THE ACORN AND PUMPKIN.

Me thinks the world is odily made, And every thing amiss, A dull, complaining Athrist said, As stretched he lay beneath the shade Of a grand old acorn-tree.

THE SONGS OF OLD.

The songs of old! How deep a spell Lies in the old familiar words, Once sung by those we loved so well, In other days, in happier years!

TIMBER, STUMPAGE, ETC.

The great leading interest and industry of Puget Sound is the production and export of lumber and spars. Whatever may be the cause, an imaginary panic has at once seized the logging camps, and thousands of men deservingly every aid of Government are thrown out of employ by consequence.

a cumulative act was passed, in which the words "live oak, or red cedar tree, or trees, or OTHER TIMBER" is used, and the act made to apply to not only to reservations but to all public lands of the United States.

The system of "stumpage" has been acquired in by the lumber maker very practically, as a burden they would cordially bear toward sustaining the Government, but when two dollars and fifty cents a tree, instead of the fifteen cents per thousand, here offered, it becomes a prohibition to their enterprise.

On Monday, the 4th inst., the day prescribed by law, the Legislature of this Territory assembled at the Capital, at 10 o'clock a. m., and both branches elected temporary officers, preparatory to a permanent organization.

Legislative Proceedings.

Thirteenth Session.

Monday, Dec. 4, 1865.

On Monday, the 4th inst., the day prescribed by law, the Legislature of this Territory assembled at the Capital, at 10 o'clock a. m., and both branches elected temporary officers, preparatory to a permanent organization.

Tuesday, Dec. 5.

Council met pursuant to adjournment. Committee on Credentials reported the following gentlemen entitled to seats in the Council: Messrs. Frank Clark, Anderson Cox, John Deany, E. C. Ferguson, S. S. Ford, H. K. Hines, Levi Farinworth, and J. J. H. Van Bokkelen.

HOUSE.

House met pursuant to adjournment. Committee on Credentials reported the following gentlemen entitled to seats: Messrs. Andrews, Briggs, Bugby, Clark, Clymer, Doan, Dray, Downey, Ford, Grenier, Hathaway, Lloyd, Lee, Miller of Kitsap, Miller of Thurston, Morgan, McCaw, McLane, McAniff, Mix, Ruddle, Rowe, Sexton, Smith, Tripp, Urquhart, Vansickle, Weeks and Ritzledge.

WEDNESDAY, DEC. 6.

Council met pursuant to adjournment. On motion, the Council proceeded to effect a permanent organization by the election of the following officers: President, H. K. Hines; Chief Clerk, N. S. Porter; Assistant Clerk, U. A. White; Secretary, John V. Yantis; Door-keeper, J. D. Mable.

FRIDAY, DEC. 8.

Council met pursuant to adjournment. President in the chair. On motion, the Rules and Orders of last session were adopted for the government of the Council.

THEY ALL WILL DO SO.

A young man, the son of a well-to-do farmer, had the misfortune to become deeply enamored of a young lady, and after a brief courtship, proposed and was accepted. But what was his surprise, when one evening as he was entering the parlor with the unceremonious freedom of a young lover, at discovering his young innamorata upon the sofa, her arms around the neck of a neighboring youth, and her lips in such blissful proximity to his as to convince our hero that matters were fearfully in earnest.

SCENE IN A NOTARY'S OFFICE.

Notary—(to fruit vender with basket of peaches)—Buy, what have you got in that basket?

Buy—Peaches, sir, the best kind.

Notary—You will swear to that?

Buy—Yes, sir.

Notary—All right, hold up your hand. "Peaches, the best kind, to the best of your knowledge and belief, so help you, etc., etc. I charge you fifty cents for swearing, and will take it out in peaches.

A SMALL ITEM.—Three thousand, one hundred and eighty-one persons lost their lives, and nine hundred and thirty-five others suffered bodily injuries, by accidents upon U. S. railroads, or steamboats, or by explosion of powder magazines, or the fall of buildings, in America, during the period between the close of the war, and the 31st of October—just five months.

L. P. FISHER, is the authorized agent for the Gazette at San Francisco, California.

M. W. WAITE, is agent for the GAZETTE at Victoria, V. I.

THE COLUMBIA RIVER vs. ROADS.

For some time past the people of Oregon, and especially the inhabitants of the immaculate city of Portland, have been considerably exercised about a wagon road from the Sacramento valley to the Boise gold region.

It is not our purpose or desire to undervalue the claims of the "emporium" of Oregon to anything which rightfully belongs to her, notwithstanding she persistently ignores the very existence of Puget Sound, and the possibility of opening any sort of communication with the adjoining country east of the Cascades.

It is asserted that the route of the Columbia river is shorter and better than the gold regions west of the mountains, than the Columbia river, and that even a wagon road on some of the mountain passes, would be a more successful competitor with navigable rivers.

Attention is called to the advertisement of the Advertiser, in another column. Mr. Kellogg will start for California the first week in January, and his outstanding accounts must be collected as soon as notice given.

Winter. For the past two weeks the weather has been exceedingly cold, and for the past few days we have been visited by a fall of snow.

IDAHO ITEMS.

Two years ago the superficial seekers of chance fortunes began to leave us, thinking the accidents which were to make them rich had all occurred, while the staid, sober pillars, the foundation of civilization, the edifices upon which rest moral, political and financial prosperity, have remained, and are giving substantial support to the future well-being of our young Territory.

Large quantities of Chinamen are crowding into Boise Basin of late. Nearly every day they are spilled out of wagons like so much general merchandise.

With all our drawbacks there are to-day, November 7th, 1865, seventeen hundred and twenty-three men at work in the deep placers of Moore and Elk creeks, within the radius of eight miles.

A growing confidence in the mineral resources of the Basin is quietly springing up in the minds of those who aim to prosper by honest industry, and the evidence of their wisdom is made apparent to any one who takes the matter into consideration.

The drones and thieves, the vagabonds and highwaymen, have most all left the country. There are a very few left. They sneak around with a slow, shuffling tread, a green eye and a visage that warns all to beware of them.

Grimes creek is well filled with men for eight or nine miles in length, and no doubt they are all making money.

AN AMERICAN EXILE.—Not long since an elderly man, bent almost double with age and work, and in garments tattered and torn, while passing through Rome, N. Y., stopped at one of the stores and asked for bread and money.

His home was in Saratoga, New York, and he chanced to be in Canada at the time of the rebellion in that country, 1837. He was charged with being engaged in that outbreak, was tried and convicted for being in complicity with the Patriots, and sentenced to Van Dieman's Land for life.

He says he was not guilty, but that the feeling was so strong against the Yankees, at the time of his trial, it required but the slightest evidence to convict. He was then twenty-one or twenty-two years of age; he was taken to the penal colony, and there subjected to the severest drudgery and most inhuman treatment; he, with other convicts, was compelled to draw the plow and cart like oxen, and to labor early and late, and treated not much better, if any, than dumb beasts.

DESTRUCTION OF SOUTHERN RECORDS.—A correspondent of the Charleston Courier, writing from Sumter, says: "The late struggle has unquestionably entailed upon us and our posterity a long train of evils. We are upon the threshold of a final experience which will be protracted in coming years.

THE VANCOUVER LEGISLATOR says that five specimens of silver-bearing quartz have been exhibited in Vancouver, purporting to have been found somewhere between the Dalles and Mount Hood. Silver can be seen in the rock with the aid of a microscope.

Tax direct tax of Mississippi due the United States, at the time the late Convention was held to restore the State to the Union, amounted to \$418,084 38. This sum the State declared it was too poor to pay at once.

Mumford Laws, of Thurston county, aged seventeen years, was accidentally shot, on the 80th ult., in Clark county, W. T., and died soon after at the house of D. R. Fales, Esq.

Miscellaneous Items.

The Salt Lake Union Vidette relates that Brigham Young, on hearing that Waldron, an actor, sought the hand of Miss Alexander, a young actress who is under the "President's" guardianship, put in his veto, and said: "Mr. Waldron is a gentleman and a good actor; he can play Richelieu, Richard 'three Ps'; Romeo, and what not finely; but (by this time Brigham brought his best sarcastic elocution into use) he can't play Alexander!"

At the opera the other evening, one gentleman pointed out a dandified-looking individual to his friend as a sculptor. "What?" said the friend, "such a looking chap as that a sculptor? Surely you must be mistaken."

Harriet Martineau, now in her sixty-fourth year, still continues one of the most active and able writers in the metropolis. She has just sent to press the last volume of her "History of England during the Great Peace."

It has been suggested that Parliament should vote the sum of £30,000 to ascertain whether coal is to be found in the neighborhood of London. Many geologists, it seems, believe that the Belgian coal field extends along under all the Southern counties of England.

A little girl, after returning from church, where she saw a collection taken up for the first time, related what took place, and among other things she said, with all her childish innocence, that "a man passed round a plate that had some money on it, but I didn't take any."

The project for laying a submarine cable between Sweden and Finland, has been definitely decided on. The cable is intended to pass from Grislehamn to Nystedt, touching at the Aland Islands.

Col. C. S. Lovell, of the 14th U. S. Infantry, has taken command of this Department, with headquarters at Vancouver. Capt. Hodges relieves Capt. Weeks, as Department Quartermaster.

The first National Bank organized on this coast—at Austin, Nevada—appears to have started out with a lively business. Its receipts of silver bullion on the day it opened, amounted to 24,000 ounces.

Miss Harris, who shot her lover recently in the Treasury Department, is now residing in Richmond, following the occupation of a milliner, and has, apparently, quite recovered from her insanity.

Portland has subscribed \$3,420 to open a road to Montana, from the Columbia river. Six thousand dollars, it is thought, will do the work, and efforts to secure the amount are being made.

An old Yorkshirer being informed by a betting acquaintance that "his friend the Captain" would obligingly hold the stakes, the canny Northerner replied, "Ay, ay, that's all very well, but who'd bauld the t' Captain?"

A young lady who had been severely interrogated at a court, by an ill-tempered counsel, observed, on leaving the witness box, that she never before fully understood what was meant by cross examination.

An impatient boy, waiting for the grist, said to the miller: "I could eat the meal as fast as the mill grinds it." How long could you do so? "Till I starved to death," was the sarcastic reply.

A Cleveland paper says that a young girl of that city would have been killed the other day if a gentleman had not caught her in his arms. That's the way some young fellows have tried to save a good many girls.

The Cleveland Herald says that President Johnson's plan throws to the rebel States a rope with which they can make their choice—up to the Union or hang themselves.

The farmer, when liberty has been subverted, is ever the last man that is subdued, the last that corruption reaches, the last to become a slave.

If this world were our abiding place, we might complain that it makes our bed so hard; but it is only our night quarters on a journey, and who can expect home comforts.

A romantic young man says that a young woman's heart is like the moon—changes continually, but always has a man in it.

Unrighteous gain has destroyed millions; but has never made one man permanently prosperous and happy.

Longfellow is said to be writing a story in verse, the incidents of which are drawn from the civil war.

Two hard things: First, to talk of yourself without being vain; second, to talk of others without slandering.

The Agriculturist estimates the wool clip of 1865, in Oregon, at 600,000 pounds, worth \$140,000.

A Post-office has been established in Clark county, Washington Territory, at Union Ridge. Am Richardson has been appointed postmaster.

Pack trains continue to leave Lewiston for the Blackfoot country. They charge fifty cents per pound for freight to Helena.

Gen. Cass still lives, in good health, on Jefferson street, in Detroit, at the age of eighty-four years.

There has been a severe earthquake recently at Catania, Sicily, by which sixty-four houses were destroyed, but no lives lost.

LATEST NEWS.

Dates to Dec. 2.

Eastern News.

Richmond, Nov. 27.—Gen. Grant freely expressed his opinion in regard to Mexican affairs. He said emphatically that the advent of Maximilian to the pretended throne of Mexico was a part of the rebellion, and that his immediate expulsion should be a part of it.

The Tribune's special dispatch has information to the effect that the relations of our Government with France and England are entirely satisfactory. There is no probability of a serious disturbance.

The Spanish Minister to-day placed before the Secretary of State, under instructions from his Government, a dispatch concerning the slave trade, which was replete with most emphatic expressions expressing opposition to the outrages of the traffic, and pledging the most earnest efforts of the Spanish Government for its suppression.

Investigations show that electotypes of a compound interest note were obtained before it came into possession of the Treasury.

Washington, Dec. 1.—The Philadelphia Standard publishes the following telegram: Washington, Nov. 27.—To Hon. W. W. Holden, Provisional Governor of North Carolina: Accept my thanks for the noble and efficient manner in which you have discharged your duty as Provisional Governor.

President Johnson's letter to Gov. Holden disappoints those who had hoped he would insist on the admission of the Southern members of Congress, as it shows that he will insist on a compliance with a trial of his policy. The Republican members of Congress here, show in their conversation, that they believe the President has undergone a decided change in his feelings towards the South.

(Signed) ANDREW JOHNSON, President.

New York, Dec. 1.—Gallét and R. Scott, two members of the Canadian Government, whose arrival has already been announced, are going to assume reciprocal duties and ratify the abrogation of reciprocity, treated upon in March last. Gallét is one of the leading members of the Canadian Government. He probably speaks from authority, and whatever he and his colleagues agree on will be acknowledged and recognized by the Government which they represent.

Havana, Nov. 23.—Robert Toombs has escaped from the Tortugas and sailed for Europe.

It is asserted that Gen. Butler has prepared a statement showing how Davis can be tried by a military tribunal.

Copenhagen, Denmark, Nov. 19.—The King of Denmark has given Messrs. Jacksall & Co. a concession for laying a telegraph between England and Norway and North America.

Boston, Nov. 28.—One thousand five hundred workmen out of three thousand three hundred new employed in the navy yard will be discharged on Saturday.

New York, Nov. 28.—The church which was being built for a Methodist congregation at the corner of Union Avenue and Noble street, was blown down last night at about 12 o'clock.

New York, Nov. 28.—The Commercial's Washington dispatch says, there is good reason for believing that Secretary McCulloch recommends the steady funding of the debt with the regular withdrawal of greenbacks, which must cause a contraction of National Bank circulation.

Washington, Dec. 1.—The Chronicle announces authoritatively that Gen. Grant will not go farther south than Charleston during his present trip.

New York, Nov. 30.—No opposition has as yet been manifested towards Colfax for the Speakership, but a little towards McPherson.

Washington, Dec. 1.—Official information received here, represents that there will be great suffering in Alabama during the present winter, owing to the small amount of corn and other grain in the State. It is estimated that there will be no less than 10,000 people, black and white, who must be furnished with food till they raise it for themselves.

Montgomery, Ala., Nov. 29.—The two houses of the legislature met in convention yesterday and elected Houston and Parsons U. S. Senators.

Washington, Nov. 30.—The President has issued a proclamation, dated Dec. 1st, restoring the writ of habeas corpus in all the States and Territories except Virginia, Kentucky, Tennessee, North Carolina, Georgia, Florida, Louisiana, Mississippi, Arkansas, Texas, District of Columbia, Territory of New Mexico, and Arizona.

TERRIBLE ACCIDENT.

A few days since, Dr. Lenzweber, who has been engaged for many months past as chemist to the Pacific Match Factory, was compounding a preparation, of phosphorus and sulphide of carbon, used in the factory, when some extraordinary cause, while in the act of pouring from one vessel into another, it spontaneously ignited, covering the unfortunate gentleman's hands with the terrible liquid. Assistance being promptly at hand, the fire in the vessel was stifled by covering it up with a blanket. The proportion of the liquid that fell on the doctor's hands could not be completely subdued, but kept burning into his flesh in a horrible manner, till he procured some water with which to bathe them, and bandaging them with cloths saturated with water, he started in a carriage for his residence in another part of the city. During his progress the phosphorus set the bandage on fire three times, and for three days after, notwithstanding everything was done to destroy the phosphorus, there was so much of it in the flesh that he could read a paper in a dark room by holding it close to his burning hands! The doctor who is one of the most experienced and scientific chemists on this coast, has made "lots" of the same compound before without any accident. He attributes the extraordinary combustion, and the terrible accident to the peculiar electric state of the atmosphere which may have been created by the earthquake. The injury to the Doctor has been such as to confine him to his bed ever since, but his friends are sanguine that he will be about again in a few days, with no further damage than some very bad sores on his hands.—S. F. Flag.

THE OLD SHIP FOUND AT CAPE COD.—The remains of an old ship, supposed to be identical with one described by Governor Bradford, which was wrecked "before a small blind harbor that lies about the middle of Massachusetts Bay, to the south of Cape Cod," in the beginning of the winter of 1622-23, is on exhibition on Boston Common, and is attracting considerable attention. Capt. H. B. Forbes writes concerning it as follows: "I had a sort of stripped-pig feeling about it; but on a careful inspection of the ancient remains, I am convinced that the wreck certainly dates beyond the recollection of the oldest inhabitant. It is a great curiosity—a relic which ought never to leave Boston without there are any descendants of the Pilgrim Fathers remaining. I met one of them in the tent—he evidently came on the sly—but he went out a wiser and a better man."

THE PRESIDENT'S SON-IN-LAW.—An erroneous statement is going the rounds of the Press, to the effect that Mr. Johnson's son-in-law, D. T. Patterson, who was elected to reorganize Tennessee; is, in consequence of the oath to support the Southern Confederacy. This is an error. Mr. Patterson never faltered in his loyalty. After the war broke out, he was bitterly persecuted by the secessionists, was arrested, thrust into prison, threatened with hanging and insulted and maltreated in various ways. Being in feeble condition of health, and fearing that such discipline would speedily put an end to his existence, he consented to take an oath to support the Confederacy. Upon this he was released, and immediately proceeded North, publicly repudiated his oath because taken under duress, and never doing a single act in support of the rebellion.

LOYAL BAPTISTS.—The loyal Baptist preachers of Missouri held a Late Convention at Hannibal, recently, and gave the heartiest support to the Government, with correspondingly hearty knocks at the rebels. The President read a letter from Rev. L. J. Latom, of Hermitage, Missouri, the region of the greatest guerrilla warfare. Accompanying this was a copy of the minutes of a new association in that locality called "Freedom." Its Constitution provides that churches exercising adherence "must first make reconciliation at home by declaring non-fellowship with rebellion. The President said: "This was a topic of conversation from a source least expected. There might be something in a name." The Freedom Association was made a member of the Convention at once.

A MISTAKE.—An amusing little episode recently occurred in a railroad car in England. Shortly after the train had left the depot, an old lady jumped up and addressed a gentleman with "How dare you? What are you at?"

The astonished gentleman replied he had done nothing. The lady again seated herself, but in a few moments arose full of rage and terror, and declared her neighbor a "villain," and on arriving at the next station, was about to have him arrested, when, luckily, the cause of the agitation was discovered, in the shape of a goose, which, placed in a basket under the seat occupied by the lady, had, during the voyage, amused itself by picking at her "understandings." The discovery of the criminal created great laughter among the passengers.

THE FINAL CONFLAGRATION.—Is it not remarkable that the predicted burning of the world, and the circumstances attending it, as foretold in Scripture, are both natural, and have a strict coincidence with scientific probability. It is computed by French astronomers that more than fifteen hundred fixed stars have disappeared within the last three centuries. La Place says that one of these stars, situated in the Northern hemisphere, gave the most indisputable evidence of having been consumed. It was so bright as to be visible to the naked eye at mid-day—first of a dazzling white, then of reddish yellow, and lastly of an ash pale color. The conflagration lasted, and was visible, sixteen months, when the star forever disappeared.

Legislative Proceedings.

Thirteenth Session.

Saturday, Dec. 9.

H B No. 2—An act conferring certain powers on the City of Walla Walla—passed both houses and submitted to the Governor.

Monday, Dec. 11, 1865.

HOLLOWAYS PILLS.

HOLLOWAY'S OINTMENT

THE EFFECT OF THE OINTMENT ON THE SYSTEM.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hand as salt disappears when rubbed upon meat. The ointment performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abscesses, cancers, old wounds, and in fact every species of inflammation or suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course and permanently cured without danger, by rubbing in this inestimable Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.
In many Hospitals it is Europe this celebrated remedy is now used for the cure of old wounds, sores and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all kinds of sores. It is to be found in the chest of nearly every sailor, soldier and emigrant.

PILES, FISTULAS, STRUCTURES.
The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient to merely smear the Ointment on the affected parts, but it should be rubbed in for some considerable time, two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though it were judiciously to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general leucorrhoea.

IMPURENENCIES OF YOUTH - SORES AND ULCERS.
Rheumatism, as also swellings, can with certainty be radically cured if the treatment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to insure a lasting cure.

DIPHTHERIA, BRONCHITIS, SORE THROATS, COUGHS AND COLDS.
Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest and neck of the patient. The ointment will soon penetrate the pores and remove the inflammation. To allay the fever and prevent inflammation, either tea or coffee should be taken night and morning. The Ointment will produce perspiration, which is essential for removing fevers, sore throats, and three suppurations of the chest which arise from Asthma, Phrenitis, and other causes.

BOTH THE OINTMENT AND PILLS SHOULD BE USED IN THE FOLLOWING CASES:
Bad Legs, Corns, (Soft) Rheumatism, Bad Breasts, Cancers, Scalds, Burns, Contracted and Sore Throats, Sore Joints, Sore Nipples, Bite of Mosquito, Elephantiasis, Skin Disease, Lice and Sand Fleas, Scabies, Sore Heads, Piles, Gout, Sore Throats, Chancery, Glandular Swellings, Tumors, Chloroform, Ulcers, Wounds, Chapped Hands, Piles, Yaws.

Sold at the establishment of PROGRESSIVE HOLLOWAY, 224 Strand, (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices: 1s., 1/4d., 2s., 3d., 4s., 6d., 1s., 2s., and 3s.

There is a considerable saving by taking the larger size.

N. B. - Directions for the guidance of Patients in every disorder are affixed to each Pot. no43:6m

CONNOISEUR'S RETREAT.

SEATTLE, W. T.

MONET & HEDGECOCK, Proprietors.
