Retah Schell

Fellow Flower Fans

We are pleased to present for your consideration this year, four new members of the Gladoli Family. They are our own "babies," the best out of thousands of seedlings originated during 1930-31. Naturally we think they are pretty fine; and we feel sure that if you will give them a chance they will make beautiful a spot in your garden and find their own place in your heart.

A new Glad does not have to be high priced to possess quality. The proper test is, does it make good over a number of years. Our seedlings must pass this test for from three to five years and during that time we build up stocks which enable us to place them on the market at a reasonable price.

Introducing Retah Schell

Like the most excellent lady for whom named, this Glad is stately and dignified without being cold and high-hat. Exhibition type, growing very tall with a strong stem, perfect placement, texture and good health habits. Eight to ten five and one-half inch florets open at once

with 10 to 12 more to come. Color is pink with just enough creamy tint to make it warm. Some little be-

gonia rose flecting, a small rose feather, edged buff, on the lower petals. Blooms in about 90 days. Impresses one with its color and statliness. Price for 1935, \$1.50 each.

Introducing Leschi

In 1852 Washington Territory was created out of the north half of Old Oregon. Gen. Issac I. Stevens was appointed governor and indian agent. Upon his arrival in the territory he made treaties with the Indians whereby most of their lands passed under ownership of the government. The treaties were not carried out in the way the Indians expected and under the leadership of Chief Leschi, of the Nesquallies, war was declared. The Indians were soon forced into the forests. Word was sent Leschi to come in and all would be well. He returned to his farm and while ploughing in the field, was arrested, taken to Olympia and charged with murder. This in spite of the fact that he had been a general in command of an army. Convicted, he was placed in jail where he was later killed in a manner little short of murder.

Leschi was an outstanding individual among the red men. That's why we selected his name for our big dark red seedling No. 31-42. Leschi is an exhibition type; almost a self-

Leschi is an exhibition type; almost a selfcolor of clear but deep dark maroon red with a

Leschi

Miss Pocatello

Last summer Glad Fan Williams, Pocatello, Idaho, asked us to send some Glads to the show being held in connection with the Centenial celebration of Old Fort Hall at his city.

Several spikes of 31-10 were included in the lot, which was shipped from Blaine several days prior to the show. It was a non-competitive exhibit, but 31-10 attracted so much attention that we were asked to name it Miss Pocatello, and here we are.

About this same time Miss Pocatello won first place in the small decorative class—orange—at the Tacoma show of the Washington State Gladiolus Society. Price for 1935 is \$1.50 per bulb.

Introducing Robert Brownlee

The impression one receives upon looking at Robert Brownlee for the first time is that it is a brown Glad. Close examination shows this brown tone is made up of the blending of red, yellow and purple with a distinct coppery tone at the edges of the petals. It has a pale yellow, straw color, throat, sprinkled with small red spots. The florets are nearly always triangular in shape and the plant consistantly opens six at a time, all facing one way. Florets are of medium size placing the flower in the decorative class where, because of its

purplish overcast and small, almost pure black blotch, near base of lower petals. It opens from six to ten five and one-half inch wide open florets on a strong stem with 8 to 10 buds yet to come. Very heavy texture with a pronounced velvety sheen. Great lasting qualities. Blooms in 85 days. Good propagator and excellent habits. Has been exhibited in two shows and won prizes in both. Price for 1935, \$2.00 each.

Introducing Miss Pocatello

This charming little lady (she belongs to the small, decorative class—orange) first bloomed on July 30, 1931. The attendent (not physician—she's been so full of pep and joy she's never needed one) gave her the number 31-10 and wrote as follows:

"Six rounded, wide open, three inch florets on a tall, wirey stem, position and texture, O. K. General color effect is light orange overlaid with a purplish sheen which is quite pronounced at edges of petals and deepens as flower ages. Lower petals carry short yellow dart. Bright and sparkling, will make a fine decorative for basket work. Ruffled. Blooms in 76 days." As the years passed, 31-10 rang the bell every time. Additional notes are that she is a good propagator and has good health.

color, it has no close competitor. Good growth habits and blooms in 78 days. Price for 1935, \$1.50 per bulb.

A Correction

The Glad "Duchess of York" is a bluish plum, purple with a large white blotch. A beauty. Page 9.

If you are not satisfied, send 'em back and get your money.

Will Buy More

Because of the drouth last summer, our flower show was called off and I did not get a chance to exhibit Yakima Apricot. Those who saw it declared it a beauty. I will send for more of them next spring so as to have a full exhibit next summer.

Mrs. A. C. P., Montana.

Other New Kaylor Glads

In addition to the four new varieties introduced this season, we have five others that have been in the gardens of Glad Fans for from two to four years. If you are not now growing them, we urge you to give them a trial this season.

Sem-i-ah-moo

Pronounced as spelled with accent on

Just a bit tempermental, but if you like to take bad boys and make them good, you will be greatly pleased with this one. Up to eleven perfectly placed florets on a strong stem, always perfect placement. Purplish-red shadings lighter at the throat, faint straw feather and the whole overcast a dusky, smoky tone. 1-20c; 3-50c; 8-\$1.00.

Emaline Manning

If you have ever watched an Ophelia rose open, you will be surprised at the similarity of the buds and action of this Glad. Buds are long and pointed with a pink blush. They unroll and open out into a deep cup of rich yellow with a rosy-pink back. We rate it at four and one-half feet with six open, but a friend in Wisconsin reports five feet with seven open. Prize winner, Seattle, 1933. 1-25c; 3-60c; 10-\$1.75.

Yakima Apricot

It wins prizes in the orange class but we prefer to think it more closely resembles the beautiful blending of the bright red and yellow to be found in a tree (not box ripened) Yakima Apricot. Same price as Emaline Manning.

Laughing Lassie

Just as sure to give a beautifully balanced spike of wide open laughing rosypink florets, as it is to grow—and what a flock of bulblets. 1-20c; 3-50c; 10-\$1.10.

"I want to thank you for the three Laughing Lassie bulbs you sent last year. It is a truly wonderful glad. Out of 76 varieties which I grew last year, both my wife and I voted this glad the outstanding one of them all. R. E. L. Kansas.

Laughing Laddie

reds. Not quite so large as the Lassie but otherwise a fit mate. Same price as retary, 515 Title & Trust Building, Seat-Laughing Lassie.

Semiahmoo

Buy Them In Collections

One large bulb of each of the foregoing Kaylor originations, nine bulbs in all for \$8.00.

One medium sized bulb of each of the nine varieties for \$5.25; or one small bulb of each for \$4.00.

Here is your chance to get these new Glads from the Puget Sound country at a substantial saving.

Washington Gladolus Society

Every garden fan should join. Annual dues includes membership in the American Gladiolus Society, subscrip-Clean and clear, not disfigured by tion to the Monthly Gladiolus Review darker spots as are so many of the dark and right to exhibit in all shows. Send applications to us or to Roy Erford, Sec-

The Steves Originations Win

For several years we have been agents for the introduction to the United States growers of the Glad originations of the late J. M. Steves, Steveston, British Columbia. Discriptions and prices will be found in the general list on the following pages.

Orange Soverign, a very tall, stronggrowing plant with a fine spike and many open florets, is a favorite of those who prefer size. It has won prizes in this and foreign countries.

Orange King, almost as large, has more of the red of the orange in its makeup; also a small but brilliant red feather in its throat.

Orange Lady, not quite so large as Orange Sovereign; it is earlier and more cup-shaped and has a faint pinkish tint that adds to its beauty. We like it better than either Orange King or Orange Sovereign; but then, every American man should prefer a lady to either King or Sovereign. Orange Lady won first place, orange class, at Tacoma, 1934, but the show was too early for either of the male members of the trio.

Sunshine Susie was a happy name for this girl. She comes very early, is somewhat similar to Orange Lady and surely carries plenty of sunshine.

Princes Yaada, a beauty that is just a bit heavy in size and texture for its stem. Better stake it—then watch.

No stakes will be needed for Moon Maiden, which we consider the most delicately tinted, largest, most sturdy and reliable in the light pink-lavender class.

Of this year's introductions, Sunset Cloud attracted most attention from visitors last summer. It grew beside Schwaben Maiden, which it greatly resembles, but most folks considered it better.

Dainty Maid, despite its large florets, is retiring; but not so with Philomela who flaunts her red and yellow beauty so that all may see and admire.

While considering these new ones, please remember that Steveston Campfire, a large prim, has a color entirely different from any other red. A red so intense that you will "spot" a Campfire from any place in the garden, and it makes no difference how many other reds you have, Campfire will stand out.

Commercial growers send for quantity prices.

Radio Special Most for the Money

We introduced this collection last season and it met with such favor that we have decided to offer it again this year. Many letters from more-thanpleased customers are in our files. The collection consists of five medium sized bulbs, each, of ten fine varieties. Each variety is wrapped and labled separately and with each collection we enclose a bulb of one of our originations free. The collection of 51 bulbs sells for\$1.00, postage paid—and we would like to hear the result at the end of the blooming season.

Moon Maiden

We Change Name.

With the object of removing one cause of confusion, it has been decided to drop the "Peace Arch" part of the name of this nursery. Here at Blaine we have a large and imposing concrete arch errected to commemorate one hundred years of peace between English speaking people. It is the only such arch in the world; but, we regret to state, this fact is not generally known. As a result many folks make mistakes in addressing letters to us, and in an effort to eliminate these mistakes, this business will hereafter be conducted under the name "Kaylor Nurseries."

Here is a good place to extend an invitation to all flower fans to vist the nursery when passing thru Blaine on their way to visit our good friends on the British Columbia side of the Peace Arch. Turn east on either H or D streets in Blaine and you will find the nursery on the top of the hill. There are no gates to open—just drive in from either

side.

While this is the largest catalog we have ever issued, still there are many things growing at the nursery that are not listed herein. There are items of which we do not have sufficient stock, or items under test. Another thing: Many times we have oversized plants and trees, odds and ends of stocks on which we can quote prices on the "cash and carry" plan that will result in worth while savings.

Thrips.

To go Will Rogers one better—all we know is our own experience, and since we have never had a thrips on the place, we do not know much about this pest. Never saw but one sample of him, and that was a long way from Blaine, and hope we may never have to look at another; for falks, this rascal can sure

make a Glad look sick.

Our escape so far we lay to the careful handling of new stocks received from other growers and to the fact that everything we plant is treated. Whether you suspect thrips or not, you should make sure that every bulb has been treated before it goes in the ground. Practically all of our stock was treated at digging time in a bath of lime-sulphur solution. This solution is somewhat hard to hold at a uniform strength, soak the bulbs for a couple of hours.

Sunshine Susie

trated lye in one and one-half gallons of water and soaking the bulbs for several hours. This should be done just before planting. Another treatment is dissolve one ounce of Bichloride of Mercury in seven gallons of water and soak for four hours. Both these are good, but we have found that no bug on earth can swallow a big swig of lime-sulphur, or take a good long bath in it, and survive. We believe it gets thrips as well as other

Laughing Lassie a Beauty

"The bulb of Laughing Lassie you somewhat mussy and smells badly. We sent me two years ago produced a flower use it about half winter strength and the first year that did not look so hot, but it came through last summer with If you cannot be sure as to control one of the most beautiful spikes I have of lime-sulphur, better give your bulbs ever seen. Guess it took a year to bethe lye treatment. This is done by dis- come aclimated and at home here—but solving one ounce of ordinary concen- it surely paid" A customer at Spokane.

German Iris

Can be depended upon for masses of delicately shaded flowers thru June. They like full sunlight and do well in even poor soil. Plant July to April 1.

Prices, unless otherwise noted, single plants are 10c or three of a kind, 20c.

Ambassadeur, very tall, smoky bronze with dark maroon falls. 20c.

A. E. Kundred, bronzy yellow tinged magenta, fragrant.

Argynnis, yellow, falls dark violet carmine. 25c.

deep purple falls. 15c.

Dijah, two shades of silvery lavender blue, a tall and beautiful flower. 15c.

Dream, lovely pink-violet.

Eldorado, a blending of bronze heliotrope and purple.

Flavescens, sulphur yellow,

scented.

Florentina Alba, or Silver King, early white flushed with lavender, fragrant.

Isolene, light lavender, falls much

deeper and veined yellow at base.

Jaunita, very tall, clear blue, fragrant.

Mary Gibson, tall, light bronze, falls old rose and bronze, distinctive, 25c.

Medrano, rare, dark smoky claret,

large, late, 20c.

Mithras, yellow and wine-red edged gold.

Pallida Dalmatica, tall, sturdy plant of lavender-blue.

Perfection, light blue and dark violet. Purple King, blueish mauve, falls edged redish purple.

Queen of May, light mauve, falls

deeper, early. 15c.

Rev. A. H. Wertle, purple and purple

Seminole, soft violet-rose, falls crimson, 15c.

Susan Bliss, very tall, uniform shade

of deep rose-pink, 20c.

W. J. Freyer, bright yellow, falls ma-

Walhalla, lavender and wine-red.

Terms and Discounts

Prices quoted are for cash with order or C. O. D.

On orders for less than \$1.00, please

add 10c for postage.

On orders of from \$5.00 to \$10.00 you may select extra material to the value of ten per cent of your order.

On orders of \$10.00 to \$25.00, fifteen

per cent in extra material.

Except as otherwise noted, we pay postage.

Order early before stocks are badly

broken and before the rush starts. extra quantity of "extras" on all orders received before March 15.

Remit by money order or check. Be sure your envelope carries a return address. U.S. postal employees are honest, but sometimes letters do go astray. Just apt to be yours with bills or stamps enclosed and we do not like to have to tell folks their letters "went haywire." If you send us an order and do not receive the goods within a reasonable time, write us and give us a chance to straighten it out.

Remember, we are growers who produce every item we sell—its American Alcazar, tall, smoky light blue with grown, of high quality. In buying American, be sure the stock is grown in this country—much of that offered you is foreign produced and the greater part of your dollar goes abroad to help out some other country.

Princess Yaada

Gladioli Varieties and Prices

Some abbreviations have been used as follows: Originators, Betch.—Betcher; C.—Coleman; Carp.—Carpenter; D.—Diener; Horn.—Hornberger; K.—Kundred; Pal.—Palmer; Pur.—Purple; Pf.—Pfitzer; Sal.—Salbach; Lem.—Lemoine.

Type: Dec.—Decorative—spikes of medium size with four or more open florets; more attractive for their charm than for size. Ex.—Exhibition—large florets on tall and heavy spikes. P. before Ex. or Dec. means this flower shows primulinus blood.

Sea.—Season—refers to the blooming period; early, etc.

Sub.—Substance—refers to texture; A.—Heavy; B.—Medium; C.—Light.

Health—a new feature in a Glad catalog: Refers to variety's disease resistance, bulblet production, bulblet germination, and its general growth.

Unless otherwise noted, prices in this list will be as follows:

Large bulbs, two of a kind, 12c; five for 25c; ten for 40c; 28 for \$1.00; 100 for \$3.20. Mediums, three for 12c; six for 20c; thirty for 75c; 100 for \$2.10. Smalls, four for 12c; ten for 25c; 20 for 40c; 100 for \$1.50.

Order early-stock limited on many kinds.

Large bulbs are at least one and one-quarter inches.

Medium bulbs are at least three-quarter inches.

Small bulbs are less than three-quarters inch, sell at half the price of large bulbs and nearly, if not all of them, will bloom, but they will be late.

Per five and per ten means this number of one kind.

No single item can be filled for less than twelve cents.

Wholesale prices:—Twenty-eight of a kind at two and one-half times the price of ten. 100 of a kind at eight times the ten price.

Opinions and ratings are those gained by experience in growing the varieties mentioned on Puget Sound.

We do not substitute varieties but reserve the right to send equal value in next size where we are out of size ordered.

Size Whole we are out of Size ordered.

militari it citalitati, viinali		<i></i>		
Variety — Originator — Color Type deep rose red, yellow throat and white wire edge. 1-15c; 2-25c; 10-\$1.10.	Sea.	Size	Sub.	Health
Jacob Von Biergen, light purple. Considerably Ex. lighter than Charles Dickens.	M	L	A	A
Janet, Crow, smoky-purplish rose. No other Dec. glad of just this color and you will like it if these colors appeal. Stands rain well. 2-15c; 10-50c.	M	M	A	A
Jessie, Mair, bright pink. Sometimes comes Ex. Dec. with deeper flecking. Large white blotch in throat. 1-18c; 3-40c; 10-\$1.20.	M	L	A	A
Krimhilde, Pf., lavender pink. Should be more Ex. widely grown. Bright lavender pink, lower petals suffused yellow	EM	L	A	A
King George, Mair, scarlet. Very tall and needs Ex. staking. Brilliant scarlet, large, white throat	M	L	A	В
LaPaloma, Dusinbere, orange. Deep orange, just Dec. a little dull, but a prize winner. 2-15c; 10-50c.	M	M	A	A
Lavender Bride, Bride, deep lavender. A red fea- Dec. ther in the throat deepens the general color and adds brilliace.	M	M	В	A
Laughing Lassie, Kaylor, rose pink. Because of the cerese pink tones in this we were going to give it a name with this word in it, and then decided there were too many glads with color name. Bright and laughing rosy-cerese pink with some yellow in the throat. Up to five feet tall with six to eight open. It likes water. 1-20c; 3-50c; 10-\$1.10.	EM	M	A	A
Lewis Hemon, Lem. red and yellow. Everybody Dec. notices it and laughs at its clownish ways. Florets come "all around the farm" and upright. 1-12c; 10-\$1.00.	M	M	A	В
Laughing Laddie. Kaylor, deep red. It is a wide Dec. open, laughing fellow of deep red with a much lighter throat. Not so large as the Lassie, but a bright addition to the garden. Same price as Laughing Lassie.	EM	M	A	A
Mrs. T. E. Langford, about the most beautiful Dec. of peaches and cream glads. 1-20c; 3-55c.	LM	M	В	В
Mr. Wm. Cuthbertson, Mair, salmon and rose E Dec. pink, white throat, very ruffled. Considered by many to be Mair's best. 1-40c.	EM	M	В	В
Maid of Orleans, Pf., white. Many folks consider it the world's best white. 1-15c; 3-40c.	LM	L	В	В
Mountain Rose, Blake, an early rose lavender Dec. of fine form. 1-20c; 3-40c.	E	M	В	В
Mammouth White, Pf., cream white. Monster Ex. flower on good spike makes it win many prizes. 1-12c; 4-35c; 10-70c.	M	L	A	В
Marolee, Carp., pink and yellow. Florets come Ex. upright but of very large size and fine color. 1-12c; 4-35c; 10-70c.	M	L	В	A
Mary Pickford, K., white. We hold on to this because it is the best of the early creamy whites	E	M	В	A
Marmora, Erry, lavender. Gray lavender Ex. brightened by purple blotch. Hard to beat.	M	L	A	A
Mary Frey, Gelser, lavender pink. One of those Dec.	EM	M	В	A

altogether satisfactory kinds. Does well from even small bulbs				
May Morrison, deep rose pink. The rose pink Ex. shades into scarlet with a cream throat. 1-15c; 3-40c; 10-75c.	M	M	В	A
Minuet, Coleman, lavender. The most popular Ex. in its class. Prize winner. 2-12c; 10-50c.	M	L	В	В
Mother Machree, Stevens, lavender. Grey laven- Ex. der and orange tints make it one of the most attractive of the smokies. 1-12c; 4-35c; 10-70c.	M	M	В	В
Morrocco, Pf., purple red. Very dark red, flecked Ex. black. 1-12c; 4-35c; 10-70c.	M	M	A	В
Mrs. Leon Douglas, D., old rose. Widly grown be- Ex. cause of size and old rose-scarlet color.	M	L	В	A
Mrs. J. B. Steves, Steves. Very light pink edged Dec. deeper. One of the best in its class here on Puget Sound, but not so good east of the Cascades	EM	M	В	A
Mrs. Von Konyenberg, Pf., blue. About the most Ex. satisfactory of the lighter blues.	M	M	В	В
Mrs. Calvin Coolidge, K., pink. Prim blood in it Dec. gives that soft, creamy pink tone, and yellow throat	EM	M	В	A
Moon Maiden, Steves, lavender. Pale, blushed Ex. lavender pink with a faint yellow throat. Tall, sturdy and has several prizes to its credit. L. 45c; M. 35c; S. 25c.	M	L	A	A
Nancy Hanks, Sal., apricot-orange. Blending of Dec. yellow and red makes this beautiful. Never fails to deliver	EM	M	В	A
Ohio State, Austin, pink. Away earlier than any Ex. other we grow. Rose pink with cream throat. 1-12c; 4-35c; 10-70c.	E	L	В	A
Orange King, Steves, orange. In our opinion Ex. this is the nearest to true orange of any Glad we have ever seen. Florets are slightly hooded on a tall, straight spike with eight or more open and a dozen to come. It's a double A Glad. L. 45c; M. 35c; S. 25c.	EM	L	A	A
Orange Lady, Steves, Shows some prim Dec. blood in its slightly hooded florets and its pastel shades of light orange, pinkish blush and yellow throat. Award of merit British Gladiolus Society. First prize Tacoma 1934. L. 45c; M. 35c; S. 25c.	M	M	A	A
Orange Sovereign, Steves, buff orange. One bulb Ex. sent to England in 1932 produced a spike	EM	L	A	A
that won an award of merit at British Gladiolus show. Lighter in color than Orange King. Heavy texture and good keeping qualities. L. 75c; M. 60c; S. 40c.				
Pagan, D., purple. listed by but few growers Ex. but we consider it one of the best purples. 1-15c; 3-40c.	M	M	A	A
Pelegrini, Pf., deep violet blue. The best in Ex. its color. 1-30c; 2-50c.	E	L	A	В
Persia, dark red. About every other year we have to drop this out of catalog to catch up with demand. 2-15c; 10-60c.	M	M	A	A
Paul Deschanel, Lem., rose pink with very Ex. large brilliant deep rose blotch. 2-15c; 5-35c; 10-55c.	EM	L	В	A
Philomela, Steves, light scarlet, yellow throat, E. Dec. striking. L. 35c; M. 25c; S. 20c.	M	L	В	В

Yakima Apricot, Kaylor, orange apricot. Last in the list but very high in the opinion of those who have seen it. Buds are greenish yellow, open yellow and ripen into red apricot-orange. Color deepens as flower ages. First prize winner Seattle, 1933. 1-25c; 3-60c; 10-\$1.75.	Dec.	EM	M	A	A

Choice Dahlias

Here is a select list of Dahlias, everyone a winner and in a range of colors that should be pleasing. We guarantee every tuber to grow. If it fails to come up, send it back and we will replace it or send you something of equal value. Cannot always be sure about the germination of a Dahlia when it is dormant.

Unless otherwise noted prices are 20c per single tuber with three of a kind 55c. We have small stocks of other varieties.

Al Koran, I. D. amber yellow, large, full, with strong stems. 30c.

Amun Ra, F. D., tall grower with large copper-bronze flowers in great profusion. 30c.

flower with shadings of pink.

A. D. Lavoni, (S) deep pink, reliable. Beauport Beauty (C) fine petaled shading to white center. salmon-pink.

Cigarette (S-C) very large, scarlet, tipped white at ends.

Coffee Ball, (S) Rightly named. Large, beautiful light coffee color, a good bloomer.

Champoeg, D, one of the most beautiful combinations of light, waxy yellow

Hardy Perennials

These form the backbone of any garden. Care should be used in their selection and planting, as once planted, they should be left undisturbed where they can, year after year, increase in size and beauty.

Prices, unless otherwise noted, are 25c each for large, blooming size specimens; while smaller sizes and divisions are half this price. Delivery October to early summer but we recommend early spring planting.

Astilbe. Plants about 18 inches high covered over a long season with plumes of pink and white flowers on long stems.

Achillea Filipendula. Tufts of fernlike leaves surrounding 30-inch stems bearing large, broad, flat yellow flowers.

Achillea, the pearl, pure white dou-

ble flowers blooming all summer.

Achillea, Boule de Neige, 18 inches high; more compact flower heads than the Pearl.

Alyssum Basket of Gold... Masses of golden flowers on six inch stems early in

the spring.

Anthemis, Yellow Marguerite. Two foot high plants of finely cut foliage covered during the summer and fall with many golden yellow, daisy-like flowers.

Armeria, Maritima, tufts of deep green foliage three to six inches. Deep

pink flowers.

Arabis, Alpine Flore Pleno, Double Rock Cress. Double pure white flowers produced in masses. Fine border or

rockery plant.

Aster, Farreri, beautiful rich violet petals surrounding a high crowned center of deep orange. Two to three inch flowers on stiff 15 inch stems. Profuse bloomer over a long season. A new nov- evergreen rockery or border plant elty. 20c and 30c.

or border plant, blooming over a long season. It is of spreading habit and forms a carpet of green leaves above which many lavender-violet blossoms

show.

Bellis Perennis, English Daisy, lowgrowing tufts of leaves, covered over a long season with double white or pink flowers on six inch stems. Fine border

plant and very early.

Cerastium, Tomentosum, Snow in Summer, silver-green foliage, retains its color in winter in the border or on rock walls. Dense masses of white flowers early in the spring, gives it its common name.

blooming season and very fragrant. Evergreen.

, , , , , , , , , , , , , , , , , , ,

Columbine, the true Rocky Mountain, long spurred, blue and white.

Columbine, Mrs. Scott Elliot, long

spurred hybrids, mixed colors.

Coreopsis, large golden flowers on long stems, fine for cutting, blossoms all summer if cut. 15c and 5c.

Carpathian Harebell, another creeping rockery or border plant of great value. Throws up a tuft of bright green leaves covered, over a long season, with cup-shaped blue flowers on eight inch stems.

Delphiniums, one of the most popular of the hardy perennials. The strain we grow is the result of careful hybridizing with the ever popular Wrexham as the foundation. Bloom in June and July and if the tops are then removed, will give a second crop of flowers in September. Some of our plants reach a height of eight feet. They come in colors running from light blue to deep blue with shadings of lavender and purple.

Doronicum, one of the most effective of the early spring flowers. Bright yellow daisy-like blossoms on long stiff stems.

Good for clumps or borders.

Eryngium, Sea Holly, branching heads of blue thistle-like flowers on two to three foot stems. Attractive in garden and may be cut and dried for winter bouquets.

Edelweis, low growing rock plant. Leaves and star-like flowers are covered with a wooly fuzz that gives the plant a

gray appearance.

Euphorbia, Milkwort, a tall growing plant with small white flowers on spreading branches. Used much as filler in bouquets.

Gailardia, large showy, dark red and yellow long stemmed flowers, 15c and 5c.

Helianthemum, rock or sun rose, inches high, covered, during the summer, Aubrietia, dainty and beautiful rock with white or pink flowers shaped like a small single rose. Either color.

> Incarvellea, hardy gloxinia. Large. deep rose colored flowers in June on spike two feet high. A decided novelty.

> Linum, Perennial Flax, lovely blue flowers on 20 inch high airy ornamental plant.

> Liatris, Kansas Gayfeather, a midsummer and fall bloomer with tall spikes covered with many purple blossoms. Very odd but attractive novelty.

> Lupins, long spikes of sweet-pea snaped nowers in shades of blue and pink, blooming over a long season.

Phlox-Miss Lingard, a tall growing Calamintha, spreading rock plant plant producing many large trusses of about six inches high carrying many white flowers with pink centers from sprays of small rich purple flowers. Long early to late in the season.

Phlox-Rose Gem, medium sized florets, but many of them, on a somewhat pointed head. Profuse bloomer growing mass of gray-green leaves from over a long season. Rosy pink.

larger flower, light lavender.

Phlox, Subulata, very early spring. Masses of rose-pink flowers above spreading, moss-like foliage. Likes a dry place in the rock garden or border. Evergreen.

Peruvian Lily. This is not a lilium, but a fleshy rooted perennial that forms clumps of three foot high plants bearing many yellow, cup-shaped flowers over a long period in summer. One of the most attractive perennials, but resents being moved, so plan carefully before planting.

Platycodon, (Baloon Flower,) theballoon shaped buds open into beautiful cup-shape white or blue blossoms.

Poppy, (Oriental,) immense brilliant orange and black flowers on long stems, blooming in early summer. 15c and 10c.

Primula, evergreen rosettes of thick leaves thru which flower stems six inches high arise. Flowers are in clusters and come in shades of red and yellow.

Pyrethum, Painted Daisy. The long stems, bearing wide-open daisy-like florets in a variety of colors, make ideal cut flowers.

Rudbeckia (Golden Glow,) grows five to seven feet high with large golden flowers, increases rapidly and makes a fine background.

Sedum, Dasyphyllum, four inch high tufts of bluish-green leaves, small white or pinkish white flowers, June to August.

Sedum, Sieboldi one of the best. Heavy round foliage, pink flowers in September.

Sedum, Acre, prostrate, spreading

with yellow flowers.

Sword or Dagger Fern. The native fern found growing wild in the forests of Washington and Oregon and sold by the millions to eastern and mid-western florists. Collected specimens 25c.

trailing plant, Saponaria, dwarf covered thru summer with a blanket of small pink flowers.

Plumes Thalictrum, Adiantifolium. of small whitish flowers. Used in boquet work.

The Wake Robin of the Trillium. Three petaled Puget Sound forests. white flowers, very early in spring. 15c.

Thyme, makes a perfect, close carpet of brilliant green foliage completely covered with small, very fragrant, lavender flowers in June and July

Valeriana, Garden Heliotrope, from a mass of broad leaves arise tall stiff stems bearing numerous heads of rose-tinted white flowers in July. Fragrant.

Veronica, Incana, Speedwell, a close notchers. 40c, 60c and 75c.

which spring several 12 to 18 inch spikes Phlox-Gefion, medium height but covered with many small blue flowers from July until frost.

> Vinca, Periwinkle, or Trailing Myrtle, likes a shady place where it spreads and makes a good ground cover. Evergreen leaves with large bell-shaped blue flow-

> Orienta. Strong growing, most prolific. Deep purple-violet, long stems, long season.

> Viola Odorata, the long stemmed fragrant violet that has such a long blooming season in coast gardens.

> Viola, long stems bearing white flowers and blooming all summer if kept

Lupin—Georgian Pink.

A long blooming hardy perennial of our own originating. Established plants produce many three foot tall spikes of beautiful pink flowers from Decoration Day on. Many times a fall crop may be harvested. Offered this year for the first time at 50c per plant.

Lilyan Pink Poppy.

This is our own creation, (the result of hundreds of crosses,) an absolutely new oriental poppy that has been tested thru four blooming seasons. It is hardy, produces many large flowers of the true oriental type but of a new and beautiful shade of brilliant, but soft, pink. A large pure black center adds a striking contrast. Stock is limited. Price per plant, 50c.

Azaleas.

These early spring-blooming shrubs are at home in the Puget Sound country. They like partial shade and must be given an acid soil. Plant very early in spring or wait until late fall.

Mollis, the Chinese Azalea. A dwarf shrub covered in early spring with a blanket of blossoms running largely to salmon-pink and orange shades. Large plants that will bloom this season, \$1.00. Smaller plants at 50c and 75c.

Sshlippenbachi. A later bloomer than Mollis. Broad bronzy-green leaves with many pink and lavender-pink blossoms. 50c, 75c and \$1.00.

Hybrid Seedlings. These have not yet bloomed and you will have to take chances on color—but all Azaleas are beautiful and many of these may be top-

Better Peonies

Large, well balanced roots. Plant September to April.

Unless otherwise noted, prices are 30c each or three of a kind, 75c.

Adolphe Rosseau, one of the best of the early dark red kinds, large flowers on strong stems, dark green foliage with a tinge of red on the stems

Avalanche, Globular flower of snow white with tips of petals slightly edged with carmine. Later than Festiva Maxima. 50c.

Benjamin Franklin, early mid-season rose type flower of brilliant crimson with dark shading at base of petals.

Cherry Hill, mid season, semi-double of a peculiar garnet red colored unlike any other Peony we grow. 60c.

Chestine Gowdy, late mid-season, considered the best of the cone-shaped peomies. Guards of silvery-pink surrounding a tier of creamy-yellow petals, while the centre is a ball of pink

Clara DeBoise, immense, soft pink, ball-like flower, tipped silver. 50c.

Chas. McKillip, midseason, semi-rose Bright red of American Beauty form. shade. Large, loosly built.

Eugine Bigot, very late, deep redone of the best late kinds,

Festiva Maxima, the most popular of the white varieties. Large with center petals tipped red.

Karl Rosenfield, mid-season, balllike flower of velvety crimson, one of the best red kinds. 60c.

Lady Alexander Duff, mid-season, large, flat, semi-double. Delicate shadings of pink and white with yelow stamens giving it a golden halo. One of the very finest. \$1.50.

Marie Crousse, medium size, mid-season to late, delicate shell pink bordering on salmon. A distinct and beautiful self-color. \$1.00.

Martha Bulloch, very large, cupped, rose-type. Silver-pink at the edges shading to rose-pink center. One of the largest and finest. \$1.00.

Mary Brand, another very fine midseason crimson, with a silvery sheen that gives it great brilliance.

Mme Ducel, bomb-type, mid-season to late. Large Chrysanthemum like flower of deep pink with silver reflex. A fine old-time sort.

Milton Hill, pale lilac-rose with opalescent tints of salmon. Large, mid-mediums, 25c. season bloomer of finest quality. \$1.75.

type. Flowers are so large that it is best garden landscapes. 50c, 75c and \$1.00. to stake the plant. One of the very best.

Octavie Demay, coming next in season after the Officinalis sorts, this light pink, crown-type flower is very welcome. Dwarf plant producing large flowers on rather short stems

Officinalis Rubra Plena, the big bright red peony that is almost sure to produce its wealth of bloom at Decoration Day.

Phillippe Rivoire, not so large as some, but considered the most "finished" red Peony in the world. Deep red on long, strong stems. A new kind that rates high. \$2.50.

Reine Hortense, sometimes called President Taft, a very large, flat, semirose-type flower of hydrangea pink with the center petals flecked carmine. Tall, strong, mid-season. \$1.00.

Solange, in form this is a perfect rose type of large size, coming in midseason. Its color is a creamy-white with decided "tea", or brownish shadows. One of the highest rated peonies in the world. \$1.75.

Therese, rated just two points, out of ten, less than perfect, this flower occupies with Solange and LeCynge the top step of the Peony ladder. Large, rose type that later opens a high, cupped center. Color is uniform light violetrose, shading to lilac white. \$1.50.

Hardy Shrubs

Prices of shrubs depend entirely upon size. Customers state our prices are very reasonable, size of plants considered. "Cash and Carry" prices are naturally considerably lower.

American Bittersweet. \mathbf{A} woody vining plant that bears bright red berries which remain through the winter. 25c and 50c.

Berberis, Japanese Barberry, grows a bushy, pyramid-shaped shrub some four to six feet high. Bright green leaves in summer which turn red in early August. During the winter the reddish branches bear bright red berries. Plants 25c and Large plants, not prepaid, \$1.50.

Berberis, Buxifolia or Box Barberry, evergreen shrub used in edgings. Small plants, 25c. Larger ones 50c.

Buddleia, Butterflybush, usually listed as a hardy perennial, but in this country grows into a tall and bushy shrub covered with long, gray-green leaves and many lilac-colored sprays of flowers. Has a perfume like honey and will bloom all summer if kept cut. Large plants 50c,

Mons Jules Elie, early globular-crown broad-leaved evergreen, much used in Elowers are so large that it is best garden landscapes.

Coral Berry. Graceful shrub that is

evergreen on the Sound. Flowers light crimson and each petal has a clear gold pink with bright red berries most of the band running its entire length.

winter, 50c.

Cotoneaster, Simonsii, bushy shrub growing up to eight feet tall and as much in diameter. Leaves fall after the first hard freeze showing gray-green branches bearing thousands of bright red berries. A brilliant outdoor winter boquet. Plants 25c and 50c. Large plants, not prepaid,

Cotoneaster, Horizontalis. Fine for rock gardens. Spreading branches with brilliant green leaves and bright red berries, the berries remaining on the plant

until spring. 50c to \$1.00.

Forsythia, Golden Bell. Bushy plants growing to ten feet. Covered with golden yellow flowers very early in the spring. 25c, 50c and 75c.

Heather, a small leaved, medium sized evergreen shrub carrying many sprays of small white flowers in midwinter. Plants 25c and 50c.

Lavendar, bushy plants, very ornamental in the garden and from which sprays of leaves and blossoms may be cut for perfuming clothing stored in boxes or drawers. Plants 25c and 50c.

Snowberry, Grows to five feet, of spreading habit. Small pinkish-white flowers followed by snow-white round berries in clusters. 25c and 50c.

Rhododendrons.

These are hybrids from named sorts, and while we cannot guarantee colors, they should come in shades of red and pink. The plants are from three to five years old, the larger ones will bloom the spring of 1935, while the smaller plants will require a longer time. 50c, 75c and \$1.00 each.

Hardy Lilies.

Lily bulbs may be planted in the spring provided the work is done early, so please do not delay your orders. This is true of all except Candidum which must be planted in July and August.

Large bulbs 25c, 10 for \$2.00. Medium, blooming size, 20c, 10 for \$1.50; planting size, 10 for \$1.00.

New Lilies. We have small stocks of the following new lilies developed by Dr. David Griffiths at the U.S. Bulb Station, Bellingham, and will gladly quote prices. Cyrus Gates, Sacajawea, Kulshan, Douglas Ingram, Star of Oregon and Peter Puget.

Auratum, the Gold Banded Lily of of good collor. Japan, one of the tallest growing and White dotted ings. largest flower kinds.

fragrant. Large bullbs 35c each.

Candidum... Also known as Madonna and St. Joseph's. Four to six feet tall, bearing spire-like clusters of pure white flowers in June and July. Plant two

inches deep July to October.

Elegans-Umbellatum. These varieties are so much alike, we have given up trying to draw a line between them. Easy to grow. Height 18 to 30 inches with four to six large cup-shaped orange flowers. Bloom in June. Plant seven inches deep September to March

Henryi, sometimes called the Yellow Speciosum which it resembles in growing habit. Flowers are orange yellow with

brownish spots. 40c.

Parryi. Grows four to six feet tall, likes some shade and gravelly soil. Stout stems carrying ten to twenty-five sweetscented, medium sized, lemon-yellow flowers in July. Plant five inches deep. Each 40c.

Regal. The most universally grown and popular lily in commerce. Does well everywhere if planted seven inches deep in well drained soil. Large, trumpetshaped flowers of creamy white with a golden throat and light maroon back. Ten to twenty flowers to each stem and blooms in July. Plant seven inches deep November to April.

Speciosum, a white lily, flushed pink and so covered with carmine spots that most folks call it a red lily. Large petals which recurve. Blooms in August and September, and is very hardy. Plant six

inches deep. 30c.

Tenuifolium, Golden Gleam. row leaved, wiry stems, about eighteen inches high, producing small, waxen, recurved flowers of a beautiful golden apricot. Each 40c.

Tiger. The big orange lilly that is a success everywhere. Plant seven inches

deep October to March.

Hardy Chrysanthemums

We list only those varieties which are early enough to bloom in our climate. Prices, large 25c; mediums 15c.

Adironda, mid season, medium size gold, ends of petals tipped red.

Alice Howell, long petaled, orange and bronze.

Brick, a small red flower.

Brune Poitevine, large, full flowers, dark brownish red with some petals much lighter and tipped golden.

Indian, bronze-red, a sure bloomer

Old Homestead, pink with buff shad-

L'Argentuillais, an early and profuse bloomer; full flowers of light red tipped and shaded gold.

Mrs. Harrison, very fine, full flowers in light pink.

Ouray, pom pom, closely set petals build up a full flower in beautiful bronze shade.

October Gold, very free blooming, golden yellow of large size.

Pink Button, many small lavender flowers in clusters.

R. Marion Hatton, an early pure yellow of large size.

Ruth, strong grower, medium size flowers in gold with red rosette in center.

Vivid, pom pom, deep rose-pink with prominent golden button.

White Doty, white on tall stems.

Shade Trees.

American Elm. The greatest of American shade trees, growing to immense size. Four foot trees, 50c; six foot trees 75c. Not prepaid.

Black Walnut. Slower American grower than the elm, but reaches the same large size and beauty. Same price as the elm.

Sycamore, grows to large size. Very large leaves, clean trunk and branches with bark somewhat resembling Birch. Four foot, 50c. Not prepaid.

Virginia Juniper. Pyramid shaped trees reaching a heighth of forty feet. Dense foliage which in early spring is a fresh blue-green and in winter takes on a bronze cast. Fifteen inch, 50c; two or more feet, 75c. Not prepaid.

English Holly.

Our stock was propagated from a tree here at Blaine that has a fine record for year after year production of large quantities of berried sprays. Several transplantings have given them a much better root system than is usually found on such stock. Trees are balled and burlaped but thansportation is not prepaid. 18 inch trees, \$1.00; 24 inch, \$1.50; 36 inch, \$2.50; 48 inch, \$3.00; 60 inch, \$5.00.

Apple Trees

We do not grow many of these, but they are good. On our sandy soil they grow a very fine root system. All are whole root grafts. Prices, F. O. B. Blaine,

are 25c each for one-year trees; 50 c for three-year.

Delicious. One of the most popular early winter sorts. Large, red and of a flavor all it's own.

Golden Russet. The old time late winter apple with the firm texture and delicious flavor.

Red Gravenstein. A comparatively new kind and a great improvement over the old Gravenstein. Much the same flavor, but a deep, dark red apple with better keeping qualities.

Tigridia.

Sometimes called Mexican large flowers, pure Flower. From July until frost produces many large, three petaled, upright flowers of brilliant red with yellow centers. The "sassiest" flowers in the garden. 1-15c; 10-\$1.25.

Another Garden Notebook

By Alfred Putz. Illustrated handbook of home gardening for each week of the year indoors and out. Includes garden maintenance, garden operations, garden planning; indoor culture of bulbs, ferns, houseplants; culture of rhododendrons, waterlillies, botanical tulips, delphiniums and many other specialties. Price \$1.50.

DOGZO

If you are bothered with dogs, cats or rabbits, "Dogzoff" is the spray you need. It is a most efficient animal repellant and one spraying will last from three to four weeks. Not poisonous to plants and will not injure animals. Not offensive to humans. Its use is guaranteed to keep these animals from any place where they are not wanted.

"Dogzoff" is applied with any small insect sprayer and one application usually

does the work.
"Dogzoff" will save its cost many times over around the garden and home.
