Other committeemen	72.
Full time office-workers.	3.

(The committeemen were elected from every strutum)

↓

Local Office Unit(Gun unit) Community Chest Committee (12 branches)

Chairman .	1.
Vice-chairmen	1 -3
Committeemen	19-67
Full time office-workers	1

(The committeemen were elected from every strutum)

↓

City, town, village unit Community Chest Committee (293 chapters)

Chairman	1
Vice-chairmen	1 -2
Committeemen	

(The committeemen were elected from every strutum)

↓

Volunteers:

Young men's ass'n members
Women's ass'n members
School boys & girls

(2) Use of Minsei-iin in collection operations:

Minsei-iin were not used organically, but some of them rendered services voluntarily.

(3) Use of city, ward, town village and gun officials in collection procedure.

They cooperated with the Committee as center.

b. Expenses of campaign showing total cost, ratio to collected amount, and detail of expenses by kind of expenditure.

(1) Total cost of campaign: ¥ 2,674,534.72

Ratio to collected amount: 10.07%
(Collected amount) ¥26,552,524.34

(2) Detail of expenses by kind of expenditure:

Cost of regular articles (articles regulated by the Central Committee: feathers, posters, pamphlets, money boxes, badges etc.):	¥ 767,432.26
Cost of advertising (curtains, placards, slides, newspapers, broadcastings):	¥ 212,595.-
Cost of investigation and guidance of the institutes:	¥ 56,045.-
Cost of meetings:	¥ 67,068.50
Cost for collection (papers, postage, miscellaneous articles, freight, trip expenses):	¥ 86,376.-
Levies of the Central Committee:	¥ 145,452.20
Office expenses (wages, etc.):	¥ 277,715.40
Cost of branches for collection:	¥ 743,295.25
Cost of branches for advertising:	¥ 318,555.11
Total	¥2,674,534.72

2. Allocations.

a. (1) Percentage division between Japan Red Cross and Community Chest:

Community Chest: 72.8%
Japan Red Cross: 27.2%

(2) Procedure for determining allocations:

(a) Investigations of recipient agencies and institutions made prior to allocations:

Before the goal of collection was reached, the prospective recipient agencies were requested to submit their applications. Allocation committeemen visited all of these institutes, and checking up requirements, determined allocations.

(b) Number of applications for community chest funds that were rejected, with reason for rejection:

Number of applications for community chest funds that were rejected: 15

Reason for rejection:

Disqualified as social welfare institutes:	3
Not well-equipped:	4
Not well functioning:	6
Recognized as official institutes:	1
Operation not commenced:	1

(c) Composition by name and occupation of members of the allocation and/or investigation committees and description of activities:

The following ten persons were elected on the Allocation Committee from among local committee members:

SUZUKI Kinsaku,
Shizuoka Prefectural Assemblyman.
Member of the Prefectural Welfare and Labor Committee.
Chairman of the Allocation Committee.

HIRANO Shigetaro,
President of the Shizuoka Bankers Association.

ARAKI Takatsugu,
President of the Shizuoka Medical Doctors Association.

NABETA Koichi,
Director of the Shizuoka Labor Standards Bureau.

KANO Seiichi,
President of the Shizuoka Town and Village Mayors Association.

IDA Kakichi,
Shizuoka Prefectural Welfare Workers League (Vice-president).

KAMINARI Shozo,
Shizuoka Prefectural Assemblyman.
Chairman of the Welfare & Labor Committee.

KAWAI Kentaro,
President of the Shizuoka Chapter of the Central Japan Railway Ass'n.

IGARASHI Fumio,
Director of the Welfare Dep't.,
Shizuoka Prefectural Government.
Adviser to the Allocation Committee.

TOYAMA Ryozo,
Chief of the Welfare Section,
Shizuoka Prefectural Government.
Adviser to the Allocation Committee.

At the first meeting of the Allocation Committee, applications for allocation of community chest funds were checked for decision. The committee decided to assign to its members the works of on-the-spot investigation into applying institutions. As a result of investigations thus made by its members a draft plan for allocation, report was presented on the agenda of the second meeting.

At the meeting those who were familiar with the works and facilities of social institutions expressed their opinions. At the third meeting decision was made of allocation of the collected funds.

(d) Method of paying allocation; monthly, quarterly, lump sum, etc., and dates of payments:

Full payment was made of the collected sum through respective chairmen of local community chest committees on Dec. 23, 1949.

b. (1) Names and types of institutions and agencies and amounts of money allocated.

As per attached sheets.

(2) Names of places and responsible person and amounts of money allocated which was returned to collection districts.

No money was returned to collection districts.

(3) Names of places of Minsei-iin-Kans and amounts of money allocated.

610,000 yen was allocated to the League of Shizuoka Prefectural Welfare Workers.

3. Analysis of good and bad aspects of operations and recommendations for improvement for next year's activities.

a. Good aspects:

(1) The spirit of mutual aid is inspired into the minds of the people, who are having a good understanding toward the social welfare work through a community chest drive.

(2) The community chest drive has come to be big mainspring for improvement of social welfare institutions.

b. Bad aspects:

(1) We do not know whether this should be numbered among the bad aspects, but some partizans of different ideology are standing in the way of the campaign.

(2) In view of the present financial situation of the local people, any raise of the collection goal will be difficult.

c. Recommendations for improvement for next year's activities:

(1) The methods of publicity before and during the collection campaign should be improved.

(2) Some measures should be considered for publicity in the press or in magazines free of charge.

(3) If necessary, one or two new social institutions should be constructed by a part of the collected money in order to make the local people personally feel that the money raised from them are being used for social works.

(1) Names and Types of Institutions and Agencies and Amounts of Money Allocated

(※ ... No. of persons needing protection)

ILO No. 2306

IBARAKI PREFECTURAL COMMUNITY
CHEST COMMITTEE FOUNDATION

Jan. 12, 1950

SUBJECT: Report of receipt and distribution of the Community Chest money for the 1949-50 year

TO : Chief of Kanto Civil Affairs Region

1. Campaign

A.

1. As a privotal organ of the Community Chest Campaign, Ibaraki Community Chest Committee Foundation composing of the prefectural Committee and of district services of the movement has seventeen branches of cities and guns which also consists of sub-divisions of towns and villages, and further each city branch and each sub-branch have service groups respectively which include women's association, youth social work organizations members.

These service groups of the Foundation have been made engage in the service of the Community Chest drive and propaganda as well as complete spreading of the principle.

2. Participation of the welfare committee men into the campaign.
Participation of the welfare committee in the drive of Community Chest has been averted to the atmost, however, some small number of the committee men have served in the individual capacity in districts of special circumstances.

3. Activities of officials of cities, towns and villages in the handling of the Community Chest Drive.
District offices, and city, town and village officials have been entrusted with liaison affairs with the Prefectural Committee by each city and town branches and town and village sub-

branches, the drive activities have been served mainly by the drive service group of each branch or sub-branch.

B. Total of the Drive expenses.

¥ 2,594,900.59

Total of Community Chest fund collected.

¥ 26,794,338

Percentage of the above.

9%

Itemized breakdown of the expenses

As showed in attached paper No. 1

2. Distribation

A.

1. Percentage of the money distributed for the Japan Red Cross Association and others applied for the money.

The Japan Red Cross Association 16%
Other applicants for the Community Chest money. 83.3%

2. Methods of selection for distribution.

a. Investigation into organizations prior to distribution has been conducted for all applicants of up to June, 1949 about their papers and further actual examination has been carried out for following organizations requesting necessary data (attached paper No. 2) for two weeks in Dec. 1949

b. Number of applications rejected for the Community Chest money

Work shop 4. 4.

Applicants who were behind the designated date for application.

1

Sanatorium 1
Which is not authorized as a institution of public management.

Total 5

C. Name, position and their activities of the Committee men in charge of distribution or investigation.

Name	Position
Gentaro Arai	Chairman of the Committee, and Prefectural Assembly man.
Kennosuke Ito	President of Mito City Assembly.
Senzaburo Hataya	Branch chief of the Committee and Prefectural Assembly man.
Hirokichi Kameko	Ditto, and phamaceutist.
Saburo Kaizuka	Ditto, and County, town and village Assembly Chairman concurrently.
Ryunosuke Nemoto	Ditto, and town mayor.
Tahei Inaba	Ditto, and town mayor.
Shogaku, Shigeta	Ditto, religist.
Takeo Goto	President of the "Ibaraki" newspaper office.
Naotoku Shigematsu	Welfare Department director, Ibaraki Pref. Gov't.
Yunosuke Takeuchi	President of Ibaraki Chamber of Commerce.
Kokki Tsunomura	Mito Local Court chief.
Shigebumi Miyata	City, and village chairman of the prefecture.
Fuminori Akiyama	The committee office chief.

Above listed committee men are being participated into the chest drive schedule planning generally as directors of the prefectural committee.
They are appointed at each district and have been independently acting for promotion of this movement observing always actual situations of organizations for distribution of the money.

A. Method of distribution

Distributionis scheduled to be conducted by following method, though it is not yet decided to be resorted whether to quarterly payment or to lump-sum method.

1. The money to be distributed will be informed the organizations to be granted thru each sub-branch chief of the Committee.

2. Representatives of receiving organizations are scheduled to be called for the transmission ceremony dusing February at which they are to be known their respective money in the presence of all persons concerned.

3. Of the money distributed, expenses for facilities, etc. will be paid in March and personal expenses, in March and September seperately.

B. 1. Name of organizations distributed the Community Chest fund and amount of money.

Not yet carried out.

2. Location, name of responsible person and amount of money backed to the office of collecting area.

None.

3. Location of the welfare committee office and amount of money for distribution.
It is in the Ibaraki Prefectural Government Office.

4. Statement of strong and weak points of this compaign and give some schedules of campaign for future considering the result of drive of this year.

1. Strong points.

The campaign works to make general people understand the principles of social works thru the movement and with the spirit of mutual aid thus given, further make them recognize true meaning of respecting basic personal rights in democratic Japan and at the same time, to make it a target of reconstruction of Japan.

2. Private social work organizations which have not been recognized by public before have been favored with recommendation to the prefectural people by which these organizations in low situation have been made to serve for promotion of private social works three this campaign.

3. This drive, especially those of on the streets, works to instruct general public with humanic sentiment given good chance to the social education of them.

4. It gives not less effects to the democratic education of students thru their participation into this movement.

Weak points:

1. It seems that this movement which has developed under the basis of national situation and character of foreign countries, especially, of U.S.A. has not yet been understood well, and it lacks somewhat adoptability to our people's nationality yet. Our feudally cultured people have mostly such unindependent character as some of them are apt to be moved in deciding their mind, for example in the case of contribution to Community Chest money, by force of a boss, that they are very difficult to lead in spiritual education of independency and thus they lack mutual-aid spirit with their individuality in social action.

2. As before mentioned, it has a good point with its nation-wide character of the drive, however, the time for the movement is considerable as inadequate in case for the people of our precture, as the term of the drive is in crop season of farmers and in t tax collection term as well.

3. This movement requires allcoutre-wardless service in its character, but general public of our country is far behind to it and still, there is much difficulties left to make them serve in such a campaign without remuneration.

4. There are many who want zonal distribution of the fund, however, private social work organizations are concentrated mostly in cities and scarce in country districts that it is hard to meet their demands. This makes it also difficult to make people understand and known well the character of the drive. Above mentioned strong and weak points requires us some counter measures, and we have a plan of improvement as follows for next year.

1. To give it more private character of the movement.
As it needs to establish systematic business channel for branches and sub-branches of the Committee, full-time officials are desired to be permitted for assignment, though that means some raise of its expenses.

2. The direct guiding organ of the Prefectural Committee is needed to be prepared in order to make city, town and village service group effective in the drive.

3. To make each city and county branches establish the most proper method, studying the old drive method, especially in training of the service groups.

4. To encourage people so as to establish the most proper social work organization of each district as well as to expedite its generalization aiming at its applicability for the contribution money to be understood beforehand, thus deepning the recognition of the social work of general public.

5. If the term for the drive is same as this year for the next, it is desired to be set up the period of three months for preparation, enforcement and arrangement of the drive so as to be able to enforce effective action.

6. Mc tax performances as a method of the drive have much effect for the diffusion of its principle in the drive, so any consideration is hoped to be permitted for its enforcement in 1950.

Attached paper No. 1

Itemized details of Community Chest drive expenses.

As of the end of Dec. 1949.

Item	Amount of money	Remarks

Utsunomiya City, Tochigi Pref.

Ref. No. 49
11 January 1950

SUBJECT : Collection and Distribution of Community Chest for 1949 Fiscal Year

TO : Chief,
Headquarters Kanto Civil Affairs Region,
APO 201

THRU : Liaison Section, Tochigi Prefecture

Hereby submit to you the report on the above subject for 1949 fiscal year.

Tokuji Takagiwa

TOKUJI TAKAGIWA
Chairman,
Tochigi Pref. Community
Chest Committee

Report on Collection and Distribution of Community Chest for 1949 Fiscal Year

I. Collection Campaign

1 (1) Organization for collection campaign.

a. Pivotal organs

In this campaign we have, as permanent organ, Tochigi Pref. Community Chest Committee which is a central organ for this civil campaign by Tochigi Prefectural people, "Gun" (county) or city community chest committee as intermedium organ which is to be re-organized into branch of Pref. Committee soon, and town or village community chest committee as terminal organ which is to be re-organized into sub-branch.

b. Structure of Community Chest Committee.

The community chest committee on prefectural, "Gun" or city, or town or village level is managed autonomously by the following types of members.

(a) Representatives of donators
(b) Representatives of those who render service for collection.
(c) Representatives of cooperator for the campaign.
(d) The learned and experienced.

c. Duty of Community Chest Committee.

Tochigi Pref. Community Chest Committee is an autonomous executive organ responsible for taking leadership in execution of the community chest campaign, and has the duty to conduct the following works all the year round.

(a) Execution of the decision of the Central Community Chest Committee, Foundation.
(b) Planning and execution of the community chest campaign.
(c) Enlightening and propaganda, information, fostering the public opinion and survey in connection with the Community Chest and social works.

(d) Enlargement of the organization for the community chest campaign.
(e) Determination of the target amount of the community chest campaign, distribution, auditing and publication of the result.
(f) Connection with governmental and public agencies and various organizations.
(g) Other matters concerning the community chest campaign.

The Pref. Committee shall have General Affairs & Collection Campaign Sub-committee and Survey & Distribution Sub-committee.

The former shall perform the duties of planning, propaganda and enlightening concerning the community chest campaign, accounting business, custody of collected money and determination of the target amount to be collected.

The latter shall have the duties of auditing and guidance of the institutions and organizations to receive the Community Chest money, collection of the data for distribution, and auditing and guidance for using the distributed money.

All matters shall be deliberated by the sub-committees at first and then decided by the Pref. Committee.

d. "Gun" or City Committee and Town or Village Committee.

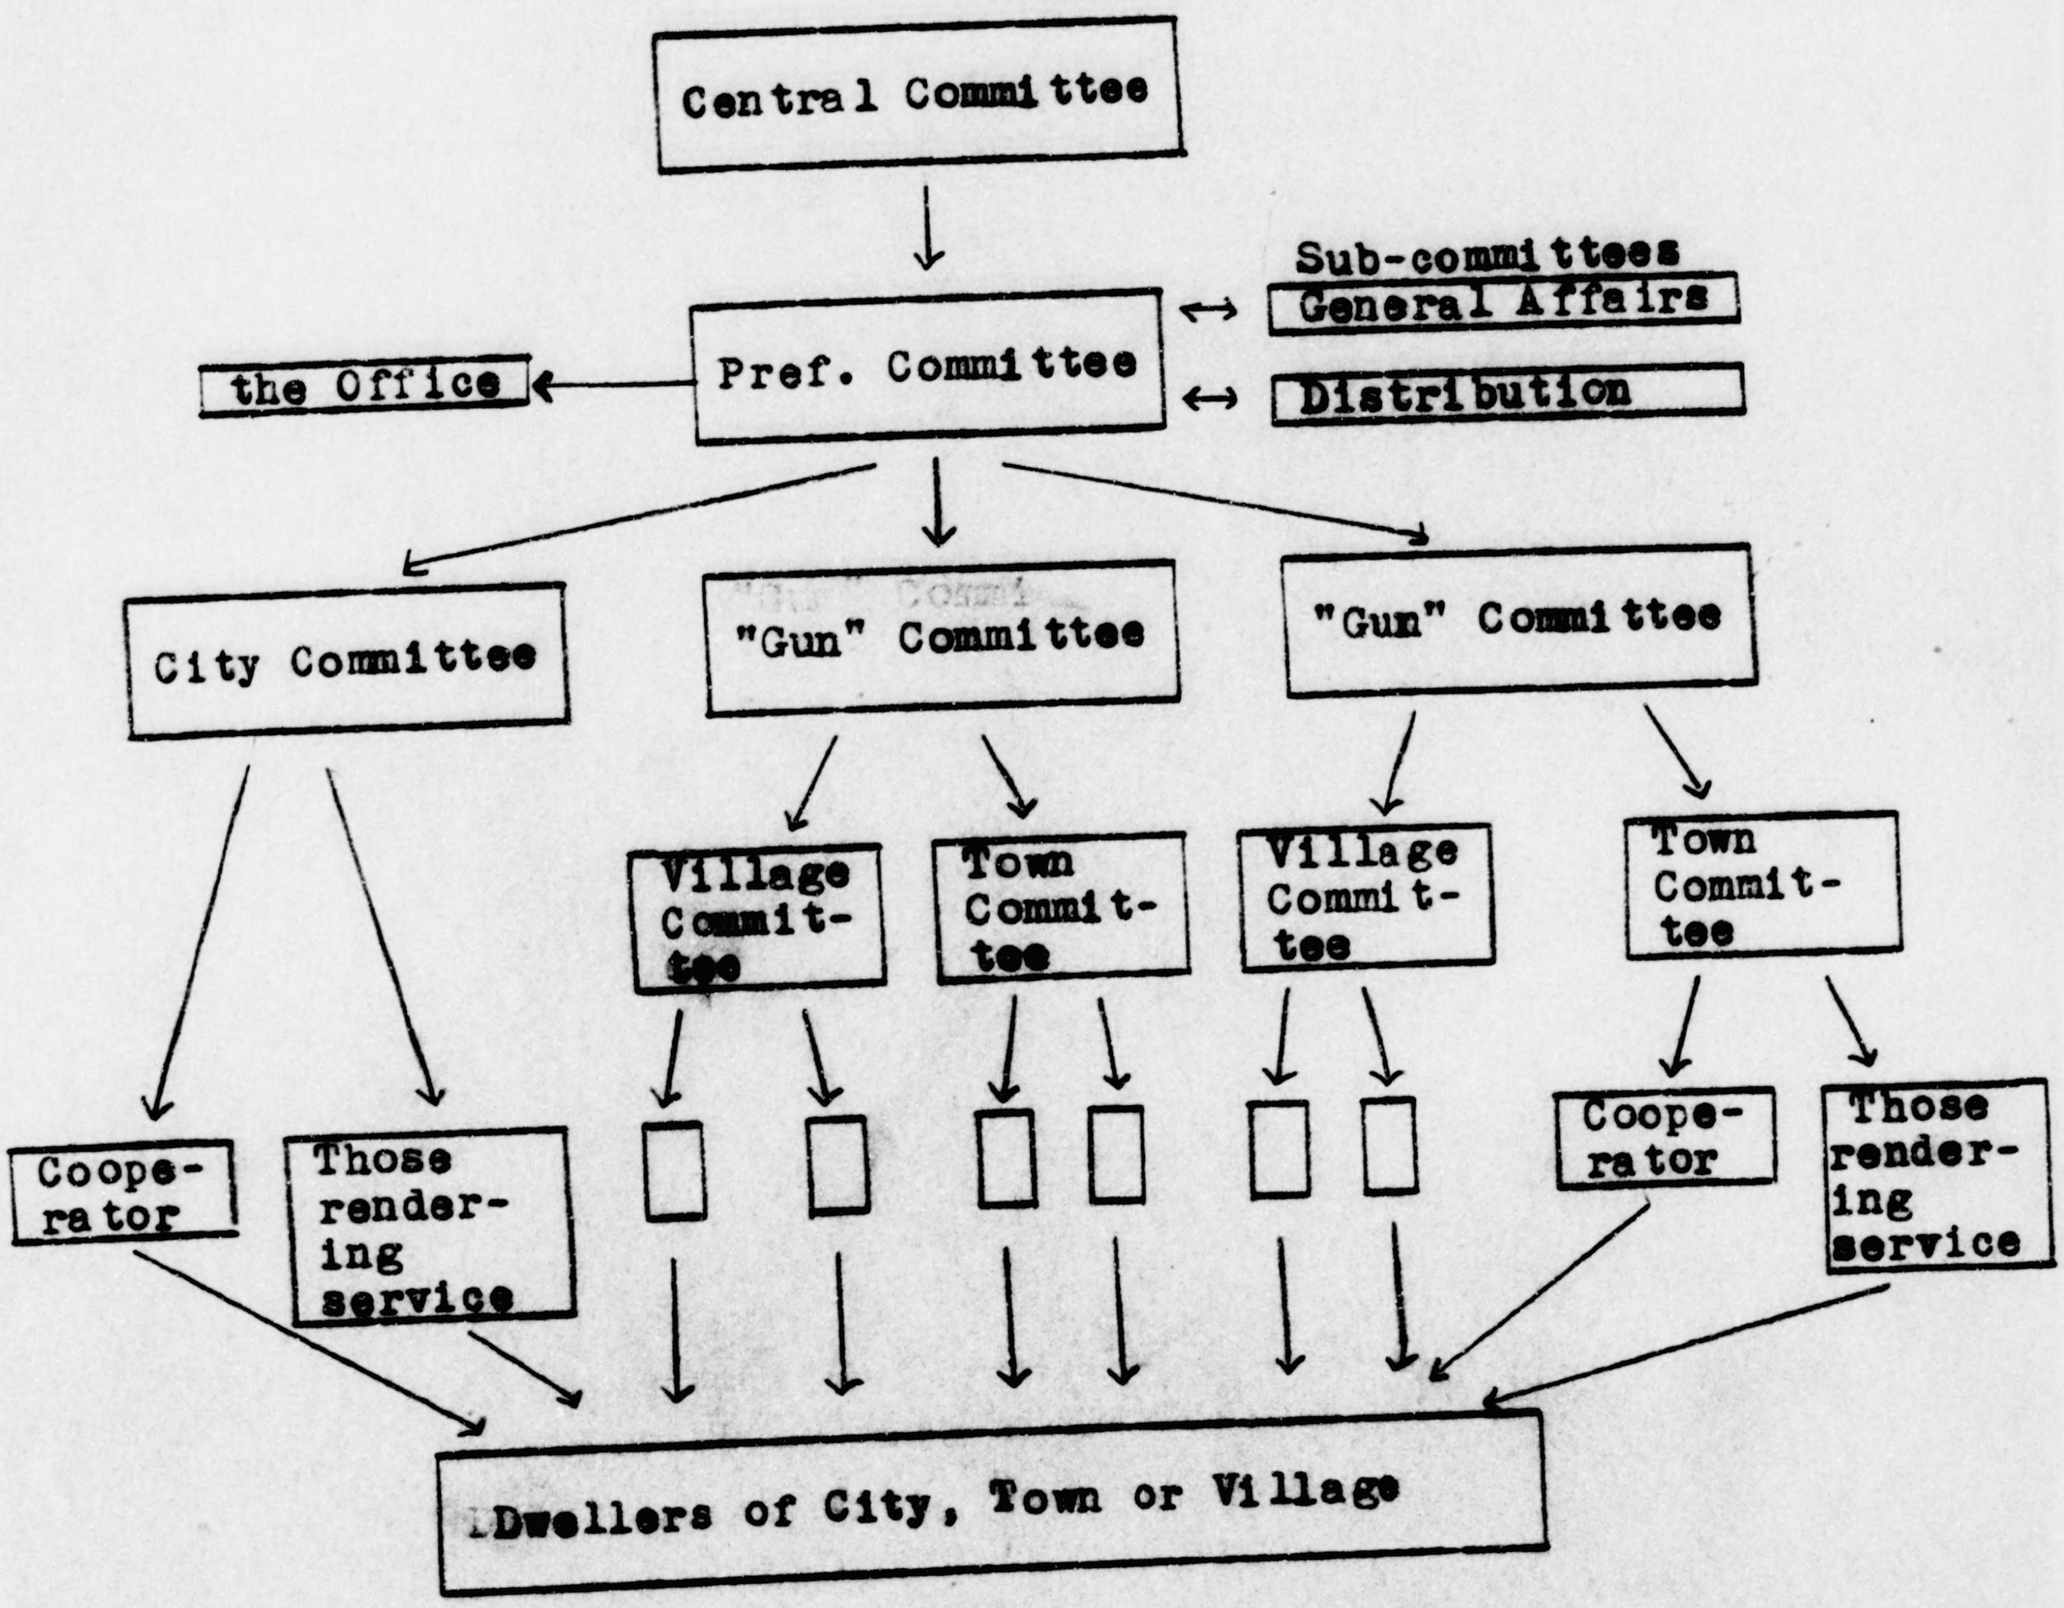
Under the Pref. Committee, "Gun" or city community chest committee is established as intermedium organ, and under "Gun" or city committee town or village community chest committee is established as terminal organ. They are being developed as democratic executive organ.

The structures of "Gun" or city committee and town or village committee are same to the Pref. Committee.

These lower committees shall take charge of execution of the collection program in respective jurisdiction as assisting organ for the Pref. Committee and have the duty to transmit the public opinion of the jurisdiction to the Pref. Committee. But the authority to determine the target amount to be collected, to work out the distribution program, and to execute distribution shall be kept by the Pref. Committee only.

The matters planned or determined by the Pref. Committee are to be executed by town or village committee through "Gun" or city committee.

The following sketch shows the organization for the community chest campaign.



(2) Participation of Welfare Officer(MINSEI-IIN) in the Community Chest Campaign.

The Pref. Committee, "Gun" or city committee and town or village committee have 3 to 5 welfare officers as member who are participating in the community chest campaign (planning, collection of money, persuading for donation, etc.) as the learned and experienced in social works on individual basis.

(3) Participation of Officials of "Gun", city, town or village in the Community Chest Campaign.

As "Gun" or city committee and town or village committee have no full-time clerk for the community chest business, one or two officials in charge of social affairs of district office, city office, town or village office are appointed to take charge of the campaign business on individual basis in "Gun" or city committee and town or village committee respectively.

2. Expenditure of collection and its Precentage to Collected Amount and Specification of Expenditure.

The target amount to be collected of Tochigi Prefectute for 1949 fiscal year is ¥19,500,000. The expenditure to be needed for attaining the target is ¥2,116,338 in total, which is specified as follows.

(1) Pref. Committee ---------- ¥791,338 (See Annex. 1)

(2) "Gun" committee ---------- ¥350,000 for nine "Gun" (around 2% of the target amount of "Gun")

(3) City, town or village committee ----------¥975,000 for 5 cities, 37 towns and 130 villages(around 5% or the target amount)

The expenditures stated in (2) and (3) above are to be spent also for enlightening and propaganda.

Note: Out of the above expenditures, ¥772,938 for the Pref. Committee is paid from the money collected in 1948 fiscal year, and the rest is paid from 1949 fiscal year collection.

The percentage of the expenditures to the target amount is 10%.

II. Distribution.

1. (1) Ratio of the Pref. Committee and Japan Red Cross Tochigi Pref. Branch in Distribution.

The Pref. Committee ---------- 72.3%
Japan Red Cross Tochigi Pref. Branch ------ 27.7%

(2) Determination of Distribution Program.

a. The applications were submitted from the social works organizations (institutions), out of which the organizations to receive the distribution were selected in light of the basic policy of distribution. Based on the investigation of such organizations which was conducted by Survey & Distribution Sub-committee July to August last year, taking the economic situation into consideration, the target amount for 1949 fiscal year was decided at ¥19,500,000.

Note: The survey mentioned above is to see if the distributed money of the previous year had been spent in compliance with our instruction or conditions or the social work succeeded by spending the money, or to see if the newly applied organizations will contribute to development of social works.

Meantime, the target was attained also in 1949. In last December the investigation on the social works organizations was conducted again by Survey & Distribution Sub-committee to catch the actual situation thereafter. Based on the repeated investigation, the distribution was determined by the Pref. Committee.

b. Instance of denial of application.

No instance of denial. But three cases are now pending due to doubtfulness of their works.

c. Structure, names and occupations of the members of General Affairs & Collection Sub-committee and Survey & Distribution Sub-committee, and their activities.

The names and occupations of the members of the above two sub-committees are shown in Annex. 2.

(a) General Affairs & Collection Sub-committee has the duties of collection, planning, enlightening & propaganda, custody of collected money and accounting business. The sub-committee was engaged in enlightening and propaganda business and fostering public opinion, the members taking charge of each city and "Gun", for the period of collection campaign.

(b) The Survey & Distribution Sub-committee was engaged in auditing to see if the distributed money was spent efficiently or if the amount applied is adequate and proper to promote the social works.

d. Method of payment of distribution money.

The money is, as a principle, paid one-time or two times in the light of the result of inspection.

The distribution of the money of 1949 fiscal year is to be done as follows. The working expenses of the organizations for 1949 fiscal year are paid on 10 January in whole amount or half, and those for 1950 are paid two or three times after inspection.

2. (1) Name and kind of organization to receive the money and the amount of the money to be distributed.

See Annex. 3.

(2) Area and responsible person and the amount of money to be returned.

a. Responsible person of "Gun" or city committee, etc.

See Annex. 4.

b. The amount exceeded over the target amount and 2% of the target amount are to be returned to "Gun" committee. The former is used as the fund for social works and the latter for the campaign.

City, town or village committee receives 5% of the target amount for the social works fund and 5% of the target amount for the campaign fund.

(3) Welfare officer's jurisdictional area and the amount of money to be collected by him.

Welfare officer has no jurisdictional area and responsible amount in the community chest campaign.

III. Analysis of execution of the campaign and recommendations for improvement of the campaign for 1950 fiscal year.

The campaign of 1949 fiscal year succeeded by dint of the profound understanding of the prefectural people for this campaign. But we would like to lay the stress on the following points this year.

1. Enlightening and propaganda.

(1) A practical guidance regarding social works shall be given to students and pupils as a subject of the social affairs course to convey the purport of this campaign to the people through them.

(2) Women's association and youngmen's association shall render more cooperation in this field.

a. The members of women's association and youngmen's association shall inspect the social works institutions to have the idea of sympathy.

b. The purport of this campaign shall be explained in all kinds of meetings of such associations.

(3) The community chest campaign shall be extended as a yearly work through the will of individual person.

(4) The result of collection shall be announced by "Community Chest Tower" in each "Gun" or city committee area.

2. Strengthening of auditing.

More strict auditing shall be required systematically and substantially to see if the money is spent to meet the general will of the prefectural people and if the money serves for development of social works, because the money collected is from the purse of the prefectural people through their good will.

Annex. 1

Budget of Tochigi Pref. Community Chest Committee for 1949 fiscal year

Annual Revenue

Item	Amount	Description
Money distributed	791,338	672,938 YEN from the money collected in 1948 fiscal year. 118,400 YEN from the money collected in 1949 fiscal year.
