|           |      | This is a transcript by the celebrated Brunck of 743 inedited Greek Epigrams, from a MS. in the King of France's Library. The original compilation was made by Guyet, who bequeathed it to Menage. In a note at the end of the volume, Brunck says he transcribed it in 1769, "sedulo et quanta potui diligentia." It may be added that this transcript far exceeds the original in interest and value, from the notes and references to critical works with which Brunck has enriched it.                    |         |         |           |         |  |

 This is a manuscript of the first splendor, both for writing

and illumination. It was executed for Ferdinand I. King of Naples, who first introduced printing into his states, and was so ardent a collector of books and manuscripts, that Mr. Roscoe relates, that the Florentines, to conciliate him in a rupture, presented him with some fine manuscripts of the Classics; as the Palæ of Florence are seen among the ornaments, this may be one of them.

| <i>Li. M. Sayles</i>  |     | This splendid specimen of the press of Sweynheim and Pannartz, is the only copy of the first edition of Livy known to exist upon vellum. It appears, by the arms at the bottom of the first page of the history, to have been taken off for Alexander VI. when Vice-Chancellor of the Roman See, and Governor of the Monastery of Soubiaco, where Sweynheim and Pannartz took up their abode (being a German monastery) when they introduced the art of printing into Italy. |           |

The original Manuscript of L. Da Vinci was deposited

with the Barberini Family. Mr. De Chantelou, Minister of France at the Court of Rome, wishing to obtain a transcript of the rules for drawing, employed Nicholas Poussin, then pursuing his studies at Rome, to make drawings of what L. Da Vinci described. These are the subjects :

4 Drawings of Anatomical Figures.

22 Drawings of Human Figures.

2 Heads in Profile.

A Hand and a Horse.

This volume exhibits an admirable specimen of N. Poussin's powers of drawing, and evinces an extraordinary combination of taste, spirit, fidelity, and science.

*Burdley* 378 ORDERS OF THE VENETIAN STATE for the Government of Istria, with a Painting, in which is the Portrait of Nicolas Nani by Tintoret, in a perfection of touch and strength of colouring which distinguish that great master. Tintoret at this time held the appointment of Painter to the State of Venice; and this Book, with his Picture, was presented by the Doge to N. Nani on his appointment to the Government of Capo d'Istria. MS. ON VELLUM, 4to. in the original binding, with the date 1543, red morocco. 14 " 14

*Longman* 379 ORDERS OF THE VENETIAN STATE for the Government of Chioza, with two very fine Miniature Paintings by Cavalliero Zelotti, the competitor of P. Veronese; one of which represents Domenico Bragadino introduced by his tutelar Saint to Our Saviour and the Virgin. MS. ON VELLUM, of the most beautiful Italian Calligraphy—presented by the Doge to Bragadino on his appointment to the Government of Chioza; in rich old binding, with the insignia of Venice, and date 1589; it is in the most perfect condition for binding, writing, and painting. 13 " —

*Trifilook* 380 Portrait of Marc Anthony Bragadino, and a correspondent painting symbolical of the Venetian State; both are said to be executed by Titian, 1567, being part of a Book appointing him to the Government of Famagosta when that place was besieged by the Turks; he defended it after every other part of Cyprus had surrendered; but after a year's siege he was obliged to capitulate from want of powder; favourable terms were granted, but the perfidious enemy disregarding them, put the garrison to the sword, sent the citizens to the gallies, and flayed alive Bragadino. 18 " 18

The first miniature occupies the whole page, fifteen inches by ten and a half, and represents Francis on his Throne, surrounded by his Court, and receiving the Book from the Author. The arms of Francis the First, quartered with those of his first wife, Claude de France, are on each side of the frame-work which surrounds the picture; her arms are painted separately in a cordon; *bound in green velvet.*

Orti Teutonia, hanc mihi composuere figuram  
Parisii arte sua me correctam vigilanter  
Venalem in vico Jacobi sol aureus offert.
- Which establishes the date of the impression to be 1476.  
This is the celebrated edition which attracted so

much curiosity and discussion by the imposition practised on Lord Oxford by an alteration of the colophon, and which would have ascribed it to 1463. The edition, however, is unusually rare and Mr. Edwards, who, from his valuable and extensive correspondence on the continent, obtained more early printed books than were ever imported by any one individual, was yet more than twenty years before he could obtain a fine copy.

*Wells* 810 BIBLIA SACRA LATINA, fol.

*Ven. per Jenson, MCCCLXXIX. 115 " 10 "*

PRINTED UPON VELLUM. This beautiful copy, of an extremely rare edition of the Bible printed by Jenson, is the only one which has occurred in any sale for many years. It belonged to Sixtus IV. as appears by his arms in the beginning of the book. To this magnificent Pontiff (the founder of the Vatican Library) Sweynheim and Pannartz addressed the well known supplicatory letter for relief in consideration of the numerous splendid works which had been printed by them in Italy. The capitals are richly illuminated, and at the commencement is an elegant miniature; bound in red morocco.

*Gilbert* 812 Biblia Sacra Germanica, ex recognitione Martini Lutheri, 2 vol. fol. with wood cuts, in the original binding,

*Vitemb. 1541*

The first edition of Luther's translation of the Bible after his final revision. HIS OWN COPY, which he used till his decease. This copy must always excite the deepest interest and most lively emotions in the breast of every Protestant. The MANUSCRIPT NOTES prefixed to each volume seem to introduce us to the closet and acquaintance of a bright assemblage of Reformers. We find Luther exhibiting in the privacy of retirement the same unshaken confidence in the Deity under the persecutions he was suffering, as he nobly evinced in public. In a manuscript note in the second volume he transcribes the verse of the 23rd Psalm 'Etiam quum ambularem per vallem lethalis umbræ, non timerem malum, quia tu mecum es,' and then adds a passage strongly indicative of his own exalted ideas of faith. He appears to have bequeathed this copy to Bugenhagen, who, on the 19th of May, 1556, wrote in it a pious distich and some religious sentiments, in which he denies the

necessity of profane learning. The illustrious Melancthon was its next possessor. He writes a remarkable passage relative to the final consummation of all things, and intimates his belief that the end of world is not far distant, adding "may Jesus Christ, the Son of Almighty God, preserve and protect his poor flock, scriptum manu Philippi, 1557." The same year it passed into the hands of George Major, another Reformer, who has written in it a compendious exposition of his faith, signed with his name. In this version Luther omits the contested verse in St. John's Epistle, relative to the three heavenly witnesses.

*ouglas* 824 PSALTERIUM GRÆCO-LATINUM, fol. A Manuscript of the Ninth Century upon vellum, of the first curiosity and importance, written in a very fair and legible hand with this peculiarity, the Greek is written in Roman characters, by which means we elicit the curious and interesting knowledge of the exact pronounciation of the Greek Language, as spoken at that period when the Byzantine Empire was in its literary glory. *110. 5.*

A very learned antiquary has given the following illustration of the writing of the first page tending to fix the period when the Manuscript must have been written:

Kyrie Boeithi ton doulon sou

Cymeon Monachous Presbiterou, &c. &c.

Nota, que je trouve ce Pierre 2. Abbé de l'Abbaye de S. Ambroise de Milan depuis l'an 856 sous Louis 11 (après l'Abbé André 851) jusqu'en l'année 897. C'est la dernière date des Diplomes de l'Abbaye de S. Ambroise de Milan, lesquels commencent en l'année 721 sous le Roi des Lombards Luitprand—dans le "Codice Diplomatico Sant Ambrozio delle Carte dell' Ottavo e Nono Secolo de F. Angelo Fumagalli." *ouglas* 825 HORÆ BEATÆ VIRGINIS, 8vo. Manuscript on fine vellum, about the end of the Fifteenth or beginning of the Sixteenth Century. It contains 13 large Paintings of singular character and extraordinary carefulness of finish, (it is in the style of one in the Bibliothèque Royale des Manuscrits at Paris, which was executed for Anne of Brittany.) Thirty-one pages have borders of flowers and insects of exquisite finishing on a gold ground, bound in crimson velvet. *36. 15.*

*ou* 826 PRECES PIÆ, 12mo. An exquisitely beautiful Manuscript on fine vellum, about the beginning of the Sixteenth

Century, with 12 delicate large paintings, and 16 borders of flowers, insects, and shells, red morocco, with a red morocco case.

*Coburnyhi* 827 **LES PRIERES DE LA SAINTE MESSE.** Manuscript upon vellum, written by Prevost with the greatest care. Each page is enclosed with a line of gold. The vignettes and miniatures, in taste and delicacy of execution surpass the most exquisite enamel. It was done for the Duchess d'Aumont, and has the arms of Villeroy and Le Tellier. A beautiful miniature of St. Agnes has the name of Antoinette C.; red morocco, in a vellum case.

*Thames* 828 **OFFICIUM BEATÆ VIRGINIS,** 8vo. An elegant little Book of Offices of the Sixteenth Century executed in Italy. Each page is encircled with gold. It has 14 large Paintings, and the Calendar is ornamented with a border filled with appropriate emblematic devices. The Paintings are by various hands. It was obtained from the Collection of Count Macartey after several negotiations, and is one of the most beautiful that was ever brought into this country; blue morocco, with gold clasps.

*Novelli* 829 **OFFICIUM BEATÆ VIRGINIS,** 12mo. A delicate little Book of Offices of the Sixteenth Century, in Roman characters, The Paintings exquisitely finished, the writing admirable, and the border most playfully ornamented in the best style, with devices and mottos of the family for whom it was executed. This is by far the most exquisite of the Italian illuminated offices that Mr. Edwards ever had an opportunity of obtaining; blue morocco.

*M of Blandford* 830 **THE CELEBRATED BEDFORD MISSAL, OR BOOK OF PRAYERS AND DEVOTIONAL OFFICES** *executed for John Duke of Bedford, Regent of France,* containing 59 miniature paintings, which nearly occupy the whole page, and above a thousand small miniatures of about an inch and a half in diameter displayed in brilliant borders of golden foliage with variegated flowers, &c. at the bottom of every page are two lines in blue and gold letters to explain the subject of each miniature; *a circumstance perhaps only to be found in this expensive performance*—but what enhances the value of the MS. in this country, is that it has preserved the ONLY PORTRAITS remaining of the noble pair who formerly possessed it; John of Lancaster, Duke of Bedford, Regent of France, and Anne of Burgundy his Duchess, interspersed with their mottos; an elegant expression of the gallantry of that time; on his part “A vous entier,” and on hers, “J’en suis contente.” And also the portraits of Henry V. of England and Catherine of France. Nothing can exceed the strength of

character and high finishing of the portraits. Mr. Gough pronounced it the finest example of the art of that period he had ever seen. Vertue engraved his portrait from this painting.

Another interesting characteristic in this fine MS. is the attestation of its being presented by gift of the Duchess, and by order of her husband, to King Henry the Sixth, when he went to be crowned in France, and was spending his Christmas at Rouen.

The monogram of the attestor **S** is John Somerset, styling himself *Domini regis ad personam servitor ad sanitatem vitæque conservationem consulens*. This is confirmed in Hearne's *Vita Henrici 6*, per T. de Elmham, where he is called physician to the king; and that he was a favourite appears from a grant of the Manor of Ruislip to him for life by Henry 6th. See Lysons's *Environs*, vol. 5, page 258.

This rich book is 11 inches by seven and a half wide, and two and a half thick, bound in crimson velvet, with gold clasps, on which are engraved the arms of Harley, Cavendish, and Hollis, quarterly. It was the property of Edward Lord Harley, Earl of Oxford and Mortimer, who bought it of Lady Worsley, great grand-daughter to W. Seymour, second Duke of Somerset, who was appointed Governor to the Prince of Wales by King Charles the First. It descended from Lord Oxford to his daughter, the Duchess of Portland, and was purchased at her sale, May 24, 1786.

- 6 A magnificent Sicilian Vase, of the finest ware, with bearded Bacchus and Thyrsus, preceded by females with torches: another female and satyr. *Offered at 200£*

Sir William Hamilton pronounced it to be one of the finest of its kind he had ever seen; the grandeur of its size and shape, with the perfection of its drawing, render it one of the most beautiful monuments of ancient Greek art. It is 20 inches high, and 18 wide.

- 7 A most excellent Vase, Campana shape, called the Actæan Vase, with four Greek heroes, and the names inscribed in ancient Greek characters over each, viz. Tydæus, Acteon, Theseus, and Castor. This chef-d'œuvre of Greek drawing is so well known, that any further description is unnecessary. See an exact fac-simile of the figures in the plate, No. III. *Offered at 300£*

- 8 A very fine Nola Vase, Campana shape, with the battle of Theseus and Hippolita: the hero is attended by Pirithous. In beauty of drawing, size, and perfection, it is a proper companion to the Actæan Vase. It is engraved and described in Millin Monumens Antiques inédites, vol. 2, p. 115. *Offered at 100£*

- 9 The celebrated Greek Vase, known in Italy by the name of IL GRAN VASO DEL CAPO DI MONTE, having been deposited in that palace, with other treasures of the Farnese family, by the King of Naples. It was found at Polysthene, in Apulia, near Tarentum, in the year 1786, in a subterraneous apartment of 40 feet in length, at 14 feet below the surface of the ground. The subject of the painting in front, is the grand feature of Greek Heroic History, viz. the Battle of Theseus and Hippolita, doubly represented, to shew the issue of the contest. Above them, as in Olympus, are four deities, Apollo, with Diana, Minerva, and Hercules, corresponding to the account, by Pausanias, of the ornaments on the throne of Jupiter Olympus, Book 5, ch. 11. On the neck of the vase is a representation of Victory, as a winged female, in a chariot drawn by four white horses, with a laurel upright, but preceded by a female bearing torches, with a laurel prostrate. Surmounting the vase are two heads, full-faced, which are on one side white and the other side in shade; two heads of swans on each side terminate the handles.

On the reverse of the vase is a deity seated in a temple, holding a patera, with an egg placed upon it. Without the temple are four figures of attendants, two of which also exhibit the egg in a patera. See plates No. I. and II.

The shape of this grandest of all the Greek vases hitherto discovered, is of the most harmonious Greek outline. Its height is 3 feet 6 inches, and it is in the highest state of preservation.

The explanation of its drawings and symbols, by an eminent Antiquary, (who makes it the prize of the conqueror at the Panathanæan Games),\* will be given to the purchaser ; also a mahogany frame, with five large German plate glasses, to contain the vase.

*Offered at 700*l**
