Eleven Men Adrift In Small Boat On Pacific For Week

Two Mates and Nine Men of S. S. Canadian Importer's Crew Not Found Yet; Others On Board Helpless Craft; Importer Is Salvage Possibility.

Portland, Ore., Aug. 26.—Eleven men of the steamship Canadian Importer's crew, including the second and third mates, have been adrift on the North Pacific since a week ago to-day, according to a wireless message to the Associated Press to-day from Captain Westerlund, master of the steamship Cordova, which early yesterday morning offered assistance to the waterlogged Canadian freighter. The message follows:

"Second and third mates and nine men left Canadian Importer on 19th to obtain assistance. Names unknown. Canadian Importer sprang leak from unknown cause."

Vessels to-day were continuing to search for the lifeboat containing the eleven men, who apparently set out after the freighter's wireless had been put out of commission.

Vancouver, Aug. 26.—The somewhat indefinite reports of Thursday afternoon stating the C. G. M. M. steamship Canadian Importer had not sunk and was a good salvage prospect were confirmed by night wireless messages. Captain Bissett and the entire crew, with the exception of the nine men and two officers who set out in a lifeboat before the Alaska Line steamship Cordova reached the scene, are still on board the helpless hulk. The Cordova has left for her regular run, and the C. G. M. M. steamships Canadian Importer and Canadian Observer, together with the salvage vessel Algerine, are speeding to the rescue and will arrive late to-night or early Saturday morning. It is now believed that the Importer is a very reasonable salvage possibility, owing to the large quantity of lumber she has in her hold, and that she will be safely towed to Esquimalt.

The C. G. M. M. officials here were considerably cheered when they learned that the Canadian Importer was standing by his vessel, the only matter causing any special anxiety now being the missing lifeboat. It is felt, however, that it will either make the coast or be picked up by some one of the ships in the vicinity. The weather is fair and the sea smooth.

Toward Seattle. Late yesterday afternoon the C. G. M. M. officers received wireless word from Captain Wingate, commander of the Steamship Canadian Importer, in which he stated that he had intercepted the Importer's message and was heading for the wreck, and asking for instructions. Word was at once sent him to proceed at full speed, and he replied he was doing so and would arrive at the location given at an early hour Sunday morning.

Later he wireless word was intercepted a message from the Matson Line steamship Manukia, in which the latter stated it was expected she would be by the Importer's position. Captain Wingate at once instructed the Manukia to inform Captain Bissett the Importer was on the way and would arrive early Saturday morning.

The steamship Canadian Observer, Captain Cooper, left San Francisco yesterday for the scene, on instructions from the C. G. M. M. agents, Bissett & Company. It is understood a powerful gasoline pump and flexible hose was placed on the Observer, and that he is using an attempt to pump out the Importer.

A Patch. When the Algerine reaches the helpless ship an attempt will be made to put a temporary patch on the leak, wherever it is, and more strongly insure the possibility of salvage. Whether the Importer's deck will be taken off will probably be left to the decision of her master, and the salvage experts of the Algerine.

It is the present plan to have the Importer taken to the search for the missing lifeboat. At the time of the departure of the small craft the wind was N. N. W., and the Observer will probably take a course S. E. from the point of the boat's departure and trace it down.

Information Awaited. No information has yet been received in the city as to the names of the men in the missing lifeboat. All messages, thus far, with the exception of those received through the Importer and the Manukia have come by way of the steamship Cordova, and have been very meagre. In fact, the original message of Captain Bissett giving his location and stating he was in danger reached the company offices some hours after the news was sent that the Importer was abandoned and was sinking.

No Tow. Though no definite word has come it is understood that Captain Bissett refused to permit the Cordova's captain to put a line on the Importer and make a rich salvage prize, and the crew decided to remain with their captain. Then, after the Cordova had transmitted such messages as were necessary in order to have help sent to the wreck, the result being interrupted run, knowing that plenty of aid was waiting for the Importer.

YOUTH MISSING AT LAKE WINNIPEG; ANOTHER SOUGHT

Winnipeg, Aug. 26.—Colson Harvey, a Winnipeg boy of twenty, has not been seen since he went canoeing alone on Lake Winnipeg last Saturday. The canoe and Harvey's sweater were picked up next day. A young boat tender at Winnipeg Beach also is missing and the police are looking for him. Harvey was known to have carried a large sum of money, and his canoe was piloted by a man in a rowboat, according to the story of a woman who claimed to have seen both men leave shore.

BIGGER MARKET FOR B. C. APPLES

Growers Getting Ahead of Eastern Orchardists

Statement Made by Professor Macoun in Montreal

Montreal, Aug. 26.—Unless the fruit growers of Quebec and Ontario adopt more modern methods of packing, grading and marketing their fruit, they are extremely likely before long to find that British Columbia apple growers have made serious inroads on their trade—ironically have already got well under way, not only from British Columbia but also from the western part of the United States. This was the warning given the fruit growers here of the Province of Quebec by Professor W. T. Macoun, of the Ottawa Experimental Farm, in the course of an address on "Impressions" of Western activities.

Professor Macoun added that orchard planting in this province had not been sufficient to replace the ordinary tree mortality, let alone make up for test Winters like that of 1917-18.

Crop. C. W. Baxter, Fruit Commissioner, Ottawa, said that in Nova Scotia the apple crop would be ten per cent. ahead of last year; in New Brunswick only fifty per cent. of last year; in Quebec not sixty-five per cent., and in the West about 40 per cent. while in British Columbia it would be double that of last year.

TREATY PROMULGATED

Paris, Aug. 26.—The Trianon Treaty, by which the state of war between Hungary and the Allies was ended, was promulgated here to-day.

PENDER ISLAND MURDERS BELIEVED WORK OF INDIAN

Pender island, B. C., Aug. 26.—Following the mysterious death of "Jimmy" McLeod, an Indian, whose body was found with the head blown off on July 14, revelations made here last night by an Indian agent have led the police to believe that McLeod and his wife were murdered by a Cowichan Indian.

STOLEN SECURITIES ARE RECOVERED

New York, Aug. 26.—Detectives announced to-day that securities valued at \$39,000 stolen from McDonnell and Company, San Francisco, by Russell Lafayette Griffin, a twenty-one-year-old messenger, had been recovered in a bank here and in the police to believe that he had returned in an office in order to start speculating in stocks.

ESKI-SHEHR IS SWEEPED BY FIRE

London, Aug. 26.—Eski-Shehr, the city in Asia Minor recently captured by the Greeks in their offensive against the Turkish Nationalists, is being swept by fire, says an Athens dispatch to the Exchange Telegraph Company. The flames have been raging for several days and have destroyed the greater part of the town, it is said.

King Constantine is believed to be in Eski-Shehr, reports from Athens stating that he has been sick there for several days.

Recovering. Athens, Aug. 26.—King Constantine, who has been ill with intestinal trouble at Eski-Shehr, Asia Minor, is making satisfactory progress toward recovery, says a report from his physicians. He enjoyed a good day yesterday, following his serious indisposition on Wednesday.

Improvements Before Empire Airship Service

London, Aug. 26.—(Canadian Press)—Many more trials of dirigible airships of the ZR-2 type must be made and the construction thereof considerably revised before the British Empire can embark on the scheme considered at the recent Conference of Prime Ministers, in the opinion of Colonel H. Mentz, Minister of Defence in the Government of South Africa. The scheme, which was discussed at great length by the conference, said Colonel Mentz, involved long distance trips at fairly frequent intervals between different points of the Dominions overseas and Great Britain.

He recalled that the sub-committee on transportation, of which he was a member, came into constant touch with British air service officers who were considered as having the very best word in expert advice. Three of the officers were killed in the loss of the ZR-2. They were unable to prevent the accident.

Colonel Mentz added that he had not lost faith in the probability eventually of the use of such aircraft, but he reiterated the fact that there must be widely extended experimentation before they come into practical use.

Two Bodies Found. Hull, Eng., Aug. 26.—Two bodies were recovered this afternoon from the wreck of the ZR-2. One was identified as that of Albert L. Loftin, an American mechanic on the dirigible.

Washington, Aug. 26.—Immediate disposition of liquors seized under the national prohibition act on which storage charges are accruing was ordered to-day by Prohibition Commissioner Haines.

More Troops Sent To Area of Riots In India

London, Aug. 26.—(Canadian Press Cable)—Reuter dispatches from India continue to carry grave news of the situation arising from the rebellion of the fanatical Mohals along the districts of the southwestern coast. Additional forces of the British army and navy are being sent to the scene. The Second Dorset Regiment, with a squadron of cavalry and a section of artillery, has been sent to Calicut from Podanur and the

LOW FARES TILL END OF AUGUST

Prairies Need 1,500 More Men From B. C.

Vancouver, Aug. 26.—About 4,000 unemployed men have been sent to prairie harvest fields from British Columbia, and orders have been received for 1,500 more. Harvesters' special fares have been extended until the end of this month.

Employment bureau officials say they may be unable to fill all orders now on hand, owing to refusal of many of the unemployed to accept the work. Civil officials have warned those refusing to take advantage of the work offered on the prairies that they will not be permitted to participate in unemployment relief next winter.

STRONGLY FAVORS TEACHERS EXCHANGE

Dr. Bernard M. Allen, British Educationalist, Here

An ardent supporter of the scheme for interchanging school teachers between the various dominions and Great Britain, first suggested before the war and discussed at the recent Imperial conference of teachers at Toronto, Dr. Bernard M. Allen, Deputy Education Officer of the London County Council, was a visitor to Victoria to-day.

"I was told I should not have seen Canada until I had seen British Columbia, and so I came here after the conference," said Dr. Allen at the Empress Hotel this morning. While in the city he is visiting the various schools, and he is greatly delighted with what he has seen of British Columbia and its institutions.

Speaking of the interchange of teachers, Dr. Allen recalled that a few were exchanged with Canada in 1914.

"This week ninety-eight empire teachers are beginning work in the London schools, eighty of them Canadians. They will teach for one year. We are also sending teachers across to Canada to teach here and two of them, ladies will be in Vancouver. One is from the young in order to exercise the necessary influence on the future of the empire and the best way to do this is through the teachers," said Dr. Allen, who referred to the methods followed now in the English schools to promote individualism in the pupil. He also mentioned the advantages gained from the Day Extension Schools whereby working children were given the opportunity of becoming better educated.

Dr. Allen was strongly of the opinion that the educational influence over children should be maintained for a longer period than under present conditions, and he agreed with Peter Wright, as reported yesterday, respecting the importance of training children how to become good citizens.

CARSON REJECTED SETTLEMENT OFFER

Refused to Meet Redmond in 1915, Says Peter Wright

British Labor Leader Makes Revelation Here

Knowing that he could not long prevent republican influences from gaining control of southern Ireland, the late John Redmond, Nationalist Leader, sought in 1915 to meet Sir Edward Carson, Ulster Leader, to find an immediate solution of the home rule problem. Sir Edward Carson declined to meet Mr. Redmond and the Sinn Fein upheaval commenced.

"I am going to tell you something not generally known," Mr. Wright told a representative of The Times here this morning. In 1915 I talked with the late John Redmond, Leader of the Nationalist Party in Ireland. Mr. Redmond, I learned, had got into touch with Mr. Aquitt, the Prime Minister, to arrange an interview between him and Sir Edward Carson, the Ulster leader. Mr. Redmond felt confident that he and Carson could settle the home rule question in twenty-four hours if they could get together.

Sheffield, Eng., Aug. 26.—(Canadian Press)—Remarkable tributes of respect were paid at the funeral here of Joseph Jonas, former Lord Mayor of this city, who came from Germany as a youth and built up one of the largest steel businesses in the world. He was a munificent benefactor to his adopted country and city, but during the great war he was deprived of his knightship and heavily fined for divulging to the enemy information prejudicial to the state.

LABOR CONGRESS MAKES CHANGES

Alterations in Constitution at Winnipeg Convention

Winnipeg, Aug. 26.—(Canadian Press)—The Trades and Labor Congress this morning considered a re-draft of the constitution and introduced the executive committee to amend the organization's platform of principles, in not more than twenty declarations of policy. The re-drafted constitution was adopted clause by clause. Important new regulations dealing with the control of the Congress and its executive committee over organizations within the Congress, introduced in view of the recent controversy with the C. B. R. E. were adopted.

"The Ulster leader absolutely declined to meet him. After that the Sinn Fein trouble started. Mr. Redmond said it coming. He knew that the Nationalist Party would be thrown overboard, but he could no longer hold it. And Mr. Redmond was not big enough to compel Carson to meet Redmond."

Proceeding to discuss the present Irish situation, Mr. Wright predicted that, if the Irish "Republican" settlement offered recently by the British Government to the Nationalist Party in England. There will be an election for Lloyd George is pretty sharp and I am of the opinion that the British Government will support the Government in not granting separation. Anything may happen then, if the Government adopts force in Ireland it will be a terrible thing to contemplate. But if the Government is returned on a no-separation policy the Irish question will be in the Government's hands and the people won't have much more to say about it."

Mr. Wright said that, during a tour of all big British seaport towns last Spring he had found little interest in the Irish problem, in spite of the continual reports of violence in Ireland.

No More Notes But Premier Will Meet Valera Deputation

Lloyd George Replies to Sinn Feiners' Reiteration That Their Attitude Is Unchanged; Premier Says Negotiations Endangered.

London, Aug. 26.—Premier Lloyd George, replying to-day to Eamonn de Valera, in alluding to the demand for recognition of Ireland as a foreign power, says de Valera "is playing with phrases to suggest that the principle of government by the consent of the governed compels recognition of that demand on our part; or that, in repudiating it, we are straining geographical and historical conditions to justify a claim to ascendancy over the Irish race."

The Prime Minister warns de Valera that owing to "the action being taken in certain quarters, the negotiations are being endangered."

"Therefore, while willing to make every allowance, he cannot, he declares, prolong the mere exchange of notes, but says he will be happy to meet de Valera and his colleagues again."

TWO YOUNG MEN KILLED ERZBERGER

Former Vice-Premier of Germany Was Murdered

Berlin, Aug. 26.—Matthias Erzberger, former Vice-President and Minister of Finance, was assassinated to-day near Offenburg, Baden, where he had been sojourning with his family. There were twelve bullet wounds in his body.

Erzberger had left Bad Griesbach, where he was taking the cure, in company with the Reichstag Deputy Diez, for a foot tour of the Black Forest. An hour later both men were confronted by two youths, who separated them and then emptied revolvers at Erzberger, who was killed instantly by shots in the head. Deputy Diez also was wounded.

J. S. GRAIN SENT THROUGH CANADA

Heavy Movement Through Eastern Elevators

Winnipeg, Aug. 26.—Grain shippers are growing uneasy over the enormous movement of American grain through Eastern Canadian elevators at Atlantic ports. The Manitoba Free Press says in a news page article. The newspaper claims to be privy to information that at present what are known as the Bay Port Elevators, namely, McNicoll, Tiffin, Midland and Depot Harbor, with a total capacity of a little more than 7,000,000 bushels, have roughly only 3,500,000 bushels of space unfilled, and there are American cargoes waiting to unload totalling 5,000,000 bushels, and Chicago is pressing for further bookings. Montreal elevators are all full and there are 3,000 cars on track waiting to unload, the newspaper says.

Congestion. Montreal, Aug. 26.—Unprecedented grain congestion obtains in this port and has existed for the last week or ten days. Some sixty ships are waiting their turn in the harbor to take in grain, and the Harbor Commission's elevators are working continuously twenty-four hours a day to meet the situation. Many grain cars are standing on the sidings.

AMERICAN SWAM HALF WAY ACROSS ENGLISH CHANNEL

Dover, Eng., Aug. 26.—Harry Sullivan, of Lowell, Massachusetts, who started yesterday to swim across the English Channel from Cape Gris Nez, near Calais, to this city, failed to accomplish the feat. He was obliged to abandon the attempt after swimming for ten hours and ten minutes, by which time he had only reached the middle of the Channel.

ROTARIANS TO MEET IN LOS ANGELES

Chicago, Aug. 26.—Los Angeles was selected to-day as the 1922 convention city for the International Rotary Clubs. The selection was made by the board of directors, in session here, after a strong invitation had been presented by William Stephens, president of the Los Angeles Rotary Club.

Melbourne Paper Says Hughes Claims Too Much

London, Aug. 26.—(Canadian Press)—A Reuter cable from Melbourne, Australia, says the newspaper Melbourne Age criticizes Premier Hughes for his utterances in Great Britain. The newspaper states that when Premier Hughes says the Commonwealth should have an effective voice in the British foreign policy he misrepresents Australia, which "hotly resents attempts to sacrifice her own self-governing manhood to become a feeble factor in dominant imperialism."

The Age describes Premier Hughes's statements as those of an imperialistic marionette dancing unconsciously to a string not pulled by the Commonwealth. The newspaper also takes exception to Mr. Hughes's suggestion that the Dominions should share in the cost of an Empire navy on a per capita basis, adding:

"Australia is prepared to accept responsibility for her own fleet and to co-operate fully with other British fleets as conditions demand."

NECK WAS BROKEN

Santa Ana, Cal., Aug. 26.—Anita Baxter, nine years old, set in a rocking chair on the porch of her parents' home here last night, now lies in a hospital, her neck broken. "Now these men are making preparation to get the railways back after they have been paid for," Mr. Graham concluded.

SAYS MANIPULATORS MAKE MILLIONS

Hon. G. P. Graham Speaks of Railway Situation

Windsor, Ont., Aug. 26.—Hon. George P. Graham, who was Minister of Railways and Canals, yesterday, took up at considerable length the railway problem, with particular attention to the recent statement issued by Sir Joseph Flavelle, director of the Grand Trunk Railway, at a political meeting here last night. He took issue with Sir Joseph because he said the latter had taken responsibility for the railway problem on the Laurier Government. One of the reasons for the railway problems of to-day, said Mr. Graham, was that the Borden Government did not carry out the Laurier programme. Laurier intended that the Grand Trunk operate the Transcontinental, but the Borden Government did not carry out the plan, he said.

Mr. Graham said the Government, instead of helping the railways as in other countries, had gone out to crush the Grand Trunk Pacific and the Grand Trunk.

Millions. "There are Canadians in Europe and Canada who have made millions out of the Canadian Northern and the Grand Trunk. These men become rich on the increased value of the securities when the Government takes hold. These millionaires are making every problem by manipulation," continued Mr. Graham. "Hands off the railways should be the policy of Canada."

"Now these men are making preparation to get the railways back after they have been paid for," Mr. Graham concluded.

CAERPHILLY, WALES, ELECTS LABORITE

London, Aug. 25.—As generally expected, the by-election in the constituency of Caerphilly, in the mining district of Wales, resulted in the return of Morgan Jones, Laborite, whose vote was 15,939, as compared with 8,958 for W. H. Edwards, Liberal, and 2,992 for Robert Stewart, Communist. The only question in regard to the voting was to show how far the vote for Stewart would split that of Jones, to the benefit of the Liberal candidate.

The by-election was made necessary by the death of Alfred Owens, Laborite, who, in the last general election, was elected by a vote of 11,496 against Edwards's vote of 9,482.

Mrs. Wintingham, widow of the late member of the House of Commons for Louth, will be the independent-Liberal candidate in that constituency in the coming by-election for a successor for her husband in that seat.

Mr. Wintingham was elected at a by-election in June, 1920, with a vote of 2,369 against that of 7,354 for C. H. Turner, Coalition Unionist.

Mrs. Wintingham's opponent in the present campaign is Sir Alan Hutchins, Conservative, who has had the advantage of having his candidature before the electors for some months. Sir Alan is regarded as one of Premier Lloyd George's lieutenants politically.

It is probable a Laborite will be a candidate in this election.

LABOR DELEGATES ELECT OFFICERS

Debate on Unemployment at Winnipeg To-morrow

Winnipeg, Aug. 25.—Officers are to be elected at this afternoon's session of the annual meeting of the Trades and Labor Congress of Canada.

To-morrow, the closing day of the convention, there will be a debate on unemployment and immigration.

Last night the Congress made a strong protest against the attitude of Mr. Hon. C. J. Doherty, Minister of Justice in the matter of what was called "peaceful picketing." A memorandum credited to Mr. Doherty declared that all experience and evidence went to show that "watching and besetting for the purpose of peaceful picketing is really a consolidating term."

"Picketing, however conducted, must be a matter of compulsion, said the memorandum.

"Any amendment to the law," continued the memorandum, "which will legalize or sanction under the guise of description of peaceful picketing, a practice which has come to mean seeking to compel a man by terrorism to abstain from doing that which he has a legal right to do, could not be advised."

"Peaceful picketing is legal in England directly and solely as the result of the political influence of organized labor," commented J. W. Wilkinson, Edmonton, in moving the protest, "and until the same condition is brought about in this country, labor will have to put up with this sort of thing."

Railwaymen

Several delegates denied the suggestion of President Mosher of the Canadian Brotherhood of Railroad Employees, that the adverse vote against his organization had been influenced by the "biased" status headquarters of international unions.

The Congress approved its continued affiliation with the international federation of trades unions; gave its "unequivocal endorsement" to the effort being made by the bank and job branches of the printing trade to establish a forty-four-hour week; and instructed its executive to grant all the assistance in its power to bring about that result; decided to continue to press for representation on the Canadian Railway Commission, and recognized again the desirability of the two-platoon system for firefighters with a day of twelve hours and a week of not more than seventy-two hours.

Councils.

At the afternoon session yesterday the attitude of the Congress toward the establishment of councils of industry was expressed in the endorsement of a letter from President Moore of the Department of Labor containing the following sentence: "Organized labor is opposed to the formation of any council which will oppose or even ignore the existence of labor organizations and their elective representatives."

The belief was expressed that employers are inclined to use such councils for their own purposes, and that the workers suffered unless the councils recognized fully trades union organization.

"Nothing is more menacing to the international union idea," said James Simpson, Toronto, "than this plant council idea, if we give it any encouragement and if employers make headway with their plans."

A committee report called attention to the Hanna "no politics" order on the Canadian National Railways and remarked that the order was still in force, although the company had backed down in specific cases. In a resolution was adopted, after considerable discussion, instructing the executive committee to request the Dominion Government to establish the permanent supremacy of the Department of Labor in the investigation and determining of rates of wages and general working conditions to be observed in all Government contracts and other undertakings financially assisted by the Government, and requesting the executive to prevail upon the Government to establish the eight-hour and all other Government works."

J. Bruce of Toronto, declared that Senator Robertson had "double crossed" the workers in the Toronto shipbuilding matter. The Labor Minister's letter to the Congress, presented on Tuesday, in which he said that prevailing rates of wages were being paid on the canal work, was read again, and Mr. Bruce read a telegram from a business agent on the job in reply.

Robert Lynch, Montreal, expressed the view that "pious resolutions" were no good to an employee's stomach.

James Simpson, Toronto, declared the Minister was only a "messenger" for other Ministers.

J. Flett, Toronto, referred to what he called the "political trickery" of Senator Robertson.

BANDITS' LOOT OF LITTLE VALUE

St. Thomas, Ont., Aug. 25.—Roving bandits staged a hold-up north of Port Stanley yesterday, when Francis Conway, a taxi driver, was held up by a passenger who, with a confederate, tied up and trusted him to a fence in an adjoining cornfield.

They went through his pockets, but he had little of value.

AIRMAN KILLED.

Montreal, Aug. 25.—Albert Dumont, twenty-seven, who had been flying a Curtiss biplane, died yesterday as the result of a crash last evening at Lazard Junction. Dumont was practicing for a pilot's certificate.

AEROPLANE SMASH ON PEACE RIVER

Peace River, Alta., Aug. 25.—A serious mishap in landing at Peace River occurred Wednesday when a monoplane owned by the Imperial Oil Co. attempted to alight on the stream after completing a 1,100-mile flight from Simpson.

No injuries were suffered by the crew or passengers, but the machine was badly wrecked, and is almost completely submerged.

Capt. G. A. Gorman, with Mechanic W. J. Hill sitting with him, and two passengers, Chester A. Bloom and Walter Johnson, were in the machine when the surface was struck.

Instantly a rock on a hidden sandbar wrenched the right pontoon clear from the machine, and the impetus of the 90 miles-an-hour landing speed twisted the machine around and crumpled the left wing.

CHICAGO HAS BUILDING BOOM

Chicago, Aug. 25.—The building situation, killed by stagnation during the war, was undergoing a tremendous revival in Chicago, according to figures made public today. Permits for building operations issued to date during August total \$3,000,000, or almost double the value of permits issued during August, 1914.

The permits in number exceed those of any corresponding month in the last five years.

KIEL TYPIFIES GERMANY'S DOWNFALL

Only Two Antique Cruisers Moored There Now

German-Americans who frequent the lobbies of hotels in Berlin can sometimes be heard remarking that Germany won the war.

If they were to visit Kiel and other German naval bases they would probably get a decidedly different impression. Nothing could be more complete than the desolation which hovers over Kiel harbor, formerly the pet harbor of the German navy and probably the best harbor in all Europe, according to an Associated Press mail dispatch from Kiel.

The great shipyards which created most of the craft for the German navy are silent. Rusty sheds mark the scene of former activity. Idle, deserted docks stand as sad reminders of days when Kiel was the point to which all German eyes, and in fact all the eyes of Europe, were directed.

All machinery which the Allied commission regarded as useful for war purposes has been dismantled. Elevators, cranes and other expensive equipment have been moved away to recompense Germany's enemies for the damage done by Admiral Tirpitz's submarines.

In normal times Kiel had 50,000 naval officers, sailors and employees in the harbor all the time. Now the naval personnel is less than 1,000. The city which formerly had a population of 250,000 has lost all of its great Government payroll and one-fifth of its population.

Forts Destroyed.

Fort Falkenstein and the other batteries which covered the Baltic entrance to the Kaiser Wilhelm Canal have been reduced to piles of crumbled concrete and twisted steel. Their great guns have been sawed into bits and pitched into scrap heaps.

The naval academy is closed. An empire without a navy has no use for more naval officers. The attendance at the university has dwindled. The castle of Prince Henry, overlooking the naval harbor, has been taken over by the workmen for a club, and there are no warships in the magnificent waterway where the former Kaiser Wilhelm used to review his navy with pomp.

It was here that the flower of the German navy lay safe behind torpedo nets, during most of the war. At present there are only two antique cruisers lying at the imperial naval docks. These were so far out of date that the British and French did not think it was necessary to scrap them, and hesitated to offer such craft to any of the nations which had helped win the war. But Kiel derives little benefit from the business passing through the canal and cannot revive materially until exchange conditions become such that it can again buy timber from the Scandinavian countries and resume its importance as a lumber depot for Central Europe.

STOLE RIFLE TO ROB PAWNBROKER

San Francisco, Aug. 25.—A young man, jerked a loaded rifle away from a clerk who was demonstrating the weapon to-day, fired the clerk up against the wall and disappeared with the rifle, according to the police. Later he held up the proprietor of a pawnshop at the point of the rifle, took \$5.50 in antique coins from a tray in the window, fired a shot at the proprietor, as the latter dashed out of the door, and then was disarmed by a policeman after a hand to hand struggle. A charge of attempted robbery was placed against him.

AFRICAN RAILWAYS.

London, Aug. 25.—A Reuter dispatch from Johannesburg says there is a prospect of trouble on the South African railways, which are owned and administered by the Government, as a consequence of the Minister of Railways submitting certain proposals, principally affecting the question of hours, to the railway's executives, arising out of its financial position.

LAHORE PEOPLE NOT READY TO WELCOME PRINCE

London, Aug. 25.—A Reuter dispatch from Lahore, India, reported that a mass meeting presided over by the Nationalist leader, Talaib Lalpat Rai, passed a resolution stating that "while the wounds resulting from martial law in the Punjab are still unhealed, the Khalifa pledges are unredeemed and famine conditions prevail throughout the country, the people of Lahore are not prepared to extend a welcome to the Prince of Wales, who is due in India on a visit this fall."

Two speakers opposed the resolution, urging that the Prince should be given an opportunity to see the present conditions of the country and expressing confidence that he would redress wrongs.

The Lahore municipal committee also decided to boycott the Prince's visit.

PROBLEMS SPOKEN ON BY MASSEY

New Zealand Prime Minister Returning Home

London, Aug. 25.—(Canadian Press)—When leaving London yesterday for home, Premier W. F. Massey of New Zealand, in an interview given at Euston Station, said: "The problems which we must give immediate consideration are improved means of inter-Empire communication, a preferential system to develop trade within the Empire, maintenance of naval strength sufficient to ensure protection of Empire citizens in all parts of the world, and also the re-gaining of our previous unchallenged supremacy in trade and commerce."

RETAIL MERCHANTS CHOOSE OFFICERS

1922 Meeting of Dominion Association in Halifax

Winnipeg, Aug. 25.—J. A. Banfield, Winnipeg, was re-elected Dominion president at yesterday afternoon's session of the Retail Merchants' Association convention.

Other officers of the Dominion executive council were elected as follows:

First vice-president, J. G. Watson, Montreal; second vice-president, Jack Wood, Swift Current, Sask.; third vice-president, J. Dewolf, St. Stephen, N.B.; fourth vice-president, T. A. Gaetz, Red Deer, Alta.; fifth vice-president, W. J. Hoopwood, Halifax; sixth vice-president, G. H. McRobbie, Vancouver; treasurer, Henry Watters, Ottawa; secretary, E. M. Trowen, Ottawa.

It was decided to hold the next convention in Halifax.

Oriental.

Winnipeg, Aug. 25.—Complete exclusion of Orientals as the only means of combating the Japanese and Chinese menace on the Western Coast and in other parts of Canada, was urged by George Hougham, of British Columbia, at the closing session of the Retail Merchants' Association convention here yesterday afternoon.

The convention then adopted his resolution asking that the viewpoint of each Provincial branch be ascertained and that the Retail Merchants make representations to the Dominion Government for drastic action on the Chinese immigration problem.

Mr. Hougham attacked the Oriental policy of "peaceful penetration" and gave an outline of conditions obtaining on the Pacific Coast in regard to Orientals.

The question of licensing mail order houses, either in the municipalities where they do business or in the Province, was taken up, but it was decided that the Association had no power to control this phase of business.

A resolution demanding that the press of Canada refrain from publishing articles that probably would be derogatory to trade was withdrawn after Mr. Houghton declared that neither the retail merchants nor any other class could interfere to the editorial department of a newspaper.

ALIGHTED IN FOUR FEET OF WATER

American Survivor of Airship ZR-2 Tells Story

Howden, Eng., Aug. 25.—Norman Walker, sole American survivor of the wrecked airship ZR-2, to-day gave the Associated Press a circumstantial account of the disaster.

"I was at the lower rudder proceeding back to the tail and had just reached the cockpit," said Walker, "when there was a tremendous crash. The girders amidships broke and the ship split in halves.

"Both the tail and nose immediately sagged downward and the halves started toward the Humber.

"I made a rush for the tail to get a parachute, but I found two of my English comrades, Harry Bateman and Walter Potter, were already there for the three of us. Bateman had the chute and jumped, but it fouled and hung to the tail of the dirigible.

Explosion.

"Both Potter and I started to run forward for other parachutes, but just as I got in the keel there came an explosion of either a petrol tank or gas to sweep the forward part of our half of the ship.

Rolled Forward.

"What was happening to our comrades in other parts of the dirigible I don't know. Most of the officers and crew were amidships, either seated or lying in their bunks, when the girders broke. At least one man dropped through the gap made by the break. Possibly others did, but probably most of them rolled forward when the airship's nose went down.

"I ran back to the tail to get away from the fire in the bag. Bateman, Potter and I got into the cockpit. By this time the gas was becoming depleted and the ship was shooting down rapidly. The forward half had already beaten us toward the water. We could not parachute then as we were too low—only a few hundred feet up.

Jumped.

"I saw we were going to land in the water, so I climbed on the fabric forward of the tail cup. I could not tell how fast we were falling, but when I thought we were going to strike I jumped.

"I was surprised to find my feet striking the bottom. I had landed in four feet of water near shore. Both my comrades stuck to the ship and continued to cling to her as she struck. I managed to scramble aboard the wreckage and the three of us were picked up by a tug."

SGT. ASPDIN, R. N. W. P., DEAD.

Vancouver, Aug. 25.—Sergeant C. E. Aspdin, formerly of Staveland, Alta., died here suddenly to-day. He was 61 years old, and had thirty-eight years' service in the Northwest Mounted Police when he retired two years ago and took up his residence in Victoria.

B. C. BOARDS OF TRADE GROWING

Nelson, Grand Forks and Rossland Join Associated Body

Nelson, Aug. 25.—After hearing luncheon addresses by Frank Parsons, Secretary W. E. Payne and Commissioner B. A. McKelvie, of "Made-in-B. C." fame, all of Vancouver, the Nelson Board of Trade yesterday adopted a resolution affiliating with the Associated Boards of Trade of British Columbia. This is the third board of trade of this district to succumb to the wooing of the coast delegates on their tour, Grand Forks and Rossland being the first two. The Trail Board, owing to its meeting being in the daytime, and not fully representative, postponed its decision to a later date. The delegates went on to Fernie.

Mr. Harwood Steele, son of Lady Steele and Mr. Whittaker, of the Union Bank of Canada, Vancouver, are here on a tour of the island. They are the guests of Captain and Mrs. Davidson, Fawley Farm, Soanens.

The Cowichan Women's Institute will have a special exhibition of all kinds of women's work at the Fall Fair in September. The committee in charge of this are: Mesdames Innes-Wood (president), R. L. Henderson, Lamont, Hopkins, Brookes.

At a special meeting of this committee held last week it was decided to hold the following competitions: A made and trimmed hat. A knitted dress. An article made of raffia. A round of canvas. The best use made of an empty can as an economical device. The competitions are open to all and the prizes in each case will be first, \$10.00; second, \$2.00. Mr. Ash has offered a special prize for the best hat made on a wire shape covered with silk, velvet, or crepe de chine and lined. Making of hat to count more than trimming. Any further information can be obtained from Mrs. Innes-Noad, Maple Bay.

Board of Trade. Courtenay, Aug. 25.—Tuesday night a meeting of the Courtenay-Comox Board of Trade was held in the City Hall, a large number of members being present. After opening the meeting, the president introduced J. Brownlee, of North Vancouver, who had come to Courtenay to talk over the proposal to establish a first-class white laundry in the district. He asked the co-operation of the Board in an endeavor to secure a small amount of financial assistance, and after he had told the meeting of the possibilities for success in this extensive district, a committee was appointed to find out just what assistance might be expected.

MAY EXTEND PERIOD OF CONFERENCE VISIT

Press Congress in Hawaiian Island May Be 20 Days

Honolulu, Hawaii, Aug. 26.—(Special Correspondence).—Although it was originally planned that the forthcoming sessions of the Press Congress of the World be held from October 11 to 25, it is now probably that the 500 or more delegates will remain in Hawaii for twenty instead of fourteen days. Lorin A. Thurston, publisher of the Honolulu Advertiser and vice-chairman of the local executive committee, has gone to San Francisco to look into transportation matters, and while there expects to complete the 20-day arrangements.

The additional days will materially assist the local entertainment committee. It is an opportunity to prepare for even a more elaborate programme than was at first planned. Although five and one-half days of the delegates' stay in Honolulu will be devoted entirely to business matters, all of the remaining time will be given over to sightseeing, receptions, surf-riding, excursions to interesting places, pageants, "hauas" and other Hawaiian feasts, and swimming at famous Waikiki Beach.

The tentative programme and list of speakers show that some of the world's most distinguished journalists will come to Honolulu for the Press Congress, and each day of business in the old throne room in Iolani Palace, now the executive building, will be replete with interesting papers, addresses and discussions.

Although the bulk of the delegates will come from mainland America, such countries as England, New Zealand, Australia, the Philippines, Central America, South America, China, Japan, Norway, India, Greece and Canada will send fairly large delegations.

HAVE AMPLE FEED FOR LIVESTOCK

Farmers of Prairie Districts Expect More Hay

Ottawa, Aug. 26.—Telegraphic reports covering the live stock situation on the prairies have just been received by the Department of Agriculture from Provincial deputy ministers and principal officials in the Department of Agriculture of the three prairie provinces.

All go to show that the supply of feed is quite ample. The probabilities are, furthermore, that a good deal more hay will yet be made, particularly if dry weather is realized. Cutting is difficult as the sluices are rather full.

SIX SEATS IN COMMONS VACANT

Ottawa, Aug. 26.—The death of Sir Sam Hughes made the sixth vacancy in the representation of the House of Commons, one of which will be filled with the holding of the by-election in West-York constituency on October 6.

The writs for the by-elections in the St. Antoine division of Montreal and Leeds and Brockville are not expected to be issued immediately, though under the new law they will be issued during the next month.

In the six vacancies at present existing all constituencies, except Maple Creek, were formerly represented by Government supporters.

POSTAL WORKERS CONVENTION ENDS

Officers Elected and Enjoyable Banquet Is Held at Dominion

F. R. Sutton, Winnipeg, was elected president of the Amalgamated Postal Workers' Association at the termination of the convention here yesterday. The election of divisional officers resulted also as follows:

Vice-presidents—British Columbia, F. Knowles, Vancouver; Alberta, E. M. Davies, Calgary; Saskatchewan, G. Bragg, Regina; Manitoba, S. C. Berridge, Brandon; Ontario, H. T. Chennelle, Sault Ste. Marie. Secretary-treasurer—J. A. Eirick, Winnipeg.

The convention was concluded with a banquet at the Dominion Hotel and the visitors expressed appreciation of the manner in which they had been welcomed to Victoria, a resolution of thanks being extended to the local postal employees for their hospitality.

The delegates at the convention represented cities from Sault Ste. Marie to Victoria and many were the remarks of delight heard from the visitors regarding the beauty and attraction of Victoria and the surrounding district.

G. C. Bloomfield officiated as toastmaster and there was a lengthy toast list, to which people who could not attend responded to the toast to Victoria and Christian Sivertz replied to the toast to "Our Dominion." The latter took occasion to refer to the great need of a spirit of good will and of the necessity of each man and woman taking his or her part in moulding the affairs of the nation by exercising his influence so that a peaceful evolution might take place which will benefit the Dominion and other countries as well.

Postmaster H. F. Bishop rendered a most interesting comparison of the methods followed in the post office department of fifty years ago and to-day. It was fifty years ago that Victoria sent the first mail-over-land by boat to Portland and thence to San Francisco, whence it was sent East over the Union Pacific lines.

"How would those people who complain at the service to-day feel about it then when English mail took a considerably greater time to reach its destination than now," said Mr. Bishop.

Alderman E. S. Woodward replied to the toast to "Canadian Labor." Referring to Peter Wright's statement that the welfare of the Empire rests with the youth, Mr. Woodward said that the youth would be alright if assured a good wage without interruption. Canadian labor had for its ideal the well cared for youth. With a rise in the standard of living for the workers would come a rise in the spiritual life of the people, he said.

The toasts "Our Organization" and "The Visitors" were responded to by Messrs. J. A. Eirick and R. Knight, respectively, and the gathering terminated with the enthusiastic singing of the National Anthem.

During the evening the banquets were entertained by songs by Miss Lily Dooley, Seymour White, E. Impett, Tom Dooley, and the slight-of-hand performance of Messrs. Harold Diggon and J. Trace, the latter of whom was accorded great applause for his vocal rendition.

JAPANESE ASK AID OF OTTAWA AGAINST B. C. LEGISLATION

Government to Take Anti-Oriental Contract Law to Courts

Vancouver, Aug. 26.—The Japanese of British Columbia have sought the aid of the Ottawa Government by asking disallowance of the act passed by the 1921 Legislature of British Columbia to prevent Japanese from being employed on Government contracts, Crown lands and Crown forests.

This statement was made by Attorney-General Farris before leaving with the legislative body for an inspection tour of the P. G. E. Railway yesterday.

"The Minister of Justice has written stating that the Japanese have requested him to disallow the act," Mr. Farris said.

"Ottawa takes the view that our legislation is contrary to the spirit and terms of the Anglo-Japanese treaty. I have pointed out to the Minister of Justice that our object in passing the act was to raise the straight issue as to the constitutionality of our anti-Japanese legislation and get, if necessary, a Privy Council decision.

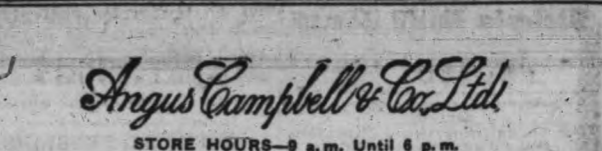

"Under these circumstances an arrangement has been made whereby our act will not be disallowed by Ottawa, but we will not enforce it pending a decision as to its constitutionality."

Steps are being taken, Mr. Farris declared, to get the question before the Supreme Court of British Columbia and to carry the decision to the higher courts, if necessary.

ITALIAN INVENTOR MAKES CLAIM FOR NEW FUEL

Rome, Aug. 25.—Through the invention of a gas generating mixture composed of alcohol and a sulphur-carbon combination, the cost of operating automobiles and all internal combustion motors can be reduced one-half, according to the claims of Engineer Sesti, who after exhaustive experiments under the auspices of the Italian government has completed a report on the possibilities of the new combustion.

The use of the new gas-generating mixture pre-supposes the employment

AUTOMOBILE COST CUT IN HALF

Italian Inventor Makes Claim For New Fuel

Rome, Aug. 25.—Through the invention of a gas generating mixture composed of alcohol and a sulphur-carbon combination, the cost of operating automobiles and all internal combustion motors can be reduced one-half, according to the claims of Engineer Sesti, who after exhaustive experiments under the auspices of the Italian government has completed a report on the possibilities of the new combustion.

The use of the new gas-generating mixture pre-supposes the employment

of a special kind of carburetor, which Signor Sesti has evolved. The experiments have been in progress over a period of almost three years, and were begun with a special view of lessening the cost of automobile fuel.

The new fuel has a density greater than that of gasoline in the ratio of 925 to 730. It is urged that the adoption of the fuel will considerably lessen the importations of foreign gasoline. Practically all the raw materials necessary for the new fuel can be found in Italy.

The inventor claims that the exhaust gas is less obnoxious to the lungs than the fumes of gasoline. The use of crude alcohol to the proportion of 70 per cent. is employed in the fuel while the remaining 30 per cent. is taken up by the sulphur-carbon combination.

THE ELK LAKE PROPERTY.

Reeve Watson says Saanich is willing to forego its claim to tax the Elk Lake property if the area be used by the city for park purposes. The Times has been informed many times by members of the Victoria City Council that their intention is to devote the property to that very purpose.

DOWN TO CASES.

All I ask is that people should pay the same attention to children as animals. Mr. Peter Wright. In his address to the Rotary Club yesterday afternoon Mr. Peter Wright went to the heart of one of the greatest questions of the age—the child and its future.

How often have Ministers of the Crown pointed to the gradual improvement in the health standards of the country's livestock? That progress has been made solely by a continued study of and profit from the lessons of the past.

And if obsolete methods can be discarded by a Department of Agriculture can they not be eliminated from the administration of a Department of Education?

IMPERIAL PENSIONS.

The Times is informed that warrants for pensions received by former Imperial army officers in this country have been made subject to the current rate of exchange. That is to say, they are paid at the rate of \$4.07, the present value of the pound in Canada, instead of on the basis of \$4.86, the par value.

This is a degradation of the reward of patriotic sacrifice to the exigencies of commercialism with a vengeance. There was no such qualification of the service and suffering which earned that compensation; certainly the men who receive those pensions did not dream, when they were at the battlefront, that their ordeal some day would be translated into a commercial commodity which would be subjected to the fluctuations of the exchange market like a cargo of bacon.

BACKING DOWN?

While Eammon de Valera's reply to Mr. Lloyd George is by no means lengthy in itself the essence of the document is a suggestion that the Dail Eireann is willing to negotiate on the principle of government by consent of the governed and ready to appoint a representative with plenary powers to discuss details on this principle.

The major part of the obvious "padding" is a reiteration of the Sinn Fein interpretation of Ireland's relation to the British Empire and another reminder that "if war be made upon us, we must defend ourselves, and shall do so."

It may be that Mr. Lloyd George and his colleagues will be prepared to extend the autonomous provisions of the offer into something more closely resembling the full benefits enjoyed by this country. In the meantime hope of a settlement is much brighter in the absence of a renewal of the declaration that nothing short of complete independence would satisfy the Dail Eireann.

ERZBERGER DEAD.

The meagre details contained in a cabled dispatch do not indicate the youthful motive which prompted the assassination of Matthias Erzberger. The dead man will be remembered for the important part which he took when the armistice was being negotiated in the early day of November nearly three years ago.

NOTE AND COMMENT

It is easy to understand Mr. Peter Wright's view of the professional Bolshevik. He says they are educated men and work quietly. There is the trouble. Russia's population is almost all illiterate and that is why Bolshevism thrives there.

As it was with the Titanic so it was with the ZR-2. The "biggest yet" has succumbed to forces which it had considered were conquered. But the intrepid aviator will go on until he has made his conquest.

HOROSCOPE

FRIDAY, AUGUST 26, 1921. (Copyright, 1921, by The McClure Newspaper Syndicate.) The stars incline, but do not compel.

There is to be a conjunction next week, that rising in Constantinople, read to foreshadow the dismemberment of the Turkish Empire. Since the idea peace must become firmly fixed in the human consciousness, the seeds declare that disarmament will have mixed success, but it will be the final attainment of a world that then will begin to be civilized.

SMALLPOX CASES IN ROYAL CITY

New Westminster, Aug. 26.—Suffering from smallpox, five patients and two nurses were up to noon today taken from the Royal Columbian Hospital to the isolation hospital. The cases resulted from contagion from a patient brought in from the Langley district, it is claimed. One ward of the hospital has been quarantined. Reports indicate minor outbreaks of the disease in several districts of the Fraser Valley.

Labor Has No Wish To Form A Government In England, Says Wright

But Labor Party Is Developing Beyond Bounds of Labor Class; Declares "Reds" Spreading Extensive Propaganda In Canada and United States; Revolutionary Day Is Gone In Britain.

The British Labor Party does not wish now to form a Government in England, Peter Wright, the British Labor leader, declared in the course of an interview with a representative of The Times this morning. Labor men realize that the formation of a Labor Government would be the worst possible blunder into which they could fall, he declared. The Labor Party, he said, had purged itself of "Red" influences and was now under the leadership of moderate, sane men. But labor men in league with the Russian Soviet Government were never so active as they are now, both in the United States and Canada, he warned.

"The Labor Party, in my opinion, will hold its own at the next election," Mr. Wright stated. "It will increase its strength in Parliament much largely on account of the fact that a great many citizens who were inclined to support the Labor Party got scared because of the recent miners' strike. No, there is no chance of a labor government. Not the slightest chance. Each of the labor leaders want. They do not wish to form a government now. They do not want to have to take hold of the present mess. The formation of a labor government would please labor's enemies as nothing else would, because they know that a labor government could not hope to succeed."

"Labor will not come into power for five years at least," he said. "The control of a democratic government should be in the hands of a party which represents only a section of the country, however large it may be. But the Labor Party is developing. It is no longer confined to work with their hands. The middle classes more and more are joining with labor. The Labor Party is developing into something more than a movement of laboring men. The Labor movement is broadening but more and more it is taking into its ranks intellectual men. 'No, labor does not wish to form a government now. What we want is a good strong party to work in opposition.' Mr. Wright doubted that the Labor and Liberal Parties would come together in time. "I know prominent Liberals who have a tendency toward the Labor Party, though," he added. "Those Liberals, I may say, are men that count."

Repudiate "Reds." The labor movement in Britain is under the leadership of moderate men, not radicals, Mr. Wright declared emphatically. He recalled that at a conference of the Labor Party in Brighton last May groups who played the doctrine of communism attempted to join with the Labor Party. Their effort was turned down by the Labor Party by a majority of 5,000,000 votes, Mr. Wright recalled. "The red revolutionary day is gone," he asserted. "Labor turned down the communists and refused to associate with Lenin's internationalism. I believe, in my heart that the labor movement is the greatest ethical and Christian movement for the progress of mankind in the world today. There is no movement that has as sound ideals as you find in the constitution of the Labor Party."

Miners' Strike. Asked about the recent miners' strike, Mr. Wright declared that the strike had not in any sense been a defeat for labor. "The strike, to my mind is one of the greatest occurrences so far to show that Britain is a free country. At the completion of the strike one of the biggest coalition owners said to me, 'Peter, I am proud of you beggars. No nation that has men like that will ever go to the dogs.'"

The miners fought for an ideal, Mr. Wright affirmed, as he described the events that led up to the strike. "The Government was the real culprit in breaking the contract under which the coal mines were in operation. The strike has been a great defeat for the Government. "The strike was, in a sense, the best thing that could have happened, because there was an element that was not in the Government and communism—out for the introduction of soviet and had said so publicly—an element which included some of the leading men. These revolutionaries were very strong following. By accusing men like Clynnes and Thomas of selling out to the masters they had won considerable support. "There were men who said that they would win out and obtain their objective during the miners' strike. But they didn't. The strike has brought us to our senses."

Extensive Propaganda. "Never before were such large amounts of Red literature distributed as to-day in Canada and the United States. This sort of thing is bound to grow with unemployment. When a man is hungry and cold any philosophy or theory which offers relief naturally appeals to him. On the coast there is not much of this business here in the timber industry. There is evidence of it in the East of Canada and in Winnipeg. "My belief, of course, is opposed to that of the Bolsheviks because I believe that present evils can be altered by sanity and under our present constitution. Force is useless. Look what has done in the hands of the military officers that could be put there have failed to reach a solution of the Irish problem."

Talks on Civics. Asked to explain his views on municipal government, Mr. Wright, who was formerly mayor of New Port, Hon., preferred to ask some questions himself. "If a board of directors want to extend a plant and spend say five million dollars on it, what is the use of it? They get an expert and are guided by his advice, don't they? To my mind every municipality should employ experts to run its engineering, financial and other business. But what's the use of having experts if a board of aldermen can upset the expert's advice? I believe that cities should be

TWENTY-FIVE YEARS AGO TO-DAY. Victoria Daily Times, August 26, 1896. The fine steamer Tees arrived from her initial trip to the West Coast at six o'clock this morning, having made the harbor with difficulty in the dense fog which settled down on the Straits early in the morning. In groping around in the mist she grazed the sunken portion of the hull of the San Pedro, which is still securely affixed to Brothie Ledge, regardless of the efforts of Messrs. Prior and Earle. The Tees has left now for the West Coast on her first trip. The cannery industry of the Clayoquot and Nootka, up to the present has been in a state of depression. Word has reached the civic authorities from Ottawa to the effect that the Federal Government intends to dissolve the injunction which is blocking the city's plan to build a pile bridge at Point Ellice.

UNEMPLOYMENT IN BRITAIN DECREASES. Registrations This Week Total 640,000. London, Aug. 26.—(Canadian Press Cable).—Unemployed registrations in Great Britain this week total 640,000, which indicates a reduction of 48,000 for the week. The directors of the Brunner Mond works in Cheshire threaten to close the plant if a pending dispute over wages and hours results in a strike. Ninety per cent. of the workers in the plant assure the firm that they will remain in the shops if a strike is called. The stagnation of the Yorkshire textile trade is becoming prolonged. This has been attributed largely to the maintenance of excessive tailoring lessening the demand for new materials. Also the export trade is suffering through the high costs of production in competition with those of Germany, where the wool combers get 24 shillings for sixty hours work as compared with 40 shillings paid for 48 hours' work in the mills at Bradford, England. Prices of furniture are falling substantially following recent reductions of wages of workers in this line.

WAR CROSS IS ERECTED IN FRANCE. London, Aug. 26.—(Canadian Press)—A Reuter dispatch from Amiens says an impressive ceremony took place yesterday at Bonny Cemetery, which was principally devoted to the burial of Australian and British soldiers, the occasion being the unveiling by Premier Hughes of Australia of the Cross of Sacrifice erected by the Imperial War Graves Commission. Premier Hughes spoke in English and French and paid a tribute to the fallen of the British Commonwealth and of the nations. He declared that France knew the meaning of sacrifice and the sacrifices made by the soldiers of Australia was too solemn and sacred for words. The Australians, he said, were among the foremost among the most devoted and among the bravest in the titanic struggle. Later Premier Hughes presented the City of Amiens with a flag sent by Australian mothers in memory of the part played by the Commonwealth war armies in the defence of that city. COMMITTED SUICIDE. In Fall Opening Displays

The crowds that are attending the opening of our Fall Millinery Display are showing their appreciation by making this department one of the busiest in the store.

To-morrow is the third day of the Fall Millinery Opening, and we cordially invite one and all to come and view the most beautiful array of exquisite millinery, brought from the three greatest centres of fashion, Paris, London and New York, and making the finest display we have placed before the public. Come expecting thrills, for thrills you will have—delightful, pleasure-giving thrills of appreciation.

The Fall opening displays are full of an unexpected beauty that appeals in generous measure. The best that Paris couturiers had to give has been added to the choicest work of America's masters of the fashion world.

Not in years have you been blessed with so much freedom for individuality as in the new millinery modes. Little hats close set with tiny wings, big hats with drooping plumes, felt and fabric hats: All are good, so they become you and play well their vital part in the ensemble. You will enjoy them all with their flattering airs.

Come to-morrow and see the exposition of new season's modes of pronounced quality within a price range that distinguishes Autumn, 1921, as a season of happy economy.

Creepy and Soft Crab waited for some minutes but nothing more was heard. "He is gone," said Creepy. "Wasn't it queer he should have heard us talking? I never heard of the Fish Magician before, did you know about him?"

She was on time and waiting when Creepy arrived at the rock. "Better hand on to me for a moment," he said, "I'll tell you something." "What?" demanded Rose Leaf. "You do not expect me to go home in the dark, do you Creepy, and if I should decide to stay under the sea I will take him right along now."

Augusta is a regal name. It figures prominently in early history and has names of Emperors, Queens and other famous potentates. In the beginning, it was employed merely as the feminine of the masculine title of power, Augustus, the venerable and honorable name - it signifies "honorable" by the way - was the agnomen conferred by "homage" the second Caesar, and it meant "revere" or "set apart." It was given with the idea of honoring majesty upon him without offending the citizens by the use of "King."

FORTUNE GALLO ON GRAND OPERA One Night Stand Opera Doomed, He Says

At the national convention of the theatrical managers in New York recently, Fortune Gallo, the grand opera impresario, called attention to facts and figures which indicate the necessity of decided changes in the booking and transportation of large companies and performers in the future.

Reasons for Change. There are two causes that have brought about this change of policy, said Mr. Gallo. "One is the mounting cost of everything which makes short stays in smaller cities prohibitive, and the other is the big attendance registered for the four-week season of the San Carlo Opera at the Manhattan Opera House last September and October, which demonstrated that there is a large clientele for grand opera at popular prices in the big eastern cities."

Mr. Gallo has added or substituted numerous lyric notables to his San Carlo roster this season. The sopranos include Elizabeth Amisden, former soloist of the Boston and Chicago Opera companies; Sofia Charlebois, long a San Carlo favorite; Anna Fitzio, formerly of the Metropolitan and Chicago Operas; Madeleine Keltie, American lyric soprano; Josephine Lucchese, a young coloratura soprano recently discovered.

Rachac's Fine Catch Robbed Caps of Game

Beavers' Outfielder Cut Short Victoria's Rally In Ninth By Pulling Down Messner's Hot Drive; Caps Scored Early But Visitors Evened Count By Smart Work In Ninth.

Victoria, 1; Vancouver, 1.

Big Max Rachac's thrilling one-hand catch of a wicked drive off Messner's bat in the ninth inning last evening saved the Beavers from certain defeat. Rachac is the five-thousand-dollar pitching beauty who is to perform with the New York Giants next year and usually is content to confine his activities to the mound.

Rachac had very little to do out in the pasture, but along in the ninth when the Capitals wanted one tally to win the game he looked like a regular Tris Speaker. Hansen, who went in to bat for Washington, was given a pass. Messner then stepped into one of Brindza's fast whoppers and shot the ball over the infield. The ball did not travel high and seemed to be destined to crash into the boards. It was a hard ball to judge and Rachac did not get any too good a line on it.

What Might Have Happened. This catch was the turning point and cut out of the Capitals' rally. Had the ball dropped safe Hansen would have made third and a second later would have scored when Dempsey crashed a single to centre.

The cards, however, were not stacked that way and with two men down Ed Handley performed the Casey stunt and whiffed for the third out.

Umpire Heid considered the visibility too poor for further action and called the game with the score a tie. The game was a thriller all the way along with plenty of fast work by the fielders, some nice base-running and very effective work on the mound by the opposing pitchers.

A Hard-Luck Boy. Johnnie Washington seemed to be the hard-luck boy. It does not matter how great an edge he has on the opposing hurler he seems unable to win.

Two Laughs. In the third, Brindza laughed at Washington's ladylike swing at the first strike. He turned right around and laughed back at Brindza by cracking the ball to left for a single.

There was no further scoring until the ninth when the fans, about ready to amble home, were called back by a rally by Vancouver. Marty Purtell scratched a single and Wilson's sent in to pinch-hit for Marquis.

Squeeze Play Failed. The Caps made the eighth a lively inning. Handley led off with a double play set up on Bankhead's roller. M. Purtell muffed the ball.

CLEVELAND JUMPS INTO LEAD AGAIN

Indians Won Over New York Yesterday and Lead League by Single Point

Pittsburg's Lead Again Reduced Through Victory of New York Giants

New York, Aug. 25.—Cleveland today was leading New York by a single point in their spirited contest for first place in the American League. The Ohio team batted its way back to first place yesterday by making 17 hits in a 15 to 1 victory over the eastern team.

Today the New York team moved on to Detroit while Washington was scheduled to play at Cleveland.

Pittsburg's lead in the National League was further reduced by New York's third consecutive victory over the Pirates. Pitcher Toney won his game with a home run.

The St. Louis Nationals continuing their winning streak were successful over the Boston Braves for the third time.

Four straight victories was broken in Cincinnati with Marquard pitching.

Indians Protest Game. Cleveland, Ohio, Aug. 26.—The Cleveland Indians yesterday protested yesterday's 2 to 2 defeat by the Yankees and requested an immediate ruling by Ban Johnson, so that the ninth inning may be replayed here from the protested point on August 29, an open date for both clubs.

Indians and Yanks in Wicked Battle. Cleveland, Ohio, Aug. 26.—The Cleveland Indians yesterday protested yesterday's 2 to 2 defeat by the Yankees and requested an immediate ruling by Ban Johnson, so that the ninth inning may be replayed here from the protested point on August 29, an open date for both clubs.

Pitcher Harper Hit Three Cleveland Players, Starting Fight and Riot. Cleveland, O., Aug. 26.—Cleveland went back into first place yesterday by defeating the Yankees, 15 to 1. The Indians are one point ahead. A near riot took place in the last half of the eighth. Harper, pitching for Yankees hit Jamieson in the ribs, Gardner on the arm and O'Neill in the back.

Twelve Swimmers To Compete In Big Race

Star Mermaids and Water Men of City Will Start From Causeway To-morrow Afternoon at 2.30 o'Clock In Quest of Times Challenge Cup; Keen Competition Is Expected; Big Crowd Will Turn Out.

Final arrangements for the "Y" boys' gala at the Gorge to-morrow have been made, and if the brilliant weather which is prevailing holds out there is no doubt that the event will be a great success.

The diving event will be one of the most attractive events on the programme. Four different dives must be made, including the plain, swallow, jack-knife and optional. These four dives have been set for boys under 15 years. A large entry list has been secured for these events and some excellent diving should be witnessed.

For an all-round sporting event the Native Sons' Cup competition is bound to prove most interesting. This event includes four different kinds of stunts and the cup goes to the one making the highest number of points. A total number of thirteen entries have been received so far, ten of these being from the Y. M. C. A. The V. A. S. C. have entered two representatives, Jack O'Neil and Tom Stiburn, while the First Congregational Church will be there with Charles Ozard, who has been in hard training for several weeks. Dave Barclay, title-holder for last year, is among those from the Y. M. C. A.

Entries Close To-night. All entries for the gala close at 6.30 o'clock to-night. Entries for the beginners' race are coming in steadily and a good number of contestants are looked for in this event.

The list of competitors entered for the Native Sons' Cup is as follows: Alf Wallis, S. Russell, Stanley Moore, Douglas Smith, W. M. Peden, Reg. Wood, Joe Roca, Fred Brand, L. Barker and Ben McMillan for the Y. M. C. A.; Jack Cloyd and Tom Welburn for the V. A. S. C. and Charles Ozard from the Congregational Church.

The gala will be held at the Elks' swimming pool. The list of entries to date includes the following: Audrey Griffin, Muriel Daniels, Iris Johnson, Majora Anderson, Connie Beales, Mrs. Leo Dalziel and Jack Kinsman, of the V. I. A. A.; Grace Welburn, V. A. S. C.; Norman Purser and Harry Hanbury, Elks Swimming Club; and Johnnie Larsen and Gordon Young, Y. M. C. A.

It is expected that several other entries will be received this evening. Any entries received by the sporting editor of The Times bearing to-day's post mark will be recognized.

The start of the race always attracts considerable attention and undoubtedly the Causeway will be crowded with people to-morrow afternoon. Even competition in the Gold Cup races, which begin in the Detroit River here to-morrow, was announced by her owner to-day. It has been decided, Wood said, to depend on Miss America, L. to defend the gold cup and save the new craft for the British International (Harmsworth) trophy races, September 3 and 5. To participate in this event, however, she will be obliged to enter the elimination trials September 1 and 2.

Volger Boy IV, of Portland, Ore., has been withdrawn because of an accident.

PEERS BROTHERS WIN CLAY COURT TITLE. Vancouver, Aug. 25.—The Peers brothers yesterday afternoon won the Clay Court tennis doubles championship of B. C., defeating Verley and Richards in the final match on the Lauri Club Courts by three sets in five. The scores were: 6-3, 1-6, 6-7, 7-5, 6-2.

In the mixed doubles, Verley and Mrs. Verley won the finals from Mrs. Diamond and Beverley Rhodes. The score was: 2-6, 6-2, 6-2.

JOHNSTON AND DAVIS DEFEATED IN DOUBLES. Boston, Aug. 25.—The U. S. probable Davis Cup doubles combination, Williams and Washburn, advanced to the final round of the U. S. National doubles championship tournament at the Lovred Club yesterday. After losing the first set to W. M. Johnston and Willis Davis, they took the next three and the match.

SHIMIDZU AND KUMAGAE MEET ANDERSON AND TODD IN DAVIS CUP DOUBLES TO-DAY. Newport, R. I., Aug. 25.—Only one victory was needed by the Japanese Davis Cup lawn tennis team to-day to give it the right to meet the defending United States team at Forest Hills next week. Ichiya Kumagae and Zensho Shimidzu, who yesterday defeated the Australians, J. B. Hawkes and E. O. Anderson, respectively, in singles matches, teamed to-day to play Anderson and Clarence Todd in a doubles contest. Should they win they would become the challengers, irrespective of the outcome of the two remaining singles matches to-morrow.

Shimidzu defeated Anderson in straight sets, 6-4, 7-5, 6-4. In the afternoon match, Kumagae won from J. B. Hawkes in five sets, lasting two hours and forty minutes of actual play, by scores of 3-6, 2-8, 8-5, 6-2, 6-2.

BOYS' GALA DRAWS NUMEROUS ENTRIES

Keen Competition for Native Sons' Cup Is Expected at Gorge To-morrow

Dave Barclay Will Defend His Title Against Fast Crowd of Youngsters

Final arrangements for the "Y" boys' gala at the Gorge to-morrow have been made, and if the brilliant weather which is prevailing holds out there is no doubt that the event will be a great success.

The diving event will be one of the most attractive events on the programme. Four different dives must be made, including the plain, swallow, jack-knife and optional. These four dives have been set for boys under 15 years. A large entry list has been secured for these events and some excellent diving should be witnessed.

For an all-round sporting event the Native Sons' Cup competition is bound to prove most interesting. This event includes four different kinds of stunts and the cup goes to the one making the highest number of points. A total number of thirteen entries have been received so far, ten of these being from the Y. M. C. A. The V. A. S. C. have entered two representatives, Jack O'Neil and Tom Stiburn, while the First Congregational Church will be there with Charles Ozard, who has been in hard training for several weeks. Dave Barclay, title-holder for last year, is among those from the Y. M. C. A.

Entries Close To-night. All entries for the gala close at 6.30 o'clock to-night. Entries for the beginners' race are coming in steadily and a good number of contestants are looked for in this event.

The list of competitors entered for the Native Sons' Cup is as follows: Alf Wallis, S. Russell, Stanley Moore, Douglas Smith, W. M. Peden, Reg. Wood, Joe Roca, Fred Brand, L. Barker and Ben McMillan for the Y. M. C. A.; Jack Cloyd and Tom Welburn for the V. A. S. C. and Charles Ozard from the Congregational Church.

The gala will be held at the Elks' swimming pool. The list of entries to date includes the following: Audrey Griffin, Muriel Daniels, Iris Johnson, Majora Anderson, Connie Beales, Mrs. Leo Dalziel and Jack Kinsman, of the V. I. A. A.; Grace Welburn, V. A. S. C.; Norman Purser and Harry Hanbury, Elks Swimming Club; and Johnnie Larsen and Gordon Young, Y. M. C. A.

It is expected that several other entries will be received this evening. Any entries received by the sporting editor of The Times bearing to-day's post mark will be recognized.

The start of the race always attracts considerable attention and undoubtedly the Causeway will be crowded with people to-morrow afternoon. Even competition in the Gold Cup races, which begin in the Detroit River here to-morrow, was announced by her owner to-day. It has been decided, Wood said, to depend on Miss America, L. to defend the gold cup and save the new craft for the British International (Harmsworth) trophy races, September 3 and 5. To participate in this event, however, she will be obliged to enter the elimination trials September 1 and 2.

Volger Boy IV, of Portland, Ore., has been withdrawn because of an accident.

West Triumphs Over East In Golf Match

Western Golfers Achieve Notable Victories In Canadian Amateur Golf Championship Tournament Now Being Staged At Winnipeg; Make Clean Sweep Of All Important Matches.

Winnipeg, Aug. 26.—Team matches, including the inter-provincial, East vs. West and inter-club, occupied the entire programme of the Canadian Amateur Golf Championship tournament at the Bird's Hill course yesterday, the decision being arrived at in each instance on the scores turned in by the selected players in the annual open-handicap competition.

The West won the big sectional match, the inter-provincial and the inter-club. Manitoba won the inter-provincial by seven strokes from Alberta, Ontario being more than forty behind. The Winnipeg Golf Club, over whose course the tournament is being played, won the inter-club event, three Calgary clubs being in close attendance on the winners.

Two players are tied for leadership of the annual open-handicap with scores of 73, but the best card turned in was that of W. J. Thompson, Toronto who led the field with a gross 77, his brother, Frank, favorite for the Canadian title, being two strokes worse. These were the only players to beat eighty the highest scoring being unaccountable, as conditions were conducive to even better performances than in the preceding days.

F. Holdsworth of Calgary; A. A. Wier, of Regina, and J. G. Crawford, are tied for first place with 73 net. The Winnipeg Golf Club won the inter-club match, four players per team, with a gross score of 351.

Semi-Finals To-day. The 36-hole semi-final matches in the championship series are billed for to-day, the semi-finals of the consolation being also held. Finalists will be declared in the vice-presidents' cup play downs to-day.

European Billiard Champion Returning to States For Match With Willie Hoppe. Chicago, Aug. 25.—Edouard Horemans, billiard champion of Europe, sailed yesterday from Antwerp for his second visit to the United States, according to a cablegram received here by his manager. He is due in New York in September.

Horemans will submit his entry for the champion 18.5 ball tournament to be played in Chicago, November 14. Willie Hoppe, the American champion, declared last Spring that he would resist efforts of Horemans to play in the tournament on the ground that it was national, and that the visitor was not an American.

It is the intention of Horemans to seek a match at 18.1 with Hoppe, to be played some time after the tournament.

CRANBROOK CITY WELCOMES SCHEMES OF PATHFINDERS

Canadian Highway Plan Enthusiastically Supported, Reports Alderman Todd

The citizens of Cranbrook are enthusiastically in support of the Canadian Highway plan and the Ldham proposals for capitalization of the Province's scenic attractions for tourists, according to the following telegraphic report sent The Times from the pathfinding party by Alderman A. Todd.

Cranbrook, August 26.—Last night, Thursday, a representative gathering of prominent citizens of Cranbrook invited us to a special meeting, with Vice-President W. B. Grubb of the Board of Trade acting as chairman. The meeting expressed strong approval of the Canadian Highway and Lineham tourist plans. The desire to co-operate was most encouraging and gratifying.

The pathfinding party will leave early this morning, Friday, for Nelson.

WELL-KNOWN LOCAL CONTRACTOR DIES

James Atkins, a well-known builder and contractor, who built many of the fine residences of this city died last evening at his home, 175, Bushby Street. Early in February of this year he sustained a fall receiving injuries which have confined him to his bed ever since and from which he succumbed.

The late Mr. Atkins was born in Cornwall, England, fifty-seven years ago and had been a resident of British Columbia for the past thirty-six years. The funeral will be held from the B. C. Funeral Company on Monday at 2.15 proceeding to Victoria Hall where service will be held at 3.30 under the auspices of the Christian Brotherhood.

START INTENSIVE WARFARE AGAINST ISLAND PANTHERS

Expert Hunters Invade Cowichan Lake Woods; Great Fishing

Intensive warfare against cougars, the worst enemy of island game, has started at Cowichan Lake, according to "Dad" James, greatest of all cougar hunters, who paid a short visit to Victoria yesterday. "The panthers aren't going to have their way any longer up at the Lake," said "Dad," who has been too busy running the Cowichan Lake Apartments this summer to keep up to his usual pace in the hunt.

Some of the most experienced hunters in British Columbia are right on the track of the panthers at the upper end of Cowichan Lake, "Dad" stated. C. F. Allen and A. Parker, of Vancouver, are operating on Shaw Creek, where panthers have been destroying young elk calves—as well as deer. These hunters are using two hounds and two terrier terriers in their efforts to rid the districts of the big yellow cats.

Bob Clouth and Joe Martin recently travelled in to the head of the big lake from the West Coast of the Island and Nitina Lake. They are now camped at the top of Cowichan Lake, where they are using no less than eight dogs, nearly all trained hounds.

Panthers about Cottonwood Creek are being kept on the jump these days by Sam Creamer and "Cougar" Foster, of Vancouver, who are using two well-trained hounds.

It is expected that now this small army of cougar hunters is in the woods reports of many dead cats will be forthcoming before long.

COMPETITION FOR CANADIAN AUTHORS

Hodder and Stoughton Offer \$2,500 For Canadian Novel

From time to time the complaint is heard that Canada has produced little literature which could be called "distinctly Canadian." Many would-be authors have been deterred owing to the heavy expense incurred in the publishing and the uncertainty of finding a market for their goods, but there is little doubt that there exists such latent talent in the Dominion.

In order to encourage budding authors and writers, the publishing firm of Hodder & Stoughton, Ltd., of 283 Adelaide Street West, Toronto, in conjunction with the Musson Book Co., Ltd., and Maclean's Magazine, have inaugurated a prize competition.

The sum of \$2,500 will be offered for the best novel, or \$500 for the best story for boys and girls. The author or authors must be a Canadian, birth or residents of Canada since January, 1920, and intending for the future to make a permanent residence and field of work in Canada. While a novel of life in Canada is preferred, the author is left entirely free in the choice of time, place and theme.

The following are the conditions of the competition:

- (1) No author may submit more than two books in each of these two competitions. The attached letter must be filled out and signed and must accompany every manuscript. Competitors are understood by the act of entering for the competition to agree to all the conditions specified.
- (2) The manuscripts submitted must be the original work of the competitor, or—should they have been written in collaboration—of the competitors, and must not have been previously published in any form whatever. Translations and adaptations from foreign writers will be disqualified.
- (3) All manuscripts submitted for the competition must be received by Messrs. Hodder & Stoughton Limited, 283, Adelaide Street West, Toronto, by June 1, 1922. Manuscripts may be sent in at any time previous to this date.
- (4) Novels submitted for Competition No. 1 should be between 15,000 and 90,000 words in length. Stories for boys and girls must not exceed 40,000 words.
- (5) All manuscripts entered for the competitions must be typewritten upon one side of the paper only, and must bear on the title page the name and address of the author. The words "Novel Competition" or "Juvenile Competition" should be written in the top right-hand corner of the title page, and upon the outside of the postal wrapper.
- (6) The winners of the competitions agree to cede to Messrs. Hodder & Stoughton Limited all rights of every kind in or in any way arising out of the prize winning books.
- (7) Each competitor must enclose stamps of value sufficient to defray the costs of return postage. While every reasonable care will be exercised in the handling and returning of works submitted, Messrs. Hodder & Stoughton Limited will in no case be responsible for any damage or loss sustained by the authors in respect of any manuscripts sent in by them.
- (8) The decision of the publishers and their adjudicators is final, and no correspondence can be entered upon with writers whose works have failed to win prizes.
- (9) The decision of Messrs. Hodder & Stoughton Limited will be announced in Maclean's Magazine and The Canadian Bookman in due course.

Trout Ravensous

The recent rains have swollen the creeks about Cowichan Lake, and the trout are crowding about the mouths of the creeks looking for new feed. "Dad" James declared yesterday. "The fish, last week and last, each other to get at fishermen's bait off Shaw and Nixon Creeks."

Three parties leaving boats from his hotel caught ninety fish in one day. "Dad" declared. Leaving the hotel in the morning, they were back again in the evening bringing with them this big mess of beauties. The excitement to whom this luck is attributed are: Dr. Haynes and Frank Bone of Victoria, and C. E. Lang and Harry Dundas, of Vancouver. A Toronto sport was largely responsible for their success, they told "Dad."

WE HAVE JUST RECEIVED THE EXCLUSIVE SALE OF THIS BEAUTIFUL JAMES BAY PROPERTY WITH IMMEDIATE POSSESSION REGARDLESS OF ITS MARKET VALUE.
WE INTEND TO DO SO.
 THIS is a very spacious and well appointed house, containing 3 large rooms, exclusive of pantry, bathroom, bath, etc. Small vestibule, large entrance hall, good sized cloak room with wash basin and toilet, a very attractive dining room with large windows facing southeast, making this a particularly bright room; the living room is the feature of the house, being beautifully paneled and beamed, large open fireplace, cosy inglenook with built-in seats, bookshelves, etc. Glass doors that lead out to large back veranda, partly glassed in; there is a nice large kitchen with pass pantry; upstairs separate clothes closet; one room has an open fireplace and full length bevelled glass mirror; there is also a good sized dressing room which could be conveniently used as a bedroom; large bathroom and toilet. The house is all in first-class condition, and in fact, the building is all practically new. The basement is full of cement and has a handy Gurney Oxford garden. The lot is large and contains a very nice lawn and vegetable garden. The district is all that can be desired. Near Beacon Hill Park, close to the sea, almost on a car line and only a few minutes walk to the centre of the city. The street is paved and bordered with the local improvement taxes all paid. This is really an ideal home, which we can thoroughly recommend.

"SHAME" LOUIS HILL SAYS CONCERNING

DISPOSAL OF SHIPS

La Follette Act, He Declares, Created Conditions Which Forced Sale of Ships

Seattle, Aug. 26.—Characterizing the sale of wooden ships by the shipping board as "shame" and blaming conditions which compelled the sales as a direct result of the La Follette Act, Louis W. Hill of St. Paul, chairman of the board of directors of the Great Northern Railway, is on his way to St. Paul after spending a summer vacation at his California home.

To Visit B. C.
Mr. Hill will remain in Seattle investigating business conditions until Saturday, when he will leave for British Columbia to enjoy a brief hunting trip in the Canadian Rockies before proceeding to St. Paul. "The La Follette Act, necessitating the use of double crews on American steamers, is responsible for the sale of shipping board hulls at a shamefully low price," he declared. "Under the conditions of the La Follette Act, these ships cannot be operated at a profit in competition with foreign vessels."

MADE IN FRANCE TRAIN COMING

Will Be in Victoria at End of Next Month

The Made-in-France Exhibition train through Canada is due in Victoria on September 23, in the morning and will remain here until the afternoon of Sunday, September 25. This announcement was made through the Canadian Pacific Railway to-day, the company having charge of transportation arrangements. The object of the train carrying French goods, to be followed by an exhibition in France of Made-in-Canada goods, is to promote cordial, social and commercial relations, reciprocally advantageous to both countries. The train will consist of a baggage car, eight exhibition cars, a tourist, a diner, and two sleeping cars. The eight exhibition cars will house: (1) French thought, illustrative of literature, science, the arts, and similar subjects; (2) Railways, tourism and colonies; (3) Navigation, engineering and metallurgy; (4) Fashion and clothing; (5) Chemical drugs and pharmacy; (6) Articles of Paris; (7) Jewelry and works of art; and (8) office archives and catalogues. During the whole of the months of September and October, and part of November the tour will be conducted, commencing at Montreal, and ending there.

Along the Waterfront

SHIPPING NEWS FROM DAY TO DAY

Ship may be Salvaged and Brought to Esquimalt

As she appeared when loading her lumber cargo before putting to sea on her disastrous voyage. Her lumber cargo is a factor in keeping the waterlogged vessel afloat. Canadian vessels are approaching the importer, and the crew, with the exception of the eleven men who set out in the ship's whaleboat in search of aid, are standing by the ship.

Ships Scouring Pacific Waters In Attempt To Locate Lost Whaleboat

S. S. Canadian Winner and Canadian Observer, Also Salvage Steamer Algerine, Rushing to Aid of Waterlogged Canadian Importer; Master and Crew Refused to Desert Ship.

The fate of eleven men of the S.S. Canadian Importer who left the sinking ship a week ago in an heroic effort to secure aid after the wireless plant had been put out of commission, is still in doubt, although ships are circling within a wide range of the latest marine casualty bent on locating, if possible, the drifting whaleboat. It is assumed from the latest wireless dispatches that A. Laird, second mate, of Armordale, Melbourne, and J. W. Watt, third mate, of 412 St. George's Avenue, Vancouver, were the officers in charge of the missing boat. The identity of the nine seamen has not been disclosed.

Volunteers Responded. When the plight of the waterlogged vessel became serious and the wireless had been put out of commission, the second and third mate and nine men of the Canadian Importer volunteered to man the ship's whaleboat and seek aid from vessels plying in the regular shipping lanes.

The whaleboat is a double-ender and is the largest boat that was carried by the Canadian Government ship. Six Victorians Aboard. It now develops that six Victorians were aboard the Canadian Importer, as follows: G. C. Foote, wireless operator, 147 Ontario Street; W. C. Munn, fourth engineer, 922 Kings Road; George Holden, boatswain, Army and Navy Club; Ronald Newell, apprentice, 840 Craigflower Road; R. Nunn, apprentice, 2336 Lee Avenue; and Wallis Ricketts, deck boy, 512 Constance Avenue, Esquimalt.

Stayed With Ship. The waterlogged Canadian Importer is still afloat with Capt. Carl Bissett and thirty members of his crew still aboard. It appears that Capt. Bissett declined the offer of the steamer Cordova to take the crew off, which would indicate that he did not consider his vessel was in immediate danger. With the bulldog tenacity of the Britisher, Capt. Bissett did not relish the idea of abandoning his ship while there remained a possibility of salvaging her. His crew evidently elected to stay with him.

Ships Nearing Her. Two vessels of the Canadian Government Merchant Marine fleet are rapidly nearing the scene of the mishap and the salvage steamer Algerine, of the Pacific Salvage Company put to sea from this port last night, and at 1 o'clock this morning was reported outside Cape Flattery heading south to this port.

The Algerine is expected, will reach the Canadian Importer by Sunday. Winner To Aid. The steamship Canadian Winner, Capt. Walter Wingate, bound here from Australia, was instructed by wireless to proceed to the aid of the Importer, and it is probable by this time that the Winner is nearing the wreck. There is a strong possibility that the Canadian Winner, a Victoria-built vessel, will be the ship that will bring the crew of the Importer back to this port.

The steamer Canadian Observer, Capt. A. O. Cooper, plying in the trade between British Columbia ports and California, has been sent from San Francisco with special pumping gear. When the Algerine arrives on the scene an attempt will be made to adjust a temporary patch over the leak and the deckhead may be jettisoned and an effort made to tow the ship to Esquimalt. The Observer will follow a course which may result in the location of the

U. S. RESTRICTIONS MAY BE AFFECTING ORIENTAL TRAVEL. Cable advices received by R. R. Dale, local N. Y. K. agent, concerning the passenger list on the inbound Japanese liner Suwa Maru, indicate that eastbound travel is falling off somewhat. The Suwa Maru has but 145 passengers all told, routed as follows: For Victoria, 8 first class, 11 second cabin, 22 steerage. For Seattle, 26 first class, 15 second cabin, 45 steerage. The Suwa Maru sailed from Yokohama August 19 and is scheduled to arrive here next Thursday. It is assumed here that the United States immigration restrictions may have caused a slump in steerage travel from the Oriental countries. The Canadian Importer sailed from Vancouver August 12 with a cargo of 3,500,000 feet of lumber and a small quantity of general freight for New Zealand and Australia, and later abandoned on Willapa Spit, and later abandoned on Willapa Spit, and later abandoned on Willapa Spit. The Canadian Importer is a Vancouver resident, a son of James Bissett and a nephew of Captain A. Bissett of the Vancouver Dredging and Salvage Company. He is one of the best known of the younger master mariners of the coast, and has a fine record as commander of deep-sea merchant vessels, and in war service. He took command of the Importer about a year ago, being placed on her when he first master, Captain A. O. Cooper, transferred to the S.S. Canadian Observer, now sailing on the San Francisco-Vancouver run. The Importer was on her fifth voyage. She carried 20 stowmen, according to the secretary of the Sailors' Union of the Pacific. One of the members of the crew, D. Sissons, the purser of Montreal was purser on the ill-fated Canadian Exporter. The Importer was loaded with lumber from B. C. Mills Timber & Trading Company, Balfour, Guthrie & Company and the Posey Manufacturing Company, 400 tons of paper from the Pacific Mills, canned fish from Evans, Coleman & Evans, and general overland freight. The S.S. Canadian Winner was at the Gonzales station at 12:10 a. m. to-day, bound for the position of the Canadian Importer. The Winner failed to give her position. At 5 o'clock this morning the steamer Cordova, of the Alaska Steamship Company, gave her position. She reported being 236 miles from the Columbia River at 5 p. m. last night.

CANADIAN SCOTTISH

AVERAGED 14 KNOTS
Prince Rupert Vessel Performed Creditably.

Prince Rupert, Aug. 26.—The trial trip of the Canadian Government Merchant Marine steamer Canadian Scottish was very satisfactory. The average official speed was 14.1 knots per hour. The vessel is built to make eleven and a half only, so that she exceeded by a good bit the expectations of her builders. The Scottish steamed over the course outside the harbor several times, with Captain McCookie, harbor master, in charge. More than 700 men have been at work at the Wallace Shipyards on the Canadian Scottish and her sister-ship, the Canadian English. Superintendent H. J. F. Turley, who is also secretary of the Wallace Shipyards, Limited, is in charge of the Prince Rupert yards. He is very optimistic in regard to the future of the Northern port. "In my opinion, Prince Rupert has a great future. It may take time, but I do not believe anything will retard its development. At present there is not, to my knowledge, any other port in the city."

Mr. Turley anticipates that his firm will have the Canadian English in the water about the end of September, and while nothing definite has been reached as to its sponsor, hopes are locally entertained that Mrs. W. C. Nichol may perform the ceremony. The Wallace Yard covers fully forty acres, and is equipped with some of the latest shipbuilding machinery. Its men are steadily employed, and the yard has included a number of skilled mechanics from the firm's yards in North Vancouver. For those desirous of taking advantage of the facilities the firm has an up-to-date culinary establishment and boarding house, where rates are as low as possible for the men of the yards.

WILL NOW COST LESS TO EAT ON TRAINS OF GREAT NORTHERN

It is announced by the Great Northern Railway that the decreased cost of certain commodities has enabled the company to reduce prices charged on its dining and buffet cars. The new dining car prices, which show a marked reduction, will become effective on the Great Northern trains September 1.

Two New Summons Cases Arise From Police Prosecutions
When the charge against Commissioners Hall and North was proceeded with in the City Police Court this afternoon before Magistrate Alexis Martin, Stuart Henderson, K. C., asked for a dismissal of the charge of procuring the negligence of Chief Fry. It was doubtful if rebuttal evidence for the defence would be submitted to the court.
Latest developments of the day were the swearing out of information against Constables Harry Craig and Charles E. Brown charging them with illegally purchasing liquor at a local hotel, in connection with a prosecution recently lodged under the Government Liquor Act. The summonses, which are taken out by the same interests who are prosecuting the commissioners, were to be served this afternoon.

NEW EDUCATION TESTS IN PARIS
Whether children learn better from written texts or oral lectures, is a question under investigation in the schools of Paris, according to an Associated Press mail dispatch.
A technical committee of the League of Nations has set to work in a boys' school to study the processes of teaching and learning.
Pedagogical experts assert that some persons' brains receive deeper impressions by the sense of hearing and others by the sense of sight. The committee proposes to seek some method of education that will take advantage of these faculties and possibly also, try to find some way to develop the pupil's receptiveness.
Another question is the desirability of developing either the hearing or sight sense, when found particularly keen in a pupil or whether it would be better to develop the dormant faculty in an effort to attain a certain standard of knowledge in both sight and hearing in all pupils so that they might all be taught by the same method.

CANADA IS PROSPEROUS, SAYS GOVERNOR OF HUDSON'S BAY CO.
At the annual general meeting of the directors and shareholders of the Hudson's Bay Company, held in London on August 5, the Governor, Sir Robert M. Kindersley, G.C.B., said with regard to the condition of Canada:
"With regard to the future of your company I cannot but be optimistic. We are trading in a country which, I believe, is better able to face the future with confidence and even optimism than any other country in the world. The gross value of the agricultural production of Canada in 1919 was, in round figures, \$405,000,000, and in 1920 \$400,000,000, a country which, with a population of some eight million people, is capable, apart from other industries, of producing such results is, in my opinion, a country I don't wish you to think that I underestimate the immense difficulties with which the world as a whole is faced to-day. They are too pressing and apparent to fall into such an error, but I feel that we are lucky in carrying on the bulk of our business in a country like this, in my opinion, to face the future with more confidence than any other country in the world to-day.
"I cannot sit down without expressing our deep sense of gratitude to the Canadian Advisory Board in Canada for their very able assistance during the past year. To the staff in Canada and London also our best thanks are due. They have not spared themselves in their efforts to make profitable for the shareholders and their loyalty and devotion to the company's interests is one of our best assets."

CHEESES SHOW SOME CHANGE
Some Variations Are Reported To-day
Fluctuations on the wholesale market to-day are very scarce, and with the exception of the dairy products show very little inclination to change. All alterations on the dairy market show an upward move. Ontario solids, Ontario singles and Ontario doubles with B. C. cheese all jumped a cent. All changes on this market were confined to the market. Local apples are prominent on the market.

TO-DAY'S TRADING IN WHEAT AND GRAIN MARKETS
Winnipeg, Aug. 26.—Firm prices in the futures and a drop in the premiums in the cash wheat market were featured here to-day. After the opening wheat futures advanced higher and closed with a gain of 1/2 cent. The farmers are not selling their grain in any quantity as yet, although they are anxious to get it off their hands in consequence there are scarcely any bidding sales. To-day's movement of new crop grain is the best so far for any single day, with 415 cars of wheat, of which 189 are in the hands of Northern wheat growers. Six cars of new oats, 26 of barley and 49 of rye were also inspected. In the coarse grains market oats were firm, barley unchanged and flax slightly weaker. Oats closed at 48 cents higher, barley 1/4 to 1/2 cent lower, flax 1/2 cent to 3/4 cent lower, and rye unchanged to 1/2 cent.

SLIGHT CHANGE IS FELT ON FEED MARKET
Excellent Crops This Year Bring Prices Tumbling Downward
With excellent crops, one of the biggest for many years, the feed prices commenced a reduction to-day with a slight fall on the market, and although the variations are few in number, they are very encouraging. The finish of the harvesting. None of the changes to-day marked an incline, and the total of seven changes present a reduction of not less than one dollar. With the recent variations, the prices of last year were reduced by some 50 per cent. The present prices being over 50 per cent. less than the price of the grain this time last year. The price of feed is also reduced, the largest drop, taking a 34 reduction on the ton. They now register the price at \$48.00 per ton, and \$50 a ton for scratch feed. Whole corn, cracked corn and feed corn meal all have taken a drop of two dollars on the ton with a 10 cent reduction per hundredweight. Bran and shorts were the other two changes, but these are of minor importance, as one dollar reductions were all that was shown on the quotations to-day. Bran selling at \$20 a ton and shorts being picked up at \$22 per ton. Five cents was the decline per hundredweight on these two last named products.
This year's crops are reported to be one of the best for both quality and quantity especially in regard to the hay crop. This product registered a drop last week and another reduction will be anxious to buy by those who are in need of this product.

MARKED IMPROVEMENT TO-DAY'S SESSION
(By Burdick Brothers, Ltd.)
New York, Aug. 26.—Throughout to-day's session gains were recorded and the undertone firm at the close. There were practically no exceptions on the list and shorts covered freely. Bullish news well taken on reports that the railroad June net operating ratio \$2.53 against \$7.13. The exhibits of the Federal Reserve Bank grain made very excellent showing and this was favorably construed. Mexican Petroleum staged a sharp comeback, touching 34 and the close an advance of 10 1/2 points from yesterday's lows.

BO GIVES SIDE OF CIRCUMSTANCES IN LOTTERY CHARGE

Commissioners Hall and North on Trial for Misfeasance

Chief Fry Reluctant to Be Drawn on Reasons for Action

How Chief Fry had spent the greater part of three days in an effort to create a split between Commissioners Hall and North, in order that he might be allowed to arrest Charlie Bo on a charge of bribery and thereby forestall the planned reopening of the Chinese lotteries, and the evidence given by Charlie Bo under the protection of the Court as to how he had made a deal with Mr. North for the reopening of the lotteries under his assurance of protection, provided some hours of enthralling entertainment for a crowded court yesterday afternoon, when Stipendiary

Magistrate Alexis Martin heard the charge preferred against Commissioners Joseph North and Ernest Hall of procuring the wilful neglect of Chief Fry to his duty by causing him to allow Chinese lotteries to operate on June 18, 19 and 20 last.

Mr. Maclean Appears.
The proceedings were enlivened by the appearance of H. A. Maclean, K.C., at the commencement of the hearing as the direct representative of the Detective Department. Mr. Maclean made plain that his presence was due to statements having been made which cast reflections upon the personnel of the department, and when, later in the hearing, Mr. Maclean endeavored to put questions to Chief Fry, Mr. Henderson entered the most strenuous objections, declaring that he should not permit intervention by any third party.

Magistrate Martin took occasion to remark: "Nothing that I can say will increase the respect the public have for Inspector Perdue and his department," and upon that Mr. Maclean withdrew his appeal for Court privileges.

Charlie Bo.
Obviously by studying every word he uttered, and upon occasion reverting back and correcting statements, Charlie Bo took the stand as soon as W. C. Moreby, on his behalf, had secured the Court's acquiescence in his demand that his evidence should

not be used against him in the bribery charge now pending.

He claimed that Commissioner North had had a conversation with an old fisherman go-between of the lottery syndicates, in which \$400 a month corruption money had figured. He had then come to see Bo, and had suggested that he could fix Chief Fry and the games could reopen. "I don't think you can, that is very important business," Bo declared his reply to this offer to have been.

On June 9 or 10 Mr. North had suggested that Bo go to his house and talk matters over. Bo went to the place and claimed that North had said: "Perhaps you can do better than the old fisherman."

"I told him no; too many had gone back to China; the games had been too long closed, but I would see what I could do.

"Mr. North said: 'You must give up money before I give order for houses open,' and I said I would try to arrange it, but it would take a few days.

Relates Interview.
"On Monday, June 13, North came to my store and arranged for a meeting on Thursday night. I put \$400 in my pocket and went to 1030 Johnson Street, and we talked business in the dining room.

"Mr. North said: 'I fix up everything all right, Charlie. I told him I only have \$400; eight houses to be open for \$50 monthly each, maybe two more, and June, get \$100 more. If all open to January, all willing to pay more again.'

Bo said Mr. North promised "I'll let you know to-morrow morning how many to open," and I said: "Suppose some houses refuse to pay \$50, what will I do?" North said: "Suppose you ring me this number, I'll pinch them if they don't pay."

"I said, 'Supposed police know the houses open; sure to be trouble making,' and North said: 'You tell me; let me know; you deal with me. I guarantee you have no trouble, and you must be real careful; go slowly; keep quiet; leave everything to me; I'll fix it all up.'

"Then he took me to the kitchen to have a glass of beer before I go; that was the second beer. The next day North phoned me to open the lotteries on Saturday. Give me the number which; open two or three more in a few days' time, and more next week," he told me, said the witness.

At Saturday, dinner time I got word that 552 and 556 Cormorant Street were open at once; so I phoned Mr. North. On Saturday night four were open, being two more that I don't know of. On Sunday two more open, and on Monday opened all up, but never gave me numbers.

"Pretty Near Drunk."
"That night I downtown; find them all open; me not knowing. North phoned my house while I away; wife told me I was wanted to go see Mr. North. I went. He was very sorry, very angry, pretty near drunk; could not stand still. He opened the door and said: 'Charlie, great trouble. I ordered you open two on Saturday, three more after few days, three more next week. I find all open to-night. You give me lot more trouble. You not do as I order.'

"I said to Mr. North, 'They not do as I order; you not want them open, say so and I will stop it.'

"Mr. North said: 'It too late now; whole lot trouble and can't stop it now.' I say: 'Well, Mr. North, you want to stop houses, stop them easy enough; I find all open to-night. You give me lot more trouble. You not do as I order.'

WHAT MADE THE CHANGE?

This Woman Says Lydia E. Pinkham's Vegetable Compound Made Her a New Woman

Pittsburgh, Pa.—"Before taking Lydia E. Pinkham's Vegetable Compound I had bearing down pains so badly I could hardly stand up. I was white and very thin and nervous, had a poor appetite and only weighed 112 pounds. I took ten bottles without missing one dose and gave it a fair trial. When I finished the last bottle everyone asked me what made the wonderful change in me. I told them about Lydia E. Pinkham's Vegetable Compound and I recommend it wherever I can. I give you permission to publish this letter to help suffering women as your remedies are a Godsend and made a new woman of me.—Mrs. Baker, 4742 Butler St., Pittsburgh, Pa.

Why will women drag around day after day, suffering from Backache, bearing down pains, nervousness and "the blues," enduring a miserable existence when they have such evidence as the above that Lydia E. Pinkham's Vegetable Compound is a dependable remedy for such troubles. For nearly forty years this grand old root and herb medicine has been restoring the women of America to health. (Adv.)

Not An Easy Job.
The hearing was a long and tiresome one toward their subsequent closing.

Mr. Higgins was not satisfied, and continued to ask questions of the "hard work," but the Chief was unable to give details of conversations and explaining his caution as due to experience. "On what I told Magistrate Jay previously, Saturday, I don't know," he reminded the Court, after stating that one conference had lasted for hours.

Magistrate Martin was appealed to by Mr. Higgins to make the witness answer and commented "I would have supposed that a witness admitting a conversation of two and a half hours would remember the gist of such important discussions, but he says he does not."

After a long discussion on Monday morning following the reopening of the lotteries, Chief Fry secured from Dr. Hall a note to Mr. North which he told the Court he believed gave him authority to go ahead with the arrest of "Bo." "What I had been working for since I first got word of the scheme," he said.

Mr. Higgins asked the witness whether Commissioner North and Commissioner Hall were proud of their part in the plan to arrest Bo, and was told "No, the plan to arrest Bo was mine, theirs was to arrest the gamblers."

Mr. Higgins again annoyed when Chief Fry made a statement that he had been hard at work on the business long before the detectives had reported. "I was at the house," he emphatically declared "No, you were not working, you went home on Saturday evening to get out of working" and asked if the Chief had reported to the Commissioners the fact that the detectives had reported the lotteries open. Chief Fry replied that he might have done so, but he did not remember anything being said.

Presses Questions.
"Now, I want to know how far you got in your efforts to pull the Commissioners apart. Your experience is that you were working hard on Friday. Now, how many times did you visit Dr. Hall to work this pulling apart?" asked Mr. Higgins. This being typical of a host of questions directed to the same end, replied to by repetitions of "I don't know and I don't remember."

At last Mr. Higgins lost patience altogether. "You have sworn to it that you were working hard, you must withdraw that statement as to your hard work to pull them apart. If I were a truthful witness I would remember every word of such important discussions," he said, pointing out that what the Chief had done on Friday, Saturday, and before the games opened, was a material question to the hearing. The witness then admitted that the Commissioners were not willing to allow the lotteries to be reopened, and thereby stop the games from opening. They had changed around after Monday, the arrest of Bo had been allowed.

The Real Evil?
Mr. Higgins asked if it were not a fact that the real evil of the lotteries was the patronage they secured from white men and boys and Chief Fry agreed, whereupon Mr. Higgins suddenly returned to the main drift of his questioning, demanding, "In other words, it was in consequence of what they (the Commissioners) said that you did not do anything to keep the lotteries closed. This material question to the charge the witness refused to answer positively, explaining about his hope of arresting Bo, as if attained would automatically close the games. If he had not known of the arrangement he could not have closed the lotteries at once on the first hint of their operation, he had to have evidence sufficient for a Court case.

"Did you tell the Commissioners they were taking an unfair advantage of your position, in asking you to tolerate a crime?" asked Mr. Higgins, whereupon Mr. Henderson jumped into the fray. "That is a nasty, mean question," he protested, in the witness box, he did not like the wording used by Mr. Higgins in putting his interrogations as to what were the actual steps the witness had taken to forestall or prevent the opening of the houses before Saturday, June 18, or his ac-

For twenty hours this food is baked—one reason you like it—another reason why it digests so easily

One of the important things in connection with any cereal food is to have it thoroughly baked or cooked, for baking or cooking changes the starch of the grains.

Grape-Nuts is the longest baked of all cereal foods. It is scientifically baked at carefully regulated temperatures for 20 hours. This is one of the reasons why Grape-Nuts digests so easily; why it agrees with many people who cannot take any other form of cereal without producing fermentation.

A goodly part of Grape-Nuts is converted into dextrose, ready to be immediately assimilated by the system, and yield strength and energy. A further portion has partially undergone this change, while there remains sufficient unchanged cereal to strengthen the digestive organs. It is then in a condition to meet the various requirements of the digestive system.

If you want to eat a most strengthening and nourishing food and one that will digest more readily, go to your grocer to-day and get a package of Grape-Nuts. Eat it with stewed fruit or as a cereal with milk or cream; or make it into an appetizing pudding.

Every member of the family will enjoy its delicious flavor and wholesomeness.

Grape-Nuts—the Body Builder

"There's a Reason"

LADY BYNG IS POPULAR NOVELIST

Lady Byng, wife of Canada's Governor-General, is likely to be a prominent figure not only in the social circles of the Dominion, but also in the literary world, for she is herself

a successful novelist, author of two very popular romances, "Barriers" and "Anne of the Marshlands." Both books are of quite recent publication in England; Canadian-made editions will be available for Canadian readers at an early date.

These novels have been well received in England and the critics have commented upon the powerful character drawing, the crisp, entertaining style, the witty dialogue, and the clever prolongation of suspense in the plot. "Barriers" is a romance which combines humor, characterization, and entanglement of plot. "Anne of the Marshlands" is an interesting study both of character and locality; the marshlands in which the scenes are laid are the Essex marshes in

the neighborhood of which Lord and Lady Byng have their English home. Mr. George Bernard Shaw has told the world that this funeral will be followed, "not by mourning coaches, but by herds of oxen, sheep, swine, flocks of poultry; and a small traveling aquarium of live fish"—representatives of grateful fellow-beings whom he had not eaten.
