29 March 1951

SUBJECT: Zentsuji Institution Materials

1. Notification Form to the Guardian of the Protection

Date_____

FROM: The Chief of the Agency:

_____ The boy under your protection was sent to our institution on from the Domestic Court.

We are taking care of those children who are liable to commit offences not any way but just like a dormitory system or a school organization. We instructors are trying our best to rehabilitate the protected by spending day and night with them.

We have so many delinquent children now in Japan and we cannot condemn the children. The lack of general people's understanding and coordination makes the problem worse.

We cannot say we are strong enough to make them independent by us alone. You are the most important cooperation to us. We want to ask you to be the most positive helper to us by getting full understanding of the program and having close contact with us. I wish to notify you the things I want to know.

1. We want you to make a report on the boy's character and behavior and family particulars and any other points which you think is helpful for us to guide the boy. For this purpose we wish to have you call the institution as soon as possible.

2. We request you to come to the institution to see your boy as soon as possible, as the boy feels quite hard on his first protection in an organized community and will may try to escape from the agency. If you cannot visit us please write letters to keep him steady and contented. You can make as many calls or correspondence as you like. Do not let the boy worry at all. We request that you do not give the boy much food to take at the time of your visit or by sending it to him. If you wish to, one lunch or afternoon tea will meet.

The food supplied to the boys is more than the normal amount allowed to the general people. If you receive any complaints from the boys concerning food you may forget it. Do not give much food to the boys when you come because it may cause ~~kkx~~ stomachache or illness. Do not send any food to the child by mail. The boy who receives is happy but the rest are unhappy. It is against the community living. The things we wish to have you send in are as follows:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

(1) Stationaries, post cards and stamps
(2) Towels and tooth brushes and etc

3. Family cooperation: Readjustment of the family condition. We don't want you to feel "poor boy" or now "I am quite sure everything is ok". This is not good. We only want your help to rehabilitate the boy. Sometimes the children are freeing themselves from the institution and going back to their own homes. If your boy does so please bring him back to the institution or make notifications to us. If you keep the boy at home it is not any good for him. You should know why your boy is like he is . Considering this point we request you endeavor to meet your boy's requirement when he is released from this institution.

2. Notification Form to Get the Boy's Home Investigation Report from Parole Commissioner to the Attorney General Detention Home Chief.

Troubling you but kindly aupply us the follow ng boy's family investigation report through paraole worker of the district because it is very important for the boy.

Date:666
From: _____
The Chief of the Juvenile Home

TO: The District Parole Worker.

3. Request of the Home & Environment Investigation of the Protected Boy

Name of Protected:
Address: Date of Birth_____

The boy was sent to us on _____ to be protected in the institution through the domestic court. We think you are in the same district with the boy, so we want you to make the following reports as soon as possible.

Remarks: If your residence is not in the same district as the boy please refer the business to the worker of the district. This is a case of confidence. When you hand the enclosed notification letter to the guardian please make the explanation of the contents and also instruct him not to send any food to the boy by mail. Readjustment of home condition to meet the boy. Generally speaking. averge time for children to stay in this institution ranges around 7 - 7 months so please do it in this time.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

3. History of institution

So far as juvenile problems are concerned, three prefectures of Kagawa, Tokushima and Kochi belonged to the administration of the Osaka Juvenile Court in the past, and Ehime to the control of the Hiroshima Juvenile court. Accordingly, juveniles of the four prefectures to be accomodated had been sent and educated at the respective courts of Naniwa Juvenile Institution and Hiroshima Juvenile Institution.

Much inconvenience was felt under the aforesaid condition and thoroughness of protection could not be expected, which led us to ~~make~~ long that four prefectures be made one independent district. In 1946, this desire was accomplished and the Shikoku Juvenile Institution has come into existence. Accordingly, this institution was established on 1 June 1946. Mr. A. Mori was appointed first chief, who started the establishment business at one room

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

of the Narugame District Court of the city. (6)
Next, grounds for the institution was searched
for at many places, and fortunately as the
permission was granted to make use of
by the effort of Takamatsu Finance
Bureau

the old building of eight roofs and a part of
grounds which ~~was~~ were once occupied by the
imperial army engineering corps as their
warehouse and place of training, it was
finally decided to place the Shikoku Juvenile
Institution at Fushimi in Zentsuji on 1st
of September of the same year.

Then, immediately the office was removed to
this building to begin with necessary business
for opening. It was a horrible trouble,
however, that this army building was left
as ~~it~~ what was destroyed during war time.
With the help of national expense of
343,040 yen, two roofs of building for
training were transformed to dormitory
and temporary office, and one roof of
warehouse to ~~xx~~ kitchen and dining room,
and in March of 1947 the first accomodation of
juveniles was realized.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

In the fiscal year of 1947. each one roof of main building and of official dwelling was newly constructed with the dividend of 1,112,740 yen for building expense. In 1948, defective paints of dormitory was improved, followed by reform of the existing building to class room for practical training and new construction of bath-room, five roofs of official dwelling, garrage, porch and water-pathe, and main arrangement was successfully carried out.

In 1949, construction of medical diagnosis room and patients' rooms ~~was~~ were planned as public work for which budget was not approved, but reform of dormitory and new construction of such water-supply equipments, roof of offical dwelling were completed. In this year of 1950, we are appealing to the authority in antipation of new settlement of lectur hall, perfect order of

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

class rooms, medical diagnosis room and patients' room, and storage for commodity, running paths between dormitories.

Anyhow, the present equipments are all what has been reformed and transformed from the old army building and warehouse, and it is worried that there exist not a few unproper features for the education of juveniles delinquent, and, consequently and pains are now being taken to bring forth an idealistic institution as soon as possible.

Establishment of Branch Institution.

Accompanied by the close of protection agency on 1 January 1950, Home for girls, an accomodation for girls situated Ichiban-cho of Marugame City, was succeeded to this institution and established as a branch-institution.

The building and ground of the brach are owned by the law court, in which area of 623 tsubo and the old dormitory, being office at the same time, of 88 tsubo in area were involved. With the support of of 914,000 yen as public work expense in 1948, some repair together with

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

new construction of main office and one roof of official residence of 60 tsubo were accomplished.

As the second plan in 1949, adjoining area of 200 tsubo was borrowed through the cooperative efforts of law court and Mangame city, where dormitory, dining-room, kitchen and bath room of 76 tsubo in total area and one roof of official residence of 25.75 tsubo were newly built up, thus gradually growing well equipped in its outward appearance.

In the coming year, we are planning by borrowing all the rest of adjourning area to construct lecture hall, class room for actual training, medical diagnosis room, patients' room, storage and other adjoining houses, letting total area of 2,000 tsubo be made the grounds for ×7 home for girls.

5. Fixed Number for accomodation

The first dormitory contains four

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

big rooms each having area of 12 tsubo and one room for consideration and other room for reflection. The second dormitory contains three rooms of measuring 12 tsubo respectively and other small rooms.
Fixed number for accomodation is 95. abt present, the actual number for admission is 208. (based on 1st Dec. 1950)

6. Educational Condition.

a) → It is the ultimate end of this reformatory that juveniles shall live a life under bright and pulfilled environments to train both spirit and body altogether, to cultivate the spirit of self-support and self-control, to get accustomed to the pleasure of labour, and finally to grow up to contribute to the welfare of human kind.

Instructive principle.

That being so, their individual character is respected first of all; grasping their personality, strengthening superior points and tempering defective points at the same time. Necessary lessons, logical and

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

practical, are given amidst restricted life that are deemed helpful for their social life to come. Manner education is also practiced to reform tendency of anti-society and to comply themselves to actual social life. For this object in view, inspections for individual talent, personality, defects based upon psychology and medical science are put into force with investigation into family circumstances correspondently. Full understanding of juveniles and individual guidance are mainly aimed at, performing educational and occupational instructions appropriate to individual personality.

b) Lesson education.

Complying with new system of education, all ~~each~~ lessons as high as primary, middle, and high schools are actually given, and considerable attention is being paid ~~in~~ order to have them connected with actual daily life and to let them study

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

with interest of their own accord. (12)

c) Training education.

In training education, co-operation with labour and cultivation of responsible idea are most taken into consideration, trying to furnish them with ability to choose future course as well as with guidance of operation. The present equipments allow us to practice lessons on cultivation, gardening, wood-working, and forging, and further plan is now under way as to give ~~rooms~~ practice for bamboo-working, sewing, shoe-making, iron-plate handling, repair of motor-car, and ~~cont~~ construction of radio.

4. Construction of educational and practical courses.

Primary reformatory, and middle ~~reform~~ and medical reformatories are now established at this institution.

a) Juveniles of primary reformatory, it is desirous, shall study on class-work all day long. ~~be~~ and appropriate division

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

of lessons and course is now looked for
as to make them study through the five organs
of sense rather than through ears alone.

b) Juveniles belonging to middle reformatory
are all aged more than those of compulsory education,
of whom excellent juveniles, those wishing
to proceed to higher grade, or those
not having completed compulsory course
are respectively imposed upon proper courses.
The others shall be given practical training
chiefly, putting main ~~power~~ efforts to occupation-
al instruction.

c) At present, the following division of
educational course is in enforcement
in conformity with the real standard
of knowledge.

A section (class) 1st, 2nd, 3rd year grade
of middle school (under revised
system)

B class 5th, 6th year grade of
primary school.

C class under 4th year of

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

primary school.

Time table for class work is as shown below.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

5. Breeding Education

Breeding education shall be conducted unconsciously amid common actions in daily life. True meaning of bodily life, Obeyance to home life, spirit of responsibility and mutual aid, or cultivation of self-administration shall be the idealistic ends of our manner education. To bring this purpose into effects, no pressure is added on juveniles, and officials are pleased to sleep and get up with them so that they may enjoy their self reflection and positive willingness.

Daily Lesson List

6.30 a.m.	getting up, washing face, sweeping.
7.00 "	program of the morning, Gymnastics, and playing.
7.30 "	Breakfast
8.00 "	Preparation and review of lessons
8.30 "	Morning greetings of officials
9.00 "	Opening of course.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

11. 50 a.m. close of course

Noon Lunch

12. 30 p.m. free time

1.00 " opening of training.

3.50 " close of training.

4.00 " Recreation

5.00 " Sweeping

6.00 " Supper

6.30 " free time

7.00 p.m. self-learning

8.00 " Reflection, writing of diary.

8.30 " prom hour

9.00 " going to bed, putting out light

Note: 1. On holiday, all class works are closed, but ~~cons~~ are operated such as hair-dressing, washing, repair of cloths, bathing, and recreations.

2. On free time, free study, enjoyment of music, radio, records, are followed.

3. Official taking care of recreation shall make a week-program based on juveniles' proposal, guiding them on plan.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

6. Recreation:

Holding close connection with self-governing society of juveniles, the annual plan and monthly plan based upon the former are settled in the contrast with budget. The annual plan is roughly separated into two:

1. Season for cultural activity — Summer and winter
2. ~~Servica~~ season for physical activity — spring and autumn.

This is of course an outlined division, and for instance, sea-bathing of summer and out-door show of spring might be an exception to the regulation. The self-governing society consists of the following units and parts.

Project Dept:
- (A) Cultural dept
  1. Dramatic unit. (all about music and drama)
  2. Literal Unit (issue of magazine "Popula".

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

(18)

3. Broadcasting unit.
4. Gardening Unit.
5. Art unit. (Poster picture, Doll-drama.
6. Library Unit. (management of Juveniles' books)
7. Recreational Unit. (Japanese Chess and indoor amusement)

(B). Physical Training Dept.:

1. Ball playing Unit.
2. Wrestling Unit
3. Field Unit
4. Ping-Pong Unit
5. Truck Unit

(A.) What is aimed by cultural activity.

In summer, this includes two big programs, seashore school and "Obon" festival. Seashore school shall be one of the biggest functions, gathering the result of swimming and associcting with social people direct. At "Bon" festival, a joined dramatic show by main and branch institutions shall be opened at daytime, and at night "Bon" dancing be enjoyed as a biggest program of summer within the institution.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

In winter season, Christmas time shall be the former display of cultural activity, and the day for adault (1st Jan.) be the direct day to society, the former at the institution and the latter at the local agency public drama show will be played respectively.

At proper intervals between the two celebrated days, drama and recreational meeting of small plan shall take place, and materials from literal unit and musical comedy shall be broadcasted by the broadcasting unit frequently, or lasting interest be maintained by holding picture-drama, dolls' play, chess meeting.

(B) What is done by physical activity:

Athletic meetings that come in Spring and autumn shall be the center of physical recreation, followed by small physical recreations performable by

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

each unit seperately.

(20)

The rough plans for year are as follows:

January	New year's holiday. Japanese card-playing meeting (when in good weather, baseball match is held.) Ping-Pong meeting, and concert. Indoor-sports meeting. Adault play. Dramatic and singing Show.
February	No functions.
March	Day of Vernal Equinox. When in fine weather, outdoor sports games will be played in the day-time, and open drama show at night. When in bad weather, lecture is given in the daytime.
April.	Emperor's Birthday. a joined grand athletic ~~&~~ meeting.
May.	Anniversary of Constitution of Japan declared. Ball-game contest between intersection officials, and lecture meeting.
June	Picnic.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

July Wrestling match (opened for public)
August Sea-shore school. "Bon" festival.
September Autumnal equinox. Autumnal
Play show. Ball-game and
lecture meeting.
October Autumnal Athletic Meeting.
November Day of culture. Exhibition
of students' works and for-
sales meeting.
Thanks giving day to labor. grand
performance meeting within
the institute.
December. Christmas. grand
performance meeting, joined by
main and branch institutes.

In addition to the above-stated main functions, the under-detailed meetings and performances are ~~being~~ in practice every month.
movie (more than once a month);
magic-lantern; Kami-shibai;

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

dolls' play; concert; broadcasting dramatical; Oratory contest; inter-room or inter-dormitory matches of indoor and out-door sports; explanatory broadcasting of current topics; recreational and literary broadcasting; or baseball games between visitors and students, ping-pong game; consolating show, lectures on religion, twenty-doors (so popular a ~~theme~~ in Japanese broadcast), "who can I be?", ~~Ramble~~ stroll; survey-visit.

As a preparation for bad weather, the teachers in charge of recreation plan shall allot about five hours when they have decided monthly plan, and let them know each other ready for actual performance, which shall be appointed by chief of educational section at the morning greetings.

7. Treatment of and Judgement of result.

1) Judgement of result.

The result of juvenile training and education is discussed twice a month at

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

the teachers' conference as to their study, will to study. will for labour, will to obey law, idea of duty, co-operative spirit. Marks are counted according to the degree of results, by which decision as to progress or ~~semi~~ parole - withdrawal is made, and moreover eminence-prize, exertion-prize, or attendance-prize is awarded. On the contrary, when rules are disobeyed, marks are decreased.

2. Treatment:

Treatment is done on a graduated scale, and juveniles reaching the standard marks at the teachers' conference shall promote to successive class, and specially excellent ones shall promotte two successive classes. One who has thus reached first class A finally shall have the merit of ~~xxxi~~ parole. According the lower degrees, the privileges of single stroll, guided stroll, extemporary stroll,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

going back to native country, or even (24)
merit of special-supported duty is allowed
to help encourage their willingness to work.

3. Feeding

The provision is divided into two classes,
that is, A-food is 690 gram per day, and
B-food is 660 gram per day. Estimate
of adjoining foods (vegitable + others) per
head per day is on the whole 19 yen, letting
them to adapt 2.600 total calory per day, and
it is observed that their bodily standard
gradually is advancing. As regards
clothing materials, however, we are sorry
to say that these are very hard to be
obtained, and therefore are trying our
efforts to raise budget as well as to
catch hold of materials.

A-food shall be applied to more than
16 years; B-food to lower years.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

8. Term of training:
It is widely known that training of juveniles needs a long period. At the unperiodical education of reformatory, a juvenile who has been sent to the institution in the meaning of performing his judgement is sometimes found to be promising in his future after a short elapse of time. At our institute, some may show eminent effects after about five months while some was allowed with parole after 1 year and 2 months, and on an average term of about 3 months, they are granted parole.

9. Medical Treatment:
Direct officials in charge are one technical official, one nurse, one assistant, and from outside one surgeon, and one dentist are visiting twice a week for assistance.
No preparations are furnished with for patient's room, and when a

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

SUBJECT: Visit to Zentsuji Reformatory (Boys) on 27 March 1951

Capacity 95. Present number 175. Ages 14 to,20. All children committed by Domestic Court. No term. Length of term at decision of director. Jan 1950 to Dec 1950 a total of 182 admitted. Reasons, robbery 7; fraud 7; threatening 4; confiscation 1; rape 3; injury 9; set fires 1; criminal 1; criminal tendencies 13; others 5. Of this 92 had both parents, 40 had fathers only, 38 mothers only and 29 had foster parents Staff 25 (See report attched)

Children have little says in rules and regulations. A student council was tried, appointed by staff but not successful. Other children objected to the boss system. Once a month all meet and are free to make any complaints and suggestions. Say anything they like which will not be held against them. 2400 to 2600 calories feed daily.

Bathe twice weekly, 2 baths - 1 is medicated. Vocational program - carpentry (poorly equipped shop);printing (1 press started 1 month ago small); Farming (not extensive- no animals) Blacksmith and a shoe repair shop will be started in April. All poorly equipped and little interest shown. Recreational program: library (500 books) Ball team (base ball and volley) ping pong , radio. No recreational room but have a sport field. Plans are made to make a recreational hall.

Education - grade school

Medical care - dispensary and isolation room. A doctor and 2 nurses (1 male) A separate building now under construction. All building now in use were former army barracks. Now shabby and in poor repair. Place looks desolate. Equipment insufficient and poor quality.

Punishment - verbal - confinement of from 4 to 20 days (have three locked cells)

Deducting points- If gets 100 points for good behavior etc boy is canidate for release. No corporal punishment or depriving of food. Record kept. Children eat alone except at monthly birthday parties. etc.

Escapes- Jan to Dec 1950 62 children . Jan to date of visit 101 children. Many of these returned on were picked up. ome were sent to other institutions.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

SUBJECT: Visit to Takamatsu City Home for Juvenile Training & Education on 23 March 1951

This institution owned and operated by the prefecture has a capacity for 35 children. On the same grounds is a prefectural owned and operated institution for dependent children which has a capacity for 18. The same staff of 11 members operate both and the cottage designated for dependents is used for boys. No distinction is made between the dependent and delinquent. They are housed together and given the same training. While the institution is an old one and in need of a repair a home like atmosphere prevails. The staff seem capable and interested and the children well and happy. Ages of children 6 to 18. There is one 4 -6 mat cottage for girls now occupied by 16. The matron her 17 year old daughter and 15 year old son live in this cottage. The girsl have a separate dining room. Due to over crowded conditions there are also 8 boys from 9 to 11 years old living in the girls cottage. There are 2 cottages for boys (using the dependent cottage) 1 of these cottages has 1-6 mat room and 3-8 mat rooms which is now occupied by 37 boys aged 12 to 16. A leader and a matron also live in the cottage. The other cottage (Dependent Home) has a 4-6 mat rooms andis occupied by 23 boys 13 to 18 yrs. One matron and one leader also live in this cottage . Staff consists of director Mr Furichi (2 yrs experience), 3 matrons who do cooking, laundry, sewing and medical attention, one is said to have some nurses training. 4 teachers who also have other duties such as office work living guidance and recreation (1 teachers gardening and farming) 1 carpenter who teaches wood work. Shop not too well equipped but teacher and boys were working at time of visit and there seems to be considerable activity along this line. In addition to above staff there is 1 janitor and 1 clerk (female)

The boys are taught carpentry, farming, flower culture and animal husbandry (have 1 cow and 8 pigs and chickens) Girls help with cooking, housekeeping, sewing and knitting. Program not definitely outlined. The institution has a grade school. 1 girl is working outside in a work shop. Children remain until 18 unless they can be returned to own or relatives home prior. Also some placed in foster home. Jobs are found for others. At present there are two boys in the Home over 18 who are said to be feebleminded. Two other feebleminded children, aboy and a girl under 18. Doctor on call, no nurse, first aid room and sick room. Physical examinations once a year. Monthly weighing.

2,000 calories are feed. Staff eats with children and dining rooms are made as home like as possible. Flowers on tables. There are no serious children at present . Causes are mostly thieving and vagrancy.

Last month's report showed. 12 inmates had both parents, 16 had fathers, 22 with mothers only and 40 were orphans. Parents etc allowed. to visit. Center makes decision regarding placement.

S

ASAHI

2 March 1951

Regarding the runaway case of Feb. 27, in Shikoku Minors Reformatory, Zentsuji-town, three of the seven were found in the evening of Feb. 28 and returned to the reformatory. The former case of mass runaway of 48 retainers was made a seriousquestion in the National Diet, Legal Committee Member Mrs. Miyagi and Mr. Sudo of House of Councillors came Feb. 27 so far to investigate the real conditions of the reformatory. They surprised to see the poor equipments and accommodations there and talked as follows;

"We can not but wonder and surprise to see the real conditions of the reformatory. Such an accident and an incident are caused by the poor equipments and accommodations for which govenment should be responsible and officials of the reformatory and retainers should not be responsible at all. We fear other reformatories may be as such. We must take up this problem in our consideration to expedite the betterment and completion in equipments and accommodations for reformatories throughout the country."

Translated by Doi

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

SUBJECT: Institutions in Kagawa Prefecture - 9 February 1951

Mr Hirose, section chief frankly admits that the child welfare institutions in the ken are very poor and he needs help in improving conditions.

Infants Home on Teshima Island has a capacity of 18 with 17 inmate. Infants 0-2 however there are 2 children 3½ there. One is deformed from TB and the other is a part negro. Staff of 10. Environment good. Plenty of milk, fresh air but no doctor (2on island but difficult to obtain services. Chief is considering moving home to main land.

Shido Gakuen: Reformatory- Takamatsu ; 56 children ; 5 staff

Child protection center: Takamatsu; 36 inmates; 16 capacity; 7 staff; Operated by ken. This institution is on the same grounds as the reformatory. Both were set up by the welfare ministry after the war but prior to the Child Welfare Law for the protection of roaming children.

Sanuki Gakuen : Takamatsu, private; operated by buddhist; capacity 55; inmates 114; staff 10 (See recent reports in file of conditions) Chief is of the opinion that this home should be closed but has no place to put the children. For the past three years he has had reports of the children being neglected. He has tried to get the board to improve conditions and raise starndards but they have refused. He states Mr Tanaguchi former chief worked hard but had little money so finally resigned. Since then they have had 3 chiefs, none good.

Last year Mr Hirose secured approval of Governor to build another institution and remove the children, but welfare ministry would give no funds. This year he thinks funds could be secured from the welfare ministry but the present Governor has refused to give ken funds. Funds however are being provided for a Home for Mentally Handicapped Children to be built in Utazu-machi; ¥1,200,000 from ken and ¥1,040,000 from national government. This home is to be ready by the end of April and will house 32 children. They are aslo building a shelter in connection with the Marugame Child Welfare Center at a cost of ¥250,000 each from ken and national government. This shelter will house 13 children. In the budget there are funds for 5 more day nurseries and for the purchase of farm land in connection with the reformatory but Mr Hirose says none of this money can be converted to build a home for dependent children.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

S

Just

SHIKOKU

22 Feb. 1951

In view of the fact that children at Shikoku Minors Reformatory have frequently absconded chiefly due to the incomplete facilities and prosaic environement of the reformatory, the buildings and facilities of the reformatory will be reconstructed and expanded at an estimated cost of 50 million yen under 3 year plan.

With the expansion of the buildings, the fixed number of children to be committed to the reformatory will be increased to 300 within the 1951 fiscal year and 400 by the end of the 1953 fiscal year.

2 Dec 1950

FROM: Mr Kusunoki, one of the 4 Representatives of Nursery and Kindergarden Association of Shikoku Island

SUBJECT: Request Program to Higher Headquarters Concerning Equalization Fund and Workers Welfare Program

Interviewed by Mr Fujioka on 2 Dec 1950

They went up to Tokyo this week and saw the Tokyo people. Mr Yamashita, is the chairman of the Welfare Standing Committee of the House of Councillors . The committee people also wanted to exclude the child welfare fund from the equalization fund but they failed so he still asked them to have strong demonstration to make the committees wish to realize. The welfare ministry people also the same. Only the local finance committee people are obstinate to stick to the new fund system.

Mr Kusunoki's criticism of the present system: Those villagers are okay where mayors have the understanding of the new program . But lot of villages are suffering very much owing to the political issue by the Mayors whose understanding of the new system is not good and child welfare money is spent for other programs which attracts the general people. In Kagawa, the village of Teshima is the extreme example where no child welfare money ever spent for the program. Mr Kusunoki says the system is fine but it is too early to adopt completely.

Welfare program for the workers: They were told they can have welfare pension or health insurance set up only by the approval from the governor of Prefecture.

CC money districation: Allocation committee decided to distribute ¥800,000 for nursery program in the prefecture. However, some people had cut down the amount to ¥400,000 and the other half is going to be allocated to village and town widows and repatriates and what not organizations. The decision might be done by the gun chiefs. The reason is: the money is collected from all the communities have no child welfare institutions and have no way to get any money. It is quite unfair, so every community is going to get back part of the money they had willingly donated for social welfare institutions.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

陳情

保姆の身分保障を速かに確立せんことを要望します。

理由

一、基準俸の裏付としての平衡交付金中の兒童福祉措置費が施設に均衡かとれてゐないために保姆の給與が基準俸に添えないところか多い。

二、恩給制度並に退職金制度の適用を早急に實現して保姆の身分を保障し喜んで兒童の幸福に奉仕出來得るようにされたい。

三、健康保險、共濟組合の制度を早急に確立されたい。

右は全四國保育大會の決議として玆に陳情致します。

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

陳情

平衡交付金中より児童福祉措置費を切離し生活保護費と同じく特別補助金とせられたきことを要望します。

理由

一、児童福祉法施行後日尚浅いため地方自治体の責任者の理解が極めて尠いので平均交付金中の児童福祉措置費を他の方面に流用してゐる實情にあり隨つて施設毎に甚だ不均衡がある。

二、児童福祉法は生活保護法とは姉妹的関係にある法であるので児童福祉指導費も生活保護費と同様特別補助金とせられたい。

三、児童福祉施設は年々增加の現狀であつて年度半ばに新設を希望する町村も非常に澤山ある。隨つて年度初めでなければその決定せられない平衡交付金制度では甚だ都合が悪い。

四、法による監査規程はあるが自治体の根本精神よりすれば指導權が優勢である。

右は全四國保育大會の決議により陳情致します。

SUBJECT: Report of Island Wide Nursery School Teachers Conference
by Miss Watanabe, Takamatsu Nursery School Teacher (Gobancho)

4 representatives from each prefecture at 9:00 on Nov 27, 1950. They are going up to Tokyo to approach the ministry. The subjects to be requested to the ministry to think about by the Shikoku Island wide Nursery and kindorgarden school teachers.

1. Security program for the teachers; to set up monetary cooperative organization among the workers.and to establish pension program among the teachers.

2. For the school by positive subsidy and not by the equalization fund.

3. Exclude the money for permanent facility from the manngement subsidy is not fair.

Did not come

7 March 1951

SUBJECT: Visitors from Sanuki Gakuen
(Mrs Aoki, ex-matron and a 15 year old protected child)

The 15 year old protected child of Sanuki Gakuen, named Miss Endo is a repatriate from Dairen where she lost her parents. She has a brother whose address is unknown. They both repatriated separately from Dairen, her brother returning to her fathers native land and she coming back to her mothers native land. Her grandparents live in Marugame but are not able to support her. She has been protected in the institution for 3 years. The undermentioned happening is her first misfortune since her entrance there.

The child said that after Mrs Aoki and Miss Ohira's discharge from the institution many of the children have felt lonely. Ever since she has been treated coldly from the staffs and her duty matron who is also the head matron. She and one of her friends who rooms with her walked around Takamatsu after school searching for Mrs Aoki's home which they found at last. Several visits were made after without the institution knowing about it. She was told by the staffs not to talk to the 2 matrons.

This morning, 7 March she was scolded by her duty matron saying that there is not a matron in this institution who wants to care for her. She was told she can do anything she wants to. The child said that a staff meeting was held the day before concerning who would take care of her. As she did not know what she should do she ran to Mrs Aoki's home this morning instead of going to school. Mrs Aoki brought her here to have you console the child and moreover can get the true the story from her. The child was crying during all her talk.

The child was fairly well dressed for a protected child and she said she was fairly well fed.

A protected child named Takeko who is attending the upper secondary school is well treated by Miss Ogo the head matron. The other children are all discriminated from her. (She is treated the best) and the said child is treated the worst)

I asked her how she is treated bad. The child said that she is always scolded and all the work is ordered to her.

NOTE: I was told by Mrs Aoki to keep the child's visitt to SCAR secret in fear that she might be treated more coldly at the instituion.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Inspection of home for dependent, neglected, and abused children

1. Name of home for dependent, neglected, and abused children: Samuki Gakuen
2. Location: 465 Nishibama shimpachi Takamatsu
3. How long has it been a home: Established in August, 1899
4. What was it before:
5. Classification - Public: or Private: Private
6. Name and title of person in charge: Rijicho Gyokusho Ikeda acting manager for Tetsucho Soga
7. Managing agency or body: Juridical Person Samuki gakuen
8. Staff:
   a. Number of children's leader: 1 (including 1 nurse licensed) Qualified: 1
   b. Number of nursery teacher: 10 Licensed: 6
   (a & b - 1 or more of either the other for every 10 children)
   c. Doctor on call: 1 Dt Nagai Pediatist
   d. Vocational leader: None
   e. Clerks and others: 1 Mr. Y. Ogata Cook 2
9. Capacity according to regulations: 80 persons
10. Number of inmate: Boys: 64 Girls: 53 Total: 117
    (Over 18 years of age, if any: Boys: 64 Girls: 53 Total:)
11. Age range of children: 2 years of age ~ 18 years of age

9. 25	Lock	1	¥50	Hardware	Goto; Tomita

TOTAL ¥4040

3. Cause of theft:

At present there are approx 100 children in the institution. Over 20 attend the primary school and over 60 attend the lower secondary school. As this institution does not supervise the children they play around the busiest streets on their way home from school. They see many things that they wish to have and steal. After their return to the institution they show the stolen goods to ~~them~~ others which causes the others to wish they had those things.

4. Other causes are:

a. The staffs at the institution are not equal to children

The children in the institution are of various natures, some are rough, some are gentle and some have bad habits. The gentle children are offered toys etc but those that are not loved are always treated coldly. Especially the nursery teachers who have their children in the institutions ~~with them~~ discriminate ~~their own children with~~ the others which leads them to become prejudice.

B. Lack of food

Children who are in the period of growth requires more food than those who are not but the same amount of food are distributed to all. They get candies about once in 2 days (1 or 2 candies). ~~Same of the children~~ are always hungry. During their walk to school they see and wish to have because of hunger. As they do not have any money they steal.

c. Lack of supervision

The staffs at the institution have been neglecting the report of petty crimes to the concerned organs thinking that it is a dishonor to their institution. They have been scolding the children at home. The children began to realize that the teachers will not scold much on petty theft cases. The children's possessionshare examined once in 2 months. Even they do see stolen goods they have been overlooking the cases. 80% of the children attend school. They are left alone from morning until they return from school.

~~xdxxxhildrenixxxiexxxx

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

e. Unproper disposition of children who commit crime

To discover the children who have the habit of stealing and report to proper organs. This has been neglecting here in the institution. Bad children's habit gradually influences the good children.

f. Victim forgives the children

As the amount stolen were not so large the victim has forgiven the children which leads to a worse result.

g. Bad nature of children

Some of the children brag about their theft to the adults who live near the institution. They tell about how they dispose their stolen goods, they talk about ~~about~~"bosses" which the adults fear. The nature of the children is different from children brought up at home.

5. The reason why the children were protected at the police station

a. The head of the institution asked the police to protect them considering the bad influence to other children(according to Child Welfare and Juvenile Law)

b. The children were apt to run away because of reprimandand were afraid to be hit by the teachers and co-stealers.

c. ~~The children should be protected at the child~~ The police protected, investigated the cause, motive of theft. Investigation of 11 children requires time and as they were apt to run away on their way to the child welfare center it was deemed more proper to protect them at the police station.

d. Outline of investigation

The crimes the children confessed were reassured with the victims. The victims investigation was done at night. ~~The investigation was done at night~~ The report on investigation was made and notified to the child welfare center for guidance anduprear method to children.

The children were handed to the head of the institution, child welfare center chief the next morning. The ~~children~~ were given warning from the head of the institution, head of child welfare center,&juvenile prevention section chief.

6. Concerned papers for guidance reference were made and submitted to the child welfare center. Later the institution was visited and the following improvements were seen:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

a. The childrens realized that they done the wrong thing. They are now going to school happily.

b. The staffs are revising their guidance education which was told to them by us. The Prevention Section determined to visit the institution once a week for guidance ~~coordination~~ liaison.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

SHIKOKU SHINBUN 14 Feb 1951

Namio Yoshida, a 17 year old child protected at Sanuki Gakuen disappeared from the institution leaving a note which says "Goodbye everybody, I am leaving to seek for a better future". The institution (Sanuki Gakuen) requested a search to the city police on 13 February. The boy is approximately 5 feet in height, long hair and oblong face.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

TF/ek

24 February 1951

SUBJECT: Visit of Top Officials of Sanuki Gakuen on 23 February 1951

INTERVIEWED BY: Mr Fujioka

Mr Ikeda, board chairman of Sanuki Gakuen
Mr Sogo, acting chief of the institution

1. Minimum standard for the institution for capacity of 100 children

Chief	1
Instructors	4
Clerk	1
~~Matrons Nurse~~	5 matron 10
Employees	4
Job guidance	1
Part time doctors	1
TOTAL	17

2. Present workers are as follows: Children 117

Chief	1
Instructors	4
Clerk	1
~~Matrons~~	6 ~~nurse~~ matrons
Job guidance	0
Employees	2
Part time doctor	1
TOTAL	15

In the near future they will get 2 part time instructors from school. Mr Sogo, ex employee of SCAR who graduated from the Osaka Social Work School and a teacher of a commercial upper secondary school is expected to be the supervisor of the workers from April. Salary ¥8000. (This is not true.

3. Future extention program for Saniku Gakuen :

The draft budget presented to Community Chest Committee is ¥1,200,000. Special domation from general public and ~~¥400,000~~ is expected from Shingo Sect. (Approximately ¥2,000,000 is expected-total) The amount to be supplied from Community Chest is unknown.

* Read all matrons as "nurse" hereafter.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

The expansion program is:

2 children study room (size about 24 mats)
1 play room for under aged children (size about 24 mats)
3 bed rooms(Size 10 or 8 mats)

4. Capacity of children in Sanuki Gakuen:

The authorized capacity was 50. Later the prefecture officials advised them to increase the capacity to 80 consulting with the size of the auditorium and the dining room. What they said was the "vacant room" to you is the culture room to give tea ceremonies. The

5. They expect that the number of staff is nearly adequate.

6. Reputation of protection:

They know of the reputation of poor protection, as thw workers doing some bad things and the chief and superintendent are always out. Also that there is no coordination between the workers. They are quite sure that these are only rumors and criticisms. "It is the difference of opinion of how to handle the child". We don't want to spoil the child.

7. Re discharge of matrons:

Miss Aoki made no contribution to cooperate. She spoiled the children. She did not attend staff meetings so the chief fired her.

Miss Ohira was also delinquent to attend the staff meeting so the chief reprimanded her and she resigned.

T.
8. How about the prefecture people's opinion? (by Fujioka)

Answer: The dept chief has good understanding but the child welfare section chief has some criticisms but they expect he will change his mind soon.

9. How about the cook?

Answer: She used to attend the staff meeting but she has stopped now because it is not her job. But she is the oldest one to work and she has the ability to say what she wants. The chief says she is a old fash ioned person who knows the old type of protection and charity. Up to May or June she criticized the menu prepared by the staff conference but now days she is quite obedient.

10. Connection of matrons with Mr Hirose , the section chief (child welfare)

The chief says there is sone private connection between Misses Aoki, Ohira, Numatsu, and Mr Hirose, the child welfare section chief.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Last June the thild welfare section chief made recommendations to the board to change the staff members because of some questionable conduct among the staffs. The Board made an overall change plan and presented it to the section. Miss Aoki obtained the information and publicized it to the staffs of the institution. Then they stopped the plan. We thought that the section chief was misguided by the above said matrons but he has changed very much recently.

11. How about the police?

The police made no recommendation at large. Mr Ikeda said the polices reprimand was ten times larger than the instruction given by the matrons or the institution staff. It made a large effect to the children.

12. How about Dr Nagai?

The doctor was also influenced by the above mentioned matrons so he might have had some criticism. We presume that the doctor has changed his mind too.

13. Why has the department chief understanding? Did he make any visits to the institution?

Answer: No, but he is a fine character. We have had some inspections from the section chief. The recommendations were given to the institutions The recommendations given in 1949 was wrong so the chief saw the dept chief and asked him why. He said it was a mistake and made partial changes of it. The paper was signed by him.

14. Whether they esteem the department chief? Is the dept chief trying to help them?

The chairman of the board saw the dept chief often and talked about the children problem. The dept chief professed that he thinks ther e will be no more exceptional increase problem of children. Mr Ikeda does not think so. The dept chief said he cannot supply any funds to the private institutions.

15. What do you think about the ken planning of building more day nurseries and widows workshops and no endeavor to fix the dependent homes?

Now they stated that the dept chief is not on the ball concerning problem children. If the councils organized, it will be a very important agency to make the overall planning for the business. They recognized the point fully. They were rather sorry to make any requests to the ken officials because they are so high. The point that I stressed (T Fujioka) was "it is the protection of the children." If they see anything inadequate for the children, something should be done. The ken welfare dept is the responsible spot for the business.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

They expect a large ease of their institution by getting rid of about 15 feebleminded children. They will be sent to the feebleminded institution in Utazu-cho in the near future. They also know that sending out 15 will be getting in 20.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

(name, age, and personal history of establisher, manager, and worker)

c. Diary: They have it.
(Daily record of the agency)

d. Property record: They have those.

e. accounting book: They have those.

f. Budget: ¥4,050,408.00 in 1950 fiscal year.

g. Property and accounting books are provided separately:
(With private agency, they should be provided separately from one's own personal properties and accounting)

As for Sanuki Gakuen, all property and accounting is only for agency without any personal property and accounting.

24. Persons c

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 119013

27. Process of referral of children:
a. Through Child Welfare Center: Number: Percentage about 90 %
b. Through Family Court: Number: 0 Percentage 0
c. Others ✓ Numbers: Percentage about 10 %
what process is taken for admission

Before Child Welfare Law is published, inmates were admitted under Daily Life Security Law. And those children is about 10 % of all.

28. Public assistance:
a. Number of children who bear expenses by himself.
Number: Percentage
b. Number of children whose guardians bear expenses
Number: Percentage
c. Number of children who are receiving public assistance:
Number: Percentage

They say that calculation and collection of expenses is not counted by us, therefore they can not tell above numbers and percentages.

29. Do they have children's family history: None ✓ X
30. Number of inmate who has guardian or family is 32 of 117 at present.
30. Do they have childrens development history? ✓

They have no so-called development history, but monthly they have a kind of observation record provided for each child by nursery teacher in charge and have columns of health condition, character, merit and demerit, taste, learning condition, psychological condition,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Occupation disired, family record, matters to be guided in the next month etc.

31. Do all staffs strive to guide children under manager cooperatively:

Generally, they seems to make effort for their duties.

32. Do children enjoy their family life:

They seems to enjoy their life as a rule.

33. General policy of the home to guide children

In short, they aim to bring up children to be a good member of society.

34. What association does the home have with the welfare section and other welfare agencies:

They have no association with child welfare section and other welfare agencies except that they inspect agencies of the same kind in Hanshin District once or twice a year.

35. opinion of investigator.

This is an orphange managed by Buddhistic group. Manager of the home is Buddhistic priest. The operation seems to be good generally. But there is no capable staff who has received modern special training as social worker. Accordingly, they are not so scientific, progressive and positive. For instance, they have only 3 fire extinguishers without any inspection for several years, inaccuracy of measuring powder (flour, rice etc), considerably long delay of filling period record, etc. They will, however also have reasons to be considered. This may be the phase as in other fields in this transition

Sanuki Gaukun orphanage 20 Jan-51

Mrs Masaki Aoki - former matron
Sanuki-Gaukun Hakamatsu
Put Orphanage - slipped 14 Jan.
Miss Ito Ohara - former matron
there also - quit because - date -
Worked there 2 yrs. When employed
thot it a life job but found
out the night & Sat. Work were
100 yrs behind times - very
unhappy - They got material
by trading but the officials
would not give. Still they tried
to improve but no help
finally they were told by
Secy - do good to keep them -
Social Children not given good
care - Children very upset over their
leaving & they promised to do
what can be done -

1. Principal pays no attention to Supt always ought so they went to Mr. Hyodo ken - as Principal displeased by ken's recommendations (Secy also out)
2. Clerk Mr Ogata has all the power acting chief but not on paper.
3. Principal chg 4 times in year. (They talked with member of Board.
