## TEXTILE MAKERS FORM ALLIANCES OF INDUSTRIES

General Tendency of Business Strikingly Amplified by Latest Move.

GREATER EFFICIENCY

American Woolen Company Joins With Consolidated Textile.

By J. C. ROYLE. (By Special Leased Wire to The Duluth Herald, Copyright, 1922.) New York, Nov. 28 .- The trend toward industrial alliance and expansion in the United States is in full swing. That tendency of business was strikingly amplified by announcement made today that President William W. Wood and other executives or officers of the Amer can Woolen company had associated hemselves with the direction of the affairs of the Consolidated Textile company, one of the dominant factors in the cotton textile industry. The remarkable feature of this latest joining of forces is that all parties interested insisted that it contemplated no financial consolidatlon, but counted rather on increased Both the woolcn and cotton branches of the great textile indus-

try have been facing problems this year which are practically identical. There is a great world shortage of production in both wool and cotton. Prices for each have gone to high levels and show no indications of halting in their advance. Prices for finished woolen and cotton cloths also have advanced, but have not kept pace with the spurts in prices of raw staples. In past years the prices of cotton goods sometimes folowed the advances or declines of the raw staple to the extent of 50 per cent, but seidom were affected as nuch as 661-3 per cent.

SAYS COLLEGE OF AGRICULTURE NO AID TO THE FARMERS

Madison, Wis., Nov. 23 .- The college of agriculture of the University of Wisconsin, in common with other agricultural colleges, is blind to the needs of the farmer and of no material assistance to him in his times of stress, Lieutenant Governor George F. Comings declared in a statement The lieutenant governor said that next week he will outline definite

constructive measures which, he beleves, will work to relieve the agrifountural interests of Wisconsin, These measures will be brought before the 1923 session of the legislature. "The fundamental need of the farmer is not more production or more facilities for borrowing money which must be paid back, but fair prices for that which he produces, and upon that depends the soundness of the agricultural situation, which is essential for a sound national aconomy," Lleutenant Governor Comings asserted in his statement.

#### ANNIVERSARY OF LAKE SUPERIOR'S WORST HURRICANE

This is the sixteenth anniversary of the worst hurricane that this end of Lake Superior ever experienced, so far as records show, and will be vividly remembered by hundreds of residents. On Nov. 28, 1905, a gale, which at times reached 100 miles velocity, fanned up the lake at this end and wrecked many ships.

The most spectacular wreck that has probably ever occurred on the Great Lakes happened right within the boundaries of Duluth that day, when the steamer Mataafa, later refloated and now in service again, was blown ashore on the city side of Park Point after hitting the breakwater while attempting to enter the harbor. Nine men perished in plain sight of the thousands on shore, but no help could be extended.

The Edenborn, Lafayette, Crescent City, Ellwood and England also were wrecked, and all but the Lafayette refloated. She was the only one of those named not wrecked within the city limits of Duluth, pounding to pieces on Encampment island.

Remington No. 12

It wins the operator because of its work swifter and easier.

Prominent among these is the "Natural" Touch", that triumph of Remington design, which makes the operation of the machine like second nature—as mechanical as walking and almost as unconscious as breathing itself.

It appeals to the owner because its many features which make the day's work is surpassingly good—and consistently good under all circumstances.

> In quality as well as quantity, it gives him the results he wants.

And because it is so quiet that its operation never disturbs him, no matter how near him it is used.

14 Noise Eliminating Features make this new Remington a Messenger of Quiet to every business office.

The price of the new No. 12 Remington is \$110—only \$7.50 more than the Standard Remington—a very small premium to pay for office quiet.

We invite you to call and see this new Remington, or phone us for a demonstration.

#### TAXATION OF ORE AND ANTHRACITE.

vania has a right to impose a special tax on anthracite, despite the fact that consumers of all other states and thus becomes what looks very much like an export tax. Pennsylvania and Minnesota seem to have started something interesting.

One of the ideas of those who favor double taxation of iron ore is that the long as revolvers are for sale at all, bad people of the country and other countries for that matter, should pay a special tax for the privilege of buying that commodity.

Pennsylvania lawmakers also have that regard is stronger than that of Min Minnesota has plenty of this ore, other states have supplies as well.

But Pennsylvania has placed a special tax on anthracite over and above usual taxation. It is a sort of tounage tax taxation. # COAL NORMAL SUPPLY

COMES FOR SEASON Hard coal receipts in November at the Duluth-Superior harbor are expected to amount to about 220,000 ons, which is a little gain over October. The receipts for the season in hard coal will probably be about 500,000 tons, which is approximately one-third of the tonnage received here In 1921.

Receipts in soft coal will total about 1,500,000 or more for November. Local vessel men report that 174 vessels have already arrived, carrying Cieveland, Ohio, Nov. 28 - (Special soft coal, and that twenty more are
