACT. To Edward Purser or the Legal Representative of Edward Purser, Registered and Assessed Owner of Section 115A, Sooke District.

NOTICE. Take notice that I, S. Caffin, intend to apply to the Board of Licensing Commissioners of the City of Victoria, B. C., at the next sitting thereof for a transfer of the liquor license now held by me in respect of the Albion Saloon, situate at the corner of Yates street and Waddington Alley, Victoria, B. C., to James Morgan. Dated this 6th day of August, 1910.

CHILLIWACK STREETS TO BE IMPROVED. Road Roller and Rock Crusher Purchased by the City Council. Chilliwack, Oct. 11.—The \$10,000 loan by-law voted by the city last June towards city street improvements is being made use of and road-making machinery purchased. The purchase includes a large 45 horse-power roller and a rock crusher and the other adjuncts that go to make up a complete road-making outfit. The price paid for the outfit is in the neighborhood of \$7,000. The remaining \$3,000 will be used in the purchase of a rock lot and in street improvements.

ERECTING NEW BUILDINGS. Nelson, Oct. 11.—Supplies to the amount of 17,000 pounds are being sent out to the Panama mine at Bear Lake by H. Giegerich of Kaslo. Mr. Giegerich, when in Nelson a few days ago, stated that he and his partners in the present lease of the Panama, J. P. Miller and P. Stougaard, proposed to confine work all through the winter. The Panama mine is in the dry ore belt. It made its first shipment of the year a few weeks ago to the Consolidated smelter at Trail.

STATEMENT OF RECEIPTS SHOW DECREASE OF \$2,685 COMPARED WITH LAST YEAR. Total \$9,929.35. Decrease this year \$2,685.10.

Wharf Repairs and Pile-driving. The noted diver, M. McDonald, who has of late contracted in pile-driving and wharf repairs, wishes to have people believe that I have been interested with him. Such is not the case. He has had use of my pile-driver and gear at a small rental, 725 Fisguard St.

TAKE NOTICE that a meeting of the creditors of P. R. Brown, Limited, in voluntary liquidation, will be held at the office of Rodwell & Lawson, 215 Government Street, in the City of Victoria, British Columbia, on Monday, the 17th day of October, 1910, at the hour of 4 o'clock in the afternoon.

VANCOUVER PIONEER KILLED. Vancouver, Oct. 11.—T. Thomson Black, one of Vancouver's oldest citizens, died suddenly at his home here. Mr. Black, who was born at Stirling, Scotland, in 1847, came here in 1886. His individuality soon asserted itself, for in the year of his arrival he occupied the joint positions of solicitor and magistrate, and also presided over the small debts court. For some time he played a prominent part in the legal life of Vancouver, resigning eventually in order to carry on his private practice, which he was at length compelled to relinquish owing to failing health.

Uncle Walt The Poet Philosopher. Man shaves with all his might, and keeps the lather flowing; he shaves by day and night, and whiskers keep on growing. The corn may wilt and die in hot winds that are blowing beneath a brazen sky, but whiskers keep on growing. The crop of wheat may fail, the oats may make no showing, while ruined farmers wail, but whiskers keep on growing. I've lost my crop of beans, there are no peas surviving; but still my whiskerines are flourishing and thriving. The plants that bring us mon all kinds of care are needing; we labor in the sun, at hoeing and at weeding; when shipped they bring us dough, to pay us for their crating; and still our whiskers grow, and need no cultivating. We do not sprinkle them with Paris green and water, the ravages to stem of bugs that gnaw and slaughter; we do not set up poles between the rows of whiskers, or set our traps for moles, field mice and other friskers. Our whiskers need no care, no chemicals to flourish; they rear their fronds in air like island palms, and flourish. But in the marketplace, where people buy and barter, the whiskers on your face won't bring a bogus quarter. And that's the way things go throughout the world, my neighbor; the things that bring us dough are fruits of care and labor. Oscar Mason

PRINCETON FIRE BRIGADE. Princeton, Oct. 11.—The board of trade has recommended thorough reorganization of the Princeton fire brigade, made necessary by the advent of a waterworks system. The board also endorsed the suggestions made by the conservation commission and the fire chiefs' convention regarding the prevention of forest fires, advising that the necessity of "improvement" for setting fires under any conditions during the prohibited season, holding railway presidents and heads of companies responsible for fires caused by their locomotives or steamers.

WILL REGULATE ALL KIDNEY DISORDERS. Few Doses End the Most Severe Backache or Urinary Trouble. Kidney disease is the most dangerous, because the first symptoms are seen in other parts of the body before anything wrong is noticed with the kidneys themselves. Some of the symptoms, though, cannot be mistaken; for instance, sick, unhealthy kidneys cause thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, or there is dull misery in the sides and loins, headaches and dizzy spells may occur, nervous twitchings, disturbed sleep, inflamed or puffy eyelids, weakness, bilious stomach, heart palpitations or the sufferer is often weighed down by a feeling of languor or fatigue.

## SECRETARY OF V. Y. C. EXPLAINS SITUATION

### Victoria May Enter Alexandra Cup Contest if Universal Rule is Endorsed

The present status of the proposed  
contest for the Alexandra Cup by a  
Victoria challenger, under the uni-  
versal rule, is explained by the fol-  
lowing correspondence:

To the Sporting Editor,  
Victoria, B. C.  
Dear Sir:—With reference to the ar-  
ticle headed "Will Not Endorse Uni-  
versal Rule," dated Vancouver, Octo-  
ber 5th, which appeared in the Sunday  
issue of the Colonist.  
This article is likely to convey a  
wrong impression with regard to the  
Victoria Yacht Club.  
May I ask that you will publish the  
enclosed letters and extracts from cor-  
respondence received by me as hon.  
secretary of the V. Y. C., which ex-  
plain themselves.  
The Victoria Yacht Club has as yet  
had no meeting to discuss this subject.  
(Signed) D. O. ROCHFORD,  
Hon. Sec. V. Y. C.

Victoria Yacht Club,  
Victoria, B. C., Aug. 5th, 1910.  
To R. Bennett Thompson, Esq.,  
Hon. Sec. N. W. I. Y. R. Association,  
Victoria, B. C.

Dear Sir:—Now that the Universal  
Rule has been included in the N. W. I.  
Y. R. Association, and whereas para-  
graph 4 of the Deed of Gift of the Al-  
exandra Cup appears to include the  
rules and regulations of the said asso-  
ciation, and whereas there seems small  
likelihood of the American clubs in the  
said association building a boat under  
the International Rule thereby causing  
the Alexandra Cup to become a dead  
issue, and whereas, Victoria, in the in-  
terest of international sport, contem-  
plates building a boat under the Uni-  
versal Rule, I request you to forward  
this letter to the trustees of the Alex-  
andra Cup and to suggest that they  
consent to a race being held under the  
Universal Rule as per the suggestions  
and report of the revision of Rules  
Committee held on the 11th day of  
September, 1909, providing always that  
Victoria build a boat as above out-  
lined.

This suggestion, if consented to by  
the trustees falls in line with the ob-  
ject for which the trophy was pre-  
sented:—Vide paragraph 2 of the Deed of  
Gift.  
(Signed)  
GRANVILLE V. CUPPAGE,  
Commodore V. Y. C.

G. V. Cuppage, to Hon. Sec. N. W. I.  
Y. R. Association:  
The above letter was forwarded to  
the trustees of the Alexandra Cup on  
August 16th. On August 17th, 1910, Mr.  
Alexander for the trustees of the Alex-  
andra Cup replied to C. B. Thompson,  
partly as follows:  
"The trustees have only to carry out  
the conditions of the deed of gift, and  
on these being complied with, will cer-  
tainly do so. If the clubs that are  
members of the association will re-  
spectively pass resolutions on the sub-  
ject and forward them through your-  
self as secretary of the association and  
a majority of the clubs on our side  
of the line and a majority of those on  
the American side desire the change,  
the American side comply with the re-  
quest, otherwise, the rating must re-  
main as it now stands."

"I would suggest your sending a no-  
tification to each club to forward you  
an expression on the subject so that  
the matter may be settled definitely as  
soon as possible."

### Mrs. Homelover:—

Our furniture marches right out of our store into the homes of the people of this city because we have always made the prices right. We make a profit on the furniture we sell, but we only make a fair profit. We don't believe in asking high prices, but believe in making reasonable prices and doing a big furniture business.

You need some things for the house, don't you? Come and let us show you what we have got for you

## The Newest Fall Furniture

### HALL RACKS

You'll certainly like our hall racks and the prices at which they are marked. There's a goodly choice of designs and prices, and we have them in either golden or Early English finished oak.

## Here's a Great Floor Covering

For Fall or Winter Service—Best Linoleums

It's not a bit too early to think of the Fall and Winter floor coverings, and not too early to get that linoleum you require for the kitchen, hall and bathroom floors.

Never a better time to put linoleum on the kitchen and hall floors than right now—now, before the Fall rains and the mud arrive. Easy to keep these floors clean if covered with linoleum, and then linoleum adds greatly to the attractiveness of any kitchen.

We have a splendid range of attractive patterns, and are regularly adding new styles—a big shipment just being unpacked. Take the size of your room and let us figure on a good floor covering.
