Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 729—PEANUTS

DETERMINATION WITH RESPECT TO SUPPLY OF VALENCIA TYPE PEANUTS FOR 1957-58 MARKETING YEAR

The purpose of this proclamation is to establish that the supply of Valencia type peanuts for the marketing year beginning August 1, 1957, will be insufficient to meet the estimated demand for cleaning and shelling purposes, to establish the extent of increase in State allotments for States producing peanuts of such type required to meet such demand, and to apportion such increase to such States. These determinations are made pursuant to section 358 (c) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1358 (c)), which reads in part as follows:

Notwithstanding any other provision of law, if the Secretary of Agriculture determines, on the basis of the average yield per acre of peanuts by types during the preceding five years, adjusted for trends in yields and abnormal conditions of production affecting yields in such five years, that the supply of any type or types of peanuts for any marketing year, beginning with the 1951-52 marketing year, will be insufficient to meet the estimated demand for cleaning and shelling purposes at prices at which the Commodity Credit Corporation may sell for such purposes peanuts owned or controlled by it, the State allotments for those States producing such type or types of peanuts shall be increased to the extent determined by the Secretary to be required to meet such demand but the allotment for any State may not be increased under this provision above the 1947 harvested acreage of peanuts for such State. The total increase so determined shall be apportioned among such States for distribution among farms producing peanuts of such type or types on the basis of the average acreage of peanuts of such type or types in the three years immediately preceding the year for which the allotments are being determined. The additional acreage so required shall be in addition to the national acreage allotment, the production from such acreage shall be in addition to the national marketing quota, and the increase in acreage alloted under this provision shall not be considered in establishing future State, county, or farm acreage allotments.

Section 729.804 of this proclamation defines each of the four commonly known basic types of peanuts—Runner, Spanish, Valencia, and Virginia—by describing the outstanding physical characteristics of each type and the areas of the United States in which each is most commonly grown. The definition of Virginia type peanuts includes a requirement that each lot or load of peanuts having Virginia type characteristics must contain a minimum percentage of large, so-called "Fancy", size peanuts, otherwise such lot or load will be considered Runner type peanuts.

Section 729.805 establishes that the supply of Valencia type peanuts for the marketing year beginning August 1, 1957, will be insufficient to meet the estimated demand for cleaning and shelling purposes at prices at which Commodity Credit Corporation may sell for such purposes peanuts owned or controlled by it. Section 729.805 also establishes the total increase in State allotments required to meet the prescribed demand for Valencia type peanuts.

Section 729.806 apportions the increase determined under § 729.805 to States producing Valencia type peanuts. Such increase is prorated to such States on the basis of the average acreage of Valencia type (excluding acreage in excess of farm allotments) grown in each State in the three years 1954-56, but the allotment for no State is increased above the 1947 harvested acreage of peanuts for the State. For the purpose of this proclamation "farm allotments" mean the allotments established for the farms prior to any increase from released acreage or from the additional acreage allotted to farms under section 358 (c), (2) of the Agricultural Adjustment Act of 1938, as amended. The 1954-56 average acreage used for the purposes of the aforementioned apportionment was determined by the State and county committees, in accordance with instructions issued by the Deputy Administrator, on

the basis of data reported by the farm operators and county office records of peanut acreages and production. The same data will be used as the basis for apportioning the State acreage to farms in accordance with the provisions of § 729.827 of the marketing quota regulations for the 1957 and subsequent crops of peanuts, (21 F. R. 9370).

Section 729.807 specifies that the increase in acreage allotted to States under § 729.806 shall not be considered in establishing future State, county, or farm acreage allotments.

Public notice of the proposed determination with respect to the supply of Valencia type peanuts for the 1957–58 marketing year was given (22 F. R. 988) in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The proclamation is made after due consideration of recommendations submitted in response to such notice. Peanut farmers are now making plans for the production of peanuts in 1957. In order that the State and county Agricultural Conservation and Stabilization committees may establish farm acreage allotments including the apportionment of the additional acreage provided herein for Valencia type peanuts, and issue allotment notices to farm operators at the earliest possible date, it is essential that this proclamation be made effective as soon as possible. Accordingly, it is hereby determined and found that notice and public procedure thereon and compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest, and the regulations and additional acreage allotments contained herein shall be effective upon filing of the document with the Director, Division of the Federal Register.

Sec.
729.804 Definition of type of peanuts.
729.805 Designation of type for which increase is needed and determination of total increase.
729.806 Apportionment of increase to States.
729.807 No credit for future allotments.
729.808 Definitions and miscellaneous provisions.

AUTHORITY: §§ 729.804 to 729.808 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 375. Interpret or apply sec. 358, 55 Stat. 89, as amended, 65 Stat. 29; 7 U. S. C. 1358.

§ 729.804 *Definition of types of peanuts.* For the 1957 crop of peanuts, the generally known types of peanuts are defined as follows:

(a) Runner type peanuts means peanuts commonly known as African Runner, Alabama Runner, Georgia Runner, Carolina Runner, Wilmington Runner, Dixie Runner or Runner, produced principally in the Southeastern peanut-producing area of the United States and identified by the following characteristics: Typically two-seeded pods which are practically cylindrical, medium sized, stem end round and the other pointed with a slight keel, having shells fairly thick and strong, with shallow veining and corrugation; and seeds crowded in pod with adjacent ends sharply shouldered. Runner type peanuts will also include lots or loads of peanuts having Virginia type characteristics but not meeting size requirements specified in paragraph (d) of this section for Virginia type peanuts.

(b) Spanish type peanuts means peanuts commonly known as White Spanish, Small Spanish, Medium-Small Spanish, or Spanish; produced principally in the Southeastern and Southwestern peanut-producing areas of the United States and identified by the following general characteristics: Typically two-seeded pods, which are small, with both ends rounded, the end opposite the stem having an inconspicuous point or keel, and the waist slender; shells very thin, with veining and corrugation but not deep; and seeds globular to oval and practically smooth.

(c) Valencia type peanuts means peanuts commonly known as New Mexico Valencia, Tennessee Valencia, Tennessee White, Tennessee Red, or Valencia, produced principally in Tennessee and New Mexico, and identified by the following general characteristics: Typically three- or four- and sometimes five-seeded pods which are long and slender, with the end opposite the stem having a definite point or keel with conspicuous veining and corrugation; and seeds globular to oval.

(d) Virginia type peanuts means peanuts commonly known as Virginia Runner, Virginia Bunch, North Carolina Runner, North Carolina Bunch, Jumbo, or Virginia, produced principally in North Carolina, Virginia, northeastern South Carolina, and Tennessee, and identified by the following general characteristics: Typically two-seeded pods which are of an average size larger than any other type; pods are roughly cylindrical, with veining and corrugation deep; and seeds cylindrical with pointed ends; length two or three times diameter, and practically smooth. Any lot or load of peanuts of the 1954 crop which contained less than 25 percent "Fancy" size (peanuts riding a 34/64" x 3" slotted screen) will be considered Runner type peanuts. Any lot or load of peanuts of the 1955 or 1956 crop which contained less than 30 percent "Fancy" size (peanuts riding a 34/64" x 3" slotted screen) will be considered Runner type peanuts.

§ 729.805 *Designation of type for which increase is needed and determination of total increase.* The State acreage allotments for peanuts of the 1957 crop for States which produced Valencia type peanuts during any one or more of the years 1954, 1955, and 1956 shall be increased by a total of 1,441 acres. This increase is determined to be the additional acreage required to meet the demand for Valencia type peanuts for cleaning and shelling purposes at prices at which the Commodity Credit Corporation may sell for such purposes peanuts owned or controlled by it.

§ 729.806 *Apportionment of increase to States.* The acreages established in § 729.805, less reserves of one-fourth of one percent of such acreage which shall be used for adjusting increases in State allotments determined on the basis of incomplete or inaccurate data are hereby apportioned to States on the basis of the average acreage (excluding acreage in excess of farm allotments) of Valencia type peanuts in each State in 1954, 1955 and 1956:

State	1947 harvested acreage of peanuts	1954–56 average acreage Valencia type peanuts	Increase in State allotment for Valencia type peanuts	Previous State allotment	Revised State allotment
Alabama	463,000	305	86	218,429.9	218,515.9

Tennessee	5,000	561	160	3,571.5	3,731.5
Texas	836,000	32	9	355,819.9	355,828.9
Virginia	162,000	0	0	105,767.1	105,767.1
Acreage apportioned to new farms				4,634.0	4,634.0
Reserve			3		3.0
United States total	3,380,000	5,082	1,441	1,610,000.0	1,611,441.0

The above increase does not result in increasing the State allotment for any State above the 1947 harvested acreage of peanuts for such State.

§ 729.807 *No credit for future allotments.* The increase in acreage allotted to States and farms pursuant to § 729.806 shall not be considered in establishing future State, county, or farm acreage allotments.

§ 729.808 *Definitions and miscellaneous provisions.* The applicable definitions and provisions in §§ 729.810 to 729.865 of the marketing quota regulations for the 1957 and subsequent crops of peanuts (21 F. R. 9370) shall apply to §§ 729.804 to 729.808.

Issued at Washington, D. C. this 21st day of March 1957. Witness my hand and the seal of the Department of Agriculture.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.785 (Lemon Regulation 678, 22 F. R. 1713) are hereby amended to read as follows:

(ii) District 2: 239,940 cartons.

Subchapter B—Food and Food Products

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF HYDROGEN CYANIDE

A petition was filed with the Food and Drug Administration requesting the establishment of a tolerance of 100 parts per million for residues of hydrogen cyanide in or on spices and extension of the tolerance of 25 parts per million to certain additional grains. The petitioner subsequently amended the petition to request tolerances of 250 parts per million for residues of hydrogen cyanide in or on certain specified whole spices and to provide for a holding period of 7 days following such fumigation.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR 1956 Supp., 120.130) are amended by changing § 120.130 to read as follows:

§ 120.130 *Tolerances for residues of hydrogen cyanide.* Tolerances for residues of hydrogen cyanide from postharvest fumigation are established as follows:

(a) 250 parts per million in or on the following spices: Allspice, anise, basil, bay, black pepper, caraway, cassia, celery seed, chili, cinnamon, cloves, coriander, cumin, dill, ginger, mace, marjoram, nutmeg, oregano, paprika, poppy, red pepper, rosemary, sage, savory, thyme, turmeric, white pepper.

(b) 25 parts per million in or on almonds, barley, beans (dried), buckwheat, cashews, cocoa beans, corn, oats, peanuts, peas (dried), pecans, popcorn, rice, rye, sesame, sorghum, walnuts, wheat.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330, Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 511; 21 U. S. C. 346a)

Dated: March 19, 1957.

C. 1456, to individuals, families, and business concerns displaced by an urban renewal project, prescribed on behalf of the Housing and Home Finance Administrator by the Acting Urban Renewal Commissioner, as of October 8, 1956, published at 21 F. R. 9991, December 15, 1956, are hereby amended as follows:

1. Paragraph (f) *Unpaid rent* of § 3.104 is hereby deleted; and

2. The parenthesized phrase "(available from HHFA)" appearing in the first sentence of paragraph (a) of § 3.105 is hereby deleted.

[Amdt. 241]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, RADAR, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of the Interior

PART 5—MAKING PICTURES, TELEVISION PRODUCTIONS OR SOUND TRACKS ON CERTAIN AREAS UNDER THE JURISDICTION OF THE DEPARTMENT OF THE INTERIOR

Part 5 (formerly "Filming of Motion Pictures"), of Subtitle A, Title 43, is revised in its entirely to read as follows:

Sec.
5.1 Areas administered by United States Fish and Wildlife Service or National Park Service.
5.2 Areas administered by the Bureau of Indian Affairs.

AUTHORITY: §§ 5.1 and 5.2 issued under R. S. 161, 463, sec. 3, 39 Stat. 535, sec. 10, 45 Stat. 1224; 5 U. S. C. 22, 25 U. S. C. 2, 16 U. S. C. 3, 715 i.

§ 5.1 *Areas administered by United States Fish and Wildlife Service or National Park Service*—(a) *Permit required.* No picture may be filmed, and no television production or sound track made on any area administered by the United States Fish and Wildlife Service or the National Park Service, of the Department of the Interior, by any person other than amateur or bona fide newsreel and news television photographers and soundmen, unless written permission has been obtained from the Service having jurisdiction over the area. Applications for permission should be submitted to the local official having administrative responsibility for the area involved.

(b) *Fees; bonds.* (1) No fees will be charged for the making of motion pictures, television productions or sound tracks on areas administered by the United States Fish and Wildlife Service or the National Park Service. The regular general admission and other fees currently in effect in any area under the jurisdiction of the National Park Service are not affected by this paragraph.

(2) A bond shall be furnished, or deposit made in cash or by certified check, in an amount to be set by the official in charge of the area to insure full compliance with all of the conditions prescribed in paragraph (d) (3) of this section.

(c) *Approval of application.* Permission to make a motion picture, television production or sound track on areas administered by the United States Fish and Wildlife Service or the National Park Service will be granted by the head of the Service or his authorized representative in his discretion and on acceptance by the applicant of the conditions set forth in paragraph (d) (3) of this section.

(d) *Form of application.* The following form is prescribed for an application for permission to make a motion picture, television production, or sound track on areas administered by the United States Fish and Wildlife Service or the National Park Service:

(2) The scope of the filming (or production or recording) and the manner and extent thereof will be as follows:

Weather conditions permitting, work will commence on approximately ____________ and will be completed on approximately ____________

____
____

(An additional sheet should be used if necessary.)

(3) The undersigned accepts and will comply with the following conditions:

(i) Utmost care will be exercised to see that no natural features are injured, and after completion of the work the area will, as required by the official in charge, either be cleaned up and restored to its prior condition or left, after clean-up, in a condition satisfactory to the official in charge.

(ii) Credit will be given to the Department of the Interior and the Service involved through the use of an appropriate title or announcement, unless there is issued by the official in charge of the area a written statement that no such courtesy credit is desired.

(iii) Pictures will be taken of wildlife only when such wildlife will be shown in its natural state or under approved management conditions if such wildlife is confined.

(iv) A 16mm. print on acetate safety film of any footage taken pursuant to this application will be furnished without charge to the Division of Information, Department of the Interior, Washington 25, D. C. for administrative use, upon request of the Director of Information or his authorized representative at any time within 3 years from the date of approval of this application.

(v) Any special instructions received from the official in charge of the area will be complied with.

(vi) Any additional information relating to the privilege applied for by this application will be furnished upon request of the official in charge.

§ 5.2 *Areas administered by the Bureau of Indian Affairs*—(a) *Individual Indians.* Anyone who desires to go on the land of an Indian to make pictures, television productions or sound tracks is expected to observe the ordinary courtesy of first obtaining permission from the Indian and of observing any conditions attached to such permission.

(b) *Indian groups and communities.* Anyone who desires to take pictures, including motion pictures, or to make a television production or a sound track of Indian communities, churches, kivas, plazas, or ceremonies performed in such places, must obtain prior permission from the proper officials of the place or community. Limitations which such officials may impose must be scrupulously observed.

(c) *Use of Indian lands.* If the filming of pictures or the making of television productions or sound tracks requires the actual use of Indian lands, a lease or permit must be obtained pursuant to 25 CFR Part 171.

(d) *Employment of Indians.* Any motion picture or television producer who obtains a lease or permit for the use of Indian land pursuant to 25 CFR Part 171 shall be expected to pay a fair and reasonable wage to any Indians employed in connection with the production activities.

The areas described aggregate approximately 95,216 acres, of which the S½NW¼, sec. 26, T. 45 N., R. 17 W., is included in Power Site Reserve No. 107 of April 20, 1932.

4. The following lands in the areas described in paragraph 1 of this order have been patented with a reservation of the minerals to the United States:

NEW MEXICO PRINCIPAL MERIDIAN

Sec. 29, SW¼NE¼, S½NW¼, N½SW¼, SE¼SW¼, and W½SE¼;
Sec. 30, lot 2, S½NE¼, SE¼NW¼, and N½SE¼.

The areas described aggregate approximately 3,760 acres.

5. The following described lands have been patented without a reservation of minerals to the United States:

New Mexico Principal Meridian

Sec. 23, E½ and E½NW¼;
Sec. 25, N½NE¼ and E½NW¼.

T. 44 N., R. 19 W.,
Sec. 25, W½NE¼.

T. 46 N., R. 17 W.,
Sec. 16, NW¼;
Sec. 17, NE¼, E½NW¼, NW¼NW¼, and N½SE¼.

The areas described aggregate approximately 2,400 acres.

6. The public lands released from withdrawal, aggregating approximately 95,136 acres, are located in Montrose and San Miguel Counties, in Western Colorado. The major portion of the lands lies between the Dolores and San Miguel Rivers. The lands are west, northwest, and southwest of Nucla and Naturita, Colorado. The soils are shallow and rocky with inadequate precipitation which, in the absence of water for irrigation, of which there is no known source, makes the lands unsuitable for crop production. Vegetative cover is variable over the area, with pinon and juniper on the steep, rocky areas which comprise portions of the area, and sagebrush on the remaining open areas. All evidence indicates that the restored lands are not suitable for development under the homestead or desert land laws.

7. The Commission has conducted no operations on the lands in Public Land Order No. 1092 to determine their mineral potential. Exploration on the remaining lands was done under its direction, and under direction of the Geological Survey on its behalf. Initial exploration was in the nature of a preliminary appraisal by wide-spaced investigational drilling, and resulted in a determination of unfavorability for important uranium deposits. The results of the preliminary drilling, while not conclusive, were not deemed sufficient to justify more extensive exploration. Over large areas no physical exploration at all was done, due to the negative aspect of the preliminary appraisal.

8. No application for the lands described in paragraph 3 of this order may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

9. Subject to any valid existing rights and the requirements of applicable law, the lands described in paragraph 3 of this order are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 30 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on April 20, 1957, will be considered as simultaneously filed at that hour. Rights under such preference-right applications filed after that hour and before 10:00 a. m. on July 20, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on July 20, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The vacant public lands described in paragraph 3, and the reserved minerals in the patented lands described in paragraph 4, excepting minerals reserved under the act of July 17, 1914 (38 Stat. 509; 30 U. S. C. 122), will be open to location under the United States mining laws beginning at 10:00 a. m. on July 20, 1957. The S½NW¼ sec. 26, T. 45 N., R. 17 W., will at the same time be so open, subject to the provisions of the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621–625). Mining locations made prior to that time are invalid. The lands have been open to applications and offers under the mineral-leasing laws except those in Public Land Order No. 1092, which will be open to such applications and offers on July 20, 1957.

10. Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid setlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Denver, Colorado.

Hatfield Chilson,
Acting Secretary of the Interior.

[CGFR 57-13]

Small Passenger Vessels (Not More Than 65 Feet in Length)

NOTICE OF PROPOSED RULE MAKING

The Merchant Marine Council held a Public Hearing on October 16, 1956, in Washington, D. C., on Proposed Rules and Regulations for Small Passenger Vessels (Not More Than 65 Feet in Length). The notice of proposed rule making and announcement of the public hearing was published in the Federal Register of September 6, 1956 (21 F. R. 6713–6715). The Agenda containing the specific proposals considered at this public hearing was further identified as CG–249 and dated October 16, 1956. The revised proposed regulations consist primarily of a new Subchapter T, entitled "Small Passenger Vessels (Not More Than 65 Feet in Length)," in 46 CFR Chapter I (Shipping).

As a result of the oral and written comments received at the Public Hearing held October 16, 1956, or submitted informally by interested parties for consideration, many of the proposed regulations were reconsidered and many suggested changes were adopted. Most of the comments received were based on the effect of the proposed regulations being applied to existing vessels since it was not readily apparent to what extent the

proposed regulations would be made applicable to existing vessels.

A pamphlet entitled "Proposed Rules and Regulations for Small Passenger Vessels," Revised Draft, dated March 15, 1957, contains the proposed regulations as revised. These proposed regulations are intended primarily for new vessels constructed after the regulations become effective. An Appendix A to this pamphlet contains a proposed Navigation and Vessel Inspection Circular which sets forth in detail the proposed application of these regulations to existing vessels. It is the intent of the proposed regulations not to condemn an existing vessel because it does not measure up to the exact details of the regulations, but rather to correct all unsafe conditions.

The "Revised Draft" is being forwarded to all those who commented on the original version of the "Proposed Rules and Regulations for Small Passenger Vessels," CG-249, dated October 16, 1956, as well as to all those who have evidenced an interest therein. Copies will be furnished to those interested so long as they are available and requests should be addressed to the Commandant (CMC), United States Coast Guard, Washington 25, D. C. After the extra copies available for distribution are exhausted, copies will be available for reading purposes only in Room 4104, Coast Guard Headquarters, or at the offices of the various Coast Guard District Commanders.

Written and oral comments on the "Revised Draft" of proposed regulations for small passenger vessels and the appendix attached thereto are invited. It is requested that all comments be given to the nearest Coast Guard District Commander as soon as possible, but no later than April 15, 1957. Each District Commander will consolidate the comments he receives and forward them to the Commandant (CMC), United States Coast Guard, Washington 25, D. C., with his recommendations. On the basis of the consolidated comments received from the District Commanders, the proposed regulations will be further revised as may be appropriate and published as soon as possible thereafter in the FEDERAL REGISTER.

The proposed regulations will give force and effect to Public Law 519, 84th Congress, approved May 10, 1956 (70 Stat. 151-154, 46 U. S. C. 390). The Secretary of the Treasury by Treasury Department Order No. 167-20, dated June 18, 1956 (21 F. R. 4894), delegated his functions under this law to the Commandant, U. S. Coast Guard. In order to minimize the changes necessary in the regulations in 46 CFR Chapter I, as well as to have all requirements for small passenger vessels in one group, it was decided to have the length of the vessel as a determining factor, regardless of manner of propulsion. The proposed new Subchapter T, entitled "Small Passenger Vessels (Not More Than 65 Feet in Length)," will consist of new Parts 175 to 186, inclusive, in Chapter I of 46 CFR. A general description of the proposed requirements is in the notice of proposed rule making published in the FEDERAL REGISTER dated September 6, 1956 (21 F. R. 6713-6715). The titles of the parts are generally explanatory of the regulations proposed and read as follows:

Part	Title
175	General Provisions.
176	Inspection and Certification.
177	Construction and Arrangement.
178	Watertight Subdivision.
179	Stability.
180	Lifesaving Equipment.
181	Fire Protection Equipment.
182	Machinery Installation.
183	Electrical Installation.
184	Vessel Control and Miscellaneous Systems and Equipment.
185	Operations.
186	Manning and Licensing.

For vessels over 65 feet in length and carrying more than six passengers, it is proposed to apply to such vessels the applicable regulations in 46 CFR Parts 70 to 78, inclusive (Subchapter H—Passenger Vessels), as well as certain requirements in 46 CFR Parts 50 to 61, inclusive (Subchapter F—Marine Engineering), and 46 CFR Parts 110 to 113, inclusive (Subchapter J—Electrical Engineering). If the vessel is 150 gross tons or over, certain load line requirements in 46 CFR Parts 43 to 46, inclusive (Subchapter E—Load Lines), may be applicable. To show the proper application of all the regulations in 46 CFR Chapter I to the various types of vessels inspected, the text and/or tables in 46 CFR 2.01, 24.05-1, 30.01-5, 70.05-1, 90.05-1, and 110.05-1 will be appropriately revised.

The authority for the proposed regulations in 46 CFR Parts 175 to 186, inclusive, is the Act of May 10, 1956 (70 Stat. 151-154; 46 U. S. C. 390). The authority for the necessary amendments to 46 CFR Parts 2, 24, 30, 70, 90, and 110 is R. S. 4405, as amended, 4417a, as amended, and 4462, as amended (46 U. S. C. 375, 391a, 416).

Dated: March 20, 1957.

TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS, PARTS, PROCESSES, AND APPLIANCES; POSITION LIGHT FLASHERS

NOTICE OF PROPOSED RULE MAKING

Section 514.28 defines minimum performance standards for position light flashers which will be used on civil aircraft of the United States engaged in air carrier operations. This regulation is being amended to make the flashing cycle correspond to the provisions of Part 4b of Chapter I of this title.

All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules should send them to the Civil Aeronautics Administration, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

Section 514.28 (21 F. R. 6508) is amended to read as follows:

§ 514.28 *Position light flashers (air-carrier aircraft)—TSO-C18c*—(a) *Applicability*—(1) *Minimum performance standards.* Minimum performance standards are hereby established for position light flashers which will be used in civil aircraft of the United States engaged in air carrier operations. New models of position light flashers manufactured for installation in civil air-carrier aircraft on or after the effective date of this section shall meet the standards set forth in SAE Specification AS-211, "Flasher, Position Light," dated November 1, 1948,[1] with the exceptions listed in subparagraph (2) of this paragraph.

(2) *Exceptions:* (i) For the purpose of this section, the following shall apply in lieu of section 4.2 of AS211:

The flashing cycle and its frequency shall conform to either (*a*) or (*b*) of this subparagraph. A maximum deviation of 5° from the specified periods is permissible.

(*a*)	Red and green forward position lights, top and bottom fuselage lights and white rear position light "ON"	130°
	Dark	50°
	Red and green forward position lights, top and bottom fuselage lights and red rear position light "ON"	130°
	Dark	50°

This cycle shall be repeated at not less than 32.5 nor more than 42.5 times per minute.

(*b*)	Red and green forward position lights and white rear position light "ON"	130°
	Dark	50°
	Top and bottom fuselage lights and red rear position light "ON"	130°
	Dark	50°

This cycle shall be repeated at not less than 65 nor more than 85 times per minute.

(ii) The following shall apply in lieu of the last sentence of section 4.3 of AS211: The flasher contacts shall be adequate for the intended purpose.

(b) *Marking.* In lieu of the marking requirement of paragraph (c) of § 514.3, the following shall be shown:

(1) Voltage,
(2) Normal motor current—amps, and
(3) Flasher contact capacity—amps.

(c) *Data requirements.* Six copies each of installation, operating, and maintenance recommendations or instructions shall be furnished the Chief, Aircraft Engineering Division, Civil Aeronautics Administration, Washington 25, D. C., with the statement of conformance.

(Sec. 205, 54 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[29 CFR Part 720]

[Administrative Order 478]

SPECIAL INDUSTRY COMMITTEE NO. 1 FOR AMERICAN SAMOA

APPOINTMENTS TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES; NOTICE OF HEARING

Pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.) and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), I hereby appoint, convene, and give notice of the hearing of Industry Committee No. 1 for American Samoa to be composed of the following representatives:

For the public: John D. Stewart, Chairman, Washington, D. C.; Leonard A. Yandall, Pago Pago, American Samoa.

For the employees: Magauli T. Tuitele, Pago Pago, American Samoa; John W. Quimby, San Diego, Calif.

For the employers: Donald D. Doran, Pago Pago, American Samoa; Charles R. Carry, Terminal Island, Calif.

I hereby refer to this industry committee the question of the minimum wage rate or rates to be paid under paragraph 6 (a) (3) of the act to employees in American Samoa who are engaged in commerce or in the production of goods for commerce. The industry committee shall investigate conditions in the industries in American Samoa and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the act.

The committee will meet in executive session to make appropriate decisions concerning its proceedings at 10:00 a. m. on May 3, 1957, and commence its public hearing at 10:00 a. m. on May 6, 1957, in the Legislative Hall, Pago Pago, American Samoa.

In order to reach as rapidly as is economically feasible the objective of the minimum wage of $1.00 an hour prescribed in paragraph (1) of section 6 (a) of the act, the committee will recommend to the Administrator the highest minimum rate or rates of wages which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in any industry in American Samoa and will not give any industry in American Samoa a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands and American Samoa. Where the committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in an industry than may be determined for other employees in that industry, the committee shall recommend such reasonable classifications within that industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it, under the principles set forth herein, which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within an industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters referred to the committee. Copies of such economic report may be obtained at the Office of the Governor, Pago Pago, American Samoa, and at the National Office of the Wage and Hour Division, United States Department of Labor, Washington, D. C., as soon as it is completed and prior to the hearing. The committee will take official notice of the facts stated in such economic report to the extent they are not refuted by evidence received at the hearing.

The procedure of this industry committee will be governed by the provisions of Title 29, Code of Federal Regulations, Part 511, as revised and published in the FEDERAL REGISTER on October 6, 1956 (21 F. R. 7669 et seq.). Copies of this Part of the regulations will be available at the Office of the Governor in Pago Pago, American Samoa. As a prerequisite to participation as witnesses or parties interested persons shall file nine copies of a prehearing statement at the aforementioned Office of the Governor of American Samoa and two copies at the Office of the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C. Each prehearing statement shall contain the data specified in § 511.8 of the regulations and shall be filed not later than April 12, 1957.

Signed at Washington, D. C., this 20th day of March, 1957.

JAMES P. MITCHELL,
Secretary of Labor.

FEDERAL RESERVE SYSTEM

[12 CFR Part 220]

[Reg. T]

EXTENSION AND MAINTENANCE OF CREDIT BY BROKERS, DEALERS AND MEMBERS OF NATIONAL SECURITIES EXCHANGES

NOTICE OF PROPOSED RULE MAKING

The Board of Governors of the Federal Reserve System is considering a proposed amendment to Part 220 which would somewhat broaden paragraph (f) (2) of § 220.4. That section at present makes special provision for loans which are made for capital purposes to a member firm of a national securities exchange by a corporate affiliate of the member firm. Such corporate affiliates are usually permitted by securities exchanges only when approved by the appropriate committee of the exchange. The proposed amendment to paragraph (f) (2) of § 220.4 would make the provisions of the section applicable to certain additional types of loans for capital purposes, particularly certain such loans between a member firm or member corporation of an exchange and its corporate affiliate.

The proposed amendment would read as follows:

Paragraph (f) (2) of § 220.4 is hereby amended to read as follows:

(2) (i) Make loans, and may maintain loans, (*a*) to or for any partner of a firm which is a member of a national securities exchange to enable such partner to make a contribution of capital to such firm, or to purchase stock in an affiliated corporation of such firm; or (*b*) to or for any person who is or will become the holder of stock of a corporation which is a member of a national securities exchange to enable such person to purchase stock in such corporation, or to purchase stock in an affiliated corporation of such corporation; provided the lender as well as the borrower is a partner in such member firm or a stockholder in such member corporation, or the lender is a firm or corporation which is a member of a national securities exchange and the borrower is a partner in such firm or a stockholder in such corporation.

(ii) Make and maintain subordinated loans to another creditor for capital purposes provided

(*a*) Either the lender or the borrower is a firm or corporation which is a member of a national securities exchange, the other party to the loan is an affiliated corporation of such member firm or corporation, and, in addition to the fact that an appropriate committee of the exchange is satisfied that the loan is not in contravention of any rule of the exchange, the loan has the approval of such committee, or

(*b*) The lender as well as the borrower is a member of such exchange, the loan has the approval of an appropriate committee of the exchange, and the committee, in addition to being satisfied that the loan is not in contravention of any

rule of the exchange is satisfied that the loan is outside the ordinary course of the lender's business, and that, if the borrower's firm or corporation or an affiliated corporation of such firm or corporation does any dealing in securities for its own account, the loan is not for the purpose of increasing the amount of such dealing.

(iii) For the purpose of subdivisions (i) and (ii) of this subparagraph, the term "affiliated corporation" means a corporation all the common stock of which is owned directly or indirectly by the member firm or general partners and employees of the firm, or by the member corporation or holders of voting stock and employees of the corporation and an appropriate committee of the exchange has approved the member firm's or member corporation's affiliation with such affiliated corporation.

This notice is published pursuant to section 4 of the Administrative Procedure Act and section 2 of the rules of procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2). The proposed changes are authorized under the authority cited at 12 CFR 220.

To aid in the consideration of the foregoing matters, the Board will be glad to receive from interested persons any relevant data, views, or arguments. Although such material may be sent directly to the Board, it is preferable that it be sent to the Federal Reserve Bank of the district which will forward it on to the Board to be considered. All such material should be submitted in writing to be received not later than April 19, 1957.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,

Secretary.

ORDER OPENING LANDS TO MINERAL LOCATION, ENTRY, AND PATENT

MARCH 15, 1957.

1. Pursuant to determinations by the Bureau of Reclamation under the Act of April 23, 1932 (47 Stat. 136; 43 U. S. C. 154), and in accordance with the authority delegated by Document number 43, Arizona, effective May 19, 1955 (20 F. R. 3514-15), it is ordered as follows:

2. Subject to valid existing rights and the provisions of existing withdrawals, the following described lands shall, commencing at 10:00 a. m., m. s. t., on April 22, 1957, be opened to locations, entry, and patenting under the United States mining laws, subject to the stipulation quoted below, to be executed and acknowledged in favor of the United States by the locators for themselves, their heirs, successors and assigns, and recorded in the County Records and in the United States Land Office at Phoenix, Arizona, before any rights attached thereto:

GILA AND SALT RIVER MERIDIAN

T. 26 N., R. 10 E.,
Sec. 8: E½.

The area described totals 320 acres of public land.

Stipulation:

In carrying on the mining and milling operations contemplated hereunder, locator will, by means of substantial dikes, or other adequate structures, confine all tailings, debris and harmful chemicals in such a manner that the same shall not be carried into the Little Colorado River by storm waters, or otherwise.

There is reserved to the United States, its agents and employees, at all times, free ingress to, passage over and egress from all of the above described lands for the purpose of inspection; there is further reserved to the United States, its successors and assigns the prior right to use any of the lands hereinabove described, to construct, operate, and maintain dams, dikes, reservoirs, canals, wasteways, ditches, telephone and telegraph lines, electric transmission lines, roadways and appurtenant works, including right to take and remove from the lands hereinabove described such construction materials as may be required in the construction of irrigation works, without payment made by the United States, or its successor for such rights. The locator further agrees that the United States, its officers, agents and employees and its successors and assigns, shall not be held liable for any damage to the improvements or workings of the locator resulting from the construction, operation and maintenance of any works of the United States and/or the removal of construction materials from the lands hereinabove described.

3. Inquiries concerning these lands shall be addressed to the Manager, Arizona Land Office, Bureau of Land Management, Post Office Box 148, Phoenix, Arizona.

[P. & S. Docket No. 344]

UNION STOCK YARDS COMPANY OF OMAHA (LTD.)

NOTICE OF PETITION FOR MODIFICATION OF RATE ORDER

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended 7 U. S. C. 181 et seq.), an order was issued on January 24, 1957, continuing in effect to and including February 6, 1958, an order issued on February 1, 1955 (14 A. D. 97), which authorized the respondent, Union Stock Yards Company of Omaha (Ltd.), Omaha, Nebraska, to put into effect and assess the current schedule of rates and charges.

By documents filed on February 27 and 28, and March 8, 1957, the respondent petitioned for authority to modify the current schedule of rates and charges by putting into effect, as soon as possible, an increase in the charge for dipping sheep from 10 cents per head with a $10 minimum to 10 cents per head with a $40 minimum. The minimum charge of $40 would be "prorated over all sheep being dipped at same time regardless of ownership."

The modification, if authorized, will produce additional revenue for the respondent, and will increase the cost of marketing sheep in those instances in which the minimum dipping rate applies. It appears, therefore, that this public notice of the filing of the petition and its contents should be given in order that all interested persons may have an opportunity to indicate a desire to be heard in the matter.

All interested persons who desire to be heard in the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days after the publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 20th day of March, 1957.

RADIO AND TELEVISION NETWORK BROADCASTING STUDY

ORDER INSTITUTING INVESTIGATORY PROCEEDING

In the matter of study of radio and television network broadcasting pursuant to Delegation Order No. 10, dated July 20, 1955, and Network Study Committee Order No. 1, dated November 21, 1955, Docket No. 11960.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of March, 1957;

The Commission having before it a communication from the Network Study Committee, and

Whereas, Network Study Committee Order No. 1, adopted November 21, 1955, directed that inquiry be made pursuant to Section 403 of the Communications Act of 1934, as amended (47 U. S. C. A., section 403), to obtain data and information relevant to the Commission's study of radio and television broadcasting provided for by Delegation Order No. 10, dated July 20, 1955 (FCC 55-810); and

Whereas, on November 22, 1955, the Committee isssued a Public Notice (FCC 55M-977) setting forth the purposes and the objectives of said study; and

Whereas, the said study has been deemed by the Commission as necessary to serve and protect the public interest in the wider and more effective use of radio and television broadcasting; and

Whereas, in furtherance of said inquiry the Committee, pursuant to Network Study Order No. 1, has requested data and information relevant and material to said study from various persons, firms, and companies in the broadcasting industry; and

Whereas, most such persons, firms, and companies have cooperated in the making of the study and a substantial amount of information and data so requested of them has been voluntarily submitted to the Committee; and

Whereas, certain persons, firms, and companies have been requested to supply such information and data but have failed to do so; and

Whereas, the Committee has now determined and informed the Commission that in order to carry on and complete said study it will be necessary to take testimony and require the production of documentary evidence;

Now, therefore, *It is ordered*, Pursuant to section 403 of the Communications Act of 1934, as amended, that an investigatory proceeding be instituted and carried on by the Network Study Committtee concerning the matters and for the purposes set forth in Network Study Committee Order No. 1 and said Public Notice FCG 55M-977;

It is further ordered, Pursuant to the provisions of section 5 (d) of the Communications Act of 1934, as amended, that for the purpose of such inquiry, Chairman George C. McConnaughey, Commissioner Rosel H. Hyde, Commissioner Robert T. Bartley, Commissioner John C. Doerfer, Chief Hearing Examiner James D. Cunningham, and such other employees of the Commission as the Committee may designate, are hereby designated presiding officers of the Commission and each of them, acting individually, is empowered to hold hearings, administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith as authorized by law.

Released: March 21, 1957.

FEDERAL POWER COMMISSION

[Docket No. E-6734]

IDAHO POWER CO.

NOTICE OF APPLICATION

MARCH 20, 1957.

Take notice that on March 11, 1957 an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Idaho Power Company ("Applicant"), a corporation organized under the laws of the State of Maine and doing business in the States of Idaho, Oregon and Nevada, with its principal business office at Boise, Idaho, seeking an order authorizing the issuance of unsecured notes aggregating $33,800,000 for short-term borrowings Applicant proposes to make from banks. Applicant proposes to make borrowings, and the renewals thereof, for which authorization is requested during the period from March 1, 1957 to February 28, 1958. Applicant anticipates that said bank loans will be at the current rate applicable in New York City, at the time of borrowings, for commercial bank loans, which interest rate at present is 4 percent. The notes will mature in one year or less from date of issuance. Applicant requests that the authorization include the right to renew such of said short-term notes as expire prior to one year from the date of authorization and that the principal amount of such renewals, if made, either of notes issued under the authorization requested, or of notes issued under the exemptions pursuant to section 204 (e) of the Federal Power Act ($6,200,000) shall not be considered as applying against, or as a reduction of, the aggregate amount ($40,000,000) for which authorization is requested or which may be exempt as hereinabove stated.

Any person desiring to be heard or make any protest with reference to said application should on or before the 10th day of April 1957, file with the Federal Power Commission, Washington 25, D. C. a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

VIRGINIA ELECTRIC AND POWER CO.

NOTICE OF APPLICATION

MARCH 20, 1957.

Take notice that on March 12, 1957 an application was filed with the Federal Power Commission pursuant to section 203 of the Federal Power Act by Virginia Electric and Power Company ("Virginia Company"), a corporation organized under the laws of the State of Virginia and doing business in the States of Virginia, West Virginia, and North Carolina, with its principal business office at Richmond, Virginia, seeking an order authorizing the purchase and consolidation by Virginia Company of certain physical property and facilities from Roanoke Utilities Company, Incorporated ("Roanoke Company"), a North Carolina corporation doing business in the State of North Carolina with its principal business office at Manteo, North Carolina. The property proposed to be purchased by Virginia Company from Roanoke Company comprises principally of distribution lines, transformers, meters, and appurtenances necessary or used to supply electricity to approximately 800 customers located on Roanoke Island, in Dare County, North Carolina, including the Village of Wanchese and the incorporated Town of Manteo. The consideration for the properties to be acquired is stated in the application to be $200,000 in cash subject to certain adjustments.

Any person desiring to be heard or make any protest with reference to said application should on or before the 10th day of April 1957, file with the Federal Power Commission, Washington 25, D. C. a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[Docket No. IT-6083]

COMISION FEDERAL DE ELECTRICIDAD AND CENTRAL POWER AND LIGHT CO.

NOTICE OF APPLICATION

MARCH 20, 1957.

Take notice that Comision Federal de Electricidad (Comision), a governmental agency of the Republic of Mexico which is successor by order of the Mexican Government to La Junta Federal de Mejoras Materiales (La Junta), another governmental agency of Mexico, in the operation of electric system facilities located at or near Nuevo Laredo, Tamaulipas, Republic of Mexico, together with La Junta's facilities and authority for the importation of electric energy from the United States for utilization in that system, with its principal place of business in Nuevo Laredo, Republic of Mexico, on March 5, 1957, filed an application for authorization, pursuant to section 202 (e) of the Federal Power Act, for an increase in the amount and rate of electric energy which La Junta, its predecessor, and Central Power and Light Company (Central) were authorized to export from the United States to Mexico. On March 6, 1957, Central, a Texas corporation, with its principal place of business in Corpus Christi, Texas, joined in the aforesaid application filed by Comision.

By order issued in the above docket February 21, 1952, La Junta and Central were authorized to transmit from a point at Laredo, Webb County, Texas, to a point on the opposite bank of the Rio Grande River at Nuevo Laredo, Mexico, a maximum of 15,000,000 kwh of electric energy per year at a rate not to exceed 3,000 kilowatts. Comision, as La Junta's successor, and Central presently seek authorization to increase to 25,000,000 kwh the maximum amount and to 4,500 kilowatts the maximum rate of electric energy to be exported annually to Nuevo Laredo, Mexico.

Applicants state that industrial expansion of the area in Mexico involved has increased requirements for electric energy to the extent that the present authorization to export electric energy granted La Junta and Central in 1952

is inadequate to meet such additional requirements and that Comision does not possess the generating capacity to fulfill them. The application sets forth that Central is able to transmit the additional electric energy at the increased rate without diminishing its capacity to fulfill the demands of its present and prospective customers located in the vicinity of Laredo, Texas, and indicates that all of the energy to be exported in excess of a demand of 2,000 kilowatts will be on an interruptible basis.

Any person desiring to be heard or to make any protest with reference to the aforesaid application, should on or before the 9th day of April 1957, file a petition or protest with the Federal Power Commission, Washington 25, D. C. in accordance with the Commission's rules of practice and procedure (18 CFR 1.7, 1.8, or 1.10). The application is on file with the Commission and available for public inspection.

CALIFORNIA OREGON POWER CO.

NOTICE OF APPLICATION FOR AMENDMENT OF ORDER ISSUING LICENSE

MARCH 20, 1957.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by The California Oregon Power Company of Medford, Oregon (Applicant), for amendment of the Federal Power Commission's order issued January 28, 1954, as subsequently amended, issuing license for a proposed hydroelectric development at the Big Bend No. 2 site on the Klamath River in Oregon. According to revised plans submitted by the applicant, it now proposes to develop the head at the previously designated Big Bend No. 1 site and Big Bend No. 2 site as a single unit of development to be known as the Big Bend Development. Applicant also requests further amendment of the aforesaid order, as amended, to include a proposed Iron Gate development, and six existing developments. The six existing developments and the two proposed developments on the Link and Klamath Rivers in Klamath County, Oregon, and Siskiyou County, California, are described as follows: (a) Existing East Side Development on Link River consisting of a canal and penstock extending from Link River dam to the powerhouse containing a 4,250-horsepower turbine driving a 3,200-kilowatt generator; (b) Existing West Side Development on Link River consisting of a canal and penstock extending from Link River dam to the powerhouse containing a 1,040-horsepower turbine driving a 600-kilowatt generator; (c) Existing Keno Regulating Dam on Klamath River consisting of a wood-bent structure with earth abutments and control works for maintaining the level of Ewauna Lake and Klamath River between Keno and Klamath Falls; (d) Existing Keno Development consisting of a low diversion dam across Klamath River about one mile below Keno and a short canal extending to two powerhouses containing, respectively, a 600-horsepower turbine driving a 360-kilowatt generator and 695-horsepower turbine driving a 400-kilowatt generator; (e) Existing Copco No. 1 Development on Klamath River about 30 miles below the Keno Development consisting of a concrete gravity arch dam with tainter gates creating a reservoir about 4½ miles long, penstocks, and a powerhouse containing two 18,600-horsepower turbines each driving a 10,000-kilowatt generator, a substation, and appurtenant facilities; (f) Existing Copco No. 2 Development on Klamath River about ¼ mile below the Copco No. 1 Development consisting of a concrete and earth diversion dam, a conduit composed of two tunnels, wood-stave pipe and penstocks leading to the powerhouse containing two 20,000-horsepower turbines each driving a 13,500-kilowatt generator, a substation, and appurtenant facilities; (g) Proposed Big Bend Development on Klamath River to consist of a diversion dam approximately 650 feet long at the previously designated Big Bend No. 1 dam site in the NW¼ section 6, T. 40 S., R. 7 E., Willamette meridian, composed of an earth-fill section, a gated-spillway section, a concrete gravity intake section, and a fish ladder section; a reservoir with normal water surface at elevation 3,793 feet (U. S. G. S. datum) and extending upstream about 3 miles to the tailwater of applicant's existing Keno Development; a conduit about 2¼ miles long, partly steel pipe, partly canal and partly flume, extending to a forebay; a forebay; a tunnel about 1,600 feet long; a surge tank; penstocks about 800 feet long; a powerhouse at the previously designated Big Bend No. 2 powerhouse site in the NW¼ section 13, T. 40 S., R. 6 E., Willamette meridian, containing two turbines each rated at 56,000 horsepower and driving a 40,000-kilowatt generator; transformers; and appurtenant facilities. According to the applicant the reservoir will be so operated as to limit fluctuations of the river below the powerhouse to 9 inches per hour under average weekly conditions; and (h) Proposed Iron Gate Development on Klamath River to consist initially of a reinforced concrete arch dam in the SW¼ section 9, T. 57 N., R. 5 W., Mt. Diablo meridian, constructed to elevation 2,225 feet (U. S. G. S. datum) with valve controlled discharge and creating a reservoir for regulation of the river below the dam. Ultimately, the development is to be completed by increasing the height of the dam and incorporating therein a gated spillway section which will create a reservoir with normal water surface at elevation 2,328 feet (U. S. G. S. datum) and extending upstream about 7 miles to applicant's existing Copco No. 2 Development, and by constructing a short penstock, a powerhouse immediately below the dam containing a single turbine with capacity of about 33,500 horsepower and driving a 25,000-kilowatt generator, a substation adjacent to the powerhouse, and a transmission line extending from the substation to the applicant's existing transmission system at the Copco No. 2 Development. According to the application construction of the initial stage of development is to commence immediately and in both stages of development the reservoir will be so operated as to limit fluctuations of the river below the dam to 3 inches per hour except for conditions beyond the applicant's control.

Protests or petitions to intervene in this proceeding may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests and petitions to intervene may be filed is May 6, 1957. The application is on file with the Commission for public inspection.

METROPOLITAN EDISON CO. AND GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING OF APPLICATION REGARDING ISSUANCE AND SALE BY SUBSIDIARY TO, AND ACQUISITION BY, PARENT OF SHARES OF ADDITIONAL COMMON STOCK

MARCH 20, 1957.

Notice is hereby given that Metropolitan Edison Company ("Meted"), a public utility company, and its parent General Public Utilities Corporation ("GPU"), a registered holding company, have filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), a joint application. Applicants have designated sections 6 (b), 9 and 10 of the act, and Rule U-50 (a) (3) as applicable to the proposed transactions.

All interested persons are referred to the joint application on file at the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Meted proposes to issue and sell to GPU, and GPU proposes to acquire, 105,000 additional shares of Meted's authorized but unissued $100 par value common stock for a cash consideration of $10,500,000.

The proceeds received by Meted from the proposed sale of common stock are to be used to reimburse its treasury for expenditures for construction of property additions made prior to January 1, 1957, including the payment of not to exceed $4,500,000 of short-term bank notes outstanding December 31, 1956.

The fees and expenses, including legal fees, to be incurred by GPU in connection with the proposed transactions are estimated at not to exceed $750; and those of Meted are estimated at $33,500, including legal fees of $750, capital stock tax of $21,000, and original issue tax of $11,550.

The applicants state that the Pennsylvania Public Utility Commission has

jurisdiction over the proposed issue and sale of common stock by Meted; that the order of that commission authorizing such issue and sale of common stock will be supplied by amendment; and that no other State or Federal commission except this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 4, 1957, request in writing that a hearing be held in respect of the joint application, stating the nature of his interest, the reasons for such request, and the issues of fact or law which he desires to controvert, or he may request that he be notified if the Commission orders a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the Commission may grant the joint application, as filed or as it may be amended, pursuant to Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules pursuant to Rules U-20 (a) and U-100 thereof, or take such other action as it deems appropriate.

By the Commission.

OLIN REVERE METALS CORP.

ORDER GRANTING EXEMPTION

MARCH 20, 1957.

Olin Revere Metals Corporation ("Metals"), a Delaware corporation, has filed with this Commission an application and amendments thereto pursuant to section 3 (a) (3) (A) of the Public Utility Holding Company Act of 1935 ("act") for an exemption for it as a holding company, and its subsidiary companies as such, from all the provisions of the act, on the basis that Metals is only incidentally a holding company, being primarily engaged or interested in one or more businesses other than the business of a public utility company, and not deriving directly or indirectly any material part of its income from any one or more subsidiary companies, the principal business of which is that of a public utility company.

Due notice of the filing of said exemption application has been given (Holding Company Act Release No. 13395) and no hearing thereon has been ordered by or requested of the Commission. The Commission has examined the statements contained in said exemption application as amended and has considered the full record with respect thereto. It appears to the Commission that the applicable standards of section 3 (a) (3) (A) of the act are satisfied and the Commission finds that the granting of said exemption application will not be detrimental to the public interest or the interest of investors or consumers.

It is therefore ordered, That Metals, as a holding company, and its subsidiary companies as such, be, and the same hereby are, exempted from the provisions of the act applicable to it as a holding company and its subsidiary companies as such.

It is further ordered, That this order shall become effective upon issuance.

By the Commission.

WORCESTER COUNTY ELECTRIC CO. AND NEW ENGLAND ELECTRIC SYSTEM

ORDER AUTHORIZING PROPOSED RIGHTS OFFERING BY SUBSIDIARY AND PROPOSAL OF PARENT COMPANY TO PURCHASE ALL SHARES UNSUBSCRIBED BY MINORITY STOCKHOLDERS

MARCH 20, 1957.

New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary, Worcester County Electric Company ("Worcester"), have filed a joint application-declaration and an amendment thereto with this Commission pursuant to sections 6 (b) and 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following proposed transactions:

The authorized and outstanding capital stock of Worcester consists of 526,120 common shares (par value $25 per share), of which, as of February 12, 1957, NEES owned 522,533 shares (99.318 percent) and the minority public holders (90 in number) owned 3,587 (0.682 percent). Worcester proposes to increase its common capital stock by the issue and sale, for cash, of 87,686 additional shares, offering such shares to its stockholders at a price of $55 per share on the basis of one new share for each six shares held. Rights to subscribe will be evidenced by full and fractional share warrants, exercisable during a subscription period of 21 days. However, only full shares will be issued. NEES proposes to exercise its rights to subscribe for 87,088 full shares of additional stock to which it will be entitled. The minority public holders will be entitled to subscribe for 597 full shares. NEES also proposes to purchase at the end of the subscription period all unsubscribed shares at the subscription price of $55 per share. The subscription price was determined by Worcester's board of directors after consideration of earnings, dividends, and book value of the Worcester comon stock and other comparable utility company common stocks.

NEES will use treasury funds for its proposed acquisitions. Worcester will apply the proceeds from the sale of the additional common stock, amounting to $4,822,730, to the discharge of a like amount of promissory notes payable to NEES. Worcester and NEES desire to consummate the proposed issue and sale of additional common stock in order to finance permanently a portion of the capitalizable additions to Worcester's plant through the issuance of equity securities.

The Massachusetts Department of Public Utilities has approved the proposed issue and sale of common stock by Worcester. The application-declaration states that no Federal commission, other than this Commission, has jurisdiction over the proposed transactions and no State commission approval is necessary with respect to the acquisition of securities by NEES.

The expenses to be incurred by Worcester and NEES in connection with the proposed transactions are estimated to aggregate $7,000 and $300, respectively.

Due notice of the filing of the application-declaration having been given (Holding Company Act Release No. 13403, March 4, 1957), in the manner prescribed by Rule U-23 promulgated under the act, and no hearing having been requested of or ordered by the Commission; and

The Commission finding in respect of the application-declaration, as amended, that the applicable provisions of the Act and the Rules promulgated thereunder are satisfied, observing no basis for adverse findings or the imposition of terms or conditions, it appearing that the fees and expenses to be incurred in connection with the proposed transactions are not unreasonable if they do not exceed the estimates hereinabove stated, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to grant the application and permit the declaration, as amended, to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the application-declaration, as amended, be, and it hereby is, granted and permitted to become effective, forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

PITTSBURGH RAILWAYS CO.

ORDER GRANTING APPLICATION REGARDING PROPOSED ISSUE AND SALE OF PURCHASE MONEY BOND

MARCH 20, 1957.

Pittsburgh Railways Company ("Pittsburgh"), a non-utility subsidiary of Standard Gas and Electric Company, a registered holding company, has filed an application and amendments thereto pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") concerning the following proposed transactions:

Pittsburgh proposes to issue a 15-year purchase money bond in the principal amount of $280,000 and bearing interest at the rate of 4½ percent per annum. The unpaid balance of the bond may be

anticipated, without penalty, on any quarter annual payment date. The bond will be issued to Navarro Corporation, a contractor doing business in Pittsburgh, Pennsylvania, as part payment for a garage building being constructed by said contractor and needed by Pittsburg for storage, servicing and maintenance of its buses and said bond will be secured by a mortgage on said property. Competitive bidding was observed in awarding the construction contract.

There are no fees or commissions payable on account of the issuance of said bond or mortgage. There are, however, Federal Internal Revenue Documentary Stamps required in the amount of $308 and Pittsburgh has agreed to pay all of the realty transfer taxes involved in the transaction and certain expenses, including attorneys fees, incurred by Navarro Corporation in connection with the transaction estimated not to exceed $12,000. The record is incomplete with respect to said expenses incurred by Navarro Corporation and the fees and expenses of all counsel, including the fees and expenses of counsel for Navarro, and jurisdiction will be reserved with respect thereto.

Subject to certain conditions, the Pennsylvania Public Utility Commission has registered the Securities Certificate of Pittsburgh relating to the issuance of said bond and mortgage.

Due notice having been given of the filing of said amended application in the manner prescribed by Rule U-23 (Holding Company Act Release No. 13394) and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said amended application be granted forthwith.

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said amended application be, and the same hereby is, granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That jurisdiction be, and the same hereby is, reserved over the expenses incurred by Navarro Corporation and the fees and expenses of all counsel, including the fees and expenses of counsel for Navarro.

By the Commission.

OHIO EDISON CO.

ORDER APPROVING ACQUISITION OF UTILITY ASSETS

MARCH 20, 1957.

Ohio Edison Company ("Company"), a registered holding company and a public-utility company, has filed an application pursuant to section 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following proposed transactions:

Pursuant to a Sale Agreement dated February 11, 1957, the Company proposes to acquire from the City of Galion, Ohio ("City"), for $2,784 cash, a single-phase 2,400-volt distribution line approximately 1.2 miles long.

The Company presently supplies power at wholesale to City's electric distribution system. The property to be acquired is in close proximity to surrounding rural areas now being served by the Company at retail and will be operated as a part of the Company's integrated system.

Due notice having been given of the filing of said application, and a hearing not having been requested of or ordered by the Commission, and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

WEST PENN POWER CO. AND WEST PENN ELECTRIC CO.

ORDER AUTHORIZING SUBSIDIARY TO ISSUE AND SELL ADDITIONAL COMMON STOCK AND AUTHORIZING HOLDING COMPANY TO PURCHASE ITS PRO RATA PART OF SUCH OFFERING; TO PURCHASE ALL SHARES NOT SUBSCRIBED BY PUBLIC STOCKHOLDERS, AND TO PLEDGE ACQUIRED SHARES

MARCH 20, 1957.

The West Penn Electric Company ("Electric"), a registered holding company, and its public-utility subsidiary West Penn Power Company ("Power") have filed a joint application-declaration and an amendment thereto pursuant to sections 6 (b), 10, and 12 (d) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-44 thereunder, with respect to the following proposed transactions:

Power proposes to issue and sell, through an offering to the holders of its common stock (of which 3,522,480 shares, without par value, are now outstanding), 251,606 additional shares at $49.50 per share, and in this connection to issue transferable warrants to such holders (other than its parent) evidencing their rights to subscribe for the additional shares at the rate of 1 new share for each 14 shares held on the record date. The warrants will be issued on or about March 25, 1957, to holders of record at the close of business on the second full business day prior thereto, and they will expire on or about April 16, 1957. No fractional shares will be issued.

Electric, which owns 3,346,367 shares (approximately 95 percent) of Power's outstanding common stock, proposes to purchase its pro rata part of the additional shares and also all of the additional shares not subscribed by the public stockholders. Electric further proposes to purchase, at a price of 12 cents for each right represented thereby, warrants which are properly assigned and delivered to it at 50 Broad Street, New York 4, New York, before they expire.

Under the terms of the Trust Indenture dated as of September 1, 1949, securing its 3½ percent Sinking Fund Collateral Trust Bonds, Electric has covenanted to maintain the common stock of Power pledged with Chemical Corn Exchange Bank, Trustee, at 94.6 percent of all the issued and outstanding common stock of Power; and, pursuant to this covenant, Electric proposes to pledge approximately 94.6 percent of the additional shares to be issued by Power with said Trustee.

Power proposes to use the proceeds from the sale of the additional common stock, together with treasury cash and the proceeds from a later issue of about $20,000,000 of senior securities, in financing the 1957 and 1958 construction requirements of itself and its subsidiaries, estimated at $61,000,000.

The Pennsylvania Public Utility Commission, the regulatory commission of the State in which Power is organized and doing business, has approved Power's issuance and sale of the additional common stock as proposed.

Due notice having been given of the filing of said application-declaration (Holding Company Act Release No. 13402), and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

GOLDFIELD URANIUM, INC., AND NEVA-UTEX URANIUM, INC.

ORDER MODIFYING ORDER OF JULY 9, 1956

MARCH 20, 1957.

In the matter of Goldfield Uranium Inc., (File No. 24SF-1962); Neva-Utex Uranium, Inc., (File No. 24SF-2116).

The Commission on July 9, 1956, entered its order pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending exemptions under Regulation A for the offerings of Goldfield Uranium Inc. and Neva-Utex Uranium, Inc. on the grounds that the Commission had been advised that Scott W. Hockensmith, a promoter and director of Goldfield Uranium Inc. and a promoter, director and officer of Neva-Utex Uranium, Inc.; and Howard Hockensmith, a promoter, director and officer of both Goldfield Uranium Inc. and Neva-Utex Uranium, Inc., had been convicted of a crime and offense involving the sale of a security; in that said Scott W. Hockensmith and Howard Hockensmith were convicted on April 23, 1956, in the Superior Court of the State of California, in and for the County of Los Angeles, of violation of section 26104 (a) of the California Corporations Code, which prohibits the issuance or sale of any security in violation of the provisions of Division 1, Title 4 of said California Corporations Code and that the Commission had reasonable cause to believe that the terms and conditions of Regulation A had not been complied with by Neva-Utex Uranium, Inc. in that said Neva-Utex Uranium, Inc had been offering and selling its securities in a jurisdiction not stated in the Notification as a jurisdiction in which it is proposed to offer its securities.

The order of the Commission gave notice that, upon receipt of a written request, the matter would be set down for hearing for the purpose of determining whether the temporary order of suspension should be vacated or made permanent.

It appears from an affidavit filed by Oscar Morissett, the secretary of Goldfield Uranium Inc. accompanied by a certified copy of the Minutes of a Stockholders Meeting of Goldfield Uranium Inc. that (a) Scott W. Hockensmith and Howard Hockensmith were not elected or re-elected as officers or directors of Goldfield Uranium Inc. at a stockholders meeting held on July 23, 1955, and have not since been nor are they now connected in any way with the management of that company, (b) that none of the securities referred to in the filing by Goldfield Uranium Inc. has been sold and (c) that if the order of July 9, 1956 is vacated as to Goldfield Uranium Inc., the offering as originally proposed will be abandoned and the request for exemption withdrawn.

Goldfield Uranium Inc. having requested a modification of the temporary suspension order as to its filing based upon said affidavit and certified copy of the Minutes of the regular Meeting of Stockholders on July 23, 1955;

It is ordered, That the temporary order of suspension heretofore issued on July 9, 1956 be and is hereby modified to eliminate the name of Goldfield Uranium Inc. therefrom.

By the Commission.

TRI-DENT CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

MARCH 20, 1957.

I. The Tri-Dent Corporation, a company incorporated under the laws of the State of New Jersey on September 18, 1951, with principal offices located at 128 Linden Avenue, Jersey City, N. J., having filed with the Commission on November 6, 1953, a Notification on Form 1-A and Offering Circular, relating to a proposed offering of 300,000 shares of its $0.10 par value common stock at $1.00 per share not to exceed $300,000.00 in the aggregate, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A, promulgated thereunder; and

II. The Commission having been advised that the terms and conditions of said Regulation A have not been complied with in that the issuer has failed to file Form 2-A reports of sales, as required by Rule 224 of Regulation A;

III. It is ordered pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

SHOE DRESSING; BROOKLYN AND CRANFORD TO ATLANTA

RATES AND CHARGES; FIRST SUPPLEMENTAL ORDER

At a session of the Interstate Commerce Commission, Appellate Division 2, held at its office in Washington, D. C., on the 23d day of January A. D. 1957.

In the original order in this proceeding, the Commission, Appellate Division 2, upon its own motion, entered upon an investigation concerning rates, and charges, and the rules, regulations and practices affecting such rates and charges, applicable on interstate or foreign commerce, of shoe dressing or blacking from Brooklyn, N. Y. and Cranford, N. J. to Atlanta, Ga., as set forth in schedules of Motor Carrier Traffic Association, Inc., Agent, and Southern Motor Carriers Rate Conference, Agent;

It appearing that the following schedules contain certain rates and charges, and rules, regulations and practices affecting such rates and charges, applying on shoe dressing or blacking from Brooklyn, N. Y. and Cranford, N. J. to Chamblee, Ga.:

Southern Motor Carriers Rate Conference, Agent: In Supplement 56 to MF-I. C. C. No. 804, on page 83 thereof, Indexes 24334 and 24335;

Motor Carrier Traffic Association, Inc., Agent: In Supplement 35 to MF-I. C. C. No. 444, on page 14 thereof, Index 6500;

or as the same may be amended or reissued:

It further appearing that upon consideration of the tariff schedules shown in the foregoing, there is reason to institute an investigation to determine whether they result in rates and charges,

rules or regulations and practices that are unjust and unreasonable in violation of the Interstate Commerce Act; and good cause appearing therefor:

It is ordered, That this investigation be, and it is hereby, broadened, upon the Commission's own motion, into and concerning the lawfulness of the rates, charges, rules, regulations and practices contained in schedules designated herein, or as the same may be amended or reissued, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant.

It is further ordered, That the investigation in this proceeding shall not be confined to the matters and issues hereinbefore stated as the reason for instituting this investigation, but shall include all matters and issues with respect to the lawfulness of the said rates, charges, rules, regulations and practices under the Interstate Commerce Act.

It is further ordered, That a copy of this order be served on the respondents' attorneys in fact and that further notice of this proceeding be given to the respondents, and that notice be given to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

And it is further ordered, That this matter be assigned for hearing at a time and place to be hereafter fixed.

By the Commission, Appellate Division 2.

PAPER; CHARLESTON TO SAVANNAH

RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 2, Acting as an Appellate Division, held at its office in Washington, D. C., on the 15th day of March A. D. 1957.

There being under consideration the matter of rates and charges, and the rules, regulations and practices affecting such rates and charges, applicable on interstate or foreign commerce of wrapping paper, minimum 72,000 pounds, from Charleston, S. C., to Savannah Ga., as set forth in:

Motor Carriers Traffic Association, Inc., Agent; MF-I. C. C. No. 448, Supplement No. 44 thereto, on page 16 thereof, Index 27718;

or as the same may be amended or reissued.

It appearing that upon consideration of the tariff schedules there is reason to institute an investigation to determine whether they result in rates and charges, rules or regulations and practices that are unjust and unreasonable in violation of the Interstate Commerce Act; and good cause appearing therefor:

It is ordered, That an investigation be, and it is hereby, instituted, by the Commission, upon own motion into and concerning the lawfulness of the rates, charges, rules, regulations and practices contained in said schedules, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant.

It is further ordered, That the investigation in this proceeding shall not be confined to the matters and issues hereinbefore stated as the reason for instituting this investigation, but shall include all matters and issues with respect to the lawfulness of the said rates, charges, rules, regulations and practices under the Interstate Commerce Act.

It is further ordered, That a copy of this order be served on the respondents' attorneys in fact who filed the schedules containing the rates under investigation herein; and that further notice of this proceeding be given to the respondents, and that notice be given to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

And it is further ordered, That this matter be assigned for hearing at a time and place to be hereafter fixed.

By the Commission, Division 2, Acting as an Appellate Division.
