Knitting and crocheting with the Woolco Yarns is one of the most fascinating forms of recreation. It is very easy to learn the first stitches, and a little practice will make you a proficient worker. You will find that the work goes quickly, and that instead of tiring you it will rest you and soothe the nerves.

In preparing the Woolco Manual it has been our aim to produce a book that will be of greatest service both to those who are taking up the work for the first time and for those who need only new ideas for practical and pretty garments. All explanations have been made as simple as possible, and the garments have been selected for their general usefulness and good style.

To those who are not familiar with knitting and crocheting with yarns a word of advice about yarn quality is important. In any line of goods quality is always worth its price, and in the end will prove the most economical. But while in some lines of goods a little better or a little worse may make slight difference, in yarns it means the difference between success and failure. The best worker in the world cannot make a satisfactory garment of inferior yarns. For this reason we wish to impress upon you the necessity of buying Woolco Yarns. You will then be certain to secure the full value of the time and skill you spend upon your work. See pages 6 and 7.

# WOOLCO YARNS

---

The rapidity with which Woolco Yarns have established themselves among our patrons is the best possible testimony to their splendid qualities. Each of the three yarns are made from wools carefully selected to give the proper strength and character, every step in the long process of manufacture is closely watched and the finished yarn undergoes a final searching examination before it is boxed. That is why you can count on Woolco Yarns being always the same.

When worked up into garments you will find that Woolco Yarns give an unusually soft and warm fabric with remarkable wearing qualities. Since a large part of the value of any knitted or crocheted garment is in the time and skill spent in making it, you should take particular care in the selection of your yarn. If you make it a point to use only Woolco Yarns you can depend upon the finished garment giving perfect satisfaction.

For the convenience of those who do not live near a Woolworth Store Woolco Yarns will be supplied by mail from Store No. 19, Boston. See details on opposite page.

# CROCHET STITCHES

## Chain Stitch

Make a series of loops, drawing each loop through the preceding one.

## Single Crochet

Make a chain. Insert the hook, draw the yarn through; wrap the yarn around the hook and draw it through both loops on the hook.

The single crochet may be made in three ways: by inserting the hook under both loops, under the front loop, or under the back loop. Where not specially mentioned "single crochet" means using both loops.

## Double Crochet

Make a chain. Wrap the yarn around the hook, insert the hook, draw the yarn through, wrap the yarn around the hook and draw the yarn through 2 loops, wrap and again through 2 loops.

## Treble Crochet

Wrap yarn around hook twice, insert hook, draw yarn through, wrap, take off 2 loops three times.

### Pineapple Stitch

Make a chain. 1ST row—Draw yarn through 4th stitch from hook, skip 1 chain, draw through next chain and draw through the 3 loops on hook; chain 1. \*Draw loop through the same stitch as last loop, skip 1 chain, draw through next chain, draw through the 3 loops on hook; chain 1. Repeat from \* to end of row. Break off.

2D row—Fasten yarn through chain of 1st row; chain 4. Draw loop through 1st space, through 2d space, through the 3 loops on hook; chain 1. \*Draw loop through space last used, through next space, through 3 loops on hook; chain 1. Repeat from \* to end of row. Break off. Repeat 2d row.

### Afghan Stitch

Make a chain the length required. Pick up each stitch of the chain.

2D row—Work back by drawing through first 1 loop, then throwing the yarn over the hook and drawing through 2 loops at a time. 3D row—Repeat the 1st row, but pick up the vertical thread instead of the chain. In afghan stitch the extra chain for turning at end of row is not required.

### Shell Stitch

Make a chain. Make 5 double crochet in the 3d stitch, \*skip 2 chains, make a single crochet in next stitch, skip 2 and make 5 double crochet in next stitch\*.

### Picot

1 single crochet in 1st stitch, chain 3, 1 single crochet in same stitch. Repeat in every other stitch.

**Crazy Stitch**

Make a chain. \*Make a single crochet, chain 3, 3 double crochet in same stitch, skip 3 stitches.\* Turn and chain 3 at end of row. 2D ROW—\*Make a single crochet in chain 3 of 1st row. Chain 3 and make 3 double crochet in same place.\*

**Bean Stitch**

Make a chain. Skip 2 chains, insert hook in 3d chain, wrap and pull through, wrap, insert hook in same stitch, pull through, wrap, insert hook in same stitch, pull through, wrap, pull through 6 loops, chain 1. Skip 1 stitch.

**Newport Stitch**

Make a chain. 1ST ROW—Make 1 single crochet in every stitch of the chain. Break off the yarn at end of each row.

2D ROW—Work 1 single crochet in every stitch, always taking the stitch from the back.

3D ROW—Work 1 single crochet, then wrap the yarn twice over the hook for treble crochet, sticking the hook in the top stitch of the 1st row of single crochet; then 3 single crochet, picking up the back stitch only; then the treble, and repeat to the end of the row.

4TH ROW—Work 2 single crochet, then the treble. This brings the treble back of the one in the preceding row. Then 3 single crochet (the 1 above the treble must be taken through the stitch, the other 2 take up the back stitch). Always have 3 stitches between the trebles; in each row the treble will be 1 stitch back of the treble in the preceding row.

**Star Stitch**

Make a chain. Insert hook in 1st stitch of chain. Draw a loop through each of the 1st 5 stitches of chain, throw yarn over hook and draw it through all the stitches on hook, closing the cluster by chaining 1. \*Draw a loop through the eye formed by chaining 1, another through the back part of last upright stitch of the star just made, then through the same stitch of chain in which the 5th stitch of previous star was taken, then through each of the next 2 stitches. Wrap and take off 6 loops. Close as before.\* Break off at end of row.

2D ROW—Draw yarn through outer edge of the 1st star made, chain 3. Draw a loop through each of the 2 chains just made, then through stitch in which yarn was joined, and through the 2 stitches of the 1st star. Wrap, take off the 6 loops on hook. Chain 1. \*Draw a loop through the eye formed by chaining 1, another through the back part of the last upright stitch of star just made, another in same stitch in which last upright stitch of last star was made, then through each of the next 2 stitches of next star in previous row. 3D ROW—\*Single crochet around single crochet of previous row, single crochet through both loops of twisted stitch.\* Repeat 2d and 3d rows.

# KNITTING STITCHES

## To Cast On Stitches

Make a loop in the yarn and slip it onto a needle. Next slip the 2d needle into the loop, throw the yarn around it, draw it through, and slip the loop thus formed onto the left-hand needle, thrusting the latter needle through it from the front to the back. Put the right-hand needle into the 2d loop; make another loop and slip it onto the left-hand needle.

Repeat in this manner until you have as many stitches as required.

## Knit Plain

Having cast on the number of stitches required, insert the right-hand needle into the 1st stitch; throw the yarn over, draw it through to form a loop or stitch. Repeat this movement for the next and all the stitches on the left-hand needle, keeping the stitches on the right-hand needle.

## Increase

Knit 1 and purl 1 in the same stitch, or throw the yarn in front and knit plain.

## Decrease or Narrow

Knit 2 stitches together.

**To Purl**

Throw the yarn from its usual position at the back of work, in front of the right-hand needle. Then insert the point of the latter under the next stitch, thrusting it through from the right toward the left, instead of the way usual in knitting plain. This will bring the right-hand needle in front of the left one; now throw the thread around the right hand needle by the same movement as used in plain knitting, and draw the loop backward instead of forward. Seam, or purl as many stitches as required, and then throw the yarn back of the needle into its ordinary position.

**Bind Off**

Slip 1 stitch, knit the next stitch; with the left-hand needle draw the slipped stitch over the knitted one. Continue slipping the 1st stitch over the last knitted stitch until there is but 1 left on the needle, break off yarn and draw through this last stitch.

# Buy at one time enough yarn to finish your work.

Woolco Yarns have always been dyed with the finest dyes obtainable. The well-known condition of the dyestuffs market at present forces us to buy dyes in small lots so that we are no longer able to maintain our usual uniformity of shades.

It is a condition which we would overcome if it were possible, but as there is positively no remedy we must urge our customers to buy more carefully than has heretofore been necessary.

Buy enough yarn to finish your garment and see that it matches before you leave the store. By doing so you will avoid disappointment for yourself and assist us in overcoming an awkward and regrettable situation.

May we count on your co-operation?

## In Buying Woolco Yarns

you should buy enough of a color to finish the garment you intend to make. Woolco Yarns have always been dyed with the finest and most expensive dyes obtainable. The well-known condition of the dyestuffs market at present forces us to buy dyes in small lots so that we are no longer able to maintain our usual uniformity of shades. It is a condition which we

would overcome if it were possible, but as there is positively no remedy we must urge our customers to buy more carefully than has heretofore been necessary. Buy enough yarn to finish your garment and see that it matches before you leave the store. By doing so you will avoid disappointment for yourself and assist us in overcoming an awkward and regrettable situation. May we count on your cooperation?
