RICH'S IMPROVED

SALAMANDER SAFES.

1384 Water-street.

Water-street, one of Rich's Improved Patent Salamander Safes of the \$200 size, which was in our Store, No. 54 Exchange Place. The Store was entirely consumed in the great conflagration on the morning of the 19th inst.

The safe was taken from the ruins fifty-two hours after, and on opening it, the books and papers were found entirely uninjured by fire, and only slightly wet. The leather on some of the books was parched by the extreme heat.

(Signed) RICHARDS & CRONKHITE, 9 Pine-st.

New-York, 21st July, 1845.

(15 One of Rich's Improved Patent Salamander Safes, of the \$140 size, which I purchased on the 2d of June last, of A. S. Marvin, 1331 Water-street, agent to the manufacturer, was exposed to the most intense heat during the late

dreadful conflagration.

The store which I occupied, No. 46 Broad-street, was entirely consumed. The safe fell from the second story about fifteen feet into the cellar, and remained there fourteen hours, and when found, I am told, and from its appearance afterwards, should judge that it had been heated to a red heat. On opening it, the books and papers were found not to have been touched by fire.

I deem this ordeal sufficient to confirm fully the reputation that Rich's Safe has already obtained for preserving its

contents at all hazards. (Signed)

WM. BLOODGOOD.

PREFACE.

The success which attended the publication of the first volume of this little work, has induced the Publisher to issue the present with a determination to gratify, if possible, any reasonable expectation of the Public in regard to it. And in order to vary the subjects referred to on these pages, a large portion of the matter contained in the former issue is omitted in this, and other, perhaps that which will prove even more useful, has been substituted in its stead.

The intention was to have changed, materially, the character of this work the present season; but, the calamitous and ever-to-beremembered fire in July, has rendered the execution of the plan at this time, inexpedient.

Several suggestions have been received respecting the insertion of information in this publication, which, it was supposed, would make it more interesting and valuable. Such hints are ever welcome, and if not in every case adopted, the friendly spirit which dictates their communication, is, nevertheless, fully appreciated.

To the kind regards of the citizens of New-York, as well as to the friendly consideration of all strangers who may visit the Great Metropolis, this little volume is now most respectfully submitted by THE PUBLISHER.

# DESCRIPTION OF THE CITY OF NEW-YORK.

Location of the City, Population, &c.

NEW-YORK CITY, the principal city of the State of New-York; and in population, wealth, and commerce, the largest city in the United States; deserves to be denominated the London of America. The City Hall is in 40° 42′ 40″ N. lat., and 74° 1′ 8″ W. long, from Greenwich, and 3° 0′ 16″ E. long, from Washington. It is *6 miles N. E. Philadelphia, 210 miles S. W Boston, 225 miles N. E. Washington, 670 miles N. E. Charleston, 145 miles S. Albany, 372 miles S. Montreal, 1370 miles N. E. New-Orleans.

The compact part of the city is situated on the south end of New-York or Manhattan Island, as the confluence of Hudson or North river with the East river, which connects Long Island Sound with the harbor of New-York. The island, which contains about 14,000 acres of ground, extends from the Battery, on the south point of the island, 13½ miles to Kingsbridge, and has an average breadth of one mile and three fifths. The greatest breadth, about 2½ miles, is on the line of 88th street. It is connected with the main land on the north by three bridges: Harlem bridge, Macomb's bridge, and King's bridge.

The Pepulation, in 1790, was 33,131; in 1820, 123,706; in 1840, 312,770. The present population (1845) is 366,785.

The Harbor, Islands, Forts, &c.

The harbor of New-York is spacious and safe, the inner harbor extending 8 miles from the Narrows to the city, and several miles further up both the North and East rivers. Besides this, it has an outer harbor, extending from the Narrows to Sandy Hook, consisting of Raritan Bay. Sandy Hook on which is a light-house, is 18 miles from the city; at this point there are 27 feet of water on the bar at high tide, and 21 feet at low tide. Within Sandy Hook there is a good anchorage. The harbor is entered not only from the ocean at Sandy Hook and through the Narrows, but also on the northeast from Long Island Sound, as well as on the southwest through the Kilis and Staten Island Sound.

After passing the bar at Sandy Hook, the channel to the city has a depth of water of from 35 to 50 feet. The average tide at the wharves is from 6 to 7 feet. The safest and best portion of the harbor, and where the vessels chiefly lie, is along East River, which is rarely obstructed from ice, as the tide sweeps through it with a

strong and rapid current.

Islands and Forts.—Several islands within the inner harbor are attached to the city, which are Governor's, Bedlow's, and Ellis's Islands, on all of which are strong fortifications; and Blackwell's, Great Barn. and Randall's Islands, in the East River. Governor's Island is 3200 feet from the city at the Battery, and includes 70 acres of ground. It contains Fort Columbus on the south of the island, and Castle William on the northwest point, which is a round tower, 600 feet in circumference and 60 feet high, with three tiers of guns. There is also a battery on the northwest side, commanding the entrance through the Buttermilk channel. At the Narrows, on the eastern shore of Long Island, are Fort Hamilton and Fort La Fayette, the latter of which (formerly called Fort Diamond) is built on a reef of rocks, 200 yards from the sho'e. On Staten Island, at the Narrows, are Fort Tompkins and Fort Richmond, both of which are strong fortifications. The entrance from the Sound on East River is defended by Fort Schuyler on Throg's Neck.

### The Battery.

The Battery at the southern end of the city, is situated at the junction of Hudson and East Rivers. It is in the form of a crescent, containing about 11 acres of ground, laid out with grass plots and gravelled walks, shaded with trees. From this spot is a fine view of the bay, its islands, and the adjacent shores of New Jersey, and Long and Staten Islands. The scene is generally enlivened by shipping under sail.

#### The Park.

The Park, called in early times the Commons, is a triangular area of about 10½ acres, lying between Broadway, Chatham and Chambers streets, is laid out with walks, and planted with trees, and surrounded by an iron fence, which cost over \$15,000. It contains the City Hall, the new City Hall or old Alms House, and the Rotunda, now occupied by the New-York Gallery of the Fine Arts. It has also, towards its southern part, a public fountain, within a basin, about 100 feet in diameter, which has a variety of jets, which are occasionally changed. When the water is thrown in a single stream, it ascends to the height of about 70 feet, presenting a majostic and interesting appearance. The fountain is designed to be made yet more ornamental.

The Bowling Green.

The Bowling Green, at the southern termination of Broadway, is an elliptical area, 220 feet long and 140 feet broad, enclosed by an iron fence. It existed before the American Revolution, and formerly contained a leaden statue of George III., which was converted into bullets at that period. It contains a public fountain, which is supplied by the Croton water-works. In the centre of a large basin is placed a rude pile of huge rocks in a somewhat circular form, about 15 feet in diameter, and as many feet high, and from the top issues a jet, with small jets around it, and presents, by the water pouring and tumbling down the sides of the rocks, a wild and picturesque appearance.

Hudson Square, or St. John's Park.

Hudson Square, or St. John's Park, between Beach, Laight, Varick, and Hudson streets, is private property, belonging to Trinity Church, but has been reserved as a permanent public square. It is beautifully laid out with walks, shaded with trees, and surrounded by an iron fence, which cost \$26,000. It contains about four acres of ground, has a public fountain, and is, perhaps, the most ornamental spot in the city.

Washington Square.

Washington Square, a mile and a half north of the City Hall, between Wooster and M Dougal streets, contains about \$\frac{1}{2}\$ acres of ground. Two-thirds of the area was the Potter's Field until 1827, and the remainder was purchased by the city for about \$78,000, and the whole was enclosed by a wooden fence, which cost nearly \$3,000. It is laid out in walks, and planted with trees.

#### Union Place.

Union Place, at the northern termination of Broadway is in an elliptical form, enclosed with a fine iron fence, having a public fountain in the centre with ornamental jets, and is a delightful breathing-place to the inhabitants. Farther up the city are other public squares, as Madison Square, Hamilton Square, and others, not yet

regulated. On the east are Tompkins Square and Bellevue, the latter the seat of the new almshouse.

### Croton Water Works.

The cheapest and most convenient mode of visiting the Distributing Reservoir in Fortieth-street, or the Receiving Reservoir in Eightysixth-street, is by the cars of the Harlem Rail Road, which leave the Depot, at the junction of Chatham and Centre streets, opposite the

City Hall, every 15 minutes during the day.

Extent of the supply of water.—The minimum flow of water in the river, where the dam is constructed, is considered to be twenty-seven millions of gallons for every twenty-four hours, which would be a sufficient supply for one million of inhabitants. It is considered that the supply for the present is abundant, even during a season of drought, for one million and a half of inhabitants, nearly five times the present population; and other streams can be turned into the Croton, if the time ever arrives when the population of the city will require an increased supply.

Velocity of the water.—The velocity of the water in the aqueduct has been ascertained to be about one mile and a half an hour where

it is two feet deep.

The Dam—is \$30 feet long, 70 feet wide at bottom, and 7 feet at top, and 40 feet high, built of stone and cement. It creates a pond five miles long, covering a surface of 400 acres, and contains

500,000,000 gallons of water.

The Aqueduct proceeds from the dam, sometimes tunneling through solid rocks, crossing valleys by embankments, and brooks by culverts, until it reaches Harlem river, a distance of 33 miles. It is built of stone, brick, and cement, arched over and under, six feet three inches wide at bottom, seven feet eight inches at the top of the side walls, and eight feet five inches high, has a descent of thirteen and a quarter inches per mile, and will discharge sixty millions of gallons in twenty four hours.

Aqueduct Bridge at Harlem River.—The Aqueduct will cross Harlem river on a magnificent bridge of stone, 1,450 feet long, with 14 piers, 8 of them 80 feet span, and 7 of 50 feet span, 114 feet above tide water at the top, and will cost \$900,000. This bridge is in progress; and for the present the water is brought across the river in an

iron pipe, laid as an inverted syphon.

The Receiving Reservoir—is at Eighty-sixth-street, 38 miles from the Croton Dam, covers 35 acres, and contains 150 millions of gal-

lons.

The Distributing Reservoir—at Fortieth-street, about three miles from the City Hall, constructed with stone and cement, covers four acres, and is 43 feet high above the street, is 36 feet deep when full of water, and holds 20 millions of gallons. Thence the water is distributed in the city in iron pipes, laid deep under ground, to be secure from frost. A section of the wall on one side of the Reservoir, including the embankment, is 17 feet wide at the top, 35 feet wide at the distance of 16 feet below the top, and 76 feet wide at the bottom. An iron railing bounds the outside and inside of the walk around the top. This Reservoir may be considered the termination of the Croton Aqueduct, and is distant from the Fountain Reservoir at the Croton, forty and a half miles.

Estimated Cost.—It was at first estimated that it would cost five or six millions of dollars; and at the city charter election of 1835. the citizens were required to vote for or against supplying the city in

this way. The whole number of votes given was 17,330, of whom

5,963 were against it, and 11,367 in favor of it.

Cost of the Work—Extent of Pipe laid.—The whole cost of the work will be about \$14,001,000. There are taid between the Distributing Reservoir in Fortieth street, and the Battery, 150 miles and 3,065 feet of pipe, from 6 to 36 inches in diameter, the majority of which is from 6 to 12 inches in diameter; and free hydrants are opened in most of the streets, besides the fire hydrants. There are 1400 fire, and 600 free hydrants.

Introducing of the Water.—The water was introduced into this Reservoir on the 4th July, 1842, and on the 14th of October follow-

ing, the water was introduced into the city.

Analysis of the Croton Water.—Croton water, taken from the Croton Daun, when perfectly clear, was found to contain 4.998, or about five grains of solid matter to the gallon. Schuylkill water, taken from the middle basin, on Fairmount, (Philadelphia,) con-

tained 4.68 grains of solid matter to the gallon. Influence of the introduction of the Croton Water on the Rates of Insurance.—The tax to defray the interest of the Croton Water Debt is 20 cents on the 100 dollars, and the average reduction on the rates of insurance is at least 40 cents on the 100 dollars. In illustration of the above, the Board mention the following: -One who pays water rent for near forty houses, relates the result of a calculation he made, viz.: He compared the rate of insurance he paid on this property previous to the introduction of Croton water, with the rate he pays at present, and added to it the Croton water tax, and subtracting the two last from the first, the result is a clear saving of 25 per cent. Another states, that he insures on his stock 30,000 dollars; previous to the introduction of the water he paid 85 cents on the 100 dollars; he now pays for the same property 35 cents on the hundred dollars, a saving of 150 dollars. If he paid the Croton water tax on the above amount, it would be 60 dollars, leaving a nett gain of 90 dollars.

Receipts and Expenditures for 1845.—According to the annual Report of the Croton Aqueduct Board for 1845, the receipts for the year ending 30th April, 1845, were \$418,582 74; and the expenditure for the same period, \$53,411 78. Since the last annual report, there have been laid three miles of pipe, very little more being required within the present water district. From the 1st of May to the 21st of July, 52 days, there was received for water \$106,964 04. In a corresponding period last year, the amonat was \$79,294 15, showing an increase in favor of the present year of \$27,669 89, in 52 days. At this rate, it is calculated that the whole revenue for the year will be equal to

35 per cent., or \$41,417 26.

Number of Permits issued.—The whole number of Permits issued, to the first day of May, 1845, was 9,110. representing 9.582 water takers; being an increase of 2,225 since the 1st of May, 1844. The discrepancy between the number of permits and the number of water takers, arises from a number of houses, steamboats, &c., being included in one permit.

The revenue to be derived from the above named number of water takers, for the full year, may be stated at \$131,784 55, divided as follows:—7,171 private dwellings, \$72,123 88; 2,411 miscellaneous, comprising manufacturing, mechanical, and other purposes, \$50,666 67. The number of permits issued to the date of the present

report, June 30, was 10,248; being an increase of 1,138 since the first of May.

#### Number of Arrivals in 1844.

The arrivals of vessels from foreign ports in New-York, in 1844, were 2,208. Of these, 1,575 were American vessels, 321 were British, 83 were Bremen. The remainder were from Sweden, France, and other countries. The arrivals coastwise, were 5,360. Total arrivals, 7,568.

PASSENGERS	ARRIVED	FROM	FOREIGN	COUNTRIES.
In 1844,	61,002.		In 1841	, 57,337.
1843,	46,302.		1840	62,797.
1842,	74.949.		1839	48,152.

#### Deaths in 1844.

According to the Report of the City Inspector, the deaths in the city of New-York, during the year 1844, were,—

Whites, males, 4,534—females, 3,903. 8437 Colored, males, 219—females, 219. 438

4,753 4,122 Total, 8,875
The number of the deaths of white males, exceeded that of the

females, more than 16 per cent.

The number of deaths in each month, was as follows:—January, 686. February, 605. March, 644. April, 550. May. 598. June, 620. July, 836. August, 836. September, 720. October, 667. November, 662, December, 707.

Deaths in each 1,000 of the population, 22.44.

Total number of deaths in 21 years, from 1824 to 1844 inclusive, 141,232—still-born, 9,885. Total interments, 151,117.

### The City Hall.

The City Hall, heretofore regarded the finest building in the city, and one of the finest in the United States, has a commanding situation in the middle of the Park. It has more ornament than either the Exchange or the Custom House, but less simple grandeur; though with its furniture, it is, perhaps, the most interesting building in the city. It is 216 feet long, and 105 wide; was commenced in 1803, and completed in 1812, and cost \$538,734. The front and ends are constructed of white marble, and the rear of brown freestone. It is two stories high above the basement, with a third or attic story in the centre building; and there rises from the centre a cupola, con taining a clock of fine workmanship, and on the top, a colossal statue of Justice. In the upper part of this cupola is a room occupied by a watchman, whose business it is to give alarm in case of fire, as from this position he is able to overlook the whole city. Behind this, another less elevated cupola, with eight Ionic columns, contains the City Hall bell, weighing 6,910 pounds, the different number of strokes of which indicate the district in which a fire occurs. The front of the City Hall-is ornamented with columns and pilasters of the Ionic, Corinthian, and Composite orders, rising above each other in regular gradation. The building is entered in front by a flight of 12 marble steps. In the centre is a double stair case, ascended by marble steps, at the top of which is a circular gallery, floored with marble, from which ten marble columns of the Corinthian order ascend to the ceiling. In the building there are twentyeight offices and other public rooms, the most conspicuous of which

are the Governor's room, and the chambers of the Common Council and Assistant Aldermen.

The Governor's Room is appropriated to the use of the Governor of the State when he visits the city, and has been used as a reception room for other distinguished men who have occasionally been here. It is 52 by 20 feet. The walls of the room are hung with a fine collection of portraits, including the Governors of the State, the Mayors of the City since the Revolution, some of the Dutch Governors, and the principal military and naval heroes of the late war all of which are regarded as excellent likenesses.

The Common Council Room is 42 by 30 feet, and the president occupies the identical chair occupied by General Washington when, he presided over the first American Congress, which assembled in New-York. The seats of the aldermen are ranged in a semicircular form, in the centre of which is a table for the clerk. The room centains several fine full-length portraits, painted by Trumbull. The room of the Assistant Aldermen is handsomely fitted up.

### Hall of Records.

The Hall of Records, east of the City Hall, in the Park, is two stories high, with a lofty portico of four Ionic pillars on each front; and in the rear of it is the New City Hall. formerly the old alms house, which contains fifteen offices, besides the Marine Court Room, and rooms of the American Institute.

#### Post Office.

#### ROBERT H. MORRIS, POSTMASTER.

The Post Office, formerly the Middle Dutch Church, is located in Nassau-street, between Cedar and Liberty streets, now rented to the General Government for 7 years, at the yearly rent of \$5,000. venerable edifice has stood for 115 years, and eight or nine successive generations (counting those who were aged at the time of its opening) have worshipped within its walls. On Sabbath evening, 11th August, 1844, the closing exercises were held in the church, in the view of resigning it for Post Office purposes. During the Revolutionary war, in 1776, when the British took possession of the city, several of the churches were occupied and greatly injured by the British soldiery; but the Middle Dutch Church suffered the most. Being directly adjacent to the famous sugar-house, the scene of atro cious and multiplied cruelties inflicted upon American citizens, it was at once used by the British soldiery for their quarters, for a hospital, and then for a riding school, in which British horsemanship was displayed. The whole of the interior was destroyed and ren-It was not till 1790 that the church was repaired, dered desolate. and again opened for divine worship.

The Branch Post Office, recently opened, is situated at the corner

of East Broadway and Chatham Square.

#### Custom House.

The Custom House, on the corner of Wall and Nassau streets, is a splendid building, constructed in the Doric order of Grecian architecture, of white marble, something after the model of the Parthenon at Athens. It occupies the site of the old Federal Hall, in the open gallery of which General Washington was inaugurated; and nearly over the front door is the place where he stood when the oath of office, as first President of the United States, was administered to him by Chancellor Livingston, April 30th, 1789. The building is 200 feet long, 90 feet wide, and 80 feet high. At the southern end on Wall-street, is a portico of eight purely Grecian Doric columns, 5 feet 8 inches in diameter, and 32 feet high; and on the northern end on Pine-street is a corresponding portico of similar columns. The front portico is ascended by eighteen marble steps, and the rear portico on Pine-street by only three or four marble steps. The great business hall is a splendid circular room, 60 feet in diameter, surmounted by a dome, supported by 16 beautiful Corinthian columns, 30 feet high, and at the top a skylight. On each side are 13 pilasters, in perfect keeping with the pillars on the two fronts.

Cost of the Building.—The cost of the building and its furniture

was \$950,000; and including the ground, \$1,175,000.

The Custom House is open daily, Sundays excepted, from 10 A. M. to 3 P. M. Entries must be made before 2 P. M.

Merchants' Exchange.

The Merchants' Exchange is located between Wall, Exchange Place, William, and Hanover streets. It is built in the most substant tail form, of blue Quincy granite, and is 200 feet long by 171 to 144 feet wide, 77 feet high to the top of the cornice, and 124 to the top of the done. The front on Wall street has a recessed portico of 18 massive Grecian-Ionic colunns, 38 feet high and 4 feet 4 inches in diameter, each formed from a solid block of stone, and weighing 43 tons. Besides numerous rooms for various purposes, the Rotunda in the centre is 80 feet in diameter, with four recesses, making the

length and breadth each 100 feet, the whole 80 feet high, surmounted with a dome, resting in part on eight Corinthian columns of Italian marble, 41 feet high, and lighted by a skylight, 25 f et in diameter. On the south side of the roof is a telegraph, which communicates with another on Staten Island; and an hourly report is sent down from the telegraph to the news room in the Exchange, for public inspection. The cost of this building, including the ground, is estimated at \$1,800,000.

Halls of Justice.

This building, which occupies the space between Centre, Elm, Leonard, and Franklin streets, is a unique and beautiful specimen of the Egyptian style of architecture. It is 253 feet long, and 200 feet wide. The front is entered by eight steps, leading to a portico of four massive Egyptian columns. The windows, which extend to the height of two stories, have massive frames, and coraices ornamented with the winged globe and serpents. The two fronts on Franklin and Leonard streets have each two entrances, with two massive columns each; and the back entrance forms a carriage way, for taking prisoners to and from the house of detention. This building, though handsome of its kind, has a heavy and gloomy aspect, which has acquired for it the name of the Egyptian Tumbs. It is constructed of a light-colored granite, from Hallowell, Me.

The Court of Sessions—Occupies a part projecting back from the front building, the roof of which is supported by lofty Egyptian

coiumns.

House of Detention, or Prison.—Within the enclosure of the Halls of Justice, and toward its back part, is the House of Detention, or Prison. 142 feet long and 45 feet wide, which is entirely separate from the outer wall and building, and consists of 148 cells, for different classes of prisoners.

### THE GREAT FIRE, JULY 19, 1845.

The limits of this work will not allow a detailed account of that disastrous fire: it can only be briefly stated here, that 39 buildings were destroyed in Beaver-street; 34 in Broadway; 64 in Broadstreet; 14 in Exchange Place; 10 in Marketfield-street; 37 in Newstreet; 15 in South William-street; and 4 in Stone-street. Total number destroyed—217. Besides which, five other buildings were

much damaged

The heat at the corner of Broadway and Morris-street was most intense. At this point, Engine Co. No. 8 was stationed, and the clothes of the men at the brakes, were only kept from burning by the water which was played on them from another engine. The wind at this time was from the northeast; consequently the heat from the numerous burning buildings between Broadway and Broadstreet, as well as from those on Broadway, may be said to have crossed that street at this point.

The total loss by the fire has been variously estimated at from \$5,000,000 to \$8,000,000. The fire commenced at about 3 o'clock, A. M., and was not subdated till 11 o'clock, A. M., a period of eight hours. Supposing, therefore, the total loss to have been \$6,000,000, the average loss, per hour, was \$750,000; the loss, per quarter of an hour, was \$187,500; the loss, per minute, was \$12,500; and the average loss, per second, was \$208.33\frac{1}{2}! Bank notes of the denomination of five dollars would not burn as rapidly in a cemmon fireplace as property was consumed by this conflugration.

Ludlow. Justices.—Garritt Gilbert, and Robert Taylor. Clerks.— D. M. Frue and Edwin F. Corey.

### THE LEGAL POWERS AND DUTIES OF

# THE POLICEMEN OF THE CITY OF NEW YORK.

Jurisdiction.

SEC. 38. The Policemen of the City of New-York are authorized to take cognizance of all criminal offences committed within the following boundaries, whether on the land or on the water: From low water mark on the Westchester side of Spyten Duyvel Creek to the Long Island shore opposite to said creek, and to the New Jersey shore opposite to the place where said creek empties uself into the Hudson River; from said line, southward, along Long Island shore, at low water-mark, and along the New-Jersey shore, at low water-mark, including the East River and the Hudson River, and the bay between Staten Island and Long Island, together with the islands within said boundaries.

#### Arrests.

Sec. 39. An arrest, in criminal cases, is the apprehending or detaining a person to answer to a crime or offence alleged against him, or of which he is suspected to be guilty. To this arrest all persons, without distinction, are liable when accused of having committed

a criminal offence.

40. An arrest on a criminal charge may be made in any place, or at any time—on Sunday as well as on any other day, and in the night as well as in the day time. But it must be borne in mind, that in all cases in which it is stated in these instructions, that a Policeman may arrest without a warrant, it is necessary that he should witness the commission of the offence, except the contrary be stated in these instructions.

41. The party arrested should be notified of the officer's authority, and this will often prevent resistance, by taking away the pros-

pect of justifying or extenuating it.

42. If a Policemen find his personal efforts insufficient to effect an arrest, or if he have reason to apprehend that resistance will be made, he ought to require all persons present, or as many as he shall think proper, to assist him; and all who wilfully disobey such command of assistance, are guilty of misdemeanor.

43. A person who has committed a felony, or who, for reasonable cause, is suspected of having committed a felony, may, if he be immediately pursued, be followed wherever he may go; and if he take refuge in any house, the Policeman, after stating his office and object, may, if permission to enter shall not be given, break open the outer door or windows, enter the house and arrest the offender. If the Policeman find the outer door open, or it be opened to him from within, and he enter that way, he may break open any inner door, after proper demand and refusal, if necessary to make an arrest. The breaking of an outer door is, in general, so violent and dangerous a proceeding, that it must never be resorted to except in extreme cases, and when an immediate arrest is necessary.

44. Every Policeman must recollect, that in making an arrest, he is not justified in doing more than is absolutely necessary for the safe custody of the parties until he conveys them to their proper destination. Persons under arrest must be dealt with properly in all cases; it is the duty of a Policeman to keep prisoners safely; but he has no right to punish them, and he must not even use language to them calculated to provoke or offend them, for such conduct would create resistance in the party, and a hostile feeling among

bystanders towards the Policeman.

#### Felonies.

Sec. 45. Felonies are offences for which the offender, on conviction, shall be liable by law to be punished with death, or by imprisonment in a State Prison. The following are some of the cases of felony in which Policemen will be most likely to be required to act without a warrant from a Magistrate: Murder, Manslaughter, Rape, Mayhem, or Maiming; Assault and Battery, by such means or force as is likely to produce death, with intent to commit a felony. Wilful setting fire to any building, ship or vessel, or public bridge, or any saw-mill, carding machine, stack of grain of any kind, stack of hay, any nursery or orchard of fruit trees, or any fence around any cultivated field if the property of another person. Breaking into any building, and stealing therefrom, or with intent to commit a felony. Robbery, Grand Larceny, Petit Larceny, second offence. Receiving stolen goods with knowledge that they were stolen. Forgery. Passing counterfeit coin or bank bills, with knowledge that they are counterfeit; or having them in possession, with such knowledge, and with intent to pass them. The father or mother of a child under six years of age, or any person to whom such child shall have been confided, exposing such child in any highway, street, field, house or outhouse, with intent wholly to abandon it. Removing the dead body of any human being from any place of interment, for the purpose of selling it, or dissecting it, or from mere wantonness; or purchasing or receiving such dead body so disinterred; or opening a grave for such purpose, or to steal any article interred with such body. Wilfully administering poison to any horse, sheep or cattle, or maliciously exposing any poisonous substance with intent that the same should be taken or swallowed by any horse, cattle or sheep. An inhabitant of another State or County voting at any General, Special or City Charter Election. Wilful and corrupt swearing or affirming at said elections, or wilfully and corruptly procuring any person to swear or affirm falsely at said elections. Aiding and assisting, by any means whatever, any prisoner in any place of confinement for felony, to escape therefrom, whether such escape be effected or not; or forcibly rescuing any prisoner held in

legal custody upon any criminal charge. Concealing any offender, after the commission of a felony, or having given such offender any other aid, knowing he has committed a felony, with intent and in order that he may avoid, or escape from, arrest or trial, or conviction, or punishment. To receive, with a knowledge of the actual commission of a felony, any property, or gratuity or reward, or any engagement or promise therefor, upon any agreement expressed or implied, to compound or conceal the offence, or to abstain from any prosecutions therefor, or to withhold any evidence thereof.

Power to prevent Felonies.

SEC. 46. It is the first duty of a Policemen to prevent the commission of a crime, and for this purpose he has power to arrest any person who, from his acts, conduct, situation and character, he has just cause to suspect is about to comm't a felony. He should arrest any person having in his possession any implements used for, or adapted to, house-breaking, under such circumstances as give just cause to suspect that he is about to use them for that purpose; or any person who, in the presence of the Policeman, may threaten the life of any person, or to burn his house, or to commit any felony; or any person armed with any offensive weapon, with intent therewith to commit a felony. He should also arrest any person found in any building, whether inhabited or not, or in any enclosed yard, garden or area, under such circumstances as give just cause to suspect that he is there with any felonious purpose.

47. In these, and similar cases, Policemen must judge from all the circumstances of the case what the intention of the party is. In some cases no doubt can exist—as when the party is a notorious thief, or acting with those who are known to be thieves; or when the party is attempting to break into a house, or is examining the doors and windows, or endeavouring to take property secretly. If the intention of the party admits of doubt, the Policemen will not act hastily, but will closely watch the suspected party, that he

may discover his design.

### Power to Arrest for Felony.

Sec. 48. A Policeman must make every exertion to effect the arrest of any one he may see in the act of committing a felony, or any one charged positively by another with having committed a felony, or even charged, on the suspicion of another, of having committed a felony, if the suspicion appear to the Policeman to be well founded, and provided the person so suspecting go with him; and though no charge be made, yet, if the Policeman have good cause to suspect a person has committed a felony, he should arrest him, and if he have reasonable grounds for his suspicions, and the arrest is made discreetly and fairly, in pursuit of an offender, and not from any malice or ill-will, the Policeman will be justified, even though it should afterwards appear that no felony was committed. But the Policeman must be cautious, in such cases, as his sole defence can rest only on the reasonableness of his suspicions. (See section 43.)

49. If a Policeman see any one carrying, or in any manner conveying any goods, under circumstances which lead to a strong suspicion that they have been stolen, he should, particularly in the night, stop and examine the person; and if the appearance and manner of the party, his account of himself and of the goods, and all the circumstances of the case, should leave no doubt that the goods have been stolen, he should arrest the person, and take possession of the goods. But if the suspicion of the Policeman be slight, he should not stop

the person, but watch him to discover where the goods may be deposited; and if he then become fully convinced that the property has been stolen, he will make the arrest, and take charge of the goods.

### Misdemeanor, Disorderly Conduct, &c.

Sec. 50. A Misdemeanor is any crime less than a felony; and if the offence be committed in the presence of a Policeman, he may arrest the offender forthwith, or may, in immediate pursuit follow him as stated in Section 43. This class of offences is so numerous, that but a small portion can be inserted here. The following are supposed to be the most likely to come under the observation of Policemen, while in the discharge of their ordinary duties: Personating an officer, and acting as such. Petit Larceny. Riot, and encouraging rioters. (See Section 82.) Assault and Battery. Breach of the Peace. Indecent exposure of one's person to public view, or exposing to public view any obscene print or book, or indecent exhibition. Placing upon any railroad any obstruction, with the design to obstruct or impede the passage of the cars, and with intent to injure the railroad, or the passengers or cars. Wilfully cutting down or destroying any wood or timber standing or growing upon lands of any other person; or carrying away any wood or timber that may have been cut down, and that may be lying on such lands. Maliciously cutting down, girdling, or otherwise injuring any fruit or ornamental, or shade tree; or maliciously severing from any freehold any property or thing attached thereto of the value of \$25, or less, under such circumstances as would render the trespass a larceny, if the thing so severed or carried away was personal property. Maliciously and cruelly beating or torturing any horse, ox, or other cattle, or any sheep. Entering any armory or arsenal yard, and seizing, taking and carrying away any arms or ammunition belonging to this State, or entering any such place with the intention of taking such articles. Attempting, either directly or indirectly, to influence by any corrupt means, any elector in giving his vote or ballot, or deterring him from giving the same, or disturbing or hindering him in the free exercise of the right of suffrage, at any State or City Election. Fraudulently or deceitfully changing or altering a ballot of any elector, or furnishing any elector any ballot containing more than the proper number of names, or cause any other deceit to be practised, with intent frandulently to induce such elector to de posit the same as his vote, and thereby to have the same thrown out and not counted. Wilfully and without lawful authority, ebstructing, hindering, or delaying any elector on his way to any poll where an election shall be held, or while he is exercising, or attempting to exercise the right of voting, or aiding or assisting in such obstruction or delay. Voting or offering to vote at any State or City Election. in any district in which the person voting or offering to vote knows he does not reside; or voting or offering to vote more than once at the same election, either in the same or in any other district. Procuring, aiding, assisting, counselling or aiding a person to vote or offer to vote, knowing he is not duly qualified to vote at the place where the vote is given or offered; or procuring, aiding, assisting, counselling or advising a person to go or come into any town, or ward, or election district for the purpose of giving his vote, knowing that the person is not duly qualified to vote in such town, ward or election district. Compounding or concealing a misdemeanor. (For compounding see Section 45

51. Vagrants.-It is the duty of every Policeman, whenever required by any person, to arrest and convey before a magistrate, or to the District Head Quarters, habitual drunkards, who are destitute and without visible means of support; or habitual drunkards who shall abandon, or neglect, or refuse to aid in the support of their families, and who may be complained of by such families. Persons who may have contracted an infectious or other disease, in the practice of drunkeaness or debauchery and who require charitable aid to restore them to health. Common prostitutes, who have no lawful employment whereby to maintain themselves. Able-bodied or sturdy beggars, who may apply for alms or solicit charity. Children who shall be found begging for alms, or soliciting alms, in any street, highway or public place. Persons wandering abroad, lodging in watch-houses, market-places, sheds, stables, or uninhabited buildings, or in the open air, and not giving a good account of themselves. Persons wandering abroad and begging, or who go about from door to door, or place themselves in the streets, highways, passages, or other public places, to beg and receive alms. Persons who exhibit tricks, game or play with cards, dice, or any machine or device in the public streets or highways.

52. Disturbing Religious Meetings.—If any person shall wilfully disturb, interrupt or disquiet any assemblage of people met for religious worship, by profune discourse, by rude and indecent behaviour, or by making a noise either within the place of worship, or so near it as to disturb the order and solemnity of the meeting; or if any person shall obstruct the free passage to any place of public worship, it is the duty of Policemen, who may be present, to arrest

the offenders.

- 53. Destroying or Iajuring Lamps, &c.—It is the duty of every Policeman, in whose presence or view any person shall wilfully break, take down or carry away, any glass lamp hung or fixed in any of the streets of this city, or extinguish the lights therein, or be aiding or abetting in the same, or shall wilfully break or deface any glass, window-porch, knocker or other fixture in the said city, to forthwith give information thereof to the Mayor, Recorder, Alderman, or either of the Special Justices of the said city; but if such person or persons shall be unknown to such Policemen, it is their duty to arrest and detain such offenders, so unknown to them, until they can discover the names of such offenders, or until the next morning, (if the offence shall be committed in the night time, and the offenders shall refuse to discover their names.) when such offenders shall be taken before one of the magistrates herein mentioned.
- 54. Croton Aqueduct Works.—It is the duty of Policemen to arrest every person who shall, in their presence, bathe or go into any part of the Croton Aqueduct, or throw any stones, chips or dirt, or any other thing whatever, into the Reservoirs, water or gate houses, or into the ventilators, aqueduct or fountain basins, or in any man ner injure or disfigure any part of the Croton Aqueduct Works, or the hydrants, stop-cocks, jets, fountains, or any appendages; or shall trespass on any part of the embankment of said Reservoirs, or go or remain on the same without permission of the proper persons having charge of the same, or not comply with the regulations of the Croton Aqueduct Board, as to the times they shall leave the embankments of said Reservoirs, or the grounds or building attached thereto. It is also their duty to arrest every person, the Mayor and the Alderman or Assistant Alderman of the respective

wards only excepted, who shall, in their presence, and without previous permission in writing from the Croton Aqueduct Board, unscrew or open any hydrant belonging or attached to the Croton Aqueduct Works, erected for the extinguishment of fires, except in cases of fire in the neighborhood; or who shall leave said fire hydrant open for a lorger time than shall be limited in said permission, or shall use the water for other purposes than may be mentioned in said permission; or who shall take water from any hydrant attached to Croton water pipes, for the purpose of selling the water, except such persons as may be licensed by the Croton Aqueduct Board to sell water to shipping.

55. Fire-arms.—It is the duty of Policemen to arrest any person who shall, in their presence or view, fire or discharge any gun, pistol, fowling piece or other fire arms, within this city, except said person shall then be in performance of duty in some military company, and shall by so firing execute the lawful order of his commandant. They must also arrest any person who shall, in their presence or view, fire, discharge or set off, in said city, any rocket, cracker, squib, torpedo, balloon or other fireworks or thing containing any substance in a state of combustion—if, however, the name and residence of the offender be known to the Policeman, and he shall not continue the offence after being told to desist, and if he shall not have done any serious injury, the Policeman need not make the arrest immediately, but may prefer a complaint to a Magistrate.

56. Fast Driving.—It is their duty to arrest any person whom they may see drive or ride any horse through any street, lane, alley or public place within the lamp district, with greater speed than at the rate of five miles an hour.

57. Dirt Carts.-They must arrest any person they may see driving, for hire or wages, any cart for the transportation of earth, sand, gravel or clay, unless said person shall have been specially licensed as a Dirt Cartman, or unless the owner of the cart shall have a license, from the Mayor, to have the same driven; and must also arrest every person who shall drive or lead or have charge of any horse before a Dirt Cart, which shall be going or standing in any street, lane, avenue or public place, without having a tight box fitted thereto, the sides and forepart of which shall be two feet, and the tailboard not less than sixteen inches high, such box to be of such capacity as to contain twelve cubic feet. They must also arrest any person having charge of any Dirt Cart which shall not have the number of his license and the letters "D. C." fairly painted, with black paint upon a white ground, in plain legible figures and letters, of at least two inches and a half in length, on the square of the after part of the shafts of his cart, on both sides thereof.

58. Intoxication.—They must arrest any person they may find in toxicated under such circumstances as amount to a violation of public deeency.

59. Hawkers and Pedlers.—Policemen may arrest any person who shall be found trading as a hawker or pedler of any goods, wares or merchandize, of the growth, produce or manufacture of any foreign country, unless he shall have obtained a license for that purpose, under the hand and seal of the Secretary of the State of New-York; or who shall be found trading contrary to the terms of his license, or who shall refuse to produce such license. Such li-

censes are issued or renewed in the month of April in each year, and

at no other time.

60. Disorderly Conduct, &c.—When a breach of the peace is likely to take place, as when persons are openly preparing to fight, the Policemen should give notice of his office, and immediately interfere, to separate the parties, and to prevent others from joining in the affray. If the offenders do not immediately desist, and the disturbance be of a serious nature, he should take the parties into custody, securing also the principal instigators of the tumult, and do every thing in his power to restore quiet. And if the parties flee into a house and there fight and disturb the public peace, the Policeman should enter the house, and arrest the offenders and restore quiet; for it is the duty of Policemen to stop tumults which greatly disturb the public peace, whether they occur in the streets or in buildings. (See Section 43.)

61. A Policeman must be cautious never to interfere idly or unnecessarily; but when required to act, he will do so with discretion, decision and boldness; and he may arrest any one who may oppose him in the execution of his duty, if he can prove some specific fact,

but not otherwise.

- 62. A Policeman is not authorised to arrest, or assist in arresting, without a warrant, a party charged with disorderly conduct, or an assault, or similar offence not committed in his presence, nor should he receive into his custody a person so charged, unless the party has been arrested by a person who saw the offence committed. But if a person has been severely cut or wounded, and gives into custody the party charged with having cut or wounded him, the Policeman is authorized to take the party into custody, and if the party injured is able to accompany the officer to the Police Court, or District Head Quarters, as the case may be, he must do so.
- 63. Violation of Sunday Laws.—Policemen must make complaint before a Magistrate, of all keepers of inns or taverns, or ale-houses, or porter houses, or groceries, or any other persons authorized to retail strong or spirituous liquors, who shall, on Sunday, sell or dispose of any ale, porter, strong or spirituous liquors, except to lodgers in such inns or taverns, or to persons actually travelling on that day in the cases allowed by law. They must also make complaint in like manner of all persons who shall expose to sale any wares, merchandize, fruit, herbs, goods or chattels, on Sunday, except meats, milk and fish before nine o'clock in the morning.
- 64. Horse Racing.—It is the duty of Policemen to attend, within their respective districts, where they shall know or be informed that any running, trotting or pacing of horses, or any animals, is about to be run—for any bet or stakes, in money, goods or other valuable thing, or for any reward to be given to the owner or rider of any animal which shall excel in speed—and there give notice of the illegality thereof, and endeavour to prevent such race, by dispersing the persons collected for the purpose of attending the same, and by all other ways and means in their power. And it is the duty of Policemen to make complaint to a Magistrate against all persons who may be concerned in such race, either as authors, betters, stakers, stakeholders, judges to determine the speed of the animals, riders, contrivers or abettors thereof.
- 65. They must report to the Captain all suspicious persons and places, all bawdy houses, receiving shops, pawnbrokers' shops, junk

shops, second-hand dealers, gaming houses, and all places where idlers, tipplers, gamblers and other disorderly suspicious persons may

congregate.

65. They must caution strangers and others against going into places where idlers, tipplers, gamblers and other disorderly suspicious persons congregate, and against pickpockets, watch stuffers, droppers, mock auctioneers, burners, and all other vicious persons; they must also direct strangers and others, who may need such direction, the nearest and safest way to their places of destination, and when necessary cause them to be accompanied to their destination by one of the police.

Special Duties.

Sec. 67. The Policemen will, in their respective patrol stations, act as Assistant Street Inspectors, and will, within their respective stations, perform the duties of Health Wardens, Fire Wardens and Dock Masters, under the direction of their Captains,—the Corporation Ordinances which define the duties of officers in each of those cases, will be placed in the District Head Quarters for perusal by the Police men, but it is necessary that they should immediately become fa

miliar with the following particulars:-

68. Street Inspectors. To enable the Captain to perform his duties efficiently, in this respect, the Policemen will report to their respective Captains all violations of Corporation Ordinances, within their respective patrol stations, among which are the following: Suffering or permitting any cask, bale, bundle, box, crate or any other goods, wares or merchandise, or anything whatever, to be raised from any street on the outside of any building, into any loft, store or room: or to be lowered from the same, on the outside of any building, by means of any rope, pulley, tackle or windlass: To lead, drive or ride any horse, or drag any wheel or hand barrow, or lay or place any goods, wares or merchandize upon any footpath or side walk: To obstruct the walks, laid across the public streets, or at the head of the public slips, by placing or stopping a horse, cart or other carringe, or placing any other obstruction upon or across any of the said walks; and if the Street Commissioner, the Mayor, or any or either of the Members of the Common Council shall order any article or thing so encumbering or obstructing, to be removed, and the same shall not be removed within the time limited in such order, the Street Inspector may order the same to be transported to the yard occupied by the Superintendent of Building, or other suitable place. To take any fire engine, hook and ladder or hose cart out of its house, at any time or under any pretence whatever, unless the Foreman or Assistant Foreman, or at least two of the Firemen of the Company to which the same shall belong, shall be present and consent thereto: To, at any time, run, drive, wheel or place upon any side walk any fire engine, hook and ladder or hose cart, except by the special order of one of the Engineers of the Fire Department: For persons who do not belong to the Fire Department to enter any house in which any apparatus belonging to the Department is kept, or to handle any such apparatus: When digging down any road or street, or paving any street, or building any sewer or drain, or trench for water pipes, or digging and building a well in any public road, street, or avenue; or when having placed building materials in any of the streets or avenues, or when engaged in building any vault, or constructing any Literal drain from any cellar to any public sewer, or performing any work causing obstruction in the public streets, and when such work if left exposed would be dangerous to passengers, to neglect to erect a fence or railing at such excavation or work, in such manner as to prevent danger to passengers who may be travelling such streets, roads or avenues, or to neglect to continue and uphold the said fence or railing, as long as the danger may continue; or to neglect to place upon such fence or railing, at twilight in the evening, suitable and sufficient lights, and keep them burning through the night, during the continuance of such danger. They must also give information to the Street Commissioner when any vault or cistern is being constructed in any of the streets within their respective wards, within 48 hours after the construction of such vault or cistern shall have been commenced.

69. Health Wardens—must examine and measure every sink, privy, or cistpool, which shall be hereafter constructed within their stations South of Fourteenth street, before any house, shed or covering is placed over or upon them, to ascertain if they are constructed in conformity with the Corporation Ordinances; and they must report to their respective Captains all violations of the Ordinances in

relation to sinks, privies, and cistpools.

70. Fire Wardens-must, every year, in the months of June and December, and as much oftener as they may think proper, examine the dwelling houses and other buildings, within their respective stations, for the purpose of ascertaining all violations of any act in force for the more effectual prevention of fires in this city; they must examine the fire-places, hearths, chimneys, stoves and the pipes thereto, ovens, boilers, kettles, and all chemical apparatus which in their opinion may be dangerous in causing and promoting fires, and also the places where ashes may be deposited; and upon finding any of them defective or dangerous, shall direct the owner or occupant, either by a printed or written notice, to alter, remove or amend the same, in such manner and within such reasonable time as they may deem necessary. It is also the duty of the Fire Wardens, at such times as aforesaid, to enter into and examine all buildings, livery or other stables, hav boats or vessels, and places where any gunpowder hemp, flax, tow, hay, firewood, shingles, shavings or other combustible materials may be lodged, and give such directions in writing, relative to the removal thereof, as they may deem necessary. They shall make an immediate and minute report to their respective Cap tains, of all persons neglecting or refusing to comply with the orders and directions aforesaid, together with the circumstances of each case; and shall also make report whether any and what cases of violations of the Laws of this State, prohibiting the construction of wooden buildings, have come to their knowledge, reporting the particular circumstances of each violation, and the name of the owners of the building, and of the master builder. In every case of a violation of any provision of the "Act for the prevention of Fires, passed April 20, 1830," where the penalty prescribed thereby is the forfeiture of any gunpowder, it shall be lawful for any Fire Warden to seize such powder in the day time, and to cause the same to be conveyed to any magazine used for the purpose of storing gunpowder; and any Fire Warden who shall have made any such seizure. shall forthwith inform the Mayor, or Recorder, or any two Aldermen of the city, thereof.

71. Dock Masters—may give such order and direction from time to time, to the owner, master or person having charge of any sloop, boat or other vessel whatsoever, laying at or within any of the public wharves, docks, piers or slips, or to any seaman or person employed on board, as they shall think just and proper, touching the laying, fastening and berth of any such sloop, boat or other vessel; and they shall report to their respective Captains all violations of the Corporation Ordinances in relation to "Vessels, Wharves and Slips."

Violent or Sudden Death, Accidents, &c.

SEC. 72. In case a Policeman find a person dead, he will immediately cause information of the event to be communicated to the Coroner and the relatives or friends of the deceased; he will prevent unnecessary exposure of the body, but move it as little as possible from the place where it was found, until the Coroner takes charge of it.

73. If he should find a person dying, or seriously injured, he will send immediately for a Physician, and convey the person home, with all possible care and speed, or, if nearest and any way desirable, will convey him to a Hospital or to the District Head Quarters. If the person be dying in consequence of injuries or violence, the Policeman will make every exertion to arrest the offenders, and will immediately send for a Police Magistrate, or any Magistrate who may reside in the vicinity, to take the dying declaration of the person, or to give such directions in the premises as he may consider necessary.

Fires.

SEC. 74. In case of an alarm of fire, the Policemen on patrol will, as far as may be in their power, prevent Fire Engines, Hook and Ladder or Hose Carts, being taken out of their houses, except by persons authorised to take them out. (See Section 68.)

75. Whenever any fire shall happen in the night, the Policemen shall give notice to each of the members of the Common Council, Engineers, Foremen and Bellringers, within their respective patrol stations: and they shall also alarm the citizens by crying fire.

76. The Policemen on the station in which the fire may be, shall immediately give information to the officer in charge at the District Head Quarters, and if he shall not then hear the ringing of the alarm bells, he shall also notify the bell ringer nearest the fire, and shall return to the fire without delay.

shall return to the fire without delay.

77. The officer having charge at the District Head Quarters, at the time, will immediately proceed to the fire, with his men, and will endeavour to extinguish or subdue the flames, until the arrival of firemen; when the Policemen will clear the streets from crowds and obstructions, so that there shall be sufficient space for the firemen to perform their duties, and a place for the

deposit of property saved.

78. The 'Policemen will protect the property saved, from being stolen, or wantonly destroyed or injured they shall not permit any "Volunteers," or idle or suspicious persons, to remain within the space designated for firemen, and the deposit of property; nor shall they permit persons who are not firemen, to handle any apparatus belonging to the Fire Department—they shall also be diligent in preserving order. The Captain of the District in which the fire may be, will, until the arrival of the Chief of Police, give directions to the Captains of other Districts, who may be present with their men, as to the position they shall take with their men; and the Captains of other Districts will report themselves to the Captain of the District in which the fire may be.

79. When the fire is extinguished, the officer having charge will march his men, in regular order, back to the District Head Quarters. a few being left, according to circumstances, to watch the neighbourhood, while any cause for apprehension exists.

### Riots.

Sec. 80. In case of Riot, or any disturbance requiring a large force, the Policemen on the station will immediately give notice to the officer in charge at the District Head Quarters, who will without delay, and as secretly as possible, proceed with his men to the spot, keeping them in regular order, and not permitting persons to mingle with, or place themselves between his men. If he have any doubt of his ability to restore order, or preserve the peace, he will imme diately send notice to Captains of other Districts, or to the Chief of Police, as occasion may require, and will assume command until the arrival of the Chief of Police.

81. The Policemen, under the direction of their proper officers, will use every exertion to restore order, and disperse the persons assembled; but if the rioters do not desist, the Policemen must arrest as many of them as they can, particularly the principal men: and if moderate means will not cause the persons to disperse, they must be driven away or arrested. Such occasions require the exercise of great coolness and firmness; force must not be resorted to until it become absolutely necessary, but, when necessary, must be exercised to the degree required-in such cases the men must act together, and not permit their ranks to be broken, and must act in such a manner as to make it apparent that they are determined to do their whole duty, and nothing but their duty.

82. To a riot there must be three or more persons; and all persons who encourage, promote, or take part in riots, whether by words, signs or gestures, or by wearing the badges or ensigns of the rioters,

are considered rioters, for in this case all are principals.

### Warrants.

Sec. 83. It is the duty of Policemen to execute all warrants for the arrest of offenders, and persons who threaten to commit offences, and to search for goods stolen or embezzled, issued by the following officers, and no other: - The Chancellor; Justices of the Supreme Court: Judges of the Superior Court of law of the city and county of New-York; Circuit Judges; Judges of County Courts; Mayors, Recorders and Aldermen of cities; Supreme Court Commissioners; the Special Justices and the Assistant Justices in the City of New-York, and Justices of the Peace appointed for any city or elected in any town. The Chief of Police is authorized to issue warrants in all cases, when crimes have been committed.

84. Whenever a Policeman is directed to execute a warrant in any other county than in the city and county of New-York, he will receive special directions from the Magistrate who issues the warrant.

85. Search Warrants.—Policemen executing a Search Warrant may break open the outer or other door of a house or place to be searched, if not opened after a demand by the officer for that purpose; and he may also break open closets, trunks, and other places and things, which are locked, after the key has been demanded and not delivered.

86. They must confine themselves to the command in the warrant. and must make the search in an orderly manner, and with a due regard to the situation of the parties and circumstances of each case,

and without destroying or injuring property: And although Search Warrants can only be executed by public officers, yet they may take with them necessary assistance, and some person should accompany them to identify the property.

87. If property be seized by virtue of a warrant, it must be taken

before the Magistrate who issued the warrant.

### TRINITY CHURCH.

We this year present the readers of the Great Metropolis with an accurate view of Trinity Church. The facts connected with its history, and the description of the building have been furnished by Henry M. Onderdonk, E.q., author of the "History of the Protest-

ant Episcopal Churches, in the city of New-York."

Brief History of the Church.—The members of the Protestant Episcopal Church (then known as the Church of England in America,) held their first religious services in this city, in a small chapel attached to a fort which stood near the present Battery. The congregation rapidly increasing, Trinity Church was founded to meet the emergency in 1696, during the reign of William and Mary, and service was first performed in it on the 6th of February,

1697. It was then a small square edifice, but was enlarged in 1735, and again in 1737. On the 21st of September, 1776, by the memorable fire, which laid waste so great a portion of the city, this edifice was entirely consumed. It lay in ruins during the remainder of the Revolutionary war, at the expiration of which, it was rebuilt, and consecrated by Bishop Provoost in 1790. In 1839, an examination having been made of the building, it was deemed advisable to pull it down, and erect another in its place. The magnificent edifice, located in Broadway, opposite Wall-st., (erected under the superintendence of Mr. Richard Upjohn, architect,) and of which a view is given, is the result—a result truly creditable to the age and nation, and one which will prove a lasting monument of the munificent character of the venerable corporation of the parish.

Description of the Church.—The style of architecture is the perpendicular Gothic, the peculiar characteristic of which is, that the mullions of the windows, and the ornamented pannelings run in perpendicular lines. It is the first church erected in this country having the clerestory, and is built entirely of sand stone, even to the apex of the spire. The aisle walls are 40 feet in height, and are each supported by eight substantial buttresses, between which are pointed windows, 24 feet high, beautifully ornamented by tracery cut in stone. A moulded battlement surmounts these walls, extending

their whole length.

The clerestory is supported by massive piers, rising from the interior of the church, and a succession of arches springing from them. It is also surmounted by a battlement, which runs over the wall of the western end, and is crowned at the apex by a cross. Each buttress has upon it a pinnacle crocketed at the angles and terminating in a finial. In the western wall of the church is a magnificent window, termed the altar window, 60 feet high, and 25 feet wide. Its breadth is distributed into seven bays, and its length into two sections by a transom mullion in the centre, and is, as are all the other win-

dows, glazed with stained glass.

But that which most strikes the eye with admiration, is the magnificence of the tower and spire. Covered as they are with elaborate work, cut in solid stone, and running up to the height of 283 feet, their imposing grandeur is beyond description. The base of the tower is 30 feet square, and 6 feet 9 inches through, and is supported by double buttresses 4 feet wide, projecting 7 feet 6 inches. The entrance through the tower is 20 feet wide, and 30 feet high, and is surmounted by a bishop's mitre. The whole height of the tower is 127 feet. The spire is in fine proportion, and rises to the top of the cross which crowns it, to the height of 156 feet, thus making the aggregate height 283 feet. It is octagonal, and each angle is decorated by a succession of crockets. The steeple will contain a clock, and a chime of bells.

The interior of Trinity is equally as beautiful as the exterior. The nave is 137 feet long, 36 feet wide, and 67 feet 6 inches high and receives its support from a double colonnade, each of 7 English piers. The vaulting over it consists of graceful groining, and is de-

corated by bosses of clustered foliage.

The pews are of oak and capable of seating with ease 800 per-

sons. There are no galleries in the church.

The vestry at the west end of the church, forms a fine apartment 72 feet in length, with a groined ceiling. In it are placed all the monumental tablets formerly in the other building. Among them is

the monument erected to the memory of the late Bishop John H. Hobart, executed by Ball Hughes, at a cost of \$3000.

The Organ, which is to be built by Mr. Henry Erben, will cost \$10,000. The case is constructed of oak, of a rich Gothic pattern, from a plan of Mr. Richard Upjohn, and will be 53 feet high, 32 feet deep, and 27 feet wide. The largest wooden pipe is 32 feet long, and 36 by 30 inches, internal measurement. The largest metal pipe is 28 feet long, and 5 feet in circumference. There will be four senarate organs, viz.—Great organ, choir organ, swell organ, and pedal organ; 43 stops—11 of which will be diapasons, one of 32 feet in length, and 4 of 16 feet in length, besides two reed stops of 16 feet in length. There will be nearly 2500 pipes in the organ, and its total weight will be upwards of forty tons.

Dimensions.—The following are he dimensions of Trinity in a compact form : -

	feet.	inches.
Length out to out	192	6.6
" inside, exclusive of tower	137	44
Depth of chancel	33	6
Square of tower inside	18	6
" " including buttresses	45	6.6
Breadth out to out	84	66
inside	72	
of nave	37	4
Height of nave	67	6
of tower to cornice	127	44
including spire and cross	283	66

Attached to the church is a large cemetery, in which rest the remains of generations that have passed away, among which are some of the most distinguished men the country has produced: such as Alexander Hamilton, Captain James Lawrence, &c. &c.

DEAF AND DUMB—The Deaf and Dumb Asylum, on Fiftieth-st., near Avenue Fourth, 3½ miles from the City Hall, is 110 long and 60 feet wide, and will accommodate a large number of pupils, with the teachers and family of the principal. It is under a principal and eight professors. The charge for a pupil is \$130 per year, including all expenses, except clothing and travelling expenses. Persons who wish to visit it by the public conveyances, should proceed to the junction of Chatham and Centre-streets, opposite the City Hall. From this point the cars for Harlem leave every 15 minutes during the day, and pass directly by the Institution, where they stop to re-

ceive and land passengers.

INSTITUTION FOR THE BLIND.—Is located on Avenue 9th, near Thirty-third street, where are 32 lots of land presented to the Institution by Jas. Boorman, Esq. The Legislature in 1839 appropriated \$15,000 towards the erection of the buildings, besides which, considerable donations have been made by individuals, particularly \$12,000 by the late Miles R. Burke. The pupils are taught the usual branches of English education. There is a manufacturing department, where they learn basket-making, weaving, band-box work, &c. There are usually about 60 pupils at the Institution. Officers: A. G. Phelps, Pres.; Isanc Wood, V.-Pres.; S. Brown, Treas.; E. Jones, Cor. Sec.; G. F. Allen, Rec Sec.; J. W. G. Clements, Physician; Isanc Wood and J. C. Bliss, Consulting Physicians; J. Kearney Rodgers, Consulting Surgeon.

LEAKE AND WATT'S ORPHAN -is situated at about One Hun-

dredth street, between Avenues 4th and 5th.

Lying-in—for destitute females, is situated at 85 Marion-street.

Magdalen Female Benevolent—is situated between Eighty-eighth and Eighty-ninth streets, west of the Harlein Rail Road.

Officers: Mrs. George Warner, 1st Directress: Mrs. Thomas Hastings, 2d Directress; Mrs. Dr. Pierson, Treas.; Mrs. S. Van Antwerp,

Cor. Sec.; Mrs. J. Clibborn, Rec. Sec.; Rev. C. C. Darling, chaplain. University of the City of New-York.—This fine edifice, of white marble, in the Gothic style of English collegiate architecture, stands on Washington Square, between Washington Place and Waverley Place, and is 180 feet long and 100 wide. The chapel, a highly finished room, receives its light from a window of stained glass in the west front, 24 feet wide and 50 feet high. This institution was founded in 1831, has a President and 11 professors, a valuable library and philosophical apparatus. Connected with it is an extensive grammar school, and a flourishing medical department.

The University Buildings are valued at \$260,000, philosophical apparatus \$10,000, Library \$7000. Commencement, third Wednesday in July. To indigent students from the country, the price of board

need not exceed \$1,75 per week, and this they can easily earn by the

employment of their time out of study hours.

Medical Department of the University.—The faculty purchased the granite building, No. 659 Broadway, formerly known as the Stuyvesant Institute; the expense of which was about \$60,000. The museum and apparatus (valued at \$33,000) belong chiefly to the professors. The number of students at the winter session of 1844—5, was 378. The session begins on the last Monday in October, and ends on the last day in February.

### Rules Observed at the Banks in this City.

The Banks are open every day in the Year from ten A. M. to three in the afternoon, except Sundays, Christmas Day, New Year's Day, the 4th of July, and general Holydays, appointed by legal authority, and the Bank of New-York on Good Fridays.

The interest for discount in the banks in this city is fixed at Six per Centum per Annum, upon notes or bills not having 60 days to run. Three days of Grace are allowed, and the discount taken for the

Every Bill or Note offered for discount, must be delivered into the office on the day preceding the day of discount, inclosed in a sealed cover directed to the Cashier, advising the name of the person upon whose account it is offered, &c.

Bills or notes lodged at the banks for collection, are collected free of expense, except when protested for non-payment - the person lodging the same pays the charge of protest.

Deposits of money, or notes for collection, must be entered in the dealer's book at the time such deposit is made.

### COLLECTION OF TAXES.

The State and County Taxes are collected by the Receiver of Taxes, at his office in the basement of the  $\mathcal{N} \cdot w$  City Hall, in the Park, in the rear of the City Hall.

The Taxes are payable on the 14th day of February.

Any person may pay his taxes prior to the first day of January, and in so doing is entitled to a discount therefrom, at the rate of 7 per cent, per annum, to be reckoaed from the day of payment to the first day of February. All taxes remaining unpaid on the 15th day of February, are chargeable with a penalty of one per cent. on the amount of the tax: if remaining unpaid on the 15th of March, an additional one per cent., making two per cent.: and if not paid before the first day of April, will be chargeable with a penalty of one per cent per month to date back, to October, 1845. For all taxes remaining unpaid on the 15th of April, the Receiver is authorised to issue his warrant to the Sheriff or Constable, to collect by distress and sale.

### ERRONEOUS TAXES.

An act was passed by the State Legislature, in May, 1844, authorising the Board of Supervisors of the city and county of New-York, to correct taxes erroneously assessed, provided the same did not result from the neglect of the person assessed, and provided also, that application shall be made within six months of the date of the return of the Assessment Rolls to the Receiver. The Rolls will be returned early in October, and the time for correcting erroneous taxes therefore expires early in April.

The Board of Supervisors is composed of the following officers; viz:-

The Mayor, Recorder, and Aldermen. David T. Valentine, No. 8 City Hall, is clerk of the Board of Supervisors.

# CELEBRATED ESTABLISHMENTS IN NEW-YORK.

(The Arrangement is Alphabetical.)

SILVER AND SILVER PLATED WARE, JEWELRY, WATCHES, &C.—
Ball, Tompkins, & Black, (successors to the late well known firm of Marquand & Co...) No. 181 Broadway, is quite celebrated in its line, and in every respect worthy the attention of strangers, as well as others, who desire Silver, or Silver-plated Ware, Forks, Spoons, Tea-Sets, Coffee or Tea Urns, Turcens, Pitchers, Waiters, Cake or Fruit Baskets, Fruit or Dessert Knives, &C... &C.

The above establishment, having been in existence more than thirty years, is, probably, the oldest of its kind in Broadway; and from the well-known character of the gentlemen who conduct it, the articles which they manufacture to order, or sell from their cases, may be relied on as being of the quality represented. In this respect, all their merchandise is warranted, both as regards materials and workmanship. The admirers of whatever is chaste and beautiful in design, or perfect in execution, will here find an assortment of Silver and Plated Ware. Diamond and other Jewelry, Watches, Clocks, &c., &c., &c., as rich, choice, and varied, as can be found in the city, and for which this establishment has been so long and so justly celebrated.

Strangers and others who desire to witness the progress of American artisans, in many of the ab we-named articles, or, to select some tasty and elegant article of jewelry to make a present, either on a matrimonial or birthday occasion, or as a keepsake, will find that the arts of design and mechanism are here combined with gold and rare gems, in a manner calculated to call forth the admiration of the

most fastidious.

LAMPS, CHANDELIERS, AND GIBANDOLES.—Among the many attractions of the sunny side of Broadway, the splendid establishment of Messrs. Couthouy & Nevers, for the sale of H. N. Hooper & Co's Lamps, Girandoles, &c., (No. 341.) is conspicuous for its rich and varied display of these goods and their exquisite workmanship. But a few years ago, we were entirely dependant on England and France for our supply, and the enormous prices charged by importers, placed a handsome set of these articles beyond the reach of any but the wealthier portion of our community. A few enterprising persons have produced a complete revolution in this respect, and such things are no longer regarded as luxuries, nor imported saye in comparitive-

ly small quantities.

Messrs, H. N. Hooper & Co. of Boston, have long stood at the head of those engaged in this branch of manufacture, and in repeated struggles for the supremacy, have invariably triumphed over all competitors. They commanced their operations about the year 1833, and the very next year, specimens of their Lumps exhibited at the Fair of the American Institute in this city obtained the highest premium. Since that time, they have minitained unshaken preeminence, and have received from various associations for the encouragement of Home ladustry, six gold and as many silver medals, among which are the gold medals of the two last Fairs of the Institute. Most of our readers will recollect the mignificent display made by Couthony & Nevers on those occasions, which excited the unqualified admiration of the throng of visiters. The factory of Hooper & Co. is the most extensive and perfect in its arrangements of any of the kind in this country, and has few if any equals in Europe, and is

justly classed among the lions of Boston. In style and delicacy of finish, the Lamps and Girandoles from this celebrated manufactory immeasurably surpass any other we have ever examined of American make, and are not excelled by the finest specimens of European skill.—The intelligent observer of our progress in the household arts, will derive no ordinary gratification from a visit to the Depot of Messrs. Couthouy & Nevers.

DISBROW'S EQUESTRIAN ACADEMY.—There is no place about town where the "utile et dulce" are so splendidly blended as at Disbrow's Equestrian Academy in the Bowery, near Vauxhall Garden. The conforts and convenience of the munège—the politeness and skill of the proprietor and instructor—the fine horses and moderate charges, conspire to render that establishment well worthy the patronage of the enlightened citizens of New York. Horsemanship is becoming a necessary accomplishment for both ladies and gentlemen; and as it is an art which requires a competent instructor, we can confidently recommend Mr. Wim. H. Disbrow as a gentleman pre-eminently qualified as a teacher. Thoroughly acquainted with the disposition and management of the horse, and being himself one of the most graceful riders in the city, persons placing themselves under his tuition cannot fail receiving a proper knowledge of the art.

To ladies this establishment affords peculiar advantages, as they are concealed from public gaze while under instruction, and because no possible danger can be apprehended. Mr. D. has horses which he has trained especially for the use of his lady pupils.—We feel confident that the advantages of this pleasant place of exercise and amusement need only to be known, and it will receive a present

share of public patronage.

As the Academy is open to ladies and gentlemen, the former in the forenoon, the latter in the afternoon, we would advise all to visit it

and judge for themselves.

Printing Press, Machine, and Saw Manufactory.—We have had the pleasure of visiting the celebrated establishments of Messrs. Hoe & Co., located at 29 and 31 Gold-street, and at the corner of Broome and Sheriff streets, and many new and gratifying reflections have been suggested thereby, connected with the history of the Mechanic Arts in the United States. "The never-ending-still beginning" clink of hammers-the roar of furnaces and blowers there to be heard-still linger on our ear. What a life those sons of Vulcan lead amid the din of artificial thunders-the very variety of which is monotonous! A visit to such an establishment affords, to the reflecting mind, the most satisfactory proofs of the rapid advance of American skill in manufactures. With this establishment, editors and publishers of newspapers throughout the United States are familiar. It is not devoted, however, exclusively to the manufacture of machine and hand-presses-but every thing necessary for a printing office and bindery, including type, ink, &c., is furnished at the shortest notice, and at a cost much less than formerly. Machinery of every description is manufactured by the Messrs. Hoe, with an expedition and in a style of finish unsurpassed by any similar establishment in the United States. But to appreciate justly the degree of perfection which they have reached in the manufacture of printing machines, printing and standing presses, hydraulic and screw presses, saw-mills, veneer saws; circular, pit, mill, cross cut, and other saws-and machinery generally-the reader must visit

their establishment, which will well reward the curious in such

PLUMBE NATIONAL DAGUERRIAN GALLERY AND PHOTOGRAPHIC DEPOTS. (Founded A. D. 1840.) To which have been awarded eight Medals and Premiums by the Institutes of Massachusetts, New-York, Pennsylvania and Ohio, for the most beautiful colored Daguerreotypes and best Apparatus ever exhibited. This establishment is located at No. 251 Broadway, upper corner of Murray-street, (next door above Tenney's jewelry store.)

And the branches are at the following places: Boston, 75 Court st.; Philadelphia, 136 Chesnut st.; Baltimore, 22 Baltimore st.; Washington City, Pennsylvania Avenue; Alexandria, D.C., Lyceum Hall; New Orleans, 56 Canal st.; Saratoga Springs, Broadway; Paris, 127 Vieille Rue du Tenple; Petersburgh, Va., Sycamore st.; Cincinnati, O., 176 Main st.; Louisville, Ky., 449 Main st.; Lexington, Ky., Main st.: Harrodsburg, Ky., Harrodsburg Springs; St. Louis, Mo., corner Fourth and Chesnut sts.; DuBuque, Iowa; Liverpool, 32 Church st.

This immense Establishment is justly celebrated as the First in the World, and such is the magnitude of its business, induced by the superiority of its productions, that it furnishes emuloyment and sup-

port to upwards of 500 individuals.

The Manufacturing Department is conducted upon an immense scale, to supply the very large consumption of the Picture Department of the concern, and to fill the numerous orders from all parts of the world, for Apparatus, Plates, Cases, Chemicals, &c.

The Gallery here, is one of the most attractive and interesting places of fashionable public resort in New-York; and an honor to the

City.

Being Free, and occupying the first floor above the street, it is the pleasantest lounge in Broadway; and is daily frequented by the élite, who find this an agreeable resting place in passing up and down the

gay thoroughfare.

It contains a vast collection of the most perfect and choice specimens of the heautiful art of Photography, ever produced. Among them are Likenesses of many of the most distinguished individuals of the country: Presidents, Vice Presidents, Officers of the Cabinet, Army, Navy, &c., Senators, Members of Congress, Judges, Divines, Lawyers, Authors, Actors, Municipal Officers of this city, and a host of others "too numerous to mention."

Above the Gallery are numerous suites of Rooms, appropriated to the use of sitters; who are thus secured the advantages of privacy

and despatch in having their portraits executed.

There is one suite of rooms in this establishment fitted up to take groups of fifty persons or more in one picture, each being in the same light as the other, and so arranged as to remove entirely the disagreeable effect of the light upon the eye, as at no time does the sun shine into this part of the building—the soft northern light only being admitted through the roof, a mode of obtaining it which from experiment, proves to be the only way in which a large group can be made by this art.

FANCY AND CURIOSITY STORE.—In alluding to the various establishments which stand preeminent in our "Great Metropolis," those that are not only a source of profit and honor to their preprietors, but also, the pride and boast of our citizens; the Fancy and Curi-

osity store of Messrs. Tiffany, Young and Ellis, occupying Nos. 259 and 260 Broadway, opposite the City Hall, deserves particular attention. Here all tastes and all purses may be suited. Here may be found, for instance, the compact, useful shaving apparatus for "the million," at the cost of a few shillings, or, the magnificent dressing case with silver and even gold mountings, for the "units," at the cost of a few hundred dollars-Work Boxes for the careful housewife, or, those garnished with damasked or golden implements fit for the belies of the land-Fans at the cost of a hundred dollars, or a hundred mills-Jewelly and silver wares in a thousand different forms-manufactures of Papier Maché in endless variety of forms and uses-the Porcelain of India, of Saxony, of France and of Staffordshire-the gorgeously colored glass of Bohemia-the elegantly finished castings of Berlin—the corals and cameos of Rome—the statuettes of Florence-the rustic furniture of Switzerland-the useful cutlery of Sheffield-the choicest perfumery, selected from the most celebrated makers of every country—the ten thousand old and odd things from China and Japan-Gloves of a softness and beauty of shape, not obtainable elsewhere-Paper and Envelopes, and all the furniture of the Escritoire-in short, we believe their collection of rich, curious and useful articles, adapted to one's own wants, or as presents for every occasion, is not surpassed in the world. To collect and keep assorted so various a stock, requires one of their firm to be always in Europe, visiting the different Capitals and procuring from each its rarest and most elegant novelties.

Since they themselves in their announcement, invite the visits of strangers, and extend to all so particular an attention, that each considers himself a specially favored one; surely we may safely echo the invitation and recommend all purchasers, either wholesale or re-

tail, as well as all pleasure seekers, to visit them.

LOOKING-GLASS WAREROOMS .- Of those establishments about town which universally attract the attention of citizens and strangers, one of the most celebrated is the splendid Looking-Glass store of Messrs. Williams & Stevens, 343 Broadway, on the fourth square above the Park, and nearly opposite the Tabernacle. Its immense windows are usually surrounded by a crowd halting to admire the gorgeous specimens glittering through them, reminding one of the palaces and "Magic Mirrors" described in the Arabian Nights.
Modern and Antique Frames, Brackets, Candelabra, and Vase Stands, are clustered there in "golden order," with every variety of pattern, from the massive and substantial to the most fairy-like and frail. Thirty years' experience has given to Messrs. Williams & Stevens the palm of excellence and precedence in their line of business; and in extent and variety, as in quality and elegance of manufacture, their establishment has no equal in this country, no superior, probably, in the world. There are Mirrors from the smallest Toilet Glass, to the largest and most superb Pier Looking-Glasses, with frames of the rarest Elizabethan, Louis XIV., and Gothic styles; Window Cornices of the most approved kinds; together with Portrait, Picture, and Miniature Frames, from the most elaborate and costly, to the plainest and least expensive patterns. It is a place eminently worth visiting, if but to lounge awhile amid its paintings and elegant decorations; and of its kind, is the most unique and beautiful in the United States.

# PLACES OF AMUSEMENT IN NEW-YORK.

(The Arrangement is Alphabetical.)

AMERICAN MUSEUM.

This extensive establishment, which was founded in 1810, by John Scudder, esq., is situated in the very heart of the city, corner of Broadway and Ann streets, opposite St. Paul's Church and the Astor House, and contiguous to the majority of the best hotels in the City, the Park, City Hall, &c. It is one of the most interesting, as well as extensive establishments of the kind in America, containing several large and commodious halls, over one hundred feet in length, filled with an innumerable quantity of curiosities from every portion of the globe, to which continual additions are being made. Here are Birds of every variety and clime, from the Ostrich to the hundred kinds of Humming Birds; from the Bird . Daradise of the Tropics, to the Penguins of the Pular Regions.

The specimens of Preserved Animals and Reptiles are — "emarkable excellence, such as were never seen alive in this country. The
departments of Conchology, Entomology and Mineralogy, are very
perfect. The collection of Indian and Polynesian Implements,
War Clubs, Idols, &c. is very curious, interesting and valuable. The
Grand Cosmorama contains views of the most celebrated Cities,
Scenery and Natural Phenomena, executed at an immense expense,
ty the first Artists in Europe. The Miscellaneous Curiosities, include
a fine collection of Old Paintings and Rare Engravings, many
Chinese Curiosities, ancient Suits of Armor, Mail and Arms, antique
Coins, splendid Fossils, beautiful Statuary, a finely preserved Egyp-

tian Mummy, &c.

A Saloon capable of seating over one thousand persons at a time has recently been added to the Museum, and a great variety of the most amusing, and perfectly chaste performances take place therein every evening, (except Sundays,) in the year. The price of admission to the whole is only 25 cts.

AMERICAN ART UNION.

American Art Union, 322 Broadway. The amount received from those who contribute \$5 per annum, is appropriated to the purchase of paintings by American Artists, which are disposed of annually by lottery, among the subscribers.

Officers.-W. C. Bryant, Pres.; Andrew Warner, R. F. Fraser,

Secs.; Eben Platt, Treas.

BOWERY THEATRE,

Is situated in the Bowery, above Bayard street. (The particulars respecting it have not been obtained.)

CASTLE GARDEN

Is built on a mole, and connected with the Battery by a bridge. It was originally erected as a fortification, and having become unnecessary for this purpose, was ceded by the United States to the corporation of the city in 1823. Within its walls, 10,000 people can be accommodated in a great amphitheatre; it is used for exhibitions, and sometimes for public meetings.

CHATHAM THEATRE.

This theatre is situated on Chatham-street, near the corner of Roosevelt, and almost opposite Orange-street. The great success it has met with under the management of the present lessees, Messrs. Deverna & De Bar, has given it the exceedingly popular cognomen of "The People's Theatre." The house is nearly as large as the

Park Theatre,-has three capacious tiers of boxes, and a roomy pit, into which over 1,000 persons can be comfortably seated. The style in which the house is decorated is exceedingly tasteful and elegant; and the manner in which it is conducted is delightful in the extreme. We may safely say, that good order always prevails, and that a strong police force is ever in attendance to pretect and be of service to the unwary stranger. The stage department is as well managed The performers are selected from the most talented in the States. Among the Chatham favourites are George Hill, familiarly called "Yankee Hill," T. D. Rice, the original "Jim Crow," and J. B. Booth, the famous tragedian. The entertainments generally consist of choice equestrian and other melo-dramas, with farces, and a variety of dancing and musical between-piece performances. In short, for beautiful scenery, choice acting, capital music, and comfort for the visitor, the Chatham, or People's Theatre, is second to no other dramatic temple in the United States. The prices of admission are reasonable enough, viz .- boxes, 25 cents; pit, one shilling. A private box, which will hold 12 persons, can be had for \$3. Who would visit New-York without going to the Chathamstreet Theatre ? No one.

### MITCHELL'S OLYMPIC THEATRE.

This building, No. 444 Broadway, was converted into a Theatre in 1837, by Messrs. Willard & Blake, but was only under their management a few months, the enterprise meeting with very indifferent success. The establishment then for a period of nearly two years, was under the control of a number of individuals, but with as little success as attended the effort of the original proprieters. In the month of December, 1839, it came under the control of the present lessee, Mr. Mitchell, by whose skill, enterprise, and able management, it has become from the most insignificant and unfortunate, the most popular and successful Theatre in this city, or indeed in the United States. To the tact with which Mr. Mitchell has seized local incidents and prevailing follies, for the purpose of amusing and inoffensive satire, together with an unexampled rapidity in the production of novelties, may be traced in a great degree, his extraordinary success. He has not sought the aid of those theatrically termed "Stars," his object being to present a general rather than a particular excellence, and in this he has shown his usual judgment. The audiences of the Olympic are of the highest respectability, and the boxes nightly display as much of the beauty and refinement of the city as can well be pressed into its drawing room limits.

# NATIONAL ACADEMY OF DESIGN.

The Academy of Design, located at 348 Broadway, exhibits annually a large collection of paintings by living artists. Council: S. F. B. Morse, Pres.; A. B. Durand, V. Pres.; James Frothingham, Cor. Sec.; J. G. Chapman, Rec. Sec.; T. S. Cummings, Treas.; Charles C. Ingham, W. S. Mount.

# NEW YORK GALLERY OF THE FINE ARTS,

Is located in the Rotunda Building, in the Park, corner of Centre st. The payment of one dollar entitles the person, during Life, to free admission to the Gallery. Single admission, 2 cents. Open daily.

Officers: —Jonathan Sturges, Pres.; F. W. Edmonds, V. Pres.; Thos. H. Faile, Treas.; Wm. H. Johnson, Sec.

### NIBLO'S GARDEN.

Situated on the corner of Broadway and Prince streets, is laid out with exceeding taste, and always the very pattern of neatmens, having walks lined with choice flowers and shrubbery; an elegant Saloon, adorned with chaste and beautiful designs, mirrors, &c.; grounds, too, ornamented and rendered refreshing by the evergushing waters of a fountain—these when combined, as they are combined in summer, with the delightful strains of a military band, give a peculiar fascination to this Garden, and tend, together with the exceeding taste and propriety with which every thing is presented and conducted, to render this establishment the theme of praise among all citizens and strangers. The fireworks occasionally exhibited here are of the first order, and the theatrical and operatical entertainments are "ever pleasing, ever new."

### PARK THEATRE.

Situated in Park Row, opposite the Park, was built in 1796; altered and improved in 1896; burnt in 1820; and rebuilt in 1821. There are three tiers of boxes, each tier holding 440 persons. The Pit will accommodate 430. Gallery, 590; the slips (even with the gallery but a portion of the boxes, hold 250 persons. The house, therefore, will contain 2,500 persons, and when full, at the rate of \$1 per ticket to the boxes, &c., the receipts amount to \$1910. The depth of the theatre is 187 feet, width, 76 feet. It is the property of John Jacob Astor, and the heirs of John K. Beekman. The rent, for many years \$18,000 per annum, is now somewhat reduced.

The present lessee is Edmund Simpson, who became joint manager with the late Stephen Price, in 1816. At this house all the great theatrical and operatic talent of Europe is introduced to the Ameri-

can public.

The theatre contains ten private boxes, two of which belong to the proprietors. The model of the house may be considered perfect, as every seat commands a full view of the stage.

# VAUXHALL GARDEN.

Is situated in the Bowery, between Great Jones and Eighth streets, and was formerly much more extensive than it now is, the extension of Lafayette Place having considerably reduced its dimensions. It is conducted by Bradford Jones, and devoted to theatrical entertainments, concerts, exhibitions of fireworks, &c., the price of admission to which is much less than formerly.

# STREET AND AVENUE DIRECTORY Of the City of New York.

### EXPLANATION.

If you wish to find the location of any particular house or store,—for instance, No. 80 Allen-street, on consulting the Street Directory, you will observe that 68 Allen is on the right hand of that street and the corner of Grand, and 88 Allen on the right-hand corner of Broome; hence the desired number will be on the right-hand side of Allen-street, between Grand and Broome.

Many of the streets are very irregularly numbered; this is especially true in regard to all streets above Eighth and east of Avenue 5th; and in some streets the numbers change from right to left.

west to Avenue 6th.

Rt. Left. 2 Broadway

## J. DELVEAU & J. F. BROWNE,

MANUFACTURERS OF THE

#### IMPROVED PATENT

# DOUBLE-ACTION HARP,

By Royal Letters Patent, London.

ESTABLISHED 1810.

#### (MANY YEARS WITH ERARD.)

J. F. Browne respectfully informs his Friends and the Musical World, that he has established himself for the manufacture and importation of these very beautiful instruments, at

#### 281 Broadway, & 732 Chambers-st., N.Y.

His arrangements are such as to enable him to transact business at European prices, thereby saving purchasers the high duties im-

posed by tariff on these Instruments.

J. F. Browne would observe, these Harps are constructed on the most improved principles, with all the modern improvements of London and Paris, are unequalled in brilliancy of tone, fineness of touch, and perfectness of mechanism. Particular care is taken to fit them for the extremes of climate in this country, in which respect they will be found far superior to any of European manufacture, imported in the usual way.

These Harps are patronised by the elite of musical taste and pro-

fessional talent in Europe; among the latter, he would mention N. C. Bochsa, who invariably selects from this establishment.

J. F. Browne begs to offer the opinions of some of the first professional talent in this country.

## ÆOLIAN PIANO FORTES.

NUNNS & CLARK HAVING PURCHAS-ED the Patent Right for "Coleman's Eolian Attachment to the Piano-Forte" for the entire United States (excepting Massachusetts,) announce to the public that they are now prepared to supply Piano-Fortes with this improvement attached, or to attach the same to any modern made horizontal Piano-Fortes.

In regard to the durability of this invention, N. & C. are fully prepared to satisfy the most prejudiced mind, their own critical examinations and experiments warrant them in the assertion, that the "Eolian" will remain in tune in any climate, and it will not be affected by transitions of atmosphere. The most satisfactory warrantee is

given with each instrument.

The public are invited to examine the "Æolian Piano-Fortes" at their wareroom, No. 240 Broadway, opposite the Park. Where also may be found an assortment of 5, 6½, and 7 octave Piano-Fortes, both in rosewood and mahogany cases.

# SHERWOOD'S-

# VIBRATORY MAGNETIC MACHINE.

THE VIBRA-TORY MOVE-MENT recently substituted for the Rotary, in this Machine, by the subscriber, endows it with an extraordinary superiority over every form in

which it has been constructed. It is compactly fitted together with its battery, wires, and other appliances, in neat mahogany cases, of several sizes and powers, at \$10 (two sizes) \$12, \$14 and \$16 each; and forwarded, to order, to any part of the Union, the Canadas, West Indies, or South America.

Each case is accompanied with a Manual (7th edition, pp. 224, 32-mo.)—including a complete Manual of the Practice of Medicine, with a very full Glossary—giving clear and ample directions for the use of the instrument in the various diseases to which it is applicable, and which are found, by the successful practice of hundreds of operators, to include the most prevalent, as well as the most peculiar and obstitate, that are known to the medical profession; with the proper Medicines for each case.
