## Occupation of Ruhr Basin by French Is New Plan Suggested

### For Breaking of Further German Resistance; Over 130,000,000 Marks Owed to Allies; Germans Talk of an Intermediary.

Paris, April 14.—Germany's obligation to the Allies will be fixed at between 130,000,000,000 and 150,000,000,000 gold marks by the Allied Reparation Commission, says The Echo de Paris. The newspaper adds that the exact figure will depend upon the solution of certain questions still being considered.

In case Germany resists settlement, the newspaper declares, it is expected by the Allies that France will recall two classes of recruits to the colors and proceed to occupy the Ruhr basin.

Berlin, April 14.—(Havas)—The newspaper Germania says to-day it understands the German Government probably will make use of an intermediary through whom it will submit new proposals to the Allies concerning reparations.

## LIQUOR BOARD GETS TO WORK

### Stenographers Classify Applicants for Jobs

Nothing was known at the Parliament Buildings to-day about the reported refusal of J. H. Falconer, the Vancouver manufacturer, to accept his appointment to the liquor board because his salary was fixed at only \$5,500 a year. It was said that Mr. Falconer was looking for something up around \$10,000 a year at least, and that \$12,500 and \$15,000, even, had been mentioned as desirable for the liquor commissioners.

There was no justification in paying more than any chance of Mr. Falconer than is paid to the Premier of the Province who has to bear the responsibilities of Government, keep in touch politically with the constituencies of the Province and then meet many extra expenses which fall on a man in public life.

### First Session To-morrow

Others at the Parliament Buildings said that they did not think there was any chance of Mr. Falconer turning down \$5,500 a year, in these times. Mr. Falconer was to have come to Victoria yesterday for the announcement of the appointments. He failed to come to-day. Because of this the first sitting of the Board which was scheduled for to-day has been postponed until to-morrow.

At this first meeting plans for getting stores opened up at once to supply persons urgently seeking the privileges of the law will be taken up. It is not known at just what the procedure will be, but it is considered likely that the whole chain of Government stores will be expanded gradually from the present Victoria and Vancouver.

### Denial was given out to-day that the Government has purchased the six-story wholesale liquor warehouse of Pither & Leiser in Victoria as a centre from which to supply the Victoria and Island liquor demands.

### Many Want Liquor Jobs

A. M. Johnson, K.C., was besieged in his office of Deputy Attorney-General by persons who are anxious to place at the disposal of the Government their services as liquor buyers. Liquor sellers, liquor tasters, liquor inspectors and liquor experts of every kind. None of these appointments, however, will be made until Government sale gets under way.

The election is not considered seriously by Government officials, who say it was illegal.

### Classify Applicants

In the meantime, a battery of four specially trained stenographers is working from morning until night classifying the names of applicants as they come in. With details of their experience in life generally, are given the best consideration by the staff in the matter of classification.

## STREET CORNER ORATORY IN U. S.

New York, April 14.—Street corner oratory of a radical nature is becoming extinct since the war, a report to-day by the American Civil Liberties Union said.

These thirteen include New York, Boston, St. Louis, Lincoln, Neb., and Berkeley, California.

## FREE PORT ZONES ARE CONSIDERED

### This Coast Interested in Ottawa Inquiry

Ottawa, April 14.—(Canadian Press) — S. S. Michael, Chief General Inspector of the Department of Customs, who is now in Europe, has been instructed to study the question of free port zones as in operation at Copenhagen and Hamburg. On his return to Canada he will report to Hon. R. W. Wignmore, Minister of Customs, who will later proceed to Vancouver and hear any representations on the subject of creating a free port zone there.

H. H. Stevens, M. P. for Vancouver Centre, who has been in negotiation with the Minister of Customs in regard to the establishment of a free port zone at Vancouver, has received an intimation to the above effect. Mr. Stevens now has a motion on the order paper of the House urging creation of "free areas at Vancouver and other ports."

Minister of Finance Doumer, in advocating the measure, declared the Allies were obliged to use such a remedy because they were confronted by bad faith on the part of Germany. He added that the passage of the bill would emphasize the entire agreement between the Allies for the maintenance of which, he said, the Government asked the aid of Parliament.

### French Tax

Paris, April 14.—The Chamber of Deputies to-day adopted the bill providing for a fifty per cent. tax on German imports as a penalty on Germany because of non-fulfillment of her reparations obligations. The vote was 438 to 79.

## LIQUOR VOTE IN ONTARIO MONDAY

### Question of Importation to Be Settled

Toronto, April 14.—(Canadian Press)—Ontario's "bone dry" prohibition race is in the home stretch. The province in the latter half of the last week of what has been probably the warmest plebiscite campaign of its history. While meetings will be numerous and canvassers active throughout the province on both sides of the question until last minute before the polling next Monday, it is thought that the peak of the activity of the supporters and "anti" has now been reached.

The question to be voted on by the registered men and women voters from one end of Ontario to the other is: "Shall the importation and bringing of intoxicating liquors into the province be forbidden?"

### No Sales

Already there is a provincial law prohibiting sale of intoxicating liquors in the province. The question of the referendum on Monday is simply to stop importation of liquor from other countries, provinces or states. If the majority of the ballots should be marked "Yes" the Dominion Government will close the doors of Ontario to such importations and the Ontario Government will seal the bargain by putting into operation what is known as the "Sandy Bill," preventing "short circuiting" or delivery from manufacturers to consumers in Ontario, for there will be no law to prohibit manufacture within the province.

### Not Supported as Southern Chinese President

Unusual autocratic powers, which are not relished even by Sun Yat Sen's immediate associates, are said to have been conferred upon him through the election.

### Plan Installation of Old Bridge on Rock Bay Site

The last caution to be used in the installation of the new Johnson Street bridge will be launched at six o'clock to-morrow morning from the old Point Ellice shipyard. The other two caissons are on the bridge site and one of them will be sunk into the harbor bottom immediately.

## Harding's Speech Draws Few British Comments

London, April 14.—The most striking feature in connection with the newspaper comment on the message of President Harding to the United States Congress is the absence of any expression of opinion by most of the leading journals of Great Britain. Only two of the big London newspapers, The Morning Post and The Daily Chronicle, have thus far ventured to give the message editorial consideration.

### French

Paris, April 14.—The text of President Harding's message to the United States Congress had not yet reached Paris this morning and the newspapers based their comments on extracts from the message thus far received. SUPPLY VOTED BY HOUSE OF COMMONS Ottawa Division After Debate Under Closure Ottawa, April 14.—At 2:19 a. m. today the House of Commons divided on the two items specified in the motion of closure, moved when the House went into committee of supply at midnight, namely, the vote of \$3,239,900 for shipbuilding and the interim supply vote. The closure motion had carried on a standing vote by 190 to 81, a Government majority of 109. The debate had gone on since midnight under closure rules, the speakers being limited to twenty minutes each. The final vote stood 103 to 79 for the Government, a majority of 24, by which the two items carried. An amendment introduced by Hon. R. Lemieux that the total amount of the interim supply vote be reduced by some \$13,000, salaries of the Purchasing Commission, was lost by 69 votes. The National Progressives voted with the Government on the main motion to grant interim supply, and the motion was carried by 53, the vote being: For, 117; against, 64. The House adjourned at 2:35 a. m.

VANCOUVER FACTORY DESTROYED BY FIRE Vancouver, April 14.—Fire, which spread to neighboring residences before it was brought under control, destroyed the factory building of the Twentieth Century Ready-Built Houses, Ltd., here last night. The building is a complete loss, and was worth \$40,000. It stood in the heart of the residential district of Kildale, and many residences were threatened by the blaze, which raged unchecked for thirty minutes, showering sparks on nearby roofs and throwing the district into a brief panic. Individual losses, which will probably represent a considerable sum, have not been estimated yet.

RECIPROCIITY WAS DEBATED AT OTTAWA Meighen Party Defeated Hon. W. S. Fielding's Motion Reference Made to American Tariff Intentions Ottawa, April 14.—One hundred against and 79 in favor was the division of votes at 11:30 last night in the commons on the Fielding reciprocity resolution. Hon. W. S. Fielding, who had moved the resolution as an amendment to a motion to go into supply, had asked "the Commons to declare that the opinion of the House of the Government should bring in a measure to approve, ratify and confirm the agreement respecting reciprocal trade between the United States and Canada, signed at Washington on the 21st day of January, 1911, by Hon. P. C. Knox, on the part of the United States, and by the Hon. W. S. Fielding and the late Hon. William L. Mackenzie King, on the part of Canada, which agreement remains on the statute books of the United States." The amendment was seconded by Hon. W. Mackenzie King. Friendly Relations. Mr. Fielding, who as Minister of Finance in the Laurier Government was one of the two who signed the reciprocity agreement on behalf of Canada, argued that there was a considerable element in the United States which would be glad if the reciprocity agreement were adopted. He referred to the Fordney bill as having manifested a "marked attitude" for Canada. The bill was again before Congress. There was danger of it becoming law, and both countries would get along better with friendly trade relations. As the reciprocity agreement was still on the statute books of the United States, Canada was justified in assuming that it was still open for adoption. "There never was a time," Mr. Fielding declared, "when good commercial relations were so badly needed between Canada and the United States as now. It is a good thing to be thought for Canada to make a move for adoption of the reciprocity agreement. Drayton's Views. Sir Henry Drayton, Minister of Finance, agreed that the most cordial relations with the United States should be encouraged. But there might be differences on ways and means of obtaining those relations. He might look like sharp practice to try to put the reciprocity pact through under present conditions. As to suggestions that Canada should take immediate action in view of the Fordney bill, Drayton did not think a retaliatory measure would be proper. The Americans were merely conducting their own business. A Canadian tariff schedule was not the starting point of the Dominion's best interests. Surpluses. Dr. Edwards, Frontenac, said the great argument against any reciprocity agreement was that the United States, as well as Canada, had vast exportable surpluses of those natural products which were mostly affected, such as butter, cheese, eggs, lard and milk. Nothing surprised him more than that Dr. Clark, after speaking for years in favor of free trade, should declare in favor of such a project. Handicap. A. R. McMaster, Brome, said Canada was face to face with the possibility of a very serious trade handicap if the Fordney bill were passed through. The situation was a natural one, and any policy which interfered with the natural flow of trade was opposed to common sense. Mr. McMaster said he was a free trader, but Sir Henry did not propose to eliminate the tariff in a night. Mr. Cockshutt. W. F. Cockshutt, Brantford, declared the resolution was a motion of want of confidence in the government. The proposal was most inopportune at the present time. The protectionist Government had just come into power in the United States, and had decided to pass the Fordney Bill. Reciprocity had been fought out on every side in Ontario, and had been beaten out of its boots. The Canadian market was better than the United States market. Prices for farm products in Canada were higher than in the United States. The prairie farmers were trying to stampede the farmers of Ontario, but would not be able to do it, he said. The motion of the resolution was an impossibility. It would be humiliating, and would not improve Canadian relations with the United States. Duties. Levi Thomson, Qu'Appelle, charged Mr. Cockshutt with seeking to meet the Fordney bill by raising the price of Cockshutt ploughs. Duties would not be increased on certain farm implements were a reciprocity pact signed. The opposite would be the case, as either the tariff could be reduced or the price of the ploughs raised. J. A. Campbell, Nelson, supported the amendment. At the general election of 1911, ninety per cent. of the voters of Saskatchewan had been in favor of the pact. If Canada waited until the Fordney or some such prohibitory bill were passed, it would be too late. Now was the time to act. W. H. White, Victoria, was convinced that in the prairie provinces men were more convinced than ever of the desirability of opening the United States market to farm products. The Fordney bill would practically put the western country out of the cattle business. Chicago was the best market for high grade cattle, the prices obtaining there being far higher than in Edmonton and Calgary. Market Exists. O. R. Gould, Assiniboia, declared that the views expressed in the course of the debate would show the people of the United States that a considerable section of the people of Canada wished to avail themselves of the reciprocity agreement. Tariffs and duties were breeders of discontent and animosity between peoples, and had been the cause of many wars. In spite of the fact that the United States was a wheat producing country, there was a market for Canadian wheat in that country. Only one vote on the Speaker's left went in support of the Government. It was that of Major Andrews, Centre Winnipeg.

BOLSHEVIK SUIT IN BRITISH COURTS Assets of Co-operative Societies in Dispute London, April 14.—Possession of assets and capital of the great Russian co-operative societies which befell the revolution in that country served as the trading link between millions of Russian peasants and merchants, will be the subject of litigation expected to be begun soon in this city by Leonid Krassin, head of the Bolshevik trade delegation here. While the amount involved in the suit is not known, it is estimated at £1,000,000, questions of law expected to arise during the progress of the suit will probably constitute the most important feature of the case. Krassin indicated his intention of bringing suit in the course of a letter to the headquarters of the co-operative societies in this city a few days ago. Executives of the co-operative societies here a joint subject of suit and drafted a reply, declaring they would contest the suit. In United States. Should the Bolshevik Government succeed in its attempt to get control of the co-operative societies' capital in the United Kingdom, there are indications that a similar move will be inaugurated in the United States, the co-operative societies having offices in New York City.

6,000 BEAVER SKINS SOLD AT NEW YORK New York, April 14.—Canadian beaver skins during the first half of the Spring auction of raw furs now going on here passed the million-dollar mark yesterday, when the pelts that passed under the hammer realized approximately \$295,000. This brought the grand total to date to \$1,094,841. The two most important collections sold yesterday were beaver and mink. Active bidding for the latter featured the day. More than 6,000 beaver skins were sold, averaging 20 per cent. above the Winter sale figures. The mink offering, which totalled over 47,000 was not fully sold and the unsold pelts will be auctioned to-day. The best prices were paid for fine Eastern Canadian skins.

MINISTER OF LABOR SPEAKS OF RAILWAYS Robertson Says Wages Not Too High Ottawa, April 14.—A repudiation of the recent statement by Hon. F. B. Carvell, chairman of the Railway Commission, that the McAdoo award was given Canadian employees because "alike gentlemen from the United States journeyed to Canada and threatened they would call a strike in this country, and a defence of the rates of wages paid to Canadian railway employees generally, featured a speech by Senator Gideon Robertson, Minister of Labor, in the Senate yesterday afternoon. He said that in his opinion the one basic reason underlying the Canadian railway problem was that the Canada had become over-railwayed. From 1899 to 1915, 18,000 miles of railway had been constructed, as against 14,370 miles constructed in the preceding sixty-two years. Expenses. A gigantic factor was the increase in operating expenses. The Canadian Pacific Railway, a "model of economical and efficient administration," had increased its operating expenses between the years 1914 and 1920 by 123 per cent, and if that had taken place on the Canadian Pacific Railway, it was quite obvious what was bound to happen on the National Railways. The fact was that every railway considered, and having regard to what had happened on the Canadian Pacific Railway, it was a wonder that the Fordney collection of bankrupt roads being operated by the Government was not in worse shape than at present. The increase in wages was being made the subject of much comment, but in Senator Robertson's judgment, it was not, all things considered, excessive. The chairman of the Railway Commission, he said, was reported from Victoria, B. C., as stating that it was difficult to imagine anything more humiliating than that the leaders from the United States should be able to hold a pistol to our heads. Accepted Award. If the Commissioner was correctly reported, he was obviously not familiar with the facts connected with the adoption of the McAdoo award in 1918 by Canadian railways. It is not true that any gentlemen from the United States made any threat of the nature of that which Senator Robertson said. It is true that the Canadian railways did decide to adopt the McAdoo award in 1918 and apply the same to their employees, but the decision was made by the employees and was reached voluntarily, and not because of any demand for the adoption of the award by representatives of the employees. "It is, fortunately, true that every executive officer of every railway organization in Canada is a Canadian citizen, and no authorized strike can occur on Canadian railways except after a majority of the employees affected have voted in favor of such action being taken. It is unfair and untrue to state that any pressure was brought to bear on the Canadian railway officials or employees respecting the adoption of the McAdoo award by any interests outside Canada. Sessé. Senator Robertson then dealt with the scale of wages paid to railway employees. In his opinion it was not too high. Thirty thousand trackmen received 48 cents an hour. Railway engineers, entrusted with the safety of the care of life and property, and subject to a call to duty at all hours of the day and night, received but 89 cents an hour, or \$7.12 for 100 miles. They were compelled, at the end of the trip, to go to a hotel and pay for their room and meals, whereas other workmen were able to remain at home and avoid such expenses, and frequently received a much higher rate of pay. Again, railway operators were charged with heavy responsibility in the direction of the trains. They received \$180 a month, which was less than the remuneration of trades such as compositors, linotype operators and pressmen, and plumbers received 80 cents an hour. Ahead of Time. Senator Murphy said the railway situation had developed into a serious problem. Canada was fifty years ahead of its time in railway construction. The problem could be solved only by national development, and modern ocean ports and increased population were the two essentials to this development. Immigration laws were too restricted.

PROCEDURE FOR A SCHOOL ARBITRATION Saanich Has Interesting Precedent in Royal City Case New Westminster, April 14.—An arbitration agreement between the school board and the teachers has been prepared, and will probably be executed within a few days. W. J. Whiteside, K.C., the board's solicitor, gave out this information on being interviewed. The general impression, when the school board named T. J. Trapp as their representative and the teachers' association had to be entered into, and these two would meet, choose a third, and get down to business. It develops, however, that the procedure was not quite so simple. A legal agreement had to be entered into, and the details of this agreement have been the subject of conferences between Mr. Whiteside and H. N. Lidster, solicitor for the teachers' association. The School Act does not provide for the teachers as a body entering into such an agreement. They can only enter into it individually. This created a complication which took time to adjust. However, it is understood that the agreement is now completed, and ready for ratification.

## FLAGS PRESENTED TO ST. GEORGE'S SOCIETY

### Monster Patriotic Demonstration is Planned Shortly

Those who were privileged to be present Tuesday evening at the well organized and enjoyable social, held at the Ladies' Club, Campbell Building, will long remember the spirit of patriotism and enthusiasm which was manifested.

Dean Quinlan introduced the new secretary, H. A. Farley as an "Englishman of Englishmen" that would be a great asset to the work of the local branch of the Royal Society of St. George, and that Mr. Farley had the necessary capacity, and the heart for the work, and it was hoped that he would gain the necessary strength. Since 1918 the secretary had been suffering from the effects of being involved in a submarine torpedo explosion. Mr. Farley was very warmly received upon rising and speaking quietly, and with evident restraint he claimed that already he was convinced of the necessity for the promotion of English ideas, practices and principles in the city and that a great future of usefulness awaited the society when it became thoroughly organized. During the past year the Ladies' Auxiliary had been established and now numbered about fifty members. The president of the ladies' branch had personally introduced forty new members and since he entered office, twenty new members had been added, he stated.

#### Against Change

A strong protest was entered against a practice which had been growing during the past twenty years of an organized attempt to eliminate the words "England and Englishman" and substitute "Britain and Briton or British" in was done to depreciate the race and what it had accomplished. Here Mr. Farley quoted a list of famous Englishmen, whose work had lived down through the ages, this was followed by a bit of famous living Englishmen already well known the world over, and in evident touch with his audience, he quoted Emerson, who was no fulsome admirer of England, but whose words of insight and

wisdom appear apt to present-day conditions. "She—England—has yielded more able men in 500 years than any other nation; and although we must not play providence and balance the chances of producing ten great men against the comfort of 10,000 near men, yet retrospectively, we may strike the balance and prefer our Alfred, our Shakespeare, our Milton, our Sidney, our Halliwell, our Wellington, to a 1,000,000 foolish Democrats."

#### Emerson's Tribute

Further quoting Emerson, "Let who will fall England will not. These people have sat here a thousand years and here will continue to sit. They will not break up or arrive at any separate revolution like their neighbors, for they have as much energy, as much constancy of characters, as ever they had."

Referring to the present industrial strike in England the speaker expressed his confidence in English character, English common sense, and justice, incidentally mentioning that those who did not know England failed to recognize its territory, with its concentrated population of nearly 40,000,000 could easily be traversed within twenty-four hours and that with a Press, free, independent, and not Party-owned, it was possible to focus public opinion upon any urgent matter within twelve hours, and further, it would be impossible for any labor or other combination, even though numbering millions, to hold up the rest of the community to ransom, that outside of all party or other combinations, there existed a big margin of common sense, legalness, Englishmen and women who really held the balance of power and who have been, and always will be, ready to use that power to provide that "righteousness which exalteth a nation" and which always stands, "for God, and King, and Country."

#### A Great Record.

Mr. Farley mentioned that in 1917 he spent the year in Canada, representing a London daily paper, and was permitted to return to England in an American transport conveying 3,000 officers and men of the 167th Alabama Regiment, and the proud boasts of its Colonel were that "every man had enlisted of his own free will, that the father and grandfathers of every man had served in the Regiment in the Civil War and that every man was descended from original British stock, the English race, as usual, predominating. It may be mentioned that Mr. Farley's account of the crossing of the

#### RAISIN RICE PUDDING

- 1 1/2 cup rice
- 3 cups milk
- 2 eggs
- 1/2 cup Sun-Maid Seeded Raisins
- 1/2 cup sugar
- 1/2 cup water
- 1/4 teaspoon nutmeg

Wash rice and place in double boiler with 1 cup water. Cook until water is absorbed. Add 2 cups milk, cook until rice is tender. To the remaining 1 cup milk add the sugar, eggs and well-beaten eggs, combine with rice and raisins, pour into pudding dish, set in hot water and bake until custard is set.

#### RAISIN PIE

- 2 cups Sun-Maid Seeded Raisins
- 2 cups cold water
- 4 tablespoons corn starch
- 1/4 teaspoon salt
- 2 tablespoons sugar
- 1/2 cup lemon juice
- 1/2 teaspoon grated lemon rind.

Cover raisins with one cup water and bring slowly to boiling point. Mix corn starch, salt and sugar with remaining cup water and add to boiling raisins, stirring constantly. Allow to boil five minutes. Add lemon juice and rind and pour into pastry lined pie pan. Cover with pastry. Put into very hot oven, decreasing the heat after ten minutes of baking. Bake 30 minutes.

#### RAISIN SALAD

- 1 cup Sun-Maid Seeded Raisins
- 1/2 cup lemon juice
- 2 cups chopped apples or pears
- 2 cups finely shredded lettuce
- 1 cup cream mayonnaise

Wash and dry the raisins, add to the apples and lemon juice, bowl as plates with shredded lettuce, pile raisins and apples in centre, cover with mayonnaise, serve with Scotch cheese sauce and garnish top with small pieces of red tart jelly. Shredded lettuce is a matter of taste. It will go farther and decorates better if shredded.

Considerable enthusiasm was around when Mr. Farley urged upon members the necessity of raising the society's membership to 1000 during the current year, later in the evening it was announced that twenty-five members had been added that night.

The immediate activities of the Society at the annual banquet which is fixed for St. George's Evening at the Conservation Club, Campbell Building. Tickets can now be had from Mr. Farley at the Dominion Hotel. It is further intended on Sunday Evening, April 24, to hold a monster patriotic commemoration meeting, inviting all the English societies and organizations in the city, and those who love England, but at the moment it was impossible to announce the place of meeting, of the speakers, the meeting will be held after the usual church services, a collection will be taken and after defraying the small expenses the proceeds will be handed over to the relief fund of the G. W. V. A. This act illustrates the English way, and the English appreciation of what Canada's sons have done for England.

The ladies' auxiliary provided refreshments during the interval which followed Mr. Farley's speech and an attractive musical programme included solos by Mrs. J. V. Meston, Mrs. Cade, Miss Williams and pianoforte solos by Miss Dorothy Greenwood. Mr. Green favored with two cornet solos which won appreciation and Mr. Parfitt and Mr. Davis were the accompanists.

At the close of the musical programme a memorable letter was placed in the presentation to the Dean of a large silk flag of "St. George," made Mrs. Wardell, Mrs. Grist and the president of the ladies' auxiliary. At this juncture an executive officer attempted to start the chorus "For She's a Jolly Good Fellow," but failed to strike the right key, all the same, everyone went home in the best of spirits, feeling it was good to be English men and women.

### Keeps the Flavor

Mrs. H. Green says she has often been asked why she uses canned milk for cooking. She says one reason is because she can count on its being exactly the same all the time. But her chief reason is that Pacific Milk seems to have the same effect in baking as fresh cream.

PLAN SEVENTH ANNUAL CADET BALL AT HIGH SCHOOL ON APRIL 22. Arrangements are now under way for the seventh annual cadet ball of the Victoria High School, an affair which will be held in the High School gymnasium on the evening of Friday, April 22. The cadet ball has always been the outstanding feature of the students' social year; and moreover, has been attended by large numbers of the city's younger set outside the High School as well as by school trustees, teachers and other people interested in the institution. This year will be no exception, judging by the plans which the students are making. A five-piece orchestra will provide the music, and dancing will continue from nine o'clock until two.

PATHOS OF A SALE OF JEWELS AND MEDALS. More than 500 wedding rings, 1,000 metal rings, 5 war medals, and other unclaimed treasures of former inmates of the workhouse in New Bridge Street, Manchester, England have just been sold by auction. It was a pathetic sale and a woman hurrying away said the plain gowned to be haunted. The sale seemed to be a century ago sold in batches of twenty—love stories reduced to the prosaic. They realized up the \$6 10s per batch and were presumably bought for melting down. One must have been a family heirloom tended with loving care, for it was worn almost to a wafle. Engagement rings, a diamond and ruby glittering here and there, were symbolic of happier times. All went to the dealers for mere song. Pathetic interest was taken in the sale of a number of silver lockets, given probably as love tokens and bearing the names of their recipients. "I wonder who Maggie, Nellie, and Cicie were?" one onlooker said. The romance of some locks of hair was rudely shattered by their sale at 4c each. A consignment came from London to buy Crimean and Boer War medals. These relics of hard campaigning went for 25c.

Home. FOR CHILDREN THE SANDMAN STORY FOR TO-NIGHT. THE MOUSE IN THE CLOCK. This is not the story of "Hickory Dickory Dock, the Mouse ran Up the Clock," but it is about a mouse that ran up the clock and did not come down when it struck one, because the little mouse had stopped the clock. I expect Little Mouse had been told by his mother not to run about the rooms of the big house in the walls of which he lived, but because he was not watched every minute he disobeyed and did run out into the room where the big clock stood. Little Mouse looked up at the clock, I suppose, and wondered what it was all about, the ticking and the hands moving slowly over its face, then there was the moon and the stars and he wanted to see for himself how it all worked. But how he was to get inside he did not know, for the door was fast closed and there was no opening under the tall clock, but being a little mouse he was not discouraged. He peeped and ran all around the clock and at last at the very back he found a tiny place where the board was not fastened, just as little boys and girls, too, sometimes pull off a piece of paper that is not stuck fast to a wall or book. Well I expect Little Mouse was very much pleased and excited when he

Final arrangements for the big Fair of Nations to be held at the Drill Hall next week to raise funds for the new Y. W. C. A. building, were considered at a meeting held in the Y. W. C. A. Yates Street, last evening. Mrs. Bishop, the president, was in the chair and those present included representatives of the various organizations existing in the fair. The fair will be under the distinguished patronage of the Governor-General and the Duchess of Devonshire, who will formally open the affair, the Lieutenant-Governor and Mrs. W. C. Nichol, the Premier and Mrs. Oliver, Right Rev. the Bishop of Columbia and Mrs. Schofield, Mr. and Mrs. W. J. Bowser, Brig.-General and Mrs. W. M. Ross and the Mayor and Mrs. Porter. Mrs. F. B. Pemberton, representing the Islands Arts and Crafts Club, announced that the club is costumeing characters to represent pictures, and that a studio would be arranged where Mrs. Sam MacLure would furnish lighting portraits. Mrs. W. A. Gallier and Mrs. J. H. Fletcher, of the Women's Canadian Club, announced that the club's share would consist of an exhibition of Canadian products and industries, the attendance being gowned in costumes symbolic of the nine provinces. American Cookery. American cookery will be sold at the stall under the direction of the W. C. T. U., according to the report of the delegates. Mrs. J. Hall and Mrs. J. S. Harvey, this organization having decided to represent America with saleswomen in appropriate dress. Mrs. Green, Mrs. Stevens and Mrs. Deaver, representing the Court's Maple Leaf and Triumph, A. O. F., reported that their stall would be decorated in the Order's colors, and the attendance would represent England in white dresses with garlands of roses, while male members of the Order in regalia would take part in the pageant. Many Attractions. Mrs. L. H. Hardie and Mrs. Mackinnon stated that the Agnes Deans Cameron Chapter, I. O. O. F., would represent the Order, selling coffee, home-cooking plants. The Ladies' Musical Club, through Mrs. Baird, announced plans for an attractive variety programme to be given each afternoon during the fair at 4.30 and each evening at 8.15 and 9.15. Miss E. Hamill and Miss Shaw, with a staff of thirty girls arrayed in Irish costumes of deep blue and white, will preside over the tea-room on the balcony, where tea will be served all afternoon with coffee and other refreshments in the evening. Miss Helen Colpitts and Miss Thorpe, with a number of girls dressed as flowers, will have charge of the flower and ice cream booth. A bevy of little girls dressed as primroses,

She still screamed.

found this place and he began at once to force his way inside the clock and pretty soon he was in on the floor of the old clock with the pendulum swinging slowly over his head. Then, of course, he wanted to know where the clock was and how he did it I cannot guess, but he did stop the clock. Perhaps he caught the pendulum as it swung away from the side. Anyway Little Mouse made his way to the place where the wheels go round and there he stayed for a while. All at once the Cook noticed that the clock was still and she wondered if the Master of the big house had forgotten to wind it. He had gone away for all day and there was nothing to do but wind it herself. She went to the clock and there was so up the side of the clock he went, and however he did it I cannot guess, but he did stop the clock. Cook opened the door of the clock and took the big key from its hook at once. She put it in the keyhole and began slowly to turn it, making a grinding sound, but suddenly she stopped and jumped with a loud scream. She ran and stood on a chair, where she still screamed. Of course you know what happened. Little Mouse ran down the clock and jumped straight out in her face. I am sure anyone would have done the same as Cook if they had been there. He ran straight home, did Little Mouse for he could not be found, and I am sure if we had listened when he found his mother we would have heard the story of how he was found asleep among the wheels and wires of the clock when all at once the wheels began to turn and very likely caught the tip of his tail or paw, or perhaps his whiskers or nose. Then he was up and ran right up the pendulum and jumped right out on the floor, frightening some very large creature almost to death. Maybe he thought it might have been a big cat, because, of course, he felt very brave after such a daring adventure, but quickly that it must have been a woman for no Pussy Cat she ever knew or heard of would run or jump on a chair and scream when a mouse was around. But his mother must have kept her eyes on Little Mouse after that for he never was again seen around the clock, though a trap was set to catch him.

ALCOHOL FROM PARSLEY. Parsley is selling at nearly twenty shillings a pound in Paris. The tasty herb, whose leaves are used to flavor soups or as a table garnish, cannot be bought for love or money in the markets where it abounds formerly. There is a parsley crisis, for distillers have discovered that this inoffensive plant can be made to yield a highly alcoholic stimulant very much like cocaine. It has what Americans call "an awful kick," and can be made quite easily at home.—Tit-Bits.

A SHATTERED ROMANCE. The motorist mopped up another mile of dusty roads, turned a corner, and came upon a delightful little inn. He promptly dismounted and called for a drink. "Wait a minute and I'll get you another mug. That's Geraldine's," the boy told him. "I don't mind," said the customer, and drained it off. "I'm proud to drink from Geraldine's mug. She's your sister, isn't she?" "No," said the boy. "She's our dog."—Ottawa Journal.

### VANCOUVER ISLAND NEWS

**Back From Britain**  
Port Alberni—Mrs. W. J. Wear and her daughter Mary, have returned from an extended trip to the Old Country. They spent about four months in England and Scotland.

**Mr. Enos Buried**  
Nanaimo—The funeral of John Enos, an old time resident of this city but who for the past few years has resided in Victoria, took place Monday evening in the Roman Catholic cemetery, Rev. Father Heynen officiating. Mr. Enos passed away in Victoria on Friday, the remains being brought to Nanaimo by train. The pallbearers were E. G. Cavaleky, W. Culligan, J. Duca and H. Horne.

**Thoughtless Motorists**  
Cumberland—Dell Alexander and Tommy Rickson, two well known local men, went for an intended short walk in the woods at the south end of town on Sunday afternoon, and after leaving the trail at a certain spot to climb a hill to view the surrounding country, failed to find it again. They traveled for what seemed hours before they found a donkey engine that had been used for pumping water to some spot unknown to them. They adopted a very wise policy in following the discharge pipe, and it led them to an old disband logging camp, and by further following the logging railroad they eventually came out on the main line of the E. & N.

at least ten miles from home. At a level crossing they left the railroad and took to the island highway, expecting to be picked up by some passing auto. Lots of cars passed them, some full and others practically empty, but none asked them to have a lift until they got within about a mile from home, when Mr. Owen came driving along, and when he saw the state the men were in, he helped them in the car and delivered them to their homes.

**Condemns Indemnity Raise.**  
Cowichan Station—The raising of ministerial salaries and seasonal indemnities came in for severe criticism at the meeting of the Cowichan Branch of the G. W. V. A. on Monday. A resolution which was unanimously adopted reads as follows:  
"Whereas, the members of the Legislature for the Province have voted themselves a large increase in their seasonal indemnity, and huge increases have been made in the salaries of the Premier and his colleagues in the Cabinet, and  
"Whereas, according to the statements made by the Premier, the country is in such a perilous state financially as to render it impossible to vote relief to municipalities or to properly aid in the maintenance of the schools and hospitals, and  
"Whereas, the decrease in the cost of living has been given by the Premier as a reason for refusing the statutory increases to the civil servants this year, and  
"Whereas, for like reasons the pay of the day laborers in the employ of

the Government has been cut enormously, and  
"Whereas, thousands of men are out of work and they and their dependents are in need of the common necessities of life, and  
"Whereas, looting in the army was a serious crime, and is even more reprehensible in the Legislature,  
"Be it therefore resolved, That in the opinion of this meeting of the Cowichan Branch, G. W. V. A., every member of the Legislature, with the exception of the Opposition leader, whose stand on this question we heartily approve, should be returned to private life for their unwarranted action, at the first opportunity.  
"Be it further resolved, that in the opinion of this meeting these members should resign their seats and test public feeling on this question. That copies of this resolution be sent to the Premier, the leader of the Opposition, and to the member for this district. Further, that the members of Mr. Duncan's advisory committee be invited to state whether the member for Cowichan was acting upon their advice or upon his own initiative in voting for increased members' indemnities."

**RETIRING INSPECTOR LAUDED BY TRUSTEES**  
School Board Plays High Tributes to Colonel Winsby  
The resignation of Municipal Inspector Colonel Winsby, who has been appointed to the Liquor Control Board, was received with keen regret by the City School Board last night. The resignation will take effect April 30, and until that date Colonel Winsby will carry on his work as Municipal Inspector and in his new position.

Thanks Board.  
"My work has been very pleasant indeed," Colonel Winsby assured the Trustees as he handed in his resignation. "I wish to thank the members of the Board most cordially for the very great courtesy which I have received from them at all times. In parting from the school board I do so with great regret, as I have been associated with the schools of Victoria all my life, with the exception of a brief period I spent in the army, and in giving up my position I feel I am making a considerable departure. My work has been very pleasant to me here, and I believe that our efforts have been limited only by the civic purse."  
**Mr. Jay's Tribute.**  
"I wish to extend congratulations to Colonel Winsby," said Trustee George Jay. "I was a member of this Board when Colonel Winsby was an assistant teacher in our schools, and I have watched his progress up to the position of Municipal Inspector with real satisfaction."  
"Our loss in the Liquor Board's gain," Trustee Mrs. Coady-Johnson agreed. "He has executed his work in a masterly way."  
**Mr. Beckwith's View.**  
"Ever since Colonel Winsby has been Municipal Inspector he has shown himself the right man for the job," Trustee J. L. Beckwith stated. "There is nothing but the greatest satisfaction among us with the energy and ability he has put into his work. It is certainly unfortunate for Victoria that it is to lose those services. I wish I could congratulate him more strongly on the prospect ahead of him, not that I am disappointed that he is going to take on this work, but more particularly because of my own doubts as to the pleasantness of that work compared to the work he has been carrying on. I hope that he will get on equally satisfactorily in his new position. As for finding it pleasant, that is beyond expectation. It will be one of the most trying and responsible positions ever put upon the shoulders of any man in British Columbia."  
"The people of British Columbia are to be congratulated on this appointment," said Trustee Mrs. Spofford.

# THE RIDDLE OF THE FROZEN FLAME

By MARY E. AND THOMAS W. HANSEW

**CHAPTER XX.**  
At The Inquest  
Thursday dawned in a blaze of sunshine, and after the bleak promise of the day before the sky was a clear, sapphire-blue.  
"What a day! And what a mission to waste it on!" sighed Cleek next morning, as he finished breakfast and took a turn to the front door, smoking his cigarette. "Here's murder at the very door of this ill-fated place. At last, we've got to see the thing out!"  
He spun upon his heel and went back again into the gloomy hall, as though the sight of the sunshine sickened him. His thoughts were with Merriton, shut away there in the village prison to await this day of reckoning, with if the word should go against him, a still further day of reckoning ahead. A day when the cleverest brains of the law schools would be arrayed against him, and he would have to go through the awful tragedy of a trial in open court. What was a mere coroner's jury to that possibility.  
Then too, perhaps in spite of evidence, they might let the boy off. There was a chance in that matter of the I. O. U., which he himself had found in the pocket of the dead man, and which was signed in the name of Lester Stark. Stark was due at the inquest to-day, to give his side of the matter. There was a possible loop-hole of escape. Would Nigel be able to get through it? That was the question.  
The inquest was set for two o'clock. From eleven onward the great house began to fill with expectant and curious visitors. Reporters from local papers, and one or two represented the London press, turned up, their press-cards as tickets of admittance. Petrie was stationed at the door to admit casual strangers, but any who offered positive light upon the matter, eye-witnesses or otherwise, were allowed to enter. It was astonishing how many people there were who confessed to having "seen things" connected with the whole distressing affair. By one o'clock almost everyone was in place. At a quarter past Toinette Brellier arrived dressed in black and with a heavy veil shrouding her pallor. She was accompanied by her uncle.

Cleek met them in the hall. Upon sight of him Toinette ran up and caught him by the arm.  
"You are Mr. Headland, are you not?" she asked rather staidly, her voice full of agitation, her whole figure trembling. "My name is Brellier, Antoinette Brellier. You have heard of me from Nigel, Mr. Headland. I am engaged to be married to him. This is my uncle, with whom I live. Mr. Headland—Mr. Brellier."  
He made her feel that he was not in a trait manner, and the two men bowed.  
"I am pleased to meet you, sir," said Cleek, in his best English, "but I could wish it were under happier circumstances."  
"And I," murmured Cleek, taking the train coming from the station, "this man who was to have been Merriton's father-in-law—if things had turned out differently. He found her rather like a rock."  
"There is nothing—one cap do?" Brellier's voice was politely anxious, and he spread out his hands in true French fashion, as if to say, "I know nothing of the whole distressing tragedy. You can help that, and that way alone. For myself, I don't for an instant believe Sir Nigel to be guilty. I can't, somehow. And yet—if you knew the evidence against him!"  
A sob came suddenly from Toinette, and Brellier gently led her away. It was a terrible ordeal for her, but she had hoped that she might be of use to Nigel in the witness box. By the time they reached the great, crowded room, with its table set for the inquest, its empty chairs, and the platform upon which the two bodies lay shrouded in their black coverings, she was crying that she was plainly struggling for self-possession.  
Brellier found her a chair at the farther side of the room, and stood beside her, his hand on her neck, as he saw the figure of Borkins, clad in ordinary clothes. He tipped one respectful finger as Brellier passed, and he smiled at him with a half-smile, as one of whom he thoroughly approved.  
Then there was a little murmur of expectancy, as the group about the doorway parted to admit the prisoner. He came between two policemen, very pale, very haggard, greatly aged by the few days of his ordeal. There were lines about his mouth and eyes that were not good to see. He was thin, older. Already the gray showed in the hair about his temples. He walked stiffly, his head up, his hands handcuffed before him; calm, dignified, a trifle grimly amused at the whole affair—though what this attitude cost him to keep up no one ever knew.  
Toinette uttered a cry at sight of him, and then shut her handkerchief against her mouth. His face quivered as he recognized her voice, then, looking across the crowded room he saw her—and smiled.  
(To be continued.)

### FIREMAN HURT IN PRACTICE DRILL

**Coupling of Worn Hose Parts Under Pressure, Knocking Herbert Medley Down**  
While holding a combined hose and ladder practice this morning in the rear of the Fire headquarters on Cormorant Street, Herbert Medley was knocked down and sustained painful face cuts by the bursting of some old hose, which parted at a coupling as soon as the water was turned on at the hydrant. Medley was standing with the coupling section in his arms when the water was turned on, and a few seconds afterwards the coupling parted with a loud burst. The fireman was thrown flat on his back and one of both ends of the coupling struck him across the face, a severe blow that did considerable damage and occasioned profuse bleeding. The injured man was rushed to the station office, where first aid was rendered at once. The accident is blamed on the worn condition of the hose, which is understood was practice hose, in use in the daily drills.

### WHAT'S IN A NAME?

Facts About Your Name; Its History; Its Meaning; Whence It Was Derived; Its Significance; Your Lucky Day and Lucky Jewel.

LORETTA.

Loretta should, by right of origin, be spelled Lauretta. Its present accepted form is due to the Italian influence which destroyed the French "au" and supplies the letter equivalent to "u" pronunciation. Loretta signifies "laurel," but there is considerable difference of opinion in regard to her source. Some etymologists believe that it is taken from the masculine Laurus, and the ladies so called should consider St. Laurence as their patron. Others contend that it is taken from the Greek word Laura, meaning avenue, and applied to the clusters of hermitages which eventually formed the nucleus of monasteries. A religious interpretation is that the name Lauretta was evolved to commemorate the laurel grove, or laureto, for which the Italians believe the angels transported the holy house of Nazareth during the conquest of Palestine.  
But whatever theory is correct, Lauretta made her debut as a feminine name among the Flemish in 1163. Her next appearance was in the time of King John, when a daughter of William de Braze, Lord of Bramber, was so called. After that, the name became popular in usage throughout England and France. In the latter country, it is called Laurette.  
The emerald is Loretta's talismanic gem. It is the jewel of youth and springtime for Loretta, and will bring her the charm that comes from quick-witted intelligence, and the admiration of others. Wednesday is her lucky day and 1 her lucky number.

# DYSPEPSIA IS GREATEST ENEMY OF MODERN MAN

Distressing Malady is Most Prevalent of All Present-Day Diseases—Thousands Are Relieved by Tanlac

Of all the conditions that afflict humanity, chronic dyspepsia, or what is more commonly known as indigestion, is probably the most prevalent. This most universal malady has baffled the medical profession for years, and the most skilled specialists have been unable to cope with it successfully.

Hours might be consumed in describing the sufferings, mental and physical, of the sufferers from chronic dyspepsia and their failure heretofore to get relief. A morbid, unusual, whimsical and melancholy condition of the mind, aside from the nervousness and physical suffering, is the usual condition of the average dyspeptic.

Dyspepsia, or indigestion, as the case may be, is usually caused by the eating of too much or unsuitable food, and the mucous membrane of the stomach becomes irritated, and there is set up an acute or sub-acute gastritis, which is the inflammation of the heartburn due to the inflammation of the stomach from excessive gases of fermentation or putrefaction. In the most severe cases—those that last over a day or two—the symptoms enumerated may be much more intense. The distress may be marked and the general constitutional symptoms

more evident. When this stage is reached the loss of appetite, the mental depression, and the general uncomfortable feeling in the stomach are much more pronounced. This is particularly true in acute gastritis. It frequently occurs from continued errors in diet that this condition becomes chronic, and the symptoms persist for an indefinite period. The appetite is very apt to be varied, but at times very good. Heartburn is frequent, if not constant. The stomach is painful on pressure, the tongue is coated, there is a bad taste in the mouth, and there are changes in the amount of salivary secretion. Constipation is also usually present, although diarrhoea may alternate.

Most cases of dyspepsia can be cured if the diet is properly looked after and with the proper treatment. Proper eating, the proper amount of food and hygienic living are the most important features of the treatment. Most people can eat fast and eat too much.

One noted authority has said that the stomach is the fountain head of health or disease, as the case may be. Tanlac was designed primarily for the regulation of the stomach, liver and bowels, but it is no uncommon thing for persons who have used it to find that they have also been relieved of rheumatism and other ailments not generally recognized as having their origin in stomach trouble.

There is probably not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive organs, thereby enriching the blood and invigorating the whole system. Next it enables the weak, worn-out stomach to thoroughly digest the food, permitting the assimilation of the nourishing elements.

Millions of people have not only been relieved of the most obstinate forms of dyspepsia and indigestion by the Tanlac treatment after other remedies had failed, but many of them have reported a remarkable and rapid increase in weight and a return to normal health and strength by its use.

## ALASKA SHIPS ARE BOOKED WELL AHEAD

Practically All Space Reserved on C. P. R. Boats For June and July

If the advance bookings can be accepted as a criterion, travel to Alaska this year will establish a new record. "Practically all accommodation booked for the months of June and July" is the answer of Canadian Pacific Railway officials to a query as to the prospects of summer travel to the Land of the Midnight Sun during the coming season. Reservations can be made for August but for June and July sailings a very small number of berths are available.

Season Starts June 10. The summer service of the British Columbia Coast Steamship Service on the Alaska route will be inaugurated from Victoria June 10 by the Princess Royal, followed by the Princess Alice June 17, the two vessels subsequently giving weekly sailings out of this port and Vancouver for Skagway via Alert Bay, Prince Rupert, Ketchikan, Wrangell and Juneau.

## STRIKE OF JOINERS ON CLYDE HAMPER COMPLETION OF SHIPS

The strike of joiners on the Clyde, which already has lasted for two months, is seriously delaying the completion of a number of large passenger vessels, including the liner Empress of Canada, lying at the plant of the Fairfield Shipbuilding Company. Work is being held up all over the Clyde district, but because of the depression in the industry, shipbuilders do not appear to be in any particular hurry to have ships launched.

## FISH FROM PACIFIC COAST IS FINDING FAVOR IN THE EAST

Ottawa, April 14.—(By Canadian Press)—That Canadian sea food is becoming more popular throughout the Dominion is demonstrated by statistics which have been compiled during the past year by the Fisheries Branch, Department of Marine and Fisheries, Ottawa, based upon the movements of fresh and frozen fish by freight and express from Atlantic and Pacific stations to points in the interior. The information does not take into consideration the extensive supplies being placed on the Canadian market from inland fishing areas, nor does it include canned, cured or pickled fish. There is every indication, however, that the increase in the demand for fresh and frozen fish in the Canadian market applies to a commodity in other forms as well.

## SPECIAL BOAT ON SATURDAY NIGHT TO PREVENT WRECKS ON PUGET SOUND

Seattle, April 14.—If the Government had placed a lightship off Admiralty Head, at the entrance to the Sound, as urged by shipping interests and organizations for years, the steamship governor disaster would not have occurred, according to letters sent by the Northwestern Tow-boat Owners' Association to Herbert Hoover, Secretary of Commerce, and Admiral W. S. Benson, chairman of the Shipping Board. The letters endorse the plan proposed by H. M. Delanty of Aberdeen for utilizing the Shipping Board's wooden steamships as lightships. The letters to Secretary W. T. Lister, the Tow-boat Owners' Association.

## COAL MINING COMPANIES IN SHANGHAI

The quantity of coal consumed in Shanghai is a little more than 3,000 tons per month. Before the war, European and Chinese companies in Shanghai were unable to supply the demand for coal in the city, so the coal merchants in Shanghai to remedy this condition organized eight coal mining companies. Large profits were made in the past year.

Newton Social Club. The lady winning first prize was Mrs. J. Osborne, of Sturgis. Gentlemen's first, Mr. Lovick, Deep Cove. Consolation, Mrs. C. S. Fox and Father Francis. Ralph Robillard made a very capable M. C. At the close of the game dainty refreshments were served. The prizes were kindly donated by Mrs. R. Hall, Miss C. Hagan and Andrew Robillard. The next event will take place in Teatril Hall on Saturday evening, April 15, at eight o'clock.

In Police Court.—E. H. Ross, charged with obtaining \$10 by false pretences from John Foster, in the deal with regard to a day was remanded until Saturday for hearing, his counsel, Percival Walls, pleading not guilty for his client. The accused appeared considerably battered up, and could give no light on the question. His face was slightly damaged, and he was contused in several portions of the head, with plaster in position. Bail was refused at this stage. It being stated that further charges might be laid. Harry Johnson, Indian, and Sam Edgar, Indian, were each fined \$5 for being drunk. A number of summons cases were filed with regard to motor offenses. A car belonging to Thomas Plimley let the owner into a fine for \$5 for parking in front of a theatre, while F. C. Pauline was assessed the same amount for a similar offense.

**ARMENIAN RELIEF DRIVE TO CONCLUDE**

Effort Here Will End on Saturday; Need For Assistance

British Columbia is united with all the other provinces of Canada in an organized effort on behalf of Armenian sufferers, and the local committee, of which J. W. Spencer is chairman, is concluding this week the work which it began a week ago. Contributions mailed to the treasurer, R. W. Perry of the Great West Life, or turned in at committee headquarters, at 411 Fort Street, will promptly be forwarded. To all the people of Victoria and district a very earnest appeal is made for their help toward meeting the desperate need of the Armenians.

A Terrible Ordeal.

It is not to be wondered at that some of the smaller nations which bore the full brunt of the Great War have not yet been able fully to rally from the disaster which befell them, and especially so that a people who suffered such a utterly crushing series of calamities, a six-year nightmare of massacre, deportation, epidemics and famine, as did the Armenians. Their adult male population has been reduced to less than three per cent.

The survivors who are able, both men and women, are doing their best to rebuild the shattered life of their people.

The Afflicted Race.

Other reports indicate the desperate need of food, clothing and medicines to stave off starvation and death by exposure and epidemics, and 250,000 orphan children are dependent for these necessities of life upon such help as may be received from the civilized world outside. 300,000 women consens to be held captive in Turkish harems despite the fact that the Sultan has given his written pledge that they can all be taken out, as neither food nor houses can be provided for them at present because of the limited funds available to the relief organization which is endeavoring to cope with the distress. This organization is the Near East Relief, the Red Cross of that region, with which the Armenian Relief Fund Association of Canada is affiliated.

Bank Clearings.—Bank clearings for the week ending April 14 are \$2,749,923, compared with \$2,335,302 in the corresponding week of 1920.

Fire in Rooms.—A fire at 3.15 last night gave the department a run to the Columbia Rooms on Pandora Avenue, little damage being done.

Orangemen Parade.—Local Orangemen will parade on Sunday to St. James Anglican Church, Quebec Street, to attend the 7 o'clock service, for which special music has been arranged and Rector H. T. Archbold will preach a special sermon. A large turnout is expected.

Turn Down Teachers' Exchange.—The plan for the interchange of teachers between Canadian and English schools was turned down by the City School Board last night. The Trustees did not think they should undertake such a scheme at this time.

Rabbit Breeders' Meet.—The Victoria and District Rabbit Breeders' Association is making preliminary arrangements for the holding of a big fall show this year, which will surpass all previous efforts. Secretary Sadler has secured authority to register rabbits in the National Breeders' and fanciers' Association of America, and this is calculated to stimulate interest among breeders.

Appoint New Teachers.—Mrs. L. Griffiths and Miss Mary Hobkirk were appointed to the teaching staff of the city public schools by the School Board last night. They will commence to teach retarded classes May 1, either at the Girls' Central School or the new King's Road School, an institution which will be known in the future as the Quorra Primary School.

Victim of Accident Progressing.—According to a hospital report to-day from the Jubilee Hospital, Mrs. White, the lady who was accidentally shot through the neck at Saanichton is now progressing well, and out of the danger. The charge of a shotgun passed through the heavy part of the neck but missed the windpipe. The shotgun was discharged in pure accident. All danger from the injury has passed and further complications are being expected.

A special sitting of the Appeal Court was held this morning by Chief Justice Macdonald, Mr. Justice Gallacher and Mr. Justice McPhillips, to consider the application of the Canadian Pacific Wine Company versus C. F. Tuley, G. M. Sutherland, J. Copeland, G. Thompson, and C. J. South, the plaintiff-appellant, asking for permission to appeal to the Privy Council in this action. Leave to appeal was granted.

C. L. Harrison, representing McGinnis and Arnold, Vancouver, appeared for the plaintiff company, and S. Taylor, K. C., acted for the defendant.

The case recalls the liquor seizure in Vancouver, in the month of August last, when \$50,000 worth of liquor was seized, and a conviction given by Magistrate South, of Vancouver.

Mr. Justice Morrison gave judgment against the plaintiff on a preliminary object in November last, while the case came on for hearing in the Court of Appeal here in January of this year, judgment being reserved. Judgment for plaintiff was given later.

## Victoria Will Have Baseball Team

### Jack Rithet Saves Sport For Victoria

#### Will See That Team Finishes Season and Is Well Up In Race All Way; Elected President of Club at Meeting Held In City Hall Last Night; Anxious to Restore Confidence in Baseball in This City.

Thanks to the splendid sportsmanship of Jack Rithet, the city of Victoria will have a professional baseball team this year. Just as things were looking their bluest and it appeared that the only baseball the fans would get this season would be in the form of news of games played elsewhere, Mr. Rithet stepped forward and decided to back the ball club for the full playing season, and accepted the presidency.

#### A Marvellous Finish.

The public meeting which was called by Mayor Porter in the City Hall last night did not inspire the few shareholders of the Victoria City Baseball Company with very much confidence. There were only about thirty persons present and there were not very many more people in the crowd. Things did not look any too bright for baseball and it was a marvel the way the meeting progressed and concluded.

#### A Great Chance.

"Here," said the Mayor, "is a chance for the citizens to help back a good sporting as well as advertising scheme, and they have been very backward. I know the people want a team, but they certainly do not want to come forward and help finance the thing."

#### "City is Dead."

"That would be useless," said Harry Savage. "Not one alderman has seen fit to put a nickel in the club, so that chance would be a \$2,000 loan having to get by it. The attitude of your City Council is the attitude of your City. It is dead. I don't know what the merchants can be thinking about not to back baseball. It will be the main sport here this Summer, and they are bound to receive many indirect benefits."

#### Hand It Back In End.

"If I prove that baseball can be made to pay in Victoria, and I am sure that it can, I will turn back the money to the fans next year and they can run it themselves. I do not want a ball club. I've a business of my own, but I certainly do not want to see baseball die out in Victoria. We've got to have some form of sport and amusement for our visitors. Baseball appeals to them all and it will go well this season I am sure."

#### Must Be Gentlemen.

"Every player has got to jack himself up and be in strict training," announced President Rithet. "If these men cannot do that much then they will show them the open door. We can get plenty of good men and I propose to make them all toe the mark. These players are representing the city of Victoria, and must conduct themselves as gentlemen all the time."

#### GIBBONS BEATS WILLIAMS

New York, April 14.—Tommy Gibbons on the left, heavyweight, defeated Larry Williams, of Bridgeport, here Tuesday night, when Williams seconds tossed the towel in the ring in token of defeat after 26 seconds of the fourth round. Gibbons is a number of terrific left hooks to the ribs and head, flooring the Bridgeport fighter several times.

### Mets and Wests Will Fight For Jackson Cup

#### Comrades Lost One.

Yesterday's game attracted considerable interest as the Comrades were expected to be on top of the Wests all the way and probably slip over a win. But the Wests were too strong and rattled in two goals, both of which came from the toe of Archie Muir, while the ex-soldiers were unable to find the net.

#### Real Old Rivals.

The game between the Wests and Mets on Saturday will probably draw large crowds. These old rivals have been in some close and strenuous games. During the City Senior League the Mets and Wests dogged each other all the way and finished the season with a draw. The Mets played a play-off and arranged and the Mets triumphed.

#### Jack Was Game.

"I'm game," said Jack. "I'm in this thing for now and I guess I might as well go a little farther. I don't want to see the game die out in Victoria, but I think there should be more backing forthcoming from the business community. They have an alibi in thinking that things might not have been conducted in the best way last year, but I lost money in the club. I was ready to come back this year and I thought the other would."

#### For Benefit of Real Fans.

"I'm not doing this thing for the benefit of the merchants of Victoria. I'm doing it for the benefit of those thousands of fans who have come to invest money in the club but are always on deck to buy their bleacher seats for every game. Those chaps want baseball but they haven't the money to back it. I will sell them tickets. I know they'll back the club when the time comes. In the meantime I'll carry on."

#### Veratility of Other Yankee Stars.

In addition to Ruth, Miller Huggins has other versatile stars. Wally Schang, the Yankee's star catcher, has successfully played first, third and left. Chick Pewster has made good at second, short and in the outfield. Ernie Ward, who covered third last season, is all wood and a yard wide at short or second. Bob Messel can produce fair results in fielding at first, third and in right, but he lacks steadiness and alertness. McNally is a first-class utility infielder.

#### Never Worries, Seldom Hurries

I have often been asked the secret of my long and successful career. There is no secret. Jack and I are the best of friends, and he often has discussed his training methods. Britton goes along at an easy pace in and out of the ring. He never worries, he seldom hurries. He trains constantly, but easily. He is a home man, lives carefree, although he does not believe in road work and is not obliged to do any, he spends a great deal of his time in the open.

#### He is Nearly 35 Years Old.

Britton has had 42 ring battles, according to statistics at hand. He is nearly thirty-six years of age. He is clean cut, pleasant appearing, and might pass for an alert young business man. Isn't this quite an argument in favor of boxing?

#### Indians Have Capable Men

The Cleveland's all around players are Joe Wood, a former pitcher, who plays right and sometimes first; Sumaker, catcher, and first baseman; Ray Caldwell, pitcher and outfielder; John Collins, traded by the White Sox to the Red Sox, is perfect in a number of terrific left hooks to the ribs and head, flooring the Bridgeport fighter several times.

### Lacrosse Will Boom In City This Season

#### "Billie" Moresby Elected President of Victoria Lacrosse Club at Annual Meeting Last Night; Victoria Will Enter Island League With Sidney and Probably Nanaimo; No Action on P. C. A. L. A. Question.

Lacrosse will be a very live sport in Victoria this Summer. For a time it looked as if the national game might die out in the Capital, but there was sufficient enthusiasm at the annual meeting of the Victoria Lacrosse Club held last night in the Metropolis Hotel to disperse any ideas of that nature. The meeting was one of the finest that has been held in Victoria for many years.

#### GAMES IN BASKETBALL TOURNAMENT ON TONIGHT

V. I. A. A. Will Play Christ Church and St. Andrew's Will Clash With First Presbyterians

#### A Good President.

W. C. ("Billie") Moresby, who has taken an active interest in lacrosse since his school days, was elected president of the Victoria Lacrosse Club last night. He agreed to accept the position, which will guarantee the club a very admirable executive head. The other officers of the club will be: Honorary President, W. E. Ditchburn and J. A. Virtue; honorary vice-presidents, J. E. Farnham, president of Chamber Commerce, and Cliff Denham (president Rotary Club), Mark Graham (president Kiwanis Club), and Harold Beckwith (president Gyro Club); vice-presidents, Ted Bailey and Jimmie Dekers; secretary-treasurer, Bob McInnes; honorary treasurer, Lester Patrick; executive, Ed. Brynjolfson, John Johnson, Alie McGreggor, Alie Stevens, Ed. Christpher, Fred Willows, J. Hurst and Art Curtis.

#### Jack Britton Does Not Worry or Hurry When Training or Fighting

#### Veratility of Other Yankee Stars.

In addition to Ruth, Miller Huggins has other versatile stars. Wally Schang, the Yankee's star catcher, has successfully played first, third and left. Chick Pewster has made good at second, short and in the outfield. Ernie Ward, who covered third last season, is all wood and a yard wide at short or second. Bob Messel can produce fair results in fielding at first, third and in right, but he lacks steadiness and alertness. McNally is a first-class utility infielder.

### ST. ANDREW'S ARE SENIOR "B" CHAMPS

#### Defeated Tillicums in Close-checking Game for Basketball Title Last Night

During the Senior "B" basketball game at the "Y" last night there was very much at stake and the St. Andrew's went away at the start determined to win. They were up against a hard lot of players who fought all the way, for a win meant the leadership of the Senior "B" League.

#### Says Win Title.

In the deciding match of the Intermediate Sunday School League last evening at the "Y" James Bays defeated St. Paul's by the score of 23 to 14. At the start and have met the Mount Pleasant Methodists and Vancouver, who are sending over two teams, both senior and intermediate, to the B. C. championship on Saturday. Most of the scoring for the Bays was done by Hartley and Barrie, who played a good game. The Bays took the lead at the start and held the edge on the St. Paul's quintette.

A popular star in a picture that fits him like the proverbial "paper on the wall," became the attraction at the Columbia Theatre last night, when Tom Mix, the daredevil Fox star, began a run of "The Untamed," adapted to the screen from the well-known novel by Max Brand. Thrilling throughout, this picture will appeal to every lover of Western photo-drama. Mix again covers himself with that glory which results from the successful performance of hair-raising feats of dare-devilry accompanied by genuinely good acting.

**VARIETY**

The pleasure-loving Romans of old had nothing on the French stage favorite of to-day when it comes to luxury in the matter of bathing facilities—at least if one is to believe a scene in Erich von Stroheim's special feature, "The Devil's Pass Key," now being shown at the Variety Theatre. One of the scenes in the story shows Mae Busch in the role of a Spanish dancer, enjoying her morning bath. The word morning is used figuratively, for the lady in question does not begin her day till long after the noon-day hour. Von Stroheim copied the bathroom from a picture of the private natatorium of a Parisian stage favorite before the war.

the realm of possibility, nor does he or those in his cast ever act in a manner that is unnatural.

"It's the human element that makes a comedy or the lack of this element that makes a tragedy," declared the "Star" comedy star, "There can't be just as much humanism in a comedy as in a tragedy. The comedy is only the other side of the shield from the tragic. A grin is merely the antithesis of a scowl; laughter is but the opposite of a frown; certain human emotions cause the one, the emotions that cause the other must also be human. Impossibilities never occur in life, and they should not occur on the screen. This obtains in either comedy or drama.

## 84% of All Failures Were Non-Advertisers

These are the 1920 figures of the big commercial agencies.

They are interesting statistics, yet there is nothing remarkable in the facts disclosed.

The concern that advertises recognizes that advertising is the greatest and cheapest selling force we have to-day.

And moreover, the advertising is in itself evidence of business life. It is enthusiasm for quality and service bubbling out into print.

All advertising does not succeed. Sometimes it is badly done. Advertising in the right place, at the right time, backed by the right goods will invariably win.

The foundation of advertising success is picking the right markets and the right medium. The national advertiser who starts on this basis plans intelligently and has the battle half won.

The right medium for reaching the largest number of customers, at the lowest cost, in any market, is the daily newspaper.

## WORK STARTED ON LARGE GAS PLANT

### Driving Piles For Foundations of \$125,000 Carbonizing Plant

Preliminary pile-driving operations have been commenced at the corner of Store and Pembroke Streets, incident to the construction of a large carbonizing plant for the Victoria Gas Company. The construction permit has been filed at the City Hall and it is estimated that the plant will cost \$125,000.

The plant has been designed by the West Gas Improvement Company, of Manchester, Eng., and will be erected under the supervision of the English company's experts. The foundations are being put in by the Victoria Gas Company.

The machinery is being manufactured in England and it is probable that some time will elapse before this material is delivered on this coast. This may have the effect of delaying the actual construction of the building, but it is hoped to have the new plant ready for operation in six months. The structure will be of brick and steel construction and will be 40, 75 feet high, and will be of brick and steel construction with the most modern labor-saving devices.

## PREJUDICE EXISTS, SAYS TOM MOORE

Ottawa, April 14.—(Canadian Press)—Organized labor is up in arms against Hon. F. B. Carvell, chairman of the Railway Commission, as a result of his remarks yesterday. The McAdoo Railway Wage Award.

The attitude of organized labor was summed up by Tom Moore, president of the Dominion Trades and Labor Congress, in a statement this morning to the Canadian Press. Mr. Moore said: "How can labor, or in fact anyone else, have the same respect for the policy of a Board whose chairman, Hon. F. B. Carvell, manifests such a prejudiced state of mind with regard to any question? His statements are not suggestive of impartiality. It is certainly a question for the Government seriously to consider, as Mr. Carvell's attitude may lead up to international discord."

"Labor is in full accord with the attitude of Senator Robertson as expressed in the Senate yesterday. He has placed the issue fairly before the country."

### C.P.R. STOCK HAS SUDDEN BREAK

(By Burdick Brothers, Ltd.)

New York, April 14.—The stock market closed weak and selling was very prominent throughout the afternoon session. The railroad group showed extreme weakness, and headed by C. P. R. made sharp breaks. The low point reached in many years. The break was attributed principally to the unfavorable strike news.

### TO-DAYS TRADING IN WINNIPEG MARKET

Winnipeg, April 14.—Heavy offerings of cash wheat Wednesday afternoon and again early this morning had a decided weakening effect at the opening of the local wheat market to-day. There was heavy liquidation and stop-loss selling. Preliminary broke about 7 cents early, but regained some of the loss later. Exporters, which was reported coming from farmers, elevator companies, country dealers and jobbers, which it reached only to fall back again. The close was 3 1/2 to 3 3/4 cents up.

The undertone in the oats market was firm, but without important feature. There was no important change. Barley 1 1/2 to 1 cent higher; flax 1 1/2 to 1 3/4 cents higher, and rye 4 1/2 to 5 cents up.

## TO KEEP CANADIANS' MINDS FRESH IN THE MINDS OF CHILDREN

### Ten Great Anniversaries to Be Commemorated in Schools

Ten famous battles in which the Canadian Expeditionary Force won imperishable glory during the Great War will be fittingly commemorated in Victoria public schools, as a result of the efforts of the Gyro Club of this city. Following a decision reached by the City School Board last night, the Canadians' deeds will be described to the school children on the anniversaries of the battles so that they may grow up familiar with the engagements which proved that the Canadians formed one of the finest fighting forces the world has ever seen.

Officials of the Gyro Club have interviewed Mayor Porter on the subject also and His Worship has promised to notify the public of the various anniversaries to be celebrated so that flags may be unfurled in the city on these days.

The Gyro Club's suggestions, which met with the approval of the Trustees, were outlined to the School Board in a letter received last night from Archie Wills.

The Proposal. Mr. Wills wrote to the School Board in part as follows: "The Gyro Club is convinced that there is need of a scheme of this kind in order that the glories of the Canadian corps may not perish. The war is now fast being forgotten by all save those who crossed No Man's Land, but that is no reason why the traditions established by the C. E. F. should be wadded from the minds of all."

"There is just a chance that the young minds of our country may be allowed to grow up in ignorance of the great achievements and sacrifices of their own fathers, brothers and relatives, and have instilled in them the record of the army from the Republic to the South. This is quite possible through the fact that the bulk of the literature read in Canada comes from the American press. Canadian children may be raised to think that Chateau Thierry was the deciding battle of the war, and never know that the Canadians stopped the Hun at Ypres and achieved victories at Vimy, Passchendaele and Cambrai, which for sheer daring, aggressiveness and willingness to sacrifice find no greater nor brighter pages in the histories of any nations of the world."

"I think you will agree that the school children of to-day should be acquainted with the victories of an army of their own blood which was active during their own lives. This history is of more value to them than such conflicts as the wars of the Roses and the war of 1812-13. Scheme Not Elaborate. "Our scheme is not elaborate, and only involves the expenditure of about fifteen minutes of the teachers' time on the anniversaries of the battles and the unfurling of the Canadian flag on the flagstaff of each school on those days."

"We do not wish to ask for the commemoration of more than ten battles, due to the fact that many important victories were won during the holiday terms. Of the ten anniversaries mentioned we should like to have the teachers relate briefly to the children the story of the battles. I am sure all the teachers are acquainted with the facts. A Silent Tribute might also be paid by the children to the 50,000 Canadians who laid down their lives that the school children of to-day might study under British rule instead of under the reign of the Hohenzollerns."

"The anniversaries we wish kept are as follows: Vimy, April 9, 1917; Ypres, April 22, 1915; Arras, including Monchy, August 26, 1918; Drocourt-Queant or Wotan Switch, September 2, 1918; Somme, Courcellette, September 15, 1918; Canal du Nord and Bourlon Wood, September 27, 1918; Cambrai, October 11, 1918; Valenciennes, November 2, 1918; Passchendaele, November 8, 1917; Mons and Arras, November 11, 1918."

"The trust that you will give this matter your very serious consideration, and that you will see fit to carry out our desires."

"We further trust that you will do all in your power to prevent the city from suffering the awful humiliation of the anniversary we should like to have the teachers relate briefly to the children the story of the battles. I am sure all the teachers are acquainted with the facts. A Silent Tribute might also be paid by the children to the 50,000 Canadians who laid down their lives that the school children of to-day might study under British rule instead of under the reign of the Hohenzollerns."

## WORK-WORN WOMEN

### Care of Home and Children Often Causes a Breakdown.

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her. No wonder the woman at home is often in a state of nervous weakness, headaches, backaches and nervousness. Too many women accept these conditions as a part of the lot of motherhood. But many and varied are the health troubles that are the cause of simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman needs rich blood and plenty of it. There is one way to get this good blood so necessary to health, and that is through the use of Dr. Williams' Pink Pills. These pills enrich the blood, and through their use many weak, ailing wives and mothers have been benefited. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c. a box of six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont. Adv.

which it underwent last year at failing to observe Armistice Day. We owe tribute to the position of the noble and famous corps which fell with their faces to the foe, daring all, and who sleep the last sleep in distant lands. The little white crosses which mark their last resting places make a mute appeal to us all to do our duty to a country for which they were proud to die. "If you see this matter in the light in which we view it, please let us know that you will sponsor our scheme."

## Those Nasty Little Pimples That Come On The Face Are Caused By Bad Blood.

Many an otherwise beautiful and attractive face is sadly marred by the unsightly pimples and various other skin troubles, caused wholly by bad blood. Many a cheek and brow cast in the mould of beauty have been sadly defaced, their attractiveness lost, and the possessor of the "pimpley face" rendered unhappy for years. Their presence is a source of embarrassment to those afflicted as well as pain and regret to their friends.

There is an effectual remedy for these facial defects and that is Burdock Blood Bitters, the old reliable medicine that has been on the market for over 40 years. It drives out all the impurities from the blood, and leaves the complexion clear and healthy. Mrs. James Williams, Waterford, Ont., writes:—"My face was covered with pimples for nearly a year. I used different kinds of remedies to get rid of them, but they did not help. There was no relief. A friend recommended Burdock Blood Bitters.
