1. This headquarters has been recently informed that all integrated facilities are designated for reparations in their entirety. The inventory forms previously submitted in accordance with current inventory instructions for integrated facilities merely serve as a guide in determining the nature and reparations value of the plants. Centralizing "reparations machinery" should not be construed to relieve facilities not included in the inventory form, from liability of removal for reparations. This is in sharp contrast to the policy of removing non-integrated facilities, where machinery and equipment are to be classified separately and pooled for reparations claim.

SUBJECT: Release of Land and Buildings from Plant Listed for Reparations

TO: Commanding General, I Corps, APO 301
(Attn: Military Government Section)

1. Inclosed are applications for release of land and buildings submitted by machine tool plant, Gifu Kosakki Seizosho Co., Ltd., Code No. 09-22, 1711-1, Rolujo, Gifu City. This headquarters has reviewed the above mentioned installation in accordance with recent directives. This industrial plant is not a military target. The buildings do not house reparation machinery or equipment. All machinery has been centralized as indicated in the inclosed application.

2. This headquarters is aware of the fact that all integrated facilities are designated for reparations in their entirety. However, these idle buildings are antiquated and in most part improvised, and if removed, they would be of diminutive value even as scrap. The proposed production of farm machinery, farm tools, straw rope manufacturing machines and husking machinery in these buildings, is certainly in accordance with current Scap policy to encourage and stimulate production of civilian housing and agriculture products.

3. In view of the above mentioned, the definitions and criterion as set forth in paragraph 2,OD 5/5 dated 24 September 46, current trends, this headquarters recommends, that the inclosed applications be approved and the land and buildings not required for custody and control, be released to the home ministry for return to its rightful owners.

integrated facilities requested by the espective claimant nations, the residue will be released to the Japanese.

3. This headquarters is of the opinion that until the facilities of the integrated plant has been removed for reparations, portions of machine tool plants should not be released to the Japanese, except where specific reason is provided with regards to the disposition of the released portion, and that as a result of extensive survey the requested portion reveals to be in no way integrated with the entire plant layout.

SUBJECT: Application for Partial Exemption of Reparations Machinery

THRU : Commanding Officer, Tokai-Hokuriku Mil Govt Region, APO 710

TO : Commanding General, I Corps, APO 301
(Attn: Military Government Section)

(09-22)

1. The Gifu Kosakuki Seizosho Co., 1791 Rokujo, Gifu City has been inspected and reviewed for possible partial exemption. It is the opinion of this headquarters, that this plant is capable of the production figures as specified in their enclosed application. The wood working machines (wood planners) produced are class one machines, management is well informed on production processes, and machine tool manufacturing methods. This establishment employs 114 experienced machine tool workers.

2. The following is an aggregate for our recommendation:

a. The Gifu Kosakuki Seizosho Co. was incorporated and commenced operation in 1938. Plants constructed after 1937 cannot be considered essential to civilian economy.

b. Other non-reparations facilities are available. Alternate sources have been found in this area, wood planners and automobile replacement parts (transmission gears) are in sufficient numbers for such industrial facilities in this Prefecture.

c. The interim reparations program was designed to remove certain types of equipment and productive units from Japan, that are obviously in excess of requirements. This selection within the machine tool industry was correctly selected, and as such considered surplus in its entirety to a minimum Japanese peacetime economy.

3. In view of the above mentioned and the facts contained in the attached check sheet, this headquarters recommends that this plant remain on the reparations list and further recommends disapproval of the enclosed application for partial exemption.

1. The Gifu Kosakuki Seizosho (Gifu Machine Tool Mfg. Plant) is included on the list of machine tool plants subject to reparations. Code number 22 has been assigned this plant for purpose of inventory. The company has requested that the entire plant be removed from the reparations list, and, in the event that this is not possible, that as many wood working machines as possible be left in the plant.

2. This headquarters is not in possession of the criteria which establishes the basis for selection of machine tool plants for reparations. It is assumed that the over-all policy of reduction of Japanese surplus economy to a pre-determined level, is the factor which dictates selection of plants of this nature. On this basis, the Gifu Machine Tool Mfg. Plant would appear to be a desirable selection. The plant was
