Most part of the reparations area except two buildings (2 × 600 tsubo) containing all reparations equipment, are recommended to be released.
Early release is desired by Shimmachi-town not by the company, because the town officials stated that the town has a lot of plans regarding how to utilize the vacant area; on the other hand, the plant does not like early release (after release) because the plant has to pay taxes to be put on the released area and also it is rumored the plant has given the vacant buildings as security for the Saitama Bank.

REPORT ON ALTERNATION OF TREATMENT OF SHIMMACHI PLANT

Aug. 22nd, '47

TO: GOVERNOR OF GUMMA PREFECTURE

FROM: AOYAGI SEISAKUSHO CO. LTD.

ADDRESS: NO.1656, HONJO-MACHI, SAITAMA PREFECTURE

With polite sincerity, we hereby submit a report as head-subjected.

79 sets of machine tools now we maintain in Shimmachi plant (Details of them will be known on the accompanying document.) those were removed from Honjo Plant just when our company was taken under custody and control of U.S.Army as a reparation factory dated on Aug. 26, 1946,___of course this removal was formally permitted by Saitama Military Government,____have been designated as reparations. Therefore we had held a view that " Shimmachi Plant too are to be taken under CONTROL & CUSTODY." and have obediently done our utmost to maintain them in the best condition we could.

But there came a question!

" It is these 79 machine tools only that was reparated and nothing is concerned with other machines there, isn't it?"

Then, on Aug. II, '47, we tried to make it clear by asking Saitama Military Government through the Reparations Section, Saitama Prefectural Government and luckly got the certain answer as following:

" 79 sets of machine tools that removed from Honjo Plant only should be taken under CUSTODY & CONTROL. Accordingly, any other machinery and equipments are quite at your disposal as a matter of course. But the building thatholds reparated installations must be strictly sectioned by the fence or so and needed number of notice-board are required there to show this is Reparation Area. Of course there must be found due number of guards to prevent them from any fire or thieft."

That's all what we report.
