PART 921—ALUMINUM SCRAP

[Supplementary Order M-1-d as Amended March 16, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of aluminum scrap for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 921.6 *Supplementary Order M-1-d—(a) Definitions.* For the purposes of this order:

(1) "Aluminum scrap" means all materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason, the principal ingredient of which by either weight or volume is metallic aluminum; and shall include all types and grades of aluminum residues, such as drosses, skimmings, fines, grindings, sawings and buffings: *Provided*, That the recoverable metallic aluminum content, as determined by the fire assay, hydrogen evolution or other method of comparable efficiency, constitutes 15% or more by weight of such residues.

(2) "Plant scrap" means aluminum scrap which is generated in the course of manufacture, and defective or rejected material, the principal metallic ingredient of which by either weight or volume is aluminum.

(3) "Segregated scrap" means aluminum scrap which has been segregated

and otherwise handled in such manner as to be acceptable for reprocessing into aluminum of substantially the original specifications in accordance with Section I of Schedule B hereof.

(4) "School scrap" means aluminum scrap which has been used in public or private vocational schools.

(5) "Person" means any individual, partnership, association, business, trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(6) "Producer" means the Aluminum Company of America, the Reynolds Metals Company, the Olin Corporation, and any other person who may be so designated by the Director General for Operations.

(7) "Approved smelter" means any person whose name appears on Schedule A attached to this order, as the same may be amended from time to time.

(8) "Dealer" means any person regularly engaged in the business of buying and selling aluminum scrap.

(b) *Restrictions on use of aluminum scrap.* (1) No person, other than a producer or approved smelter, shall melt, reprocess, smelt or otherwise use aluminum scrap unless specifically authorized so to do by the Director General for Operations on application made by letter to the Aluminum and Magnesium Division, Reference: M-1-d: *Provided, however*, That a foundry may remelt its gates, sprues and risers if in so doing it does not debase or contaminate the material, and if, in applying for permission to acquire aluminum, it reduces the requirements on its suppliers by an amount equal to the anticipated recoverable metal. A foundry may also accept a new casting of its own production, which is found to be defective or was spoiled in machining, and recast and re-ship it to replace the original casting.

(2) The Director of the Aluminum and Magnesium Division may issue directives to smelters, producers and others who may be permitted to melt aluminum scrap, which directives may direct the exact alloy or alloys which must be produced therewith and the amount of such alloy or alloys, and may prohibit the production of certain alloys. The Director of the Aluminum and Magnesium Division may also issue directives prescribing the amount of secondary ingot all fabricators (either independent or integrated) may be required to blend with primary ingot in the production of fabricated shapes, and he may, by directives, designate certain smelters who shall be the only smelters permitted to receive and melt scrap of certain alloys or the smelters who shall produce certain alloys. Directives with respect to all matters described in this paragraph (b) (2) may contain directions as to the production schedule of the person to whom they are issued.

(c) *Segregation of aluminum scrap.* (1) Any person who generates 500 pounds or more of plant scrap in a plant in any month shall carry out thereafter in any such plant the Aluminum Scrap Segregation Program set forth in Sched-

ule B attached to this order and made a part hereof, unless otherwise directed by the Director of the Aluminum and Magnesium Division.

(2) Any person receiving aluminum scrap shall keep such scrap segregated, prior to its use in the manner permitted by paragraph (b) hereof, to the same extent as when received by him; and if he redelivers such scrap, he shall do so segregated to the same extent as when it was received by him.

(d) *Contamination.* No person shall contaminate aluminum scrap with any other metal or material, except that a producer or approved smelter may mix aluminum scrap with other metals in the production of aluminum alloys.

(e) *Sale and delivery of aluminum scrap.* Except as otherwise specifically authorized by the Director General for Operations, all persons generating or holding aluminum scrap shall deliver all such scrap at intervals not to exceed 60 days in accordance with the following provisions:

(1) *17S, 24S and 52S plant scrap solids.* Unless the Director of the Aluminum and Magnesium Division has issued a directive to the contrary pursuant to paragraph (e) (6) hereof, segregated plant scrap consisting of 17S, 24S or 52S aluminum alloy (including Alclad and Pureclad) in solid form shall be shipped directly to any producer: *Provided, however*, That where the amount of such scrap generated from any one of such alloy specifications does not amount to 20,000 pounds in any month, the scrap of such alloy may also be shipped directly to any approved smelter or dealer.

(2) *Other plant scrap.* Except as provided in paragraph (b) (1) hereof, all other plant scrap shall be sold to any producer, approved smelter or dealer unless the Director of the Aluminum and Magnesium Division has issued a directive to the contrary pursuant to paragraph (e) (6) hereof.

(3) *School scrap.* School scrap shall be sold to any dealer or approved smelter and shall be designated as "school scrap" when sold.

(4) *All other scrap.* Any person who owns or originates any aluminum scrap (other than a person generating plant scrap or a dealer) shall deliver such scrap to any dealer or approved smelter and shall not use or dispose of such scrap in any other way.

(5) *Dealer's operations.* Unless the Director of the Aluminum and Magnesium Division has issued a directive to the contrary pursuant to paragraph (e) (6) hereof, all dealers must deliver any aluminum scrap (whether or not deemed to be usable in its "as is" form) to any producer or approved smelter: *Provided, however*, That any dealer may sell any scrap to another dealer if, in the regular course of business, he does not currently collect sufficient aluminum scrap to make it practicable for him to sell directly to a producer or approved smelter.

(6) *Directives.* The Director of the Aluminum and Magnesium Division may issue directives to a particular person or to a class of persons directing him or

them to deliver aluminum scrap of certain alloys to another specific person or to a class of persons.

(f) *Certification upon sale of segregated scrap.* The generator of segregated scrap shall furnish the person to whom he makes delivery thereof with a signed document, in the form of Form PD-706 or in substantially similar form, showing (i) the alloy number or specification, (ii) form of scrap, (iii) weight (on a clean and dry basis, moisture content estimated, if necessary) and (iv) the name and address of the plant where generated. This document shall bear a notation as to the date of delivery and names and addresses of the parties to the transaction, and, in case of redelivery of such scrap, shall be endorsed and delivered to the person receiving such scrap. Any person delivering segregated scrap shall clearly mark it showing the alloy number or specification, form and source. No aluminum scrap other than segregated scrap shall be designated as segregated scrap by any person.

(g) *Tolling prohibited.* No aluminum scrap may be delivered or received pursuant to a toll, repurchase or similar arrangement, unless such transaction is specifically authorized by the Director of the Aluminum and Magnesium Division.

(h) *No acquisition or delivery in violation of order.* No person shall hereafter acquire or deliver aluminum scrap or products made therefrom if he has reason to believe such material has been or is to be used in violation of the terms of this or of any other order of the War Production Board: *Provided, however,* That any producer or approved smelter may acquire aluminum scrap for any use permitted by this order at any time, irrespective of the right under this order of the person disposing of the same to have acquired or to deliver such scrap.

(i) *Records.* Each person who participates in any transaction involving aluminum scrap shall keep and preserve for at least two years complete and accurate records as to all such transactions which records shall be subject to inspection by the War Production Board.

(j) *Reports.* (1) Any person generating 500 pounds or more of plant scrap in a plant in any month shall thereafter file reports monthly on Form WPB-317 with the Aluminum and Magnesium Division covering any such plant. All other persons generating plant scrap shall file quarterly reports on Form PD-828 not later than 20 days after the end of the calendar quarter except that those persons putting into process less than 3,000 pounds of aluminum in a calendar quarter will not be required to file this quarterly report for such quarter unless they have more than 500 pounds of aluminum scrap on hand at the end of the quarter. Producers or smelters are not required to file the above report.

(2) Any person, including smelters and producers, melting or smelting aluminum scrap in any month shall file a report on Form PD-272 with the Alumi-

num and Magnesium Division covering each such month. Such report shall be filed on or before the 15th day of the month following the month covered by the report.

(3) All dealers handling aluminum scrap shall file Form PD-249 with the Bureau of Mines, College Park, Maryland, by the 10th of each month, or such other reports as the Director General for Operations of the War Production Board may require.

(4) For the purpose of this paragraph (j), foundries shall not consider as aluminum scrap any gates, sprues or risers which will be reused in their own plant or any defective castings or spoiled castings returned to the foundry for recasting and reshipment to replace the original casting in accordance with paragraph (b) (1).

(k) *Addressing of communications.* All applications, statements, reports or

other communications filed pursuant to this order or concerning the subject matter hereof, should be addressed to: War Production Board, Aluminum and Magnesium Division, Washington, D. C., Ref: M-1-d.

(l) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and, upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 16th day of March 1943.

CURTIS E. CALDER,
Director General for Operations.

ALUMINUM SCRAP SEGREGATION PROGRAM

I. *Segregation of aluminum scrap other than mixed aluminum scrap*—(1) *By alloy content.* Aluminum scrap (other than mixed aluminum scrap as hereinafter defined) of each individual alloy (for example 17S, 24S, 52S, 645, etc., also 2S pure aluminum) shall be segregated from aluminum scrap of every other alloy.

NOTE: Scrap from coated material (Alclad or Pureclad sheet) may be included with uncoated material of the same alloy specification; but Scrap from painted material shall not be included with unpainted material of the same alloy specification except in very minor amounts.

(2) *By form.* In addition to the above segregation on the basis of alloy content, the scrap of each alloy (other than mixed alumi-

num scrap as hereinafter defined) shall be segregated into two form types:

(i) "Solids"—generated by shearing, clipping, cutting, blanking or similar process, also defective or rejected wrought aluminum parts, defective or rejected castings and gates, sprues, risers or similar foundry scrap;

(ii) "Machinings"—generated by machining, drilling, boring, turning, milling or like operations.

In no event shall solids and machinings be combined.

II. *Classification of mixed aluminum scrap by form*—(1) *Definition.* "Mixed aluminum scrap" shall consist of aluminum scrap in the form of solids or machinings, the alloy content of which cannot be identified, or of grindings, sawings, buffings and other fines and of drosses, swimmings and sweepings. It shall also consist of aluminum scrap generated from No. 12 type and piston alloys unless the generator certifies to the person

to whom he makes delivery that the aluminum scrap was generated from a specific alloy of the No. 12 type or from a specific piston alloy.

(2) *Classification.* All mixed aluminum scrap shall be separated into four classes as follows:

- (1) Solids;
- (ii) Machinings;
- (iii) Sawings;
- (iv) Drosses, skimmings, grindings, buffings and sweepings and other fines.

Each of the four classes of mixed aluminum scrap shall be handled separately from each other class of mixed aluminum scrap and from all other aluminum scrap but shall not be treated as segregated scrap under Order M-1-d.

III. *General provisions*—(1) *Official responsible for handling scrap.* Each person operating a plant generating aluminum scrap shall appoint a responsible employee to supervise the collection, segregation and handling of all aluminum scrap generated in the plant. The name of such employee shall be forwarded to the Aluminum and Magnesium Division, War Production Board, Washington, D. C. No dealer or other person not a regular employee of the plant shall perform any such functions except as the Director General for Operations may specifically authorize.

(2) *Collection and identification.* Segregation shall be effected by collection at the machine where the aluminum scrap is generated. Separate containers for collection and bins for storage shall be provided for each type of aluminum scrap required to be segregated by this program. All containers and bins shall be clearly marked to identify the alloy and the form of scrap for which they are intended, and they shall be kept clean, dry and in good condition, so that their contents shall be protected from contamination and the weather. Each container and bin shall be used only as a receptacle for the alloy and form of scrap for which it is designated and marked.

(3) *Identification of segregated scrap for shipment.* Each unit of segregated scrap shall, upon shipment, be clearly marked or labeled as to alloy number or specification, form and source, i. e., the plant where generated.

(4) *Obligation as regards subcontractors.* Each person operating a plant, as part of his arrangement with any subcontractor to whom he furnishes aluminum shall impose an obligation upon, and otherwise make every effort to see to it that, such subcontractor institutes and carries out an adequate scrap collection and segregation program in conformance with this schedule and Order M-1-d.

PART 3223—OSMIUM

[Conservation Order M-302]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of osmium, as hereinafter defined, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3223.1 *Conservation Order M-302*—(a) *Definitions.* For the purposes of this order:

(1) "Osmium" means the element osmium in commercially pure form, or the osmium content of any osmium-containing material other than an osmium alloy, whether or not such material is first converted into osmium metal.

No. 53—2

The term includes mixtures and compounds.

(2) "Osmium alloy" means any alloy containing 0.5 per cent or more of osmium metal by weight.

(b) *Restrictions on use of osmium.* On and after March 16, 1943, no person shall put into process or process any osmium, exclusive of osmium alloys, except for the purpose of manufacturing electrical contacts.

(c) *Miscellaneous provisions*—(1) *Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(2) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of osmium in all items manufactured after March 16, 1943, irrespective of whether such items are manufactured pursuant to a contract made prior or subsequent to such date. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of osmium in the production of any item, the limitations of such other order shall be observed.

(3) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Division, Washington, D. C. Ref: M-302.

(5) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 16th day of March 1943.
