# Strikers in Britain Reject the Prime Minister's Scheme

Idle Coal Miners Refuse to Accept Proposals Made By Mr. Lloyd George; Railwaymen and Transport Workers Will Continue to Serve.

London, April 12.—The representatives of the striking miners wrote to the Government this evening refusing to accept the proposals that had been made by Mr. Lloyd George, the Prime Minister, for settlement of their dispute with the owners.

London, April 12.—The railway men and the transport workers members, with the miners, of the Triple Alliance of labor, will continue to work, notwithstanding the strike order which had been issued for to-night. They were instructed this evening by their organizations to keep on with their labors pending further in-

Bepresentatives of the miners will report to the "Triple Alliance" of labor later in the day as to whether the prospects of a settlement are sufficiently favorable to justify postponement of the strike of the National Federation of Transport Workers, members of which are prepared to walk out at 12 o'clock midnight. It was declared here to-day that there would be no strike of these two organizations unless the negotiations to be carried out to-day broke down.

Prospects were generally held not to be unfavorable, although a member of the miners' executive committee said last night: "We have not come to grips as yet on counter-prosposals,"

Yesterday's proceedings barely passed the preliminary stage of the statement of the respective cases of those directly involved in the miners' strike, and according to The London.

Sliding Scale.

It was stated in various quarters to-day that the miners were prepared to accept a wage reduction by the establishment of a sliding scale schedule based on the cost of living. It was pointed out that in event of the most favorable circumstances, the transport strike can not begin until Friday as seamen and firemen, whose union is affillated with the transport workers, insisted on a ballot before striking. This vote began to-day, and will take four days to be cast.

It is the longest sitting the House has had since the stirring days of the Borden naval bill of eight years ago. Then the House sat continuously for a fortnight, mand the debate ended with the naming of a member and the introduction of closure. From present indications there is every likelihood that the present "blockade" will end in closure. So far as can be ascertained the intention is to sit until 2.55 o'clock this afternoon. Then the House will be adjourned to meet again five minutes later at the regular hour of 3 o'clock.

When the Speaker takes the chair, notice will be given of closure to operate from the beginning of the subsequent sitting. If this procedure is followed, the present debate will go over this afternoon till to-morrow and then will be continued with a twenty-minute limit placed on speeches till not later than 2 o'clock on Thursday morning. At that hour the debate will automatically terminate and the vote will be taken.

## President Harding's Plans Attitude of New United States Administration Outlined In New President's First Message to Congress; Republic Ready to Co-operate With Other Nations In Scheme For Disarmament.

Washington, April 12.—President Harding. in his first address to Congress to-day, announced that he would approve a "declaratory resolution" by Congress, "with qualifications essential to protect all our rights," which would end the "technical state of war against the Central Powers of Europe.

The President added, however, that "it would be idle to declare for separate treaties of peace with the Central Powers on the assumption alone that these would be adequate, because the situation is so involved that our peace engagements cannot ignore the Old World relationships and the settlements already effected, nor is it desirable to do so in preserving our own rights and contracting our future relationships.

Although declaring unreservedly against "the existing League of Nations," the President said:

"The wiser course would seem to be acceptance of the confirmation of our rights and interests as already provided and to engage

under the existing treaty, assuming of course that this can be satisfactorily achieved by such explicit reservations and modifications as will secure our absolute freedom from inadvisable commitments and safeunder the existing treaty, assuming inadvisable commitments and safeguard all our essential interests."

Matter Mentioned During Ottawa Commons Discussion

Ottawa, April 12.-A resolution introduced by Hon. W. S. Fielding, pro-viding for 11 o'clock adjournments of the House "unless exceptional circum-sances recognized by the House gen-erally require a later sitting," was

sances recognized by the Rotaes and erally require a later sitting," was discussed in the Commons yesterday afternoon. It also would have provided that the sittings on Wednesday would begin at 3 o'clock in the afternoon instead of at 2 o'clock as at the beginning of the session.

After discussion the resolution was withdrawn by Mr. Fielding.

During the exchange of views Mr. Fielding advocated a continuance of the Wednesday evening recess, which provided members with an opportunity to keep social engagements.

H. B. Morphy, North Perth, said that the members of Parliament were sent here to conduct the affairs of the country and not to make "five-hour speeches of destructive criticism." A member of the imperial Parliament who spoke five hours would "bring down the wrath of the nation on his head," Mr. Morphy said. There were too many long speeches. The important points in most of them could be stated in three-quarters of an hour.

stated in three-quarters of an hour.

A Union.

H. C. Hocken, Toronto, said that if long hours continued, it would be necessary for the members to form a National Union of Canadian Orators and insist on an eight-hour day. With a little care it would not be necessary for the House to sit after 11 p. m. There should be a change in the rules to limit all speakers to one-half hour and forblidding an extension of time without the consent of the House, Mr. Hocking declared.

Dr. J. W. Edwards, Frontenac, opposed the resolution. He would eliminate Wednesday evening holidays, which, he said, were only taken up by members attending prayer meetings and dances.

Premier Meighen's View.

Premier Meighen's View.

Premier Meighen agreed with the first part of the resolution but said that it should be dealt with by a special committee of the House and at the opening of a session.

As to the second part, he did not think it would do any good if adoption. The British House did not have such a strict closure rule and often sat without dinner recess in order to adhere as nearly as possible to the principle of closing as near 11 o'clock as possible. If he, the Prime Minister, ever became Leader of the Opposition, he was going to try and be more considerate in bringing up embarrassing questions.

J. A. Maharg. Maple Creek, agreed with the idea of eliminating Wadnes-didy sittings, but would make the Easter holidays longer in order to give Western members a chance to get to their homes the same as the Eastern members.

Great Britain and United States Equal in Battleship Race

London, March 17.—(Buy mail.)—
In the House of Commons yesterday,
Lieut.-Commander Kenworthy asked
the First Lord of the Admiralty how
many battleships and battle-cruisers
were at present maintained in full
commission by Great Britain, France,
the United States and Jason

cadets, none of whom are available for manning.
United States—The numbers to be voted have not yet been finally approved, but will probably be the same as last year, namely, 150,800, made up of 120,000 enlisted men, 9,800 officers, 1,000 marine officers, and 200,000 marines (rank and file)—all available for manning.

Japan—The number borne on Jan. 19, 1921, was 76,600, made up of approximately 7,000 officers and 69,600 men, all available for manning.

For 1914-15 the figures were:
Great Britain 151,000, United States 67,644, Japan (numbers borne at end of 1914) 55,712.

and subsequently the House was once more in supply on the Marine estimates.

J. H. Sinciair, Antigonish and Guysboro, argued that construction of Government-owned tramp steamers should have ceased with the four keels laid down when the armistice was concluded. He declared the ships built were of no value (as they were too slow) for co-operation with the Government-owned railways.

To this point of view Hon. C. C. Ballantyne, Minister of Marine, took strong exception. He challenged Mr. Sinclair to persuade the C. P. R. that its steamships were of no use as feeders to its railway. "If," said Mr. Ballantyne, "he can persuade the C. P. R., I shall be willing to recommend a similar course to the Dominion Government."

Mr. Ballantyne emphasized that the Government shipbuilding programme had been initiated in the dark days of the war, when everywhere there was a demand for tonnage. Canada had done only what other Allied countries had done. The Canadian Government, too, had resisted pressure to build wooden ships, while the United States now had a million tons of ships on hand with which the American Government did not know what to do.

Mr. Ballantyne urged that the

Mr. Murdock was of the opinion that a reduction in the wages of railwaymen would be an act similar to placing them on the altar of sacrifice, as he was just as firm in his contention that the scale of wages should remain unchanged as was Mr. Scott that there should be a reduction. He stated that a fair wage was one that allowed the wage carrier to live decently, and while giving his children proper education should permit him to save enough to provide for the career of his family.

Rev. James Turner was exemplary of that early type of missionary heroes, of whom the rising generation know very little, whose broad vision, unselfish devotion and courageous exploits make missionary annals read like romances, and to whom the firm foundations of present-day church development is largely due. It is in order that his work, and the work of his class should not be forgotten, that this proposed monument is to be erected in the cemetery here, whither his remains were brought for burial through the intervention of his fellow-ministers, following his death in California.

The appeal is made first to "old timers" who gladly welcome an opportunity of contributing to the fund, and then to all who desire in this way to show their honor and appreciation for all that he has done. Makes Announcement at the Metropolitan Church

Metropolitan Church

At the Sunday morning service at the Metropolitan Church Dr. Sipprell preached from the text, "Go ye, therefore, and make disciples." The pastor maintained that as Christ made this the chief business of His life then all those who bore his name should do likewise, and the most effective method was to live our lives on a high spiritual plage.

At the afternoon session of the Men's Brotherhood Dr. Sipprell outlined certain underlying principles to be observed in any attempt to make Victoria a better city to live in. The modern method of the church is to pay attention to the young, rather than to the adult, and if the youth of the city grow up clean, the future will be all right. It should be the duty of all right living people to see that a healthy, moral atmosphere pervades the city, Dr. Sipprell said. Discussion centred around the motion pictures, and the cabarets. The former were felt to serve a useful purpose if the films could be kept free from abnormal and objectionable features. The cabarets were roundly condemned by Dr. Sipprell. Much more specific information was felt to be necessary before any recommendation could be made.

His evening address was based on the episode of Christ's journey to Emmans on the first Easter day. Similar opportunities for giving instruction and help that come to every Christian should be used so that his or her own religious experience will be quickened.

A quartette, composed of Mesdames Downard and Morton and Messrs, Laity and Paimer, rendered very sweetly "The Sweet Bye and Bye" at the evening service. The pastor made the announcement that he expected to remain with Metropolitan another year, although the post of Superintendent of B. C. Missions, the offer of which was recently made him, held out opportunities of larger service.

DIFFERENTIAL RATES ARGUED AT INQUIRY

Fruit-a-tives, Limited, Ottawa.

Railway Board Hears Case of Vancouver Island Freights

The question of whether differentials in lumber rates from Island points should be abolished, making rates from Island points the same as from Mainland Coast points was argued before the Rallway Commission here yesterday afternoon. Judgment was reserved.

ment was reserved.

The supporting argument presented by G. G. McGeer for Island shippers was based on the fact that lumber rates from Kootenay points appeared to include no extras for barging service across the lakes and on the adverse competition said to be created by the abolition of barging charges to Seattle on lumber from peninsular shipping points in the State of Washington. The application was opposed on behalf of the railways by W. B. Lanigan, freight traffic manager of the Canadian Pacific Railway. He denied that Tsiand points stood in the same relation to Kootenay and Washington points, as Mr. McGeer argued, and stated that if Island lumbermen were not satisfied with the present group system the railways would substitute a basis of mileage cates from Coast points, it was understood.

substitute a hasis of mileage rates from Coast points. It was understood, however, that this would not be sat-factory to the applicants. George Stephen, traffic manager of the Canadian National Railways, spoke briefly. He stated that his brief experience with the island lumber traffic showed that the differentials in Island rates did not afford an adequate return for the barging service performed between the Island and the mainland. With the advent of the Canadian National Railways to Vancouver Island, Mr. McGeer submitted, a good deal of railway mileage was being built which depended solely on lumber traffic for its revenue. The lumbermen of Vancouver Island had agreed through its representatives to the group system of rates established in 1913, but this was on the understanding that the Canadian Pacific Railway had declined to equalize the rates from Island points and Coast mainland points. The objection then made that mainland shippers would demand a similar reduction if Victoria was so favored had been removed in a conference of lumber men later in that year, when shippers enjoying the benefit of the Vancouver rate had agreed that the Victoria basis should be the same.

Not Notified is Claim.

Mr. Lanigan objected that the lumbermen had not notified the railway of this change in attitude. The present system of group rates had been built up in conference between the carriers and the lumbermen, and the carriers and the lumbermen, and the railway had no objection to putting in a mileage basis if the present system was unsatisfactory. Dealing with Mr. McGeer's main arguments, he quoted rate comparisons to show that many points in the Kootenay group had to pay a differential of one and a helf to two cents where water haul was involved. The Island differential varies from two cents its quareactions. varies from two cents to four cents. As regards the comparison with Washington shipping points, Mr. Lanigan pointed out that railway competition had brought about the abolition of the barging charge to Seattle, and the volume of traffic

abolition of the barging charge to Seattle, and the volume of traffichandled he showed to be much greater from the Washington points.

Mr. Lanlgan commented regarding Mr. Lanlgan commented regarding Mr. McGeer's statement that the Vancouver Island mills put out 2,000 carloads of material a month, or 24,000 cars per annum, by remarking:

"The total business in and out of Vancouver Island is a good deal less than 24,000 cars. Last year the total in all commodities in and out of the Island was 10,474 cars over the E. & N., and I believe, in view of the fact that the C. N. R. was hardly in operating shape, that it may safely be said that we handled the great percentage of the business. The maximum capacity of cars of the C. N. R. and the E. & N. is 80,000 pounds.

Mr. McGeer's would permit the employment of Esquimait Labor occupied attention. The Reeve was appointed to interview Mayor Porter to issee if Esquimait men could not be two work, as the Provincial Government was finding \$200,000 of the money for that project. Founded on Hats.

Mr. Batty traced the habits and history of Mormonism from its inception. He pictured the pilgrimage to the "Promised Land" and praised the great Salt Lake City, the immense and prosperous agricultural area and the commerce that had been built up by Mormons. But their institutions had been founded on hate they refused allegiance to the United States, and that is why Fort Douglas was established and guns were kept trained on Salt Lake City, to save the city from a revolution that would have resulted in the extermination of the Gentiles. There is no necessity for these guns now, however and Mormonism to-day in Salt Lake is in greater favor with the Gentiles than any time previously, he pointed out.

Mormonism has made the assertion that the day will come wheal it will rule this world, said the speaker.

Following a description of their perfect organization Mr. Batty remarked: "In the archives of Mormonism, they boast, there is not a single member of their party of whom they have not a perfect description of their lives.

A large audience attended to hear the lecture, which was admirably illustrated.

In spite of the objection from

some members of the Council this community will benefit by the success of Alderman Todd's proposal to grant concessions it the matter of water supply to the farmers of Gordon Head. Whatever merit there may be in the arguments against the scheme it should be borne in mind by the City Council and every public body that Victoria's interests are linked up with the development of the locality as a whole. And until the people of this part of Vancouver Island realize the necessity for a wider desire for common action in all questions of this kind community progress in its fullest sense

#### MUNICIPAL GOLF.

Vancouver has joined in the demand for municipal golf. A project sponsored by the Exhibition Association and supported by all progressive bodies in the Terminal City contemplates a course at Hastings Park. To give an idea of the economic phase of the question the success which has attended the operation of civic links at Calgary and Edmonton — where golf may be played only for a little more than half the yearwas referred to in terms of finance. This, in part, was the re-

"Calgary started its municipal course in 1915, when 3,385 games were played. By 1920 a total of 15,580 games were played. By 1920 a total of 15,580 games were being played on the course. Edmonton played more than 16,000 games on its municipal course last year. The population in each of these cities is far below that of Vancouver and golf can only be played for a few months in the year, whereas the game can be enjoyed the year round in this city. In both the prairie cities the municipal links are self-supporting and pay a revenue."

When the progressive bodies of Victoria lend their support to the Chamber of Commerce in a search for the best means of making this city a tourist magnet for the whole of the Con tinent there is no special need to regard the issue of a municipal golf links as anything like as dead as the more recent vote of the ratepayers would seem to are in close touch with the rapidly growing enthusiasm for the royal and ancient pastime.

In advocating a more rigid medical inspection of all immigrants to Canada before the Canadian Council of Immigration now in session at Ottawa Mrs. Ralph Smith has echoed an opinion to which this newspaper has given repeated support. But the inspection must take place on the other side of the Atlantic. There must be no more cases of strangers in a strange land turned back at the Atlantic seaboard on account of physical or mental defects. we would most heartily join.

Will Keep Pledge.

"In the national referendum (the last election) we pledged our efforts toward such an association and the pledge will be faithfully kept. In the plight of policy and performance we told the American people we meant to seek an early establishment of peace. The United States alone among the Allied and Associated Powers continues in a technical state of war against the Central Powers of Europe. The anomalous condition ought not to be permitted to continue. To establish the state of technical peace without delay, I should approve a declaratory resolution by Congress to that effect, with the qualifications to that effect, with the qualifications sessential to protect all our rights. Such action would be the simplest keeping of faith with ourselves and could in no sense be construed as a desertion of those with whom we shared-our sacrifices in war, for these powers are already at peace.

"Such a resolution should under-

Reparations.

Such a resolution should undertake to do no more than thus to declare the state of peace which all America craves. It must add no difficulty in effecting with just reparations, the restoration for which all Europe yearns and upon which the tions, the restoration for which all Europe yearns and upon which the world's economy must be founded. Neither former enemy nor ally can mistake America's postition, because our attitude as to responsibility for the war and the necessity for just-reparations already has had formal and very earnest expression.

No Statement.

No Statement.

"It would be unwise to undertake to make such a statement of future policy with respect to European affairs in such a declaration of a state of peace. In correcting the failure of the Executive in negotiating the most important treaty in the history of the nation to recognize the constituted powers of the Senate, we would go to the other extreme, equally objectionable, if Congress or the Senate should assume the functions of the Executive. Our highest duty is the preservation of the constituted powers of each and the promotion of the of each and the promotion of the spirit of co-operation, so essential to our common welfare.

"It would be idle to declare for separate treaties of peace with the Central powers on the assumption that these alone would be adequate, because the situation is so involved that our peace engagements can not ignore the Old World relationships and the settlements already effected, nor is it desirable to do so in preserving our own rights and contracting our future relationships.

Reservations.

With the super-governing league definitely rejected, and with the world so intformed, and with the status of peace proclaimed at home, we may proceed to negotiate the covenanted relationships so essential to the recognition of the rights everywhere of our own nation and play our full part in joining the peoples of the world in the pursuits of peace once more. Our obligations in effecting European tranquility because of the war's involvements are not less impelling than our part in the war itself. This restoration, must be wrought before the human procession can go onward again. We can be helpful because we are moved by no hatreds and harbor no fears. Helpfulness does not mean entanglement, and participation in economic adjustments does not mean sponsorship for treaty commitments which do not concern us and in which we will have no part.

I grant you it is not the most delicate arrangement, especially when described in the coarse language adopted by Dr. Hall, but it is far better from a sanitary point of view than that in any sick room, in that the apparatus can be flushed immediately after use. With regard to Dr. Hall's statement that the whole thing is a "flithy mess" I may say that in reading his remarks I went to the jail expecting to find that perhaps there had been a leak or an overflow from some of the fittings; there had been nothing of the kind, and the whole, place was thoroughly clean in every way and thoroughly clean in every way and just as sanitary as any building in

With regard to the building generally, I may say that when an inspector from Scotland Yard was here with the Prince of Wales he was shown over the institution and expressed the opinion that the Victoria City Jail was the best equipped he had seen in any city of the size.

CONVENTION OF

AVIATORS URGED

Regina, April 12.—An executive of seven comprising three civilian and four military aviators, has been formed to carry on the work of the Air Board in this province for the ensuing year.

The first term of the provincial board, which covered a period from July, 1920, to March 31 of this year, was very successful. During the term 80 mechanics and 33 officers were sent from Saskatchewan to Camp Borden. Something in the nature of a record was made during this period as the board was able to purchase its own office equipment out of the balance of the Government grant. It is believed that this is the only provincial organization in the Dominlon which has been able to handle its finances with that degree of success.

Various resolutions dealing with from a drunken one, I am afraid that the constitutions of the government grant. It is believed that this is the only provincial organization in the Dominlon which has been able to handle its finances with that degree of success.

within a month those mattresses will be a sanitary outrage. Why not a billiard table in the lock-up? Expense is no object to the poor taxpayer, so long as he is sure that the prisoners have all the comforts of a home. Then, again, the mural decorating has been saily neglected, from an artistic standpoint, it is too severe. Could not the generous public supply some good pictures of the uplifting variety? Music is also lacking; a good phonograph, with an abundance of unbreakable records is badly needed. In concluding I would state that I am glad to hear our worthy commissioner state that he will take the responsibility of the promotions, etc., as it is quite obvious to the outsider sioner state that he will take the re-siponsibility of the promotions, etc., as it is quite obvious to the outsider that a hotel runner would know more about police work than the Chief or even of a man with a mere twenty-

Of the amount advanced by Canada, \$190,635,073 was used for the purchase of farm products here, and \$759,002,294 for other purposes, which included munitions and other manufactured products. No advances were made to other Allied Powers, it was stated, previous to that date.

From October 31, 1918 to February 28, 1921, the total advances to Great Britain were \$343,548,623.62, which, by repayments, counter-borrowing and refunds was reduced to \$151,252, to the Allied Powers during this same period were \$41,325,139.

# A Danger Signal— **Tender and Bleeding** Gums

Healthy teeth cannot live in diseased tissue. Gums tainted with Pyorrhea are dangerously diseased. For not only the teeth are affected, but Pyorrhea germs seep into the body, lower its vitality and cause many illa.

Pyorrhea begins with tender and bleeding gums.
Then the gums recede, the teeth decay, loosen and fall
out, or must be extracted to rid the system of the
poisonous germs that breed in pockets about them. Four out of five people over forty have this disease. But you need not have it. Visit your dentist often for tooth and gum inspection. And keep Pyorrhea away by using Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy, the teeth white and clean. If you have tender or bleeding gums, start using it today. If gum-shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

Plan For Royal Columbian Institution, Faced With Financial Difficulties

A solution of the difficulties which threaten to engulf the Royal Columbian Hospital is offered, says The British Columbian, New Westminster The Sisters of Charity of Providence are prepared to take over the hospital, pay off the deficit of \$37,000, and place the institution on a sound footing, asking from the city only that it will pay for its indigent patients at the rate of \$1.50 per day. The city would also, of course, continue to provide interest and sinking fund on its hospital debt as before. This offer has been conveyed to Alderman W. H. At the present time the city is required to pay \$2.50 per day for indigent patients, and this term includes all from whom it is found impossible to collect. It has been estimated that this would involve an outlay of about \$20,000 this year. Under the new proposal, charged only \$1.50 per day, the city would save a considerable sum of money.

# **FLAGLER LIGHTS BELIEVED CAUSE** OF GOVERNOR LOSS

Lights at American Fort Bear Deceptive Resemblance to Ship's Lights

The fact that the Fort Flagler dock lights bear a deceptive resemblance to the lights of a ship from the port side, is said to have been responsible for the loss of the Admiral liner Gov-ernor, which on the night of April 1 collided with the freighter West Hartland, and sank with the loss of

nine lives.

Captain Harry Marden, pilot on the Governor, is said to have been confused by the fact that the West Hartland was directly between the Governor and the Fort Flagler dock lights. The dock has a brilliant red light and an avenue running up. light, and an avenue running up-grade from the dock has a few white street lights, that at a distance look like a ship's mast lights, while the red light adds to the resemblance. The West Hartland is claimed to have suffered damage to the extent of \$100,000.

Running three days behind her schedule, the Oeska Shosen. Ksisha liner Alabama Maru sailed from Yokohoma April 5 for Victoria, according to word received to-day by R. P. Rithet & Co., local agents. The Alabama Maru is one of the large steamships which were carried aground during a recent storm in Yokohama harbor. Apparently the vessel was floated without damage and proceeded on her trans-Pacific voyage.

The Alabama Maru has between 300 and 400 tons of general Oriental cargo in her holds for British Columbia, which fill be discharged here. The liner has \$1 steerage passengers for Victoria, including seven Chinese. For Seattle she has 40 cabin passengers and 160 steerage.

The Alabama Maru is expected to make this port about April 18. Following the Alabama Maru will be the Arabia Maru, due here May \$.

# SEAMEN OF ALASKA **PACKERS FLEET SIGN NEW WAGE SCHEDULE**

San Francisco Dispute of Long Standing Is Finally Settled

San Francisco, April 12.—Wage differences between the Alaskan Packers' Association and the seamen employed in its salmon fishing fleet have been adjusted.

About 7,500 workers are affected by the agreement.

According to the agreement, the men will sceep a wage of 7 cents a fish and an addition of \$150 for the trip as against last year's wage of 9 cents a fish and \$200 for the trip. The agreement ended a dispute of functions and the men and its nadoption was the first definite assurance that the fleet would go North.

# **KOREA MARU HAD** FIRE AT HONGKONG

Passengers Were Transferred to Liner Fushimi Maru at Last Minute

"It's an illwind that blows nobody any good," and this adage is pertintently applicable to the last trans-Pacific voyage of the Nippon Yusen Kaisha liner Fushimi Maru. A fire which occurred aboard the Pacific Mail liner Korea Maru at Hongkong resulted in a considerable number of passengers, who had taken reservations by that liner for San Francisco, being burriedly transferred to the Fushimi Maru.

The transfer gave the Fushimi Maru a much larger saloon list than lashe would have carried had the fire not delayed the departure of the Korea Maru from the Orient.

The fire on the Korea is understood to have been of considerable proportions, as a number of the Fushimi passengers reported having lost part of their baggage.

Approximately 1,000 Cadets Expected to Join Camp at Sidney

Plans for the provincial cadet camp to be held this year are not yet definitely decided upon. It is expected, however, that the camp will be held at the Sidney site, which was occupied, with success some years ago. The camp is to be over five times as comprehensive in the number of boys under training as the most successful camp held last year at Rod Hill. It is thought that no less than 1,000 boys will be in camp for training, coming from all over the Island and the Lower Mainland. Interiog districts on the Mainland are to have other provisions made, and the boys from these latter districts will not attend the camp to be held locally.

A full corps of instructors is to be on hand to put the boys through their annual Summer training, and a great deal of enthusiasm is making itself felt in the city and district schools over the prospect. The Victoria city cadet corps are well to the fore in cadet matters and a very strong turnout is being looked for from the local units.

units.

The co-operation of parents is to be enlisted, and it is explained that every care possible will be taken of the boys when in camp, and that nothing will be left undone that would add to their comfort. A staff will be add to their comfort. A staff will be selected under a camp commandant, to take charge of the boys in camp, while every attention is being paid to the curriculum of training for the cadets under training.

At the fast cadet camp, held at Rod-Hill Fort, the boys enjoyed themselves so well that they were loath to leave their pleasant surroundings, enjoying the plentiful opportunities given to them to engage in manly games.

Umpires Will Shout "Play Ball" in National and American Leagues; Fans Are All Set For Greatest Season in History; Brief Review of Eight Clubs Which Will Fight For American Pennant.

New York, April 12.—Amid ceremonies and decorations which have become a fixed feature of the annual event the major league taseball-season of 1921 will open to-morrow afternoon on the circuits of the National and American Leagues. Incompassed by the blare of the bands, the snapping of flags and the wierd toss by city or government officials, selected to throw out the first ball of the year, the players of sixteen teams will flash away on their six-month pursuit of pennants, the winning of which entitles the victors to battle in the World's Series, the pinnacle of baseball.

Americans, world's champion base-ball team, will start the season with the same line-up that won last year's baseball classic, Manager Tris Skeaker Eguring that the team that was good enough to go through the critical stages of winning the American League pennant and later the world's series flag in two nerve racking, fightofold to the last-game classes, is good enough to repeat this year, according to advices received from the Spring training camp at Dallas, Texas,

All the members of last year's team believe the Indians will win the pennant again this year, basing their judgment on the claim that the tribe has the best balanced habeball cluim the country, both as regards batterymen, infielders and outfielders, well balanced defensively and offensively.

Boston, April 12.—When the Red Sox return from their southern training trip to begin the baseball pennant race for 1921, this city will scarcely know its own. So many changes have taken place through trades and other causes in the team that only a few of the old faces will be seen. The Red Sox return without Harry Hooper, captain and outfielder extraordinary, and with Hugh Duffy who has managed other big league teams as director in place of Ed Barrows. The team is a melange that is regarded as dependent, for strength in the pennant competition on two members whose participation is doubtful, Stuffy Melnnis, the first

Jeannie Macpherson who is responsi-ble for many of the scenarios of past DeMille successes.

The various roles are interpreted by such highly competent players as Agnes Ayers who will be remembered for her delightful portrayal in "Held by the Enemy;" Forrest Stanley and Clarence Burton who make their debut in a DeMille picture in this photoplay; Theodore Kosloff and Theodore Roberts, whose work in previous DeMille productions are well known, and Kathlyn Williams, a star in her own right. The cast throughout is excellent and the settings are all that could be demanded of a DeMille production.

#### COLUMBIA

A picture that proved a delight to admirers of Tom Mix's distinctive style of daring was seen last night at the Columbia Theatre, when the Fox production, "The Untamed," adapted from the novel of that name by Max Brand, was shown for the first time here. Mix is fortunate in finding a story so well suited to his prowess. The direction by Emmett J. Flynn, wielding the megaphone with the cowboy star for the first time, is worthy of much praise. A crowded house greeted "The Untsmed." Persons familiar with the Brand story will perceive instantly its possibilities for an actor of the Mix type. To say that he makes the most of his opportunities for daredevil stunts and feats of skill is simply to repeat what everybody knows to be true of Tom Mix. "The Untamed" is without doubt one of the most unusual stories in modern popular literature.

WARIETY

How the unselfish action of a wealthy American army officer in Paris in helping a young wife out of an embarrassig situation nearly wrecked the home of the woman he was trying to aid forms an interesting plot for "The Devil's Pass Key," a Universal asser classic Produces under the direction of Erich von Stroheim, which was shown last night for the first time at the Variety Theatre. Mr. von Stroheim was the author and director of "Bilm Husbands," a recent Universal-Jewel production considered one of the leading photoplays of the year. He wrote the syr," by Baroness DeMeyer. The plot of the present attraction at the local theatre is laid in Paris, where an American author is living. His beaus titul young wife gets hopelessly in debt to an unscrupulous modiste, but is helped out of her difficulties by a chivalrous army officer. The story gets to the husband with no mames mentioned, and he makes it the subject of a play which becomes a success. All Paris think he has knowingly used his wife's indiscretions as the plot of his play. He learns the truth, and a family tragedy is barely averted.

### PRODUCER HAS HAD NOTABLE RECORD

Mr. Bullock-Webster who has been engaged by Mrs. Brownlee to produce "Darfae" the Greek play which is going to be performed at Gonzales in June, was a professional actor some years ago, and met with considerable success in musical comedy. Unlike some actors he has been reticent in talking about his stage experience, but by a coincidence, an account of his career was brought to the notice of Mrs. Brownlee. While still quite young Mr. Bullock-Webster took leading parts in many amateur plays in the Old Country. He had studied for Sandhurst, but at the age of 19 obtained a theatrical engagement in London, and for his first professional employment, played the small part of Ajax in George Grossmith's Sr., "Gay Pretenders" at the old Globe Theatre. Next he played a small part in "Dolly Varden."

From that he went to the Shaftesbury Theatre in the chorus of the American company which was playing "The Casino Girl," and later went on tour in the chorus of the same play.

Then after an interval spent in

on tour in the chorus of the same man play.

Then after an interval spent in experiment of the stage and joined the chorus of one of different companies. After a time he became assistant stage manager, and later S. M. with a three years' contract. Mr. Dance at that time had twenty-four musical comedy companies. Mr. Bullock-Webster was given a chance of producing "The Chinese Honeymoon" for tour.

During his contract with Mr. Dance he played the juyenile lead in "The Girl From Kay's" and the "Chinese Honeymoon." In London he played Lord Shoeford (the picture, which is now showing at the Romano Theatre arranged to film

But a tropical island was needed. This did not juyenile) in "La Toledad" at the Palace, Shaftesbury Avenue.

After leaving Mr. Dance he was engaged by Mr. Mac. Dona to play Norman Popple in "Mr. Popple of Ippleton."

The work on tour can be very strenuous for a stage manager as besides playing at night, an enthusiast is encouraged to teach understudies all day. These long hours in the dark ill-ventilated provincial theatres affected Mr. Bullock-Webster's health and he gave up the stage and came to B. Small Boys Break Window; They Offer to Repair

To those people who saw Charile Chaplin in "The Kid" two weeks ago at the Royal Victoria the following story will be of interest:

Two small boys, aged respectively five and six years, were among the many hundreds of children who followed with avid delight the doings of Charlie Chaplin and "The Kid" under the charge of their father. The particular incident which captured their fancy and aroused their spirit of emulation was the breaking of windows by the Kid and the arrival of Charlie at the crucial moment, with glass and the necessary paraphernalia, to repair the damage. After mature consideration they chose as the scene of their first experiment a large house with a plenitude of windows which offered surtaget for their somewhat uncertain target for their somewhat uncertain aim. The crash of glass announced the success of the effort of the six-year-old, who immediately scuttled for cover under a friendly bush

His five-year-old companion, then approached the house and rang the front-door bell. When the lady of the house answered the summons he offered to arrange for summons he offered to arrange for the repair of the damage in true chaplinesque fashion, which, however, was declined.

# Serve with Oatmeal

—To bring the rose tint to women's and children's cheeks.

-To increase men's energy and vim.

Do this, madam, for tomorrow's breakfast, Stew some raisins according to the recipe printed here, and mix with the oatmeal that you serve tomorrow morning.

Do it for the added flavor-to make oatmeal more attractive. But do it mainly for the food-iron that raisins send into the blood, and for the raisin's mildly laxative effect.

# The bloom of youth

The tonic food-iron of raisins helps to bring the bloom of youth to cheeks that perhaps are paler than they should be. Then the nutriment of raisins-1560 calories per pound-gives men and children the energy they need.

For regulating, tonic and nutritious properties combined, one can find no other food that's so effective. The luscious flavor makes it easy to serve stewed raisins frequently, so there's every argument in favor of their daily use.

Try it for a month and see. Look in your pantry now. Begin tomorrow. Send for free book, "100 Raisin Recipes." But first try the recipe printed here.

ts About Your Name; Its History; Its Meaning; Whence It Was Derived; Its Significance; Your Lucky Day and Lucky Jewel. By Mildred Marshall.

ARABELLA.

Arabella, which is bestowed in all good faith by fond parents, only to be cut down directly to the more convenient Bella, is a name of great power and Bella, is a name of great power and dignity. It comes from the "eagle" series of Icelandic names, which is responsible for many of the appellatives popular in English speaking countries. Arabella signifies "eagle heroine." The first lady to bear the name was the granddaughter of William the Lion of Scotland, who married Robert de Quinci. Another Arabella was she, who, with her husband John de Montpynoon, held the manor of Magdalen Laver in the thiety-ninth of Henry III.

The Normans, who made radical changes in all names that did not sound like French, cut Arabella down to Arbell. "My Lady of Arbell" was the title of the unfortunate Arabella Stuart, whose history is familiar to all of us. It is chiefy due to this poor lady that Arabella gained such vogue and had such widespread usage in England.

Arabella's talismanic gem is the diamond. It promises her fearlessness, success, and, if set in gold and worn on the left hand, true and ablding love. Thursday is her lucky day and 6 her lucky number. The violet is her flower.

# **KIWANIS PLANNING** FOR VANCOUVER RAID

Will Stage Entertainment There on April 28

Many matters in connection with ver and New Westminster clubs were furthered by the Kiwanis Club to-day at the regular noonday luncheon. The club members plan to go in force to Vancouver on April 28, and there tak charge of the entertainment for the day. The party is to leave here as near to 100 per cent. strong as can be arranged, on Thursday afternoon, and will return Thursday night, with the loss of but a half day of business

bers were asked to lend their active support for this occasion to make it a success.

Two surprises of the noonday luncheon to-day occurred when Kiwanians Dean Quainton and J. G. Brown rendered some excellent solos which were warmly applauded. Under Kiwanians T. Braidwood, Harold Cross and W. McGuire the club practiced the airs of songs to be rendered on the Vancouver trip, and much merriment was created in the rehearsals.

Kiwanian Frank Thomson won the attendance prize in the drawing today. Next Saturday the local club has arranged to further their plans in connection with the orphanage by taking 25 of the little inmates for auto rides. Cars were asked for at to-day's gathering and were readily forthcoming. Kiwanian Newton is sarranging the affair. Kiwanians Frank M. Day and H. Dibble were appointed judges for the name contest for the Kiwaniah Bulletin, which is yet unnamed. The president today was presented with a gong by size in 1919 to 76,785,288 lbs. in 1929, an increase in value of \$1,-

Strike Near Spences Bridge

Considerable excitement has been caused by a strike of placer gold on the Thompson River, eight miles from Spences Bridge. Carl Elingsen and Thomas Lick claim to have struck a deposit that will pan from \$2 to \$3 per cubilc yard, and they can show as evidence some \$400 worth of nuggets that range in value from \$1 to \$25 each The location of the strike is on the old Cariboo Trail, about 100 feet from the Thompson River. It is a "dry-digging" and the claim has been worked from the surface to a thin layer of hardpan, about four feet thick. The bed-rock prospect is said to be good. A number of claims have been staked.

#### WORK OF THE CHAMBER OF COMMERCE

A meeting will be held at 4.30 o'clock to-morrow afternoon of the sub-committee on membership for the Made-in-B. C. campaign, O. B. Fleming, chairman. Manufacturers will be called upon to give their co-operation and support to the movement.

The annual meeting of the Chamber of Commerce will be held on Friday evening of this week, commencing at 8.30 o'clock. Reports of the year's activities will be given. The event marks the first quarter of the new Chamber of Commerce activities in Victoria.

Lieut.-Col. Flick Speaks to Club on Canadian Militia

Lieut.-Colonel Flick, C. M. G., C. B.
E., one of the most noted cavalry officers of the British Columbia militia,
in a brief but forceful address the
speaker pointed out that it with the
officers of the regiments of active
militia that were really paying for
the upkeep of those units, and
charged certain mal-administration
at Ottawa.

Alleges Waste.

Tou are business men, and you

"You are business men, and you realize that the greater your responsibilities the more you will insure your business. The militia of the Dominion is the national insurance of safeguard in times of stress. It is worthy of being kept up decently, and upon an efficient basis. Yet what do we find—the bulk of the appropriations allotted for the militia goes into the pockets of mossbacks at Ottawa.

goes into the pockets of mossbacks at Ottawa.

"I do not refer to Lieut-General MacBrien and his staff, but to the parasitic growth in the militia department at Ottawa that was therefore the war, ind there during the war, and is there now, and will be there until they can get their pensions all as major-generals," said the colonel.

You as taxpayers are paying for the militia appropriations, but you are not paying for the upkeep of the regiments the officers of the regiments are doing that.

"I appeal to you as representative men of the Province and Dominion to see that the militia money is not being diverted to moss backs at Ottawa but is being used for the actual training of the men of the militia."

Lt.-Col. Flick stated that in his regiment now there were eight colonels serving as lieutenants, and other junior officers, but that at Ottawa they went on being major until they could become colonels, colonels until they could become major-generals and the bulk of them would

The United States Dispensatory makes the following comment regarding another ingredient: "It may be used in all cases of pura debility of the digestive organs or where a general tonic impression is required. Dyspepsia, atonic gout, hysteria and intermittent fever are among the many affections in which it has proven useful."

in referring to one of the more important ingredients of Tanlac, the Fincyclopedia Brittanica says: "It has been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac, the 13th Edition of Potter's Therapeutics, a standard medical text book, states that "They impart general tone and strength to the entire system, including all organs and tissues."

William E. Bayliss Broke Back Climbing Mt. Finlayson in October, 1919

Lingering with a broken back since October 12, 1919, when he met with a fall climbing Mount Finlayson at Goldstream, William Edgar Bayliss died this morning at his home, 1999 Duchess Street. The young fellow was twenty years of age and had been confined to his bed since the accident, which occurred while he was on a bunting expedition with a companion, Frank Webb. His death marks the second fatality associated with Mount Finlayson in recent years.

Buenos Ayres, April 11.—The first big gusher among the oil wells in the Government field at Comodoro Rivadavia, has just been brought in with an estimated product of 25,000 barrels a day. The previous wells in that district had been small. As this new one is in a new part of the field it is thought that this may mean Argentina is entering on an era of large production. The oil is heavy, as is the other oil so far produced at Comodora Rivadavia, and is of little use except for fuel.

Saanich Trustees Appeal to Council for Accommodation for Pedestrians ,

"The distressing accident which occurred on Quadra Street last week, when a little girl was seriously injured at the North Dairy School, brings once more to the fore the re-cent appeal of the Lake Hill Women's nstitute to the Saanich Council for sidewalk between the school and a sidewalk between the school and Lake Hill post office, and I think we should support them," said Trustee Thorne last night, when moving a resolution in the Saanich School Board which stated, "This Board would bring to the attention of the Municipal Council the advisability of constructing a sidewalk from Lake Hill to the North Dairy School."

Trustee Holloway remarked that similar conditions exist at Royal Oak, where also there was nowhere other than the road for the use of pedestrians.

strians. ustee Thorne agreed, but main-Trustee Thorne agreed, but maintained there was less urgency, as
traffic was less. He also argued that
the construction of such a sidewalk
at either North Dairy or Royal Oak
would relieve the Council shoulders
of responsibility.

Nowhere to Build. The Board were then informed that the Council had already decided to build the needed walk, and had received an estimate of the cost, but the work was held up because of the lack of land on which to place the Halifax.

Beyond asking for the work to be done the Council would have very little to do with. the matter, stated Mr. Hutchinson.

Criticism of Project.

Councillor Pomeroy questioned the necessity for the re-survey of the area afflected, when he heard of the fact that lof surveys would have to be included, while Councillor Bridle was not in favor of the project at all. Passing some moments of tension the Council decided finally to table the matter for final discussion later.

Meanwhile the map of the proposed survey is on view at the Municipal Hall, where all interested are free to see what is planned.

It was only fair to distribute the cost over the whole municipality, it was stated, as the residents affected had bought in good faith, and should not be made to suffer for the sins of others.

Use "Tiz" for Tender, Puffed-Up, Burning, Calloused Feet and Corns.

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "Tiz," and "Tiz," cures their feet right up. It keeps feet in perfect condition. "Tiz" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, calouses and bunions. It's simply glorious. Ah! how comfortable your feet feet after using "Tiz," You'll never himp or draw up your feet in pain. Your shoes won't tight'n and hurt your feet.

Let a box of "Tiz" now from any druggist." Just think! a whole year's foot comfort for only a few cents.

# TO PLACE CANNON AT SUITABLE POINT

Esquimalt Council Wants to Know Best Location For Trophies

The problem of what Esquimait was to do with its war trophies received attention at the Esquimait Counciliast night, it being stated that the district had been awarded two cannon as war trophies. The Reeve suggested that the cannon be placed in front of the Municipal Hall, or that the janitor of the public school "might be introduced to make a pet of the guins, and look after them" at the school grounds. The matter was finally tabled for a report from the Engineer.

Objects to Practice.

The practice of referring hospital bills to the Council was discountenanced. The bills thus outstanding are to be paid to the hospitals, but the municipal solicitor was instructed to take civil action at law if necessary to collect from patients who thus throw themselves on the mercy of the Council for their hospital treatment.

City Council Decides to Allow Rate Concessions

# SARGENT SUGGESTS

A little warmth crept into the Esquimalt Council chamber last night at the first mention of the words Special Survey. The private bill of the township, which was defeated, has not been forgotten, and the Council was again split on the re-opening of this delicate subject. Councillors Bridle and Pomeroy ranged themselves in opposition to the project of the survey being conducted, while the bulk of the Council were as heartily in favor of the movement as ever.

Mr. Hutchinson, surveyor for the Council, who had drawn up the map of the proposed survey, as submitted of the proposed survey, as submitted year, 45 per cent.; fourth year, 30 per

tentions. The plan, he claimed, would not give any reduction to the water users of Gordon Head, but would simply pile up money in the municipal treasury of Saanich, he declared. Indeed, he considered that the old irrigation scheme submitted to the Council a couple of years ago was more advantageous than the project now proposed. "Would this scheme be fair to the citizens of Victoria who are paying twenty and two hundredths cents per thousand gallons for their water supply?" he demanded. "I wish someone would be as kind to Victoria as we proposed to be to Saanich."

Victoria as we proposed to be to Saanich."

Alderman Sungster declared that Alderman Fullerton was laboring under a misunderstanding of the project. There was no intention to use the water to be supplied to Gordon Head people for irrigation purposes, he said, The scheme was simply one for the supply of water for domestic purposes. It was quite impossible to irrigate the Saanich Peninsula with any available water supply, he asserted.

Plan is Changed.

Plan is Changed.

The present proposition had nothing whatever to do with any previous project and was different to any plans hitherto proposed. Alderman Todd stated. Tam opposed to any scheme I have seen for the irrigation of Sample, he said, but this scheme to supply Gordon Head with water for domestic purposes is a good business proposition. As a heavy taxpaper in Victoria I regard as a relief any scheme which will enable us to sell our surplus water and so help to lighten the burden of the present water system. It's simply finding a new customer for the Sooke Lake

don head a present of the proposed rate discount."

Alderman Woodward suggested that, as Victoria had a surplus of water, the amount of water which is supplied to Victoria homes as a minimum each month be largely increased without any increase of the present

rates.

Such an increase in the present minimum was not practicable, Alderman Sangster explained, because of the lack of distributing facilities. The water was available, he said, but mains to carry it were lacking.

Alderman Sargent attacked the project and when he mentioned the words "votes," he started a dispute with Alderman Sangster, which enlivened the rest of the evening.

"That's rotten," Alderman Sangster interted."

"That's rotten," Alderman Sangsterinterjected.
"If this plan is not for irrigation
purposes how can it make Gordon
Head the 'garden spot' described in
the report on the question?" he demanded. "This is brought before us
as a friendly act. Well, apart from
the question of a friendly act we must
look after the financial interests of
Victoria. We must remember that we
spent between \$40,000 and \$50,000—

waiting—in a friendly way—to get something out of it. If Saanich—in a friendly way—were coming to us and paying us back our money I would be willing to consider some proposi-tion to help them to encourage their people to get water."

Proposes Amalgamation.

Alderman Sargept moved that Saanich Council be asked to confer with the City Council on the question of sewers and water. Such a conference, he suggested, might consider the advisability of the urban wards of Saanich joining with the city. This would enable the districts of Saanich nearest the city to get plenty of water while the outside districts would be free.

Alderman Fullerton seconded this Alderman Fullerton seconded this motion.

"Sewers have nothing to do with the question," said Alderman Sangster. "Alderman Vargent only told part of the truth. He should have told the whole of it. In connection with Saanich's sewer debt he didn't say that the interest is piling up on the money, though the principal has not been paid. They are in duty bound to pay it. They're good for the money, aren't they?"

"I don't know whether they are," replied Alderman Sargent.
