1. This Division has been assigned the responsibility for the maintenance of security of the NYK Building. To accomplish this, a Security Officer roster is maintained which includes all company grade officers assigned G-2 agencies with offices in the NYK Building.
2. Briefly, the duties of the Security Officer involve an inspection requiring 1½ to 2 hours after normal duty hours Monday through Saturday of all offices within the NYK Building. Detailed instructions, assignment of tours and maintenance of the Security Officer roster is accomplished by ATIS.
3. It is believed appropriate that addressee sections assume their share of the responsibility for the security of this building.
4. Accordingly, it is requested that addressee sections furnish this Division the names of their company grade officers for inclusion on the Security Officer roster.
