## *A Word with Our Patrons.*

---

WE greet you with our eighth edition of the directory from the TRANSCRIPT press, and a careful perusal will show how sincere have been our efforts to meet the requirements of the public, who rely upon it as a complete guide book of North Adams. The directory was first established by us in 1874, against the wishes, and without the support, of many who regarded it as useless; and it was only by persistent efforts that the work has reached the point of being indispensable as a work of reference. Directory publishing is a special line of business; requiring skill, perseverance and many years of experience to furnish a satisfactory work. Twenty years of continued experience therefore entitles us to respectful consideration.

### Is North Adams in a Flourishing Condition?

Since the publication of our first directory in 1874, it has nearly doubled its population, and, according to our canvass, should have between 15,000 and 16,000 at present. The municipal management has improved in effectiveness. A letter carrying system has been established, new streets are annually surveyed, large and attractive business blocks, and hundreds of houses of the most approved modern type are being annually erected. Go to the railroad depots and witness the life and stirring events of a day and you become at once impressed with the truth that North Adams is the great railroad town of Western Massachusetts!! and consequently offers superior inducements for manufacturers to settle here, for the sake of cheap transportation of their goods. The Arnold and Freeman Print Works and Hunter & Son are now erect-

ing large brick buildings on account of an increased volume of business. The new Water Works, the Electric Light Co., Horse and Electric Railway Companies, the Public Library, a branch of the Y. M. C. A., and a host of social and benevolent organizations have sprung into existence within fifteen years until North Adams finds itself at last verging upon a fully equipped city. Like the towns of the great West, it is impossible to predict its future except by the past. The growth of North Adams has been healthy and legitimate, on the basis of supply and demand, and not spasmodic or forced up for the sake of real estate boomers. Our brief retrospect of fifteen years is convincing proof that North Adams is "at the front," and has come to *stay*. In conclusion we will simply assure the public that we will continue in the future as in the past to increase the usefulness of the directory, and when the street system is more settled we will add a map to our work.

In simple justice we desire to say that the typography, press work and binding of this volume surpasses previous editions, and is creditable to the TRANSCRIPT office, where all communications for the directory may be addressed to us in future.

Faithfully and gratefully the public's humble servants,

R. S. DILLON & Co., PUBLISHERS.

**They are  
Non-For-  
feitable.**

Not a dollar can be paid the Company, the full value of which, after two payments (in some cases after three), is not in an equitable form secured the member. The Company's plans for "extension" and "paid-up" provide against loss to members who discontinue their policies.

**Cash  
Surrender.**

Many forms of policies permit a member to withdraw at any period of five years, others at the end of longer periods, as selected, taking with him the full reserve-value of his policy, inclusive of all surplus accumulations.

**Cash  
Loans.**

Certain policies contain the agreement to lend the member upon their security Sixty-six Per Cent. (being not less than \$100) of the reserve-value; thus guarding against their lapse and enhancing their value as MARKETABLE COLLATERAL.

There is nothing which is safe and desirable in life insurance, no new and commendable feature, that is omitted from the revised forms and plans of this well-tried and enduring institution.

### THE RESULTS OF THE BUSINESS OF 1888 SHOW:

- ☞ A gain in income. ☞ A gain in assets. ☞ A gain in surplus.
- ☞ A gain in dividends paid members. ☞ A gain in insurance written.
- ☞ A gain in Membership and a gain in insurance in force.

### Reasons why it should be preferred by those desiring Insurance:

- It has the benefit of over thirty-eight years successful experience.
- Its business is conducted on the mutual plan, thus enabling members to get their Insurance at cost.
- It has always paid large dividends; thereby making the cost of insurance low.
- It maintains a reserve for the protection of policy-holders on the Massachusetts Standard, the highest basis required by the laws of any State.
- It has a large surplus over the legal reserve and all other liabilities.
- Its conditions as to travel and residence are very liberal.
- Its policies are protected by the non-forfeiture laws of the Commonwealth of Massachusetts, which secure greater benefits to members than those of any other State.
- It has always maintained a high reputation for just and liberal treatment to its members by promptly adjusting and settling all policy claims, a proof of which is the fact that no judgment has ever been rendered against it.
